the Design Commission at its meeting  
on March 16, 2009.

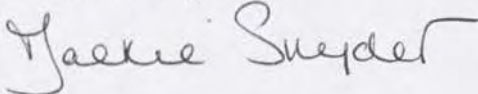

Jackie Snyder  
Executive Director

March 16, 2009

CERTIFICATE 23475

RESOLVED That the Design Commission, having considered designs for the construction of two segments of a greenway as part of the Randall's Island master plan, beneath the Amtrak viaduct from the Bronx Kill to the Hell Gate rapids, Randall's Island, Manhattan, submitted by the Economic Development Corporation and the Department of Parks & Recreation, represented by exhibits 5914-BZ, CA & CB of record in this matter, hereby gives to the same unanimous preliminary approval subject to the submission of any/all signage for committee review prior to developing final drawings. The Commission commends the design.

The Commission is concerned, particularly given the impact on the current project, and more broadly, the overall aesthetic of Randall's Island, that the Candela pole in a silver finish was not installed, as approved (on July 24, 2006 as part of the construction of 65 athletic fields and four comfort stations), and this change to a black finish was not submitted for review by the Commission prior to installation, per standard procedure. The Commission requests written clarification of (1) whether this change was the result of the Department of Transportation's policy at the time as well confirmation of its current policy with regard to the installation and maintenance of Candela poles; and (2) why the bronze plaque with the logos of the agencies and organizations involved in the waterfront pathway project (approved July 14, 1997; approval extended April 10, 2000) was not submitted for review and approval either as part of the original design or as a modification to the approved design, per standard procedure.

Preliminary approval is conditioned upon submission of this project for final review and approval before February 23, 2011.

A true copy of resolution adopted by  
the Design Commission at its meeting  
on March 16, 2009.

Jackie Snyder  
Executive Director

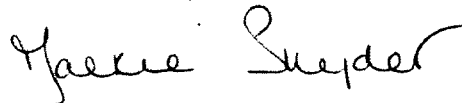

March 16, 2009

CERTIFICATE            23476

RESOLVED That the Design Commission, having considered designs for the construction of Bushwick Inlet Park as part of the Greenpoint and Williamsburg waterfront, Phase II, including the construction of a Parks Department headquarters building/comfort station, Kent Avenue between North Ninth Street and North 15<sup>th</sup> Street, Brooklyn, submitted by the Department of Parks & Recreation, represented by exhibits 6899-AA, AB, AC & AD of record in this matter, hereby gives to the same unanimous final approval to the architect's preferred design, which includes the 10' H canopy, the signage hanging down from the roofline (rather than pinned to the railing), and the yardarm at the waterfront plaza, subject to using the lighter grey permeable pavers (instead of terra cotta) with grey concrete paving to match at the waterfront plaza.

Final approval is conditioned upon commencement of work before March 16, 2011 and submission of a minimum of three (3) 8" x 10" color archival-quality photographs of the completed project.

A true copy of resolution adopted by  
the Design Commission at its meeting
