## BOARD OF ESTIMATE AND APPORTIONMENT.

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, ROOM 16, CITY HALL, FRIDAY, MARCH 18, 1904.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor, Edward M. Grout, Comptroller; J. W. Stevenson, Deputy Comptroller; Charles V. Fornes, President, Board of Aldermen; John F. Ahearn, President, Borough of Manhattan; Martin W. Littleton, President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Bermel, Acting President, Borough of Queens; George Cromwell, President, Borough of Richmond.

The minutes of meetings held March 4 and 11, 1904, were approved as printed.

The Secretary presented the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, relative to the application of the balances not required of the proceeds of Corporate Stock authorized for the construction and improvement of certain small parks in the Borough of Manhattan, to the construction and improvement of parks, parkways, boulevards and driveways in general in the boroughs of Manhattan and Richmond:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,  
THE ARSENAL, CENTRAL PARK,  
MARCH 2, 1904.

To the Board of Estimate and Apportionment, New York City:

GENTLEMEN—Referring to the resolution passed by your honorable Board on the 13th of November last, and subsequently approved by the Board of Aldermen, providing for an issue of Corporate Stock for (among other items) \$425,000, for the construction and improvement of small parks in the Borough of Manhattan, to wit:

John Jay Park, DeWitt Clinton Park, Thomas Jefferson Park, and the small park at Thirty-fifth street and First avenue, I have the honor to request that the title of that item be so amended as to permit of the expenditure of such portion of the said amount as is not required for the said parks for the construction and improvement of parks, parkways, boulevards and driveways in the boroughs of Manhattan and Richmond.

In explanation, I beg to say that contracts for the construction and improvement of three of the parks named have been let for amounts considerably less than the estimated cost, and the sum thereby saved can be expended with great advantage for similar work on other parks and parkways for which there is great need and for which there are no other moneys available.

Respectfully,

JNO. J. PALLAS,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

The following resolution was offered:

Resolved, That, subject to the concurrence of the Board of Aldermen, the Board of Estimate and Apportionment hereby authorizes the Commissioner of Parks, Boroughs of Manhattan and Richmond, to apply the unexpended balance of the proceeds of the sale of Corporate Stock authorized to be issued pursuant to a resolution of said Board, adopted November 13, 1903, for the construction and improvement of small parks in the Borough of Manhattan, to wit:

John Jay Park, DeWitt Clinton Park, Thomas Jefferson Park and the small park at Thirty-fifth street and First avenue, to the construction and improvement of parks, parkways, boulevards and driveways in the boroughs of Manhattan and Richmond, for which Corporate Stock was authorized at the said meeting to the amount of seventy-five thousand dollars (\$75,000).

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented a communication from the President of the Borough of Queens, requesting authority to appoint a Cashier for the Bureau of Highways, at the rate of \$2,100 per annum.

Laid over until later in the meeting.

The Secretary presented the following communication from the Commissioner of Jurors, Borough of Queens, requesting the transfer of \$25 to "Supplies and Contingencies" for 1903:

COMMISSIONER OF JURORS OFFICE,  
QUEENS COUNTY COURT HOUSE,  
LONG ISLAND CITY, March 9, 1904.

Hon. GEORGE B. MCCLELLAN, Mayor, New York City:

DEAR SIR—Will you kindly cause to be transferred from the Jury Notice Fund of 1903 to the Contingent Fund for the same year, allowed to the Commissioner of Jurors, of the County of Queens, the sum of \$25, to meet outstanding claims against said Contingent Fund.

Yours respectfully,

EDWARD J. KNAUER, Commissioner of Jurors.

The following resolution was offered:

Resolved, That the sum of twenty-five dollars (\$25) be and the same is hereby transferred from the appropriation made to the Commissioner of Jurors, Queens County, for the year 1903, entitled "Jury Notice Servers," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Commissioner of Jurors, Queens County, for 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communication from the Tenement House Department requesting the transfer of \$1,533.89 to "Police Fund" for 1904:

TENEMENT HOUSE DEPARTMENT OF THE CITY OF NEW YORK,  
NO. 61 IRVING PLACE, SOUTHWEST CORNER EIGHTEENTH STREET,  
NEW YORK CITY, March 9, 1904.

To the Honorable Board of Estimate and Apportionment, No. 280 Broadway, City:

GENTLEMEN—I would respectfully request that the accompanying order for the transfer of moneys from the Salary Account of the Tenement House Department, for the year 1904, be made to the "Police Fund" in payment of salaries of Policemen detailed for duty to Tenement House Department, in the boroughs of Manhattan and Brooklyn, in accordance with the provisions of section 1344N, chapter 19A, revised Charter of The City of New York, Laws of 1901.

The amount of the transfer represents the pay-rolls of the Police detailed to this Department for January and February, 1904.

Yours truly,

THOS. C. T. CRAIN, Commissioner.

TENEMENT HOUSE DEPARTMENT OF THE CITY OF NEW YORK,  
NO. 61 IRVING PLACE, SOUTHWEST CORNER EIGHTEENTH STREET,  
NEW YORK CITY, March 9, 1904.

Ordered, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to transfer the sum of \$1,533.89 from the appropriation made to the Tenement House Department for the year 1904, entitled "Salaries, 1904," to the appropriation made to the Police Department for the year 1904, entitled "Police Fund," the same being the amount of the pay-rolls of the salaries of members of the Police Force of The City of New York detailed to duty in the Tenement House Department for the months of January and February, 1904 (in accordance with the provisions of section 1344N, chapter 19A, revised Charter of The City of New York, Laws of 1901).

The following resolution was offered:

Resolved, That the sum of one thousand five hundred and thirty-three dollars and eighty-nine cents (\$1,533.89) be and the same is hereby transferred from the appropriation made to the Tenement House Department for the year 1904, entitled "Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the Police Department for 1904, entitled "Police Fund," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communication from the Secretary of the Board of City Magistrates, requesting the transfer of \$8.40 to "Supplies and Contingencies" for 1903:

OFFICE OF BOARD OF CITY MAGISTRATES, FIRST DIVISION,  
ONE HUNDRED AND TWENTY-FIRST STREET AND SYLVAN PLACE, NEW YORK,  
NEW YORK, March 2, 1904.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—The Board of City Magistrates of the First Division of The City of New York, requests the transfer of \$8.40 from account of "Salaries" to "Supplies and Contingencies," for the year 1903.

Respectfully yours,

PHILIP BLOCH, Secretary.

The following resolution was offered:

Resolved, That the sum of eight dollars and forty cents (\$8.40) be and the same is hereby transferred from the appropriation made to the City Magistrates' Courts, First Division, for the year 1903, entitled "Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said courts for 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, requesting the transfer of \$462.15 to "Supplies and Contingencies" for 1903:

THE CITY OF NEW YORK—DEPARTMENT OF PARKS,  
THE ARSENAL, CENTRAL PARK,  
MARCH 2, 1904.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—I beg to request the consent of your Honorable Board to the transfer of the sum of \$462.15 from the appropriation made for the "Harlem River Driveway" for the year 1903, for which it will not be required, to the appropriation for "Supplies and Contingencies," Boroughs of Manhattan and Richmond, for the same year, which was insufficient.

Respectfully,

JNO. J. PALLAS, Commissioner of Parks,

Boroughs of Manhattan and Richmond.

The following resolution was offered:

Resolved, That the sum of four hundred and sixty-two dollars and fifteen cents (\$462.15) be and the same is hereby transferred from the appropriation made to the Department of Parks, Boroughs of Manhattan and Richmond, for the year 1903, entitled "Harlem River Driveway," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Department for 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communications from the Clerk of the Court of Special Sessions, Second Division, relative to the transfer of \$500.36 to "Supplies and Contingencies" for 1903:

CLERK'S OFFICE, COURT OF SPECIAL SESSIONS  
OF THE SECOND DIVISION OF THE CITY OF NEW YORK,  
BOROUGH OF BROOKLYN, NEW YORK, January 14, 1904.

Hon. J. W. STEVENSON, Secretary, Board of Estimate:

DEAR SIR—I am directed by the Board of Justices of the Court of Special Sessions, of the Second Division, to write you requesting the Board of Estimate to transfer the balance to the credit of our Salary Fund, amounting to \$500.36, to the credit of our Contingent Fund; our business for the year 1903 being so very great as to exhaust the Contingent Fund, and necessitating the purchase of extra blanks, postage and other contingencies.

Kindly give this matter your consideration, and thanking you for courtesies previously extended,

Yours respectfully,

JOS. L. KERRIGAN, Clerk of Court.

The following resolution was offered:

Resolved, That the sum of five hundred dollars and thirty-six cents (\$500.36) be and the same is hereby transferred from the appropriation made to the Court of Special Sessions, Second Division, for the year 1903, entitled "Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Court for 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented a communication from the Associated Employees of the Bureau of Buildings, transmitting preambles and resolutions relative to increases in

the salaries of Inspectors in said Bureau. Which was referred to the several Borough Presidents.

The Secretary presented the following communication from the Department of Health requesting an appropriation for the preservation of the public health, for the payment of salaries of Oculists, Inspectors and others employed in institutions for the purpose of stamping out contagious eye diseases, and to provide proper plants for disinfecting purposes and for the employment of the necessary help therefor:

DEPARTMENT OF HEALTH—CITY OF NEW YORK,  
SOUTHWEST CORNER FIFTY-FIFTH STREET AND SIXTH AVENUE,  
BOROUGH OF MANHATTAN, NEW YORK, March 8, 1904.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—On January 21, 1904, a communication transmitting copies of preambles and resolution adopted by the Board of Health at its meeting held January 20, 1904, requesting the Board of Estimate and Apportionment to appropriate the sums of \$25,000 each for the purpose of defraying the necessary expenses required to be incurred in furnishing and maintaining two dispensaries and hospitals for trachoma cases, etc., and for the necessary expenses required to be incurred in providing means for disinfection and fumigation, was addressed to the Board of Estimate and Apportionment.

At a meeting of said Board held January 22, 1904, the Comptroller was authorized to issue Revenue Bonds of The City of New York to the amount of \$10,000, the proceeds whereof were to be applied as follows:

For defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health in furnishing, conducting and maintaining two dispensaries and hospitals for trachoma cases, including the purchase of all necessary food supplies, apparatus, furniture, drugs and miscellaneous supplies, and for the payment of salaries of Oculists, Medical Inspectors, Nurses, Orderlies and others employed in these institutions, for the purpose of stamping out said contagious eye disease .....

\$5,000 00

And for defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health in providing means for disinfection and fumigation; also to provide proper plants for disinfecting purposes and for the employment of the necessary help therefor .....

5,000 00

Total..... \$10,000 00

The great increase in the number of cases of contagious eye disease and the consequent expense in fitting up, conducting and maintaining the dispensaries and hospitals for trachoma cases, the salaries of an increased force of Oculists, Medical Inspectors, Nurses, Orderlies and others, as well as the added expense made necessary for disinfecting and fumigating premises, and the employment of additional Inspectors made necessary by reason of the increased number of cases of tuberculosis and other contagious diseases, has compelled this Department to anticipate the balance of the amounts asked for by appropriating moneys intended for other purposes, the amount allowed by the Board of Estimate and Apportionment having been found insufficient for the purposes stated.

I am therefore directed by Thomas Darlington, M. D., President of the Board of Health, to respectfully request the Board of Estimate and Apportionment to authorize the Comptroller to issue Revenue Bonds of The City of New York to the amount of \$40,000, to cover the aggregate amount asked for in the resolution of January 20, 1904, stated above.

Respectfully yours,

EUGENE W. SCHEFFER, Secretary.

Dr. Thomas Darlington appeared and made a statement in support of the application.

