COMMISSIONERS OF ACCOUNTS.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,
ROOMS 114 AND 115, STEWART BUILDING,
NEW YORK, January 21, 1888.

Hon. ABRAM S. HEWITT, Mayor:

SIR—In the month of September last you requested us to make an examination of the affairs of the lessees of the Staten Island ferry so far as the City is concerned therein, and in so doing to co-operate with the Comptroller.

We have the honor to report, that upon the receipt of your letter we had a conference with Comptroller Low, and it was arranged that we should undertake a thorough examination of the books and vouchers of the lessees of the ferry from the time of the earliest lease to the latest practicable date. As soon thereafter as one of our assistants could be spared from the duties he was then employed in, we sent him to the general officers of the Staten Island ferries with instructions to examine in detail all the agents' daily reports from May, 1883, to compare the same with the books of the company and also with the returns made, from time to time, to the Comptroller, and report the results to us. Subsequently, another assistant was added, and the examination was brought down to the 1st of August, 1887. As the year was then approaching an end we determined it best to defer a report to you until after its close, so that we might be able to present a comparison of results which would embrace the calendar years 1884, 1885, 1886 and 1887. Having now completed the examination covering the full year 1887, we have the honor to submit our report.

STATEN ISLAND AND BAY RIDGE FERRIES.

These ferries are operated by the Staten Island Rapid Transit Railroad Company under two leases, viz.: one dated May 15, 1883, to the Staten Island Railway Company for a term of ten years, and for a consideration of five per centum of the gross receipts for ferriage that should accrue to said ferry, and in addition thereto the fixed sum of \$5,000 per year for the first five years, and \$10,000 per year for the remaining five years of such term of ten years for the use of the small pier west of Pier 1, East river, the bulkhead between said piers, and the structures thereon, etc. The points between which said ferry is operated are "from and to the foot of Whitehall street over and across the waters of New York Bay or Harbor to and from Staten Island." The lessees at their own cost and expense are to build, erect, make and furnish, and at all times during the term demised, well and sufficiently uphold, maintain and keep in good order and substantial repair the necessary bridges and floats and other fixtures at each landing place of said ferry and the necessary docks and slips at each landing place aforesaid, and during the whole of said term maintain and operate said ferries. They are to provide, maintain and navigate at least one good substantial steam ferry boat, to be approved by the Mayor and Comptroller (for the time being). Every boat must be furnished with effective fire apparatus and not less than 400 feet of hose, "and whenever required by the Chief of the New York Fire Department or either of his assistants, the said boat or boats shall and will attend at fires in the City of New York and act under the orders and directions of such Chief or some one of his assistants;" and for such service the lessee shall receive from the City a compensation of \$20 for every hour each boat is engaged therein. The ferry must be conducted and managed agreeably to such reasonable rules and regulations as from time to time during said term shall by any law, by-law, ordinance, order or resolution in Common Council convened or by the Legislature of the State be made or passed in relation to said ferry.

The number of trips in all seasons shall not be less than one round trip every hour from 6 A. M. to 7 P. M. The rates of ferriage are not to exceed those specified in a schedule annexed to the lease. For each foot passenger the maximum is 10 cents. No minimum rate is fixed. The lease was, by consent of the Comptroller, assigned to the Staten Island Rapid Transit Railroad Company, June 28, 1883. The lease will expire on the 1st of May, 1893.

The second lease is dated July 25, 1884, the Staten Island Rapid Transit Railroad Company being the lessee. The term is eight years and nine months from and after August 1, 1884. The consideration is fourteen and one quarter per centum of the gross receipts for ferriage, and in addition thereto the sum of \$10,000 per annum. The privileges or franchises granted by this lease are "to run ferries from and to Pier No. 1, East river, and the bulkhead easterly thereof, to and from Staten Island, and also to and from Bay Ridge, Long Island. The wharf property is described as "Pier No. 1, East river, together with the 81 and 4 feet of bulkhead between the easterly side of said pier and the westerly side of the small pier located between Piers Nos. 1 and 2, and also the westerly half of said small pier." The covenants contained in this lease are substantially the same as those contained in the first mentioned lease, with the following exceptions, viz.: The boats shall be such as the Mayor and Comptroller shall approve, and the number of daily trips shall be such as the Mayor and Comptroller may from time to time prescribe, but in no case and in no season of the year shall there be less than two round trips, one in the morning and one in the evening, on the Staten Island ferry, nor less than one round trip on each week day of the year on the Bay Ridge ferry.

