

#### **BACKGROUND**

This annual report has been prepared pursuant to Local Law 224 of 2017, which was enacted on December 1, 2017.

- 1. The (i) number of active Site Safety Manager certificates and (ii) number of active Site Safety Coordinator certificates.
  - As of October 1, 2019, there were 1,178 active Site Safety Managers and 285 active Site Safety Coordinators.
- 2. The (i) number of active Site Safety Manager certificates on the last day of the preceding year and (ii) number of active Site Safety Coordinator certificates on the last day of the preceding year.
  - There were 857 Site Safety Managers and 120 Site Safety Coordinators active on the last day of 2018.

3. The (i) number of sites for which a Site Safety Manager was required by this Code during the preceding year and (ii) number of such sites for which a Site Safety Manager was required by this Code but for which a Site Safety Coordinator may be designated in lieu of such manager pursuant to the exception to section 3310.5 of the New York City Building Code.

There were 1,481 sites for which a Site Safety Manager was required by the New York City Building Code during 2018. A Site Safety Coordinator may have been designated in lieu of such Site Safety Manager at 460 of such sites, pursuant to the exception to section 3310.5 of the New York City Building Code.

4. The (i) number of Site Safety Manager certificates issued in the preceding year and (ii) number of Site Safety Coordinator certificates issued in the preceding year.

There were 63 Site Safety Manager and 76 Site Safety Coordinator certificates issued last year.

5. The (i) number of applicants for Site Safety Manager certificates who submitted applications during the preceding year and (ii) number of applicants for Site Safety Coordinator certificates who submitted applications during the preceding year.

There were 117 applications for Site Safety Manager certificates and 92 applications for Site Safety Coordinator certificates last year.

6. The (i) average length of time for an applicant who submitted an application for a Site Safety Manager certificate during the preceding year to complete a background check and receive such certificate, measured from the date a completed application is submitted to the Department and (ii) average length of time for an applicant who submitted an application for a Site Safety Coordinator certificate during the preceding year to complete a background check and receive such certificate, measured from the date a completed application is submitted to the Department.

On average, an applicant for a Site Safety Manager certificate received such certificate in 74 days where such applicant was approved by the Department.

On average, an applicant for a Site Safety Coordinator certificate received such certificate in 60 days where such applicant was approved by the Department.
