No. 528.

Common Council, Philadelphia—Challenging the Board of Aldermen of The City of New York to a Game of Baseball.

Common Council, Philadelphia, 418 Bulletin Building, May 20th, 1916.

President of the Board of Alderman of the City of New York, New York City:

My dear Sir—Several years ago a baseball contest was arranged by the Alderman of your City and Councils of Philadelphia and everyone had a most pleasant time and immensely enjoyed the games. It is our desire to continue our pleasant and friendly relations with your Honorable body, and the national pasttime now occupying the center of the sporting arena, and recognizing the fact that there are fans galore in the two great Cities of Fathers Knickerbocker and Penn who are anxious to see the lawmakers of the respective Cities contest for the championship, with this in mind, several members of Council spoke to me about arranging such a game, and to that end, I introduced a resolution, a copy of which I am enclosing you herewith, which received the hearty and unanimous approval of us all.

A Committee was appointed from Select and Common Councils to arrange for such a contest, of which committee I was named as Chairman, and instructed to communicate with your body, asking them to accept our challenge, appoint a committee to confer with our committee so we could arrange all details.

The purpose of such a contest will be three-fold. First, it will decide the weighty question of whether you play ball better than we do, upon which there is considerable question. Secondly, it will bring together the Municipal legislators of the two greatest Cities of the East, thereby creating new friendships and renewing and cementing old ones. Thirdly, by such contests some worthy charity in both cities may become the beneficiary, as in Philadelphia I feel that such a contest would bring quite a crowd.

Of course, it goes without saying that in the event of an acceptance of this challenge, our Councilmen will do all in their power to entertain your members in a most hospitable way and make it an occasion long to be remembered.

I therefore would ask that you have this matter formally presented to your honorable body for action, and have the committee communicate with me as chairman as soon as possible so that details can be arranged.

Extending to your body the good wishes of Select and Common Councils of our City, I beg to remain,

Respectfully yours, JACOB MATHAY, Chairman.

This is to certify that the following is a true and correct copy of the original Resolution passed by the Select and Common Councils on the Eighteenth day of May, A. D. 1916.

Resolution challenging the Board of Aldermen of the City of New York to a game of Baseball and Authorizing the Appointment of a Joint Special Committee to Make the Necessary Arrangements.

Whereas, Differences of opinion have arisen between the law makers of the City of Penn and the City of Knickerbocker as to their respective abilities in the art of baseball, and

Whereas, Dire results may follow unless this momentous question is speedily decided; therefore be it

Resolved, by the Select and Common Councils of the City of Philadelphia, that a challenge be issued to the Board of Aldermen of the Citf of New Yorf to contest their ability at the National game of baseball to decide this legislative championship, the first game to be played in Philadelphia and the second in the City of New York,

And that a Special Committee of five members from each branch of Councils be appointed to make the necessary arrangements for the contests.

Attest: WILLIAM W. FELTON, for Chief Clerk Common Council.

Which was referred to the Committee on Rules.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Police Commissioner:

No. 529.

Police Commissioner—Letter of Thanks for Commendation of Board on Action of Police Department on the Day of the Preparedness Parade.

City of New York, Police Department, Office of the Commissioner, May 20, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, N. Y.:

Dear Mr. President—Copy of resolution extending congratulations to members of Police Department for conduct during preparedness parade has been received.

In behalf of the Department may I express to you and through you to the Board of Aldermen my gratification that the work of the police was such as to meet with this generous expression of approval. And may I further express my great appreciation of your thoughtfulness in giving us this public recognition.

The preamble and resolution will be read to all members of the force.

Respectfully yours, ARTHUR WOODS, Commissioner.

No. 530—(Same as Ord. No. 78).

Police Commissioner—Communication Relative to the "Near-Stop" Provision of the Code of Ordinances.

City of New York, Police Department, office of the Commissioner, May 13, 1916.

Hon. FRANK DOWLING, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—The present ordinance providing for the so-called "near-side stop" covers, as you know, both motor busses and street railway cars.

The experience of this Department tends to show that in so far as it affects street railway cars the ordinance has been a wise and beneficial one. In the year following its adoption the number of persons injured by street railways was reduced from about 36,000 to about 30,000, which I am informed is a little over 17 per cent.

So far as motor busses are concerned the experience of this Department shows the "far side stop" provides a better protection for pedestrians. The principal reason for this is, briefly, as follows: When a motor bus stops on the near side, because of its size, it cuts off from a pedestrian desiring to cross the street a view of other approaching vehicles. The result is that pedestrians step out in front of the motor bus, see a vehicle approaching, attempt to step back and by that time the motor bus has sometimes started, with the result that the pedestrian is placed in a perilous position. The street railway car, being out in the middle of the street, does not create this situation; nor would it be created if the motor busses stopped on the far side of a street. For this reason I respectfully recommend for the consideration of the Board of Aldermen the desirability of so amending the ordinance as to permit of the "far side stop" by moor busses and am enclosing copy of such propôsed amendment. Very truly yours, A. WOODS, Commissioner.

2. Passenger stops. Street surface railway cars when signaled to take on or discharge passengers shall come to a full stop in such position as not to obstruct the crosswalk before crossing any intersecting or connecting street, except that, with the written consent of the Police Commissioner, and upon the installation of "Trolley Stop" signs by the railway companies, street surface railway cars may stop:

(a) At other points on unpaved streets.

(b) In the centres of blocks over 400 feet long.

(c) On the far side of any street containing an intersecting street railway.

The provisions of this subdivision shall apply also to omnibuses, except that omnibuses when signaled to take on or discharge passengers shall come to a full stop, in such a position as not to obstruct the sidewalk, after crossing any intersecting or connecting street, and provided that the provisions of clause (c), when applied to omnibuses shall have reference to the near side instead of the far side of any street containing an intersecting street railway, "Bus Stop" signs to be used instead of "Trolley Stop" signs.

3. Intersecting streets. Street surface railway cars may cross an intersecting or connecting street without stopping; provided that, in each case, the Police Commissioner shall have given his written consent to such crossing and the railway company shall have installed a "No Stop" sign at such crossing, and provided further that there shall be a regular stopping place with a "Trolley Stop" sign installed theerat, within 200 feet of the "No Stop" sign.

The President laid before the Board the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond:

No. 531.

Commissioner of Parks, Boroughs of Manhattan and Richmond—Request for Special Revenue Bonds, $248.70.

City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Municipal Building, 10th Floor, May 16th, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, New York City:

Sir—Request is hereby made for an issue of special revenue bonds to the amount of $248.70, the proceeds to be used by this department in raising the pay for housesmith service from $5 to $5.30 per day.

Provision is made in the budget for 1916 for 1,000 days, housesmiths at $5 a day. Up to the closing of business on February 29th, 1916, 171⅛ days had been consumed, leaving 829 days remaining for the year.

In accordance with the resolution adopted by the Board of Estimate and Apportionment on May 12th, 1916, it will be necessary that pay for housesmith service be at the rate of $5.30 per day from March 1st, 1916.

It will therefore be necessary to provide for an increase of 30 cents for 829 days, which will amount to $248.70. Respectfully yours,

CABOT WARD, Commissioner of Parks, Manhattan and Richmond.

The President laid before the Board the following communication from the Commissioner of Parks, Borough of Brooklyn:

No. 533.

Commissioner of Parks, Borough of Brooklyn—Request for Special Revenue Bonds, $11,000, to Be Used for Urgent Highway Repairs.

City of New York, Department of Parks, Borough of Brooklyn, Litchfield Mansion, Fifth Street and Prospect Park West, May 17, 1916.

Board of Aldermen, City Hall, New York City:

Gentlemen—You are respectfully requested to authorize the issuance of revenue bonds in the amount of eleven thousand dollars ($11,000). These additional funds are required for urgent highway repairs as below set forth, for which no budget allowance was made for the year 1916:

1. Bay Parkway, Ocean Parkway to 64th Street..... $7,000 00

The roadway of this section of Bay Parkway, which is macadam, is in very bad condition. It is proposed to scarify and resurface this roadway under contract. The work was anticipated for the year 1916, the cost of same being included in the budget estimate, but was, of necessity, eliminated at final budget adjustment. If the condition of this section of Bay Parkway is not improved during the present year, it undoubtedly will result in the roadway having to be entirely reconstructed in the near future.

2. Park Circle at intersection of Ocean Parkway and Coney Island Avenue $4,000 00

The pavement of this Circle, two hundred feet in radius, is macadam, with the exception of a thirty-foot wide circumferential sheet asphalt roadway for business vehicles, which was completed last year. The entire Circle is subject to a large amount of traffic, as it is one of the main entrances to Prospect Park and is crossed by all automobiles going to and coming from Coney Island via Ocean Parkway. The macadam portion of this Circle was greatly damaged by the business traffic prior to the completion of the sheet asphalt pavement, and it has not been properly repaired since, owing to lack of funds. It is now proposed to provide a roadway for pleasure vehicles alongside the present traffic roadway, and to reserve a circle of one hundred and fifteen feet radius in the center, which will be parked. This arrangement will result in a great saving in roadway area to be repaired and will permit of better traffic regulations and improve the appearance of this Plaza. The work will be done under contract and will consist of scarifying and resurfacing a portion of the macadam area and the setting of curb for parked space.

As the work for which the above funds are needed should be carried on to completion just as soon as possible, your favorable action is urgently requested.

Very truly yours, RAYMOND V. INGERSOLL, Commissioner.

President, Borough of Queens—Request for Permission to Purchase Liquid Fuel Oil on Open Market Order.

The City of New York, Office of The President of the Borough of Queens, Long Island City, May 16, 1916.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Sometime ago advertisements were inserted in the CITY RECORD calling for bids for 35,000 gallons of liquid fuel oil to be delivered in the Borough of Queens as directed, and on March 6, 1916, the date of opening bids, no bids were submitted.

Since March 6, 1916, it has been found that this Department will require 80,000 gallons of liquid fuel oil to operate its asphalt plants, and in view of the fact that no bidders appeared in response to our advertisement, I would request your approval, in accordance with the provisions of section 419 of the Charter, of a resolution authorizing me to purchase 80,000 gallons of liquid fuel oil to the extent of $7,600 on open market order.

I would request that your Honorable Board give this request your early consideration, for the reason that this oil is absolutely necessary for the running of the asphalt plants used in repairing asphaltic streets throughout the Borough of Queens. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, New York:

Sir—The Board of Aldermen on April 18th authorized an issue of special revenue bonds in the sum of $5,000 for the purchase of the boat "Helen C. Juilliard," now owned by the St. John's Guild, to replace the boat "Westfield," formerly used as a day camp for tuberculous patients in connection with Gouverneur Hospital. The Board of Estimate and Apportionment, under date of May 5th, concurred in this resolution. In view of the fact that funds are authorized for the purchase of this particular boat, the Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize its purchase in the open market, without public letting. Respectfully, J. K. PAULDING, Secretary, Board of Trustees.

In connection with the foregoing communication, Alderman McCann offered the following resolution:

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Trustees of Bellevue and Allied Hospitals be and it is hereby authorized and empowered to contract, without public letting, for the purchase of the boat "Helen C. Juilliard," now owned by the St. John's Guild, to replace the boat "Westfield," formerly used as a day camp for tuberculous patients in connection with Gouverneur Hospital, at a cost not to exceed five thousand dollars ($5,000).

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

The President laid before the Board the following communication from the Fire Commissioner:

No. 537.

Fire Department—Request for Issue of Special Revenue Bonds, $5,283.31, for Supervision and Maintenance of Fire Alarm Service in Public Schools.

Fire Department, City of New York, May 19, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen, City of New York:*

Sir—Application is hereby made for an issue of special revenue bonds in the sum of $5,283.31 for material and personal service required in connection with the super-

vision and maintenance of the fire alarm boxes and loops now in service, or to be placed in service, in the Public Schools of the City of New York.

Up to the present time jurisdiction over these boxes and loops has been exercised by the Board of Education, but no provision was made in the budget of the current year for this work, and on May 9th his Honor the Mayor directed me by letter to assume charge of the fire alarm boxes and loops in the public schools and to make application for an issue of special revenue bonds in "an amount necessary to provide for the maintenance of such boxes and loops."

