Jamaica, L. I., January 20, 1904.

Mr. CHAS. V. FORNES, President, Board of Aldermen, New York City:

Sir—While the citizens of Jamaica and vicinity are fighting for the reinstatement of the Jamaica avenue and Fulton street trolley service (surface), may I solicit the attention of the Board of Aldermen to the injustice of two fares being collected within the limits of the Greater New York?

The Rapid Transit trains from the bridge to Jamaica, via the Atlantic avenue line, charge a five-cent fare from the bridge to Franklin avenue, and collect a second fare from Franklin avenue to points beyond that toward Jamaica, and the reverse operation from Jamaica to Brooklyn Bridge.

Respectfully,
WM. CADZOW.

No. 114.

Board of Aldermen, City of New York—In the matter of the application of the Harlem Transfer Company.

To the Honorable the Board of Aldermen of The City of New York:

I.

The petition of the Harlem Transfer Company respectfully shows that your petitioner is engaged in business as a receiver and forwarder of freight cars and freight for various transportation companies, and that its principal place of business is situated in the Borough of The Bronx on the Harlem river, between the Mott Haven canal and Railroad avenue, shown on annexed diagram and colored blue.

II.

That your petitioner is the lessee of the bulkhead at the foot of Railroad avenue, adjoining the principal place of business of your petitioner, which bulkhead is shown on the diagram and colored red, and that said lease expires June 1, 1912.

III.

That the west side of Railroad avenue, south of One Hundred and Thirty-fifth street, lies along and fronts on the Harlem river.

IV.

That the said Railroad avenue, south of One Hundred and Thirty-fifth street, is wholly unused, except by your petitioner, which is a domestic corporation duly incorporated under the laws of the State of New York.

V.

That your petitioner desires permission to lay spur tracks from said bulkhead, colored red, along the unused part of Railroad avenue, south of One Hundred and Thirty-fifth street, to connect with tracks in petitioner's yard (colored blue), with the right to handle and move all kinds of freight and freight cars thereon by horse or other power for a period of time coterminous with petitioner's present lease of said bulkhead, and will pay The City of New York as a rental for such privilege the sum of fifty cents (\$0.50) per running foot per annum for each double line of steel rails, otherwise known as each railroad track, or such other rate as may be fixed by the Board of Estimate and Apportionment.

Wherefore your petitioner prays that a resolution be passed by your Honorable Body permitting and authorizing your petitioner to construct such spur tracks from said bulkhead along said avenue.

No member shall leave during a meeting without permission of the President of the Board.

CHAPTER VI.

Duties of the Clerk.

13. It shall be the duty of the Clerk to have the journals containing the proceedings of each meeting printed and copies thereof and of the calendar in the next paragraph referred to placed on the files of and mailed to the President and other members within five days after such meeting; also to have the proposed ordinances, resolutions and other documents placed on the files of the President and other members in the order of their numbers. All reports of committees submitted shall constitute a part of the proceedings of each meeting.

Said list shall be known as the Calendar and shall include all vetoes, messages from the Mayor and other City and borough officials and departments that have been laid over for future consideration, special orders and general orders, and any other matters which have been presented to the Board and which remain undetermined. In case any matters on the calendar of a particular meeting are not acted upon, they shall be continued upon the calendar of the next meeting and of each succeeding meeting, in their order, until finally disposed of. The calendar shall state, in regard to any ordinance or resolution, the vote required to pass it, and if it be a matter referred to in section 48 of the Charter, then also the day when the time limitation in said section contained will expire. He shall place copies of the calendar on calendar files on the desks of the members and keep copies on file in his office, the same as other documents. He shall also see that all proposed ordinances and resolutions are acted upon in the order in which they are reported and stand upon the calendar, unless otherwise directed by the Board in the manner hereinafter provided.

15. The certificate of the Clerk of the Board shall be attached to every proposed ordinance or resolution, to the effect that the same has been duly passed or is deemed to have been duly passed by a vote, as required by the provisions of the Charter of The City of New York, and he shall transmit the proposed ordinance or resolution by message to the Mayor.

They shall also discharge such other duties as are directed by the President.

CHAPTER VIII.