There is another provision that the ferries are to be managed subject to such reasonable rules and regulations as, from time to time, may be made by the Common Council in relation to the number of boats to be employed and the rates of ferrage to be charged thereon, which rates shall not be greater than those contained in a schedule annexed to the lease, and when the ferrage is five cents or less the lessee must account to the City at a rate not less than five cents for each passenger. This lease, like the former one, will expire May 1, 1893.

For the purposes of this examination the lessees have allowed full access to their books and papers, and have courteously afforded us explanations when needed.

The books are now well kept and the underlying papers preserved for reference. Differences of comparatively insignificant amounts, pro and con, were found from month to month, resulting on final adjustment in a balance against the lessees of \$1,124.20 gross receipts, five per cent. of which, being the City's proportion, is \$56.21.

It will be observed that neither of the leases names a particular point as a terminus of the ferry on Staten Island. Formerly, there were two lines of ferry boats, starting from the same point in New York and running to within a short distance of the island, then separating, one line coasting up the north shore to all the principal towns, and the other coasting to the towns on the east shore, thus serving about eight different points. Passengers were then distributed on the island by stage or omnibus service.

In 1886 the several termini were consolidated by the lessees and a general terminus established at St. George, the nearest point to the New York terminus. From St. George, passengers are now distributed by rail to their respective destinations, either to the north or to the east shore, or to Tottenville and intermediate points. Trains wait the arrival of the ferry boats, and meet their departure.

The fare from New York to St. George is ten cents. If the passenger's destination is St. George the City gets five per cent. of ten cents, except where passengers are carried to the "Amusement Grounds," in which case the City gets five per cent. of eight cents. The amusement traffic is considered as extra business brought to the ferry by the Amusement Company, for which a rebate of twenty per cent. is allowed. The net rate for all such business is, therefore, eight cents. If the passenger goes over the railroad along either shore, ten cents covers both the ferrage and the railroad service. In such case the City receives five per cent. of five cents as the proportion due to ferrage; the other five cents is allotted to the railroad. If the passenger is destined to some point reached by the Staten Island Railway, whose terminus is Tottenville, the apportionment of gross receipts on through business (passenger and mail service) is made on the following basis, viz.: eighty per cent. to the lessees, twenty per cent. to the City. This basis of division was established by the lessees in September, 1886, and took effect from and after the 1st of October, 1886. Prior to the last-mentioned date no proportion of the receipts of that road was allotted to the City. We have ascertained that such receipts, from May, 1883, to September, 1886, amount to \$291,960.32. The City's proportion on the basis of the allotment made by the lessees, as above stated, is (one-fifth of that sum) \$58,392.06, five per cent. of which is \$2,919.60, which we find to be due to the City on business to the first of August, 1887, in addition to the sum of \$56.21, hereinbefore mentioned.

In the month of September, 1887, the lessees' return to the Comptroller showed \$34,526.52 gross receipts in that month from the East Shore line. We find the amount properly returnable to be \$35,026.52, a difference of \$500. The amount due to the City thereon (five per cent.) is \$25. Adding this to the before mentioned amounts to the debit of the lessees, the total balance found to be due the City is \$3,000.81.

There are about eight hundred persons to whom commutation and "half-fare work tickets" are sold. The basis of division on such business is one-half of the amount received, that is to say, fifty per cent. is deducted from the gross amount received by the lessees, and the percentage due the City is calculated on the remaining fifty per cent.

About ninety-eight per cent. of the Staten Island ferrage business is now done under the provisions of the "East Shore" lease of May, 1883, which, as before stated, fixes no minimum rate of ferrage. The lessees are, therefore, free to make such rates as they please, provided they do not exceed the maximum of ten cents.

