No. 1. Partition walls required where spans exceed 26 feet, section 31 of Code. As it was impossible to continue interior partition wall across the entire width of

span, owing to the arrangement of plan on upper stories, a steel girder had to be used to carry floor beams for the rest of span.

Mr. H. H. Avolin appeared before the Board.

On motion, laid over.

Appeal 56—New Building 159 of 1904, Nos. 615 and 617 West Fifty-fifth street, Manhattan, William Collins, appellant.

That the proposed wooden bins on the end of the brickwork are unlawful, that said structure is within the fire limits.

That the said wooden bins, as shown on plans, are to be covered with corrugated iron. The said bins merely act as a receiver for the ground oyster shells until they are removed. The lower part of this structure will be open, as shown on plans, so that the wagons can go in and out for the removal of the shells.

Mr. A. B. Foans appeared before the Board.

On motion, laid over.

Letter from Chester W. Chapin, requesting reconsideration of Appeal 29, F. S. C., premises No. 30 Rose street, Manhattan (denied).

On motion, laid over.

Adjourned.

THOMAS F. DONOHUE, Clerk.

JOHN J. DELANY, Corporation Counsel.

PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

At a Meeting of the Board Held at No. 320 Broadway, on the 18th of March, 1904.

There were present:

Alexander E. Orr, President, presiding; John H. Starin, Vice-President; Comptroller Edward M. Grout, Commissioner Woodbury Langdon, Commissioner John Clafin.

George L. Rives and Albert B. Boardman, Counsel, Wm. Barclay Parsons, Chief Engineer, and George S. Rice, Deputy Chief Engineer, also were present.

The minutes of the preceding meeting, that of the 10th of March, 1904, were read, and it was moved that they be approved.

Ayes—The President, Vice-President, Comptroller and Commissioner Langdon.

Nays—None.

Carried.

The following report of the Chief Engineer as to vault space needed for Brooklyn Bridge Station, occupied by Luyties Brothers, was presented and referred to Counsel for report:

NEW YORK, March 12, 1904.

Hon. A. E. ORR, President, Rapid Transit Commission:

MY DEAR SIR—The east side of the Brooklyn Bridge Station requires that the vaults now occupied by Messrs. Luyties Brothers should be in part vacated. I am informed by the Bridge Department that the lease with the Bridge Department contains the following clause:

"Also, that the Department of Bridges may construct, or permit to be constructed, a walk or passageway, for public use, through the upper portion of one of the vaults occupied by Luyties Brothers and located between Park row and North William street, extending the whole distance between these streets, essentially as shown on the blue print attached (4833), but subject to change in detail."

The Commissioner of Bridges furnished me with a permit to enable our contractor to proceed with his work, the permit reading as follows:

"Permission is hereby given to the Rapid Transit Commission to construct a walk or passageway through the upper portion of one of the vaults occupied by you and located between Park row and North William street, extending the whole distance between these streets, essentially as shown on the blue print No. 4833, but subject to change in detail."

"This permit is given in accordance with the contract made between you and The City of New York, as represented by the Bridge Commissioner, and dated the seventeenth day of June, one thousand nine hundred and three."

I attach herewith a letter from the counsel to the Rapid Transit Subway Construction Company, by which you will see that when the contractor presented this

permit Messrs. Luyties Brothers refused to vacate the building, and you will furthermore see that the counsel of the Rapid Transit Subway Construction Company requests the Board to give the company access to this space.

Very truly yours,

(Signed) WM. BARCLAY PARSONS, Chief Engineer.

STRONG & CADWALADER, No. 40 WALL STREET, }

March 11, 1904.

WILLIAM BARCLAY PARSONS, Esq., Chief Engineer, No. 320 Broadway, New York:

DEAR SIR—Referring to your recent orders to the Chief Engineer of the Rapid Transit Subway Construction Company to proceed with the construction of the east side station and passageway at the Brooklyn Bridge, I am advised by him to-day that in compliance with your instruction, he presented the letter from George E. Best, Esq., Commissioner of Bridges, addressed to Messrs. Luyties Brothers, in which permission was given to construct the passageway through the vaults under the Brooklyn Bridge in connection with the east side subway station, to Messrs. Luyties Brothers at their office No. 204 William street. The latter was received by Mr. Eugene J. Cantin, treasurer of the firm, who declared in substance that while the firm had no desire to block or hold up the work of constructing the passageway they must absolutely refuse admittance to the vaults until a guarantee or assurance was given to them of a fair compensation for the loss of space and expense for excavating the vault.

Under these circumstances it is as you see impossible to carry out your orders, and on behalf of Mr. John B. McDonald, Contractor, I have therefore to request that the Rapid Transit Board make arrangements with Messrs. Luyties Brothers to give the contractor facilities for conducting the work, which he cannot otherwise perform.