Committees and Their Duties.

20. The standing committees shall be as follows—
To consist of nine members each: Finance, Law and Legislation, Railroads, Bridges and Tunnels, Streets, Highways and Sewers, Docks and Ferries, Water Supply, Gas and Electricity, Parks and Salaries and Offices.

To consist of seven members each: Affairs of Boroughs, Rules, Public Buildings and Markets, Public Education, Public Health, Penal Institutions, Public Charities, Privileges and Elections, Police, Street Cleaning, Buildings, Fire, Public Printing, Printed and Engrossed Ordinances and Resolutions, and Public Letting.

21. Committees shall report, in writing, on all matters referred to them, with a brief statement of facts and their opinion in relation thereto, and a resolution or ordinance proposing the necessary action by the Board. The report itself shall not be subject to amendment. Every report shall state the time when the subject matter of such report was referred to the committee by the Board, and the action, if any, taken by the committee pursuant to any instructions of the Board. Every report shall lay over until the next regular meeting, unless otherwise ordered by a majority vote of all the members present.

22. It shall require a three-fourths vote of all the members present to discharge a committee from further consideration of any matter referred to such committee. No matter that has been referred to a committee shall be acted upon by the Board until the committee has reported thereon or has been discharged. A committee, however, to whom there shall have been referred any such matter as is specified in section 48 of the Charter, or any matter in regard to which any law or ordinance fixes a time limit, for the consideration thereof by the Board, shall at the last regular meeting of the Board preceding the expiration of such time limit, be deemed to be discharged from the further consideration thereof. A committee which shall have been instructed to report at a certain meeting shall be deemed to be discharged from further consideration of the matter referred to it unless it shall report

at such meeting or shall receive from the Board a further extension of time to report.

(Take in section 48 of the Charter.)

CHAPTER IX.

The Introduction and Passage of Ordinances and Resolutions.

23. All enactments shall be by ordinance, so far as practicable.

24. Every proposed ordinance or resolution introduced shall, on its introduction, be referred by the President to a standing or special committee to consider and report thereon, unless otherwise ordered.

25. There shall be two classes of unfinished business, known respectively as General Orders and Special Order. All motions, resolutions, ordinances, reports of committees, etc., not finally disposed of on the legislative day introduced, shall be placed on the list of General Orders, unless otherwise ordered.

26. The list of General Orders shall be prepared in the numerical order of their introduction. Each Alderman, in his alphabetical turn, may call up two general orders.

27. Any ordinance or resolution may, upon introduction, be immediately considered, provided such action is not in conflict with the provisions of the Charter. shall not be so immediately considered except by unanimous consent. Other ordinances or resolutions shall not be so immediately considered except by the consent of a majority of the members present. In the event that immediate consideration is proper, the proposed ordinance or resolution shall be read, and shall be subject to amendment and debate before being adopted.

(Take in Section 30 of the Charter.)

28. When a special order is under consideration it shall take precedence of any other special order set for a subsequent hour of the same day, but such other special order may be taken up immediately after the previous special order has been disposed of. Any such matter as is specified in section 48 of the Charter shall at the last regular meeting of the Board preceding the expiration of the time limit in said section contained be deemed to be a special order and shall take precedence of all other special orders. Such matters among themselves shall take precedence according to their order of introduction.

29. When any proposed ordinance or resolution requiring the concurrence of two-thirds, three-fourths, four-fifths or five-sixths of the members, as provided in the Charter is under consideration, such concurrence shall not be requisite except on the question of its final passage.

(Take in section 39 of the Charter.)

30. All proposed ordinances and resolutions may be reconsidered by a vote of the majority of all the members present and voting; nor shall any proposed ordinance or resolution be referred to a special committee with power to report complete, unless such proposed ordinance or resolution has previously been read through and considered by sections.

All ordinances introduced shall be in writing. Ordinances which are amendatory of or repeal any existing law, code or ordinance, or any part of either thereof, shall contain in parenthesis the part amended or repealed and shall have the new part which is to be inserted marked by underscoring. When the ordinance is printed in the minutes the new part shall be in italics instead of underscored.

CHAPTER X.

Motions and Their Precedence.