The Chief of the Bureau of Fire Alarm Telegraph estimates, after a study of the subject, that the sum of $4,000 will be required to supply the necessary materials for the maintenance of these boxes and loops for the remainder of the year, and that the services of a cable splicer at $1,200 a year and one lineman at $1,000 per year will also be necessary. It is for this purpose that the issue for special revenue bonds in the sum mentioned is required.

I also request that the necessary action be taken by your body to authorize the appointment of one cable splicer at $1,200 per annum and one lineman at $1,000 per annum to perform this work. As this department is without employees or material to carry on this work at the present time, I respectfully request prompt action upon this application. Very truly yours, ROBERT ADAMSON, Fire Commissioner.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, May 22, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of eight resolutions adopted by the Board of Estimate and Apportionment May 12, 1916, relative to the issues of corporate stock, as follows:

Cal. No. 85. Authorizing the issue of $32,000 corporate stock for the construction of timber jetties and bulkheads at Jacob Riis Park, under the jurisdiction of the Department of Parks, Borough of Queens.

Cal. 88A, 88B, 88CD, 88EI, 88J—Authorizing the issue of corporate stock and serial bonds to the amount of $3,511,387 for the construction and equipment of public school buildings, and additions thereto, in the various Boroughs of The City of New York, under the jurisdiction of the Department of Education.

I also transmit herewith copies of reports of the Committee on Corporate Stock Budget and the Committee on Education relative thereto. Respectfully,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding thirty-two thousand dollars ($32,000), to provide means for the construction of timber jetties and bulkheads at Jacob Riis Park, under the jurisdiction of the Department of Parks, Borough of Queens, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, maturing not more than fifteen (15) years after date of issue, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid; provided, however, that no encumbrance or expenditure by contract shall be made against the proceeds of corporate stock herein authorized, nor shall bids upon such contracts be advertised for until after approval by the Board of Estimate and Apportionment of the plans, specifications, estimates of cost and forms of such contracts, which shall be submitted to said Board by the Commissioner of Parks, Borough of Queens, nor shall any architect, engineer, expert or departmental employee be engaged or employed as a charge against such proceeds, except after approval by said Board of such employment and of the fee or wage to be paid by preliminary and final contract, voucher, or budget schedule, which are to be similarly submitted, unless in the case of departmental employees such employment is in accordance with schedules approved by the Board.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 24, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On February 1, 1916, the Commissioner of Parks, Borough of Queens, requested $34,000 in corporate stock for the purpose of constructing twelve groynes or jetties at Jacob Riis Park, together with a bulkhead and necessary back fill for same.

The Bureau of Contract Supervision, to which the request was referred on February 2, 1916, reports thereon as follows:

"This park, consisting of about 252 acres, was acquired by the City at a cost of about $5,200 per acre in 1912. It is located on the ocean front. Since its acquisition about twenty acres have been cut away by the action of the waves during storms. It is probable that if groynes are not constructed more of the park shore will be eroded. The City has constructed groynes for the protection of about 1,000 feet of the ocean front of this park adjacent to the Neponsit Beach Hospital, by the method proposed in this request. This work has resulted not only in preventing any further erosion but in the reclamation of about three acres of land in a strip along the shore about 150 feet wide, which was under water when the groynes were constructed.

"It is probable that if the proposed groynes are constructed about fourteen acres along about 2,400 feet of the shore front which has been lost by erosion will be recovered. The total cost of doing this work under normal conditions would be about $36,000. The cost of all materials at this time, however, is so high that the total cost, if let at this time, would be about $40,000.

"Owing to the fact that the Park Department has received through the Sinking Fund Commission from the Dock Department without cost, except for delivery, a sufficient number of piles to do this work, it is estimated that $32,000 will be sufficient.

"After the proposed work is finished there will still be unprotected about 1,500 feet of a total shore front of 4,900 feet. Owing to the conformation of the shore line the tendency toward erosion is not so great along this 1,500 feet as it is where the proposed work is to be done. Consideration of the remaining 1,500 feet can therefor be deferred."

We recommend the adoption of the attached resolution granting the request to the extent of $32,000. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

To the Board of Estimate and Apportionment:

Gentlemen—On April 12 and 19, 1916, the Board of Education withdrew its request of December 29, 1914, as repeated on February 23, 1916, for corporate stock, to the amount of $6,471,739 for school buildings and sites and substituted therefor, nine requests for funds aggregating $4,796,212, to be provided by the issuance of corporate stock or otherwise for the purpose of altering old school buildings, acquiring new sites or additions to existing sites, and constructing new buildings or additions to old buildings in the more congested sections of the city, to the end that part-time and double session classes may be abolished, unsatisfactory and emergency class-rooms and buildings abandoned, over-sized classes reduced and expected growth in population provided for, through the adoption of a duplicate school plan of organization, without commitment to any particular plan of instruction or course of study. Related communications from the Children's Welfare Committee of Bronx County and from the Old South Brooklyn Civic League urging the necessity of relieving congestion in their respective districts are also considered herewith. In connection with the whole matter of providing school accommodations the Committees on Education and on Corporate Stock report jointly as follows:

Summary of Request and Recommendations.

The request for $4,796,212 herein considered includes $794,017 for additions to the Newtown High School in Elmhurst and the Bryant High School in Long Island City. The remaining $4,002,195 is to provide funds to complete the Bronx reorganization in Districts 25 and 26, including a new building, and extend it to two schools (Nos. 30 and 43) in District 23 in the southern part of that borough; to reorganize the schools on the upper east side of Manhattan, between 97th and 113th Streets (Districts 16 and 17); to relieve congestion in the Williamsburg section (District 31), the Greenpoint section (District 34) and the Brownsville section (Districts 39 and 40), to replace old P. S. 29, located at Columbia and Amity Streets (District 28), and to construct a new building to relieve P. S. 135 in the Rugby section (District 38) of Brooklyn; and to provide additional accommodations for P. S. 6, which is located in the Steinway section of Long Island City.

It is recommended herein that $5,900,239 be appropriated, which amount is $1,104,027 in excess of the request as submitted. This excess of recommended appropriation over request is due to the fact that fifty-one unit buildings have been substituted for twenty-six room buildings to replace P. S. 29 and relieve P. S. 135, respectively, in the Borough of Brooklyn, and that an additional fifty-one unit building has been provided for Brownsville and East New York. Of the total appropriation recommended, $794,017 is for additions to high schools. The remaining $5,106,222 is for the reconstruction and extension of the existing elementary school plant.

An All-Embracing Plan to Abolish Part-Time.

This request for $4,796,212, which has the unanimous approval of the Board of Superintendents, represents the first installment only of an all-embracing plan to provide a full day's schooling for every child throughout the entire city. With the exception of two items which pertain to high school additions in the Borough of Queens, it is based upon the assumption that part-time conditions in the elementary schools involved are to be eliminated through the reorganization of these schools on a duplicate school plan, i. e., a plan under which two duplicate school organizations occupy the same school building at the same time, one using the regular class-rooms while the other utilizes the auditorium, the gymnasium, the playground, the library, the laboratories and other so-called extra facilities. Corporate stock and tax levy aggregating $807,260, in the sums of $50,000 for P. S. 89, Brooklyn, and $757,260 for twelve schools in Districts 25 and 26, The Bronx, respectively, was made available last year for reorganizing these schools on a duplicate school plan.

Since these appropriations of 1915, plus requests herewith presented, will affect schools which will accommodate 150,000 children, it is important to summarize the expected results. The following table covering the entire duplicate school proposition to date shows that:

1. By reorganizing present schools to eliminate part-time and double session classes at a cost of $3,595,330.71, there are 26,482 children (69.7 per cent.) taken off part-time and 27,949 children (31.8 per cent.) taken off double sessions, and additional capacity provided for 531 classes or 21,771 children at a per capita cost of $73.39, as against a cost of $265.54 per capita under the traditional school plan. Besides 161 classes are removed from unsatisfactory class-rooms and buildings.

2. By constructing a new building to relieve Public School 135, Brooklyn, the new Bronx school and the new Brownsville school, additional capacity is provided for 216 classes to contain 8,856 pupils for future growth at a cost of $1,911,874.50 and $215.88 per capita, as against a per capita cost of $304.88 under the traditional school plan.

3. By constructing new Public Schools 20 and 29, Brooklyn, 114 unsatisfactory class-rooms are replaced and accommodations provided for 144 classes containing 5,904 pupils at a per capita cost of $251.85, as against a per capita cost of $304.88 under the traditional school plan.

A great deal has been said concerning part-time and double sessions. It is evident from the above table that moderate money will go a long way in eliminating part-time and double sessions by reorganization on the duplicate school plan, which provides accommodations for 48,987 children at a cost of $73.39 per capita. The construction of new buildings for future growth in Flatbush, Brownsville and The Bronx requires relatively a much greater expenditure of funds, providing accommodations for 8,856 children at a cost of $215.88 per capita. This is true also of the construction of new buildings for replacements in Districts 28 and 31, which provides accommodations for 5,904 children at a cost of $251.85 per capita.

The real school housing problem in New York City and in every city is not the elimination of so many children on part-time and double sessions. New York has 117,000 children on part-time and double sessions. But if the Board of Superintendents were to reduce to normal size the 309 classes with registers of above 55 and the 991 classes with registers of 51 to 55, and the 716 classes with registers of 50, and the 3,908 classes with registers of 45 to 50, such reduction of over-size classes would add 100,000 more children to part time and double sessions. And if the various emergency class-rooms and unsatisfactory school buildings were vacated, another 70,000 children would be added to part-time and double sessions. Of the total register 658,904 in the regular grades (1A—8B) (December 31, 1915), 287,000 might have been better off on part- time. A child in a good school room in a class of normal size on part-time for four hours is better off than in an over-size class five hours or in an unsanitary and unsuitable class-room for five hours. The real problem in New York City is to provide new school-room capacity for 58,500 or one-half of the number on part-time and double sessions to relieve such conditions and in addition provide new school-room capacity for 85,000 children to reduce oversized classes and eliminate emergency and unsatisfactory class-rooms. With the traditional plan this would necessitate the construction of 3,500 class-rooms at a cost of $42,000,000 on present estimated cost of $12,000 per class-room, and no provision would be made for future growth.

The problem of providing a school seat for every child is not difficult, for New York City now has and always has had more school seats than children in the schools. The real problem is to provide a school seat for every child at the place where the child can use it in a shifting population, and to scrap the worn out plant and equipment. It would be interesting to know how many unused school sittings New York would now have if the City had been able at all times to provide a school seat for each child at the place where he could use it. No city of any size has yet been able to provide satisfactory school accommodations on the basis of a reserved school seat for every child at the place where each child happens to be at the time.

No satisfactory estimate can be made at present of the value of school properties to be vacated or of the total annual reduction in operating cost due to the operation of a less number of plants. The proposal so far abandons the plants of Public Schools 17, 37, 38, 59, 166, 20, 29 and 13 in Brooklyn and the annexes to Public Schools 101 in Manhattan, 2, 4, 45 and 42 in The Bronx and 17 and 19, Brooklyn, and reduces the number of school organizations by three.

Although it is impossible to estimate accurately in advance of exact determination for each one of the several school districts the exact amount of money that will be required to reconstruct and extend the existing school plant in order to adapt it to a work-study-and-play plan of instruction in so far as may be required to eliminate part-time and double sessions, to reduce over-size classes, to provide necessary replacements, and take care of the growth in school population, it is safe to estimate that approximately $6,000,000 a year will be required for three years if high schools are included.

In deciding upon a method of procedure in providing adequate school accommodations, the relative urgency of elementary schools and high schools must be weighed. It would appear that relief for both types of school activity must be carried on simultaneously. If it is agreed that $6,000,000 annually is to be appropriated for school accommodations during three years, approximately one-fifth of this amount should be set aside for high school purposes. In the last analysis the high schools and the elementary schools should be considered as one organization and so far as possible the larger and better elementary school buildings should be reorganized to include at least the first two years of high school work.

The Plan for Reorganization.

In October, 1915, at a joint conference between the Committees on Education and Tax Budget of the Board of Estimate and Apportionment and the Committee on Finance and the Special Committee on Economy of the Board of Education, it was agreed that the Board of Education should report immediately to the Board of Estimate and Apportionment a comprehensive plan for making such changes as would be required in the elementary school plant, together with the approximate cost thereof, in order to adapt it to the work-study-and-play plan of instruction for the purpose of eliminating part-time, with the understanding that $5,000,000 would be made available for this purpose as soon as such plans had been jointly approved. Thereupon the Board of Superintendents proceeded to lay out a systematic plan for the entire City on the basis proposed.

