## BUREAU FOR THE COLLECTION OF ARREARS OF PERSONAL TAXES.

## Annual Report for 1901.

BUREAU FOR THE COLLECTION OF ARREARS OF PERSONAL TAXES,  
 ROOM 203, No. 53 CHAMBERS STREET,  
 NEW YORK, January 9, 1902.

Hon. GEORGE L. RIVES, Corporation Counsel:

SIR—I beg to submit the report of this Bureau for the year 1901:

Amount collected for Taxes and Interest during 1901	\$69,967 68
Costs collected	676 34
Interest on Bank Deposits	66 72
<b>Total</b>	<b>\$70,710 74</b>

There have been remitted to this Bureau during the year the names of 26,833 delinquents who were in arrears in the payment of their personal taxes, in addition to upward of 4,000 cases pending from previous years.

The schedules of this report show 4,478 cases accounted for, leaving a balance of 22,355 cases with which this Bureau is chargeable.

The apparent disproportion between the number of cases returned and the number of cases disposed of arises out of the fact that in previous years this Bureau had disposed of the cases only from Manhattan and The Bronx, whereas during the past year cases from all the five boroughs have been returned to this Bureau for collection. In addition to this the largest portion of these cases were remitted during the last twelve weeks of the preceding year.

Very respectfully yours,

MARTIN SAXE,

Assistant Corporation Counsel in charge of the Bureau for the Collection of Arrears of Personal Taxes.

## Bureau for the Recovery of Penalties.

January —, 1902.

GEORGE L. RIVES, Corporation Counsel;

DEAR SIR—I have the honor to hand you the report of the Bureau for the Recovery of Penalties for the year ending December 31, 1901.

The work in the Bureau during the past year has not been so great in volume as in other years, owing largely to the falling off in the number of complaints by the police for violations of corporation ordinances. The ordinances have been more generally obeyed than heretofore, and not so many occasions for complaints exist.

In the reports submitted during the preceding years my predecessor has called attention to the advisability, and in fact the absolute necessity, for the codification of the ordinances so that there shall exist throughout all five boroughs but one general code. Under the present system there is one set of ordinances for Manhattan and The Bronx, another set for Brooklyn, several sets for the Borough of Queens, while in Richmond there seems to be quite a number of systems of ordinances in vogue. I therefore again urge upon the Corporation Counsel the justice of the claim of the people of this city for a clear and sensible set of ordinances, which, while not oppressive in terms, should be so drawn as to judiciously regulate such internal provisions as may be necessary, with however a very liberal recognition of the requirements of our commercial prosperity.

The work of enforcing fines against delinquent jurors has been brought practically to date, so that there exists no longer a mass of unenforced fines, ranging from two to three, and even four years old. Hereafter fines imposed at one term of court can be prosecuted at the next term. The result of this will be to obtain a better attendance by persons called to serve as jurors, or in case of their failure to attend as ordered the punishment shall be swift and adequate.

I also beg to call attention to the fact that in the revision of the Charter, which will take effect on the 1st day of January, are many amendments to the former laws with regard to orders in abandonment and bastardy, to the trial of cases in the Municipal Court and to the method of appeals in bastardy cases in the Court of Special Sessions. These amendments have been passed at the solicitation of my predecessor, and they serve to make the administration of the laws in regard to these matters easier and better.

Respectfully submitted,

HENRY STEINERT,  
Assistant Corporation Counsel.Change of Grade Damage Commission, Twenty-third and  
Twenty-fourth Wards.No. 96 BROADWAY,  
January 4, 1902.

Hon. GEORGE L. RIVES, Corporation Counsel:

DEAR SIR—I submit herewith a report of the work of the Change of Grade Dam-  
age Commission, Twenty-third and Twenty-fourth Wards, showing its organization,  
the status of proceedings now pending and a brief review of past work.I estimate that all the work of this Commission may be properly disposed of by  
the first day of July, 1902.This estimate is based upon a familiarity with all the cases now pending before  
this Commission, all of which have been examined by me. Of these cases 260 can be  
decided with little labor to either Commissioners or Counsel, as they require merely  
the entry of orders dismissing claims for lack of jurisdiction or motions followed by  
such orders.Of the remaining 69 claims, 11 have been finally argued. Eight have been set for  
final argument next week and the evidence has been completed (with slight excep-  
tions) in all of the other fifty cases which involve less difficult questions and a  
smaller amount than most of the cases heretofore considered.

Respectfully yours,

ROBERT C. BEATTY, Counsel in Charge.

Report by Counsel in Charge.

January 4, 1902.

## Review of Statutes.

In order to do away with grade crossings of the tracks of the New York and  
Harlem Railroad Company from the Harlem river north to Williamsbridge, the  
Legislature enacted chapter 721 of the Laws of 1887, which provided that the Park  
Department of the city should have power to make an agreement with the railroad  
company and file maps separating the street and track grades.

These maps changing the grade as authorized were filed in January, 1888.