31. When a question is before the Board, only the following motions shall be received, and such motions shall have precedence in the order stated here, viz.: (1) for adjournment; (2) for a call of the Board; (3) to lay on the table; (4) for the previous question; (5) to postpone indefinitely; (6) to postpone to a day certain; (7) to refer; (8) to amend.

The motion to adjourn, or for a call of the Board, or to lay on the table, shall be decided without debate, and shall always be in order. Upon motions not debatable no member shall be allowed to explain his vote or give his reasons for asking to be excused.

32. All motions shall be reduced to writing, if desired by the President or any member of the Board, delivered to the Clerk, and read before the same shall be debated; any motion may, by general consent, be withdrawn at any time before decision or amendment.

If the question in debate contains several points, a member may have the same divided, provided the sense will admit thereof.

A motion to postpone, commit or refer, until it is decided, shall preclude all debate of the main question.

When a blank is to be filled, and different sums and time shall be proposed, the question shall be first taken on the highest sum and the longest time.

33. When a question has once been put and decided, it shall be in order for any member of the Board who voted in the majority to move for the reconsideration thereof; but no motion for the reconsideration of any vote shall be in order after the proposed ordinance, resolution, message, report, amendment, or motion upon which the vote was taken, shall have gone out of the possession of the Board; nor shall any motion for reconsideration be in order unless made on the same day on which the vote was taken, or on the legislative day next succeeding. But when a proposed ordinance or resolution shall have been recalled from the Mayor, a motion for reconsideration may be made at any time thereafter, and all resolutions recalling a proposed ordinance or resolution from the Mayor shall be regarded as privileged. No vote shall be reconsidered upon either of the following motions:

To adjourn.

To lay on the table.

CHAPTER XI.

Questions of Order.

34. When a roll call shall have been ordered the absentees shall not be called more than once on the same motions unless requested by at least five members.

35. All questions relating to the priority of business shall be decided without debate.

When the reading of a paper (other than a petition) is called for, and the same is objected to by any member of the Board, it shall be determined by a vote without debate.

36. When a point of order is raised, the member speaking shall take his seat until the President shall have determined whether he is in order or not. Every question of order shall be decided by the President, subject to an appeal by any member of the Board. No second appeal shall be determined until the original appeal shall have been decided. If a member shall be called to order for words spoken, the words excepted to shall be immediately taken down in writing by the Clerk.

CHAPTER XII.

Attendance of Quorum—Call of the Board.

37. If at any time during a session a question shall be raised by any member of the Board as to the presence of a quorum, the presiding officer shall forthwith direct the Clerk to call the roll, and shall announce the result, and such proceeding shall be without debate; but no member, while speaking, shall be interrupted by raising the question of a lack of a quorum, and the question as to the presence of a quorum shall not be raised oftener than once in every hour, unless the lack of a quorum shall be disclosed upon a roll call of the ayes and noes. Whenever, upon a roll call, any member who is upon the floor of the Aldermanic Chamber refuses to make response when his name is called, it shall be the duty of the presiding officer, either upon his own motion, or upon the suggestion of any member of the Board, to request the member so remaining silent to respond to his name, and if such member fails to do so, the fact of such request and the refusal shall be entered in the journal, and such member shall be counted as present for the purpose of constituting a quorum.

38. For the purpose of securing the attendance of members a call of the Board may be ordered at any time, but such call shall not be in order when the voting on any question has begun, unless it shall appear upon an actual count by the President that a quorum is not present.

CHAPTER XIII.

Miscellaneous Provisions.

39. The roll call of the Board shall be in alphabetical order, except that the Presidents of the Boroughs, the Vice-Chairmen and the President of the Board shall be called last, and in the following order:

President of the Borough of Richmond, President of the Borough of Queens, President of the Borough of the Bronx, President of the Borough of Brooklyn, President of the Borough of Manhattan, the Vice-Chairman, and the President of the Board. They shall be called by their respective titles instead of by their names.

40. Whenever a claim is referred to a committee, and the committee reports that the claim ought not to be allowed, and the report is adopted by the Board, it shall not be in order to move to take the papers from the files for the purpose of subsequent introduction, unless the claimants shall present a memorial for that purpose, stating in what manner the committee has erred in its report, or that new evidence has been discovered since the report, and setting forth the same in the memorial.