Very respectfully yours,

GEO. W. WICKERSHAM, General Counsel.

The following communication of Schmidt & Gallatin was presented and referred to the Committee on Plans:

SCHMIDT & GALLATIN, No. 45 BROADWAY, }

NEW YORK, March 14, 1904.

Rapid Transit Railroad Commission, No. 320 Broadway, New York:

GENTLEMEN—In considering subway extensions and bridge connections, we respectfully request that you will not lose sight of the fact that we are before you and the Department of Bridges, with a proposition to operate a system of the Continuous Train or Moving Platforms, on a route connecting the eastern plaza of the Williamsburg Bridge with the Battery in Manhattan.

On October 1, 1903, your Committee on Plans reported that your Chief Engineer regarded the proposed Continuous Train as entirely feasible—that the Committee had voted affirmatively on the plan in general, and that the Chief Engineer had been requested to select a route, after which the counsel of your Board would be asked to meet our counsel for the purpose of arranging the proposed contract.

On October 29, Mr. Parsons reported to your Board the route upon which he and our engineers had agreed. This route you referred to your counsel, who suggested at your meeting on November 24, that inasmuch as the route included the Williamsburg Bridge, it would be desirable to apply to the Legislature for an amendment of the Rapid Transit Act, which would make the position of the Commission clear and unassailable as to its power of laying out Rapid Transit routes on bridges.

This bill was introduced into the Legislature on February 29. It will be passed or rejected within a month or six weeks.

If it becomes a law, your counsel will be able to proceed with the preparation of a contract embracing the entire route.

If it fails, we shall ask your Commission for a franchise covering the route from the Manhattan plaza to the Battery, and the Department of Bridges for a contract covering the Bridge proper.

In any event we believe that our proposition is an important one and request that the route which has been selected for us be considered in your present deliberations regarding subway extensions and bridge connections. We request this for the following reasons:

First—The Moving Platform route accomplishes the majority of the objects aimed at by the other routes. In some respects it accomplishes more. The route makes connection between the bridges; it intersects all the principal east side surface lines, the Second and Third Avenue Manhattan Elevated, the Subway, already built, and it extends to the Battery where it connects with the Sixth and Ninth Avenue Manhattan Elevated, the tunnel to Brooklyn and the ferries.

Second—Every passenger will have a seat and the fare will be 2½ cents. Moreover, we have offered to make traffic arrangements with the existing lines, by which passengers may be transferred from any point on the Platform route to any point in Manhattan or Brooklyn for a single fare of five cents.

Third—We have offered to pay to the City as a rental for the Bridge privilege interest and a percentage into the Sinking Fund on \$3,000,000, being the value placed by the Department of Bridges upon the space to be occupied. We are informed that we are the only traction interest which has offered to make any payment for any right of way on the Williamsburg Bridge.

We have also agreed to pay to the City the 4½ per cent. required by the Charter on the cost of the proposed subway and to furnish security for the full amount of such cost.

Fourth—If desired, we will cause the bridge division to be built immediately and operate it separately until the Subway division is completed.

Very respectfully,

(Signed) SCHMIDT & GALLATIN.

The following resolution was moved:

Resolved, That the President of this Board be and he hereby is authorized to invite proposals for the printing and binding of the report of the Board for the calendar year 1903, and on receipt of the same to award the contract therefor to the lowest responsible bidder.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Clafin.

Nays—None.

The following letter as to the New York Connecting Railroad Company was read and referred to the Contract Committee:

THE PENNSYLVANIA RAILROAD COMPANY,
GENERAL OFFICE, BROAD STREET STATION,
PHILADELPHIA, March 15, 1904.

Mr. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners of New York City, No. 320 Broadway, New York City:

DEAR SIR—Will you kindly advise me when it will be agreeable for representatives of our New York Connecting Railroad Company to appear before the Contract Committee of your Commission and continue our negotiation for the franchise for the New York Connecting Railroad Company which is now pending before that committee?

Yours truly,

(Signed) SAMUEL REA, Fourth Vice-President.

The following letter of Edward M. Shepard was read:

EDWARD M. SHEPARD, SMITH & HARKNESS,
No. 26 LIBERTY STREET, NEW YORK,
14th March, 1904.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

DEAR PRESIDENT ORR—I have your letter of the 11th inst. inclosing the copy of the minute upon my resignation adopted by the Board. I thank you and through you the Board and its members for their appreciative kindness and for the honor done me by their resolution, and renew the expressions of sincere regret at this severance of relations between the members of the Board and myself.

