PETITIONS AND COMMUNICATIONS.

No. 2015.

State of New York,
Board of Railroad Commissioners,
Albany, May 16, 1907.

P. J. SCULLY, Esq., City Clerk, New York City:

Dear Sir—In the matter of a resolution of the Board of Aldermen of New York City, adopted March 12 last, in relation to the removal of the station of the Second

avenue line of the Manhattan Railway, lessor, from Allen and Rivington streets to Allen and Delancey streets, this Board will give a public hearing at the New York office of the Board, Room 5096, Metropolitan Building, No. 1 Madison avenue, New York City, on Thursday, May 23, 1907, at 2 o'clock p. m.

Very truly yours,

J. S. KENNEDY, Secretary.

Which was ordered on file.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Chairman pro tem. laid before the Board the following communication from the Board of Estimate and Apportionment, transmitting resolution:

No. 2016.

Board of Estimate and Apportionment, City of New York,
Office of the Secretary, No. 277 Broadway,
May 18, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 17, 1907, recommending to the Board of Aldermen the fixing of the salaries of the following grades of positions in the Law Department:

Assistant, at \$7,000 per annum (four incumbents); Assistant, at \$6,500 per annum (four incumbents); Assistant, at \$5,500 per annum (four incumbents); Assistant Chief Clerk at \$4,500 per annum (one incumbent), and that the number of incumbents in the position of Assistant at \$4,000 per annum in said Department be increased from four incumbents to seven incumbents, together with copy of report of the Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, to which this matter was referred on May 3, 1907, and copy of report of the Bureau of Municipal Investigation and Statistics, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

Department of Finance,
Bureau of Municipal Investigation and Statistics,
May 16, 1907.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—We return herewith a communication addressed to the Board of Estimate and Apportionment by Hon. William B. Ellison, Corporation Counsel, under date of April 29, 1907, relative to the establishment of additional grades of positions in his office, together with a further communication under date of May 8, 1907, and a report of the Bureau of Municipal Investigation and Statistics bearing on said matter; and would respectfully recommend that the request of the Corporation Counsel, as amended, be approved by the Board of Estimate and Apportionment by the adoption of the resolution hereto appended.

Respectfully yours,

(Signed) H. A. METZ, Comptroller,
P. F. McGOWAN, President, Board of Aldermen,
Select Committee.

Law Department,
Office of the Corporation Counsel,
New York, May 8, 1907.

To the Committee on Salaries, Board of Estimate and Apportionment:

Gentlemen—I desire to amend my request for the creation of fifteen additional positions of Assistant in this department in the following respect:

Instead of adding five positions at \$7,000, five positions at \$6,500, and five positions at \$5,500, I desire to add but four positions at each of the salaries mentioned and three positions at \$4,000 per annum each.

Respectfully yours,

(Signed) WILLIAM B. ELLISON,
Corporation Counsel.

April 4, 1907.

Board of Estimate and Apportionment of The City of New York:

Dear Sirs—To fill the vacancies caused by some recent resignations among the Assistants in this department I desire to make certain promotions of other Assistants in lower grades. There are in the schedule of positions as now fixed grades at \$5,000, \$6,000 and \$7,500, but no intermediate grades at \$5,500, \$6,500 and \$7,000. Instead of making a few promotions with increases of salary of \$1,000 or \$1,500, I would prefer to make more promotions with increases of \$500 each.

I enclose herewith a resolution establishing five new positions of Assistants at \$7,000, five new positions of Assistants at \$6,500, five new positions of Assistants at \$5,500 and one additional position in the clerical schedule of Assistant Chief Clerk at \$4,500, there now being no grade in the clerical schedule between \$4,000 and \$5,000.

Although on its face this application may appear to create fifteen additional positions of Assistants in this department, you are doubtless aware that I cannot increase the number of Assistants because of the refusal of the State Civil Service Commission to allow more than seventy-five Assistants in the Law Department; neither is it my purpose at the present time to fill all of the newly created positions by promotion, but the addition of these intermediate grades will make the salary schedule more elastic than at present, and will enable me to arrange the salaries of the Assistants upon a more equitable basis.

In the Budget for 1907 the Board of Estimate and Apportionment provided a sufficient sum to pay all of the increases in salary which are provided for by this resolution, and after filling the vacancies caused by the recent resignations there will be a balance in the salary appropriation, which may be used for promotions, amounting to about \$10,000. This money was asked for by my predecessor and granted by the Board of Estimate and Apportionment for that express purpose.

It has not been possible for me to bring this matter before your Board at an earlier date, for the reason that I have found it necessary to make a very careful study of the needs of the various offices and bureaus of the department, and I have not been able, until the present time, to fully decide on the proper adjustment of the salaries of the Assistants.

When this matter comes before your Board for consideration I would be very glad to appear and explain at length the details of this application.

Respectfully yours,

WILLIAM B. ELLISON,
Corporation Counsel.

May 16, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a communication addressed to the Board of Estimate and Apportionment by the Corporation Counsel, under date of April 29, 1907, relative to the establishment of certain additional grades of positions in the Law Department, which communication was presented to said Board on May 3, 1907, referred to a Select Committee, consisting of the Comptroller and President of the Board of Aldermen, for consideration, and by you referred to the Bureau of Municipal Investigation and Statistics for examination, I beg to submit the following report:

Under date of May 8, 1907, the Corporation Counsel addressed a further communication to the Committee on Salaries of the Board of Estimate and Apportionment amending his original request. From these two communications it appears that the new grades of positions which the Corporation Counsel desires to establish are:

Assistant, at \$7,000 per annum, for four incumbents; Assistant, at \$6,500 per annum, for four incumbents; Assistant, at \$5,500 per annum, for four incumbents; Assistant Chief Clerk, at \$4,500 per annum, for one incumbent, and also the increasing of the number of incumbents in the position of Assistant at \$4,000 per annum, from four incumbents to seven incumbents.

The Corporation Counsel states that the salaries in force in the Law Department (not including the Bureau of Street Openings) on April 27, 1907, were in part as follows:

Four Assistants, at \$10,000 per annum each; four Assistants, at \$7,500 per annum each; ten Assistants, at \$6,000 per annum each; thirteen Assistants, at \$5,000 per annum each; two Assistants, at \$4,500 per annum each; four Assistants, at \$4,000 per annum each; five Assistants, at \$3,500 per annum each; eight Assistants, at \$3,000 per annum each; five Assistants, at \$2,500 per annum each; four Assistants, at \$2,000 per annum each; three Assistants, at \$1,500 per annum each; one Chief Clerk, at \$5,000 per annum; one Assistant Chief Clerk, at \$4,000 per annum, and that to fill the vacancies caused by recent resignations among the Assistants in his Department he desires to make certain promotions of other Assistants in lower grades.

It appears that among said resignations are those of Hon. Arthur C. Butts, former Assistant Corporation Counsel, at \$7,500 per annum, and Hon. Charles M. Harris, former Assistant Corporation Counsel, at \$6,000 per annum, both of whom have been appointed City Magistrates. The Corporation Counsel states that instead of making a few promotions at increases of \$1,000 or \$1,500 in annual salary he prefers to make a larger number of promotions with increases of but \$500 each.

The present number of Assistants (including the Bureau of Street Openings) is seventy-five, and the Corporation Counsel states that the State Civil Service Commission will not permit him to increase the number of said positions, and that therefore it is not his purpose to fill all of the positions he desires to establish by promotion, but that such schedule being more elastic than that at present in force it will enable him to arrange the salaries of his Assistants upon a more equitable basis.

Since the Budget appropriation for the Law Department for 1907 provides ample funds to meet all the changes in salaries contemplated by the Corporation Counsel, and since, in his opinion, such changes will make the compensation of his Assistants more equitable, it would appear to your Examiner that the desired changes should be made.

In regard to the new grade of Assistant Chief Clerk, at \$4,500 per annum, it appears that Andrew T. Campbell, Chief Clerk of the Law Department, at a salary of \$5,000 per annum, has been in the City's employ for nearly half a century, and that he will celebrate his fiftieth anniversary in such service on June 1, 1907. The present Assistant Chief Clerk, J. H. Greener, has been in the City's employ for about 22 years, and it would appear to your Examiner that the important nature of the duties performed by him and the long service he has rendered properly entitle him to the increased compensation contemplated.

Your Examiner would therefore respectfully recommend that the amended request of the Corporation Counsel receive approval at the hands of the Board of Estimate and Apportionment by the adoption of the resolution hereto attached.

Yours respectfully,
(Signed) R. B. MCINTYRE,
Acting Supervising Statistician and Examiner.

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the amended Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following new grades of positions in the Law Department, in addition to those already existing therein, viz.: Assistant, at \$7,000 per annum, four incumbents; Assistant, at \$6,500 per annum, four incumbents; Assistant, at \$5,500 per annum, four incumbents; Assistant Chief Clerk, at \$4,500 per annum, one incumbent; and that the number of incumbents in the position of Assistant, at \$4,000 per annum, in said Department, be increased from four incumbents to seven incumbents.

Whereas, The Board of Estimate and Apportionment, at a meeting held May 17, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the amended Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the following new grades of positions in the Law Department, in addition to those already existing therein, viz.: Assistant, at \$7,000 per annum, four incumbents; Assistant, at \$6,500 per annum, four incumbents; Assistant, at \$5,500 per annum, four incumbents; Assistant Chief Clerk, at \$4,500 per annum, one incumbent; and that the number of incumbents in the position of Assistant, at \$4,000 per annum, in said Department, be increased from four incumbents to seven incumbents."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salaries of the above positions as set forth therein.

Which was referred to the Committee on Salaries and Offices.

The Chairman pro tem. laid before the Board the following communication from the Board of Estimate and Apportionment transmitting ordinance:

Board of Estimate and Apportionment, City of New York,
Office of the Secretary, No. 277 Broadway,
May 20, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 17, 1907, approving of the issue of Corporate Stock to the amount of \$39,500, to provide means for the acquisition, examination of title, etc., of property located on the northwesterly corner of West One Hundred and Forty-first street and Convent avenue, Borough of Manhattan, for the use of the Board of Trustees of the College of The City of New York for departmental purposes, together with copy of a communication presented by the Comptroller, to whom this matter was referred on May 10, 1907, and copy of communication and resolution submitted by the Secretary of the Board of Trustees of the College of The City of New York relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,
JOSEPH HAAG, Secretary.

May 16, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—At a meeting of the Board of Estimate and Apportionment held May 10, 1907, a communication was presented to said Board from the Secretary of the Board of Trustees of the College of The City of New York, transmitting a certified copy of a resolution adopted by said Board of Trustees relative to the purchase of the lot and building on the northwest corner of One Hundred and Forty-first street and Convent avenue, in the Borough of Manhattan, for the use of the college, and at that meeting the communication was referred to you for consideration and report.

Under date of May 15, 1907, Hon. Edward M. Shepard writes that he has been given an option on the property for \$39,000, which price, he has been informed, is fair and reasonable, that the option expired on the 15th, but that he would endeavor to have it renewed for a few days.

The property located on the corner above described is known as Lot No. 11 in Block 2058, Section 7, on the land maps of The City of New York, for the purposes of taxation, and for said purpose is assessed at \$20,000, being \$7,600 for the land and \$12,400 for the building. The property is known by the number 280 Convent avenue, and has on it a four-story American basement stone private house, with entrance on One Hundred and Forty-first street. The cellar is about ten feet in height, light, perfectly dry and well ventilated, contains two Nugeut furnaces, both in perfect condition, a dry store room for furniture and two wine cellars partitioned off, as well as coal bins, said bins containing about fifteen to twenty tons of coal. The basement floor contains a large billiard room, trimmed in quartered oak; entrance hall also quartered oak; large, well appointed kitchen furnished with Defiance range and ample closet and kitchen dresser space. In the rear of this, in extension, is a laundry fully

appointed with porcelain tubs. The parlor floor contains large front parlor, trimmed in white mahogany, elegant mantel, large foyer trimmed in quartered oak, dining room, quartered oak, containing sideboard and cabinet; smoking room in the extension, trimmed in red mahogany. Floor above parlor is trimmed throughout in white and bird's-eye maple and contains large front bedroom and large rear bedroom, with good size dressing room between and bath in extension. The third floor contains five rooms, three for servants, with ample closet room, medium size bedroom in centre and large bedroom in front.

The trim throughout the house is cabinet, mantels in all bedrooms and foyer rooms. Grates and fixtures in three lower floors, inlaid floors throughout, with the exception of top floor, elegant chandeliers, with electric appliances for lighting same, and burglar alarm throughout, with large clock attachment. House is in first-class condition and is nicely decorated. Double shades in all windows, fitted with curtain poles with patent pulls for portieres. The house contains three baths and three toilets, two of the baths are tiled and one common one for servants. The building is 20 feet wide by 55 feet in depth, with a two-story extension 18 feet in depth by 13 feet in width. The property is owned by Mr. Schwartz.

I am of the opinion that the price named by Mr. Shepard, \$39,000, is reasonable and just, and I would therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution approving of the resolution of the Board of Trustees of the College of The City of New York, and authorizing the acquisition of the property at private sale, at a price not exceeding \$39,000. This value of \$39,000 has also been approved by Mr. John T. Duff, a real estate expert in the vicinity, and by Mr. Bryan L. Kennelly, of No. 156 Broadway, Manhattan.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

The College of The City of New York,
Lexington Avenue and Twenty-third Street,
New York, May 9, 1907.

Hon. HERMAN A. METZ, Comptroller, No. 280 Broadway:

Dear Sir—I have the honor to transmit herewith a certified copy of a resolution of the Board of Trustees of the College of The City of New York, adopted at a meeting held on May 8, 1907, requesting the purchase of the property on the northwest corner of One Hundred and Forty-first street and Convent avenue, Borough of Manhattan, for college purposes.

Yours respectfully,

JAS. W. HYDE, Secretary, Board of Trustees.

Resolved, That the Board of Estimate and Apportionment be and they hereby are requested to take the steps necessary for the purchase of the lot and building on the northwest corner of One Hundred and Forty-first street and Convent avenue for the use of the College of The City of New York; said lot and building can be purchased at this time for the sum of thirty-nine thousand dollars (\$39,000), and the Board of Estimate and Apportionment are further requested to authorize the issue of the necessary Corporate Stock by the Comptroller.

A true copy of a resolution adopted by the Board of Trustees of the College of The City of New York on May 8, 1907.

JAS. W. HYDE, Secretary, Board of Trustees.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of thirty-nine thousand five hundred dollars (\$39,500), to provide means for the acquisition, examination of title, etc., of property located on the northwesterly corner of West One Hundred and Forty-first street and Convent avenue, Borough of Manhattan, for the use of the Board of Trustees of the College of The City of New York, for departmental purposes.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 17, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding thirty-nine thousand five hundred dollars (\$39,500) for the purpose of providing means for the acquisition, examination of title, etc., of property located on the northwesterly corner of West One Hundred and Forty-first street and Convent avenue, Borough of Manhattan, for the use of the Board of Trustees of the College of The City of New York for departmental purposes, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding thirty-nine thousand five hundred dollars (\$39,500), the proceeds whereof to be applied to the purposes aforesaid."

Which was referred to the Committee on Finance.

At this point the Vice-Chairman took the chair.

The Vice-Chairman laid before the Board the following communication from the Police Department:

Police Department, City of New York,
 Fourth District,
 New York, May 1, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with Circular Order No. 22, the following list of licensed show places and so-called places of amusement holding licenses, together with the dates when such licenses were issued, and as to whether the same are complying with the provisions of the Building Code, is herewith submitted.

Twenty-first Precinct.

The following places are conducted as "five-cent moving picture shows," and are operating under common show licenses:

No. 423 Third avenue; licensee, James J. McGillan; license issued, April 20, 1907; No. 238.
 No. 477 Third avenue; licensee, George H. Stafford; license issued, December 24, 1906; No. 188.
 No. 587 Third avenue; licensee, M. Weissman & Co., license issued, March 2, 1907; No. 215.
 All of the above-named places have been recently passed by the Bureau of Buildings as having complied with the Building Code.

Twenty-second Precinct.

There are no "penny shows," "five-cent theatres," or "moving picture shows" within the Twenty-second Precinct.

Twenty-fourth Precinct.

The following places are conducted as "five-cent moving picture shows," and are operating under common show licenses:

No. 794 Third avenue; licensee, Nicoletti & Goldstein; license issued, January 21, 1907; No. 201.
 No. 977 Third avenue; licensee, Michael Glynn; license issued March 26, 1907; No. 224.
 These two places do not comply with the provisions of the Building Code.

Twenty-sixth Precinct.

The following-named place is conducted as a "five-cent moving picture show," and is operated under a common show license:

No. 114 West Sixty-fifth street; licensee, International Vaudeville Company; license issued, March 1, 1907; No. 213.

This place complies with the provisions of the Building Code.

I assume responsibility for the accuracy of the above.

Respectfully,

RICHARD WALSH, Inspector, Fourth District.

Police Department, City of New York,
 Fifth District,
 New York, May 14, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with Circular Order No. 22, relative to a resolution of the Board of Aldermen requesting this Department to furnish a list of all licensed show places and other so-called places of amusement holding licenses, together with the dates when such licenses were issued, and if complying with the provisions of the Building Code relating to places of amusement, I have the honor to report:

That the following places have been licensed as indicated herein, have been approved by the Fire Commissioner and the Building Department and, in my opinion, comply with the Building Code:

Respectfully,

JAMES E. DILLON, Inspector, Fifth District.

