#### No. 244.

Whereas, The unparalleled disaster on the Island of Martinique, in the French West Indies, whereby the town of St. Pierre was blotted from the earth by molten lava caused by an eruption of the volcano of Mont Pelee, has resulted in the death of nearly 40,000 persons and caused widespread suffering among the survivors of this island; and

Whereas, The people of The City of New York, ever prompt to aid the suffering of every place and clime, have learned with horror of the awful visitation of Providence and stand aghast at the terrible disclosure of the catastrophe; therefore be it

Resolved, That we, the members of the Board of Aldermen of The City of New York, the direct representatives of the people of this metropolis, hereby express our deep commiseration with the afflicted people of the islands of Martinique and St. Vincent, and recommend that our citizens at once take action to promptly and appropriately succor the stricken French colonists.

Adopted by the Board of Aldermen May 20, 1902.

Approved by the Mayor May 21, 1902.

P. J. SCULLY,

BOARD OF EXAMINERS.

## MINUTES OF THE BOARD OF EXAMINERS.

Present—Messrs. Francis C. Moore, Warren A. Conover, William C. Smith, Cornelius O'Reilly, Chief Edward F. Croker and William J. Fryer.

In the absence of the Chairman, the Clerk called the meeting to order at 3 p. m.

On motion, duly made and seconded, Mr. Fryer was designated to act as Chairman. Mr. Fryer then took the chair.

Minutes of meeting of the 13th instant read. The Clerk was directed to insert "Mr. Moore was then excused" immediately following the decision on Appeal No. 112.

On motion, duly made and seconded, minutes were approved.

Appeal No. 116 of 1902, New Building, No. 219 of 1902 (laid over May 13); on motion, duly made and seconded, denied.

Appeal No. 118 of 1902, Alteration No. 584 of 1902 (laid over May 13).

Mr. Pell appeared before the Board in explanation of this appeal, and presented a roof plan, which was ordered on file.

On motion, duly made and seconded, approved.

Appeal No. 121 of 1902, New Building No. 141 of 1902, premises No. 682 Broadway; John W. Stevens, Esq., appellant.

Plans have been disapproved on account of wind pressure, notwithstanding that the walls have been increased four inches in thickness and are laid up in cement mortar, the building being built entirely of masonry, floors constructed with 15-inch steel beams, with 16-inch bearing at each end, all thoroughly tied and bonded together; and the building is protected on the south by a four-story structure.

On motion, duly made and seconded, approved.

Appeal No. 122 of 1902, New Building No. 234 of 1902, premises Nos. 538 and 540 Fifth avenue; Ralph S. Townsend, Esq., architect and appellant.

It is requested that section 75 of the Code be modified to the extent of omitting the additional flight of stairs required by law, and substituting in place of same one continuous line of outside iron stairs with iron balconies, having a door opening on each floor, the said stairs to be placed on rear of gables where directed by the Building Department; also, if so required by the Department, upright stairs will be provided from the roof of proposed building to the roof of adjoining building on the south.

The entire proposed building will be occupied by one tenant, and two flights of stairs will not only entail a considerable loss of floor space on each floor, but will seriously interfere with the operation of tenant's business.

Permission is also requested to construct the walls inclosing elevator shaft of angle and tee-iron framing, filled in with hard burned fireproof partition blocks 4 inches in thickness, plastered on both sides, and have openings into same provided with iron-covered doors, glazed with wire glass.

Request for the above modification is made on the following grounds:

First—The building is but five stories in height.

Second—The building will be wholly occupied by one tenant.

Third—The additional stair well-hole increases the danger from spread of fire, also the danger to tenants from smoke; also interferes seriously with the business of the tenant.

Mr. Wm. C. Haskell appeared in explanation.

On motion, duly made and seconded, approved on condition that all the stair-halls, including floors of same, landings, stairs and partitions, be constructed with fireproof material; and that all openings in hall partitions be constructed of fireproof material and wire-glazed wherever glazing is necessary.

On motion, duly made and seconded, construction of elevator shaft as stated, approved.

Mr. Moore was then excused.

On motion, duly made and seconded, the meetings of this Board will be held at 2 p. m. (instead of 3 p. m.), commencing May 29 and continuing until further notice.

Appeal No. 123 of 1902, New Building No. 173 of 1902, premises northwest corner of Seventieth street and Amsterdam avenue, Seaboard Realty Company, per Harry B. Mulliken, appellant.

It is desired to place a pent house on the roof of the building in question, covering about one-fourth of the area of the roof, without having this pent house considered as a complete extra story.

This pent house will be constructed as follows:

All walls surrounding the pent house will be carried up to their proper height.

The floor will be made of cement.

Wire glass will be used wherever glass is necessary.

Proper skylights will be provided.

All woodwork for window frames, sashes, doors, trim and base of the pent house shall be thoroughly fireproof.

The highest point of the roof will not exceed 150 feet from the curb level.

All wood entering into the construction of the pent house will be fireproofed by the Electric Fireproof Company's process, this being the one which is fully accepted by the Bureau of Buildings.

The entire pent house will be constructed absolutely fireproof.

The highest point of the building will be kept within the 150 feet limit.