The following resolution was offered:

Resolved, That, pursuant to chapter 535 of the Laws of 1893, and section 170 of the Greater New York Charter, and the requisition of the Board of Health adopted January 20, 1904, the Comptroller be and hereby is authorized to issue Revenue Bonds of The City of New York to the amount of thirty thousand dollars (\$30,000), in addition to the sum of ten thousand dollars (\$10,000) heretofore authorized, and the proceeds whereof shall be applied as follows:

For defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health in furnishing, conducting and maintaining two dispensaries and hospitals for trachoma cases, including the purchase of all necessary food supplies, apparatus, furniture, drugs and miscellaneous supplies, and for the payment of the salaries of Oculists, Medical Inspectors, Nurses, Orderlies and others employed in these institutions, for the purpose of stamping out said contagious eye disease .....

\$10,000 00

For defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health in providing means for disinfection and fumigation; also to provide proper plants for disinfecting purposes and for the employment of the necessary help therefor .....

20,000 00

Total..... \$30,000 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communications from the College of The City of New York relative to the request for the fixing of the salary of Assistant Secretary to the Board of Trustees at \$1,500 per annum, and the salary of Helper in the Natural History Hall at \$60 per month:

THE COLLEGE OF THE CITY OF NEW YORK, OFFICE OF THE BOARD OF TRUSTEES,  
LEXINGTON AVENUE AND TWENTY-THIRD STREET, BOROUGH OF MANHATTAN,  
NEW YORK, March 2, 1904.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—The Board of Trustees of the College of The City of New York respectfully request that the salary of the Assistant Secretary of the College be fixed at the rate of fifteen hundred dollars (\$1,500) per annum.

Yours respectfully,

CHAS. PUTZEL,  
Secretary of the Board of Trustees of the  
College of The City of New York.

THE COLLEGE OF THE CITY OF NEW YORK, OFFICE OF THE BOARD OF TRUSTEES,  
LEXINGTON AVENUE AND TWENTY-THIRD STREET, BOROUGH OF MANHATTAN,  
NEW YORK, March 2, 1904.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—The Board of Trustees of the College of The City of New York respectfully request that the salary of William Stuart, Helper in the Natural History Hall, be fixed at the rate of sixty dollars (\$60) per month.

Yours respectfully,

CHAS. PUTZEL,  
Secretary of the Board of Trustees of the  
College of The City of New York.

THE COLLEGE OF THE CITY OF NEW YORK, OFFICE OF THE PRESIDENT,  
LEXINGTON AVENUE AND TWENTY-THIRD STREET, BOROUGH OF MANHATTAN,  
NEW YORK, March 10, 1904.

Hon. EDWARD M. GROUT, Comptroller:

My DEAR SIR—I beg to say in regard to the recommendation of the Board of Trustees relative to the salary of Mr. Arvid Anderson, Assistant Secretary of the College, that he has been most efficient in his service here. He has been not only faithful but very intelligent in the performance of the duties of his position and has, indeed, made himself invaluable.

Yours very truly,

JOHN H. FINLEY,  
President of the College.

Arvid Anderson, Assistant Secretary of the College of The City of New York. February 1, 1897, was appointed as Assistant to the Secretary of the College. At a meeting of the Board of Trustees, held April 21, 1902, was appointed Assistant Secretary of the College. Acted as Secretary under Professor Compton during the nine months in which he served as Acting President of the College—namely, from December 1, 1902, to September 1, 1903.

His duties at the college are as follows:

- a. He keeps the records of the students' marks and on the basis of these marks prepares a "Merit Roll"—i. e., a graded list giving the relative standing of the students in each subject and in toto.
- b. He keeps the records of "absences."
- c. He prepares the pay-rolls, checks, etc., for the teaching staff and certificates of attendance for the parents.
- d. He communicates with the parents of students whenever necessary.
- e. He attends to the correspondence of the faculty and transacts a great deal of its business.

In addition to the above the non-clerical routine attached to the Secretary's office of the college falls upon him.

In the absence of the Secretary of the College he performs the duties of Secretary.

THE COLLEGE OF THE CITY OF NEW YORK, DEPARTMENT OF NATURAL HISTORY,  
No. 17 LEXINGTON AVENUE,  
NEW YORK, March 10, 1904.

CHARLES PUTZEL, Esq., Secretary of the Board of Trustees:

DEAR SIR—I approve of the application of William Stuart, Helper in the Department of Natural History, for an increase of salary for the reasons:

- First—Satisfactory service for thirteen years.
- Second—Skilled service, a curator rather than a laboratory helper.
- Third—Hours, 8 A. M. to 4 P. M. daily, except Sunday.
- Fourth—Works during vacation cleaning and arranging specimens, etc.

Very respectfully,

WM. STRATFORD,  
Professor Natural History.

The President of the Board of Aldermen moved that the salary of the Assistant Secretary be fixed at the rate of \$1,200 per annum, which motion was unanimously adopted.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of the following positions under the jurisdiction of the Board of Trustees of the College of The City of New York be fixed as follows:

Assistant Secretary of the College, per annum..... \$1,200 00  
Helper in Natural History Hall, per month..... 60 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented the following communication from the former Sheriff of Queens County, relative to the transfer of \$1,952.88, as follows:

Sheriff, Queens County—"Sheriff's Services in Criminal and Court Matters" for 1903..... \$500 00  
Supreme Court and County Court, Queens County—"Court Fund" for 1903..... 1,452 88  
Total..... \$1,952 88

OFFICE OF THE SHERIFF, QUEENS COUNTY,  
COUNTY COURT HOUSE,  
LONG ISLAND CITY, March 10, 1904.

J. W. STEVENSON, Board of Estimate and Apportionment, New York City, N. Y.:

DEAR SIR—In reply to yours of 23d ult., the work for which the bills are rendered is done by direction of the District Attorney and the different courts of this county, and circumstances arise over which I have no control, which necessarily increase the expenditures from the different funds.

The Board did not allow a sufficient fund for the maintenance of the Queens County Jail, and transfer was made from "Sheriff's Service Fund" to the "Maintenance Fund" to meet outstanding bills.

There are no other bills due or payable from the "Maintenance Fund;" that is the reason transfer back is requested to meet the bill of \$184 which is now in the Comptroller's hands, and others are being prepared.

The transfer requested to the "Court Fund" of Queens County, is for dinners furnished jurors and witnesses by order of the Court and District Attorney:

For month of October..... \$318 50  
For month of November..... 294 00  
For month of December..... 316 50

Total..... \$929 00

All of which is respectfully submitted, with the request that transfer be allowed.

Yours very truly,

JOSEPH H. DEBRAGGA,  
Late Sheriff of Queens County, N. Y.

Resolved, That the request of the former Sheriff of Queens County for a transfer of \$1,952.88 from the fund known as "Maintenance of Queens County Jail," as follows:

To "Court Fund of Queens County"..... \$1,452 88  
"Sheriff's Services in Criminal and Court Matters Fund"..... 500 00

—be referred to the present Sheriff of said County for such recommendation as he may deem advisable in connection therewith.

A true copy of a resolution adopted by the Board of Estimate and Apportionment, February 5, 1904.

J. W. STEVENSON, Secretary.

LONG ISLAND CITY, N. Y., February 10, 1904.

GENTLEMEN—Referring to above resolution, would say that the transfer requested by the former Sheriff is necessary to meet deficiency existing in both funds to which a transfer is requested, and I would advise that the transfer be made.

Respectfully,

JOSEPH MEYERROSE,  
Sheriff of Queens County, N. Y.

The following resolution was offered:

Resolved, That the sum of nineteen hundred and fifty-two dollars and eighty-eight cents (\$1,952.88) be and the same is hereby transferred from the appropriation made to the Sheriff of Queens County for the year 1903, entitled "Maintenance of Queens County Jail," the same being in excess of the amount required for the purposes thereof, to the appropriations made for the year 1903, entitled and as follows:

Sheriff, Queens County—"Sheriff's Services in Criminal and Court Matters" .....	\$500 00
Supreme Court and County Court, Queens County—"Court Fund"....	1,452 88

Total.....	\$1,952 88
------------	------------

—the amounts of said appropriations being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan and the President of the Borough of Brooklyn—13.

The Secretary presented a communication from the Police Department amending its order adopted January 7, 1904, asking for authority to increase the Police Force by adding to the number of Patrolmen, from time to time, during the year 1904, not to exceed 150, the salaries of the same to be paid out of the appropriation made to the Police Department entitled "Police Fund." Laid over.

The Secretary was directed to advise the Commissioner that in order to get additional funds it will be necessary to have an issue of Special Revenue Bonds, which are authorized by the Board of Aldermen and approved by the Board of Estimate and Apportionment.

The Secretary presented a communication from the Queens Borough Library, requesting the fixing of the salary of the position of Junior Assistant Librarian at the rate of \$50 per month. Laid on the table.

The Secretary presented a resolution of the Commissioners of the Sinking Fund, recommending the issue of \$13,350,000 Corporate Stock for the purposes of the Department of Docks and Ferries. Laid over for consideration with the bond budget.

The Comptroller and the President of the Borough of Richmond appeared and took their places in the Board.

The Secretary presented the following communication from the Chief Engineer of the Board of Estimate and Apportionment, recommending the employment of three additional Axemen at \$900 per annum each:

REPORT NO. 1755.

BOARD OF ESTIMATE AND APPORTIONMENT,  
NEW YORK, February 26, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The United States Coast and Geodetic Survey having furnished another 10-inch theodolite, it will be advantageous to organize another observing party for work on the triangulation of the City, which is now in progress. We already have an Observer for this instrument, but at least two additional Heliotropers will be required.

When work is begun on the measurement of a new base line, a third man will be needed, and I beg, therefore, to recommend the authorization of the employment of three additional Axemen, each at \$900 per annum, to act as Heliotropers, or to do such other work as may be assigned them.

We have at present on the pay-roll charged to this work one Topographical Draughtsman and four Axemen, and the funds are available to meet the increased expenses.

The adoption of the attached resolution is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 406 of the Laws of 1903, the Board of Estimate and Apportionment hereby authorizes the Mayor of The City of New York to employ three Axemen, each at a compensation of nine hundred dollars (\$900) per annum, who shall be assigned to the Assistant of the United States Coast and Geodetic Survey in charge of the triangulation of the City.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn and the President of the Borough of Richmond—14.

Sworn to before me this 6th day of January, 1904.

J. A. LIVINGSTON, Commissioner of Deeds,  
City of New York, Borough of Brooklyn.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
FEBRUARY 3, 1904.

In the matter of claim No. 25526 of Norman S. Dike, for the sum of \$597.25 alleged to be the reasonable costs and counsel fees incurred by him as Sheriff of the County of Kings, after the expiration of his term of office, in defending actions and proceedings brought against him.

Hon. EDWARD M. GROUT, Comptroller:

SIR—This claim is presented by Norman S. Dike, former Sheriff of the County of Kings, for the sum of \$597.25 for counsel fees and costs incurred by him as said Sheriff after the expiration of his term of office, in defending actions and proceedings brought against him for his alleged acts of omission or misconduct in his official capacity.

Attached to the notification of said claim is an affidavit made by William W. Wingate to the effect that he was appointed counsel to the said Sheriff to defend such actions or proceedings as are mentioned in the said claim, and that certain actions therein mentioned had been commenced and the said William W. Wingate had performed services in reference thereto, for which he made a charge against the Sheriff for the sum of \$597.25.

