The following report was received from the Chief Engineer of the Topographical Bureau, and a copy was sent to the President of the Borough of Brooklyn:

JULY 11, 1898.

Col. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements on the 15th ultimo, referring for report the resolution of the Ninth District, Borough of Brooklyn, recommending that proceedings be initiated to open Scott avenue, between Metropolitan avenue and Johnson avenue, in the Borough of Brooklyn, I have to state that I have not found any record that the title to Scott avenue, between Metropolitan avenue and Johnson avenue, is vested in the City.

I have examined the location, and found that a part of the street near Johnson avenue is being filled in at the present time, and that from there to Metropolitan avenue the street will have to be constructed over swamps and a branch of the Newtown Creek. The petitioner, Leopold Michael, requests the Local Board to declare Scott avenue an open street, probably assuming that the Board has such power under the new Charter of the city; this is not the case, and since the proceedings for acquiring title involve certain assessments on the property, I recommend that the petitioner be advised of that fact, and that the Local Board of the Ninth District transmit the petition of Leopold Michael, or a copy of the same, to the Board of Public Improvements. In addition, I wish to say that Scott avenue is laid out from Metropolitan avenue to Flushing avenue, which is about 116 feet distant from Johnson avenue, and which part should be opened at the same time, initiating, therefore, proceedings for opening Scott avenue, from Metropolitan avenue to Flushing avenue.

There are no buildings on the land.

The papers in this matter are herein returned.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

The following report from the Chief Topographical Engineer on a general design of the street system for the territory east of the Bronx river, in the Borough of The Bronx, was received and read, and after consideration by the Board the following resolution was adopted, providing for a hearing on Wednesday, August 3, 1898:

PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,  
BOROUGH OF THE BRONX,  
July 13, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

SIR—I have the honor to respectfully submit, for the consideration and informal approval by the Board of Public Improvements, a plan, showing a general design for the proposed street system of that part of the Borough of The Bronx lying east of the Bronx river, accompanied with the following statement:

Chapter 10, title 2, section 433, of the Laws of 1897, makes it the duty of the Board of Public Improvements to prepare a map of so much of the territory embraced within The City of New York, of which a map or plan has not heretofore been finally established; and, under the provisions of this chapter, a general design or plan of the street system for the territory east of the Bronx river, in the Borough of The Bronx, has been prepared. This plan does not give dimensions and bearings and is only a tentative one, as it is not deemed expedient and judicious to spend time and labor on the same in establishing grades, devising a sewer system, computing the sizes of the blocks, etc., before knowing whether the ideas followed out on this plan will meet with the approval of the Board.

That portion of the Borough of The Bronx lying westerly of the Bronx river is completely laid out, and covers an area of 12,317 acres. By chapter 934 of the Laws of 1895, about 14,205 acres of part of the former Westchester County, adjacent to the former Twenty-third and Twenty-fourth Wards and lying easterly of the Bronx river, were added to the territory of The City of New York. The triangulation and the topographical survey were begun in 1896, and as soon as the same were far enough advanced to locate definitely the main villages and topographical features of the district, studies were begun for a preliminary design for a system of streets and avenues, parks and bridges, etc., as provided for by said section 433 of the chapter, the result of which is herewith submitted in plan.

Solicitations from property owners in that part of the Borough of The Bronx have been numerous and pressing for the advancement of the work of laying out streets and avenues and have been based upon the reasonable grounds that improvements cannot be safely made by them by building upon existing lines of streets and avenues while the uncertainty exists, as to whether such streets and avenues will be continued closed, or materially changed under a general plan when adopted; that new avenues, much needed for the public convenience, cannot be opened and brought into use; and that divisions and transfers of property cannot be made satisfactorily to buyer and seller while the plans remain in abeyance.

The method pursued in laying out that territory has been as follows:

1st. The section which will probably develop for commercial purposes.

2d. For manufacturing purposes.

3d. For residential purposes.

The commercial and manufacturing interests will probably follow the shore of the East river, the Bronx river and the Westchester creek, whilst the bulk of the area will probably be used for residential purposes, especially after facilities for rapid transit are extended.

It has been my aim (1st) to lay out the street system in accordance with the probable future and ultimate occupation and the distinctive character of its different sections; (2d) to connect the

outlying districts and provide for the readiest access to railroad stations, water-fronts and bridges by diagonal avenues, thus obtaining directness of lines; (3d) to create as many as possible open squares and places, where ample opportunity is given of placing of large and important buildings, where their architectural effects shall be enhanced and not smothered; (4th) to provide broad thoroughfares to the system of parks at the most eligible points; (5th) to lay out streets in such a manner that proper sewerage and drainage can be had; (6th) to have the direction of the avenues in the line of travel, which is from south to north; (7th) to have the blocks conform, as near as possible, to the standard size of lots in use in The City of New York; (8th) to make the gradients of avenues and streets so as not to be too heavy, and in accordance with the general topography.

All these general considerations have been regarded in the final arrangement of the layout, and all individual interest was subordinated to the general interest, as it is deemed of the greatest importance to the future of this region, that the plans made now should present a comprehensive system of laying-out, adapted to the needs of the district in the remote future, as well as at the present time.

The full development of these principles has been blocked somewhat by previously laid out villages and by the subdivisions of farms into city lots, but where the plan could consistently be made in conformity with existing conditions, due regard was given, as in the cases of Westchester, Unionport, Williamsbridge and Wakefield.

The sewerage and drainage of that part of the borough east of the Bronx river is a more difficult problem than that of the territory west of the Bronx river. Along the Bronx river, East river and Long Island Sound is a vast area of low, flat lands, swamp and salt meadows, traversed by a large number of creeks, winding in devious courses to tidewater. It is the intention of this Bureau, in the preparation of the sewer and drainage plans, not to discharge the sewers into the Bronx river, Westchester creek and other streams, but to treat all the territory in the same way, as was done west of the Bronx river, namely, to build intercepting sewers to tidewater. Such outlet sewers will naturally be very large, and of great length, and very expensive, since they may be constructed through swamp lands.

