A special deposit of five thousand dollars (\$5,000) will be required to be made with the Comptroller of

No. 1. FOR THE NECESSARY MATERIALS AND LABOR FOR REPAIRING SIDEWALKS AND CURB AROUND CLINTON MARKET, on block bounded by Spring, Washington, Canal and West streets.

No. 2. FOR SEWER IN ONE HUNDREDTH STREET, between Third and Park avenues, connecting with present sewer in Third avenue, west side, north of One Hundredth street.

No. 3. FOR SEWER IN ONE HUNDRED AND SIXTH STREET, north side, between Central Park, West, and Manhattan avenue.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk thereof, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Rooms 5 and 9, No. 31 Chambers street.

TO THE PUBLIC.

OWING TO THE CONTINUANCE OF THE drought in the water-sheds of the Croton river and the Bronx river, and the consequent depletion of the supply held in reserve in the storage reservoirs, it becomes necessary to carefully husband the water supply and to limit its consumption to actual necessities for domestic and business use and for protection from fires until the supply at its sources is replenished and increased by copious rainfall. The people of this city are, therefore, earnestly requested to use the greatest possible economy in the consumption of water, and to abstain from careless or wanton waste, or any use of the water except such as is necessary for domestic and business pursuits and the protection of the public health. For some time past, and up to this date, the daily consumption has been 165,000,000 gallons, or nearly 100 gallons per capita, and there is no possible doubt that, with the exercise of care and economy, the consumption can safely be reduced to one-half that quantity without interfering with the comfort business and health of the population. Persistence in wasteful or luxurious use of the water would result in

curtailing the supply to the extent of diminishing it below the actual needs for comfort, health and protection from fires by the decrease of the pressures in the distributing mains and the elevation at which the water can be delivered in the houses, and this contingency can only be averted by the economical use of the water on the part of every consumer.

The draughts upon the reserve supply in the storage reservoirs and lakes began on May 15, when the natural flow of the Croton river fell below the quantity drawn for daily consumption, and have continued without interruption to the present day. The total quantity of stored water drawn to date is 13,040,000 gallons, averaging 75,000,000 gallons per day, and amounting at times to 120,000,000 gallons per day.

The holders of permits for using water through hose for washing house-fronts, stoops, areas and sidewalks, have been notified to discontinue such use of water at once, and the members of the Police Force are earnestly requested to enforce this prohibition, and to exercise special vigilance to prevent the use of water through hose and from the fire-hydrants except by the uniformed force of the Fire Department or under special permits from this Department.

THOS. F. GILROY,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOS. F. GILROY,
Commissioner of Public Works
