DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE, NO. 31 CHAMBERS STREET, NEW YORK, December 1, 1886.

Hon. EDWARD V. LOEW, Comptroller:

SIR—Referring to our recent conversation in reference to desired alterations and improvements on the skylights on Washington Market Building, I beg to say that the resolution of the Board of Aldermen authorizing this work to be done without public letting, at an expense not exceeding \$1,800, to be charged to the appropriation for "Public Buildings—Construction and Repairs," has been approved by the Mayor. As you will remember, you stated in that conversation that any excess in the cost of that work over the order then issued to Cook & Radley, amounting to \$900, and over the balance in the appropriation available for the purpose, would be provided for by a transfer to the appropriation. We now have the proposition of Cook & Radley to do the entire work for the sum of \$1,500. To enable this Department to issue an order for the work on this proposition, a transfer of \$600 to the appropriation "Public Buildings—Construction and Repairs," for 1886, is necessary.

If you will have the kindness to see that this transfer is made, this Department will see that the work is done as speedily as possible.

Very respectfully.

Very respectfully,
D. LOWBER SMITH, Deputy Commissioner of Public Works.

IN COMMON COUNCIL.

Resolved, That the Commission Resolved, That the Commissioner of Public Works be and he is hereby authorized to make the further necessary alterations to the skylights in roof of Washington Market Building, the expense thereof not to exceed the sum of eighteen hundred dollars, without public letting, the expense to be charged to the appropriation "Public Buildings—Construction and Repairs," 1886.

Approved by the Mayor, November 30, 1886.

Adopted by the Board of Aldermen, November 17, 1886, three-fourths of all the members elected voting in favor thereof, having been first advertised as required by law.

(Signed)

F. J. TWOMEY, Clerk of the Common Council.

And offered the following preamble and resolution:

No. 444. Matter of James F. Ruggles—Assessment for Seventy-fourth to Ninety-second street underground drains, between Eighth and Tenth avenues; confirmed October 2, 1874.

James A. Deering, Esq., counsel for the petitioner, presented additional evidence and rested his. The Counsel representing the City having no evidence to present, the case was closed.

Subsequently, Commissioner Campbell presented the following decision, viz.:

The testimony taken in this case shows that the drains in question were laid upon private property, without the consent of the owners, and in which the City had acquired no easement. The Court of Appeals having held this to be unconstitutional, we think that the assessment imposed upon the property of the petitioner for these drains should be vacated and set aside as void.

The Chairman put the question whether the decision as presented shall stand as the decision of

the Commissioners.

Which was decided in the affirmative, a majority of all the Commissioners voting in favor

APPROVED PAPERS.

Whereas, By reason of the present immense and constantly augmenting travel over the bridge across the Harlem river at Third avenue, much loss of time and annoyance is occasioned when this means of communication is interrupted, as is very frequently the case, by opening the "draw" of the bridge to afford passage for tug-boats and other vessels; and,

Whereas, Nine-tenths of the loss of time and annoyance would be prevented, if tug-boats were compelled to lower their pipes or "smoke-stacks," and pass beneath the bridge, thus obviating the necessity for opening the "draw"; be it, therefore,

Resolved, That on and after the first day of May, 1887, it shall not be lawful for vessels commonly called tug-boats to navigate the waters of the Harlem river, unless the pipe or "smoke stack" of every such tug-boat shall be so constructed that it may be lowered when approaching the Third Avenue Bridge over the Harlem river, and raised after passing beneath, unless such tug-boats shall be engaged in towing vessels which, by reason of their size or construction, cannot pass beneath the bridge; and the Department of Public Parks is hereby authorized and directed to instruct the engineers and bridge-tenders at said bridge not to open the draw for the passage of any ing-boat which does not conform to the provisions of this resolution.

Adopted by the Board of Aldermen, November 17, 1886.

Adopted by the Board of Aldermen, November 17, 1886. Approved by the Mayor, November 20, 1886.

Adopted by the Board of Aldermen, November 17, 1886. Approved by the Mayor, November 20, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN IN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

ject can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will he allowed for any portion of one year.
