EXECUTIVE DEPARTMENT.

PROCLAMATION.

To the People of The City of New York:

Pursuant to the request of the Honorable the Board of Aldermen, as expressed in a resolution offered by the Hon. Reginald S. Doull, I hereby direct that none but patriotic airs be played by the bands of music in the public parks and on the public piers on July 4.

I further direct all heads of Departments of the City Government to display the national ensign on their respective buildings from sunrise to sunset of that day.

And I urge, as the most appropriate manner of celebrating the anniversary of the Declaration of Independence, that every citizen of New York display the national colors at his residence and his place of business.

To which I have set my hand and affixed my seal of office this 25th day of June, nineteen hundred and eight.

(Signed) GEO. B. McCLELLAN, Mayor.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

No. 154 NASSAU STREET, NEW YORK CITY.

J. McKEE BORDEN, Secretary.

Department of Public Charities,
Foot of East Twenty-sixth Street,
New York, June 16, 1908.

ROBERT A. KEASBEY COMPANY, No. 100 North Moore Street, New York City:

Dear Sirs—Your proposition of June 12, to furnish and apply Crown flooring in above room, including 6-inch sanitary base, both in one-half inch thickness complete for the sum of one hundred and fifty-five dollars (\$155) subject to the following conditions, which must be taken care of by us without expense to you.

Should it be necessary to cut off doors in order to permit them to swing over the new Crown floor, we will take care of it.

(There was one other bid received for this work as follows: Joseph D. Duffy, \$168.)

—is accepted, as above specified, and you are hereby directed to proceed with the work.

By direction of the Commissioner.

Respectfully yours,
J. McKEE BORDEN, Secretary.

Borough of Brooklyn, New York City, June 21, 1908.

Mr. J. McKEE BORDEN, Secretary, Department of Public Charities:

DANIEL DRAPER, Ph. D., Director.

BOARD OF WATER SUPPLY.

Minutes of the Meeting of the Board of Water Supply of The City of New York, Held June 2, 1908.

Present—Commissioners John A. Bense, President; Charles N. Chadwick and Charles A. Shaw.

Contract 12.

The Secretary read the advertisement, which was duly published in the City Record, "New York Tribune," "New York Times," "New York Herald," "Engineering News" and "Engineering Record," stating that bids for the construction of the Rondout siphon and appurtenances would be publicly opened and read at the office of this Board, Room 910, on the ninth floor of No. 299 Broadway, New York City, on Tuesday, June 2, 1908, at 11 a. m. This advertisement is as follows:

To CONTRACTORS.

Catskill Aqueduct.

Sealed bids or proposals will be received by the Board of Water Supply, in the office of the Board, No. 299 Broadway, New York, Room 910, ninth floor, until 11 a. m., on Tuesday, June 2, 1908, for the construction of the Rondout siphon, a deep pressure tunnel, lined with concrete, 14 1/2 feet in inside diameter, and about 23,600 feet long, to be reached through shafts from 370 feet to 710 feet in depth; the northerly half, about 3,340 feet, of the Bonticou tunnel, a tunnel on the hydraulic gradient, 17 feet high and 13 feet 4 inches wide, to be driven without shafts, and two short stretches of plain concrete conduit, known as cut-and-cover aqueduct, one of which is located at each end of the siphon. The tunnel will connect with the cut-and-cover aqueduct by a down-take shaft at the north end and an up-take shaft at the south end, and between these, near Rondout Creek, there will be a drainage shaft. Besides these, there will be five other shafts for construction purposes, making eight in all.

An approximate statement of the quantities, of the kinds of work and further information, are given in the information for bidders.

At the above place and time the bids will be publicly opened and read. The award of the contract, if awarded, will be made by the Board of Water Supply as soon thereafter as practicable.

Two or more bonds, the aggregate amount of which shall be eight hundred thousand dollars (\$800,000), will be required for the faithful performance of the contract. Each bond must be signed by the contractor and the sureties. The name and address of each surety offered must be stated in the bid or proposal, together with the amount in which each surety will qualify. The sureties and the amount in which each will qualify must be satisfactory to the Board.

No bid will be received and deposited unless accompanied by a certified check upon a National or State bank, drawn to the order of the Comptroller of The City of New York, to the amount of one hundred thousand dollars (\$100,000).

Time allowed for the completion of the work is fifty-four months from the service of notice by the Board to begin work.

Pamphlets containing information for bidders, forms of proposal, contract and bond, approved by the Corporation Counsel, and specifications and pamphlets containing contract drawings, can be obtained at the office of the Board of Water Supply, Room 1515, at the above address, upon application, in person or by mail, by depositing the sum of ten dollars (\$10) in currency, or check drawn to the order of the Board of Water Supply, for each pamphlet, or twenty dollars (\$20) for each set. This deposit will be refunded upon the return of the pamphlets in acceptable condition within thirty days from the date on which bids are to be opened.

JOHN A. BENSEL,

President;

CHARLES N. CHADWICK,

CHARLES A. SHAW,

Commissioners of the Board of Water Supply.

J. Waldo Smith,

Chief Engineer.

Thomas Hassett,

Secretary.

The Secretary also presented affidavit of the publication of said advertisement in the City Record.

The box containing the bids was opened and it was announced that five bids for said work had been received, each accompanied by a certified check or checks for \$100,000, from the following concerns:

The T. A. Gillespie Company, No. 90 West street, New York City.

S. Pearson & Son, Incorporated, Long Island City, New York.

The Degnon Contracting Company, No. 60 Wall street, New York City.

Bradley Contracting Company, No. 329 West Sixty-eighth street, New York City.

MacArthur Brothers Company, No. 11 Pine street, New York City.

The following resolution was then adopted:

Resolved, That Commissioner Shaw and the Secretary are instructed to have the bids received June 2, 1908, for Contract 12, for the construction of the Rondout siphon and appurtenances, calculated and tabulated, and to submit their report at the next meeting of the Board for consideration and canvassing by the Board, and that the bids and checks of the bidders are referred to Commissioner Shaw for examination and report to the Board as to the formality of the same and the sufficiency of the sureties proposed by the bidders.

Chief Engineer's communication 2532, June 2, 1908, submitted the Engineer's estimate of the cost of this contract, and was filed.

Commissioner Shaw reported that the checks submitted by the respective bidders were satisfactory and in accordance with the advertisement, and, on motion, the Secretary was directed to transmit said checks to the Comptroller.

The minutes of May 27, 1908, were read and approved.

The following bills were approved and ordered forwarded to the Comptroller for payment:

Statements showing the financial condition of the Board of Water Supply at the close of business May 29, 1908, also the detailed classified expenditures on account of permanent construction, surveys, maps, plans, etc., during the month of May, 1908, were read and filed.

A statement setting forth the expenditures made and liabilities incurred by the Board of Water Supply during month of May, 1908, was read and ordered forwarded to the Comptroller, in compliance with section 36, chapter 724 of the Laws of 1905.

An abstract of the expenditures made and liabilities incurred by the Board of Water Supply during the month of May, 1908, was read and ordered forwarded to the City Record, in compliance with section 36, chapter 724 of the Laws of 1905.

CIVIL SERVICE MATTERS.

Appointments.

On recommendation of Commissioner Shaw, the following appointments were made, to take effect upon assignment to duty by the Chief Engineer:

Albert Buttendorf, No. 55 East Seventh street, New York City, Mechanical Draughtsman (Heating and Ventilating); \$1,200 per annum; Chief Engineer's Number, 2529.

William H. Turner, Woodstock, New York, Gage Keeper; \$5 per month; Chief Engineer's Number, 2519. (Civil Service Rule XII., paragraph 7.)

Daniel Lucey, New Paltz, New York, Laborer; \$2 per diem; Chief Engineer's Number, 2520.

George Grim, New Paltz, New York, Laborer; \$2 per diem; Chief Engineer's Number, 2520.

Walter F. Barnes, West Shokan, New York, Laborer; \$2 per diem; Chief Engineer's Number, 2524.

Frank Kellerhouse, Glenford, New York, Laborer; \$2 per diem; Chief Engineer's Number, 2524. (On reinstatement.)

Charles M. Clarke, Katonah, New York, Assistant Engineer; \$2,400 per annum; Chief Engineer's Number, 2521. (On transfer.)

Lola R. Reilly, No. 242 East Thirty-fifth street, New York City, Stenographer and Typewriter; \$1,050 per annum; Chief Engineer's Number, 2523. (For a temporary period of three months.)

Commissioner Shaw reported that on May 29, 1908, he and Commissioner Bensel appointed Frederick Evans, No. 121 East Twenty-first street, New York City, Adjuster of Taxes and Assessments, with compensation at the rate of \$3,000 per annum, said appointment to take effect June 1, 1908.

A communication was received from the Municipal Civil Service Commission, dated May 28, 1908, approving appointments of Joseph H. Bush, Clerk; Thomas A. Hadden, Clerk, and William E. Irving, Janitor.

The Secretary reported that under date of May 29, 1908, he had written the Public Service Commission, requesting the transfer to this Board of Patrick J. Lovely, Inspector of Masonry, with salary at the rate of \$5 per day, and, on motion, this action of the Secretary was confirmed.

The Secretary reported that under date of May 27, 1908, pursuant to Chief Engineer's communication 2518, he had written the Municipal Civil Service Commission, requesting the reinstatement of the following Laborers, and, on motion, this action of the Secretary was confirmed:

John Whalen, High Falls, New York.
Benjamin B. Johnson, High Falls, New York.
Thomas V. Joseph, High Falls, New York.
Arthur Trowbridge, The Vly, New York.
James Hughes, West Hurley, New York.
Simon W. DuBois, Atwood, New York.

The Secretary reported that under date of May 28, 1908, pursuant to Chief Engineer's communication 2522, he had written the Municipal Civil Service Commission,

requesting the reinstatement of Edward Kloborg, Leveler, and, on motion, this action of the Secretary was confirmed.

Pursuant to Chief Engineer's communication 2528, June 1, 1908, and on recommendation of Commissioner Shaw, the Secretary was directed to write the Municipal Civil Service Commission, requesting that a competitive examination be held to establish a list of inspectors, the title to be without qualification.

On recommendation of the Chief Engineer in his communication 2516, May 27, 1908, the minutes of March 27, 1907, were amended so as to change the name Richard Sommerville, who was appointed Stenographer and Typewriter, to Richard V. Sommerville.

A communication was received from the Municipal Civil Service Commission, dated May 27, 1908, disapproving the request of this Board for the reinstatement of Arthur H. Sherin, Topographical Draughtsman, because there are two names on the preferred list of Topographical Draughtsman, one of these persons having been laid off from this Board.

Separations.

William E. Reynolds, Gage Keeper; to take effect May 31, 1908; cause, resigned.

Leaves of Absence.

On recommendation of Commissioner Shaw, the following leaves of absence, without pay, were granted:

Katherine D. Bolger, Stenographer and Typewriter; not to exceed thirty days from May 8, 1908; Chief Engineer's Number, 2525.

Charles B. Magan, Clerk; not to exceed thirty days from June 1, 1908; Chief Engineer's Number 2525.

Thomas J. Long, Topographical Draughtsman; not to exceed thirty days from June 12, 1908; Chief Engineer's Number, 2525.

Mildred A. Rissstedt, Stenographer and Typewriter; not to exceed thirty days from June 23, 1908.

Promotions.

On recommendation of Commissioner Shaw, the following increases of salary were made, to take effect June 1, 1908:

William J. Coakley, Clerk; from \$895 to \$1,190 per annum; Chief Engineer's Number, 2509.

Charles Delmont, Topographical Draughtsman; from \$1,200 to \$1,800 per annum; Chief Engineer's Number, 2509.

Joseph J. Lorenzo, Laborer; from \$2 to \$2.50 per day; Chief Engineer's Number, 2507.

A communication was received from the Municipal Civil Service Commission, dated June 1, 1908, stating that the approval by said Commission of the increase of salary of Jesse O. Carpenter, Clerk, First Grade, which was made by this Board on May 12, 1908, was not satisfactory.

COMMUNICATIONS FROM THE CHIEF ENGINEER.

Weekly Report.

142, May 25, 1908, was filed.

Contract 11.

2526, June 1, 1908, forwarded four pamphlets of this contract, for the construction of a portion of the Esopus Division of the Catskill Aqueduct, in the Towns of Olive and Marletown, Ulster County, New York, and forms of advertisements for same, and, on motion, said pamphlets and advertisements were approved, except that the word "prior" was stricken out on page 5 of the information to bidders, and the Secretary was directed to forward said forms of contract and advertisements to the Corporation Counsel for approval as to form.

Contract 1.

2515, May 27, 1908, transmitted three copies of the third agreement of modification of this contract, with the Phoenix Construction Company, for test borings in the channel and along the shores of the Hudson River at or near Storm King, and, on motion, said copies were approved, and the Secretary was directed to forward the same to the Corporation Counsel for approval as to form.

Real Estate, Northern Aqueduct, Section 6.

2527, June 1, 1908, recommended that the Corporation Counsel be requested to take without delay the necessary steps to secure possession and title of the land in this section, the same being necessary for Contract 22 (Bull Hill Tunnel). On motion, the Secretary was directed to write the Corporation Counsel accordingly when and if the Board of Estimate and Apportionment shall approve the maps of this section.

Kensico Reservoir.

2506, June 1, 1908, recommended that negotiations be opened with the Department of Water Supply, Gas and Electricity for the purpose of reaching an agreement as to additional pumping machinery to be installed at the Jerome Park station, to safeguard, during the construction of the Kensico dam, the supply of the district now tributary to the Williamsbridge reservoir, and, on motion, the Chief Engineer was directed to prepare and submit to this Board form of contract for such machinery and other appurtenances.

COMMUNICATIONS FROM THE LAW DEPARTMENT.

Contract 12.

288, May 29, 1908, returned approved as to form first page proof of this contract, for the construction of Rondout siphon and appurtenances, and was filed.

290, June 1, 1908, returned approved as to form four pamphlets of this contract and forms of advertisements for same, and was filed.

Real Estate, Expense of Acquisition.

289, June 1, 1908, stated that on said date the Corporation Counsel had forwarded to the Comptroller bills of the Commissioners of Appraisal in Kensico Reservoir, Section 3, for services, together with certified copy of an order of the Supreme Court taxing said bills at the following amounts respectively:

Burton C. Meighan	\$3,000 00
Willis B. Dowd	3,000 00
Benjamin Howe	3,100 00

Said opinion forwarded copy of opinion rendered to the Comptroller advising the payment of said fees as so taxed. On motion, vouchers for the payment of the above bills were ordered to be prepared and forwarded to the Comptroller upon receipt of proper advices from the Comptroller.

291, June 1, 1908, stated that on May 25, 1908, the Corporation Counsel had forwarded to the Comptroller certified copy of order of the Supreme Court, dated November 2, 1907, in Northern Aqueduct, Section 2, taxing the fees and disbursements of the Commissioners of Appraisal in said proceeding, as follows:

John J. Delany—	
Fees	\$2,250 00
Disbursements	6 88
William Wood—	
Fees	2,250 00
Disbursements	76 40
George F. Secor—	
Fees	2,100 00
Disbursements	30 00

Said opinion forwarded copy of opinion rendered to the Comptroller advising that said order was affirmed, on appeal, and that said fees and disbursements should be paid as so taxed. A communication was received from the Finance Department, dated May 27, 1908, forwarding copy of said opinion of the Corporation Counsel to the Comptroller (our number 287), and copy of said order of the Supreme Court, taxing said fees and disbursements. The Secretary reported that on May 29, 1908, all of these papers were transmitted to the Auditor, with instructions to prepare the necessary vouchers and transmit the same to the Comptroller when signed. On motion, this action of the Secretary was confirmed.

The following bills were received, approved by the Corporation Counsel and taxed by the Supreme Court, and vouchers therefor were ordered to be prepared and forwarded to the Comptroller:

Ashokan Reservoir, Section 6—	
"Kingston Leader," advertising.....	\$25 20
"Kingston Argus," advertising.....	9 00
"Democracy," advertising.....	96 00
Ashokan Reservoir, Section 9—	
State Law Reporters, Stenographers.....	142 51

OTHER MATTERS.

Police.

Commissioner Shaw submitted, with his approval, Special Orders Nos. 12 and 13, dated respectively May 28, 1908, and June 1, 1908.

Maps.

A communication, dated May 28, 1908, was received from Aleth Biorn, proposing to model a relief map of the work of this Board, and, on motion, was referred to the Commissioners of the Board as a Committee of the Whole.

Accounts.

A communication was received from the Finance Department, dated May 27, 1908, giving particulars as to the reduction of \$3 from Voucher 6046, in favor of J. M. S. Millette, Chief Clerk, on account of "excessive charges," and, on motion, was referred to Commissioner Chadwick.

Real Estate, Expense of Acquisition.

A communication was received from Hon. John J. Linson, Special Counsel, dated May 28, 1908, in reference to the charges in his bill for the month of February for services rendered on legal holidays, stating that said charges were correct. On motion, the Auditor was directed to forward to the Comptroller the voucher in favor of Hon. John J. Linson, for services during the month of February (\$10,776.68, Northern Aqueduct, Sections 3, 4 and 5, Ashokan Reservoir, Sections 1 to 9), when the same is received from the Corporation Counsel.

Supplies.

A communication was received from the Finance Department, dated May 9, 1908, asking information in reference to the purchase of supplies by this Board. Commissioner Bense submitted copy of letter dated May 28, 1908, which he had sent in reply to said communication, giving the information desired. On motion, this action of Commissioner Bense was confirmed.

Agreement 70.

Commissioner Shaw submitted estimates received and opened May 27, 1908, for this agreement, for test pits on the proposed line of the aqueduct, between Hunters Brook and Hill View, said estimates having been submitted by the following, and being for the following amounts in the aggregate, on the basis of the Chief Engineer's estimate of quantities and the prices bid:

McHarg Barton Company.....	\$4,710 00
Freeman H. Merritt.....	6,168 00
Shelley Brothers.....	6,500 00
John J. Walsh.....	4,440 00
Toney Richards.....	3,630 00

On recommendation of Commissioner Shaw, the estimate of Toney Richards was accepted, the same being the lowest received, and the said agreement was awarded to him.

Contract 6.

Commissioner Shaw reported that he had approved the surety offered by John J. McLean, to whom this contract was awarded on May 27, 1908.

Contract 2.

Commissioner Bense submitted copy of letter from Frank A. Acer, attorney for the Rock Drillers and Tool Sharpeners, dated June 2, 1908, addressed to the Comptroller, stating that the Thomas McNally Company, the contractor under this contract, was complying with the provisions of the Labor Law, and withdrawing any complaints which the said Rock Drillers and Tool Sharpeners have filed against the said Thomas McNally Company. On motion, said communication was filed.

THOS. HASSETT, Secretary.

BOROUGH OF MANHATTAN.

COMMISSIONER OF PUBLIC WORKS.

In accordance with the provisions of section 1546, chapter 466 of the Laws of 1901, I transmit the following report of the transactions of the offices of the Commissioner of Public Works, President of the Borough of Manhattan, for the week ending June 17, 1908:

Public Moneys Received During the Week.

For restoring and repaving pavement, general account.....	\$1,849 25
For redemption of obstructions seized.....	12 00
For vault permits.....	2,946 12
For shed permits.....	50 00
For sewer connections.....	98 00
For bay window permits.....	391 73
For ornamental projection permits.....	484 40

General Office.

Orders numbering from 2455 to 2558 were drawn and sent; 104 requisitions were received and acted upon.

Permits Issued.

Permits to place building material on streets.....	112
Permits to construct street vaults.....	4
Permits to construct sheds.....	10
Permits to cross sidewalks.....	14
Permits for subways, steam mains and various connections.....	302
Permits for railway construction and repairs.....	3
Permits to repair sidewalks.....	152
Permits for sewer connections.....	17
Permits for sewer repairs.....	14
Permits for bay windows.....	20
Permits for ornamental projections.....	1
Complaints received and attended to (Bureau of Incumbrances).....	72
Permits extended (Bureau of Incumbrances).....	130

Complaints received from the Inspectors of the several inspection districts throughout the City, 1,071.

Repairs made to pavement previously reported defective by our Inspectors, 1,453. Police complaints received, 848.

JOHN CLOUGHEN,
Acting President, Borough of Manhattan,
and Commissioner of Public Works.

DEPARTMENT OF DOCKS AND FERRIES.

New York, March 28, 1908.

The following communications were received, action being taken thereon as noted, to wit:

From the Department of Street Cleaning (76253)—Stating that, in connection with work being done by the Bellevue Hospital, it will be necessary for the Department to vacate its present dump at the foot of East Twenty-ninth street, East River, and asking that this Department erect a new dump on the pier foot of East Thirtieth street at the cost and expense of the Department of Street Cleaning. Engineer-in-Chief directed to erect dump on south side of East Thirtieth street pier and report the cost for collection; American Ice Company's permit for 250 feet of south side of pier foot of East Thirtieth street revoked, to take effect May 1, 1908.

From Peter Pipiles (76267)—Requesting permission to open granite pavement foot of One Hundred and Thirtieth street, North River, for the purpose of installing water meter thereat. Permit granted, upon usual terms, work to be done under supervision of Engineer-in-Chief.

From the Erie Railroad Company (76128)—Requesting permission to build three dolphins or fender pile clusters in the prolongation of the present south rack of the Chambers street ferry, to protect extension being built to Pier (new) 19, North River. Permit granted, work to be done under supervision of Engineer-in-Chief.

From Nicholas J. Carey (76030)—Requesting permission to maintain float at northerly end of bulkhead, between Forty-second and Forty-third streets, North River, during coming season. Privilege granted to continue during the pleasure of the Commissioner for the season of 1908, rental to be at the rate of \$6 per month, payable monthly in advance to the Dockmaster.

From the New York and Long Branch Steamboat Company (75883)—Requesting permission to land its Patten Line boats at the Battery Wharf during the season of 1908. Privilege granted to continue during the pleasure of the Commissioner for the season of 1908, rental to be at the rate of \$1,800 for the season, payable \$600 on the first day of June, \$600 on the first day of July and \$600 on the first day of August, 1908.

From P. F. & W. A. Kane (76250)—Asking that the Department dredge at the north side of pier foot of East Forty-sixth street, East River. Answered that the lease of the premises provides that the lessee shall do the dredging.

From the Engineer-in-Chief (76139)—Reporting that the bulkhead, occupied under permit by the Consolidated Gas Company, at the foot of Fifteenth street, East River, is in a dangerous condition and requires rebuilding, in addition to which a fender system is required. Company notified it must make the necessary repairs if it desires a renewal of the permit.

The Corporation Counsel was informed that it is the desire of the Department to proceed with the construction of a sea wall, etc., under the new plan, between Sixty-second and Sixty-third streets, East River, and was requested to advise whether there is any legal objection thereto.

The Corporation Counsel was also requested to advise whether, in view of the existence of the grants of land under water abutting the pier foot of Broadway, Astoria, Borough of Queens, on either side, the Department has a right to dredge alongside the pier.

In answer to its request (76230) for permission to make repairs at ice bridge foot of Clinton street, East River, the Merchants' Union Ice Company was advised that it is the intention of the Department to proceed with the improvement of the water-front at an early date at the point in question, necessitating the removal of the company's business therefrom, and that therefore repairs, other than those necessary to keep the premises in safe condition, are inadvisable.

The Commissioner directed (76237) that the platforms at the Battery be officially designated as follows: The platform at the westerly end of the Battery to be called the South Platform; the one next westerly, the Middle Platform, and the platform occupied by the fireboat to be known as the North Platform.

In answer to its complaint (76231) the Parmele Pharmacal Company was notified that the sand piles at Piers 4 and 5, East River, will be reduced to as small a compass as possible.

The Municipal Civil Service Commission was requested to authorize the reinstatement and reassignment of Charles F. McGovern, Dock Laborer.

The Cashier reported that moneys were received and deposited for the week ending March 28, 1908, amounting to \$16,951.03.

The Auditor reported that the following were audited and forwarded to the Finance Department for payment:

1. Payroll of Municipal Ferry Force for week ending March 27, 1908, amounting to \$2,998.70.
2. Payroll for Construction and Repairs Force for week ending March 27, 1908, amounting to \$27,908.80.
3. Claims for week ending March 28, 1908, amounting to \$101,574.86.

The Engineer-in-Chief was directed to proceed with the execution of work under the New Plan on City property commencing at a point 48 feet south of Clinton street, East River, and extending to a point 88 feet north of the street, and to do all necessary dredging in connection therewith.

ALLEN N. SPOONER, Commissioner.

BOARD OF ESTIMATE AND APPORTIONMENT.

EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, JUNE 26, 1908.

THIRD AVENUE RAILROAD COMPANY.

A communication, dated June 8, 1908, was received from the Mayor's office, returning, duly approved by the Mayor, resolution adopted June 5, 1908, fixing this day as the date for public hearing on the petition of the Third Avenue Railroad Company for a franchise, and designating the "New York Times" and "New York Tribune" as the daily newspapers in which notice of such hearing should be published.

Which was ordered filed.

The public hearing on the petition of the Third Avenue Railroad Company for a franchise to construct, maintain and operate a branch or extension to its existing line, upon and along Amsterdam, Fort George and St. Nicholas avenues and One Hundred and Ninetieth street, Borough of Manhattan, was opened.

