On motion of Alderman Wentz, further reading was dispensed with, and the minutes were approved as printed.

## COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President, Borough of Brooklyn:

No. 2117.

The City of New York,  
Office of the President of the Borough of Brooklyn,  
Brooklyn, June 8, 1907.

To the Honorable the Board of Aldermen:

Gentlemen—There are seventy-eight miles of macadam streets in the Borough of Brooklyn, which, I understand, have not been cleaned this year. The duty of cleaning them is one of the duties of the Department of Street Cleaning, as will appear from the opinion of the Corporation Counsel addressed to the President of the Borough of Brooklyn on November 4, 1903, a copy of which I inclose herewith. In this opinion the Corporation Counsel says:

"The Charter seems to provide plainly that the Department of Street Cleaning is to have control of the sweeping and cleaning of all streets in the Boroughs of Manhattan, The Bronx and Brooklyn—whether paved or unpaved—except such as are under the control of the Department of Parks or the Department of Docks."

In former years I find it has been the practice of the office of the President of the Borough to divert a part of the fund appropriated for Labor, Maintenance and Supplies in the Bureau of Highways to meet the expense of cleaning macadam roads. As that appropriation this year is altogether inadequate for its own proper purpose, I have stopped this practice, and through my Private Secretary I so informed the Commissioner of Street Cleaning on March 29, suggesting to him that if his appropriation for the cleaning of the streets was not sufficiently large, he apply to the proper Board for a supplementary appropriation. I received from him on March 30 an acknowledgment of my letter and a request that the Bureau of Highways furnish him with an estimate as to the cost of cleaning streets, other than stone and asphalt paved streets, of the Borough of Brooklyn.

There was some further correspondence relative to the matter and numerous complaints were received at this office from residents of Brooklyn as to the condition of the macadam streets. One of these complaints, signed by Joseph T. Griffin, Principal of Public School 100, and relating to the condition of East Fifth street, Coney Island, I sent to Commissioner Craven. I had also furnished him with a copy of a report of the Chief Engineer of the Bureau of Highways, indicating that, at the outside, the cost of cleaning macadam pavements in the borough would be \$116,000. This would provide for cleaning eighty miles of macadam ten times a year, the cost per mile for each cleaning being \$145. As a matter of fact, the cleaning done in former years was done only about twice a year. So that, on the basis of caring for these roads as they have been cared for formerly, the cost would be something slightly in excess of \$23,000.

As the Charter gives me neither the legal nor the moral right to clean these macadam roads, and as the cleaning of them is properly a legal function of the Street Cleaning Department, I was surprised to receive on June 4 a letter from Commissioner Craven to the effect that I was entirely at fault in assuming that he was to go to the Board of Estimate and Apportionment and ask for an appropriation for the purpose of caring for macadam roads. As he has failed to do so, I, as President of the Borough, request the Board of Aldermen to authorize the Board of Estimate and Apportionment to issue Special Revenue Bonds to the amount of twenty-five thousand dollars, the proceeds to be used by the Department of Street Cleaning for the purpose of cleaning macadam roads in the Borough of Brooklyn.

I send you copy of Commissioner Craven's letter, as well as the other correspondence referred to herein.

Yours very truly,

BIRD S. COLER,

President of the Borough of Brooklyn.

Law Department,  
Office of the Corporation Counsel,  
New York, November 4, 1903.

Hon. J. EDWARD SWANSTROM, President, Borough of Brooklyn:

Sir—I am in receipt of a communication, dated September 21, 1903, from your Secretary, Mr. Justin McCarthy, Jr., inclosing copy of a communication from Mr. Redfield, Commissioner of Public Works, to you, dated September 18, 1903. In this communication Mr. Redfield states that the Department of Street Cleaning, "while supposed to care for the cleaning of all paved streets," does not undertake to clean the macadam roads in the Borough of Brooklyn, and that this is done by the Bureau of Highways. Mr. Redfield quotes from section 535 of the Charter, which provides that the term "streets," as used in the title relating to the Department of Street Cleaning, "shall not be deemed to include such macadamized streets as are within any park or are under the control or management of the Department of Parks, nor such wharves, piers and bulkheads or slips and parts of streets and places as are by law committed to the custody and control of the Department of Docks and Ferries."

Mr. Redfield further states that he is informed that the Court of Appeals has decided that a macadamized street is a paved street, and, if so, he thinks the Department of Street Cleaning should take charge of the cleaning of macadamized streets.

The Charter seems to provide plainly that the Department of Street Cleaning is to have control of the sweeping and cleaning of all streets in the Boroughs of Manhattan, The Bronx and Brooklyn—whether paved or unpaved—except such as are under the control of the Department of Parks or the Department of Docks. I fail to see the relevancy of the question as to whether the macadamizing of a street is or is not a paving thereof.

I suggest that the matter should be taken up by you directly with the Commissioner of Street Cleaning.

Respectfully yours,

(Signed) G. L. RIVES, Corporation Counsel.

New York, June 4, 1907.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

Dear Sir—Replying to letter from your office, signed by John A. Heffernan, Private Secretary, inclosing copy of letter from Geo. W. Tillson, Chief Engineer and Acting Superintendent, addressed to Hon. Desmond Dunne, Commissioner of Public Works, and reading as follows:

"Referring further to the matter of the cost of cleaning macadam roads, I would say that, taking our work for the past year, the approximate cost was \$145 per mile for every time the street was cleaned; that is, 80 miles of street cleaned ten times a year would mean 800 miles at \$145 per mile for the total cost. As an actual fact, the mileage cleaned last year was 135, which means that our 79 miles of macadam was not cleaned entirely twice during the year. Of course, some of it was cleaned more than twice and some of it not at all.

"Trusting that this information may be of some benefit," etc.

—and to your letter of May 16, inclosing letter of Joseph T. Griffin, Principal of Public School 100, and copy of communication addressed to Hon. Desmond Dunne, Commissioner of Public Works, by the Assistant Commissioner of Public Works, I would say that you are entirely at fault in your letter of the 16th ult., where you say "my understanding was that you were to go to the Board of Estimate and Apportionment and ask for an appropriation for that purpose"—i. e., the cleaning macadam streets. I have no intention of doing so for the present year, nor do I see where I have given any intimation to that effect in my correspondence. I therefore return Mr. Griffin's letter herewith.

I wish to thank you for copy of the letter from your then Chief Engineer and Acting Superintendent of Public Works, Mr. George W. Tillson, giving estimate for the cleaning of macadam streets.

Respectfully,

(Signed) M. CRAVEN, Commissioner.

March 29, 1907.

Hon. MACDONOUGH CRAVEN, Commissioner of Street Cleaning:

Dear Sir—I forward to you herewith report of the office of the Commissioner of Public Works relative to the cleaning of macadam roads. The President of the Borough desires me to say that, in view of the meagre appropriation he has, he will be compelled to use all the money appropriated for purposes of this office, and can no longer expend any of it upon the cleaning of any street, whether macadam, dirt or covered with a modern improved pavement.

He hopes you will be able to take this matter up with the Board of Estimate and Apportionment, and he will be glad to support any request that you make in that Board for an appropriation to take care of the cleaning of such streets and roads.

Yours very truly,

(Signed) JOHN A. HEFFERNAN, Private Secretary.

Which was referred to the Committee on Finance.

The President laid before the Board the following communications from the President, Borough of The Bronx:

No. 2118.

Office of the President of the Borough of The Bronx,  
Municipal Building, Crotona Park,  
June 8, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I am advised by Chief Engineer Briggs of this office, in relation to the condition of the Whitlock avenue sewer, near Bancroft street, Borough of The Bronx, that it is deemed absolutely necessary for the repairs to this sewer to be commenced and completed as soon as possible. The cost of said repairs has been estimated by the Engineer of Sewers at \$20,000.

I am also in receipt of a communication from Chief Engineer Briggs, in relation to condition of the outlet sewer in Tiffany street. It appears that the arch of this sewer is very seriously cracked from Randall avenue to a point 230 feet northerly therefrom, and in order to prevent further damage it is absolutely necessary that the roof of this sewer should be reconstructed, the cost of this work having been estimated by the Engineer of Sewers to be \$15,000.

In view of the importance of these works and the urgency of these repairs, I would respectfully ask that the Board of Aldermen pass the necessary resolution to provide for the issue of \$35,000 Special Revenue Bonds to defray the cost and expense of these repairs, at as early a date as practicable, of which \$20,000 shall be for the necessary work of repairing the Whitlock avenue sewer, and of which \$15,000 shall be for the necessary repairs to the Tiffany street outlet sewer.

Yours truly,

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

No. 2119.

Office of the President of the Borough of The Bronx,  
Municipal Building, Crotona Park,  
New York, June 3, 1907.

Hon. PATRICK F. McGOWAN, President of the Board of Aldermen, City Hall, Manhattan, City:

Dear Sir—I inclose herewith copy of a report made by Mr. Charles H. Graham, Engineer in charge of Sewers of this Borough, concerning a complaint of the Department of Health as to a drain passing through private property in Bronxwood Park, from White Plains road, taking the water from the said White Plains road.

The report of the Engineer in charge of sewers submits three different propositions as to the manner and cost of the work required to be done in order to provide a remedy for the conditions complained of.

You will see in his report that he recommends the construction of "A drain in White Plains road, from a point 250 feet north of Locust street to Locust street, thence easterly through Locust street, North Oak drive, Pine street and Bartholdi street to existing stone drain in Cedar street, the total estimated cost of which is found to be \$8,000."

I respectfully ask that the Board of Aldermen pass the necessary resolution to provide for the issuance of Special Revenue Bonds, pursuant to subdivision 8 of section 188 of the amended Greater New York Charter, in the sum of \$8,000, as recommended in said report; and in view of the urgency of this improvement, involving as it does the question of the general health of the section in which the drain is proposed to be constructed, that the Board of Aldermen pass the proper resolution at as early a date as practicable.

Yours truly,

LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

May 31, 1907.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

Sir—Replying to yours of February 11, 1907, transmitting the herewith returned communication No. 17755 from the Department of Health complaining of drain passing through private property in Bronxwood Park from White Plains road, taking the water from said White Plains road, I have to report as follows:

In accordance with your suggestions, I caused survey to be made, with the idea of diverting the drainage of White Plains road up White Plains road to Juliana street, and thence westerly through Juliana street to the Bronx river. The estimated cost of this line was found to be \$10,000, which seemed, in my judgment, to be too great an expenditure of money for the desired purpose. I, therefore, had further investigation and surveys made, one of which was for the continuing of the drain up White Plains avenue to Bartholdi street, and thence easterly through Bartholdi street and emptying into the open stone drain at Cedar street north of Bronxwood Park. The estimated cost of this work was found to be about \$9,000.

Another, and, as it turned out to be, the most economical route, is as follows:

Construct a drain in White Plains road from a point 250 feet north of Locust street to Locust street, thence easterly through Locust street, North Oak drive, Pine street and Bartholdi street to existing stone drain in Cedar street, the total estimated cost of which is found to be \$8,000. This line is recommended, and the items of work involved are as follows:

1,665 linear feet of 18-inch pipe drain.

7 manholes.

125 cubic yards rock.

10 cubic yards rubble masonry.

1,000 feet (B. M.) of timber.

The cost of the work (in view of its amount, \$8,000) is one which should be provided for by a special appropriation; and it is, therefore, respectfully recommended that the Board of Estimate and Apportionment be asked to authorize an issue of bonds in the amount named for the construction of this drain.

Respectfully,

CHARLES H. GRAHAM,  
Engineer in Charge of Sewers.

Which were severally referred to the Committee on Finance.

The President laid before the Board the following communication from the Department of Public Charities:

The President laid before the Board the following communication from the Tenement House Department:

No. 2121.

Tenement House Department  
No. 44 East Twenty-third Street,  
New York, June 6, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, City:

Dear Sir—Last year, when preparing my budget for the year 1907, I did not make any provision for an increased amount for rent nor for the reorganization and equipment of the offices in the Manhattan division, for the reason that there was no space available in the building, and I had been informed that there was not likely to be any. Although the department was then and still is seriously inconvenienced for lack of room, the employees being so crowded in some divisions of the office as to be within a few inches of each other, I did not deem it advisable to provide additional space in a separate building, for the reason that it would be very difficult to do so and conduct the business of the department to advantage.

Within a short time an opportunity occurred to take over the lease of a tenant in the building who occupied part of the floor directly beneath our offices. His lease ran concurrently with that of the department, and the price per foot for the floor space was so much below that demanded in this neighborhood that I immediately referred the matter to the Sinking Fund Commission, and they have since closed with the lessee and the owners of the building. The said space is now available for use, and in order to properly arrange for its use it will be necessary to connect the two floors within the office, to construct considerable partition work and rearrange all the partition work of the old office, besides making changes in the lighting system.

Estimates have been procured from several persons with the idea of getting an approximate figure as to the cost of these changes, and these estimates show that the work will aggregate in cost about five thousand dollars (\$5,000).

As I have already stated, I did not anticipate this need, and have made no provision to meet such an expense, and I am therefore obliged to apply, in accordance with the requirements of subdivision 8 of section 188 of the Charter, to your Honorable body for the authority to provide for the payment of the proposed expenses heretofore set forth. As the City is now chargeable with the rent of said premises, you will realize the necessity for facilitating this matter in order that we may get the repairs done and receive the benefit of the additional space at as early a date as possible.

Thanking you for your kind co-operation in this matter, I am,

Yours very truly,

EDMOND J. BUTLER, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Corporation Counsel:

No. 2122.

Law Department,  
Office of the Corporation Counsel,  
New York, June 6, 1907.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I am in receipt of the communication of Hon. P. J. Scully, City Clerk, dated May 31, 1907, which reads as follows:

"At a meeting of the Board of Aldermen held on Tuesday, May 28, the attached resolution granting permission to John T. Brady & Co. to erect a temporary sidewalk and street bridge over Liberty street west of Broadway, Manhattan, has been referred to you with a request for your opinion upon the legality of the proposed measure. The Board would be grateful for an opinion in time for the next meeting."

The resolution reads:

"Resolved, That permission be and the same is hereby given to John T. Brady & Co. to erect a temporary sidewalk and street bridge over Liberty street, from the Singer building on the north side of the street to the south curb from Broadway to a point 125 feet west of Broadway, in the Borough of Manhattan; said bridge to be so constructed as not to interfere with pedestrians or vehicular traffic, and being for the purpose of safeguarding against danger attending building construction; the said John T. Brady & Co. to save The City of New York free and harmless from any loss or damage that may be occasioned during the erection of said temporary bridge or its continuance; the work to be done at said firm's expense, under the direction of the President of the Borough, said permission to continue only during the pleasure of the Board of Aldermen."

Section 50 of the Greater New York Charter provides:

"\* \* \* The board of aldermen shall not have power to authorize the placing or continuing of any encroachment or obstruction upon any street or sidewalk, except the temporary occupation thereof during the erection or repairing of a building on a lot opposite the same."

In my opinion the Board of Aldermen has power to pass the resolution in question.

Respectfully yours,

WILLIAM B. ELLISON, Corporation Counsel.

Which was ordered on file.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

No. 2124.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 7, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment held June 7, 1907, a presentment of the grand jury, New York County (May Term), was presented, relative to an increase in the Police Force of the City, which was referred to the Honorable the Board of Aldermen for consideration.

I transmit herewith, for your information, copy of said presentment.

Very truly yours,

WILLIAM M. LAWRENCE, Assistant Secretary.

To the Supreme Court, Part I., Trial Term for May, 1907:

The grand jury of the County of New York, empanelled in the Supreme Court, May Term, 1907, respectfully presents to the Court:

That it has considered the needs of this county and incidentally those of The City of New York in respect to an increase in the number of Patrolmen in the municipal police of this city. It is of the opinion that the present number is inadequate to properly police the city, and would be so even if the large number, over eleven hundred, now detailed to duty in courts, at City institutions and at City offices, were available for patrol duty.

The Police Commissioner is of the opinion that such increase should be at least fifteen hundred men.

While expressing no opinion as to the number of Patrolmen which should be added to the force, it is clear to the grand jury that there should be a substantial increase, and the opinion of the Police Commissioner seems well supported by the data laid by him before this body.

Should the Court concur, it is the desire of the grand jury that a copy of this presentment be transmitted to the Mayor, the Board of Estimate and Apportionment and the Board of Aldermen of The City of New York.

Dated New York, May 28, 1907.

Respectfully,

(Signed) FRANK BRAINARD, Foreman.

Which was referred to the Committee on Police.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting ordinances:

No. 2125.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 10, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copies of six resolutions adopted by the Board of Estimate and Apportionment June 7, 1907, relative to the issues of Corporate Stock for the construction and permanent improvement of parks, parkways and drives, etc., under the jurisdiction of the several Park Commissioners, together with copy of report of the Comptroller relative thereto.

I also transmit form of six ordinances for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Finance,  
June 4, 1907.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—I transmit herewith a report of the Bureau of Municipal Investigation and Statistics, of this Department, under date of June 4, 1907, relative to the issue of Corporate Stock for the construction and permanent improvement of parks, parkways and drives under the jurisdiction of the several Commissioners of Parks.

In view of the facts contained in said report, it is respectfully recommended that the resolutions attached thereto be adopted.

Respectfully yours,

(Signed) H. A. METZ, Comptroller.

June 4, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—In regard to certain requests made by the Commissioners of Parks for the issue of Corporate Stock for the construction and permanent improvement of parks, parkways and drives, referred by the Board of Estimate and Apportionment to the Comptroller, and by you to the Bureau of Municipal Investigation and Statistics for examination, concerning which a report was made to you on the 13th of April, 1907, I now beg to report further, as follows:

As shown by said report of April 13, the said requests are made for the different boroughs as follows:

For Manhattan and Richmond	\$2,462,587 50
For The Bronx	1,794,000 00
For Brooklyn and Queens	2,266,316 85
Total	\$6,522,904 35

Pursuant to suggestion made in said report, and for the purpose of providing for the more immediate needs set forth in said requests, Corporate Stock has already been authorized to the amount of \$500,000, to be divided equally among the three different branches into which the Department of Parks is divided.

It was in said report further suggested, in regard to the remaining \$6,022,904.35 of the total amount requested, that the different items of the several requests should be considered separately, each upon its own merits, and in the light of the City's financial situation. To that end your Examiners have since visited in the several parks the different localities in which the various improvements are proposed to be made, and have discussed their relative importance with the several Commissioners.

While there is perhaps little question as to the desirability of each one of said proposed improvements, it is evident, in view of the approach being made to its debt limit, that the City cannot at present prudently incur the expense of them all, and that selection must be made of those for which there is the most immediate and pressing need. Recognizing the necessity of making such selection, the Commissioners have, with your Examiners, carefully gone over the various items of their several requests, and finally selected the following as being the most immediately important, for which it is hereby respectfully recommended that provision be made in the amounts respectively indicated:

## Manhattan and Richmond.

For the construction of bays, entrances and comfort station in St. Nicholas Park	\$100,000 00
For the completion of the work, installing a water supply for the Harlem River driveway (public driveway)	26,000 00
For the regrading of and installing new drainage and water supply for Riverside Park Loop drive	20,000 00
For the construction of the drainage system of City Hall Park	5,000 00
For the construction and equipment of a comfort station in the Ramble, near Seventy-ninth street Transverse road	30,000 00
For the completion of the improvement and construction of Colonial Park	110,000 00
Total	\$291,000 00

## The Bronx.

For the construction of a foot bridge at the Bronx River Falls and Bronx Park	\$6,000 00
For the additional fencing of St. Mary's Park	4,000 00
For the improvement of Claremont Park, on the Clay avenue side	15,000 00
For the improvement of Bronx and Pelham parkway	100,000 00
For additional bath houses and shelter house at Orchard Beach, Pelham Bay Park	5,000 00
For general improvement of park along Pelham bay shore	10,000 00
For raising and improving Colonial Garden, Van Cortlandt Park	25,000 00
For filling in and draining swamp land, other than that south of garden, in Van Cortlandt Park	10,000 00
For the improvement of Moshulu parkway	20,000 00
For the improvement of St. James' Park	20,000 00
For the improvement of Spuyten Duyvil parkway	80,000 00
Total	\$295,000 00

## Brooklyn and Queens.

To complete shelter house and comfort station, Fulton Park	\$3,020 00
For the improvement of New Lots playground	2,030 40
For the improvement of Winthrop Park	7,547 90

To finish tennis house, Prospect Park.....	17,458 30
For the construction of water pumping plant, Forest Park.....	7,500 00
For the construction of shelter and locker house, McLaughlin Park.....	60,000 00
For construction of shelter and comfort station, McKinley Park.....	7,500 00
For Highland Park improvements, including shelter house, sidewalks, iron fence, grading of banks, laying out of playgrounds, resoling, etc.....	25,000 00
For Sunset Park improvements, including construction of stone wall, sidewalks, top-soiling and the planting of trees, shrubbery, etc.....	50,000 00
For removing picnic grounds, house and carousal, Prospect Park.....	10,000 00
For resoling trees in Prospect Park.....	20,000 00
For preliminary work in the construction of Canarsie Park.....	2,500 00
For grading, planting, top-soiling, sidewalks, and an addition to present bulkhead in Rainey Park.....	19,000 00
For the improvement of Eastern parkway.....	35,000 00
	<u>\$266,556 60</u>

It is recommended that the issue of Corporate Stock for the above specified purposes, and pursuant to the provisions of section 47 of the Charter, be provided for by three separate resolutions, one for each branch of the Park Department, for the following amounts, respectively:

Manhattan and Richmond.....	\$291,000 00
The Bronx.....	295,000 00
Brooklyn and Queens.....	266,556 60
	<u>\$852,556 60</u>

It is also recommended at the request of said Commissioners that, by three other resolutions, provision be made for the issue of Corporate Stock for the purpose of making general and emergency betterments and improvements in the different branches of the Park Department, to the approximate amount for each branch of 10 per cent. of that herein recommended, to be allowed for specific purposes therein, as follows:

For Manhattan and Richmond.....	\$29,000 00
For The Bronx.....	29,000 00
For Brooklyn and Queens.....	26,000 00
	<u>\$84,000 00</u>

Amount recommended for specific purposes.....

Total..... \$936,556 60

Forms of resolutions recommended are hereto appended.

Respectfully yours,  
(Signed) R. B. McINTYRE,  
Acting Supervising Statistician and Examiner.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of two hundred and ninety-five thousand dollars (\$295,000), to provide means for the construction and improvement of parks, parkways, playgrounds, boulevards and driveways under the jurisdiction of the Commissioner of Parks for the Borough of The Bronx.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, authorizing the issue of \$12,000 Corporate Stock to provide means for the purchase of three or more automobiles in connection with stock or plant for the Department of Street Cleaning, together with copy of report of the Committee on Finance, Board of Aldermen, relative thereto.

I also transmit form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907:

"Whereas, The Commissioner of the Department of Street Cleaning, in a communication dated March 23, 1907, has made requisition for the issue of bonds to the amount of twelve thousand dollars (\$12,000), to provide means for the purchase of three or more automobiles in connection with stock or plant for the Department of Street Cleaning, as provided by section 546 of the Greater New York Charter; therefore be it

"Resolved, That, subject to the concurrence herewith by the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of twelve thousand dollars (\$12,000), the proceeds whereof to be applied to the purposes aforesaid."

Office of the Secretary, No. 277 Broadway,  
June 10, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, approving of the issue of Corporate Stock to the amount of \$15,000 to provide means for the construction of two additional power launches for the Police Department of The City of New York, together with report of the Comptroller, to whom on May 24, 1907, was referred the request of the Police Commissioner for an appropriation to provide for the purchase of said launches, and copy of communication from the Police Commissioner relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

May 24, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—The following proceedings were directed by the Police Commissioner:

Whereas, In the Budget of the Police Department for the year 1907 appropriation was made in the sum of \$15,000 for two new launches, at \$7,500, and in pursuance thereof form of contract and specifications and advertisement for bids, approved by the Corporation Counsel, is being made; and

Whereas, The urgent needs of the Department at this time are such that two additional launches are required,

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to approve the issue of Corporate Stock of The City of New York, pursuant to the provisions of section 47 of the Greater New York Charter as amended by chapter 409 of the Laws of 1904, to an amount not exceeding \$15,000, to provide means for the construction of two additional power launches for the Police Department of The City of New York.

The communication also states that \$15,000 was provided in the Budget of 1907 for two launches for the Police Department, and that the additional launches are needed, owing to the launches now in service being practically worn out and unfit for continuous duty.

I have looked into the question and the estimate of cost of launches of this character, and I find that Commissioner Bingham has the estimate of a competent designing engineer and believes that launches of the size and speed requisite for the Police service, equipped with gasoline engines, can be built for the amount requested.

I therefore recommend that the Board of Estimate and Apportionment authorize the Comptroller to issue, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, Corporate Stock to the amount of \$15,000, to provide means for the construction of two power launches for the Police Department of The City of New York.

Respectfully,

(Signed) CHANDLER WITHINGTON Chief Engineer.

Approved:

(Signed) H. A. Metz, Comptroller.

May 14, 1907.

His Honor, the Mayor, City Hall, New York City:

Sir—The police patrol of the waters of Greater New York is done by one rather large steamer and launches, of which the Police Department now has seven. I say "now has"—as a matter of fact not one of these launches is in proper condition; four of them are useless and the other three can only be tinkered for short periods of time into running. Of these three there is one that possibly would justify a reasonable expense for general repairs. There is not one of these launches that can be relied upon for extended work.

In the Budget for 1907 is a provision of \$15,000 for two new Police launches. Tentative plans are now being made to advertise for these launches, which must be swift, with a capability of at least twelve miles an hour, and it is proposed to give them gasoline engines so that no fuel will be wasted when they are not running.

It would be greatly to the advantage of the City if this Department could at the same time obtain four such launches instead of the two already authorized, because they are absolutely needed, and secondly, because the four could probably be obtained a little cheaper if all bought together.

As a rule it is the intention of this Department to limit its requests for money to the regular Budget, but in this case the matter is deemed of sufficient importance to bring it to the attention of your Honor with a view to obtaining, if possible, another \$15,000 for immediate use. The delay, anyhow, will be several months, and by the time these four new proposed launches can be obtained those we now have will be absolutely in the scrap heap.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

Launch No. 1—The best we have got at present, but we are always having trouble with the engine. In use just at present.

Launch No. 2—In service for 10 years. Hull rotten and soft. Boiler weak owing to previous patches and repairs. Unseaworthy and consequently in need of further repairs. Out of service absolutely.

Launch No. 3—Steam launch, is kept working by continual attention.

Launch No. 4—Is comparatively new, but in very bad shape.

Launch No. 5—Comparatively new, but always out of repair, and now being repaired.

Launch No. 6—In service about 10 years. Boiler leaks badly. Stem post and stern post in bad shape. Needs numberless minor repairs. Estimated cost of repairs, \$1,500.

Launch No. 7—Hull is hogged and weak as regards stiffness. Motor in bad shape, on a weak foundation. Now being again repaired.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of fifteen thousand dollars (\$15,000) to provide means for the construction of two additional power launches for the Police Department of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of fifteen thousand dollars (\$15,000), to provide means for the construction of two additional power launches for the Police Department of The City of New York, and that when

authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding fifteen thousand dollars (\$15,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, authorizing the issue of \$500 Corporate Stock, in addition to the amount heretofore authorized, for the purpose of providing means to pay the expenses of the advisory architects and the architects invited to submit competitive designs for a new penitentiary to be erected on Riker's Island, together with copy of communication from the Commissioner of Correction and copy of communication from the Comptroller relative thereto.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Correction,

No. 148 East Twentieth Street,  
New York, May 29, 1907.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

Dear Sir—I would respectfully ask that, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Honorable the Board of Estimate and Apportionment will authorize the issue of Corporate Stock of The City of New York to the amount of five hundred dollars (\$500), for the purpose of compensating the two judges for their work in selecting plans of the architects who were invited to submit designs for the new penitentiary to be erected on Riker's Island. The third judge being a member of the Municipal Art Commission serves without compensation.

