For further reference to the work of this division I submit detailed report of the Superintendent.

DIVISION OF SUBSTRUCTURES.

The duties of this division are: Accumulating all information obtainable by surveys and investigations as to the size, location and character of the structures under the streets and avenues of the borough, and making records of same on maps; assigning definite locations for new substructures, thereby reducing mutilations to a minimum.

Through the recommendations of the Engineer in charge of this division we have been instrumental in reducing pavement mutilations, also in preventing encroachments upon the subsurface spaces previously selected for the installation of the large distribution mains being built under the jurisdiction of the Board of Water Supply.

The division is also working to conserve, as far as possible, for future utilization, subsurface spaces which are becoming one of the City's most valuable assets, and from which substantial revenues will be derived from future franchise grants.

The division received 3,687 applications for subsurface space for tunnels, pipes, etc., information as to the location and size of existing substructures. Such information is required by the Board of Estimate and Apportionment when applications are filed for franchises.

It is the purpose to exact a moderate fee for information furnished to private individuals and corporations. Authority for this is to be covered by an amendment to section 92 of the Code of Ordinances, now pending before the Board of Aldermen for adoption, in order to place the Division of Substructures on a revenue-earning basis, similar to departments of like character in other cities.

The division was engaged in preparing subsurface record maps over new areas of the Borough, confined to the area bounded by Dean st., Flatbush ave., Willoughby st. and Washington ave.

During the quarter the work of assigning definite locations for the more important installations was taken up, the most important of which was for the Edison Co., from Prospect place to 64th st., a distance of 3.6 miles. In addition, definite locations have been established for numerous runs of from 500 to 3,000 feet in length, and a considerable amount of subsurface information furnished for the use of other departments, including the Public Service Commission.

BUREAU OF SEWERS.

I submit to you detailed report of the operations of our Sewer Bureau, in the maintenance and repairs of existing sewers and construction of new sewers.

From the accompanying report of this bureau it will be observed that during the third quarter 57,688.63 linear feet of all sizes were laid, or an equivalent of 10.926 miles. This is against 47,762.18 linear feet of all sizes, or 9.045 miles, laid during the second quarter of 1912.

On June 30, 1912, there were 902.853 miles of sewers, which, added to amount laid during the third quarter, brings the total mileage of sewers in the Borough of Brooklyn on September 30, 1912, to 913.779 miles.

The total amount of sewers built during the quarter, divided among the various sizes, is as follows:

	Linear feet.	Miles.
Vitrified pipe sewers, 8 inches to 36 inches	45,997.99	8.712
Cast iron pipe sewers, 10 inches to 42 inches	977.00	0.185
Brick sewers, 30 inches to 84 inches	9,442.64	1.788
Reinforced concrete sewers, 78 inches to 84 inches	1,271.00	0.241
Total	57,688.63	10.926

There were 54,660.37 linear feet (10.352 miles) of 6-inch house connection drains, and 356.66 linear feet (0.068 miles) of 8-inch house connection drains built during the quarter, making a total of 10,420 miles, and the amount of 6-inch house connection drains built under the jurisdiction of the bureau since this system was inaugurated to the close of the quarter is 106.174 miles, and 0.104 miles of 8-inch house connection drains, or a total of 106.278 miles.

The number of basins built during the quarter was 125; three of these replaced basins abandoned on account of street widening proceedings, making a net increase of 122. This, added to the basins previously connected with the sewerage system (11,430), makes the total 11,552 on September 30, 1912.

On July 1, 1912, there remained on hand 40 resolutions for sewer improvements, amounting in estimated cost to \$1,642,900, for which the Board of Estimate and Apportionment had, prior to that date, authorized the preparation of contract plans and specifications, and had further directed the resubmission of the matters when the preliminary work was done. Contract plans and specifications for 24 of these improvements, amounting in estimated cost to \$658,900, were completed and submitted. Plans for 5 of the improvements, amounting to \$779,100, are in course of preparation.

Ninety-three (93) reports upon sewer improvements, to precede paving and in response to petitions for sewers, were made. Forty-four (44) were to precede paving, the estimated cost of the sewer improvements required before paving being \$67,400, and 49 were for sewers petitioned for at a cost of \$160,450. The total mileage of sewers called for in these reports is 7.576.

During the quarter 2 petitions were received for construction of sewers by private contracts, plans and specifications for both of which were prepared and submitted.

Six resolutions of local boards, authorizing the construction of sewer basins, were received, aggregating a total estimated cost of \$1,400.

Statement and blueprints are herewith attached to the report of the Bureau of Sewers, showing contracts entered into during the quarter, contracts completed during the quarter, and contracts in progress which were uncompleted on September 30, 1912, with a summary showing the magnitude of the work carried on under the jurisdiction of the bureau.