The hearing was fixed for this day by resolution adopted June 5, 1908.

Affidavits of publication were received from the "New York Times," the "New York Tribune" and the CITY RECORD prior to the hearing.

No one appeared in opposition to the proposed grant.

F. W. Whitridge, Receiver for the company, appeared in favor, and stated the company would be unable to pay anything for the franchise.

No one else desiring to be heard, the Chair declared the hearing closed.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Third Avenue Railroad Company (hereinafter referred to as the Third Avenue Company), under date of June 2, 1908, has petitioned the Board of Estimate and Apportionment for the grant of a franchise to construct, maintain and operate a double-track street surface railway in the Borough of Manhattan, beginning at the termination of the existing double-track road upon Amsterdam avenue, and connecting with the same, and running thence along and upon Fort George avenue as it winds and turns to St. Nicholas avenue, thence along and upon St. Nicholas avenue to West One Hundred and Ninetieth street, and thence along and upon West One Hundred and Ninetieth street to Amsterdam avenue, and connecting with the existing tracks of the company in said avenue. The route and connections are shown upon a map and plan accompanying the petition, which map is entitled:

"Map showing proposed extension or branch of the Third Avenue Railroad Company, in the Borough of Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated June 2, 1908,"

—and signed by F. W. Whitridge, receiver, and T. F. Mullany, Chief Engineer.

The approximate length of the route applied for is 3,500 feet. The petition was presented to the Board at the meeting of June 5, 1908, and referred to the Chief Engineer, and a resolution was adopted fixing June 26, 1908, as the date for the preliminary public hearing and the Mayor requested to designate two daily newspapers in which the notice of such application and hearing should be published according to law. The "New York Times" and "New York Tribune" were so designated.

In reply to an inquiry from this Division the attorney for the receiver of the company, in a communication under date of June 9, 1908, states that the consents of the owners of one-half in value of the abutting property have not yet been obtained, but that they are being procured.

The existing tracks on Amsterdam avenue with which it is proposed to connect the extension applied for now end at or near the intersection of Amsterdam and Fort George avenues. This terminal point is about one-third of the distance between One Hundred and Ninety-first street prolonged and St. Nicholas avenue, between which limits the various places of amusement along Amsterdam and Fort George avenues are located. The tracks at present terminate in a stub-end terminal, connection being made between the north and south bound tracks by means of three cross-overs. The proposed extension or loop would, therefore, do away with this stub-end terminal, and thus remove a feature which has been seriously objected to in reports on several applications previously considered by the Board.

By resolution of the Board of Estimate and Apportionment, adopted May 24, 1907, and approved by the Mayor May 27, 1907, the Fort George Street Railway Company was granted a franchise for the construction and operation of a street surface railway from a point about 700 feet south of the intersection of Dyckman street and Nagle avenue to West One Hundred and Ninetieth street. In view of the fact that the incorporators of the Fort George Company owned the land on both sides of St. Nicholas avenue adjacent to West One Hundred and Ninetieth street, and that said avenue is not extensively used for vehicular traffic, and of the possibility of the future southerly extension of the railway on St. Nicholas or Eleventh avenue, that company was, by the terms of its contract with the City, permitted to maintain a stub-end terminal in the avenue at One Hundred and Ninetieth street, but upon the express condition that the same should be removed upon six months' notice by the Board. The construction of the proposed route of the Third Avenue Company will make it possible to remove this terminal should it become objectionable or a hindrance to traffic and the free and uninterrupted use of the streets by allowing the Fort George Company to operate over the tracks of the Third Avenue Company by a traffic agreement. The proposed extension of the Third Avenue Company when constructed and put in operation will be a convenience to both the public and the railway company. To the public in that it will afford convenient access to and departure from the many amusement places along its route, the majority of which at present have to be reached by walking from the existing terminus of the road. To the company by removing the stub-end terminal, and the inconvenience and delay arising from the operation of cars by this method when handling large crowds.

There is a possibility, however, that the portion of this loop on Fort George avenue may in time become of even greater value to the company, and instead of an extension or loop terminal become a necessary portion of its main line. Should the Fort George Company construct its line on St. Nicholas avenue from One Hundred and Ninetieth street to the Dyckman street subway station, it would then be possible for the Third Avenue Company to operate to this last named point over such line, and from there direct connection could be made by the construction of a comparatively short piece of additional road with the existing road of the Kingsbridge Railway Company on Broadway or Kingsbridge road. The Kingsbridge Company is controlled by the Third Avenue Company through ownership of stock.

History of the Company.

On December 18, 1852, the Common Council of the City adopted resolutions granting to Myndert Van Schaick and others permission to lay a double-track railroad from Park row and Broadway along Park row, Chatham street, the Bowery and Third avenue to the Harlem River, upon certain conditions, one of which was that within a reasonable time after the passage of the resolutions the parties to whom the grant was made might form themselves into an association to be vested with all the rights and privileges granted by said resolution.

On January 1, 1853, an agreement was entered into between The City of New York and said Van Schaick and others, which after reciting the above referred to resolutions, and stating that the agreement had been made in order to specifically determine the interests of the above named persons in the rights granted by the resolutions of December 18, 1852, provided that within ten days after the execution of such agreement, the said parties unless they or a majority of them should have previously done so, should organize themselves into an association or company to be called the Third Avenue Railroad Company. Pursuant to the above, the Third Avenue Railroad Company on October 8, 1853, filed a certificate of incorporation with the Secretary of State under and pursuant to the Railroad Law of 1850, "for the

purpose of maintaining, operating and finishing the construction of an incorporated railroad already partially constructed for public use in the conveyance of persons and property."

The route named in such certificate was that described in the agreement of January 1, 1853.

By chapter 504 of the Laws of 1870, the Commissioners of the Sinking Fund were authorized to sell at public auction to the highest bidder the right and franchise to construct and operate a railroad on certain streets named in the act. Among the streets so named were Third avenue from Harlem Bridge to One Hundred and Twenty-fifth street, One Hundred and Twenty-fifth street from the East River to Manhattan street and Tenth avenue, now Amsterdam avenue, from One Hundred and Twenty-fifth street to the terminus of said avenue. The sale was made on July 18, 1870, to Robert Squires, for \$67,000, and on the same date pursuant to the provisions of the aforesaid act, said Squires executed a bond in the sum of \$250,000 for the construction of the road with the exception of the portion of Tenth avenue within two years.

Under date of July 20, 1870, the Commissioners of the Sinking Fund certified to the sale of the franchise and the execution of the above named bond, whereupon on the same date, The City of New York by its Mayor and Board of Aldermen granted to said Squires the right to construct the said railway in accordance with the provisions of the aforesaid chapter 504 of the Laws of 1870.

The One Hundred and Twenty-fifth Street Railroad Company on November 26, 1870, filed its certificate of incorporation with the Secretary of State for the purpose of constructing and operating a street surface railway upon the streets and avenues named in the act of 1870, and on November 30, 1870, the said Squires transferred to this company all his right, title and interest in and to said railroad. This road was subsequently leased to the Third Avenue Company, and on April 23, 1886, and April 25, 1886, respectively, filed with the Secretary of State certificates of the surrender of its capital stock to and of its merger with said company under the name of the latter.

The Third Avenue Company on April 13, 1900, was leased to the Metropolitan Street Railway Company for 999 years. The lessee guaranteeing payment of principal and interest on certain bonds of the lessor, and dividends as specified in the lease, in lieu of rental.

By an indenture dated February 14, 1902, and filed in the office of the Secretary of State April 8, 1902, the Metropolitan Street Railway Company leased to the Interurban Street Railway Company (now the New York City Railway Company) its railroad routes and branches, etc., for a term of 999 years, and the lessee took possession of the property under the said lease as of April 1, 1902.

On September 24, 1907, temporary receivers were appointed for the New York City Company, and on October 1, 1907, the order appointing such receivers was extended to include the Metropolitan Company. The appointments were made permanent October 8, 1907. Upon advice of the Court, the Receivers failed to pay the dividend on the stock and interest on the bonds of the Third Avenue Company, and thus technically broke its lease to the Metropolitan Company.

By an order of the United States Circuit Court made January 6, 1908, upon the application of a majority of the bondholders of the Third Avenue Company, Mr. F. W. Whitridge was appointed receiver of said company, and took possession of its properties at midnight on January 11, 1908.

During February, 1908, the cars of the Forty-second Street, Manhattanville and St. Nicholas Avenue Railway Company (controlled by the Third Avenue Company) ceased operating on Broadway from Forty-second street to Houston street over the tracks of the New York City Railway Company, and since then have been diverted from Broadway at Forty-second street, and run through said street to First avenue and thence to the Thirty-fourth street ferry, thus operating only over tracks owned or controlled by the Third Avenue Company.

During the life of the lease of the Third Avenue Company to the Metropolitan Company, transfers were exchanged between the various other lines of the Metropolitan system and the Third Avenue Company, but on April 11, 1908, pursuant to a decision of Judge Lacombe of the United States Circuit Court, the exchange of transfers between the Third Avenue Company and the New York City Railway Company as lessee of the Metropolitan Street Railway Company was discontinued and since that date transfers have only been issued by the Third Avenue Company to and received from passengers of the Forty-second Street, Manhattanville and St. Nicholas Avenue Railway Company, the Kingsbridge Railway Company, and the Dry Dock, East Broadway and Battery Railroad Company at all intersecting points.

It would appear, therefore, that the Third Avenue Company is at present operating a separate and distinct system and is carrying passengers from the post office to Fort George for a single fare of five cents with transfer privileges as above indicated.

Car License Fees and Arrears for Street Paving.

The agreement of January 1, 1853, provided that the parties to whom the grant was made should "pay from the date of opening the said railroad the annual license fee for each car now allowed by law."

The ordinances of the City at that time imposed a car license fee of \$20 for horse cars.

In 1894 the Third Avenue Company changed its motive power from horse to underground cable, and later it was again changed to underground electrical traction.

After making the change to cable power, the company refused to pay a license fee for any of its cars claiming that the road was obligated to make such payment only when horse power was used.

Actions were subsequently brought by the City for the recovery of the amounts due and on February 10, 1908, a settlement of all claims for car license fees was made by the payment by the company of \$25,720, and judgment and costs amounting to \$18,841.

The company is still in arrears, however, for car license fees for the year 1900, amounting to \$5,600. After the lease of the Third Avenue Company to the Metropolitan Company, the last-named became liable for all such fees, and actions have been brought against it for the recovery of the same.

By the above mentioned resolution of December 18, 1852, ratified by the agreement of January 1, 1853, it was provided that the persons receiving the grant were "to become bound in a sufficient penalty to keep in good repair the space inside the track and a space two feet each side of the same of each street in which the rails are laid."

Section 98 of the Railroad Law provides as follows:

"Every street surface railroad corporation so long as it shall continue to use any of its tracks in any street, avenue or public place in any city or village shall have and keep in permanent repair that portion of such street, avenue or public place between its tracks, the rails of its tracks and two feet in width outside of its tracks under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. In case of the neglect of any corporation to make pavements or repairs after the expiration of thirty days' notice to do so, the local authorities may make the same at the expense of such corporation."

The claims of the City against the Third Avenue Company for paving in and about the tracks of the company amount to \$29,648.38.

It would seem that the company should meet its obligations to the City in these particulars and not oblige the latter to sue for compensation legally due, and that all outstanding arrears for car license fees and street paving should be liquidated before any further privileges are granted. I have accordingly inserted a provision in the proposed form of contract requiring the payment of the amounts due for car license fees and street paving within thirty (30) days from the date on which said contract is signed by the Mayor.

Joint Use of Tracks on St. Nicholas Avenue—The franchise to the Fort George Company, previously mentioned, contains a provision that said Company shall permit the use of its tracks and other equipment by any individual or corporation to which the City may grant the right to use the same streets, avenues or highways for street railway purposes upon payment by such individual or corporation of an annual sum not exceeding "the legal interest on such proportion of the whole cost of the construction of such railroad and of the cost of keeping the tracks and track equipment in repair as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice." The contract further provides that upon request of the Board the

Fort George Company shall consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the road constructed thereunder.

The portion of the contemplated extension on St. Nicholas avenue, between West One Hundred and Ninetieth street and Fort George avenue, a distance of about 800 feet, coincides with a portion of the grant to the Fort George Company.

Although the time for the completion of the road of this last named company expires October 1, 1908, no portion of such road has been constructed beyond a piece of single track about 100 feet long near the Dyckman street subway station.

At the meeting of the Board held June 12, 1908, the Fort George Company presented an application for an extension of time in which to complete the construction of its road of not less than six months from October 1, 1908, with leave to apply for a further extension if the same shall be necessary.

In reply to an inquiry from this Division, the attorney for the receiver of the Third Avenue Company states in relation to the above mentioned common piece of road:

"No negotiations have been had between the Fort George Company and the Third Avenue Railroad Company in respect to the construction of the road. The construction will probably be made by the Third Avenue Company,"—and also says that

"It is proposed to commence the construction of the proposed extension immediately upon the franchise being perfected, and it will probably not take more than three months to complete the same."

From the foregoing it would appear that the portion of the road on St. Nicholas avenue, between One Hundred and Ninetieth street and Fort George avenue, would be constructed by the Third Avenue Company. This view would seem to be borne out by the fact that the Third Avenue Company is to operate its cars by the underground system of electricity, while by the terms of its contract with the City the Fort George Company is permitted to employ the overhead system.

Conditions for the Proposed Franchise.

Loop for Passenger Cars Only and Not to Be Used for Storage.—The property adjacent to the route of the extension or loop is at present but little built up beyond the many places of amusement before mentioned. It is possible, however, that in time this district may become a residential section. In view of this possibility, and of the fact that the company has no car barns in this vicinity, it would appear advisable to limit the use of the tracks to passenger cars, and to further provide that such tracks shall not be used for the storage of cars; clauses to this effect have been inserted in the form of contract herewith submitted.

Underground Electric System.—It is stated in the application of the company that the extension will be operated by the underground system of electricity of the character now used on the existing roads of the petitioner. It seems unwise, however, to limit the company to this system throughout the entire term of the contract, for the reason that some other power may be discovered which may be used equally as well, and it is suggested that the company be allowed to use any other power except overhead electric, steam or horse power, which may lawfully be used, approved by the Board and be consented to by the abutting property owners and the Public Service Commission for the First District.

Repair and Construction of Pavement.—The Railroad Law provides that street surface railroad corporations using a street or avenue shall have and keep in permanent repair the portion of the street between the rails, the rails of the tracks and two feet outside thereof. This provision has been inserted in all franchises which have been granted by the Board to street surface railway corporations. A condition should also be made to require the company to bear its share and cost of pavement, when new pavement is laid on any portion of the route.

Fort George avenue is at present paved with macadam, but before many years it may be necessary or advisable to replace this with a more durable and permanent pavement, and the company should bear the proportionate expense of such new or altered pavement.

Protection of Structures in the Street.—Under date of June 9, 1908, the Deputy Commissioner of Water Supply, Gas and Electricity, in reply to a communication asking if there are special conditions which should be imposed in a franchise of this character for the protection of structures under his jurisdiction, states that the following stipulations should be embodied in the franchise:

"(1) No change to existing water mains shall be made without the permit of the Commissioner, and unless the plan showing the desired change has been submitted to and approved by the Chief Engineer of the Department of Water Supply, Gas and Electricity, and all such changes shall be made under his supervision and at your expense.

"(2) Where a joint on any main comes under the structure of the railway company it shall be moved by them outside of their structure.

"(3) Where a main is parallel to and under any structure of the railway company it shall be moved by the company outside of their structure.

"(4) New mains are to have at least four feet of covering, and a space of at least eighteen inches to be left between all the mains and any structure of the railway company.

"(5) No mains are to be obstructed by gas, electric or other subway pipes or conduits, but left free and accessible for any future repairs."

In addition to the above stipulations, it is requested that a provision be inserted requiring the company to give notice and obtain the permit of this Department forty-eight hours before commencing work and to pay the entire cost of inspection.

The Commissioner of Public Works, under date of June 12, 1908, in reply to a communication addressed to the President of the Borough of Manhattan in relation to the imposition of special conditions, states that the proposed extension will interfere with no existing sewers except in One Hundred and Ninetieth street, where the sewer is located in the centre of the street, and in consequence

"The manholes will come to the surface between the two tracks, making access to the sewer, especially for cleaning purposes, difficult and to some extent dangerous.

"I have, therefore, to request that all the manholes so located which appear upon the line of this extension shall be reconstructed on the outside of their tracks after the approved plan of side manhole to be had in this Department.

"I also suggest that it be made a condition of the franchise that whenever this Department finds it necessary to construct a sewer in Fort George avenue, the railroad company be required to bear the additional expense of constructing the side manholes which will be necessary for the proper operation of the lines of sewer underneath their tracks."

The "side" manholes referred to above are the usual type of vertical manhole, but instead of being built directly over the sewer are located to one side of it in such position in the street as to render access to them safe and free from interruption by traffic. Entrance to the sewer is had by a transverse chamber or passageway connecting the manhole with the sewer. The increased cost, therefore, would be that occasioned by the construction of the chamber. The removal of existing manholes from between the tracks to a point beyond them and the construction of future manholes at a point remote from the tracks will greatly aid in insuring to the company uninterrupted passage for its cars.

The proposed form of contract attached hereto requires the company to obtain from both the Borough President and the Commissioner of Water Supply, Gas and Electricity permits before the construction begins. This condition is also required by the City Charter. At the time these permits are obtained those officials may impose such conditions as seem fit, not inconsistent with the contract, in order to protect the structures under their care. The contract also provides that alterations to the sewerage or drainage systems or to subsurface or surface structures in the streets required on account of the construction or operation of the railway shall be made at the sole cost of the company, and in such manner as the City officials having jurisdiction may prescribe. I believe these provisions fully protect the City.

Term of Grant.—As previously stated, the main object of this extension at present is to provide increased transit facilities for the handling of passengers to and from the amusement places along and adjacent to its route. It has also been pointed out how a portion of this road may in time become a connecting link between the present Amsterdam avenue and Broadway lines.

Inasmuch as the portion of Manhattan adjacent to the route of the extension is in a partially undeveloped condition and its future is not assured, and in consideration of different routes being required on account of the future development or by reason of connections with other roads, I would suggest that the grant shall be for a term of

ten years, with the privilege of renewal for a further term of ten years upon a revaluation.

Compensation.

A franchise to an existing company in order to comply with the Railroad Law requires the payment to the City of 3 per cent. of the gross receipts during the first five years, and 5 per cent. thereafter, calculated upon the proportion of the total receipts of the company as the length of the extension bears to the total length of line of the company.

I would suggest that for the privilege granted, the Company shall pay an initial sum of twenty-five hundred dollars (\$2,500), and annually the minimum percentages provided in the Railroad Law, to wit: 3 per cent. of the gross earnings calculated as above, during the first five years, and 5 per cent. during the succeeding five years. For minimum sums for each term of five years during the life of the contract, I would recommend the following:

Annually during the first five years.....	\$1,300 00
Annually during the second five years.....	2,400 00

It is recommended that the usual deposit for the faithful performance of the terms and conditions of the contract be fixed at ten thousand dollars (\$10,000) in cash or securities.

The other conditions inserted in the proposed form of contract, which is appended, are those which have been employed in former grants to street surface railroad companies, and need, therefore, no discussion.

It is recommended that a copy of the proposed form of contract be transmitted to the applicant, and that it be directed to advise the Board on or before July 3, of its willingness to accept the terms and conditions herein proposed, or its objections thereto. A resolution to this effect is attached hereto.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Proposed Resolution.

Whereas, The Chief Engineer of this Board has this day presented a report and proposed form of contract, proposing certain terms and conditions to govern the grant of a franchise to the Receiver of Third Avenue Railroad Company, to construct, maintain and operate a street surface railway as an extension to the existing system of said company upon Fort George avenue, St. Nicholas avenue and West One Hundred and Ninetieth street, in the Borough of Manhattan; now, therefore, be it

Resolved, That the Secretary of this Board be and he hereby is directed to forward a copy of the aforesaid report and form of contract to the said Receiver of the Third Avenue Railroad Company, with instructions to direct said company to advise this Board on or before July 3, 1908, in writing over the signature of the said Receiver, as to its willingness to accept the franchise on the terms and conditions proposed, and in accordance with said contract, and should it fail to accept the contract in its entirety, the said railway company be and it is hereby directed in lieu of the aforementioned written statement, to prepare and deliver as aforesaid a statement in writing specifying in detail what sections and clauses of the proposed form of contract the company is ready and willing to accept, and as to the other sections and clauses furnish full and detailed information as to the reasons for the action taken.

Synopsis of Provisions of Contract.

- Section 1. Grant.
- Sec. 2. Conditions of grant:
 - First—Property owners' consents to be obtained within six months or application must be made to the Court within one month thereafter; otherwise rights to cease and determine.
 - Second—Term of grant ten years; with privilege of renewal for ten years upon revaluation.
 - Third—Compensation to the City; arrears for car license fees and paving to be paid; such compensation not to be considered a tax.
 - Fourth—When rights cease, property to become City's.
 - Fifth—Annual charges to be maintained throughout the term of contract.
 - Sixth—Rights not to be assigned.
 - Seventh—Right not exclusive.
 - Eighth—Motive power.
 - Ninth—All wires to be placed in conduits. The Company to furnish two conduits for the use of the City.
 - Tenth—Commencement and completion of construction.
 - Eleventh—Construction and operation to be under the control of City authorities.
 - Twelfth—Railway to be constructed and operated in the latest improved manner.
 - Thirteenth—Rate of fare not to exceed five cents on railway or any line or branch operated in connection therewith within the City.
 - Fourteenth—No freight cars to be operated. Tracks not to be used for storage of cars.
 - Fifteenth—Headway of cars.
 - Sixteenth—Fenders and wheel guards to be provided.
 - Seventeenth—Cars to be heated.
 - Eighteenth—Streets to be watered.
 - Nineteenth—Cars to be lighted.
 - Twentieth—Snow and ice to be removed.
 - Twenty-first—Company to keep in repair the pavement and must pave between tracks and two feet outside.
 - Twenty-second—Expense of alteration to sewerage or drainage system to be borne by Company.
 - Twenty-third—Permission to construct to be obtained from administrative officers.
 - Twenty-fourth—Construction or operation not to interfere with any public work.
 - Twenty-fifth—Company to change railway if grades of streets are changed. Roadways to be widened at expense of Company where necessary.
 - Twenty-sixth—Annual reports to the Board.
 - Twenty-seventh—Company to keep accurate books of account. Reports to Comptroller.
 - Twenty-eighth—City may sue for forfeiture.
 - Twenty-ninth—Fine of \$250 for inefficient public service.
 - Thirtieth—Company to assume all liability of damages.
 - Thirty-first—Security deposit, \$10,000.
 - Thirty-second—Grant subject to rights of abutting property owners.
 - Thirty-third—Definition of words "Notice" and "Direction."
 - Thirty-fourth—If authority of Board or other officer is transferred, then such other Board or officer shall act for City.
- Sec. 3. Provisions of Railroad Law to be complied with.
- Sec. 4. Company agrees to abide by all terms and conditions.

Proposed Form of Contract.

This contract, made this _____ day of _____, 1908, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and The Third Avenue Railroad Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the terms and conditions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railway, with the necessary wires and equipment for the purpose of conveying passengers in the Borough of Manhattan, City of New York, upon the following route:

Beginning at and connecting with the double track road on Amsterdam avenue at or near the connection of said avenue with Fort George avenue, running thence northerly, westerly and southerly in, upon and along said Fort George avenue, as it winds and turns to the connection thereof with St. Nicholas avenue, running thence southerly in, upon and along St. Nicholas avenue to the intersection of One Hundred and Ninetieth street, and running thence easterly in, upon and along said One Hundred and Ninetieth street to the intersection of said street with Amsterdam avenue, and there connecting with the existing tracks of the Company on said avenue. The said

route, with turnouts, switches and crossovers hereby authorized, is shown upon a map entitled:

"Map showing proposed extension or branch of The Third Avenue Railroad Company in the Borough of Manhattan, City of New York, to accompany petition to the Board of Estimate and Apportionment, dated June 2, 1908,"—and signed by F. W. Whitridge, Receiver, and T. F. Mullany, Chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed; provided, that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description, and the provisions of this contract, may be permitted by resolution of the Board.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within six months from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall, within one month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of ten (10) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for these privileges the following sums of money:

The sum of twenty-five hundred dollars (\$2,500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first term of five years an annual sum which shall in no case be less than thirteen hundred dollars (\$1,300), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of thirteen hundred dollars (\$1,300).

During the second term of five years an annual sum which shall in no case be less than twenty-four hundred dollars (\$2,400), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twenty-four hundred dollars (\$2,400).

The gross receipts mentioned above shall be the gross earnings of the Company from all sources within the limits of the City.

The payment of such minimum sums shall begin from the date on which this contract is signed by the Mayor.