All schools having part-time or double sessions were selected and grouped with a view to the elimination of undesirable rooms and the abandonment of unfit buildings. Noisy rooms, not adapted to regular academic work, were to be utilized for shops. A library was to be provided in the school building if there was no public library in the neighborhood. Provision was to be made for forty square feet of play space for every child playing. All playgrounds were to be equipped with adequate and proper apparatus. In addition, all schools were to be provided with shops, drawing rooms, science laboratories, sewing rooms, music rooms, cooking rooms, gymnasiums and auditoriums. In order to accomplish all this, duplicate X and Y schools were to be housed in a single building on the basis of seventy-two classes in a forty-five room building, and forty-eight classes in a thirty-room building. The school plant was to be adapted to this program by making structural changes in existing buildings, enlarging them, securing additional play space, constructing new buildings and providing such equipment as would be required for the new plan of instruction.

On March 8, 1916, after prolonged consideration there was presented to the Board of Education a report from the Board of Superintendents, submitting detailed plans for the proposed reorganization. It was estimated that $10,129,326 would be required to abolish part-time alone, and $12,464,784 if both part-time and double sessions were to be eliminated throughout the entire city. This report was referred to a special Joint Committee, composed of the Committee on Elementary Schools, the Committee on Vocational Schools and Industrial Training, and the Committee on Buildings. On March 22, 1916, this Joint Committee submitted to the Board of Education a report, recommending a request for corporate stock in the sum of $2,873,695. This report was ordered to be printed and sent to the members. On April 12 and 19 the request was amended by adding sundry new items and increasing the several estimates for construction work twenty-five per cent. It now aggregates $4,796,212, of which $2,790,465 is for new buildings or additions, $361,767 for alterations to old buildings, $308,980 for additional equipment for old buildings, $1,131,000 for sites, and $204,000 for salaries of inspectors and draftsmen and contingencies, distributed by boroughs as follows:

Part-Time and Double Sessions.

The official figures for the day elementary schools for the month of March, 1916, show a total registration of 728,409 pupils, of whom 96,283 in the first year receive only four hours instruction per day instead of five, and 31,287 in various grades above the first year receive less than five hours instruction, and in the first year receive less than four hours instruction per day in so-called part-time classes. The total registration is distributed as follows.

Full time instruction consists of two sessions aggregating five hours daily separated by an intermission of at least one hour. In 1913 the By-Laws of the Board of Education were so amended as to provide that four hours teaching daily, consisting of two sessions separated by an intermission of at least one hour, should be considered full time for all classes in the first year grades. Classes having less than full time, as so defined, were to be designated part-time classes. An apparent reduction in the number of pupils on part-time was thus brought about by a mere change in terminology. Although the official record as quoted above shows only 31,287 pupils on part-time for the month of March, there were 96,283 additional pupils in the first year grades who were receiving only four hours instruction per day. This makes a total of 127,570 pupils who were receiving less than the standard five hours per day. In addition to the aforesaid part-time and four hour classes, there are a number of classes above the first year on a so-called double session plan whereby two classes are accommodated for four hours each in one class-room, the additional hour required for a five-hour day being spent in the auditorium and playground.

All part-time and double session devices hitherto tried in the New York City schools have had as their objective the securing as nearly as possible of facilities for the traditional five-hour curriculum. They were not designed to secure greater advantages for the children than are offered by the ordinary single school system. Under the duplicate school plan it is proposed by means of a two-school organization in each building to provide at least six hours in school for the children with greatly enlarged opportunities. By providing sufficient facilities in auditoriums, gymnasiums, playgrounds, laboratories, work shops, studios and science laboratories to accommodate approximately half of the children at any one time, by keeping all facilities in constant use and by extending the school day for children, only one classroom is required for every two classes. It should be clearly understood, however, that this duplicate school plan is not a part-time plan nor is it a double session plan. Neither is it a temporary expedient to be adopted merely until a sufficient number of school buildings can be erected to provide a seat for every child. It is a new and better type of school organization designed eventually to entirely supersede the old traditional plan of a seat for every child.

The Joint Committee of the Board of Education had before it statistics showing congestion in all schools throughout the city. The plan for proceeding with the reorganization was based upon the order of urgency in the relief of congestion by districts. As will appear from the following table of the total registration of 31,287 pupils on part-time, as of March 31, 1916, the Borough of The Bronx had 14,512 or 46.3 per cent., Brooklyn being second with 10,975 or 35.1 per cent., and the remaining boroughs, Queens, Manhattan and Richmond, following in the order named:

In taking up the work of reconstructing the elementary school plant to adapt it to the work-study-and-play plan of instruction, the Joint Committee decided to complete the reorganization already under way in the Borough of the Bronx, which is the most congested of the five boroughs. In addition to this it was decided to reorganize the four districts in Brooklyn showing the greatest congestion, and to relieve over-crowding in the upper east side of Manhattan, a new forty-eight room building for the relief of the latter locality (District 17) having been first in order of urgency in the request for $6,471,739 hereinbefore mentioned, which was withdrawn. Besides relieving the four most congested districts in the Borough of Brooklyn, it was also decided to replace old Public School 29 in District 28, which is not only congested but also unfit for occupancy; also to relieve P. S. 135.

The Reorganization in Manhattan.

While, as will appear from the part-time statistics hereinbefore given, there is no part-time instruction in Districts 16 and 17, Manhattan, the following table shows that there are fifty-four classes on the double-session plan in the seven schools which it is proposed to reorganize, and that the average size of class for the group as of March 31, 1916, exclusive of kindergartens, is 45.9 pupils. It should further be noted that 28 of the class rooms now in use are emergency rooms and that in P. S. 83 twenty-six classes are accommodated in thirteen rooms, two classes with small registers occupying each room at the same time.

The reorganization provides for 492 classes as against 440 as of March 31st. This will make it feasible to eliminate all unsatisfactory rooms and double session classes, and to reduce over-size classes, while at the same time the general educational facilities of the group of schools as a whole will be greatly extended and improved.

As will appear from the following table, the total amount of money to be expended in these two districts aggregates $411,821, of which total $100,000 is for additional land for public schools 83 and 101, $166,500 is for the construction of an addition to P. S. 83, and the remainder for alterations and equipment:

In view of the fact that the reorganization of P. S. 121 will make necessary expensive alterations in the old building, which is a remodeled silk factory, it is recommended that no change be made in the building at present, until such time as a new building can take the place of the old part. In the appropriation recommended for the Borough of Manhattan the item of $16,055 for alterations and equipment of P. S. 121 has therefore been disallowed. The reorganization of the main building of P. S. 101 will make possible the abandonment of the nineteen-room leased annex to this building.

The Bronx Reorganization.

As will appear from the summary statement for the Borough of The Bronx which follows, $757,260 was appropriated for the reorganization of twelve schools in districts twenty-five and twenty-six during 1915. An additional amount of $1,001,570 for these two districts is included in the request herein considered, of which amount $668,474 is to provide a new site and building in the vicinity of 179th Street and Third Avenue. This new building is to take the place of two new buildings, for which funds were requested in items 2 and 3 of the estimate which was withdrawn, one at 179th Street and Third Avenue, the other at 180th Street and Southern Boulevard.

The sum of $170,000 was provided in 1915 for an addition to P. S. 45. In addition to this amount, an expenditure of $100,000 for a site (180 ft. by 353 ft.) for playground purposes and of $40,000 for a site (180 ft. by 114 ft.) for garden purposes is proposed. This seems to be an unduly large expenditure for land at one school, but the entire block which it is proposed to acquire for a playground is intended to serve P. S. 5 and 32 also for general playground purposes. As P. S. 45 has almost entirely Italian children, who with their parents are interested in gardening, it has been decided to emphasize the gardening and agricultural aspects of vocational training in this particular school. Both of these sites have been loaned to the school since its re-organization. The sum of $25,000 is requested to purchase additional land at P. S. 40, in order to extend the present playground. The sum of $113,896 is requested in order to make the necessary alterations in the original buildings of P. S. 32, 45, 4 and 40, for which funds for annexes were allowed during 1915. In addition to completing the reorganization in districts 25 and 26, it is further proposed to reorganize P. S. 30 and 43, two of the most congested schools in district 23. In detail, the items for the Bronx are as follows:

At the present time but six of the twelve schools in the Bronx for the reorganization of which funds were granted during 1915 have been so re-organized, viz., Nos. 6, 28, 42, 44, 45 and 53. The following table shows that of the total registration of 36,024 in the twelve schools in 825 classes exclusive of kindergartens, 68 first year classes are on the double session plan, 226 classes are on part time and 378 classes in the six re-organized schools are on the Gary work-study-and-play school plan. When the re-organization of the three remaining schools (Nos. 2, 5 and 50) which do not require annexes and the four which require annexes (Nos. 4, 32, 40 and 45) is completed, there will be accommodations for 854 classes, exclusive of the kindergartens. All of these classes will receive at least five hours instruction, and the majority will receive six hours.

†Estimated.

In addition to the twelve schools which are being reorganized, there are two new seventy-two class buildings now under construction, Nos. 54 and 55, which will be completed during 1916. These buildings, together with the one in the vicinity of 179th Street and Third Avenue, for which corporate stock is requested, will increase the class capacity of the schools in the neighborhood from 854 to 1,070, as against 825 classes now on register, exclusive of kindergartens. This will mean a class capacity of 245 in excess of the existing number of classes, as well as a full school day for the 294 classes at present on double session and part time. When it is considered, however, that the average number of pupils per class in the twelve schools under consideration is 43.6, as against a corresponding average of 41.7 for the city as a whole, and that the increase in districts 25 and 26 for the past five years has been 16,411 pupils, or 92.3 per cent., and 7,428 pupils, or 56.8 per cent., respectively, and further, that at least three years must elapse before the new building at 179th Street will be ready, it will be seen that the school accommodations which are proposed are not more ample than should be projected for this rapidly increasing center of population.

For the Borough of Brooklyn, an aggregate amount of $2,212,179 is requested for the purpose of reorganizing the four most congested districts, i. e., 31, 34, 39 and 40, and for the construction of two new buildings in other districts, one to replace old P. Public School 29, which is located at Columbia and Amity streets, in District 28, is housed in an old building which has for long been unfit for occupancy. This building has been in use for school purposes since its purchase by the City in 1864, prior to which time it was a public dance hall. The Board of Education has requested $160,000 for the acquisition of a new site, and $292,000 for the construction thereon of a twenty-six class room building to replace this old structure. In requesting money for a new building, no comprehensive study was made of the needs of the entire district in order to work out a plan for providing complete and satisfactory school accommodations. Besides old P. S. 29, there are two other unsatisfactory school buildings in the neighborhood, viz., Nos. 13 and 58, which should ultimately be abandoned. It seems advisable, therefore, to provide for the construction of a standard fifty-one unit building at this time to accommodate 72 classes, with all facilities necessary for a work-study-and-play school program. It also seems advisable to provide for alterations in and an addition to No. 6, and for the reorganization of No. 142, as proposed in the report of Superintendent McAndrew, in order to relieve congestion in P. S. 27, 32, 78 and 46, and provide for the abandonment of eight unsuitable rooms in the latter building. The total expen-

diture for the ultimate solution of the entire school problem in District 28 will thus have been covered. It is, therefore, recommended that $543,474 be appropriated for the construction of a fifty-one unit building to replace No. 29, that $103,690 and $10,000, respectively, be appropriated for an addition to and alterations in P. S. 6, and that $15,470 be appropriated for alterations to and equipment of P. S. 142. By the extension of the duplicate school plan through the reorganization of Public Schools 6, 78, 142 and 30, the needs of the entire district can thus be satisfactorily met and accommodations will be available for high school purposes, besides.

The following table shows the conditions in the schools of District 28, in which 14 classes are on part time and 45 are on the double session plan, while 15 rooms are unfit for use. The average size of class for the district as a whole is 44.6, which is very high when average conditions in the city as a whole are considered:

Average size of class, 44.6.