On motion, duly made and seconded, approved.

Appeal No. 124 of 1902, Fireproof Shutter Case, premises Nos. 530 and 532 West Twenty-eighth street, The E. R. Merrill Spring Company, appellant.

On motion, duly made and seconded, referred to Chief Croker for examination and report.

Appeal No. 125 of 1902, New Building No. 253 of 1902, premises Nos. 142 and 144 East Fifty-ninth street, J. Kastner, Esq., architect and appellant.

In re section 75 of the Building Code.

The building is only four stories in height and each of the lofts has direct communication with the stairs, as shown on plans, and the rear fire escape will be constructed with balconies one each on second, third and fourth stories, provided with stairs and handrails connecting said balconies, which are in the open air and in my opinion much better than two interior stairs, which might be required under a strict interpretation of the law.

On motion, duly made and seconded, approved on condition that staircase from balcony be extended to the ground level.

Appeal No. 126 of 1902, Alteration No. 212 of 1902, Bronx, premises west side of Cortlandt avenue, 122 feet from the southwest corner of One Hundred and Fifty-seventh street, Gustav Schwartz, Esq., architect and appellant.

This building is the Mount Pleasant Baptist Church. Modification of the law is requested, that said alteration could be carried out for the following reasons:

First—The frame building on the whole block amounts to more than 90 per cent. Second—The law allows, where there are 90 per cent. or more frame buildings on a block, that a single story frame structure may be raised to a two-story building—dwelling.

Third—Present building should be raised five feet to get a basement instead of a cellar and present first story ceiling raised to eighteen feet high, make a peak roof and give the building the character of a church, for which purposes present building is already used.

Mr. Schwartz appeared in explanation.

On motion, duly made and seconded, approved.

Appeal No. 127 of 1902, New Building No. 1322 of 1901, premises southwest corner Madison avenue and Twenty-ninth street; Maitland E. Graves, Esq., architect and appellant.

It is desired to convert the present open portion of the roof over the twelfth story at the above described building into a roofed-over sun parlor and conservatory, necessarily running up the exterior walls. The highest part of the roof beams over this new conservatory will not be more than 147 feet and 6 inches above the curb at the middle part of the building.

This sun parlor and conservatory is not in any way connected with a pent house which is to cover a portion of the roof over the twelfth floor, except by a common lobby at the staircase and elevators. An open court will separate the pent house from the desired conservatory. The roof of this sun parlor and conservatory will be of fireproof terra cotta arches and steel beams throughout.

Mr. H. A. Jacobs appeared in explanation.

On motion, duly made and seconded, denied.

Appeal No. 128 of 1902, New Building No. 239 of 1902, premises Nos. 109 to 115 West Forty-fourth street; G. A. Schellenger, Esq., architect and appellant.

In re pent house:

First—The building will be reduced in height to within 150 feet from the curb to top of roof beams of the pent house or roof story.

Second—All inclosing walls of the pent house or roof story will be of brick 12 inches thick.

Third—Such pent house or roof story will be constructed fireproof to comply with section 105 of the Building Code for a building of that height. All wood used in such story will be fireproofed in a manner satisfactory to the Superintendent of Buildings.

Fourth—The turrets at the two front corners of the building will not be covered. No portion of the roof garden will be covered except the tower, which will be used as an inclosure for the house tank.

Fifth—The elevator shafts will be constructed of close fireproof material to prevent the passage of fire or smoke to or from the shafts. The doors to the elevator shafts will be of metal, glazed with wire woven glass.

Sixth—It is desired to be exempted from the requirements of section 105 as to fireproofing of interior trim, etc., and outside window frames and sash of the lower portions of the building.

On motion, duly made and seconded, laid over.

Adjourned.

JAMES GAFFNEY, Clerk.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the board of aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

The contracts must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by The City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done. ## CLAIMS AGAINST THE CITY.

There were received from the Finance Department during the year 1,225 requests for the examination of claimants. In many of these claims examinations under oath were conducted at this office. In some claims, such as assessment matters and actions to foreclose liens, all the necessary information being already within the knowledge of the city officers, examinations were not necessary.

The number of claims received for examination has been greatly reduced by the new method adopted by the Finance Department of having investigations made by persons connected with that Department.

In actions for personal injuries where notice of intentions to sue must be served on the Corporation Counsel, there were 278 such notices served.

## COMMITMENT OF INSANE PERSONS.

In all cases where inmates of city institutions are committed to the State Hospital for the Insane on an order of a Justice of the Supreme Court, the papers are first submitted to this office for examination and approval. There have been 1,420 commitments of this character examined and approved during the past year.

## CONCLUSION.

As I have already stated, this report has been prepared along the lines suggested by my predecessor for the reason that the period covered by the report was entirely within his term of office. I am inclined to think that the report in its present shape is too voluminous, and that it can be materially reduced without impairing its usefulness. Before the report for the first quarter of the current year is prepared I intend to take the matter up and try to devise means of condensing some of these schedules or omitting them altogether. This will result in a considerable saving of labor in this office and in the expense to the city of printing.

Respectfully yours,  
G. L. RIVES, Corporation Counsel.