Upon being examined before the Comptroller, William W. Wingate testified that on January 1, 1903, he was appointed counsel to Norman S. Dike, former Sheriff of Kings County, for the purpose of clearing up the affairs of the office of the Sheriff and to appear for the Sheriff and defend or prosecute any actions that might be brought by or against the Sheriff by reason of acts performed while in the office of Sheriff of Kings County; that in an action entitled "Joseph Vollkommer against Norman S. Dike, as Sheriff of Kings County," he had a number of consultations with witnesses, had prepared an answer to the complaint, had received an amended complaint, had prepared an amended answer, which necessitated an examination of the law relative to the action; that he had noticed the case for trial, filed a note of issue, for which he paid a fee of seventy-five cents, and afterwards prepared motion papers for obtaining a preference on the calendar; that he had argued the motion and prepared and entered an order granting such motion; that the work involved in that action was reasonably worth the sum of one hundred dollars and seventy-five cents; that in the action entitled "Thomas Hayden against Norman S. Dike, as Sheriff of the County of Kings," the services that he had performed were the entry of an order of substitution, which necessitated the preparation of consents, acknowledgments and a proper order, the entry of the same in the Supreme Court and the serving of the same upon the former attorney for the Sheriff and on the attorney for the plaintiff in the action; and that for such services he charged the sum of ten dollars; that he charged a like sum of ten dollars for similar services in an action brought in the Supreme Court by the "Cary Manufacturing Company against Norman S. Dike, as Sheriff of Kings County," that in the case of "Jacob S. Neuberger against Norman S. Dike, as Sheriff of Kings County" the summons and complaint were served upon the Sheriff and turned over to him; that he consulted with the various witnesses in the case and prepared an answer; that he afterwards received an amended complaint and prepared and served an amended answer and spent about five or six days in the examination of the law and in the preparation of the said answer to the amended complaint; that he thereafter noticed the case for trial and filed a note of issue, for which he paid the fee of seventy-five cents; that he also prepared the motion papers on the motion for a preference and argued the motion before the Supreme Court; that the motion was granted and he prepared the necessary order to place the said case on the calendar as a preferred case; that he had rendered a bill for the sum of one hundred dollars and seventy-five cents for his services in that action; that in the case of Ehlers

against Dike, as Sheriff of Kings County, the Sheriff was served with the summons and complaint, which were turned over to him; that after consultation with witnesses he prepared an answer and served the same; that he served a notice of trial, filed a note of issue, for which he paid a fee of seventy-five cents, prepared papers on motion for preference, argued the same, and upon the granting of the said motion prepared the necessary order placing the same upon the preferred calendar; that he had rendered for such services a bill for seventy-five dollars and seventy-five cents; that in the case of Saffier against Dike, as Sheriff of Kings County, after the expiration of the Sheriff's term of office, plaintiff appealed from the judgment of the Municipal Court, and the matter was turned over to him by the former counsel to the Sheriff; that he entered an order of substitution, having prepared the necessary consents, acknowledgments and orders and served the same; that he received the notice of appeal from the judgment in favor of defendants, went to the Appellate Division of the Supreme Court, and there examined the return of the Justice of the Municipal Court; that he thereafter served a notice of argument and received a cross-notice; that he then prepared and filed a brief in the Appellate Division and argued it before such Division; that the brief which he filed in the Appellate Division was a very long one, as the case was one of a great deal of importance, in view of the fact that it raised a new question of law; that he spent not less than a large portion of two weeks in the preparation of the brief; that he spent an afternoon in waiting for and arguing the case before the Appellate Division, which sustained and affirmed the judgment of the lower court; that he entered the order affirming said judgment and taxed the bill of costs against the plaintiff; that subsequently plaintiff's attorney served the Sheriff with an order to show cause why he should not be punished for contempt of court in failing to execute the mandate of the Municipal Court; that this matter was very important, as it meant practically the beginning of a new action for the same acts, which might have resulted in an order by the court directing the commitment of the Sheriff or the execution of a bond; that he prepared a very exhaustive brief and spent a large portion of one day before the Municipal Court in waiting for and arguing the motion to punish for contempt; that the court denied the motion, and an order was prepared and entered by him denying such motion, and said order was served on plaintiff's attorney; that he had rendered a bill for the sum of three hundred dollars for such services, and he believed the same to be just and reasonable compensation therefor, and that the services in all these actions were rendered by him subsequent to the first of January, 1903. This testimony is transmitted herewith.

Also transmitted herewith is a certified copy of a certificate filed in the office of the Clerk of the County of Kings by Norman S. Dike, Sheriff of the County of Kings, dated the 30th of December, 1902, in which it is stated that "by virtue of chapter 705 of the laws of 1901, and not otherwise, I do hereby appoint William W. Wingate to the position of Counsel to the Sheriff in the office of the Sheriff of Kings County, to take effect on the 30th day of December, 1902."

Chapter 705 of the Laws of 1901 provided that "after the expiration of the term of office of each Sheriff of the County of Kings, the Board of Estimate and Apportionment of The City of New York is hereby authorized to audit and allow as charges against said City the reasonable costs and counsel fees paid or incurred by said Sheriff after the expiration of his term of office in prosecuting or defending any action or proceedings brought by or against him for any alleged act or omission or misconduct in his official capacity by virtue or color of his office; that said sum so audited and allowed shall not exceed five thousand dollars for any one year or to be audited and allowed for a longer period than two years after the expiration of his said term of office."

If, in accordance with the foregoing provision of law, the claim be valid, the sum of five hundred and ninety-seven dollars and twenty-five cents would appear to be a reasonable allowance for the services alleged to have been rendered, and the Board of Estimate and Apportionment, which is charged by said law with the function of auditing and allowing such charges, would be justified in making an appropriation of that amount for the year 1903.

It is respectfully recommended that this report be transmitted to the Corporation Counsel for his advice concerning the legal liability of the City in the premises.

Respectfully,

JOS. L. HANCE, Auditor of Accounts.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
MARCH 8, 1904.

In the matter of Claim No. 25526 of Norman S. Dike, for the sum of \$597.25, alleged to be the reasonable costs and counsel fees incurred by him as Sheriff of the County of Kings after the expiration of his term of office in defending actions and proceedings brought against him.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Under date of the 3d of February, 1904, a report was made upon this claim by the Division of Law and Adjustment of this Department, in which it was stated that if, in accordance with the provisions of chapter 705 of the Laws of 1901, the claim be valid, the sum of \$597.25 would appear to be a reasonable allowance for the services alleged to have been rendered, and that the Board of Estimate and Apportionment, which is charged by the said law with the function of auditing and allowing such charges, would be justified in making an appropriation of that amount for the year 1903.

It was recommended that the report be transmitted to the Corporation Counsel for his advice concerning the legal liability of the City in the premises.

That report having been transmitted to the Corporation Counsel with a request for said opinion, a communication dated the 4th of March, 1904, transmitted herewith, has been received from the Corporation Counsel in which it is stated that "I am of opinion that these are legal charges against the City and that it is the duty of the Board of Estimate and Apportionment to audit and allow such charges, if, in its judgment, they are reasonable as to the amounts."

It is therefore respectfully recommended that this report and the other papers in the case be transmitted to the Board of Estimate and Apportionment for its information and for such action as it may deem advisable.

Respectfully,

JOS. L. HANCE, Auditor of Accounts.

LAW DEPARTMENT, OFFICE OF THE CORPORATION COUNSEL,  
NEW YORK, March 4, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I have received under date February 16, 1904, a communication signed Hubert L. Smith, Assistant Deputy Comptroller, transmitting report of Joseph L. Hance, Auditor of Accounts of the Finance Department, in the matter of Claim No. 25526, filed in said Department by Norman S. Dike, for the sum of \$597.25, alleged to be the reasonable costs and counsel fees incurred by him as Sheriff of Kings County after the expiration of his term of office in defending actions and proceedings brought against him. This report is transmitted to me for my consideration and advice concerning the legal liability of the City in the premises.

The claimant, Mr. Dike, was Sheriff of the County of Kings during the year 1902, and went out of office on December 31 of that year.

By chapter 705 of the Laws of 1901, the office of the Sheriff of said County was made a salaried office instead of a fee office, as it had previously been. The expenses of the office, including the salaries of Assistants, Clerks and other subordinates, are made a charge upon The City of New York. Among the subordinates authorized to be appointed by the Sheriff, whose compensation is thus charged upon The City of New York, is a Counsel. This act further provides, in section 2, that "After the expiration of the term of office of each Sheriff of the County of Kings the Board of Estimate and Apportionment of The City of New York is hereby authorized to audit and allow as charges against said City the reasonable costs and counsel fees paid or incurred by said Sheriff after the expiration of his term of office in prosecuting or defending any actions or proceedings brought by or against him for any alleged act or omission or misconduct in his official capacity by virtue or color of his office, but said sum so audited and allowed shall not exceed \$5,000 for any one year or be audited and allowed for a longer period than two years after the expiration of his term of office."

The claim now presented is based upon this provision of the law and covers certain items charged as counsel fees for prosecuting and defending actions or proceedings brought against Mr. Dike as Sheriff of the County of Kings, in relation to matters arising during his term of office.

I am of opinion that these are legal charges against the City, and that it is the duty of the Board of Estimate and Apportionment to audit and allow such charges if in its judgment they are reasonable as to the amounts.

Respectfully,

JOHN J. DELANY, Corporation Counsel.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 464 of the Laws of 1903, hereby audits and allows as a charge against The City of New York the claim of Norman S. Dike for the sum of five hundred and ninety-seven dollars and twenty-five cents (\$597.25), alleged to be the reasonable costs and counsel fees incurred by him as Sheriff of the County of Kings after the expiration of his term of office in defending actions and proceedings brought against him.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn and the President of the Borough of Richmond—14.

The Secretary presented a resolution of the Board of Aldermen requesting the increase in salary of the position of Clerk in said Board from \$1,050 to \$1,350 per annum. Laid on the table.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of Special Revenue Bonds to the amount of \$6,000 for alterations to the old Station-house at No. 220 East Fifty-ninth street, assigned to the use of the Volunteer Firemen's Association of New York. Laid over.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of Special Revenue Bonds to the amount of \$9,000 to provide means for the salaries of four additional Clerks for the Coroners of Brooklyn and Queens. Laid over.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of Special Revenue Bonds to the amount of \$75,000 for repairs and alterations to the Queens County Court-house Building in Long Island City; also report from the General Manager of the Building and Sanitary Inspection Company. Laid over.

The Secretary presented a resolution of the Board of Aldermen recommending that favorable action be taken in relation to the fixing of the salary of the position of Stoker on the fire-boats of the Fire Department at the rate of \$1,095 per annum. Referred to the Fire Commissioner.

The Secretary presented the following communication from the Commissioner of Jurors, Kings County, requesting a transfer of \$71.20 to "Supplies and Contingencies," 1903.

OFFICE OF THE COMMISSIONER OF JURORS FOR THE COUNTY OF KINGS,  
COURT HOUSE, BROOKLYN, N. Y.,  
MARCH 10, 1904.

The Board of Estimate and Apportionment, New York City, N. Y.:

GENTLEMEN—There was a balance of one hundred dollars (\$100) left to the credit of the salary account of this office for the year of 1903. I should like to have seventy-one dollars and twenty cents (\$71.20) of said amount transferred to the "Contingent Account" for 1903; this is necessary to pay a telephone bill charged to the last quarter of 1903, and which was presented at this office after January 1, 1904, and should be charged to 1903 "Contingent Account."

Yours respectfully,

JACOB BRENNER.

The following resolution was offered:

Resolved, That the sum of seventy-one dollars and twenty cents (\$71.20) be and the same is hereby transferred from the appropriation made to the Commissioner of Jurors, Kings County, for the year 1903, entitled "Salaries—Salaries of Employees," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Commissioner of Jurors, Kings County, for the year 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, and the President of the Borough of Richmond—14.

The Secretary presented a resolution of the Board of Aldermen requesting the issue of \$10,000 Special Revenue Bonds for the maintenance of the Fire Alarm Telegraph System in the Borough of Richmond. Laid over.

The Secretary presented the following communication from the District Attorney of Queens County requesting a transfer to "Supplies and Contingencies," including expenses of County Detectives and expenses of attendance on Court of Special Sessions:

DISTRICT ATTORNEY'S OFFICE, QUEENS COUNTY, N. Y.,  
LONG ISLAND CITY, February 27, 1904.

To the Honorable the Board of Estimate and Apportionment, City of New York, N. Y.:

GENTLEMEN—I beg leave to inform you that the expenditures of this office for "Supplies and Contingencies" for the year 1903 exceeded the appropriation by \$662.64.

This excess of expenditure over the appropriation was made necessary in the employment of expert witnesses in a murder case, which was tried in this county in the Supreme Court on the 28th, 29th and 30th days of December last, in which the defence interposed was insanity. The defendant called experts to testify in his behalf and made it necessary for me to meet that evidence by experts whom I employed, and I had no time to make application to this Honorable Board for an additional appropriation to meet this expense, as is provided for by section 1542 of the Charter.

