## PROCUREMENT

#### *"Compete To Win" More Contracts!*

*Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.*

- *Win More Contracts at [nyc.gov/competetowin](http://nyc.gov/competetowin)*

*"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."*

#### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all

Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

#### Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)  
 Department for the Aging (DFTA)  
 Department of Consumer Affairs (DCA)  
 Department of Corrections (DOC)  
 Department of Health and Mental Hygiene (DOHMH)  
 Department of Homeless Services (DHS)  
 Department of Probation (DOP)  
 Department of Small Business Services (SBS)  
 Department of Youth and Community Development (DYCD)  
 Housing and Preservation Department (HPD)  
 Human Resources Administration (HRA)  
 Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit [www.nyc.gov/hhsaccelerator](http://www.nyc.gov/hhsaccelerator)

**CORRECTION: BODY CAMERA PROGRAM INITIATIVE YEAR 1** - Sole Source - Available only from a single source PIN#07119S0002 - Due 1-18-19 at 2:00 P.M.

**CORRECTION:** The Department of Homeless Services (DHS) Security and Emergency Operations intends to enter into a Sole Source negotiation with Axon Enterprise, Inc. to equip all DHS Peace Officers with body-worn cameras. The Body Camera Initiative trial began in October 2018, and to date, has proved to be beneficial to the agency. The Axon Enterprises, Inc. is the largest producer and distributor of body-worn cameras for law enforcement in the nation. Axon's cloud based storage and state-of-the-art software provides the DHS with easy access to view and organize large amounts of video and audio files, without need to build out an IT infrastructure. This is particularly

important for DHS Peace Officers that patrol a dynamic environment and require equipment that is easy to install with little or no cost to the agency. Axon's body-worn cameras utilize Bluetooth technology that syncs to the existing Taser being carried by DHS Peace Officers and activates all body-worn cameras in 30 foot radius of the upholstered Taser.

Organizations that believe they are capable to provide 800 body-worn cameras with Bluetooth technology for DHS or are interested in similar future procurements may express their interest by letter addressed to Adrienne Williams, Office of Contracts, 150 Greenwich Street, 37th Floor, New York, NY 10007.

CASE COORDINATION FOR CLUSTER CONVERSION PROGRAM - Negotiated Acquisition - Judgment required in evaluating proposals - PIN#09619N0009 - Due 2-5-19 at 2:00 P.M.

The New York City Department of Social Services/Human Resources Administration (DSS/HRA) is issuing this Negotiated Acquisition to seek Case Coordination Services to provide services to families who are formerly homeless families. DSS/HRA anticipates a total of 477 households. Although these formerly homeless families are the target population, all tenants residing in conversion buildings may request services. The Case Coordination Services Program would primarily serve households below 200 percent of the federal poverty guideline.

The majority of clients are families with minor children, with most families having more than one minor child. However, family households without children will also be served. DSS/HRA estimates most households are recipients of public benefits.

DSS/HRA reserves the right to expand the target population, as deemed necessary.

Proposers would have experience providing services to formerly homeless households. Proposers may choose to subcontract with other providers with experience serving formerly homeless families. DSS/HRA encourages Proposers to establish partnerships with community-based organizations (CBO) that have expertise serving these households and/or with serving a wider range of populations, to ensure that the program services have the broadest possible reach.

Case Coordination Services are designed to assist clients toward achievement of one or more of the following programs: Housing, Finances, Food Resources/Availability, and/or Referrals to medical/ mental health services, ACS, substance use treatment and other supportive serves as needed.

An Information Session will be held on Tuesday, January 22, 2019, at NYC Department of Social Services/Human Resources Administration, Office of Contracts at 150 Greenwich Street, 37th Floor, Bid Room, at 2:00 P.M. Attendance at the Information Session is optional but strongly recommended by the agency.

Mayor's Office of Criminal Justice (MOCJ) is looking to fund organizations to expand New York City's capacity to provide supervised visitation and safe exchanges. MOCJ would like to understand what the interest and capacity is for organizations in NYC to provide supervised visitation services and safe exchanges for families with histories of domestic violence. MOCJ would also like to learn from organizations what resources they would need to successfully carry out these services and serve families in NYC if they currently do not have the capacity or would like to expand capacity. The attached document includes more information on the services MOCJ is looking to implement and questions for interested parties to answer.

**PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION, NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR") AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND**

**RECONSTRUCTION PROJECTS.**

NYC DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of NYC DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, NYC DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. NYC DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL, will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

NYC DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)\*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the joint venture being a certified M/WBE\*;
- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

\* Firms that are in the process of becoming a New York City-Certified M/WBE, may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small Business Services has begun the Certification process.

Application documents may also be obtained online at: <http://a856-internet.nyc.gov/nycvendononline/home.asap>; or <http://www.nycgovparks.org/opportunities/business>.

## AGENCY RULES

### BUILDINGS

#### NOTICE

#### NOTICE OF ADOPTION OF RULE

**NOTICE IS HEREBY GIVEN**, pursuant to the authority vested in the Commissioner of the Department of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Buildings hereby adopts amendments to Subdivision (b) of Section 102-04 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York, regarding assessment of civil penalty for work without a permit.

This rule was first published on October 19, 2018 and a public hearing thereon was held on November 26, 2018. No comments were submitted

either before or during the hearing.

Dated: 1/3/19  
New York, NY

/s/  
Rick D. Chandler, P.E.  
Commissioner

### Statement of Basis and Purpose

The rule amends portions of Title 1 of the Rules of the City of New York (RCNY) Section 102-04 to ensure that the specified civil penalties conform with Local Laws 156 and 158 of 2017 with regard to penalties related to work without a permit.

The Department of Buildings' authority for this rule is found in sections 643 and 1043 of the New York City Charter, and sections 28-213.1.1, 28-213.1.2 and 28-213.6 of the New York City Administrative Code.

New material is underlined.  
[Deleted material is in brackets.]

Subdivision (b) of Section 102-04 of Subchapter B of Chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows:

- (b) **Assessment of civil penalty for work without a permit.** The civil penalty for work without a permit is assessed as follows:
- (1) The civil penalty is based on occupancy status as shown on the Certificate of Occupancy or other Department records.
  - (2) Pursuant to § 28-213.1.1 of the Administrative Code, the penalty for work performed without a permit on a one-family or two-family dwelling (which includes inside a residential condominium or cooperative unit) is [four] the greater of six times the amount of the current fee payable for the permit, but not more than \$10,000, or [\$500] \$600, whichever is greater. Where only part of the work has been performed without a permit, the Department will reduce the penalty proportionately according to the amount of work still to be performed at the time the Department issues a permit but not to an amount less than [\$500] \$600 or more than \$10,000.
  - (3) Pursuant to § 28-213.1.2 of the Administrative Code, the penalty for work performed without a permit on a building other than a one-family or two-family dwelling (which includes work on any common area of a condominium or cooperative building) is [either fourteen] the greater of twenty-one times the amount of the current fee payable for the permit, but not more than \$15,000, or [\$5,000] \$6,000, whichever is greater. Where only part of the work has been performed without a permit, the Department will reduce the penalty proportionately according to the amount of work still to be performed at the time the Department issues a permit but not to an amount less than [\$5,000] \$6,000 or more than \$15,000.
  - (4) Expired permits or working without an after-hours variance. The penalty for work performed after the expiration of a permit for such work or for work performed after hours without a variance permit is [\$500] \$600 when such unpermitted work is performed on a one-family or two-family dwelling or [\$5,000] \$6,000 when such unpermitted work is performed on a building other than a one-family or two-family dwelling.
  - (5) Removal of illegal work. If work that was performed without a permit is removed, the penalty for the unpermitted work is [\$500] \$600 when performed on a one-family or two-family dwelling or [\$5,000] \$6,000 when performed on a building other than a one-family or two-family dwelling, even if the removal did not require a permit.
  - (6) Fee-exempt properties. When unpermitted work is performed on properties not subject to permit fees pursuant to § 28-112.1 of the Administrative Code, the penalty for such unpermitted work is [\$500] \$600 when performed on a one-family or two-family dwelling or [\$5,000] \$6,000 when performed on a building other than a one-family or two-family dwelling.
  - (7) Legalization of completed work. If work has been performed without a permit and an applicant seeks a permit for the unpermitted work before a notice of violation is issued, the penalty for such unpermitted work is [\$500] \$600 when performed on a one-family or two-family dwelling or [\$5,000] \$6,000 when performed on a building other than a one-family or two-family dwelling.
  - (8) Pursuant to § 28-213.6 of the Administrative Code, within one (1) year after the Department imposes a penalty for work without a permit against (i) a building or (ii) a part thereof (if the owner of such part is not the owner of the building), the civil penalty for any subsequent violation related to work without a permit

on the building, or a part thereof, is two (2) times the penalty that would otherwise apply for such violation, not to exceed the maximum allowable penalty.