The following monthly summary of the lessees' returns shows the progress and extent of the business accredited to the

East Shore Line.

On February 24, 1886, the Rapid Transit Railroad commenced operations, starting from St. George, a landing situated nearly midway between Tompkinsville on the east shore and New Brighton on the north shore. The result on North Shore business is that the receipts of that ferry dwindled from \$15,300.91 in December, 1885, to \$282 in December, 1886, and \$507.60 in December, 1887. This is the ferry that pays a rental of 14 1/4 per cent. on gross receipts. Only two trips a day are made from the North Shore ferry slips, barely enough to keep the lease alive.

The following table shows the receipts as returned by the lessees of the
Bay Ridge Ferry.

It will be seen that the receipts of this ferry for 1887 show a considerable increase over the two previous years. In view of the opening of new routes to Coney Island it can hardly be expected that the increase of ferry receipts by the Bay Ridge route can be maintained the present year.

The total amount paid into the City Treasury from all these ferries from May, 1883, to January 1, 1888, is \$153,579.32. The payments are made quarterly yearly, and the percentages for November and December, which amount to the additional sum of \$2,669.11, will not be due until the 1st of February next.

In the month of December, 1887, the lessees were running three boats to and from Staten Island, and one boat to and from Bay Ridge. The full summer equipment consists of eight boats and the winter equipment of five boats. Mr. Gannon, the Superintendent, testifies that during the past year about \$45,000 have been expended in repairs to the lessees' boats, and that after a most rigid examination by the inspectors of hulls and boilers the boats were found to be in proper condition. Mr. Gannon testifies that "they are absolutely safe in every respect." The Bay Ridge boat makes seven round trips per day. It is used exclusively for that service and does not cross to Staten Island. According to the time table of November 3, 1887, the three boats to and from that island make thirty-six trips per day down, except Sundays, when they make twenty-three. The number of return trips is thirty-five daily, except Sundays, and on Sundays twenty-three.

In the winter of 1886, according to the time table dated December 13 of that year, thirty round trips were made on week days and nineteen on Sundays. Before the completion of the Rapid Transit Railroad, about three hours were occupied by a boat running from the Battery to New Brighton, along the north shore to Elm Park, and returning to the Battery. Under the old mode of transportation, hourly service the year round was about the best that could be relied upon. During the commission hours there is now a twenty-minute service, both summer and winter. Trips for teams only are made daily, except Sundays, by the East Shore ferry as follows: New York for Tompkinsville, 10.50 A.M.; New York for Clifton, 12.15 P.M.; Clifton to New York, 5.20 A.M. and 3 P.M.; Stapleton to New York, 4.30 and 4.50 A.M.; Tompkinsville to New York, 11.30 A.M.

Mr. Gannon, in his testimony, says: "In the Van Clief complaint I believe it is stated that we are now making forty-five trips or thereabouts from New York, while under the old arrangement the same number were made. But they were made by running about twenty trips on each ferry, while to-day the forty to forty-five cover both shores. They ran two boats from here at the same time, one for each shore; we leave here forty to forty-five times a day for both shores, and distribute by train, two of which meet each boat, serving twelve points, and after the 1st of January will serve fifteen as against eight points served by the two ferries under the old arrangement. On the North Shore ferry, under the old arrangement they ran such boats as the "Sam Sloan" and the "Matteawan," that is, single end excursion boats on a ferry. They couldn't do a regular team business. In those days the heavy teaming from the North Shore came to the East Shore ferry at Tompkinsville; they never had suitable teaming facilities for the North Shore. They could take a single horse and wagon, but when it came to regular teaming they couldn't handle it."

