## DEPARTMENT OF WATER SUPPLY.

Report for the Quarter ending June 30, 1899.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,  
NOS. 13 TO 21 PARK ROW,  
NEW YORK, November 1, 1899.

Hon. ROBERT A. VAN WYCK, Mayor :

DEAR SIR—In compliance with section 1544 of the Greater New York Charter, I have the honor to present the following report of the public business transacted by the Department of Water Supply for the quarter ended June 30, 1899 :

### BOROUGH OF MANHATTAN AND THE BRONX.

#### THE WATERSHEDS.

The following table gives the rainfall for the three months at three stations in the Croton watershed, one station in the Bronx watershed and at the Central Park Reservoir, which is about the centre of Manhattan Borough :

	APRIL.	MAY.	JUNE.	TOTAL.
	Inches.	Inches.	Inches.	Inches.
At Boyd's Corner Reservoir—Croton.....	1.97	1.80	5.38	9.15
At Middle Branch Reservoir—Croton.....	1.58	2.06	5.56	9.16
At Croton Dam.....	1.92	2.41	4.93	9.26
At Kensico Reservoir—Bronx.....	2.61	2.17	5.86	10.64
At Central Park Reservoir.....	1.70	1.01	2.16	4.87

This table shows two remarkable and unusual features : 1. The total rainfall for the two months of April and May was less than for the one month of June. As a rule, these relative conditions are reversed. 2. The rainfall in the watersheds for the three months was double the amount of rain we had in the city. At Kensico, only 28 miles northeast of Manhattan, there were 10.64 inches of rain, against 4.87 inches in Central Park. These nearby country districts, therefore, escaped the severe drought which prevailed here and along the Atlantic Coast.

Up to May 6, the natural flow of the Croton river furnished the full supply required, but from that date to the close of the quarter, fifty-five days, the reserve supply in the storage reservoirs had to be drawn upon continuously. The total quantity drawn from storage is 7,290,000,000 gallons—an average of more than 132,000,000 gallons per day.

For the water supply from the Bronx and Byram rivers, which is distributed in the Borough of The Bronx, 730,000,000 gallons were drawn from storage.

Early in June it became necessary, in consequence of the exhaustion of the available funds from former bond issues, to suspend the various measures and works for the further and better sanitary protection of the water supply, consisting of clearing up the strips of land which the City has acquired on the borders of streams, reservoirs, lakes and ponds ; also the prosecution of surveys for an additional storage reservoir on the Cross river, and the completion of works which are necessary for the full utilization of available water supply from the Byram river. The engineers, assistants, patrolmen and laborers had to be discharged, with the exception of a few which could be transferred to other work. It is much to be regretted that the failure of the Municipal Assembly to respond to the action of the Boards of Estimate and Apportionment and of Public Improvements, and to the requests of your Honor and the Honorable Comptroller, for the authorization of further moderate bond issues, has forced this suspension of useful and necessary work, and the discharge of many worthy and deserving employees.

#### THE AQUEDUCTS.

All the water received from the Croton watershed continues to pass through the new aqueduct, the old aqueduct being still closed, awaiting the completion of changes in connection with the construction of the Jerome Park Reservoir under the Aqueduct Commissioners. The contract for reinforcing the stone arch by which the old aqueduct crosses the Sing Sing kill was let in the latter part of May, and the contractor began the work on the 1st of June.

Considerable portions of the retaining walls on the Sing Sing division of the aqueduct have been rebuilt by the regular maintenance force.

The work on the other divisions has been, with few minor exceptions, of the ordinary routine character of maintenance and repairs.

#### LAYING WATER-MAINS.

Contracts have been completed for laying and relaying water-mains on ten streets in the Borough of The Bronx and one street (Audubon avenue) in the Borough of Manhattan.

A contract is now being printed, and will be advertised and let at an early day, which embraces the laying of all the water-mains so far authorized by the Municipal Assembly and not already contracted for.

The length of water-mains laid during the quarter is : 36-inch mains—4,032 feet ; 20-inch mains—1,700 feet ; 12-inch mains—631 feet ; 6-inch mains—15,507 feet ; total 21,870 feet, or 4.14 miles. In connection with these mains 42 stop-cocks and 54 fire-hydrants were placed.

The Department is receiving frequent and urgent requests from house owners and residents in the section of the Borough of the Bronx which lies east of the Bronx river to extend the City's water-mains and water service into their streets. Considering the utter inadequacy of the service furnished in that large territory by the New York and Westchester Water Company, it is certainly very desirable to supersede it with the regular City service ; but the present facilities and capacities for distributing the Bronx and Byram rivers supply, supplemented by a moderate addition from the Croton Aqueduct, are even now fully taxed to supply the section of the borough west of the Bronx river, and another obstacle to the extension of the City service across the Bronx is that the streets are not yet graded to permanent lines and grades, and that final layout maps have not been completed, or at least not legally adopted and established. This much desired extension of the water service must, therefore, be deferred until the Department can lay mains on permanently established street lines and grades, and until the Municipal Assembly passes the resolution now before it to authorize the bond issue of \$267,800 required to lay a 48-inch water-main from the aqueduct near Woodlawn to the central and lower part of the borough west of the Bronx. This main will supply all the closely built up part of the borough, and enable the Department to use the Bronx river supply to improve the water service on the high grounds and to extend the service into new territory.

#### MAINTENANCE OF DISTRIBUTING SYSTEM.

The distributing system now includes 837½ miles of water-mains, 8,854 stop-cocks and 11,329 fire-hydrants. The care of this system involves a vast amount of labor, and requires watchfulness and diligence. In addition to the six regular repair companies, each having its separate district, two companies at large are employed this year on special work, including the placing of additional fire-hydrants ; repairs of large mains ; repairing, cleaning and setting stop-cocks, etc.

The work of the eight repair companies for the quarter is summarized as follows :

- 878 linear feet new water-mains laid.
- 28 new stop-cocks placed.
- 49 additional fire-hydrants placed.
- 311 old fire-hydrants replaced by new ones.
- 234 leaks in water-mains repaired.
- 297 stop-cocks repaired.
- 2,143 fire-hydrants repaired.
- 337 taps in water-mains shut off.
- 27 taps in water-mains changed.