Public School 135, located on Church Avenue and East 48th Street, in the section known as Rugby, is a twelve class school, occupying an eight room portable building on a leased site. Although the school has all grades, it has no suitable facilities for shop work and domestic science. The Board of Education has requested $72,000 for the purchase of a site and $292,000 for the construction of a twenty-six class room building to relieve this school. It is stated that the new building is to be on Snyder Avenue, but whether in the vicinity of 48th Street, near P. S. 135, or to the west in District 38, near 33d Street, to relieve congestion in Public Schools 89, 90, 92 and 152, as was proposed in Item 9 of the Corporate Stock request which was withdrawn, is not definitely stated. The children attending P. S. 135 live for the most part along Church Avenue west of the school. In the vicinity of Snyder Avenue and 33d Street there is a rapidly growing district with a large number of children that are inadequately housed in P. S. 90. By erecting a new building in this locality, P. S. 90 may be relieved as well as P. S. 135. This territory is so large and the development thereof so well assured that it seems advisable to construct a standard fifty-one unit building to accommodate 72 classes on a duplicate school plan instead of a twenty-six room building as proposed. It is therefore recommended that $543,474 be appropriated for this purpose instead of $292,000 as requested.

The Williamsburg and Greenpoint Sections.

For the re-organization of District 31, which is the Williamsburg section, and District 34, which is the adjoining Greenpoint section, the sum of $997,164 is requested. Of this total, $240,000 is for the acquisition of a new site and $543,474 for the construction of a new building to replace old P. S. 20, located at Union Avenue and Keap Street. These districts illustrate clearly the necessity of providing for the replacement of old buildings from time to time. The two districts have twenty-three separate school buildings, of which ten are unsatisfactory for school purposes. In solving the part time and double session problem it would be possible, by re-organizing P. S. 143, 132 and 19, to relieve the congestion in these buildings and also to take care of all the classes in P. S. 20. But by erecting a new building for P. S. 20 in the vicinity of P. S. 17, as well as re-organizing the other schools occupying the best buildings in the districts, not only old No. 20 and the annex to No. 19, but also Public Schools 38, 37, 166, 17, and the annex to 17, might be abandoned. The saving in the operation of one large new building as compared with the operation of the six old buildings mentioned will be approximately $25,000 a year.

No request is made for a new building to take the place of Public Schools 31 and 22, although these schools, which have a combined register of sixty-nine classes exclusive of kindergartens are improperly housed in old buildings without adequate facilities. A new fifty-one unit building should be erected in the near future to replace these buildings. Public School 51, which will not be needed for elementary school purposes, might be used as an annex to the Eastern District High School to accommodate the pupils now housed in P. S. 143.

As will appear from the following table of statistics regarding registration, number of classes, and school capacity present and proposed, for Districts 31 and 34, there are 49½ classes on part time and 117½ classes on double session in the two districts, which have a total of 696 classes exclusive of kindergartens. Including new P. S. 20 and excluding old buildings to be abandoned, the re-organization will provide accommodations for 752 classes, an excess of 56 over the existing number. This would appear to be ample to provide for the reduction of over size classes and for immediate growth in population.

The Brownsville Section.

The total amount of money requested for the reorganization of the schools in the Brownsville section of Brooklyn (Districts 39 and 40) is $399,015, of which total $104,000 is for additions to buildings, $118,835 for alterations in old buildings, $115,180 for equipment, and $61,000 for additional sites. As most of the school buildings in the Brownsville section are comparatively new, this problem is one of changing existing buildings, adding new equipment and additional playground space, rather than of replacing old buildings. As will appear from the following table giving statistics for school registration, number of classes and school capacity present and proposed, accommodations are provided in the reorganization for 914 classes as against an existing number of 754 exclusive of kindergartens. In view of the great demand for additional high school accommodations in this section, $840,000 having been included in the Corporate Stock request which was withdrawn, for the purpose of constructing a new high school building on the site owned at Dumont, Pennsylvania and Sheffield Avenues, it should be noted that it will be practicable to utilize fifty or sixty of the increased class capacity of 160 provided under the reorganization in these two districts for the accommodation of high school pupils in elementary schools, especially in Public Schools 109 and 64. In fact, it is entirely feasible to devote one section of the latter building exclusively to high school purposes since it has two auditoriums and is so large that complete facilities might be provided for a separate high school organization if the union of high and elementary schools in one organization should appear undesirable. The remaining capacity for one hundred classes will be available for the reduction of over size classes and the growth of population. Although no request has been made for a new building in the Brownsville section, it is evident that additional relief for Public Schools 174 and 149 cannot be much longer delayed. The City owns a site near P. S. 174, at Dumont, Pennsylvania and Sheffield Avenues, which was acquired for high school purposes. In view of the fact that Brownsville has four very large elementary schools that should have high school departments, i. e., Public Schools 64, 84, 109 and 156, the high school site near P. S. 174 should be used for a combination elementary and high school. It is therefore recommended that $543,474 be appropriated at this time for the construction of a fifty-one unit building on the aforesaid site.

Reorganization—Borough of Queens.

The original request now under consideration did not include any provision for the Borough of Queens, it being the intention to consider the needs of that borough in a subsequent report. Owing to the local pressure, an item in the sum of $99,095 to relieve congestion in P. S. 6 was inserted therein, of which amount $45,500 is for a six-room addition to the building, $40,000 for additional land, $2,250 for alterations and $11,345 for equipment. The cost of acquiring three additional lots estimated at $20,000 was, in error, duplicated in the request.

Public School 6, which is located on Steinway Avenue near Broadway, is a building containing thirty-six class rooms, an auditorium, a shop and a kitchen, in which forty-six classes are now housed. Twelve classes are on part time and six on the double session plan. Under the work-study-and-play duplicate school organization, P. S. 6 could easily accommodate fifty-four classes without building an addition if proper playground facilities were provided. The building development in the neighborhood indicates that this increase of eight in class capacity will be needed in the near future. The three lots requested should be acquired and two more in addition. It is recommended that the request for an addition to the building be denied but that funds for five lots, for alterations in the present building and for special equipment, be provided. The additional capacity required for further growth in population in this section of Long Island City, can be provided through the reorganization of Public Schools 4 and 5. Later it will be advisable to build on the site owned at Pierce and Rapelje Avenues.

High School Additions.

In addition to the foregoing provision for the reorganization of elementary schools, the request under consideration includes $399,187 for an addition to the Newtown High School and $394,830 for an addition to the Bryant High School, which items were fifth and sixth respectively in order of urgency for the city as a whole in the request for $6,471,739 that was withdrawn.

The Newtown High School is so congested that some provision for its relief is imperative. The school is housed in a building which was constructed prior to consolidation for a so-called union school. Although occupied exclusively by high school pupils it has never been provided with high school facilities. The school has 1,159 pupils on register in a building which was designed to accommodate 800 pupils. An additional register of 245 pupils is housed in P. S. 89, an elementary school building some one-half mile away. The latter building has now become so crowded that the high school pupils temporarily accommodated therein must be provided for elsewhere without delay. The high school building occupies an entire block (200 feet by 375 feet), the site having been enlarged several years ago for the express purpose of accommodating an addition. The proposed addition will contain an auditorium, a library, two drawing rooms, two laboratories, one cooking room, two sewing and dressmaking rooms, one typewriting room, one music room, two study halls, two gymnasiums and two lunch rooms.

The Bryant High School which is located on Wilbur Avenue, Long Island City, near the Plaza of the Queensborough Bridge, occupies a building which has never been completed, the section originally designed to contain an auditorium and a gymnasium never having been constructed. There is no question that the school should be provided with the additional facilities required for high school work. A room in the basement has been converted into a gymnasium but the low ceiling makes ventilation difficult and besides there is an absolute lack of dressing rooms and locker facilities in connection therewith, nor are there shower baths and other customary conveniences. The school has 1,481 on register, of whom 219 are accommodated in P. S. 4 nearby and 182 in P. S. 7 at Astoria. Additional capacity is needed to accommodate the pupils now housed in these two elementary school buildings and, besides, the school is without proper facilities for the several courses which it offers to students, one of which is a course in manual training. It is proposed to construct an addition on the present site to contain an auditorium, two laboratories, two shops, two drawing rooms, one typewriting room, one geography room and two lunch rooms.

Sites.

For the acquisition of eighteen new sites required for the reorganization herein considered, the Board of Education requested $1,131,000. The $20,000 estimated to be required for additional land adjoining P. S. 6, Queens, was in error duplicated in the request. The proposition to acquire land adjoining P. S. 149, Brooklyn, had been abandoned, but the item of $10,000 for the acquisition thereof was inadvertently not eliminated from the estimate. If the buildings to replace P. S. 29 and to relieve P. S. 135, Brooklyn, are to be increased to fifty-one units each, it is desirable that larger sites be acquired. For P. S. 6 in Long Island City it is also recommended that five lots be acquired instead of three. Furthermore, it is also desirable that more land be acquired for P. S. 23, Brooklyn, than was originally proposed. The change in the location of P. S. 20, Brooklyn, will also affect the amount required for the purchase of a site for the new school. The site for the new school at 179th Street and Third Avenue, The Bronx, should also be larger than proposed. Taking all these matters into consideration, the Appraiser of Real Estate, Department of Finance, has estimated that $1,121,000 should be provided for the acquisition of sites, which sum is herein recommended.

Report of Bureau of Contract Supervision.

The Bureau of Contract Supervision has analyzed and checked the estimates of cost, which have been found to be reasonable. For the new buildings and additions, these estimates have been based on actual costs of existing buildings of approximately the same capacity and size, plus 25 per cent. because of the advanced prices of materials and labor. The estimates of cost for the alterations have been based on tentative plans and studies for the proposed changes. These plans have not been completed beyond the stage of preliminary sketches. For the equipment to be provided, standard prices for the various rooms have been set up and used throughout the estimates. It is possible that before the final adoption and approval of the plans there may be changes in the numbers and classes of the various rooms to be equipped due to a subsequent rearrangement of the activities to be provided. The amounts estimated will allow of increases in some instances to be offset by decreases in others. Before the execution of any of the contracts it is recommended that the approval of the Board of Estimate and Apportionment be required in order that satisfactory provision be assured for the various activities and proper estimates of cost approved.

No. 546.

Resolution Authorizing Lease of Floor Space in Garfield Building, Borough of Brooklyn, for Use of Supreme Court of Kings County.

The City of New York, Department of Finance, Comptroller's Office, May 22, 1916.

To the Honorable, the Board of Aldermen of the City of New York:

Gentlemen—On April 20, 1916, the Commissioners of the Sinking Fund adopted a resolution authorizing a lease of 13,402 square feet of floor space on the first, second and third floors in the building known as the Garfield Building, at the northwest corner of Court and Remsen Streets, in the Borough of Brooklyn, for use of the Supreme Court of Kings County, for a period of one year from May 1, 1916, at an annual rental of $15,000, payable quarterly.

The premises in question are being leased as temporary quarters for use of the Justices of the Supreme Court, pending the making of alterations and improvements to the present County Court House.

It will be noted that while $15,000 is the amount of the annual rental, but $10,000 will be required, owing to the fact that the lease begins as of May 1, 1916, and no provision was made in the budget for the year 1916 for this lease.

In view of the conditions above named and in order that proper provision may be made for the payment of this rent, I respectfully recommend that your Board adopt the following resolution:

Resolved, That in pursuance of Subdivision 8, Section 188, of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in the amount of $10,000.00, the proceeds whereof to be used by the Comptroller for the payment of rent for 13,402 square feet of floor space on the first, second and third floors in the building known as the Garfield Building, at the northwest corner of Court and Remsen Streets, Borough of Brooklyn, for use of the Supreme Court of Kings County, under a lease to the City from May 1, 1916, to December 31, 1916, the same being a charge against the County of Kings. Respectfully..

ALEX. BROUGH, Deputy and Acting Comptroller.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, May 23, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of two resolutions adopted by the Board of Estimate and Apportionment May 19, 1916, recommending the establishment of additional grades of positions in the various City departments, as follows:

	Department and Position.	Rate Per Annum.	Incumbents.
Cal. No. 89C	Board of Estimate and Apportionment—		
	Mechanical Engineer	$2,100 00	One.
Cal. No. 99	Commissioners of Accounts—

	Deputy Commissioner of Accounts.....	4,000 00	One.

I also transmit copies of reports of the Committee on Salaries and Grades relative thereto. Respectfully, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.