Also attached to the report of the Bureau of Sewers will be found a detailed report of the Superintendent of the Division of Maintenance, showing work done and materials used in maintaining the sewerage system of the Borough:

OFFICE OF GENERAL BOOKKEEPER.

The General Bookkeeper has submitted to me a detailed report of the third quarter, showing accounting, for the department, of all moneys received by appropriation, transfer of funds, and all moneys expended for contracts, requisitions, supplies, etc.

TOPOGRAPHICAL BUREAU.

The work of the Topographical Bureau consists of preparation of surveys by "Field Force" for profiles in connection with improvements, and work performed by "Office Division" in the preparation of necessary maps, reports, etc.

The activities of this bureau are broad and general in scope, the bureau performing work and compiling data for the use of other departments of the City government, as well as for the bureaus under the jurisdiction of the Borough President.

Summing up, the duties of the Topographical Bureau may be defined as follows:

1. To make topographical surveys and computations, and to prepare maps, plans and profiles, sketches, etc., for altering the map or plan of The City of New York, and for acquiring title to streets, avenues, public parks, places, etc.

2. To mark on the ground, by means of monument stones, etc., the lines of streets, and to protect monuments in the streets when improvements are being made.

3. To prepare maps and technical descriptions for the Local Boards, Board of Estimate and Apportionment, Corporation Counsel and Commissioners of Estimate and Assessment in the matter of altering the map or plan of The City of New York and of acquiring title to streets, avenues, etc.

4. To prepare certificates of dedication for streets in which the City has an easement for the use of the public, and also statements of facts for submission to the Corporation Counsel in order that he can determine whether improvements may be made without instituting condemnation proceedings in the streets for which the statements of facts are submitted.

5. To furnish, when requested, reports on the legal status of streets, not only for the other bureaus of the borough government, but for the City departments, i. e., Street Cleaning Department, Taxes and Assessments, Bridges, Water Supply, Gas and Electricity, also for the public generally.

6. To connect the traverse lines, monumented street lines and monumented lines holding the triangulation stations to the several secondary stations or towers in this Borough.

7. To make surveys and prepare plans and profiles for all original improvements that are undertaken by the Bureau of Highways; to determine, for all contracts let by the Highway Bureau, the amount of excavation, fill, number of linear feet of curbing, number of square feet of sidewalk, number of cubic yards of concrete and the number of square yards of asphalt, and to furnish the contractors with line stakes and grade stakes, and monthly estimates of cost of preparing maps in street openings for use of the office of the Corporation Counsel. This statement shows the names of the persons employed in the preparation of the maps, the dates and days of the month so employed, and the number of hours occupied, in order that the cost items may be charged to the expense of the several street-opening proceedings indicated on the monthly statement.

A great deal of the routine work of the office, which took considerable time, such as the care and preservation of monument stones, the keeping of the detailed records of the office, the accumulation of records which had been missing, the numerous investigations necessary to make reports on the legal status of streets, the many replies, both oral and written, to inquiries as to the legal status of streets, etc., are not, and cannot well be, included in the report submitted by the Chief Engineer of the Topographical Bureau.

The "field work," which was required for and which is included in the maps and reports under the head of "office work," consists of chaining, line work, angular measurements, leveling and damage survey work, and the amount of this work, which was done as required during the quarter, is given below:

907,100 feet of chaining, 18,900 feet of precise chaining, 888,200 feet of approximate chaining.

19,000 feet precise line work.

36 angles measured.

46,759 feet profile for regulating, grading, etc. (original improvements for 39 streets).

101,419 feet line and grade stakes set (original improvements for 74 streets).

37,808 feet damage surveys for 12 streets.

Surveys for profiles for regulating, grading, etc., original improvements, affecting forty streets, were made (total 47,350 feet).

Line and grade stakes set, seventy-four original improvements, and covered 101,419 linear feet.

Damage surveys, in street opening proceedings, on twelve streets, representing 37,808 linear feet, were made.

Monument Lines Fixing Streets—Monument points set, 3; monuments re-referenced, 34; monuments reset, 32; monument covers set, 2; monuments found (not previously reported), 1; total, 72.

Fourteen maps were completed and forwarded to the Board of Estimate for adoption, showing change of lines of streets, closing, locating and laying out and change of grades.

Thirteen maps, or general sketches, for special reports, and copies of maps previously prepared and forwarded were made.

Six maps, showing encroachments on streets, were prepared for our Division of Encumbrances.