There is an unexpended balance in the Salary Fund of this office for last year to the amount of \$300.08, which I request you to transfer to the Contingent Fund, as provided by section 237 of the Charter; that would leave a balance of \$362.56, for which I would like to have provision made, either by transferring any balance that may be found unexpended in other accounts, if such there be, or by issuing Revenue Bonds to provide for the payment of the same.

Very respectfully,

GEO. A. GREGG, District Attorney, Queens County.

The following resolution was offered:

Resolved, That the sum of three hundred dollars and eight cents (\$300.08) be and the same is hereby transferred from the appropriation made to the District Attorney's Office, Queens County, for the year 1903, entitled "Salaries—Salaries of Assistant, Clerk, Stenographer and County Detective," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said office for the year 1903, entitled "Supplies and Contingencies, including expenses of County Detective and expenses of attendance on Court of Special Sessions," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn and the President of the Borough of Richmond—14.

The President of the Borough of The Bronx and the Acting President of the Borough of Queens appeared and took their places in the Board.

The Secretary presented a communication from the President of the Borough of Brooklyn, requesting the Board to authorize the issue of Corporate Stock to the amount of \$150,000 in order to provide for contracts entered into during the year 1903, which were not registered by the Comptroller for the reason that funds were not available, and under which work was begun in 1903 and progressed to a considerable extent.

The President of the Board of Aldermen moved that the matter be referred to the Mayor for submission to the Commissioners of Accounts for investigation. Which motion was unanimously adopted.

The Secretary presented the following communications from the Department of Taxes and Assessments requesting the transfer of \$355.05 to "Supplies and Contingencies":

THE CITY OF NEW YORK—DEPARTMENT OF TAXES AND ASSESSMENTS,  
STEWART BUILDING, No. 280 BROADWAY,  
March 10, 1904.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

DEAR SIR—I am directed to inform you that at a meeting of the Board of Taxes and Assessments, the following resolution was adopted:

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to approve the transfer of the sum of ninety-seven dollars and fifty-eight cents (\$97.58) from the appropriation for the year 1903, for "Salaries—Deputies, Clerks, etc.," to the appropriation for "Contingent Expenses—Department of Taxes and Assessments," also, of the sum of two hundred and fifty-seven dollars and forty-seven cents (\$257.47) from the appropriation for the year 1903, for "Salaries—Board of Assessors," to the appropriation for "Contingent Expenses—Department of Taxes and Assessments," said Board of Assessors having consented thereto.

Yours respectfully,

C. ROCKLAND TYNG, Secretary.

OFFICE BOARD OF ASSESSORS, No. 320 BROADWAY,  
NEW YORK, March 1, 1904.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—In response to an inquiry of the Chief Bookkeeper of your Department by telephone this morning, I beg to advise you that there are the following unexpended balances in the appropriations for this office for 1903, which will not be used by us:

"Salaries" .....	\$498 05
"Contingencies" .....	3 07

Respectfully,

WM. H. JASPER, Secretary.

The following resolution was offered:

Resolved, That the sum of three hundred and fifty-five dollars and five cents (\$355.05) be and the same is hereby transferred from the appropriations made for the year 1903, entitled and as follows:

Department of Taxes and Assessments—	
"Salaries of Deputies, Clerks and Employees" .....	\$97 58
Board of Assessors—	
"Salaries of Secretary, Clerks, etc." .....	257 47
Total .....	\$355 05

—the same being in excess of the amounts required for the purposes thereof, to the appropriation made to the Department of Taxes and Assessments for the year 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following communications from the Commissioner of Water Supply, Gas and Electricity, requesting that the salary of the position of Secretary to the Deputy Commissioner be fixed at \$3,000 per annum, from February 5, 1904:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,  
CITY OF NEW YORK, February 16, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—Under section 56 of the Amended Greater New York Charter, I have the honor to request the adoption of a resolution by your Board recommending to the Board of Aldermen that the salary of the Secretary to the Deputy Commissioner of the Department of Water Supply, Gas and Electricity be established at the rate of \$3,000 per annum, and herewith inclose draft of the resolution.

Very respectfully,

JNO. T. OAKLEY, Commissioner.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,  
CITY OF NEW YORK, February 26, 1904.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, City Hall:

DEAR SIR—In relation to the resolution which your Board is respectfully asked to approve, in establishing a salary of \$3,000 for Secretary to the Deputy Commissioner of this Department, I desire to inform you that it is quite necessary for the Deputy Commissioner to have an assistant who will be competent to examine the many vouchers for payment of supplies furnished, as well as claims for the refund of moneys and the correction of water charges.

These papers are transmitted from all of the boroughs to the main office for approval, and you can understand that their number is quite large.

The duties assigned and the work performed by the Deputy Commissioner are of the utmost importance to the Department, and there is a voluminous correspondence incident to the performance of that work. It is desired that salary take effect from February 5, 1904.

Very respectfully,

JNO. T. OAKLEY, Commissioner.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,  
CITY OF NEW YORK, March 9, 1904.

Hon. EDWARD M. GROUT, Comptroller:

DEAR SIR—Referring to my application for the approval by the Board of Estimate and Apportionment of the appointment of a "Secretary to the Deputy Commissioner" in this Department, I wish to state that I believe such a course to be entirely in the public interest. The office is not of doubtful necessity, and will not increase the amount of the departmental pay-roll one dollar.

As I have previously explained, the Secretary to the Deputy Commissioner will be required to act as an Assistant to the Deputy in matters which frequently demand the exercise of executive and administrative ability and where the relations must necessarily be confidential; and, which perhaps is not the least important point, he will do the work of a "Correspondence Clerk" for which an appropriation of \$3,000 per year was allowed in the budget for 1904.

These facts have previously been submitted to the Municipal and State Civil Service Boards, who approved, to the extent of their authority, of my contemplated action.

Trusting you will see your way clear to give your approval on Friday next to the resolution heretofore introduced in the Board of Estimate and Apportionment bearing on this subject, I am,

Respectfully yours,

JNO. T. OAKLEY, Commissioner.

The following resolution was offered:

Resolved, That, subject to the concurrence and approval of the Board of Aldermen, the Board of Estimate and Apportionment hereby ratifies and confirms the action of the Commissioner of Water Supply, Gas and Electricity, in fixing the salary of the position of Secretary to the Deputy Commissioner of Water Supply, Gas and Electricity at the rate of three thousand dollars (\$3,000) per annum, as of date February 5, 1904.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented a resolution of the Board of Aldermen requesting that all employees of The City of New York who are veterans of the Civil War be allowed four days' time with pay from August 15 to August 18, 1904, inclusive, in order that they may attend the annual encampment of the Grand Army of the Republic, which is to be held in the city of Boston, Mass., during the week beginning August 15, 1904. Referred to the Secretary.

The Secretary presented the following communications from the District Attorney of Richmond County, relative to the transfer of \$32 to "Witness Fees and Contingencies":

OFFICE OF THE DISTRICT ATTORNEY OF THE COUNTY OF RICHMOND,  
PORT RICHMOND, N. Y., March 10, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, City of New York:

DEAR SIR—In accordance with the suggestion of the Comptroller, I beg to call your attention to the fact that a claim of \$32 of one Thomas Baker, Stenographer for the Grand Jury of Richmond County, remains unpaid, owing to the exhaustion of the amount appropriated for my office for the year 1903. And, in accordance with the suggestion of the Comptroller, I beg to request a transfer of sufficient funds to meet this bill, from the "County Contingent Fund" to the District Attorney's appropriation for "Witness Fees and Contingencies" for the last year.

My previous correspondence with the Comptroller will fully explain the situation.

Yours truly,

EDWARD SIDNEY RAWSON, District Attorney.

The following resolution was offered:

Resolved, That the sum of thirty-two dollars (\$32) be and the same is hereby transferred from the appropriation made to the County of Richmond, for the year 1903, entitled "County Contingent Fund," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the District Attorney, Richmond County, for the year 1903, entitled "Witness Fees and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The consideration of the communication of the District Attorney of New York County, requesting an issue of Special Revenue Bonds to the amount of \$15,000 for the proper conduct of the criminal actions in the cases of the People vs. Charles F. Dodge et al., was laid over until later in the meeting.

The Comptroller presented the following report of the Engineer of the Department of Finance relative to the Raymond Street Jail, in the Borough of Brooklyn, in connection with the recommendations set forth in the Presentment of the February Grand Jury of Kings County, and moved that said report and Presentment be referred to the President of the Borough of Brooklyn.

After discussion the Comptroller withdrew his motion.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 3, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Pursuant to your instructions, I have examined the Raymond Street Jail, Borough of Brooklyn, in connection with the recommendations as set forth in Presentment of the Grand Jury, dated February 4, 1904. I would report:

First—The Women's Prison: It is claimed that it is non-fireproof, and would be difficult to empty without loss of life. It is true the interior construction is not fireproof, but with the two staircases and bridges at the second and third stories, in my opinion it can be emptied readily and without loss of life.

The condition of the sanitary fixtures is due more to lack of attendance and proper adjustment than to any fault in the character of the apparatus, for the plumbing is good, and with proper attention should work satisfactorily. I would suggest that nothing be done with this building, for I think quarters for the women can be provided in the main building.

Second—The Men's Prison: The main complaint is the sanitary condition of the cells; the plumbing is a disgrace, and something should be done at once. The Grand Jury recommends that the present stone cells be razed to the ground, and in their place should be erected up-to-date steel cells, having a five-foot wide utility corridor through the middle of each block, in which may be placed all the plumbing pipes, the heating and ventilating ducts and the electric light wires.

Two plans are recommended, first to erect two banks of forty steel cells to each bank, or eighty cells to each tier, five tiers high, or 400 cells in all, at an approximate cost of \$190,000; or to erect two blocks of 320 steel cells each, or 640 cells in all, at an approximate cost of \$290,000. These estimates are inclusive of all plumbing and ventilating.

I am of the opinion that it would not be wise or profitable to put new plumbing in the present old stone cells; the drain or soil pipes would still be within the cells, and at the best it would not be arranged to have every hopper trapped, which should be needed to overcome sewer gas within the separate cells; automatic flushes could be placed in cells set apart for such purposes, but this would only provide for the hoppers to be flushed every twenty minutes, and not after using, which is necessary to keep them perfectly clean. I therefore agree with the recommendation that the present stone cells should be removed and modern steel cells, with an utility corridor, up-to-date plumbing and ventilating erected in their place.

The approximate estimate, \$190,000, for 400 steel cells, inclusive of plumbing and ventilating I consider low; the cost will be nearer \$400,000 or \$450,000. In the new arrangement of the cells, I think it possible to separate a certain portion of the main jail and erect steel cells for the use of the women prisoners; this will allow with the doing away with the present Women's Prison, which can be altered and arranged for sleeping apartments for the attendants.

I would suggest that an Architect be appointed to study the question, and submit general plans and estimate of cost as to how the cells can be erected, with a view of making provision for the women in the main building; and I would also advise that \$4,000 be appropriated to provide for the preparation of these preliminary plans and estimate of cost.

Attention is called by the Grand Jury to the defective condition of the covers of the steam kettles in the kitchen. The condition of these kettles is as noted, but I think the Warden should attend to such defects. The roof of the kitchen building is a disgrace, in fact the whole kitchen wing should be taken down; the present one-story brick structure is very old, and does not warrant a new roof; the approximate cost of erecting a new one-story brick kitchen wing, with a first-class roof, will be about \$15,000.

Respectfully,  
EUG. E. McLEAN, Engineer.

The Secretary presented the following communication from the Secretary of the Fire Department, relative to a resolution of the Board of Aldermen requesting the issue of \$25,000 Special Revenue Bonds for the expense of placing the fire-boat "Seth Low" in condition for service:

HEADQUARTERS FIRE DEPARTMENT, CITY OF NEW YORK,  
NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,  
BOROUGH OF MANHATTAN, March 10, 1904.

