### REPORTS.

#### From Standing Committees.

##### Committee on Finance and Budget.

Bellevue and Allied Hospitals—Issue of Corporate Stock (Cal. No. 4). (On January 25, 1938 (Cal. No. 116), this matter was referred to the Committee on Finance and Budget.)

The Secretary presented a communication dated January 16, 1938, from the Secretary, Board of Trustees, Bellevue and Allied Hospitals, herein; and the following report of the Committee on Finance and Budget:

October 9, 1938.

#### To the Board of Estimate and Apportionment:

Gentlemen—On January 25, 1938 (Cal. No. 116), your Board referred to its Committee on Finance and Budget a communication, dated January 16, 1938, from the Secretary to the Board of Trustees of Bellevue and Allied Hospitals applying for an issue of corporate stock in the sum of \$12,000 for the construction of an enclosed bridge across Gouverneur slip, from Gouverneur Hospital to the new building for the Out-Patient Department, located at the corner of Front street and Gouverneur slip. The bridge is to be used for the safe passage of nurses, patients and physicians from one building to the other.

The Committee on January 28, 1938, determined that before acting upon this request it should have a report from the Bureau of Contract Supervision and that the matter be referred to that Bureau for such report. Under date of February 7, 1938, the Director of the Bureau of Contract Supervision reported favorably upon this application.

At a meeting of the Committee on February 11, 1938, it was determined that this matter be held in abeyance pending action by the Legislature with respect to the repeal of the "pay-as-you-go" act. Subsequently, at the meeting of the Committee held May 13, 1938, it was decided to report favorably on the application, and the Secretary of the Board of Estimate and Apportionment was requested to submit a report from an engineer of his office as to the probable life of the proposed improvement. Under date of June 26, 1938, such further report was received, from which it appears that

"the type of bridge contemplated by the Board of Trustees of Bellevue and Allied Hospitals is a fireproof construction throughout with steel columns, girders and beams, fireproofed with concrete. A structure of this type would be practically permanent, with the exception of roofing and sash. A minimum duration would be not less than forty years."

At a subsequent meeting of your Committee held on May 13, 1938, your Committee determined, in granting the request, to recommend the issuance of serial bonds to the amount of \$12,000, maturing in forty annual installments from the date of issue.

Before the report on this matter was transmitted to you, Mr. Bernard M. Baruch, Chairman of the Priorities Committee of the War Industries Board, had taken the position that the construction of public schools during the war interferes with the successful prosecution thereof.

On September 20, 1938, a communication was sent to the Trustees of Bellevue and Allied Hospitals calling attention to this condition and inquiring as to the urgency of the improvement in the light of this development.

In a letter dated September 28, 1938, addressed to the Comptroller, the Trustees write as follows:

"Your letter of September 20th, in regard to the Trustees' request of the Board of Estimate and Apportionment for \$12,000 corporate stock for the construction of the enclosed bridge across Gouverneur slip, was considered by the Trustees at their meeting yesterday afternoon. The construction of the bridge is not alone desirable, but necessary, for the proper administration of the hospital and the Out-Patient Department, but in view of the report from Mr. Baruch, the Chairman of the Priorities Committee of the War Industries Board, the Trustees believe that it would be to the best interests of the Nation if the construction of this bridge would be deferred until after the conclusion of the war."

In view of the foregoing the papers are returned for filing, with the request that the Trustees of Bellevue and Allied Hospitals be invited to renew their application after the conclusion of the war. Respectfully,

CHARLES L. CRAIG, Comptroller and Chairman, Committee on Finance and Budget.

The papers in the matter were ordered filed, and the Secretary directed to notify the Board of Trustees, Bellevue and Allied Hospitals.

#### From the Department of Finance.

President, Borough of Brooklyn—Transfer of Appropriation (Cal. No. 5).

(On September 20, 1938 (Cal. No. 220-J), this matter was referred to the Comptroller.)

The Secretary presented a communication dated August 20, 1938, from the President, Borough of Brooklyn, herein; and the following report of the Comptroller: October 1, 1938.