At common law no right to recover any damages for these changes of grade  
existed, and the only statute at that time giving such right was sections 671, 873 and

874 of the old City Charter (Laws 1882, chapter 410), which authorized the Board of Assessors to award damages caused by changes of grade to improved property only. Chapter 537, Laws of 1893, established this Commission, and, in part, at least, created the right to recover damages. This right was conferred on persons owning real estate which had been damaged by changes of street grades under certain statutes mentioned, provided such owners filed a claim with the Comptroller and a duplicate with the Corporation Counsel within a time limited (December 7, 1893).

Nine hundred and ninety claims have been filed, in which the aggregate amount claimed exceeds \$4,000,000.

This act was amended by chapter 567 of the Laws of 1894, which recites the original act at length as amended. The jurisdiction is enlarged by permitting a recovery for damages suffered after the filing of a claim and for property beyond 100 feet from the street, but such jurisdiction was limited by providing that the property in question must be situated within a certain area which extends from the Harlem river to Williamsbridge and for one to three blocks on either side of the railroad.

It is by reason of this limitation contained in the amendment cited that a number of claims have been dismissed, on the ground that the Commission had no jurisdiction to hear them, as the property involved was situated outside the area specified, and still other cases defective for the same reason will be dismissed on motion.

Further amendments are as follows:

Laws 1898, Chapter 205—Permitting the filing of ten amended claims, the originals proving defective.

Laws 1899, Chapter 707—Permitting the filing of four amended claims for the same reason.

Laws 1899, Chapter 708—Extending life of Commission to July 1, 1901, all evidence to be submitted by July 1, 1900.

Laws 1899, Chapter 709—Permitting the filing of five new claims, where, owing to the death of the attorney, the claims were not presented in time under the original act.

Laws 1900, Chapter 720—Extending the time for the Commission to receive evidence and make decisions to July 1, 1903.

In 1901 Senate Bill 800 provided that any person owning land within this area who had failed to file a claim could now file such claim within a time limited. This passed both Houses, but was vetoed by the Mayor, upon the recommendation of the Corporation Counsel.

The amount awarded under this new act, it is believed, would have exceeded \$250,000, besides prolonging the life of the Commission while the two hundred and fifty or more cases involved were on trial.

The decision of the Commission is embodied in a certificate of award, which is filed in the Finance Department, and paid from the proceeds of bonds issued under section 6 of the act. Section 4 makes it the duty of the Corporation Counsel properly to protect, maintain and defend the interests of the city before the Commission.

Review of Past Work.

Total number of claims disposed of by awards or orders of dismissal..... 661

The Stenographer's record of proceedings before this Commission exceeds 36,000 folios and the number of depositions of witnesses received in evidence exceeds 2,000.

Following is a summary of the work of the Commission for the last four years:

Year.	No. of claims dismissed.	No. of awards made.	Amount of Awards.	Amount claimed where awards were made.
1898 .....	11	37	\$100,615 00	\$212,800 00
1899 .....	10	58	123,645 00	215,000 00
1900 .....	2	32	179,440 00	404,800 00
1901 .....	78	30	100,721 26	258,400 00
Total .....	101	157	\$504,421 26	\$1,091,000 00

In these four years the amount awarded has been about 46 per cent. of the amount claimed.

The work of the Commission has been delayed from three causes:

First—A litigation over the constitutionality of the act terminated by a decision of the Court of Appeals.

Second—The change in the personnel of the Commission caused by the death of the Chairman, Mr. Daniel Lord, and the resignation of General James M. Varnum to accept the appointment as Surrogate. This change took place when one hundred and sixty important cases were finally submitted for decision and necessitated a retrial of all these claims.

Third. The fact that the city reached its debt limit and no certificates of this Commission could be filed for a number of months.

The largest claim filed was No. 826, Edward Dart, claimant, in which \$128,000 was claimed and \$45,000 awarded in December, 1900.

Several claims for more than \$50,000 have also been tried.

The Chairman stated that the Board would proceed to consider the question of altering and improving the sewer in Fifth avenue, between Seventy-ninth and Eighty-second streets, etc., and that the Clerk would note that the Board was in receipt of a protest, signed by thirty-three property owners against the petition.

Thereupon the following resolution was introduced and adopted:

Whereas, An application has been received from Mr. Louis Stern and others for the lowering of the sewer in Fifth avenue, between Seventy-ninth and Eighty-second streets, and in Seventy-ninth street, from Park avenue to Fifth avenue, the estimated cost of which is \$21,000; and

Whereas, The improvement is one which would extend more particularly to the benefit of the property of Mr. Stern and the other applicants than to the general public benefit; and

Whereas, The said sewer is at the general depth of sewers in The City of New York, is in good condition, and is sufficient for the proper drainage of this district, and the reason on which the application is based is that Mr. Stern and others have built cellars at a greater depth than the level of the sewer, although while the sewer was in existence; and

Whereas, Many property owners along the line of the alleged improvement have protested against the same and this Board considers that it would be unjust to them and others within the probable area of assessment to build the sewer at a greater depth, and as an assessment matter to accommodate those whose houses have been built in utter disregard of the existing conditions; and

Whereas, We find no precedent for such action and believe that to grant the prayer of the petitioners would establish a dangerous precedent; and, therefore, be it

Resolved, That the application of Mr. Louis Stern and others be and the same is hereby denied; and, be it further

Resolved, That the Secretary be instructed to transmit a copy of this resolution to the petitioner.