## HEALTH AND MENTAL HYGIENE

### ■ NOTICE

#### Notice of Adoption of Chapter 33 of Title 24 of the Rules of the City of New York

In accordance with Section 1043(b) of the New York City Charter ("Charter") and pursuant to the authority granted to the Department of Health and Mental Hygiene ("Department") by Section 556 of the Charter, a notice of public hearing and opportunity to comment on the Department's proposal to amend Title 24 of the Rules of the City of New York was published in the City Record on November 8, 2018, and a public hearing was held on December 11, 2018. The Department now adopts the amendments set forth below.

#### Statement of Basis and Purpose

New York State Public Health Law ("PHL") Section 3502 was amended by Chapter 313 of the 2018 Laws of New York on October 2, 2018, to add subdivision (6) permitting the use of body scanners by the NYC Department of Correction (DOC) and requiring the Department to adopt rules governing such use that meet at least the minimum requirements in PHL Section 3502(6)(c). The rules being adopted by the Department meet those requirements and incorporate by reference certain definitions and portions of New York City Health Code Article 175, which governs the use of radiation producing equipment. The rules also incorporate relevant definitions, processes, and requirements established by the American National Standards Institute ("ANSI") for such equipment. The federal National Institute for Standards and Technology, part of the U.S. Department of Commerce, has officially recognized ANSI's role as the country's representative on international standards setting bodies. By incorporating ANSI standards into these rules, the Department seeks to promote maximum protection, for both DOC personnel and detainees, from radiation exposure and reduce the risk associated with the operation of body scanners.

Two commenters noted that the phantom described in section 5.4, et seq. of ANSI Standard 42.47 is not generally commercially available. In response to these comments, the Department has added text to section 33-04(d)(1) allowing the use of other devices to perform imaging tests provided that they are approved by the Department. In response to a comment that the definition of "qualified physicist" was too broad and potentially allowed professionals without the requisite experience to serve in the role, the Department has added additional requirements to the definition. In response to a concern about the privacy of the records of individuals scanned, the Department has added section 33-07(g) to provide additional safeguards. Paragraph 33-08(a)(4) has been revised to clarify the requirements regarding signs advising pregnant and potentially pregnant detainees that they should not be scanned. Finally, minor corrections have been made throughout the rule to correct nomenclature and standardize capitalization.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Department, unless otherwise specified or unless the context clearly indicates otherwise.

New material is underlined.

**Section 1.** Title 24 of the Rules of the City of New York is amended by adding a new Chapter 33, to read as follows:

### CHAPTER 33

#### OPERATION OF BODY SCANNERS IN CORRECTIONAL FACILITIES

##### § 33-01. Applicability and communications.

This chapter applies to body scanners used by the New York City Department of Correction at any correctional facility and must be read in conjunction with New York State Public Health Law section 3502(6) and Article 175 of the New York City Health Code.

##### § 33-02. Definitions.

- (a) Terms that are defined in Article 175 of the New York City Health Code have the same meaning when used in this Chapter unless defined otherwise.
- (b) In addition, the following definitions apply:  
"ANSI Standard 43.17" means the American National Standards Institute American National Standard Radiation Safety for Personnel Security Screening Systems Using X-Ray or Gamma Radiation, ANSI/HSP N43.17-2009 or any successor to such standard.  
"ANSI Standard 42.47" means the American National

Standards Institute American National Standard for Measuring the Imaging Performance of X-ray and Gamma Ray Systems for Security Screening of Humans N42.47-2010 or any successor to such standard.

**"Body scanner"** means a limited-use system or equipment that utilizes a low dose of ionizing radiation to create an anatomical image capable of detecting objects placed on, attached to, or secreted within a person's body.

**"Department"** means the New York City Department of Health and Mental Hygiene.

**"Detainee"** means an individual in the custody of the New York City Department of Correction.

**"DOC"** means the New York City Department of Correction.

**"Health Code"** means the New York City Health Code.

**"Minor"** means an individual under the age of 18.

**"Occupational dose"** means the dose received by an individual in the course of employment in which the individual's assigned duties involve exposure to radiation or to radioactive material from licensed and unlicensed sources of radiation, whether in the possession of the licensee, registrant, or another person.