A true copy of resolution adopted by the Board of Estimate and Apportionment May 19, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 27th, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On April 18, 1916, the Director of the BUREAU OF CONTRACT SUPERVISION requested *modification of Code No. 24 for* 1916. The Bureau of Standards reports thereon as follows:

"Purpose—To change a position of Fuel Engineering Chemist at $2,100 to Mechanical Engineer at the same rate.

"Reason—In order to appoint Mr. Amos T. Smith, a Mechanical Engineer. Mr. Smith was dropped from the service in the Department of Water Supply, Gas and Electricity on Dec. 31st, 1915; his salary at that time was $1,800 per annum. For a period in excess of five years and up to within a few months of the time when he was dropped his salary had been $2,400 per annum.

"Finding—The work to be performed falls within Grade 1, of the specifications for Chemist, with a salary range from $1,260 to $2,100 per annum. It is stated that Mr. Smith is qualified to perform this work. In view of Mr. Smith's previous length of service the request to reinstate him at the maximum rate for the work which he is now to perform appears reasonable. In view of the fact, however, that under the present application of the provisions of section 56 no fixation of the rate of $2,100 has been made by the Board of Aldermen for the Board of Estimate and Apportionment, it appears necessary to provide a higher salary than the one requested by the director which is satisfactory to Mr. Smith if the position is to be filled at this time. The rate of $2,400 was fixed by the Board of Aldermen on March 24, 1914. A vacant position of Transitman at $1,320 may be eliminated to provide the necessary funds."

Recommendation—That the schedule be modified to provide a Mechanical Engineer at $2,400, and that authority be given to make the appointment. Adoption of the attached resolution recommending fixation of the position of Mechanical Engineer at $2,100 is also recommended. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, Mayor, LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

Board of Estimate and Apportionment—Certified Copy of Resolution Relative to Establishment of Various Grades of Positions in the Office of the Commissioner of Accounts.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Commissioners of Accounts, of the grades of positions, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Commissioner of Accounts.....	$7,500 00	One
Deputy Commissioner of Accounts.....	5,000 00	One
Deputy Commissioner of Accounts.....	4,000 00	One

A true copy of resolution adopted by the Board of Estimate and Apportionment May 19, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, May 18, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On May 12, 1916, the Commissioner of Accounts requested fixation in accordance with the provisions of section 56 of the Greater New York Charter, of the salary of the Commissioner and two Deputy Commissioners. The Bureau of Standards reports thereon as follows:

"Chapter 517 of the Laws of 1916 makes certain changes in sections 119 and 195 of the Greater New York Charter, which became effective on June 1, 1916. The new law provides for the appointment of a Commissioner and two Deputies, one of whom shall be a Certified Public Accountant, in place of two Commissioners. The salaries of these officials are to be fixed by the Board of Estimate and Apportionment and by the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter. The request is to fix the salary of the Commissioner at $7,500, of one Deputy Commissioner at $5,000, and of the other at $4,000.

"The present salary of the Commissioner is $5,000. The law as it stood before the enactment of the new act provided for two Commissioners at a salary of $5,000 each. For some time past only one Commissioner has held office. It was felt that while the duties of the office were entirely too great for one man to perform properly it was nevertheless preferable to conduct the office in charge of a single head until legislation could be obtained to relieve the situation.

"The office of the Commissioner of Accounts, because of the extensive powers vested in it, is one of great importance to the general City Government and particularly to the Mayor in the administrative control of the twenty-nine City departments for which he is primarily responsible. The duties of the office are investigative as well as constructive in character. The activities cover a very large field and require the services of a staff composed of accountants, lawyers, engineers and other examiners with specialized knowledge of various kinds. During the year 1915 the Commissioner completed 292 examinations of all sorts. In addition a great number were completed which had been begun prior to 1915, and many started which were not completed at the end of the year. Among the twenty surveys made during the year, one embraced the organization and functions of all city, county and borough offices. Another resulted in the first compilation of all mandatory legislation and its effect upon the cost of the government. The office was required to devote much time and work to the legislative needs of the City which were disclosed by its own and other investigations. Twenty-one bills were proposed to the Legislature to carry out the recommendations of the office. The auditing duties imposed upon the office by law resulted in forty-seven examinations of a financial nature during the year, which involved the receipt and expenditure of over $600,000,000. The request to place the salary of the Commissioner on a par with the salaries paid to Commissioners of all other important City departments appears reasonable.

"The requested position of Deputy Commissioner at $5,000 it is proposed to fill by the appointment ot a lawyer who will devote most of his time to the legal work of the office. The Commissioner under the law has authority to compel the attendance of witnesses, and to examine them under oath. The fact that during 1915 the Commissioner examined 564 witnesses may serve as a measure of the magnitude of the legal work of the office. The experience of the City in other departments indicates that the salary of $5,000 requested is a reasonable one for the work to be performed.

"The position of Deputy Commissioner at $4,000 will be filled by the appointment of a Certified Public Accountant, in accordance with the provisions of the law. He will be charged with the immediate responsibility for the auditing and accounting work of the office. A salary of $4,000 is reasonable."

In view of the foregoing, we recommend the adoption of the attached resolution granting the request. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

The President laid before the Board the following communication from the Board of Health:

No. 550.

Department of Health—Request for Permission to Award Contract for Repairs to Boat "Franklin Edson" Without Public Letting.

City of New York, Department of Health, Office of the Secretary, May 23, 1916.

To the Board of Aldermen, City Hall, New York City:

Gentlemen—In December, 1915, it became necessary to make certain repairs to the machinery of the steamboat "Franklin Edson" belonging to the Department of Health, representing an outlay of something more than three hundred ($300) dollars. While the work of estimating was in progress the boat met with an accident, colliding with a float of the New York, New Haven and Hartford Railroad Company, incurring an additional expense to repair the damages inflicted. The estimated total cost for both pieces of work was set at nine hundred and thirty-five ($935) dollars.

The boat was placed in dry dock and dismantled, preparatory to commencing the repairs. While there, an inspector from the United States Steamboat Inspection Service went over the boat and discovered certain defects in the boat which, under the provisions of the inspection service, would prohibit its use. He directed that the repairs be at once made, otherwise the boat would not be permitted to be launched. This meant an added expenditure of four hundred and twelve ($412) dollars, bringing the total to one thousand three hundred and forty-seven ($1,347) dollars.

In the first instance, the repairs as contemplated would not have been in excess of one thousand dollars and the work, therefore, was given out on an open market order to the lowest bidder. The inspection by the United States Steamboat Inspection Service representative revealed certain defects which increased the total cost of repairs and presents the matter in an entirely new aspect so far as letting out the work on open market order is concerned.

The steamboat service of the department is seriously crippled through the loss of this boat, there being but one launch at the disposal of the department at this time. The "Franklin Edson" is most urgently needed, and, in view of these conditions, it is requested that the Board of Aldermen, pursuant to the provisions of section 419 of the Charter, will allow the department to award this work without public letting, representing an amount slightly in excess of one thousand dollars—thirteen hundred and forty-seven ($1,347) dollars to the lowest bidder from the estimates in hand, so that the work may be proceeded with and no further delays occasioned when the department is so much in need of the service of the boat.

Very truly yours, EUGENE W. SCHEFFER, Secretary.

No. 551.

An Ordinance to Amend Subdivision 9 of Section 1 of Chapter 9 of the Code of Ordinances, Relating to the Definition of "Low Potential System."

The City of New York, Department of Water Supply, Gas and Electricity, Office of the Commissioner, Municipal Building, New York City, May 23, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen:*

Dear Sir—Through an inadvertance on our part, the ordinance recently passed amending Chapter 9 of the Code of Ordinances (Electrical Code) failed to correct an error in subdivision 9 of section 1 of the Code as originally adopted by the Board of Aldermen on July 6, 1915, and approved by the Mayor on July 16, 1915.

In acocrdance with section 523 of the Charter, I forward a proposed amendatory ordinance which will correct the aforesaid error. Respectfully,

DELOS F. WILCOX, Deputy Commissioner.

The President laid before the Board the following communication from the Armory Board:

No. 552.

Resolution Authorizing Issue of Special Revenue Bonds, $5,000, for Reinforcing Eight Trusses in the 14th Infantry Armory, Borough of Brooklyn.

Office of the Secretary, The Armory Board, Basement Suite 6, Hall of Records, New York, May 23, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Armory Board, at a meeting held May 8, 1916, as follows:

1. Requesting an issue of Special Revenue Bonds in the sum of $5,000 for reinforcing eight trusses at the 14th Infantry armory, Borough of Brooklyn. Respectfully,

C D. RHINEHART, Secretary.

Resolved, That the Armory Board hereby requests the Board of Aldermen to request the Board of Estimate and Apportionment to authorize an issue of Special Revenue Bonds, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, in the sum of five thousand dollars ($5,000) for reinforcing eight trusses on the 14th and 15th street sides of the 14th Infantry armory, 8th avenue and 15th street, Borough of Brooklyn.

A true copy of resolution adopted by the Armory Board May 8, 1916.

C. D. RHINEHART, Secretary, The Armory Board.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 28, 1916.

To the Armory Board:

Gentlemen—On April 4, 1916, you referred to the Bureau of Contract Supervision a communication from Messrs. Werner and Windolph, architects for the 14th Regiment Armory reconstruction now under way, recommending that the truss footings where now exposed on the 14th and 15th street sides of the armory be reinforced, and advising that borings be made over the westerly end of the armory site to determine the character of the soil on which the walls are built, with a view to strengthening the foundations should this prove necessary.

Where the footings of the truss foundations are now exposed, the piles which support the same are dry rotted. Although there appears to have been no settlement in these footings, it is only a question of time when there will be, The reinforcement of these footings is a comparatively simple matter now, due to the other work now going on.

The contractor for the reconstruction work now under way estimates the cost of the eight spread footings for the trusses, as shown on the architects' plan, at $5,849, exclusive of architects' fees.

The Bureau of Contract Supervision has made a careful analysis of the proposed work and estimates the cost at $4,645, which with the architects' fee, will total about $5,000. This estimate was approved verbally by the architect, after consideration in detail.

Referring to the borings along the westerly end of the armory, as suggested by the architect, an investigation by this bureau developed the fact that the site on which this armory is built was almost entirely occupied by a large pond. Old profiles of the surrounding streets would seem to indicate that the west wall is built on the west shore of this pond on firm ground. The original plans under which this armory was built cannot be found, so it is not possible to say whether there is piling under this wall, but the wall has stood for about 20 years without any indication of an unequal settlement, or any cracks appearing affecting its stability. As a settlement which would endanger this wall will probably not occur without ample warning and as the old profiles indicate the construction of this wall on solid ground, I do not believe that borings should be made until some indication of danger is shown.

In view of the above facts it is, therefore, recommended that the eight truss footings on 14th and 15th streets be reinforced at an estimated cost of $5,000, but that no borings be made at this time. It is also recommended that an inspector be detailed to this work during the actual construction of the footings. Respectfully,

TILDEN ADAMSON, Director.

I hereby certify that the above is a true copy.

C. D. RHINEHART, Secretary of the Armory Board.

In connection with the foregoing communication Alderman Kenney offered the following resolution:

Resolved, That, in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five thousand dollars ($5,000), the proceeds whereof to be used by the Armory Board for the purpose of reinforcing eight trusses on the 14th and 15th street sides of the 14th Infantry armory, 8th avenue and 15th street, Borough of Brooklyn.

The President put the question whether the Board would agree with said resolution. Which was decided in the affirmative by the following vote:

No. 553.

An Ordinance to Amend Section 604 of Article 29, Chapter 5 of the Code of Ordinances, Known as the Building Code, Relating Particularly to Registration of Plumbers.

AN ORDINANCE to amend section 604 of article 29, chapter 5 of the Code of Ordinances known as the Building Code, in relating particularly to registration of plumbers.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Sec. 1. Sec. 604 of article 29 of chapter 5 of the Code of Ordinances, known as the Building Code, relating to registration of plumbers, is hereby appealed in its entirety, and in the place and stead thereof the following be inserted:

Sec. 2. Annual registration of plumbers in bureau of buildings. (a) Once in each year every employing or master plumber carrying on his trade, business or calling in The City of New York, shall register his name and address at the office of the bureau of buildings in the borough of the said city in which he performs work, under such rules and regulations as the said bureau prescribes, and thereupon he shall be entitled to receive a certificate of such registration from said bureau, if, at the time of applying for such registration he holds a certificate from the examining board of plumbers of said city, and is a citizen of the United States. Each person obtaining such certificate from the examining board of plumbers after the date fixed by the bureau of buildings for registration, may, however, register with the bureau of buildings within thirty days after the issuance of such certificate. Such registration may be cancelled by the superintendent of buildings for a violation of the rules and regulations for plumbing or drainage of such city duly adopted, or in force pursuant to the provisions of this section, or whenever the person so registed ceases to hold a certificate from the examining board of plumbers or to be actually engaged in the business of master or employing plumber, after a hearing had before said superintendent, upon prior notice of not less than ten days.