Very respectfully,

(Signed) JOHN V. COGGEY, Commissioner.

June 1, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John V. Coggey, Commissioner, Department of Correction, in communication under date of May 29, 1907, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$500 for the purpose of compensating the two judges for their work in selecting plans of the architects who were invited to submit designs for the new penitentiary to be erected on Riker's Island. I would report:

At meeting of the Board of Estimate and Apportionment held September 14, 1906, \$3,500 was authorized for the purpose of providing means to pay the expenses of the advisory architects and the architects invited to submit competitive designs for a new penitentiary to be erected on Riker's Island.

I am informed by the Department of Correction that Messrs. Hunt & Aiken, pursuant to their agreement, prepared a programme for competition and selected five architects, who have submitted their plans and have been paid \$500 each as per agreement for their work, and three judges, Messrs. Mead, Peabody and Cook, selected by the competing architects, have been appointed by the Commissioner of Correction; two of these judges are to receive \$250 each and the third nothing, as he is a member of the Municipal Art Commission.

In order to pay all of these expenses the appropriation as made is \$500 short, as follows:

Advisory architects, Hunt & Aiken.....	\$1,000 00
Competing architects, five, at \$500 each.....	2,500 00
Judges, two, at \$250 each.....	500 00
	<hr/>
	\$4,000 00
Appropriation .....	3,500 00
	<hr/>
Deficit .....	\$500 00

I therefore suggest that the Board of Estimate and Apportionment authorize the Comptroller, pursuant to section 47 of the Amended Greater New York Charter, to issue an additional amount of Corporate Stock in the sum of \$500, to provide means to pay the expenses of the advisory architects and architects invited to submit competitive designs for a new penitentiary to be erected on Riker's Island.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. Metz, Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of five hundred dollars (\$500), in addition to the amount heretofore authorized, for the purpose of providing means to pay the expenses of the advisory architects and the architects invited to submit competitive designs for a new penitentiary to be erected on Riker's Island.

Be it Ordained by the Board of Aldermen of The City of New York as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes set forth therein:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding five hundred dollars (\$500), in addition to the amount heretofore authorized, for the purpose of providing means to pay the expenses of the advisory architects and the architects invited to submit competitive designs for a new penitentiary to be erected on Riker's Island, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred dollars (\$500), the proceeds whereof to be applied to the purposes aforesaid."

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, authorizing the issue of \$2,200,000 Corporate Stock to provide means for the improvement of the water supply system in the Boroughs of Manhattan and The Bronx, as set forth in section 178 of the Charter, together with copy of communication from the Commissioner of Water Supply, Gas and Electricity, and report of the Comptroller, to whom this matter was referred on April 12, 1907.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Department of Water Supply, Gas and Electricity,  
Nos. 13 to 21 Park Row,  
New York, April 10, 1907.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

Dear Sir—Application is hereby made for an issue of Corporate Stock in the sum of \$2,415,000, to provide for the laying of water mains in the Boroughs of Manhattan and The Bronx, and for the employment of the necessary force to make up four repair companies to attend to the maintenance of hydrants and water mains within these boroughs. The items for which this appropriation is intended are as follows:

One 48-inch water main in Southern boulevard, from Boston avenue to Hunt's Point road, \$135,000.

This is to carry the low service supply to that section of the Borough of The Bronx which is rapidly being built up, and in order that there will be a supply on hand to be later extended to Baretto Point, which, from the present indications, is to become a manufacturing centre.

Two 48-inch mains from Jerome Park reservoir down Heath avenue and Boston avenue to Bailey avenue, \$150,000.

Before improvements can be made to the north end of the Jerome Park reservoir, it becomes necessary to extend from this basin two 48-inch water mains, so that the water from the west section can be utilized, and in anticipation of the Department abandoning the new drop well on the northerly section of the reservoir.

One 36-inch water main from Jerome avenue, at Kingsbridge road, down Aqueduct avenue to and across High Bridge, to connect the pumping stations at Jerome avenue and High Bridge, \$250,000.

In case of a serious breakdown to the machinery at either the Jerome Park or the High Bridge pumping station, a certain section of the City would be without a sufficient supply of water, and the fire hydrants connected along the line of mains in the streets affected would be perfectly useless until such time as the engines could be repaired. To avoid any such mishap, it is the purpose of this Department to lay a 36-inch main down Jerome avenue, across High Bridge, to connect these two stations.

One 48-inch water main in Two Hundred and Fourth street, from end of present main already laid to Mosholu Parkway South; thence down Mosholu Parkway South to Webster avenue; thence down Webster avenue to Burnside avenue; also a 48-inch water main in Burnside avenue, between Webster and Jerome avenues, \$450,000.

One 48-inch water main in Webster avenue, from Burnside avenue to Park avenue; thence down Park avenue to One Hundred and Fifty-ninth street; thence through One Hundred and Fifty-ninth street to Courtlandt avenue; thence down Courtlandt avenue to Third avenue; thence down Third avenue to Lincoln avenue, to and across the Harlem river to Second avenue; thence down Second avenue to One Hundred and Third street, \$600,000.

These two mains are for the purpose of utilizing the water to be drawn from Jerome Park reservoir, and adding to the pressure of water in the lower section of the Bronx Borough and in the easterly section of Harlem. Both districts are at present inadequately supplied, and the Department is constantly in receipt of letters from real estate owners' associations of those districts, complaining of the extra expense to house owners in being obliged to provide additional pumps and other fittings enforced by the Tenement House regulations. The City at the present time is not able to furnish water only at the low pressure.

Also for 12-inch mains, to be laid in place of the existing 6-inch water mains in the tenement section bounded by Houston and Thirtieth streets, Third avenue and East river, \$450,000.

The 12-inch mains to be laid in the tenement section east of Third avenue, between Thirtieth and Houston streets, are for the purpose of providing better protection against fire, as many of the existing 6-inch pipes in that section have been laid for sixty years, and are badly corroded. Recent reports from the Supervising Engineer of the Fire Department on the pressure obtained at hydrants at which engines were working proves the necessity of removing these small service mains and providing an additional force of water.

For local mains in Manhattan and The Bronx and east of The Bronx, not already provided for, \$300,000.

All money available for laying water mains has been charged against contracts to be let shortly, and there is still to be provided for local mains in a number of streets which have recently been improved, and in several instances building operations have been suspended due to the fact that the Department has not been in a position to promise the builders when a water service would be introduced into the streets.

Four floating repair companies, \$80,000.

The four repair companies to have in charge the care of the water mains and the setting of fire hydrants throughout the Boroughs of Manhattan and The Bronx, to be made up as follows:

4 Foremen, each per day.....	\$5 00
4 Horses and trucks, each per day.....	3 50
12 Horses and carts, each per day.....	3 50
16 Caulkers, each per day.....	3 50
8 Flaggers, each per day.....	3 50
60 Laborers, each per day.....	2 50

The Department is now in a position to advertise these improvements, and it is respectfully requested that this application receive your early and favorable consideration.

Respectfully,  
(Signed) JOHN H. O'BRIEN, Commissioner.

May 29, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. John H. O'Brien, Commissioner, Department of Water Supply, Gas and Electricity, in communication under date of April 10, 1907, requests the Board of Estimate and Apportionment, to authorize the issue of Corporate Stock in the sum of \$2,415,000 to provide means for the laying of water mains in the boroughs of Manhattan and The Bronx, and for the employment of the necessary force to make up four repair companies to attend to the maintenance of hydrants and water mains within these boroughs.

Commissioner O'Brien in his communication, states very fully the reason which necessitates the use of the several lines of water pipes, the cost of which go to make up the aggregate sum of money required.

Mr. Bull, Engineer in charge of laying water pipes for the Department of Water Supply, Gas and Electricity, gives me further information, the sum of which may be stated as follows:

Item No. 1. One 48-inch main in Southern boulevard from Boston avenue to Hunt's Point road, \$135,000.

This 48-inch pipe, which is to connect with one now laid through East Two Hundred and Fourth street and down the Southern boulevard to the Boston road, is to be continued from that point to Hunt's Point road. This pipe is to carry the low-service supply to a section of the Borough of The Bronx, which is rapidly being built up, and also in order that there will be a supply on hand to be later extended to Baretto Point, which, from present indications, is likely to become a manufacturing centre. In my opinion, this main should be laid in the near future.

Item No. 2. Two 48-inch water mains from Jerome Park Reservoir down Heath avenue and Boston avenue to Bailey avenue, \$150,000.

It is stated in communication of Commissioner O'Brien that before improvements can be made to the north end of the Jerome Park Reservoir, it will become necessary to extend from this basin two 48-inch mains so that water from the west section can be utilized, and also in anticipating the Department abandoning the new drop well on the northerly section of the reservoir.

The route selected, down Heath and Boston avenues, was for the purpose of avoiding deep cutting and to get as near the Harlem river as possible, as it is intended to carry one of the 48-inch lines across the Harlem river to supply the upper end of Manhattan island and Marble hill.

The estimated cost of this pipe is about \$20 per linear foot for each line.

Item No. 3. One 36-inch water main from Jerome avenue at Kingsbridge road down Aqueduct avenue, across High Bridge to connect the pumping station at Jerome avenue and High Bridge, \$250,000.

This main is intended to connect the two pumping stations, so that should a break occur in either (if this main is adopted) the lines will still be in use and pressure not entirely taken off.

It is intended to cross High Bridge in the present conduit with two 20-inch mains, and as the flooring at High Bridge will soon have to be re-laid, it is the intention to place these mains while said floors are being laid, thereby saving additional expense later.

Item No. 4. One 48-inch main in Two Hundred and Fourth street from the end of the present main already laid, to Mosholu parkway, thence down Mosholu parkway south to Webster avenue, thence down Webster avenue to Burnside avenue, also a 48-inch water main in Burnside avenue, between Webster and Jerome avenues, \$450,000.

This main starts in Two Hundred and Fourth street, midway between Jerome avenue and Mosholu parkway, and connects with the 48-inch pipe laid by the Aqueduct Commission sometime ago. It is intended to supply what might be called the middle section of The Bronx between that point and Burnside avenue. The main laid across Burnside avenue is to connect with the Jerome avenue main now in course of construction and will be so arranged that should breaks occur, water may be supplied either from the Jerome to the Webster avenue pipe, or from the Webster to the Jerome avenue pipe. In my opinion, this main should be laid in the near future.

Item No. 5. One 48-inch main in Webster avenue, from Burnside avenue to Park avenue, thence down Park avenue to One Hundred and Fifty-ninth street, thence through One Hundred and Fifty-ninth street to Courtlandt avenue, thence down Courtlandt avenue to Third avenue, thence down Third avenue to Lincoln avenue to and across the Harlem river to Second avenue, thence down Second avenue to One Hundred and Third street, \$600,000.

This main, which will connect with the one previously referred to at Burnside and Webster avenues, is intended to supply the central section of the lower end of The Bronx, and the upper end of Harlem on the east side as far south as One Hundred and Third street, and will also increase the pressure of water in the lower section of The Bronx and the eastern section of Harlem. Both these districts are at present inadequately supplied, and it is stated that complaints are frequently being made by real estate associations and others, complaining of extra expense in being obliged to provide additional pumps and other fittings enforced by the Tenement House Regulations, the City, at the present time, being able to furnish water only at low pressure.

I am of the opinion that this main should be laid in the near future.

Item No. 6. Twelve-inch mains to be laid in place of the existing 6-inch water mains in the tenement section, bounded by Houston and Thirtieth streets, Third avenue and East river, \$450,000.

The old 6-inch supply pipes, laid some sixty years ago, are said to be badly corroded and that pressure is always insufficient in case of fire. Complaints in this section are frequent, and it is my opinion that these mains should be laid in the near future.

Item No. 7. For local mains in Manhattan and The Bronx and east of The Bronx not already provided for, \$300,000.

It is stated that all of the money available for laying water mains has been charged against contracts to be let shortly and that there is still to be provided for local mains in a number of streets which have recently been improved, and that in several instances building operations have been suspended due to the fact that the Department has not been in a position to promise the builders when water service would be introduced into the streets.

This item provides for the piping of seven streets in The Bronx, eleven streets east of the Bronx river and four streets in Manhattan, all of which, I am of the opinion, should be laid in the near future.

Item 8. Floating repair companies, \$80,000.

This is for the purpose of providing for four floating repair companies for the year 1907.

In 1906, a sum of money was set aside for this purpose and three companies have been employed. It is now proposed to not only continue the employment of these three companies, but to place one more in commission.

It has been explained to me by Mr. Bull, Engineer in charge of the laying of water mains, that these men are not actually engaged in the work of repairing breaks, but rather in replacing pipes that have become worn out; connecting up water mains at different points, placing fire hydrants where required, etc.

In view of the necessity of keeping the water pipes always up to a high standard of excellence and also in placing additional fire hydrants in newly built up sections and in locations where those now placed are found to be inadequate, I am of the opinion that the request for the amount named is reasonable and should be complied with.

The amount appropriated for the purpose of laying water mains in the boroughs of Manhattan and The Bronx in former years have been as follows:

1903—	
March 27 .....	\$125,000 00
May 1 .....	9,000 00
May 8 .....	24,000 00
May 22 .....	45,000 00
May 22 .....	75,000 00
	<u>\$278,000 00</u>
1904 .....	*\$3,000,000 00

\* Of this amount, \$2,000,000 was appropriated to "Pay expenses connected with New York Water Supply." I am unable to say whether any part was used in laying mains in Manhattan or The Bronx.

1905—	
June 23 .....	\$2,150,000 00
July 7 .....	17,000 00
	<u>\$2,167,000 00</u>
1906—October 26.....	\$1,133,500 00

All of the mains described in the foregoing must eventually be laid. In view of the fact, however, that no later than October 26 last the sum of \$1,133,000 was granted the Department of Water Supply, Gas and Electricity for the purpose of laying new water mains in the boroughs of Manhattan and The Bronx, and I am of the opinion that the amount now asked for may be somewhat reduced without seriously hampering the Department or interfering with its normal yearly expansion.

I would therefore suggest that, if the financial condition of the City warrants the expenditure, I think the Board of Estimate and Apportionment, pursuant to the provisions of section 178 of the Greater New York Charter, may properly authorize the Comptroller to issue Corporate Stock to the amount of \$2,200,000 to provide means for the improvement of the water supply system of The City of New York, in the boroughs of Manhattan and The Bronx.

Respectfully,  
CHANDLER WITHINGTON, Chief Engineer.

Approved:  
H. A. Metz, Comptroller.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of two million two hundred thousand dollars (\$2,200,000) to provide means for the improvement of the water supply system in the boroughs of Manhattan and The Bronx, as set forth in section 178 of the Charter.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes set forth therein:

"Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of two million

two hundred thousand dollars (\$2,200,000) to provide means for the improvement of the water supply system in the boroughs of Manhattan and The Bronx, as set forth in said section 178 of the Charter, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two million two hundred thousand dollars (\$2,200,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, approving of the issue of Corporate Stock to the amount of \$1,100,000 to provide means for the purchase of the property and franchises of the Staten Island Water Supply Company, together with copy of report of the Committee on Finance, Board of Aldermen, relative thereto.

I also enclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

The Select Committee of the Board of Estimate and Apportionment, consisting of the Comptroller and the President of the Borough of Richmond, to whom this matter was referred, have been requested to confer with the Finance Committee of the Board of Aldermen on the subject.

Very truly yours,

JOSEPH HAAG, Secretary.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one million one hundred thousand dollars (\$1,100,000) to provide means for the purchase of the property and franchises of the Staten Island Water Supply Company.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York, to the amount and for the purposes therein specified:

"Resolved, That the Board of Estimate and Apportionment hereby assents to and approves of the acquisition by purchase, by the Commissioner of Water Supply, Gas and Electricity, with the assent of the Mayor and Comptroller, for and in behalf of and in the name of The City of New York, of the property, franchises and business of the Staten Island Water Supply Company, lying, located or conducted within the boundaries of The City of New York, as at present constituted, and all rights, title and interests in and to the same of every nature whatsoever, and hereby authorizes the said Commissioner in behalf of and in the name of The City of New York, to enter into a contract for such purchase with the Staten Island Water Supply Company in form approved by the Corporation Counsel; and

"Resolved, That, pursuant to the provisions of section 178 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to the amount of one million one hundred thousand dollars (\$1,100,000) to provide means for the purchase of the property and franchises of the Staten Island Water Supply Company, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of one million one hundred thousand dollars (\$1,100,000), the proceeds whereof to be applied to the purposes aforesaid."

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 10, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, authorizing the issue of \$1,000,000 Corporate Stock to provide means for the acquisition of sites, the erection of buildings thereon and alterations to buildings already erected for the use of the Fire Department, \$600,000 being apportioned to the Boroughs of Manhattan and The Bronx, and \$400,000 to the Boroughs of Brooklyn and Queens, together with copy of report of the Comptroller, to whom this matter was referred on February 1, 1907.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

May 28, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of a request of the Fire Commissioner for an issue of Corporate Stock to the amount of \$3,709,500 for the acquisition of sites, erection of buildings and alterations to buildings already erected in the Boroughs of Manhattan, The Bronx, Brooklyn and Queens, which was referred to you by the Board of Estimate and Apportionment for consideration and report, and by you to the Bureau of Municipal Investigation and Statistics, I beg to report as follows:

The purposes for which it is proposed to expend the amount requested, and the boroughs in which it is to be expended are as follows:

	Manhattan.	The Bronx.	Brooklyn and Queens.	Total.
For the purchase of new sites and the erection of buildings on same.....	\$325,000 00	\$755,000 00	\$606,000 00	\$1,776,000 00
Erection of buildings on sites now owned by the City.....	225,000 00	120,000 00	286,000 00	631,000 00
Sites and buildings not located....	250,000 00	.....	.....	250,000 00
New sites to be held.....	213,000 00	150,000 00	.....	363,000 00
Alterations to present buildings..	180,000 00	25,000 00	172,500 00	377,500 00
Sites and buildings for fire companies occupying leased buildings.....	.....	.....	312,000 00	312,000 00
Total.....	\$1,193,000 00	\$1,050,000 00	\$1,466,500 00	\$3,709,500 00

In the \$2,407,000 specified as being required for new sites and for the erection of buildings thereon and on sites now owned by the City are included \$400,000, the estimated amount necessary to provide buildings for the Telegraph Bureau, veterinary stables, completing new wing to Headquarters Building, Borough of Manhattan, and for School of Instruction, Telegraph Bureau, repair shops and veterinary stables in the Borough of The Bronx, and \$450,000 for ten sites and buildings for the use of fire companies in the vicinity of Fordham, Bedford Park, Van Nest, Claremont, etc., Borough of The Bronx.

Anticipating the future growth of the Boroughs of Manhattan and The Bronx, \$250,000 is requested for sites and buildings not yet located, and \$363,000 for the purchase of sites to be held until such time as the necessity for fire protection shall require the establishment of fire companies. Of the \$312,000 requested for sites and buildings for companies now occupying leased quarters, \$158,000 is for five companies at Rockaway Beach, \$116,000 for three companies in Long Island City, and \$38,000

for one company in Brooklyn (the latter company has been provided for out of a Corporate Stock issue of 1906). The annual rental for leased buildings is \$600 and \$650.

The constant growth of the City has made necessary an increase in the number of fire companies, and during the past five years Corporate Stock has been issued as follows for the "acquisition of sites, erection of new buildings and for additions and alterations to buildings already erected":

July 25, 1902, Brooklyn and Queens.....	\$241,000 00
July 1, 1903, Manhattan and The Bronx.....	500,000 00
July 1, 1903, Brooklyn and Queens.....	200,000 00
December 9, 1904, entire city.....	300,000 00
March 16, 1905, entire city.....	500,000 00
March 6, 1906, entire city.....	800,000 00

Of the \$800,000 issue of 1906, contracts amounting to \$325,000 had been entered into on March 31, 1907; the balance, \$475,000, is to be expended for the construction of four fire company buildings in The Bronx, two in Brooklyn, and for an addition to Headquarters building in Manhattan.

Notwithstanding these issues of Corporate Stock, the Commissioner states that the Fire Department has been unable to meet the demands made upon it for the extension of the paid fire service system to the sections of the City which are rapidly growing. The great increase in building operations and population in localities which a few years ago were but sparsely settled, the result of improved transportation facilities, call for the extension of the fire service so that adequate protection may be given. It will be seen from the tabular statement in this report that of the \$3,332,000 asked for sites and buildings in the entire City, \$2,319,000, or about 70 per cent., is for the Boroughs of The Bronx, Brooklyn and Queens, the sections which show the greatest recent development.

Although the necessity for the establishment of additional fire companies to meet the present and future requirements caused by the growth of the City must be admitted, it does not seem advisable—in view of the many pressing claims upon the money resources of the City and the impracticability of utilizing in one year the total amount now asked for—that an issue of \$3,709,500 Corporate Stock should be authorized at this time, but should be distributed through a number of years.

The amount requested for "new sites to be held" could be eliminated, for the reason that the future development of the localities in which it is proposed to purchase sites in anticipation of the future needs of the Department might render such sites unsuitable when it became necessary to commence building operations.

The purchase of sites and erection of buildings in the immediate vicinity of the present leased quarters of the five companies at Rockaway Beach may also be postponed until such time as the Department would be in a better position to judge of the necessities of the neighborhood.

In view of the facts stated, I would respectfully suggest that you recommend to the Board of Estimate and Apportionment an issue of Corporate Stock to the amount of \$1,000,000 for the purpose of providing means for the acquisition of sites, the erection of new buildings and additions and alterations to buildings already erected for the use of the Fire Department, as per resolutions attached hereto:

First—\$600,000 for the boroughs of Manhattan and The Bronx.

Second—\$400,000 for the boroughs of Brooklyn and Queens.

Yours respectfully,

(Signed) R. B. McINTYRE,

Acting Supervising Statistician and Examiner.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, authorizing an issue of \$9,720.51 Corporate Stock to provide means for the payment of the claim of the New York Central and Hudson River Railroad Company, being the City's share of the cost of changing the Broadway grade crossing of the New York and Putnam Division of said railroad at Van Cortlandt, New York; together with copies of communications from the Comptroller, under dates of June 4 and 3, respectively, and opinions of the Acting Corporation Counsel under dates of April 12 and May 8, respectively, all relative thereto.

I also transmit form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, New York City, N. Y.:

Dear Sir—I herewith transmit original papers and report of the Chief Accountant and Bookkeeper, Department of Finance, in the matter of the claim of the New York Central and Hudson River Railroad Company, for \$9,720.51, for proportion of cost of changing grade crossing.

In view of the facts contained in said report, I recommend the issue of Corporate Stock to the amount of \$9,720.51.

Respectfully,

H. A. METZ, Comptroller.

June 3, 1907.

Hon. HERMAN A. METZ, Comptroller:

Dear Sir—Referring to the opinion dated April 12, 1907, of the Corporation Counsel, that the payment of the claim of the New York Central Railroad Company

for \$9,720.51, being one-quarter of the cost of changing the Broadway grade crossing of the New York and Putnam Division of the New York Central and Hudson River Railroad Company at Van Cortlandt Park, New York City, could properly be made out of Revenue Bond Fund for claims under subdivision 7 of section 188 of the Greater New York Charter, I would respectfully call your attention to the fact that this payment is to be made for a work in the nature of a permanent improvement, and is properly payable out of the proceeds of the sale of Corporate Stock.

I would suggest that the Board of Estimate and Apportionment be requested to authorize the issuing of Corporate Stock to the amount of \$9,720.51, for the purpose of providing means to pay for the proportion of this improvement, to be borne by The City of New York.

Respectfully,  
(Signed) FRANK W. SMITH,  
Chief Accountant and Bookkeeper.

April 12, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Under date of November 27, 1906, Mr. N. Taylor Phillips, Deputy Comptroller, transmitted the report of Stephen J. Madigan, Examiner in the Division of Law and Adjustment, in the matter of Claim No. 51054, of the New York Central and Hudson River Railroad Company, for \$9,720.51, for portion of cost of changing the Broadway grade crossing of the New York and Putnam Division of the New York Central and Hudson River Railroad Company at Van Cortlandt, New York City, to an undercrossing, in pursuance of a determination of the Board of Railroad Commissioners under section 62 of the Railroad Law, dated August 23, 1904. The report, with the papers, was transmitted to me for appropriate action in the premises, in accordance with the recommendations thereof.

Mr. Madigan, in his report, refers to section 62 of chapter 565 of the Laws of 1890, and as amended, known as the Railroad Law, and states that His Honor the Mayor, under date of July 25, 1904, addressed a communication to the Board of Aldermen, stating that the grade crossing at Van Cortlandt station, in Van Cortlandt Park, in the Borough of The Bronx, was a very dangerous one, and suggesting that the Board join with the Mayor in a petition to the Board of Railroad Commissioners, pursuant to section 62 of the Railroad Law.

Under date of August 2, 1904, the Board of Aldermen adopted a resolution joining with the Mayor in a petition to the Board of Railroad Commissioners to effect a change of the railroad crossing in question, and thereafter a petition was presented to the Board of Railroad Commissioners, who on August 23, 1904, held a hearing on this matter and ordered that such change be made, and later approved the estimated cost of doing the work in question by the railroad company at \$31,100.

Mr. Madigan calls attention to section 65 of the Railroad Law, which provides: " \* \* \* and whenever a change is made as to an existing crossing in accordance with the provisions of section 62 of this act, fifty per centum of the expense thereof shall be borne by the railroad corporation, twenty-five per centum by the municipal corporation and twenty-five per centum by the state."

The Engineers of the Department of Finance, under date of June 20, 1906, made a report upon the cost of the work, as per itemized statement also attached, and on June 22, 1906, the Comptroller approved of the accounting upon the above report, which approval was forwarded to the State Board of Railroad Commissioners and approved by them. The sum of \$9,720.51 was paid by the State to the New York Central Railroad Company, October 16, 1906.

Mr. Madigan concludes his report by stating that from the foregoing it appears that this claim constitutes a valid claim against The City of New York, and should be paid. He recommends, however, that the report and all the papers be transmitted to the Corporation Counsel for his advice as to what means should be provided for the payment of the amount due.

Section 188 of the Greater New York Charter provides:

"Section 188. The comptroller is authorized to issue special revenue bonds to provide the means necessary to make payments for the following purposes:

"7. To provide for the payment of claims, charges, expenses and appropriations which have been or may be lawfully payable by the city of New York, as hereby constituted, and the several counties wholly included within its limits, and for which no other provision for payment has been made. Separate accounts shall be kept of the bonds issued and payments made on account of county charges and expenses, and the comptroller shall similarly certify the amounts thereof to be raised by tax in the respective counties and to be included in the general fund for the reduction of taxation as provided by subdivision three of this section in the case of judgments."

In reply to the inquiry as to what means should be provided for the payment of the amount due, I advise you that I am of the opinion that you may pay said amount, pursuant to the provisions of subdivision 7 of section 188 of the Charter, above quoted.