Police Department, City of New York,
 Sixth District,
 New York, May 6, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with Circular Order No. 22, relative to licensed show places within the Sixth Inspection District, the date of license and if same comply with the Building Code relative to places of public amusements, I herewith submit the following:
 Twenty-seventh Precinct. None.
 Thirtieth Precinct. None.

Thirty-first Precinct.

- Alhambra Theatre; theatre, One Hundred and Twenty-sixth street and Seventh avenue; May 1, 1906.
 Keith & Proctor's; theatre, No. 205 West One Hundred and Twenty-fifth street; May 1, 1906.
 Hurtig & Seamon's; theatre, No. 207 West One Hundred and Twenty-fifth street; May 1, 1906.
 West End Theatre; theatre, No. 368 West One Hundred and Twenty-fifth street; May 1, 1906.
 Unique Amusement Company, picture machines, No. 264 West One Hundred and Twenty-fifth street; July 30, 1906.
 Triangle Amusement Company, five-cent theatre, No. 253 West One Hundred and Twenty-fifth street; February 25, 1907.
 Pastime Amusement Company, five-cent theatre, No. 212 West One Hundred and Sixteenth street; February 23, 1907.
 These places all examined and found to comply with the law.

Thirty-third Precinct.

- Star Music Hall; concert hall, Ft. George and Audubon avenue; April 4, 1907.
 Trocadero Music Hall; concert hall, Amsterdam avenue and One Hundred and Ninety-first street; April 6, 1907.
 These places examined and found to comply with the law.
 I assume responsibility for the accuracy of the above.

Respectfully,

DENNIS SWEENEY, Inspector, Sixth District.

Police Department, City of New York,
 Seventh District,
 New York, April 30, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with third paragraph of Circular No. 22, current series, relative to licensed show places, etc., the following report is submitted:

Thirty-fourth Precinct.

- Northeast corner of Jerome avenue and One Hundred and Sixty-second street, concert hall; George H. Huber, licensee; date of license, April 13, 1907.
 The provisions of the Building Code relating to places of public entertainment are complied with at this concert hall.

Thirty-fifth Precinct.

- No. 2644 Third avenue, Metropolis Theatre; Hurtig & Seamon, licensees; date of license, May 1, 1906.
 This is the only theatre in the Seventh Inspection District that is covered by section 109 of the Building Code (which applies to places that will accommodate more than three hundred persons), and in which the provisions of said section are complied with in every respect.
 The following places in the Thirty-fifth Precinct comply with section 108 of the Building Code so far as seating, lighting, heating, and the aisles, passageways and hallways are arranged with due regard for the accommodation and safety of the patrons in case of fire or accident:
 No. 780 East One Hundred and Forty-eighth street, moving pictures; Isaac Smalls, licensee; date of license, March 11, 1907.

No. 664 East One Hundred and Forty-ninth street, moving pictures; Dorothy Mason, licensee. This place is operated under a special permit, issued by John P. Corrigan, Chief of Bureau of Licenses, and dated April 23, 1907, pending the issuance of a common show license, for which an application has been made.

No. 2781 Third avenue, moving pictures; People's Vaudeville Company, licensee; date of license, February 7, 1907.

No. 2656 Third avenue, moving pictures; Joseph Wertheimer, licensee; date of license, March 30, 1907.

No. 631 East One Hundred and Thirty-eighth street, moving pictures; George M. Bird, licensee; date of license, February 16, 1907.

Thirty-sixth Precinct.

No. 2863 Third avenue, penny vaudeville slot machines; Milton Abron, licensee; date of license, November 24, 1906.

No. 2865 Third avenue, five-cent moving picture machines; R. S. Howe, licensee; date of license, November 24, 1906.

No. 996 Westchester avenue, five-cent moving picture machines; Victor Hohnstrom, licensee; date of license, March 8, 1907.

No. 1351 Boston road, five-cent moving picture machines; Arthur S. Kottner, licensee; date of license, April 9, 1907.

The four places located in the Thirty-sixth Precinct do not, in my opinion, comply with Part 21 of the Building Code, especially section 109.

Thirty-seventh Precinct.

No. 746 Tremont avenue, moving picture machines; William Ronan, licensee; date of license, February 23, 1907.

This place, in my opinion, does not comply with Part 21 of the Building Code, especially section 109.

I assume responsibility for the accuracy of above report.

Respectfully,

JAMES F. THOMPSON, Inspector, Seventh District.

Police Department, City of New York,
 Eighth District,
 April 30, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with Circular Order No. 22, under date of April 23, 1907, calling for a list of all licensed show places and all other so-called places of public amusement holding licenses, together with the dates when such licenses were issued, and if complying with the Building Code relative to places of public entertainment, I herewith submit the following list of such places within the Eighth Inspection District:

Complying with Building Code.

- No. 4518 Third avenue; no license.
 No. 5819 Fifth avenue; no license.
 No. 4715 Fifth avenue; no license.
 No. 451 Fifth avenue; license issued January 15, 1907.

 No. 123 Smith street; license issued April 19, 1907.
 No. 597 Fulton street; license issued February 10, 1907.
 No. 571 Fulton street; license issued November 27, 1906.
 No. 593 Fulton street; license issued March 16, 1907.
 No. 168 Myrtle avenue; license issued September 27, 1906.
 Willoughby and Pearl streets; license issued March 16, 1907.
 The following do not comply with Building Code:
 No. 13 Union street; license issued July 31, 1906.
 No. 22 Union street; license issued March 21, 1907.
 No. 101 Union street; license issued January 9, 1907.
 No. 124 Hamilton avenue; license issued March 9, 1907.
 I assume responsibility for the accuracy of the above report.

Respectfully,

JAMES E. HUSSEY, Inspector, Eighth District.

Police Department, City of New York,
 Ninth District,
 New York, April 30, 1907.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Midland Terminal Company, Midland Beach; date issued, June 21, 1906; circular swing.

Midland Terminal Company, Midland Beach; date issued, May 23, 1906; bowling game.

The places mentioned as being in the Eightieth Second Sub-Precinct are closed at the present time, and are only open during the summer months. Mr. James Moore, Chief Inspector and Acting Superintendent of Buildings, Richmond Borough, when interviewed as to whether the above places complied with provisions of Building Code, stated that they have never been inspected by that Department, and that such inspection was not necessary.

I assume responsibility for accuracy of above.

Respectfully,

WILLIAM G. HOGAN, Inspector, Thirteenth District.

Police Department, City of New York,
Fourteenth District,
New York, April 30, 1907.

The Vice-Chairman laid before the Board the following communication from President, Borough of Richmond:

No. 2019.

The City of New York,
Office of the President of the Borough of Richmond,
New Brighton, N. Y., May 15, 1907.

Honorable Board of Aldermen, City Hall, New York:

Gentlemen—In preparing our departmental estimate for the year 1907, we urgently asked for \$50,000 for the construction division of our Bureau of Engineering. We gave full written reasons and verbal explanations showing the necessity for that amount, but our request was met only to the extent of \$30,000, the same amount as that allowed for 1906 in the Budget, in spite of the fact that we had asked for, and towards the close of the year received, Revenue Bond issue to the extent of \$20,000, making actually a total for 1906 of \$50,000. This bond issue did not become available until late in the season, though asked for at an earlier date; consequently our work was very seriously handicapped; though the record for the year would show appropriations aggregating the full sum of \$50,000.

The construction division of our Bureau of Engineering has two main divisions; first, to make surveys and prepare reports and estimates for public improvements upon which they are authorized; second, to prepare contract plans and specifications and take charge of these improvements after they have been authorized. Up to the time of the registration of contracts or assessable improvements, all expenditures have to be met from one appropriation; consequently this appropriation determines the number and magnitude of the improvements that can be planned.

At the present time there are many more petitions for improvements on file than our present engineering force can handle, and that force cannot be increased because of lack of sufficient appropriation, and will have to be decreased long before the end of the year unless additional moneys can be secured.

The great movement in real estate which has begun since the opening of the municipal ferry is now being retarded by the lack of sewers, so that building operations are much curtailed, and though petitions for sewers are constantly being received, the work of design and preliminary surveys looking towards their construction will soon have to stop unless a larger sum of money is made available for this year. Stopping this work would be a great blow to the Borough of Richmond. It should be the policy of the City to hasten improvements in Richmond, so that by the enhanced valuation of properties improved the borough can more nearly pay into the City Treasury its pro rata of annual expenses.

To meet this condition of affairs we would ask for an issue of \$20,000 Revenue Bonds to augment the appropriation for the year 1907, so that our work may not be retarded and our present force of engineers be retained in service throughout the whole of the year.

Yours respectfully,

GEORGE CROMWELL,
President of the Borough of Richmond.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the Fire Department:

No. 2020.

Fire Department, City of New York,
Nos. 157 and 159 East Sixty-seventh Street,
Borough of Manhattan, May 20, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Sir—A report has been submitted to me by the Cashier of this department, the same reading as follows:

"New York, May 18, 1907.

"Hon. FRANCIS J. LANTRY, Fire Commissioner:

"Sir—On account of the extraordinary high prices for forage submitted by bidders at the recent public letting, I have the honor to state that the department will require an additional amount of about \$50,000 to cover the purchase of forage that will be necessary to meet the requirements of the department in all boroughs for the remainder of the year.

"At the public letting of May 14, 1907, proposals were received for furnishing forage to be delivered to companies in the Boroughs of Brooklyn and Queens, and the prices quoted by the lowest bidders were \$1.55 per hundred for hay, \$1.92 per hundred for oats, 95 cents per hundred for straw and \$1.60 per hundred for bran. These prices show an increase over contract, executed last January, of 20 cents per hundred for hay, 26 cents per hundred for oats and 10 cents per hundred for bran. Comparing these prices with those of last year, there is an average of from 25 per cent. to more than 100 per cent. on the different items called for, and as it appears these prices will be maintained for some time, the additional amount stated above will undoubtedly be required. I would, therefore, respectfully recommend that application be made for this amount of Special Revenue Bonds to cover the deficiency.

"Respectfully,

(Signed) "JOHN P. BURNS, Cashier."

I have the honor to state that I have approved the recommendation contained in the foregoing report, and in order to provide the necessary funds to meet the emergency presented in this case, to ask that your Honorable Board, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, adopt a resolution requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to an amount not exceeding fifty thousand dollars (\$50,000), to cover the purchase of forage necessary to meet the requirements of the department in all the boroughs for the remainder of the current year.

I enclose draft of resolution to meet the necessities of the case, prompt and favorable action upon which is earnestly requested.

Respectfully,

FRANCIS J. LANTRY, Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, and to meet the emergency presented by the great and unforeseen advance in the market prices of hay, straw, oats and bran, the Board of Aldermen, deeming such course to be in the public interest, hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds, to an amount not exceeding fifty thousand dollars (\$50,000), for the purchase of forage for the use of the Fire Department in the various boroughs of The City of New York during the remainder of the year 1907.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from President, Borough of Brooklyn:

No. 2021.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, May 13, 1907.

To the Honorable the Board of Aldermen:

Gentlemen—I forward to you herewith a proposed form of ordinance fixing the width of the roadway on West Twenty-third street, between Canal avenue and the Atlantic ocean, at thirty-two (32) feet, and also report of the Superintendent of Highways relative thereto.

Yours very truly,

BIRD S. COLER,
President of the Borough of Brooklyn.

May 9, 1907.

Hon. THOMAS R. FARRELL, Superintendent of Highways:

Dear Sir—I send you herewith a proposed ordinance for fixing the width of the roadway on West Twenty-third street, between Canal avenue and Atlantic ocean, at 32 feet. As there is quite a lot of curb already set on this street for the 32-foot width, which it would be necessary to take up under the present ordinance, I would recommend that this be forwarded to the Board of Aldermen for passage.

Respectfully,

GEO. W. TILLSON, Chief Engineer.

AN ORDINANCE to fix the width of the roadway and sidewalks of West Twenty-third street, between Canal avenue and the Atlantic ocean, in the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That the width of the roadway of West Twenty-third street, between Canal avenue and the Atlantic ocean, in the Borough of Brooklyn, is hereby fixed at thirty-two (32) feet, the curb lines to be parallel with and sixteen (16) feet distant from the centre line of said street as laid down on the map of The City of New York, and the sidewalks each to be fourteen (14) feet in width from building line to curb.

Which was referred to the Committee on Streets, Highways and Sewers.

The Vice-Chairman laid before the Board the following communication from the teachers of Public School 86:

No. 2022.

Public School 86,
Primary Department,
May 14, 1907.

Mr. PATRICK F. MCGOWAN, President of the Board of Aldermen:

Dear Sir—Please accept the thanks of the Teachers in Public School 86, Primary Department, for the kind words of appreciation received from the Board of Aldermen, and kindly transmitted to us by his Honor the Mayor.

Yours truly,

ADA A. BRENNAN, Principal.

Which was ordered on file.

The Vice-Chairman laid before the Board the following resignation:

No. 2023.

Price & Smith, Attorneys at Law,
No. 42 Broadway,
New York City, May 16, 1907.

Hon. P. J. SCULLY, Clerk of The City of New York, City Hall, New York City:
Sir—I hereby resign my office as Commissioner of Deeds for The City of New York. Kindly acknowledge receipt in care of Price & Smith, No. 42 Broadway, New York City.

Respectfully yours,

LILLIAN M. O'DONNELL.

Which resignation was accepted.

The Vice-Chairman laid before the Board the following resignation:

No. 2024.

Charles Heymann, Real Estate and Mortgage Loans,
No. 32 Broadway,
New York, May 20, 1907.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—Kindly accept my resignation as Commissioner of Deeds of The City of New York.

Sincerely yours,

CHARLES HEYMANN

Which resignation was accepted.

REPORTS OF STANDING COMMITTEES.

Report of Committee on Finance—

No. 1904.

The Committee on Finance, to whom was referred, on April 23, 1907 (Minutes, page 541), the annexed ordinance in favor of an issue of Corporate Stock, \$23,000, for a public comfort station in Wallabout Market, Borough of Brooklyn, respectfully

REPORTS:

That Comptroller Metz and Superintendent of Public Offices Lawrence appeared before your Committee and urged the adoption of this ordinance. Thousands of farmers and other market people use this market daily, and the need of a public comfort station there is very great and the lack of it is the cause of much complaint concerning nuisances in and around the market. Sanitary conditions demand this improvement, and while the Committee believes this appropriation to be somewhat high, still, as immediate relief is demanded, it recommends the adoption of the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of twenty-three thousand dollars (\$23,000) to provide means for the erection and completion (including architect's fees), under the jurisdiction of the Comptroller of The City of New York, of a public comfort station within the limits of the Wallabout Market lands, Borough of Brooklyn, for the use of the lessees of said market lands and those persons doing business with them.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 19, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding twenty-three thousand dollars (\$23,000), for the purpose of providing means for the erection and completion (including architect's fees), under the jurisdiction of the Comptroller of The City of New York, of a public comfort station within the limits of the Wallabout Market lands, Borough of Brooklyn, for the use of the lessees of said market lands and those persons doing business with them, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter to an amount not exceeding twenty-three thousand dollars (\$23,000), the proceeds whereof to be applied to the purposes aforesaid."

JOHN R. DAVIES, B. W. B. BROWN, A. L. KLINE, JOHN DIEMER,
THOS. J. MULLIGAN, JAMES W. REDMOND, Committee on Finance.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Collins, Cronin, Davies, Diemer, Doull, Dowling, Downing, Everson, Falk, Farrell, Freeman, Fried, Gunther, Haggerty, Higgins, Kline, Krulish, Kuntze, Lawlor, Levine, Linde, Markert, Meyers, Monahan, Morris, O'Neill, Peters, Potter, Redmond, Richter, Schneider, Sturges, Sullivan, Wafer, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works; President Coler and the Vice-Chairman—44.

At this point Alderman Peters rose to a question of information and inquired, through the Chair, if he could be informed by the Chairman of the Committee on Rules if the proceedings of the meeting of the Board on May 14, 1907, whereat, in the order of Motions, Ordinances and Resolutions, which at that meeting were to be read in reverse order, two resolutions offered by Alderman Sullivan were read, and were then followed by a resolution of Alderman Dowling, thus omitting a number of other resolutions which were ready for presentation in turn.

Alderman Meyers, Chairman of the Committee on Rules, replied that he was not sufficiently familiar with the facts to answer the question.

The Chair informed Alderman Peters that the resolution of Alderman Dowling was offered in connection with a message from his Honor the Mayor, which, under the rules, may be received at any time.

Subsequently Alderman Dowling rose to a question of personal privilege and gave a similar explanation of the occurrence referred to as that given by the Chair.

GENERAL ORDERS.

Alderman Downing called up General Order No. 275, being a report and resolution, as follows:

No. 1337.

The Committee on Docks and Ferries, to whom was referred on December 4, 1907 (Minutes, page 1540), the annexed resolution in favor of directing Committee on Docks and Ferries to investigate bridge crushes, respectfully

REPORTS:

Your committee held a public hearing on this proposition on the 15th day of February. The consensus of opinion as there evidenced favored free ferries on the East river as the only immediate remedy for the present deplorable conditions prevailing on the bridges during the rush hours. The following gentlemen spoke in favor of free ferries, owned and operated by the City: A. Carlin, representing the Municipal Ownership League of the Fourth Assembly District of Kings County; Alderman Smith, representing the east side of Manhattan district; Deputy County Clerk Bela Tokaji, General Robert Avery, J. P. Berg, William Matthews and William H. Boyes, representing the Non-Partisan Municipal Ownership League; Edward Thimme, President of the League for the promotion of Free Ferries; William H. Haggerty, Paul Osterman and Arthur D. Moss, prominent citizens of Brooklyn. The only opposition was voiced by L. C. Phillips, who objected on the ground of the additional expenses that the City would incur.