A very large percentage of the leakage from fire-hydrants is caused by the want of care and skill on the part of the street sweepers in opening and closing them when they draw water from them to allay dust when sweeping or to flush gutters. This unskillful or careless manipulation of the screws and valves in opening and closing the hydrants, results not only in leakage while the hydrant remains improperly closed, but, after several repetitions, it also results in injuries to the valves, which require a large amount of labor and expense for repairs. Another result is that, when the employees of the Street Cleaning Department leave the caps of the hydrant nozzles partially open or improperly closed, it induces mischievous boys to play with the hydrants, and causes further expense for repairs. The fact that the very Department whose employees are the most prolific cause of leaky hydrants is also the most frequent complainant of the leakage is an apparent anomaly. It is only since 1894 that the Street Cleaning Department has been given unrestricted liberty to use the hydrants, and on this subject the Chief Engineer of this Department, in his report hereto annexed, says : "All other cities guard their fire-hydrants by not allowing their use except by the Water and Fire Departments, thus keeping them in order with but little expense, and insuring the necessary responsibility when they are found out of order." However, I regard the hygienic value of the liberal use of water in street cleaning as too great to be sacrificed by curtailing or cutting off this supply and privilege, even though it brings upon this Department much extra labor and expense and much undeserved censure for leakage and defects for which the street-cleaning force is responsible. It is to be hoped that the evil will in course of time be mitigated by the acquirement of more skill and the exercise of greater care on the part of the street-cleaning force in the use of the hydrants.

#### CONSUMPTION OF WATER.

The following figures, giving the average daily consumption of water in the boroughs of Manhattan and The Bronx, for April, May and June, last year and this year, show an enormous and alarming increase in the demands upon the water service :

	1898.	1899.	INCREASE.
	Gallons.	Gallons.	Gallons.
April .....	231,000,000	258,000,000	27,000,000
May.....	231,000,000	256,000,000	25,000,000
June.....	238,000,000	278,000,000	39,000,000
Average for the three months.....	233,300,000	264,000,000	30,700,000

It is my duty as Commissioner of Water Supply to use every effort to keep up the supply to the maximum quantity required for the comfort and health of the City's population. The above statement shows that in one year the maximum consumption of water in the boroughs of Manhattan and The Bronx has increased 30,700,000 gallons. The present capacity of supply from the Croton watershed and The Bronx and Byram river watersheds is measured by the capacity of the present conduits for conveying the water supply to the distributing system in the city, and that is 400,000,000 gallons per day. Adding an increase of 30,700,000 gallons per day to the consumption of water during the past month of June, of 278,000,000 gallons, it will be seen that in four years the consumption will reach the maximum capacity of supply. This places before the municipal authorities the problem of devising means to increase the supply within a period not exceeding four years, and the problem thus to be solved is complicated by the question whether the City is financially in a condition to undertake the acquisition of further sources of supply, and the construction of an additional conduit to convey the additional supply to the city.

#### BOROUGH OF BROOKLYN.

The rainfall at the Hempstead Storage Reservoir, which is about the centre of the Long Island watershed, from which Brooklyn receives its water supply, was only 5.47 inches for the quarter, as against 13.55 inches for the corresponding quarter of 1898. At the same time, the consumption of water from the Ridgewood system increased from 91,051,000 gallons per day in April to 93,234,000 in May and 95,277,000 in June. From the Gravesend and New Utrecht Pumping Stations 1,952,000 gallons per day were distributed in April, 3,601,000 gallons in May and 4,573,000 gallons in June. The natural effect on the enormous increase in the consumption of water was to diminish the pressure on the higher grounds.

In April the depth of water in the storage reservoir at Hempstead reached the maximum of 19 feet 6½ inches. On June 2, the gates were opened, and during that month the water was drawn down to 2 feet 6 inches.

The work at the Mount Prospect Laboratory is summarized as follows :

- 541 samples of water received.
- 496 chemical analyses made.
- 475 microscopical examinations made.
- 901 bacteriological examinations made.

Analyses were also made of coal and oil used for the pumping stations and of boiler scale and tubercle from pipe.

On April 15, the first large contract for furnishing and laying water-mains to extend the distribution of water in the Borough of Brooklyn was executed. It provides for 12,500 linear feet of 16-inch pipe ; 20,500 linear feet of 12-inch pipe ; 52,000 linear feet of 8-inch pipe ; 16,500 linear feet of 6-inch pipe ; total 101,500 linear feet, or 19 2-10 miles.

With these water mains will be placed 233 water-gates or stop-cocks and 192 fire-hydrants.

Up to the close of the quarter, the work under this contract consisted in the manufacture of the pipe, stop-cocks and hydrants, and a partial delivery of the pipes on the ground, and everything was then in readiness to begin the actual work of laying the mains.

In June the installation of electric light plants at the Mount Prospect Reservoir and at the Millburn Pumping Station was completed.

Considerable repairs and improvements were made in the pumping plants at Ridgewood, Mount Prospect and New Utrecht. The new triple engine No. 3 at Ridgewood was started on June 16, and has since performed regular service. The pumping engines at Shetucket and Oconee had to be shut down for repairs, as there is no duplication of these engines. The new driven well stations along the conduit line between Rockville Centre and Massapequa have not been used during the quarter.

Basin No. 3 in the Ridgewood reservoir, which had been torn down in March for the purpose of making repairs to the slope wall, was refilled during the months of May and June, thus increasing the total supply at the reservoir from 215,768,000 gallons on April 1 to 270,044,000 gallons on June 30.

The supply ponds at Simonsons and at Clear Stream were shut off in June, on account of the presence of organic matter. The same condition was observed in the Hempstead system, but the objectionable matter was eliminated by carrying it off through the by-pass into the creek below Smith's Pond.

Test wells have been driven at Smith's Pond, at Rockville Centre and at Springfield, but the results are not very encouraging.

Surveys have been made of the swamp at Massapequa Pumping Station, with the view of adding it to the reservoir area and capacity.

During the quarter 195 additional water meters were placed, making a total of 2,934 meters in use on June 30.

Plans and specifications have been prepared for mechanical filter plants at the Springfield Pumping Stations and at the Jameco Pumping Station to purify the water obtained from Springfield and Baisley's Ponds.

In the report of the Chief Engineer, hereto appended, further details will be found in reference to the work performed in the maintenance of the Brooklyn water system.

#### BOROUGH OF QUEENS.

The unusually small rainfall during the three months caused increased consumption of water and at the same time a decrease of available supply from the wells upon which the water system depends.

The following are the average daily quantities of water pumped at the several stations and delivered through the distributing mains:

	Gallons.
First Ward, Station No. 1.....	848,900
" " " No. 2.....	1,097,520
" " " No. 3.....	722,785
Third Ward Flushing Station.....	934,250
" College Point Station.....	668,726
" Whitestone Station.....	200,542
Total from City water plant.....	4,472,723
Under contract with Citizens' Water Company.....	940,776
Total.....	5,413,499

At this rate of supply it is impossible to deliver water in the densely built up sections of Long Island City (First Ward) above the second floors, and complaints of deficient pressure and supply are frequent and urgent. A larger supply from the Citizens' Water Company is needed and could be furnished, if the Department had authority to place one or more additional connections between the Company's plant and the City's distributing system.

Demands for the extension of the public water supply into new streets and territory, where houses have long been awaiting this convenience and benefit, and where property owners desire to build on vacant ground, are numerous. These demands can only be met when a large additional supply from new sources is obtained.