I return herewith the report, together with all papers herein heretofore transmitted.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

May 8, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—I am in receipt of a communication from Mr. N. Taylor Phillips, Deputy Comptroller, dated May 2, 1907, stating that under date of April 12, 1907, in response to a request from your department I transmitted to the Comptroller an opinion in the matter of Claim No. 51054 of the New York Central and Hudson River Railroad Company, for \$9,720.51 for "portion of cost of changing the Broadway grade crossing of the New York and Putnam Division of the New York Central and Hudson River Railroad Company at Van Cortlandt, New York," in pursuance of a determination of the Board of Railroad Commissioners under section 62 of the Railroad Law, dated August 23, 1904. Mr. Phillips states that it was advised that payment of the above amount could be made pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter, and calls attention to the fact that in the former request to me for my opinion, I was not asked to pass upon the legality of the claim in question, and hence my communication of April 12 did not cover that point. Before making any payment, however, to the New York Central and Hudson River Railroad Company, Mr. Phillips states that he would like to have my opinion as to the liability of the City in the premises, and as to the advisability of making the payment in question.

For the details of this matter, dates, amounts, etc., I beg to refer you to the report of Mr. Stephen J. Madigan, an Examiner in the Finance Department, dated November 21, 1906, also his supplemental report of April 19, 1907, to my communication of April 12, 1907, and to the various papers transmitted with the above mentioned reports. Summarized, the facts are these:

Pursuant to section 62 of chapter 565 of the Laws of 1890, and as amended, known as the Railroad Law, the City, through his Honor the Mayor and the Board of Aldermen applied to the Board of Railroad Commissioners to change the Broadway grade crossing of the New York and Putnam Railroad Company leased and operated by the New York Central and Hudson River Railroad Company, near Van Cortlandt station, New York City, to an under crossing. The Railroad Commissioners ordered such change made and the grade crossing was changed.

Section 65 of the Railroad Law provides:

" \* \* \* And whenever a change is made as to an existing crossing in accordance with the provisions of section 62 of this act, fifty per centum of the expense thereof shall be borne by the railroad corporation, twenty-five per centum by the municipal corporation and twenty-five per centum by the state."

On June 22, 1906, upon the report of the Engineer of the Finance Department, the Comptroller approved of the accounting of the work in question in the total sum of \$38,882.04, twenty-five per centum thereof, namely, \$9,720.51 to be borne by The City of New York.

Under the circumstances, in reply to the inquiries I advise you that this claim is a valid charge against the City, and that it should be paid in the manner indicated in my communication to you of April 12, 1907.

I return herewith all papers herein heretofore transmitted.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of nine thousand seven hundred and twenty dollars and fifty-one cents (\$9,720.51) to provide means for the payment of the claim of the New York Central and Hudson River Railroad Company, being the City's share of the cost of changing the Broadway grade crossing of the New York and Putnam Division of said railroad at Van Cortlandt, New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment June 7, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding nine thousand seven hundred and twenty dollars and fifty-one cents (\$9,720.51) for the purpose of providing means for the payment of the claim of the New York Central and Hudson River Railroad Company, being the City's share of the cost of changing the Broadway grade crossing of the New York and Putnam Division of said railroad at Van Cortlandt, New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding nine thousand seven hundred and twenty dollars and fifty-one cents (\$9,720.51), the proceeds whereof to be applied to the purposes aforesaid."

Which were severally referred to the Committee on Finance.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting resolutions:

No. 2138.

Board of Estimate and Apportionment of The City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 10, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, recommending to the Board of Aldermen the establishment of the position of Chief Clerk and Auditor in the Department of Docks and Ferries, with salary at the rate of five thousand dollars (\$5,000) per annum for the present incumbent, John M. Phelan, only, together with copy of report of the Select Committee, consisting of the Comptroller and President of the Board of Aldermen, to which on March 15, 1907, was referred the request of the Commissioner of Docks and Ferries for the establishment of the above position, relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

June 4, 1907.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics of the Department of Finance, under date of June 3, 1907, relative to the request of the Commissioner of the Department of Docks and Ferries for the establishment of the position of Chief Clerk and Auditor, with compensation at the rate of \$5,000 per annum, which matter, through an oversight, was not submitted in the supplemental report of the Select Committee to the Board of Aldermen.

In view of the facts contained in said report, it is respectfully recommended that the resolution attached thereto be adopted.

Respectfully yours,

H. A. METZ,

Comptroller.

P. F. MCGOWAN,

President of the Board of Aldermen.

Select Committee.

June 3, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—In regard to the request of the Commissioner of Docks and Ferries, dated February 27, 1907, and asking for the establishment in his Department of the position of Chief Clerk and Auditor at a salary of \$5,000 per annum, referred by the Board of Estimate and Apportionment to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen, and by you to the Bureau of Municipal Investigation and Statistics for examination, I beg to report as follows:

The Chief Clerk and Auditor of the Department of Docks and Ferries has charge of its accounts, revenues and expenditures. The salary of the position is now \$4,000. Its present incumbent, Mr. John M. Phelan, has not received any advance of salary for eight years, although the work of the Department and the duties and responsibilities of the position have almost doubled during that period, the revenues having increased from \$2,400,000 in 1898, to \$4,350,000 in 1906, and the expenditures representing work done by the Department, from \$3,450,000 in 1898, to \$10,200,000 in 1906. The establishment and operation of the municipal ferries have also added materially to the duties of the position.

The Commissioner states that the work of the office is performed in a very satisfactory manner, and that Mr. Phelan's methods of bookkeeping and accounting are highly commended by the Commissioners of Accounts when making their annual examination of the Department.

The request of the Commissioner would seem to be reasonable, and it is therefore recommended that the position be established at the salary proposed.

Respectfully yours,

(Signed) R. B. MCINTYRE,

Acting Supervising Statistician and Examiner.

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen that the salary of the position of Chief Clerk and Auditor in the Department of Docks and Ferries be fixed at five thousand dollars (\$5,000) per annum, for one incumbent.

Whereas, The Board of Estimate and Apportionment at a meeting held June 7, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen, the establishment of the position of Chief Clerk and Auditor in the Department of Docks and Ferries, with salary at the rate of five thousand dollars (\$5,000) per annum for the present incumbent, John M. Phelan, only."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the above position as set forth therein.

No. 2139.

Board of Estimate and Apportionment, City of New York,  
Office of the Secretary, No. 277 Broadway,  
June 10, 1907.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment June 7, 1907, recommending to the Board of Aldermen the establishment of the grade of position of Janitor in the College of The City of New York, in addition to those already existing therein, with salary at the rate of \$18,435 per annum, for one incumbent, together with copy of report of the Select Committee, consisting of the Comptroller and President of the Board of Aldermen, to which was referred on May 10, 1907, the request of the Secretary, Board

of Trustees, College of The City of New York, for the fixing of the salary of said position, relative thereto.

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Yours very truly,

JOSEPH HAAG, Secretary.

Department of Finance,  
Comptroller's Office,  
New York, June 4, 1907.

To the Board of Estimate and Apportionment, City Hall, New York:

Gentlemen—Your committee to which was referred, on May 10, 1907, copy of a communication from the Secretary, Board of Trustees, College of The City of New York, requesting the fixing of the salary of the position of Janitor of the College at \$18,435 per annum, respectfully reports in favor of the same, and recommends the adoption of the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen that the salary of the position of Janitor of the College of The City of New York be fixed at the rate of \$18,435 per annum.

Respectfully submitted,

H. A. METZ, Comptroller.

P. F. McGOWAN,  
President of the Board of Aldermen.

Whereas, The Board of Estimate and Apportionment, at a meeting held June 7, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the grade of position of Janitor in the College of The City of New York, in addition to those already existing therein, with salary at the rate of \$18,435 per annum, for one incumbent."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the above position as set forth therein.

Which were severally referred to the Committee on Salaries and Offices.

The President laid before the Board the following resignation:

No. 2140.

New York, June 11, 1907.

To the President of the Board of Aldermen and Its Members:

Gentlemen—Kindly accept my resignation from the office of Commissioner of Deeds, to which office I was appointed on the 24th day of July, 1906.

Please notify me of the acceptance of same.

Yours very truly,

GEO. A. HYMAN.

No. 73½ Columbia street.

Which resignation was accepted.

#### REPORTS OF STANDING COMMITTEES.

The President laid before the Board the following report of the Committee on Streets, Highways and Sewers, in connection with which the Corporation Counsel had rendered an opinion:

No. 2011.

The Committee on Streets, Highways and Sewers, to which was referred on May 14, 1907 (Minutes, page 819), the annexed resolution in favor of permitting John T. Brady & Co. to erect a temporary street bridge and pavement over Liberty street at Broadway, Borough of Manhattan, respectfully

#### REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to John T. Brady & Co. to erect a temporary sidewalk and street bridge over Liberty street, from the Singer Building on the north side of the street to the south curb from Broadway to a point one hundred and twenty-five feet west of Broadway, in the Borough of Manhattan; said bridge to be so constructed as not to interfere with pedestrian or vehicular traffic, and being for the purpose of safeguarding against dangers attending building construction; the said John T. Brady & Co. to save The City of New York free and harmless from any loss or damage that may be occasioned during the erection of said temporary bridge or its continuance; the work to be done at said firm's expense, under the direction of the President of the Borough; said permission to continue only during the pleasure of the Board of Aldermen.

ROBERT F. DOWNING, FRANK L. DOWLING, JOHN HANN, HARRY L. LEVERETT, MAX S. GRIFENHAGEN, Committee on Streets, Highways and Sewers.

Which report was accepted and resolution adopted.

At this point the President introduced to the Board Councilman Thomas J. Ryan, of Philadelphia, who made a short address in relation to the contemplated visit of the Board to Philadelphia, Pa.

Mr. Gudehus, of the Philadelphia "Press," was also introduced, and addressed the Board.

#### PETITIONS AND COMMUNICATIONS.

No. 2141.

Brooklyn, N. Y., June 10, 1907.

Hon. PATRICK F. McGOWAN, President of the Board of Aldermen, and to the Honorable the Board of Aldermen:

Dear Sir and Gentlemen—The voters and taxpayers of Brooklyn, particularly those who must come to the Williamsburg Bridge for transfer and transportation to the various boroughs of our great City, voice to you, Gentlemen, our sentiments, accompanied with our petition, protesting against the endeavors of the Alderman of the Forty-ninth Aldermanic District to oust a respectable citizen and voter of the above named district, one who has been long known to the many citizens of the boroughs of Brooklyn and Manhattan.

The letter with queries addressed to and answered by the Acting Corporation Counsel, Mr. G. L. Sterling (No. 2069), to the Honorable Board of Aldermen, we appreciate. We are fully aware that privileges of this kind are special, and such privileges are often extended by your Honorable Body to deserving citizens of this great City, but our protest is based upon and against the procedure of Alderman Henry Clay Peters, cited in a personal letter to your Honorable Board, to be transmitted to the Corporation Counsel for advice, viz.: Printed in the CITY RECORD of May 31, 1907, as follows:

"Some few weeks ago a news-stand was erected upon the Brooklyn plaza of the Williamsburg Bridge. For a year past I have been refusing permits to all applicants for privileges on this plaza (which is in my Aldermanic district), believing that special privileges at this point should not be given to any one. When this stand was erected, I wrote to the Bridge Commissioner about it. I had a talk to-day with Mr. Stevenson, and in reply to my inquiry as to what compensation the City was receiving from this privilege, and under what authority he granted the privilege, he gave negative and uncertain answers. I would like to ask your official opinion on this question, covering answers to the following queries: Has the Commissioner the right to give this valuable privilege without return to the City? Has the Commissioner the right to commit the City to charity or philanthropy for the benefit of a single individual at the expense of the whole community? The beneficiary under this privilege is a blind man already enjoying two valuable privileges without cost on account of his affliction. His fellow unfortunates, jealous of his monopoly, are making it very interesting for me. Kindly favor me with your answer before noon to-morrow, as I wish the Board of Aldermen to take action on this matter. Please send answer in care of City Clerk."

Gentlemen, the opinion honestly stated by the aforesaid Acting Corporation Counsel, Mr. G. L. Sterling, was printed and attached in reference to this case, but, Gentle-

men, if you will notice in the resolution incorporated at the same time and bearing upon the contentions the Alderman cites, viz.:

"Whereas the said plaza is being disfigured by the erection of unsightly shanties and structures, which are special privileges accorded corporations and individuals, for which the City receives no revenue."

No doubt in his anxiety to give vent to his feelings in his letter to the Corporation Counsel he eliminates the corporations and singles out one man, and one who, no doubt (if necessary), would willingly take the pick or shovel to maintain his dignity as a citizen of the greatest city in the world in obtaining a livelihood should the great and good God relieve him of the greatest affliction that can come to a human being.

Gentlemen, this is not a case in which the thought of charity or philanthropy should weigh upon your consciences or convictions. The fact is, the man who was the recipient of this favor, and which favor at the present time is denied him, is only too glad to feel that should your Honorable Board so decide in your deliberations to continue this special privilege to him, that rather than become a charge upon this glorious city, he might have the satisfaction to know that he might earn by his endeavors a living.

The letter of Alderman Peters states that the blind man (Mr. Charles F. Stoddard) now enjoys two of these privileges. It is false. The one he is now operating is simply as an agent of a newspaper; the other has long since ceased to exist. Your petitioners infer that it is another case of animosity uncalled for, and we petition you, Mr. President and co-laborers of the Honorable Board of Aldermen, to place the stamp of your approval to a petition so liberally subscribed to, by granting the special privilege sought.

Gentlemen, we are,

Very respectfully yours,

THE PETITIONERS.

M. F. Ficke, George A. Fletcher and many others.

Which was referred to the Local Board of the district affected.

#### MOTIONS, ORDINANCES AND RESOLUTIONS.

Alderman Brown asked and obtained unanimous consent to introduce the following:

No. 2142.

AN ORDINANCE amending the Code of Ordinances of The City of New York so far as the same relates to street peddling in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Section 347 of subdivision 8 of article 4a of chapter 7, title 2 of part 1 of the Code of Ordinances of The City of New York, as approved November 8, 1906, is hereby amended so that the same shall read as follows:

Sec. 347. Any person hawking, peddling, vending or selling merchandise in the streets of The City of New York shall be deemed to be a peddler, and shall be classified as follows: A peddler using a horse and wagon, a peddler using a pushcart, and a peddler carrying merchandise in business; but the selling of newspapers or periodicals in the street is not hereby regulated in any way.

Sec. 347a. No peddler, hawker, vendor or huckster of any kind of merchandise shall conduct or carry on in The City of New York any business as such peddler, hawker, vendor or huckster or shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of said City without a license issued in accordance with the provisions of this ordinance.

Sec. 347b. The Police Commissioner of The City of New York may, subject to the restrictions hereinafter mentioned, grant a license to any peddler, hawker, vendor or huckster of any kind of merchandise using a horse and wagon, handcart or pushcart in the streets of said City, and may at any time revoke any such license for proper cause. Said Police Commissioner shall have full and exclusive jurisdiction and control of street peddling in said City.

Sec. 347c. Applications for licenses shall be made on a blank form to be prescribed by the Police Commissioner, and shall set forth the full name of the applicant, his address, age and nationality; and such other data or information as the Police Commissioner may require shall be furnished by said applicant. All applications for licenses shall be certified to under oath by the applicant. Every license issued under the provisions of this ordinance shall be a personal license and shall not be transferable. No person shall be granted more than one license in any license year; no license shall be issued to any one under twenty-one years of age, nor to any person other than the owner of the wagon, handcart or pushcart that it is proposed to license; nor to any proprietor of a store or shop. No license shall be issued until the applicant therefor has paid a fee of ten dollars per annum in currency to such officer of the Police Department as may be designated by the Commissioner. All fees received from licenses under this ordinance shall be turned into the contingent fund of the Police Department of said City. In addition to such fee, the holder of a "restricted" license shall pay the amount of his bid at auction, as hereinafter prescribed. Every license shall expire upon August 31 of each year, unless sooner revoked. No license shall be renewed, but a new license shall be issued in each case. Applicants receiving licenses between March 1 and August 31 of any year shall pay but one-half the annual fee—namely, five dollars—and the license thus issued shall expire upon August 31; applicants receiving licenses between the 31st of August and the 1st of March next ensuing shall pay the full fee of ten dollars, and the license shall expire on August 31. The holder of a license may surrender the same at any time; if surrendered prior to March 1, one-half of the license fee—namely, five dollars—shall be refunded to him by the Police Department and a receipt obtained therefor, but no such refund shall be made for any license surrendered after March 1, or for any license that may be revoked.

Sec. 347d. Licenses shall be of three kinds—"restricted," "traveling" and "holiday" licenses. A "restricted" license is one that permits the sale of goods in the "restricted districts" only, and no holder of such a license shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of New York except within the "restricted districts" of said City, as hereinafter defined, and in the locality and position named in said license. No such license shall be issued for a horse and wagon. A "traveling" license is one that permits the sale of goods in the "unrestricted" district only, and no holder of such a license shall barter, sell or exchange any goods, wares or merchandise of any kind in the streets of New York except within the "unrestricted districts" of said City, as hereinafter defined. A "holiday" license is a temporary one, good for but two weeks, and one which permits the sale of goods in the "unrestricted" districts only. Such licenses may be issued upon receipt of a license fee of three dollars, and upon compliance with the other provisions of this ordinance, for a period of two weeks immediately preceding Christmas and the following Hebrew holy days: Hebrew New Year, Day of Atonement, Feast of Tabernacles, Passover, Feast of Purim; also the following Italian holy days: Feast of Mount Carmel, Assumption, St. Rocco and All Souls.

Sec. 347e. The "restricted districts" of The City of New York shall, for the present, consist of the entire part of the Borough of Manhattan bounded by and including Fourteenth street, Broadway, Chambers street and the East river. The "unrestricted districts" shall, for the present, consist of the remainder of The City of New York.

Sec. 347f. Within the "restricted districts," no peddler, vendor, hawker or huckster shall barter, sell or exchange any goods, wares or merchandise of any kind from any wagon, handcart or pushcart upon the streets, highways or squares of such districts, except at a point in the street adjoining the curb at least twenty-five feet distant from the corner of the curb at the intersection of two streets. No more than two peddlers, vendors, hawkers or hucksters upon the one side of each street shall ply their trade upon any one city block.

Sec. 347g. Each applicant for a "restricted" license shall be assigned a position on one side of some street within the "restricted" districts, in the following manner: Upon July 15 of each year the Police Commissioner shall cause a notice of public auction of "restricted" licenses for the year beginning September 1, to be inserted for two weeks in the CITY RECORD, and in at least one Jewish, one Italian and one Greek newspaper, and such other papers as the Mayor shall designate. A position or location on one side of each street within the "restricted districts" adjoining the curb, but not within twenty-five feet of the corner of the curb at the intersection of two streets, shall be named in each of said "restricted" licenses. But no more than two such positions or locations on one side of any street on the same block shall be so named or assigned. Each "restricted" license shall be auctioned at some convenient place within the "re-

stricted districts," beginning on August 1 of each year, and shall be continued, as may be deemed necessary by the Police Commissioner. Each "restricted" license shall be awarded to the highest bidder therefor upon said auction, who shall pay, in addition to the annual license fee of \$10, the amount of his bid in cash forthwith, or said bid shall be declared forfeited and the license again auctioned.

Sec. 347h. Within the "unrestricted districts" no peddler, vendor, hawker or huckster shall barter, sell or exchange any goods, wares or merchandise of any kind from any wagon, hand-cart or pushcart upon the streets, highways or squares of such districts except at a point in the street adjoining the curb, but not within twenty-five feet of the corner of the curb at the intersection of two streets. No more than two peddlers, vendors, hawkers or hucksters shall ply their trade upon one side of each street upon any one city block. Any peddler who finds two peddlers stationed with their carts or wagons on one side of any street shall not be permitted to stop on such street, but shall immediately proceed to another street on which there are not two peddlers.

Sec. 347i. Each license issued under the provisions of this ordinance shall contain a statement whether it is a "restricted," "traveling" or "holiday" license, the date on which it is issued and on which it expires, the amount of the fee paid for it, the name and address of the person licensed, and whether for a horse and wagon, hand-cart or pushcart, a statement that the license is a personal one, and not transferable; if a "restricted" license, the location and street for which it is issued; and if a "traveling" license, a statement that it cannot be used in the "restricted districts." Such licenses shall be printed in English, and when issued to an Italian, Greek or Hebrew, a translation of it shall also be printed in Italian, Greek or Yiddish, respectively; each license shall contain printed prominently across it, the year for which it is issued; also a statement that it is revocable by the Police Commissioner at any time.

Sec. 347j. The police commissioner upon issuing a license shall furnish each holder thereof with two signs, one bearing the number of the license, also the year for which it is issued; the other sign, in the case of a "traveling" license, shall contain the word "traveling," in the case of a "holiday" license, the word "holiday," and in the case of a "restricted" license the street and exact location for which such license is issued, thus: "North Side, Rivington Street, twenty-five feet east of Orchard Street." Such signs shall be clear and easily legible, and, so far as practicable, uniform in size, and the letters and figures thereon shall each be not less than two inches high. Such signs shall be of blue and white or black and white enamel or may be printed on cardboard in black and white and framed. Each person securing a license under the terms of this ordinance shall present his wagon, hand-cart, or pushcart to such employee of the police department as shall be designated for this purpose by the police commissioner, and the said sign shall be affixed by him upon one end or side of said wagon, hand-cart or pushcart, where they can be readily seen. Such signs, as well as the license itself, shall be surrendered by the holder thereof upon its expiration. No person shall use any such sign or similar sign without authority. No badges shall be furnished. No extra charge shall be made for the above-mentioned signs or for any other reason. The expense of furnishing such signs and the conduct of the bureau shall be defrayed by the police commissioner out of the receipts for licenses. Each person securing a license under the terms of this ordinance shall at the same time be furnished by the police commissioner, free of charge, with a copy of this act, printed in English, and, in the case of an Italian, Greek or Hebrew, in addition, a translation of the same in Italian, Greek or Yiddish, as the case may be.

Sec. 347k. Peddlers, vendors, hawkers and hucksters shall not use any part of the sidewalk or crosswalk in conducting their business nor cast or throw any article of any kind upon the streets, nor interfere with or prevent to any degree the Street Cleaning Department from sweeping or cleaning the streets or avenues. No peddler, vendor, hawker or huckster in the streets of said City shall blow upon or use or suffer or permit to be blown upon or used, any horn or other instrument. No peddler, vendor, hawker or huckster shall cry his wares or merchandise on Sunday, nor after 9 o'clock in the night nor before 8 o'clock in the morning on any day except Saturday, nor within two hundred and fifty feet of any school, courthouse, church or hospital.

Sec. 347l. Every person who shall violate any provision of this ordinance shall be liable to a fine to be imposed by a City Magistrate of not less than five dollars nor more than fifty dollars in the discretion of the Magistrate, and shall upon conviction, forfeit any license held under this ordinance. No person shall be so punished for a first offense, but shall be cited to appear at the office of the Police Commissioner.

Sec. 347m. All outstanding licenses heretofore issued to street peddlers in The City of New York, are hereby declared void and of no effect, this provision to take effect on August first, nineteen hundred and seven.

Sec. 347n. All ordinances inconsistent with the foregoing ordinance, are hereby repealed.

Sec. 347o. This shall take effect immediately.

Old matter, underlined, being section 347; balance, new, in italic.

Which was referred to the Committee on Laws and Legislation.

#### GENERAL ORDERS.

Alderman Davies called up General Order No. 305, being a report of the Committee on Finance in favor of adopting a resolution for \$15,000 Special Revenue Bonds, to pay salaries and purchase supplies for the Normal College, and moved that it be recommitted to the Committee on Finance.

Which motion was adopted.

#### MOTIONS, ORDINANCES AND RESOLUTIONS RESUMED.

Alderman Dowling asked and obtained unanimous consent to introduce the following:

No. 2143.

Whereas, The Board of Aldermen, at a meeting held April 30, 1907, adopted an ordinance "regulating the placing of electric signs in The City of New York and providing that the same shall be duly licensed," which ordinance was approved by the Mayor May 7, 1907, and is now in full force and effect; and

Whereas, Said ordinance exacts that certain requirements of the Bureau of Buildings and the Department of Water Supply, Gas and Electricity be complied with before the necessary license thereunder can be issued by the City Clerk; and

Whereas, Proper compliance with the provisions of the ordinance and determination thereof by the several departments affected require a reasonable time, therefore be it

Resolved, That the force and effect of the said ordinance "regulating the placing of electric signs in The City of New York and providing that the same shall be licensed" be and hereby are suspended up to August 1, 1907, in order that persons who maintain such signs may be enabled to comply with the provisions of said ordinance; further

Resolved, That the Police Department, through its various precinct commanders, be and hereby is directed to inform all persons who maintain electric signs of the purport of this resolution and that upon the expiration of the time herein contemplated the provisions of the penalty clauses of the said ordinance relating to electric signs will become operative.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Bunting, Callahan, Carter, Collins, Davies, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Fried, Grifenhagen, Haggerty, Hatton, Herold, Jacobson, Keely, Kuck, Lawlor, Levine, Linde, Morris, Murphy, Potter, Redmond, Rendt, Schloss, Schneider, Stapleton, Sturges, Sullivan, Torpey, Wafer, Wright; President Cromwell and the Vice-Chairman—41.

#### REPORTS OF STANDING COMMITTEES.

Reports of Committee on Finance—

No. 1968.

The Committee on Finance, to whom was referred on May 7, 1907 (Minutes, page 690), the annexed ordinance in favor of an issue of Corporate Stock, \$127,662, to acquire title to certain lands in the Borough of Brooklyn for use of the Department of Public Charities, respectfully

#### REPORTS:

The Committee have held a hearing on this proposition, and in order to obtain proper information visited the premises. The site was first selected in 1903 because it

was believed that the City already owned the property. It was afterwards found that the City only owned a portion, and condemnation proceedings have since been had for the purpose of acquiring the balance of the property. While the Committee do not consider the site ideal for hospital purposes, still, as long as the City was supposed to have owned same, that apparently furnished a proper excuse for selecting it, but the Committee believe that somebody was negligent in acquiring the additional land, and do not see just why it was necessary to go to the expense of acquiring the additional property. However, as proper condemnation proceedings have been held, and awards have been made under the law, the Committee can see no way for the City to be relieved from the liability for paying for same with interest, and feel, therefore, compelled to report favorably on the ordinance.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred and twenty-seven thousand six hundred and sixty-two dollars (\$127,662) to provide means for the payment of awards, interest thereon, costs and expenses in the matter of acquiring title to certain lands, etc., bounded by Ocean parkway, Avenue Y, East Sixth street, Canal avenue and Coney Island creek in the Borough of Brooklyn for the use and purposes of the Department of Public Charities,

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 3, 1907, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York, to an amount not exceeding one hundred and twenty-seven thousand six hundred and sixty-two dollars (\$127,662) for the purpose of providing means for the payment of awards, interest thereon, costs and expenses, in the matter of acquiring title to certain lands, etc., bounded by Ocean parkway, Avenue Y, East Sixth street, Canal avenue and Coney Island creek, in the Borough of Brooklyn, for the use and purposes of the Department of Public Charities, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and twenty-seven thousand six hundred and sixty-two dollars (\$127,662), the proceeds whereof to be applied to the purposes aforesaid."

JOHN R. DAVIES, B. W. B. BROWN, JOHN DIEMER, A. L. KLINE, J. E. BUNTING, Committee on Finance.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Collins, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Everson, Farrell, Freeman, Grifenhagen, Haggerty, J. J. The Committee on Finance, to whom was referred on May 21, 1907 (Minutes, page 875), the annexed resolution in favor of paying bill of William H. McDonald for engrossing resolutions on death of ex-Alderman David Barry, and on conduct of Principals, et al., of Public School 86 at a fire, respectfully

#### REPORTS:

That, having examined the subject, they recommend that the said resolution be adopted.