Since this public hearing, members of your committee have attended various public meetings, at which Comptroller Metz, Borough President Coler, ex-Mayor Wurster and other prominent officials and citizens spoke favoring municipally owned and operated ferries on the East river.

Your committee respectfully recommends the adoption of the following resolution:

(SUBSTITUTE.)

Resolved, That this Board is in favor of the early acquirement of the East river ferry properties by the City and their operation by the municipality; and it respectfully recommends this proposition to the favorable consideration of the Commissioner of Docks and Ferries, the Board of Estimate and Apportionment and the Sinking Fund Commissioners, to all or to such of these honorable bodies as have jurisdiction in the premises.

(ORIGINAL.)

Whereas, The present transit conditions upon the Brooklyn and Williamsburg bridges during the so-called rush hours are most deplorable and call for immediate relief; therefore be it

Resolved, That the Committee on Docks and Ferries be directed to investigate the ferry conditions upon the East river and report to this Board, at as early a date as possible, the result of their investigations, and suggest some plan for relieving the "Bridge crush."

HENRY CLAY PETERS, MICHAEL J. CARTER, JOSEPH FALK, HERMAN S. FRIED, CHARLES L. KUCK, FREDERICK LINDE, Committee on Docks and Ferries.

Alderman Davies moved that this report be recommitted to the Committee on Docks and Ferries, with a request that such Committee communicate with the proper authorities and secure information as to the initial cost of purchase and the further cost of maintenance in case such purchase should be authorized.

The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Brown, Callahan, Davies, Dinwoodie, Doull, Dowling, Everson, Farrell, Fried, Haggerty, J. J. Hahn, Hatton, Higgins, Keely, Levine, Meyers, Monahan, Morris, Murphy, Olvany, Reardon, Richter, Schneider, Sturges, Sullivan, Wafer, Wentz, President Bermel, by Lawrence Gresser, Commissioner of Public Works, and the Vice-Chairman—29.

Negative—Aldermen Bartscherer, Carter, Cronin, Downing, Falk, Freeman, Hann, Kuck, Kuntze, Lawlor, Linde, Markert, Noonan, O'Neill, Peters, Potter, Rowcroft and President Coler—18.

Alderman Downing called up General Order No. 279, being a report and substitute resolution, as follows:

Nos. 1870 and 1881.

The Committee on Salaries and Offices, to whom was referred, on April 16, 1907 (Minutes, pages 198 and 202), the annexed resolutions in favor of appointing Wm. A. Roffe and Robert E. Morrison City Surveyors, respectfully

REPORTS:

That the customary references having been filed, and the applicants having appeared before the Committee and satisfactorily answered its inquiries, it therefore recommends that the substitute resolution be adopted.

(SUBSTITUTE.)

Resolved, That the following named persons be and they are hereby appointed City Surveyors:

Robert E. Morrison, No. 179 Van Buren street, Brooklyn.

Wm. A. Roffe, No. 1888 Bathgate avenue, The Bronx.

(ORIGINAL.)

Resolved, That Wm. A. Roffe, of No. 1888 Bathgate avenue, in the Borough of The Bronx, be and he is hereby appointed a City Surveyor.

(ORIGINAL.)

Resolved, That Robert E. Morrison, of No. 179 Van Buren street, in the Borough of Brooklyn, be and he is hereby appointed a City Surveyor.

JAMES COWDEN MEYERS, MICHAEL J. CARTER, CHARLES KUNTZE, JOHN J. CRONIN, LEONARD L. JACOBSON, M. D., Committee on Salaries and Offices.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said substitute resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Callahan, Carter, Collins, Cronin, Davies, Dinwoodie, Dowling, Downing, Everson, Falk, Farrell, Freeman, Fried, Gunther, Haggerty, Hann, Herold, Higgins, Keely, Krulish, Kuck, Lawlor, Linde, Markert, Meyers, Monahan, Morris, Murphy, Olvany, Peters, Potter, Red-

mond, Rendt, Schneider, Sturges, Wafer, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works, President Haffen, President Coler and the Vice-Chairman—44.

Alderman Everson called up General Order No. 161, being a report and resolution, as follows:

No. 874.

The Committee on Finance, to whom was referred on June 5, 1906 (Minutes, page 905), the annexed resolution in favor of an issue of \$5,000 Special Revenue Bonds to pay expenses of Hospital Commission of The City of New York, respectfully

REPORTS:

That the purpose of this appropriation is to provide for stenographic and incidental office expenses for the Hospital Commission recently appointed by the Mayor, in accordance with the annexed letter. This Committee has repeatedly recommended that such a step should be taken, and it is therefore in favor of the application and recommends the adoption of the resolution.

Resolved, That, pursuant to subdivision eight (8) of section one hundred and eighty-eight (188) of the Greater New York Charter, the Board of Aldermen, by an affirmative vote of three-fourths of all of its members, requests the Board of Estimate and Apportionment to authorize and direct the Comptroller of The City of New York to issue and sell Special Revenue Bonds of said City in the sum of five thousand dollars (\$5,000), to provide for the payment of expenses of the Hospital Commission of The City of New York.

JOHN R. DAVIES, B. W. B. BROWN, JAMES W. REDMOND, A. L. KLINE, THOS. J. MULLIGAN, JOHN DIEMER, Committee on Finance.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Collins, Davies, Diemer, Dinwoodie, Doull, Dowling, Downing, Everson, Falk, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. Hahn, Hann, Herold, Higgins, Jacobson, Keely, Kline, Krulish, Kuck, Lawlor, Leverett, Levine, Linde, Markert, Meyers, Monahan, Morris, Mulligan, Murphy, Olvany, O'Neill, Potter, Reardon, Redmond, Rendt, Rowcroft, Schneider, Smith, Sturges, Sullivan, Torpey, Wafer, Wentz, Wright, President Cromwell, President Bermel, by Lawrence Gresser, Commissioner of Public Works, President Haffen, President Coler and the Vice-Chairman—60.

Alderman Everson called up General Order No. 259, being a report and resolution, as follows:

No. 1467.

The Committee on Finance, to whom was referred on January 22, 1907 (Minutes, page 87), the annexed resolution in favor of an issue of \$100,000 Special Revenue Bonds for the purchase of fire hose for use of the Fire Department, respectfully

REPORTS:

That Fire Commissioner Lantry appeared before the Committee and stated that no hose appropriation was made in the Budget, and that the Department was in great need of hose, especially for the new high pressure system soon to be in use. The Committee also obtained a report, annexed hereto, from Chief Hervey of the Comptroller's office, which also confirmed this statement of conditions and recommended an appropriation of \$75,000.

Your Committee believe this to be necessary for the proper equipment of the Department, and therefore report favorably upon \$75,000.

They recommend that the annexed substitute resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to an amount not to exceed seventy-five thousand dollars (\$75,000), the proceeds whereof to be applied to the purchase of fire hose for use of the Fire Department.

JOHN R. DAVIES, JOSEPH FALK, B. W. B. BROWN, JOHN DIEMER, A. L. KLINE, THOS. J. MULLIGAN, Committee on Finance.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Collins, Cronin, Davies, Diemer, Doull, Dowling, Downing, Everson, Falk, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. Negative—Alderman Peters—1.

Alderman Falk called up General Order No. 242, being a report and resolution, as follows:

No. 1714.

The Committee on Finance, to whom was referred, on March 19, 1907 (Minutes, page 687), the annexed resolution in favor of an issue of Special Revenue Bonds, \$20,000, for use of the Register of Kings County, for arranging and handling papers and books in his office, respectfully

REPORTS:

The Register appeared before your Committee and stated that he had introduced a system whereby the papers recorded in his office were now brought practically down to date, although they had been over a year behind time when he took office, and also had introduced a system of having messengers personally deliver all of these papers back to the person who recorded them. The Committee recognizes the great increase of work in this office during the past two or three years, owing to the large amount of real estate transfers, and they believe that some relief should be given. They therefore recommend the adoption of the accompanying substitute resolution providing for \$10,000 for the purposes specified.

(SUBSTITUTE.)

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand dollars (\$10,000) for the use of the Register of Kings County, for the purpose of delivering papers and arranging and handling papers and books in his office.

(ORIGINAL.)

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty thousand dollars (\$20,000) for the use of the Register of Kings County, for the purpose of delivering papers and arranging and handling papers and books in his office.

JOHN R. DAVIES, B. W. B. BROWN, JOHN DIEMER, THOS. J. MULLIGAN, A. L. KLINE, JOSEPH FALK, Committee on Finance.

Negative—Alderman Torpey—1.

Alderman Falk called up General Order No. 264, being a report and resolution, as follows:

No. 1493.

The Committee on Public Letting, to which was referred, on January 22, 1907 (Minutes, page 124), the annexed resolution in favor of authorizing the Commissioner of Parks, Boroughs of Manhattan and Richmond, to contract for repairs to lawn mowers without public letting, respectfully

REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to contract, without public letting, for renovating and putting in complete repair the horse and hand lawn mowing machines used on the parks in the Borough of Manhattan, and maintaining the same during the year 1907, at an expense not exceeding \$1,500, payable from the appropriation available for that purpose.

A. L. KLINE, W. CLIFFORD, JOSEPH SCHLOSS, JACOB BARTSCHERER, MAX S. LEVINE, Committee on Public Letting.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Nos. 1559 and 1720.

The Committee on Public Health, to which was recommitted on April 16, 1907 (Minutes, page 179), the annexed ordinance in favor of regulating the sale of milk in The City of New York, respectfully

REPORTS:

That, having again examined the subject, they re-present the proposition to the Board with the recommendation that the ordinance be amended by striking therefrom the word "June" in the first line of the body thereof and inserting in its place the word "August," and that, as thus amended, the ordinance be adopted.

LEONARD L. JACOBSON, M. D., JOSEPH F. ELLERY, JOHN J. FARRELL, F. J. O'NEILL, HARRY L. LEVERETT, JAMES LAWLOR, Committee on Public Health.

The Committee on Public Health, to whom were referred on February 5 and March 19, 1907 (Minutes, pages 411 and 714), the annexed ordinances in relation to regulating the sale of milk in The City of New York, respectfully

REPORTS:

That they have carefully considered all the matters referred to in said proposed ordinances, and have held four public hearings, which were very largely attended by medical men, milk dealers, dairymen and the general public. At said public hearings several new proposed ordinances were submitted to your committee as substitutes for the ordinances referred to your committee. Your committee has also made a personal investigation of the conditions under which milk is supplied to and sold in this City, and have consulted with various authorities. Your committee has reached the conclusion that no milk or cream should be sold in this City unless such milk or cream comes from certified herds and has been duly inspected, and your committee further believes that all milk or cream not coming from such herds complying with the bacteriological standard proposed in the accompanying ordinance, should be pasteurized under the supervision of the Department of Health.

Your committee therefore recommends the adoption of the following substitute ordinance:

(SUBSTITUTE.)

AN ORDINANCE regulating the sale of milk in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. On and after the first day of June, 1907, no milk or cream shall be sold at retail, or offered for sale at retail, in The City of New York, except as hereinafter provided, unless it comes from herds certified as free from tuberculosis, and unless the milk or cream has been certified by the Department of Health as containing not more than 500,000 bacteria to the cubic centimeter.

Sec. 2. All milk and cream not from certified herds, or not conforming to the said bacterial standard, shall be pasteurized by exposure for at least twenty minutes to a temperature of 167 degrees Fahrenheit, or by exposure for at least thirty minutes to a temperature of 158 degrees Fahrenheit, under the supervision of the Department of Health, and sealed with a label showing said process, as hereinafter provided.

(a) Identification of Dairy—For the purpose of enforcing this ordinance, it shall be unlawful to ship milk or cream into this City, except in closed cans or bottles on which the name and location of the dairy are distinctly marked, and it shall be unlawful to offer raw milk or cream for sale unless it is certified as hereinafter provided, and unless it is sold in bottles or from cans on which the name of the dairy is distinctly marked.

All milk pasteurized as aforesaid shall be placed in clean cans or bottles, each of which cans or bottles shall be stamped or sealed under the supervision of the Department of Health, in such a manner that said cans or bottles cannot be opened when once so sealed, without breaking said seal.

(b) Certification of Herds—By certified herds shall be meant herds of which each and every cow and ox has been tested within six months with tuberculin and proved free from tuberculosis, and to which no cows or oxen have been added, except such as have been certified as free from tuberculosis after the application of the tuberculin test.

(c) Certification to be Filed—Certificates of such tuberculin tests, with the charts showing the reaction on each animal, shall be filed with the Department of Health by the Inspectors who have made the tests, and upon the Board of Health

approving the reports of the tests of any particular herd, the Department shall issue to the owner of said herd a certificate showing the freedom of his herd from tuberculosis. In lieu of the examination of any herd by the Inspectors of The New York City Department of Health, the said Board, in its discretion, may accept similar certification from the authorities of the State in which the dairy is located, provided that such certification is accompanied by the charts showing the application of the tuberculin test and the reaction in the case of each animal of the herd.

(d) Bacterial Standard—In order to enforce the bacterial standard of 500,000 bacteria to the cubic centimeter, it shall be the duty of the Department of Health to take samples in the City, at least once a month, of the milk and cream of each dairy shipping its product to the City for the retail trade, and said Department shall have bacterial examinations of said samples made at its laboratories.

(e) Order to Pasteurize—In case any sample of milk or cream from any dairy shows more than 500,000 bacteria to the cubic centimeter, or in case the herd of any dairy is not certified as free from tuberculosis, the Board of Health shall at once forbid the sale of milk or cream from that dairy, unless it is pasteurized as required by this ordinance.

(f) Certification of Milk—When the herd of any particular dairy has been certified as free from tuberculosis, and when the milk and cream of said herd, as offered for sale in this City, has been found to contain less than 500,000 bacteria to the cubic centimeter, on examination of at least three samples taken from three different cans or bottles the Department of Health may certify said milk and cream and allow it to be sold raw for the space of one month under a label showing the certification of the Department. Such certification may be renewed from month to month, provided at least three bacterial examinations of the milk and cream of said dairy show the maintenance of the degree of purity set by the bacterial standard hereby established, and provided, further, that the herd has been certified as free from tuberculosis within six months of the issuance of the certification.

(g) Purity Not to be Presumed—No milk or cream shall be presumed to come within the required bacterial standard unless three samples, taken from different cans or bottles, within the City, within the month, shall show counts of less than 500,000 bacteria to the cubic centimeter.

(h) Milk Commission Certification—It is provided, further, that this ordinance shall not be construed to forbid the Department of Health to authorize the sale of raw milk or cream that has been certified by the Milk Commission of the County Medical Society as coming from herds free from tuberculosis, and as having not more than 30,000 bacteria to the cubic centimeter.

(i) No Restriction of Health Board's Power—Nothing in this ordinance shall be construed to limit or abridge the power of the Board of Health to revoke permits for the sale of milk and cream because of unsanitary conditions in dairies or creameries, or milk shops, or for any other cause that may make the sale of any particular milk or cream a menace to the public health.

Sec. 3. Penalties—For any violation of this ordinance the permit of the offender may be temporarily revoked, and for a second offense such offender's permit shall be revoked, and he shall also be liable to punishment as for a misdemeanor.

Sec. 4. Repealer—All ordinances or parts of ordinances inconsistent or conflicting with the foregoing provisions are hereby repealed.

(ORIGINAL, INT. No. 1720.)

Resolved, by the Board of Aldermen, as follows:

1. On and after June 1, 1907, no raw milk or cream shall be sold at retail, or offered for sale at retail, in The City of New York, unless it comes from herds certified as free from tuberculosis, and unless the milk or cream has been certified by the Department of Health as containing not more than 500,000 bacteria to the cubic centimeter.

2. All milk and cream not from certified herds, or not conforming to the said bacterial standard, shall be pasteurized by exposure for at least twenty minutes to a temperature of 167 degrees Fahrenheit, or by exposure for at least thirty minutes to a temperature of 158 degrees Fahrenheit.

(a) Identification of Dairy—For the purpose of enforcing this ordinance, it shall be unlawful to ship milk or cream into this city except in closed cans or bottles on which the name and location of the dairy are distinctly marked, and it shall be unlawful to offer raw milk or cream for sale unless it is certified as hereinafter provided, and unless it is sold in bottles or from cans on which the name of the dairy is distinctly marked.

(b) Certification of Herds—By certified herds shall be meant herds of which each and every cow and ox has been tested within six months with tuberculin and proved free from tuberculosis, and to which no cows or oxen have been added except such as have been certified as free from tuberculosis after the application of the tuberculin test.

(c) Certification to be Filed—Certificates of such tuberculin tests, with the charts showing the reaction on each animal, shall be filed with the Department of Health by the Inspectors who have made the tests, and upon the Board of Health approving the reports of the tests of any particular herd, the Department shall issue to the owner of said herd a certificate showing the freedom of his herd from tuberculosis. In lieu of the examination of any herd by the Inspectors of the New York City Department of Health, the said Board, in its discretion, may accept similar certification from the authorities of the State in which the dairy is located, provided that such certification is accompanied by the charts showing the application of the tuberculin test and the reaction in the case of each animal of the herd.