In a short time the new pumping engine for the College Point Station will be in position for undergoing the test prescribed by the contract.

The force employed in the care and repairs of the distributing system performed the following work:

- 129 new taps placed in water-mains.
- 22 leaks in water-mains repaired.
- 30 stop-cocks repaired.
- 52 fire-hydrants repaired.
- 3 new fire-hydrants placed.
- 8 new stop-cocks placed.
- 15 new hydrant boxes placed.

#### BOROUGH OF RICHMOND.

The small pumping plant at Tottenville has been operated to the full capacity of the present supply wells, the average quantity of water pumped and delivered being 84,000 gallons per day. This supply is entirely inadequate for the section of the borough for which the public water service is intended. On June 7 the Board of Public Improvements approved my recommendation that four additional 10-inch wells be driven and provided with the necessary deep-well pumps, and connected with main pumping plant and with the distributing mains, at a total estimated cost of \$6,000. The requisite resolution and ordinance were forwarded to the Municipal Assembly, where they are still pending. Until these improvements or additions to the plant are made, the owners of houses along the mains which are not yet connected with this water service cannot be compelled to make the connections or pay for fire protection.

#### MUNICIPAL LEGISLATION CONCERNING WATER SUPPLY.

Contracts have been entered into for furnishing cast-iron water-pipes, etc.; for stop-cock hydrants, etc.; for white-wood plugs, etc., and for tapping cocks, etc.

All other cities guard their fire-hydrants by not allowing anyone to use same, except the Water and Fire departments, thus keeping same in order with but little expense, and insuring the necessary responsibility when same are found out of order. This City allows the indiscriminate use of fire-hydrants by Street Cleaning and other departments, etc., etc., which not only keeps the hydrants out of order, but allows of the waste of water and use of same by boys and others, and induces, by example, the waste of water in houses, etc. It is impracticable to keep same in order, as but few know how properly to open street hydrants, most people thinking it is only main strength and stupidity that is necessary.

—showing an increase per day of 20,000,000 during the dry and hot weather of June.

The increased use has decreased the pressure at least one story throughout the city and on high points in High Service District; and in the Twenty-third and Twenty-fourth Wards, where the size of mains, pumping facilities, etc., are deficient, the pressures have decreased two stories.

The want of action by the Municipal Assembly has so crippled this Department in furnishing moneys for an increased supply that its hands are tied and no relief can be given, nor any promised in the future.

Below find list of ordinances before the Municipal Assembly for work, etc., necessary to be immediately prosecuted.

Ridgewood Low Service.....	2,771,000

Hempstead.....	17.47	17.04	....	0.43

The total storage at Ridgewood and Mount Prospect Reservoirs on April 1, 1899, was 215,767,985 United States gallons, while on June 30 it had increased to 270,044,100 gallons. The increase was due to the refilling of Basin No. 3, which had been drawn down in March to allow repairs to be made to the slope wall. The storage reservoir at Hempstead reached a maximum depth of 19 feet 6½ inches on April 27, but the gates were not opened till June 2. The water used from this reservoir during the quarter represents a depth of 2 feet 6 inches.

## Rainfall.

The rainfall, in inches, as observed at this office in the Municipal Building and at the storage reservoir at Hempstead, together with the amount during the corresponding period of 1898, was as follows:

LOCATION.	APRIL.		MAY.		JUNE.		TOTAL.	
	1898.	1899.	1898.	1899.	1898.	1899.	1898.	1899.

Hempstead Reservoir.....	3.79	1.47	8.99	1.79	0.77	2.21	13.55	5.47

A comparison of our rainfall records at Hempstead Storage Reservoir since 1880 shows that only twice has the rainfall for April, May and June been less than in the last quarter. In 1880 it was 4.83 and in 1891, 4.80 inches.

## ANALYSES.

The work done at the Mount Prospect Laboratory during the quarter was as follows:

## Water Samples.

Samples received, 541; physical examinations, 477; chemical analysis, 293; partial chemical analyses, 19; microscopical examinations, 475; bacteriological examinations, 501; special bacteriological examinations, 400.

## Miscellaneous.

Analyses of coal, oil, boiler scale and tubercule from pipe.  
Special reports on analyses of test well water from Smith's pond and conduit line, analysis of croton water; mechanical filtration at Baisley's and Springfield ponds; asterionella and cyclo-tella in distributing reservoirs, etc., etc.

## DISTRIBUTION SYSTEM.

During the quarter the following pipe was laid and gates set, under private contract by the petitioners for the same, the Department furnishing the materials: 280 feet of 6-inch pipe and one 6-inch gate, 321 feet of 8-inch pipe and one 8-inch gate, and 2 fire-hydrants. Fifteen petitions for extensions, aggregating 21,345 feet of pipe, and requiring 37 gates, have been favorably reported on and transmitted to the Board of Public Improvements, while one petition for an extension of 1,000 feet was unfavorably reported, as the street had not been opened. The contract for laying the 6-inch, 8-inch, 12-inch and 16-inch pipe mentioned in the last report was awarded to Mr. James P. Graham, but no work has yet been done. Pipes are being delivered and laying commenced July 5, 1899. The repairs to the distribution system during the quarter have been unimportant. The annexed tables show the number of meters set and work done on repairs, inspections, etc.

## ELECTRIC LIGHTING AT MOUNT PROSPECT RESERVOIR AND MILLBURN.

The electric lighting installations at both these points have been completed and put in satisfactory operation. The new engine, dynamo and switchboard at the Mount Prospect engine house have already been reported on, as they were completed in February last. At the Mount Prospect reservoir the work of installing the new wiring, and the arc lamps and posts to replace those now rented by the City, was finished early in June, and the lamps were lighted on June 19. The installation of the wiring, fixtures and switchboard at Millburn was completed in May and the station first lighted by electricity early in June.

## REMODELING OF RIDGEWOOD PUMPING STATION.

The tubes of the reheaters of Engine No. 3, the erection of which was completed March 24, were found defective and were not replaced for two months owing to difficulty in obtaining them. The engine was put in operation June 16 and is giving good results. The non-conducting covering has been put on and the walnut lagging is ready for fitting. Recent investigation of Engine No. 1 showed the engine to be slightly out of line, probably due to settlement of the foundation, and since starting of No. 3 it has been leveled up and the contractors are now at work cutting out and repairing the concrete. The machinery is now ready for final painting and completion of small details and instruments.

## PUMPING STATIONS.

The work of maintaining the pumping plants at the different stations has been continued and the necessary repairs made by the men in charge or at Ridgewood.

At Mount Prospect a new cast-iron front and furnace have been put on boiler No. 2 and new back connections on boiler No. 4. A staging has been erected and a new cast-iron cap is being put on the chimney. In the new engine-room a lathe, shaper, and drill, with the necessary engine and shafting have been erected, enabling nearly all repairs to be made at the station.