Such minimum annual sums shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

Before any rights hereby conferred are exercised by the Company, and within thirty (30) days from the date on which this contract is signed by the Mayor, the Company shall pay to The City of New York the sum of \$5,600, with interest, which amount is due under the ordinances of the City for car license fees for the year 1900, and a further sum of \$29,648.38, which amount is due for paving in and about its tracks.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or by any law of the State of New York.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets, avenues and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payments for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or

lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways.

The use of said railway which shall be constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures, in public streets and avenues owned by the Company and used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railway and structures and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railway so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company pursuant to this contract.

Eighth—Said railway shall be operated by underground electric power substantially similar to the system of underground electric power now used by the street surface railways in the Borough of Manhattan, provided that any other power may be used, except locomotive steam power or horse power, which may lawfully be used, approved by the Board and consented to by the abutting property owners, in accordance with the provisions of law and by the Public Service Commission for the First District of the State of New York.

Ninth—No wires for the transmission of power shall be permitted unless they be placed in conduits underneath or along the side of the railway. When such conduits are constructed the Company shall provide two conduits not less than 3 inches in diameter each, for the exclusive use of the City. The Company hereby agrees that such conduits shall be used only by the Company and the City, as above.

Tenth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents, and shall complete the construction and place the same in full operation within six months from the date of obtaining such consents or such decision, otherwise this right shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each; and provided, further, that when the commencement or completion of said construction shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board either in its own name as a party, or in the name of the City as a party, may intervene in any such proceedings.

Eleventh—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

Twelfth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Thirteenth—The rate of fare for any passenger upon such railway shall not exceed 5 cents, and the Company shall not charge any passenger more than 5 cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars, and cars necessary for the repair or maintenance of the railway, and no freight or express cars shall be operated upon the tracks of said railway; and the tracks hereby authorized shall not be used for the storage of cars.

Fifteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Sixteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the terms of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Eighteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which said railway shall be constructed, shall cause to be watered at least three times every twenty-four hours when the temperature is above 35 degrees Fahrenheit, the entire width of the streets and avenues, except when the width of such streets and avenues shall exceed 60 feet between curb lines, in which case the Company shall cause to be watered only 60 feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Nineteenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Twentieth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of 2 feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Manhattan, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twenty-first—As long as the said railway, or any portion thereof, remains in any street, avenue or highway, the Company shall have and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks, and for a distance of 2 feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever

required by them to do so, and in such manner as they may prescribe. And the City shall have the right to change the material or character of the pavement of any street, avenue or highway, and in that event the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—Before any construction shall be commenced upon any portion of the route, written permits shall be obtained from the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, and the Company shall comply with any conditions which those officials may impose, as a condition upon which such permit is granted, provided such conditions are imposed for the purpose of protecting the structures over which those officials have jurisdiction.

Twenty-fourth—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hindrance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in a manner as directed by the President of the Borough of Manhattan.

Twenty-fifth—Should the grades or lines of the streets, avenues or highways in which the franchise is hereby granted be changed at any time during the term of this contract, or should any such street, avenue or highway be made a boulevard, in which it may be desirable to have the position of the tracks changed, the Company shall, at its own expense, change its tracks to conform with such new grades, lines and positions as shall be directed by the Board or by the official having jurisdiction of such streets, avenues, highways or boulevards, and during the construction of any public improvement upon said street, avenue, highway or boulevard, the Company shall take care of and protect the track at its own expense; all to be done subject to the direction of the official having jurisdiction.

Should, in the opinion of the President of the Borough of Manhattan, the present roadway of any of the said streets, avenues or highways be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall widen such roadway under the direction of the President of the Borough of Manhattan to a width sufficient to accommodate such traffic; provided, that no roadway shall be widened beyond the total width of the street, avenue or highway.

Twenty-sixth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
 2. The amount paid in as by last report.
 3. The total amount of capital stock paid in.
 4. The funded debt by last report.
 5. The total amount of funded debt.
 6. The floating debt as by last report.
 7. The total amount of floating debt.
 8. The total amount of funded and floating debt.
 9. The average rate per annum of interest on funded debt.
 10. Statement of dividends paid during the year.
 11. The total amount expended for same.
 12. The names of the directors elected at the last meeting of the corporation held for such purpose.
 13. Location, value and amount paid for real estate owned by the Company as by last report.
 14. Location, value and amount paid for real estate now owned by the Company.
 15. Number of passengers carried during the year.
 16. Total receipts of Company for each class of business.
 17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
 18. Total expenses for operation, including salaries.
- and such other information in regard to the business of the Company as may be required by the Board.

Twenty-seventh—The Company shall at all times keep accurate books of account of the gross earnings from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross earnings, the total miles in operation and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-eighth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-ninth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Thirtieth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-first—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railway, and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not

be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its President, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-second—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-third—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This contract is also upon the further and express condition that the provisions of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railways operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

THE CITY OF NEW YORK,
By.....Mayor.

[CORPORATE SEAL.]

Attest:

.....City Clerk.

THE THIRD AVENUE RAILROAD COMPANY,

[SEAL.]

By.....President.

Attest:

.....Secretary.

(Here add acknowledgments.)

The matter was then referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and The Bronx.

UNION RAILWAY COMPANY OF NEW YORK CITY.

A communication, dated June 8, 1908, was received from the Mayor's office, returning, duly approved by the Mayor, resolution adopted June 5, 1908, fixing this day as the date for public hearing on the petition of the Union Railway Company of New York City for a franchise, and designating the "New York Times" and the "New York Tribune" as the daily newspapers in which notice of such hearing should be published.

Which was ordered filed.

The public hearing on the petition of the Union Railway Company of New York City, for a franchise to construct, maintain and operate a branch or extension to its existing railway, connecting with the tracks of the Company at the intersection of Bailey avenue and West Two Hundred and Thirtieth street, and upon and along West Two Hundred and Thirtieth street to and connecting with the tracks of the Company in Broadway, Borough of The Bronx, was opened.

The hearing was fixed for this day by resolution adopted June 5, 1908.

Affidavits of publication from the "New York Times," the "New York Tribune" and the CITY RECORD were filed prior to the hearing.

No one appeared in opposition to the proposed grant.

F. W. Whitridge, Receiver of the Company, appeared in favor of same.

No one else desiring to be heard, the Chair declared the hearing closed.

The Secretary presented the following:

REPORT No. F-104.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 18, 1908.

MR. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of May 28, 1908, the Union Railway Company of New York City petitioned the Board of Estimate and Apportionment for the right to construct, maintain and operate an extension to its existing system of street surface railways beginning and connecting with the tracks of the company at the intersection of Bailey avenue and West Two Hundred and Thirtieth street, thence in West Two Hundred and Thirtieth street to and connecting with the tracks of the company in Broadway. The length of the extension proposed is about 750 feet, making about 1,500 feet of single track.

The petition was presented to the Board at the meeting held June 5, 1908, at which time Friday, June 26, was fixed as the date for the preliminary public hearing, and a resolution was adopted requesting the Mayor to designate two daily newspapers in which the petition and notice of hearing should be published, in pursuance of law. The papers designated are the "New York Times" and the "New York Tribune."

The object of the extension is to connect the route of the company now operated on Bailey avenue and Fordham road with the tracks on Broadway, from West Two Hundred and Thirtieth street to the City line, thus providing means for operating a through line from points on the lines of the company to the City line and Yonkers.

The Union Railway Company was formed by a consolidation agreement, dated July 2, 1892, between the Harlem Bridge, Morrisania and Fordham Railway Company, the Melrose and West Morrisania Railroad Company and the North Third Avenue and Fleetwood Park Railroad Company. The agreement was authorized by chapter 340 of the Laws of 1892. Franchises had previously been granted to

these companies by the State Legislature and local authorities, and they were, at the time of consolidation, operating several lines in the Borough of The Bronx.

Since organization the Union Railway Company has received from local authorities franchises to construct and operate various extensions, most of which were granted by the local authorities in 1892. Many of these extensions have been constructed and are now in operation, but there are, however, many miles of streets in which franchises were granted upon which no railway has been constructed by the company. It is believed that these franchises have become void, pursuant to the Railroad Law, because of their non-use.

The entire capital stock of the company (\$2,000,000 par value) is owned by the Third Avenue Railroad Company.

The Third Avenue Railroad Company, together with the property owned by it, was leased to the Metropolitan Street Railway Company on April 13, 1900. This latter company was leased February 14, 1902, to the Interurban Street Railway Company, the name of which was changed to the New York City Railway Company on February 10, 1904.

Receivers were appointed for the Union Railway Company on April 4, 1908, for the Third Avenue Railroad Company on January 6, 1908, and for the New York City Railway Company on September 24, 1907.

The franchise under which the Company is now operating in Bailey avenue was granted to the Union Railway Company as an extension to its existing lines by resolution of the Board of Aldermen adopted August 23, 1892, which was approved by the Mayor on August 26, 1892. The resolution described the route as along Bailey avenue and other streets and avenues, and terminating at the intersection of Bailey avenue and Broadway, at Kingsbridge, but no mention is made of West Two Hundred and Thirtieth street or Riverdale avenue, as it was formerly called. The description of the extension is, therefore, indefinite, since Bailey avenue does not intersect Broadway. It is stated in the petition of the company now before the Board that the company believed that the description was meant to include the right to construct on West Two Hundred and Thirtieth street, from Bailey avenue to Broadway.

The franchise under which the railway on Broadway is operated was granted to the Union Railway Company by resolution of the Board of Aldermen adopted December 27, 1892, and approved by the Mayor on December 28, 1892. This route extends from Kingsbridge road to the northerly City line. It does not now and never did connect with any other line of the Union Railway Company, and is now operated by the Yonkers Railroad Company, although the tracks are said to be owned by the Union Company. Cars are operated from West Two Hundred and Thirtieth street upon Broadway to the northerly City line, and to points beyond upon the lines of the Yonkers Railroad Company. The cars of the Yonkers Company are owned by the Union Railway Company, and the tracks upon Broadway within the City limits are operated by the Yonkers Company under trackage agreements or lease.

Under date of May 14, 1908, the receiver of the Union Railway Company petitioned the United States Circuit Court for authority to discontinue the issuance of transfers between its lines and the Manhattan Elevated Railroad, and also requested authority to discontinue the operation of the Yonkers Railroad Company upon the Broadway line. The Court granted the petition upon the condition that the Receiver will first undertake to make some satisfactory arrangement with the State Receiver and local authorities, and should he fail to make such arrangement he will take steps to make proper connection and to operate the Union Railway Company's tracks himself from the City line to Kingsbridge.

West Two Hundred and Thirtieth street was originally opened as Riverdale avenue, 60 feet in width, and was afterwards widened to 100 feet. Only 60 feet of the street is in use at the present time. The roadway near its intersection with Broadway is only about 20 feet in width. The roadway throughout the entire length of the street is paved with macadam.

An extension such as proposed is, I believe, a desirable one, both for the company and the public. The result of the Court's authorizing the Receiver to discontinue or exclude the Yonkers Railroad Company from the Broadway line is yet unknown. At the present time transfers are issued from the Broadway line to the lines of the Yonkers Railroad Company north of the City line, and transfers are issued to the Rapid Transit Subway Railroad at the temporary station at Riverdale avenue upon the payment of an additional fare of three cents, but no transfers, however, are issued from the Rapid Transit Subway Railroad to the Broadway line; neither are transfers issued between the Broadway line and the lines of the Union Railway Company. Should the Yonkers Railroad Company be excluded from operating on Broadway south of the City line, then that line must be operated by the Union Railway Company independent of other lines of its system, unless such connection as now proposed can be made. The construction of this connection would enable the cars of the Union Railway Company to be operated north as far at least as the City line by the way of Broadway, and no greater fare than five cents should be charged within the City limits.

Notwithstanding the desirability of this extension, the operation of a street surface railway over West Two Hundred and Thirtieth street presents some very serious difficulties. The street crosses the track of the Putnam Division of the New York Central and Hudson River Railroad Company at grade about midway between Bailey avenue and Broadway. This is a two-track crossing, many trains are operated thereon daily and the Kingsbridge Station is situated just south, at West Two Hundred and Thirtieth street. The elimination of the grade crossings in this vicinity has been under discussion for some time. This is a dangerous crossing, and the regulating and grading of the street as widened and the construction of a bridge across the tracks should be accomplished without delay.

The grades which were established at the time the map of the City was made for this vicinity were such that this bridge could be constructed. I understand, however, that there is considerable doubt about the actual established grade at the intersection of West Two Hundred and Thirtieth street and Bailey avenue. Until this question of grade is settled no provision for the improvement of the street can be made. It seems that a map was adopted on January 26, 1906, purporting to change the grade of several streets and avenues, one of which was Bailey avenue. The change of this avenue at West Two Hundred and Thirtieth street was more than seven feet. In the technical description upon which the public hearing prior to the adoption of the map was based, and in the resolution adopting the map, no mention was made of proposed changes of grade, but mention was made only of the change of lines of various streets as proposed and shown upon the map. In a case similar to this the Corporation Counsel has ruled that such grades are not actually changed.

The existing railroad crossing at this point is recognized as a dangerous one by the Borough officials, and is certainly a dangerous one upon which to operate a street railway. Furthermore, should the railway be constructed upon the street at its present grade it would be necessary for the railroad company to change the grade of the tracks to conform with the new grade of the street. While the work of regulating and grading is being done the operation of the cars must necessarily cease.

In view of the fact that this dangerous crossing must in the near future be eliminated I believe that the Board should take no final action upon the proposed franchise until the street is regulated and graded, and the grade crossing of the railroad eliminated. The first step to accomplish this is the removing of the doubt as to the grades of Bailey avenue. I would suggest that the Board adopt a regulation calling upon the President of the Borough of The Bronx to submit a map for the establishment of the grade at this point; after this is done negotiations should be opened with the New York Central Railroad Company to ascertain the position of that company in regard to its bearing the expense of construction of the bridge across its tracks.

I have submitted no form of contract with this report because of the recommendations made herein.

A resolution requesting the President of the Borough of The Bronx to submit a map showing grades for adoption is submitted herewith.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

PROPOSED RESOLUTION.

Whereas, The Union Railway Company of New York City has petitioned this Board for a franchise for a street surface railway on West Two Hundred and Thirtieth street, between Bailey avenue and Broadway, in the Borough of The Bronx; and

Whereas, The said street has not been regulated and graded and there is doubt of the established grade at the intersection of West Two Hundred and Thirtieth street and Bailey avenue; and

Whereas, It is the sense of the Board that no action should be taken upon the petition until the grades of the said streets have been redetermined and fixed by this Board; now therefore be it

Resolved, That the President of the Borough of The Bronx be requested to prepare a map or plan showing grades of Bailey avenue and adjoining streets between Fordham road and Van Cortlandt Park South, in the Borough of The Bronx, and transmit the same to the Chief Engineer of the Board of Estimate and Apportionment prior to August 1, 1908.

The matter was then referred to a Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and The Bronx.

RAPID TRANSIT RAILWAY.

River Avenue Elevated Road (The Bronx).

Consideration of the communication dated June 17, 1908, from the Public Service Commission for the First District, transmitting resolutions adopted by that body as to route and general plans for a proposed rapid transit railway along River avenue, in the Borough of The Bronx, and more particularly known as "River Avenue Elevated Road (The Bronx)," and requesting the approval and consent of this Board thereto.

This communication was received at the meeting of June 19, 1908, and by resolution adopted on that date, this day was fixed for its consideration.

The Secretary presented the following:

REPORT No. F-116.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Public Service Commission for the First District, in a communication of June 17, 1908, transmits for the approval of the Board of Estimate and Apportionment certified copy of resolution duly adopted by the said Commission on June 16, establishing a new route for a proposed rapid transit railway, known as the "River Avenue Elevated Road, The Bronx."

As outlined in the communication, this route is designed to connect with the Lexington avenue route, as modified, at a point in the Borough of The Bronx in Mott avenue, near One Hundred and Fiftieth street, and then runs northeasterly through and under Franz Sigel Park, private property, and the several cross streets, and emerges from the ground and on to an elevated structure at a point near the intersection of East One Hundred and Fifty-seventh street and River avenue, and thence continues northerly as an elevated structure along River avenue to a connection with the Jerome avenue elevated route at a point near Clarke place.

The object in laying out this additional route is to provide an alternate elevated route through a wide street (River avenue) to the Gerard avenue subway route, which will connect with the Jerome avenue elevated route and can be constructed at less expense, and further to provide a route which may be used as a connection with the proposed Seventh and Eighth avenue route.

The resolution reserves to the Commission the right to contract for the whole road in a single contract, or for portions of the same by separate contracts, and at first for two tracks only over a part or the whole, and afterwards by an additional track, or to provide that at any future time, upon the requirement of the Commission, the contractor shall construct the remainder, or any part of the remainder, of the said road, as the growth of the population or the interests of the City may, in the judgment of the Commission, require.

The plans call for three tracks throughout, of standard gauge and with the minimum height of thirteen feet in the clear in all tunnels. In tunnel construction there shall be a width of fifteen feet for each track and on viaducts a width of thirteen feet for each track, with an additional width of three feet on each side for outside footways.

I am of the opinion that the additional route as proposed is desirable and would be in the interest of the City, and I would, therefore, recommend that the Board approve of the route as proposed. Resolution for adoption is attached hereto.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The Public Service Commission for the First District, constituted pursuant to the provisions of chapter 429 of the Laws of 1907, has duly determined upon a route or routes and general plan of construction of a rapid transit railway for the conveyance of persons and property, to be established in The City of New York, in addition to the already existing lines, and did by resolution of June 16, 1908, adopt such route or routes and general plan, being more particularly known as "River Avenue Elevated Road (The Bronx)"; and

Whereas, Thereafter said Public Service Commission for the First District did transmit to the Board of Estimate and Apportionment of The City of New York a copy of the plans and conclusions for said route or routes, as adopted, which plans and conclusions were received by said Board of Estimate and Apportionment on the 19th day of June, 1908, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment, by resolution duly adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such plans and conclusions, to wit: The 26th day of June, 1908, at 10.30 o'clock a. m., and has proceeded with such consideration; and

Whereas, The plans and conclusions are fully set forth in the resolutions of said Public Service Commission for the First District, adopted June 16, 1908, and which resolutions are as follows:

Resolutions Adopted by the Public Service Commission for the First District, June 16, 1908.

RIVER AVENUE ELEVATED ROAD (THE BRONX):

Whereas, The Public Service Commission for the First District has determined that a rapid transit railway for the conveyance and transportation of persons and property, in addition to those already existing, authorized or proposed, is necessary for the interest of the public and of The City of New York and should be established therein as hereinafter provided; and

Whereas, This Commission has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination;

Now, Therefore, This Commission does hereby adopt the following route for an additional rapid transit railway in The City of New York and does hereby determine and establish the said additional route thereof as follows, and does hereby adopt a general plan of construction of the said railway, the route of which is herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Commission in adopting the said route and general plan expressly reserves all the powers in relation to the construction of the said route which

are conferred upon it by the Rapid Transit Act. In particular it reserves the right to contract for the construction of the whole road provided for in the following plan in a single contract, or by separate contracts executed from time to time, to provide for the construction of parts of said road or for the construction at first of two tracks over a part or parts of said road, and afterward of an additional track over a part of parts of said road, as the necessities of The City of New York and the increase of its population may in the judgment of this Commission require, or to provide in a contract for any part of such railroad that, at a future time, upon the requirement of this Commission the contractor shall construct the remainder or any part of the remainder of said road as the growth of the population or the interests of the City may, in the judgment of this Commission, require.

Route.

A route lying wholly within the Borough of The Bronx, the centre line of which shall begin at a point in Mott avenue, near East One Hundred and Fiftieth street, where a connection can conveniently be made with the Lexington Avenue Route, as modified, and running thence northerly under Mott avenue and crossing under the tracks of the New York Central and Hudson River Railroad Company and private property; thence curving in a north-westerly direction under East One Hundred and Fifty-third street, Franz Sigel Park, Walton avenue, private property and Gerard avenue to a point in private property in the block bounded by Gerard avenue, River avenue, East One Hundred and Fifty-third street and East One Hundred and Fifty-seventh street; curving thence in a northerly direction through private property and East One Hundred and Fifty-seventh street into River avenue at a point near East One Hundred and Fifty-seventh street; thence continuing northerly along River avenue and Jerome avenue to a point in Jerome avenue at or near Clarke place, where a connection can conveniently be made with a proposed elevated railroad known as the Jerome Avenue Elevated Route.

Plan of Construction.

The general plan of construction adopted for the route hereinbefore described is as follows:

For the whole of the said route there shall be three tracks.

All of the tracks shall be substantially parallel to each other and on substantially the same level, except that wherever required by special necessities of surface or subsurface structures or other special or local necessities and for the purpose of avoiding grade crossings, any one or more of the tracks may be elevated above or depressed below the level of the other track or tracks to the extent of not more than 20 feet.

The tracks from the point of beginning along Mott avenue, private property and the several cross streets to a point in the block bounded by Gerard avenue, River avenue, East One Hundred and Fifty-third street and East One Hundred and Fifty-seventh street, where the route begins to emerge from the ground shall be in subway or tunnel, and from the last mentioned point to the northerly terminus of the said road the tracks shall be carried upon a viaduct over and along River avenue and Jerome avenue.

The tracks shall be placed in general under or over the central part of the longitudinal streets which form a portion of the route above described, so far as may be practicable and convenient, but wherever required by special or local necessities or for curves the tracks or any one or more of them may be diverted as far as necessary to one side or the other of such streets or any of them. But no exterior line of the tunnel or viaduct (except at stations, station approaches, curves and places of access to subsurface structures as hereinafter provided) shall be within a distance of five feet of the exterior line or side of the longitudinal streets of the route.

Where the tracks change from tunnel to viaduct the change shall be so made as to involve the use of the surface to the least possible extent consistent with the proper gradient for the tracks.

Wherever necessary for the proper support of the surface of a street the roof of the tunnels shall be of iron or steel with brick or concrete arches supported when necessary by iron or steel or masonry columns and resting upon masonry walls; or the roof may be a masonry structure or the whole of the lining may be of metal.

The roof of the tunnel when under a street shall be as near the surface as street conditions and grades will conveniently permit.

The tunnel shall in no case be less than 13 feet in height in the clear.

There shall be a width in the tunnel not exceeding 15 feet for each track, in addition to the thickness of the supporting walls, except that at stations, switches, turnouts, curves and crossovers the width may be increased.

Viaducts shall be built with a width of 13 feet for each track, except on curves or where greater width is required for special construction, and with an additional width of 3 feet on each side for outside foot-ways. Viaducts may be built of metal or of masonry or of both.

The tracks shall be of standard gauge, that is to say, of the width of 4 feet and 8½ inches between the gauge lines.

Adjacent tracks shall be connected by necessary and suitable switches and connections, and an additional track for siding accommodations may be constructed not to exceed in length ¼ of a mile for each mile of roadway.

There shall be as many additional tracks as may be needed for convenient operation of terminals, if necessary, under Franz Sigel Park and contiguous private property, or under other adjacent streets or private property along this route.

The tracks wherever constructed below the surface may at any point of the route be placed in the same tunnel, or there may be separate tunnels for one or more tracks, as shall be most convenient.

Stations and station approaches shall in general be at the intersections of streets and shall be built under, or if the position of the tracks so require, over the streets, and immediately adjoining private abutting property, or through private property to be acquired for the purpose, or both under or over streets and through private property as aforesaid. The streets under or over which stations or station approaches shall be built may include cross streets, but no part of any cross street shall be used for a station approach at a distance greater than 75 feet from the exterior line or side of the longitudinal street of the route.

Wherever along any part of the route above described it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers or other subsurface structures, the removal, construction or reconstruction of which shall be rendered necessary by the construction of the railway, the width of any tunnel or subway may be enlarged on either or both sides by an additional width, not to exceed 15 feet on each side, provided always that the limits hereinbefore provided as to the longitudinal streets of the route shall be observed. All or any pipes, wires, sewers or other subsurface structures may be placed in suitable galleries to be constructed within the additional widths hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be thus provided within the tunnels or subways, such tunnels or subways, in order to provide convenient access to the same, may have, within the limit of the sides or exterior lines of such cross streets or such lines produced, an additional width on each side of the routes not to exceed 15 feet.

Pipes, wires, sewers, street railway tracks, poles for electric wires and other surface and subsurface structures at any part of the said routes shall be removed or disturbed only when necessary for the construction and operation of the railway above referred to, and if removed or disturbed shall be placed over, upon or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. All pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration, or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction shall be by tunneling or open excavation. In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall be replaced under the direction and to the satisfaction of the said Department.

Mode of Operation.

The general mode of operation of the route or routes above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour for long distances, exclusive of stops.

Definitions.

The word "street" wherever used herein shall include an avenue or public place.

The words "Rapid Transit Act" wherever used herein shall be taken and held to mean chapter 4 of the Laws of 1891, entitled "An act to provide for Rapid Transit Railroads in cities of more than one million inhabitants," as amended by chapter 752 of the Laws of 1894, and chapter 429 of the Laws of 1907, and other acts of the Legislature.

Maps and Drawings.

It is further

Resolved, That the map and drawing entitled "Public Service Commission for the First District, routes and general plan" and marked "Bronx A, Sheet No. 2-B" be and is hereby adopted as showing the foregoing route and general plan for convenience merely, and that the said map and drawing is not to be deemed a part of the description of the route or a part of the general plan for any purpose whatever.