(d) Bacterial Standard—In order to enforce the bacterial standard of 500,000 bacteria to the cubic centimeter, it shall be the duty of the Department of Health to take samples, in the city, at least once a month, of the milk and cream of each dairy shipping its product to the city for the retail trade, and said department shall have bacterial examinations of said samples made at its laboratories.

(e) Order to Pasteurize—In case any sample of milk or cream from any dairy shows more than 500,000 bacteria to the cubic centimeter, or in case the herd of any dairy is not certified as free from tuberculosis, the Board of Health shall at once forbid the sale of milk or cream from that dairy unless it is pasteurized as required by this ordinance.

(f) Certification of Milk—When the herd of any particular dairy has been certified as free from tuberculosis, and when the milk and cream of said herd as offered for sale in this city has been found to contain not more than 500,000 bacteria to the cubic centimeter, on examination of at least three samples taken from three different cans or bottles, the Department of Health may certify said milk and cream and allow it to be sold raw for the space of one month, under a label showing the certification of the department. Such certification may be renewed from month to month, provided at least three bacterial examinations of the milk and cream of said dairy show the maintenance of the degree of purity set by the bacterial standard hereby established, and provided, further, that the herd has been certified as free from tuberculosis within six months of the issuance of the certification.

(g) Purity not to be Presumed—No milk or cream shall be presumed to come within the required bacterial standard unless three samples, taken from different cans or bottles, within the city, within the month, shall show counts of not more than 500,000 bacteria to the cubic centimeter.

(h) Milk Commission's Certification—It is provided further that this ordinance shall not be construed to forbid the Department of Health to authorize the sale of raw milk or cream that has been certified by the Milk Commission of the County Medical Society as coming from herds free from tuberculosis.

(i) No Restriction of Health Board's Power—Nothing in this ordinance shall be construed to limit or abridge the power of the Board of Health to revoke permits for the sale of milk and cream because of unsanitary conditions in dairies, or creameries, or milk shops, or for any other cause that may make the sale of any particular milk or cream a menace to the public health.

3. Penalties—For any violation of this ordinance the Department of Health shall forthwith warn the offending dealer or revoke his permit; for a third violation the said Board of Health shall revoke the dealer's permit.

4. Repealer—All ordinances or parts of ordinances inconsistent or conflicting with the foregoing provisions are hereby repealed.

(ORIGINAL, INT. No. 1559.)

Resolved, by the Board of Aldermen, as follows:

Except as hereinafter provided, no raw milk shall be sold at retail in The City of New York. All milk sold at retail in said city shall hereafter be pasteurized or

sterilized; provided, however, that the foregoing provisions shall not apply to the sale of milk at retail in sealed bottles, provided said milk is bottled in a sanitary dairy in The City of New York under the personal supervision of an Inspector or Inspectors of the Department of Health of said city, and provided further that all such milk so bottled shall be first tested and passed as wholesome milk by said Inspector, and that said Inspector shall place upon each bottle of said milk so inspected a stamp or seal so constructed that said bottle cannot be opened when so sealed without breaking said seal, and which said seal shall have printed or otherwise displayed thereon the words "Department of Health of The City of New York," together with the name of the Inspector who seals said bottles, and the word "Inspected," followed by the date of inspection; and be it further provided that in all cases where such inspected milk is sold in bottles, the person or seller causing said milk to be so bottled shall pay to the City Chamberlain for the use of the Department of Health of said City the sum of two cents for each bottle so inspected and sealed for the purpose of defraying the cost of stamps and the other expenses of said department connected with the making of said inspection and stamping or sealing; and it is further provided that in case any Inspector of said Department of Health shall fraudulently or negligently fail to perform his full duty in the making of said inspection so that he shall allow impure milk to be sold in such bottles by reason of such negligence or such fraud, such Inspector shall be deemed guilty of a misdemeanor, and the offender shall also be liable to pay a penalty of fifty dollars; and be it further

Resolved, That all ordinances or parts of ordinances inconsistent or conflicting with the provisions of the foregoing sections are hereby repealed.

LEONARD L. JACOBSON, M. D., JAMES LAWLOR, JOSEPH F. ELLERY, JOHN J. FARRELL, F. J. O'NEILL, HARRY L. LEVERETT, Committee on Public Health.

Alderman Everson moved that this report be recommitted to the Committee on Public Health.

The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Cole, Doull, Downing, Everson, Fried, C. Hahn, Hann, Higgins, Keely, Kuck, Monahan, Morris, Murphy, Reardon, Redmond, Richter, Stapleton, Wafer, Wentz, Wright and President Bermel, by Lawrence Gresser, Commissioner of Public Works—23.

No. 2047—(G. O. No. 293).

By Alderman Mulligan—

Whereas, The Exempt Volunteer Firemen's Association of the State of New York will hold their thirty-fifth annual convention at Jamestown, New York, during the week beginning August 19, 1907; and

Whereas, Many of the old heroes are nearing the last alarm; and

Whereas, Many of these veterans we hold in such esteem are employed in the various departments of The City of New York; and

Whereas, Under the several administrations of the City preceding the present one, all honor was paid to these worthy veterans, and time allowed them to attend their various conventions; and

Whereas, We find that it is but doing justice to the men who protected our homes at the risk of their lives in days gone by; therefore be it

Resolved, That we recommend that all employees of The City of New York who are Exempt Veteran Firemen be allowed four days' leave of absence, with pay, from August 20 to August 23, 1907, inclusive, in order that they may attend the thirty-fifth annual convention of the Firemen's Association, which is to be held at Jamestown, New York, during the week beginning August 19, 1907; and be it further

Resolved, That his Honor George B. McClellan, Mayor of The City of New York, be and hereby is respectfully requested to attach his signature of approval to the resolution of the Board of Aldermen of The City of New York.

Alderman Sullivan moved that this resolution be laid over for the next meeting. The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the affirmative by the following vote, notwithstanding the presence of a quorum:

Affirmative—Aldermen Ahner, Callahan, Clifford, Cronin, Doull, Dowling, Everson, Haggerty, Hann, Herold, Krulish, Kuntze, Lawlor, Levine, Linde, Noonan, O'Neill, Peters, Reardon, Stapleton, Sullivan, Torpey, Wafer, Wentz and President Haffen—25.

Negative—Aldermen Freeman, Grifenhagen, Meyers and Sturges—4.

Alderman Meyers moved a call of the house.

The Vice-Chairman ordered the Clerk to call the roll.

The call resulted as follows:

Present—Alderman Ahner, Bartscherer, Brown, Bunting, Clifford, Cronin, Davies, Diemer, Dinwoodie, Doull, Dowling, Downing, Everson, Freeman, Fried, Grifenhagen, Gunther, Haggerty, Hann, Herold, Krulish, Kuck, Kuntze, Lawlor, Leverett, Levine, Linde, Meyers, Noonan, O'Neill, Peters, Reardon, Schloss, Stapleton, Sturges, Sullivan, Torpey, Wafer, Wentz, President Haffen and the Vice-Chairman—41.

No. 2048.

By Alderman Noonan—

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that a watering trough be erected and maintained, and water supplied to same, on the corner of One Hundredth street and First avenue, at No. 1953 First avenue, in the Borough of Manhattan.

Which was adopted.

No. 2049.

By Alderman Peters—

AN ORDINANCE for the licensing of automobiles in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. That on and after July 1, 1907, each and every automobile with a seating capacity of less than four passengers shall pay an annual license fee of twenty-five dollars (\$25).

Each and every automobile with a seating capacity of more than five and less than ten persons shall pay an annual license fee of fifty dollars (\$50).

Each and every automobile with a seating capacity of more than ten and less than twenty passengers shall pay an annual license fee of one hundred dollars (\$100).

Each and every so-called "sight-seeing" automobile having a capacity of more than twenty persons shall pay an annual license fee of five hundred dollars (\$500).

Which was referred to the Committee on Streets, Highways and Sewers.

No. 2050.

By the same—

Whereas, It is generally admitted that the City has a borrowing capacity margin of over \$30,000,000, which will be increased in July (according to Mayor McClellan) by \$50,000,000; and

Whereas, The enormous increase in taxable values will so augment the City's borrowing capacity as to supply ample funds for the construction of the new subways long before needed for their completion; and

Whereas, The resolutions adopted by the Board of Estimate and Apportionment on December 7 last (the Comptroller being the author of the same) show no fear of the debt limit; therefore be it

Resolved, That this Board stands squarely upon the resolutions adopted by the Board of Estimate and Apportionment on December 7 last, subject, however, to the following change: the second alternative "for construction and operation" should be stricken out (there were no bidders when the two principal routes were advertised). The resolutions would then read as follows:

We report that alternative bids be invited: first, for construction alone, as follows:

1. Seventh and Eighth avenue route.
2. Lexington avenue route.
3. Third avenue route.
4. Jerome avenue subway.
5. Fourth avenue route and Bensonhurst route, in the Borough of Brooklyn.
6. The so-called Tri-Borough route south of One Hundred and Thirty-eighth street, including, in addition to the Third avenue route, Manhattan Bridge route, part of Route 9-C, in Brooklyn; part of Route 11-EL, in Brooklyn, and Route 11-A, 11-B and 11-F (Bensonhurst route).
7. West Farms and White Plains route.

—and be it further

Resolved, That the routes here laid out and approved be subject only to such change as to make of them a complete system, and wholly independent of the present subway.

Which was referred to the Committee on Bridges and Tunnels.

No. 2051.

By the same—

Whereas, It is reported that gross irregularities exist in the system of granting stoop line and other permits by the Bureau of Licenses; therefore be it

Resolved, That the Committee on Streets, Highways and Sewers be directed to hold a public hearing on this matter and report its findings to this Board at an early date.

Which was adopted.

No. 2052.

By the same—

Whereas, A general demand has long existed for public shelters upon the Williamsburg plaza of the Williamsburg Bridge; and

Whereas, For three years this demand has remained unheeded by the Commissioner of Bridges, and waiting passengers are exposed to sun and rain; and

Whereas, The said plaza is being disfigured by the erection of unsightly shanties and structures which are special privileges accorded corporations and individuals for which the City receives no revenue; and

Whereas, The Alderman of the district affected, on the 13th inst., addressed a communication to the Corporation Counsel, requesting an opinion as to the powers of the Bridge Commissioner in granting said special privileges; and

Whereas, No response has been received by the aforesaid Alderman to his request for an early opinion; therefore be it

Resolved, That the Corporation Counsel be requested to render such opinion to this Board at as early a date as possible.

Which was adopted.

No. 2053.

By the same—

Whereas, The Court of Appeals of this State, by a unanimous vote, has recently decided in favor of William Randolph Hearst in his suit against George B. McClellan, for recount of the votes cast in the Mayoralty election of 1905; and

Whereas, The legal obstacles and technicalities raised by the incumbent of the Mayor's office to obstruct the will of the people is universally condemned by press and public, some of the newspapers staunchest in supporting his candidacy now condemning his course of obstruction; and

Whereas, The long delay in settling this vital question has brought disgrace and reproach to the fair name of this City; and

Whereas, There is now pending before the State Senate a bill providing for an adjustment of this important matter, which bill has passed the Assembly by a preponderant majority and which has the support of the Governor and the electors of this State, irrespective of partisan affiliations; therefore be it

Resolved, That we, the Board of Aldermen of The City of New York, realizing the importance of an early settlement of this matter, urge the members of the Senate of this State to immediately concur in the action of the Assembly and pass the Recount bill at the earliest possible date; and be it further

Resolved, That a copy of these resolutions be sent to the Governor and President of the Senate.

Which was ordered on file.

No. 2054.

By Alderman Potter—

AN ORDINANCE relative to frame building in the Thirtieth Ward of the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. That section 143 of the Building Code be and the same is hereby amended by adding in the section allotted to the Borough of Brooklyn the following:

Any frame building erected hereafter in the territory included within the following boundary, all in the Thirtieth Ward of the Borough of Brooklyn, namely:

Beginning at First avenue and Sixtieth street, and along Sixtieth street to Fourteenth avenue; and along Fourteenth avenue and including both sides of Fourteenth avenue to Dyker Beach Park; along Dyker Beach Park to Seventh avenue; thence along Ninety-second street, including both sides of Ninety-second street, to Fort Hamilton parkway; along Fort Hamilton parkway to shore road; along the Shore road to the intersection of First avenue; along First avenue to the point or place of beginning—shall not occupy more than 80 per cent. in width of the lot on which said building is to be erected.

Which was referred to the Committee on Buildings.

No. 2055.

Report of the Chief Engineer was read as follows and referred to the Committee on Plans and Contracts:

May 2, 1907.

Hon. JOHN H. STARIN, Vice-President of the Board of Rapid Transit Railroad Commissioners:

DEAR SIR—As no proposals were obtained in response to the invitation for bids for either construction alone, or construction, equipment and operation of the subways on either the Seventh and Eighth avenue routes or the Lexington avenue route, and as it appears the debt limit of the City precludes the probability at present of even the construction by the City of one of these routes as planned, I have been looking into the matter of the feasibility of construction only by the City of a route on Third avenue, with extensions into The Bronx and Brooklyn, on lines that would permit the Board to immediately contract for and proceed with construction of a large part of this program. The route considered is included in what is generally termed the Tri-Borough route.

The Board of Estimate and Apportionment has already, on December 7, 1906, passed a resolution requesting the preparation of a contract and plans for this route. On April 13, 1905, and April 18, 1907, certain new routes were authorized, which provided for two additional tracks on Flatbush avenue extension, Brooklyn, and for spurs to connect with Manhattan Bridge route at the Bowery respectively, which provide connecting links, making the Tri-Borough route a complete route in itself, extending from Pelham Bay Park in The Bronx to Fort Hamilton and to Coney Island in Brooklyn.

I now present to the Board an outline of this route, as a whole, indicating the portions of the same that can within a very short time be placed under contract and completed at a cost of, for construction alone, not exceeding \$40,000,000, conceded to be available by the City for use in the extension of Rapid Transit facilities.

Should the Board conclude to take immediate action on this, I would recommend the immediate construction by the City of the parts of this route indicated on the accompanying plans in "red," letting the work out in comparatively small contracts, as is now being done in the case of the Brooklyn loop lines.

The routes, including the extensions in Brooklyn and The Bronx as a complete system in itself, are as follows:

In Manhattan.

Four tracks on the Bowery and Third avenue from Chatham square to the Harlem river.

Two tracks on Park row, Broad street and South street to the Battery.

Two tracks on New Bowery and Pearl street to Broad street.

Two two-track spurs connecting with Manhattan Bridge at Canal street.

In The Bronx.

Two tracks under the Harlem river to One Hundred and Thirty-eighth street and Lincoln avenue.

Three tracks on One Hundred and Thirty-eighth street, Southern boulevard and Westchester avenue to Pelham Bay Park.

In Brooklyn.

The connection between Manhattan and Brooklyn will be across the new Manhattan Bridge and through Flatbush avenue extension and Fulton street to Ashland place.

This part of the route, however, is not included in the above mentioned estimate, as the work will be contracted for in connection with the Manhattan Bridge, and with what is known as the Brooklyn loop lines.

There would be four tracks on Ashland place and on Fourth avenue to Fort Hamilton; also four tracks on what is known as the Bensonhurst route from Fortieth street and Fourth avenue to Coney Island.

The parts that it is proposed to construct immediately and as indicated in red on the plans are as follows:

In Manhattan.

Two tracks on New Bowery, from Brooklyn Bridge to Chatham square.

Two tracks on Park row, from Brooklyn Bridge to Chatham square.

Four tracks on the Bowery and Third avenue, from Chatham square to Twenty-third street.

Two tracks in deep tunnel under Third avenue, from Twenty-third street to about One Hundredth street.

Four tracks from about One Hundredth street on Third avenue to One Hundred and Twenty-fifth street.

In The Bronx.

Two tracks under the Harlem river, from One Hundred and Twenty-fifth street, Manhattan, to One Hundred and Thirty-eighth street and Lincoln avenue.

Three tracks on One Hundred and Thirty-eighth street, Southern boulevard and Westchester avenue to Pelham Bay Park.

In Brooklyn.

Two tracks on Ashland place and Fourth avenue to Fortieth street.

The portions of the route in The Bronx on Southern boulevard and Westchester avenue to Pelham Bay Park would be an elevated structure.

It will be noted by reference to the plans, that by constructing the portions of the general route as indicated, which can be done in between three and four years from the time of letting the contract, that a very complete transit system could be established which can be operated between the boroughs of The Bronx and Brooklyn, with practicable express service connections with and through the Borough of Manhattan.

The construction of the remaining portions of the general system, as indicated in my letter, and in yellow on the plans, can then be taken up at such time and in such sequence as the Board may consider advisable.

It will be noticed by reference to the accompanying cross sections, that by introducing the deep tunnel construction from Twenty-third street to One Hundredth street, the work can be done without disturbance of the street surface between these points, and with least disturbance of the sewer systems, and when the system is finally completed, it would involve the construction of only a two-track subway near the surface on this portion of the route.

On Fourth avenue in Brooklyn, it is proposed first to construct only two tracks on one side of the avenue as far as Fortieth street, the others to be added in due time.

Figures were submitted at the last meeting of the Board, as to the probable cost of subways at the present time, showing increases above my tentative estimate submitted in 1905, due in part to the increase in the cost of labor and materials, and to other conditions affecting the cost of construction. The figures have been considered by me in the estimate on which my statement of the cost of the proposed work on the Tri-Borough route is based.