(b) The plumbing and drainage of all buildings, both public and private in The City of New York, shall conform to the rules and regulations lawfully adopted by the superintendents of buildings of the various boroughs. Said rules and regulations hereafter adopted, and any changes thereof, shall be published in the City Record on eight successive Mondays before they shall become operative. Suitable drawings and descriptions of plumbing and drainage shall in all cases be submitted and placed on file in the bureau of buildings of the borough in which the work is to be performed, and the same shall not be commenced or proceeded with until the said drawings and descriptions shall have been so filed and approved by the superintendent of buildings. Repairs and alterations of plumbing or drainage may be made without the filing and approval of drawings and descriptions in the bureau of buildings, where such repairs and alterations do not include the use of new vertical or horizontal lines of soil, waste, vent or leader pipes. Notice of such repairs or alterations, however, shall be given to the said bureau before they are commenced, in accordance with the rules and regulations of said bureau. The superintendents of buildings shall have power to require sworn statements from persons registering under the provisions of this act before granting any permit to proceed with the work.

(c) The bureau of buildings in each borough is hereby charged with the enforcement of the provisions of this section and the next succeeding section, and in addition to such officers or employees as are now provided by law, the superintendent of buildings may appoint inspectors of plumbing, when appropriation for the salaries of the same shall have been duly made. Inspectors of plumbing shall, under the direction of the superintendents of buildings, in addition to their other duties, ascertain whether persons performing plumbing work in the city of New York are registered, as in this section provided, and shall file written reports in the bureau as to their investigations.

Sec. 3. Carrying on business of plumber without registration punishable by fine or imprisonment. (a). It shall not be lawful for any person, co-partnership or corporation to engage in, perform, or carry on the trade, business or calling of employing or master plumber in the city of New York unless such person, or each member of such co-partnership or corporation shall have been registered as provided in the foregoing section.

(b) It shall be unlawful for any person, co-partnership or corporation in the city of New York, unless said person, co-partnership or corporation shall have complied with the requirements of the preceding paragraph, to hold him or themselves out to the public as a master or employing plumber by the use of the word "plumber" or "plumbing," or words of similar import or meaning on signs, cards, stationery or in any other manner whatsoever.

(c) No person, co-partnership or corporation registered as provided in the preceding section, or who holds a certificate from the examining board of plumbers, shall, for the benefit of any person engaged in the plumbing business who is not so registered, apply for, receive or make use of any permit granted to him by reason of being so registered, or holding such certificate from the examining board of plumbers.

(d) Any person, co-partnership or corporation violating any of the provisions of this section or the preceding section shall be fined for such offence in a sum not exceeding two hundred and fifty dollars, or by imprisonment for a term not exceeding three months, or by both, and in addition shall forfeit any certificate of the examining board of plumbers or any certificate of registration he may hold at the time of such conviction.

(e) Nothing in this section or the preceding section shall abrogate or impair any of the powers of the health department, the tenement house department, the board of aldermen and the board of estimate and apportionment of the city of New York, with respect to the regulation of plumbing and drainage in the said city.

Sec. 4. This ordinance shall take effect immediately.

An Ordinance to Amend Article 11 of Chapter 10 of the Code of Ordinances of The City of New York, Relating to Garages and Oil-Selling Stations.

By Alderman Robitzek, at the request of the Fire Commissioner—

Fire Department of The City of New York, May 23, 1916.

Hon. HARRE ROBITZEK, *Alderman,* City Hall, New York City:

My Dear Alderman—I herewith enclose to you three ordinances, in duplicate, amending articles 1, 3 and 11 of Chapter 10 of the Code of Ordinances, relating to garages and oil selling stations.

The principal changes proposed are the classification of garages and fees for permits for maintaining and operating garages.

The necessity for mking these changes having been suggested to the Fire Commissioner, he has requested me to submit the same to you for introduction at your meeting today.

We feel that if these ordinances are passed there will be less friction between the public and the Department, and that the great majority of garage owners will heartily approve the changes recommended.

Permit me to call your attention to the fact that these three ordinances are companion ordinances, and therefore must be accepted or rejected together. You will recall that we had the original draft drawn as one ordinance, and that at your suggestion we changed the form to three separate ordinances.

Either Commissioner Adamson or I will be only too glad to attend any meeting you suggest in order to explain the situation more in detail. Very truly yours,

CLARENCE H. FAY, Deputy Fire Commissioner and Chairman, Board of Hazardous Trades.

Reports of the Committee on Finance—

No. 466.

Report of the Committee on Finance, in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $1,288, to Provide for Certain Wage Increases—President of the Borough of Richmond.

The Committee on Finance, to which was referred on May 9, 1916 (Minutes, page 475), the annexed request of the President of the Borough of Richmond for special revenue bonds, $3,780, to provide for certain wage increases, respectfully

REPORTS:

This matter was referred to the Bureau of Standards for investigation, and their report attached hereto approves of so much of this request as relates to 46 Drivers at $720 per annum. The remainder of the request is recommended for consideration in the budget for the year 1917, as these incumbents are paid within their grade. The Committee therefore concludes that that portion of the request relating to 46 Drivers at $720 per annum be approved, and the remainder be rejected. It therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand two hundred and eighty-eight dollars ($1,288) the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of providing for wage increases of 46 Drivers at forty-eight dollars ($48) each per annum.

The City of New York, Office of the President of the Borough of Richmond, Bureau of Street Cleaning, Borough Hall, New Brighton, New York City, May 4, 1916.

Board of Aldermen, City Hall, New York:

Dear Sirs—I would respectfully ask the Board of Aldermen to authorize the issuance of special revenue bonds to the amount of $3,780 in accordance with the provisions of section 188, subdivision 8, of the Greater New York Charter, to permit of making the following wage increases:

Title.	Number of Employees.	Present Wage.	Proposed Wage.	Amount of Increase from June 1st to Dec. 31st.
Driver	46	$720 00	$840 00	$3,220 00
Driver	4	780 00	840 00	140 00
Driver	1	900 00	960 00	35 00
Hostler	11	780 00	840 00	385 00
				$3,780 00

Yours very truly, CALVIN D. VAN NAME, President of the Borough.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, May 15, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen:*

Dear Sir—Replying to your communication of May 11, 1916, regarding the request of the President of the Borough of Richmond for revenue bonds to the amount of $3,780 for increases in the Street Cleaning Bureau, Richmond, I would state as follows:

Under the standard specifications the proposed rates for Driver, Bureau of Street Cleaning, are $768 to $888, inclusive, and for Hostler, $744 to $864, inclusive, in each case, with intermediate salaries based on annual increments for length of service, to be determined and provided for at the time of the preparation of the budget. The Street Cleaning Department, Manhattan, is operated under this plan with the above rates.

Inasmuch as forty-six Drivers mentioned in the request are receiving only $720 per annum, which is $48 below the minimum, I would recommend that sufficient funds, amounting to $1,288, be provided to increase their salaries to $768, from June 1st to December 31st, 1916.

The remainder of the increases requested should properly be considered at the time of preparation of the budget for 1917, as the incumbents are paid within their grade. Increases within grade are not being approved by the Board of Estimate and Apportionment under its present policy. Yours very truly,

GEORGE L. TIRRELL, Director.

The President put the question whether the Board would agree to accept said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Dixson, Donnelly, Dostal, Dunn, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Moran, Mullen, O'Rourke, Palitz, Quinn, Robitzek, Ryan, Schweickert, Shields, Silberstein, Smith, Sullivan, Stevenson, Tolk, Trau, Walsh, Wendel, Williams, Wirth, Wise; President Van Name, by Henry P. The Honorable the Board of Aldermen, City Hall, New York City:

Sirs—Application is hereby made for an issue of Revenue Bonds in the amount of $4,550 to be used for Repairs and Replacements to the general plant of the department, as follows:

Repairs to Greenhouses and reconstruction of Pit No. 1; installation of new heating plant	$3,250 00
Painting and repairs of King Mansion in King Park, Jamaica	300 00
Installation of automatic electric pump at the Golf House	1,000 00
	$4,550 00

I would respectfully ask that favorable consideration be given to this request at an early date. Very sincerely, JOHN E. WEIER, Commissioner.

City of New York, Board of Estimate and Apportionment, Bureau of Contract Supervision, Municipal Building, May 22, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 490—*Commissioner of Parks, Borough of Queens—Request for Special Revenue Bonds,* $4,550, *for Certain Repairs and Replacements to the General Plant of the Department.*

Sir—The items requested have been examined into by the Bureau of Contract Supervision and facts have been developed as follows:

1. Repairs to greenhouses and reconstruction of Pit No. 1; installation of new heating plant, $3,250.

These greenhouses consist of seven separate buildings and an office. Six of the houses are of modern construction and are in good condition, except that the frame west wall of one house has rotted and has only held together during the present winter because of bracing and covering with tar paper.

This wall will have to be reconstructed before next winter. It is proposed to replace the present rotten wooden siding with a concrete wall similar to the present walls of some of the other houses.

The seventh section known as Pit No. 1 of the greenhouse is in such poor condition as to be practically useless. It is poorly designed, the timbers are rotting and it has no facilities for heating or ventilating. It is proposed to tear out the present rotten wood, to replace siding with a concrete wall, to reconstruct the roof, and to provide pipes for heating, for a ventilating apparatus, and for benches for plants.

The present heating system of the greenhouses consists of three old style hot water boilers, assisted by one modern boiler acting as an auxiliary heating plant in two of the houses. The old style boilers are thirteen years old and, if retained, will not only need considerable repairing but be in continuous danger of breaking down. The heating is not quite satisfactory at present and will surely be inadequate if the seventh section is reconstructed.

It is believed that the best solution of the heating problem is to junk two of the old boilers, keeping the third old boiler for use only in case of emergency; to purchase four new sections for the present auxiliary boiler and a new ten section boiler of the same type as this auxiliary; to connect these boilers together and to install a system of valves so as to connect the two boilers to the entire greenhouse system. This plan will provide more and better regulated heat than at present and will require the operation of two boilers instead of the four now used. These new boilers should be equipped with grates which will permit the use of pea coal as fuel. The saving in cost of coal necessary to operate the plant as planned above will be sufficient to pay for the installation of the new boilers during the first year.

The requested amount of $3,250 for this work is reasonable.

2. Painting and repairs to Kings Mansion.

This building has not been painted since 1912. The repairs to be made are minor and are incidental to the painting. To make these repairs and to give the building two coats of the best white lead and zinc paint will probably cost the $300 requested.

3. Installing automatic electric pump at Golf House.

The capacity of the present pumping plant is about 250,000 gallons. There is a maximum need for only 16,000 gallons, or only about six per cent. of capacity. The plant costs about $2,500 per year to operate. The proposed pump will cost $1,000 for original installation and about $550 per year to operate. Its installation will effect an economy during the first year of operation of about $1,000 more than its cost for both installation and operation.

No funds are available in the department for any of this work; the work is all necessary, and the requested amount for each item is reasonable.

Very truly yours, TILDEN ADAMSON, Director.

Report of the Committee on Finance, in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $17,367.34, for Altering and Equipping the Stadium—College of the City of New York.

The Committee on Finance, to which was referred on May 16, 1916 (Minutes, page 595), the annexed request of the Trustees of the College of the City of New York for Special Revenue Bonds, $17,367.34, for altering and equipping the stadium, respectfully

REPORTS:

This matter was referred to the Bureau of Contract Supervision for investigation, and according to their report attached hereto, these improvements are deemed necessary and the amounts reasonable. The committee, therefore, recommends that the accompanying rsolution be adopted.