Now, therefore, be it Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves such plans and conclusions, and consents to the construction of a railway or railways in accordance therewith.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

RAPID TRANSIT RAILWAY.

Addition to Bowling Green Station, and Additional Track to Permit Installation of Shuttle Service Between Bowling Green Station and South Ferry Station.

Consideration of the communication, dated June 16, 1908, from the Public Service Commission for the First District, transmitting agreement dated June 18, 1908, modifying Contract No. 2 for the construction and operation of a rapid transit railroad, dated July 21, 1902, between the City and the Rapid Transit Construction Company, so as to provide for an addition to the Bowling Green station, and an additional track, to permit the installation of a shuttle service between the Bowling Green station and South Ferry Station, to avoid the delay in the operation of through service to the Borough of Brooklyn.

This communication was presented to the Board at its meeting of June 19, 1908, and by resolution adopted on that date, this day was fixed for its consideration.

The Secretary presented the following:

REPORT NO. P-117.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Public Service Commission for the First District, in a communication of June 16, 1908, transmits a form of agreement modifying the contract dated July 31, 1902, between the City and Rapid Transit Subway Construction Company for the construction of the Brooklyn-Manhattan Rapid Transit Railroad, which agreement provides for the necessary changes in the structure of the railroad at Bowling Green Station to permit of the installation of a shuttle service between Bowling Green Station and the South Ferry Station.

This communication was received at the meeting of the Board held June 19, and, in pursuance of law, the Board set Friday, June 26, as the date for its consideration.

At the present time only a portion of the trains upon the Rapid Transit Railway from upper Manhattan and The Bronx, which run south of the City Hall, Manhattan, are operated as through trains to Brooklyn, the remaining number being operated to the South Ferry Station at the Battery, where they round the loop on a single track and return uptown. I am informed that the present operation of cars around the loop at South Ferry seriously impedes the through service to Brooklyn, and that if all trains operating south of the City Hall, Manhattan, could be operated to Brooklyn, the service would be practically doubled. It is also stated that the traffic to Brooklyn is greater at this time than can be handled satisfactorily by the present arrangement and that it is constantly increasing.

If all trains are operated as through trains to Brooklyn, this would completely shut off the South Ferry Station, and to provide for the necessary service at this point, it is proposed to alter the Bowling Green Station by building an additional island platform on the west side with a corresponding track, which will enable the company to operate a shuttle service between the Bowling Green Station and South Ferry.

The estimated cost of the alterations is placed at one hundred thousand dollars (\$100,000), such limit being incorporated in the agreement. The work is to be done as extra work under the original contract, and the cost thereof is to be charged to the contract price, upon which the lessee will pay interest in Sinking Fund charges.

This change, if made, will not give as satisfactory a service to the patrons of the road at the South Ferry Station, but, as I am informed that the traffic in Brooklyn is many times greater than that to the South Ferry Station, it would seem to be that this is a case of the greatest good to the greatest number, and I am of the opinion that the tube to Brooklyn should be used to its full capacity, which it is stated, cannot be done under the present arrangements.

If the Board approves of the agreement as submitted, it will be necessary for it to provide the means for its construction in the sum of one hundred thousand dollars (\$100,000), and a formal requisition for such amount is submitted by the Public Service Commission.

If the change is to be made it will be more desirable for it to be done during the summer months than when the fall traffic commences, which will probably be greater at that time.

A form of resolution approving the proposed alterations is transmitted herewith.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The Public Service Commission for the First District, constituted pursuant to the provisions of chapter 429 of the Laws of 1907, has duly determined upon a modification of the contract dated July 21, 1902, for the construction and operation of a rapid transit railway for the conveyance of persons and property, to be established in the said City, as heretofore transmitted to the Board of Aldermen by the Board of Rapid Transit Railroad Commissioners

for The City of New York, as predecessor of the Public Service Commission for the First District; and

Whereas, Thereafter the said Public Service Commission for the First District did transmit to the Board of Estimate and Apportionment of The City of New York a proposed agreement modifying the contract for the construction and operation of said rapid transit railway, which agreement was received by said Board of Estimate and Apportionment on the 19th day of June, 1908, at a meeting of said Board of Estimate and Apportionment duly held on said day; and

Whereas, Said Board of Estimate and Apportionment by resolution adopted at said meeting, did appoint a day not less than one week nor more than ten days after the receipt thereof for the consideration of such proposed agreement, modifying said contract, to wit, the 26th day of June, 1908, at 10.30 o'clock a. m., and has proceeded with such consideration; and

Whereas, The proposed agreement modifying the aforesaid contract is as follows:

Agreement made this 18th day of June, in the year nineteen hundred and eight, between The City of New York (hereinafter called "the City"), acting by the Public Service Commission for the First District (hereinafter called "the Commission"), party of the first part, and Rapid Transit Subway Construction Company, a corporation organized and existing under the laws of the State of New York (hereinafter called "the Contractor"), party of the second part, and Interborough Rapid Transit Company, a corporation organized and existing under the laws of the State of New York (hereinafter called "Interborough Company"), party of the third part, witnesseth:

Whereas, Heretofore and on or about the 21st day of July, 1902, the City, acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter called "the Board"), entered into a contract with the Contractor for the construction and operation of a Rapid Transit Railroad in The City of New York (hereinafter called "the Railroad"), the said contract for construction and operation being hereinafter styled "the Contract," which contract has been from time to time modified by certain other agreements between the said parties; and

Whereas, The Contractor has deposited with the Comptroller of the City certain security for the performance of the Contract on his part, and has given certain bonds as further security for such performance, and upon such bonds there are now sureties as follows: The United States Fidelity and Guaranty Company, the Empire State Surety Company, National Surety Company, Fidelity and Deposit Company of Maryland, and the Aetna Indemnity Company; and

Whereas, By written instruments bearing date the 10th day of August, 1905, the Contractor, with the written consent of the Board, concurred in by six members thereof, duly assigned the right and obligation to maintain and operate the Railroad for the term of years specified in the Contract and all rights included in the leasing provisions of the Contract, together with the obligation to provide equipment for the said Railroad unto Interborough Company, which Company also guaranteed the performance by the Contractor of the provisions of so much of the Contract as was not so assigned to it; and

Whereas, The Interborough Company is now operating the Railroad in conjunction with the railroad known as the Manhattan-Bronx Rapid Transit Railroad constructed under the contract of February 21, 1900, between The City of New York and John B. McDonald, and operates trains from the northerly termini of such road in the Boroughs of Manhattan and The Bronx to the terminus of the Railroad in the Borough of Brooklyn; and

Whereas, The operation of through traffic to the Borough of Brooklyn is interfered with by the operation of a portion of such traffic through a loop forming part of the Railroad, which loop begins south of the Bowling Green Station of the Railroad and extends under Battery Park and the adjacent streets; and

Whereas, The Contractor and the Interborough Company desire, and the Commission approves, a modification of the Contract to provide for the necessary changes in the Railroad in order that all of such through traffic over the said Manhattan-Bronx Road and the Railroad may be operated to Brooklyn and a shuttle service installed between the Bowling Green Station and the South Ferry Station; and

Whereas, It is provided in the Contract that the Board or its successors shall have the right to require additional work to be done or additional materials to be furnished or both, within the general purview of a rapid transit railroad as therein described, the reasonable value of which shall be additionally paid to the Contractor; and

Whereas, The Commission has succeeded to all the powers and duties of the Board;

Now, therefore, in consideration of the premises, but subject to the consents hereinafter provided, it is agreed that the Contract be and the same hereby is modified as follows:

In addition to all other work of construction there shall be constructed an addition to the Bowling Green Station and an additional track, all as indicated upon the drawing hereto annexed signed by the Acting Chief Engineer to the Commission and dated the 8th day of June, 1908, and designated "Public Service Commission for the First District, Chief Engineer's Office, Contract No. 2, Bowling Green Station—Proposed Island Platform and Spur for Shuttle Service, Drawing No. 429," and the Con-

2

tractor undertakes and agrees to do such work at an expense not exceeding one hundred thousand dollars (\$100,000) and within a period of six months from the date of the issuance of the permit to do the work, unless such time shall be extended by the Commission.

And it is further agreed, that such cost of constructing the said modifications, together with all work incidental thereto, including the necessary changes to the present structure and apparatus, shall be deemed a part of the cost of constructing the Railroad and shall be paid to the Contractor in the manner provided in the Contract, in addition to the amounts in said Contract agreed to be paid to the Contractor; and such cost shall be included in the total cost of the construction of the Railroad in determining the amount of rental to be paid under the Contract in like manner as if such work had been originally required by or authorized in the Contract.

And it is hereby further understood and agreed, that in computing the rental payable under the Contract, the interest actually paid by the City on bonds heretofore issued or that may hereafter be issued for construction, shall be the basis of the said computation notwithstanding the rate of interest so paid may exceed three and one-half (3½) per cent., the rate which was limited by law at the time the Contract was made;

Provided, however, and it is expressly agreed that this agreement shall take effect if and when and only when the following consents shall have been duly had, to wit:

1. The consent of the Board of Estimate and Apportionment of The City of New York.
2. The consents of the United States Fidelity and Guaranty Company, the Empire State Surety Company, National Surety Company, Fidelity and Deposit Company of Maryland, and the Aetna Indemnity Company.

In witness whereof, this contract has been executed for The City of New York by the Public Service Commission for the First District and the seal of the Commission has been hereto affixed and attested by its Secretary, and these presents signed by its Acting Chairman, and the said Rapid Transit Subway Construction Company and the said Interborough Rapid Transit Company have caused their corporate seals to be hereto affixed and attested

by their secretaries, and these presents to be signed by their presidents—all the day and year first above written.

APPROVAL BY CORPORATION COUNSEL.

The foregoing contract is hereby approved as to form.

Dated, New York, June 18, 1908.

JOHN L. O'BRIEN, Acting Corporation Counsel.

Now, therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves the proposed agreement, modifying the contract, dated July 21, 1902, for the construction and operation of a rapid transit railway, and consents to the construction and operation of said rapid transit railway in accordance therewith.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

FLATBUSH GAS COMPANY.

In the matter of the petition of the Flatbush Gas Company for a franchise to construct, maintain and operate suitable wires or other conductors, with the necessary poles, wires and appurtenances, in the Ocean parkway and territory adjacent thereto, from Foster avenue to the Ocean, Borough of Brooklyn.

This petition was presented to the Board at its meeting of April 24, 1908, and was referred to the Chief Engineer.

The Secretary presented the following:

REPORT No. F-105.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 17, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—On April 6, 1908, the Flatbush Gas Company filed with the Board of Estimate and Apportionment a petition for a franchise to construct, lay, maintain and operate suitable wires or other conductors with the necessary poles, pipes or other fixtures in the Ocean parkway, and the territory adjacent thereto, from Foster avenue to the Ocean, said territory being in the Borough of Brooklyn. This petition was presented to the Board at a meeting held April 24, 1908, and by it referred to the Chief Engineer.

The franchise thus applied for is desired by the company, in order that it may lawfully maintain and operate a conduit laid by it in the Ocean parkway, under a contract with the Park Commissioner of the City of Brooklyn, entered into on August 4, 1897, and which was held by the Court of Appeals in the Matter of the People ex rel. the Flatbush Gas Company against Bird S. Coler, as President, et al., 190 N. Y., 268, not to constitute such a franchise as would authorize the company to maintain its conduit, as the Park Commissioner was not the proper local authority to grant such a consent.

It appears that prior to 1897, when the above mentioned contract was entered into, a company known as the Knickerbocker Electric Light and Power Company was granted the consent of the Town Board of the Town of Flatbush, to lay, erect and construct suitable wires and other conductors in the streets, avenues, public parks and places thereof for the purpose of supplying electricity for lighting, power and traction. This company was later sold to the Flatbush Gas Company, and the last-named company claims that notwithstanding the decision of the Court of Appeals above mentioned, the franchise of the Town Board of the Town of Flatbush to the Knickerbocker Company covers that portion of the Ocean parkway between the Circle at Prospect Park and Foster avenue, being the portion that was formerly the old Town of Flatbush.

On April 6, the Secretary of the Board transmitted to the Corporation Counsel a report of this Division, with the request that he advise as to whether the company has a valid right to maintain its conduit, and operate in the Ocean parkway, between the Circle at Prospect Park and Foster avenue, under such consent of the Town Board. Up to the present date no opinion has been received from the Corporation Counsel in regard to this matter.

Under date of April 24, this Division addressed a communication to the Commissioner of Water Supply, Gas and Electricity, requesting information as to the territory in which the Flatbush Gas Company was operating in the Borough of Brooklyn, and suggestions as to the conditions which he might deem desirable to have inserted in any proposed grant to this company.

On May 7 the Deputy Commissioner of Water Supply, Gas and Electricity addressed a communication to this Division inclosing a copy of a report of Mr. H. S. Wynkoop, the Electrical Engineer of that Department, for the Borough of Brooklyn, which stated that the company was operating in several places outside of the former Town of Flatbush, and suggesting that its application should be amended so as to cover all points served by it outside of the territory, in which it claims a franchise.

In connection with this matter, and at the suggestion of this Division, a conference was held between the attorneys for the company and Mr. Wynkoop, and as a result of such conference, the Department of Water Supply, Gas and Electricity, on May 26, 1908, advised this Division that it was the understanding of that Department that the attorneys for the company would submit an amended petition to meet the objections raised by the Department upon the original application. Up to the present time the company has not submitted such amended petition.

I would therefore suggest that in order to facilitate the consideration of this matter by the Board, it adopt a resolution calling upon the company by its representatives to consult with the Corporation Counsel as to whether it has a valid franchise in that portion of the Ocean parkway between the Circle at Prospect Park and Foster avenue, and to submit to the Board on or before Monday, July 6, a new or amended petition covering that portion of the Ocean parkway in which it may be decided by the Corporation Counsel that the company has no franchise, and such other territory in which it is operating without the consent of the local authorities.

I am inclosing herewith form of resolution for this purpose, fixing Friday, September 18, 1908, as the date for a public hearing on the new or amended petition to be submitted by the company.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The Flatbush Gas Company, under date of January 2, 1896, and January 4, 1897, entered into two certain contracts with the Commissioner of Parks of the City of Brooklyn, under which the said company laid a conduit in the Ocean parkway,

from the Circle at Prospect Park to Surf avenue at Coney Island, thence along Surf avenue to West Fifth street; and

Whereas, The Court of Appeals, in the Matter of the People of the State of New York ex rel. the Flatbush Gas Company against Bird S. Coler, as President et al., 190 N. Y., 268, decided that these contracts did not vest the company with a valid franchise to maintain and operate this conduit, for the purpose of supplying electricity to public and private consumers; and

Whereas, The company claims that this decision does not affect its rights in the Ocean parkway, from the Circle at Prospect Park to Foster avenue, being that portion thereof lying in the territory formerly known as the Town of Flatbush, and has submitted to the Board a petition covering only that portion of the parkway and the territory adjacent thereto, between Foster avenue and the Ocean; and

Whereas, The question as to the company's right in that part of the Ocean parkway between the Circle at Prospect Park and Foster avenue has been submitted to the Corporation Counsel for his opinion; and

Whereas, It appears further that the company is operating without authority in certain other territory outside of the former Town of Flatbush, now the Twentieth Ward of the Borough of Brooklyn, wherein it claims a franchise, and that the attorneys for the company, after a conference with the Electrical Engineer of the Department of Water Supply, Gas and Electricity for the Borough of Brooklyn, have agreed to amend the application of the company so as to cover such territory in which it is operating without authority; now therefore be it

Resolved, That the Flatbush Gas Company, by its representatives, be and it is hereby directed to consult with the Corporation Counsel as to its authority to operate in that portion of the Ocean parkway between the Circle at Prospect Park and Foster avenue; and be it further

Resolved, That the company shall, after such consultation and decision by the Corporation Counsel, submit to this Board on or before Monday, July 6, an amended or new petition, covering all the territory in which it now appears that it is operating without a franchise, and such other territory in which it may be decided by the Corporation Counsel that the company is without authority to operate; and be it further

Resolved, That, in pursuance of law, this Board sets the 18th day of September, 1908, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such amended or new petition and the form of resolution hereto attached to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

FORM OF RESOLUTION FOR PUBLICATION.

City of New York, Board of Estimate and Apportionment.

(Insert new or amended application here.)

Whereas, The foregoing petition from the Flatbush Gas Company, dated _____, 190____, has been submitted to the Board of Estimate and Apportionment,

Resolved, That in pursuance of law this Board sets the eighteenth day of September, 1908, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

EAST RIVER TERMINAL RAILROAD.

The Secretary presented the following:

REPORT NO. F-106.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 18, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of January 3, 1907, the firm of Havemeyers & Elder petitioned the Board of Estimate and Apportionment for the right to construct, maintain and operate several tracks across Kent and Wythe avenues, between North Fourth and North Third streets, and in North Fourth street, between Wythe avenue and the East River. It was proposed to use these tracks for the transportation of freight between the warehouses owned by the firm of Havemeyers & Elder.

The petition was presented to the Board at the meeting held on January 18, 1907, and referred to the Bureau of Franchises. Inquiry was made of the President of the Borough of Brooklyn for suggestions in regard to the proposition, and was taken up by him with the representatives of the petitioner, with the result that the petition was amended under date of April 16, 1907, by withdrawing the petition for two of the tracks proposed and making certain alterations in the position of other tracks. This amended petition was referred to the Chief Engineer at the meeting of the Board held on April 26, 1907.

In view of the fact that the firm of Havemeyers & Elder was not incorporated as a railroad company, the opinion of the Corporation Counsel was asked as to whether the City could legally grant a franchise of this character to that firm.

Under date of July 19, 1907, the Corporation Counsel replied thereto, and stated that he was of the opinion that such a franchise could not be granted to an individual or firm which was not incorporated as a railroad company, and further, that the use of the streets by the railroad of Messrs. Havemeyers & Elder would be a private and not a public enterprise, and for that reason the Board could not grant the franchise. In consequence of this opinion, the Board denied the application on September 20, 1907.

The petitioners have now incorporated a company under the name of East River Terminal Railroad, which, under date of January 15, 1908, has petitioned the Board for the right to construct, maintain and operate tracks, as previously petitioned for by the firm of Havemeyers & Elder.

The petition was presented to the Board at its meeting of January 24, 1908, and referred to the Chief Engineer, but the Company failed until recently to submit maps showing the rights applied for.

It is suggested that the Board fix September 18, 1908, as the date for preliminary public hearing, prior to which time I shall submit a report upon the petition.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

BEFORE THE BOARD OF ESTIMATE AND APPORTIONMENT OF THE CITY OF NEW YORK.

In the Matter

of

The application of East River Terminal Railroad for a franchise to operate a railroad in the Borough of Brooklyn and to lay down and maintain tracks in connection therewith on North Fourth street, Kent avenue and Wythe avenue, in said Borough.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The petition of the East River Terminal Railroad respectfully shows to your Honorable Board:

I. That your petitioner is a corporation duly organized under and by virtue of the laws of this State as a railroad corporation for the transportation and carriage of freight exclusively, with an office and principal place of business located at No. 113 Wall street, in the Borough of Manhattan, City of New York, and that William Butler Duncan, Jr., of Port Washington, N. Y., is the President, and John McCafferty, of the Borough of Brooklyn, is the Secretary thereof.

II. That your petitioner is desirous of establishing and maintaining large freight terminals or stations in the Borough of Brooklyn, City of New York, where all classes of freight may be shipped and received by the public, and delivered to and received from the trunk lines traversing the United States and Canada, which said freight terminals or stations when established will connect with and be used in conjunction with the freight terminal stations already established in the same locality of the New York Central and Hudson River Railroad, West Shore Railroad, Vermont Central Railroad, Lehigh Valley Railroad, Erie lines, Central Railroad of New Jersey, Grand Trunk lines and other railroad and transportation lines.

III. Said terminals or freight stations are to be for the use of the public for the shipment, receipt and distribution of all classes of freight, and are designed to relieve conditions in the eastern district or Williamsburgh section of the Borough of Brooklyn, which has grown almost unprecedentedly in an industrial way in the last seven years, and has increased almost a quarter of a million in population in the same time, while the facilities for the handling of freight are practically as they were twenty-five years ago, and therefore totally inadequate to respond to present requirements. Numerous large industries have recently located their manufactories in this section, with the result that the present facilities are unequal to the large volume of freight being shipped, received and distributed there, and in order to meet the imperative needs of the locality, your petitioner, in the event of the granting of a franchise by your Honorable Board, as herein prayed for, proposes to establish and maintain the aforesaid terminals, and in order to render a plan of operation which will admit of the receipt and distribution of freight directly to and from the cars upon said premises affected, it will be necessary to haul the cars from the point of delivery from the floats upon which they are ferried to Brooklyn, from the termini of the various trunk lines, which point of delivery is on the East River water-front, between North Third and North Fourth streets, in said Borough.

IV. To the end that your petitioner may carry out its proposed plan, it hereby petitions your Honorable Board for a franchise to operate a railroad in the Borough of Brooklyn, City of New York, on and along North Fourth street, a public highway, and across Kent avenue and Wythe avenue in said Borough, the road so to be operated along North Fourth street to be a single track road entering upon said highway at a point midway between the East River water-front and Kent avenue, and running thence easterly along said North Fourth street about three hundred feet to a point about midway between Kent avenue and Wythe avenue and across the sidewalk of said North Fourth street into terminal premises already the property of Havemeyers & Elder. The western termini of said track being on the easterly side of the East River at a point between North Third and North Fourth streets, and the eastern termini to be at the hereinbefore mentioned point on North Fourth street, midway between Kent avenue and Wythe avenue. And further, to operate a railroad for freight purposes exclusively across Kent avenue, a public highway, between North Third and North Fourth streets, in the Borough of Brooklyn, City of New York, from the westerly side or house line thereof to the easterly side or house line thereof, which shall consist of six tracks, and also a franchise for a railway on Wythe avenue, a public highway in the said Borough and City, between North Third and North Fourth streets, from the westerly side or house line thereof to the easterly side or house line thereof, which shall consist of three tracks, and for the aforesaid purposes to lay down and maintain a track of regulation or conventional width along North Fourth street, between the points heretofore indicated, and six tracks of regulation or conventional width across Kent avenue, between North Third and North Fourth streets, and three tracks of regulation or conventional width in Wythe avenue, between the points aforesaid, all of which are to connect freight stations or terminals proposed to be erected, and indicated on a plan attached hereto, entitled "Plan showing proposed tracks on North Fourth street, Kent avenue and Wythe avenue, Borough of Brooklyn, New York, to accompany application of East River Terminal Railroad, dated January 15, 1908, to the Board of Estimate and Apportionment," all of which tracks are to be installed without injury or interference with pipes, mains and conduits already in said streets and avenues, and are to be maintained in a depressed situation so as to present no obstacle to vehicular traffic.

V. That the motor power to be employed shall be an electric engine or steam engine of the dummy type.

VI. That a previous application has heretofore been made to this Board for the franchise and privilege herein prayed for by Messrs. Havemeyers & Elder, but said application was denied upon the advice of the Corporation Counsel, owing to the decision in the case of Hatfield against Straus, and the present application represents a renewal by your petitioner, a duly incorporated railroad corporation.

Dated New York, January 15, 1908.

EAST RIVER TERMINAL RAILROAD.

By W. B. DUNCAN, Jr., President.

City and State of New York, County of New York, Borough of Manhattan, ss.:

William Butler Duncan, Jr., being duly sworn, deposes and says that he is the President of East River Terminal Railroad, the petitioner herein; that he has read the petition herein and knows the contents thereof, and that the same is true to his own knowledge except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

WILLIAM BUTLER DUNCAN, JR.

Sworn to before me this 15th day of January, 1908.

DAVID GRANT,

Notary Public, Kings County, No. 81.

Certificate filed, New York County.

The following was offered:

Whereas, The foregoing petition from East River Terminal Railroad, dated January 15, 1908, was presented to the Board of Estimate and Apportionment at a meeting held January 24, 1908.

Resolved, That in pursuance of law this Board sets the 18th day of September, 1908, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in

the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

NEW YORK AND NORTH SHORE TRACTION COMPANY.

The Secretary presented the following:

REPORT No. F-108.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of June 11, 1908, the New York and North Shore Traction Company, by its President, Mr. John J. Stanley, petitioned the Board for the right to construct, maintain and operate a street surface railway in the Borough of Queens, as an extension to its existing or proposed line in Nassau County.

It is proposed to construct a railway from the intersection of the City line and Broadway, thence upon Broadway and Tenth street, in the former Village of Bayside, and various other streets and private property, to the intersection of Prince street with Broadway, in the former Village of Flushing, and a branch upon Broadway from Tenth street to Bell avenue, in the former Village of Bayside.

I would suggest that the Board fix September 18, 1908, as the date for the preliminary public hearing upon the petition, previous to which time I shall submit a report together with a proposed form of contract for the franchise.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the New York and North Shore Traction Company respectfully shows:

First—That your petitioner is a street surface railway corporation, duly organized and existing under the laws of the State of New York, and now operating a street surface railroad in the County of Nassau, State of New York, running from Mineola, through the village of Roslyn, and to and into Port Washington.