J. W. STEVENSON, Esq., Deputy Comptroller, No. 280 Broadway, New York City:

SIR—I am directed by Commissioner Hayes to acknowledge receipt of your letter of the 8th inst., stating that at a meeting of the Board of Estimate and Apportionment, held on the 4th inst., a resolution adopted by the Board of Aldermen on February 2, 1904, and approved by the Mayor February 10, 1904, requesting the Board of Estimate and Apportionment to approve of the issue of Special Revenue Bonds to the amount of \$25,000 for expense of placing the fire-boat "Seth Low" in condition for service, was presented, and requesting that an itemized statement of the proposed expenditures be forwarded. In reply I am directed to transmit herewith the following:

1. Copy of report from H. de B. Parsons, Consulting Engineer, dated November 27, 1903, on repairs required to the fire-boat "Seth Low."
2. Specifications covering the work of repairing the fire-boat "Seth Low."
3. Copy of communication from this office dated February 2, 1904, addressed to the Hon. Charles V. Fornes, President of the Board of Aldermen, explaining the necessity for the appropriation of \$25,000 and requesting early and favorable action thereon.

The original contract with Messrs. Gokey & Son for repairs to the fire-boat "Seth Low" referred to in Mr. Parson's report, was executed August 24, 1903, the work to be completed within twenty days at cost of \$2,000. The boat has been out of service since that time and on a dry-dock, and the City is liable for the dockage. As the fire-boat "David A. Boody" has also been placed out of service, after inspection by the United States Inspectors, the condition is that the Brooklyn water-front is without the protection which one or both of these boats could afford if they were in proper condition for service. The necessity for the appropriation asked for is very urgent, and the Commissioner requests that early and favorable action be taken on the request.

Respectfully,  
ALFRED M. DOWNES, Secretary.

Whereas, It appears by a communication from the Fire Commissioner to this Board, dated December 10, 1903, that he is advised by the officer in charge of the making of extensive repairs and alterations to the fire-boat "Seth Low," of the Fire Department of The City of New York, boroughs of Brooklyn and Queens, under contract dated August 5, 1903, that certain additional work will be indispensably necessary in connection therewith; and

Whereas, It would be in the interest of the Department and The City of New York to have the additional work performed by the present contractor, to avoid delay; therefore

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-five thousand dollars (\$25,000), the proceeds thereof to be applied to the expense of placing the fire-boat "Seth Low" in condition for service.

Resolved, further, That this Board, in pursuance of the authority conferred upon it by the provisions of section 419 of the Greater New York Charter, deeming such course to be for the best interests of the City, hereby authorizes and empowers the Fire Commissioner to have such additional work done without contract at public letting and by the present contractor, the total expenditure therefor not to exceed the sum of twenty-five thousand dollars (\$25,000).

Unanimously adopted by the Board of Aldermen February 2, 1904, three-fourths of all the members elected voting in favor thereof.

Approved by the Mayor February 10, 1904.

P. J. SCULLY, Clerk.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted February 2, 1904, and approved by the Mayor February 10, 1904, in relation to the expenditure of twenty-five thousand dollars (\$25,000) to be applied to the expense of placing the fire-boat "Seth Low" in condition for service, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, to the amount of twenty-five thousand dollars (\$25,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following communication from the Chief Engineer of the Board of Estimate and Apportionment, recommending the fixing of the salary of the position of Junior Clerk in the office of the Board of Estimate and Apportionment at \$480 per annum.

BOARD OF ESTIMATE AND APPORTIONMENT,  
NEW YORK, March 12, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—James J. O'Connor, now employed as an Office Boy at a salary of \$300 per annum in the office of the Chief Engineer, has made an application for promotion to the grade of Junior Clerk, at such salary as it may be thought his services would warrant.

In connection with this application, I beg to state that James J. O'Connor was, on July 1, 1903, appointed as an Office Boy from the eligible list, so that at the close of the present month he will have served in that capacity for nine months. His services have been entirely satisfactory, and he has actually been doing the work not only of a Junior Clerk, but I feel safe in saying of an average Clerk.

I think it is the intent of the Civil Service Rules that one appointed to the lowest grade shall be encouraged by promotion if he shows a proper interest in his work and his services are satisfactory. I would therefore recommend that the grade of Junior Clerk, at \$480 per annum, be fixed for the Board of Estimate and Apportionment, in order that the applicant may be promoted to this grade if its establishment shall be approved by the Board of Aldermen.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,  
NEW YORK, February 3, 1904.

NELSON P. LEWIS, Esq., Chief Engineer:

DEAR SIR—On July 1, 1903, I was appointed Office Boy by the Board of Estimate and Apportionment at the salary of \$300 per annum. I believe that according to Civil Service Rules, after six months' service, if satisfactory, I am eligible for promotion to the grade of Junior Clerk.

I therefore make formal application to you for such promotion at whatever compensation you may think my services would warrant.

Yours respectfully,  
JAMES J. O'CONNOR.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Junior Clerk in the office of the Chief Engineer of the Board of Estimate and Apportionment be fixed at the rate of four hundred and eighty dollars (\$480) per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented copies of communications from the Mayor relative to the allotment of the appropriation made for the City's exhibit at the St. Louis Exposition. Laid on the table.

The Secretary presented the following communication from the Appraiser of Real Estate, Department of Finance, recommending the purchase of a strip of land desired for an entrance to Public School 2, Borough of Richmond:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 14, 1904.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Education, held on November 25, 1903, the following resolution was adopted:

"Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described strip of land fifteen feet wide running from Public School 2 to Richmond Valley road, in Local School Board District No. 46, Borough of Richmond, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$20.

"Beginning at a point on the southerly line of the lands of Public School 2, distant fifteen (15) feet easterly from the southwesterly corner of the lands of said Public School 2, and running thence in a straight line southwesterly to a point formed by the intersection of the northerly line of Richmond place with the northeasterly line of Richmond Valley road; thence northwesterly along the northeasterly line of Richmond Valley road fifteen (15) feet; thence northeasterly in a straight line one hundred and fifteen (115) feet seven (7) inches to the southwesterly corner of the lands of the said Public School 2; thence easterly along the southerly line of said lands of Public School 2 fifteen (15) feet to the point or place of beginning, be the said several dimensions, more or less.

"Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described."

After an examination I have the honor to report that the strip of land which is desired for an entrance to Public School 2 from the Richmond Valley road, the other streets fronting on the school plot being unimproved, is desirable and necessary.

The owner of this property is John Innella, and he has given an option to sell the strip to the City for \$175, which price, while full value, is not excessive.

I would therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing the acquisition of the above described premises at a price not exceeding \$175.

Respectfully submitted for approval.

MORTIMER J. BROWN,  
Appraiser of Real Estate in Charge of Bureau.

To the Board of Education:

The Committee on Sites respectfully reports that it has given careful consideration to a communication from the Local School Board of District No. 46, recommending that a strip of land be acquired to provide an entrance to Public School 2 from Richmond Valley road, and submits for adoption the following resolutions:

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following described strip of land fifteen feet wide running from Public School 2 to Richmond Valley road, in Local School Board District No. 46, Borough of Richmond, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$20.

Beginning at a point on the southerly line of the lands of Public School 2, distant fifteen (15) feet easterly from the southwesterly corner of the lands of said Public School 2, and running thence in a straight line southwesterly to a point formed by the intersection of the northerly line of Richmond place with the northeasterly line of Richmond Valley road; thence northwesterly along the northeasterly line of Richmond Valley road fifteen (15) feet; thence northeasterly in a straight line one hundred and fifteen (115) feet seven (7) inches to the southwesterly corner of the lands of said Public School 2; thence easterly along the southerly line of said lands of Public School 2 fifteen (15) feet to the point or place of beginning, be the said several dimensions more or less.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described.

A true copy of report and resolution adopted by the Board of Education on November 25, 1903.

A. EMERSON PALMER, Secretary, Board of Education.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following described lands and premises for an addition to a school site in Local School Board District No. 46, in the Richmond Valley road, in the Borough of Richmond, bounded and described as follows:

Beginning at a point on the southerly line of the lands of Public School 2, distant fifteen (15) feet easterly from the southwesterly corner of the lands of said Public School 2, and running thence in a straight line southwesterly to a point formed by the intersection of the northerly line of Richmond place with the north-easterly line of Richmond Valley road; thence northwesterly along the north-easterly line of Richmond Valley road fifteen (15) feet; thence northeasterly in a straight line one hundred and fifteen (115) feet seven (7) inches to the southwesterly corner of the lands of said Public School 2; thence easterly along the southerly line of said lands of Public School 2 fifteen (15) feet to the point or place of beginning, be the said several dimensions more or less, together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof.

—and hereby authorizes the Comptroller of The City of New York to enter into a contract for the purchase of the said described premises at a price not exceeding one hundred and seventy-five dollars (\$175), said contract to be submitted to the Corporation Counsel for his approval.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following communication from the Commissioner of Street Cleaning requesting the transfer of \$90,000 to the appropriation for "Removal of Snow and Ice," boroughs of Manhattan and The Bronx:

DEPARTMENT OF STREET CLEANING,  
New York, March 15, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I have to request that the sum of ninety thousand dollars (\$90,000) be transferred from the account of Sweeping and Carting appropriation of the Department of Street Cleaning, boroughs of Manhattan and The Bronx, for the year 1904, to the appropriation account of Snow and Ice, boroughs of Manhattan and The Bronx, for 1904, for the reason that the balance remaining in the last-named account is not sufficient to meet the emergency of the last fall of snow.

I also have to request that, in accordance with the provisions of section 546 of the Greater New York Charter, the Comptroller be authorized and directed to issue bonds of the City of New York to the amount of ninety thousand dollars (\$90,000), the proceeds thereof to be used for the restoration to the account of Sweeping and Carting of the amount temporarily transferred therefrom, as requested above.

Respectfully,

JOHN MCG. WOODBURY, Commissioner.

The following resolution was offered:

Resolved, That the sum of ninety thousand dollars (\$90,000) be and the same is hereby transferred from the appropriation made to the Department of Street Cleaning for the year 1904, entitled "Boroughs of Manhattan and The Bronx—Sweeping and Carting," to the appropriation made to said Department for the year 1904, entitled "Boroughs of Manhattan and The Bronx—Removal of Snow and Ice," the amount of said appropriation being insufficient; and

Resolved, That, pursuant to the provisions of section 546 of the Greater New York Charter, the Comptroller be and is hereby authorized to issue Revenue Bonds of The City of New York to the amount of ninety thousand dollars (\$90,000), redeemable from the tax levy of the year succeeding the year of their issue, the proceeds of which shall be applied to refund to said appropriation the amount hereby transferred therefrom.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented a communication from the President of the Borough of Manhattan, transmitting two communications from the architects of the New Hall of Records Building, submitting a specification, tracing and bid of \$2,771, of John Peirce, contractor, for performing work necessary to properly finish with marble about the register openings throughout the corridors and rooms of the above-named building, also specification, plan and bid of \$250 for furnishing and erecting two mahogany doors with marble trim on the seventh story of said building. Referred to the Comptroller.

The Secretary presented the following communication from the Court-house Board, requesting an appropriation of \$1,000 for incidental expenses:

COURT HOUSE BOARD, No. 45 WALL STREET, NEW YORK.

To the Board of Estimate and Apportionment:

The Court House Board, appointed pursuant to chapter 336 of the Laws of 1903, hereby requests the Board of Estimate and Apportionment to appropriate the sum of one thousand dollars (\$1,000) for the purpose of paying (1) the incidental expenses incurred by the Court House Board for the year 1903, amounting to \$246.43, and (2) the incidental expenses to be incurred in the year 1904, estimated to amount to about \$753.57.

Yours very truly,

COURT HOUSE BOARD,

By CHARLES A. PEABODY, Chairman.