The pumps at Gravesend have been painted.  
At New Utrecht forty additional two-inch shallow wells have been driven and connected, re-enforcing the forty driven earlier in the year. No trouble has been experienced with sand from these wells. The pipe lines and fittings above ground have been painted, the coal-shed repaired and its foundation walls strengthened.

At Ridgewood a valve stem on No. 3 Beam engine broke in April and only the promptness of the Engineer on duty prevented serious damage to the engine. The engine was repaired after the water was removed from the well.

No. 3 triple engine was started on June 16, and has been in regular service since; it is practically completed with the exception of the walnut lagging. Westinghouse air compressors have been erected for use on Triple Engines Nos. 1 and 3 and a third will be procured for Engine No. 2. The old well pump has been moved to a more convenient location and a cast-iron bulk-head for separating Nos. 1 and 2 pump wells has been completed. The Davidson engines were operated only a small portion of the quarter, and the opportunity was taken to paint them and the steam piping and lay a new yellow-pine floor in the engine-room. The setting of the Davidson boilers was also overhauled. The iron fence back of the new building has been nearly completed, and the trestle for the railroad track in the coal shed partly renewed.

On the south side at Ridgewood the repairs to Engine No. 1 have been completed, and in addition repairs were made to valves in pump well of Engines Nos. 1 and 2. The air pump of Engine No. 2 is undergoing repairs that will be completed in July. The boilers are in fair condition but will soon have to be retubed.

The Spring Creek engines are being overhauled and at the temporary plant the vertical boilers have been covered with asbestos, the roof and floors repaired and machinery painted.

The new smokestack at Shetucket has not been erected; both this station and Oconee must be shut down soon for repairs to machinery, as there is no duplicate pumping apparatus.

The air-pump discharge at Jameco was changed so as to deliver into the brook instead of the conduit. One hundred and fifty shallow 2-inch wells and one 8-inch deep well have been cleaned and repaired.

The Engineer's house at Springfield has been extensively overhauled and painted, but no considerable repairs have been made to the pumping machinery. To ascertain the cause of some irregularities in the engine duty reported in the last few months a regular forty-eight hour test was made June 20-22. The results showed a duty of about 23,000,000 foot pounds per 100 pounds of coal and an evaporation of 9 pounds of water per pound of coal, a very good showing considering the condition of the plant.

No. 2 engine at Clear Stream has been thoroughly overhauled and No. 1 is now undergoing the same operation. The 2-inch shallow wells at both this station and Forest Stream are badly in need of cleaning; work has begun on those at Clear Stream and thirty-six have been put in serviceable condition again.

The Watts Pond Station and Engineer's house both received a thorough overhauling, and the driven well suction, which had settled owing to the decaying of the wooden supports, was raised.

The Millburn Station machinery has needed few repairs during the quarter and four engines have been in almost constant use the whole time. The electric-light plant was started early in June and is working very satisfactorily, although new piston and eccentric rods were required for the engine. This engine, although old, is in good condition, but the dynamo is of an obsolete type and should be replaced by a more modern one. An oak partition has been put in the arch-way between the main engine-room and dynamo-room to protect the dynamo from the dust of the engine-room.

None of the Edwards driven well stations on the new watershed have been used during the quarter, but all are ready for operation whenever required. The new smokestacks for Agawan and Massapequa are on the ground ready for erection.

## RESERVOIRS.

On May 25 the Asterionella in the Mount Prospect Reservoir had increased to such an extent that the influx gate was closed and the by-pass opened. On June 14 the organisms had decreased so that the reservoir was again put in use. Two more leaks were discovered in the 20-inch force main feeding the tower; they were not serious enough, however, to interrupt the tower service. This makes a total of six leaks on this main since January 1. On June 9 the gate separating the reservoir from the tower service was found to be split, and while it was being replaced on June 15 it was necessary to supply the tower district from the reservoir. Early in May a portion of the First Ward was changed from the Ridgewood to the Mount Prospect service, causing an increased consumption of six or seven hundred thousand gallons daily in the latter. A 20-inch Venturi meter has been set on one of the efflux pipes of the reservoir and connected with the register. Another meter will soon be set on the other pipe.

On April 8 the work of repairing the concrete slope wall of Basin No. 3 at Ridgewood Reservoir was completed, the water having been lowered in March to a depth of six feet to allow the work to be done. The stand-pipe erected in conjunction with the 60-inch steel by-pass was repainted by the contractor, the first paint having peeled badly. Objectionable organisms began to appear in Basin No. 3 toward the end of May, and on the 25th of that month this basin was cut out and the by-pass opened; this continued until June 20, when the condition of the basin was such as to warrant closing the by-pass.

All the supply ponds, with the exception of Simonsons and the Clear Stream, were used the entire quarter; these two ponds were shut off during the latter portion on account of the

presence in them of Coli Communis. This organism also appeared in the Hempstead stream early in June, and on the 7th the by-pass was opened, the supply from the stream being wasted into the creek below Smith's pond. The by-pass has been open ever since.

## CONDUITS AND STREAMS.

The general work of maintaining the grounds, etc., at the ponds, streams and conduits has continued through the quarter. All the ponds and streams have been patrolled by men, and daily reports on their condition made to the Superintendent of Conduits and Reservoirs. Twenty thousand six hundred and ninety-five feet of wire fence adjoining the conduit line and other City property have been renewed; a leak in the Valley Stream branch conduit repaired, repairs made to Valley Stream dam, and culverts cleaned. The panned closets along the conduit line and on the various streams have been cleaned regularly once a week.

## TEST WELLS.

The work of sinking test wells to ascertain available locations for driven-well supplies has continued. At Smith's pond a 5-inch well has been carried to a depth of 578 feet, but below a depth of 45 feet water was found only in small quantities. At Rockville Centre an 8-inch well was sunk to 50 feet, where clay and but little water were found. On the conduit line a 2-inch well driven to 50 feet yielded 42 gallons per minute.

A 5-inch well was sunk to a depth of 173 feet at Springfield for use in ascertaining the deep-water level.

## SURVEYS OF MASSAPEQUA SWAMP.

A survey for a map of the swamp north of the Massapequa supply pond was begun in June and has progressed favorably to date. Cross sections of the property will also be taken.

## MISCELLANEOUS.

Work on revising the 66-inch steel-pipe drawings was discontinued in May, the rise in the price and scarcity of steel prohibiting such a pipe line. Plans and specifications are now being prepared for a cast-iron pipe line from Millburn to Spring Creek, the line to be double 48-inch from Millburn Engine-house to Millburn Reservoir and single 48-inch from Millburn Reservoir to Spring creek, with such alterations in culverts, structures, etc., as would make the installation of a second 48-inch line in the latter portion easy for a future time.

General plans and specifications have been prepared for mechanical filter plants at Jameco and Springfield for purifying the supply from Baisley's and Springfield ponds; also plans for new engines at Mount Prospect and Millburn, and for a new floor in the new Ridgewood engine-house.

