\* The number of patients under observation referred to the number of confirmed and symptomatic COVID-19 patients in DOC facilities, excluding hospitalizations. CHS stopped reporting the number of patients under observation on August 3rd, 2020. When the metric was developed, it was based on the number of people in housing areas with a COVID-19 designation. Because the spread of coronavirus in the jails has slowed, contagious disease units are no longer guaranteed to solely contain patients who have been diagnosed with, symptomatic, or exposed to the virus. As such, this metric is no longer an appropriate proxy for the number of infectious cases. To estimate the total number of current infectious cases in the jail, subtract metric 3 from metric 2 in [CHS's Local Law 59 report](#).

\*\* This metric includes hospitalized patients.

\*\*\* The number of CHS patient deaths does not include patients who may have been diagnosed and treated while in custody and died post-release.

## II. CHS and DOC Updates to BOC: People in Custody by COVID-19 Status\*

August 8 - August 14, 2020

\* The figures above reflect the number of confirmed COVID-19 patients who were currently incarcerated as of each date.

March 17 - August 14, 2020

\* The figures above reflect the number of confirmed COVID-19 patients who were currently incarcerated as of each date.

## II. CHS and DOC Updates to BOC: Staff with Confirmed COVID-19 (cumulative)

\* CHS and DOC report the cumulative total of staff members who have tested positive for COVID-19. CHS does not report the cumulative total of incarcerated people who have tested positive for COVID-19; therefore, it would be inappropriate to compare staff totals to the number of currently incarcerated patients with COVID-19 in slide 8.

### III. Housing: People in Likely Exposed but Asymptomatic Housing

**Number of People In Likely Exposed but Asymptomatic Housing,  
March 16th - August 14th, 2020**

\* DOC uses three COVID-19-related housing designations: (1) one for likely exposed but asymptomatic individuals, (2) one for exposed and symptomatic individuals, and (3) one for confirmed COVID-19 patients.

SOURCES: BOC analysis of daily DOC updates to BOC & DOC Inmates in Custody File, automated daily pull from the DOC Inmate Information System (IIS) at 11:00am and the housing units for exposed but asymptomatic patients identified by the Department as of the previous day (time of DOC reports ranging from 7:30pm to 9:00pm).

### III. Housing: People in Confirmed/Symptomatic Housing

Number of People In Confirmed/Symptomatic Housing, March 16 - August 14th, 2020

\* DOC uses three COVID-19-related housing designations: (1) one for likely exposed but asymptomatic individuals, (2) one for exposed and symptomatic individuals, and (3) one for confirmed COVID-19 patients.

SOURCES: BOC analysis of daily DOC updates to BOC & DOC Inmates in Custody File, automated daily pull from the DOC Inmate Information System (IIS) at 11:00am and the housing units for confirmed and symptomatic patients identified by the Department as of the previous day (time of DOC reports ranging from 7:30pm to 9:00pm).

### III. Housing: Percentage of People in Custody in Housing Areas with a COVID-19 Housing Designation

Percentage of People in Custody in Housing Areas with a COVID-19 Designation  
March 16 – August 14, 2020

<sup>1</sup> DOC uses three COVID-19-related housing designations: (1) one for likely exposed but asymptomatic individuals, (2) one for exposed and symptomatic individuals, and (3) one for confirmed COVID-19 patients. **Individuals housed in confirmed and symptomatic housing may include people who have refused testing, and those who are housed in the Communicable Disease Units (CDU) for non-COVID reasons. People housed in CDUs share no communal space. The total number of people in custody with confirmed active infections can be found in CHS’s COVID-19 Data Snapshots, which are posted on the [CHS homepage](#).**

SOURCES: BOC analysis of daily DOC updates to BOC & DOC Inmates in Custody File, automated daily pull from the DOC Inmate Information System (IIS) at 11:00am and housing areas for exposed but asymptomatic individuals, confirmed COVID-19 patients, and symptomatic patients reported by DOC for the previous day.

### III. Housing: Housing Density

Number and Percent of Open Cell and Dorm Units Above and Below 50% Capacity  
August 13, 2020

NOTES:

- 1) On Thursday December 17th, DOC provided the Board with data on the designed capacity of jail housing areas. Designed capacity reflects the maximum number of beds each housing area was designed to accommodate. DOC believes this metric serves as the best available proxy for housing area size. Accordingly, the capacity figures presented above are calculated by dividing housing area census by housing area designed capacity.
- 2) Dorm count includes modular dorm units in AMKC, RMSC, and RNDC.
- 3) This analysis excludes Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).

SOURCE: BOC analysis of DOC 5am census reports and DOC designed capacity data.

### III. Housing: Housing Density

Number and Percent of Open Units Above and Below 50% Capacity by Housing Category  
August 13, 2020

NOTES:

- 1) On Thursday December 17th, DOC provided the Board with data on the designed capacity of jail housing areas. Designed capacity reflects the maximum number of beds each housing area was designed to accommodate. DOC believes this metric serves as the best available proxy for housing area size. Accordingly, the capacity figures presented above are calculated by dividing housing area census by housing area designed capacity.
- 2) General Population units have fewer staffing needs than more specialized housing units such as PACE or MO units and present an opportunity to lower housing density to facilitate social distancing.
- 3) This analysis excludes Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).