Miscellaneous freight is carried over the ferry by express and distributed on the island by train. The express runs six or eight times a day. On the Staten Island Railway (the line to Tottenville) a train to which freight cars are attached is run every morning. On the North Shore freight is distributed twice a day—six o'clock in the morning and one o'clock in the afternoon. On the whole we find that the facilities and safety of travel between New York and Staten Island have been much improved under the present management. The complaints that have been made from time to time, unjust though they sometimes may have been, no doubt have had the effect to stimulate the lessees to a better service. We know of no good reason for complaint now, unless it be in the matter of freight facilities. A more frequent service would be acceptable to some of the residents of Staten Island, who, while not wishing to complain, have made the suggestion to us. No formal complaints of any kind against the management have been brought before us, although opportunity was offered for that purpose by formal notice to Mr. Van Clief, who claimed to represent the signers of a certain protest or petition which he informed us was submitted to you. Two meetings were appointed for the purpose of hearing Mr. Van Clief and his petitioners, or any of them, but they failed to put in an appearance.

In regard to published statements alleging overcrowding of boats, Mr. Gannon testifies as follows: "On some occasions during the summer, not to exceed a half dozen, however, we have carried as many as twelve hundred people on a trip, which was not excessive for boats having four cabins and spacious saloon. Our average during the busiest season was less than five hundred. I will say, in connection with that, that during the years 1886 and 1887, ending September 30, 1887, we carried on all lines in the neighborhood of seven million passengers and injured none. There was no time during our busy season that we had a panic, and at no time was it more uncomfortable on our boats than was the case on the Iron Steamboats leaving this harbor for Coney Island and Rockaway. There is no ferry boat or excursion boat running in this harbor, excepting those of the Iron Steamboat Company, that are as large as ours. The Iron Steamboat Company is allowed to carry in their outside business two thousand passengers on boats 226 feet long and 32 feet wide, while our boats measure from 202 feet to 209 feet and 33 to 35 feet wide. I do not think that we carried two thousand people on any one trip this year."

We have examined the printed rules and regulations established by the lessees in effect September 1, 1887. The first rule, which is a fair specimen of the whole, is as follows: "The safety of passengers is of the first importance; the regularity and punctuality of the trains and boats is next to be considered, and to these all work must be subordinate."

The condition of the ferry-house as regards repair appears to be as good as can reasonably be expected of such a ram-shackle structure. It is too small to accommodate the business which flows through it, is unsightly, and altogether a disgrace to the City. The slips are also dilapidated and inadequate in point of size. Two new ferryboats are now in process of construction, one being nearly completed, but they cannot be used until the slips are reconstructed. It is claimed to be the purpose of the lessees to rebuild the ferry-house and slips. They have caused plans to be prepared with the intention of submitting them to the City at an early date, when they hope to come to some arrangement with the City by which they may be reasonably indemnified for the expenditure to be incurred in such rebuilding in case they should not be the successful bidders at the next letting of the property at the expiration of the present leases in 1893.

In conclusion, we beg leave to say in regard to the criticisms that have been made touching the validity of the North Shore and Bay Ridge lease, which franchises were sold as a whole and not separately, that the questions of law involved therein are now before the Court of Appeals for decision.

As to the system of collecting, securing and accounting for the revenues of the lessees, and as to the general system of books and accounts, we have only to say that they have been so improved by the present management as to be worthy of commendation. Upon the accession of Mr. Gannon to the office of General Superintendent objectionable methods were abolished and an approved system of modern railroad accounting, so far as applicable, substituted therefor. Mr. Gannon is an able and experienced official, capable of performing all the duties incumbent upon him. Under the prevailing system of rentals based on percentages of gross receipts, there must always be great uncertainty on the part of the City as to whether it is receiving its proper quota—a question which can be accurately determined only by a laborious research covering all the details of the company's business. It would, in our opinion, be far preferable if a fixed annual rental could be substituted for the percentage system.

The testimony of Superintendent Gannon is herewith inclosed.

Very respectfully,

W. P. SHEARMAN, } Commissioners of

AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Wednesday, January 18, 1888, at 3 o'clock P. M.

Present—Commissioners Spencer, Dowd, the Commissioner of Public Works, and Commissioners Baldwin, Barnes and Fish; also Chief Engineer Church, Deputy Chief Engineer Rice and Consulting Engineer Peley, and Chief Engineer Birdsall, of the Department of Public Works.