During the dry weather we have been compelled to work all the stations to their fullest capacity, and have also requested the Citizens' Water Supply Company to put on as much pressure as they could with safety carry at their various stations. In accordance with that request they have carried an average of 105 pounds pressure at their Trains Meadow station, and the table of water pumped during the quarter will therefore show, I think, the maximum amount which they can supply with their present connections. I note from the readings of the meters that while during the month of June the quantity of water pumped through the Flushing avenue meter exceeded the amount pumped through that meter during the month of May by nearly eleven million gallons, the quantity pumped through the Laurel Hill meter was less by about one million gallons during the month of June than during the month of May.

In spite of all our efforts, however, the supply of water in the First Ward is such that in the lower part of that ward the water will not rise above the second stories. As there are a number of five-story houses in that vicinity, many complaints are now being made. As the total of water pumped by the Citizens' Water Supply Company for this quarter averages less than 2,000,000 gallons per day, and as the budget provides for an average of 2,500,000 gallons per day, we cannot get another connection too soon.

I beg leave to call your attention to the large number of extensions which are proposed, some of which I have already reported upon favorably, bringing into the system a large number of new houses, fire-hydrants and other connections and the consequent use of a large additional quantity of water, which will, of course, add to the urgency of the necessity for an increased supply.

I have already reported to you verbally from time to time the progress of the tests we are making at Stations 1 and 3. The Department of Highways are laying a bicycle path in the First Ward of this borough, which is in such a position as to surround a large number of our gate-boxes. Considerable time has therefore been taken in raising these boxes to the exact grade of the bicycle path.

The brickwork around the boilers and in the building at Station No. 2 has been put in good repair. There is considerable carpenter work to be done there, after which painting will put the building in very good condition. Station No. 1 needs considerable repair, and in accordance with your directions the last time you visited the same, you will shortly receive requisitions for that work.

The work at the College Point Station is almost completed, and I trust in a short time the new pump there will be ready for testing. At Flushing station, we have been compelled during the dry weather to use so much water from the small pond that we have had considerable complaint from the inhabitants of the Village of Flushing about vegetable matter in the water. I have had the pond cleaned several times, but the growth is very rapid.

At the Whitestone station, the men are at present pumping about seventeen hours a day in order to keep up the supply.

## SUMMARY OF EXPENDITURES FOR THE QUARTER ENDING JUNE 30, 1899.

Pumping Stations—Salaries and Supplies.....	968 38
Salaries—Office of Deputy Commissioner.....	1,591 62

Forty-two taps put in during the quarter.

The pumping station wells, etc., have been kept in order and the grounds around same fenced and put in order.

Amount of water pumped during the quarter, 7,946,369 gallons, equal to an average of 87,000 gallons per day.

Before all of houses are forced to take water or pay for fire protection it will be necessary to put in other wells and pumps, the authority for which has been approved by the Board of Public Improvements and is now in the Municipal Assembly for their action.

Respectfully yours,

G. W. BIRDSALL, Chief Engineer.

REPORT NO. 128.

NEW YORK, November 14, 1899.

To the Honorable the Aqueduct Commissioners:

GENTLEMEN—In submitting the bills of R. D. Wood & Co. of October 19, 1899, I respectfully submit that this work was furnished under your resolution of September 6. It was found necessary at the time to obtain three more castings than the number mentioned in the Chief Engineer's Report No. 100. While they were special castings which generally come at a much higher figure than the ordinary straight castings, it was arranged with R. D. Wood & Co. that they should furnish the three extra pieces at their price bid under the original agreement, viz.: \$25 per ton.

The total amount of the bills submitted is \$2,037.95.

Yours respectfully,

ALFRED CRAVEN, Acting Chief Engineer.

Mr. Oscar E. Bates was selected, and I hand you herewith his bill for services amounting to \$128, and recommend that the same be paid.

The services covered by this bill include the inspection of the castings authorized by your resolution of September 6.

#### BOARD OF CITY RECORD.

OFFICE OF THE CITY RECORD,  
No. 2 CITY HALL,  
NEW YORK, December 11, 1899.

PROPOSALS TO SUPPLY PRINTED, LITHOGRAPHED OR STAMPED FORMS, BLANKS, PAMPHLETS AND STATIONERY, I. e., OFFICIAL WRITING PAPER AND ENVELOPES TO THE COURTS AND THE DEPARTMENTS AND BUREAUS OF THE GOVERNMENT OF THE CITY OF NEW YORK FOR THE YEAR 1900.

#### TO PRINTERS AND LITHOGRAPHERS.

SEALED ESTIMATES FOR SUPPLYING THE City Government with Printed, Lithographed or Stamped Forms, Pamphlets and Stationery, I. e., Official Writing Paper and Envelopes, etc., will be received at the office of the Supervisor of the City Record, in the City Hall, until 11 o'clock A. M. on

**FRIDAY, DECEMBER 22, 1899.**

The said estimates will be publicly opened and read at a meeting of the Board of City Record to be held in the Mayor's Office at or about the time above mentioned.

Each person making an estimate shall inclose it in an envelope sealed with sealing-wax, indorsed "Estimate for Furnishing Printed, Lithographed or Stamped matter," and with his name and the date of its presentation.

Each estimate shall state the name and place of residence of the person making it; if there are more than one such person, their names and residence must be given; and if only one person is interested in the estimate it must distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Municipal Assembly, head of a

department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the persons making the estimate they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the preliminary security required, and in the proposals stated, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. A guaranty or surety company, duly authorized by law to act as surety, may sign the said consent in place of householders or freeholders. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

The amount of security required upon the execution of the contract will be in each case fifty per cent. of the estimated cost of the articles awarded to each contractor.

The amount of preliminary security to be given until such award shall be not less than three per cent. nor more than five per cent. of the amount of the bond required.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of the said three per centum or five per centum. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the Supervisor of the City Record, who has charge of the estimate box; and no estimate will be deposited in said box until such check or money has been examined by said Supervisor and found to be correct. All such deposits, except that of a successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he accepts but does not execute the contract and give the proper security, he shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimates will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation, and no estimates will be accepted from, or a contract awarded to, any person not having at the time of making his estimate full, suitable and sufficient facilities for performing the work specified in his estimate.

Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the undersigned city officers to reject any or all bids which may be deemed prejudicial to the public interest.

The contract for printing and lithographing, etc., may be awarded, in the discretion of the Board of City Record, item by item, or Department by Department, to different bidders, or, as a whole, to the lowest responsible bidder in the aggregate—unless there be an item involving more than five hundred dollars, or several items each involving the expenditure of a like sum, in which case a contract or contracts will be made with the lowest bidder or bidders on such item or items, and the contract for the remainder of the work for the Department will be awarded to the bidder ascertained to be the lowest after the deduction of such item or items. The bids must, therefore, be in detail on the items required for a Department or Court, and also the aggregate bid for such Department or Court on which bids are offered.