Resolved, That the Comptroller be and he is hereby authorized and requested to draw a warrant in favor of William H. McDonald for the sum of one hundred dollars (\$100), the said sum to be payment in full for engrossing in book form resolutions on the death of ex-Alderman David Barry, adopted December 21, 1906, approved December 27, 1906, twenty-five dollars (\$25), and engrossing and framing resolutions on the heroic and courageous action of the Principals and Teachers of Public School 86 on the occasion of a fire in said school on March 4, 1907, adopted March 5, 1907, and approved March 12, 1907, seventy-five dollars (\$75), the said sum of one hundred dollars (\$100) to be payment in full for all services rendered, and to be charged to and paid out of the appropriation entitled "City Contingencies, 1907."

No. 2004.

The Committee on Finance, to whom was committed, on June 11, 1907, the annexed communication from the Trustees of Normal College requesting an issue of \$25,000 Special Revenue Bonds to pay salaries and purchase supplies, respectfully

#### REPORTS:

Ex-President Hunter, Commissioner Wilmer, Secretary Hunt and Professor Kieran, of Normal College, appeared before your Committee and urged that some relief be given the College. Owing to the unexpectedly large class which entered this February, it is necessary to provide additional facilities in teachers, rooms, books, etc. Your Committee have gone carefully over the items claimed to be necessary and which are fully set forth in the annexed letter and statement, and believe that the college can get along with an appropriation of twenty-one thousand dollars (\$21,000).

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-one thousand dollars (\$21,000) for the purpose of providing additional funds for the payment of salaries and the purchase of necessary supplies for the Normal College.

JOHN R. DAVIES, B. W. B. BROWN, JOHN DIEMER, A. L. KLINE, J. E. BUNTING, Committee on Finance.

Normal College of the City of New York,  
Park Avenue and Sixty-eighth Street,  
New York, June 6, 1907.

Hon. JOHN DAVIES, Chairman, Finance Committee, Board of Aldermen:

Dear Sir—In the matter of the request of the Board of Trustees of the Normal College for a special bond issue of \$25,000 to pay teachers and other expenses for the remainder of the year 1907, kindly permit me to urge upon your attention our imperative need of extra teachers to carry on the work of the Normal College for the remainder of the year 1907.

I. In my judgment, our college, in order to fulfil its function of furnishing the City with properly educated teachers, and at the same time to maintain the expense of their education per capita at a reasonable figure, ought to graduate on the average

200 students a term, or 400 a year. With smaller grades the ultimate units into which they would be divided by the election of courses and the selection of optionals would become so small as to make the cost of educating them excessively high. I do not think, with our present rigorous methods of promotion, we can graduate a class of 200 without an admission of at least 500 semi-annually, or 1,000 a year.

2. We are not making any extra efforts to admit an unusual number of candidates this June. We never take all who apply, but admit only those who have passed a severe entrance examination. Last June we admitted over 800; this June we are planning to admit only 600. These, with the 400 that we admitted last February, will make 1,000 for the year. Since our working programme is based upon the admission, semi-annually, of classes of about equal numbers, viz., 500 students, to have refused to admit in February, or even to have reduced the number admitted materially, would have demoralized the scheme of work, both in the college and high school.

Owing to the fact that the sum asked for in our Budget for 1907 was barely sufficient to properly support the institution, and to the further fact that this sum was reduced to the extent of \$25,000 by the Board of Estimate and Apportionment, we were compelled, during the first half of this year, to employ some fifteen substitute teachers, instead of the regular teachers we should have had, at great detriment to the efficiency of the instruction and comparatively insignificant saving of money. As a matter of fact, the appropriation as it now stands will not be sufficient to continue even these substitutes until January 1, 1908, to say nothing of the additional teachers that will be needed in September because of our admissions in June.

For details see accompanying table.

Very respectfully yours,

J. A. GILLET, Acting President.

Total appropriation for salaries.....	\$225,000 00
Amount expended first quarter.....	\$54,827 39
Amount of March payroll, less substitutes, for nine months..	164,471 67
Amount for 15 substitutes till July 1, three months.....	3,405 00
Amount for 20 tutors (15 in place of our present substitutes and 14 for new classes) from September to January, four months, at \$1,100 a year.....	10,633 33
Amount of President's salary from September to January..	2,750 00
Amount of salary of two professors from September to January .....	3,166 67
Amount for two additional college instructors from September to January, at \$1,500 a year.....	1,000 00
Bookroom attendant, \$308, and new books, \$5,000.....	5,308 00
Total.....	246,557 39
Deficiency.....	\$21,557 39

I estimate that there will be 400 more students in the high school next term than this. This increase in number will require an additional expenditure for text books and other supplies of some \$5,000.

Respectfully,

J. A. GILLET, Acting President.

The number of new teachers has been estimated on the basis of 35 to the section and of 600 admissions in June.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, J. Reports of Committee on Salaries and Offices—

No. 1448.

The Committee on Salaries and Offices, to which was referred, on January 22, 1907 (Minutes, page 34), the annexed resolution, in favor of fixing the salary of Automobile Engineman under jurisdiction of President, Borough of Manhattan, respectfully

#### REPORTS:

The committee has been unwilling to report this resolution in the original shape because it fixed a rate of wages for chauffeurs higher than that prevailing in any other department. The committee intimated that it would be willing to report a resolution for the regular rate, \$1,200, and it is now advised that the Borough President is willing to accept the suggestion.

The Committee therefore recommends the adoption of the following substitute resolution:

#### (SUBSTITUTE.)

Resolved, That the Board of Aldermen hereby fixes the salary of the position of Automobile Engineman under the jurisdiction of the President, Borough of Manhattan, at the rate of twelve hundred dollars (\$1,200) per annum, for three incumbents.

#### (ORIGINAL.)

Whereas, The Board of Estimate and Apportionment, at a meeting held December 21, 1906, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the position of Automobile Engineman under the jurisdiction of the President, Borough of Manhattan, with salary at the rate of fifteen hundred dollars (\$1,500) per annum, for three (3) incumbents."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Automobile Engineman, under the jurisdiction of the President, Borough of Manhattan, at the rate of fifteen hundred dollars (\$1,500) per annum for three incumbents.

JAMES COWDEN MEYERS, LEONARD L. JACOBSON, M. D., JOHN J. CALLAHAN, FRANK D. STURGES, MICHAEL J. CARTER, Committee on Salaries and Offices.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Meyers moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said substitute resolution.

#### REPORTS:

That the customary letters of recommendation having been filed with these applications and the candidates having appeared before the committee and answered questions put to them, it therefore recommends that the accompanying substitute resolution be adopted.

#### (SUBSTITUTE.)

Resolved, That Augustus F. Garlich, of No. 7 Cambridge place, Borough of Brooklyn; Benjamin W. Ronzone, of No. 144 Barnes avenue, Williamsbridge, New York City, and Anthony F. Gruenenthal, of New Brighton, S. I., be and they are hereby appointed City Surveyors.

#### (ORIGINAL.)

Resolved, That Augustus F. Garlich, of No. 7 Cambridge place, in the Borough of Brooklyn, be and he is hereby appointed a City Surveyor.

Resolved, That Benjamin W. Ronzone, of No. 144 Barnes avenue, Williamsbridge, New York City, be and he is hereby appointed a City Surveyor.

Resolved, That Anthony F. Gruenenthal, of No. 14 First street, New Brighton, New York, be and he is hereby appointed a City Surveyor.

Report of Committee on Docks and Ferries—

No. 1835.

The Committee on Docks and Ferries, to whom was referred on April 9, 1907 (Minutes, page 122), the subject of ferry intercommunication between the boroughs of Queens and The Bronx (see Resolution, Int. No. 1835), respectfully

#### REPORTS:

Your Committee made personal visits to Whitestone and The Bronx and believes that a ferry from the foot of Eleventh avenue at Whitestone to the foot of a public highway, known as "Back Havemeyer Road," Throgg's Neck, Borough of The Bronx, would be a great benefit to the whole territory covered by the boroughs of Queens and The Bronx, as it would give a direct means of communication, and save many miles of round-about travel. The establishment of a ferry is very much needed. The cost to the City would be immediately recompensed by the increased taxable value of the sections affected. This public improvement could be undertaken by the City at small comparative cost, the City owning the land at both of the proposed terminals, and the former boats of the old Staten Island Ferry could be utilized.

Your Committee respectfully offers the following resolution:

"Resolved, That the Commissioner of Docks and Ferries and the Sinking Fund Commissioners be respectfully requested to give consideration to the project of a ferry, municipally owned and operated, between Eleventh avenue, Whitestone, Borough of Queens, and 'Back Havemeyer Road,' in the Borough of The Bronx, and this Board recommends the early commencement of the building of this ferry."

Whereas, The increasing population in the annexed district and the Borough of The Bronx requires every facility for intercommunication between that section and other boroughs; and

Whereas, There are no ferry facilities between Fort Schuyler and Whitestone, in the Borough of Queens, which would be a benefit to people doing business on the Long Island side of the Sound and residing in The Bronx and vice versa; therefore be it

Resolved, That the Committee on Docks and Ferries are hereby authorized to investigate this subject and report its findings in full to this Board.

HENRY CLAY PETERS, FREDERICK LINDE, CHARLES L. KUCK, MICHAEL J. CARTER, THOMAS J. MOFFITT, CHARLES AHNER, PATRICK J. HATTON, Committee on Docks and Ferries.

Reports of Committee on Public Letting—

No. 983—(G. O. No. 310).

The Committee on Public Letting, to which was referred on July 2, 1906 (Minutes, page 12), the annexed resolution in favor of permitting the Commissioner of Water Supply, Gas and Electricity, to expend \$60,000 for the purchase of pumps, etc., without public letting, respectfully

#### REPORTS:

We find that the conditions existing in the Department of Water Supply in June, 1906, were such as to cause grave fears, on the part of the Chief Engineer, as to a possible shortage of supply and consequent reduction of pressure—the consumption for one day, June 29, being 142,445,000 gallons. At the time of this heavy consumption, with every pumping unit in service, it was impossible to pump more than 127,000,000 gallons a day at the Ridgewood Station, and from the other driven well stations within the city limits about 10,000,000 gallons more.

Under the above circumstances, it is not a matter for wonder that the level of the water in the Ridgewood reservoirs dropped very rapidly, causing a reduction of pressure on the distribution system. While the conditions at this time were, without doubt, grave enough to warrant extraordinary efforts being made to increase the supply we find it a matter for criticism that the Engineers of the Department for the Borough of Brooklyn had not made previous provision for such an emergency, as the conditions which confronted them were in a measure only a repetition of a previous like condition that existed during the winter of 1905-6.

Provision should have been made early in 1906 to provide additional pumping machinery and plants for an increase of the supply to meet such a possible emergency during the summer season, and while we approve the resolution hereto appended, to cover the expense of machinery purchased by the Acting Chief Engineer at that time (Mr. I. M. de Varona), we desire to express our disapproval of any action of that sort, such as purchasing supplies for the City without due authority conferred by a proper body. Provision for such emergencies, such as that for which this expenditure was made, can, as a general thing, be foreseen and provided for beforehand.

We therefore recommend that this resolution be adopted.

Resolved, That, in accordance with the provisions of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity, is hereby authorized and empowered to secure and purchase, without advertising for competitive bids or proposals, the necessary pumps, pipes, buildings or other appurtenances, appliances and labor required for the erection of driven well stations to increase the water supply for the Borough of Brooklyn, as well as for pumping additional water where required; the total expense not to exceed sixty thousand dollars (\$60,000).

Which was laid over.

No. 2067—(G. O. No. 311).

The Committee on Public Letting, to which was referred on May 28, 1907 (Minutes, page 899), the annexed resolution authorizing the Commissioner of Water Supply, Gas and Electricity to purchase certain patented devices for connecting water mains without public letting, respectfully

#### REPORTS:

That at a hearing on the above matter, Mr. Bull, an Assistant Engineer in the Department, appeared before the Committee and explained the desirability of this mode of procedure. He stated that without the use of these patented connections the Department would be obliged in many cases to shut down a long stretch of mains in order to make necessary changes in the distributing system, and would greatly inconvenience water consumers and render useless a large number of fire hydrants. These patent devices are in numerous sizes and it is impossible for the Department to prepare a list of what sizes he might have occasion to use. On November 29, 1904, the Department was given by the Board of Aldermen authority to expend the same amount of money, and in the same way as they now request. By being in a position to purchase these articles only when required, the Department has needed no

further appropriation up to the present time. It is expected under like conditions no further request will be necessary for a couple of years.

Your Committee therefore recommends the adoption of said resolution.

Resolved, That in accordance with the provisions of section 419 of the amended Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to purchase, without public letting, certain patented devices for connecting water mains at an expense not to exceed ten thousand dollars (\$10,000).

Report of Committee on Engrossed Resolutions—

No. 1398—(G. O. No. 312).

The Committee on Printed and Engrossed Ordinances and Resolutions, to which was referred, December 21, 1906 (Minutes, page 1829), the matter of engrossing resolutions on the death of the Hon. David Barry, which were adopted by the Board of Aldermen December 21, 1906, respectfully

#### REPORTS:

That, having examined the subject, they engaged Mr. Wm. H. McDonald to engross said resolutions. Mr. McDonald having completed his work and a resolution authorizing the payment of him for the same being now before the Board of Aldermen, your Committee asks to be discharged from further consideration of the matter.

#### GENERAL ORDERS RESUMED.

Alderman J. J. Hahn called up General Order No. 270, being a report and resolution, as follows:

No. 1456.

The Committee on Public Letting, to which was referred on January 23, 1907 (Minutes, page 96), the annexed resolution authorizing the Mayor to expend \$6,000 for the purpose of erecting signal towers or triangulation stations without public letting, respectfully

#### REPORTS:

That at a hearing on the above matter Mr. Lewis, the Chief Engineer of the Board of Estimate and Apportionment, appeared before the committee and stated that it was the intention to erect these towers in the Borough of Queens. These observing stations are needed at once and should be erected immediately. It has been found in the past that in the erection of a number of towers, under public contract, much trouble was experienced in dealing with contractors who had no idea of the nature of the work to be done; by private contract these towers can be built at a saving of both time and money to the City. Most satisfactory work has been done by a man who has built most of the towers in the Borough of The Bronx, and who understands this line of work thoroughly. In view of the statements made by Mr. Lewis, your committee believes it necessary, and therefore recommends that the said resolution be adopted.

Resolved, That the Mayor of The City of New York be and he hereby is authorized to expend without public letting a sum not to exceed six thousand dollars (\$6,000) for the purpose of providing for the erection of signal towers, or triangulation stations, for the purpose of completing the triangulation of The City of New York.

A. L. KLINE, JACOB BARTSCHERER, WILLIAM CLIFFORD, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Fried, Grifenhagen, Gunther, Haggerty, C. Negative—Alderman Kuntze—1.

Excused—Alderman Freeman—1.

Alderman John J. Hahn called up General Order No. 283, being a report and resolution as follows:

No. 1971.

The Committee on Finance, to whom was referred on May 7, 1907 (Minutes, page 696), the annexed request of the Sheriff of Richmond County for \$1,200 Special Revenue Bonds, to replenish his Budget allowance for salaries of Court Officers, respectfully

#### REPORTS:

Sheriff Barth appeared before the Committee, and stated that owing to the fact that the number of terms of the Supreme Court for Richmond County had been increased since the 1st of January, the \$400 allowance which he received in the Budget for Court Officers had already been spent, and there are still five terms to be held during the year 1907. He employs six officers and pays them at the rate of \$2 each day employed. These men not only attend court, but serve all papers, and, owing to the unexpected heavy business in this county, \$400 has already been spent. The Committee believes this to be necessary, and therefore recommends the adoption of the resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twelve hundred dollars (\$1,200), the proceeds whereof shall be applied, in addition to the amount of four hundred dollars (\$400) allowed in the Budget for 1907, to the payment of the salaries of Court Officers by the Sheriff of Richmond County, the same being made necessary because of the additional terms of court held in said county.

JOHN R. DAVIES, B. W. B. BROWN, JOHN DIEMER, THOS. J. MULLIGAN, J. E. BUNTING, JAMES W. REDMOND, Committee on Finance.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Davies, Diemer, Dinwoodie, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, C. At this point the Vice-Chairman took the chair.

Alderman Hann called up General Order No. 281, being a report and resolution as follows:

No. 1943.

The Committee on Finance, to whom was referred, on April 30, 1907 (Minutes, page 624), the annexed recommendation for an issue of Special Revenue Bonds, \$2,800, to provide proper accommodations for Coroners, Borough of Brooklyn, respectfully

#### REPORTS:

Superintendent Lawrence appeared before the Committee and explained that the Coroner's Office is to be installed in the Municipal Building, and to properly partition and furnish these offices it would require this appropriation. The Committee recommends the adoption of a substitute resolution providing for \$2,000, as they believe this amount will be sufficient.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be

and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand dollars (\$2,000) for the purpose of providing means for proper office accommodations for the Coroners and their clerks in the Municipal Building, Borough of Brooklyn.

Alderman Hann called up General Order No. 303, being a report and resolution, as follows:

No. 1999 (G. O. No. 303).

The Committee on Public Letting, to which was referred, on May 14, 1907 (Minutes, page 763), the annexed communication from the Commissioner of Public Charities, requesting permission to purchase two automobiles without public letting, respectfully

#### REPORTS:

That, at a hearing on the above matter, Deputy Commissioner McInerney appeared before the Committee and stated that for the efficient carrying on of the work of this Department the use of automobiles for the speedy transportation of the Commissioner in his travels, necessitated by his official duties was imperative. The Commissioner and First Deputy look after the Boroughs of Manhattan, The Bronx and Richmond. All charitable institutions, both public and private, come under the jurisdiction of this Department, and require frequent visits. These places are scattered all over the sections of these boroughs. The same conditions exist in the Boroughs of Brooklyn and Queens, with their vast extent of territory. These two boroughs are under the jurisdiction of the Second Deputy. Annexed is a letter from Mr. McInerney, with fuller details, and is hereby made part of this report. Your Committee recommends the adoption of the annexed resolution.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized to purchase in open market, without public letting, two automobiles, at a cost not to exceed the sum of three thousand dollars (\$3,000) each.

A. L. KLINE, F. J. O'NEILL, DAVID S. RENDT, JOSEPH SCHLOSS, Committee on Public Letting.

Department of Public Charities,  
Foot of East Twenty-sixth Street,  
May 9, 1907.

Hon. P. F. McGOWAN, President, Board of Aldermen:

Dear Sir—The undersigned Commissioner of Public Charities very respectfully requests that permission be granted to the said Department to purchase without public letting two automobiles at a cost not to exceed \$3,000 each, complete; one for the use of the Commissioner, mainly in the Boroughs of Manhattan, The Bronx and Richmond, and the other for the use of the Second Deputy Commissioner in the Boroughs of Brooklyn and Queens.

In my opinion the business of the Department will be greatly facilitated if this permission is granted, particularly as large building operations are to be carried on in the near future looking to the necessary improvement and upbuilding of the Department.

Respectfully submitted,

ROBT. W. HEBBERD, Commissioner.

Department of Public Charities,  
Nos. 327 to 331 Schermerhorn Street,  
Brooklyn, May 17, 1907.

Hon. A. L. KLINE, Board of Aldermen, New York, N. Y.:

Dear Colonel—I inclose herewith a statement which I have prepared in connection with the request of Commissioner Heberd that he be allowed to purchase two automobiles without advertising. If you will kindly let me know what your committee meets, I would like to appear in favor of this request. If you desire any information which is not contained in the statement inclosed, kindly let me know and I will be only too glad to furnish the same.

Yours very truly,

JAMES J. MCINERNEY,  
Second Deputy Commissioner of Public Charities.

Hon. A. L. KLINE, Chairman, Committee on Public Letting:

Dear Sir—The Department of Public Charities is probably the only department in the City which is without automobiles. The Commissioner has never applied for any, for the very good reason that the Department has never had sufficient funds until the present time to permit of purchasing them.

The need of an automobile for Manhattan and one for Brooklyn and Queens in the Department of Public Charities is very evident to any one who will give the subject just a little study. The Manhattan Central Office is located on the dock or pier at the foot of East Twenty-sixth street. To reach this office from the surface cars, the elevated trains or the subway, it is necessary to walk several blocks, and a wagon is always kept at the dock to take the office employees to the cars. There are also three other offices of the department: One at Third avenue and Eleventh street, Manhattan; another at No. 327 Schermerhorn street, Brooklyn, and another at St. George, S. I.

The Department has under its charge the following institutions:

City Hospital, Blackwell's Island.  
Metropolitan Hospital, Blackwell's Island.  
Municipal Lodging House, No. 308 First avenue.  
Training School for Nurses, Blackwell's Island.  
Maternity Hospital, Blackwell's Island.  
Home for Aged, Blackwell's Island.  
Harlem Morgue, foot of East One Hundred and Twentieth street.  
Children's Hospital, Randall's Island.  
School for Feeble-Minded, Randall's Island.  
Custodial Asylum, Randall's Island.  
Farm Colony, Castleton Corners, S. I.  
Cumberland Street Hospital, Brooklyn.  
Bradford Street Hospital, Brooklyn.  
Coney Island Emergency Hospital, Brooklyn.  
Kings County Hospital, Brooklyn.  
Home for Aged, Brooklyn.  
Observation Pavilion for Insane, Brooklyn.  
Kings County Morgue, Brooklyn.

The Commissioner is also, ex-officio, a member of the Board of Trustees of Bellevue Hospital, which board has charge of Bellevue Hospital, Fordham Hospital, Harlem Hospital, Gouverneur Hospital and the Emergency Hospital on East Twenty-sixth street.

The Commissioner and the First Deputy Commissioner look after the Boroughs of Manhattan, The Bronx and Richmond. The Second Deputy Commissioner is in charge for the boroughs of Brooklyn and Queens.

Under section 661 of the Charter, no payment shall be made by the City to any charitable, eleemosynary or reformatory institution wholly or partly under private control, for the care, support, secular education, or maintenance of any child surrendered to such institution, or committed to, or received or retained therein, except upon the certificate of the Commissioner of Public Charities.

Under this section the Commissioner of Public Charities passes on all bills from private institutions and certifies the same to the Comptroller before payment

can be made. Disputes often arise, and it is frequently found necessary to visit these institutions to straighten out complaints.

Under the Charter, sections 663, 664, 665 and 666, the Commissioner of Public Charities has to investigate the circumstances of every person admitted to an institution under his charge and the near relatives of such person. This necessitates the sending of investigators all over The City of New York, and often the Commissioner has to send a personal investigator to examine into complaints made as to the treatment received by the City wards in the various institutions. As these institutions are scattered all over the various boroughs, an automobile would often be the means of saving considerable time and would greatly expedite the transaction of the work of the Department.

It is apparent from the foregoing that the head of the Department has very grave responsibilities, and the need of an automobile for his use in Manhattan, The Bronx and Richmond is evident. There should also be one for the use of the Department in the boroughs of Brooklyn and Queens. The provisions of the Charter above stated apply equally to the duties of the Deputy in charge of these boroughs, and in order to give your Committee an idea of the various public offices the Deputy has to visit on departmental business, the following are mentioned:

The Manhattan office of the Charities Department, foot of East Twenty-sixth street; the Department of Finance; the State Board of Charities, No. 287 Fourth avenue, Manhattan; the Corporation Counsel's offices in Brooklyn and in Long Island City; the Society for the Prevention of Cruelty to Children, No. 105 Schermerhorn street; the District Attorneys' offices in Kings County and in Queens County; the Children's Court, No. 102 Court street; the Court of Special Sessions, No. 171 Atlantic avenue; the County Court of Kings County, and the County Court of Queens County. The Department also prosecutes abandonment proceedings in all the police courts in Brooklyn and in Queens; also brings actions in the various municipal courts in Brooklyn and in Queens on the bonds furnished to the Commissioner of Public Charities in bastardy and abandonment cases.

Under the rules of the Department, the Deputy in charge for Brooklyn and Queens is also required to make frequent inspections of the following institutions under the jurisdiction of the Department:

The county buildings in Flatbush, the Cumberland Street Hospital, the Bradford Street Hospital, the Coney Island Hospital, and the Kings County Morgue on Wiloughby street.

I trust your Committee can see its way clear to approve the request of Commissioner Heberd, that he be allowed to purchase the two machines, in accordance with his communication of May 9.

Respectfully submitted,  
JAMES J. McINERNEY,  
Second Deputy Commissioner of Public Charities.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected failing to vote in favor thereof:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Fried, Grifenhagen, Gunther, Haggerty, C. Hahn, J. J. Hahn, Hann, Herold, Higgins, Keely, Kenneally, Kline, Kuck, Kuntze, Leverett, Levine, Linde, Morris, Mulligan, O'Neill, Potter, Rendt, Richter, Schloss, Schneider, Stapleton, Sullivan, Torpey, Wafer, Wentz, Wright; President Cromwell, President Bermel, President Haffen, President Coler and the Vice-Chairman—54.

Negative—Aldermen Freeman, Lawlor and Meyers—3.

On motion of Alderman Hann, the above vote was reconsidered, and the paper was again laid over and made a General Order.

Alderman Hatton called up General Order No. 293, being a resolution, as follows:

No. 2047.

Whereas, The Exempt Volunteer Firemen's Association of the State of New York will hold their thirty-fifth annual convention at Jamestown, N. Y., during the week beginning August 19, 1907; and

Whereas, Many of the old heroes are nearing the last alarm; and

Whereas, Many of these veterans we hold in such esteem are employed in the various departments of The City of New York; and

Whereas, Under the several administrations of the City preceding the present one all honor was paid to these worthy veterans, and time allowed them to attend their various conventions; and

Whereas, We find that it is but doing justice to the men who protected our homes at the risk of their lives in days gone by; therefore be it

Resolved, That we recommend that all employees of The City of New York who are Exempt Veteran Firemen be allowed four days' leave of absence with pay, from August 20 to August 23, 1907, inclusive, in order that they may attend the thirty-fifth annual convention of the Firemen's Association, which is to be held at Jamestown, N. Y., during the week beginning August 19, 1907; and be it further

Resolved, That his Honor George B. McClellan, Mayor of The City of New York, be and is hereby respectfully requested to attach his signature of approval to the resolution of the Board of Aldermen of The City of New York.

Alderman Meyers moved that this resolution be amended by inserting in the resolution after the words "Exempt veteran firemen," the words "and delegates to the convention aforesaid."

Which motion was adopted.

The resolution, as amended, was then adopted.

Alderman Herold called up General Order No. 282, being a report and resolution, as follows:

No. 1970 (G. O. No. 282).

The Committee on Finance, to whom was referred on May 7, 1907 (Minutes, page 694), the annexed request of the President of the Borough of Queens for \$4,000 Special Revenue Bonds, for repairs to the Queens County jail, respectfully

REPORTS:

The bad condition of the locks and bars in this jail has become notorious, and as immediate measures must be taken to better conditions, the Committee recommends the adoption of the annexed resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of four thousand dollars (\$4,000), the proceeds whereof to be applied by the President of the Borough of Queens to repairing locks and levers, replacing steel bars where necessary, providing new heavy window screens, repairing stairways and ceilings and repainting the interior of the Queens County Jail.