"Occupational dose" does not include a dose received from background radiation, from any medical administration the individual has received, from exposure to individuals administered radioactive material as part of medical treatment, from voluntary participation in medical research programs, or as a member of the public.

**"Public"** means any person other than a worker or a subject.

**"Qualified Physicist"** means a medical physicist certified by the American Board of Radiology, a New York State-licensed Medical Physicist, or a health physicist certified by the American Board of Health Physics and/or licensed by New York State in medical health physics, all with demonstrated relevant experience in diagnostic subspecialties involving human imaging equipment.

**"Radiation Safety Officer"** means the individual responsible for administering the radiation protection program for the body scanner described in Section 33-04 of this Chapter, the qualifications for which position are the same as for the Qualified Physicist.

**"Reference effective dose"** means a quantity based on measurable parameters used by ANSI Standard 43.17 for setting dose limits. It is obtained from air kerma (or exposure) and HVL measurements as described in Section 6.1.3 of ANSI Standard 43.17.

**"Radiation safety manual"** means a manual for each body scanner maintained by DOC and available to the Department at any time that contains all documents related to the administration and operational aspects of DOC's radiation safety program, including the documents submitted to register each piece of scanning equipment and any mandated reports and test results.

**"Scan"** means the operation necessary to produce one image (e.g., front view) from one radiation source. One radiation source simultaneously producing multiple images also constitutes one scan. Two sources simultaneously producing two images constitute two scans. In some cases, several scans may be required for a single screening of a subject.

**"Screening"** means the sum of radiation exposures or scans necessary to image objects concealed on all sides of the body as intended by the system design under normal conditions.

**"Subject"** means a person being scanned by a body scanner.

**"Technique factors"** means the conditions of operating radiation equipment, including the following: (1) the peak kilovoltage applied to the x-ray tube, (2) the electric current passing through the x-ray tube, and (3) the scan time.

**"Worker"** means any DOC employee or contracted person whose responsibilities include at least one of the following: initiating or stopping a scan; verifying that body scanner equipment is operating correctly; providing information and instructions to individuals being screened; controlling access to the inspection zone; and interpreting results of scans.

### **§ 33-03. Registration and Inspections.**

- (a) **Registration.** Prior to being maintained or operated in a correctional facility, a body scanner must be registered with the Department. A body scanner may be installed at a correctional facility prior to registration solely for the purpose of conducting the testing required for registration. Registrations are valid for two years and may be renewed upon expiration.
- (b) **Application for registration or renewal.** An application to

register or renew any body scanner must be made to, and in a manner prescribed by, the Department and must include:

- (1) The name, model number, body scanner technique factors and any other identifying information about the particular piece of body imaging scanning equipment;
  - (2) The building and location where the body scanner will be used;
  - (3) The security conditions under which the body scanner will be used to ensure that individuals other than the subject are not exposed to radiation; and
  - (4) Submission of results of the following tests performed by a qualified physicist:
    - (A) A protection survey to demonstrate the radiation level in the immediate surrounding areas including the operators' position. These measurements along with the projected maximum workload, occupancy and other factors must be used to demonstrate compliance with Health Code § 175.03 (c), (d), and (f) standards for protection against ionizing radiation, or any successor regulation. The radiation protection survey must be conducted from different locations in all directions from the body scanner to a location of the point where the radiation level rate is equal or greater than 0.05 mrem in any hour under maximum workload conditions. The radiation protection survey report must be signed by the Qualified Physicist and the individual conducting the survey, and must have an attached calibration report for all instruments used to conduct the radiation survey.
    - (B) The estimate of the reference effective dose must be determined according to the relevant sections of Section 6.1.3 of ANSI Standard 43.17 and must demonstrate that during a single scan, an individual will not receive a total reference effective dose greater than 10 uSv.
    - (C) All imaging tests conducted by a Qualified Physicist as mandated in section 33-04 of this Chapter and, if such tests indicate compliance limits are exceeded, then service reports indicating any corrective action conducted on the body scanner and the results of retesting conducted by a Qualified Physicist must be also submitted.
    - (D) Any additional documentation requested by the Department.
- (c) **Inspections.**
- (1) Any body scanner subject to the registration requirements of this Chapter will be inspected by the Department to monitor compliance with the provisions of this Chapter. Inspections will be conducted at least annually.
  - (2) Re-inspections or other appropriate follow-up activities will be conducted at a frequency determined by the Department to monitor correction of any violation found during an initial inspection and remaining uncorrected at the conclusion thereof.
- (d) **Orders.** The Department may order that a body scanner be immediately shutdown if its operation threatens public health or puts anyone's safety at risk.