The street plan is designed with this view, and all the streets where the large trunk sewers are to be built reach tidewater at such places where the current of the tide is the swiftest. It is improbable that these large sewers can be constructed at once, and, in order to give temporary relief, certain portions of the Westchester creek and Hutchinson creek, which have depth and current enough to carry the sewerage to the Sound, may be designated as temporary outlets, as provided for by the Charter.

The total area of the territory, including the areas of rivers, islands and surface under water between islands, is about 14,205 acres. The land to be drained is necessarily smaller, and parts of Pelham Bay Park, where only surface drainage is needed, are not included in the following seven (7) water-sheds into which the territory is divided:

1st. Bronx River Water-shed.

2d. Barrett's Creek Water-shed.

3d. Westchester Creek Water-shed.

4th. Baxter Creek Water-shed.

5th. Long Island Sound Water-shed.

6th. Hutchinson Creek Water-shed.

7th. City Island Water-shed.

It is of the utmost importance that the Board of Public Improvements come to a definite conclusion as soon as possible, about the street system, so as to enable the Topographical Bureau to complete the technical and detail work on the plans, and devising a sewer system, and thereby hastening the construction and widening of important and needed thoroughfares at the earliest date.

I recommend, therefore, that a public hearing be given by this Board, on the Map or Plan showing a general design for a system of streets, avenues, parks and bridges for that part of the Borough of The Bronx bounded on the west by the Bronx river, on the south by the East river, on the east by Long Island Sound and on the north by the boundary line of The City of New York.

Respectfully,

LOUIS A. RISSE,

Chief Topographical Engineer and Engineer of Concourse.

Whereas, In pursuance of section 433, chapter 378, Laws of 1897, the President of this Board has prepared and submitted to this Board, for its concurrence and approval, a map or plan, showing a proposed general design for a system of streets, avenues, public squares and places, parks, bridges, etc., in that part of the Borough of The Bronx, excepting City Island, lying easterly of the Bronx river, and bounded on the west by the Bronx river, on the south by the East river, on the east by Long Island Sound, and on the north by the boundary line of The City of New York;

Resolved, That this Board will consider the said map or plan submitted to this Board, at a meeting of this Board to be held on Wednesday, August 3, 1898, at 2 o'clock P.M., at which meeting a public hearing will be given to all persons affected by such proposed general design of locating and laying out said portion of the Twenty-fourth Ward, in the Borough of The Bronx, City of New York.

Resolved, That notice of such meeting to be held by this Board, and of such public hearing, be published in the CITY RECORD, for ten days prior to the 3d day of August, 1898.

In the matter of contracts made by the former City of Brooklyn, where assessments have been collected but the work not yet begun, the following correspondence was read for the information of the Board:

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH,  
July 20, 1898.

Board of Public Improvements:

GENTLEMEN—On April 6, the Board of Public Improvements adopted the following resolution:

"Resolved, That the President of the Borough of Brooklyn be and he is hereby authorized to wait upon the Comptroller and inquire into all matters connected with the City of Brooklyn involving assessments paid for contemplated improvements, which improvements have never been made, and on his report the Corporation Counsel will be communicated with and his opinion asked as to the obligation upon the City to carry out these proposed improvements."

(See Minutes, page 225).

I wrote to the Comptroller on April 9, relating to the questions involved, and asking for the information desired by you, as expressed in your resolution. A copy of this letter is attached, marked "No. 1."

I wrote again to the Comptroller on June 14 (copy attached marked "No. 2"), and on July 12 (copy attached marked "No. 3"), and on July 18 I received a reply from the Comptroller, transmitting a report from his department (attached marked "No. 4").

As it appears from the Comptroller's report that contracts made prior to the first of January, but not certified by the Comptroller of the former City of Brooklyn, may now be certified by the Comptroller of The City of New York, and thus become valid obligations, I recommend that the Board of Public Improvements request the Comptroller to certify, as speedily as the condition of the Street Improvement Fund will permit, those contracts to which he refers in his report as being uncertified. Also that the proper department be now authorized to proceed to advertise for bids for the various improvements upon which, as appears from the annexed certificate of Comptroller, more than one-third of the assessment has been paid in.

Respectfully,

EDWARD M. GROUT, President of the Borough.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH,  
April 9, 1898.

Hon. BIRD S. COLER, Comptroller of The City of New York:

DEAR SIR—On March 30 the Board of Public Improvements received a communication concerning an assessment made in Brooklyn in December last for the grading and paving of Somers street, now a lien upon the property, as to which nothing has been done toward performing the work. A copy of the same is attached hereto and marked "No. 1."

On April 6 I called the attention of the Board of Public Improvements to the assessment laid on property on Park place, Brooklyn, in June last, for paving purposes, on account of which \$8,836.41 has been paid in by the property-owners, and a contract made for the paving, which however was not certified by the Comptroller. A copy of this communication is attached hereto and marked "No. 2."

Thereupon the Board of Public Improvements passed the following resolution:

"Resolved, That the President of the Borough of Brooklyn be and he is hereby authorized to wait upon the Comptroller and inquire into all matters connected with the City of Brooklyn involving assessments paid for contemplated improvements, which improvements have never been made, and on his report the Corporation Counsel will be communicated with and his opinion asked as to the obligation upon the City to carry out these proposed improvements."

In addition to the matters above referred to, I have learned of the following cases:

Grading and macadamizing Eighty-fourth street, between Fourth and Seventh avenues; contract price \$15,000, of which about \$6,500 has been paid in on assessment. Assessment confirmed and a lien on the property. Contract not certified.