Second—That your petitioner has secured from the proper local authorities of Nassau County, New York, their consent to the construction and operation by your petitioner of a street surface railroad, as an extension to its existing line on and along the North Hempstead turnpike, from Roslyn to the New York City line at Little Neck, in Queens Borough, where said turnpike is called Broadway, and it proposes to construct and operate its railroad thereon.

Third—That your petitioner also proposes to construct and operate its street surface railroad from the New York City line at Broadway, in Little Neck, on the streets, avenues and highways in the Borough of Queens, New York City, hereinafter set forth.

Fourth—That for the purpose of operating such branch or extension in the Borough of Queens, New York City, N. Y., of its present road, your petitioner desires to obtain from your Honorable Board and hereby respectfully applies for its consent to and a grant of the right, privilege and franchise for the construction, maintenance and operation of a double track street surface railway for public use in the conveyance of persons and property in cars for compensation in, upon, along and over the surface of certain streets, avenues, highways, bridges, public places and private property in the Borough of Queens, New York City, of which the following is a description:

I. Beginning at the easterly line of the Borough of Queens, New York City, at Broadway, in Little Neck, thence westerly on and along said Broadway to Tenth street in Bayside.

II. Beginning at the junction of Tenth street and Broadway in Bayside, thence westerly on and along Broadway to Bell avenue in Bayside.

III. Beginning at the junction of Tenth street and Broadway in Bayside, thence northerly on and along Tenth street to Bayside boulevard, thence northerly on and along Bayside boulevard to Ashburton avenue, thence westerly on and along Ashburton avenue to Chambers street, thence northerly on and along Chambers street to Crocheron avenue, thence westerly on and along Crocheron avenue to Twenty-third street at Broadway, Flushing, thence northerly on and along Twenty-third street to State street, thence westerly on and along State street to Thirteenth street, thence northerly on and along Thirteenth street to Chestnut street, thence westerly on and along Chestnut street to and across Murray street and Murray lane, thence still westerly on and through private property along the line of the prolongation of Chestnut street to Flushing place, crossing the same and continuing thence westerly on and along Chestnut street to Whitestone avenue, thence southerly on and along Whitestone avenue to State street, thence westerly on and along State street to Prince street, thence southerly on and along Prince street to Broadway, thence easterly on and along Broadway to Farrington street, thence northerly on and along Farrington street to State street in Flushing.

Fifth—That said corporation proposes to operate said extension or branches by the overhead system of electricity, substantially similar to that now in use on its existing railroad running from Mineola to Port Washington, Nassau County, New York.

Wherefore your petitioner prays that public notice hereof and of the time and place where this application will be first considered be given as required by law, and that the desired consent be granted in accordance with the provisions of the Greater New York Charter.

Dated June 11, 1908.

THE NEW YORK AND NORTH SHORE TRACTION COMPANY,

[SEAL]

By JOHN J. STANLEY, President.

Attest:

JAMES A. MACELHINNY, Secretary.

State of New York, County of New York, ss.:

John J. Stanley, being duly sworn, deposes and says that he is the President of the New York and North Shore Traction Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof, that the same is true of his own knowledge except as to matters therein stated to be alleged on information and belief, and as to those matters, he believes it to be true.

JOHN J. STANLEY.

Subscribed and sworn to before me this 11th day of June, 1908.

E. M. CARROLL, Notary Public, New York County.

The following was offered:

Whereas, The foregoing petition from New York and North Shore Traction Company, dated June 11, 1908, was presented to the Board of Estimate and Apportionment at a meeting held June 26, 1908.

Resolved, That, in pursuance of law, this Board sets the 18th day of September, 1908, at 10.30 o'clock in the forenoon, and Room No. 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the

CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY.

In the matter of the petitions of the New York, Westchester and Boston Railway Company for a change in the line of its route between One Hundred and Seventy-seventh street and Harlem River, on which the line of the Westchester Company is laid out, and adjoining and to the west of the Harlem River and Port Chester Railroad Company, in the Borough of The Bronx, and for various modifications in the terms of the ordinance approved by the Mayor August 2, 1904, granting a franchise to said Company.

The Secretary presented the following:

June 24, 1908.

Board of Estimate and Apportionment, JOSEPH HAAG, Esq., Secretary:

DEAR SIR—I beg to acknowledge receipt of your letter of the 19th inst., together with galley proofs of the two petitions received by the Board of Estimate and Apportionment on said date from the New York, Westchester and Boston Railway Company, which were referred to the Chief Engineer of said Board and also to me as President of the Borough of The Bronx.

I enclose herewith copy of report made by the Chief Engineer of this Borough, to whom I referred said petitions and the subjects contained therein, and from an examination made by me of the maps I am of the opinion that the changes in the line petitioned for should be granted.

My approval carries with it the suggestion that some definite action should be taken by the New York, Westchester and Boston Railway Company tending toward immediate construction.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

June 24, 1908.

Hon. LOUIS F. HAFFEN, President, Borough of The Bronx:

DEAR SIR—In the matter of the application of the New York, Westchester and Boston Railway Company for changes and extensions of route and in some of the conditions of the franchise granted to that company, I beg to report that since receiving a copy of the map showing the proposed route and profiles I see no objection to the change of line as provided in the first section (main line), extending from the Harlem River to the northerly line of the City.

In the case of the second section (Throggs Neck Branch), between the main line, near the junction of Walker avenue, and a point at Fort Schuyler near the United States Government Reservation, this line or route appears to be similar to the one heretofore submitted, so far as the portion west of Pugsleys Creek is concerned. The portion between Pugsleys Creek and Fort Schuyler is an extension, and on a considerable portion of this section the final maps have not yet been adopted and filed, while the street system has been considered tentatively. It appears to me that so far as the portion between Pugsleys Creek and Fort Schuyler is concerned the line is satisfactory, but it would be advisable to withhold the approval of the grades on that portion until the street system has been completed and filed.

The proposed connections, first, with the subway-elevated system at or near the present station thereof at West Farms road; second, with the projected Broadway-Lexington avenue subway, when constructed, at Westchester avenue, at or near Home street, appear to be very desirable, and I do not see any objection thereto.

As to the change in the conditions of the original franchise by which provision is made for an overhead trolley, I do not see that there is any objection to this change, particularly in view of the fact that the road will be run either above or below the grade of streets.

The extension of time asked for appears to be on account of delays due to legal complications, and whether the delay has been as much as stated I am not certain, and if possible it might be well to have this extension of time made one year instead of two.

Respectfully,

JOSIAH A. BRIGGS,
Chief Engineer of the Borough of The Bronx.

REPORT No. F-118.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment held June 19, 1908, the New York, Westchester and Boston Railway Company presented two petitions to the Board—the first asking for a change of route between One Hundred and Seventy-seventh street and the Harlem River on which the line of the Westchester Company is laid out, adjoining and to the west of the Harlem River and Port Chester Railroad. The second petition asks for various modifications in the terms of the original grant, as follows:

(a) By permitting the use of the overhead trolley system, presumably that in use by the New York, New Haven and Hartford Railroad, which, under the existing franchise, is barred.

(b) By changing the clause in regard to providing two conduits for the City, by substituting three cables upon the poles which will be required for the overhead system.

(c) By permitting the connection with other railroads at a distance of over 1,000 feet, and substituting in place of 1,000, 2,500 feet. This would permit of connections with the Rapid Transit Railway at West Farms and the proposed Rapid Transit Railway at Westchester avenue.

(d) Requesting permission to make the connections above stated.

(e) Requesting an extension of time until August 2, 1911, in which to complete a four-track railway from the City line as far south as One Hundred and Seventy-fourth street, and until August 2, 1913, for the construction of a line as far south as the Harlem River, an extension of two years in each case.

Pursuant to the provisions of law, it will be necessary to advertise the petition for a change of route, and I would, therefore, propose that the Board fix Friday, September 18, 1908, as a date for a public hearing, and request the Mayor to designate two daily newspapers in which the petition and notice of such hearing shall be published.

I believe that, at the same time, it will be desirable to consider the various changes requested by the second petition, and that notice of the same should appear in the form of advertisement.

I transmit herewith a form of resolution fixing September 18 for public hearing.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

To the Board of Estimate and Apportionment of The City of New York:

The petition of the New York, Westchester and Boston Railway Company shows:

That heretofore, and on or about the 2d day of August, 1904, an ordinance passed by the Board of Aldermen of The City of New York was duly approved by the Mayor of The City of New York, and upon said 2d day of August, 1904, the date of said approval, took effect and became law. That said ordinance was entitled, "An ordinance granting to the New York, Westchester and Boston Railway Company the right to cross certain streets and highways and to construct and operate a four-track railway above or below said streets or highways of The City of New York." That in and by said ordinance, among other things, said Board of Aldermen

of The City of New York granted to said railway company, subject to certain conditions and provisions set forth in said ordinance, the right to cross certain streets or highways of The City of New York, in the Borough of The Bronx, in said City, and to construct and operate a four-track railway, with connections, turnouts, switches and cross-overs necessary for the accommodation and operation of the said railway, in, upon and across the streets, avenues, highways, parkways and public places, and upon the route situate in the Borough of The Bronx, City, County and State of New York, as described in the said ordinance in section 1, subdivisions 1 and 2 thereof, all as shown on the maps entitled, "Maps and profile of the amended route of the New York, Westchester and Boston Railway Company, section 1," adopted by the Board of Directors of said company on the 20th day of May, 1904, and signed by William L. Bull, President; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal; "Map and profile of the amended route of the New York, Westchester and Boston Railway Company, section 2," adopted by the Board of Directors of the company on the 7th day of April, 1904, and signed by William L. Bull, President; John Bogart, Engineer, and Thomas W. Baker, Secretary, under seal; and "Map and profile of the amended route of the New York, Westchester and Boston Railway Company, section 3," adopted by the Board of Directors of the said company on the 5th day of May, 1904, and signed by the President, Wm. L. Bull; John Bogart, Engineer, and H. C. Winchester, Secretary, under seal, and which maps and profiles were filed in the office of the County Clerk of the City and County of New York on the 23d day of June, 1904, or any lawful amendments thereof consented to by the Board of Estimate and Apportionment.

That on the 15th day of June, 1905, your petitioner duly changed and altered its route in the County of New York and duly and lawfully adopted an amended route as shown upon the maps, surveys and profiles of such amended route filed in the office of the County Clerk of the County of New York on or about the 15th day of June, 1905. That subsequently and on or about the 10th day of July, 1905, an amended route of that part of said railroad lying between the Bronx River and the northern boundary line of The City of New York, known as Section 2, was duly adopted by your petitioner, and an amended map and profile of such Section No. 2 was on said 10th day of July filed in the office of the County Clerk of the County of New York. Such change in the route on Section 2 was made subsequent to the petition to your Board next referred to, and to satisfy certain changes proposed by the Engineer of your Board. That on the 16th day of June, 1905, a petition was duly presented by the New York, Westchester and Boston Railway Company, this petitioner, to the Board of Estimate and Apportionment at The City of New York, praying that the consent of the Board of Estimate and Apportionment to said route as lawfully amended in conformity with the map and profile filed on the 15th day of June, 1905, be given to this petitioner. That thereafter such proceedings were duly had, that on or about the 14th day of July, 1905, the Board of Estimate and Apportionment duly adopted a resolution, which was approved by the Mayor of The City of New York on the 21st day of July, 1905, giving its consent to your petitioner to cross streets, avenues and highways upon its route in the County of New York, as shown upon its maps filed in the office of the County Clerk of New York County, as last amended by the map filed in said office on the 10th day of July, 1905. This consent was upon condition that your petitioner within thirty days execute under its corporate seal an instrument in writing to be first approved by the Corporation Counsel, and file the same in the office of the Comptroller within thirty days from passage of said resolution granting said consent, wherein said company should promise, covenant and agree that the consent of the Board of Estimate and Apportionment so given to the change of route should not in any wise change, alter or amend any of the terms, conditions and requirements in the ordinance of the Board of Aldermen aforesaid fixed and contained, and heretofore duly accepted by said company.

And that thereafter an instrument in writing, approved and executed as provided for in the foregoing resolution, was duly filed by your petitioner in the office of the Comptroller within thirty days from the passage thereof.

That on the 17th day of June, 1908, this petitioner, by a vote of two-thirds of its directors at a meeting of the Board of Directors regularly held, pursuant to due notice, changed and altered the route of that part of its main line situate, lying and being between Berrian street and the Harlem River, and that portion of the branch line north of Leland avenue, and adopted an amended route of said part of its main line, and of said part of its branch line, and also adopted a map and profile of its entire route thus amended, and authorized its president to file said map and profile of said route, duly certified, in the office of the County Clerk of New York County, and thereafter, on the 17th day of June, 1908, the said map and profile of said route as amended and adopted by your petitioner was filed in the office of the County Clerk of the County of New York, and thereupon the route of your petitioner's road became and was lawfully amended in conformity with the said map and profile thus filed.

That said amended route became and now is the lawful route of this petitioner, located in all respects to conformity with law.

That the description of said route as thus amended, being the entire route of your petitioner in the County of New York, and of the streets of The City of New York in the Borough of The Bronx, which would be crossed or intersected by said route, are as follows:

First—Main Line: Beginning at a point on the Harlem River near the point where Lincoln avenue intersects the north bank of the Harlem River in the Borough of The Bronx, and crossing Lincoln avenue between the Harlem River and One Hundred and Thirty-second street; thence running easterly substantially parallel to One Hundred and Thirty-second street between One Hundred and Thirty-second street and the Harlem River; thence crossing One Hundred and Thirty-second street at or near its intersection with Willow avenue; thence crossing One Hundred and Thirty-third street, One Hundred and Thirty-fourth street, One Hundred and Thirty-fifth street, One Hundred and Thirty-sixth street, One Hundred and Thirty-seventh street and One Hundred and Thirty-eighth street, between Willow avenue and the Harlem River and Port Chester Railroad; thence northerly parallel to the Harlem River and Port Chester Railroad and crossing One Hundred and Thirty-ninth street, One Hundred and Fortieth street and One Hundred and Forty-first street, between Southern boulevard and the Harlem River and Port Chester Railroad; thence northerly parallel to the Harlem River and Port Chester Railroad to Westchester avenue, and crossing One Hundred and Forty-ninth street, Leggett street, One Hundred and Fifty-sixth street, Longwood avenue, Lafayette avenue, Tiffany street, Barretto street, Hunts Point road, Faile street, Bryant street, Longfellow street, proposed Ludlow avenue and Whittier street, between Whitlock avenue and the Harlem River and Port Chester Railroad; thence crossing Westchester avenue at or near its intersection with Edgewater road; then running northerly substantially parallel to the Harlem River and Port Chester Railroad to One Hundred and Seventy-fourth street, and crossing One Hundred and Seventy-second street, between the Bronx River and the Harlem River and Port Chester Railroad; thence crossing One Hundred and Seventy-fourth street and Van Nest avenue, between Devoe avenue and the Harlem River and Port Chester Railroad; thence running northerly substantially parallel to Devoe avenue and crossing One Hundred and Seventy-seventh street, Wyatt street and Walker avenue (West Farms road), between Devoe avenue and Berrian street; thence crossing One Hundred and Seventy-ninth street and Lebanon street, between Devoe avenue and Berrian street; thence crossing One Hundred and Eightieth street and Berrian street, at or near their intersection; thence crossing Adams street, between Morris Park avenue and the easterly line of Bronx Park; thence crossing Berrian street, between Morris Park avenue and Bronx Park; thence to and crossing Unionport road, between Miama street and Birchall avenue; thence crossing Oakley street, between Miama street and Sagamore street; thence crossing White Plains road, at or near the intersection of Sagamore street; thence crossing Brown avenue and Sagamore street, at or near their intersection; thence crossing Hunt avenue and Bear Swamp road at or near their intersection; thence crossing Bronx and Pelham parkway and Williamsbridge road at or near their intersection; thence crossing Saw Mill lane, between Williamsbridge road and Eastchester road; thence crossing Eastchester road near its intersection with Syracuse avenue; thence crossing Birch street at or near its intersection with Syracuse avenue; thence crossing Cedar street, Oak street and Walnut street, between Kingston avenue and Syracuse avenue; thence crossing Chestnut street and Kingston avenue at or near their intersection; thence crossing Ash street, between Kingston avenue and Cornell avenue; thence crossing Boston road at or near its intersection with Schieffels lane; thence crossing Fifth avenue or Dyre avenue, between Boston road and Kingsbridge road; thence continuing to a point in the northerly line of The City of New York, between Fifth avenue and the road to White Plains (Columbus avenue).

Second—Throggs Neck Branch: Beginning at a point on the main line near the junction of Walker avenue (West Farms road) and Devoe avenue; thence running southerly, crossing Wyatt street and Tremont avenue, between Devoe avenue and Berrian street; thence crossing Van Nest avenue and the N. Y., N. H. & H. R. R., between One Hundred and Seventy-fourth street and Tremont avenue; thence running between Craighill and Chanute avenues and crossing Bronx River avenue, Beacon avenue, Randolph avenue, Westchester avenue, Watson avenue, Ludlow avenue, Story avenue and Lafayette avenue; thence crossing Craighill avenue and Morrison avenue, between Lafayette avenue and Seward avenue; thence crossing Seward avenue, between Morrison avenue and Harrod avenue; thence crossing Harrod avenue, Metcalf avenue and Fteley avenue, between Seward avenue and Randall avenue; thence crossing Randall avenue at or near its intersection with Croes avenue; thence crossing Noble avenue, Rosedale avenue and Commonwealth avenue, between Randall avenue and Lacombe avenue; thence crossing Lacombe avenue, between Commonwealth avenue and St. Lawrence avenue; thence crossing St. Lawrence avenue, Beach avenue and Taylor avenue, between Lacombe avenue and Patterson avenue; thence crossing Patterson avenue at or near its intersection with Thieriot avenue; thence crossing Leland avenue, between Patterson avenue and O'Brien avenue; thence crossing O'Brien avenue and Gildersleeve avenue, between Leland avenue and Underhill avenue; thence crossing Underhill avenue and Cornell avenue at or near their intersection; thence crossing Bolton avenue, White Plains road, Newman avenue and Stephens avenue, between Cornell avenue and Bronx River avenue; thence crossing Clasons Point road, between Stephens avenue and Pugsley avenue; thence crossing Cornell avenue and Pugsley avenue at or near their intersection; thence crossing Husson avenue, between Gildersleeve avenue and Cornell avenue; thence northerly between Husson avenue and Betts avenue and crossing Gildersleeve avenue and O'Brien avenue; thence crossing Compton avenue and Pugsley Creek; thence crossing Barrett avenue, between Trask avenue and Screvin avenue; thence crossing Screvin avenue, between Lacombe avenue and Barrett avenue; thence crossing Lacombe avenue and Olmstead avenue at or near their intersection; thence crossing Torry avenue, Howe avenue, Castle Hill avenue, Turner avenue, Effingham avenue and Havemeyer avenue, between Lacombe avenue and Randall avenue; thence crossing Allaire avenue and Farrington avenue, between Randall avenue and Zerega avenue; thence crossing Zerega avenue near its intersection with Randall avenue; thence easterly, crossing Westchester Creek, Ferris avenue and Baxter Creek; thence crossing Morris lane near its intersection with Fort Schuyler road; thence crossing Fort Schuyler road and Old Ferry road at or near their intersection; thence between Fort Schuyler road and East River to a point near the U. S. Government Reservation. All of the above mentioned streets crossed by said branch line, except Wyatt avenue, Tremont avenue (East One Hundred and Seventy-seventh street), Westchester avenue, Clasons Point road, Ferris avenue, Morris lane, Old Ferry road and Fort Schuyler road, are proposed streets, as shown on the City layout of streets.

That the route of your petitioner between the Bronx and Harlem Rivers, as previously located, ran through a section of The Bronx largely devoted to apartment houses and dwellings, and to construct the road of your petitioner over such location would entail the destruction of numerous large buildings and the ruining of large amounts of real estate for other than railroad purposes. That in addition thereto the street system as now laid out in The Bronx would be seriously interfered with by the construction of your petitioner's road over the said route.

That by reason of the foregoing facts, the cost of constructing the road over the said route would be so great as practically to prohibit the Railway Company from building and operating the line and the delay in acquiring the real estate would necessarily postpone the period of completion for an indefinite time.

The route as amended is situated in a section of The Bronx where real estate has not been devoted to building purposes and where the right of way can be acquired at a more reasonable price and within a reasonable time, and under this route your petitioner can proceed with the construction of its road and complete the same at a cost and within a period of time which will render it practicable to build and operate its railroad. That the change in the route of the branch line is made necessary by the change in the main line of your petitioner, to which the consent of your Honorable Board is requested as herein set forth.

That a copy of the said map and profile filed in the County Clerk's office on the 17th day of June, 1908, as aforesaid, showing the amendment to said route, which copy is marked Exhibit A, June 17, 1908, is submitted herewith.

And your petitioner respectfully prays that the consent of the Board of Estimate and Apportionment to the said route as lawfully amended in conformity with the map and profile filed on the 15th day of June, 1908, may be given to this petitioner.

NEW YORK, WESTCHESTER AND BOSTON RAILWAY COMPANY,
By ALLEN WARDWELL, President.

State of New York, County of New York, ss.:

Allen Wardwell, being duly sworn, deposes and says: That he is the President of the New York, Westchester and Boston Railway Company, and that he has read the foregoing petition and knows the contents thereof and that the same is true to his own knowledge, except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

Sworn to before me this 18th day of June, 1908.

ALLEN WARDWELL.

WILLIAM A. COKELEY, Notary Public, New York County.

The following was offered:

Whereas, The foregoing petition from New York, Westchester and Boston Railway Company, dated June 18, 1908, was presented to the Board of Estimate and Apportionment at a meeting held June 19, 1908; and

Whereas, A second petition of the same date has been received from the said company asking for certain modifications in the ordinance approved by the Mayor August 2, 1904, to wit:

- By permitting the use of overhead trolley system.
- By providing the City with the right to string three cables, instead of furnishing two conduits.
- By permitting connections with two other railroads at a distance not exceeding 2,500 feet, instead of 1,000 feet.
- By permitting connections with the rapid transit railway at West Farms, and the proposed rapid transit railway at Westchester avenue.
- By extending the time until August 2, 1911, in which to complete the four-track railway from the City line to One Hundred and Seventy-fourth street; and until August 2, 1913, for the construction of the line from One Hundred and Seventy-fourth street to the Harlem River.

Resolved, That in pursuance of law this Board sets the 18th day of September, 1908, at 10.30 o'clock in the forenoon, and Room 16, in the City Hall, Borough of Manhattan, as the time and place when and where such petitions shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was lost by the following vote:

Affirmative—The Mayor, the Comptroller and the President of the Board of Aldermen—9.

Negative—The Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—7.

(Note—Twelve votes being necessary under the Charter to adopt a resolution upon its original presentation.)

Subsequently the President of the Board of Aldermen moved that the vote by which this action was taken be reconsidered.

Which motion was agreed to.

The President of the Board of Aldermen then moved the adoption of the resolution as originally presented.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

NEW YORK AND PORT CHESTER RAILROAD COMPANY.

In the matter of the petition of the New York and Port Chester Railroad Company for an extension of time until June 11, 1910, in which to comply with the provisions of section 2, Twenty-eighth, of the contract granting a franchise to said company.

This petition was presented to the Board at its meeting of June 5, 1908, and by resolution adopted on that date, the company was granted an extension of time until June 26, 1908, when the question of further extension would be considered.

(The petition is printed in full in the Minutes of June 5, 1908.)

The Secretary presented the following:

CITY OF NEW YORK—LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 9, 1908.

To the Board of Estimate and Apportionment:

DEAR SIR—I have received from you the following communication dated June 5, 1908, signed by Joseph Haag, Secretary:

"At a meeting of the Board of Estimate and Apportionment held this day, a petition was received from the New York and Port Chester Railroad Company for an extension of time of two years from June 11, 1908, in which to expend at least eight hundred thousand dollars (\$800,000) for actual construction of its railroad, in accordance with section 2, Twenty-eighth of the contract dated May 31, 1906, granting a franchise to said company, and by resolution duly adopted, the Board of Estimate and Apportionment granted the railroad company an extension of time until June 26, 1908, in order that the allegations in the petition might be investigated by the Chief Engineer who was directed to report back in time for the calendar for that date. The matter was also referred to the Corporation Counsel to advise the Board if the petition set forth facts which made it mandatory upon the Board to extend the life of the franchise under section 2, Twenty-eighth.

"A copy of the petition and the resolution as adopted this day is inclosed."

In section 2, subdivision Twenty-eighth of said contract, it is provided:

"The railroad company shall actually expend or cause to be so expended the sum of at least eight hundred thousand dollars (\$800,000) within two years after the date of the signing of this contract, upon the actual construction of said railroad between the northerly line of The City of New York and Westchester avenue at or near One Hundred and Sixty-seventh street."

The contract did not seek to impose a self-executing forfeiture clause for failure to comply with such section, but provided:

"If in the opinion of the said Board an expenditure of the said sum within the time given is not proven, then said Board may declare that this grant has ceased and determined, and the said action of said Board shall be prima facie evidence of said forfeiture."