The plan as here outlined, may be met by the objection that local traffic in upper Manhattan is not provided for; the immediate benefit of such construction being confined largely to outlying districts, which at the present time are only sparsely settled. This, in reality, would not be true, as the local service to be provided for traverses a densely populated district, namely, from One Hundred and Thirty-eighth street and Southern boulevard in The Bronx, to about One Hundredth street in Manhattan, which would furnish an ample traffic, and the four track construction from Twenty-third street to Brooklyn Bridge, with its local service, would afford means of distributing and collecting traffic.

By providing for a portion of the Bronx traffic, which now congests the Lenox avenue branch of the subway, as well as both the Second and Third avenue elevated lines, a corresponding increase in the facilities for the residents of Manhattan south of Harlem would result.

It would be noted that the plans at once provide for a local service in Brooklyn through Flatbush avenue, Fulton street, Ashland place and Fourth avenue to Fortieth street. It is expected that the extensions to Fort Hamilton and Coney Island can be begun at such an early date that they can be completed within the same time as the remainder of the project.

I will add that generally similar plans and methods of procedure might be adopted for what is known as the Lexington avenue route, in considering which, however, it would be advisable to lay out a new route from Fourteenth street to Thirty-fifth street, passing under private property to Irving place, through Irving place and lower Lexington avenue to Thirty-fifth street for the construction of the express tracks in deep tunnel, retaining the present route through Broadway, Fifth avenue, Thirty-fifth and Thirty-sixth streets to Lexington avenue for local service, in which case the local tracks and stations through this district could be so constructed as to least interfere with the subsurface and other structures as well as, with the interests of abutting owners on those streets.

Respectfully yours,
(Signed) GEO. S. RICE, Chief Engineer.

Letter of the Secretary of the Chamber of Commerce was read as follows:

CHAMBER OF COMMERCE OF THE STATE OF NEW YORK,
NEW YORK, May 4, 1907.

MR. ALEXANDER E. ORR, President, Board of Rapid Transit Commissioners, City:

DEAR SIR—At the annual meeting of the Chamber of Commerce, held May 2, Mr. J. Edward Simmons was unanimously elected President of the Chamber in place of Mr. Morris K. Jesup, who declined a re-election.

Yours truly,
(Signed) GEORGE WILSON, Secretary.

The Committee appointed to draft a minute on the retirement of Mr. Jesup presented the following:

Since Morris K. Jesup became a member of the Rapid Transit Board it is now almost exactly eight years, a period which covers nearly the whole of the principal activity of the Board. To comment upon his services as a member of the Board, therefore, is to pass upon the record of the Board itself, its action upon all important matters having been practically unanimous. That record is now a part of the history of the City and can only be accurately judged at some future time, when it may be compared with the work of its predecessors and its successors.

To comment upon Mr. Jesup individually is to say what everybody in this part as the world already well knows, that his life has been without reproach in all its many fields of usefulness.

It were better then to place on record in the minutes of this Board merely the fact that all of his fellow commissioners sincerely regret the termination of his connection with the Board and the consequent severance of an official association which has been for so long without a single untoward incident.

Commissioner Langdon moved the following resolution, which was seconded by the Vice-President:

Resolved, That the minute above printed be and the same hereby is adopted by this Board; that the Secretary be directed to have the same engrossed and transmitted to Mr. Jesup.

Ayes—The Vice-President, Mayor, Comptroller and Commissioner Langdon.

Report of the Committee on Plans and Contracts was presented as follows:

To the Rapid Transit Board:

The Committee on Plans and Contracts respectfully reports as follows on the application made by F. B. Behr for the construction of a line of railroad in the Borough of Brooklyn, to be operated on what is known as the Behr monorail system. The proposed line is intended to start from South Ferry, at the foot of Atlantic avenue, and run along Atlantic avenue to about half way between Classon avenue and Franklin avenue, where it curves to the southeast through private property, crossing over the Brighton Beach line of the Brooklyn Rapid Transit Company, then crossing diagonally to the southeast the junction of Franklin avenue and Pacific street, and then across private property to Rogers avenue. It then continues along Rogers avenue, Flatbush avenue and Nostrand avenue to Avenue R, where the line curves to the west through private property, running into East Nineteenth street at Avenue U. It then continues along East Nineteenth street to Voorhies avenue, curving then west, through private property, and crossing Sheepshead Bay road, between Voorhies and Emmons avenues, and then along Emmons avenue and Neptune avenue to Cortlandt street, finally terminating in West Twelfth street, near Surf avenue, in Coney Island.

The railroad proposed to be built is intended to be operated by cars which, instead of running upon two parallel railroad tracks shall be supported by and run upon a single rail. This rail may be described as forming the apex of a triangle, which rests either upon the ground or upon a viaduct, and which has on each of its lateral faces guide rails intended to prevent the cars from falling over. The cars are so designed that the wheels upon which they run are within the body of the car. These wheels are operated by electric motors substantially similar to those in use upon the Rapid Transit Railroad and elevated railroads in this City.

Various advantages are claimed for this form of railroad, the principal ones being that, owing to the method of operation, the cars can be run at very high rates of speed, exceeding one hundred miles an hour, and that any derailment is a matter of physical impossibility.

The triangular structures supporting the single rail on which the cars would run would, of course, have to be placed in City streets, either in a tunnel or upon an elevated structure, and in the present case it is proposed to build a railroad upon a steel viaduct or elevated road all the way from the South Ferry to Coney Island.

Mr. Behr proposes, if his project be approved, to undertake to obtain the necessary legal consents of the property owners along the proposed route, and to build the line without asking the financial aid of the City; and he asserts that the owners of property along the proposed route are very anxious to aid in the project.

He also states that he will be willing to pay some reasonable compensation to the City by way of rental for the use of its streets if a franchise is granted.

Your committee also understands that he will be willing to pay property owners for easements of light, air and access which may be taken by building an elevated structure.

Your committee are inclined to the opinion that if Mr. Behr, or any company he may form for the purpose, is able to carry out the offers above outlined, the City could very well afford to enter into a contract for that purpose. It is therefore to be considered whether any such contract as Mr. Behr proposes can lawfully be made under the Rapid Transit act, and if so, what steps can be taken in that direction.

In the first place it is to be noted that no franchise could be granted under section 32 of the act, because that is limited to the case of tunnel railroads crossing the City from some point outside and connecting with trunk line railroads, or to the case of trunk line railroads having a terminus within the City and engaged in interstate traffic.

Nor can a franchise be granted under section 32-A, because this application is not made or intended to be made by "any person, firm or corporation owning, leasing, constructing or actually operating a railroad wholly or in part within the limits of the City."

The only contract, therefore, that can be made is such as is permissible under sections 34, 34-A, 34-B, 34-C, 34-D and 34-E of the Rapid Transit act. Those sections all contemplate construction by the City, the railroad as so constructed remaining at all times under municipal ownership. The contracts for construction, whatever form they may take under those sections, must always be let after advertisement and public bidding.

The feature of advertisement and public bidding at once raises a difficulty in the case of the Behr monorail system, for that is understood to be covered by patents, and if the patents are valid no one but the owner of such patents could possibly bid on a contract which called for that mode of construction. There is no express prohibition in the Rapid Transit act against the use of patented devices; but your committee believe that it would be contrary to the spirit of the sections referred to if bids were invited for the construction of a railroad upon a patented device.

Mr. Behr states that he has granted to the City the right to use his patents; and it may be that such a grant, if made in proper legal form, would obviate the difficulty above referred to.

Your committee, therefore, conclude that while no franchise could be given by private agreement to Mr. Behr or those associated with him, yet it might be possible to frame a route and general plans of construction and operation which would give Mr. Behr an opportunity, in competition with others, to offer for consideration the construction of a railroad based upon his system.

In considering this subject, however, it must be borne in mind that the Rapid Transit Board has already laid out a number of lines in Brooklyn which are proposed to be built and operated in the ordinary manner and largely in subway. Before recommending to the Board of Estimate and Apportionment and the property owners or courts in Brooklyn the construction of another railroad to be built entirely upon an elevated structure it seems plain that the Board ought to have some very positive and definite assurances that it would have a bidder for the construction, equipment and operation of the road upon terms at least as favorable as those which Mr. Behr has proposed.

Your Committee therefore recommend that before any action be taken in the matter Mr. Behr should be required to give formal and definite assurances to the Board that, in case the project is approved by the proper authorities, he would bid for the construction of the road a sum not exceeding \$1,000; that he would pay the expenses of procuring the consents of the requisite number of property owners along the line, or, failing that, the expenses of the application for the appointment, fees and disbursements of Commissioners of the Appellate Division to hear and determine in lieu of such consents; that he would, by the terms of any contract to be awarded him, undertake to indemnify and save harmless the City from all claims for damages from property owners for the taking of their easements for light, air and access by reason of the construction of the proposed railroad; that he would pay the City, in addition to the minimum rental required by section 34-A of the Rapid Transit Act, an additional sum of fifty cents a foot for every foot of single track constructed under such contract during the period of the lease for the first ten years, and one dollar a foot for the next ten years, provided, of course, that the lease were for a period of twenty years, with a renewal of twenty years more.

In order to give a substantial guarantee that he would carry out these arrangements, and in order to meet the expense of such surveys and borings as may be necessary, and the cost of applying for the consents of property owners, or in lieu thereof to the Appellate Division of the Supreme Court, Mr. Behr should be required to deposit with the Commission the sum of \$25,000, to be used for the purposes indicated, and to be accounted for by the Commission to Mr. Behr.

Communication, with resolution, of the Board of Estimate and Apportionment, approving plans, etc., of the Manhattan Bridge Route (Revised), was presented, as follows:

BOARD OF ESTIMATE AND APPORTIONMENT,
CITY OF NEW YORK,
May 7, 1907.

Hon. A. E. ORR, President, Board of Rapid Transit Railroad Commissioners:

SIR—Pursuant to the provisions of law, I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment at its meeting of April 26, 1907, and approved by the Mayor May 1, 1907, approving of the plans and conclusions and consenting to the construction of an additional rapid transit railway known as "Manhattan Bridge Route (Revised)."

Respectfully,
(Signed) JOSEPH HAAG, Secretary.

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK.

Manhattan Bridge Route (Revised).

Consideration of the communication, dated April 18, 1907, from the Board of Rapid Transit Railroad Commissioners, requesting the approval and consent of the Board of Estimate and Apportionment to the route and general plans for an additional rapid transit railway known as the "Manhattan Bridge Route (Revised)."

See Minutes April 19, 1907; April 26, 1907.

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York, constituted pursuant to the provisions of chapter 4 of the Laws of 1891, and the acts amendatory thereof, has duly determined upon a route or routes and general plan of construction of a rapid transit railway, for the conveyance of persons and property, to be established in said City, in addition to the already existing lines, and did, by resolution of April 18, 1907, adopt such route or routes and general plan, being more particularly described as "Manhattan Bridge Route (Revised);" and

Whereas, Thereafter said Board of Rapid Transit Railroad Commissioners did transmit to the Board of Estimate and Apportionment of The City of New York a copy of the plans and conclusions for said route or routes as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 19th day of April, 1907, at a meeting of said Board of Estimate and Apportionment, duly held on such day; and

Whereas, Said Board of Estimate and Apportionment, by resolution duly adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions, to wit, the 26th day of April, 1907, at 10.30 o'clock a. m., and has proceeded with such consideration; and

Whereas, The plans and conclusions are duly set forth in the resolutions of said Board of Rapid Transit Railroad Commissioners, adopted April 18, 1907, and which resolutions are as follows:

[Manhattan Bridge Route (Revised).]

Now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions, and consents to the construction of a railway or railways in accordance therewith.

A true copy of resolution adopted by the Board of Estimate and Apportionment April 26, 1907.

(Signed) JOSEPH HAAG, Secretary.

The foregoing resolution is hereby approved.

(Signed) GEO. B. McCLELLAN, Mayor.

Dated New York, May 1, 1907.

I hereby certify that the foregoing is a true copy of the original approved resolution, as filed in this office.

(Signed) JOSEPH HAAG, Secretary.

Communication of the Corporation Counsel as to examination of title to premises, the easements of which the Board has already voted to acquire, was presented as follows, and it was understood that the Auditor would draw a voucher on the Comptroller for the easements in question:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, April 8, 1907.

Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—I have caused title to the premises situated on the southeasterly side of Westchester avenue, distant 235.19 feet southwesterly from Wales avenue, with a frontage of 105 feet on Westchester avenue, in the Borough of The Bronx, and find that Samuel Brenner is the owner of and can convey the easements appurtenant to said premises necessary for the maintenance, construction and operation of an elevated railroad in front of said premises, subject to a mortgage in the amount of \$40,000, dated and recorded March 21, 1907, in section 10, Liber 96, Map 154; also subject to a mortgage in the amount of \$40,000, dated March 29, 1907, and recorded March 30, 1907, in section 10, Liber 97, Map 288; also subject to a mortgage in the amount of \$3,000, dated and recorded March 29, 1907, in section 10, Liber 94, Map 411.

There is also a lease upon said premises from Mercury Realty Company to Filippo Garviallo and Graziano Pallazolo for five years, on the premises No. 922 Westchester avenue, beginning from November 1, 1906. Proof will be required that there are no judgments against the owners of these premises.

The warrant should be drawn to the order of William Mohr, Max Monfried, Mercury Realty Company and Samuel Brenner.

The purchase price is \$1,050.

Respectfully yours,

(Signed) G. L. STERLING, Acting Corporation Counsel.

Letter of the Chief Engineer was read as follows:

NEW YORK, May 9, 1907.

Mr. BION L. BURROWS, Secretary of the Board of Rapid Transit Railroad Commissioners:

DEAR SIR—In order that it may not be necessary to erect ventilating lamp-posts at the street surface over the toilet rooms at the Hoyt street station, and thereby add to the obstructions on the sidewalks, I desire to attach ventilating pipes to the columns of the Brooklyn Union Elevated Railroad Company's structure.

In order that this may be done, I send herewith, in duplicate, an agreement to be entered into between The City of New York and said Brooklyn Elevated Railroad Company granting the necessary permission.

Mr. Rives has approved the agreement, and suggests that the Rapid Transit Board pass a resolution authorizing the President or Vice-President to sign and deliver said agreement.

I respectfully submit the matter to the Board for its action.

Respectfully yours,

(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That the officers of this Board be and they hereby are authorized to execute contract in form substantially as follows:

Know all men by these presents, that

Whereas, The Brooklyn Union Elevated Railroad Company, hereinafter called the "Licensor," owns and maintains an elevated railroad structure, together with the columns supporting the same, over, upon and along Fulton street, at and near the intersection thereof with Hoyt street, Borough of Brooklyn, City of New York; and

Whereas, The Board of Rapid Transit Railroad Commissioners, acting in behalf of The City of New York, hereinafter called the "Licensee," desires to use one of the said elevated railroad columns near the intersection of Fulton and Hoyt streets for the purpose of attaching thereto and carrying up therealong certain ventilating pipes and duct from the toilet room of the so-called Hoyt street station of the subway; and

Whereas, The "Licensor" is willing that said ventilating pipes and duct shall be so attached to and run up along one of its elevated railroad columns, in accordance with the drawing hereto attached and made a part hereof, and subject to the stipulations, agreements and conditions hereinafter mentioned, to be accepted, kept and performed by said Board of Rapid Transit Railroad Commissioners and by The City of New York, the "Licensee";

Now, therefore, for and in consideration of the premises and of the sum of one dollar (\$1.00) lawful money of the United States, to it in hand paid by the "Licensee," the receipt whereof is hereby acknowledged, the "Licensor" for itself, its successors and assigns, hereby licenses and permits said the Board of Rapid Transit Railroad Commissioners and the "Licensee" to attach to and run up along one of its said elevated railroad columns at or near the said intersection of Fulton and Hoyt streets, Borough of Brooklyn, City of New York, and there to maintain, the said ventilating pipes and duct leading from the toilet room of the so-called Hoyt street station of the subway, all in accordance with the said drawing hereinabove mentioned.

This license and privilege is given and accepted upon and subject to the following express agreements and conditions to be kept, performed and obeyed by said the Board of Rapid Transit Railroad Commissioners and their successors, and by the "Licensee," The City of New York.

First—That nothing herein contained shall be construed as a dedication to public use of said elevated railroad column, or any part thereof, and that nothing herein contained shall limit or impair the right of the "Licensor," its successors and assigns, to use said column for railroad or other purposes.

Second—That the location, form and manner of construction, maintenance and use of said ventilating pipes and duct shall be strictly in accordance with the drawing aforementioned, shall not interfere with or impair the unlimited operation by the "Licensor" of trains or cars over its said elevated railroad structure, and shall be subject, at all times, to the approval of the Chief Engineer of the "Licensor," or of such other officer as the President of the "Licensor" may designate.

Third—That nothing herein contained shall affect or impair the right of the "Licensor," its successors and assigns, to change, alter or remove, temporarily or permanently, the said elevated railroad column to which the said pipes and duct shall be attached, as aforesaid, and if at any time it shall be necessary or desirable, in the opinion of the "Licensor," to change, alter or remove said column, then the "Licensee" shall, at its own cost and expense, change, alter or remove said pipes and duct as the circumstances may require.

Fourth—That the "Licensee" will protect and indemnify the "Licensor," its successors and assigns, against any and all claims, demands or suits for damage, injury or loss of any kind arising out of the construction, maintenance or use of said ventilating pipes and duct, or the use of said elevated railroad column in connection therewith, and will reimburse the "Licensor," its successors and assigns, for any expense or cost it may incur or be put to by reason of any such claim, demand or suit.