The minutes of the stated meeting of January 11, 1888, were read and approved. The Committee of Finance and Audit reported their examination and audit of Vouchers Nos. 3274 to 3289, inclusive, being estimates for work done by contractors on the New Aqueduct during the month of December, 1887, and of bills contained in Vouchers Nos. 3294 to 3308, inclusive; and, on motion of Commissioner Dowd, the same were approved and ordered certified to the Comptroller for payment.

The Committee on Construction submitted a communication received from the Chief Engineer, recommending the promotion of certain employees in the Engineer Corps of the Aqueduct Commissioners, and recommended the adoption of the following resolution:

Resolved, That upon the recommendation of the Chief Engineer the following employees in the Engineer Corps are promoted, as follows, they having been certified to by the Civil Service Commission as being eligible for such promotion, and owing to their length of service in the Engineer Corps:

C. P. Bonnett, from Transmittan to Assistant Engineer.

C. P. Karr, from Draughtsman to Assistant Engineer.

L. P. DeLuze, from Leveler to Assistant Engineer.

Adopted.

Also submitted an application from L. C. Easton, Transmittan, for two months' leave of absence from January 23, 1888, without pay, said application having the approval of Division Engineer Gowen, Principal Assistant Engineer Miller and the Chief Engineer, and recommended the adoption of the following resolution:

Resolved, That Transmittan L. C. Easton is hereby granted two months' leave of absence from January 23, 1888, without pay. Adopted.

Also recommended the adoption of the following resolution:

Resolved, That upon the requisition of the Chief Engineer for four Axemen, the following-named persons are hereby appointed Axemen, their pay to commence from the date of their assignment to duty:

John J. Clabby.

Henry C. McCord.

Martin Abbott.

John H. Curran.

The resolution was adopted, Commissioner Dowd not voting.

A communication was received from the Chief Engineer, recommending the appointment of nine Inspectors of Masonry in the place of those who have resigned or have been suspended, and, on motion of Commissioner Barnes, the same was referred to the Committee on Construction, for examination and report.

Also reported the resignations of Inspectors Thomas J. Cockerill and J. E. Fitzgerald, and recommended that the same be accepted, to take effect from January 16, 1888, and, on motion of Commissioner Barnes, said resignations were accepted as of that date.

A report was received from President Spencer upon the condition of the work of tunneling under the Harlem river, and stating that its condition and the condition of the other work encouraged the belief that the New Aqueduct may be completed from Croton Lake to One Hundred and Thirty-fifth street and Convent avenue before the close of the present year; also, stating his opinion, that the pipe-line from One Hundred and Thirty-fifth street to the Central Park Reservoir will require another year for its construction, as will also the East Branch and the Muscote dams and reservoirs.

In connection therewith a report was received from the Chief Engineer upon the condition of the tunnel under the Harlem river.

The reports were read, and, on motion of Commissioner Barnes, were ordered filed.

The Commissioners then adjourned.

J. C. LULLEY, Secretary pro tem.

The Board of Public Charities and Correction reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in section 64, chapter 410, Laws of 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Any bidder for the contract will be made to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; and that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Commission, Head of a Department, Chief of a Bureau, Deputy thereof, or any other officer or freholder of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested in the estimate, the verification must be made by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that the contract has been awarded to the person or persons to whom the same is awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he is entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept, but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be re-advertised and let as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

The person or persons to whom the contract may be awarded will be required to attend at the office of the said Department, with the sureties offered by him or them, and execute the contract within five days after written notice that the same has been awarded to his or their bid or estimate, and that the sureties offered by him or them have been approved by the Comptroller; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be re-advertised and let, and so on until the contract be accepted and executed.

N. B.—The prices must be written in the estimate, and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items called for in the specifications, or which contain bids for items not called for therein. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the Department of Public Parks to reject any or all estimates which it may deem prejudicial to the public interest. No estimate will be accepted from, or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the National or State Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be in cash, but must be handed to the officer or clerk of the Department who has charge of the bids, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such de-

posits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are required to state in their estimates, under oath, their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, they shall distinctly state the fact; also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates or in any portion of the profits thereof.