JOHN R. DAVIES, B. W. B. BROWN, J. E. BUNTING, JOHN DIEMER, PH. HARNISCHFEGGER, THOS. J. MULLIGAN, JAMES W. REDMOND, Committee on Finance.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, three-fourths of all the members elected failing to vote in favor thereof:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Bunting, Callahan, Carter, Cole, Collins, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Ellery, Everson, Farrell, Freeman, Fried, Grifenhagen, Gunther, Haggerty, J. J. Hahn, Herold, Kenneally, Kuck, Kuntze, Lawlor, Levine, Linde, Meyers, Moffitt, Morris, Mulligan, O'Neill, Peters, Potter, Rendt, Richter, Schloss, Schneider, Sturges, Sullivan, Wafer, Wentz; President Bermel, President Haffen, President Coler and the Vice-Chairman—50.

On motion of Alderman Bunting, the above vote was reconsidered, and the paper was restored to the list of General Orders.

Alderman Dowling called up General Order No. 276, being a report and resolution, as follows:

No. 1818.

The Committee on Streets, Highways and Sewers, to whom was referred, on April 9, 1907 (Minutes, page 57), the annexed resolution, in favor of permitting the

American Society for the Prevention of Cruelty to Animals to erect a drinking fountain at the junction of Broadway and West End avenue and One Hundred and Seventh street, respectfully

REPORTS:

That having examined the subject, they recommend that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to the American Society for the Prevention of Cruelty to Animals to erect and place a public drinking fountain for man and beast at point of triangle formed by the intersection of Broadway and West End avenue at One Hundred and Seventh street, the said fountain to be paid for by the said American Society for the Prevention of Cruelty to Animals and to be of a pattern and design approved by the Art Commission of The City of New York. The said drinking fountain to be erected under the supervision of the Commissioner of Water Supply, Gas and Electricity, and the water therefor shall be supplied by the Department of Water Supply, Gas and Electricity, without expense to the said society.

ROBERT F. DOWNING, HARRY L. LEVERETT, FRANK L. DOWLING, MAX S. GRIFENHAGEN, JOHN HANN, THOS. D. DINWOODIE, Committee on Streets, Highways and Sewers.

Which report was accepted and resolution adopted.

#### GENERAL ORDERS AGAIN RESUMED.

Alderman Potter called up General Order No. 306, being a report and resolution, as follows:

No. 2021.

The Committee on Streets, Highways and Sewers, to which was referred, on May 21, 1907 (Minutes, page 853), the annexed ordinance in favor of fixing the width of the roadway of West Twenty-third street, between Canal avenue and the Atlantic Ocean, Borough of Brooklyn, respectfully

#### REPORTS:

That, having examined the subject, they believe the proposed improvement to be necessary.

They therefore recommend that the said ordinance be adopted.

AN ORDINANCE to fix the width of the roadway and sidewalks of West Twenty-third street, between Canal avenue and the Atlantic Ocean, in the Borough of Brooklyn.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That the width of the roadway of West Twenty-third street, between Canal avenue and the Atlantic Ocean, in the Borough of Brooklyn, is hereby fixed at thirty-two (32) feet, the curb lines to be parallel with and sixteen (16) feet distant from the centre line of said street, as laid down on the map of The City of New York, and the sidewalks each be fourteen (14) feet in width from building line to curb.

ROBERT F. DOWNING, FRANK L. DOWLING, JOHN HANN, MAX S. GRIFENHAGEN, PATRICK S. KEELY, Committee on Streets, Highways and Sewers.

The Vice-Chairman put the question whether the Board would agree to accept said report and adopt said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Carter, Cole, Collins, Davies, Diemer, Dotzler, Doull, Dowling, Downing, Doyle, Freeman, Grifenhagen, Gunther, J. J. Hahn, Herold, Kenneally, Kuck, Kuntze, Lawlor, Leverett, Levine, Linde, Meyers, Moffitt, Monahan, Morris, Mulligan, O'Neill, Peters, Potter, Rendt, Richter, Schloss, Schneider, Stapleton, Sturges, Torpey, Wafer, President Haffen and the Vice-Chairman—44.

#### MOTIONS, ORDINANCES AND RESOLUTIONS AGAIN RESUMED.

No. 2145.

By the Vice-Chairman—

Whereas, The extent or the limitation of the powers of this Board is a question that frequently arises, creating much discussion and often unwise and at times illegal legislation; and

Whereas, The laws of the State, under which the Board exercises its authority, are voluminous, and in instances seem to be contradictory or at variance; therefore

Resolved, That the Committee on Laws and Legislation be and it hereby is instructed to take under immediate consideration the advisability of employing some competent person to prepare a digest of the statutes under which the Board exercises its powers, with such annotations as are wise and appropriate.

Resolved, That said Committee on Laws and Legislation shall confer with the Corporation Counsel with the view of selecting from his department the person to perform that duty; and if for any reason it be deemed impracticable to so employ an attaché of the office of the Corporation Counsel, the committee shall recommend to this Board some one qualified for these duties, together with such suggestions as to compensation as seems just and proper.

Which was adopted.

No. 2146.

By Alderman Schneider—

Whereas, On the 15th day of June, 1904, occurred the disaster to the steamship "General Henry W. Slocum," in which many hundreds of lives were lost; and

Whereas, The citizens of The City of New York were deeply shocked at this appalling catastrophe, many of those who lost their lives on that day being interred as unidentified dead; and

Whereas, The survivors of the "General Slocum" disaster did erect a monument at Lutheran Cemetery, Middle Village, Long Island, on the 15th day of June, 1905, the anniversary of the day of the fatal disaster; therefore be it

Resolved, That the Mayor of The City of New York be and he is hereby requested to order that the National, State and City flags be displayed at half mast on the several public buildings of The City of New York on the 15th of June, 1907.

Which was unanimously adopted by a rising vote.

No. 2147.

By Alderman Schloss—

Whereas, It is alleged that the administration of the public markets of The City of New York is such as to cause serious complaints from the public which frequents the buildings and the tenants of stands therein.

Resolved, That the Mayor is requested to include within the scope of the pending investigation by his Commissioners of Accounts the conduct of the markets by the Bureau of Markets of the Finance Department, the care of the buildings by the Bureau of Public Buildings and Offices, and the supervision of sanitary condition of the Department of Health.

Which was adopted.

No. 2148.

By Alderman Reardon—

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that the watering trough now located on the southwest corner of Seventy-ninth street and Avenue A, in the Borough of Manhattan, be removed and relocated and maintained on the northwest corner of Seventy-ninth street and Avenue A.

Which was adopted.

No. 2149.

By Alderman Mulligan—

Resolved, That Joseph L. Hunt, of Matilda street, near Two Hundred and Thirty-seventh street, Wakefield, in the Borough of The Bronx, be and he is hereby appointed a City Surveyor.

Which was referred to the Committee on Salaries and Offices.

No. 2150.

By the same—

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that gas mains be laid, lamp posts erected and street lamps placed thereon and lighted on Penfield street, from White Plains avenue to its easterly boundary, Wakefield, in the Borough of The Bronx.

Which was adopted.

No. 2151—(G. O. No. 313).

By Alderman Morris—

Resolved, That Walter V. McCoy, of No. 2036 Webster avenue, in the Borough of The Bronx, be and hereby is appointed a City Surveyor.

Alderman Meyers moved that this resolution be referred to the Committee on Salaries and Offices.

Which motion was lost.

Alderman Brown moved to adjourn.

The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Bartscherer, Brown, Bunting, Carter, Downing, Freeman, Gunther, Herold, Kuck, Meyers, Moffitt, Sturges—12.

Negative—Aldermen Ahner, Callahan, Cole, Collins, Dotzler, Dowling, Doyle, Fried, Grifenhagen, Haggerty, Kenneally, Kuntze, Lawlor, Leverett, Levine, Morris, Mulligan, O'Neill, Peters, Potter, Richter, Schloss, Schneider, Stapleton, Sullivan, Torpey, Wafer, and President Haffen—28.

Alderman Morris then moved that the resolution be laid over and made a General Order.

The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Callahan, Cole, Collins, Dowling, Doyle, Fried, Haggerty, Kenneally, Leverett, Levine, Morris, Mulligan, O'Neill, Peters, Richter, Stapleton, Sullivan, Torpey, Wafer; President Haffen and the Vice-Chairman—23.

Which was adopted.

No. 2153.

By Alderman Meyers—

Resolved, That the following resolutions be and they are hereby placed on file:

No. 2016.

Resolution to fix salaries of certain positions in the Law Department. Page 824, Minutes of May 21, 1907.

(This is filed at the request of the Law Department, for the reason that another resolution is to be sent to the Board of Estimate and Apportionment.)

No. 2065.

Communication from the Board of Estimate and Apportionment, notification of appointment of Special Committee to consider the matter of salary for position of Searcher, Borough of Brooklyn. Page 896, Minutes of May 28, 1907.

Which was adopted.

No. 2154.

By Alderman Linde—

Whereas, The City of New York is soon to begin the operation of its own ferry from Whitehall street, in the Borough of Manhattan; to Thirty-ninth street, in the Borough of Brooklyn, a municipal undertaking that marks a long step in the wonderful progress of our imperial City, an event which should be fittingly celebrated; therefore

Resolved, That a special committee of nine members of this Board be appointed to make suitable arrangements for the opening celebration of the new municipal ferry between the Boroughs of Manhattan and Brooklyn.

Resolved, further, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to an amount not exceeding ten thousand dollars (\$10,000), the proceeds whereof shall be applied to meet all necessary expenses incurred by the special committee appointed hereunder in the celebration of the opening of the new municipal ferry established by The City of New York between the Boroughs of Manhattan and Brooklyn.

Which was referred to the Joint Committee on Finance and Rules.

No. 2155.

By Alderman Kuntze—

Resolved, That permission be and the same is hereby given to M. F. Westergreen to erect and maintain a terrace within the stoop line on the northeast corner of Waltham avenue and One Hundred and Forty-sixth street, in the Borough of The Bronx; the work to be done at his own expense, under the direction of the President of the Borough; such permission to continue only during the pleasure of the Board of Aldermen.

Which was adopted, Alderman Meyers voting in the negative.

No. 2156.

By Alderman Kenneally—

Whereas, John Boyle, an Inspector of Sewers in the Department of Sewers, in the Borough of Manhattan, has been almost continually employed by The City of New York for a period of nearly thirty-three years; and

Whereas, The said John Boyle was regularly assigned to duty on the sewer in the Borough of Manhattan, located on West Thirty-ninth street, between Eleventh avenue and the Hudson river, where, owing to the nature of the ground the sewer could only be worked upon during the ebb tide; and

Whereas, On many days this work could be wrought only in the night time, after the regular or day's work was over, therefore requiring the said Boyle to work overtime to the amount of 2,432 hours, which at the rate of \$1 per hour, the regular or standard rate for overtime service for such work, amounts to \$2,432, for which service the said Boyle has not been compensated;

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand four hundred and thirty-two dollars (\$2,432), the proceeds whereof shall be applied to the payment of John Boyle, an Inspector of Sewers in the Borough of Manhattan, for overtime amounting to 2,432 hours, at \$1 per hour, rendered by him to The City of New York.

Which was referred to the Committee on Finance.

No. 2157.

By Alderman Grifenhagen—

Resolved, That the appended memorandum of suggestions relating to adequate facilities for the Courts of this County be and the same is hereby referred to the Committee on Public Buildings, with instructions to hold public hearings and to take such action as may be prudent in the matter.

#### Supreme Court Site.

The question of a new County Court House (to house the Supreme Court, City Court and County Clerk's office) is one that should receive serious consideration. The present condition of the various parts of the Supreme Court, and of the offices of the County Clerk is deplorable. It is generally admitted that the building is unsanitary.

The Board of Estimate and Apportionment having rejected the Union square site, I desire to submit a plan which, it seems to me, would relieve the situation, save

millions of dollars and much valuable time. Both the City and taxpayers would be benefited by the adoption of the plan, as follows:

First—The site for a new building, or rather an addition to the present building, to be on Chambers street (south side), between Broadway and Centre street.

Second—As the City owns the land it could begin operations within a very short time, thereby saving thousands of dollars for condemnation proceedings. The proceedings would be necessary if the City had to purchase a new site, thereby causing many years of delay and a very heavy cost to the taxpayers. There seems to be no necessity for leaving the large and valuable space on the east and west ends of the present County Court House unoccupied. There would be ample park area without these two plots.

Third—To build an addition on the west of the present Court House, going as near Broadway as ground would permit. This extension to be one or two or more stories higher than the present structure.

Fourth—As soon as the new addition is completed the City Court to move therein.

Fifth—Remove the old brown stone building now occupied by the City Court and begin erecting an addition to the east of the present Court House, going as near to Centre street as ground would permit; also going up one, two or more stories to conform to the west wing.

Sixth—Move as many parts of the Supreme Court into the new wing or wings as is possible and lease sufficient room to house the remaining parts and the County Clerk's office in some nearby building until such time as an entirely new interior can be provided in the old structure.

Seventh—After the old structure is vacated take out the entire inside of the building where necessary, leaving only the floorings. Remodel the interior in an up-to-date, modern manner; adding in height to conform to the new east and west wing extensions and in every way to be the same as the new wings mentioned.

Eighth—The architecture of the new additions to be similar to the present building, and the southerly addition (added many years ago and which does not conform to the architecture of the present structure) to be removed when new building is completed, or possibly while construction is going on.

The City would thus have a Court House within its limits worthy of our metropolis. The plan here outlined appears feasible; the building would be centrally located, considering the boroughs of Brooklyn and Richmond, as nearly all the lawyers practicing in our great City have their offices below Pearl street. The Subway, with its most important express station, is at the entrance. Ferries are close by, the entrance of the Brooklyn Bridge is but a few hundred feet away, the entrance to the new Manhattan Bridge will likewise be near. Criminal Courts, the Tombs, Federal Courts and a great many departments of the City and Federal Government are all near by. The site seems most convenient and accessible, and from every viewpoint a most popular location.

In conjunction with the above I desire to submit another plan for future consideration, to wit:

The departments of the City Government are very much scattered between the Battery and Fifty-ninth street, and the citizens are very much inconvenienced by this distribution of departments.

I suggest the following:

First—The City of New York should acquire all the land not now owned by it lying north of Reade street and south of the newly constructed Police Headquarters and within the territory known as Lafayette street and Centre street, excluding the property on the west side of Lafayette street and that lying on the east side of Centre street, about seven (7) small blocks.

Second—This property could be purchased at a reasonable price as it is mostly occupied by old buildings.

Third—The City now owns within the territory above mentioned the Criminal Courts Building and the Tombs, and if the above suggestion would be put into effect every department of the City Government (after the new buildings have been erected for the purpose) could be properly housed therein, making one continuous stretch of City buildings, with every department of the City Government therein, from the City Hall to the new Police Headquarters. The public could thus transact its business with a few moments' walk from one to the other.

Fourth—The entrances to the three great bridges connecting Manhattan and Brooklyn would be within above territory.

Fifth—Real estate values would certainly increase in this vicinity and the enormous amount of money paid by the City each year for rentals would cease.

Which was adopted.

No. 2158.

By Alderman Fried—

Resolved, That Milton Kempner, of No. Henry street, in the Borough of Manhattan, be and he is hereby appointed a City Surveyor.

Which was referred to the Committee on Salaries and Offices.

No. 2159.

By Alderman Doyle—

Resolved, That permission be and the same is hereby given to Frederick C. Boege to place and keep two storm doors, one at the corner and one on the Washington street side of his premises on the corner of Washington and Harrison streets, in the Borough of Manhattan, provided said storm doors shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

Which was adopted.

No. 2160.

By Alderman Dowling—

Whereas, It is charged that many of the cars of the New York City Railway Company, and particularly those operated on the said company's Ninth avenue line, are equipped with flat wheels; and

Whereas, The use of flat wheels on railroad cars causes noises that are annoying and disagreeable to householders along thoroughfares on which they are operated and makes it extremely uncomfortable for passengers who ride in cars so equipped, affecting in marked degree the health of the community; and

Whereas, Constant complaints against the use of said flat wheels have failed to bring about an abatement of the nuisance; therefore

Resolved, That the subject herein set forth be respectfully referred for investigation to the Public Utilities Commission, with jurisdiction embracing Greater New York, when appointed.

Which was referred to the Committee on Railroads.

No. 2161.

By Alderman Dotzler—

Resolved, That William Berliner, of No. 355 East Eighth street, in the Borough of Manhattan, be and he is hereby appointed a City Surveyor.

Which was referred to the Committee on Salaries and Offices.

No. 2162.

By Alderman Carter—

Resolved, That it is recommended to the Commissioner of Water Supply, Gas and Electricity that two lamp-posts be erected, street lamps placed thereon and the same lighted in front of the Arverne Synagogue, at Vernam avenue and the Boulevard, Arverne, in the Borough of Queens.

Which was adopted.

#### DEPARTMENT OF CORRECTION.

##### REPORT OF TRANSACTIONS, MAY 6 TO 12, 1907.

##### Communications Received.

From the Board of Estimate and Apportionment—Assistant Secretary transmits copy of a resolution, which reads as follows:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding twenty thousand dollars (\$20,000) to provide means for a new steamboat for the use of the Department of Correction of The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding twenty thousand dollars (\$20,000), the proceeds whereof to be applied to the purposes aforesaid.

A true copy of a resolution adopted by the Board of Estimate and Apportionment May 3, 1907.

(Signed) WILLIAM M. LAWRENCE, Assistant Secretary.

File with General Bookkeeper and Auditor.

From the Board of Aldermen—City Clerk transmits copy of a resolution which reads as follows:

Whereas, The Board of Estimate and Apportionment, at a meeting held March 22, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the grade of position of Probation Officer in the office of the Board of Parole, in addition to those already existing therein, with salary at the rate of \$1,400 per annum, for two incumbents, to take effect April 1, 1907."

Resolved, That the Board of Aldermen hereby concurs in said resolution, and fixes the salaries of the above positions as set forth therein.

Adopted by the Board of Aldermen April 30, 1907, a majority of all the members elected voting in favor thereof.

Approved by the Mayor May 7, 1907.

(Signed) P. J. SCULLY, Clerk.

Acknowledge receipt and file with General Bookkeeper and Auditor.

From Office of the Mayor—Assistant Corporation Counsel, in office of the Mayor, states that the five competing architects for the new penitentiary to be erected on Riker's Island, had selected Mr. Walter Cook, Mr. William Rutherford Mead and Mr. Robert S. Peabody as a jury to pass upon the plans, and to select an architect for such penitentiary. A copy of "Terms of Competition" should be sent to each member of the jury.

Notify Mr. Walter Cook, No. 3 West Twenty-ninth street, New York City; Mr. William Rutherford Mead, No. 160 Fifth avenue, New York City, and Mr. Robert S. Peabody, No. 53 State street, Boston, Mass., of their selection, and send to each a copy of "Terms of Competition."

From Civil Service Commission—Referring to request for eligible list for "Instructor of Industries." The Commission asks that the duties of the position, its requirements and scope, be outlined.

Letter setting forth the requirements of said position sent to Civil Service Commission.

From the Comptroller—Stating that certificate was indorsed upon the contract of William Horne Company, for new roof, etc., for Workhouse, Blackwell's Island, on May 7, 1907, and same is now a valid contract.

Working days to be counted from May 13, 1907. Contractor, Warden Fox and Department Inspector notified.

From the Comptroller—Returning proposal of Electric Construction and Supply Company for underground feeder cables, Hart's Island, with approval of the sureties.

Award to be made and contracts drawn.

## BOARD OF EXAMINERS.

May 7, 1907.

Present—Messrs. Warren A. Conover, Charles Buck, Lewis Harding, Charles G. Smith, Edward F. Croker, Henry R. Marshall and William J. Fryer, Chairman.

Meeting called to order at 2 p. m.

On motion, minutes approved as read.

Warren A. Conover announced that the Mechanics and Traders Exchange had re-appointed him as one of its representative members of this Board of Examiners for the ensuing year, and had so certified him to the Mayor; that he had taken the usual oath of office before the Mayor, and that his certificate of appointment had been duly filed in the Mayor's office.

Lewis Harding announced that the Mechanics and Traders Exchange had re-appointed him as one of its representative members of this Board of Examiners for the ensuing year, and had so certified him to the Mayor; that he had taken the usual oath of office before the Mayor, and that his certificate of appointment had been duly filed in the Mayor's office.

Appeal 17 of 1907, Alteration 133B of 1907, north side One Hundred and Forty-third street about 100 feet from northwest corner Third avenue, The Bronx; B. & J. P. Walthers, architects and appellants.

No. 4. Columns in cellar and first story will be overloaded.

No. 5. Soil under columns will be overloaded.

An appeal has been made to the Superintendent that the calculations for live floor load be made at 75 pounds per square foot, which appeal has been denied by the Superintendent of Buildings of the Borough of The Bronx.

(1) The footings having been down for a period of two (2) years are now well set and well settled and better than if put down new, of the small increased size required.

(2) As the columns now in cellar and first story have been in position for two years are in better condition than if new.

(3) That the live load as set forth in the Code, for this class of buildings, is excessive and that the live load of 75 pounds per square foot asked for is more than ample and more than will be imposed upon the columns, footings, girders, floor beams, etc.

That the calculations for the live load be made at rate of 75 pounds per square foot on the first, second and third story floors in place of the load prescribed by the Code, which is excessive for this class of buildings.

First—That the live load of 75 pounds per square foot is ample for this class of a building and more than will be imposed upon the columns and footings and will be amply strong for the purposes for which it is to be used.

The columns and footings now in place are in good condition and well seasoned.

Messrs. Walthers and Rogers appeared before the Board.

On motion, denied.

Appeal 18 of 1907, New Building No. of 1907, south side of Surf avenue, corner New Iron Pier walk, Coney Island, Brooklyn; Henry D. Whipple, architect and appellant.

The Superintendent of Buildings of the Borough of Brooklyn has rejected or refused to approve the mode, manner of construction or materials proposed to be followed or used in the erection of the building or structure in question, on the ground that it exceeds the limit of 40 feet in height prescribed for frame buildings as per Building Code, section 146, page of The City of New York.

The Superintendent of Buildings of the Borough of Brooklyn, David F. Moore, has rejected or refused to approve the mode, manner of construction or materials proposed to be followed or used in the erection of the building or structure in question.

The right and authority of the applicant to construct and erect the building or structure in question so that portions of same may be 58 feet in height, being part of the incline and of the segment of the curve at the southerly extremity. The structure at the curve at the southerly extremity will be tied together from side to side, making in reality a solid frame work, 79 feet wide, as shown on the plans submitted. The applicant further desired that the structure shall be entirely of wood.

This being a gravity railroad amusement device and the track from start to finish being 3,000 feet in length, it is absolutely necessary to have the top of the incline 50 feet above the lowest point in order to have the cars return home to the starting point without any other impetus than their own weight.

Mr. Henry D. Whipple appeared before the Board.

On motion, approved.

Appeal 19 of 1907, Alteration No. of 1907, No. 40 Broadway, Brooklyn; Slee & Bryson, architects and appellants.

No. 1. The building is partly open and the Superintendent of Buildings claims it is an open shed.

The building is a substantially built structure and of sufficient value to make the following repairs:

All old or defective posts and girders are to be removed and replaced with new materials, all wood partitions now on the south side and east side of the building are to be removed and same is to be enclosed with angle irons and corrugated iron, the space now open is to be enclosed in the same manner.

New windows are to be built in three sides of the structure and new skylights are to be built in the roof. The entire exterior of the building is to be covered with metal.

New water closet accommodations are to be provided.

Can we alter, repair and enclose the building as herein described?

The building after repairs and alterations are completed will be nearer a fireproof structure and will be occupied as a shop, and furthermore, the structure will be kept in a good, cleanly and substantial condition and will not be used for any purpose that will be a nuisance to the community.

No appearance.

On motion, denied.

Appeal 20, of 1907, Alteration No. of 1907, premises No. 142 Willow street, Brooklyn; Howard S. Hadden, architect and appellant.

The present walls of third story are not thick enough to carry an additional story. The front wall being 12 inches and the other walls 8 inches in thickness they are sufficiently strong to carry the additional story and that the two houses adjoining one on either side are carried up 12 feet above the roof of this house and are substantial walls.

If an additional story can be built on present walls of third story?

That as the additional story is to be used as bedrooms very little extra weight will be placed upon the present walls.

On motion, laid over.

Adjourned.

EDWARD V. BARTON, Clerk.

## PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD HELD IN NO. 320 BROADWAY, ON THURSDAY, MAY 23, 1907.

There were present—John H. Starin, Vice-President, presiding; Mayor George B. McClellan, Comptroller Herman A. Metz, and Commissioners Woodbury Langdon, Charles Stewart Smith and William S. Hurley, appointed to succeed Lewis Cass Ledyard.

George L. Rives and Morgan J. O'Brien, Counsel; George S. Rice, Chief Engineer, and Alfred Craven, Deputy Chief Engineer, also were present.

The minutes of the meeting of the 16th of May were read, and it was moved that they be approved.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon, Smith and Hurley.

Nays—None.

Carried.

Letter of the Chief Engineer was read as follows:

May 16, 1907.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Board:

DEAR SIR—On May 14 two bids were received for the construction of Section 9-0-3 of the Brooklyn loop lines, one from the Degnon Contracting Company of \$2,875,000, and the other from the Cranford Company of \$2,210,000. My estimate for this work is \$1,900,000.

The bid of the Cranford Company is a reasonable one, and I respectfully recommend that it be accepted. They have done considerable work of this nature, and, in my estimation, are well qualified to carry out such a contract.

I have carefully gone over the quantities for the three remaining sections of the Brooklyn loop lines and estimate the amount to be between three and four millions of dollars, making the total cost of the construction of the loop lines between eight and nine millions of dollars.

This is the first estimate I have been able to make of the whole Brooklyn loop line in Manhattan, based on the construction of pipe galleries, which considerably increases the cost of all construction, as is apparent by the bids received for the first two sections, 9-0-2 and 9-0-3.

Very truly yours,

(Signed) GEORGE S. RICE, Chief Engineer.

The following resolution was moved:

Resolved, That this Board hereby accepts the proposal of the Cranford Company, dated May 14, 1907, for the construction of the Brooklyn loop lines rapid transit railway, which lies in Centre street (Borough of Manhattan), between Canal and Broome streets, and also the proposal of the said contracting company to construct pipe galleries in connection with the said railway, the prices being \$2,150,000 for construction of the railway and \$60,000 for construction of the pipe galleries.

Resolved, That the President or Vice-President and Secretary be and they are hereby authorized, on behalf of the Board, to execute a contract in the form attached to the said proposal and to deliver the same if and when consented to by the Board of Estimate and Apportionment and upon compliance by the said Cranford Company with the requirements of the invitation to contractors attached to the said proposal.

Resolved, That the President or Vice-President and Secretary be and they are hereby authorized and instructed to request the Board of Estimate and Apportionment to consent to the said contract and to prescribe a limit to the amount of bonds

available to meet the requirements of the said contract, to wit, the sum of \$2,150,000 for construction of the said railway, and \$60,000 for construction of pipe galleries in connection therewith; and also to request the said Board of Estimate and Apportionment to direct the Comptroller of The City of New York to issue bonds of said City bearing interest at the rate of 4 per cent. per annum, for the purpose of providing the necessary means for construction at the public expense of the said portion of the railway and the said pipe galleries.

Resolved, That the Secretary give notice to the said Cranford Company that its proposal has been accepted and the contract awarded to it by this Board, subject to approval by the Board of Estimate and Apportionment, as required by law.