### **§ 33-04. Radiation protection program.**

DOC must develop, document and implement a radiation protection program commensurate with the scope and extent of operations and sufficient to ensure compliance with the provisions of this Chapter and applicable sections of Health Code Article 175, or any successor regulation. DOC must follow ANSI Standard 43.17, ANSI Standard 42.47, and the requirements of this section to develop and implement an appropriate safety program for the use of body scanners in a correctional environment. DOC's radiation safety program must address and document each of the following aspects of such program:

- (a) Designate a Radiation Safety Officer (RSO) who must be a Qualified Physicist and who has the authority to ensure the implementation of the radiation protection program. The Radiation Safety Officer must report directly to the Radiation Safety Committee as defined in section (b) below.
- (b) Provide for a Radiation Safety Committee to administer the radiation protection program. The radiation safety committee must include the DOC facility commander or a person with the authority to act on behalf of the facility commander, the Radiation Safety Officer, representation from all relevant DOC personnel within the facility where radiation sources are used, and a representative of the Qualified Physicist. The committee shall oversee all uses of body scanning equipment within the facility, review the activities of the Radiation Safety Officer, and review the radiation safety program at least annually and the administration of the required quality control testing described in subdivision (e) of this section. The report of DOC's annual review of the radiation safety program shall be retained in DOC's radiation safety manual.