#### To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—The President of the Borough of Brooklyn, in a communication dated August 20, 1938, Calendar No. 220-J, September 20, 1938, requested transfer between appropriations made to that office for the year 1938, as follows:

| FROM                                     |            |
|------------------------------------------|------------|
| Contract or Open Order Service.          |            |
| 624 General Plant Service .....          | \$3,347 00 |
| TO                                       |            |
| Supplies.                                |            |
| 582 Forage and Veterinary Supplies ..... | \$1,747 00 |
| Contract or Open Order Service.          |            |
| 605 Motor Vehicle Repairs .....          | 1,600 00   |
|                                          | \$3,347 00 |

The original appropriation in Code 582 was \$1,850, and the unencumbered balance is now \$122.10. The Borough President states that it has been necessary to purchase from this account forage for three horses more than the number contemplated when the budget was prepared, and that this fact, and the increase in prices over those used as a basis for the preparation of the budget, have resulted in the practical exhaustion of the account, making necessary the transfer requested. The original appropriation in Account 605 was \$3,675. The unencumbered balance is \$179.51. The \$1,600 is requested to provide for the needs of this code for the balance of the year.

There is a sufficient balance in Code 624, General Plant Service, to permit of the transfer therefrom of the required amount. The adoption of the attached resolution will effect the transfers requested. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds within appropriations made to the office of the President of the Borough of Brooklyn for the year 1938, as follows:

| FROM                                     |            |
|------------------------------------------|------------|
| Contract or Open Order Service.          |            |
| 624 General Plant Service .....          | \$3,347 00 |
| TO                                       |            |
| Supplies.                                |            |
| 582 Forage and Veterinary Supplies ..... | \$1,747 00 |
| Contract or Open Order Service.          |            |
| 605 Motor Vehicle Repairs .....          | 1,600 00   |
|                                          | \$3,347 00 |

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Queens—15.

#### Police Department—Transfer of Appropriation (Cal. No. 6).

(On September 27, 1938 (Cal. No. 57-C), this matter was referred to the Comptroller.)

The Secretary presented a communication dated September 10, 1938, from the Police Commissioner, herein; and the following report of the Comptroller: October 8, 1938.

#### To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—In a communication dated September 10, 1938, Calendar No. 57C, September 27, 1938, the Police Commissioner requested transfer of funds between appropriations made to that Department for the year 1938, as follows:

| FROM                                                                  |                    |

| 1615 Motor Vehicle Supplies .....                                     | \$1,500 00         |
| 1621 Motor Vehicle Equipment .....                                    | 5,000 00           |
| 1625 General Repairs and Replacements .....                           | 15,000 00          |
|                                                                       | <b>\$21,500 00</b> |
| TO                                                                    |                    |
| 1610 Forage and Veterinary Supplies .....                             | \$1,500 00         |
| 1614 Laundry, Cleaning and Disinfecting Supplies .....                | 1,500 00           |
| 1629 Shoeing and Boarding Horses, Including Veterinary Supplies ..... | 18,500 00          |
|                                                                       | <b>\$21,500 00</b> |

The original appropriation in Code 1610 was \$26,550 and the unencumbered balance at October 1, 1918, was \$14,085, making an average monthly expenditure for the first nine months of \$1,565. The transfer requested, \$1,500, is required to award a contract to supply the Borough of Queens with forage and for the feeding of dogs. The contract price of forage for the period ending July 1, 1918, and the estimated budget cost is shown as follows:

|             | Price Estimated<br>in Budget,<br>Per 100 Lbs. | Contract Price<br>July 1, 1918,<br>Per 100 Lbs. |
|-------------|-----------------------------------------------|-------------------------------------------------|
| Oats .....  | \$2 78                                        | \$3 40                                          |
| Hay .....   | 1 02                                          | 1 97                                            |
| Straw ..... | 90                                            | 1 28                                            |
| Brass ..... | 2 17                                          | 2 84                                            |
| Meal .....  | 3 07                                          | 4 47                                            |
| Salt .....  | 95                                            | 1 81                                            |

Request is made for transfer of \$1,500 to account No. 1614, Laundry, Cleaning and Disinfecting Supplies. The total available amount to credit of the account for the year is \$4,085 and the unencumbered balance October 1, 1918, \$237.90. The 1918 budget request was \$5,471.55. Two orders are drawn, involving \$1,170, on which no action has been taken, owing to insufficient appropriation, and other requests are pending.