The estimate must be verified by the oath, in writing, of the party making such estimate that the several matters therein stated are in all respects true. Where more than one person is interested in the estimate, the verification must be made by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he is entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety or otherwise; that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be determined by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

Bidders will be required to complete the entire work to the satisfaction of the Commissioners of the Department of Public Parks, and in substantial accordance with the specifications.

The amount of the security required is Three Thousand Dollars.

Bidders are informed that no deviation from the specifications will be allowed unless under the written permission shall previously have been obtained from the Commissioners of the Department of Public Parks.

Blank forms of proposals and form of agreement, including the specifications, and showing the mode of payment for the work, can be obtained on application to the Secretary at this office.

All of the gravel to be furnished and delivered shall be of the kind generally known as Roa Hook Gravel, and equal in all respects to that taken from the gravel bank situated on the east side of the Hudson river, north of Peckskill, and known as the Roa Hook Gravel Bank. It shall be of the best quality of gravel, clean, free from loam and dirt, and in grade such as will pass through a screen with a two-inch mesh diagonal measure, but not to contain more than fifteen per cent. and not less than ten per cent. of material that will pass through a screen with a mesh having a diagonal measure of one thirty-second of an inch.

The prices are to cover the furnishing and delivering, also the expense of dockage, hauling and all necessary labor, and the performance of all the work as set forth in the specifications and form of agreement hereto annexed.

The estimate of the work to be done and the quantity of gravel to be furnished and delivered is as follows:

The contractor will be required to deliver the above material in such quantities and on the line of such road in the Central Park and on Riverside Park and avenue as may from time to time be designated.

Bidders must satisfy themselves by personal examination of the location of the road and avenues where the material is to be delivered; also as to the distances from any pier or dock, or depth of water where such material can be landed, and shall not at any time after the submission of an estimate, dispute or complain, nor assert that there was any misunderstanding in regard to the places, or distances, or depth of water to be done.

Bidders will be required to complete the entire work to the satisfaction of the Commissioners of the Department of Public Parks, and in substantial accordance with the specifications.

The person or persons making any bid or estimate shall present the same in a sealed envelope, and read "Bid or Estimate for Gravel," with the name or names of the person or persons presenting the same, and the date of presentation, at the said office, on or before the day and hour above named, at which time and place the bids will be publicly opened by the head of said Department and read, and the award of the contract will be made as soon thereafter as practicable.

The delivery to commence at such time as the Commissioners of the Department of Public Parks may designate.

N. B.—The prices must be written in the estimate, and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items called for in the specifications, or which contain bids for items not called for therein. Permission will not be given for the withdrawal of any bid or estimate, and the right is expressly reserved by the Department of Public Parks to reject any or all estimates which it may deem prejudicial to the public interest. No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the sum required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimates, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; and if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are required to state in their estimates, under oath, their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, they shall distinctly state the fact; also that such estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all respects true and without collusion or fraud; and also that the bidder is a member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the success of the bid, in which it relates or in any portion of the profits thereof.

The estimate must be verified by the oath, in writing, of the party making such estimate that the several matters therein stated are in all respects true. Where more than one person is interested in the estimate the verification must be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the bidder making the estimate, they will, in its being so awarded, become bound as his sureties for his faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimate amount of the work by which the bidder is tested. The commissioner of public works shall, from time

to time, establish scales of rents for the supplying of water, which rents shall be collected in the manner now provided by law, and which shall be apportioned to different classes of buildings in said city in reference to their dimensions, values, exposure to sun, ordinary uses for dwellings, stores, shops, private stables and other common purposes, number of families or occupants, or consumption of water, as near as may be practicable, and modify, alter, amend and increase such scale from time to time, and extend to other descriptions of buildings and establishments. All extra charges for water shall be deemed to be included in the regular rents, and shall become a charge and lien upon the buildings upon which they are respectively imposed, and, if not paid, shall be returned as arrears to the clerk of arrears. Such regular rents, including the extra charges above mentioned, shall be collected from the owners or occupants of all such buildings respectively, which shall be situated upon lots adjoining any street or avenue in said city in which the distributing water-pipes are or may be laid, and from which they can be supplied with water. Said rents, including the extra charges aforesaid, shall become a charge and lien upon such houses and lots, respectively, as herein provided, but no charge whatever shall be made against any building in which a water-closet, or urinal, or other fixture, is not provided in this act. In all such cases the charge for water shall be determined only by the quantity of water actually used as shown by said meters.