Grading Butler street, between Troy and Schenectady avenue; contract price about \$1,800, of which \$1,000 has been paid in. Contract not certified. Frazer, the contractor, is said to have done about three hundred dollars worth of work on the job.

Grading Park place, between Troy and Schenectady avenues; contract price about \$1,100, of which one-third has been paid in. Contract not let.

Paving Sackman street, from Eastern parkway to Livonia avenue, with Belgian block. Assessment confirmed July 20, 1896. Part of assessment paid in. Contract not certified.

I presume there are many more.

The Board of Public Improvements desires to obtain from you information as to what amount was collected by the former financial officers of the City of Brooklyn for proposed improvements, which improvements have not been made or proceeded with, and whether or not such funds are now in the possession of The City of New York.

If your office records will furnish the information, the Board would also like information as to what assessments have been laid so as to become a lien upon property for improvements which have not been proceeded with.

Respectfully,  
(Signed) EDWARD M. GROUT,  
President of the Borough.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH,  
June 14, 1898.

Hon. BIRD S. COLER, Comptroller, City of New York:

DEAR SIR—On April 9, by direction of the Board of Public Improvements, I communicated with you concerning assessments in Brooklyn made prior to January 1 last, a copy of which letter is inclosed herein.

As the matter in question is of considerable moment to this borough, and as many more instances of assessments levied or paid here for improvements which have not been made or commenced, are constantly coming to my attention, I respectfully request that, if possible, you will give me the information asked for in my letter of April 9, so that the Board of Public Improvements may forthwith obtain the opinion of the Corporation Counsel on the question, in order that something may be done on such improvements.

Respectfully,  
(Signed) EDWARD M. GROUT, President of the Borough.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
OFFICE OF THE PRESIDENT OF THE BOROUGH,  
July 12, 1898.

Hon. BIRD S. COLER, Comptroller:

DEAR SIR—On April 9 I wrote you, at the request of the Board of Public Improvements, for information concerning improvements for which assessments had been levied. On June 14, I wrote you further on the same subject. Subsequently, a statement appeared in the public press, coming from your office, which substantially covered the object of my inquiries. Not having the information contained in your statement to the press in an official and formal shape to present to the Board of Public Improvements, I find difficulty in getting the matter properly before them. I would be very much obliged if, in answer to my letters of inquiry above referred to, you would send me a signed statement similar to that which appeared in the press on the subject.

Yours very truly,  
(Signed) EDWARD M. GROUT, President of the Borough.

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
July 16, 1898.

Hon. EDWARD M. GROUT, President of the Borough of Brooklyn:

DEAR SIR—In reply to your communication of the 12th instant I herewith inclose you a report which shows all the street improvements in Brooklyn, chargeable to the assessment fund, on which assessments were levied and no work done by the previous administration; also estimated cost of same and amount collected up to July 1, 1898; balance uncollected; percentage paid in; condition as to the contract and the character of the improvement.

I shall be pleased to give you any further information regarding this matter which you may desire.

Yours respectfully,  
BIRD S. COLER, Comptroller.

As indicated in a detailed report submitted to you under date of July 12, 1898, the former Common Council of Brooklyn was empowered by law to authorize the letting of contracts for these improvements when more than one-third had been paid in.

Pursuant to that authority the Common Council of Brooklyn, previous to December 31, 1897, authorized the letting of contracts for thirteen of these improvements, as follows:

Sixtieth street, between Third and Fourth avenues.  
Avenue C, Flatbush to Coney Island avenue.  
Utica avenue, Twenty-fourth, Twenty-ninth and Twenty-ninth and Thirty-second Wards.  
Orient avenue, Metropolitan avenue to Oliver street.  
Nostrand avenue, Butler to President street.

Richardson street, Kingsland avenue to Humboldt street.  
Butler street, Troy avenue to Schenectady avenue.  
St. Nicholas avenue, Hart street to Flushing avenue.  
Knickerbocker avenue, Palmetto street to Putnam avenue.  
Park place, Brooklyn avenue to Albany avenue.  
Butler street, Albany avenue to Troy avenue.  
Prospect place, Brooklyn avenue to Kingsland avenue.  
West Seventeenth street, Canal to Surf avenue.

Under the law the Comptroller of the City of Brooklyn was forbidden to certify to such contracts unless there was sufficient money in the assessment fund at the time to pay said contract.

The Comptroller of the former City of Brooklyn partly certify to contracts for the first six of the improvements indicated above. He did not, however, certify to the last seven.

In the case of Winthrop street no contract was let, but bids were received. The Corporation Counsel has held that this proceeding can be taken up and completed.

We would state that our investigations have led us to the conclusion that all contracts thus made and uncertified are void, and we believe that the contracts must be either entered into anew or must receive your certification before they are a valid obligation against The City of New York.

It would appear to us that all proceedings of the Common Council on these contracts are valid, and that it is a matter for yourself and the Board of Public Improvements to determine what action should be taken towards the completion of the same.

Those improvements which have paid in more than one-third of the assessment, and for which contracts were not entered into by the former City Works Department, would require your statement to the Board of Public Improvements that such one-third has been paid in before action can be taken by the said Board, and likewise your certification that funds are available in the assessment fund before the contract is valid.

Those improvements which have not paid in the necessary one-third of the assessment cannot be acted upon until such one-third is paid.

Respectfully,  
ROBT. H. WEEMS, Chairman.

Mr. GROUT presented for adoption the following resolutions:

Whereas, The Department of Finance has certified that one-third of the prospective cost and expense for grading, curbing and laying Belgian-block gutters three feet in width in Regent place, between Flatbush avenue and Ocean avenue, in the Borough of Brooklyn, has been collected; therefore

And thereupon the following resolution was adopted:

Resolved, That these six resolutions be referred to the Comptroller for advices from him as to whether or not he has funds available with which to satisfy the contracts if we enter into them.

The following communication was received from the Hon. Bird S. Coler:

DEPARTMENT OF FINANCE,  
July 15, 1898.