The printed or lithographed blanks, etc., must be folded, and put up in packages by the contractors, according to the directions of the Supervisor of the City Record.

The contractor or contractors must complete the delivery of the blanks, etc., at the office of the CITY RECORD within one hundred and twenty (120) days from the execution of the contract or contracts, unless the work is delayed by a Court, Department, Board or Bureau. From the operations of this rule are excepted the calculation cards for the Department of Taxes, and other blanks, "copy" for which cannot be prepared until the tax rate for 1900 has been fixed. Provision will be made for payment of a proportionate part of the contract price, when it shall appear that the contractor has done his work, until temporarily stayed by the inability of a Department, etc., to furnish "copy."

As many of the printed forms would be made worthless by typographical errors, or by mistakes in the preparations of samples, proofs must be furnished.

Particular care must be taken that the names of the new incumbents of offices are put upon the blanks.

The delivery of the work must begin within five days from the execution of the contracts, and be continued in such a manner that the immediate needs of the Department shall be supplied.

For particulars as to the quantities and kinds of Printing and Lithographing, reference must be had to the samples and specifications on file in the office of the Comptroller, No. 280 Broadway, New York City.

The kinds of paper to be used are indicated on the samples. Copies of the specifications may be procured from the Supervisor of the City Record, No. 2 City Hall.

Mayor.

SEALED ESTIMATES FOR SUPPLYING THE City Government with Blank, Printed or Litho-

graphed Books, Dockets, Libers, etc., will be received at this office until 12 M. on

**WEDNESDAY, DECEMBER 20, 1899,**  
at or about which time said estimates will be publicly opened and read at a meeting of the Board of City Record, to be held in the Mayor's office.

Each person making an estimate shall inclose it in a sealed envelope, sealed with sealing-wax, marked "Estimate for Furnishing Blank Books, etc.," and with his name and the date of its presentation.

Each estimate shall state the name and place of residence of the person making it; if there is more than one such person, their names and residences must be given; and if only one person is interested in the estimate it must distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud; and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The estimate must be verified by the oath, in writing, of the party or parties making it, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the preliminary security required, and in the proposals stated, over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. A guaranty or surety company duly authorized by law to act as surety, may sign the said consent in place of householders or freeholders. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

The amount of security required upon the execution of the contract will be in each case fifty per cent. of the estimated cost of the articles awarded to each contractor. The amount of preliminary security to be given until such award shall be not less than three per centum nor more than five per centum of the amount of the bond required.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of the said three per centum or five per centum. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the Supervisor of the City Record, who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said Supervisor and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he accepts but does not execute the contract and give the proper security, he shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation, and no estimate will be accepted from, or a contract awarded to, any person not having at the time of making his estimate full, suitable and sufficient facilities for performing the work specified in his estimate.

Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the undersigned city officers to reject any or all bids which may be deemed prejudicial to the public interests.

A contract will be made with the lowest bidder for the books required by any Court or Department, or for any item in the specifications involving an expenditure of more than five hundred dollars, or for any item or items for which the Board of City Record may decide to let a separate contract or contracts. Bidders must therefore give not only their bids by items, but also the aggregate bid for the work for any department or departments on which bids are offered.

The making and delivery of all the books must be completed within one hundred and twenty days from the execution of the contract, unless delayed by the Courts, Departments, or Bureaus. They must be made and delivered in the order to be prescribed by the Supervisor of the City Record, to the end that the immediate needs of the Departments shall be supplied.

For particulars of the quantities of books required resort must be had to the specifications on file in the office of the Comptroller, No. 280 Broadway, New York City, or to be procured from the Supervisor of the City Record, No. 2 City Hall.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Destruction and Banishment of all Roaches and Water-bugs, etc., etc." with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department, or his duly authorized agent, and read.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of eight hundred dollars (\$800.00).

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person, and is an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons to whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation.

tion, and the contract will be readvertised and relet as provided by law.

Bidders are cautioned to examine the plans and specifications for particulars of the work, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Department officers in passing upon tenders.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, including specifications and showing the manner of payment, can be obtained at the office of the Department, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate of \$1,000 or over shall be accompanied by the consent, in writing, of two householders or freeholders or security, trust or deposit companies in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by law if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

ing abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Payment will be made by a requisition on the Comptroller in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, Nos. 126 and 128 Livingston street, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article. (No bonds or deposit required on bids under One Thousand Dollars.)

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all the persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Department. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Department officers in passing upon tenders.

Bidders must state the price of each article per pound, dozen, gallon, yard, etc., by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total footing and awards made to the lowest bidder on each item or class.

All estimates not conforming to these requirements may be considered as informal.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must furnish satisfactory testimonials that he is engaged in the business of "Butcher" in The City of New York, and has the plant necessary to carry out promptly and regularly the contract, if it be awarded, to the entire satisfaction of the Commissioners of Public Charities, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of FIFTY THOUSAND (\$50,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. When more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the articles by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the General Bookkeeper and Auditor, foot of East Twenty-sixth street, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must furnish testimonials that he is engaged in the business of selling fish in The City of New York, and has the plant necessary to carry out promptly and regularly the contract, if it be awarded, to the entire satisfaction of the Commissioners of Public Charities, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of TEN THOUSAND (\$10,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, Head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the Fresh Fish, etc., by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, from time to time, as the Commissioners may determine.

No bonds or deposit required on bids under One Thousand Dollars.

No empty packages are to be returned to bidders or contractors except such as are designated in the specifications.

Bidders will state the price for each article, by which the bids are tested.

THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 410, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate of \$1,000 or over shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and let as provided by law.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, Nos. 126 and 128 Livingston street, Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities will insist upon its absolute enforcement in every particular.

JOHN W. KELLER, President,  
ADOLPH SIMIS, Jr., Commissioner,  
JAMES FEENEY, Commissioner,  
Department of Public Charities.

#### TO CONTRACTORS.

SEALED BIDS OR ESTIMATES FOR FURNISHING ONE THOUSAND TONS OF WHITE ASH COAL, egg size, for the Riverside Hospital, at North Brother Island, under the charge of the Board of Health, will be received at the office of the Department of Health, in the City of New York, until 10 o'clock A. M.,

DECEMBER 30, 1899.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Furnishing Coal for Riverside Hospital," and with his or their name or names, and the date of its presentation, to the head of said Department, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Board and read.

The Board of Health reserves the right to reject all bids or estimates, as provided in section 419, chapter 378, Laws of 1897, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

The Coal to be of good quality, and the quantity that will be required will be about One Thousand (1,000) Tons of White Ash Coal, to be well screened and in good order, each ton to be 2,240 pounds, in accordance with the specifications attached to and which form a part of the contract aforesaid.