In said subdivision 28, it was also provided:

"The Board of Estimate and Apportionment shall extend the time provided for in this section for the completion of the railroad and for the work to be performed and expenditures to be made, as above, for a period or periods not exceeding in the aggregate two years, if the reasons given by the railroad company for non-fulfillment are for causes over which the railroad company had no control and was in no wise responsible."

In my opinion, the facts recited in the petition of the company, copy of which was sent me with the above communication, do not constitute "causes over which the railroad company had no control, and was in no wise responsible," within the meaning of the contract. There is nothing to show that if the railroad company had proceeded to construct the line originally authorized by the said contract of June 11, 1906, instead of attempting to gain permission for a change of route, it would not have been able to carry its work forward with the contemplated speed, and expend in connection therewith, the sums stated in the said contract.

I therefore advise you, that it is not mandatory upon your Board to grant any further extension, but if, in the discretion of your Honorable Body, the facts recited are deemed sufficient to warrant the granting of an extension, your Board is within its powers in giving such relief.

Respectfully yours,

FRANCIS K. PENDLETON, Corporation Counsel.

June 13, 1908.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall, New York:

DEAR SIR—The undersigned corporation having large real estate interests in The Bronx, respectfully begs to be heard by the Board of Estimate and Apportionment, or by the appropriate committee of the same, on the question of the application of the New York and Port Chester Railroad Company for an extension of time in which to spend \$800,000 for the actual construction of the railroad. We feel that we represent a large public interest which is being greatly injured by the tactics of the New York, New Haven and Hartford Railroad, confessedly in control of the franchises of the New York, Westchester and Boston Railroad Company and of the New York and Port Chester Railroad Company. We are the holders of a certain contract with the New York and Port Chester Railroad Company ourselves, which contract is now in suit for the purpose of compelling specific performance by the New York and Port Chester Railroad Company of its agreement to build its road. We believe that the New York, New Haven and Hartford Railroad Company should be compelled to either build this road or else get out of the field entirely and give an opportunity to outside capital to come in and build on this route.

The transit conditions in The Bronx have become intolerable. We have been absolutely shut in on the one hand by the complete failure of all plans for the furnishing of transportation facilities by the City and on the other hand by the selfish tactics of the New Haven road, which has taken control of these two supposedly competing railroads, has done nothing with them since it has so taken them and is now endeavoring to get more time in which to do nothing.

We respectfully ask, as large taxpayers in The Bronx, that we be given an opportunity to be heard on this matter before any action is taken on it.

Truly yours,

FIDELITY DEVELOPMENT COMPANY,
By JOSEPH G. ROBIN, Vice-President.

REPORT No. F-78.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 19, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment, held June 5, 1908, a petition was received from the New York and Port Chester Railroad Company praying that the time within which an expenditure of at least eight hundred thousand dollars (\$800,000) upon the construction of its road, as provided in paragraph twenty-eight of the contract between The City of New York and the New York and Port Chester Railroad Company, be extended for a period of two years.

Under the provisions of the contract mentioned above, the company was to expend upon actual construction the sum of eight hundred thousand dollars (\$800,000) within two years from the date of the execution of the contract—to wit, June 11, 1906—and as this time would have expired on June 11, 1908, and before another meeting of the Board would be held, a resolution was thereupon adopted extending the time of the Company until June 26, 1908, pending a report from the Chief Engineer, and also one from the Corporation Counsel.

The reason given by the petitioner for its right to such extension of time is that the Board of Estimate and Apportionment has been enjoined from taking action upon its petition for a change of route, and the Corporation Counsel, in his opinion, dated June 9, states as follows:

"In my opinion, the facts recited in the petition of the company, copy of which was sent me with the above communication, do not constitute 'causes over which the railroad company had no control and was in no wise responsible' within the meaning of the contract. There is nothing to show that if the railroad company had proceeded to construct the line originally authorized by the said contract of June 11, 1906, instead of attempting to gain permission for a change of route, it would not have been able to carry its work forward with the contemplated speed, and expend in connection therewith the sum stated in the said contract.

"I therefore advise you that it is not mandatory upon your Board to grant any further extension; but if, in the discretion of your Honorable Body, the facts recited are deemed sufficient to warrant the granting of an extension, your Board is within its powers in giving such relief."

The question then arises as to whether an extension of time should be granted upon the facts presented.

The history of the New York, Westchester and Boston Railway Company and of the New York and Port Chester Railroad Company, since franchises were granted to each of them by The City of New York, has been frequently told in reports by this Division.

The Westchester grant was made by ordinance, approved by the Mayor August 2, 1904. One of the provisions required the sum of one million dollars (\$1,000,000) should be expended upon construction within two years from such date.

The Port Chester grant was made by a contract executed by the Mayor on June 11, 1906, with a proviso that the sum of eight hundred thousand dollars (\$800,000) should be expended upon construction upon a certain part of the road within two years from such date.

The Westchester Company did certain work upon its line, and expended certain sums of money up to the month of August, 1906, technically complying with the terms of the contract, in so far as the reports before the Board show, and then practically stopped all work upon its route.

The Port Chester Company since it obtained its grant has not, to my knowledge, done any work of construction. The entire time since its grant was made has been taken up with litigation between the two companies.

When the first grant was made to the Westchester Company, it was upon the theory that such company would construct a high-speed electric railroad, to be operated in competition with the then existing steam railroads running through the same territory. It was held, when the Port Chester Company made its application, that the Westchester Company's charter was defective, and that, in consequence, no road would be built under the franchise granted to it. The Port Chester Company likewise declared its intention of building and operating an independent line.

As before stated, little or nothing was done until, in April, 1907, the Port Chester Company applied for a change of line on a portion of its route, so that the altered line would coincide with that portion of the Westchester line then partially constructed.

It was represented that the capital stock of both companies was held by Millbrook Company, and that but one road could be built and operated profitably. In view of the litigation, which had then been started and which appeared endless, it was deemed wise to report favorably upon the application of the Port Chester Company, in order that at least one road would be constructed. A proposed form of contract was prepared and submitted to the Board for adoption, but, owing to an injunction which was served upon the Board, no action could be taken. This injunction, I am advised, was secured by certain minority stockholders of the New York, Westchester and Boston Railway Company, who objected to the proposed change of line, and this suit has been in the courts up to the present time, when, as set forth in the petition, it has been referred to ex-Justice Charles F. Brown, as referee.

During this time it came to the knowledge of the Board that Millbrook Company, which had previously posed as the company which would furnish the means to build one road under the franchise of either the Port Chester or the Westchester Company, was controlled by the New York, New Haven and Hartford Railroad Company, and a full report on this situation was presented to the Board at its meeting of December 20, when resolutions were adopted asking the New Haven Railroad to declare its intentions in regard to the construction and operation of a road under one or the other of the two franchises. This reply from Mr. C. S. Mellon, President of the New Haven Company, was presented to the Board on January 10, together with a report from this Division which showed that the answer was far from satisfactory to the City, and that there was no assurance that the road would be commenced or constructed within a reasonable time. The matter was thereupon referred to a Select Committee, which has not as yet reported.

I do not see that I can add anything to that contained in my reports of December 19, 1907, and January 7, 1908, except to reiterate that the indecision in regard to the construction of either or both of these roads is having a most injurious effect upon the development of the Borough of The Bronx. A map for the street system has been held in abeyance, and the partially constructed line of the Westchester Company has left the territory through which it passes in a most chaotic condition. Under date of May 18 I addressed a formal communication to Mr. Mace Moulton, President of the New York and Port Chester Railroad Company, calling his attention to Paragraph XXVIII, of the contract, and requesting to be furnished, on or before June 12, with a detailed statement of the moneys expended. No reply was received until June 15, 1908, when Messrs. Edward M. Grout and John J. Delany, of counsel for the company, replied as follows:

"Mr. Moulton, the President of the New York and Port Chester Railroad Company, has informed us of the demand made upon him by the Board of Estimate, through you, for a statement of the expenditures of the company within the two years expiring on June 11, 1908.

"We respectfully invite your attention to the petition which has been submitted to the Board of Estimate since your request was made, asking for an extension of time, which petition is based upon the fact that the \$800,000 has not been expended, and the reasons for non-compliance are stated therein.

"We think this will answer your letter of May 18, and explain the reason why we are not able now to show that we have complied with this provision."

The latest move by those who control the two companies was made at a meeting of the Board on June 19, 1908. Two petitions were presented from the New York, Westchester and Boston Railway Company—the first of which requested a change of route, south of One Hundred and Seventy-seventh street to the Harlem River, which altered route from One Hundred and Seventy-fourth street southerly lies immediately to the west of and adjoining the present line of the Harlem River and Port Chester Railroad, leased to the New York, New Haven and Hartford Railroad Company.

The second petition asks that the contract to the Westchester Company be amended in several particulars.

From this, it will appear that the New Haven Company desires to construct the line south of One Hundred and Seventy-fourth street alongside of its existing line, and in consequence, the Port Chester line south of the same point would be abandoned should the application for a change of route be granted. I think this practically disposes of the entire Port Chester route, for, as before stated, the controlling interests have no desire to build upon the upper part of the Port Chester route, and have now applied for a new line on the lower portion of the same. In consequence, I do not see that the City can in any way gain by extending the time of the Port Chester Railroad,

as requested in its petition, as it is evident that there is no intention to build upon any portion of this line.

The entire situation was changed when the New Haven road obtained control of both of these companies, and now, as it appears to have elected to build the Westchester route, or a modification of the same, I believe that the sooner the Port Chester franchise is terminated the better.

In consequence, I would recommend that the Board deny the petition of the Port Chester Company for an extension of time, and declare that the contract under which it obtained its franchise has ceased and determined, and that all moneys heretofore paid into the City Treasury on account of the said grant and all moneys deposited with the Comptroller for the faithful performance of the terms and conditions of the same be forfeited.

A resolution in accordance is transmitted herewith.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

P. S.—Since writing the above I have held a conference with Messrs. Edward M. Grout, John J. Delany and John Hall McKay, of counsel for the New York, New Haven and Hartford Railroad Company, and they have protested most strongly against the recommendation that no extension of time be granted. The point which they make is that should the charter of the Westchester Company be declared by the Court of Appeals to be invalid, the New Haven Company, as the holding company, would then be unable to take advantage of that part of the road already constructed under the Westchester contract, while, on the other hand, if the time of the Port Chester road is extended and the injunction which now restrains the Board is removed, the New Haven Company could build the line of the Westchester Company as a change of route of the Port Chester Company. In other words, they desire to preserve all their rights until the termination of the litigation.

There is no possible way by which the end of this litigation can be foretold, and in the injunction proceedings now before Referee Brown, should he continue the injunction, the case would probably be appealed and no definite decision would be reached until this matter had also been determined by the Court of Appeals.

The object of the City, as I take it, in granting a franchise, was to secure the construction of a railroad, and in granting these particular franchises, the Westchester and Port Chester roads, was primarily to secure competition through the territory in which they ran. As the New Haven road has obtained control of both companies, the competition will not be obtained whether the extension of time to the Port Chester road is granted or not. If the New Haven road desires to build, and build immediately, it can easily solve the problem by presenting an application for a franchise which would cover the route which it is the company's intention to construct.

The representatives of the railroad company have stated nothing that would in any way lead me to change the opinion above expressed, and as they will have ample opportunity to appear before the Board in opposition to my report, it is a matter upon which the Board will have a fair opportunity to determine the question of the equity as it sees fit.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

June 23, 1908.

The Comptroller offered the following:

Whereas, This Board did, on May 18, 1906, adopt a resolution authorizing the Mayor to execute, in the name and on behalf of the City, a contract between the New York and Port Chester Railroad Company and The City of New York, granting to the company the right to cross certain streets and highways, and to construct, maintain and operate a railroad in the Borough of The Bronx, in The City of New York, upon certain conditions therein fully set forth; and

Whereas, On the 11th day of June, 1906, the Mayor did execute, in the name and on behalf of The City of New York, a contract granting to the company such right, which contract was dated the 31st day of May, 1906; and

Whereas, The New York and Port Chester Railroad Company, in a petition dated June 3, 1908, requests an extension of time until June 11, 1910, in which to comply with the provisions of section 2, Twenty-eighth, to wit: That the company should actually spend, or cause to be expended, the sum of at least eight hundred thousand dollars (\$800,000) within two years after the date of the signing of the contract, upon the actual construction of its railroad between the northerly line of The City of New York and Westchester avenue, at or near One Hundred and Sixty-seventh street; and

Whereas, By resolution adopted June 5, 1908, and approved by the Mayor June 8, 1908, the New York and Port Chester Railroad Company was granted an extension of time up to and including June 26, 1908, in which to comply with the provisions of section 2, Twenty-eighth of the contract dated May 31, 1906; now therefore, be it

Resolved, That the Board of Estimate and Apportionment hereby grants upon the conditions hereinafter set forth an extension of time up to and including December 26, 1908, for the New York and Port Chester Railroad Company to comply with the provisions of section 2, Twenty-eighth, as aforesaid; and be it further

Resolved, That this extension of time shall not become operative until said New York and Port Chester Railroad Company shall duly execute an instrument in writing to the satisfaction of the Board of Estimate and Apportionment, and file the same in the office of the said Board within thirty (30) days from the date of the adoption of these resolutions, wherein said company shall promise, covenant and agree that the consent of the Board of Estimate and Apportionment, so given to the extension of time, shall not in any wise change, alter or amend any of the terms, conditions and requirements in the contract fixed and contained, which said contract shall remain in full force and effect, except as herein expressly modified.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

BROOKLYN UNION ELEVATED RAILROAD COMPANY.

The Secretary presented the following:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN.
June 8, 1908.

Mr. HARRY P. NICHOLS, Engineer in Charge, Bureau of Franchises:

DEAR SIR—A communication was addressed, on April 28, by Charles Henry Paradis, of No. 115 Broadway, New York, to the Secretary of the Public Service Commission, relative to the construction of a bridge across the tracks of the Brighton Beach Division of the Brooklyn Rapid Transit Company at Lincoln place. Mr. E. M. Bassett, the Commissioner of the Public Service Commission for the First District, replied to this letter on May 18, stating that the franchise obligations of the railroad company required it to construct good and substantial iron bridges over streets crossed by the railroad company. A copy of this letter was forwarded to me by Mr. Paradis, and I received petitions and communications from other residents of the section. These were referred to the Chief Engineer of the Bureau of Highways for investigation, and I received a report from him dated June 3. I forward to you herewith a copy of the report of the Chief Engineer of the Bureau of Highways

and would request that you take up with the railroad company the construction of the bridge in question.

Yours very truly,

BIRD S. COLER, President of the Borough.

June 3, 1908.

Hon. THOMAS R. FARRELL, Superintendent of Highways:

DEAR SIR—Replying to letter of the President relative to bridge over the Brighton Beach Railroad tracks at Lincoln place, and returning copies of communications from Charles Henry Paradis, and Commissioner Bassett, of the Public Service Commission, with reference to the bridge mentioned, I would say that this matter has been taken up by this Bureau on a previous communication addressed to the President of the Borough by Otto Singer, in a letter dated May 11, and also in a petition from various property owners in the vicinity of Franklin avenue and Lincoln place, which communications are herewith returned.

The information given in the letter of Commissioner Bassett to Mr. Paradis, relative to the franchise obligations of the railroad company, which require the railroad company to construct bridges at various streets, including Lincoln place, which was formerly Degraw street, within ninety days after demand by the City to construct said bridges, is information which I was looking for in connection with preparation of a report upon the previous communications.

The right of way of the railroad company is 80 feet in width north of the centre line of Lincoln place, and 62 feet 6 inches wide south of the centre line of Lincoln place. I am informed by the Topographical Bureau that Lincoln place has been opened across the right of way of the railroad company. The vicinity is well built up, and I believe that a bridge across the railroad cut is urgently needed. The Brighton Beach Railroad operates only two tracks as far south as Church avenue, and many of the bridges across the railroad on this stretch have only sufficient span to cover a two-track road. I believe, however, that it would be better to have, if possible, built a bridge that will provide for at least four tracks underneath.

Lincoln place is a 70-foot street with a 34-foot roadway, leaving 18 feet sidewalks on each side, but with court yard privileges of 7 feet leaving a clear sidewalk of 11 feet. I think that the width of bridge should be from court yard line to court yard line, 56 feet, divided as follows: Thirty-four feet for the roadway, and 11 feet for sidewalks on each side. The difference between the elevation of the present top of rail and the legal grade of the street at this point is 18 feet, so that there will be ample clearance without necessitating any change of grade.

It is noted that the franchise requirements are for "good and substantial iron bridges, with such suitable foundations and retaining walls as shall be necessary." The type of bridge to be placed can undoubtedly be satisfactorily arranged with the railroad company after the proper demand has been made upon them to build a bridge at this point.

Respectfully,

(Signed) JNO. C. SHERIDAN, Chief Engineer.

REPORT NO. F-107.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 17, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—In a communication dated June 8, 1908, to this Division, Hon. Bird S. Coler, President of the Borough of Brooklyn, requested that the matter of constructing a bridge across the tracks of the Brooklyn Union Elevated Railroad Company at Lincoln place (Degraw street), be taken up with the railroad company, and he transmitted with such communication a copy of the report of Chief Engineer J. C. Sheridan of the Bureau of Highways, dated June 3, 1908, together with a communication dated April 28, 1908, addressed to the Public Service Commission by Charles Henry Paradis, of No. 115 Broadway, and a reply thereto, dated May 18, 1908, of Commissioner E. M. Bassett.

I have caused an examination to be made of the franchise rights claimed by the present operating company of this railroad, namely: the Brooklyn Union Elevated Railroad Company, which company, through a series of foreclosure sales and mergers, is the owner of and successor to the rights, franchises and property of the Coney Island and East River Railway Company.

This last named company obtained from the Common Council of the City of Brooklyn, on October 9, 1876, the franchise right

"To build its road into and through the City of Brooklyn from the line between the City and the Town of Flatbush to Atlantic avenue, and to cross Washington avenue and the various streets lying between Atlantic avenue and the Flatbush line at or near the various points designated on the map of the route of the said railway company now on file in the office of Register of Kings County, said road to cross Eastern parkway by a tunnel to be constructed under the same; the said railway to cross Carroll, President, Union, Degraw, Douglass and Butler streets by an open cut not less than eight feet below the grade of said streets. This assent is given on condition that said railway company will, previous to commencing to construct said tunnel, give to said City its bond in the penal sum of fifty thousand dollars (\$50,000) conditioned that it will, within ninety days after demand by said City, construct across the said several streets hereinabove named good and substantial iron bridges with such suitable foundations and retaining walls as shall be necessary and the further conditions that the said company fence the entire route within the City limits where running on the surface or through open cut and place gates on all cross streets for the further protection of life and limb; and that the rate of speed on the surface shall not exceed twelve miles per hour."

"Provided, however, that this privilege does not impair or destroy the system of sewerage devised by the Board of City Works for the section of the City through which this proposed road is to run."

The railroad within the limits of the former City of Brooklyn now runs in a cut from the Flatbush line to a point south of Park place, the crossing at Eastern parkway being by a tunnel. Two streets, to wit, Butler street (now Sterling place) and Douglass street (now St. Johns place) are open across the railroad, the cut being spanned by bridges consisting of iron girders and wooden superstructures.

From an examination of the report made by Chief Engineer J. C. Sheridan of the Bureau of Highways of Brooklyn, it will be seen that he was of the opinion that as the vicinity was well built up, a bridge across the railroad cut was urgently needed, and suggested that as Lincoln place was a 70-foot street with a 34-foot roadway, leaving 18 feet for sidewalks on each side with court yard privileges of 7 feet, leaving a clear sidewalk of 11 feet, that the width of a bridge, if constructed, should be from court yard line to court yard line, 56 feet in all, divided as follows: 34 feet for the roadway and 11 feet for sidewalks on each side, and that the elevation from the present top of rail to the legal grade of street be 18 feet, which would leave ample clearance without necessitating any change of grade.

Degraw street is legally opened on both sides of the railroad cut, and the Board of Estimate and Apportionment, on April 20, 1906, approved the local improvement to regulate grade and set curb on concrete on Degraw street between Classon and Franklin avenues, except the right of way of the Brighton Beach Railroad Company. I have been informed that the contract for such work was completed during the year 1907.

I have caused an examination to be made of Degraw street, between Franklin and Classon avenues, and find that there had been recently constructed apartments on the corner of Franklin and Degraw street, and in the vicinity of Degraw street and Classon avenue. The abutting property on the street to the east and west of the railroad cut has been graded and partially cleared, except a portion on the south side of the street, west of the railroad, upon which is constructed at the present time wooden shanties above the grade of the street, access to which is had by stairways.

On both sides of the right of way of the railroad company, it has constructed a board fence about 7 feet high on the line of its right of way.

The only existing crossing south of Degraw street is at Eastern parkway, which is principally used for pleasure vehicles and pedestrians.

The next street to the south of Eastern parkway, upon which a bridge has been constructed over the right of way of the railroad company, is at Montgomery street, a distance of over 1,022 feet south of Degraw street.

I would, therefore, suggest that the Board require the construction of a bridge at the present time across Degraw street, under the provisions of the resolution of the Common Council of the former City of Brooklyn, adopted October 9, 1876, and that the

recommendations of the Chief Engineer of Highways contained in his report of June 3, 1908, to Hon. Thomas R. Farrell, Superintendent of Highways, be observed.

I have prepared a resolution along these lines, which I transmit herewith, recommending that the Board require the company to submit to the Chief Engineer of the Board, plans for a bridge within sixty (60) days from the date of the approval of the resolution, and when such plans have been so approved directing the company to construct such bridge within four (4) months thereafter.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The Coney Island and East River Railway Company, incorporated September 29, 1876, was, by a resolution duly adopted by the Common Council of the former City of Brooklyn, on October 9, 1876, authorized to build its road into and through the City of Brooklyn, from the line between the City and Town of Flatbush to Atlantic avenue, and to cross Washington avenue and the various streets lying between Atlantic avenue and the Flatbush line at or near the various points designated upon the map of the route of the said railway company, now on file in the office of the Register of Kings County, said road to cross Eastern parkway by a tunnel to be constructed under the same, the said railway to cross Carroll, President, Union, Degraw, Douglass and Butler streets by an open cut not less than eight (8) feet below the grade of the street; and

Whereas, The said resolution provided that the consent was given on condition that the railway company construct across the said several streets hereinabove mentioned good and substantial iron bridges, with such suitable foundations and retaining walls as shall be necessary; and

Whereas, The franchise rights and property of the said Company, through a series of foreclosure sales and mergers, were acquired by the present owner and operator, the Brooklyn Union Elevated Railroad Company; and

Whereas, It appears that between St. Johns place and Montgomery street none of the cross or intersecting streets, excepting Eastern parkway, are carried over or under the said line of railroad, but that the said railroad is an obstruction to the free passage along Degraw street (now Lincoln place), which is legally opened and graded on both sides of the railroad cut; now therefore be it

Resolved, That the Brooklyn Union Elevated Railroad Company, as successor or owner of the franchise rights of the Coney Island and East River Railway Company, be and is hereby required, at its own expense to construct and maintain for public use a bridge over the tracks and right of way of said railroad at its intersection with Lincoln place (formerly Degraw street), at the grade of such street, to be of a width at least 56 feet, divided as follows: 34 feet for the roadway, 11 feet for sidewalks on each side, and that the said company be required to prepare and submit plans for such bridge to the Chief Engineer of the Board of Estimate and Apportionment for approval within sixty (60) days from the date of the approval of this resolution; copies of such plans, when approved, to be filed, one copy in the office of the Board and one copy in the office of the President of the Borough of Brooklyn; and be it further

Resolved, That the said company shall, upon the approval of said plans, commence the construction of said bridge, and complete the same within four (4) months thereafter, under the supervision and subject to the control of the municipal authorities vested with such supervision and control under the provisions of the Greater New York Charter; and be it further

Resolved, That the Brooklyn Union Elevated Railroad Company notify this Board within ten (10) days after the approval of this resolution whether it will comply with the provisions thereof.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, the Bronx and Queens and the Acting President of the Borough of Richmond—16.

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY.

Foot Bridge at Park Avenue and One Hundredth Street, Manhattan.

In the matter of the construction of the foot bridge over the tracks of the New York Central and Hudson River Railroad Company, as lessee of the New York and Harlem Railroad Company, at Park avenue and One Hundredth street, Borough of Manhattan, which construction was requested by resolution adopted May 1, 1908, and approved by the Mayor May 8, 1908.

The Secretary presented the following:

NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,
LAW DEPARTMENT, GRAND CENTRAL STATION,
May 29, 1908.

Mr. JOSEPH HAAG, Secretary of the Board of Estimate and Apportionment, No. 277 Broadway, New York City:

DEAR SIR—I acknowledge receipt of your favor of this date, in regard to the resolution adopted by the Board of Estimate and Apportionment May 1, 1908, and approved by the Mayor May 8, 1908, requiring the New York and Harlem Railroad Company and its lessee, the New York Central and Hudson River Railroad Company to construct a foot bridge for pedestrians over the tracks at Park avenue and One Hundredth street.