Faithfully yours,

(Signed) EDWARD M. SHEPARD.

The following correspondence as to the necessity to acquire for station purposes small plot of land bounded by Atlantic, Flatbush and Fourth avenues, Brooklyn, was presented:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
CHIEF ENGINEER'S OFFICE,
NEW YORK, February 2, 1904.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—I hand you herewith a portion of the contract drawing relating to the station at the intersection of Flatbush and Atlantic avenues. These two streets, in connection with Fourth avenue, leave at their intersection a triangle, in the centre of which is a small building now occupied as a saloon. The parties that have a lease on this building desire to renew their lease and expend a certain amount of money on improving the property, but do not wish to do so if there is any likelihood of their building being taken as a station approach. Since our plans were adopted the Long Island Railroad has decided to put up a large station, and, consequently, our station becomes one of great importance. From the plan inclosed you will see that the original idea was to have three stairways leading from this triangle to our station below. Under a recent decision of the Counsel these stairways would be an interference with the easement, light, air and access, and the City would have to pay damages to the property-owner. I therefore suggest that this small triangle be condemned and that a proper station building be erected upon the surface to contain a ticket office, descending to the station below by a large, commodious stairway. The parties that now have the lease of the building asked me for a decision as to our future plans, and I will be glad to have you instruct me in this matter, as it is only fair to these parties that they should be informed at as early a date as possible.

Very truly yours,
(Signed) WM. BARCLAY PARSONS, Chief Engineer.
CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
March 15, 1904.

Rapid Transit Railroad Commission, No. 320 Broadway, City:

GENTLEMEN—The Comptroller directs me to transmit to your honorable Board a report of the Bureau of Real Estate on the matter of the property on Flatbush avenue, Fourth avenue and Atlantic avenue, Borough of Brooklyn, for whatever action you may deem necessary.

Respectfully,
(Signed) HUBERT L. SMITH, Assistant Deputy Comptroller.
CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
March 10, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—In the matter of the acquisition by the Board of Rapid Transit Railroad Commissioners of a piece of triangular property bounded by Flatbush avenue, Fourth avenue and Atlantic avenue, in the Borough of Brooklyn, to be used for station purposes, I desire to say that I have made an examination and find that the plot is 30 feet 2 inches on Fourth avenue, 54 feet on Flatbush avenue and 44 feet 10 inches on Atlantic avenue. On it is erected a two-story brick building, the ground floor of which is used as a liquor store. The property is assessed in the sum of \$18,000 for the purposes of taxation, and the real value does not exceed \$30,000.

One of the attorneys who represent the executors, in a communication under date of March 7, 1904, transmits an offer to sell to The City of New York the above described premises for the sum of \$51,478. He places this amount not on the value of the property, but upon a 4 per cent. net income.

I respectfully recommend that condemnation proceedings be instituted for the acquisition of this site.

Respectfully submitted,
(Signed) MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

Approved:
(Signed) EDWARD M. GROUT, Comptroller.

The Comptroller moved the following resolution:

Whereas, The Chief Engineer has made, prepared and duly submitted to this Board four similar maps or plans of a certain parcel of property bounded by Flatbush, Atlantic and Fourth avenues in the Borough of Brooklyn, County of Kings, required for the construction and operation of the Rapid Transit Railroad now under construction by the Rapid Transit Subway Construction Company in pursuance of the contract heretofore made between the said corporation and The City of New York, bearing date the 21st day of July, 1902; and

Whereas, Upon each such map or plan so made there has, by authority of this Board, been placed a memorandum as part thereof, clearly indicating the particular estate or estates, rights, terms, privileges, franchises or easements to be acquired or extinguished for the purposes of such construction and operation in relation to the said parcel of property described upon the said map or plan, such memorandum being substantially in the form following, to wit:

Board of Rapid Transit Railroad Commissioners for The City of New York.

(Signed) WM. BARCLAY PARSONS, Chief Engineer.

Adopted and approved by said Board this 18th day of March, 1904.

Now therefore it is

Resolved, That the above mentioned maps or plans so made and prepared and the said memorandum be and the same are hereby approved and adopted; that a certificate of such approval and adoption and of the approval and adoption of the said memorandum be written upon each of the said maps or plans and signed by the members of this Board, and that one copy thereof, including such memorandum, shall be filed in the Chief Executive Department of The City of New York having principal charge of the said streets or avenues, there to remain as a public record; that two of the said maps or plans and memoranda be transmitted to the Corporation Counsel of The City of New York, together with a copy of these resolutions; and that one of the said maps or plans remain on file as a public record in the office of this Board.