Resolved, That, in pursuance of the provisions of Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seventeen thousand three hundred and sixty-seven dollars and thirty-four cents ($17,367.34), the proceeds whereof to be used by the Trustees of the College of the City of New York for the purpose of altering and equipping the Stadium.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—There is herewith enclosed a form of Resolution for an issue of Special Revenue Bonds in the amount of Seventeen Thousand Three Hundred and Sixty-seven and 34-100 ($17,367.34) Dollars to provide necessary funds for altering and equipping the Stadium of The College of the City of New York, and for its maintenance and operation for the balance of the year of 1916.

It would be very much appreciated if you would present it to the Board at its next meeting for consideration. Yours very truly,

M. J. STROOCK, Chairman, Committee on College Property, of The Board of Trustees, The College of the City of New York.

P. S.—If a hearing by the Finance Committee of the Board of Aldermen shall be had in regard to the foregoing, will you please arrange that notice of the time and place of such hearing shall be sent to us?

"Resolved, That, pursuant to Subdivision 8 of Section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and they are hereby requested to authorize the Comptroller to issue Special Revenue Bonds in the amount of Seventeen Thousand Three Hundred and Sixty-seven and 34-100 ($17,367.34) Dollars to provide necessary funds for permanent alterations to and the equipment of the Stadium of The College of the City of New York, and for the maintenance and operation thereof for the balance of the year 1916."

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, May 22, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 496—*Request of the Board of Trustees of the College of the City of New York for* $17,367.34 *special revenue bonds, the proceeds to be used for altering the Stadium of the College of The City of New York and for its maintenance and operation for the balance of the year* 1916.

Sir—The sum requested is based upon an investigation heretofore made by the Bureau of Contract Supervision in connection with a request made to the Board of Estimate and Apportionment for $27,627 for the same purpose, as a result of which recommendations were made in detail, as follows:

For Permanent Alterations and Equipment.

1—*Portable screen,* $750—

This screen is to be erected inside of the existing iron fence surrounding the field, from one end of the stadium building to the other. The screen is necessary on occasions when admission is to be charged to the events held on the field.

2—*Excavation under end of Stadium,* $3,000—

There is no place available to store the field and game apparatus used on the field. It is proposed to excavate space under one end of the stadium and construct retaining walls on the two interior sides. To provide storage space by any other method will be more costly. An additional building if erected would have to conform to the architectural features of the stadium and would reduce the field area, which is none too large.

3—*Office Equipment—Two offices at* $350 *each,* $700—

This equipment is necessary to furnish and equip the office to be occupied by the additional instructors and clerical help, herein recommended.

4—*Property room equipment,* $500.

This is necessary to provide shelving, racks and cases for the storage and care of the game apparatus for which there is now no provision.

5—*Store room equipment,* $500—

This is necessary to provide shelving and cases for the storage of the field apparatus which is to be cared for in this store room.

6—*Heating,* $500—

In the stadium there are several rooms for storage and offices, four of which contain plumbing fixtures, such as toilets and shower baths. No heat has been provided for these rooms. It is necessary that heat be provided in order to permit use of these rooms during the cold weather and to protect the plumbing fixtures from freezing. An installation of gasteam radiators is proposed. This is the cheapest installation that will give adequate service.

7—*Field benches,* $300.

These benches are to be provided for the use of the large number of contestants on the field while awaiting their turn in the different events. No facilities have been provided for this purpose.

8—*Stadium roof and lobby equipment,* $1,500.

In order to permit the use of the stadium for practice during times when the field cannot be used owing to weather conditions, it is necessary to provide cages in the covered lobby and on the roof of the stadium. The officials of the College deem it essential that the athletes should have daily practice throughout the year.

9—*Entrance from Hygiene Buildings to Field,* $2,332—

On June 4, 1915, the Board of Estimate and Apportionment adopted a resolution closing West 138th street, from Amsterdam to Convent avenues. This was approved by the Mayor on June 5, 1915. The chief argument advanced in favor of this closing was that it would provide a direct entrance to the stadium from the Hygiene Building, on college property. This entrance would then be under direct control of the college authorities.

It is proposed to construct an entrance doorway with steps leading from the corridor of this building to the street level, and fences on each side of the passageway across the street, thus providing a direct entrance to the stadium, with the control necessary, so that only contestants or those having business on the field would be permitted to enter this way. Owing to this construction no additional help will be required to care for this entrance. As at present, one additional man will be required when the field is in use. This work will also provide an additional exit from the Hygiene Building in case of fire. There is at present only one exit from the building.

10—*Wire partitions in underground passageway, which connects all the college buildings,* $200—

This partition is required to form a locker room to contain the lockers which will be used by field contestants. There is at present no available room for these lockers. The partition to be erected is necessary to permit of proper control of those using the lockers.

11—*New filter and pump,* $1,500—

The filters at present in use are of insufficient capacity to meet the increased demand for bathing facilities which will ensue when the new field is used. The present filters take 50 hours to filter the water required to fill the swimming pool. With the additional filter and circulating pump requested it will be possible to reduce this time to 20 hours. The water can in addition be kept circulating through the filter at other times in order to maintain its clarity. This is necessary as a safeguard for the lives of the bathers using the pool. One life has been lost here owing to the muddiness of the water preventing the instructor from seeing the unconscious bather at the bottom of the pool in time to save his life.

12—*Alterations in Hygiene Building,* $1,060—

The use of the stadium and field will require that additional space be provided for the medical examination of the contestants and for the keeping of records of the individuals examined. It is proposed to provide the necessary additional space by enlarging the present medical examination room in the Hygiene Building by adding the adjoining space occupied by the laboratory, moving the laboratory to the present shower bath room. This will also provide space for the record file cases which are now in the hallway. The shower baths will be transferred to the room formerly used as a shower bath room but which is now used as a storage room and office, the shower bath partitions having been left as originally installed. A large room on the first floor will be divided into three small offices for use of the gymnasium instructors. These rearrangements will provide the necessary facilities at a very reasonable cost.

Total for permanent alterations and equipment $12,642.

(B) For Operation During the Remainder of the Year 1916.

Except item 4, the recommendations under this heading are made by the Bureau of Standards.

1—*Activities—*

One Instructor at $1,700 per annum allowed for from September 1 to end of year, 4 months	$566 67

Total	$440 00

3—*Labor,* $1,252—

Two Cleaners at $2 per day, except Sunday, equal to 313 days at $4. $1,252 00

It is recommended that this be allowed for the full year of 1916, in order to pay the wages of the two Cleaners who were laid off last year but were continued on the payroll for the current year to care for the stadium, and paid for out of private funds.

4—*Maintenance,* $800—

It is recommended that the sum of $800 be allowed for maintenance for the remainder of the year 1916. This amount will be required for the purchase of the initial equipment necessary for the care of the field, such as wheelbarrows, shovels, rakes, lawn mower, hose and other implements, office equipment, stationery and supplies and items of repairs to roofs, plumbing, concrete and other work.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Subdivision 1 of section 21 of article 3 of chapter 22 of the Code of Ordinances, relating to "Snow and Ice," as amended May 11, 1915, and July 16, 1915, respectively, is hereby further amended to read as follows:

§ 21. Property owners' duties. 1. Must clear sidewalks. Every owner, lessee, tenant, occupant, or other person having charge of any building or lot of ground in the city, abutting upon any street or public place where the sidewalk is paved, shall, within 4 hours after the snow ceases to fall, or after the deposit of any dirt or other material upon said sidewalk, remove the snow and ice, dirt or other material from the sidewalk and gutter, the time between 9 P. M. and 7 A. M. not being included in the above period of 4 hours; provided, however, that such removal shall in all cases be made before the removal of snow and ice from the roadway by the commissioner of street cleaning, or by the borough president of Queens or Richmond, or subject to the regulations of said commissioner of street cleaning, or of said borough president of Queens or Richmond, for the removal of snow and ice, dirt or other material; except that in the boroughs of Queens and Richmond any owner, lessee, tenant or occupant, or other person who has charge of any ground abutting upon any paved street or public place, for a linear distance of 500 feet or more, shall be considered to have complied with this section, if such person shall have begun to remove the snow and ice from the sidewalk and gutter before the expiration of the said 4 hours, and shall continue and complete such removal within a reasonable time.

[Whenever] Any owner, lessee, tenant, occupant, or other person having charge of any building or lot of ground abutting upon any street or public place where the sidewalk is paved *who* shall [fail] *have failed* to comply with the provisions of any ordinance of the city for the removal of snow and ice, dirt, or other material from the sidewalk and gutter in the street, on the side of the street on which such building or lot abuts, *shall, upon conviction thereof be punished by a fine of not more than* $3.

Whenever any such owner, lessee, tenant, occupant, or other person cannot be found, the president of the borough in which such building or vacant lot is located may cause such removal to be made, meeting the expense thereof from any suitable street cleaning or highway fund, and thereafter the expense of such removal as to each particular lot of ground shall be ascertained and certified by the said borough president to the comptroller, and the board of estimate and apportionment may authorize such additional expenditures as may be required for the said removal of such *snow and* ice [and snow], dirt or other material, to be repaid to the fund from which the payments were made, with proceeds from the issue and sale of revenue bonds which shall be sold by the comptroller, as provided by law.

The said borough president shall, as soon as possible, after the work is done, certify to the corporation counsel the amount of the expense chargeable against each piece of property.

The corporation counsel is hereby directed and authorized to sue for and recover the amount of this expense, together with [$3] *$15* dollars penalty for each offense, and when so recovered the amount shall be turned over to the city chamberlain to be deposited to the credit of the general fund of the city of New York for the reduction of taxation.

SPECIAL ORDERS.

S. O. 76—(Int. No. 444).

Report of the Committee on Finance, in Favor of Adopting Resolution for Special Revenue Bonds, $384, for the Purpose of Paying Dr. John McAllister for Services Rendered.

The Committee on Finance, to which was referred on May 2, 1916 (Minutes, page 438), the annexed request of the Board of Coroners, Borough of Manhattan, for special revenue bonds, $384, for the purpose of paying Dr. John McAllister for services rendered, respectfully

REPORTS:

That this matter was referred to the Bureau of Standards for investigation, and their report, attached hereto, approves the request. The Civil Service Commission also approves of these services. The committee, therefore, concludes that the request is a proper one, and recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three hundred and eighty-four dollars ($384), the proceeds whereof to be used by the Board of Coroners, Borough of Manhattan, for the purpose of paying Dr. John McAllister for services rendered.

FRANCIS P. KENNEY, WM. P. KENNEALLY, ROBERT L. MORAN, F. H. STEVENSON, JOHN DIEMER, SAMUEL J. BURDEN, CHARLES DELANEY, MICHAEL STAPLETON, FRANCIS P. BENT, Committee on Finance.

Coroners' Office, Borough of Manhattan, New York, Municipal Building, April 26th, 1916.

To the Honorable the Board of Aldermen, City of New York:

Gentlemen—We respectfully request your Honorable Board to authorize an issue of special Revenue Bonds in the sum of $384.00 for the purpose of paying Dr. John McAllister of 43 West 48th Street, New York, for services rendered by him as temporary Coroners' Physician in this office, from June 28th to July 14th, 1914 and February 1st to March 3rd, 1915.

The necessity for his employment was caused by the suspension of Dr. Otto H. Schultze, a Coroners' Physician in this office on Charges, during the times aforesaid mentioned.

There was no money available in the appropriation accounts of this office at the times Dr. McAllister was employed, though in 1914 the sum of $359.59 was returned to the General Fund and in 1915 the sum of $1,107.51 was returned to the General Fund, both amounts being from the Appropriation Accounts of Salaries Regular Employees, of this office.

The Civil Service Commission approved of Dr. McAllister's appointment and as he performed his duties faithfully and efficiently it is but just that he should be paid.

Very truly yours, ISRAEL L. FEINBERG, President of the Board.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, May 8, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

Dear Sir—In relation to the request of the Board of Coroners, Borough of Manhattan, for an issue of special revenue bonds in the sum of $384 to pay Dr. John McAllister for services as temporary Coroner's Physician, I beg to advise you that Dr. McAllister was employed as a temporary Coroner's Physician in the office of the Board of Coroners, Borough of Manhattan, from June 28 to July 14, 1914, and from February 1 to March 3, 1915. The employment of Dr. McAllister during the above stated period was made necessary on account of the suspension of Dr. Otto Schultze, the regular Coroner's Physician, attached to the office.