Fifth—That no assessment, tax or other additional charge shall be made, levied, imposed or fixed against the said elevated railroad structure or other property of the "Licensor," its successors and assigns, by reason of the attaching of said ventilating

pipes to the said column and the maintenance and use thereof in such position, or by reason of the benefits conferred thereby upon any property of the "Licensor," its successors and assigns, or upon adjoining or neighboring property.

Sixth—That the privilege hereby granted is a mere license, revocable by the "Licensor," its successors and assigns, upon thirty (30) days' written notice to the "Licensee," except as provided in section third hereof, when a shorter notice may be given, and at the expiration of any such notice the license hereby conferred, and all rights and privileges thereunder, shall forthwith cease and determine, and the "Licensee" will at once remove its said ventilating pipes and ducts; or upon its omission so to do, the "Licensor" may remove the same at the cost and expense of the "Licensee."

In witness whereof, the parties hereto have caused these presents to be executed and delivered the day and year first above written.

Notice of lien by the American Iron and Steel Manufacturing Company against the New York Tunnel Company, in the sum of \$5,550.83, was presented, and it was understood that the Comptroller would be notified.

Report of the Chief Engineer was read as follows and referred to Counsel to draft letter to the New York Central Company:

NEW YORK, May 9, 1907.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Board:

DEAR SIR—I take the opportunity of informing the Board that the New York Central and Hudson River Railroad Company has erected power cables over the rapid transit structure on Broadway north of the Harlem Ship Canal, at Kingsbridge. These cables are for the purpose of transmitting power from the power stations of the company to different portions of its system, and are of high voltage, and in case these cables should ever come in contact with the rapid transit structure or its equipment serious results would ensue.

In my opinion the proper method for providing for these cables would be to run them underneath the rapid transit structure, and the New York Central and Hudson River Railroad Company should be ordered to put them there.

Very truly yours,

(Signed) GEORGE S. RICE, Chief Engineer.

Letter of the chairman of the executive committee of the Interborough Rapid Transit Company and report of the Chief Engineer on the matter of station at the end of the Rapid Transit Railroad, near Bronx Park, were presented as follows, and referred to Counsel:

INTERBOROUGH RAPID TRANSIT COMPANY, EXECUTIVE COMMITTEE,
NOS. 13 TO 21 PARK ROW,

NEW YORK, May 2, 1907.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Commissioners:

DEAR SIR—The routes and general plan for the railroad embraced in Contract No. 1 require the construction of the east side line "from and along the Boston road to Bronx Park."

You will remember that some time since a temporary terminus was established at One Hundred and Eightieth street. We have never yet received plans for the completion of the structure to the authorized terminus at the Bronx Park.

We received a few days ago from Chief Engineer Rice of your Board plans for a permanent station at One Hundred and Eightieth street. We are returning these plans to your Chief Engineer, and beg to request that plans be issued to us as speedily as possible for the establishment of a station at the terminus of the line at the Bronx Park and Boston road, and that orders be issued enabling us to complete that line as speedily as possible.

Very respectfully yours,

(Signed) T. P. SHONTS,

Chairman of the Executive Committee.

NEW YORK, May 9, 1907.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Board:

DEAR SIR—Mr. T. P. Shonts, chairman, executive committee, Interborough Rapid Transit Company, has requested the Board to furnish plans for station at One Hundred and Eightieth street and Boston road, the terminus of the east side line at Bronx Park.

Originally this station was to have been built at One Hundred and Eightieth street, as it was anticipated that the Rapid Transit Railroad would go through the park, and it was the intention also of the Interborough Company to build a storage yard on land now occupied by the park authorities east and north of One Hundred and Eightieth street. It was proposed to relocate the station between One Hundred and Eightieth and One Hundred and Eighty-first streets and Boston road, but objections were presented to the Board by the park authorities, and the Rapid Transit Board appointed a committee, composed of Messrs. Jesup, Smith and myself, to consider the building of a station at this particular place (see Minutes, pages 4011 and 4012). Messrs. Jesup and Smith were averse to the location of a station opposite the park, but they never made an official report to the Board.

A temporary station was built at One Hundred and Eightieth street, and lately I got out plans for a permanent station at this locality and submitted them to the Interborough Company, with the view of having this station constructed; but Mr. Shonts has requested that the original contract be carried out to locate the station at One Hundred and Eightieth street.

This matter I respectfully bring to the attention of the Board, and request that I be authorized to make the plans for a permanent station at One Hundred and Eightieth street and Boston road.

Very truly yours,

(Signed) GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer was read as follows on the matter of trees on Broadway. It was understood that a copy of the correspondence would be transmitted to the Interborough Company, with the suggestion that they attempt to make satisfactory arrangements with the Department of Parks:

NEW YORK, May 9, 1907.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Board:

DEAR SIR—In reference to the letter of April 30 from Mr. Clinton H. Smith, Assistant Secretary of the Department of Parks, I beg to say that before the receipt of this letter by me on May 3, the Rapid Transit Subway Construction Company had already entered into a contract with Mr. Edgar W. Gifford, of No. 116 Nassau street, for the planting of the trees on Broadway and in Bryant Park. This contract calls for the planting of 227 trees, 15 of which will be planted on Forty-second street and Bryant Park, and the remainder in parkways on Broadway, extending as far north as One Hundred and Twenty-second street.

Weather permitting it seems that by the end of this week or early next week the trees will all be planted, and it is rather late to enter into any arrangement with the Park Department. However, the trees can be taken by that department, I presume, and replanted if they wish to arrange them differently; or remove the trees entirely, if they care to do so.

In reference to the exception taken by the Landscape Architect of the Park Department as to the size of the holes and the quality of the mould used, I beg to quote the following from the contract of Mr. Gifford with the Rapid Transit Subway Construction Company:

"The trees to be carefully supervised and maintained by you at your cost and expense for a period of one year from the date of the completion of the work of replanting as herein set forth, and in case of death or serious impairment of any of said trees from natural causes, during the period agreed upon for their maintenance, the same shall be replaced by you without cost to the Rapid Transit Subway Construction Company."

Mr. Gifford set out a number of trees last year which seem to be in a thriving condition. He is a man of large experience in such matters, and I believe has the endorsement of the Tree Planting Association.

Furthermore, the Subway Construction Company have employed, additionally, Mr. John Y. Culyer, a man of established reputation and large experience in such matters to supervise this work, and it seems to me therefore that the work must be properly done.

As Mr. Gifford, the party of the second part to this contract, has undertaken to maintain these trees, and to insure them for a year, it would seem that he could hardly be held responsible in case of the Park Department now taking charge of them. However, I think this could be properly arranged between the Interborough Company and the Park Department, with the approval of the Board, and I would suggest that the matter be referred to the Interborough Company with the suggestion that they make some arrangements with the Park Department that will be satisfactory to all.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Report of the Chief Engineer was read as follows, and it was decided to defer action on the matter of improving the conditions north of Ninety-sixth street on the Broadway branch:

May 8, 1907.

Hon. JOHN H. STARIN, Vice-President of the Board of Rapid Transit Railroad Commissioners, New York City:

DEAR SIR—In order to improve the conditions in the subway throughout the year, and more particularly during the summer, it was recommended to the Board, on March 22, 1906, that the air be completely removed from the subway once every half-hour through chambers located midway between stations, thereby inducing an inflow of fresh air at the stations.

That the removal of the air be accomplished by the combined action of automatic louvres and motor driven exhaust blowers, the louvres to be relied upon during the day time and the blowers at night.

That additional openings be provided at the stations to facilitate the inflow of fresh air. That plans for immediate improvement be confined to that portion of the subway between the Brooklyn Bridge and Ninety-sixth street stations, leaving the Broadway and Lenox avenue branches for future consideration.

The Board approved the recommendations and authorized that a supplementary agreement be prepared covering the work necessary. An agreement was thereupon entered into between The City of New York and Mr. John B. McDonald, dated July 9, 1906.

The work called for under the agreement for the purpose of accomplishing the above recommendations was as follows:

1. Cutting openings in the vault lights from the Brooklyn Bridge to Ninety-sixth street stations, inclusive, and installing gratings therein, in order to provide additional inlet openings at stations to facilitate the inflow of fresh air. Altogether at the stations from the Brooklyn Bridge to Ninety-sixth street, 8,323 square feet of vault lights have been removed and gratings installed, providing total effective openings of 8,953 square feet, as compared with the original openings, which amounted to 4,792 square feet, or a total net increase of inlet openings of 87 per cent.

2. Constructing 14 ventilating chambers adjacent to the subway, between the Brooklyn Bridge and Columbus Circle stations, inclusive, and installing blowers and louvres for the purpose of exhausting the air from the subway at these points. These 14 chambers have been completed; altogether 4,394 square feet of louver openings have been constructed in these chambers, thereby providing this amount of outlet openings between stations where none existed originally.

The louvres and fans installed in the chambers are paid for by the Interborough Company as equipment. The chambers themselves are to be paid for as extra, under the contract between John B. McDonald, as provided in the supplementary agreement dated July 9, 1906.

My estimate of the cost of the above amount of work was about \$300,000. The total cost of the work as completed and to be paid for as construction by the City, as an extra, under the contract with John B. McDonald, in accordance with the supplementary agreement, dated July 9, 1906, is about \$490,000.

The work was late in being started. When it was begun, it was thought advisable to complete it as expeditiously as possible; to accomplish this, it was proceeded with simultaneously at practically all points, thereby calling for an unusually large plant and equipment. Furthermore, the changes in the subsurface structures, sewer and water pipes, electric conduits, etc., required on account of the construction of the chambers, were considerably greater than had been anticipated, or could have been foreseen. These facts mainly account for the underestimated cost of the work. While the cost has considerably exceeded the estimate, only such work as was actually necessary to make the plans effective has been executed.

As stated in my letter of May 2, 1907, pursuant to my recommendation of January 30, 1907, the Board has already authorized the payment to the Rapid Transit Subway Construction Company of \$299,094.96, on account, covering a part payment for this work. Bills covering the additional expenditures are now being checked and verified, and when completed will be submitted to the Board for payment.

As stated in my recommendations of March 22, 1906, the matter of improving the conditions in the subway north of Ninety-sixth street was deferred to a later time. To improve the conditions on the Broadway branch I now make the following recommendations:

First—That openings be made in the vault lights and grating installed over the One Hundred and Third, Cathedral parkway and Columbia University stations, as indicated on plan T-138, attached hereto, amounting to 1,860 square feet.

Second—That excavations be made in the parkway areas and openings cut through the roof and gratings installed over the One Hundred and Forty-fifth and One Hundred and Fifty-seventh street stations, as indicated on plan T-138, amounting to 980 square feet.

Third—That excavations be made in the parkway areas and openings cut through the roof and gratings installed over the car yard, between One Hundred and Thirty-ninth and One Hundred and Forty-third streets, as indicated on plan T-269, amounting to 2,000 square feet.

This last mentioned work is called for because the residents in the vicinity of Broadway, between One Hundred and Thirty-eighth and One Hundred and Forty-third streets, have asked for the removal of the ventilating houses constructed and put in operation by the Interborough Company, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets and One Hundred and Forty-first and One Hundred and Forty-second streets. When the openings over the yard have been completed and the gratings installed the fan houses can be removed. While writing this an additional complaint regarding this matter has been received from the Washington Heights Taxpayers' Association, urging that steps be taken to prevent the necessity of again operating the fans.

The estimated cost of all this work on the Broadway branch north of Ninety-sixth street is about \$90,000. The Interborough Rapid Transit Company has been requested to obtain proposals and will be ready to proceed with the work as soon as the Board authorizes the same.

It is suggested that the agreement of July 9, 1906, be amended to include this new work, thereby providing for its payment as an extra under the original contract with John B. McDonald.

To provide for the final payment of the work which has already been completed between the Brooklyn Bridge and Ninety-sixth street stations, under the agreement between The City of New York and John B. McDonald of July 9, 1906, and for the payment for the new work recommended to be carried out on the Broadway branch north of Ninety-sixth street station, I respectfully recommend that the Board authorize a further expenditure of \$280,000.

Respectfully yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Counsel reported that the action begun by the trustees of the Potter Estate in reference to a station entrance from the Wall street station, which was tried before Mr. Justice Fitzgerald on December 3 and 4, 1906, had been decided by him, on May 7, in favor of the City.

The Secretary reported that he had sent a communication as follows to the Comptroller, in connection with the contract for extra work, Van Cortlandt Park extension, for the information of the Department of Finance:

May 2, 1907.

Hon. HERMAN A. METZ, Comptroller, No. 280 Broadway, New York:

SIR—You are hereby notified that the additional cost of the within modification of the contract dated February 21, 1900 (Contract No. 1), is estimated at \$675,000. You are therefore requested to affix your certificate of estimated cost to the within contract, pursuant to chapter 4 of the Laws of 1891, as amended, and the resolution of the Board of Estimate and Apportionment of November 23, 1906, to be charged to Rapid Transit Construction Fund, Manhattan-The Bronx, for extra work (Van Cortlandt Park extension).

Yours respectfully,
(Signed) BION L. BURROWS, Secretary.

The Secretary reported that contract between The City of New York, acting by the Rapid Transit Board, and the Degnon Contracting Company, for the construction of that portion of the Brooklyn loop lines in Centre street between Pearl and Canal streets, had been executed by all parties, and a bond satisfactory to the Comptroller delivered, and that one of the three original contracts had been delivered to the contractor on the 9th of May, the time for the beginning and the completion of the work to run from such date.

Miscellaneous communications were referred to respective committees.
The Board then adjourned.

BION L. BURROWS, Secretary.

DEPARTMENT OF DOCKS AND FERRIES, FOOT OF BATTERY PLACE, BOROUGH OF MANHATTAN, CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in The City of New York, until 12 o'clock noon on

MONDAY, JUNE 10, 1907.

FOR INSURING THE FERRYBOATS "MANHATTAN," "BROOKLYN," "BRONX," "QUEENS" AND "RICHMOND," TO BE EMPLOYED ON THE MUNICIPAL FERRIES BETWEEN THE BOROUGH OF MANHATTAN AND THE BOROUGH OF RICHMOND, AND THE BOROUGH OF BROOKLYN, FOR A PERIOD OF THREE YEARS FROM JULY 16, 1907.

The said vessels, title, apparel, stores, supplies, furniture, engines, boilers, machinery and appurtenances shall be insured at the following valuation:

For the ferryboats "Manhattan," "Brooklyn," "Bronx," "Queens" and "Richmond," \$300,000 for each boat, or a total of \$1,500,000 for the five boats; and in no case shall the Department be deemed as a co-insurer.

The boats to be confined to the use and navigation within the bay and harbor of New York and the Hudson and East rivers, with the privilege to lay up and make additions, alterations and repairs while running or while laid up, or to go into dry dock. Any deviation beyond the limits named shall not void the policy, but no liability shall exist during such deviation; and upon the return of said vessels within the limits named above, no disaster having occurred, the policy shall be and remain in full force and effect unless a disaster occurs while deviating.

The policy shall provide for the full indemnification of all salvage expenses and loss, damage, detriment or hurt to said vessels for which the insurers are liable against the perils of the harbor, bay or rivers as above named, lightning and fires that shall occur to the hurt, detriment or damage of said vessels or either of them, or any part thereof, and for all damage which may be done by the vessels insured to any other vessel or property.

As the vessels to be insured are common carriers, the policy shall not contain any limitation as to the nature or kind of cargo or other material which shall be carried on the boats.

No claim shall be made by the Department for any damage to the vessels insured unless it exceeds \$500.

Losses shall be payable in thirty days after proof of loss or damage, and of the amount thereof, and proof of the interest of the insured shall have been made and presented at the office of the insurer or its representative in The City of New York.

No bid will be received for insurance by or in behalf of any company not duly authorized by the Insurance Department to transact business in the State of New York.

Each bid must be accompanied by a copy of the policy upon which the bid is based.

The person or persons making a bid or estimate shall furnish the same in a sealed envelope indorsed as follows:

"Bid for insuring ferryboats employed on the Municipal Ferries."

Bids will be received by the Commissioner of Docks at Pier "A," foot of Battery place, until 12 o'clock noon on Monday, June 10, 1907, at which time and place the estimates received will be publicly opened by the Commissioner of Docks and read, and the award of the contract made according to the law as soon thereafter as practicable.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal it be accompanied by a certified check upon one of the State or National Banks of The City of New York, drawn to the order of the Commissioner of Docks, or money to the amount of One Thousand Dollars.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope, addressed to the Commissioner of Docks, or submitted personally upon the presentation of the bid or estimate.

The bidders shall state a rate per cent. at which they will insure or contract for insurance for the ferryboats, as specified above, in accordance with the terms of this advertisement, and also in accordance with the form of policy submitted, which shall be considered in connection with and form part of the bid.

Bidders will write out the rate per cent. of their estimates in addition to inserting the same in figures.

The Commissioner reserves the right to reject all bids or estimates if he deem it for the interest of the City so to do.

Bidders are requested to make their bids or estimates upon the blank form prepared by this Department, a copy of which can be obtained on application therefor at the office of the Department.

SALE OF GREASE, BARRELS, BONES, RAGS, METAL AND MISCELLANEOUS ARTICLES.

THE UNDERSIGNED WILL SELL AT public auction to the highest bidder, on the grounds of the Kings County Hospital, Clarkson street, Brooklyn, N. Y., on

MONDAY, MAY 27, 1907,

at 11 a. m.:

About 105,000 pounds bones.
About 18,700 pounds grease.
About 300 pounds brass.