41. The following persons only shall be admitted to the floor of the Aldermanic Chamber during its sessions:

1. The Mayor, his Private Secretary and Chief Clerk.
2. Heads of Departments and their Deputies.
3. Reporters of the Public Press.

4. Persons in the exercise of an official duty directly connected with the business of the Board.

5. Such other persons as may by resolution be granted the courtesy of admission to the floor.

6. Members may by card admit persons to that part of the Chamber in the rear of the railing, former members of the Board of Aldermen or Municipal Assembly to be admitted without card. No such privilege shall, however, extend beyond the legislative day for which it is given.

42. The rules of parliamentary practice comprised in "Jefferson's Manual" shall govern the Board in all cases to which they are applicable, and in which they are not inconsistent with the standing rules and orders of the Board.

43. A rule of the Board may be altered, suspended or rescinded, or a new rule may be added, by a three-fifths vote of all the members, and not otherwise. A motion to suspend, alter or rescind any rule or to add a new rule, shall not be in order without a three-fifths vote of the Board, unless one week's previous notice in writing shall have been given, specifying the purpose of the proposed suspension, alteration, recession or addition.

JOHN T. McCALL, REGINALD S. DOULL, TIMOTHY P. SULLIVAN, MOSES J. WAFER, ELIAS GOODMAN, Committee on Rules.

Alderman McCall moved that the report be laid over, printed in full in the minutes and made a Special Order for the next meeting, at 2 o'clock p. m.

The Committee on Laws and Legislation, to whom was referred on January 12, 1904 (Minutes, page 27), the annexed petition of Messrs. Bustillo and Carter, for permission to erect kiosks in the streets of The City of New York, respectfully

REPORT:

That, having examined the subject, they recommend that the said petition be placed on file.

To the Honorable the Board of Aldermen of The City of New York:

The petition of M. de Fuentes Bustillo and J. Barker Carter shows:

First—That your petitioners are associated for the purpose of constructing, maintaining and operating, for the benefit of the public, especially for the convenience and protection against the inclemencies of weather, the excessive severity of the sun, and also for the exigencies of accidents a number of shelters on the streets and avenues and open places at such points as may be most necessary for the accommodation of the people who may be obliged to wait for tram cars and other conveyances.

Second—Your petitioners further show that there is no adequate protection or convenience for the purposes for which these shelters should be provided, and that their introduction will be universally approved and welcomed by the citizens of New York.

Third—That as the cost will be very great for the erection and maintenance of each of these ornamental shelters and will be borne entirely by your petitioners, they ask that they be permitted to recoup themselves by the use of the post stand in each as a news and periodical station and such form of advertisement as is set forth in the accompanying sketch, and that the term for which this petition may be granted shall be twenty years.

Fourth—Your petitioners will also surmount each shelter with a magnificent plate glass lantern, within which will be maintained an electric arc light of 2,000 candle-power, without expense to the City.

Wherefore, your petitioners pray that this grant may be given in the form of an ordinance, subject to such provision as may be in accordance with the laws and provisions of the Greater New York Charter.

Dated in The City of New York this 2d day of January, 1904.

MANUEL DE FUENTES BUSTILLO,
J. BARKER CARTER.

AN ORDINANCE in relation to sprinkling streets with water in The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The President of each borough may in his discretion cause the streets within his borough, or any parts thereof, to be properly sprinkled with water from the public supply or other source, during such part of each year as he may deem to be necessary for the health and comfort of the public; provided, however, that no such sprinkling shall be done at the expense of the City.

Sec. 2. Any resident of the City may make a written application to any such President for authority to sprinkle streets and avenues within his borough, accompanied by evidence satisfactory to such President of the ability of the applicant to perform such service in a proper manner, together with evidence of the desire of a reasonable number of the occupants of premises in such borough that such sprinkling ought to be done; and thereupon such President shall, upon receiving a bond as hereinafter provided for, enter into a contract on behalf of the City with such applicant for the sprinkling of streets and avenues in such borough with such water as may be conveniently available for the purpose.