Delivery to be made at Riverside Hospital, at North Brother Island, at the time required by the Board of Health; any changes in the time or place of delivery, however, may be made, in writing, by the Board of Health.

The above quantity is estimated and approximated only, and bidders are notified that the Board of Health reserves the right to increase or diminish said quantities by an amount not exceeding fifteen per cent. of the estimated quantities, and the contractor will be paid therefor only at the rate or price named in the contract, and that in case the above-named quantity shall not be required by the Department, no allowance will be made for any real or supposed damage of or loss of profit.

The person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal sum of Two Thousand Five Hundred Dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters therein stated are in all respects true.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Bidders will be required to furnish testimonials that they are engaged in the coal business in The City of New York, and have the plant necessary to carry out promptly and regularly the contract, if it be awarded, to the entire satisfaction of the Board of Health, and must furnish an undertaking for the faithful performance of all the provisions thereof in the manner provided by law, executed by two householders or freeholders of The City of New York, each justifying in the penal sum of two thousand five hundred dollars and agreeing that if he shall omit or refuse to execute the said contract, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract shall be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

Should the person or persons to whom the contract is awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or estimate, or if he or they accept, but do not execute, the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are cautioned to examine the form of contract and the specifications for particulars before making their estimates. Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment for the Coal will be made by requisition on the Comptroller, and as more specifically and particularly is set forth in the contract form.

Bidders are informed that no deviation from the contract and specifications will be allowed unless under the written instruction of the Board of Health.

The form of the agreement, including specifications, showing the manner of payment, will be furnished at the office of the Secretary of the Department, fourth floor, corner Fifty-fifth street and Sixth avenue.

Whereas, After public notice given as aforesaid, and at a public hearing duly held in pursuance of such notice, whereat all persons so desiring were given an opportunity to be heard, and were heard, such application was first considered by the Railroad Committee of both houses of said Municipal Assembly:

Section 1. The Municipal Assembly of The City of New York hereby grants to the Kingsbridge Railway Company, subject to the conditions and provisions hereinafter set forth, the right and franchise to use the streets, avenues, parkways and highways of the city, and to construct, maintain and operate a double track street surface railroad in and upon the following streets, avenues, parkways and highways, viz.:

Commencing at the intersection of the southerly side of Manhattan street and the Boulevard, or Eleventh avenue, now known as Broadway, and running thence with double tracks through, along and upon said Boulevard or Eleventh avenue, now known as Broadway, to the Kingsbridge road at or near One Hundred and Sixty-ninth street, including that portion of the Boulevard or Eleventh avenue, now known as Broadway, which is situated between One Hundred and Fifty-fifth street and One Hundred and Fifty-seventh street, which was also known as the Boulevard Lafayette, and connecting with the proposed tracks on the Kingsbridge road and Broadway.

Also commencing at the junction of the Kingsbridge road and the easterly side of Amsterdam avenue at or near One Hundred and Sixty-second street and extending thence with double tracks through, along and upon the Kingsbridge road to its intersection with Broadway at or near One Hundred and Sixty-ninth street and extending thence with double tracks through, along and upon said Broadway upon the bridge over the Harlem Ship canal and upon the proposed bridge, when constructed, over Spuyten Duyvil creek to the northernmost point of intersection of West Two Hundred and Thirtieth street (formerly known as Riverdale avenue) with Broadway; thence westerly from the junction of Broadway with Two Hundred and Thirtieth street (formerly known as Riverdale avenue), through, along and upon West Two Hundred and Thirtieth street (formerly known as Riverdale avenue), to Riverdale avenue; thence northerly through, along and upon Riverdale avenue to the northerly boundary line of The City of New York; together with the necessary connections, switches, sidings and turnouts required for the accommodation and operation of said railway.

Sec. 2. The grant of said franchise or right to use said streets, avenues, parkways and highways, is made subject to the following conditions:

First—That the said right, privilege and franchise to construct and operate its said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years with a privilege of a renewal of said grant for the further period of twenty-five years upon a fair revaluation of the right, such revaluation to be of the right, privilege and franchise to maintain and operate said railway by itself, and not to include any value derived from the ownership, control or operation of any other railroad, line or tracks by the grantee, its successors or assigns; provided, however, that the consent of the owners of one-half in value of the property bounded on such streets, avenues, parkways and highways shall be first obtained, or in lieu thereof, the favorable determination of three commissioners, approved by the Appellate Division of the Supreme Court, that such railroad should be constructed and operated.

Second—Upon the termination of the said franchise or right, whether original or renewed, there shall be a fair valuation of the plant and property of the grantee in the streets, avenues, parkways and highways aforesaid with its appurtenances, and the said plant and property shall be and become the property of the city on the termination of the grant on paying the grantee such valuation. Such payment shall be at a fair valuation of the said plant and property as property, excluding any value derived from the franchise.

Third—The mode of determining the valuations and revaluations herein provided for shall be as follows: One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; the three so chosen shall act as appraisers, and shall make the valuations and revaluations aforesaid. Such appraisers shall be chosen at least sixty days prior to the expiration of the grant, or of the renewal thereof, and their report shall be filed with the Comptroller of the City not more than thirty days thereafter. They shall act as appraisers, and not as arbitrators; they may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party; they shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties.

Fourth—The said Kingsbridge Railway Company shall for and during the first five years after the commencement of the operation of any portion of its railroad annually, on November 1st, pay into the treasury of the City, to the credit of the sinking fund thereof, three per cent. of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City to the credit of the same fund, of five per cent. of its gross receipts, as required by section 95 of the railroad law.

The Board of Estimate and Apportionment having, among other things, made inquiry and determined said above-mentioned percentage to be inadequate, and on December 5th, 1899, fixed and adopted as the money value of said privileges or franchises as follows:

Four per centum of the gross receipts during the first five years of operation;

Six per centum of the gross receipts during the second five years of operation;

Eight per centum of the gross receipts during the third five years of operation; and

Ten per centum of the gross receipts during the remaining years of operation.

The said Kingsbridge Railway Company, in addition to the percentages first herein set forth, as required to be paid by the Railroad Law, after commencement of the operation of any portion of its railroad, shall pay into the treasury of the City to the credit of the Sinking Fund, percentages of its gross receipts as follows:

For and during the first five years one per cent. of such gross receipts.

For and during the second five years one per cent. of such gross receipts.

For and during the third five years three per cent. of such gross receipts, and thereafter five per cent. of such gross receipts.

That but one fare shall be exacted for passage over the railroad constructed under this grant and over the lines of any railroad system operated in connection therewith, and that the gross receipts from joint business shall be divided in the proportion that the length of said railroad operated hereunder shall bear to the entire length of the railroad system which shall be

operated in connection therewith, and of the railroad to be constructed thereunder.

