Dr. W. H. Smith, the General Medical Superintendent, reported as follows:

From June 27 to July 10, inclusive, 54 operations were performed at Bellevue Hospital, 18 at Gouverneur Hospital, 55 at Harlem Hospital and 20 at Fordham Hospital, at all of which the attending Surgeons or their Assistants were present.

A fire drill was held at Bellevue Hospital on June 29 and July 6, at Gouverneur Hospital on June 30 and July 7, at Harlem Hospital on July 1 and July 7, and at Fordham Hospital on July 1 and July 7.

A full attendance of the visiting Physicians and Surgeons at the various hospitals during the month of June is reported.

In order to properly isolate and care for several cases of vaginitis special Nurses were engaged. At the request of Dr. Hitzrot a special Nurse was authorized to care for a post-operative case, and a Nurse was authorized to care for a member of the house staff, Dr. Yerington, ill with tonsillitis. Approval is requested for the services of these Nurses.

The supply of diplomas for outgoing members of the house staff is exhausted and unless there is to be some change in the form of diploma it is recommended that an additional supply be ordered.

Submitted herewith is a report from the Supervising Nurse of Harlem Hospital showing that the institution is having a great deal of trouble with the Atlantic Hotel Supply Company, contractors for meat.

A letter has been received from Dr. Charles Norris, Director of Laboratories, recommending the appointment of Dr. Wiener as voluntary Assistant to the Pathological Laboratory for three months.

In order to hasten completion of the new gate house and the alterations to the reception room of Bellevue Hospital, it is recommended that some competent architect be engaged to draw plans and specifications for these changes.

Attention is called to the Kirker-Bender fire escape, which is now in use in many schools, hospitals and other institutions. It may be worth while to consider this form of fire escape in relation to the proposed new buildings of Bellevue Hospital.

In regard to the recommendations of Dr. Miller, Director of Tuberculosis Clinics, the following report is presented:

1. More clinic space. Although additional space is much needed, it is believed that it cannot be provided in the present buildings of Bellevue Hospital. It may be possible to lease space in one of the buildings opposite the hospital in Twenty-sixth street and it is recommended that this be done if the space can be obtained.

2. While it may be desirable to have paid physicians in the out-patient clinics, the question presents itself as to whether or not it is wise to start to pay the Physicians of one clinic before making provision for Physicians of the other clinics. As to the salaries proposed by Dr. Miller, they are entirely reasonable and proper.

3. Nurses' salaries—3 clinic Nurses and 1 ward social service Nurse are proposed at \$75 a month. Inasmuch as we are in a position to furnish maintenance it is recommended that the salary be fixed at \$50 a month. These Nurses are visiting Nurses attached to the tuberculosis clinic and it would seem that the same criticism might be offered here as in the case of the Physicians' salaries in so far as relates to the other clinics. Extensive plans are made for visiting Nurses for this clinic while no provision is made for other clinics. It is recommended that two Nurses be allowed instead of four.

4. A Clerk at \$60 a month is not approved.

5. \$500 for incidentals is approved.

Estimates for Bellevue Day Camp.

1. Salaries for two Nurses at \$75 a month. It is recommended that the salaries remain as at present, \$50 and \$60, with maintenance. The fact that the balance (to make up \$75 a month) is paid for by the auxiliary is strictly their affair and not ours. We offer the Nurses maintenance and if the auxiliary prefers to pay an allowance for them to live outside it is not our affair and we should not be expected to pay Nurses for living outside when we have accommodations for them.

2 and 3. Three Orderlies at \$30 a month. It is recommended that 3 Orderlies be allowed at \$20 a month, with maintenance, and also the Cook as proposed at \$20 a month.

4. Food and drugs estimated at \$5,475 for the year. It is not practicable to charge the Bellevue Day Camp for food and drugs in this manner as it would make it necessary for Bellevue Hospital to pay the bills and in return render bills against the Day Camp, chargeable to this fund.

5. Repairs and alterations estimated at \$1,000 approved.

It is recommended that \$5,000 be asked for.

Proposed New Clinic.

It is proposed to establish an additional clinic somewhere between Houston street on the south and Fourteenth street on the north. It is recommended that this clinic be not undertaken by this Department but by the Department of Health.

Estimates for Gouverneur Clinic.

1. More clinic space. The recommendations are approved. Repairs and alterations estimated at \$400 appears to be small; the estimate should be \$1,000.

As to recommendations 2 and 3 the salaries proposed for Physicians and Nurses are approved inasmuch as conditions at Gouverneur are entirely different from those at Bellevue. We do not expect the Nurses to travel to Bellevue and an effort is being made to pay the Physicians in other clinics.

4. The proposed Clerk at \$60 a month is also approved.

5. Gouverneur day camp, boat, "Westfield," is also approved.

Estimates for Harlem Clinic.

1. The same criticisms as to the Physicians' salaries in the Harlem clinic are offered as at Bellevue.

2. Salaries for two Nurses at \$75 a month are approved, inasmuch as we have no adequate accommodations for the Nurses at Harlem Hospital and can therefore offer no maintenance.

3. A Clerk at \$60 a month is not approved.

From July 11 to July 17, inclusive, 35 operations were performed at Bellevue Hospital, 16 at Gouverneur Hospital, 20 at Harlem Hospital and 15 at Fordham Hospital, at all of which the attending Surgeons or their Assistants were present.

A fire drill was held at Bellevue Hospital on July 12, at Gouverneur Hospital on July 13, at Harlem and Fordham Hospitals on July 15.

Special Nurses were supplied at the request of Dr. Draper for a delirious cardiac case. A Nurse was also requested for a case of gonorrhoeal conjunctivitis, and two for post-operative cases. Approval for the services of these temporary Nurses is requested.

One of our Nurses was taken ill with diphtheria and was sent to the Minturn Hospital.

In a conversation with the Corporation Counsel it was learned that we cannot advertise for supplies before serving notice upon the present contractor. Notice must be served and the goods purchased elsewhere during the period of readvertisement.

In the matter of the report from the Commissioners of Accounts regarding the heating system at Bellevue Hospital it is found that at the beginning of the year Mr. Jones, then Supervising Engineer, reported that extensive repairs were needed, particularly to the so-called Paul system. Estimates were obtained but it was decided to leave the matter until the spring. Nothing was done. The present Acting Supervising Engineer has been over the ground with a representative of the Paul system. They both state that our heating system is in bad need of repairs, but in view of the fact that the present system will probably be in use for only a few years longer, it would not be economical to attempt to make the extensive repairs throughout that are needed, but that the most essential repairs should be made, and it is estimated by the Paul system that these repairs could be made for the sum of nine hundred dollars.

Several letters from John Early's Sons, contractors for silver for the new Nurses' residence, have been received. The last letter states that they still wish the Board to consider one of the two samples submitted.

Mr. White, the Bookkeeper, reports that a transfer should be made to the appropriation for repairs and replacements by contract and open order for the year 1909 from the appropriation for Salaries and Wages (\$1,000).

A further report is herewith made regarding the recommendations of Dr. Miller, Dr. Miller having agreed to several cuts in his original estimate. The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the

faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than 2 feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason or injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