Such contract shall specify the part of each year during which such sprinkling shall be done, which shall begin not earlier than the first of March nor be continued later than the 30th of November; the period of time it shall remain in force, which shall not be more than ten years; the amount to be paid to the City by the contractor, which shall not be less than \$25 per month for each vehicle that shall be employed, and use in such service water from a public supply, and a license fee of the same amount as is or may be required to be paid by public truckmen for each such vehicle that shall be so employed, but not use water from a public supply; and the time when and the manner in which all such payments shall be made; and such reasonable regulations relative thereto and to the conduct of said business as to such Borough President shall seem meet.

Such contract may also require the contractor to agree to sprinkle any street or avenue or part thereof on due request and agreement in writing subscribed by at least 25 per cent. of the owners or occupants of a continuous series of not less than 200 feet of premises abutting on any such street or avenue to the effect that they will pay for such sprinkling at the regularly established rates charged to owners or occupants for like services on adjacent premises.

Recommending to the Board of Aldermen the reduction in the width of the roadway of Thirty-ninth street, from old City line to Ninth avenue, from 44 feet to 30 feet, as described in the following report from the Chief Engineer of the Bureau of Highways:

October 26, 1903.

WILLIAM C. REDFIELD, Esq., Commissioner of Public Works, Borough of Brooklyn:

Dear Sir—There has been passed by the Board of Estimate and Apportionment a resolution to improve Thirty-ninth street, between the old City line and Fort Hamilton avenue. This portion of Thirty-ninth street is in the Thirtieth Ward, and is 80 feet wide, with a roadway 44 feet. The old City line crosses Thirty-ninth street, between Eighth and Ninth avenues, and the portion of the block in the old City has been already paved 30 feet wide.

I have given instruction to have the plan made for that portion of the street between the old City line and Ninth avenue 30 feet wide, to conform to the portion already improved.

I would, therefore, recommend that the proper legislation be had to make the legal width of the roadway of Thirty-ninth street from the old City line to Ninth avenue, 30 feet wide, to conform to the remainder of the same block already improved.

Respectfully,
(Signed) GEO. W. TILLSON, Chief Engineer.

Following communication from the Commissioner of Public Works:

City of New York, Borough of Brooklyn, Office of Commissioner of Public Works, Borough Hall,

October 27, 1903.

Hon. J. EDWARD SWANSTROM, President of Borough of Brooklyn:

Dear Sir—The Board of Estimate and Apportionment has authorized the improvement of Thirty-ninth street between the old City line and Fort Hamilton avenue.

The old City line is between Eighth and Ninth avenues. In that portion of this block between Eighth avenue and the line, the street has already been paved 30 feet wide, but in the portion between the line and Fort Hamilton avenue, to be improved, the street is laid out with 44-foot roadway. If this is followed, the result would be that on the same block between Eighth and Ninth avenues part of the way the road would be 30 feet and part of the way 44 feet. For uniformity, the Chief Engineer of Highways has given instructions to make this whole block 30 feet wide to conform to that already improved.

A resolution is therefore necessary to make the width of the roadway of Thirty-ninth street from the old City line to Ninth avenue 30 feet wide to conform with the remainder of the same block already improved. From Ninth avenue to Fort Hamilton avenue no change is desired. The purpose of the resolution is to make the few yards of the block between Eighth and Ninth avenues, not improved, to conform to that already finished.

Duplicate copies of the report of the Chief Engineer of Highways on this subject are attached.

Yours very truly,

(Signed) WILLIAM C. REDFIELD, Commissioner of Public Works.

October 24, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith return a communication, which was referred to me, the same being addressed to the Bureau of Sewers by the Secretary to the President of the Borough, dated September 21, 1903, requesting information in relation to the construction of a sewer in Sixty-seventh street, between Second and Third avenues. I also return petition which accompanied said communication.

The Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows: "I beg to report that the estimated cost for above-mentioned improvement is \$3,900, and the assessed valuation of the real estate within the probable area of assessment is \$69,011.

The items of work necessary are:

50 feet 15-inch pipe sewer.

712 feet 12-inch pipe sewer.

