## STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

### Resolutions Adopted.

Whereas, the International Salt Co. of Ithaca, N. Y., has made application to this Commission for a variation from the provisions of section 8-a of the Labor Law to permit the male adults employed at its plant at Ithaca, N. Y., to work seven days per week; and  
 Whereas, upon investigation by the Supervising Inspector in charge of the district wherein this plant is located it is shown that the process of manufacture is necessarily continuous due to the fact that the brine tanks and vats must be continuously operated and that the necessary power and steam must be furnished for such operation; and  
 It appearing that the firemen, coal passers, grainer men and brine tenders are working in three shifts of eight hours each, therefore  
 Be it resolved by the State Industrial Commission, That variation be and it hereby is granted to the International Salt Co. of Ithaca, N. Y., to work three firemen, three coal passers, three grainers and one brine tender seven days per week but in no case more than eight hours in any one calendar day except when changing shifts. A list of the men employed on each shift and the hours worked to be conspicuously posted at said plant.  
 This variation to take effect immediately.  
 Dated, July 3, 1918.

 Whereas, the Star Electrode Works of Niagara Falls, N. Y., has made application to this Commission for a variation from the provisions of section 8-a of the Labor Law in so far as the same applies to the male adults employed on work for the United States Government at its plant at Niagara Falls, N. Y.; and  
 Whereas, an investigation made by the Supervising Inspector in charge of the district wherein this plant is located shows that this company is under contract with the United States Government to supply war material, and that the work being done is necessarily continuous; and  
 It appearing from the certificate of emergency filed by the Secretary of War that an emergency exists warranting this Commission in granting such variation, therefore  
 Be it resolved by the State Industrial Commission, That the Star Electrode Works of the

National Carbon Co., of Niagara Falls, N. Y., be and it hereby is granted a variation from the provisions of section 8-a of the Labor Law to permit 250 male adults employed at its plant at Niagara Falls, N. Y., to work seven days per week in three shifts of eight hours each per day, but in no case to exceed eight hours in any calendar day except when changing shifts. Whereas, it has been shown that this company has contracted with the United States Government to furnish material urgently needed in the prosecution of the war; and

It appearing that the Secretary of War has certified to this Commission that the emergency still exists and has requested the continuation of said variation to and including the 29th day of August, 1918, therefore

Be it resolved by the State Industrial Commission, That the Eclipse Machine Co., Inc., of Elmira, N. Y., be and it hereby is granted a continuation of the variation from the provisions of section 8-a of the Labor Law heretofore accorded said company to permit the male adults in its employ engaged on work for the United States Government to work seven days per week at its plant at Elmira, N. Whereas, the Kar Engineering Co., of New York City, has made application to this Commission for a continuation of the variation from section 8-a of the Labor Law granted said company on March 20, 1918, permitting certain employees at its plant at 79 E. 130th st., New York City, to work seven days per week until July 1, 1918; and

Whereas, it has been shown that this company has contracted with the United States Government to supply material for the use of said Government, and that the work necessary to comply with the terms of said contract will cover a period of time until at least Sept. 30, 1918; and

It appearing that Mr. Benedict Crowell, Assistant Secretary of War, has certified to this Commission that an emergency existed warranting the granting of such variation, therefore

Be it resolved by the State Industrial Commission, That the Kar Engineering Co., of 79 E. 130th st., New York City, be and it hereby is granted a continuation of the variation from the provisions of section 8-a of the Labor Law heretofore accorded said company to permit certain male adults engaged in work for the United States Government at its said plant to work seven days per week until Sept. 30, 1918. I, WILLIAM S. COFFEY, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 3d day of July, 1918, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

Whereas, application has been filed with the State Industrial Commission for a variation from the provisions of section 8-a of the Labor Law by the J. M. Horton Ice Cream Co. for its plant located at Richville, St. Lawrence Co., N. Y.; and

Whereas, a review of the situation now existing discloses that there is in its industry in its locality an extreme shortage of labor; and

Whereas, it appears that a strict enforcement of section 8-a will result in the loss of a large quantity of dairy products through the inability of the J. M. Horton Ice Cream Co. to take care of said products owing to said shortage of labor, and that the products dealt in in this industry are perishable foods, the saving of which is especially essential at this time owing to the National emergency; and

Whereas, the loss of such food products, under the unusual circumstances existing would be detrimental and disastrous, therefore

Be it resolved, That the State Industrial Commission hereby exempts and does exempt J. M. Horton Ice Cream Co. from the application of this statute in so far as the same applies to male adults in its employ at Richville, St. Lawrence Co., New York, for the period ending Sept. 1, 1918.

Dated, July 3, 1918.

Whereas, the Donner Steel Co., Inc., of 475 Abbott rd., Buffalo, N. Y., filed a petition dated June 5, 1918, for a variation from the provisions of section 79-a-2 of the Labor Law, re required exits, in the Pattern Shop of the Donner Steel Co., Inc.; and

Whereas, a public hearing was held on the 10th day of June, 1918, at Buffalo, N. Y., and opportunity for all interested persons to be heard thereon having been given; and

Whereas, an examination of plans and report of the inspection of the said premises were made, and a report of such inspection is on file in the offices of the Commission, from which inspection it appears that the said Pattern Shop was erected since Oct. 1, 1913, is of fireproof construction, two stories high, and approximately 26 feet 8 inches by 129 feet 2 inches, and will be sprinklered, used as pattern and carpenter shop, not more than twenty (20) persons above the ground floor; exits are one interior fireproof stairway enclosed to underside of second floor and one proposed iron stairway to elevated walk approximately 10 feet 0 inches from north end of building; walk extends 200 feet from stairway. And there appearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said premises, and that in the granting of the variation on said premises the spirit of the law and rules and regulations will be observed and public safety secured.

Be it resolved by the State Industrial Commission, That a variation be and it hereby is granted to the Donner Steel Co., Inc., on its pattern shop, Buffalo, N. Y., upon the following terms: That enclosed iron stairway be permitted, provided interior stairway is enclosed on second floor, and enclosure leads directly to outer air from lower terminus.

Be it further resolved, That the said variation is granted only during the period that the conditions above set forth as to exits, number of occupants, nature of industry, etc., are maintained.

Dated, July 2, 1918.

Whereas, the Pennsylvania Railroad Co., through its District Solicitor, Alexander S. Divens, has made application to this Commission for a variation from the provisions of section 8-a of the Labor Law to permit the men employed in its Elmira shops and round houses to work seven days per week; and

Whereas, investigation made by the Supervising Inspector in the district where said shops and round houses are located shows that the work being done is not necessarily continuous; and

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either of any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