Resolved, That this Board deems it to be necessary and proper that the City should acquire the property above described, and having caused to be made the said maps or plans specifying and defining the said property to be acquired, does hereby direct the Corporation Counsel of The City of New York to take legal proceedings to acquire the same for the said City and to take proceedings as provided in chapter 752, Laws of 1894, as amended by chapter 519, Laws of 1895.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claffin.

Nays—None.

Carried.

Report of the Chief Engineer, as follows, as to the condition of pavement on Broadway, between One Hundred and Thirteenth and One Hundred and Twenty-fifth streets, was read and referred to counsel for report:

MARCH 17, 1904.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—The Department of Highways has requested me to direct the contractors to repair the pavement on Broadway, between One Hundred and Thirteenth and One Hundred and Twenty-fifth streets, and at other points. As requested by the Department of Highways I have directed the contractor to do so, and hand you herewith the reply. The facts as stated by the contractor are substantially correct. A portion of the pavement on these streets was disturbed by the Rapid Transit work and has been restored to as good a condition as it was before the work was begun. The balance of the street was paved with an old macadam pavement nearly worn out and the concentration of traffic on one side of the street has still further damaged the pavement. It is this damage that the Department of Highways wishes the contractor to make good and for which he states he feels he is not responsible.

Very truly yours,
(Signed) WM. BARCLAY PARSONS, Chief Engineer.

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
PARK ROW BUILDING,
NEW YORK, March 15, 1904.

WILLIAM BARCLAY PARSONS, Esq., Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

DEAR SIR—Replying to your letter of March 3, in relation to Broadway, between One Hundred and Thirteenth and One Hundred and Fifteenth streets as affected by Rapid Transit construction, I send you herewith copies of letters from Chief Engineer Deyo and Resident Engineer Merryman, with reference to same.

Yours very truly,
(Signed) JOHN B. McDONALD, Contractor.

(Copy.)

MARCH 9, 1904.

Mr. JOHN B. McDONALD, Contractor:

DEAR SIR—I return you herewith Mr. Parsons' letter of March 3 and the correspondence in the matter of the condition of the surface of Broadway, between One Hundred and Thirteenth and One Hundred and Twenty-fifth streets. I also send you with this report of Resident Engineer Merryman, of date March 8, by which it appears that with the exception of a small amount of granite blocks and the clearing up of some debris from One Hundred and Fifteenth to One Hundred and Eighteenth street, that Captain Shields has complied with the terms of his contract, as I hold that we are not responsible for the wear and tear of the pavement due to the concentration of the traffic or due to the omission of regular maintenance work by the City Department, and that we are only responsible for the pavement where it has been disturbed by the construction of the Rapid Transit Railroad.

Yours very truly,
Chief Engineer.

MARCH 8, 1904.

Mr. S. L. F. DEYO, Chief Engineer:

DEAR SIR—In reply to your letter of the 4th, in regard to the condition of the west side of Broadway, from One Hundred and Fourteenth to One Hundred and Twenty-fifth street, would report as follows:

Captain Shields has restored the street surface to practically as good condition as it was before his work started within these limits. There are several places from One Hundred and Fourteenth to One Hundred and Seventeenth street where he has got to replace granite toothing alongside of surface tracks, and also some debris, from One Hundred and Sixteenth to One Hundred and Eighteenth street to be cleaned up, which will no doubt be done as soon as the weather will permit. Outside of the tunnel line he laid a 20-inch water-pipe, but the surface over it was restored in good shape. This street is bad in a good many places, but think it is due to the ordinary wear and tear for the past four years, during which time no repairs have been made on it.

From One Hundred and Twenty-second to One Hundred and Twenty-fifth street the roadway is badly washed, but there was always a dip in this portion of the street, and when the surface tracks were moved over it showed up worse. The pavement to be restored, due to the construction of the Rapid Transit Railroad, is only a few small places and practically amount to nothing. Outside of these few places within the limits of this complaint, Captain Shields has got street and park surface to restore from One Hundred and Fourth to One Hundred and Tenth street.

Yours truly,
(Signed) W. C. MERRYMAN, Resident Engineer.

Counsel reported verbally as to the matter of permission for construction under the tracks of the New York Central and Hudson River Railroad Company, at One Hundred and Forty-ninth street, referred to them at previous meeting, that they had conferred with officers of the railroad company and the matter had been satisfactorily adjusted.

Report of the counsel as to the method of charging certain accounts was read, as follows:

No. 32 NASSAU STREET, NEW YORK, March 17, 1904.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Railroad Commissioners:

DEAR SIR—Mr. Hollmann, the Auditor of the Rapid Transit Commission, has asked our advice as to the proper disposition of sundry small sums received by him from time to time. As the facts—and to some extent the legal principles involved—differ in respect to these various amounts, we deal with each separately.