- (c) All documents pertaining to the Radiation Protection Program must be placed in the radiation safety manual, which must be made available for the Department to inspect at any time. Information in the radiation safety manual must include but not be limited to:
- (1) The radiation safety committee names along with all minutes of the meetings of this committee;
  - (2) Name and contact information for the RSO, including appropriate information to contact the RSO immediately in case of an emergency;
  - (3) Copies of all documents that were submitted to obtain a certificate of registration including all technical documents such as acceptance testing and commissioning report prepared by the Qualified Physicist;
  - (4) All information as supplied by the body scanner manufacturer and all documents relating to either routine preventive maintenance and repair of the body scanner;
  - (5) Documents pertaining to training of DOC personnel who operate the body scanners including the outline of the training, attendance sheet with date and signatures of attendees; and
  - (6) The results of the decision to address individual monitoring needs for operators of body scanners pursuant to Health Code section 175.03, or any successor regulation. If DOC decides not to procure individual monitoring badges for body scanner operators, DOC must obtain a report from DOC's qualified physicist to provide evidence that the requirements of Health Code Section 175.03, or any successor regulation, are satisfied and this report must be maintained in the radiation safety manual.
  - (7) Copies of all relevant ANSI standards and location of Article 175 of the NYC Health Code, or any successor regulation.
- (d) DOC must utilize ANSI Standard 42.47 to establish imaging tests to measure and assess the image resolution of the body scanner over time, which scanners are defined by ANSI Standard 42.47 as "whole body field of view". To do this, DOC must:
- (1) Utilize a phantom, as described in Section 5.4 *et seq.* of ANSI Standard 42.47, or an alternate imaging device approved by the Department, to conduct the following imaging tests as described in the following sections of that Standard:
    - (A) the spatial resolution test as described in Section 5.5;
    - (B) the wire detection test as described in Section 5.6;
    - (C) the material detection on body test as described in Section 5.7; and
    - (D) the penetration tests as described in Section 5.9.
  - (2) DOC must adopt the tolerances for the imaging tests described in paragraph (1) above as stated in ANSI Standard 42.47 Table 4 under the heading for "whole body field of view."
  - (3) The imaging tests as described in paragraph (1) above must be conducted with the following frequency:
    - (i) To assess image degradation with body mass, the penetration tests must be conducted quarterly for each body scanner;
    - (ii) The spatial resolution test, wire detection test, and material detection on body test must be conducted semiannually; and
    - (iii) All imaging tests must be evaluated after any software upgrade to the body scanner and after any repairs on the imaging chain, e.g., repairs done on the detector.
  - (4) The following documents must be maintained in the radiation safety manual:
    - (i) The imaging tests, the frequency of such tests, and the title of the individual who will conduct the imaging tests; and
    - (ii) The results of all imaging tests conducted.
- (e) A Qualified Physicist must conduct an annual evaluation and prepare a report on the body scanners to determine the reference effective dose for a typical scan. Any significant variations from manufacturer's specification or from previous reports must be investigated and a report of the discrepancy must be documented within 30 days. All reports created pursuant to this subdivision must be placed in the radiation safety manual.
- (f) Radiation surveys must be conducted by a Qualified Physicist to determine radiation levels to workers, subjects, and the public in all areas around the body scanner to any location that the radiation level rate is equal or greater than 0.05 mrem in any hour under maximum workload conditions as defined in the radiation protection manual. A radiation protection survey must be conducted prior to initiating scanning of any individuals in the areas around a body scanner and:
- (1) After any maintenance that affects the radiation shielding, shutter mechanism, or x-ray production components;
  - (2) After any incident that may have damaged the system in such a way that unintended radiation emission occurs; and
  - (3) Upon installation of any new body scanner.
- (g) DOC must follow the manufacturer's recommended preventive maintenance schedule and all service records of preventive maintenance must be documented and maintained in the radiation safety manual.
- § 33-05. Annual scanning limitations.**
- (a) For males and non-pregnant women age 18 and over: A maximum annual exposure must be half the limit set by ANSI Standard 43.17.
  - (b) For males and non-pregnant women under the age of 18: DOC must engage a medical physicist to conduct an analysis to determine the effective dose for this non-adult population and, using the results of that analysis, the annual exposure may not be more than five percent of ANSI Standard 43.17.
  - (c) Pregnant women must not be scanned.
  - (d) Reduced annual dose limits must be established on a case-by-case basis when scanning conducted pursuant to this Chapter is contraindicated for a particular individual for any medical or mental health reason.
- § 33-06. Training and instruction of personnel.**
- (a) In accordance with Public Health Law section 3502(6), DOC must develop and implement a documented in-service training program for workers operating a body scanning system.
  - (b) The training must be provided before any DOC employee, subcontractor, or agent begins to act as a worker, as defined in this Chapter, and must receive additional training annually thereafter.
  - (c) The training must be designed by a Qualified Physicist and may be presented through lectures or any presentation media. The training must address quality of imaging and radiation safety procedures, including but not limited to:
    - (1) The basics on the types and sources of radiation, units of measurement, biological effects of radiation, measurement of radiation, radiation protection principles including methods of radiation dose reduction with time, distance and shielding, and using survey instruments.
    - (2) The operation of the body scan system and emergency procedures to demonstrate familiarity with precautions and procedures to minimize exposure.
    - (3) Relevant regulatory requirements on dose limits, rights of pregnant women and minors.
  - (d) DOC must instruct workers to:
    - (1) Observe all safety rules pertaining to radiation and other hazards;
    - (2) Promptly report any condition which may lead to the violation of this rule or any unnecessary exposure to radiation;
    - (3) Appropriately respond to warnings or malfunctions; and
    - (4) Obtain radiation exposure reports compiled by DOC when requested.
- § 33-07. Recordkeeping and reporting**
- (a) Any complaint made to DOC pertaining to the performance and operation of the system must be reported to the Department within seven (7) days.
  - (b) DOC must maintain the following records electronically, if possible, or in hard copy:
    - (1) The name, date of birth, and New York State Identification (NYSID) number of the person scanned;
    - (2) The time and date that each individual is scanned;
    - (3) The reason each scan is conducted if not upon intake;
    - (4) Documentation of the number of scans of each individual subjected to scanning that allows the tracking of inmates across different periods of incarceration during a 365-day period in order to certify compliance with annual scanning limits for each individual;
    - (5) Any investigation into complaints about body scanner operations; and
    - (6) The daily number of scans conducted by each piece of equipment.
  - (c) DOC must maintain records of training and make available the records to the Department during inspection including training materials, syllabus, attendance list and other documented information.
  - (d) DOC must maintain records of safety instructions including but not limited to:
    - (1) Pertinent regulations, written radiation safety program, and