The transfer requested for Account 1629 is \$18,500. The original appropriation to it was \$63,722 and the unencumbered balance October 1, 1918, was \$5,338.16. This would indicate an average monthly expenditure for nine months of \$6,483, on which basis \$18,449 would be required for the balance of the year, with an available balance of \$5,338.16. This apparent need of \$14,090.84 for the remainder of the year is not the amount estimated as being needed, as the number of horses boarded for September was 207 at an average cost of \$33 per month. The budget allowance was based on 200 horses to be boarded at a cost of \$36.50 per month. As the number of men on the force grows smaller, a larger number of horses is brought from the Department stables in Queens, as the men can cover more ground with horses than without. For this reason it is expected that the number of horses to be boarded will increase as the year progresses, so that the monthly expense toward the latter part of the year will be greater than in the first part. In addition to the cost of boarding horses, the cost of shoeing horses, which averages about \$200 a month, is also paid from this account.

The amounts to be transferred are from available balances in other appropriations made to the Police Department, which accounts, it is stated by the Commissioner, will not need replenishment.

The adoption of the attached resolution will effect the transfers requested. Respectfully,

CHARLES L. CRAIG, Comptroller.

**Police Department—Contract for Architectural Services (Cal. No. 7).**  
The Secretary presented a communication dated August 14, 1918, from the Police Commissioner, herein; and the following report of the Comptroller:

October 9, 1918.  
To the Board of Estimate and Apportionment:  
Gentlemen—Under date of August 14, 1918 (Secretary's Record No. 1440), the Police Commissioner applied to you for permission to employ architects in the preparation of plans and specifications for the construction of a new station house and garage for the 45th Precinct, southwest corner of Brook avenue and 142d street, Borough of The Bronx, and, in pursuance of the summer vacation procedure, this request was referred to me.

Under date of August 28, 1918, I received a report upon this subject from an engineer attached to the Secretary's office. On September 19, 1918, I sent a copy of such report to the Police Commissioner and called his attention to the fact that since the receipt of his request the Federal authorities had denied the request of the Board of Education, presented through his Honor, the Mayor, for the construction of public schools during the war, and also that early in the year the members of the Board of Estimate and Apportionment had agreed upon the policy that no new construction of any kind would be authorized that did not contribute directly to the prosecution of the war.

In view of such circumstances, and the fact that plans prepared now might be unavailable after the war, by reason of new developments, I inquired of the Commissioner whether he desired to go forward with the matter at this time. Under date of September 30, 1918, I received from the Commissioner a letter, in which he says:

"Replying to your letter of September 19th, relative to the proposed station house for the 45th Precinct, I beg to advise that, inasmuch as the Federal authorities and the Board of Estimate and Apportionment are opposed to the erection of any building not directly connected with the prosecution of the war, and, as the lease for the present station house in that precinct continues until June 30, 1919, I am ready to recommend that the erection of a new station house for this precinct be deferred until further notice."

In view of the foregoing, I suggest that the papers be filed and the Commissioner of Police notified that the request may be renewed at such subsequent date as the progress of the war may justify. Respectfully submitted,

CHARLES L. CRAIG, Comptroller.

The papers in the matter were ordered filed and the Secretary directed to notify the Police Commissioner.

**Department of Public Charities—Retirement of Thomas Clifford, Hospital Helper (Cal. No. 8).**

The Secretary presented a report dated October 10, 1918, to the Board from the Comptroller, recommending the retirement, pursuant to chapter 669 of the Laws of

1911, as amended, of Thomas Clifford, Hospital Helper in the Department of Public Charities, on an annuity of \$342.42.

(On June 14, 1918 (Cal. No. 125), the request of the Commissioner of Public Charities for the retirement of the above employee was referred to the Comptroller.)

The Secretary also presented a communication dated October 10, 1918, addressed to him by the Comptroller, suggesting, inasmuch as Mr. Clifford has made no application for retirement and feels that he is competent to perform the duties of his position, that he be granted an opportunity of making an explanation, as provided by section 166 of the Charter.