Hon. MAURICE F. HOLAHAN, President of the Board of Public Improvements:

DEAR SIR—In reply to your letter of June 24, I beg to say that I have just received from my Board of Expert Accountants a report on the Eighth Ward Improvement Fund, which statement shows that there is a balance of \$29,083.81 which is applicable to the purposes for which this fund was created.

Yours very truly,  
BIRD S. COLER, Comptroller.

And the following resolutions were presented in connection therewith:

Whereas, From the accompanying report of the Comptroller, there is an apparent balance of twenty-nine thousand eighty-three dollars and eighty-one cents to the credit of the Eighth Ward Improvement Fund, Borough of Brooklyn, and

Whereas, The Commissioner of Highways reports the necessity of paving certain streets in said Eighth Ward, now be it

Resolved, That the Commissioner of Highways be and is hereby authorized to enter into a contract by public letting for paving with trap block pavement the following streets in the Borough of Brooklyn, to be paid for from the fund known as the "Eighth Ward Improvement Fund."

Forty-fourth street, between Second and Third avenues.

Forty-sixth street, between Second and Third avenues.

Forty-seventh street, between Second and Third avenues.

Fifty-seventh street, between Second and Third avenues.

—estimated cost, eighteen thousand dollars; and be it further

Resolved, That authority be and is hereby given to the Commissioner of Highways to enter into a contract by public letting for macadamizing so much of Seventh avenue, from Thirty-ninth street to the old City line, at or near Sixtieth street, as may be paid for from the balance remaining of the above fund after paying for the before previously mentioned contract, also that the above resolution be forwarded to the Municipal Assembly for adoption.

Upon motion of the President of the Borough of Brooklyn, Fifty-seventh street, between First and Second avenues, was added to the list of streets to be paved; adopted. It was subsequently adopted that the Commissioner of Highways, be instructed to report what the estimated cost of paving the above mentioned streets with asphalt (with 5 years guarantee) in place of trap block, would be, and how much of Seventh avenue could be paved with the balance of the fund remaining.

The following report was received from the Chief Engineer of the Topographical Bureau and referred to the special committee appointed for the purpose of deciding the Marble Hill controversy:

BOARD OF PUBLIC IMPROVEMENTS—BOROUGH OF THE BRONX,  
June 18, 1898.

Col. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In accordance with the action taken by the Board of Public Improvements at the meeting held on the 6th instant, in which it was "Resolved, That the Chief Topographical Engineer of the Board of Public Improvements be directed to prepare, from actual survey, a map or plan and profile of the present surface condition of Van Corlear place, etc., and have the same ready for use by the committee at least twenty-four hours before the next meeting of this Board, in order that the committee may make its final report at said meeting, I report as follows:

The levels taken by the field party show the surface of Van Corlear place very steep and irregular. The north side being from two to three feet higher than the south side. The houses affected on the south side of Van Corlear place front on Kingsbridge avenue and the lowering of the grade on Van Corlear place, which could be done only very slightly, would not alter the fact that these lots are considerably higher on Van Corlear place than on Kingsbridge avenue.

It is, therefore, only necessary to consider the lots on the north side of Van Corlear place. The building of Mr. Overbaugh, as shown on the accompanying plan and water-color sketch, might be a guide for determining the grades. It will be sufficient to establish a grade which allows light vehicles to ascend from Kingsbridge avenue and let loaded teams come from the west side.

Van Corlear place is only a short street winding around the top of the hill and cannot be treated as if it were a main thoroughfare.

I return the map and papers in the matter, and transmit a map and profile showing the elevation of the surface with the proposed grades, also a water-color drawing and two photographs of Mr. Overbaugh's house.

Respectfully,  
LOUIS A. RISSE,  
Chief Topographical Engineer and Engineer of Concourse.

The following communication was received from John Z. Gott, Secretary, Flatbush Water Works Company, and referred to the Commissioner of Water Supply:

To the Honorable Board of Public Improvements of the City of New York:

The Flatbush Water Works Company desires to lay three hundred and fifty feet of six-inch water main on the easterly side of East Thirty-first street, in the Twenty-ninth Ward of the Borough of Brooklyn, from its present main on Newkirk avenue, northerly along said East Thirty-first street, for the purpose of supplying water to buildings on said East Thirty-first street.

That the said pipe will be laid entirely at the expense of said Water Company.

The accompanying diagram shows the location of said pipe.

The Flatbush Water Works Company therefore asks permission to open said East Thirty-first street for the purpose of laying said water main.

Dated July 20, 1898.

FLATBUSH WATER WORKS COMPANY,  
By JOHN Z. GOTT, Secretary.

The following communication was received from John Z. Gott, Attorney for Wood-Harmon Company, and referred to the Commissioner of Water Supply:

To the Honorable Board of Public Improvements of the City of New York:

The Wood-Harmon Company desire to lay seventeen hundred and fifty (1,750) feet of six-inch water main on Coney Island avenue, in the Thirty-first Ward of the Borough of Brooklyn, from Avenue H to Avenue J, for the purpose of supplying water to the property managed by them in said Thirty-first Ward of the Borough of Brooklyn.

That the said pipe will be laid entirely at the expense of said Wood-Harmon Company.

The accompanying diagram shows the location of said pipe.

The Wood-Harmon Company therefore asks permission to open said Coney Island avenue, between Avenues H and J, for the purpose of laying said main.

Dated July 20, 1898.

WOOD-HARMON COMPANY,  
By JOHN Z. GOTT, Attorney.

The following communication was received from the Commissioner of Highways, and the following resolution in connection with same, was adopted:

NEW YORK, July 19, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I beg to acknowledge receipt of your letter of June 24th, referring to two previous letters addressed by you to me in reference to the necessity of repaving Ninety-first street, from First to Second avenues.