Streets and Street Openings—This work, in addition to furnishing a mass of oral information, consists in preparing statements of facts for submission to the Corporation Counsel. It requires an accurate search of all records in this and the other public offices, besides a thorough examination on the ground of the physical condition of each street.

Several statements of facts were forwarded to the Corporation Counsel. These statements furnish all obtainable information, documentary and physical, that tends to prove a dedication of each street to public use. The question of decision as to sufficient evidence of dedication without the necessity of condemnation proceedings is determined by the Corporation Counsel.

A number of maps were submitted to the Corporation Counsel in condemnation proceedings, consisting of rule maps, draft damage maps, final maps and amendments and additions for street opening maps.

The total number of rule maps were thirteen and comprised 42,625 feet, or 5.233 miles, of streets. There were also thirteen streets, covering fifteen draft damage maps, representing 1,135 plots, 2,842,769 square feet, or 1,421.385 city lots, and a total length of 5.233 miles. These maps are used by the Commissioners of Estimate and Assessment to determine the amount of awards for lands and buildings taken in the opening of the streets.

Draft benefit maps, totaling thirty streets, comprising fifteen maps, and covering 4,536 plots, were made. These maps show the limits of assessment for opening a street, and give lot and block dimensions. They are forwarded to the Board of Estimate and Apportionment, together with the "draft damage maps," for certification before the appointment of Commissioners, as required by resolution of that Board on March 26, 1909.

Final damage and benefit maps, covering thirty streets, and representing 541 sheets, were made and sent to the Corporation Counsel. The final damage maps are made in duplicate and final benefit maps in triplicate. These are the last maps for street opening proceedings. They are copies of the draft damage and benefit maps, with the additions of any modifications that may have been decided upon by the Commissioners' report, which is placed on file at the confirmation of each street opening proceeding.

There were fifty plans and profiles (original improvements) for regulating, grading, etc., covering 58,717 feet, or 11.12 miles of streets.

Six hundred and two reports and letters were sent, as follows:

1. Reports on condition of streets in relation to opening proceedings or improvements	147
2. Reports accompanying street opening maps	40
3. Reports on changes of lines, laying out, closing, etc., and changes of grades	178
4. Miscellaneous reports	237

CORPORATION SALE BY SEALED BIDS OF THE LEASE OF CERTAIN CITY REAL ESTATE.

UPON THE AUTHORIZATION OF THE Commissioners of the Sinking Fund, and pursuant to a resolution adopted by them at a meeting held December 18, 1912, the Comptroller of The City of New York will sell by sealed bids on

SATURDAY, FEBRUARY 1, 1913.
at 11 o'clock a. m. in Room K, 280 Broadway, Borough of Manhattan, the lease for a period of five years from February 1, 1913, of premises belonging to the corporation of The City of New York, more particularly described as follows:

All that certain piece or parcel of real estate situated in the Borough of Manhattan, City of New York, bounded and described as follows: Beginning at a point on the easterly line of the right of way of the New York Central and Hudson River Railroad, where said line is intersected by the northerly line of W. 165th st. (discontinued), running thence northerly along said easterly line of the right of way of the New York Central and Hudson River Railroad to a point where said line is first intersected by the line of original high water mark, as shown on a map prepared by the Department of Docks and Ferries in 1893, entitled, "Map of land between original high water mark (Randel's Map) and the easterly side of right of way of the New York Central and Hudson River Railroad, extending from W. 163d st. to W. 173d st.," running thence southerly along said original line of high water to the said northerly line of W. 165th st. (discontinued); running thence westerly along the said northerly line of W. 165th st. (discontinued) to the point or place of beginning, containing approximately 68,945 square feet, being part of the lands turned over by the Department of Docks and Ferries on January 21, 1893, to the Commissioners of the Sinking Fund, and shown on the map above mentioned.

The Comptroller will receive sealed bids for the lease of the said parcel of land for the said period at the minimum or upset price of \$1,000 per annum, payable quarterly in advance, and the said sale will be made upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay 25 per cent. of the amount of the yearly rental at the time and place of sale; the amount so paid for one quarter's rent shall be forfeited if the successful bidder does not execute the lease when notified that it is ready for execution.

He will also be required to give a bond equivalent at least to the amount of one year's rent, and in any event not to be less than five thousand dollars (\$5,000), with two sufficient sureties to be approved by the Comptroller, conditioned for the payment of the rent quarterly in advance and for the performance of the covenants and terms of the lease.

No building shall be erected upon said site except approval shall have been first obtained from the Commissioners of the Sinking Fund, and plans and specifications of said building shall be presented to said Board and approval in writing obtained.

No person shall be received as lessee or surety who is delinquent on any former lease from the corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety, or otherwise, upon any obligation to the corporation as provided by law.