Fifth—The said railroad may be operated by underground electrical power substantially similar to the system of underground electrical traction now in use on the railroads in Second, Sixth, Eighth, Lenox and Madison avenues in this city, and by any other motive power, except locomotive steam power and overhead electrical power, except as hereinafter provided, which may be approved by the Board of Railroad Commissioners and consented to by the owners of property, in accordance with the provisions of the Railroad Law. Provided, however, that the portion of said railway which lies between the south side of the bridge over the ship canal and the city line, upon Kingsbridge road (now known as Broadway), Two Hundred and Thirtieth street and Riverdale avenue, may be operated by the overhead trolley electric system, upon double tracks, or upon single tracks with turnouts, until the grade of said streets, now undetermined, shall have been finally determined and the roadbeds thereof shall have been regulated, graded and paved according to such determination; the reconstruction of said railroad to be simultaneous with such grading and paving, which reconstructed system shall conform to the system in operation south of the said ship canal.

Sixth—The said railroad shall be constructed and maintained subject to the supervision and control of the Commissioner of Highways and the Commissioner of Public Buildings, Lighting and Supplies of The City of New York, in all matters with respect to which said Commissioners are respectively vested with the power of regulation and control by the Charter of said city.

Sec. 3. The said grant is also upon the further conditions, namely:

First—The said railroad shall be constructed and operated in the latest improved manner of street railway construction, and the railroad and property of said company shall be maintained in good condition throughout the full term of this grant.

Second—The rate of fare for any passenger upon said railroad shall be five cents, and said company shall not charge any passenger more than said sum for one continuous ride from any point on its road, or on any road, line or branch operated by it or under its control, to any point thereon or any connecting branch thereof within the limits of The City of New York. The cars on said railroad shall be run as often as the public convenience may require.

Third—The said railway company shall apply to each car a proper fender and wheel-guard conformably to such laws and ordinances as may hereafter be enacted or adopted by the State or City authorities.

Fourth—All cars of said railway company shall be heated during cold weather conformably to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fifth—In case of any violation or breach of or failure to comply with any of the provisions of this section, this grant may be forfeited by suit brought by the Corporation Counsel, on notice of ten days to the said railway company.

Sec. 4. This grant is also upon the further and expressed condition that the provisions of Article IV. of the Railroad Law applicable thereto be complied with.

Sec. 5. The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side thereof, free and clear from ice and snow.

Sec. 6. The said railway company, so long as it shall continue to use any of its tracks upon said streets, avenues or public places, shall have and keep in permanent repair that portion of such streets, avenues and public places between its tracks, the rails of its tracks and two feet in width outside of its tracks under the supervision of the proper local authorities and whenever required by them to do so in such manner as they may prescribe.

Sec. 7. This grant is also upon the further condition that if the right to construct and operate a railway on the Boulevard, now known as Broadway, between Manhattan street and One Hundred and Sixty-ninth street, shall also be acquired by any other railway company under a grant for which application was pending on the 22d day of November, 1898, such other company shall have an equal right in and to the railway tracks constructed thereon and to the structure appurtenant to the tracks upon paying one-half of the cost of construction; the said companies to adjust and arrange their respective rights and interests in said property and the ownership thereof as they may deem most beneficial to their interests and convenient for the operation of their respective railways, it being the intent and purpose of this provision to restrict the number of tracks on said portion of the Boulevard now known as Broadway to two, allowing, however, to each company its separate slot and conduit construction with necessary switches and connections.

Sec. 8. This grant shall not become operative unless within ten days after the passage thereof the said railway company shall duly execute under its corporate seal and instrument in writing, wherein said company shall promise, covenant and agree on its part and behalf to pay the compensation and to conform to, abide by and perform all the conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York.

Sec. 9. This ordinance shall take effect immediately. Published in accordance with resolution adopted by the Municipal Assembly of The City of New York on the 5th day of December, 1899, and approved by his Honor the Mayor on the same day.

NEW YORK, December 6, 1899.  
P. J. SCULLY,

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The quality of the articles must conform in every respect to the samples of the same on exhibition at the office of the Kings County Penitentiary, or in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department, No. 148 East Twentieth street, or James J. Kirwin, Deputy Commissioner, No. 22 Borough Hall, Borough of Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Destruction and Banishment of All Roaches and Water-bugs, etc., etc.," with his or her name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner of said Department, or his duly authorized agent, and read.

THE COMMISSIONER OF THE DEPARTMENT OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of Six Hundred Dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the work to which it relates, or in any portion to the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of Thirty Dollars, being five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

The form of the contract, and showing the manner of payment, can be obtained at the office of the Department, No. 148 East Twentieth street, New York City, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

FRANCIS J. LANTRY,  
Commissioner.

498. No empty packages are to be returned to bidders or

contractors; to be delivered in installments, as required, except such as are designated in the specifications.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Dry Goods, etc., for the Kings County Penitentiary," with his or their name or names, and the date of presentation, to the head of said Department, at the said office, No. 148 East Twentieth street, New York City, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner of Correction, or his duly authorized agent, and read.

THE COMMISSIONER OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time and in such quantities as may be directed by the said Commissioner.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of each of the persons signing the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or security, trust or deposit companies, in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the estimate that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation and the contract will be readvertised and relet, as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department, No. 148 East Twentieth street, New York City, or, in the absence of samples, to the printed specifications. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment and other details, will be furnished at the office of the Department, No. 148 East Twentieth street, New York City, or James J. Kirwin, Deputy Commissioner, Room 22 Borough Hall, Borough of Brooklyn, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal sum of TWENTY-FIVE HUNDRED DOLLARS (\$2,500).

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the

consent, in writing, of two householders or freeholders or security or trust companies in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of One Hundred and Twenty-five Dollars, five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payments will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

Blank forms of proposals can be obtained at the office of General Bookkeeper and Auditor, No. 148 East Twentieth street, New York City.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids. Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioner.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the bid for each article.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the Condensed Cows' Milk by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment and other details, will be furnished at the office of the Department, No. 148 East Twentieth street, New York City, and bidders are cautioned to examine each and all of its provisions carefully, as the Commissioner will insist upon its absolute enforcement in every particular.

THE COMMISSIONER OF THE DEPARTMENT OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 419, CHAPTER 378, LAWS OF 1897.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids. Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioner, and to be free of all expense.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of ONE THOUSAND (\$1,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or trust or security companies in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the Condensed Cows' Milk by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 27 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioner may determine.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of One Hundred Dollars, being five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, from time to time as the Commissioner may determine.

The form of the contract, including specifications, and showing the manner of payment and other details, can be obtained at the office of the Department, No. 148 East Twentieth street, New York City, and bidders are especially cautioned to examine each and all of its provisions carefully, as the Commissioner of Correction will insist upon its absolute enforcement in every particular.

Dated New York, November 27, 1899.

FRANCIS J. LANTRY,  
Commissioner, Department of Correction.