During the time stated no salary was paid to Dr. Schultze. There are no available funds in either the 1914 or 1915 Budgets for the office to meet the payment of the services of Dr. McAllister. The Board of Coroners, therefore, requests the sum of $384 as total compensation for Dr. McAllister's temporary services. As Dr. McAllister was employed for 48 days, the rate per diem would therefore be $8 per diem. As Dr. Schultze's annual salary was $3,000, or approximately $8.21 per diem, the rate requested for Dr. McAllister is reasonable.

Dr. McAllister performed all services as Coroner's Physician which would have been performed by Dr. Schultze. The employment of Dr. McAllister has further been approved by the Civil Service Commission.

The request of the Board of Coroners for the issue of $384 in special revenue bonds is, therefore, a proper one. Very truly yours,

GEORGE L. TIRRELL, Director.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burden, Browne, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Dixson, Donnelly, Dostal, Dunn, Eagan, Farley, Ferguson, Friedlander, Gaynor, Gilmore, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kennedy, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Moran, Mullen, O'Rourke, Palitz, Quinn, Robitzek, Ryan, Schweickert, Shields, Silberstein, Smith, Sullivan, Stevenson, Tolk, Trau, Walsh, Wendel, Williams, Wirth, Wise; President Van Name, by Henry P. Dear Sir—I refer to my letter of April 4, in relation to the proposed amendment of section 43 of article 2 of chapter 3 of the Code of Ordinances. Such amendment is now known as Int. No. 376, Ord. No. 42, and is in the hands of the Committee on General Welfare, which deems the form of the same somewhat irregular, in that it does not indicate in detail just what matter is to be eliminated and what to be inserted.

I therefore submit the attached substitute for my original proposed amendment.

Respectfully, WILLIAM WILLIAMS, Commissioner.

Proposed Amendment to the Code of Ordinances.

Section 43 of article 2 of chapter 3 of the Code of Ordinances relating to "operators of motion-picture machines," is hereby amended to read as follows:

With every license granted there shall be issued to the person obtaining such license a certificate, made by the commissioner or such other officer as the commissioner may designate, setting forth that the person named therein is duly authorized to operate motion-picture apparatus and its connections. (Charter, §529a.)

5. Posting certificate. The certificate shall be displayed in a conspicuous place in the room in which the licensee operates a motion-picture apparatus and its connections. (Charter, §529a.)

6. Discipline. The license and certificate may be revoked or suspended at any time by the commissioner, in his discretion, for cause. (Charter, §529a.)

7. Renewal of license. Every license, unless revoked or suspended, as herein provided, may, at the end of a year from the date of issue thereof, be renewed by the commissioner in his discretion, upon application and with or without further examination, as he may direct, but every application for renewal of license must be made within the 30 days previous to the expiration of such license. (Charter, §529a.)

8. Unlicensed operators. No person, not licensed as provided in this section, shall be employed to operate or be permitted to operate any motion-picture apparatus, or any connections thereof, in any motion-picture theatre, open-air motion-picture theatre or other place where motion-pictures are exhibited, to which the public is admitted, with or without charge for admission. 242. Vault openings; protection of.
243. Vault covers must afford secure footing.
244. Violations.

§240. General provisions.

1. *Definitions.* Whenever used in this article, the term vault shall be deemed to mean every description of opening below the surface of the street in front of any shop, store, house or other building, if covered over; except openings which are used exclusively as places for descending to the cellar floor of any building or buildings, by means of steps.

2. *Jurisdiction.* Each borough president is empowered to issue permits for the construction of vaults [or cisterns] in the streets within his jurisdiction. (C. O., §169.)

3. *Permits* No person shall cause or procure any vault [or cistern] to be constructed or made in any street, without a permit from the borough president having jurisdiction thereof. Every application for a permit to erect such vault [or cistern] shall be in writing, signed by the person making the same, and shall state the number of square feet of ground which is required for the same, and the intended length and width of the same.

4. *Compensation.* Upon receiving such permit, the applicant therefore shall forthwith pay to the borough president such sum as he shall certify in the permit to be a just compensation to the city for such privilege, calculated at the rate of not less than 30 cents, nor more than $2 per foot, for each square foot of ground mentioned as required for such vault [or cistern].

5. *Measurement.* Every person for whom any vault [or cistern] may be in process of construction shall procure the same to be measured by a city surveyor, who shall deliver to the borough president granting the permit therefor a certificate of the measurement signed by such surveyor, accompanied by a diagram showing the complete dimensions of the same and its location relative to the nearest intersecting street corner, before the construction of such vault [or cistern] shall be commenced. *The requirements of this subdivision shall also apply to all existing vaults for which permits have not been issued, as required by this article.*

6. *Refundments.* If, from subsequent measurements, it shall appear that less space has been taken than that paid for, the permittee shall be entitled to receive a certificate from the borough president who issued the permit, showing the difference. Upon the presentation of said certificate of difference to the comptroller, he shall pay a rebate to the permittee, the amount of which shall be the difference in money between the space feet originally paid and the fee for space actually taken; provided the surveyor's certificate was filed on or after the 1st day of March, 1913.

7. *Unauthorized encroachments.* If it shall appear that the vault [or cistern] occupies a greater number of square feet than shall have been paid for as aforesaid, the owner thereof shall, in addition to the penalty imposed by this article, forfeit and pay twice the sum previously paid for each square foot of ground occupied by the vault [or cistern], over and above the number of square feet paid for as aforesaid.

8. *Limitation.* No person shall erect or build, or cause or permit any vault [or cistern] to be made, which shall extend further than the line of the sidewalk or curbstone of any street.

9. *Responsibility.* The master builder who shall complete or begin the construction of a vault, and the owner or person for whom the same shall be excavated or constructed shall be liable to the provisions, payments and penalties of this article, severally and respectively.

§241. Construction.

1. *Materials.* All vaults [or cisterns] shall be constructed of brick or stone, and the outward side of the grating or opening into the street shall be either within 12 inches of the outside of the curbstone of the sidewalk, or within 12 inches of the coping of the area in front of the house to which such vault shall belong. All grates of vaults shall be made of iron, the bars whereof shall be ¾ of an inch wide and ½ of an inch thick, and not more than ¾ of an inch apart.

§243. Vault covers must afford secure footing.

The police commissioner shall report to the president of the borough having jurisdiction the name and address of the owner or occupant of any store, dwelling or other building having a vault under the sidewalk in front thereof, the cover of which *is broken or* presents a slippery surface. "(a) The Company shall construct a bridge or archway of sufficient width and capacity to accommodate the sixteen (16) tracks hereby authorized and also the two (2) main line tracks of the Company, now laid and existing on the surface of Hamilton Street, between Fulton and South Streets. Said bridge or archway shall have a span of at least thirty-two (32) feet and a clearance of at least fourteen (14) feet over the surface of Hamilton Street at the centre line thereof. For the purpose of constructing said bridge or archway with the prescribed clearance the Company shall depress the surface of Hamilton Street as now existing between Fulton and South Streets. The method of constructing said bridge or archway and of depressing the street grades shall be subject to the approval of the Board and the Company shall submit to the Board for its approval plans showing the method of such work. The grades of said bridge or archway and of Hamilton Street shall be as shown on the map and profile attached to and made part of this contract or as may be hereafter fixed by the Board.

"(b) That portion of Hamilton Street under the bridge or archway and for a distance of fifty (50) feet outside the same at either end thereof shall be well and sufficiently lighted at the expense of the Company during such hours of the day and night and by such lighting system as may be prescribed by the President of the Borough of Queens and to his entire satisfaction.

"(c) Hamilton Street for its entire length from Fulton Street to South Street, the depression of which is made necessary by the construction of the said bridge or archway, shall be provided by the Company with such suitable and adequate drainage system, with proper outlets therefor, as may be prescribed by the President of the Borough of Queens, and to his entire satisfaction. And the Company shall pave the surface of Hamilton Street for its entire length from Fulton to South Streets, including its intersection with such streets, with such material as may be prescribed by the President of the Borough of Queens.

"(d) The work of constructing the said bridge or archway, changing the street grades and the drainage system, providing drainage outlets and paving the street, as above provided, shall be done at the sole cost and expense of the Company. The Company shall also, at its own entire cost and expense, and for the entire term of this contract, whether original or renewal, maintain the said bridge or archway and the piers and abutments thereof in good order and repair.

"(e) The construction of said bridge or archway shall be completed in no event later than the day two (2) years after the date of the execution of this contract by the Mayor. During the period of such two (2) years and pending the construction of said bridge or archway the Company may construct, maintain and operate the tracks hereby authorized across Hamilton Street, at the same grade as the surface of said street; provided, however, that the Board may by resolution direct the removal of such tracks from the surface of Hamilton Street and the construction of the bridge or archway across said street before the expiration of such two-year period.

"The Company shall complete the construction of the bridge or archway hereinbefore provided for on or before the expiration of the two-year period or within the time fixed by the Board, should the Board direct the prior removal of the surface tracks, and the Company shall, before such expiration, or within such time, as the case may be, remove from the surface of Hamilton Street the sixteen (16) tracks hereby authorized, and the said two (2) main line tracks and thereafter maintain and operate the same upon said bridge or archway, subject to the terms and conditions of this contract.

"Should the Company fail or neglect to complete the construction of the said bridge or archway within the two-year period hereinbefore specified, or within the period fixed by the Board, should it direct the prior removal of the surface tracks, as the case may be, or should the Company, within the same time, fail to remove from the surface of Hamilton Street the sixteen (16) tracks hereby authorized and also the said two (2) main line tracks, the right and privilege hereby granted to construct, maintain and operate sixteen (16) tracks across Hamilton Street shall cease and determine upon the termination of such two-year period, or on the date fixed for the prior removal of the surface tracks.

"Should the Company not take advantage of the privilege to construct, maintain and operate the tracks hereby authorized upon the surface of Hamilton Street, as hereinbefore provided, and fail to complete the construction of the said bridge or archway within two (2) years from the date of the execution of this contract by the Mayor, as hereinabove provided, the right and privilege hereby granted to construct, maintain and operate sixteen (16) tracks across Hamilton Street shall cease and determine upon the termination of such two-year period."

"(d) The Company shall bear the entire cost and expense of constructing said bridge, changing the street grades and the drainage system, providing drainage outlets and replacing or restoring the street pavement, as above provided, and shall also pay all damages to property owners, resulting from change of street grades, except as to such portion of such cost and such damages as would relate to or result from the elimination of the crossing at grade of the two (2) existing main line tracks. Said last named portion shall be apportioned in the manner provided by the Railroad Law for the elimination of existing grade crossings, except that in no event shall the City's share of such portion exceed the sum of forty-eight thousand five hundred dollars ($48,500), and the Company agrees to assume and repay to the City any sum in excess of the said forty-eight thousand five hundred dollars ($48,500), which the City may be required to pay as its share of such portion. Section 2. **The grant of this** privilege **is sub**ject to the following conditions, which **shall be** complied with by the Company:

First—The said right to construct, maintain and operate said conduits shall be held and enjoyed by the Company for the term of fifteen (15) years from August 1, 1916, with the privilege of renewal of said contract for the further period of ten (10) years upon a fair revaluation of such right and privilege.

If the company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be **sufficient** if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract and if the parties shall not forthwith agree upon what is reasonable then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested persons selected in the following manner:

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of the original term of this contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained fixed and determined shall be conclusive upon both parties, but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted the following sums of money:

Sixth—Upon the termination of the original term of this contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination or forfeiture of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the conduits, pipes and appurtenances of the company constructed pursuant to this contract within the streets, avenues, highways and other property of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

Tenth—It is agreed that the right hereby granted shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction or maintenance of public works in the streets, avenues, highways and other property of the City, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the conduits and appurtenances in the

manner directed by the City officials having jurisdiction over such public work.

If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith require the payment of said sums herein provided for, or where the damages are not liquidated by the terms of this contract such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw such amount from the security fund deposited with him. The finding of the Board as to the amount to be paid by the Company shall be final and can only be attacked on the ground of fraud or mistake. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of two thousand five hundred dollars ($2,500), and in default thereof, this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-seventh—The words "streets or avenues" and "streets and avenues" wherever used in this contract shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement included in the district hereinabove described, and under the surface of or in which authority is hereby given to the Company to construct or maintain its conduits.

Twenty-eighth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such buildings by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.