Attest:

EDWARD W. SHELDON, Secretary.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 336 of the Laws of 1903, the Board of Estimate and Apportionment hereby appropriates the sum of one thousand dollars (\$1,000) for the purpose of paying the incidental expenses incurred by the Court House Board for the year 1903, amounting to two hundred and forty-six dollars and forty-three cents (\$246.43), and the incidental expenses to be incurred by said Board during the year 1904, estimated to amount to seven hundred and fifty-three dollars and fifty-seven cents (\$753.57), and that for the purpose of providing means therefor the Comptroller of The City of New York is hereby authorized, pursuant to the provisions of said chapter 336 of the Laws of 1903, to issue Special Revenue Bonds of The City of New York to an amount not exceeding one thousand dollars (\$1,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following communication from the Stenographer to the Board of Estimate and Apportionment, requesting a promotion:

BOARD OF ESTIMATE AND APPORTIONMENT—THE CITY OF NEW YORK,  
March 16, 1904.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—Will you kindly have placed upon the calendar for the next financial meeting of the Board, this, my application for promotion to the 13th grade—\$2,550 per annum.

Respectfully yours,

FRANK H. SIGERSON,  
Stenographer to the Board.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Stenographer to the Board of Estimate and Apportionment be fixed at the rate of twenty-five hundred and fifty dollars (\$2,550) per annum.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following communications from the Commissioner of Water Supply, Gas and Electricity, relative to the High pressure Fire Service:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13-21 PARK ROW,  
CITY OF NEW YORK, March 16, 1904.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, City of New York:

SIR—I transmit herewith report of Mr. Nicholas S. Hill, Jr., Chief Engineer for the Borough of Manhattan; also report of Mr. I. M. De Varona, Chief Engineer for the Borough of Brooklyn, on the proposed High Pressure Fire Service, together with accompanying maps, etc.

#### Borough of Manhattan.

Protected Area—In the Borough of Manhattan the Chief Engineer has selected as the district in which this system should be installed, the area bounded by Twenty-third street on the north; Broadway to Fourteenth street, to Fourth avenue and the Bowery on the east; Chambers street on the south; and the North river on the west; comprising about 1,350 acres.

A map (Drawing No. 1) is appended, showing the boundaries of this district, together with a preliminary plan of the trunk line and distribution systems of high pressure mains and provisional locations for the pumping stations.

Number of Pumping Stations—You will observe in the report that it is proposed to erect three pumping stations, definite locations of which cannot be fixed until the relative cost of land and other questions have been considered.

The subdivision of the pumping plant was deemed advisable on the ground that, should any one station be disabled, or be rendered ineffective during the course of a conflagration, two-thirds of the output of the plant, or double the present capacity of the Fire Department, would be available.

Use of Fire-boats—Provision has been made for the use of fire-boats in case of emergency, which emergency, however, is not anticipated.

Capacity of Pumping Plant—The plan submitted contemplates a capacity of 1,000,000 gallons per hour at each of the three stations, or a combined capacity of 3,000,000 gallons per hour. The pressure at the station will be 300 pounds. The minimum pressure at the hydrants is estimated at 200 pounds. It may be noted that the new service will furnish more than three times the water now supplied at one fire by the entire present fire equipment on a fourth alarm. The pressure will more than double that now maintained. Each station will furnish thirty-two streams through three-inch hose, with one and three-quarter-inch nozzles. Each hydrant will deliver approximately 2,600 gallons per minute, or five such streams.

It is proposed to place 1,010 hydrants in addition to those that are at present in the district outlined, or in other words, two hydrants are proposed for each street intersection, giving ten such streams as described. From the four corners of a block forty such streams may be played on a fire within the block. Forty streams are equivalent to about 20,000 gallons per minute, or 1,200,000 gallons per hour, which is thirty-three and one-third per cent. more water than the present fire apparatus can deliver at one time on any one building.

It is intended that by concentrating the fire-fighting forces, much time and the loss of pressure, due to friction in the hose, will be saved, and the operations of the officers and men facilitated.

Combined Use for Street Cleaning and Fire Protection—You will observe that Mr. Hill reports that it is ill-advised and impracticable to combine the system of fire protection with that of street cleaning.

Source of Energy—The sources of energy and the character of engines, or motors, namely, gas or electricity, used at the pumping stations, are fully discussed in the report solely for the purpose of showing the difference in cost of construction and maintenance, all of which can be determined upon at a later date.

In the original proposition the question of salt water for use in fire fighting was considered. We have found, however, upon investigation that the distributing mains of the Croton system are sufficient to supply the several pumping stations proposed with fresh water. As the use of fresh water will remove one of the chief objections to the proposed high pressure fire service, we include in our plans the use of fresh water, augmented by the salt water when necessary. This proposition does not in any way affect the original plans, but makes them more feasible and possible.

The amount of water used for fire purposes has been estimated to be about one-tenth of one per cent. of the amount of water consumed in both boroughs of Manhattan and The Bronx for one year.

Cost of Power—The estimated cost for the construction of the pumping stations, the laying of the mains for the distribution system complete, telephone system and contingencies, with the use of electrical motors will amount to \$3,950,400, and with the use of gas engines, \$5,293,200.

The allowance for contingencies may seem large, but, in view of the fact that the subsurface condition of the streets in the district outlined is congested, it is practically impossible to estimate in advance the actual cost of construction, and in view of this fact, we have allowed a sum of money which we think will probably be sufficient to meet obstructions which cannot be determined until actual construction is commenced.

#### Borough of Brooklyn.

Protected Area—In the Borough of Brooklyn it is proposed to install a high-pressure fire service in the following territories:

No. 1. The Coney Island District, covering about 147 acres.  
No. 2. The Dry Goods and High Office Building District, with an area of about 575 acres.

No. 3. The Lower Water-front District, with an area of 845 acres, making a total of 1,567 acres. Full descriptions of these districts are given in the report on pages Nos. 2 and 5, and in plates Nos. 1, 2 and 3.

Fire Streams Provided—For the Coney Island District provision has been made for 14 streams discharging 250 gallons per minute each, under a pressure at the engines of 150 pounds, and at the hydrants from 135 to 140 pounds. This

pressure would be sufficient to throw a stream of about 380 gallons per minute to an effective vertical height of about 90 feet, which would be ample fire protection for that district, especially taking into consideration the character of the buildings existing therein.

In the River Front and Dry Goods and High Office Building Districts provision has been made for from 25 to 30 streams discharging 500 gallons per minute each, with a pressure at the engines of about 300 pounds, corresponding to about 225 pounds at the most distant hydrant in the system.

Pumping Stations—At Coney Island Pumping Station, for considerations of safety, which are fully discussed in the report, gas engines will be adopted.

For the River Front and Dry Goods and High Office Building Districts, the pumping stations will be equipped with electrical plants, for reasons which are also detailed in the report.

Distribution—The hydrants will be so located in this district that the whole number of streams, representing the full capacity of the main plant—namely, from 25 to 30 streams—can be concentrated on any block within the district.

At Coney Island the hydrants will also be located so as to bring the full number of streams that can be supplied from the plant to bear on any block within the district.

Use of Fresh Water—It is proposed in Brooklyn, as well as in the Manhattan system, that fresh water will be normally used, it being shown in the report that "even assuming that a fire took place during the morning period of maximum daily consumption, water could be drawn during that period at the rate of about 20,000,000 gallons per day, at either station in Brooklyn, except Coney Island, without reducing the pressure in the trunk mains below the existing pressure," and that as the consumption decreased through the day, the available draught for fire purposes would, of course, correspondingly increase. In other words, the mains would readily furnish in twenty-four hours an amount of fresh water practically equal to that consumed for fire purposes in Brooklyn in the whole year of 1901 or 1902.

The contingency of being compelled to pump river water in either of the boroughs of Manhattan or Brooklyn is very remote.

In the Coney Island District it may be occasionally necessary to use salt water, as is explained in the report.

The plants will be so constructed that salt water may be used in case of emergency.

Estimated Cost—The estimated cost for the construction of the three stations, the laying of the mains and the maintenance of the plant in Brooklyn, is \$1,435,000.

The plans recommended in both the boroughs of Manhattan and Brooklyn may be completed in about one year from the beginning of the work.

Respectfully,

JNO. T. OAKLEY, Commissioner.

CITY OF NEW YORK—BOROUGH OF BROOKLYN,  
DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
OFFICE OF CHIEF ENGINEER,  
MUNICIPAL BUILDING, ROOM 25,  
BROOKLYN, March 14, 1904.

Hon. THOMAS F. BYRNES, Deputy Commissioner:

DEAR SIR—In accordance with the directions of the Commissioner transmitted to me by you, I beg to submit herewith final report on the installation of a high pressure fire system in this borough.

My preliminary report to you on this subject, under date of the 27th ult., was prefaced by a statement of the past and present conditions of the fire service in this borough, its deficiencies and the reasons therefor, the improvements proposed and under way, and results to be expected therefrom; it also gave quite a full outline of the main features of the high pressure fire system under discussion, with numerous data relating thereto, the advantages and limitations of the system, and approximate estimates of cost, maintenance and operation. Referring, therefore, to that preliminary report for the general discussion of the subject and for such facts and details as are not required for present purposes, I shall now confine myself to a more specific and brief presentation of the plan herein recommended, without needless elaboration.

#### Districts.

It has already been stated in the preliminary report above quoted that the high pressure high service should be limited—aside from special cases—to the commercially congested districts, where, in view of the large interests involved, it is of paramount importance to speedily bring a fire under control, so as to prevent its spread, and where, consequently the high pressure fire system provided a margin of safety of much greater value than the expense involved.

In this borough the districts in which the high pressure fire service can be advantageously installed are those enumerated in the preliminary report and shown in the accompanying map (Plate No. 1), i. e.:

1. Coney Island District (shaded green). Area about 147 acres.
2. Dry Goods and High Office Building District (shaded red). Area about 575 acres.
3. Lower Water Front District (shaded light brown). Area about 845 acres.
4. The section along the water front in the Eastern District, extending approximately from Division avenue to North Fourteenth street, and from the river front to somewhat beyond the line of Berry street, for which it may hereafter be advisable to make provision (shaded yellow). Area about 300 acres.

1. Coney Island District—Special conditions, widely differing from those in any other district within the borough, exist here. The main buildings are valuable frame structures of moderate height, covering the ocean front for a distance of approximately 3,000 feet, and in case of fire it must be checked almost immediately in order to prevent a general conflagration; consequently the fire risk is great, as well as the difficulty of obtaining insurance. Furthermore there are only two fire engines and one truck on the island, and within a period of forty minutes after the fire alarm no more than six engines could be brought into service. The installation of a high pressure fire service here would, therefore, prove particularly advantageous, affording an instantaneous supply when needed, and this at a reduced expense, since the plant is to be operated by the regular employees of the Sewage Station, thus reducing the cost for salaries and maintenance, while the cost of installation of separate fire stations will also be saved. The pressure provided under this plan would be from 135 to 140 pounds at the hydrants, which would be more than ample for all fire purposes, in view of the small height of the buildings in that section.

Plate No. 2 shows the boundaries of this district and the plan proposed for the same. In carrying this plan out the co-operation of the President of the Borough is essential, since the plant is to be installed at the Sewage Station, over which he has control, and the operation and maintenance of the pumping plant would be under the charge of the employees of that station, this Department being simply responsible for the laying, maintenance and repair of the fire mains.

2. Dry Goods and High Office Building District—This district extends from Fort Greene place on the east to the river front on the west, and from Orange and Tillary streets on the north to Dean street and Atlantic avenue on the south, following the lines shown on plate No. 1. The main features of the proposed plan for this district are shown on plate No. 3. There will be two 20-inch mains with 16-inch extensions and 12-inch and 8-inch laterals.

3. Lower River Front District—The boundaries of this district are shown in plates Nos. 1 and 3. It extends from the Erie Basin to the Navy Yard, with the exception of the portion included in the Dry Goods and High Office Building District, and is bounded in the southerly portion by Richards, Wolcott, Dwight, Columbia streets, Hamilton avenue, Hicks street, Rapelyea street, Henry street, Harrison street, Clinton street and Atlantic avenue. In the northerly section it is bounded by Tillary street, Navy street, East river and Doughty street, Hicks, Orange and Washington streets. The area of the northerly section is about 345 acres, and that of the southerly section about 500 acres, making, as previously stated, a total area of about 845 acres. The general plan for this district is also shown on plate No. 3.