After thoroughly investigating the matter, I find that it is necessary to repave that part of Ninety-second street, particularly as Grammar School No. 151 is located on that block, and the teachers are greatly disturbed in the discharge of their duties by the noise of traffic on the present stone pavement.

Pursuant to the provisions of section 524, subdivision 6, of the City Charter, I therefore recommend that the carriageway of Ninety-first street, from First to Second avenue, be repaved with asphalt, and that the contractor be required to furnish a guarantee of maintenance for (15) years.

The estimated cost of the improvement is \$6,000, chargeable to the appropriation for "Repaving Streets and Avenues."

In accordance with provisions of the first subdivision of section 230 of the Charter of The City of New York, I attach hereto my certificate to the Municipal Assembly that the safety, health, or convenience of the public requires that this improvement be made.

In conformity with section 417 of the Charter, I respectfully ask the Board of Public Improvements to approve and adopt the accompanying ordinance, and to transmit it with my certificate to the Municipal Assembly for action by that body.

Respectfully,  
JAMES P. KEATING, Commissioner of Highways.

Resolved, That the carriageway of Ninety-first street, from First to Second avenue, Borough of Manhattan, be repaved with asphalt, and that the contractor be required to furnish a guarantee of maintenance for fifteen (15) years, under the direction of the Commissioner of Highways.

Affirmative—Commissioners of Water Supply, Highways, Street Cleaning, Sewers, Bridges, Public Buildings, Lighting and Supplies, President of the Borough of Manhattan, President of the Board.

The following communication was received from the Commissioner of Highways:

DEPARTMENT OF HIGHWAYS,  
NEW YORK, July 19, 1898.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—With a letter, dated June 3, from your Secretary, I received, for investigation and report, a copy of a resolution adopted by the Local Board of the Sixteenth District, Borough of

Manhattan, recommending that the carriageway of West Twenty-sixth street, from the westerly crosswalk of Tenth avenue to the easterly crosswalk of Thirteenth avenue, be repaved with asphalt pavement upon the present pavement, and that the curb be reset and crosswalks laid at each terminating or intersecting street or avenue where not already done.

I have had an examination made of the pavement in Twenty-sixth street, between the avenues named, and find that it is in first-class condition, being granite, comparatively new. I therefore cannot recommend that an asphalt pavement be laid on that part of Twenty-sixth street at the present time.

Very respectfully,  
JAMES P. KEATING, Commissioner of Highways.

And a resolution was adopted refusing to repave with asphalt.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—Pursuant to the provisions of section 524, subdivision 6, of the City Charter, I hereby recommend that the width of the sidewalks on the south side of One Hundred and Twentieth street, between the Boulevard and Riverside Drive, be and the same is hereby established at twenty-five feet.

At present the width of the sidewalk on that side of One Hundred and Twentieth street, between the Boulevard and Riverside Drive, is twenty feet, while on the same side of the street, between the Boulevard and Amsterdam avenue, the width is twenty-five feet. It is therefore necessary to establish the width of the sidewalk between the Boulevard and Riverside Drive at twenty-five feet to make the width of the south side of the street between Amsterdam avenue and Riverside Drive uniform throughout.

In conformity with section 417 of the Charter, I respectfully ask the Board of Public Improvements to approve and adopt the accompanying ordinance, and to transmit it to the Municipal Assembly for action by that body.

Very respectfully,

## Report of the Engineer of Street Openings, Borough of Manhattan.

BOARD OF PUBLIC IMPROVEMENTS,  
NEW YORK, July 18, 1898. }*Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :*

SIR—In the matter of the width of sidewalks on One Hundred and Twentieth street, from Grand Boulevard to Riverside Drive. Communication from Commissioner of Highways, July 13, 1898.

One Hundred and Twentieth street was originally laid out (Act 1807) at a width of 60 feet only. Under the deed of land purchased by Columbia College, 1892, it was stipulated that the College was to cede 40 feet from the land purchased, to be added to the width of the street on the southerly side, so as to make it 100 feet wide from Amsterdam avenue to Grand Boulevard. An ordinance of the Common Council, dated April 17, 1895, made the width of the sidewalk 25 feet on the southerly side in front of the grounds of Columbia College, and to be regulated, graded, etc., at the cost and expense of the College.

By resolution of the Board of Street Opening and Improvement, October, 1896, One Hundred and Twentieth street was made a street 100 feet wide from Morningside avenue west to Riverside Drive, the sidewalks to be 20 feet wide on the north and south sides, with carriageway 60 feet wide. At this date it is regulated between Amsterdam avenue and Grand Boulevard, the sidewalk on the northerly side curbed and flagged at a width of 15 feet only, on the southerly side (Columbia College) 25 feet wide.

By the regular ordinance of the City, the sidewalks should be 20 feet wide on each side and the carriageway 60 feet, for 100 feet streets and avenues. Some uniformity should be adopted for the width of the sidewalks for this street. If this 25 feet width be approved of for the whole length of this street, it will reduce the carriageway to 50 feet; and as the widening and extension of this street intended it to be one of the connecting streets or driveways between Central Park and Riverside Drive (One Hundred and Twenty-second street, the originally proposed outlet being impracticable owing to its heavy grades), it would be ill-advised to reduce the carriageway from 60 feet to 50 feet in width.

I would recommend that an ordinance be prepared, under powers given to the Board (section 416, Greater New York Charter), to fix and determine that the width of sidewalk to be 20 feet on both sides of One Hundred and Twentieth street, between Morningside avenue, West, and Riverside Drive.

Respectfully,

JOS. O. B. WEBSTER, Engineer of Street Openings.

Inclosing diagram showing width of sidewalks on One Hundred and Twentieth street, between Amsterdam avenue and Riverside Drive.

Referred back to the Commissioner of Highways to have the resolution prepared, making the width of the sidewalks on the south side of One Hundred and Twentieth street, between Boulevard and Riverside Drive, 20 feet.