The lease will be in the usual form of leases of like property and will contain, in addition to other terms, covenants and conditions, as follows:

The City to be held free and harmless from any liability to the adjacent owners or the lessees or users of any of the adjacent property, by any use to which the premises to be demised are put.

In case any part of the land to be demised is required at any time for street purposes or for use in connection with railroad or terminal purposes, the lease to such part of the premises so required shall cease and determine, and the rent will be decreased in proportion to the amount of land so required and taken.

In case the lessee wishes to use the demised premises as a dump, he may do so provided the grading be limited to an elevation of one foot below the railroad tracks of the New York Central and Hudson River Railroad, for a distance of 25 feet easterly from the easterly line of the right-of-way of said railroad company, and from thence on a uniform slope up to the elevation of the adjoining property, the work to be done under the supervision and to the satisfaction of the Comptroller of The City of New York, who shall certify, upon the expiration of the lease, that the work has been performed in accordance with the terms of the lease.

The material deposited shall consist of rock (not larger in size than one cubic foot), good wholesome earth and clean cinder. In no event shall garbage or other sweeping be allowed to be deposited. No rock deposit shall be made or allowed nearer than two feet from the finished grade.

The purposes for which this property is to be used shall at all times be subject to the approval of the Comptroller.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held January 9, 1913, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York: The petition of the New York Magnaphone and Music Company, a New York corporation, respectfully shows:

1. That on the 17th day of January, 1912, by Resolution Number 89, this Board granted to the petitioner a franchise to lay, construct, maintain and operate suitable wires under and along the streets and avenues within the territory comprising the Borough of Manhattan and that portion of the Borough of The Bronx lying west of the Bronx River, for the purpose of distributing music and matters of general interest electrically, by means of a magnaphone.

2. Under the terms of said franchise your petitioner is required to place its wires in the conduits or subways and lease such wires or conduits from the company having control thereof under the conditions or rules of law, or from the City, should it succeed such company or companies.

3. The company has duly paid the sum of five thousand dollars, required to be paid by the third paragraph or subdivision of said franchise, as the condition precedent to its exercise of the privileges granted by this Board; and it has duly deposited with the Comptroller of the City \$5,000 in securities, approved by him, for the performance by your petitioner of the terms and conditions of its said franchise.

4. At the time that your petitioner applied for the said franchise, your petitioner planned to utilize spare wires in telephone cables for the purpose of transmitting music to its subscribers. Application was duly made to the telephone company for such wires and, after months of experimenting, your petitioner found that the cables were of such a character that music could not be sent over such spare wires without creating an induced current, thereby transmitting the music to the wires utilized in the telephone service.

5. Your petitioner has found that to carry on its business independent of the telephone company and through independent cables will be impractical on account of the rent imposed for conduits.

6. Your petitioner further shows that it has received no benefits whatever from said franchise or from the payments made to the City in consideration thereof.

7. Your petitioner desires to surrender for cancellation the franchise granted as aforesaid on the 17th day of January, 1912.

Your petitioner, therefore, prays that this Honorable Board consent to the surrender for cancellation and the cancellation of the said franchise upon the payment by your petitioner to the City, for the privileges granted by said franchise, of the sum heretofore accrued under the provisions of subdivision "b" of the third paragraph of said franchise.

Dated New York, December 17, 1912.

PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.

PART OF ROUTES NOS. 36 AND 37.

THE CITY OF NEW YORK, ACTING BY THE Public Service Commission for the First District (hereinafter called "the Commission"), invites proposals to construct Section No. 3 of the Astoria, Woodside and Corona Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 3. Beginning at a point on Queens boulevard, in the Borough of Queens, about two hundred and seventy (270) feet north-west of the westerly line of Van Dam street, and extending thence along and over Queens boulevard, Greenpoint avenue, Skillman avenue and Roosevelt avenue to a point over Roosevelt avenue about seventy (70) feet east of the easterly line of Sycamore avenue (Albertus avenue); with local stations at Rawson street, Lowery street, Bliss street, Lincoln avenue, Broadway, 25th street, Elmhurst avenue and Sycamore avenue, and with express stations at Woodside avenue and Junction avenue.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or any ties, or to provide or lay broken stone or ballast on the reinforced concrete elevated railroad, nor to do station finish work, except such station finish work as is specifically required to be done.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York.

The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 31st day of February, 1913, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of Contractor's Proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 36 and 37, Section No. 3," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for fifty thousand dollars (\$50,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal the sum of one hundred thousand dollars (\$100,000). Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days from the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

New York, January 21, 1913.

TRAVIS H. WHITNEY, Secretary. j23,f7

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-ends, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.