Bids on metals, bones and fat must be per pound—on barrels per piece.

All quantities to be "more or less." All quantities to be "as are."

All aforesaid articles must be received by the purchaser at the aforesaid hospitals, and removed therefrom immediately upon being notified that same are ready for delivery, except in the case of bones and grease, which must be removed every other day by the purchaser without previous notice.

Each successful bidder will be required to pay 25 per cent. of the estimated amount of his purchase. Such amount shall be fixed by the Commissioner, and said purchasers shall pay said sum to him on the day of the sale, and shall pay the balance in cash or certified check on a New York City bank to the General Medical Superintendent upon delivery of the goods.

The Commissioner reserves the right to reject all bids, also the right to order a resale of any articles that shall not have been removed by the purchaser within ten days after a written notice has been mailed to him to do so. This, however, does not apply to the bones and grease, which, if not removed every other day, the Commissioner reserves the right to sell without notice.

In all cases of resale, the purchaser is to forfeit to the use of The City of New York the 25 per cent. paid at the time of sale.

PUBLIC NOTICE WILL BE GIVEN OF all competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close. Applications will be received for only such examinations as are scheduled.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing or by personal application at the office of the Commission.

All notices of examinations will be posted in the office of the Commission, City Hall, Municipal Building, Brooklyn, and advertised in the City Record for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news, and to the General Post-

office and stations thereof. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

NOTICE TO PROPERTY OWNERS.

NOTICE OF ASSESSMENT FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of assessment for OPENING AND ACQUIRING TITLE to the following named avenue in the BOROUGH OF BROOKLYN:

TWENTY-SIXTH WARD, SECTIONS 13 AND 14.

RAILROAD AVENUE—OPENING, from Atlantic avenue to Fairfield avenue. Confirmed March 2, 1907; entered May 11, 1907. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly side of Jamaica avenue with the westerly side of Grant avenue; running thence southerly and along the westerly side of Grant avenue to the northerly side of Fairfield avenue; running thence westerly and along the northerly side of Fairfield avenue to the easterly side of Euclid avenue; running thence northerly and along the easterly side of Euclid avenue to the southerly side of Jamaica avenue; running thence easterly and along the southerly side of Jamaica avenue to the point or place of beginning.

The above-entitled assessment was entered on the date herebefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any assessment shall remain unpaid for a period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before July 10, 1907, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum, from the date when the above assessment became a lien to the date of payment.

CONTRACT FOR FURNISHING AND DELIVERING IRON AND STEEL.

The time for the delivery of the articles, materials and supplies and the performance of the contract is by or before 60 days.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

N. B.—For the purpose of a proper inspection of the supplies to be furnished under the above contract, a Special Inspector shall be appointed by the Commissioner of Street Cleaning, and the compensation of this Inspector shall be paid by the contractor at the rate of 2½ per cent. of the total amount to be paid by the City to the contractor. This amount of 2½ per cent. for compensation of the Special Inspector must not be distributed by the bidder among the prices of the several items, but must be added by the bidder at the foot of his bid as a separate and distinct item, thus: "Compensation of Special Inspector at 2½ per cent."—then extending this amount at 2½ per cent. of the total of the extended prices.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per pound, per hundred pounds, ton, dozen, gallon, yard or other unit of measure, by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total for each class and awards made to the lowest bidder on each class.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13-21 Park row.

BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN THAT AT A MEETING OF THE BOARD OF ESTIMATE AND APPORTIONMENT, held April 5, 1907, the following petition was received:

To the Board of Estimate and Apportionment:

The petition of New York and Port Chester Railroad Company respectfully shows and alleges upon information and belief:

That heretofore and on or about the 11th day of June, 1906, a contract dated May 31, 1906, was entered into by and between The City of New York and your petitioner, which contract was duly executed by George B. McClellan, Mayor of The City of New York, on behalf of The City of New York, and by New York and Port Chester Railroad Company by J. B. Stewart, its president, on the 11th day of June, 1906.

That in and by said contract, among other things, The City of New York granted to your petitioner, subject to certain conditions and provisions therein set forth, the right to cross certain streets and highways therein described, and the right and privilege to construct, maintain and operate a railroad with all connections, turn-outs, switches and cross-overs necessary for the accommodation and operation of said railroad, by means of electricity or by any mechanical motive power which may be lawfully employed upon the same except steam locomotive power in, upon and across certain named streets, avenues, parkways, highways and public places situated in the Borough of The Bronx, City, County and State of New York, upon a route therein particularly set forth and described in section 1 of the said contract, being the route shown on a certain map entitled "Survey, map and profile of the line and route of the railroad of the New York and Port Chester Railroad Company in The City of New York, State of New York," adopted by the Board of Directors of the said company on the 8th day of February, 1904, and signed by W. C. Gotshall, President; W. C. Gotshall, Chief Engineer, and Francis Blanchard, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 6th day of May, 1904, or any lawful amendment which may be consented to by the Board of Estimate and Apportionment or its successors in authority.

That on the 2d day of April, 1907, this petitioner, by a vote of two-thirds of its directors, at a meeting of the Board of Directors, regularly held pursuant to due notice, changed and altered the route of that part of its main line situate, lying and being between the Harlem river and the northern boundary line of The City of New York, and changed its southern terminus from a point at or near the intersection of Southern Boulevard and Willis avenue, in the Borough of The Bronx, to a point at or near the intersection of One Hundred and Thirty-second street and Willis avenue, to a point on the Harlem river at or near the point where Alexander avenue extended intersects the north bank of the Harlem river; and also changed and altered the route of its branch line from its connection with its main line near Adams street and Morris Park avenue to Clason's Point, in said County; and also adopted a map and profile of the whole of its route as thus amended, and authorized its President to file said map and profile of said route, duly certified by the President, Secretary, Chief Engineer and at least two-thirds of the directors, which map and profile are entitled "Survey, map and profile of the New York and Port Chester Railroad Company for New York County, New York, Sections I, II, and III, respectively;" and thereafter, on the 4th day of April, 1907, the said map and profile of the said route as amended and adopted for the entire route of your petitioner in the County of New York was by your petitioner filed in the office of the County Clerk of the County of New York, and thereupon the route of your petitioner's road became and was lawfully amended in conformity with the said map and profile as filed. That said amended route became and now is the lawful route of this petitioner located in all respects in conformity with law.

That the description of said route as thus amended and of the streets in The City of New York and in the Borough of The Bronx which will be crossed or intersected by said railroad is as follows:

Main Line.

Beginning at a point on the Harlem river near the point where Alexander avenue, extended, intersects the north bank of the Harlem river, in the Borough of The Bronx, and running thence northerly and easterly, crossing One Hundred and Thirty-second street and Southern Boulevard, between Alexander avenue and Willis avenue; thence between One Hundred and Thirty-fourth street and Southern Boulevard, crossing Willis avenue and Brown place to Brook avenue; thence crossing Brook avenue, and thence crossing St. Ann's avenue, between Southern Boulevard and East One Hundred and Thirty-second street to Cypress avenue; thence crossing Cypress avenue, between One Hundred and Thirty-second street and Southern Boulevard; thence between Cypress avenue and Willow avenue to One Hundred and Thirty-fourth street; thence crossing One Hundred and Thirty-fourth street to One Hundred and Thirty-fifth street; thence between Willow avenue and Southern Boulevard, crossing One Hundred and Thirty-fifth street, One Hundred and Thirty-sixth street and One Hundred and Thirty-seventh street, to Willow avenue; thence crossing Willow avenue and crossing One Hundred and Thirty-eighth street at or near its intersection with Willow avenue, to One Hundred and Thirty-ninth street; thence crossing One Hundred and Thirty-ninth street and One Hundred and Fortieth street, between Southern Boulevard and the tracks of the New York, New Haven and Hartford Railroad, to One Hundred and Forty-first street; thence crossing One Hundred and Forty-first street, and thence crossing and along Southern Boulevard and Whitlock avenue, at or near their junction between One Hundred and Forty-first street and One Hundred and Forty-second street; thence crossing St. Joseph's street, between Whitlock avenue and Austin place; thence crossing One Hundred and Forty-ninth street, between Austin place and Whitlock avenue, to Timpson place; thence between Whitlock avenue and Southern Boulevard, and crossing Timpson place, Leggett avenue, East One Hundred and Fifty-sixth street, Craven street, Longwood avenue, Lafayette avenue, Tiffany street, Barretto street, Hunt's Point road, Hoe street, Faile street, Bryan street, Longfellow street, Aldus street, Whittier street, and Westchester avenue to and crossing Home street; thence crossing Freeman street, Boone street, Edgewater road, West Farms road and Jennings street; thence crossing East One Hundred and Seventy-second street, East One Hundred and Seventy-third street, East One Hundred and Seventy-fourth street, between West Farms road and Boone

BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK.

AT A MEETING OF THE BOARD OF Estimate and Apportionment, held April 12, 1907, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The Fort George Street Railway Company has, under date of July 3, 1906, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate a street surface railroad upon and along St. Nicholas (or Eleventh) avenue, between the Dyckman street station of the Interborough Rapid Transit Railroad and West One Hundred and Ninetieth street, Borough of Manhattan; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws, this Board adopted a resolution on July 6, 1906, fixing the date for public hearing thereon as September 28, 1906, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "Sun" and the "World," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Fort George Street Railway Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Fort George Street Railway Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Fort George Street Railway Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

FORT GEORGE STREET RAILWAY COMPANY. Proposed Form of Contract.

This contract made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Fort George Street Railway Company, incorporated for the purpose of building, maintaining and operating a street surface railroad (hereinafter called the Company), party of the second part, witnesseth: In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a street surface railroad by electrical system, together with the necessary wires and other equipment for the purpose of conveying persons and property in the Borough of Manhattan, City of New York, upon the following route:

Beginning at a point about seven hundred feet south of the intersection of Dyckman street and Nagle avenue, running thence by double track in a southerly direction through, upon and along St. Nicholas avenue to its intersection with West One Hundred and Ninetieth street, all in the Borough of Manhattan, in the City, County and State of New York.

Said route, together with turnouts, switches, stands and crossovers hereby authorized, are shown upon a map entitled:

"Map showing proposed route of the Fort George Street Railway Company, to accompany amended petition to the Board of Estimate and Apportionment. Dated October 16, 1906. Original petition dated July 3, 1906," and signed by R. E. Simon, President, and A. E. Kalbach, Consulting Engineer.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within two months thereafter make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law, to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine, unless the period shall be extended by the Board of Estimate and Apportionment.

Second—This consent is upon the express condition that the Company within sixty days after the signing of this contract by the Mayor and before anything is done in the exercise of the rights conferred thereby, shall enter into a traffic agreement with the Interborough Rapid Transit Company whereby passengers entering the cars of either the Company or the Interborough Rapid Transit Company (subway) shall be entitled to a continuous passage on both of the said lines upon the payment of a single fare of five cents; such agreement shall be for a period of at least twenty-five years.

Third—The said right to construct, maintain and operate a street surface railroad as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five years, upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Company, its successors or assigns. The Company shall, however, not have the right to exercise such privilege of renewal until it has entered into a traffic agreement with the Interborough Rapid Transit Company, or its successors, in the operation of the Rapid Transit Railroad (subway), as above, for said renewal period.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than that sum required to be paid during the last year in this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Fourth—Upon the termination of this original contract, or if the same is renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract, within the streets and highways of the City, shall become the property of the City, without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

At the termination of this grant as above, the City, at the election of the Board, shall have the right to purchase all the property of the Company not within the streets or avenues, at its fair market value, exclusive of any value which such property may have by reason of this contract. Such valuation shall be determined in the same manner as revaluation for a renewal of this contract, as herein provided.

If, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The Company, its successor or assigns, shall pay to the City for the right to construct, maintain and operate a street surface railway on the route herein described, the following sums of money:

1. Five thousand dollars (\$5,000) in cash, within thirty (30) days after the signing of this contract by the Mayor.

2. During the first five years of this contract an annual sum, which shall in no case be less than five hundred dollars (\$500), and which shall be equal to three per cent. of the gross receipts of the Company, if such percentage shall exceed a sum of five hundred dollars (\$500).

During the remaining twenty years of this contract an annual sum, which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to five per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

The payment of such minimum sums shall begin from the day on which the contract is signed by the Mayor.

The terms hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract, and no renewal shall provide for a further renewal.

Such minimum annual sums shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30, next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1, in each year, for the year ending September 30, next preceding. The fiscal year shall end on September 30, next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with. The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to the City for the rights and privileges hereby granted, and it shall be construed as providing for the payment by the Company, its successors or assigns, for said right and privilege of a percentage of gross receipts within the meaning of any general or special statute, or of any ordinance of the City.

Any and all payments to be made by the terms of this contract to the City, by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or by any law of the State of New York.

Sixth—The annual charges or payments shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchise at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any part of the route mentioned herein, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving, or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Eighth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad and of the cost of keeping the tracks and track equipment in repair, as the number of

cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railroad which may necessitate the use of any portion of the railroad which shall be constructed under this contract.

Ninth—The railroad to be constructed under this contract may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the New York City Interborough Railway Company or by the underground electric system now in use by the lines of the New York City Railway Company. Provided, however, that the Board of Estimate and Apportionment, or its successors in authority, after five years from the date of this contract, may, upon giving to the grantee, its successor or assigns, six months' notice in writing, require it or them to operate the railroad upon the whole or upon any portion of its route by underground electrical power substantially similar to the system now in use on the lines of the New York City Railway Company in the Borough of Manhattan, above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways.

When the change shall have been made to the underground system, all wires for the transmission of power or otherwise, shall be placed in conduits underneath or alongside of the railroad. The Company shall provide two conduits, not less than three (3) inches in diameter each for the exclusive use of the City. Such conduits shall be used only by the Company and by the City.

This provision shall in no way be taken as a limitation on the Police powers of the City, as provided in sections 525 et seq. of the Greater New York Charter.

Tenth—The Company shall commence construction of the railroad herein authorized within three months from the date upon which the consents of the property owners are obtained, or upon the decision of the Appellate Division of the Supreme Court that such railroad ought to be constructed, and shall complete the construction of the same within twelve months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Eleventh—The said railroad shall be constructed, maintained and operated, subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City.

Twelfth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railroad and property of the Company shall be maintained in good condition throughout the term of this contract.

The Company shall remove the stub-end terminal at St. Nicholas avenue, north of West One Hundred and Eightieth street, hereby authorized, upon six (6) months' notice in writing from the Board of Estimate and Apportionment.

Thirteenth—The rate of fare for any passenger upon such railroad shall not exceed five cents, and the Company shall not charge any passenger more than five cents for one continuous ride from any point on said railroad, or a line or branch operated by it, its lessees or assigns in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York.

Transfers shall be given between the Interborough Rapid Transit Company (subway division) and the Company at the Interborough Rapid Transit Railway station at Dyckman street for a single fare of five cents, as required by traffic agreement between said companies.

The rate for the carrying of property over the said railroad upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Fourteenth—The cars of the Company shall be run both day and night as often as the reasonable convenience of the public may require, or as may be directed by the Board, but at no time shall the headway at any point on the railway be more than twenty minutes between the hours of 5 o'clock p. m. and midnight.

Fifteenth—The Company shall attach to each car run over the said railroad proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railroad shall be equipped with both hand and power brakes.

Seventeenth—All cars which are operated on said railroad shall be heated during the cold weather in conformity with such laws and ordinances as are now in force or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, when so required by the Board of Estimate and Apportionment.

Nineteenth—All cars operated on said railroad shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the route hereby authorized, which are now either unpaved

or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railroad, or any portion thereof, remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed, shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay to the City any sum or sums that the City may pay, either as a result of a judgment against it or by way of settlement or compromise, for any injuries either to person or property arising from failure of the Company to pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, as hereinbefore provided.

Twenty-second—Any alteration which may be required to the sewerage or drainage system, or to any substructure, pipes, conduits, etc., laid in the streets on account of the construction or operation of the railroad, shall be made at the sole cost of the railroad company and in such manner as the proper City officials may prescribe.

Twenty-third—The Company hereby agrees not to issue stock other than has been heretofore issued until a certificate of authority therefor has been issued by the Board of Estimate and Apportionment, or until such Board shall further certify in writing as to the amount of stock reasonably required for the purposes of the Company. The stock of the Company shall not be issued in excess of the amount so certified.

The Company shall not increase its capital stock above the \$25,000 now authorized, without the consent in writing of the Board of Estimate and Apportionment, stating the amount of the authorized increase. For the purpose of making this determination as to the amount of stocks to be issued, or the amount of the authorized increase of the capital stock of the Company, the Board of Estimate and Apportionment may take and hear testimony under oath, and examine the books and papers of the Company, and require verified statements from the officers thereof pertaining to the value of the property and of the franchise owned or operated by the Company. Such determination shall be made within sixty (60) days after the final submission of the papers or of the final hearing on the application for the issue or increase of capital stock.

Twenty-fourth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall on or before November 1 of each year make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Twenty-sixth—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time, and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, except for those defaults or defects for which penalties are hereinafter provided, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-seventh—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-eighth—This grant is upon the express condition that the Company within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven thousand dollars (\$7,000) either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after

default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of twenty-five dollars (\$25) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of the violation of the provision relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance or after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of seven thousand dollars (\$7,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Fort George Street Railway Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Friday, May 24, 1907, in the City Record, and at least twice during the ten days immediately prior to May 24, in "The Sun" and "The World," two daily newspapers designated by the Mayor thereto and published in The City of New York, at the expense of the Fort George Street Railway Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Fort George Street Railway Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, May 24, 1907, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

INVITATION TO CONTRACTORS.

