English Language Arts (ELA) and Math Results Grades 3-8 2010-2011

2

- Students are classified as English language learners (ELL) due to low English language proficiency. As a result, ELL students have much lower ELA scores than non-ELL students.
- In Math, ELL students also have lower performance scores, on average. The difference is most notable at the high and low end of the performance levels – levels 1 and 4.

High School Graduation Results

4

- **Graduating Class of 2009:**
 - ELL students had a lower overall graduation rate and were much less likely to earn Regents diplomas.
 - ELL graduates were half as likely as non-ELL graduates to score at college-ready levels on both the ELA and Math Regents.
 - Immigrant students were more likely to graduate, earn Regents diplomas and score at college-ready levels in both ELA and Math than students born in the U.S.