1. Surplus copies of contract drawings and other printed or lithographed matter prepared for the use of the board have been sold from time to time. The proceeds, in our opinion, are properly payable to the Comptroller for the proper funds of the City, in the same manner as the proceeds of any articles no longer needed for use by any of the City Departments. We are not aware of any provisions of the Rapid Transit Act which would affect this question.

2. The City took title in fee for rapid transit purposes to certain land at Gerard street and Westchester avenue. The price to be paid for this property is not yet ascertained, but will be determined in the condemnation proceedings now pending. The amount, when ascertained, will be charged to the construction fund, as the cost of real estate acquired in fee; and in determining the rent payable on the lease of the railroad, this amount will have to be added to the cost of construction.

After title was taken by the City, the buildings on the land were removed by a contractor, who paid \$700 for the materials.

In our opinion, Mr. McDonald and the Interborough Company would have a right to insist that they should only pay rent on the net cost of this property, and therefore the \$700 in question should be credited to the construction fund.

3. The building standing at the northeasterly corner of Forty-second street and Broadway was taken down and then rebuilt, to permit of the construction of the subway under it. Some old materials were sold, and two sums of \$12.74 and \$56.20, respectively, were received from such sale.

The expense of taking down and reconstructing the building was properly charged to easement account (construction fund), and in our opinion the amounts realized from old materials as above should be credited to the same account.

In this case, as only an easement was acquired by the City, and not a fee, the rental to be paid on the railroad will not be based on the cost of acquisition of such easement. Mr. McDonald and the Interborough Company have therefore no interest in this particular money; but we think that that circumstance does not make any difference in the rule that should be adopted in keeping the accounts.

Respectfully yours,
(Signed) G. L. RIVES,
BOARDMAN, PLATT & SOLEY.

The following resolution was moved:

Whereas, The Chief Engineer of this Board has certified that certain additional work, not provided for in the contract with the Degnon Contracting Company, for the reconstruction of the building at the northeast corner of Broadway and Forty-second street, has been necessary in order to fit that building for reoccupation, in accordance with contracts with William Wilson and the Meyer Manufacturing Company, and in addition to the bills for additional work already approved by resolution adopted 11th February, 1904, said bill being in amount as follows:
Thomas J. Tuomey, furnishing and putting in water meters..... \$133 90

Resolved, That this Board hereby approves the said bill and directs that a voucher be drawn in due form on the Comptroller for the said amount.

Ayes—The President, Vice-President, Comptroller, and Commissioners Langdon and Claflin.

Nays—None.

Carried.

Certified copy of resolution of Board of Aldermen approving certificate to Hudson and Manhattan Railroad Company was presented as follows:

In the Board of Aldermen:

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York did on the 24th day of November, 1903, grant to the Hudson and Manhattan Railroad Company a certificate fixing and determining the locations and plans of construction of a certain tunnel railroad in The City of New York and also prescribing such terms, conditions and requirements as to the said Board appeared to be just and proper for the grant thereby made, including the terms, conditions and requirements provided by section 32 of chapter 4 of the Laws of 1891 as amended by chapter 584 of the Laws of 1902; the action taken and the grant made by the said Board, the said locations and plans of the railroad, of the tracks and facilities, the compensation to be paid to the City, the terms, conditions and requirements subject to which the franchise was granted are fully set forth in the certificate dated November 24, 1903, as follows:

[Here follows text certificate.]

And Whereas, On the 1st day of December, 1903, the said certificate and the franchise therein contained, together with all the terms, conditions and requirements thereof and the said instrument of acceptance, were duly transmitted by the said Board of Rapid Transit Railroad Commissioners for The City of New York to this Board.

Resolved, That the Board of Aldermen of The City of New York, by a vote of a majority of all the members of the said Board, does hereby approve the said certificate and the franchise therein contained and all the terms, conditions and requirements thereof, and does hereby consent to the construction and operation of a railroad or railroads, connections, extensions, additional track or tracks and facilities in accordance therewith, and The City of New York does hereby approve the said certificate and the franchise therein contained and all the terms, conditions and requirements thereof, and consents to such construction and operation.

Adopted by the Board of Aldermen December 22, 1903, a majority of all the members elected voting in favor thereof.

Approved by the Mayor December 29, 1903.

(Signed) P. J. SCULLY, Clerk.