4. If a sufficient appropriation could be obtained, it might be advantageous to provide the water front, extending from Division avenue to North Fourteenth street and from the river to somewhat beyond Berry street, with a high pressure fire system, but under present conditions it has not seemed necessary to further discuss this plan here. Should it be desired to extend the service to this district, the plan for the same can be readily prepared.

#### Water Supply.

Water Required for Fire Purposes—It was shown in the preliminary report already quoted that the total quantity of water used for fire purposes was relatively too insignificant to deserve consideration, being, in fact, so small as to fall well within the margin of error under any system of measurement adopted to determine the daily consumption. The figures given were, in Brooklyn, 27,000,000 gallons in 1901 and 25,000,000 gallons in 1902, and in the combined boroughs of Manhattan and The Bronx less than 40,000,000 gallons per year for several years, and probably less than 50,000,000 gallons per year on an average for the last ten years, which represents about 1-20 of 1 per cent. of the consumption both for Brooklyn and for Manhattan and The Bronx. It was also shown that our distributing reservoirs, even under extreme conditions, always held several times the total amount of water used for fire purposes in this borough in a whole year, on the basis of the figures reported for 1901 and 1902 given above, and that the main trouble had been due to the lack of sufficient distribution pipes and mains, hydrants, etc., to adequately deliver the water where needed in cases of fire.

Relative Advantages of Fresh and Salt Water—Popularly a "Salt Water System" is always considered as characteristically a high-pressure system, under which fire-engines would not be used, and a "Fresh Water System" as the type of a system under which fire-engines are required, which take the water from the mains at a low pressure, and, for expediency and brevity, these popular terms have been so used, although it is needless to add that if the water is available there is no difficulty in installing a fresh water high-pressure system. It has already been shown, in comparing the advantages of the use of salt and fresh water, that the saving in water is too trifling to deserve consideration. The main points to determine the relative advantages of the use of fresh and salt water are as follows:

In favor of fresh water—

1. The decreased damage from water in moderate fires, where the merchandise is not entirely destroyed.
2. The longer life of the pumps, mains, hydrants and other fixtures, and decreased effects of galvanic action where iron is used in combination with other metals.
3. Possible economy in the location in this borough of a reserve station.

The disadvantages attending the use of fresh water would be, on the other hand—

1. The probable suppression of the proposed sprinkling and washing of streets by using water from the high-pressure system.
2. The waste of fresh water from leakage or seepage from the mains while not under service.

After a full consideration of this question, I have decided to recommend a high-pressure system normally supplied with fresh water, but so designed that river water—and at Coney Island sea water—can also be used in cases of emergency.

Available Water Supply—As the primary requisite under this plan is an adequate amount of fresh water, careful computations have been made to determine the quantity which could be drawn from our trunk distribution mains without seriously affecting the pressure in the City, assuming that all the trunk mains now under contract were laid, and the results show that under these conditions, even assuming that the fire took place during the morning period of maximum daily consumption, water could be drawn, during that period, at the rate of twenty million (20,000,000) gallons per day at either station in the river front and dry goods and high office building districts, without reducing the pressure in the trunk mains below the existing pressure, and leaving an available pressure higher than the present one throughout the general distribution system, owing to the more adequate size of the lateral mains provided. As the consumption decreased throughout the day, the available draught for fire purposes would, of course, correspondingly increase. In other words, the mains would readily furnish in twenty-four hours an amount of fresh water practically equal to that consumed for fire purposes in Brooklyn in a whole year in 1901 and 1902. The improbability of our being compelled to use river water is thus apparent. In fact, the necessity for its use would only arise in case of a conflagration which would tax the capacity of the high pressure plant, in which case a point might be reached at which it would be advisable to cut off the fresh water supply from the high service station and to draw from the river. Plate No. 4 shows the mains from which the fresh water supply for the high pressure is to be furnished for the river front and dry goods and high office building districts. The change from fresh water to river water can be readily effected by the simple operation of gates on the suction mains within the engine house. Plate No. 5 shows the new mains now being laid, and remodeling of the distribution system in the dry goods district.

In the Coney Island District, with the proposed new mains, the present water supply would be sufficient for ordinary fire purposes; but in case of an extended conflagration it might prove inadequate and salt water would then have to be used. The pumps and fixtures for this system have, therefore, been specially adapted for service in such a contingency. On the completion of proposed connections with the Ridgewood system the fresh water supply at Coney Island will be ample for all probable fire service requirements, and there will be then few probabilities of our having to pump salt water under any circumstances.

Analysis of River Water and Salt Water—A thorough examination of the river front to find the sewer outlets, and numerous analyses of the river water and of the water at Coney Island have been made to determine their condition at various depths, distances from the shore and stage of the tide, to enable us to locate the intakes for the pumping stations and fire-boat connections, so as to guard, as far as possible, against contamination in the water that may have to be pumped from the river or at Coney Island. The results of these analyses have been tabulated, but, in spite of their interest and value, are here omitted for the sake of brevity.

#### Fire Streams Provided—Pressure.

At the Coney Island District provision has been made to supply 14 streams, discharging 250 gallons per minute, each under a pressure at the engine of 150 pounds and at the hydrants of from 135 pounds to 140 pounds apiece. This pressure will be sufficient to throw, with a 2½-inch hose and 1¼-inch ring nozzle, a stream of about 380 gallons per minute to an effective vertical height of about 90 feet, using 200 feet of ordinary hose, the pressure at the nozzle being about 50 pounds. Sufficient fire protection would thus be secured in this district, especially taking into consideration the character of the buildings existing therein.

For the river front and dry goods and high office building districts provision has been made to supply water for from 25 to 30 streams discharging 500 gallons per minute each, which would be at the rate of from 18,000,000 to 22,000,000 gallons in 24 hours. The pressure at the engines should be about 300 pounds, which would correspond to about 225 pounds at the most distant hydrant in the system. In Philadelphia, with only 230 pounds pressure at the pumps, a single 2-inch stream was thrown 315 feet horizontally and 230 feet vertically, which would be considerably above the highest building in the Borough of Brooklyn.

In Philadelphia permits have been refused for automatic sprinklers and special fire protection to be permanently connected with the high-pressure service, provision being simply made for risers, to which, in case of fire, the hose can be attached. It seems needless to discuss here this question, as it will be settled by the Fire Department, who, under the proposed plan, will take charge of and operate the high-pressure system (with the exception of the Coney Island District), this Department attending simply to the maintenance and repair of the mains.

#### Pumping Stations.

Number and Location—For the Coney Island District, the location of the Pumping Station adjoining the Sewage Plant has such obvious advantages under the contemplated plan of operation that it has not been deemed necessary to discuss any other site. It will be free from danger of interruption of the supply due to conflagration in the surrounding area.

In determining the most favorable location and number of stations required for the river front and dry goods and high office building districts, we had to consider the available water supply, location of sources of power to be used, freedom from interruption of service by possible conflagration, length of mains required to reach the district to be protected and value of the lands and buildings to be acquired. After a

full consideration of these details, and also of the difficulties attending the use of gas engines, to which reference will be made hereafter, it was considered advisable to establish two stations, i. e.:

The main station at the foot of Joralemon street, as shown in Plates Nos. 3 and 4, and a reserve station, with two-thirds the capacity of the main station, at the corner of Willoughby and St. Edward's streets, also shown in Plates Nos. 3 and 4.

The station at the corner of Furman and Joralemon streets is not very favorably located to obtain either gas or electric power; but, on the other hand, it is centrally situated in regard to the system of which it forms a part, the supply of fresh or salt water can be readily and cheaply secured, the character of the surrounding buildings diminishes the probability of a conflagration which would cripple the station, and the buildings and lands to be acquired can probably be purchased at a comparatively small cost.

The reserve station adjoins on the north the Fire Department Repair Buildings; on the east it fronts on Fort Greene Park; to the south it fronts on Willoughby street, with Raymond Street Jail on the other side of the street, and to the west it adjoins a substantial brick factory. This location was deemed desirable on account of its particular freedom from risk from any large conflagration and the facilities to supply therefrom the river front and dry goods and high office building districts.

With two stations thus located there should be little danger of interruption of the high pressure fire service from any cause.

Power and Engines—Steam being obviously unavailable, the choice of the power to be used lies between gas and electricity, and much consideration has been given to their relative advantages. If the first cost and expenses of maintenance and operation of the electric and gas plants were nearly alike, and the freedom from possible interruption of the service were also on a par, common prudence would dictate the equipment of the station with both electric and gas engines, thus minimizing the chances of a total crippling of the service, and I would have been glad to find that such an arrangement was practicable without incurring unwarranted expense. But the much larger cost of the gas plant and of the mains required to furnish that power to the station have compelled me to abandon the idea of having any gas engines at the main station and to recommend that both this station and the reserve station be entirely equipped with electric plants, relying for the protection of the service from interruption on two independent sources of supply and, to a certain extent, on the provision for a reserve station in addition to the main one. I had hoped that the Brooklyn Rapid Transit might also have agreed to furnish us electrical power, but in answer to my inquiry they stated that they were unable to do so. The electric power would be furnished by the Edison Company from the station located at the foot of Gold street, from which two independent underground feeders will carry the current to our main and reserve stations. The Gold street station is directly connected with the station at the foot of Sixty-fifth street, so that in case of a suspension of service at the Gold street station the current would still be furnished from the station at Sixty-fifth street. The location of the Gold street power station is shown in Plate No. 3, as well as that of the gas works from which gas could be furnished to our stations.

The following figures show the difference in cost between the gas and the electric plant and necessary mains and feeders for gas and electricity required to furnish power to the proposed stations:

#### Main Station.

Gas Plant—	
Cost of engines.....	\$126,500 00
Cost of pumps.....	110,000 00
Cost of building.....	100,000 00
Cost of gas-main (single main).....	35,000 00

Total..... \$371,500 00

To which, in case two gas-mains were adopted, there should be added 25,000 00

Making a total of..... \$396,500 00

Electric Plant—	
Cost of motors.....	\$60,000 00
Cost of pumps.....	25,000 00
Cost of building.....	75,000 00
Cost of electric feeder and conduit (duplex).....	35,000 00

Making a total of..... 195,000 00

Saving in electric plant (2 gas-mains)..... \$201,500 00

Saving in electric plant (1 gas-main)..... \$176,500 00

#### Reserve Station.

Gas Plant—	
Cost of engines.....	\$80,500 00
Cost of pumps.....	70,000 00
Cost of building.....	70,000 00
Cost of gas-main (single main).....	20,000 00

Total..... \$240,500 00

To which, in case 2 gas-mains were adopted there should be added.. 15,000 00

Making a total of..... \$255,500 00

Electric Plant—	
Cost of motors.....	\$36,000 00
Cost of pumps.....	15,000 00
Cost of building.....	60,000 00
Cost of electric feeder and conduit (duplex).....	5,000 00

Making a total of..... 116,000 00

Saving in electric plant (2 gas-mains)..... \$139,500 00

Saving in electric plant (1 gas-main)..... \$124,500 00

The saving in both stations, therefore, assuming a single gas-main and duplex electric feeders, would be..... \$301,000 00

And if two gas-mains were adopted, the total saving would be..... 341,000 00

At the Coney Island station there will be three gas engines each of 150 H. P. At the main station at the foot of Joralemon street there will be five electric motors of 750 H. P. each, and at the reserve station there will be three similar motors.

It is unnecessary to take into consideration the value of the electric current or gas used, since the main station would probably not be operated on an average more than two hours per month and the reserve station might not be used more than one or two hours per year.

At the Coney Island station the gas supply is located within five blocks, as shown on Plate No. 2, while the nearest electrical power station is at the foot of Sixty-fifth street, six miles distant. At present there are only overhead feeders, which, over such a length, are liable to cause interruption of the service, although the Edison Company state that they will have underground feeders installed by the middle of May. Even under these conditions, however, owing to the small amount of power required at this station it does not seem that the difference in cost in this case would outweigh the probable greater freedom from interruption of the service, especially as this difference would be decreased by about \$5,000, which is the excess of cost of the electrical conduit and feeders which would have to be laid by the electric company over the meter which the gas company would install. Even if the chances of accident to the electric feeders when placed underground be considered slight, the nearness of the gas station almost precludes the chances of such an interruption, and therefore for this district I have adopted gas engines.