- any other relevant non-radiological safety instructions;
  - (2) Radiation monitoring reports of workers obtained through methods chosen by DOC and approved by the Department;
  - (3) Documents related to installation, maintenance, adjustment, testing, repair and preventive maintenance of the body scan system;
  - (4) Periodic area radiation surveys;
  - (5) Calibration of radiation survey instruments;
  - (6) Periodic image quality tests described in this Chapter; and
  - (7) Any other information required by NYS Public Health Law Section 3602(6).
- (e) All records must be maintained for at least seven (7) years.
- (f) All records must be available for the Department when requested or for review during inspections by the Department.
- (g) Information obtained from body scanners and records maintained under this Chapter in relation to the identities of detainees scanned shall only be used for the purposes of this Chapter and as permitted and authorized by applicable law, regulation, and policy.

**§ 33-08. Signage and information to be provided to screened individuals.**

- (a) Signage.
- (1) Signs indicating that radiation is being applied must be conspicuously posted and must indicate that all members of the public must stand behind designated locations during scanning operation.
  - (2) DOC must post conspicuous signage indicating where individuals should stand in areas adjacent to body scanner usage, e.g., signs indicating that detainees should not proceed beyond "this point" while scanners are in use.
  - (3) A sign must be posted in an area visible to an individual immediately prior to being screened that compares the dose of a commonly known source of radiation to the dose to be delivered.
  - (4) A sign must be posted that advises pregnant and potentially pregnant females that they should not be screened and that they should inform DOC personnel of such status.
  - (5) Signs required by paragraphs (2) – (4) must be in English and Spanish, and any other languages deemed by DOC to be appropriate or necessary. For all detainees unable to read these languages, a written copy in their native language must be made available to them and/or explained to them by persons who speak their native language.
- (b) Information to be provided to screened individuals. Each detainee upon release from a DOC facility has the right to be provided by DOC on request the total accumulated radiation exposure from all body scans so conducted during that individual's incarceration. DOC must apprise each detainee of this right.

**HEALTH AND MENTAL HYGIENE**

■ NOTICE

The New York City Department of Health and Mental Hygiene (DOHMH), intends to issue an RFP to provide swim instruction and the required lifeguard supervision at multiple Department of Education pool locations throughout NYC for a six week period each summer. All services would be performed in conformance with New York State and New York City swimming regulations. The goals of this RFP are to: provide free summer swim lessons, familiarize youth with water safety skills, reduce the disproportionate risk of drowning, especially among Black and Latino youth, provide opportunities to youth, ages 6 – 18, for physical activity and recreation, and provide youth with employment opportunities via lifeguard training and swim instruction certification.

The Concept Paper will be posted on the DOHMH website, [www.nyc.gov/health](http://www.nyc.gov/health), January 24, 2019 through March 11, 2019. Comments in response to the Concept Paper should be submitted, in writing, to [RFP@health.nyc.gov](mailto:RFP@health.nyc.gov), no later than March 8, 2019. Make sure to include "Making Waves Concept Paper" in the subject line.

**REQUEST FOR COMMENT REGARDING AN APPLICATION FOR A CERTIFICATION OF NO HARASSMENT**

**Notice Date: January 11, 2019**

**To: Occupants, Former Occupants, and Other Interested Parties**

Property:	Address	Application #	Inquiry Period
	330 West 45 <sup>th</sup> Street, Manhattan	148/18	December 10, 2003 to Present

**Authority: Special Clinton District, Zoning Resolution §96-110**

Before the Department of Buildings can issue a permit for the alteration or demolition of a multiple dwelling in certain areas designated in the Zoning Resolution, the owner must obtain a "Certification of No Harassment" from the Department of Housing Preservation and Development ("HPD") stating that there has not been harassment of the building's lawful occupants during a specified time period. Harassment is conduct by an owner that is intended to cause, or does cause, residents to leave or otherwise surrender any of their legal occupancy rights. It can include, but is not limited to, failure to provide essential services (such as heat, water, gas, or electricity), illegally locking out building residents, starting frivolous lawsuits, and using threats or physical force.

The owner of the building identified above has applied for a Certification of No Harassment. If you have any comments or evidence of harassment at this building, please notify HPD at **CONH Unit, 100 Gold Street, 6<sup>th</sup> Floor, New York, NY 10038**, by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period.