The railroad structure at this point was constructed under the statutory provisions of the Act of 1872. It is evident that the Commission created by the act, and charged with the duty of determining the form of the structure at this point, found difficulties in dealing with it on account of the physical conditions. We are advised by our engineers that these physical conditions are now such that it is not only difficult, but substantially impracticable, to construct a bridge which would in any degree relieve the situation.

I am of the opinion that the companies are not under any legal obligation to construct the bridge called for by the resolution. I do not understand from reading the record of the proceedings that the Corporation Counsel is of a different opinion. Nevertheless, if there is any reasonable and practicable way in which the situation can be improved in such a manner as to meet the wishes of the Board of Estimate and Apportionment, we should be willing to give the matter consideration, both with respect to the form of the structure and the terms upon which it should be constructed.

My suggestion would be that the Chief Engineer of the Board be authorized to confer with the Chief Engineer of the Railroad Company, and see what, if any, solution of the difficulty can be reached.

Yours truly,

IRA A. PLACE, Vice-President.

REPORT No. 6.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 23, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—By resolution, adopted by the Board of Estimate and Apportionment on May 1, 1908, and approved by the Mayor on May 8, 1908, the New York Central

and Hudson River Railroad Company, as lessee of the New York and Harlem Railroad Company, was called upon, pursuant to an ordinance adopted and approved by the Mayor on December 22, 1831, authorizing the railroad to construct its road on Fourth avenue, from Twenty-third street to the Harlem River, to build a foot bridge over and across its tracks at One Hundredth street, and was further required by the resolution to submit plans for the same within thirty days of the approval of the resolution.

A certified copy of the resolution was duly forwarded to the Railroad Company, and, as no reply had been received on May 29, a formal communication was addressed to the company asking if it was its intention to comply with the provisions of the resolution. Mr. Ira A. Place, vice-president, upon the same date replied in part as follows:

"The railroad structure at this point was constructed under the statutory provisions of the act of 1872. It is evident that the Commission created by the act and charged with the duty of determining the form of the structure at this point found difficulties in dealing with it on account of the physical conditions. We are advised by our engineers that these physical conditions are now such that it is not only difficult, but substantially impracticable, to construct a bridge which would in any degree relieve the situation. I am of the opinion that the companies are not under any legal obligation to construct the bridge called for by the resolution. I do not understand from reading the record of the proceedings that the Corporation Counsel is of a different opinion. Nevertheless, if there is any reasonable and practicable way in which the situation can be improved in such a manner as to meet the wishes of the Board of Estimate and Apportionment, we should be willing to give the matter consideration, both with respect to the form of the structure and the terms upon which it should be constructed.

"My suggestion would be that the Chief Engineer of the Board be authorized to confer with the chief engineer of the Railroad Company, and see what, if any, solution of the difficulty can be reached."

Pursuant to your request, I took the matter up with the chief engineer of the Railroad Company, and, on June 9, Mr. Pfau, Engineer of Grades, called and presented a drawing of a proposed bridge over the tracks at the point named. The structure was to have a width of 10 feet, and a clearance above the tracks of 16 feet, and would require a rise of 29 feet on the westerly side of the tracks to reach the bridge from the street level. In order to reduce this amount as much as possible, I suggested that the company limit the clearance to 15 feet 3 inches, the minimum clearance which, I am told, is in the tunnel to the south of the proposed bridge. In other respects, the proposed structure was satisfactory, and seemed to fill the requirements of the resolution as adopted by the Board, and Mr. Pfau was so informed, and requested to confer with Mr. Place, and advise the Board of the Company's willingness to build the same.

No further reply has been received from the Railroad Company, although, on June 19, a further request was sent for a decision in the matter.

I would therefore recommend that unless the Railroad Company shall, within ten days, submit a plan and signify its intention of building the structure, that the matter be referred to the Corporation Counsel, to take such steps as are necessary to enforce the resolution of the Board.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment May 1, 1908, and approved by the Mayor May 8, 1908, the New York Central and Hudson River Railroad Company, as lessee of the New York and Harlem Railroad Company, was requested to construct and maintain, at its own expense, for public use, a footbridge for pedestrians over the tracks of said companies on Park avenue at One Hundredth street, Borough of Manhattan, and it was further required to prepare and submit plans of the said bridge, for approval by the Chief Engineer of the Board of Estimate and Apportionment, within thirty (30) days from the date of the approval of the resolution; and

Whereas, On May 29, 1908, a communication was received from Mr. Ira A. Place, Vice-President of the said railroad company, stating it was difficult to construct a bridge at this point which would in any degree relieve the situation, and suggesting that the Chief Engineer of this Board be authorized to confer with the Chief Engineer of the railroad company and see what, if any, solution of the difficulty could be reached; and

Whereas, A conference was had between the engineer of grades of the railroad company and the Engineer in charge of the Division of Franchises, when said engineer of grades presented a drawing of a proposed bridge over the tracks at the point named, which structure was to have a width of ten feet and a clearance above the tracks of sixteen feet, and would require a rise of twenty-nine feet on the westerly side of the tracks to reach the bridge from the street level, when it was suggested to said engineer that the clearance be limited to fifteen feet three inches, which, it was stated, is the minimum clearance in the tunnel to the south of the proposed bridge; and

Whereas, No further steps have been taken by the railroad company toward the construction of said bridge, although a further request was addressed to it on June 19, 1908; now therefore be it

Resolved, That the New York Central and Hudson River Railroad Company be and it is hereby required to submit a plan for the construction of the proposed bridge, and declare its intention and willingness to construct said structure in accordance with the terms of the resolution adopted by this Board May 1, 1908, and approved by the Mayor May 8, 1908, within ten (10) days from the date of the adoption of this resolution; and be it further

Resolved, That should said company fail or neglect to comply with the provisions of the foregoing resolution the matter be referred to the Corporation Counsel with directions to institute proceedings to compel the railroad company to comply with the resolution adopted by this Board May 1, 1908, and approved by the Mayor May 8, 1908.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

BROOKLYN CITY RAILROAD COMPANY.

In the matter of the removal of the tracks of the Brooklyn City Railroad Company from the surface of the streets within the area comprising Williamsburg Park, Borough of Brooklyn.

The Secretary presented the following:

REPORT No. F-86.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of September 28, 1907, Hon. Michael J. Kennedy, Commissioner of Parks for the Boroughs of Brooklyn and Queens, addressed a communication to the Board of Estimate and Apportionment transmitting therewith a proposed form of contract to be entered into between The City of New York, the Brooklyn City Railroad Company and the Brooklyn Heights Railroad Company, whereby the City would agree to pay the cost of removing the street surface railway tracks now within the area of the Williamsburg Park, in the Borough of Brooklyn, and of constructing new tracks in the streets outside of the park area to take the place of the tracks

so removed, and would agree to grant franchises in perpetuity for such substituted routes.

It was stated by the Park Commissioner that it is very desirable that these tracks should be removed, in order to prepare a suitable plan for the laying out of the Williamsburg Park.

An examination of the rights and franchises within the park area was made by this Division. These franchises are now all owned by the Brooklyn City Railroad Company, which company is leased to the Brooklyn Heights Railroad Company. The records show that the company has not met its obligation to the City in that it has not paid the amounts due pursuant to the terms of its original franchises. It was believed that the company should bear the expense of acquiring new franchises and of changing its tracks, for the reason that the original right of the company was acquired subject to the paramount right of the City to alter or change any of the streets or avenues in which such rights were acquired.

The facts were fully set forth in a report to you dated February 29, 1908, with which was submitted a proposed form of contract by the terms of which the company would be required to bear the entire expense of acquiring the new franchises and removal of its tracks. It was suggested that if there were no legal objections, the Board might approve of the use of the streets outside of the park for street railways as a change of route, and the contract was drawn upon the assumption that this could be done. It was recommended, however, that the Corporation Counsel be asked to advise the Board whether the City could legally grant a franchise as a change of route, and whether the company was still liable for the percentages of its gross receipts which have not been paid pursuant to the terms of its franchises.

The report was submitted to the Board on March 6, 1908, and resolutions were adopted calling upon the Corporation Counsel for an opinion in regard to the questions noted above.

A resolution was offered also requesting the Brooklyn City Railroad Company to submit to the Board a petition for such change of route, provided the company would accept the approval of the Board upon the terms recommended in the report of this Division. This resolution was laid over pending the opinion of the Corporation Counsel on the other questions.

Under date of April 27, 1908, the Corporation Counsel rendered his opinion and held that the City could properly grant the right to remove these tracks to streets not within the park area as a change of route, and that the company was liable for percentages of gross receipts pursuant to its franchise. He recommended certain changes in the proposed form of contract and stated that if these changes were made it would receive his approval as to form.

On May 15, 1908, the Board adopted a resolution directing the Corporation Counsel to institute proceedings to recover the moneys due.

I submit herewith a form of contract amended as suggested by the Corporation Counsel, which requires the company to bear the expense of changing the tracks. I would recommend that the Board adopt a resolution requesting the Brooklyn City Railroad Company to submit to the Board a petition for the change of route, provided it is willing to accept the approval of the Board of such change upon the terms and conditions set forth in the proposed form of contract submitted herewith.

A resolution in accordance with this recommendation is submitted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Proposed Form of Contract.

This contract, made and entered into this _____ day of _____, 1908, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City; the Brooklyn City Railroad Company, a domestic corporation of the State of New York (hereinafter called the Brooklyn Company), party of the second part, and the Brooklyn Heights Railroad Company, a domestic corporation of the State of New York (hereinafter called the Heights Company), party of the third part, witnesseth:

Whereas, The City has duly laid out and acquired certain land for the use of a public park, bounded by Berry street, Nassau avenue, Lorimer street, Driggs avenue, Manhattan avenue, Leonard street, Bayard street, Union avenue and North Twelfth street, known as Williamsburg Park, in the Borough of Brooklyn; and

Whereas, There are now street surface railway tracks within certain of the streets within the boundary of said park and street surface railways are operated thereon, under and pursuant to the grants made by the State of New York and by the Common Council of the former City of Brooklyn, as follows:

To the Greenpoint and Williamsburg Railroad Company by chapter 323 of the Laws of 1864.

To the Nassau Railroad Company by the provisions of chapter 823 of the Laws of 1866.

To the Calvary Cemetery, Greenpoint and Brooklyn Railroad Company by resolution of the Common Council of the City of Brooklyn, April 13, 1885.

To the Brooklyn Crosstown Railroad Company by resolution of the Common Council of the City of Brooklyn, November 12, 1877.

To the Greenpoint and Lorimer Street Railroad Company by resolution of the Common Council of the City of Brooklyn, March 9, 1885; and

Whereas, The properties and franchises of the said companies to which the aforesaid rights have been granted are now and have been since October 31, 1890, the properties of the Brooklyn Company, and on the 14th day of February, 1893, the Brooklyn Company leased to the Heights Company all of its railroads, property and franchises for the period of 999 years from the taking effect of said lease, and said Heights Company is now and has been since June 6, 1893, in possession of and operating the aforesaid tracks, pursuant to the provisions of said lease; and

Whereas, The Heights Company now operates, pursuant to said grants and said lease, street surface railway tracks upon said streets situated within the boundaries of the said public park, or the streets bounding the same; and

Whereas, On the _____ day of _____, 1908, the Board of Directors of the Brooklyn Company, at a meeting of said Board held on said date and by a vote of two-thirds of all the directors of said company, passed a resolution altering and changing the routes of its railway, which alterations and changes are shown on a certain map dated _____ day of _____, 1908, and signed by _____, President, and _____, Chief Engineer, and filed in the office of the County Clerk of Kings County on the _____ day of _____, 1908; and

Whereas, The Brooklyn Company has made application to the Board of Estimate and Apportionment, as the local authority, pursuant to the provisions of section 13 of the Railroad Law, for its approval to the said change of route, agreeing to abandon the said tracks within the limits of said park or the streets bounding the same, as above described, all of which is shown on a map entitled:

"Map or plan to accompany the petition of the Brooklyn City Railroad Company, dated _____, 1908, to the Board of Estimate and Apportionment, for the right to change its route within and adjoining the Williamsburg Park, to streets bounding the same,"

—and signed by _____, President, and _____, Chief Engineer, a copy of which is attached hereto and made a part hereof; and

Whereas, On the _____ day of _____, 1908, the Board of Estimate and Apportionment, as the local authority of The City of New York, adopted a resolution by a two-thirds vote approving such change of route and authorizing the Mayor to execute and deliver a contract approving such change in the name and on behalf of the City, which resolution was approved by the Mayor on the _____ day of _____, 1908;

Now, therefore, in consideration of the premises and of the mutual covenants herein contained, the parties do hereby covenant and agree as follows:

Section 1. The City hereby approves, subject to the conditions and agreement hereinafter set forth, the change of route by the Brooklyn Company as to that portion of its route described as follows:

(1) Beginning at the intersection of North Twelfth street and Bedford avenue; thence by single track in and upon Bedford avenue to Nassau avenue.

(2) Beginning at the intersection of North Twelfth street and Driggs avenue; thence by single track in and upon Driggs avenue to Union avenue.

(3) Beginning at the intersection of North Twelfth street and Union avenue; thence by double track in and upon Union avenue to Driggs avenue; thence in and upon Driggs avenue by double tracks to Manhattan avenue.

(4) Beginning at the intersection of Bayard street and Lorimer street; thence in and upon Lorimer street by double tracks to Nassau avenue or Bedford avenue.

So that such routes are hereby changed as appears upon the map heretofore referred to, the new or substituted routes being more particularly described as follows:

First—Beginning and connecting with the existing tracks of the Brooklyn Company on Union avenue at Bayard street; thence by double track in and upon Bayard street to Leonard street, with connections with existing tracks of the Brooklyn Company in Lorimer street; thence in and upon Leonard street by double track to Manhattan avenue; thence in and upon Manhattan avenue by double tracks to Driggs avenue, and there connecting with the existing tracks of the Brooklyn Company in Manhattan avenue.

Second—Beginning and connecting with the tracks of the Brooklyn Company in Union avenue and North Twelfth street; thence in and upon North Twelfth street by double track to Berry street, with connections with existing tracks of the Brooklyn Company in Driggs avenue and in Bedford avenue; thence in and upon Berry street with double track to Nassau avenue; thence in and upon Nassau avenue with double tracks to Bedford avenue, and there connecting with the existing tracks of the Brooklyn Company in Nassau avenue and Bedford avenue.

Sec. 2. This approval is subject to the following conditions:

First—All the terms, provisions and conditions contained in the acts of the Legislature and the resolutions of the Common Council of the City of Brooklyn herein mentioned shall remain unchanged, and shall apply to the routes herein authorized with the same force and effect as when they applied to the routes described in said laws and resolutions, and as though the routes herein authorized had been specifically described in said laws and resolutions.

Second—The Brooklyn Company covenants and agrees to abandon and relinquish, and does hereby abandon and relinquish to the City all of its rights and franchises to construct, maintain and operate railroads in or upon the portions of the routes described in said laws and in said resolutions, which routes are shown upon the map heretofore referred to as routes abandoned; such portions of the routes so relinquished and abandoned are more particularly described as follows:

(1) Beginning at the intersection of North Twelfth street and Bedford avenue; thence by single track in and upon Bedford avenue to Nassau avenue.

(2) Beginning at the intersection of North Twelfth street and Driggs avenue; thence by single track in and upon Driggs avenue to Union avenue.

(3) Beginning at the intersection of North Twelfth street and Union avenue; thence by double track in and upon Union avenue to Driggs avenue; thence in and upon Driggs avenue by double track to Manhattan avenue.

(4) Beginning at the intersection of Bayard street and Lorimer street; thence in and upon Lorimer street by double track to Nassau avenue or Bedford avenue.

Third—The Brooklyn Company shall bear the entire expense of the removal of the tracks on the routes herein described as abandoned and relinquished, and shall, at its own expense, construct street surface railway tracks on the routes herein described, and shown upon a map hereinbefore referred to as amended routes.

Fourth—The Brooklyn Company and the Heights Company do hereby agree to assume all liability to any person or property by reason of the execution of this contract by the City, and it is a condition of this contract that the City shall assume no liability whatsoever, either to persons or property, on account of the same. The Brooklyn Company and the Heights Company hereby agree to repay to the City any damage which the City may be compelled to pay by reason of this contract.

Sec. 3. The Brooklyn Company agrees to prepare and submit a declaration of abandonment of the stated portions of the route, adopted by the Board of Directors of the Corporation, under its seal, at a meeting of the stockholders called for that purpose. Upon the stockholders ratifying and adopting such declaration of abandonment, the secretary shall so certify under the seal of the corporation, upon such declaration. Such declaration shall then be submitted to the Public Service Commission, and if approved by that body such approval shall be indorsed thereon or annexed thereto, and the declaration, so certified and indorsed, shall be filed and recorded in the office of the Secretary of State. Upon failure of the said Brooklyn Company to effect an abandonment on the routes in question in the stated manner within a reasonable time, this contract and the consent of The City of New York to the said change of route shall thereupon cease and determine.

Sec. 4. The parties hereto each promises, covenants and agrees, on its part and behalf, to conform to and abide by all the terms, conditions and requirements of this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate seal of said City to be hereunto affixed, and the parties of the second part, by their officers thereunto duly authorized, have caused their corporate names to be hereunto signed and their corporate seals to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK,

By _____, Mayor.

[CORPORATE SEAL.]

Attest:

_____, City Clerk.

THE BROOKLYN CITY RAILROAD COMPANY,

By _____, President.

[SEAL]

Attest:

Attest:

_____, Secretary.

(Here add acknowledgments.)

The following was offered:

Resolved, That the Brooklyn City Railroad Company be and it hereby is requested to submit to this Board, within thirty days from the date of the adoption of this resolution, a written petition in duplicate, duly verified, for the consent of this Board to a change in the route of the tracks of the company, as shown on a map presented by said company, entitled "Brooklyn Rapid Transit System, Engineering Department, Brooklyn, New York, track lay-out in the vicinity of McCarren Park (Williamsburg Park)," dated October 29, 1907, and marked "Plan No. 9472-1," provided said Railroad Company will remove and relay said tracks and make such change in its route in accordance with the terms and conditions of the contract submitted this day to the Board by the Chief Engineer.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

NASSAU ELECTRIC RAILROAD COMPANY.

In the matter of the application of the Nassau Electric Railroad Company for a franchise to construct, maintain and operate a street surface railway as an extension

to its existing system, upon and along Flatbush, Fourth and Atlantic avenues, in the Borough of Brooklyn.

At the meeting of June 12, 1908, a report and proposed form of contract was received from the Chief Engineer, and, by resolution adopted on that date, the company was required to submit a statement, in writing, on or before June 19, 1908, as to its willingness to accept the franchise on the terms and conditions proposed.

The Secretary presented the following:

THE NASSAU ELECTRIC RAILROAD COMPANY,
No. 85 CLINTON STREET,
BROOKLYN, N. Y., June 16, 1908.

Board of Estimate and Apportionment, City of New York:

GENTLEMEN—This company is in receipt of a copy of the resolution adopted by your Honorable Board on June 12, 1908, requesting to be advised on or before June 19, 1908, as to its willingness to accept a franchise for an extension of its railroad upon Atlantic, Flatbush and Fourth avenues, Borough of Brooklyn, on the terms and conditions proposed in the form of contract submitted to the Board by its Chief Engineer, and directing the company in case of its failure to accept the contract in its entirety to prepare and deliver a statement in writing specifying in detail what sections and clauses of the proposed form of contract the company is ready and willing to accept, and as to the other sections and clauses furnish full and detailed information as to the reasons for the action taken.

Before taking up in detail the proposed conditions of the franchise, we desire to call your attention to the fact that this application involves merely a curved connection between two sets of adjacent tracks covering about four hundred and fifteen linear feet of single track, of which all, except about one hundred and twenty-five feet, could be constructed under the company's present rights without the necessity of applying for a franchise. The proposed connection is desirable on account of the change in traffic conditions presented by the construction and operation of the East River Subway with its termination at the Long Island Railroad Depot. It is designed for the better accommodation of the patrons of the subway and of the Long Island Railroad, and is similar in principle to many slight changes in existing track facilities that will be required from time to time to meet changing conditions presented either by the construction of subways or the readjustment of lines of travel. Inasmuch as the privilege sought for is merely an attempt on the part of the company to better discharge its duty toward the public, we do not feel that the necessary consent by the City should be accompanied by the usual conditions attaching to the grant of revenue producing franchises, or that they should be so burdensome as to embarrass the company in the performance of its public obligations.

The company is willing to accept all the provisions of the proposed form of contract with the exception of the following:

Section 2, Paragraph 2, fixing the term of the right at ten years, with the privilege of renewal for a further period of fifteen years upon a fair revaluation of such right and privilege. We think this term should be for the same period as that authorized by the City Charter, namely, twenty-five years, with the privilege of renewal on revaluation for an additional period of twenty-five years.

Section 2, Paragraph 3, providing for compensation. Your Honorable Board is undoubtedly aware that under the Special Franchise Tax Law every existing franchise possessed by the company is already taxed at full value under assessments made by the State Board of Tax Commissioners. This valuation changes from year to year according to the judgment of the State Board as to existing conditions, and under a reasonable enforcement of the law no privilege to use the public streets, whether heretofore or hereafter granted, can escape yielding adequate compensation to the City. Indeed we believe that the taxes thus imposed are excessive and unreasonable. It would therefore seem unjust to impose an additional burden, especially for so slight a privilege. The application alone, under the obligations of the City Charter and the requirements of your Board, has already cost the company upwards of \$2,000. Inasmuch as money compensation is more than sufficiently guaranteed by the provisions of existing law, we are unwilling to accept a franchise containing additional exactions of this kind.

Section 2, Paragraph 5: We prefer the language used in the grant of the franchise on Livingston street relating to assignment, lease or sublease of the rights or privileges proposed to be granted, so that the restriction imposed would not apply to contracts between companies of the Brooklyn Rapid Transit system.

Section 2, Paragraph 6: We prefer the same language covering this subject as is employed in the recent grant of the franchise on Livingston street.

Section 2, Paragraph 7: A provision similar to that in the Livingston street franchise will be satisfactory to us as a substitute for this paragraph.

Section 2, Paragraph 8: Relating to the substitution of underground electric power upon one year's notice and the discontinuance of the use of the overhead trolley system. This matter is already sufficiently covered by the general provisions of law, and for the reasons previously stated to your Board in the application for a franchise on Livingston street we cannot assume the proposed obligation.

Section 2, Paragraph 12: We suggest insertion after the word "operation" of the words "for overhead trolley railroads" in order to make the paragraph similar to that employed in the case of the Livingston street franchise.

Section 2, Paragraph 13: Relating to the rate of fare. The same provision as is contained in the Livingston street franchise will be acceptable to us.

Section 2, Paragraph 14: On account of possible contingencies which cannot now be foreseen, we object to the first sentence of this paragraph. The second sentence furnishes ample protection against the improper use of the privilege.

Section 2, Paragraph 15: Relating to the intervals at which cars shall be run. This is a matter which must be determined by the conditions of the public travel, and provision for its regulation is amply provided for under the existing Public Service Commissions Law.

Section 2, Paragraph 18: Relating to the watering of the streets covered by the franchise. Inasmuch as the franchise covers only a few square yards of paving it would seem to be an unreasonable obligation to require the company to provide a tank car and furnish water for the sprinkling of this small section of public street.

Section 2, Paragraph 24: We suggest the elimination of the words "directly or by contractor." We have no objection to indemnifying the City, but we think it unreasonable that we should be asked to indemnify contractors of the City.

Section 2, Paragraph 25: Requiring the company under certain contingencies to widen the roadway at its own expense. This is clearly a municipal duty, and the company is unwilling to assume it.

Section 2, Paragraph 26: Requiring reports to the Board of Estimate and Apportionment covering various information and statistics relative to the financial condition of the company and its operations. Such reports are already required by existing law to be furnished to the Public Service Commission for the First District, and all the information is or may be required by that Commission.

Section 2, Paragraphs 28 and 29: We suggest as a substitute for these paragraphs provisions similar to those in the Livingston street franchise.

Section 2, Paragraph 31: Requiring the deposit of a sum of \$1,000 in money or securities as security for the performance by the company of the terms of the franchise, and the payment of a penalty of \$50 per day for each violation, etc. We expect to carry out faithfully provisions of any franchise which may be granted by your Board and accepted by us and we are willing that the privilege should be terminated in case of failure on our part thus to comply, but the privilege sought for, as recited above, is one of many which we shall probably be obliged to seek from the City in order to accommodate the public properly, and a multiplication of such deposits would be a serious handicap to the company. We think that the City is sufficiently protected by other provisions of the proposed contract, and certainly by the provisions of the Public Service Commissions Law relating to the performance by the company of its obligations under its charter and franchises.

Section 3: Providing for a contract between this company and the Brooklyn City Railroad Company relating to the use of portions of its tracks in Atlantic and Flatbush avenues. This provision we feel is unnecessary, inasmuch as the franchise could not

be accepted by the company unless it had procured assurance of the right from the Brooklyn City Railroad Company, or its lessee, the Brooklyn Heights Railroad Company, to use such portions of the Brooklyn City Company's tracks as may be necessary to use in connection with this franchise. The form of contract covering such use is one involving only the two companies affected, and may be safely left to their negotiation.