Resolved, That it be referred to the Comptroller to inquire into the sufficiency of the sureties proposed to be given by the said Cranford Company, and in case the sureties named in proposal of the said company or any of them are not approved then to inquire into the sufficiency of any other or substituted sureties, and in behalf of the Board to do all such acts as may be necessary and incidental to the furnishing of a proper bond, and to act for and on behalf of the Board and in its name in relation thereto.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon, Smith and Hurley.

Nays—None.

Carried.

The Secretary reported that he had transmitted to the Board of Estimate and Apportionment and the Corporation Counsel form of contract for their approval for that portion of the Brooklyn loop lines in the new extension of Delancey street, between Centre street and the Bowery, as authorized by the Board, with communications as follows:

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
No. 320 BROADWAY, NEW YORK.

## To the Board of Estimate and Apportionment:

Pursuant to the provisions of law, the Board of Rapid Transit Railroad Commissioners for The City of New York herewith transmits to your Honorable Board the form of a proposed contract for the construction of a part of the proposed Brooklyn loop lines in the new extension of Delancey street, between Centre street and the Bowery, Borough of Manhattan, and requests your approval of the said contract for advertising for bids to perform the work therein specified.

The contract is identical in form with the one for that portion of the Brooklyn loop lines in Centre street, between Pearl and Canal streets, which was approved by your Board by resolution adopted the 8th of March, 1907, with the exception only of such changes as are necessitated by the difference in section.

The said proposed contract has also been transmitted, as required by law, to the Corporation Counsel for his approval as to form.

In witness whereof, the Board of Rapid Transit Railroad Commissioners for The City of New York has caused its seal to be hereto affixed and these presents to be signed by its Secretary this 16th day of May, 1907.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS

[EAL.]

FOR THE CITY OF NEW YORK.

(Signed) BION L. BURROWS, Secretary.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
No. 320 BROADWAY, NEW YORK,  
May 16, 1907.

Hon. WILLIAM B. ELLISON, Corporation Counsel, Hall of Records, New York:

SIR—I beg leave to hand you herewith six copies of a proposed contract for the construction of that portion of the Brooklyn loop lines in the new extension of Delancey street, between Centre street and the Bowery, Borough of Manhattan, and I am directed by the Rapid Transit Board to request your approval to the form of said contract, as required by the provisions of section 13, chapter 752, of the Laws of 1894.

If you find the form correct, kindly sign the approval in the place indicated (immediately after the invitation to contractors), and return three copies so approved to me.

The form is identical with that of the contract for that portion of the Brooklyn loop lines in Centre street, between Pearl and Canal streets, which has already been approved by you.

Yours respectfully,  
(Signed) BION L. BURROWS, Secretary.

Communication, with resolution, of the Board of Estimate and Apportionment, was read as follows:

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE SECRETARY, ROOM 805, NO. 277 BROADWAY,  
May 17, 1907.

Hon. A. E. ORR, President, Board of Rapid Transit Railroad Commissioners:

SIR—I transmit herewith certified copy of resolution this day adopted by the Board of Estimate and Apportionment, approving of the proposed form of contract submitted by the Board of Rapid Transit Railroad Commissioners, with a communication dated May 16, 1907, for the construction of a part of what are more particularly known as "Brooklyn loop lines" (Centre street to the Bowery).

Respectfully,

(Signed) JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby approves of the proposed form of contract submitted by the Board of Rapid Transit Railroad Commissioners for The City of New York, with a communication dated May 16, 1907, for the construction of a part of what are more particularly known as "Brooklyn loop lines" (Centre street to the Bowery).

A true copy of resolution adopted by the Board of Estimate and Apportionment May 17, 1907.

(Signed) JOSEPH HAAG, Secretary.

Communication of the Corporation Counsel was read as follows:

May 20, 1907.

## To the Board of Rapid Transit Railroad Commissioners:

SIRS—A communication from your Secretary, dated May 16, 1907, has been received. It reads as follows:

"I beg leave to hand you herewith six copies of a proposed contract for the construction of that portion of the Brooklyn loop lines in the new extension of Delancey street, between Centre street and the Bowery, Borough of Manhattan, and I am directed by the Rapid Transit Board to request your approval to the form of said contract, as required by the provisions of section 13, chapter 752, of the Laws of 1894."

"If you find the form correct, kindly sign the approval in the place indicated (immediately after the invitation to contractors), and return three copies so approved to me."

"The form is identical with that of the contract for that portion of the Brooklyn loop lines in Centre street between Pearl and Canal streets, which has already been approved by you."

Said proposed contracts are herewith returned approved as to form.

Respectfully yours,

(Signed) JOHN L. O'BRIEN,  
Acting Corporation Counsel.

Communication of the Mayor's Executive Secretary, transmitting one of the President of the Borough of Brooklyn, was presented as follows, and referred to the Committee on Plans and Contracts:

May 20, 1907.

## To the Secretary of the Rapid Transit Commission:

SIR—The Mayor directs me to transmit, for consideration by your Board, the enclosed communication, dated the 15th inst., from the President of the Borough of Brooklyn, with reference to the construction of Rapid Transit Subways in that borough.

Respectfully,

(Signed) WILLIAM A. WILLIS,  
Executive Secretary.

May 15, 1907.

Hon. GEORGE B. MCCLELLAN, Mayor, City of New York:

SIR—As a member of the Board of Rapid Transit Railroad Commissioners, I call your attention to the very important transit proposition now before your Commis-

sion in the reference of report of Chief Engineer Rice, advocating the immediate construction by the City of a substantial portion of the so-called tri-borough route.

You no doubt desire to act impartially in voting public funds so as to benefit various sections of the city in a fair and impartial degree, and at the same time to provide for the development and growth of the city as a unit. It is with this thought especially in mind that I call your attention to the unfair proposition embodied in report of Chief Engineer Rice, laid before the Board on May 9, in that no provision is made for the construction of any part of the tri-borough system in this borough other than two tracks extending from Fulton street to Fortieth street, costing on the Engineer's estimate about three million dollars. When we consider the conditions under which about nine million dollars was definitely set aside for the construction of the Brooklyn subways as far back as 1903, before bids were taken on the Joralemon street tubes, and the fact that through competition for this valuable and long-term franchise the work was done for about 25 per cent. of the Engineer's estimate, and consider further the wonderful development of the Borough of Brooklyn, which is I believe second to no city in the Union, as determined by building operations, you will, I am sure, agree that we may reasonably expect a very much larger apportionment of a forty million dollar proposition than is embodied in Mr. Rice's suggestion.

You are familiar with the work which I have accomplished in originating and carrying on this scheme of the tri-borough subway, the great benefit of which is now recognized by the people of Manhattan and The Bronx, and my unremitting efforts to get the matter in the shape in which it is now, approved as it is by the unqualified endorsements of the Board of Estimate, of the Rapid Transit Commission, and now urged for immediate construction and real control by the City, so as to permit of non-exclusive operation and municipal control without direct municipal operation.

The utilization of the so-called Brooklyn subway loop as a part of the Fourth avenue system is the natural and proper result of the construction of that loop with a view to its operation for the City's interest, and not for the interest of any particular corporation. The loop itself is a key to the interborough transportation situation. To give an exclusive franchise to any company in connection with the operation of this loop would be to put the two boroughs in the power of that company in so far as their channels of transportation are concerned. There is in the Livingston street franchise a clause inserted at my suggestion, which the railroad company has accepted, which provides that the City shall retain the right to consent to the use of Livingston street for railroad purposes by any corporation which may apply for such franchise in the future, or may itself, in the event of legislative enactment allowing municipal operation, use the street for the purpose stated under conditions which provide for a fair compensation for work actually done and service actually rendered to the original holder of the franchise.

From the fact that the Brooklyn subway loop is to be constructed through Broadway, Lafayette avenue, Fulton street and Flatbush avenue extension, in this borough, with the Manhattan connection to all three bridges in Manhattan, some of the arguments for the complete Tri-Borough line as a pressing need of this borough do not have equal effect to-day, for by the expenditure of about \$20,000,000, to be extended over a term of three years, the City can immediately proceed to construct the entire authorized four-track lines connecting with the Brooklyn subway loop (the McDonald line) through Ashland place and Fourth avenue to Fort Hamilton, and by Fortieth street, New Utrecht avenue, Eighty-sixth street and Stillwell avenue to Coney Island, and such lines would be entirely independent and complete with the Brooklyn subway loop now building in Manhattan. To construct only two tracks at a time on Fourth avenue, as Mr. Rice proposes, would not, as a matter of fact, save 50 per cent. of the cost between Fulton street and Fortieth street, and I would strongly advise against any such false economy.

When you consider his proposition to build every foot of the Pelham Bay route which I laid out a year ago, running as it does into a district now traversed as far as the intersection of Westchester avenue and the Southern boulevard by the subway line already serving that borough, and, on the other hand, turn to the greater extent and population and taxpaying status of the Borough of Brooklyn, and the time of waiting for the subway extension on at least the Fourth avenue route, which was promised years ago, it would seem that there can be no question about the proper utilization of a very substantial portion of the City's margin of credit available after July 1. By authorizing construction of the Fort Hamilton and Coney Island lines a conservative step will be taken by the City in providing for the definite control of very valuable routes, which cannot be duplicated on account of the topographical features of the southern Brooklyn section.

My Consulting Engineer has laid before the Engineers of the Rapid Transit Commission and before the Comptroller, with his Chief Engineer, the proposition for the utilization of the excavated material on the route of the Fourth avenue and Coney Island subways, by which convenient filling ground will be provided at a number of points on this route, saving, on the one hand, a large amount in the cost of construction, and, on the other hand, providing the City with material (which must be provided without great delay, and would, under other conditions, cost more than \$2,000,000) for the grading of these improvements, including the Eighth Ward Market site, the Thirty-ninth street ferry improvement, the Shore road improvement, the Dyker Meadow grading and the Bensonhurst grading and filling, necessitated by the sewer system about to be adopted there. Such economical arrangement is only possible through the immediate construction of the Brooklyn lines, and while it is a mere detail as compared with the great importance in the extensions of the transit facilities, a wise management of the City's interests must take into consideration these features of the borough development.

I therefore urge you to advocate the immediate construction, with at least a portion of the Bowery line, of the four-track subways already approved, to Fort Hamilton and to Coney Island, giving on completion an independent route into and through a portion of Manhattan, utilizing the two great bridges and connecting with the old bridge, and extending through the Bowery as fast as construction can be completed there, and ultimately to operate through to Pelham Bay, in The Bronx.

Respectfully yours,  
(Signed) BIRD S. COLER,  
President of the Borough of Brooklyn.

Communication of the Citizens' Committee of One Hundred, of Brooklyn, on the same subject as above, and one from the Committee of One Hundred, of The Bronx, urging the immediate advertising of elevated extensions in that borough, were also referred to the Committee.

Letter of F. B. Behr, with inclosures, was read as follows, and referred to Counsel to draft a reply to Mr. Behr:

THE BEHR MONORAIL,  
No. 80 WALL STREET,  
NEW YORK, May 20, 1907.

To the Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

GENTLEMEN—I have to acknowledge the receipt of your letter of 17th inst., and I now beg to inclose my formal acceptance of the conditions set forth in the report of your Committee and adopted by your Board at its meeting of the 9th inst.

If your Honorable Board will be good enough to instruct your Engineer-in-Chief to go over the proposed line of route as soon as possible, so as to prepare it for your final consideration, I shall feel very much obliged.

For that purpose I beg to inclose herein a detailed description of the route I propose.

After many conferences with property owners and others interested in the route, I have made certain alterations in that route, and I think that I have now given consideration, as far as it is possible, to all, so that I hope that the route as now altered will meet with your final approval.

I have the honor to remain,

Yours very truly,  
(Signed) F. B. BEHR.

NEW YORK, May 20, 1907.

To the Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

GENTLEMEN—Referring to the report of the Committee on Plans and Contracts in the matter of my application to your Board that you lay out an elevated line in Brooklyn from Atlantic ferry to Coney Island, to be operated by my monorail system, which report was adopted by your Board at its meeting of the 9th of May, 1907, I now beg to inform your honorable Board that I am prepared to enter into a proper legal contract to grant to the City the right to the free use of my patents for the construction of the above-mentioned line and to give formal and definite assurances to the Board that I will bid for the construction of the road a sum not exceeding \$1,000; that I will pay the expenses of procuring the consents of the requisite number of property owners along the line, or, failing that, the expenses of the application for the appointment, fees and disbursements of the Appellate Division to hear and determine in lieu of such consents; that I will by the terms of the contract to be awarded to me undertake to indemnify and save harmless the City from all claims for damages from property owners for the taking of their easements for light, air and access, by reason of the construction of the proposed railroad; that I will pay to the City, in addition to the minimum rental required by section 34-A of the Rapid Transit Act, an additional sum of 50 cents per foot for every foot of single track constructed under such contract during the period of the lease for the first ten years, and \$1 per foot for the next ten years; provided, of course, that the lease were for a period of twenty years with a renewal of twenty years more.

In order to give a substantial guarantee that I will carry out these arrangements, and in order to meet the expenses of such surveys and borings as may be necessary and the cost of applying for the consents of the property owners, or in lieu thereof to the Appellate Division of the Supreme Court, I agree to deposit with the Commission the sum of \$25,000, to be used for the purposes indicated, and to be accounted for by the Commission to me.

This sum of \$25,000 shall be deposited by me with the Commission within forty-eight hours after the Commission shall have finally approved a route for the proposed railroad, such as may be mutually agreed upon between the Commission and myself, and after the terms embodied in the report adopted by your Board on the 9th day of May, 1907, shall have been approved and ratified by the Board of Estimate and Apportionment.

I presume that the contract embodying the above conditions will be drawn up by the counsel to the Commission in consultation with my legal representative, and that said contract will contain the usual provisions that said deposit will be returned, in the event of some other bidder being awarded the construction of the said proposed railroad.

I have the honor to remain,

Yours very truly,  
(Signed) F. B. BEHR.

Communication of the Hudson and Manhattan Railroad Company was read, as follows:

May 20, 1907,

Board of Rapid Transit Railroad Commissioners for The City of New York, Hon. ALEXANDER E. ORR, President, No. 320 Broadway, New York City:

DEAR SIR—Referring to the certificate of your Board to the Hudson and Manhattan Railroad Company, dated February 28, 1907, further modifying certificate dated February 2, 1905, to the New York and Jersey Railroad Company, we beg to inform you that the Hudson and Manhattan Railroad Company has determined to construct the several exits from the tunnel (mentioned in Article First of said certificate) at the surface of the following streets:

Fourteenth street, near the westerly side of Sixth avenue; Twenty-third street, near the westerly side of Sixth avenue; Twenty-eighth street, near the easterly side of Sixth avenue; Twenty-ninth street, near the westerly side of Sixth avenue; the same to be in substantial accordance with the drawings or plans submitted to your Board by this company and entitled, "New York and Jersey Railroad, Sixth Avenue Extension," dated November 13, 1906, and numbered respectively 2564, 2565 and 2577.

This notice is given in compliance with the provisions of Article First of said certificate.

Yours respectfully,  
HUDSON AND MANHATTAN RAILROAD COMPANY,  
(Signed) By W. G. McADOO, President.

Notices of liens against the New York Tunnel Company by Cook & Cokefair, in the sum of \$1,810.12, and William Verity and Charles R. Robertson, in the sum of \$1,304.42, were presented, and it was understood that the Comptroller would be notified.

Letter of the Chief Engineer, with form of notice, was read, as follows, and the following resolution was moved:

NEW YORK, May 20, 1907.

Hon. JOHN H. STARIN, Vice-President, Rapid Transit Board:

DEAR SIR—In the matter of notices to be sent to property owners along the route of new subways requiring the vacation of vaults, etc., I respectfully ask that I be authorized by the Board to issue such notices.

The Counsel of the Board has considered it advisable to change the form of notice adopted January 3, 1901. I enclose herewith a new form drawn by Mr. Rives, and ask the approval of the Board thereof, as I wish this notice printed.

Very truly yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
CHIEF ENGINEER'S OFFICE, No. 320 BROADWAY,  
NEW YORK, , 190

Vacation of Vaults at .....

DEAR SIR—I am instructed by the Board of Rapid Transit Railroad Commissioners to inform you that the detailed plans and specifications prepared by the said Board for the construction of the Rapid Transit Railroad along..... in the Borough of....., in accordance with the general plan of construction adopted by the said Board on....., and approved by the local authorities having control of that portion of the said street upon which it is proposed to construct and operate the said railroad, and also by the Appellate Division of the Supreme Court, in the.....Department, requires

the permanent use for such railroad and its appurtenances of that portion of the vaults constructed under the surface of.....opposite your premises which lies under the roadway of the said street and under the sidewalk outside of the line of the street.

You are further notified that a contract was duly made on..... between The City of New York, acting by this Board, and..... for the construction of such railroad, and that the said contractor will proceed to occupy the portion of the vaults above mentioned for the purpose of the construction of such railroad and its appurtenances. You are therefore required to remove your property immediately from the portion of the vaults to be so used. In default of such removal the Contractor will make the removal at your expense.

Very truly yours,  
.....Chief Engineer.

Resolved, That this Board hereby approves the draft of notice above printed for the vacation of vaults along proposed subways and authorizes the Chief Engineer to send out the same.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon, Smith and Hurley.

Nays—None.

Carried.

Letter of the Interborough Company as to trees was read as follows and referred to the Chief Engineer:

INTERBOROUGH RAPID TRANSIT COMPANY,  
Nos. 13 to 21 PARK ROW,  
NEW YORK, May 20, 1907.

Mr. BION L. BURROWS, Secretary, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, City:

DEAR SIR—Replying to your letter of May 10, enclosing a copy of a letter from Mr. Clinton H. Smith, Assistant Secretary of the Department of Parks, in relation to trees which are to be planted along Broadway, the trees referred to have all been set out, in accordance with the plans and directions of the Rapid Transit Commissioners, and nothing remains to be done except smoothing up the ground around a few of them. The contractor is under obligation to maintain and protect them for one year, and, inasmuch as those that he set out for us last year have thrived, there is no reason to believe that those planted this year will not live.

There is no objection on the part of this Company to the trees being turned over to the Park Department, provided they will assume all the responsibility, but, inasmuch as we are simply carrying out our contract under the directions of the Rapid Transit Commission, the matter is entirely in your hands.

Yours truly,  
(Signed) E. P. BRYAN, President.

Communication of the Corporation Counsel as to examination of title to premises, the easements of which the Board has already voted to acquire, was read as follows, and it was understood that the Auditor would draw a voucher on the Comptroller for the easements in question:

LAW DEPARTMENT,  
OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, May 16, 1907.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—I have caused the title to premises situated at the southeasterly side of Boston road and One Hundred and Seventy-sixth street, in the Borough of Manhattan, with a frontage of 79.58 feet on Boston road, to be examined, and find that William J. O'Rourke can convey the easement appurtenant to said premises necessary for the maintenance, construction and operation of an elevated railroad in front thereof on Boston road, subject to a mortgage made by William J. O'Rourke to Hugh Lunny for the sum of \$250, dated January 16, 1862, recorded May 31, 1862, in liber 317, mp. 246, in the Register's office, Westchester County. This mortgage is now held by William J. O'Rourke through several assignments from Hugh Lunny, the assignment to O'Rourke being dated October 25, 1898, and recorded October 26, 1898, in section 11, liber 46, mp. 365, in the office of the Clerk of Westchester County.

It appears that William J. O'Rourke, the present owner in fee of the premises, acquired title thereto on October 25, 1898, by deed recorded October 26, 1898, in section 11, liber 35, Cp. 387, in the office of the Clerk of Westchester County.

It may be that William J. O'Rourke, who is the owner of the fee, is also the person who is the holder of this mortgage, in which case the mortgage would be merged, but proof will be required of that fact before the closing.

There is also a mortgage on a lease of the property from Patrick Flanagan to Lion Brewery, dated July 26, 1906, recorded August 2, 1906, in section 11, liber 133, mp. 191, in the amount of \$4,328.45.

There is a lease on the property from William J. O'Rourke to Patrick Flanagan for five years from April 1, 1906, recorded August 2, 1906, in section 11, liber 91, Cp. 39, but as this lease was given with notice to the lessee of the existing structure in front of the premises, the lessee and his mortgagee have no claim for damages.

Affidavits will be required as to judgments returned against William J. O'Rourke and others that they are not the judgment debtors.

The warrant should be drawn to William J. O'Rourke.

The purchase price is \$795.80.

Respectfully yours,  
(Signed) G. L. STERLING, Acting Corporation Counsel.

Offers to release easements were presented as follows, and referred to the Comptroller for report:

CHELSEA REALTY COMPANY,  
No. 135 BROADWAY,  
NEW YORK, May 17, 1907.

BION L. BURROWS, Esq., Secretary, Rapid Transit Commission, No. 320 Broadway, New York City:

DEAR SIR—We understand that the Board of Rapid Transit Commissioners will pay the sum of \$10 per running foot as liquidated damages for the operation of the subway in front of the premises situated at the northeast corner of Two Hundred and Sixth street and Tenth avenue, owned by the Chelsea Realty Company.

We hereby agree to accept such offer and agree to execute a proper release to the Board upon the payment of a sum in accordance with our ownership.

The following is a diagram of the premises owned by us.

Yours respectfully,  
(Signed) C. H. BURDETT, Secretary.

JOSEPH A. FLANNERY,  
No. 170 BROADWAY,  
NEW YORK, May 17, 1907.

Hon. ALEXANDER E. ORR, President of the Board of Rapid Transit Commissioners, No. 320 Broadway, New York City:

DEAR SIR—I herewith inclose offer of settlement as to the easements over and upon Amsterdam avenue, or Tenth avenue, and adjoining property, known as Block 2232, Lot No. 13, on the tax maps of The City of New York, made by Christian Wynen, which I would thank you to present to the Board of Rapid Transit Commissioners for their favorable action.

Very truly yours,  
(Signed) J. A. FLANNERY.

Hon. ALEXANDER E. ORR, President of the Board of Rapid Transit Commissioners:

DEAR SIR—The undersigned, Christian Wynen, does hereby offer to sell and convey any and all easements in, over and upon Amsterdam avenue or Tenth avenue, in front of and adjoining the property known as No. .... Amsterdam avenue, and designated on the tax maps of The City of New York as Lot No. 13, Block 2232, with a frontage on Amsterdam avenue or Tenth avenue of 25 feet, necessary for the maintenance and construction of the Rapid Transit Railroad, now completed in front of the said premises, at and for the sum of ten dollars (\$10) per running foot, provided this offer be accepted in writing on or before the 1st day of August, 1907, and said offer to be paid to Christian Wynen on or before the 1st day of September, 1907.

Dated May 17, 1907.  
(Signed) CHRISTIAN WYNEN.  
By JOSEPH A. FLANNERY, Attorney.

Report of the Department of Finance was presented as follows, with letter of O'Brien, Boardman & Platt, and it was understood that a copy of the latter would be sent to the Comptroller:

May 21, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Rapid Transit Railroad Commissioners have transmitted to this office a voucher to the order of the Title Guarantee and Trust Company of No. 176 Broadway in the amount of \$2,727 for special information, including searches, etc., relative to property abutting on proposed subway routes (Route No. 10), as per bill subjoined hereto, the same being dated July 5, 1906.

The matter was transmitted to this office after a resolution was adopted by the Board of Rapid Transit Railroad Commissioners on April 4, 1907, which reads as follows:

"Resolved, That this Board hereby approves bill of the Title Guarantee and Trust Company for \$2,727 for searches on property abutting on Route No. 10."

This is the third bill which has been transmitted to this office during the past sixteen months, the total of the two previous bills being approximately \$25,000.

In a report made to you under date of January 28, 1906, relative to the voucher transmitted to this office to the order of the Title Guarantee and Trust Company amounting to \$14,150.50, I stated that if there was competition with the other title companies, to wit: The Lawyers' Title Insurance and Trust Company, and the Title Insurance Company, I believe that there would be considerable reduction in the prices charged in giving the names of the owners of the property which is guaranteed, said report concluding and recommending that in the future if work is desired of the nature called for in the bills attached hereto, that the Board of Rapid Transit Railroad Commissioners advertise in the CITY RECORD for public bids of the other companies in order to obtain the lowest price at which the work can be done.

At the time the first bill was transmitted to this office, investigation was made by one of the Assistants in this office as to whether or not the other title companies, in competition, would have made a considerable reduction in the amount of the bill, and the investigation showed that the City would have saved at least 50 per cent. of the amount charged. However, the services were rendered by agreement with Messrs. Boardman, Platt & Soley, attorneys for the Rapid Transit Railroad Commissioners, which became, no doubt, a legal claim against the City.

Bill hereto attached, amounting to \$2,727, is submitted to you for such action as you may deem necessary and proper.

Respectfully submitted,  
(Signed) MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

Approved:  
H. A. METZ, Comptroller.

O'BRIEN, BOARDMAN & PLATT,  
No. 2 RECTOR STREET,  
NEW YORK, May 23, 1907.

Board of Rapid Transit Railroad Commissioners of The City of New York, No. 320 Broadway, New York:

GENTLEMEN—The bill of the Title Guarantee and Trust Company for searching record, owners on Route No. 10, for \$2,727, which has been rejected by the Comptroller, was a bill for searching and giving us the names of the record owners and the assessed value on 1,818 parcels of land. This bill is at the rate of \$1.50 for the name of each owner and the assessed valuation of his parcel. No other title company in the City would do this work cheaper than \$4 per parcel.

Very truly yours,  
(Signed) O'BRIEN, BOARDMAN & PLATT.

The following resolution was moved:

Resolved, That this Board hereby consents to the following transfers on the staff of the Chief Engineer:

Name and Title.

Chauncey DeVoe, Assistant Engineer, to the Borough of The Bronx.

Martin J. Crean, Rodman, to the Borough of The Bronx.

Ayes—The Vice-President, Mayor, Comptroller and Commissioners Langdon, Smith and Hurley.

Nays—None.

Carried.

Request of the Chief Engineer for the promotion of three Assistant Engineers was laid on the table, in view of the passage by the Legislature of the so-called Public Utilities bill, legislating the Rapid Transit Board out of office.

Letter of the President of the New York Central and Hudson River Railroad Company was read as follows and referred to Counsel to draft a further letter to that company:

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,  
GRAND CENTRAL STATION,  
NEW YORK, May 22, 1907.

Mr. JOHN H. STARIN, Vice-President, Board of Rapid Transit Commissioners, No. 320 Broadway, New York City:

MY DEAR SIR—I beg to acknowledge the receipt of your letter of the 16th inst., in which you call attention to the fact that the wires which carry current for the electric operation of our trains cross above the rapid transit structure on Broadway, north of the Harlem Ship canal, at Kingsbridge.

The use of these wires is incident to the operation of the road by electricity, and I understand that our company has the right to maintain them, using such safeguards, of course, as will protect persons and property from danger. I believe that our Engineering Department has up with the Engineering Department of the Rapid Transit Commissioners the question as to what further protection, if any, is needed, and it is our desire to have and maintain the crossing in such a way as will meet the wishes of the Commissioners. I suggest that the matter be left to these two departments to determine, but if you think some other course should be pursued, I shall be glad to hear from you.

Very truly yours,  
(Signed) W. H. NEWMAN, President.

Letter of the Hudson and Manhattan Railroad Company was read as follows and referred to the Chief Engineer and Counsel:

HUDSON AND MANHATTAN RAILROAD COMPANY,  
No. 111 BROADWAY,  
NEW YORK, May 22, 1907.