DEAR SIR—I respectfully request the Board of Public Improvements to authorize the Department of Highways to enter into a contract for relaying the present stone block pavement on the carriageway of Park avenue, from One Hundred and Twenty-sixth to One Hundred and Thirtieth street, the contractor to be required to furnish a sufficient quantity of new stone blocks to replace those which are so old and defective as to be unfit for further use.

The estimated cost of the improvement is \$4,000, chargeable to the appropriation for "Repairs and Renewal of Pavements and Regrading," Borough of Manhattan, 1898.

Very respectfully,

DEPARTMENT OF WATER SUPPLY,  
NEW YORK, July 15, 1898. }*Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements :*

DEAR SIR—The letter of the 23d ultimo, from the Secretary of your Board, referring to me, for investigation and report, a copy of a communication from J. Manneschildt, No. 966 Myrtle avenue, Brooklyn, requesting the permission to extend water-mains of the West Brooklyn Water Company in certain streets, was duly received.

I now have the report of the Chief Engineer of this Department on this matter from which I find that the City is under no expense for the maintenance of water-mains and hydrants in the streets in question, and that it will be under no expense for the additional mains applied for, the entire arrangement for water supply being between the West Brooklyn Water Company and the property-owners.

Under these circumstances and in consideration of the fact that bond issues to pay the expense of laying additional water-mains are not now practicable, I can see no objection to the granting of the application for the laying of these mains.

The map which accompanied the application is herewith returned.

Yours respectfully,

WM. DALTON, Commissioner of Water Supply.

And the following resolution was thereupon adopted :

Resolved, That pursuant to the resolution passed by this Board on May 11, 1898, consent is hereby given to the Commissioner of Highways and Commissioner of Water Supply to issue permits to J. Manneschildt, No. 966 Myrtle avenue, Brooklyn, in such manner as to enable him to extend the water-mains of the West Brooklyn Water Company, in the following streets and avenues in the Borough of Brooklyn, as laid out on the accompanying map :

The following report was received from the Chief Topographical Engineer :

PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS, }  
BOROUGH OF THE BRONX, }  
June 18, 1898.

Col. JOHN H. MOONEY, Secretary, Board of Public Improvements :

SIR—In reply to the action taken by the Board of Public Improvements on the 15th inst., referring to me, for report, communication from the Commissioner of Sewers, with the original papers and maps, relative to granting permission to the Eastern Parkway Company to construct, at its own expense, a sewer in President street, between Brooklyn avenue and Kingston avenue, in the Borough of Brooklyn, I have to state that I was unable to find that President street, between Brooklyn and Kingston avenues, was either legally opened by condemnation proceedings or that the land was dedicated to the City, nor can the street be declared to have been opened under the provisions of title 22, section 22 of chapter 583 of the Laws of 1888, entitled "An Act to revise and combine in a single act all existing special and local acts affecting public interests in the City of Brooklyn," and which says "all streets and avenues in said city which have been or may be thrown open to public use, and have been or may be used as such for five years continuously, shall be deemed and be taken to be public streets and avenues ; and the City of Brooklyn and the Common Council thereof shall have all jurisdiction and power in respect thereto, the same as if such streets and avenues had been or shall be opened by proceedings had for that purpose under the provisions of this act."

As there is no evidence that said street was thrown out to public use and has been or might be used as such for five years continuously, it cannot be claimed that the same is opened under the provisions of said chapter 583 of 1888.

In my opinion the street is therefore private property as yet and the City has no jurisdiction therein.

I recommend, therefore, that legal proceedings be initiated for the opening of President street, or that the Eastern Parkway Company be advised to dedicate the streets laid out on its property to the City, which would remove all legal obstacles. The grade and sewerage plans are legally filed and there would be no delay after the proper dedication of the streets.

I return herewith the papers and a book containing petition, profiles, specifications, etc., in this matter.

Respectfully,  
LOUIS A. RISSE,  
Chief Topographical Engineer and Engineer of Concourse.

Since forwarding this report I have been informed by the Engineer of Sewers, Borough of Brooklyn, that on an additional search made among the records filed in the Department of Highways, Brooklyn, evidence was found that the street was opened in the year 1869. The report of the Commission in the matter of opening Sackett, Degraw, President, Douglas and Union streets under the act of May 6, 1868, was filed on the 18th day of September, 1869.

I view of this evidence, I recommend that the necessary permit for constructing a sewer in President street, between Brooklyn and Kingston avenues, be granted.

Respectfully,  
LOUIS A. RISSE,  
Chief Topographical Engineer and Engineer of Concourse.

And the Commissioner of Sewers was authorized to issue the necessary permit for constructing sewer in President street, between Brooklyn and Kingston avenues.

And the following resolution was thereupon adopted:

Resolved, That this Board approves of the granting of a permit to the Eastern Parkway Company by the Commissioner of Sewers, for constructing, at their own expense, a sewer in President street, between Brooklyn and Kingston avenues, in the Borough of Brooklyn, and also approves of the plan and specifications submitted.

Adjourned.

Attest:

JOHN H. MOONEY, Secretary.

Whereas, The Chief Engineer of this Commission, under date of May 31, 1898, has certified that, in his opinion, John Twinn has completely performed and carried out the provisions of the contract made by him with this Commission on the 23d day of August, 1897, for constructing retaining masonry and other masonry and doing other work pertaining thereto, near Shaft No. 25 of the New Croton Aqueduct, in The City of New York, and has stated from actual measurements the whole amount of work done and materials furnished under and according to the terms of said contract and of the true value thereof; therefore, be it

Resolved, That the Aqueduct Commissioners do accept the work done and materials furnished by John Twinn under the contract above referred to and direct that a proper voucher for the final payment for work done and materials furnished under said contract be approved by the Commissioners and certified to the Comptroller for payment.