On motion the meeting adjourned.

GEORGE W. BLAKE, Secretary.

#### BOROUGH OF RICHMOND.

##### MINUTES OF THE LOCAL BOARD OF STATEN ISLAND.

The Local Board of Staten Island met at the Borough Office in the First National Bank Building at St. George, in the Borough of Richmond, on Tuesday, April 29, 1902, at 10 o'clock in the forenoon.

The roll was called and the following members were present and answered to their names:

Alderman Maloy, Alderman Gillies, Alderman Shea, President Cromwell.

Alderman Maloy moved that the reading of the minutes of April 22 be dispensed with and that the minutes be approved as typewritten.

Which was carried.

President Cromwell laid before the Board two petitions and a resolution relating to the Arrietta street sewer outlet, as advertised.

##### ST. MARY'S AVENUE, FOURTH WARD.

Sewer.

Alderman Gillies moved that the petition be referred to the Commissioner of Public Works for investigation and report.

Which was carried.

The Commissioner of Public Works, present at the Board table, stated that a survey is in progress for the purpose of constructing a complete sewer system in the district which embraces St. Mary's avenue, and that he would submit a formal report as soon as possible.

##### FIRST STREET, FIRST WARD.

Regulate, grade, macadamize, gutter, curb and flag.

Petitioners stated that they desired the improvement of First street, from York avenue to the private property which cuts off the street at Lafayette avenue, and that they were not interested in the part of First street running eastward from Clinton avenue. They urged specially the improvement of the street between York and Franklin avenues.

President Cromwell reminded petitioners that this part of the street is very narrow, and that it might be better, before improving it, to widen it.

Petitioners stated that this portion of the street consists at present of a strip of land about twenty-five feet wide, given for the purpose by the property on the south side, on the understanding that a similar strip should be given by the property on the north side, which was never done.

President Cromwell suggested that a petition be filed for the widening of the street in this part and for the opening of the street to Clinton avenue, through property now claimed as private property; and

Alderman Maloy moved that the petition be referred to the Commissioner of Public Works for investigation and report.

Which was carried.

##### ARRIETTA STREET SEWER OUTLET.

Enlarged Easement.

President Cromwell laid before the Board the following resolution:

Whereas, On the 5th day of December, 1900, a map or plan was approved by the former Board of Public Improvements, showing an easement to be acquired for an outlet of the Arrietta street sewer, in the First and Second Wards of the Borough of Richmond; and on the 12th day of December, 1900, the Board of Public Improvements requested the Corporation Counsel to institute proceedings to acquire title to said easement; and

Whereas, On the 21st day of February, 1901, the Board of Estimate and Apportionment adopted a resolution approving the initiation of proceedings to acquire title on behalf of The City of New York to an easement twenty feet in width at the foot of Arrietta street, as laid out on the map adopted by the Board of Public Improvements on the 5th day of December, 1900; and

Whereas, On the 6th day of February, 1901, the Board of Public Improvements adopted a map or plan which showed an enlargement of the easement indicated on the map of the 5th day of December, 1900, to an extent of ten feet in width, but no resolution was adopted by the Board of Public Improvements or by the Board of Estimate and Apportionment authorizing proceedings to acquire title to the additional ten feet; now therefore be it

Resolved, That in order that proceedings may be instituted on behalf of The City of New York to acquire title to the above named easement as enlarged, the Local Board of Staten Island hereby recommends to the President of the Borough of Richmond that he request the Board of Estimate and Apportionment to direct that proceedings be initiated to acquire title to the enlarged easement above referred to, required for the outlet of said Arrietta street sewer.

Mr. E. F. Kipper asked about the additional assessment on the sewer district involved, and Mr. Henry P. Morrison, former Deputy Commissioner of Sewers, while acknowledging the absolute necessity of the enlarged easement, suggested that definite action might be delayed so as to postpone the apportionment and collection of assessment until a bill could be again introduced in the State Legislature permitting the division of the payments of assessment into a series of annual installments, so as to relieve the taxpayers, in line with the efforts already made by President Cromwell to this end.

The above resolution was moved by Alderman Maloy and was adopted.

Affirmative—Alderman Maloy, Alderman Gillies, Alderman Shea, President Cromwell.

Negative—None.

##### SEAMEN'S RETREAT PROPERTY.

Mr. A. L. Schwab asked the attention of the Board to an amendment added to the Sundry Civil bill in the United States Senate to appropriate \$250,000 for the purchase by the government of the Seamen's Retreat property at Stapleton for a permanent Marine Hospital, which proposed purchase had been discussed by the Local Board on April 1, when said bill was in the House of Representatives. It was stated that Congressman Lessler had received a petition and many letters in favor of such purchase, whereas the majority of the people interested are strongly opposed to it.

President Cromwell announced that he would call a special meeting of the Local Board for Monday evening, May 5, for a public hearing on this matter.

On motion, the Board adjourned.

MAYBURY FLEMING, Secretary.