6 manholes and appurtenances.

In regard to outlet sewers, information of which is requested, I beg to state that the outlet in Third avenue was included in report of January 30, 1903, under the heading of "Sewer in Third avenue, between Sixtieth street and Shore road, in all parts of which a sewer is not already laid."

In regard to the legal opening of the streets, information of which is requested, I beg to state that I find no record for opening this street between above limits."

Respectfully yours,

(Signed) JOHN THATCHER, Superintendent of Sewers.

Following communication from the Chief Engineer of the Bureau of Highways: Bureau of Highways, Chief Engineer's Office, Municipal Building,

October 13, 1903.

Mr. HENRY R. ASSERSON, Chief Engineer of Sewers:

Dear Sir—Replying to your request asking if Sixty-seventh street, between Second and Third avenues, is an open street or not, I would say that there is no record of the street having been legally opened. It is, however, laid down on the map and is 60 feet wide. There are no buildings within the lines of the street. The street is in use, and has earth sidewalks and roadways and water and gas mains.

If proceedings are initiated I think they should read from First avenue to Fourth avenue.

Respectfully,

(Signed) GEO. W. TILLSON, Chief Engineer.

I would therefore recommend that the said lots be filled in up to grade of the curb.

Description of property:

South side of Fifty-second street, between Fifth and Sixth avenues, Lots Nos. 24 and 25, Block 808, Eighth Ward Map, section 3, volume 4.

Synopsis of report:

On the north side Sixtieth street, between Fifth and Sixth avenues, Lot No. 1, Block 864, section 3, volume 4, Eighth Ward Map.

No. 115.

Requesting the Corporation Counsel to delay the appointment of Commissioners in the matter of opening Sixty-sixth street, between New York Bay and Twenty-second avenue, until further notice.

Following communication from the President of the Long Island Railroad Company:

The Long Island Railroad Company, the New York and Rockaway Beach Railroad Company, the Montauk Steamboat Company, Limited, Office of the President, No. 128 Broadway,

New York, November 27, 1903.

Hon. J. EDWARD SWANSTROM, President of the Borough of Brooklyn:

Dear Sir—My attention has been called to an application to be made by the Corporation Counsel in charge of street openings to the Supreme Court for the appointment of commissioners to assess damages on the opening of Sixty-sixth street, between Fort Hamilton avenue and Narrows avenue. The matter of opening this street was before your office about a year ago, and at that time I met Commissioner Redfield and Park Commissioner Young and explained to them the result of any opening of this street below Third avenue, on the terminal plans of this company and the Pennsylvania Railroad, which have been published and discussed at great length. The Long Island Railroad Company is in possession of land between Sixty-fifth street and Sixty-sixth street, and extending from the bay to Third avenue and beyond. But the portion between Third avenue and the water is the site of the terminal yard which is to be operated in connection with the Pennsylvania yard in Greenville, New Jersey, now almost near completion. Within the past twelve months the Pennsylvania Railroad Company has expended \$50,000 in acquiring additional land between Sixty-fifth street and the centre line of Sixty-sixth street. Every inch of this space is absolutely necessary for carrying out the great terminal development which is contemplated at this point.

There is absolutely no reason for opening Sixty-sixth street below Third avenue. As originally mapped out it ran to the water, but it was found that the Edison Illuminating Company had constructed its building over the line of Sixty-sixth street, and the street was closed between Narrows avenue and the bay. To open the street between Third avenue and Narrows avenue would not only be a useless expenditure of money, because the street would lead nowhere and would benefit nobody, but would inflict incalculable damage on the railroad company, destroying the plans which are of so much importance to the City. The Shore road parkway goes up to the centre line of Sixty-sixth street. The development of the driveway, etc., with which you are familiar, gives a broad street running parallel to Sixty-sixth street, and a short distance to the south. The opening of Sixty-sixth street would not only destroy the railroad terminal by taking that portion of the yard included in the north half of Sixty-sixth street, but as I recollect it would be at variance with Commissioner Young's plans. The peculiarity of the matter is that Sixty-fifth street was opened long ago down to the bay. A ferry franchise is in existence, running from the foot of Sixty-fifth street to the Borough of Manhattan. Notwithstanding the fact that this street has been opened and an assessment levied, as I understand it, no proceeding is taken to carry out this work authorized so many years ago, but this new proceeding is pressed to open Sixty-sixth street, leading nowhere so far as I can see, except to the Edison Light Plant at Narrows avenue. The company does not want to be put in the position of standing in the way of any improvement, and so far as this street is desired east of Third avenue, we are not objecting to it even though it may inconvenience us, but it appears to be such an unnecessary and uncalled for injury to our plans between Third avenue and the river, that I trust you will look into the matter and ascertain what necessity is claimed for an opening at this point. When the matter was up before it was heard by the Local Board for the Bay Ridge District, and was fully explained, Commissioner Young being present. It was then laid on the table and, as I understood, it was definitely stated that there should be no attempt to open the street west of Third avenue.