Which was adopted by the following vote:

The Committee on Construction referred to the Board Report No. 4 of the Chief Engineer, as follows:

NEW YORK, July 11, 1898.

To the Honorable the Committee on Construction:

GENTLEMEN—In accordance with the authority granted me on June 8, 1898, to ask several responsible machinists for bids for certain machinery mentioned in my communication to your Committee of May 31, 1898, I asked bids from the following firms:

R. D. Wood & Co. (Foundry), Philadelphia, Pa.  
Coldwell-Wilcox Company (Machinists), Newburg, N. Y.  
Reading Foundry Company, Reading, Pa.  
Warren Foundry and Machine Company, Phillipsburg, N. J.  
McNeal Pipe and Foundry Company, Burlington, N. J.

One bid only has been received from Coldwell-Wilcox Company; the others having declined to send any.

The price bid by Coldwell-Wilcox Company is \$1,201. As it is reasonable and much below the estimate furnished to you by the Engineer, I respectfully recommend that I be authorized to order the work from them.

Yours respectfully,

A. FTELEY, Chief Engineer.

Commissioner Power moved that the authority asked for by the Chief Engineer be granted.

Which was carried by the following vote:

Affirmative—Commissioners Ryan, Ten Eyck, Power and Windolph—4.

On motion of Commissioner Windolph, the Commissioners adjourned to meet on Wednesday, July 13, 1898, at 11 o'clock A. M.

HARRY W. WALKER, Secretary.

*Minutes of Adjourned Meeting of the Aqueduct Commissioners, held at their Office, No. 209 Stewart Building, on Wednesday, July 13, 1898, at 11 o'clock A. M.*

Present—The Comptroller and Commissioners Ryan (President), Ten Eyck, Power and Windolph.

Commissioner Ten Eyck brought up the matter of the application of Coleman, Ryan & Brown, contractors for the construction of the New Croton Dam, for the consent of the Commissioners to the assignment of the contract for doing said work to the firm of Coleman, Breuchaud & Coleman, and presented the following:

Whereas, The Aqueduct Commissioners have been informed by James S. Coleman that the contract for the construction of the New Croton Dam at Cornell site, on Croton river, made and entered into by him with the Mayor, Aldermen and Commonalty of The City of New York, dated August 31, 1892, which, on or about January 1, 1895, by the consent of this Board, became the property of the firm of Coleman, Ryan & Brown (and which, by transfers, is now owned as follows: One-third thereof by said James S. Coleman; one other third thereof by Jules Breuchaud, except the percentages retained by the City from the time of the making of said contract, August 31, 1892, to July 1, 1897, which are owned by Cornelius J. Ryan; and one other third thereof by Bernard F. Coleman, except the percentages retained by the City from the date of the said contract, August 31, 1892, to March 1, 1898, which are owned by Mary A. Brown, individually and as executrix, etc., of Henry H. Brown, deceased), is to be held and owned by the firm of Coleman, Breuchaud & Coleman; and

Whereas, The said James S. Coleman, Jules Breuchaud and Bernard F. Coleman have formed a co-partnership under the firm name of Coleman, Breuchaud & Coleman to complete the said contract, which firm is to be entitled to all of the moneys due and to become due under said contract from and after the first day of March, 1898; and

Whereas, The Aqueduct Commissioners are content to consent to the said assignments and transfers by which said contract is vested in the said firm of Coleman, Breuchaud & Coleman:

Resolved, That the Aqueduct Commissioners do hereby assent and consent to the assignments and transfers of the aforesaid contract and the present vesting of the ownership of said contract, whereby the ownership of said contract and rights is now vested in James S. Coleman, Jules Breuchaud and Bernard F. Coleman, constituting the firm of Coleman, Breuchaud & Coleman, one-third of the percentages retained by the City from August 31, 1892, to March 1, 1898, being owned by James S. Coleman; one-third of said retained percentages from August 31, 1892, to July 1, 1897, being owned by Cornelius J. Ryan; one-third of said retained percentages from July 1, 1897, to March 1, 1898, being owned by Jules Breuchaud; and one-third of said retained percentages from August 31, 1892, to March 1, 1898, being owned by Mary A. Brown, individually and as executrix, etc., of Henry H. Brown, deceased; the whole of said retained percentages after March 1, 1898, being owned by the said firm of Coleman, Breuchaud & Coleman: provided, that the bondsmen of Coleman, Ryan & Brown shall consent, in writing, to the assignment of said

contract and moneys, and shall agree that the same shall not impair or affect their liability for the faithful performance of said contract by the said firm or their assignees.

In connection therewith the Comptroller offered the following:

Resolved, That it is the sense of this Board that the transfer or assignment asked for by Coleman, Ryan & Brown, contractors, for the construction of the New Croton Dam be agreed to, and that the above resolution, together with the several assignments and all other papers in the matter, be submitted to the Corporation Counsel with a request for his opinion as to their sufficiency.

Which was adopted by the following vote:

Affirmative—The Comptroller and Commissioners Ryan, Ten Eyck, Power and Windolph—5.  
The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

## DEPARTMENT OF BRIDGES.

DEPARTMENT OF BRIDGES—CITY OF NEW YORK,  
COMMISSIONER'S OFFICE, STEWART BUILDING,  
MANHATTAN, NEW YORK CITY, N. Y.,  
July 26, 1898.

## TO CONTRACTORS.

PROPOSALS FOR MATERIALS AND WORK REQUIRED FOR CONSTRUCTING A PROTECTION FOR THE FOUNDATIONS OF THE BRIDGE CROSSING NEWTOWN CREEK, FROM GRAND STREET IN THE BOROUGH OF BROOKLYN TO GRAND AVENUE IN THE BOROUGH OF QUEENS, IN THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES FOR THE aforesaid materials and work, in accordance with the plans and specifications therefor, will be received at the office of the Department of Bridges, No. 280 Broadway, in the Borough of Manhattan, in the City of New York, until 12 o'clock noon of

THURSDAY, AUGUST 4, 1898.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or estimate for materials and work required for constructing a protection for the foundation of the bridge crossing Newtown Creek, from Grand street in the Borough of Brooklyn to Grand avenue in the Borough of Queens, in the City of New York," with his or their name, address, and date of presentation to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bid or estimate received will be publicly opened by the Commissioner of said Department and read.

THE COMMISSIONER OF BRIDGES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED BY LAW.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of One Thousand (\$1,000) Dollars.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Cor-

poration upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or in the work to which it relates or in any portion of the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, or of a Guaranty or Surety Company duly authorized by law to act as surety, to the effect that if the contract is awarded to the person making the estimate, they will, or it will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must NOT be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The work must be done in accordance with the plans and specifications now on file in the office of the Commissioner of Bridges.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained in Room No. 177, No. 280 Broadway (Stewart Building), Manhattan, New York City, N. Y.

JOHN L. SHEA,

Commissioner of Bridges

SEALED ESTIMATES FOR PRINTING, BINDING, and Supplying the Police Department with eleven thousand copies of the "Manual Containing the Rules and Regulations of the Police Department of The City of New York," will be received at the Central Office of the Department of Police, in The City of New York, until 10 o'clock A. M. of

FRIDAY, THE 29TH DAY OF JULY, 1898.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed "Estimates for Supplying Manual of Rules and Regulations," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the estimates received will be publicly opened by the head of said Department and read.

For particulars as to the quality and kind of paper, printing and binding required reference must be made to the specifications, blank forms of which may be obtained at the office of the Chief Clerk in the Central Department.

Bidders will state a price for the work and material furnished in accordance with the specifications. The price must be written in the bid and stated in figures. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the head of said Department to reject all bids should it be deemed to the public interests so to do.

No estimates will be accepted from or a contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The entire quantity of Manuals to be delivered at the Central Office of the Department of Police in accordance with the specifications.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, in the manner prescribed by law, in the sum of Ten Thousand Dollars.

Each estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. When more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be determined by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or in the work to which it relates or in any portion of the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of the deposit will be returned to him.

bail, surety and otherwise; that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the sureties offered shall be approved by the Comptroller.

The price in the bid or estimate must be written, and also stated in figures. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the Commissioner to reject all bids, if in his judgment it be best for the interest of The City of New York so to do. No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate must be accompanied by a certified check on one of the State or National Banks of The City of New York, payable to the order of the Comptroller of said city, for one hundred and fifty (\$150) dollars, or by money to that amount. THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, New York, or No. 29 Elm place, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all

persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, New York, or No. 29 Elm place, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, to the effect that if the contract is awarded to the person making the estimate, they will upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above-mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of the deposit will be returned to him.

(No. 637.)

PROPOSALS FOR ESTIMATES FOR DREDGING AT THE WAITS STREET SECTION, ON THE NORTH RIVER, BOROUGH OF MANHATTAN.

ESTIMATES FOR DREDGING AT THE WAITS STREET SECTION, on the North river, will be received by the Board of Commissioners at the head of the Department of Docks and Ferries, at the office of said Department, on Pier "A," foot of Battery place, North river, in The City of New York, until 11 o'clock A. M. on

FRIDAY, AUGUST 5, 1898.

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Three Thousand Dollars.

The Engineer's estimate of the quantities of materials necessary to be dredged is as follows:

CLASS 1. Mud Dredging..... 16,000 cubic yards.

CLASS 2. Crib Dredging, about..... 4,500 cubic yards.

N.B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and Ferries, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for each class of the work before mentioned, which shall be actually performed, at the prices therefor, per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after receiving a notification from the Engineer-in-Chief of the Department of Docks and Ferries that any part or portion of the dredging herein mentioned is required. The dredging to be done under this contract will be at the Waits Street Section, on the North river, and is to be done from time to time, and in such quantities and at such times as may be directed by the Engineer. And all the work under this contract is to be fully completed on or before the expiration of forty days from the date of service of the above-mentioned notification.

The damages to be paid by the Contractor for each day that the contract, or any part thereof that may be ordered or directed by the Engineer, may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per cubic yard, for the whole of the dredging to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amounts of their estimates for doing this work in each class.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them and execute the con-

tract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to The City of New York; the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which the bidder is directly or indirectly interested, or of which the bidder has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon, and also that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or any other officer or employee of The City of New York, or any of its Departments, is directly or indirectly interested in the estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder, or any one in his behalf, with a view to influencing the action or judgment of such officer or employee in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.

In case a bid shall be submitted by or in behalf of any corporation, it must be signed in the name of such corporation by some duly authorized officer or agent thereof, who shall also subscribe his own name and office. If practicable, the seal of the corporation should also be affixed.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, to the effect that if the contract is awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to The City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said City may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract over and above all his debts of every nature and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as a surety in good faith with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the said City.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the receiving of the material by the Department of Docks and Ferries.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for furnishing this material.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do he or they will be considered as having abandoned it and as in default to the City, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with, and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which the bidder is directly or indirectly interested, or of which the bidder has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon, and also that no member of the Municipal Assembly, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or any other officer or employee of The City of New York, or any of its Departments, is directly or indirectly interested in the estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing the action or judgment of such officer or employee in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.

In case a bid shall be submitted by or in behalf of any corporation, it must be signed in the name of such corporation by some duly authorized officer or agent thereof, who shall also subscribe his own name and office. If practicable, the seal of the corporation should also be affixed.

Each estimate shall be accompanied

case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the City, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The form of the agreement (with specifications), showing the manner of payment for the work, may be seen, and forms of proposals may be obtained at the office of the Department.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contracts will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the kind of apparatus to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of The City of New York, drawn to the order of the Comptroller, to the amount of five (5) per centum of the amount of the security required. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.