(Under date of October 14, 1918, Mr. Clifford was notified by the Assistant Secretary of the Board of the consideration of this report at this meeting of the Board, and that he would be given an opportunity of making an explanation.)

Thomas Clifford appeared and protested his retirement.

The matter was laid over four weeks (November 15, 1918).

**Kings County Fund for Salary and Wage Accruals; Board of City Record; Transfer of Appropriation (Cal. No. 9).**

(On September 27, 1918 (Cal. No. 573), this matter was referred to the Comptroller.)

The Secretary presented a communication dated September 17, 1918, from the Supervisor of the City Record, herein; and the following report of the Comptroller: October 7, 1918.

To the Board of Estimate and Apportionment, The City of New York:

Gentlemen—The Supervisor of the City Record, in a communication dated September 17, 1918, Calendar No. 57-B, September 27, 1918, referred to the Comptroller, requests the transfer of \$6,000 from Code 3508, 1918, Kings County Fund for Salary and Wage Accruals to City Record appropriation No. 3506, 1918, printing, stationery and blank books for Kings County.

The original appropriation made to the credit of Code 3506 was \$20,000, which has been practically exhausted. The transfer is requested to provide funds from which to purchase supplies which may be requisitioned by the various county offices and courts in Kings County for the balance of the year 1918.

As your Board has been disinclined to make transfers from salary and wage accruals for such purposes there is attached hereto a resolution recommending that the Board of City Record apply to the Board of Aldermen for the issuance of special revenue bonds in the sum desired under subdivision 8 of section 188 of the City Charter. Respectfully,

CHARLES L. CRAIG, Comptroller.

The following resolution was offered:

Resolved, That the Board of City Record be advised by the Secretary of the Board of Estimate and Apportionment, in connection with its request of September 17, 1918, for the transfer of \$6,000 from Account 3508, 1918, Kings County Fund for Salary and Wage Accruals to City Record Appropriation 3506, 1918, Printing, Stationery and Blank Books for Kings County, that in the judgment of this Board it is preferable for the Board of City Record to make application for the \$6,000 desired to the Board of Aldermen under subdivision 8 of section 188 of the City Charter.

Which was adopted by the following vote:  
Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx and the Acting President of the Borough of Queens—15.

**Hull, Grippen & Co., et al.—Claims of (Cal. No. 10).**

**Unionport Road, Cruger Avenue and Bear Swamp Road, Borough of The Bronx—Acceptance of Deeds of Cession (Cal. No. 11).**

The Secretary presented a report dated October 10, 1918, of the Chief Engineer, concerning deeds executed by the New York, Westchester and Boston Railway Company and the Millbrook Company, conveying to the City land within and adjoining the railroad right-of-way at its intersection with Cruger avenue and with Bear Swamp road, Borough of The Bronx.

Engineer reports that the acceptance of these deeds was made the subject of a recommendation by him to the Board at the meeting of June 8, 1917 (Calendar No. 151), at which time the matter was referred back to him for conference with the Corporation Counsel. It appears that the objection raised to favorable action was based on the fact that similar deeds had previously been presented to the Corporation Counsel and had been found to be defective as to title. A representative of the railroad company now advises that the objection originally raised no longer exists, the railroad company's title having been perfected. Since the matter was originally considered, title to Cruger avenue has been vested in the City.

It is recommended that the deeds relating to Bear Swamp road be forwarded to the Corporation Counsel for acceptance, pursuant to contract provisions in so far as they relate to land within the railroad right-of-way, and, as to other parcels, pursuant to the rules laid down by the Board, providing that the deeds are found to be properly drawn.

**Board of Water Supply—Contract for Construction of Schoharie Tunnel (Cal. No. 13).**

(On January 31, 1916 (Cal. No. 1), a resolution was adopted authorizing \$22,175,400 for this work.)

The Secretary presented the following communication, which was ordered filed: 128 Broadway, New York, October 11, 1918.

To the Honorable Mayor and Board of Estimate and Apportionment, New York City:

Gentlemen—Last year, before the adjournment of the Board of Estimate and Apportionment under Mayor Mitchell, a contract was rushed through to extend the water system, for a large sum of money, about \$12,000,000. The Engineers of the City, I understood, stated that we did not require any further extension for the next twenty-five years to come, and I was in hopes that the new Board of Estimate and Apportionment would reverse the action of the Board of Estimate and Apportionment of last year, and cancel this contract.