The matter is to come up in Court I am informed next week, and I will greatly appreciate it if you can give your early attention to it.

Very truly yours,

(Signed) W. H. BALDWIN, Jr.

Following opinion from the Corporation Counsel:

Law Department—Office of the Corporation Counsel,
New York, December 7, 1903.

JUSTIN McCARTHY, Jr., Esq., Secretary of Local Boards, President's Office of the Borough of Brooklyn:

Dear Sir—I have received your letter of November 28, 1903, in which you state that the Board of Estimate and Apportionment on July 28, 1902, adopted a resolution requesting the Corporation Counsel to delay the appointment of Commissioners to open Sixty-sixth street from the Shore road to Twenty-second avenue until further request from said Board, which resolution you say was forwarded to me by the Secretary of the Board of Estimate and Apportionment on the day of its adoption, and that the reason for the request aforesaid was that "on October 27 the Local Board of the Bay Ridge District passed a resolution requesting the Board of Estimate and Apportionment to ask the Corporation Counsel to delay the proceedings for opening that portion of Sixty-sixth street between Narrows avenue and Fort Hamilton avenue in the Borough of Brooklyn to enable the Long Island Railroad Company, which owns one-half of said street from Narrows avenue to Third avenue, the Park Commissioners and the Aldermen representing the Bay Ridge district to come to an understanding regarding the opening of said portion of Sixty-sixth street."

You further state that the opening of Sixty-sixth street west of Third avenue would seriously interfere with the development of the shore front at that point, the Pennsylvania Railroad having acquired additional land between Sixty-fifth and Sixty-sixth streets, with the idea of establishing there a great terminal; that the people in the neighborhood are in favor of this railroad development, and the resolution was passed to afford an opportunity for the parties mentioned to discuss the matter. And you further state that the Local Board requests me not to proceed with the opening until, as stated in the resolution sent me by the Board of Estimate and Apportionment, the President of the Borough of Brooklyn has succeeded in finally deciding the matter before the Local Board of the Bay Ridge district.

In this matter the records in my office show that a resolution was adopted on June 6, 1900, requesting me to take the necessary steps to open Sixty-sixth street from New York bay to Twenty-second avenue.

On July 28, 1902, I received a letter signed by J. W. Stevenson, Secretary, stating that the Board of Estimate and Apportionment had that day adopted the resolution quoted by you in your letter, requesting me to delay the appointment of Commissioners in this proceeding until further request from said Board. Mr. Stevenson's letter further continued as follows:

"In accordance with the above resolution, I would request that you will discontinue proceedings in the above matter until the Board has an opportunity to pass upon a petition which has just been presented to have the resolution for opening Sixty-sixth street rescinded."

On April 13, 1903, I received a resolution adopted by the Board of Estimate and Apportionment on April 3, 1903, amending the resolution to open Sixty-sixth street, as follows:

"Resolved, By the Board of Estimate and Apportionment of The City of New York, that, in pursuance of the provisions of section 1000 of the Greater New York Charter, the Corporation Counsel be and he hereby is requested to discontinue the proceedings for opening Sixty-sixth street from New York bay to Twenty-second avenue, so far as said proceeding affects the land lying between Narrows avenue and New York bay on the west and between Fort Hamilton avenue and Twenty-second avenue on the east."