Board of Rapid Transit Railroad Commissioners for The City of New York, Hon. ALEXANDER E. ORR, President, No. 320 Broadway, New York City:

DEAR SIRS—The certificate granted by your Board to the New York and Jersey Railroad Company under date of February 2, 1905, for the Sixth avenue extension provides, among other things, "that the Board may by resolution, wherever local conditions make excavations from the surface necessary for efficient construction, grant the right to make such excavations from the surface, subject to such conditions and regulations as the Board may prescribe."

In order to insure the safety of the elevated structure at the corners of Christopher and Ninth streets and Sixth avenue, it is essential that openings be made from the street surface for the purpose of underpinning and supporting the columns of the elevated railroad, and also to construct the underground passageway between the station platforms and private property at the northeast corner of Sixth avenue and Ninth street, where the station entrance is to be built.

We submit herewith a drawing, the same being No. 2453-AK, upon which is indicated in red the surface areas that need to be opened. We propose to plank over the surface of the street, supporting the same from below, so that public travel will not be impeded along the street. We shall not erect any derricks or other obstructions in the street, other than the temporary supports for the maintenance of the elevated railroad structure. All excavations, supplies and materials for the work underground will be handled from private property on the northeast corner of Ninth street and Sixth avenue.

We respectfully request your permission to the making of the surface openings herein referred to.

Very respectfully,  
(Signed) HUDSON AND MANHATTAN RAILROAD  
COMPANY,  
By W. G. McADOO, President.

Letter of the Chief Engineer was read as follows, and, on motion, the matter was laid on the table:

May 22, 1907.

Hon. JOHN H. STARIN, Vice-President of the Board of Rapid Transit Railroad Commissioners, New York City:

DEAR SIR—Under the agreement with Mr. John B. McDonald, dated July 16, 1903, modifying the contract for the construction and operation of the Rapid Transit Railroad, a connection was provided with the Fort Lee Ferry by an elevated two-track extension from the Rapid Transit Railroad, beginning at a point on the Manhattan viaduct about 100 feet northerly from the north line of One Hundred and Twenty-fifth street; thence extending northerly along and over Broadway to Manhattan street; thence westerly along and over Manhattan street and under the Manhattan viaduct to the Fort Lee Ferry house.

This extension was approved by the Board of Estimate and Apportionment July 14, 1905. Subsequently, on October 16, 1905, the Interborough Rapid Transit Company submitted a revised plan, departing from the plan approved by the Board in the above mentioned agreement in that it did not provide for a physical connection with the Rapid Transit Railroad, but only provided for a shuttle service through Manhattan street, from the Fort Lee ferry house to the Manhattan street subway station. All passengers using this shuttle service being required to transfer to the Manhattan street station by stairways connecting the platforms of the same.

I disapproved of this plan and so advised the Interborough Rapid Transit Company, because it was not in accordance with the plans approved by the Board, and further, the terminal station of the shuttle tracks would destroy the good appearance of the steel arch supporting the Rapid Transit Railroad viaduct over Manhattan street.

I suggested, if a shuttle connection was to be provided instead of a physical connection between the tracks of the extension and the Rapid Transit Railroad, that a line running from Manhattan street to One Hundred and Twenty-ninth street, and thence along One Hundred and Twenty-ninth street, stopping under the viaduct, would serve equally as well, and would not mar the appearance of the Manhattan street arch.

Transmitted herewith is a plan showing a proposed two-track elevated shuttle connection from the north end of the Manhattan street station of the Rapid Transit Railroad through One Hundred and Twenty-ninth street and Manhattan street to Fort Lee Ferry, which has been prepared from a plan submitted by the Interborough Company.

From the point of view of the passengers using it, this extension provides for an adequate connection between the Rapid Transit Railroad and Fort Lee Ferry. From a construction point of view it is about 75 feet shorter than a shuttle connection wholly through Manhattan street, and about 600 feet shorter than the connection provided for in the agreement of July 16, 1903. It eliminates the necessity of building additional elevated tracks on both sides of the present structure through Broadway, from about One Hundred and Twenty-fifth street to Manhattan street, and will not affect the appearance of the Manhattan street arch.

It has been estimated that the construction cost (not including easements) of the proposed shuttle connection would be about \$175,000.

In view of these facts, I respectfully recommend that the agreement of July 16, 1903, be amended by substituting this route and plan for the route and plan therein mentioned.

Respectfully yours,  
(Signed) GEORGE S. RICE, Chief Engineer.

The Comptroller brought up the matter of the construction of a part of the Tri-Borough route between the Borough of Manhattan and Coney Island and Fort Hamilton, in Brooklyn, and moved the following resolution:

Whereas, The Board of Estimate and Apportionment on December 7, 1906, adopted a resolution recommending to the Board of Rapid Transit Railroad Commissioners that alternate bids be invited, first for construction alone, and second for construction, equipment and operation of certain routes mentioned in the said resolution and among others the Fourth avenue and Bensonhurst route in the Borough of Brooklyn, and the so-called Tri-Borough route south of One Hundred and Thirty-eighth street in The Bronx, including in addition to the Third avenue route in Manhattan, certain routes in the Borough of Brooklyn; and

Whereas, This Board is now of the opinion that it will be expedient for various reasons to construct so much of the above mentioned lines as include the Manhattan Bridge route and the Fourth avenue and Bensonhurst route and other routes in Brooklyn by contracts for construction only, and to defer for the present the making of contracts for the equipment and operation of such routes; now therefore

Resolved, That the Board of Estimate and Apportionment be respectfully requested to rescind so much of the said resolution of December 7, 1906, as relates to the said Fourth avenue and Bensonhurst route and the said Tri-Borough route, and instead thereof to authorize this Board to let contracts for construction only for the Manhattan Bridge route, as a part of Route 9-C in Brooklyn, a part of Route 11-E-1 in Brooklyn and Routes 11-A, 11-B and 11-F (Bensonhurst route) in the Borough of Brooklyn, the said routes together forming a line running from Chrystie street in the Borough of Manhattan, across the Manhattan Bridge and under Fourth avenue and other streets in the Borough of Brooklyn, with termini at or near Fort Hamilton and at Coney Island.

Commissioner Hurley addressed the Board, pointing out the necessity for prompt relief for Brooklyn. The matter was referred to the Committee on Plans and Contracts.

#### BOROUGH OF MANHATTAN.

##### WASHINGTON HEIGHTS DISTRICT.

At a meeting of the Board of Local Improvements of the Washington Heights District, held June 4, 1907, the following members were present: Alderman Grifenhagen and President Ahearn.

The President presented for the Board's consideration the matter of change of grade of West One Hundred and Thirty-fourth street, from Broadway to Twelfth avenue, so as to make a uniform grade between these points.

Mr. John J. Hopper appeared in favor.

Mr. F. T. White appeared in favor.

Mr. Charles A. O'Donohue appeared in favor.

On motion the matter was laid over for two weeks.

The President presented for the Board's consideration the matter of constructing sewer in Post avenue, between Academy street and Tenth avenue. Estimated cost, \$19,362. Assessed valuation, \$478,000.

The following resolution was introduced by Alderman Grifenhagen:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the City Record that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice, and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct sewer in Post avenue, between Academy street and Tenth avenue; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Which was adopted.

The President presented for the Board's consideration the matter of acquiring title to West One Hundred and Fifty-sixth street, between Eighth avenue and Harlem river.

The Engineer of Street Openings reported that this street had never been laid out on the Map of the City.

The following resolution was introduced by Alderman Grifenhagen:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice, and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment an alteration of the map or plan of The City of New York by laying out thereon a street to be known as West One Hundred and Fifty-sixth street, from Eighth avenue to the marginal street along the Harlem river, as shown on the accompanying diagram; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Which was adopted.

The President presented for the Board's consideration the matter of laying out West One Hundred and Eighty-fourth street, from Amsterdam avenue to new avenue west of High Bridge Park.

The following resolution was introduced by Alderman Grifenhagen:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice, and

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment an alteration of the map or plan of The City of New York, by laying out thereon an extension of West One Hundred and Eighty-fourth street, from Amsterdam avenue to first new avenue east of Amsterdam avenue, as shown on accompanying diagram; and it is hereby further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Which was adopted.

The President presented for the Board's consideration the matter of paving Edgecombe avenue, from One Hundred and Fiftieth to One Hundred and Fifty-fifth street. Estimated cost \$14,936.00. Assessed valuation of the property affected \$403,500.00.

The following resolution was introduced by Alderman Grifenhagen:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

## BOARD OF ESTIMATE AND APPORTIONMENT.

## PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held in the Old Council Chamber, City Hall, Borough of Manhattan, on Friday, June 7, 1907, the following proceedings were had:

Whereas, The Kings County Refrigerating Company has, under date of July 13, 1905, made application to this Board for a grant of a right, privilege and franchise to construct, maintain and operate a pipe line under and along Hall street and across Flushing avenue to the lands of the Wallabout Market, in the Borough of Brooklyn, for the purpose of supplying refrigeration to consumers therein; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws, this Board adopted a resolution on July 14, 1905, fixing the date for public hearing thereon as September 29, 1905, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the Brooklyn Daily "Eagle" and the Brooklyn "Citizen," newspapers designated by the Mayor, and in the City Record for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Kings County Refrigerating Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Kings County Refrigerating Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Kings County Refrigerating Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of the City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of the City of New York as follows, to wit:

## KINGS COUNTY REFRIGERATING COMPANY.

## Proposed Form of Contract.

This contract, made this day of 1907, by and between The City of New York, party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and Kings County Refrigerating Company, a domestic corporation of the State of New York, hereinafter called the Company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a conduit not to exceed twelve inches in diameter, with the necessary branches and connections therefrom, leading directly into private property, and also into the lands of the Wallabout Market, for the sole purpose of supplying refrigerant to consumers, said conduits and branches to be beneath the surface of each of the following-named streets, avenues and highways, between the points

described in the following route, all situate in the Borough of Brooklyn, City of New York, to wit:

Route—Beginning at a point in Hall street, about 325 feet north of the northerly line of Park avenue; thence northerly in, under and along Hall street to Flushing avenue; thence still northerly in, under and across Flushing avenue to the lands of the Wallabout Market, together with such branches from the pipes laid in the above-described route leading directly into private property or lands of the Wallabout Market as may be necessary for the purpose of supplying patrons of the Company with cold air or refrigerant, said route being shown on a map entitled "Map showing the proposed pipe line of the Kings County Refrigerating Company, to accompany petition to the Board of Estimate and Apportionment, dated July 13, 1905," signed by James J. Phelan, Secretary, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The said right to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the privilege to maintain and operate the same shall be held and enjoyed by the said Company, its lessee or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and the Board of Estimate and Apportionment, or such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or such other authority in its place) or the Company shall be bound upon request of the other to enter into a written agreement with such other authority, fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment or its successors in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same is renewed, then at the termination of the said renewal term or upon the termination of the rights hereby granted, or for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City, by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay for this privilege to The City of New York the following sums of money, to wit:

1. Five hundred dollars (\$500) in cash within thirty (30) days after the signing of the contract.
2. During the first five years of this contract an annual sum which shall in no case be less than seven hundred and fifty dollars (\$750), and which shall be equal to 5 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of seven hundred and fifty dollars (\$750).

During the second five years of this contract an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to 6 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).

During the third and remaining five years of this contract an annual sum which shall in no case be less than thirteen hundred dollars (\$1,300), and which shall be equal to 7 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of thirteen hundred dollars (\$1,300).

The gross receipts as above shall be the total receipts of the Company from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, and outside of the lands of the Wallabout Market. The minimum sums provided to be paid annually shall include the percentages of such gross receipts as above and also such sums as may be paid under any agreement made with the Comptroller for privileges in the lands of the Wallabout Market.

3. An annual payment of twenty-five (25) cents for each linear foot of conduit line and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway. The sums due shall be calculated from the day when permit is obtained to open the streets for any section of the work.

All sums herein provided for shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner

in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or mere lienor, but shall apply to any purchaser upon foreclosure, or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to, or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—The Company shall complete the entire conduit line along the route hereinbefore described, and have the same in operation within one (1) year from the date of the signing of this contract; otherwise this grant shall cease and determine.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said pipe line, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets, avenues and highways described in the route.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipe line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said pipe line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, indorsed by the Commissioner of Water Supply, Gas and Electricity and filed with the Board of Estimate and Apportionment.

Twelfth—During the term of this contract the Board of Estimate and Apportionment or its successor in authority shall have absolute power to regulate the maximum rates, provided that such rates shall be reasonable and fair.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigerant at the prices which may be hereafter fixed; otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all pipe lines which are authorized by this grant are constructed, or until the right hereby authorized to construct pipe lines along the routes described have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction and operation of the conduit line, and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, except as otherwise herein specifically provided, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—The conduit line hereby authorized shall be used only by the Kings County Refrigerating Company, and for no other purpose than for supplying refrigeration by the ammonia process, or such other process as may be consented to by the Board of Estimate and Apportionment.

Eighteenth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 in each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, together with such other information and in such detail as the Comptroller may require.

The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Nineteenth—The Company shall comply with the existing provisions of Article V. of chapter 566 of the Laws of 1890, and future amendments thereto, except in so far as the same are inconsistent with the provisions of this contract, and provided that all powers of the Company shall be limited by the provisions of this contract.

Twentieth—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy the said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York a sum of \$50, as fixed or liquidated damages, or the said City, in case such structures, which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-first—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of five hundred dollars (\$500), either in money or in securities, to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charges for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five hundred dollars (\$500), and in default thereof, the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-second—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

[SEAL.] THE CITY OF NEW YORK,

By..... Mayor.

THE KINGS COUNTY REFRIGERATING COMPANY,

By..... President.

Attest:  
[SEAL.]..... Secretary.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor and of the terms and conditions, including the provision as to rates and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right;

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Kings County Refrigerating Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to July 8, 1907, in the City Record, and at least twice during the ten days immediately prior to July 8, 1907, in the Brooklyn "Daily Eagle" and the Brooklyn "Citizen," two daily newspapers designated by the Mayor therefor, and published in The City of New York, at the expense of the Kings County Refrigerating Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Kings County Refrigerating Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on July 8, 1907, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Dated June 7, 1907.

## PUBLIC NOTICE.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, on Friday, May 24, 1907, the following proceedings were had:

Whereas, The Nassau Electric Railroad Company has, under date of May 29, 1905, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate a street surface railroad upon and along Livingston and other streets, in the Borough of Brooklyn; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on June 2, 1905, fixing the date for public hearing thereon as June 30, 1905, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the Brooklyn Daily "Eagle" and the Brooklyn "Citizen," newspapers designated by the Mayor, and in the City Record for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the Nassau Electric Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Nassau Electric Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Nassau Electric Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract, made this day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City hereinafter called the Board, and the Nassau Electric Railroad Company, Incorporated for the purpose of building, maintaining and operating a railroad (hereinafter called the Nassau Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Nassau Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double-track street surface railroad, with the necessary wires and equipment, crossovers, switches and turnouts, for the purpose of conveying persons and property in the Borough of Brooklyn, City of New York, upon the following route:

Commencing at the intersection of Livingston street and Court street; thence through and along Livingston street to Flatbush avenue; thence through and along Flatbush avenue to Lafayette avenue; thence through and along Lafayette avenue to Fulton street, together with the right to connect the aforesaid tracks with the existing tracks of the Brooklyn City Railroad Company upon Court street, Flatbush avenue and Fulton street; with the existing tracks of the Nassau Electric Railroad Company upon Boerum place, and with the existing tracks of the Brooklyn City and Newtown Railroad Company upon Smith street.

The said route, with crossovers, switches and turnouts, is illustratively shown upon the plan and profile herewith attached, entitled "Map showing plan of tracks of Nassau Electric Railroad Company on application for franchise from City of New York," dated May 29, 1905, and signed E. W. Winter, President, approved Eugene Keapp, Chief Engineer, which plan and profile are to be deemed and hereby are made a part of this franchise. Provided that deviations therefrom and additional crossovers, switches and turnouts which are consistent with the foregoing description and other provisions of this franchise, may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Nassau Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Nassau Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double track street surface railroad and the connections as herein described shall be held and enjoyed by the Nassau Company, its successors or assigns, for the term of ten (10) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for a further period of ten (10) years upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Nassau Company, its successors or assigns.

If the Nassau Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Nassau Company and the Board.

If the Nassau Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board) or the Nassau Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall

be chosen by the Nassau Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgments upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Nassau Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Nassau Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expense of the said appraisers shall be borne jointly by the City and the Nassau Company, each paying one-half thereof.

Third—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, the tracks and appurtenances, including sub and superstructure, poles, wires and subways for electrical conduits, constructed pursuant to this contract, within the streets and highways hereinbefore described, may be acquired by the City in the manner hereinafter described, and, if so acquired, the same may be used or disposed of by the City for any lawful purpose whatsoever, or may be leased to any company or individual. In case the City should decide, by resolution of the Board, to acquire said tangible property constructed in connection with and pertinent to the franchise herein conferred, a certified copy of the resolution of the Board declaring such intention shall be served upon the Nassau Company at least six months prior to the termination of this contract; or, if the same be renewed, then at least six months prior to the termination of the said renewal term; or, in case of the termination of this contract for any other cause than by expiration, within thirty days after such termination. If the City (by the Board) and the Nassau Company, after the declaration of such intention by the Board and the receipt of said resolution by the Nassau Company, can agree as to the then value of such tangible property, the amount thus agreed upon shall thereupon be paid by the City to the Nassau Company, and the property thus acquired shall become the property of the City from and after the date of termination of this contract or any renewal thereof. Nothing shall be included in such amount for any value derived from the franchise. In case, however, the City (by the Board) and the Nassau Company shall not agree as to the then value of said property within a reasonable time, such value shall be determined by appraisal in the manner hereinbefore described in connection with the revaluation of the terms of this franchise in case of a renewal thereof. If, however, within the time or times hereinabove mentioned, the City shall not declare its intention of acquiring said tangible property, the Nassau Company shall, at the termination of this contract or of any renewal thereof, remove any and all of its tracks and appurtenances constructed pursuant to this contract in said streets and avenues, and said streets and avenues shall be restored to their original condition, at the sole cost and expense of the Nassau Company. In case the Nassau Company shall neglect, after due notice from the City (by the Board) to remove said tracks and appurtenances after the expiration of this contract or any renewal thereof, then the City shall have the right to make such removal and to collect the expense thereof from the Nassau Company.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways and the right to make the requisite and necessary connections with the tracks of the Nassau Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Nassau Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Nassau Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad, and such proportion of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation, and such proportion of the cost of laying and repairing of pavement and removal of snow and ice, and of all the other obligations imposed upon the Nassau Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies using the same. And, in addition to the said annual sum, computed as aforesaid, the Nassau Company shall have the right to charge such corporation or individual a portion of the original cost of said railroad—the amount so charged to be in proportion to the respective use of said railroad, and to be also based upon that proportion of such part of the original cost as the unexpired portion of the franchise shall bear to the entire period thereof.

If at any time during the terms of this contract the City shall operate a street surface railroad over the whole or any portion of the railroad which shall be constructed under this contract, the Nassau Company shall allow the City to use the whole or any part of the track and track equipment upon payment by the City of an annual sum, which shall be no greater in proportion to the use than is provided above in the case of the use of said tracks and track equipment by other street railroad companies.

Each individual and corporation shall be charged by the Nassau Company a rental for the use of the aforesaid railroad tracks and appurtenances thereof that shall be uniform in proportion to use with that which the Nassau Company charges any other individual or corporation.

Fifth—The Nassau Company, its successors or assigns, shall pay for the right to construct, maintain and operate the tracks hereby authorized and described for and during the first five years after the commencement of the operation

of this extension, into the treasury of the City, to the credit of the Sinking Fund thereof, three per cent. (3%) of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the Sinking Fund, of five per cent. (5%) of its gross receipts, such percentages to be paid only upon such portion of the Nassau Company's gross receipts as shall bear the same proportion to its whole gross receipts as the length of its extension shall bear to the entire length of its railroad.

The president and the treasurer of the Nassau Company shall, on or before November 1 in each year, make a verified report to the Comptroller or chief fiscal officer of the City of the gross amount of its receipts for the year ending September 30 next preceding, and the books of such corporation shall be open to inspection and examination by such Comptroller or officer, or his duly appointed agent, for the purpose of ascertaining the correctness of its reports as to its gross receipts, and shall state in such report the total mileage of its extension herein authorized and the total mileage of the Company.

All payments provided for under this paragraph shall be made on or before November 1 in each year.

The annual charges of payments shall continue throughout the whole term of the contract hereby granted, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or of any of the routes mentioned herein, or of any parts thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, especially said conditions as to payments, anything in the statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim, by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this contract.

The rights and privileges granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by act of the Nassau Company, its successors and assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding. And the granting, giving or waiving of any two or more of such consents shall not render unnecessary any subsequent consent or consents.

Nothing in this contract shall interfere with or prevent the Nassau Company making traffic arrangements for cars of the Brooklyn Rapid Transit system, and shall not be construed to prevent other companies or the City operating over the tracks of this extension hereby granted.

All compensation received by the Nassau Company from other railroad companies or from the City for the use of the tracks covered by this agreement shall be included in the amount of gross receipts upon which the Nassau Company is required to pay to the City annually the percentage provided above.

Sixth—The Nassau Company shall commence construction of the railroad herein authorized within three months from the day upon which the consents of the property owners are obtained, or from the decision of the Appellate Division of the Supreme Court, that such railroad ought to be constructed, and shall complete the construction of the same within six months from the same date, otherwise this grant shall cease and determine, and all sums paid or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that if the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement or from any other different cause not within the control of the Nassau Company, the time for the commencement or completion of such construction shall be extended for a period covered by such prevention.

Seventh—The said railroad shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City, who have jurisdiction in such matters, as provided in the Charter of the City.

Eighth—The said railroad shall be constructed and operated in the latest improved manner of street railway construction and operation for overhead trolley railroads, and the railroad and property of the Nassau Company shall be maintained in good condition throughout the term of this contract.

Ninth—The rate of fare charged for any passenger upon such railroad by any corporation operating thereon not to exceed the rate lawfully chargeable by such corporation for any passenger for one continuous ride from any point on its railroad, or of any road, line or branch operated by it or under its control, to any other point thereof, or of any connecting line or branch thereof within the limits of the City.

Tenth—The cars of each of the lines of the Nassau Company shall be run both day and night, as often as the reasonable convenience of the public may require, or as directed by the Board.

Eleventh—The Nassau Company shall attach to each car run over the said railroad proper fenders or safeguards, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Twelfth—All cars which are operated on said railroad shall be heated during the cold weather, in conformity with such laws and ordinances as are now enforced, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—The Nassau Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railroad shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues, at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Fourteenth—All cars operated on said railroad shall be well lighted by electricity or by some lighting system equally efficient, or as may be required by the Board.

Fifteenth—The Nassau Company shall at all times keep the streets, avenues or highways upon

which the said railroad is constructed, between its tracks, the rails of its tracks, and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Nassau Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season or part thereof to clean an equivalent amount of street surface from curb line to curb line.

Sixteenth—The Nassau Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof, under the supervision of the local authorities and whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the corporation to make pavements or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation. The Company agrees that notice printed in the City Record shall constitute sufficient notice within the meaning of this contract. And the City shall have the right to change the material or character of the pavement of any such street, avenue or highway, and in that event the Nassau Company, its successor or assigns, shall be bound to replace the pavement on the portion of the street it is responsible for in the manner directed by the proper City officer at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Seventeenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, where not otherwise provided by self-executing penalties, this contract may be forfeited by a suit brought by the Corporation Counsel on notice of ten days to the Nassau Company, or at the option of the Board by resolution of said Board.

Eighteenth—If the Nassau Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Nassau Company, specifying any default on the part of the Nassau Company, and requiring the Nassau Company to remedy the same within a reasonable time; and upon failure of the Nassau Company to remedy such default within a reasonable time the Board of Estimate and Apportionment shall, after the hearing hereinafter provided for, fix such an amount that said Nassau Company shall pay as a penalty as shall seem just and fair to said Board, or the Board, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Nassau Company, in which case the Nassau Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Nineteenth—The Nassau Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Nassau Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twentieth—This grant is based upon the expressed condition that the Nassau Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Nassau Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of the construction of the railroad; and in case of default in the performance by the Nassau Company of such terms and conditions, the City shall have the right to cause the work to be done and material to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceeding; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund, after ten days' notice in writing to the Nassau Company. Or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheelguards and watering of street pavements, the Company shall pay a penalty to be fixed by the Board of Estimate and Apportionment after the hearing hereinafter provided for.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Nassau Company, through its president, to appear before the Board of Estimate and Apportionment on a certain day, not less than ten days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Nassau Company fails to make an appearance, or, after a hearing, appears in the judgment of the Board of Estimate and Apportionment to be in fault, said Board of Estimate and Apportionment shall forthwith impose such an amount as a penalty as appears to it to be just and fair, and without legal procedure instruct the Comptroller to withdraw the said amount of such penalty from the security fund deposited with the Comptroller. In case of any drafts made upon the security fund the Nassau Company shall, upon ten days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars, and in default thereof this contract shall be canceled and null, at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any of the legal rights, remedies or causes of action belonging to the City.

The Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right;

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Nassau

Electric Railroad Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to June 28, 1907, in the *CITY RECORD* and at least twice during the ten days immediately prior to June 28, 1907, in the *Brooklyn Daily Eagle* and the *Brooklyn Citizen*, two daily newspapers designated by the Mayor thereof and published in The City of New York, at the expense of the Nassau Electric Railroad Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Nassau Electric Railroad Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on June 28, 1907, at 10.30 o'clock a. m., hold a public hearing thereon at which citizens shall be entitled to appear and be heard.