I think even at the present stage of the contract it would pay the City to compromise with the contractors and abandon the project as it requires a large expenditure on behalf of the City for condemning wild, mountainous land that has little or no value, at enormous prices.

If you would like to hear me further I would appear before the Board at any time you suggest. Yours very truly,

JEFFERSON M. LEVY.

The Secretary presented the following:  
The City of New York, Office of the President of the Borough of Queens, Long Island City, October 10, 1918.

**Board of Estimate and Apportionment, City of New York:**  
Gentlemen—In accordance with the provisions of the Charter of the City of New York, your approval is requested of a transfer of funds within the appropriations made to this Department for the year 1918 as follows:

FROM  
Code 676 Wages, Temporary Employees, Care of Highways..... \$17,000 00  
TO  
Code 715 Hire of Horses and Vehicles, etc., Care of Highways..... \$17,000 00  
In explanation of this request I desire to state that there is sufficient funds in Code 676 to permit of the employment of the present force (Highway) until the end of the year, and there will be sufficient balance unexpended and available for the above transfer.

The shortage of funds in Code 715 is due to the fact that the early spring season made it possible to employ this element of the Highway forces on the dirt streets of the Borough sooner in the year than usual. Yours very truly,  
FRANK X. SULLIVAN, Commissioner of Public Works.

#### MATTERS LAID OVER FROM PREVIOUS MEETINGS.

##### Public Service Commission for the First District—Crossings Over Tracks of New York, New Haven and Hartford Railroad Company (Cal. No. 51).

The Secretary presented a communication dated December 19, 1917, addressed by the Secretary of the Public Service Commission for the First District to this Board and to the New York, New Haven and Hartford Railroad Company, advising that the Commission is of the opinion that the crossings constructed under the contract of December 21, 1914, between the City and the railroad company should have been made the subject of a determination by the Commission pursuant to the provisions of the Railroad Law, and that the Commission holds that such application should now be made by both parties.

This communication was received on December 20, 1917, and was thereupon referred to the Chief Engineer, who submitted the matter to the Corporation Counsel with a request for advice as to what action, if any, should be taken by the Board.

Also a communication from the Acting Corporation Counsel reviewing communications to him from the Chief Engineer, and stating that up to the present time he has refrained from replying to the inquiry partly for the reason that he is not satisfied that the request has been properly made by the Commission, and partly because it is not clear to him that the course proposed would be of financial benefit to the City. He further states that by reason of certain litigation now in progress, he is of the opinion that the suggested application on the part of the City should not be made at this time.

(On September 20, 1918 (Cal. No. 54), the matter was laid over until this meeting, and the Secretary was instructed to send a copy of the opinion to the Public Service Commission.)

The Secretary presented a further communication, dated October 8, 1918, from the Public Service Commission for the First District, stating that an examination of the opinion of the Acting Corporation Counsel discloses nothing in its contents which suggests grounds for changing in any respect the views and recommendations set forth in the communication of the Commission of December 19, 1917.

The Commission also states that the statute directs that the City shall make application to the Commission, and compliance with the statute requires that the application be made, and that no bridges be erected or maintained, by agreement between the City and the railroad company or otherwise, unless the application be first made and the proper determination secured. This duty of the City is a peremptory one, irrespective of any temporary question of financial benefit or detriment, and therefore respectfully renews its request that application be made by the City to determine the manner of crossing over the railroad track of the several streets which had not prior to December 1, 1904, been legally opened across the railroad and which were constructed across it pursuant to the above-mentioned agreement.

The Secretary also presented a communication, dated October 16, 1918, from the Counsel to the New York, New Haven & Hartford Railroad Company acknowledging receipt of communication from the Secretary of the Board, enclosing copy of opinion from the Corporation Counsel on this subject, and replying thereto.

William Fuller, representing the Public Service Commission for the First District, and D. L. Woody, representing the New York, New Haven & Hartford Railroad Company, appeared.

The matter was referred to the Committee on Finance and Budget.

(On October 11, 1918 (Cal. No. 81), the matter was laid over until this meeting and referred to the Comptroller.)