The following statement as to proposed legislation affecting rapid transit interests was presented by the President:

I desire my fellow-citizens in Manhattan and The Bronx and no less in Brooklyn, as well as the members of this Board, to realize the significance of the rapid transit legislation at Albany. There is absolutely at stake the possibility of further progress in rapid transit at this time. Together with my associates of this Board I have now given upwards of nine years of anxious labor to the cause, the first five of which were, or seemed to be, years of defeat. We have done our work—or, at least, we have meant to do it—with no purpose except to give the traveling masses of the people of the City the best rapid transit, and, while so doing, to preserve to the City itself in the best and safest way the full value of its own franchises. We have at least had fair success—indeed, much larger success than for years the most expert observers believed that we would or could have. Nevertheless, I realize that we have accomplished but a part, probably a small part, of the work to be done. In my opinion this is no time to stop or suspend the work. But it must, for the present at least, be stopped if the Legislature shall not pass one of the two bills the Board has approved.

That bill is very short, having but a single clause. It simply extends the limit of rapid transit expenditure to such amount as the Board of Estimate and Apportionment shall approve. The bill involves and was drawn to involve no controversial question or new theory. Every one, whatever his theory on rapid transit, agrees that this money limit must be enlarged. Every one, therefore, concedes the propriety of this bill—at least, no one openly objects. The bill ought, therefore, to be dealt with on its own separate merits. But it is sought to merge it into—and make it depend upon—the new and most important proposals of what is called the Elsberg Bill. Now, it is plain that to make the grant of power to the City to expend more money in rapid transit depend upon these new proposals—controversial, as they are—may well mean the complete defeat for the present of further rapid transit. The Board has not yet taken up the consideration of the Elsberg Bill. But if its opinion be desired, I believe its members will feel bound to give it careful and deferential consideration, and to frankly state its conclusion to the Legislature and the people. Whatever conclusion upon its interesting proposals may be reached, either by the Board or public sentiment or the Legislature, no one can fail to see that they involve not only a great increase in the power and patronage of the Rapid Transit Board, but a new and very great departure from the scheme of municipal construction heretofore adopted and a very great departure from any plan of municipal development heretofore seriously considered by the City. When the relatively conservative measure of municipal construction under which we are now proceeding was proposed in 1894, it was submitted to popular vote. I shall express no opinion whether the new departure ought to be submitted to popular vote; but in view of the vast interests involved, not to say the serious risks, it seems probable that a considerable time must be taken for mature consideration of the proposals and for their adequate submission to public sentiment. But three or four weeks remain, however, of the present session; and I cannot but feel that, however little they intend it, those who insist that our simple proposal for a larger limit of the rapid transit fund shall be considered only in connection with the extensive changes in rapid transit and municipal policy proposed by the Elsberg Bill, are, in effect, contributing to the defeat of continuing rapid transit. This result would be calamitous. The \$50,000,000 limit was prescribed by the Legislature in 1894, when the rapid transit problem was in an experimental stage, when most expert railroad and financial people did not believe that any plan could be carried out. The limit was prescribed for the old City of New York; Brooklyn and other outlying boroughs were not considered. The limit thus fixed nine years ago has been nearly exhausted by the Manhattan-Bronx and Brooklyn-Manhattan roads; and every one concedes that the municipal debt incurred for this purpose—and during those years, as I understand, more than made up by accumulations of the Sinking Fund—has been equaled several times over by the increase of values produced by the progress of the rapid transit work. With the growth in the population and business of the City, the necessity for further rapid transit is more apparent to-day than it was nine years ago.

In my opinion the City owes the very utmost of good faith, and of liberal good faith, to those who are building the rapid transit roads now under construction. They took up our proposal when it had found few friends. But with all my respect for them, I am clear that the City ought not, so far as municipal rapid transit is concerned, to be confined, as it will be, for the present at least, if the bill we have

proposed shall not pass, to the facilities provided by the single system including the Manhattan subway and Brooklyn extension now under construction.

The Comptroller moved the following resolution:

Resolved, That the statement of the President be and the same hereby is adopted by this Board; and that the counsel be requested to present it to the Joint Committee of the Legislature, as expressing the views of this Board upon its own bills for amendments to the Rapid Transit Act now before the Assembly.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

The Comptroller moved the following resolution:

Resolved, That the counsel be also instructed to say to the Joint Committee that this Board would approve of a bill which would remove the minimum of thirty-five (35) years for leasing, as now provided in the Rapid Transit Act, but not of one fixing a maximum of twenty (20) years; that the Board is heartily in favor of a provision which would authorize the construction of pipe galleries; that the Board is in favor of such a change in the section as to taxation as would enable the Board, subject to the approval of the Board of Estimate and Apportionment, to exempt, if need be, but would not necessarily require such exemption; and that the Board is opposed to the repeal of the portion of section 32, generally known as the Pennsylvania Railroad Act.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

The Comptroller moved the following resolution:

Resolved, That the counsel be also instructed to say to the Joint Committee that this Board is not opposed to an optional provision which would permit the Board, subject to the approval of the Board of Estimate and Apportionment, to separate the contract for construction from the contract for operation, provided that such option could only be exercised by six votes in this Board and twelve in the Board of Estimate and Apportionment, and should first be submitted to a popular vote.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

The Comptroller moved the following resolution:

Resolved, That this Board is not opposed to a provision which would permit municipal operation, provided that such option could only be exercised by a vote of six in this Board and of twelve in the Board of Estimate and Apportionment, and should first be submitted to a popular vote.