#### PUBLIC NOTICE.

**AT A MEETING OF THE BOARD OF** Estimate and Apportionment held May 10, 1907, in the Old Council Chamber, City Hall, Borough of Manhattan, the following proceedings were had:

Whereas, The City of New York by an ordinance, adopted by the Board of Aldermen March 16, 1903, and approved by the Mayor March 31, 1903, granted to the New York City Interborough Railway Company the right to construct, maintain and operate a street surface railroad upon certain routes particularly set forth in Section 1. of said ordinance, and which ordinance, including all the terms and conditions thereof, was accepted by said Company by an instrument in writing duly filed with the Comptroller of The City of New York on April 3, 1903; and

Whereas, The said Company has petitioned the Board of Estimate and Apportionment under dates of June 26, 1905; June 21, 1906, and March 12, 1907, for the consent of The City of New York to certain modifications and alterations in said routes, as is fully set forth in said petitions; and

Whereas, It was provided by Section VI. of said ordinance that the said Company should complete the construction of at least twenty-four miles of double-track railroad on or before July 1, 1905; and

Whereas, Said Company has petitioned this Board under date of May 18, 1906, for an extension of time in which to complete the con-

struction of said twenty-four miles of railroad; and

Whereas, This Board has made inquiry as to the proposed modifications and alterations in the said routes of said Company, and as to the extension of time applied for, and has reached the conclusion that certain of such modifications and alterations are desirable and in the public interest, and that an extension of time is warranted in order to permit of the construction of twenty-four miles of double-track railroad, including such modified or altered routes; now therefore it is

Resolved, That the following form of resolution for the consent or right applied for by the New York City Interborough Railway Company containing the form of proposed contract for the grant of such right be hereby introduced and entered in the minutes of this Board, as follows:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications and alterations in the route of the New York City Interborough Railway Company as granted by an ordinance adopted by the Board of Aldermen on March 16, 1903, and approved by the Mayor March 31, 1903, and hereby consents to an extension of time in which to complete twenty-four miles of double-track railroad, including such modified or altered routes, such modifications and alterations in said routes and such extension of time being fully set forth and described in the following form of proposed contract for the granting thereof, embodying such terms and conditions as modify or alter said ordinance as approved March 31, 1903; which said ordinance otherwise remains unchanged as to all the other terms and conditions expressed therein; and be it further

Resolved, That the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

#### NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

#### Proposed Form of Contract for Alterations in Routes and Extension of Time for Completion of Construction.

This contract, made the day of 1907, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of the said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York City Interborough Railway Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, A certain ordinance, entitled: "An ordinance granting to the New York City Interborough Railway Company the right or franchise to construct and operate a street surface railroad in, upon and along certain streets, avenues, parkways, highways and bridges of The City of New York," was heretofore adopted by the Board of Aldermen, March 16, 1903, and approved by the Mayor of The City of New York on March 31, 1903; and

Whereas, Thereafter the Company on April 3, 1903, filed with the Comptroller of said City a written acceptance, executed March 31, 1903, of said ordinance, and of the terms, conditions and provisions thereof, and an agreement to perform and observe the same; and

Whereas, In and by said ordinance the consent of the corporation of The City of New York was granted to the Company for the construction, maintenance and operation of the railroad of said railway company upon certain enumerated streets, avenues, highways, etc., within said City, and across certain streets, avenues, highways, etc., as may be encountered in its route; and

Whereas, On the 10th day of April, 1905, on the 20th day of June, 1906, and on the 11th day of March, 1907, the Board of Directors of the said Company at meetings of said Board duly held on said dates, and by a vote of two-thirds of all the directors of the said Company passed resolutions amending said routes as are more particularly shown on maps filed on April 25, 1905, on the 20th day of June, 1906, and on the 12th day of March, 1907, respectively, in the office of the Clerk of New York County; and

Whereas, It is the intention of said railway company when the consent of the City has been obtained to relinquish part of the routes as originally granted by the ordinance above referred to, and to substitute such changed or altered routes thereof; and

Whereas, The said Company has applied to the Board of Estimate and Apportionment as the local authorities of The City of New York by verified petitions dated June 26, 1905, June 21, 1906, and March 12, 1907, for the consent of such local authorities for such alterations and for the modification of the said ordinance in accordance therewith; and

Whereas, The Company has presented a petition dated May 18, 1906, for an extension of time in which to complete twenty-four miles of double-track railroad;

Now, therefore, in consideration of the premises, and of the mutual covenants herein contained, the parties do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the provisions and conditions hereinafter set forth, the right to relinquish routes as heretofore granted to said Company, and to the substitution in the place thereof of certain other routes, all of which are shown on a map entitled: "New York City Interborough Railway Company," signed, Alfred Skitt, President; A. E. Kalbach, Engineer, dated March 18, 1907, a copy of which is attached hereto and made a part hereof, and are more particularly described as follows:

And further grants an extension of time in which to complete the construction of twenty-four miles of double-track railroad upon the routes of the Company as heretofore granted, and hereby modified, from July 1, 1905, to a time eighteen months after the execution of this contract by the Mayor.

Section 2. The grant of this franchise, right and privilege is subject to the following conditions:

First—That all the terms, provisions and conditions contained in said ordinance approved March 31, 1903, except only the description of the routes which are hereby modified, and excepting so much of said ordinance as related to the completion of twenty-four miles of double-track railroad on or before July 1, 1905, shall apply to the routes of the said Company as described herein with the same force and effect as when they applied to the routes described in said ordinance approved March 31, 1903, and as though said altered routes had been specifically described in said ordinance.

Second—That the Company covenants and agrees to abandon and relinquish, and does hereby abandon and relinquish to The City of New York all its right and franchise to construct, maintain and operate a street surface railroad over the routes marked "Routes Relinquished" in the paragraphs entitled Change First, Change Second, Change Third, Change Fourth, Change Fifth, Change Sixth and Change Seventh in Section One hereof.

Third—That the company covenants and agrees to complete the construction and put in operation twenty-four miles of double-track railroad upon the route described in the ordinance approved March 31, 1903, and as herein modified, within eighteen months from the date of the execution of this contract by the Mayor of the City.

Fourth—That this contract shall not become operative until the Company shall procure to be executed and approved, in proper form for record, and duly deliver to the Board of Estimate and Apportionment an agreement wherein the Union Railway Company of New York City shall agree to waive any right it may have to exclusive franchises by former grants to or now owned by the said Union Railway Company in streets or avenues for which authority to construct railways therein is hereby given, and in which agreement the said Union Railway Company shall further agree to allow the use of its tracks in such streets and avenues by the said New York City Interborough Railway Company, its successors or assigns, The City of New York and any other company to which the City may hereafter grant or lease rights.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation similar rights or privileges upon the same or other terms and conditions in or upon which a railway is herein authorized.

Sixth—That this contract shall not become operative until the Company shall duly execute under its corporate seal an instrument in writing, to be first approved by the Corporation Counsel, and shall file the same in the office of the Comptroller of the execution of this contract by the Mayor, in and by which said instrument in writing said Company shall covenant and agree that the consent of the Board of Estimate and Apportionment to the change of route shall not in any way change, alter or amend any of the terms, conditions and requirements in said ordinance approved March 31, 1903, fixed and contained and heretofore duly accepted by said Com-

pany by an instrument filed with the Comptroller of The City of New York on April 3, 1903, except only the description of the routes which are hereby modified, and excepting so much of said ordinance which relates to the time for the completion of twenty-four miles of double-track railroad, and that said ordinance approved March 31, 1903, shall remain in full force and effect, and said Company shall further covenant and agree, in said instrument, to abide by and perform all the conditions and requirements of this contract.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK,

By..... Mayor.

Attest:

City Clerk.

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY,

By..... President.

[SEAL.]

Attest:

Secretary.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the proposed franchise and the adequacy of the compensation proposed to be paid therefor and of the terms and conditions, are as specified and fully set forth in the ordinance approved by the Mayor March 31, 1903, as amended by the foregoing form of proposed contract for the consent to such modifications and alterations.

Resolved, That these preambles and resolutions including said resolution for the consent of The City of New York to the modifications and alterations as applied for by the New York City Interborough Railway Company and the said form of proposed contract for the grant of said franchise or right containing said results of such inquiry after the same shall be entered in the minutes of this Board, shall be published for at least twenty days immediately prior to June 21, 1907, in the *CITY RECORD*, and at least twice during the ten days immediately prior to June 21, 1907, in the "North Side News" and "New York Tribune," two daily newspapers designated by the Mayor thereof, and published in The City of New York, at the expense of the New York City Interborough Railway Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment before authorizing any contract for the consent of the City to certain modifications and alterations in the routes of the New York City Interborough Railway Company, as granted by ordinance approved March 31, 1903, and before consenting to an extension of time in which to complete twenty-four miles of double track railroad, as required by said ordinance, such modifications and consent being fully set forth and contained in the foregoing form of proposed contract for the granting of such franchise or right, and before adopting any such contract will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on the 21st day of June, 1907, at 10.30 a. m., hold a public hearing thereon at which citizens shall be entitled to appear and be heard.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Manhattan, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction all the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired for street opening purposes, in the

##### Borough of Manhattan.

Being the buildings within the area of the proposed Delancey street extension located between Broome and Spring streets, and extending from the Bowery to Elm street, Borough of Manhattan, and which is more particularly described on a map on file in the office of the Collector of City Revenue.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted at a meeting held June 5, 1907, the sale of the above-described buildings and appurtenances thereto will be held by the direction of the Comptroller on

**MONDAY, JUNE 24, 1907,**

at 10 o'clock a. m., on the premises, on the following

##### TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract. Said bond must be filed within forty-eight hours after the sale.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler setting, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes at the main pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight, where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel, and to reject any or all bids.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

**PUBLIC NOTICE IS HEREBY GIVEN** that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired for bridge and water supply purposes, in the

##### Borough of Queens.

Being the building situated on the north side of Thirty-first street, about 200 feet west of Fifteenth avenue, in Whitestone, Borough of Queens, which was acquired for the Commissioners of the Department of Water Supply, Gas and Electricity.

The sale will be held by direction of the Comptroller on

**FRIDAY, JUNE 14, 1907,**

at 10.30 a. m., on the premises. Also being the buildings, parts of buildings, etc., between Sunswick street and Jackson avenue, Long Island City, Borough of Queens, which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan. The sale will be held by direction of the Comptroller on

**FRIDAY, JUNE 14, 1907,**

at 2 p. m., on the premises.

Pursuant to a resolution of the Commissioners of the Sinking Fund adopted at a meeting held May 22, 1907, the sale of the above-described buildings and appurtenances thereto will be held upon the following

##### TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan. The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler setting, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned. The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc. on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel, and to reject any or all bids.

J. H. MCCOY, Deputy and Acting Comptroller.

City of New York, Department of Finance, Comptroller's Office, May 31, 1907.

## DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1536, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

### NOTICE OF SALE AT AUCTION.

ON TUESDAY, JUNE 25, 1907,

at 11 o'clock a. m., the Department of Water Supply, Gas and Electricity will sell at public auction to the highest bidder, by William H. Smith, auctioneer, at the Gowanus Pipe Yard, Butler and Nevins streets, Borough of Brooklyn, N. Y., the following parcels of scrap iron:

"A."  
125 tons, more or less, scrap iron.  
The above material is stored on the grounds of the Gowanus Pipe Yard, and will be sold on the spot.

"B."  
50 tons, more or less, scrap iron.  
The above material is stored on the grounds of the Western District Repair Yard, North Portland avenue, Borough of Brooklyn, N. Y., but will be sold at the Gowanus Pipe Yard, Butler and Nevins streets, Borough of Brooklyn, N. Y.

TERMS OF SALE.  
The upset price at which this material will be sold is as follows:  
\$8 per ton for scrap iron.  
No bid below this price will be considered or accepted.

The sale of the material will be based on delivery on the ground, but the purchaser or purchasers must agree to have the material weighed at the nearest public scale to the point where the material is sold.

Successful bidders must make cash payment in bankable funds at the time and place of sale.

Bids will be received for one or both lots of this material, but no bid will be considered or accepted for less than the entire quantity in each case.

The purchaser or purchasers must remove all the material within thirty days after the sale, otherwise he or they will forfeit the money paid at the time of sale and the ownership to the material, which will thereafter be resold for the benefit of the City. The purchaser or purchasers must remove the material under the supervision of an employee of the Department, and will not be allowed to select material for removal at will.

JOHN H. O'BRIEN,  
Commissioner of Water Supply,

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

### INVITATION TO CONTRACTORS.

Delancey Street, between the Bowery and Norfolk Street.

THE CITY OF NEW YORK (HEREIN after called the City) acting by its Board of Rapid Transit Commissioners (hereinafter called the Board) contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street (Manhattan) and other streets in the boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street

in Manhattan, and Fulton street, Lafayette avenue and Broadway in Brooklyn.

By this advertisement, the City invites proposals to construct that part of said railroad which is situated in Delancey street, between the Bowery and Norfolk street, in accordance with the detailed plans and specifications adopted therefor.

The general plan of construction calls for a subsurface railroad with four tracks. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed whenever necessary to avoid grade crossings. The roof and sides of the tunnels will be of iron or steel and masonry. The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including all sewer and street construction and reconstruction and other work caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK UNTIL

THURSDAY, JUNE 13, 1907,

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm it will be sufficient if the proposal is signed and acknowledged and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will, in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and eighty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the

names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder or bidders will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder or bidders. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may, by new advertisement, invite further proposals. The defaulting bidder or bidders shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder or bidders.

Every proposal must, when submitted, be enclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Delancey Street)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder or bidders will be returned when the contract is executed and its provisions as to security are complied with.

## INVITATION TO CONTRACTORS.

Pearl Street to Park Row.

THE CITY OF NEW YORK (HEREIN- after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Centre street (Manhattan) and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Delancey street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which is situated between a line crossing Centre street about forty feet north of Pearl street, and the southeasterly side of Park row, in accordance with the detailed plans and specifications adopted therefor. This part will consist principally of an underground railway station, together with the railroad tracks running through it and extending for short distances northerly and southerly from it. Suitable cross-overs, turn-outs and sidings are also to be provided, all as shown in the detailed plans of construction. The railway tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed on property acquired or to be acquired by the City.

The manner of construction shall be by excavation under cover within the lines of Centre, Pearl, Duane, Reade and New Chambers streets and Park row; within the lines of Park street and City Hall place, and, except as noted above, by open excavation, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries on the westerly side of Centre street are included, as indicated on the detailed plans. Bids for the construction of the station and railroad tracks must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of railroad construction from the cost of the pipe galleries. The Board reserves the right to accept a bid for the railroad construction, and at the same time to reject the accompanying bid for pipe galleries.

The price stated for railroad construction is to include the furnishing of all materials and the performance of all labor requisite to the complete construction of that part of the proposed railroad which is to be built under this contract, including the station, and all sewer and street caused by or incidental to the construction of the same as set out in the proposed form of contract.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office.

The printed form of contract and the detailed drawings are to be deemed a part of this invitation. Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907.

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and acknowledged and also verified by an affidavit of the bidder (or if it be a corporation, then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and acknowledged, and the affidavit sworn to, by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered, and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder, or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board best promote the public interest; and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that his proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and sixty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security to the City, ten per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

A bidder whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by him are not approved by the Board, substitute the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, the bidder whose proposal was accepted will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to such defaulting bidder.

And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Pearl Street to Park Row)," and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding such bidder to pay to the City the damages by it sustained by reason of such failure; and in that case the bidder absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract

is executed and its provisions as to security are complied with.

## INVITATION TO CONTRACTORS.

Centre Street to the Bowery.

THE CITY OF NEW YORK (HEREIN- after called the City), acting by its Board of Rapid Transit Commissioners (hereinafter called the Board), contemplates building a certain rapid transit railroad, known as Route No. 9, in Delancey street, Manhattan, and other streets in the Boroughs of Manhattan and Brooklyn, including ultimately Centre street, Grand street, Desbrosses street, Canal street and William street, in Manhattan, and Fulton street, Lafayette avenue and Broadway, in Brooklyn.

By this advertisement the City invites proposals to construct that part of said railroad which begins at the northerly side of Broome street and curves through Cleveland place (formerly Marion street) and private property into the new Delancey street extension, and runs thence under said extension and under and across the Bowery and under Delancey street to a point about 225 feet east of the centre line of the Bowery.

The general plan of construction calls for a four-track sub-surface railroad. A station at the Bowery and extending to points between Elizabeth and Chrystie streets will be constructed, and suitable cross-overs, turnouts and sidings are also to be provided, all as shown in the detailed plans of construction. The tunnels are to have a height of not less than thirteen (13) feet in the clear, and a maximum width of fifteen (15) feet for each track, except at curves, etc., where the width may be increased. The roof of the tunnels is generally to be as near the surface of the street as street conditions and grades will permit, but will be depressed at the Bowery in order to avoid a grade crossing with a subway to be hereafter built. The roof and sides of the tunnels will be of iron or steel and masonry. Entrances to the station are intended to be placed within private property, rights in which will be acquired for the purpose.

The manner of construction shall be by excavation under cover, unless otherwise directed by the Board.

In the detailed plans for construction, provisions for pipe galleries through Delancey street and the new extension are included. Bids for the construction of the railroad must be accompanied by a separate bid for the construction of the pipe galleries above referred to, as it is essential for the City to separate the cost of the railroad from the cost of the pipe galleries. The Board reserves the right to accept a bid for construction of the railroad and at the same time to reject the accompanying bid for pipe galleries.

Bidders must visit the location of the railroad and station to be built under this contract and note the present conditions, especially along the line of the new Delancey street extension. The buildings standing within the lines of the said new street on May 1, 1907, are to be demolished and the materials removed by other contractors.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract now on file in the office of the Board, No. 320 Broadway, Borough of Manhattan, and in the detailed drawings therein referred to, at which office copies of the contract and of the form of bond and contractor's proposal may be had on application. The contract drawings may be inspected at the same office. The printed form of contract and the detailed drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The work of construction (including pipe galleries) is to be completed as soon as practicable, and within twenty months from the date of delivery of the contract.

SEALED BIDS OR PROPOSALS WILL BE RECEIVED AT THE SAID OFFICE OF THE BOARD, AT NO. 320 BROADWAY, BOROUGH OF MANHATTAN, CITY OF NEW YORK, UNTIL

THURSDAY, JUNE 13, 1907.

AT 12 O'CLOCK NOON, AT WHICH TIME OR AT A LATER DATE TO BE FIXED BY THE BOARD THE PROPOSALS WILL BE PUBLICLY OPENED.

Proposals must be in the form prescribed by the Board, copies of which may be obtained at the office of the Board.

Each proposal must be signed and verified by an affidavit of the bidder (or if it be a corporation then by an officer thereof) to the effect that the several matters therein stated are in all respects true. If the proposal is made by a firm, it will be sufficient if the proposal is signed and the affidavit sworn to by one member of the firm.

Each proposal must specify an office within The City of New York at which notices may be delivered; and delivery of a notice at such office shall be deemed a sufficient delivery and notice to the bidder.

Each proposal or bid must contain the name and place of residence of the person or persons making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; and if the bidder shall be a corporation, there shall be submitted a certified copy of its certificate of incorporation, with a certificate of the amount of stock paid in cash, and the names and business addresses of all officers and directors of the corporation shall be stated; also, that it is made without any connection with any other person making a proposal or bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of department, chief of bureau, deputy thereof or clerk therein, or other officer of the corporation, or any member or employee of the Board, is interested, directly or indirectly, as contracting party, partner, stockholder or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

No proposal will be allowed to be withdrawn for any reason whatever after it shall have been deposited with the Board.

The Board is not obliged by law to accept any of the proposals received by it, but may reject all such proposals and readvertise, or may accept any of such proposals as will in the judgment of the Board, best promote the public interest, and award a contract accordingly, subject to approval by the Board of Estimate and Apportionment, as required by law.

The award of the contract or contracts (if awarded) will be made by the Board within ten days after the opening of the proposals. The bidder or bidders whose proposal shall be accepted shall in person or by duly authorized representative attend at the said office of the Board within ten days after the delivery of a notice by the Board that the proposal is accepted and that the contract is approved by the Board of Estimate and Apportionment; and such bidder or bidders shall then deliver a contract in the form referred to, duly executed with its execution duly proved.

At the time of the delivery of a contract, the contractor will be required to furnish security to the City by giving a bond in the penalty of one hundred and fifty thousand dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Board. The contractor's bond must be in the form annexed to the form of contract.

In addition, and as further security to the City, 10 per cent. of each amount certified from time to time to be due to the contractor will be retained until the work is fully completed.

Each bidder must state in his proposal the names and places of business of the proposed sureties on the bond and describe any securities proposed to be deposited.

Bidders whose proposals are otherwise satisfactory to the Board may, in case the sureties or securities named by them are not approved by the Board, substitute in their proposals the names of new sureties or a different schedule of securities approved by the Board; but such substitution must be made within five days after notice of disapproval by the Board, unless this period is extended by the Board.

In case of failure or neglect to execute and deliver the contract or to make the required deposit or to execute and deliver the required bond, such bidder will, at the option of the Board, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Board will give notice thereof to the defaulting bidder. And the Board may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Board, it will be to the best interest of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

Every proposal must, when submitted, be enclosed in a sealed envelope indorsed "Proposal for Constructing Rapid Transit Railroad—(Centre Street to the Bowery)" and must be delivered to the Board or to its Secretary; and in the presence of the person offering the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a certified check drawn upon a National or State bank or trust company within The City of New York and satisfactory to the Board, payable to the order of the Comptroller of The City of New York, for the sum of twelve thousand five hundred dollars.

If the Board shall give notice to any bidder that his or its proposal is accepted and the contract is approved by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Board, to execute and deliver the contract and to execute and deliver the bond with sureties, or make a deposit in cash or securities, then this invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damages by it sustained by reason of such failure; and in such case the bidder hereby absolutely assigns to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

Such check must not be enclosed in the sealed envelope containing the proposal, but must be separately delivered to the Board or to its Secretary, who will give a proper voucher for the deposit.

All such deposits made by bidders whose proposals shall not be accepted by the Board will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions as to security are complied with.

## FIRST JUDICIAL DISTRICT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of the wharfage rights, terms, easements, emoluments and privileges appurtenant to the dock or wharf property known as GOUVERNEUR SLIP PIER, WEST, formerly known as Pier (old) No. 51, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, and all right, title and interest in and to said pier, or any portion thereof, not now owned by The City of New York, for the improvement of the water front of The City of New York, on the East river, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of certain orders of the Supreme Court, were appointed Commissioners of Estimate and Assessment in the above-entitled proceeding for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the wharf property, wharfage rights, terms, easements, emoluments and privileges hereinafter described and not now owned by The City of New York, and situated in the Borough of Manhattan, in The City of New York, to be taken herein for the improvement of the water front on the East river, in the Borough of Manhattan, and which said wharf property, wharfage rights, terms, easements, emoluments and privileges so to be taken are described as follows:

"All the interest in the pier known as Gouverneur Slip Pier, West, formerly known as Pier (old) No. 51, East river, in the Borough of Manhattan, City of New York, not now owned by The City of New York, said pier being an undivided half interest. Said pier is bounded and described as follows, to wit:

"Beginning at a point in the present bulkhead in the vicinity of the southerly side of South street where the westerly side of said pier, Gouverneur Slip Pier, West, formerly known as Pier (old) No. 51, intersects the same, the northerly prolongation of the westerly side of said pier intersecting the northerly side of South street about 13.5 feet westerly from the northwesterly corner of Gouverneur slip and South street, and running thence from said point of intersection between the present bulkhead and the westerly side of said pier easterly and along the inner or northerly end of said pier 40.9 feet to the easterly side of said pier; thence southerly and along the easterly side of said pier 202.86 feet; thence westerly and along the outer or southerly end of

said pier 45.8 feet to the westerly side of said pier; thence northerly and along the westerly side of said pier 204.09 feet to the point or place of beginning."

All parties and persons interested in the said wharf property, wharfage rights, terms, easements, emoluments and privileges taken or to be taken for the said improvement of the water front of The City of New York, on the East river, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room 401, on the fourth floor of the building No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice, and we, the said Commissioners, will be in attendance at our office on the 20th day of June, 1907, at 1 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, or at such other or further times and places as we may appoint, we shall hear such owners in relation thereto, and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may be then offered by such owners or on behalf of The City of New York.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to EIGHTY-FOURTH STREET, from First avenue to Fourth avenue, from Seventh avenue to Tenth avenue, from Twelfth avenue to Eighteenth avenue, in the Thirtieth and Thirty-first Wards, in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 26th day of August, 1902, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 3d day of September, 1902, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss or damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street so to be opened, to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

The Board of Estimate and Apportionment adopted a resolution on the 1st day of July, 1904, amending the within proceeding by including that portion of Eighty-fourth street lying between Seventeenth avenue and Eighteenth avenue and such lands as are necessary to widen said street between Sixteenth avenue and Eighteenth avenue in accordance with the change of map adopted by said Board on December 11, 1903, and approved by the Mayor of The City of New York on December 18, 1903.

The proceedings herein were amended by including the said lands by an order of the Supreme Court made and entered in the office of the Clerk of the County of Kings on the 8th day of June, 1906, a copy of which order was filed in the office of the Register of the County of Kings on the 2d day of May, 1907, and indexed in the index of Conveyances in Section 19, Blocks 6312, 6313, 6314, 6325 and 6326.

All parties and persons interested in the lands and premises so included for the purpose of opening said street, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 18th day of June, 1907, at 2 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto, and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner or on behalf of The City of New York.

Dated Borough of Brooklyn, The City of New York, May 24, 1907.

## SECTION No. 6.

Notice of Application for the Appointment of Commissioners of Appraisal.

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended. Such application will be made at a Special Term of the Supreme Court to be held in and for the Third Judicial District, at the City Hall, City of Albany, N. Y., on June 29, 1907, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard. The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and at least one of whom shall reside in the county where the real estate hereinafter described is situated, to act as Commissioners of Appraisal under said act and

discharge all the duties conferred by the said act and the acts amendatory thereof, upon such Commissioners of Appraisal, for the purpose of providing water for The City of New York.

The real estate to be acquired herein is situated in the Town of Hurley, and is to be acquired in fee for the purpose of furnishing an additional supply of pure and wholesome water to The City of New York.

The following is a statement of the boundaries of the lands to be acquired herein, with a reference to the date and place of filing of the map.

All the parcels herein described are to be acquired in fee and are colored pink on the map hereinafter referred to.

All those certain pieces or parcels of real estate situated in the Town of Hurley, County of Ulster, and State of New York, shown on a map entitled "Reservoir Department. Section No. 6. Board of Water Supply of The City of New York. Map of real estate situated in the Town of Hurley, County of Ulster, and State of New York, to be acquired by The City of New York, under the provisions of chapter 724 of the Laws of 1905, as amended, for the construction of Ashokan Reservoir and appurtenances," in the vicinity of Ashton, south of railroad, which map was filed in the office of the County Clerk of the County of Ulster, at Kingston, New York, on the 8th day of May, 1907, and is bounded and described as follows:

Beginning at the most westerly point of Parcel No. 223, in the southerly property line of the Ulster and Delaware Railroad Company, where the same is intersected by the line between the Towns of Hurley and Olive, and running thence along the said southerly railroad property line and the northerly lines of said Parcel No. 223 and of Parcels Nos. 227, 230, 231, 229, 233, 234, 235, 236, 240, 239, 241 and 248, north 52 degrees 28 minutes east 8,399.9 feet and on a curve of 5,697 feet radius to the right 1,281.6 feet, crossing and recrossing Beaver Kill to the most northerly point of before mentioned Parcel No. 248, in the centre of a road leading from Ashton Post Office to West Hurley; thence along the centre of said road, the northerly line of said Parcel No. 248, partly along the northerly line of Parcel No. 249 and still continuing along the before mentioned southerly railroad property line, south 67 degrees 44 minutes east 193 feet, to the most westerly point of Parcel No. 251; thence along the northerly lines of said parcel and of Parcels Nos. 252, 257, 258, 260, 264 and 268, and still continuing along the before mentioned southerly railroad property line the following courses, distances and curves: North 48 degrees 15 minutes east 47.3 feet, north 64 degrees 27 minutes east 801.4 feet, north 71 degrees 31 minutes east 349.1 feet, north 76 degrees 33 minutes east 3,286.3 feet and on a curve of 2,898 feet radius to the left 1,036.2 feet to the northeast corner of Parcel No. 268; Section No. 5.

NOTICE OF APPLICATION FOR THE APPOINTMENT OF COMMISSIONERS OF APPRAISAL.

**PUBLIC NOTICE IS HEREBY GIVEN** that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended. Such application will be made at a Special Term of the Supreme Court, to be held in and for the Ninth Judicial District, at the Court House in the Village of White Plains, Westchester County, N. Y., on Saturday, July 20, 1907, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard. The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York and at least one of whom shall reside in the county where the real estate hereinafter described is situated, to act as Commissioners of Appraisal under said act and discharge all the duties conferred by the said law and the acts amendatory thereof, upon such Commissioners of Appraisal, for the purpose of providing an additional supply of pure and wholesome water for The City of New York.

The real estate sought to be taken or affected is situated in the Town of Mount Pleasant, in the County of Westchester and State of New York.

The following is a brief description of the real estate sought to be taken, with a reference to the date and place of filing of the map:

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