Delancey Street, between the Bowery and Norfolk Street.

THE CITY OF NEW YORK (HEREIN after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street (Manhattan) and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street

in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said railroad which is situated in Delancey street, between the Bowery and Norfolk street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad with four tracks. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm it will be sufficient if the proposal is signed and acknowledged and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and eighty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the

names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may, by new advertisement, invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Rapid Transit Railroad—(Delancey Street)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

By A. E. ORR,

President.

Secretary.

INVITATION TO CONTRACTORS.

Park Street to Park Row.

THE CITY OF NEW YORK (HEREIN after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which is situated between a line crossing Centre street about forty feet north of Park street, and the southeasterly side of Park row, in accordance with the detailed plans and specifications adopted therefor. This part will consist principally of an underground railway station, together with the railroad tracks running through it and extending for short distances northerly and southerly from it. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The railway tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed on property acquired or to be acquired by the City.

The manner of construction shall be by excavation under cover within the lines of Centre, Pearl, Duane, Reade and New Chambers streets and Park row; within the lines of Park street and City Hall place, and, except as noted above, by open excavation, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries on the westerly side of Centre street are included, as indicated on the detailed plans. Bids for the construction of the station and railroad tracks must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of railroad construction from the cost of the pipe galleries. The Board reserves the right to accept a bid for the railroad construction, and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including the station, and all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation, then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered, and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and sixty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

A bidder whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by him are not approved by the Board, substitute the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, the bidder whose proposal was accepted will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to such defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted be inclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street to Park Row)," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding such bidder to pay to the City the damages by it sustained by reason of such failure; and in that case the bidder absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract

is executed and its provisions as to security are complied with.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK.

INVITATION TO CONTRACTORS.

Centre Street to the Bowery.

THE CITY OF NEW YORK (HEREIN-after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street, Manhattan, and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which begins at the northerly side of Broome street and curves through Cleveland place (formerly Marion street) and private property into the new Delancey street extension, and runs thence under said extension and under and across the Bowery and under Delancey street to a point about 225 feet east of the centre line of the Bowery.

The general plan of construction calls for a four-track sub-surface railroad. A station at the Bowery and extending to points between Elizabeth and Chrystie streets will be constructed, and suitable cross-overs, turnouts and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed at the Bowery in order to avoid a grade crossing with a subway to be hereafter built. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street and the new extension are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions, especially along the line of the new Delancey street extension. The buildings standing within the lines of the said new street on May 1, 1907, are to be demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within

ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be inclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street to the Bowery)," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be inclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SEVENTY-SIXTH STREET (although not yet named by proper authority), from Broadway to Buena Vista avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 13th day of June, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 14th day of June, 1907, at 11 o'clock a. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 14th day of June, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of a line parallel to and distant 100 feet easterly from the easterly line of St. Nicholas avenue with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-sixth street; running thence westerly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-fifth street; thence westerly along said parallel line and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Riverside drive; thence northerly along said parallel line to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Seventy-seventh street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Seventy-sixth street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of St. Nicholas avenue; thence southerly along said parallel line to the point or place of beginning, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I, to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 25th day of July, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, May 20, 1907.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title in fee, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of HULL AVENUE, PERRY AVENUE AND NORWOOD (DECATUR) AVENUE, between Moshulu Parkway North and Woodlawn road, across the lands of the former Jerome Park Branch of the New York and Harlem Railroad, now the property of the New York City Railway Company, in the Borough of The Bronx, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term of said Court, to be held at Part III. thereof, in the County Court House, in the Borough of Manhattan, in The City of New York, on Monday, the 27th day of May, 1907, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate in the above-entitled matter, one of whom shall be designated as a Commissioner of Assessment. The nature and extent of the improvement hereby intended is the acquisition of title in fee by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the opening of certain streets or avenues known as Hull avenue, Perry avenue and Norwood (Decatur) avenue, between Moshulu Parkway North and Woodlawn road, across the lands of the former Jerome Park Branch of the New York and Harlem Railroad, now the property of the New York City Railway Company, in the Borough of The Bronx, City of New York, being the following described lots, pieces or parcels of land, viz:

Parcel "A" (Perry Avenue).
This parcel was vested in The City of New York on July 30, 1900.

Parcel "B" (Hull Avenue).
Beginning at a point in the northerly line of Hull avenue distant 231.93 feet easterly from the intersection of the eastern line of Moshulu Parkway North with the northern line of Hull avenue;

1. Thence easterly along the eastern prolongation of the northern line of Hull avenue for 40.01 feet to the eastern line of the Jerome Park Railroad;

2. Thence southeasterly along the eastern line of the Jerome Park Railroad for 60 feet to the southern line of Hull avenue;

3. Thence westerly along the southern line of Hull avenue for 40.01 feet to the western line of the Jerome Park Railroad;

4. Thence northerly along the last-mentioned line for 60.02 feet to the point of beginning.

Parcel "C" (Decatur Avenue).
Beginning at a point in the northern line of Decatur avenue distant 322.30 feet easterly from the intersection of said line with the eastern line of Moshulu Parkway North;

1. Thence easterly along the eastern prolongation of the northern line of Decatur avenue for 41.14 feet to the eastern line of the Jerome Park Railroad;

2. Thence southerly along last-mentioned line for 62.13 feet to the southern line of Decatur avenue;

3. Thence westerly along last-mentioned line for 41.90 feet to the western line of Jerome Park Railroad;

4. Thence northerly along last-mentioned line for 62.33 feet to the point of beginning.

Hull, Perry and Norwood avenues are laid out on Section 17 of the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, which maps were filed in the office of the Commissioner of Street Improvement of the Twenty-third and Twenty-fourth Wards on December 27, 1895; in the office of the Register of the City and County of New York on December 28, 1895, and in the office of the Secretary of State of the State of New York on December 28, 1895.

The land to be taken for these avenues is located in Blocks 3331, 3332, 3333 and 3334 of Section 12 of the land map of The City of New York.

The Board of Estimate and Apportionment on the 16th day of November, 1906, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

The area bounded on the southwest by the northeasterly side of Moshulu Parkway, on the northeast by the southwesterly side of Woodlawn road, on the northwest by a line midway between Perry avenue and Bainbridge avenue, and on the southeast by a line midway between Norwood avenue and Webster avenue.

entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title in fee by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the widening of Freeman street, between Stebbins avenue and Intervale avenue, Borough of The Bronx, City of New York, being the following described lots, pieces or parcels of land, viz.:

Parcel "A."

Beginning at the intersection of the eastern line of Stebbins avenue with the northern line of Freeman street;

1. Thence southeasterly along the northern line of Freeman street for 11.856 feet;
2. Thence northerly, deflecting 122 degrees 12 minutes 50 seconds to the left, for 25.188 feet to the eastern line of Stebbins avenue;
3. Thence southerly along last mentioned line for 21.368 feet to the point of beginning.

Parcel "B."

Beginning at the intersection of the eastern line of Stebbins avenue with the southern line of Freeman street;

1. Thence southeasterly along the southern line of Freeman street for 352.13 feet to the western line of Intervale avenue;
2. Thence southwesterly along last mentioned line for 40.797 feet;
3. Thence northwesterly, deflecting 78 degrees 39 minutes 22 seconds to the right for 349.823 feet, to the eastern line of Stebbins avenue;
4. Thence northeasterly along last mentioned line for 40.407 feet to the point of beginning.

The widening of Freeman street is shown on a map entitled "Map or plan showing the widening of Freeman street, between Stebbins avenue and Intervale avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York, prepared by the President of the Borough of The Bronx under authority of chapter 466 of the Laws of 1901," which map was filed in the office of the President of the Borough of The Bronx on February 10, 1905, in the office of the Register of the City and County of New York on February 7, 1905, as Map No. 1092, and in the office of the Counsel to the Corporation of The City of New York on or about the same date in pigeonhole 43.

The land to be taken for the widening of Freeman street is located in Blocks 2965 and 2973 of Section 11 of the land map of The City of New York.

The Board of Estimate and Apportionment on the 14th day of December, 1906, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

"Beginning at a point in the middle of the block between Bryant and Longfellow streets, midway between the northerly side of Freeman street and the southerly side of Jennings street, and running thence eastwardly on a line midway between the northerly side of Freeman street and the southerly side of Jennings street to the easterly side of the Southern Boulevard; beginning again on the westerly side of the Southern Boulevard, midway between Wilkins avenue and Jennings street, and running thence eastwardly to the easterly side of Wilkins avenue midway between the Southern Boulevard and Jennings street, including the entire triangular block bounded by Intervale avenue, Wilkins avenue and Freeman street; beginning again on the westerly side of Intervale avenue at a point midway between Freeman and Jennings streets, and extending westwardly along a line midway between Freeman and Jennings streets to the easterly side of Prospect avenue; beginning again on the westerly side of Prospect avenue at a point midway between Ritter place and Jennings street, and running westwardly and parallel with Jennings street to a point 100 feet west of the westerly side of Prospect avenue, measured at right angles thereto; thence running southwardly on a line 100 feet west of the westerly side of Prospect avenue and parallel therewith to a point 100 feet south of the southerly side of East One Hundred and Sixty-ninth street; thence eastwardly on a line 100 feet south of the southerly side of East One Hundred and Sixty-ninth street and parallel therewith to a point 100 feet west of the westerly side of Stebbins avenue; thence northwardly on a line 100 feet west of the westerly side of Stebbins avenue and parallel therewith to a prolongation of a line 100 feet south of the southerly side of Chisholm street, between Intervale and Stebbins avenues, and the prolongation thereof to a point 100 feet east of the easterly side of Intervale avenue; thence northwardly on a line 100 feet east of the easterly side of Intervale avenue and parallel therewith to its intersection with a line drawn midway between the southerly side of Freeman street and the northerly side of Home street; thence eastwardly along the said line midway between the southerly side of Freeman street and the northerly side of Home street to a point midway between the easterly side of Bryant street and the westerly side of Longfellow street; thence northwardly on a line midway between the easterly side of Bryant street and the westerly side of Longfellow street to the point of beginning.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-SECOND STREET (although not yet named by proper authority), from Broadway to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 31st day of May, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 3d day of June, 1907, at 1 o'clock p. m.

Second—That the abstract of our said estimate of damage, together with our damage maps, and

also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 3d day of June, 1907.

Third—That we propose to assess for benefit, which assessment will appear in our last partial and separate abstract of estimate and assessment and will be contained in our last partial and separate report, all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet easterly from the easterly line of Edgcombe road, with the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-second street; running thence westerly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-first street; thence westerly along said parallel line to its intersection with the middle line of the block between Riverside drive and the land of the New York Central and Hudson River Railroad Company; thence northerly along said middle line to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with the line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-second street; thence easterly along said parallel line and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Edgcombe road; thence southerly along said parallel line to the point or place of beginning, as such area is shown on our benefit maps, deposited as aforesaid.

Fourth—That, provided there be no objections filed to said abstract, our first partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 9th day of July, 1907, at the opening of the court on that day.

Fifth—In case, however, objections are filed to said abstract of estimate of damage, the notice of motion to confirm our first partial and separate report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of VAN ALST AVENUE (although not yet named by proper authority), from Nott avenue to Hoyt avenue, in the First Ward, Borough of Queens, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do pre-

sent their said objections, in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 6th day of June, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 10th day of June, 1907, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 15th day of June, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the northerly line of Eighth street with the easterly line of the Boulevard; running thence northerly along said easterly line of the Boulevard to its intersection with the southerly line of Webster avenue; thence easterly along said southerly line to its intersection with the easterly line of Sherman street; thence northerly along said easterly line to its intersection with the southerly line of Graham avenue; thence easterly along said southerly line to its intersection with the easterly line of Marion street; thence northerly, along said easterly line and its prolongation to its intersection with the southerly line of Hopkins avenue and Sherman street; thence continuing northerly along said middle line and its prolongation to its intersection with the southerly line of Taylor street; thence continuing northerly along a straight line to a point formed by the intersection of the northerly line of Main street with the easterly line of Remsen street; thence continuing northerly along said easterly line of Remsen street and the easterly line of the Boulevard to its intersection with the southerly line of Potter avenue; thence easterly along said southerly line to its intersection with a line parallel to and 100 feet westerly from the westerly line of the Crescent; thence southerly along said parallel line to its intersection with the northerly line of Nott avenue; thence continuing southerly to a point in the southerly line of Nott avenue midway between Jackson avenue and Ely avenue; thence continuing southerly to a point formed by the intersection of the northerly line of Jackson avenue with the southerly line of Eleventh street; thence southwesterly along said northwesterly line of Jackson avenue to its intersection with the northerly line of Eighth street; thence westerly along said northerly line of Eighth street to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps, deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held for the hearing of motions, in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 17th day of October, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECTION No. 6.

Notice of Application for the Appointment of Commissioners of Appraisal.

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended. Such application will be made at a Special Term of the Supreme Court to be held in and for the Third Judicial District, at the City Hall, City of Albany, N. Y., on June 29, 1907, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard. The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and at least one of whom shall reside in the County where the real estate hereinafter described is situated, to act as Commissioners of Appraisal under said act and discharge all the duties conferred by the said act and the acts amendatory thereof, upon such Commissioners of Appraisal, for the purpose of providing an additional supply of pure and wholesome water for The City of New York.

The real estate to be acquired herein is situated in the Town of Hurley, and is to be acquired in fee for the purpose of furnishing an additional supply of pure and wholesome water to The City of New York.

The following is a statement of the boundaries of the lands to be acquired herein, with a reference to the date and place of filing of the map.

All the parcels herein described are to be acquired in fee and are colored pink on the map hereinafter referred to.

All those certain pieces or parcels of real estate situated in the Town of Hurley, County of Ulster, and State of New York, shown on a map entitled "Reservoir Department. Section No. 6. Board of Water Supply of The City of New York. Map of real estate situated in the Town of Hurley, County of Ulster, and State of New York, to be acquired by The City of New York, under the provisions of chapter 724 of the Laws of 1905, as amended, for the construction of Ashokan Reservoir and appurtenances, in the vicinity of Ashton, south of railroad," which map was filed in the office of the County Clerk of the County of Ulster, at Kingston, New York, on the 8th day of May, 1907, and is bounded and described as follows:

Beginning at the most westerly point of Parcel No. 223, in the southerly property line of the Ulster and Delaware Railroad Company, where the same is intersected by the line between the Towns of Hurley and Olive, and running thence along the said southerly railroad property line and the northerly lines of said Parcel No. 223 and of Parcels Nos. 227, 230, 231, 229, 233, 234, 235, 236, 240, 239, 241 and 248, north 52 degrees 28 minutes east 8,399.9 feet and on a curve of 5,697 feet radius to the right 1,281.6 feet, crossing and recrossing Beaver Kill to the most northerly point of before mentioned Parcel No. 248, in the centre of a road leading from Ashton Post Office to West Hurley; thence along the centre of said road, the northerly line of said Parcel No. 248, partly along the northerly line of Parcel No. 249 and still continuing along the before mentioned southerly railroad property line, south 67 degrees 44 minutes east 193 feet, to the most westerly point of Parcel No. 251; thence along the northerly lines of said parcel and of Parcels Nos. 252, 257, 258, 260, 264 and 268, and still continuing along the before mentioned southerly railroad property line the following courses, distances and curves: North 48 degrees 15 minutes east 47.3 feet, north 64 degrees 27 minutes east 801.4 feet, north 71 degrees 31 minutes east 349.1 feet, north 76 degrees 33 minutes east 3,286.3 feet and on a curve of 2,898 feet radius to the left 1,036.2 feet to the northeast corner of Parcel No. 268; thence along the easterly line of said parcel, south 37 degrees 45 minutes east 282 feet to a point in the northerly line of a road leading from Ashton to West Hurley; thence crossing said road and still continuing along the easterly line of said parcel the following courses and distances: South 43 degrees 05 minutes east 350.5 feet, south 37 degrees 35 minutes east 550.9 feet, south 45 degrees 13 minutes east 96.5 feet, south 34 degrees 13 minutes east 215.2 feet and south 33 degrees 15 minutes west 1,363.3 feet to a point in the easterly line of Parcel No. 262; thence along the said easterly line, south 38 degrees 38 minutes east 257.3 feet, south 17 degrees 51 minutes west 399.3 feet and on a curve of 518.2 feet radius to the right 46.4 feet to the southeast corner of Parcel No. 259; thence along the southerly lines of said parcel and of Parcel No. 255, on a curve of 518.2 feet radius to the right 365.1 feet and south 63 degrees 20 minutes west 274.2 feet to a point in the easterly line of Parcel No. 254; thence along the easterly lines of said parcel and of Parcels Nos. 246 and 260 the following courses, distances and curves: North 78 degrees 30 minutes west 116.9 feet, on a curve of 75 feet radius to the left 96.2 feet, south 27 degrees 48 minutes east 457.4 feet, on a curve of 550 feet radius to the right 52.7 feet, south 30 degrees 46 minutes west 236.6 feet, on a curve of 461.9 feet radius to the left 152.5 feet and on a curve of 450 feet radius to the right 246.3 feet to the most southerly point of said Parcel No. 269, in the southerly line of before mentioned Parcel No. 246; NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the nature and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