Ayes—The President, Vice-President, Comptroller and Commissioner Langdon.

Nays—None.

Carried.

Commissioner Claflin stated that he did not concur with the views of the majority with respect to municipal operation, and would abstain from voting.

The Comptroller moved the following resolution:

Resolved, That this Board is of the very decided opinion that the propositions on which it has just expressed its opinion, and which are not embodied in its own original bills, should not be incorporated in its original bills, and that these bills should have free passage, unobstructed by the addition of any controverted question, in conformity with the statement of the President already adopted.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

The following resolution was moved:

Resolved, That the action of counsel be approved in requesting the amendment of the act by striking out from section 37 the following words: "or any proposal for such a contract advertised."

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

The Comptroller moved the following resolution:

Resolved, That the Secretary send to the Mayor, as soon as possible, a copy of the proceedings of the Board to-day on the subject of Legislation.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon and Claflin.

Nays—None.

Carried.

Miscellaneous correspondence was presented as to various proposed rapid transit extensions, including a number of letters from merchants favoring the proposed extension of the line of the New York and Jersey Railroad to Thirty-third street and Sixth avenue, all of which were referred to the committees having these matters in charge.

The Board then adjourned.

TERMS AND CONDITIONS OF SALE.

The lease will be sold subject to the approval of the term thereof by the Commissioners of the Sinking Fund.

No bid will be received which shall be less than the upset price, namely, for the first term three and one-half (3½) per cent. of the gross receipts of said ferries, but not less than \$4,000 per annum for the said franchises, together with the wharf property belonging to the City; the rental for the renewal term to be fixed as follows:

Three months before the expiration of the first term the Commissioner of Docks and the Commissioners of the Sinking Fund shall appoint a person to act on behalf of the City as arbitrator, and the New York and College Point Ferry Company shall appoint a person to act in its behalf as arbitrator, and the arbitrators so appointed shall determine upon a fair and reasonable amount to be paid as rental under the lease, annually, during the renewal term, in quarter yearly payments in advance.

In case the arbitrators are unable, within thirty days, to agree as to the amount to be paid as rent for the renewal term, they shall appoint a third person to act as umpire, and if they are unable to agree within thirty days upon such umpire, then, at the request of either of the parties, he shall be appointed by the Presiding Justice of the Appellate Division of the Supreme Court of the State of New York, First Department, and the decision of two of said parties so selected shall be conclusive and binding upon both of the parties to the lease, but in no case during said renewal term shall the rental be less than \$4,400 per annum, the rent to be payable quarterly in advance.

The purchaser will be required at the time of the sale to pay, in addition to the auctioneer's fee (viz., \$50), to the Department of Docks and Ferries, \$1,000 as security for the execution of the lease, which \$1,000 will be applied to the payment of the rent first accruing under the lease when executed or will be forfeited to the Department if the purchaser refuses or neglects to execute the lease, with good and sufficient surety to be approved by the Commissioner of Docks within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks and Ferries, Pier "A," North river, foot of Battery place.

Two sufficient sureties, to be approved by the Commissioner of Docks, will be required under the lease to enter into a bond of obligation, jointly and severally with the lessees, in the sum of \$8,000, for the faithful performance of all the covenants and conditions of the lease.

The lease will contain the usual covenants and conditions, in conformity with the provisions of law and the ordinances of the Board of Aldermen relative to ferries, and shall provide that the lessees will maintain and operate the ferries during the whole term, and will provide ample accommodations in the way of safe and capacious boats and sufficiency of trips; that if at any time during the term hereof the Commissioner of Docks, or the person or persons then performing the duties now exercised by the Commissioner of Docks, shall be of the opinion that the boat or boats furnished by the party of the second part, or that the number of trips do not conform to the requirements