Pumps—For the Coney Island station triplex plunger pumps will be used, as this type of pump will give practically a constant discharge, and can be readily geared so as to be connected directly to the gas engine. If a turbine pump was used, it would

be necessary to connect by means of belting or chain drive, and the high speed would make this form of power transmission undesirable. For the required service three pumps will be installed having a capacity of 1,200 gallons per minute each, or a total of 3,600 gallons per minute, which is equivalent to a total of about 5,200,000 gallons in 24 hours.

At the main station, at the foot of Joralemon street, there will be five turbines, each having a capacity of about 2,800 gallons per minute, which would be equivalent to slightly more than 20,000,000 gallons in 24 hours. These turbines would be directly connected with and operated by electric motors, the speed of which would be the same as that of the turbines when running at their rated capacity.

At the reserved station there will be three such turbines of the same capacity and similarly connected, so that the capacity of this station will be slightly over 12,000,000 gallons in 24 hours, or somewhat less than two-thirds that of the main station.

This combination of the electric motors and turbines is simple and comparatively inexpensive.

#### Distribution.

The mains will be of cast-iron, with lead joints of special design. The mains, specials and hydrants will be tested at the foundries to a pressure of about 600 pounds, and when laid they will be tested to a pressure of about 450 pounds. The hydrants will be so located in the dry goods and high office building district that the whole number of streams, representing the full capacity of the plant (i. e., from 25 to 30 streams) can be concentrated on any block within that district. At Coney Island the hydrants will also be located so as to bring the full number of streams that can be supplied by the plant to bear on any one block within the district. In the river front and dry goods and high office building districts the mains have been laid out so that there will always be two distribution mains leading to any district, and these are so cross-connected that in case of a break in the main only a short section may be put out of service. For this purpose a suitable number of gates will be provided. At Coney Island, the pressure being comparatively low and the area to be protected small, it has not been deemed so important to provide more than one delivery main (16 inches in diameter) from the station to Surf avenue. If this single main were replaced by two 12-inch mains the additional cost would be approximately \$3,200.

Plates Nos. 2 and 3 show the suggested location of the telephone boxes communicating with the high-pressure pumping stations, which have been so located that any fire in the protected district can be readily watched by a man stationed at one of these telephone boxes. Their definite location, however, will be determined by the Fire Department, which, presumably, will install and control these telephone boxes.

## FIFTH STREETS, AND IN TWENTIETH AND TWENTY-FIRST AVENUES.

The time allowed to complete the whole work will be fifty (50) working days.

The amount of security will be Three Thousand Five Hundred Dollars (\$3,500).

The bidder will state the price of each item or article contained in the specifications or schedules therein contained or thereto annexed, per hydrant, ton, cubic yard, or other unit of measure, by which the bids will be tested.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Bids will be compared and the contract awarded at a lump or aggregate sum.

Blank forms may be obtained at the office of the Department of Water Supply, Gas and Electricity, Borough of Manhattan, Nos. 13 to 21 Park row, and at the office of the Deputy Commissioner for the Borough of Brooklyn, Room 28, Municipal Building, Brooklyn.

JOHN T. OAKLEY,  
Commissioner.

Dated, MARCH 24, 1904.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1330, NOS. 13-21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

**SEALED BIDS OR ESTIMATES WILL BE** received by the Commissioner of Water Supply, Gas and Electricity at the above office until 2 o'clock P. M., on

**WEDNESDAY, APRIL 6, 1904.**

## Borough of Queens.

**FOR FURNISHING MATERIALS, BUILDING AND INSTALLING A PUMP ENGINE AT BAYSIDE PUMP STATION IN THE BOROUGH OF QUEENS.**

The time allowed to complete the whole work will be 200 days.

The amount of security required will be Five Thousand Dollars.

Bidders will state a price for the pumping engine with all appurtenances installed, complete in place, in the said pumping station, which price is to include and cover the furnishing of all materials and labor and the performance of all the work requisite or proper for the purpose, and the completing of all the above-mentioned work, of the materials and in the manner set forth, described and shown in the specifications and on the plans furnished for the work.

Blue prints of drawings must be submitted with the bids or estimates, showing the general arrangement and type of the pumping engine the bidder proposes to furnish; also the space required and the proposed location, showing steam pipe connections, and the same shall be approved by the Engineer before the bids or estimates are accepted.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Department, a copy of which, with the proper envelope in which to inclose the bid or estimate, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, may be obtained upon application therefor at the office of the Chief Engineer.

## BOROUGH OF BROOKLYN.

**NOTICE IS HEREBY GIVEN THAT,** IN accordance with section 432 of the Charter of The City of New York, the following petitions are on file and ready for inspection and will be considered by the Local Board of the Bay Ridge District at a meeting to be held in the office of the President of the Borough of Brooklyn, Room 11, Borough Hall, on Wednesday, April 13, 1904, at 2:30 P. M.:

No. 1. To construct sewers in Coney Island, Borough of Brooklyn, as follows:

In the Bowery, from Jones' Walk to Steeplechase Walk.

Steeplechase Walk, from the Bowery to a point about 225 feet southerly therefrom.

Kensington Walk, from Surf avenue to a point about 325 feet south of the Bowery.

Van Bergen Walk, from Surf avenue to a point about 325 feet south of the Bowery.

Buschman's Walk, from Surf avenue to a point about 325 feet south of the Bowery.

Schweickert's Walk, from Surf avenue to a point about 325 feet south of the Bowery.

Stratton's Walk, from end of existing sewer north of the Bowery to a point about 300 feet south of the Bowery.

Jones' Walk, from Surf avenue to a point about 550 feet south of Surf avenue.

Sheriden's Walk, from Surf avenue to a point about 700 feet south of Surf avenue.

Woolsey's Walk, from Surf avenue to a point about 425 feet south of Surf avenue.

Arcade Walk, from end of existing sewer south of Surf avenue to a point about 150 feet south of Casino Walk.

Jackman's Walk, from Surf avenue to a point about 400 feet south of Surf avenue.

New Iron Pier Walk, from Surf avenue to a point about 500 feet south of Surf avenue.

Belmer's Walk, from Surf avenue to a point about 450 feet south of Surf avenue.

In Maiden Lane Walk, between West Tenth street and Woolsey's Walk.

In Casino Walk, between West Eighth street and Arcade Walk.

In Swan Walk, from Steeplechase Walk to Tilyou's Walk.

**SEALED BIDS OR ESTIMATES WILL BE** received by the President of the Borough of Brooklyn at the above office until 11 o'clock A. M., on

**WEDNESDAY, APRIL 13, 1904.**

**No. 1. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR CONSTRUCTING A SEWER IN EAST NINETEENTH STREET, from Albemarle road to Beverly road.**

The Engineer's estimate of the quantities is as follows:

870 linear feet 18-inch vitrified stoneware pipe sewer, laid in concrete.

44 linear feet 15-inch vitrified stoneware pipe sewer, laid in concrete.

62 linear feet 12-inch vitrified stoneware pipe sewer, laid in concrete.

9 manholes.

7,000 feet, B. M., foundation planking.

The time allowed for the completion of the work and full performance of the contract is 30 working days.

The amount of security required is One Thousand Five Hundred Dollars.

A deposit of \$25 in cash, or certified check, will be required for each set of plans and drawings, which will be refunded upon the return of said plans and drawings to the Superintendent of Public Buildings and Offices, Room 29, Municipal Building, Borough of Brooklyn.

Bids will be compared and the contract awarded at a lump or aggregate sum for each contract.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, by which the bids will be tested. The bids will be compared and the contract awarded at a lump or aggregate sum for each contract.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained and the plans and drawings may be seen at the office

The amount of security required is Two Thousand Five Hundred Dollars.

**No. 2. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR CONSTRUCTING A SEWER IN FIFTY-FIFTH STREET, from Fifteenth avenue to New Utrecht avenue.**

The Engineer's estimate of the quantities is as follows:

90 linear feet 15-inch vitrified stoneware pipe sewer, laid in concrete.

1,380 linear feet 12-inch vitrified stoneware pipe sewer, laid in concrete.

15 manholes.

8,600 feet, B. M., foundation planking.

The time allowed for the completion of the work and full performance of the contract is 40 working days.

**No. 3. FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR CONSTRUCTING A SEWER IN CREAMER STREET, from Smith street to Court street, and OUTLET SEWER IN SMITH STREET, between Creamer street and Lorraine street.**

The Engineer's estimate of the quantities is as follows:

240 linear feet 30-inch brick sewer.

335 linear feet 12-inch vitrified stoneware pipe sewer, laid in concrete.

7 manholes.

7,000 feet, B. M., foundation planking and pile capping.

100 linear feet pile piles.

The time allowed for the completion of the work and full performance of the contract is 40 working days.

The amount of security required is One Thousand Six Hundred Dollars.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per linear foot, B. ## NOTICE OF PUBLIC SALE BY AUCTION.

ON TUESDAY, MARCH 29, 1904, AT 11 o'clock A. M., the Commissioner of Public Works will sell at public auction the following:

Sewer Repair Yard. North Portland avenue—

One (1) buckskin horse.

One (1) black horse.

About twenty (20) tons old iron.

Quantity of old hose.

One (1) old wagon.

Borough Hall—

Seventeen (17) old black walnut benches.

One (1) old clock.

One (1) old square desk.

One (1) lot of damaged chairs.

Wallabout Market—

About 250 feet of 2½-inch rubber hose.

Kings County Court-house—

Five (5) lots broken tables.

Three (3) lots old tiling.

Three (3) lots old stone.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to the lands, tenements and hereditaments required for the purpose of opening FIFTY-SECOND STREET, from former city line to the Old Road from Flatbush to New Utrecht, in the Thirtieth Ward, in the Borough of Brooklyn, of The City of New York, as the same has been heretofore laid out.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office in the office of the Law Department, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 6th day of April, 1904, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 8th day of April, 1904, at 3 o'clock P. M.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings of the Law Department of The City of New York, in the Borough of Brooklyn, No. 166 Montague street, in the Borough of Brooklyn, The City of New York, there to remain until the 15th day of April, 1904.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the northerly side of Fifty-second street, where the same is intersected by the former city line of Brooklyn, now dividing the Eighth and Thirtieth Wards; running thence northerly along said former city line to the centre line of the block between Fifty-second street and Fifty-first street; running thence easterly along the centre line of the blocks between Fifty-second street and Fifty-first street to the westerly side of the Old Road from Flatbush to New Utrecht; running thence southerly along the westerly side of the Old Road from Flatbush to New Utrecht to the centre line of the block between Fifty-second street and Fifty-third street; running thence westerly along the centre line of the blocks between Fifty-second street and Fifty-third street to the former city line, and thence northeasterly along the former city line to the point or place of beginning.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court-house, in the Borough of Brooklyn, in The City of New York, on the 25th day of April, 1904, at the opening of the Court on that day.

Dated Borough of Brooklyn, The City of New York, March 15, 1904.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title to SHERMAN STREET, from the southerly side of Reeves place (formerly Adams street) to the line dividing the land formerly of the Windsor Terrace Land Association from the land late of Thomas Murphy, in the Twenty-ninth Ward in Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, THE undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 25th day of May, 1903, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 27th day of May, 1903, and indexed in the Index of Conveyances, in Section No. 16, Blocks Nos. 5275, 5276, 5278, 5279, Commissioners of Estimate and Assessment, for the purpose of making a just and equitable estimate of the loss or damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened, to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of

land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned, Commissioners of Estimate and Assessment, at our office, in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 7th day of April, 1904, at 10 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated, Borough of Brooklyn, The City of New York, March 10, 1904.

CHARLES A. CONRADY,  
GEORGE O. EMMONS,  
Commissioners.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board of Department.

No bid shall be accepted from or contract awarded to any person who is in default of The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
