## TO CONTRACTORS.

## PROPOSALS FOR BUILDING A STEAM FIRE PROPELLOR.

SEALED PROPOSALS FOR BUILDING A STEAM Fire Propellor, endorsed as above, will be received at the office of the Fire Department, until 11 o'clock A. M., of July 6, 1874, at which time the bids will be publicly opened and read. The award of the contract will be made as soon as practicable after the opening of the bids.

The time allowed for doing the work is ninety (90) days from the date of signing the contract.

Any bidder for this contract must be known to be well prepared for the business, and must have satisfactory testimonials to that effect, and also shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance.

Bidders are required to state in their proposals their names and places of residence; also that the bid is made without any connection with any other person making any estimate for the same work; and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the bid, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to any higher bidder to whom the contract may be awarded at any subsequent letting; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, taken before a Judge of any Court of Record in this county, that each is a householder, or freeholder in the City of New York, and is worth the amount of the security required for the above work, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith. The adequacy and sufficiency of the sureties offered to be approved by the Comptroller of the City of New York.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The bid will be understood to cover all expenses necessary for the complete fulfillment of the contract.

Should the lowest bidder or bidders neglect or refuse to accept this contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid, he or they shall be considered as having abandoned it, and as in default to the Corporation; and this contract will be re-advertised and re-let, and so on until it is accepted and executed.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioners of the Fire Department.

The Commissioners of the Fire Department reserve the right to decline any and all proposals, if deemed to be for the public interest, and no proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as security or otherwise, upon any obligation to the Corporation.

Plans and specifications may be seen, and blank proposals furnished, upon application at the Headquarters of the Fire Department.

FREDERICK GERMANN, Chairman.

question to hand over, so far as may be determined, to the adventurous directors of this pretentious company, ostensibly for improving the commercial facilities of the city, but really to improve their own pecuniary facilities by transferring the property of the city to themselves.

As is well known, part of the plan of the new works along the river front, now being proceeded with by the Department of Docks, is the formation of a new street, intended for improving the commercial facilities of the harbor.

It will be the unanimous opinion of the gentlemen connected with the commerce of the harbor, that of all the streets in the City this one should be kept the freest from obstructions. A different opinion is entertained by the directors of this company. The restrictions in their bill, that the line of their proposed railway must be located within 200 feet of the bulkhead line, authorizes them to take possession of this new street, as fast as completed by the Dock Department, and to monopolize the same by constructing thereon their elevated railway, with four tracks, stations, side-tracks and depots, and for this use of the street the bill expressly provides that "no compensation shall be awarded or demanded."

Further, the bill authorizes the City "to acquire such real estate and property as may be necessary for the company to carry out its objects and purposes," and the company is authorized to issue to the city "full paid stock in payment thereof." This stock the bill directs to be paid into the Sinking Fund of the City and County of New York.

This railway the company is authorized to connect with their warehouses and their wharves, and upon the property taken from the City, in exchange for full paid stock of the company, they are authorized to provide facilities for receiving and discharging the cargoes of ships and vessels at the wharves of the city.

In what manner this four-track railway is to be built is left entirely to the discretion of the directors. They may build it as they please, and as high as they please. The space covered by the arches the bill authorizes the company to use for warehouse purposes, or any other purpose they may think proper. The water front of the city is about 17 miles in extent, and to give some idea of the importance of the value of the land thus given to the use and benefit of this company I have had an estimate made of the value of a small section of the same, extending from the Battery to West Eleventh street, along the North River.

The distance is 11,400 feet, about one-tenth the length of the railway. This space used as this company is authorized to occupy it, would be a good investment at a valuation of eleven millions of dollars, and this is merely the surface under the railway used and leased for market stalls, stores, shops, &c., and this without interfering with the revenue of the railway at all. The railway built as the directors of the company may determine, will form a wall around the city, separating it from its water front. This wall is to be pierced by loop holes in front of every pier or wharf twenty-five feet in width for a cart-way. No provision is made for foot passengers. Imagine the access to Fulton ferry for vehicles and foot passengers being restricted to twenty-five feet, and what a scene of danger and confusion and scrambling would exist.

It requires very little penetration to see that the rights, franchises, privileges and immunities proposed to be conferred by this bill would create in this company the most gigantic monopoly of modern times. It will place the entire commerce of the harbor under the absolute control of these irresponsible speculators. Almost the entire carriage of goods will be in their hands, and with the privilege of charging for transportation upon their railway whatever rates they please, and discriminating in whatever manner they may think proper; to their warehouses all property must of necessity be consigned and the facilities provided by them for loading and unloading will alone be patronized. The inevitable result would be that a company incorporated under the false pretence of improving the commercial facilities of the city would be instrumental in destroying its commerce and at the same time would rob it of its sources of revenue.

I must confess that I look upon this bill as of so iniquitous a character in all its provisions that I entertain no fear of its ever receiving the approval of our present Governor. Still, as the influences which secured its passage through both houses of the Legislature, continue at work to manufacture a false public opinion in its favor, the subject is one which ought to receive your immediate attention. That such a bill as this, so infamous in its provisions, so barefaced in its scheme of plunder, should have passed so far on its passage to become a law, suggests a state of public morals of an exceedingly disheartening character.

The commercial interests of the city, appear to be wholly unaware, of the attempt made to injure their interests through the instrumentality of this Bill, and the Press of the City, with one exception has been unaccountably silent on the subject. The exception to which I refer has been more of a misfortune, than a benefit; for the indiscriminate condemnation which has of late characterized the action of this journal, its puerile malignity, its inability to see anything to approve, except what accords with the worst tactics of party action, and its readiness to condemn, whatever is not strictly in accordance therewith, or calculated to promote its interests, has rendered whatever this journal says of little weight and commands but little attention.

While the public are thus apparently indifferent, the promoters of this bill are prosecuting actively their measures, to have it placed upon the Statute book. Agents are, I am informed, engaged at a fixed and certain price per name to obtain signatures with a view of influencing the action of the Governor in this matter. The facility with which such signatures have been obtained

considering the character of the measure they are given to endorse, show the little reliance which can be placed upon such representations of public opinion. Second mortgage bonds of the company, have, I am informed, been given promiscuously, or promised to be given to secure the same object, and whether the silence of the press, and the inertness of the commercial interest are immediately or remotely attributable to this cause must be a matter of conjecture. But inasmuch as the project is engineered by the persistent adventurer, who attempted the swindle of the Industrial Exhibition, you may rely upon it, that no stone will be left unturned to make this Bill a law.

This adventurer has not the manhood to come forward and publicly defend his scheme, but like a ground mole is working his way silently and as he thinks effectively to accomplish his object. If successful, he and his co-adjuvants boast that they will procure from the Legislature, which they will then be able to command, a bill authorizing the immediate completion of the stone bulkhead, and for this purpose, they confidently hope to invest the Department of Docks with the power to issue untrammelled by the Department of Finance, all bonds necessary to complete this undertaking within two years.

All the facts demonstrate, that the entire scheme has been manipulated in the pattern of the Industrial Exhibition bill. Finding among the incorporators of the present bill the name of Mr. Abram S. Hewitt, a gentleman for whose judgment and patriotism I entertain the highest respect, I addressed him a note to ascertain his views regarding this bill, when he informed me, that his name had been used without his consent, that he was opposed to the whole project, and that he had written the Governor to veto the bill.

I have looked in vain for the name of the projector of this and the Industrial Exhibition scheme among the list of incorporators and directors, but true to his instincts he has withheld it, lest the use of it in this connection, as indeed with any other project, with which it might be brought in contact, might prove fatal to the final success of the present fraud.