There was nothing in these resolutions or in the communications accompanying the same which in any way indicated the reasons for the request to suspend further proceedings in the matter, or the motives which prompted the Board to amend the proceeding. I naturally concluded that the resolution of April 3, 1903, was the result of the proceeding to amend contemplated by the Board at the time the resolution was adopted requesting me to suspend the appointment of Commissioners. Proceed-

ings were therefore taken in accordance with the amended resolution to have Commissioners appointed in this matter and proceedings are still pending.

Complying with your request, I have adjourned the motion for the appointment of Commissioners until January 11 next, which will probably give you ample opportunity to have the Local Board act upon the matter and present the same to the Board of Estimate and Apportionment. If further delay is desired, I would suggest that the Board of Estimate and Apportionment adopt a resolution requesting the Corporation Counsel to delay the appointment of Commissioners until further notice.

Respectfully,
(Signed) G. L. RIVES, Corporation Counsel.

Following resolution was offered:

Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, after hearing had this 21st day of December, 1903, hereby recommends to the Board of Estimate and Apportionment to request the Corporation Counsel to delay until further notice the appointment of Commissioners in the matter of opening Sixty-sixth street at any point between New York Bay and Twenty-second avenue, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Commissioner Redfield and Alderman Malone.

The roll was called and the following members answered to their names:

Hon. Martin W. Littleton, President, presiding; Aldermanic District Forty-five, Alderman Downing; Aldermanic District Forty-six, Alderman Bridges; Aldermanic District Forty-seven, Alderman Wafer.

The President explained that, owing to an opinion of Corporation Counsel John J. Delany, dated January 14, 1904, rendering all proceedings pending before the Local Boards and the Board of Estimate and Apportionment on January 1, 1904, of no effect, no action could be taken by the present Board upon matters petitioned for previous to that date.

On motion made and seconded, the meeting adjourned.

JOHN A. HEFFERMAN, Secretary.

No. 30.

Petition to close Bowne street, between Richards and Columbia streets.

Following report from the Chief Engineer of the Bureau of Highways:

April 28, 1903.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return you herewith petition for closing Bowne street, between Richards street and Columbia street. The petition is signed J. H. Williams & Co., who own all of the property on both sides of this street on this block. In regard to this petition, I would say that I have personally examined this street and find that it is four (4) blocks long, running from Commercial Wharf to Columbia street. No part of it has ever been graded or paved. It is occupied on both sides by manufacturing companies.

This street was opened in 1850, at a cost to the property owners of \$135. It would seem therefore as if neither the City or the property owners had been put to great expense for opening this street as it stands to-day.

As a general rule I do not believe in closing streets once having been opened, but if all the property owners on both sides of the street for its entire length are in favor of closing it, I do not see that any great injustice would be done to the City at large. I do not think, however, it would be proper to close this one block and leave the rest of the street open, or against the wishes of the property owners west of Richards street, as in that event they would be cut off from direct communication from Columbia street, the principal street in that locality.

Respectfully,
(Signed) GEORGE W. TILLSON, Chief Engineer.

Following technical description from the Chief Engineer of the Bureau of Highways:

Technical description for a public hearing in the matter of closing Bowne street, between Richards street and Columbia street, in the Twelfth Ward, Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of the eastern line of Richards street with northern line of Bowne street, as the same are laid down on the map of the City.

1. Thence southerly along the easterly line of Richards street 60 feet;

2. Thence easterly along the southern line of Bowne street 286.58 feet to a point in the westerly line of Columbia street distant 215.14 feet northerly from the intersection of the northern line of Seabring street with the westerly line of Columbia street as the same are laid down on the aforesaid map;

3. Thence northerly along the westerly line of Columbia street 64.53 feet;

4. Thence westerly 262.83 feet, to the point of beginning.

Dated New York, November 20, 1903.

Topographical Bureau, Borough of Brooklyn.

(Signed) GEORGE J. BISCHOF, Assistant Engineer in Charge.

(Signed) GEORGE W. TILLSON, Chief Engineer.

Following resolution was offered:

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, after hearing had this 19th day of November, 1903, hereby determines to initiate proceedings to close Bowne street, between Richards street and Columbia street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:
