REMARKS.

During the quarter the extension to the Hospital Laundry has been completed and refitted with modern laundry machinery. The several business offices have been centralized, and new methods of keeping the financial and statistical facts of the various institutions have been adopted, and the entire work put under one competent Chief Accountant.

The general increase in the per capita cost over last quarter is partly due to the increased number of inmates (at this season of the year), and partly to the fact that every item of expense has been charged against the several institutions. Other factors are the advanced cost of provisions and the increased dietaries throughout the institutions. 738 84 1,627 06 \$20,121 76

Respectfully yours, J. T. DURYEA, Medical Superintendent.