of this lease, he may direct the party of the second part to make such improvements, construct such new boat or boats, or increase the number of trips as in his opinion the service demands; and in the event of the failure of the party of the second part to comply with such directions within a reasonable time, a commission shall be appointed, composed of the Mayor, the President of the Borough of Queens and the Commissioner of Docks, on behalf of the City, and three other persons selected by the party of the second part, which commission shall be known as the Arbitration Commission, and in case of their failure to agree as to the improvements to be made in the service, they shall appoint a seventh person to act as umpire, and if they are unable to agree within five days upon such umpire, then, at the request of either of the parties hereto, he shall be appointed by the Presiding Justice of the Appellate Division of the Supreme Court of the State of New York, First Department, and the decision of four of said seven persons so selected shall be conclusive and binding upon both of the parties to this lease; also conditions that the lessees shall dredge the ferry slips, etc., as required by the Commissioner of Docks; that during the term of the lease they will erect and build, at their own expense, and will at all times well and sufficiently repair, maintain and keep in good order, all and singular the floats, racks, fenders, bridges and other fixtures of the landing places, and in the event of any damage to the bulkheads or piers from collision by the ferryboats or otherwise, from any accident or negligence on their part, they will immediately repair and restore said wharf property to its previous condition free of cost to the City of New York; that if at any time during the term of the lease the Commissioner of Docks shall require any of the wharf property used for ferry purposes in order to proceed with the water-front improvements in the vicinity of the ferry landings, the said lessees shall surrender and vacate the premises without any claim upon the City for any damages whatever, upon written notice being given to the lessees three months in advance of the intention of said Commissioner; shall, by the said notice, terms of description, or by reference to the plans and specifications of the proposed work of improvement, specify the character of the alterations and improvements to be made in regard to said water front, affecting the property and rights hereby authorized to be demised, and upon receiving such notice the lessee may elect to terminate the lease of said ferry privilege or franchise by serving notice of such election upon the Commissioner of Docks within one month after receiving such notice from the Commissioner of Docks of his intention to improve the water front in the vicinity of the ferry landing; also that in case only a portion of said wharf property shall be required for the purposes aforesaid, then a reasonable reduction will be made from the rent reserved by said lease; that sworn returns of the amounts of ferry receipts shall be made to the Commissioner of Docks when required by said Commissioner, and that the books of accounts of the ferry shall be subject to the inspection of said Commissioner, or to any person designated by him in writing.

The lease will contain a covenant providing that upon the expiration or sooner termination of the said term of ten years the lessee may, and upon demand, in writing, by the Commissioner of Docks, or other proper officer or Department of the City of New York thereto duly authorized shall, at the cost and expense of the lessee, forthwith and at the utmost practicable speed wholly remove from the premises hereinbefore described buildings, platforms, floats, bridges, ferry racks, piling and fixtures which shall have been erected or placed by the lessee, its successors or assigns, upon or within the limits of the wharf property leased, so that there shall be in the slip adjacent to the hereinbefore described wharf property used for the purposes of said ferry, and in every part thereof, from the bulkhead out, at least ten feet of water at mean low water.

The rates of ferrage and charges for vehicles and freight shall not exceed the rates now charged on the ferry to and from the foot of East Ninety-ninth street, Borough of Manhattan, from and to College Point, Borough of Queens.

The lessees shall provide such lifeboats, floats, rafts and life preservers as may be directed by the Commissioner of Docks.

The form of lease which the purchaser shall be required to execute can be seen at the office of the Commissioner of Docks.

The right to reject all bids is reserved, if deemed by the Commissioner of Docks to be for the best interests of the City so to do.

May 1, 1954	May 1 and November 1.	<p>The said bonds and stock are free and exempt from all taxation in the State of New York, except taxation for State purposes, pursuant to the provisions of section 169 of the Greater New York Charter, as amended.</p> <p><i>The principal of and interest on said bonds and stock are payable in gold coin of the United States of America, of the present standard of weight and fineness, pursuant to resolutions of the Commissioners of the Sinking Fund adopted June 9, 1898, and April 18, 1904.</i></p> <p>CONDITIONS OF SALE.</p> <p><i>As provided for by the Greater New York Charter.</i></p> <p>1. Proposals containing conditions other than those herein set forth will not be received or considered.</p> <p>2. No proposal for stock shall be accepted for less than the par value of the same.</p> <p>3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the stocks or bonds bid for in said proposal.</p> <p>No proposal will be received or considered which is not accompanied by such deposit.</p> <p>All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.</p> <p>4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the stocks or bonds awarded to him or them at their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.</p> <p>5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the stock or bonds awarded to them, respectively, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.</p> <p>6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of bonds or stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the stock or bonds offered for sale.</p> <p>7. It is also provided by the Charter that these bonds, if issued in registered form, may be issued in denominations of ten dollars or any multiple thereof; and that "preference shall, so far as practicable, and without pecuniary disadvantage to the City, be given to applicants for the smallest amounts and smallest denominations of said bonds in issuing the same."</p> <p>8. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York.</p> <p>EDWARD M.