The said commissioner of public works is hereby authorized to prescribe a penalty not exceeding the sum of five dollars for each offense, for permitting water to be wasted, and for any violation of the reasonable rules as he may, from time to time, prescribe for the prevention of the waste of water; such fines shall be added to the regular water rents.

Steamers taking water other than daily, one cent per ton (Custom House measurement).

Water supplied to sailing vessels and put on board, twenty-five cents per hundred gallons.

All matters not hereinbefore embraced are reserved for special contract by and with the Commissioner of Public Works.

HYDRANTS, HOSE, TROUGHS, FOUNTAINS, ETC., ETC.

No owner or tenant will be allowed to supply water to another person or persons.

All persons taking water from the City must keep their own service-pipes, street tap, and all fixtures connected therewith, in good repair, protected from frost, at their own risk and expense, and shall prevent all waste of water.

The use of hose to wash coaches, omnibuses, wagons, rickshaws, or other vehicles or horses, cannot be permitted.

No horse-troughs or horse-watering fixtures will be permitted in the street or on the sidewalk, except upon a license or permit taken for that purpose. All licenses or permits must be annually renewed on the first of May. Such fixtures must be kept in good order and the water not allowed to drip or waste by overrunning the sidewalk or street, or to become dangerous in winter by freezing up and about snow-troughs or fixtures.

No hydrant will be permitted on the sidewalk or in the front area, and any hydrant standing in a yard or alley, at any time, or for any purpose, shall be removed or, if not removed, shall be shut off in addition to the penalty of five dollars imposed.

Fountains or jets in hotels, porter-houses, eating-rooms, confectioneries or other buildings are strictly prohibited.

The use of hose for washing sidewalks, stoops, areas, house-fronts, yards, court-yards, gardens, and about buildings is prohibited. When such hose is provided with wells, special permits will be issued for the use of hose, in order that the police or inspectors of this department may understand that the permission is not for the use of hose for water.

Opening fire-hydrants to fill hand sprinklers or other vessels will not be allowed.

The penalty for a violation of any of the preceding rules and regulations shall be five dollars for each offense, and if not paid when imposed will become a lien on the premises in like manner as all other charges for unpaid water rates.

By order,
JOHN NEWTON,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
ROOM NO. 31 CHAMBERS STREET,
NEW YORK, June 21, 1887.

PUBLIC NOTICE AS TO WATER RATES.

PUBLIC NOTICE IS HEREBY GIVEN THAT in compliance with the provisions of chapter 559, Laws of 1887, amending sections 350 and 351 of the New York City Code, and in accordance with the following changes made in charging and collecting water rates:

1st. All extra charges for water incurred from and after June 9, 1887, shall be treated, collected and returned in the same manner as regular rents have heretofore been treated.

2d. In every building where a water meter or meters are used, or shall hereafter be used, the charge for water by meter measurement shall be the only charge against such building, or such part thereof as is supplied through meter.

4th. A penalty of five dollars (\$5) is hereby established, and will be imposed in each and every case where the rules and regulations of the Department prohibiting the use of water through hose, or in any other wasteful manner, are violated, and such penalties will be entered on the books of the Bureau against the respective buildings or property, and, if not collected, be returned in arrears in like manner as other charges for water.

D. LOWBER SMITH,

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
ROOM NO. 31 CHAMBERS STREET,
NEW YORK, November 10, 1886.

NOTICE TO CROTON WATER CONSUMERS.

NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worn-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore given to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of waste of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will be allowed for any portion of one year.