Yours very truly,
T. S. WILLIAMS, Vice-President.

REPORT No. F-101.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 23, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—At a meeting of the Board of Estimate and Apportionment held June 12, 1908, a report and proposed form of contract were presented in the matter of the application of the Nassau Electric Railroad Company for a franchise to construct, maintain and operate a street surface railway as an extension to its existing system upon Flatbush avenue, Fourth avenue and Atlantic avenue, in the Borough of Brooklyn.

A resolution was adopted on that date by the Board directing the Secretary to forward a copy of the report and proposed form of contract to the company, with the request that it advise the Board on or before June 19, 1908, as to its willingness to accept the franchise on the terms and conditions proposed, and in case of failure to accept the contract in its entirety, to prepare and deliver a statement specifying in detail what sections and clauses of the proposed form of contract the company is willing to accept, and as to the other sections and clauses to furnish full and detailed information as to the reasons for the action taken.

The company, in a communication under date of June 16, 1908, signed by T. S. Williams, Vice-President, makes objection to eighteen of the clauses contained in the proposed form of contract. This communication calls attention to the fact that the application involves merely a curved connection between two sets of adjacent tracks, and that all of the four hundred and fifteen feet of said connection, with the exception of about one hundred and twenty-five feet thereof, could be constructed under the company's present rights without the necessity of applying for a franchise.

On February 26, 1908, the company applied to the Department of Highways of the Borough of Brooklyn for a permit to open Flatbush, Fourth and Atlantic avenues for the purpose of constructing this loop or extension under the authority of franchises granted by the Common Council to the Brooklyn and Jamaica Railroad under dates of July 21 and September 3, 1834.

The Acting Corporation Counsel, in an opinion rendered at the request of the President of the Borough of Brooklyn under date of April 29, 1908, in reference to the above mentioned resolutions of the Common Council, says: "Such consents it will be seen only granted authority to lay tracks in the centre of the street and cannot be construed to cover the laying of a third track such as is here proposed."

The only authority that can be found for a third track is that given to the Atlantic Avenue Railroad Company, a predecessor in title to the Nassau Company, by resolution of the Common Council on July 8, 1878, granting permission for a siding on Flatbush avenue in front of the Long Island Railroad Depot.

Before discussing the objections in detail, I would call attention to the fact that in a number of them reference is made to corresponding clauses in the so-called "Livingston Street Franchise," as adopted by the Board on June 28, 1907, and approved by the Mayor on June 29, 1907, and requests are made by the company that these clauses be substituted for the ones employed in the proposed form of contract. The Livingston street contract is not in the form which has been used for all other franchises granted by the Board upon the advice of the Corporation Counsel for grants of this nature, but was drawn pursuant to suggestions contained in a report of the Select Committee, to whom the matter was referred, and was made to fit the exigencies of that particular case as I understand it. Special concessions were made in this case in order to hasten the construction of the road so that traffic conditions might be improved. I can see no reason in the present case for any deviation from the usual form of contract heretofore employed in all other similar grants.

The sections and clauses which the company states it is unwilling to accept and the reasons for the action taken are as follows:

Section 2, Paragraph 2: "Fixing the term of the right at ten years with the privilege of renewal for a further period of fifteen years, upon a fair revaluation of such right and privilege. We think this term should be for the same period as that authorized by the City Charter, namely, twenty-five years, with the privilege of renewal on revaluation for an additional period of twenty-five years."

The term of the contract was fixed at ten years with a privilege of renewal for fifteen years for the reason that an extension of this kind is more in the nature of a temporary rather than a permanent feature. It is possible that before the expiration of the original term of ten years traffic conditions may be so changed as to no longer render this loop necessary. It would, therefore, seem advisable to limit the grant to a short term so that in the event of the loop becoming unnecessary the streets may not be obstructed by unused tracks.

Section 2, Paragraph 3. Compensation: "Your Honorable Board is undoubtedly aware that under the Special Franchise Tax Law every existing franchise possessed by the company is already taxed at full value under assessments made by the said Board of Tax Commissioners. This valuation changes from year to year according to the judgment of the said Board as to existing conditions, and under a reasonable enforcement of the law no privilege to use the public streets whether heretofore or hereafter granted can escape yielding adequate compensation to the City * * *. It would, therefore, seem unjust to impose an additional burden especially for so slight a privilege. The application alone, under the obligations of the City Charter and the requirements of your Board, has already cost the company upwards of \$2,000. Inasmuch as money compensation is more than sufficiently guaranteed by the provisions of existing law, we are unwilling to accept a franchise containing additional exactions of this kind."

It is plainly stated in all contracts between the City and the various public service corporations that any and all payments made by the terms of the contract to the City "shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or any law of the State of New York."

Such payments, therefore, cannot be considered in any sense as taxes, but are simply compensation to the City for the use of the public streets. The compensation clause objected to consists of two items:

(1) An initial payment of five hundred dollars in cash within thirty days after the signing of the contract by the Mayor. It is the custom in all franchise grants to provide for a cash payment, as above, and I consider that the one imposed in this case is reasonable.

(2) An annual sum during the first five years of not less than one hundred dollars, and which shall be equal to three per cent. of the gross annual receipts of the railway constructed under the contract, and computed in the manner provided by the Railroad Law, should such percentage exceed the sum of one hundred dollars, and an annual sum during the second five years of not less than two hundred dollars, which shall be equal to five per cent. of the gross receipts, computed as above.

These are the percentages required by the Railroad Law and computed in the manner as therein provided. The charge of one hundred dollars per annum for the first five years is the minimum one imposed for any privilege granted by the Board, whether it be a franchise or revocable consent, and I do not regard this charge for the privilege in question as excessive, or an additional exaction.

Section 2, Paragraphs 5 and 6: Preference is expressed for the language used in the Livingston street franchise in relation to assignment, etc., of the rights and privileges, so that the restriction will not apply to contracts between companies of the Brooklyn Rapid Transit system.

These clauses do not in any way prevent the making of traffic agreements, and their provisions apply only to the right granted, and not to the use of tracks constructed under such grant. I believe they should be retained in their present form in order that the City may have full knowledge as to what company to hold responsible.

Section 2, Paragraph 7: Request is made for the substitution of the Livingston street clause. I think this objection can be met by amending the second paragraph of this clause so as to read:

"The use of said railway, which shall be constructed by the company under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company to any individual or corporation to which the City may have granted or may hereafter grant the right or privilege to use such streets,

avenues or highways for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of such construction of such railway, and of the cost of keeping the tracks and track equipment in repair as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation, and such proportion of the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract in connection with the maintenance or the operation of the said railway so used as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies using the same."

Section 2, Paragraph 8:

"Relating to the substitution of underground electric power upon one year's notice and the discontinuance of the use of the overhead trolley system. This matter is already sufficiently covered by the general provisions of law, and for the reasons previously stated to your Board in the application for a franchise on Livingston street, we cannot assume the proposed obligation."

The objection made by the company in the Livingston street case was that construction of the underground system would burden the company with much additional cost and produce that for which no use at that time existed.

I am of the opinion that this clause should be inserted in all franchises, for the reason that this Police Power of the City cannot be waived and it would seem that the City's control should be fairly recognized and accepted by the companies.

Section 2, Paragraph 12: Suggestion is made that this paragraph be amended so as to read:

"Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation 'for overhead trolley railroads' * * *"

If the eighth paragraph of the proposed form of contract is retained, then this one also must be retained in order to make the contract consistent. The insertion of the words, "overhead trolley railroads," would limit the application of this clause to such roads only. The proposed insertion, therefore, would appear to be unnecessary in any case.

Section 2, Paragraph 13:

"Relating to the rate of fare. The same provision as is contained in the Livingston street franchise will be acceptable to us."

The clause in the proposed form of contract is the same as has been employed in all other grants to street surface railways, except the so-called Livingston street grant, and is the condition required by the Railroad Law. The Livingston street grant did not provide for a five cent fare, but restricted the fare to that allowed by the charters of the operating companies.

Section 2, Paragraph 14: Objection is made to the first sentence of this paragraph, which prohibits freight cars and storage of cars on the loop on the ground that the second sentence furnishes ample protection against improper use of the privilege.

It seems desirable on account of the proximity of the loop to the Long Island Railroad Company's depot and freight terminal that the streets should be obstructed as little as possible, in order to prevent obstruction of vehicular traffic. In addition, the proposed loop will pass over two crosswalks, and the existing siding on Atlantic avenue, with which this loop will connect, also passes over several crosswalks. All of these walks are largely used by pedestrians. It would, therefore, seem advisable that the sentence relating to the operation of passenger cars only and forbidding the storage of cars should be retained, in order that the important thoroughfares in this locality may not be unnecessarily obstructed. Although, as stated, the second sentence of this paragraph may afford ample protection against improper use, I believe such improper use should be specifically set forth in the contract, in order to preclude any necessity for its determination at a later date.

Section 2, Paragraph 15:

"Relating to the intervals at which cars shall be run. This is a matter which must be determined by the conditions of the public travel, and provisions for its regulation is amply provided for under the existing Public Service Commissions Law."

The clause proposed reserves to the Board the power of regulating the headway of cars operated under the franchise granted, irrespective of either State or Municipal authorities, and I believe should be retained.

Section 2, Paragraph 18: Objection is made that it would be an unreasonable obligation to require the company to provide a tank car and furnish water for the sprinkling of the small section of public street covered by this extension.

It is a requirement of all grants of this nature that the grantee shall water the streets occupied.

The provision as to furnishing a separate tank car may be omitted, but the requirement as to watering the streets should be retained. In this connection it may be pointed out that the Livingston street franchise contains a provision requiring the furnishing of a tank car, and that such provision was accepted by the company. It would appear to be an easy matter for the company to use the same tank car on both routes.

Section 2, Paragraph 24: Suggestion is made that the words, "Directly or by contractor," be eliminated from this clause, and the company states that it has no objection to indemnifying the City, but believes it to be unreasonable that it should be asked to indemnify contractors of the City. I cannot see that by this clause the company is asked to indemnify contractors. The clause provides that in case of the interference by the railway with the construction of public works, the company shall, at its own expense, protect or move its tracks, as directed by the President of the Borough. It must be borne in mind that the greater part of municipal work is performed by contractors, and that said contractors stand in the place of the City. If it is required, as above, that the company shall care for its own tracks, these contractors are enabled to make lower bids for the reason that contracts can be let with this understanding.

Section 2, Paragraph 25: Objection is made to the second paragraph of the proposed clause. This was inserted through error and should be omitted.

Section 2, Paragraph 26: The company objects to making annual reports to the Board in the form prescribed in all franchise grants, and states that such reports are required to be furnished to the Public Service Commission.

As the City, in all franchise grants, deals directly with the company receiving the same, I believe the Board is entitled to receive such reports as it may require for its information at first hand, irrespective of any reports that are required to be furnished to other municipal or State authorities.

It may also be noted that the reports required by the Board are for the year ending September 30, and thus conform with the fiscal year as fixed for the payment of compensation, while the reports to the Public Service Commission are for the year ending June 30.

Section 2, Paragraphs 28 and 29: It is suggested that provisions similar to those in the Livingston street franchise be substituted. The only difference between the first of these paragraphs and the corresponding provision in the Livingston street franchise is that the form proposed for this contract in addition to providing that in case of the violation or failure to comply with any of the other provisions of the contract, such contract may be forfeited by a suit brought by the Corporation Counsel, or by resolution of the Board, further provides that said resolution may provide that the railway shall become the property of the City without proceedings at law or in equity.

Paragraph 29, in its present form, fixes the amount of fixed or liquidated damages at two hundred and fifty dollars for each day during which a default or defect remains after notice from the Board to remedy the same within a reasonable time, while the Livingston street franchise provides that such penalty shall be fixed by the Board in such an amount as shall seem just and fair.

I am of the opinion that the clauses should be retained in their present form.

Section 2, Paragraph 31: Objection is made to the provision requiring a security deposit of one thousand dollars, and to the payment of fifty dollars per day as a penalty for violations of certain provisions of the contract.

It is usual in all grants by the City to require a security deposit of an amount sufficient to cover one year's compensation, and the cost of removing the structure of the grantee from the public streets. In regard to the imposition of fifty dollars per day for violations of the provisions of the contract, relating to the headway, heating and lighting of cars, etc., it would seem desirable that these penalties should be specifically fixed, and I would, therefore, suggest a retention of this clause in its present form.

Section 3: "Providing for a contract between this Company and the Brooklyn City Railroad Company, relating to the use of portions of its tracks in Atlantic and Flatbush avenues. This provision we feel is unnecessary, inasmuch as the franchise could not be accepted by the Company unless it had procured assurance of the right from the Brooklyn City Railroad Company, or its lessee, the Brooklyn Heights Railroad Company, to use such portions of the Brooklyn City Company's tracks as may be necessary to use in connection with this franchise. The form of contract covering such use is one involving only two companies affected, and may be safely left to their negotiation."

As it is admitted that the two companies whose tracks will be connected by the construction of the loop will enter into negotiations for the joint use of these tracks, I do not consider it either unreasonable or unnecessary to require that such negotiations shall be in the form of a contract to be entered into between the Nassau and Brooklyn City Companies, and that such contract shall be filed with the Board, in order that it may have full information in regard to the right granted.

I would suggest that in accordance with the usual custom of the Board, the matter be referred to a Select Committee to determine upon what terms and conditions the franchise should be granted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The matter was referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Brooklyn.

A. T. STEWART REALTY COMPANY.

The Secretary presented the following:

In the Matter
of

The application of the A. T. Stewart Realty Company for authority to construct and maintain a bridge across Ninth street, in the Borough of Manhattan, City of New York, between Broadway and Fourth avenue, and connecting the buildings on the north and south side of said streets.

To the Board of Estimate and Apportionment of The City of New York:

Your petitioner respectfully applies for permission to construct and maintain a bridge across Ninth street, in the Borough of Manhattan, City of New York, between Broadway and Fourth avenue, and connecting the building on the north and south side of said streets, consistent with the plans and specifications filed herewith:

First—The A. T. Stewart Realty Company, your petitioner, and hereinafter referred to as the "Petitioner," is a corporation duly organized and existing under the laws of the State of New York.

Second—Your petitioner, in addition to such real estate as it owns in fee, is lessee from the trustees of the Sailors' Snug Harbor, in The City of New York, of the two blocks of ground, with the improvements, in the Borough of Manhattan, City of New York, described as follows:

Parcel No. 1—The entire block bounded by Eighth street on the south, Ninth street on the north, Broadway on the west and Fourth avenue on the east.

Parcel No. 2—The entire block bounded by Ninth street on the south, Tenth street on the north, Broadway on the west and Fourth avenue on the east. Your petitioner is in control of all of the above-described property by virtue of lease dated the 20th day of April, A. D. 1903, for the term of ninety-one (91) years from the 1st day of May, A. D. 1903, which is recorded in the office of the Register of the County of New York on the 23d day of July, A. D. 1903, in section 2, Liber 113, page 328, Blocks 554 and 555.

Third—Under and by virtue of the authority of The City of New York, the New York and New Jersey Railroad Company, a duly organized corporation, was authorized to construct in the Borough of Manhattan a subway connecting the tunnel under the Hudson River, from Hoboken to Christopher street, in the Borough of Manhattan, and from said Christopher street, by a duly prescribed route to Sixth avenue and Thirty-fourth street; that as a part of said grant or permission said company is required to construct a subway or tunnel from Ninth street and Sixth avenue through said Ninth street to the subway in Fourth avenue; that under the terms of said franchise the New York and New Jersey Railroad Company is called upon to construct its stations on private property, and, as a result of said provision, will have a station on the north and south sides of said Ninth street, between Broadway and Fourth avenue, on the property of your petitioner.

Fourth—That as a result of said provisions the passengers to be carried by said railroad will make their ingress to and egress from trains of said railroad through the premises of your petitioner, which will be required to be available therefor at all times, and provision will have to be made by your petitioner for access from said New York and New Jersey Railroad Company through your petitioner's premises to the subway in Fourth avenue.

Fifth—Your petitioner seeks said permission for the better accommodation of the public and the large number of persons who will pass through said building from said stations, and for those who may enter said premises for commercial purposes and thereafter seek the use of said tunnel so to be constructed.

Sixth—That in and by the franchise granted to the New York and New Jersey Railroad Company said company is required to keep a permanent connection between the stations in Ninth street and the Astor place station of the Fourth avenue subway, and that said transit from the station of the said New York and New Jersey Railroad Company to the subway station in Astor place will necessarily pass through the premises of your petitioner.

Seventh—That said bridge, permission for the construction of which is herewith sought, will be of substantial advantage to the public for the following, among other reasons:

(a) It will facilitate those seeking the use of the stations, whether said persons enter the northerly or southerly of the two buildings and will enable them to reach the station on either side without crossing the street other than under cover.

(b) That in constructing the southerly of two said buildings your petitioner increased the elevator service in the southerly building in order to facilitate the gaining of access to the Astor place station of the Fourth avenue subway from the upper floors of said building for persons who might be in said southerly building; that the elevator service so installed would be a like accommodation to the public who would be in the northerly of two said buildings by the construction of the bridge asked for by your petitioner.

(c) That said bridge would be a substantial protection for human safety, in case of fire, in view of the large number of persons necessarily in said buildings at all times.

(d) As a large portion of the public using said station will tarry in or stop in one or the other of the petitioner's said building for the purpose of trade, it will facilitate the transit from one building to another without creating unnecessary congestion and without in any wise interfering with the public use of said Ninth street, between Broadway and Fourth avenue.

(e) As a large portion of the public using said station location in your petitioner's premises will enter said premises from either Eighth or Tenth street, or, on leaving the cars at the station enter the building from the north or south side of Tenth street, it will require such a rearrangement of the ground floor space of said buildings that much of said business now transacted on said floors will be required to be conducted on floors above, that said bridge will be a necessity for proper transit from building to building.

Respectfully submitted,

THE A. T. STEWART REALTY COMPANY.

By RODMAN WANAMAKER, Vice-President.

WM. L. NEVIN, Secretary.

Dated, New York, June 4, 1908.

City and County of New York, ss.:

Rodman Wanamaker, being duly sworn, deposes and says that he is the Vice-President of the above-named petitioner, the A. T. Stewart Realty Company, and that he has read the foregoing petition and believes it to be true.

[SEAL.]

RODMAN WANAMAKER.

Sworn to before me this 4th day of June, 1908.

[SEAL.] C. W. SMITH, Notary Public, New York County.

REPORT No. F-109.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 22, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The A. T. Stewart Realty Company, a domestic corporation, has presented a petition dated June 4, 1908, to the Board of Estimate and Apportionment for permission to construct and maintain an inclosed bridge about 23 feet wide and 31 feet high, outside dimensions, and 38 feet above the roadway, over and across East Ninth street, in the Borough of Manhattan, between Broadway and Fourth avenue, connecting the third and fourth floors of the buildings on the opposite sides of said street, and at the meeting held June 12, 1908, the petition was referred to the Chief Engineer with instructions to incorporate in the form of consent a provision requiring the grantee to obtain the approval of the Municipal Art Commission to the plans of the proposed bridge before the commencement of construction of the same.

The petition recites that the company is in control of all of the property on the block bounded by Eighth street, Ninth street, Broadway and Fourth avenue, and on the block bounded by Ninth street, Tenth street, Broadway and Fourth avenue, by virtue of a lease dated April 20, 1903, for the term of 91 years from the 1st day of May, 1903, and that the bridge is desired for the purpose of

(a) Providing better accommodations for the large number of persons who will pass through the buildings to be connected by the proposed bridge, from the existing station of the Interborough Rapid Transit Railway Company and from the station of the New York and New Jersey Railroad Company when constructed, and for those who may enter the premises for commercial purposes.

(b) Providing additional protection for human safety in case of fire.

The two buildings of the petitioner are at present connected by two tunnels under and across East Ninth street, one about 66 feet east of the easterly line of Broadway, constructed under the authority of a resolution adopted by the Board of Estimate and Apportionment October 27, 1905, and approved by the Mayor November 3, 1905, granted to John Wanamaker, and the other along the westerly house line of Fourth avenue, constructed under the authority of a resolution adopted by the Board of Rapid Transit Railroad Commissioners on July 23, 1903, granted to the Interborough Rapid Transit Company. The building on the block between Eighth and Ninth streets is directly connected with the Astor place station of the Interborough Rapid Transit Railroad at the northwest corner of Eighth street and Fourth avenue.

The petitioner further states that a station of the New York and New Jersey Railroad Company is to be constructed on the petitioner's properties on the northerly and southerly sides of East Ninth street, between Broadway and Fourth avenue, and that necessary connections between said station and the Astor place station of the Interborough Rapid Transit Railroad will have to be made through the said properties.

Communications were addressed to the President of the Borough of Manhattan and to the Fire Commissioner, inclosing copies of the petition and accompanying plan, and requesting that an examination be made by the various Bureaus having jurisdiction, with a view to ascertaining if there were any objections to the project or any special conditions which should be incorporated in the form of consent heretofore used for similar privileges.

Replies were received from these officials stating that there were no objections to the granting of the requested permission but the communication from the Fire Commissioner requested that the proposed bridge be constructed entirely fireproof throughout with automatic self-closing doors at each end and with wire glass set in metal frames in the skylights and side windows. These conditions have been incorporated in the form of resolution herewith submitted.

The properties to be connected by the proposed bridge are accessible by means of the Broadway Surface Railroad, the Fourth Avenue Surface Railroad, the Eighth Street Surface Railroad and the Interborough Rapid Transit Railroad under Fourth avenue and, upon completion, the New York and New Jersey Subway Railroad with stations in East Ninth street, between Broadway and Fourth avenue will bring a large additional number of persons to this locality.

The proposed bridge will undoubtedly be used by a great number of persons who would otherwise cross the surface of the street, and such use will relieve congestion at this point.

I can see no reason why the requested permission should not be granted, and I would recommend that consent be given during the pleasure of the Board of Estimate and Apportionment, but in no case to extend beyond ten years from the date of the approval of the Mayor, and revocable upon sixty (60) days' notice in writing, and that it be made a condition of the consent that a security deposit in the sum of \$5,000 be required; said deposit to be in the form of either money or securities to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

John Wanamaker, New York, Inc., is the present occupant of the buildings to be connected by the proposed bridge, and I have made it a condition of the consent that no other person, firm or corporation other than the said John Wanamaker, New York, Inc., shall be permitted to use the proposed bridge without the consent of the Board of Estimate and Apportionment.

The total area of the plan of the proposed bridge between building lines is 1,392 square feet and the average assessed valuation of the land at the points where the bridge connects with the two buildings is \$20.06 per square foot.

It being understood that the connecting bridge will be used solely for the purpose of a passageway and not in any way for the display or sale of goods and merchandise, on the basis of compensation heretofore adopted by the Board in similar cases, viz.: Eight per cent. of the assessed valuation of the plan area of the structure per annum, the annual charge for the first term of five years would be \$2,230, but as the proposed bridge is to be a double structure, connecting two floors of the buildings on opposite sides of the street, to wit: The third and fourth floors, it would appear that a fair charge would be one and one-half times the usual charge for a single passageway. On this basis, for the first term of five years, with a 5 per cent. increase for the succeeding term of five years, the annual charges would be as follows:

During the first term of five years, the annual sum of \$3,345.

During the second term of five years, the annual sum of \$3,510.

This compensation should commence on the date of the approval of the consent by the Mayor.

In accordance with the instruction of the Board, I transmit herewith a form of resolution for adoption, containing, in addition to the customary provisions, a clause requiring the obtainance of the approval of the Municipal Art Commission to the plans of the proposed bridge before the commencement of construction of the same.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Hon. Job E. Hedges appeared and requested the proposed resolution be amended by providing that the Municipal Art Commission should act on the plans within thirty (30) days from the date of submission of same.

The following was offered:

Whereas, The A. T. Stewart Realty Company of New York has presented an application, dated June 4, 1908, to the Board of Estimate and Apportionment of The City of New York for its consent to the construction, maintenance and use of an enclosed overhead bridge across East Ninth street, about 153 feet east of the easterly line of Broadway, in the Borough of Manhattan, said bridge to connect the buildings of the company on either side of said East Ninth street, and to be used as a passageway between said buildings; Now, therefore, be it

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the A. T. Stewart Realty Company, the lessee of certain

properties on the northerly and southerly sides of East Ninth street, between Fourth avenue and Broadway, in the Borough of Manhattan, City of New York, to construct, maintain and use an enclosed single span bridge over and across said East Ninth street, about 153 feet east of the easterly line of Broadway, connecting its buildings as shown on the plan accompanying the application, and entitled: "Plan showing location of proposed bridge to be constructed over Ninth street, City of New York. Application of Mr. John Wanamaker to the Board of Estimate and Apportionment, City of New York, dated June 4, 1908. The A. T. Stewart Realty Company, presenting application," a copy of which is annexed hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment or its successors in authority, and shall be revocable upon sixty (60) days' notice in writing to said grantee, its successors or assigns, but in no case shall it extend beyond a term of ten (10) years from the date of approval by the Mayor, and thereupon all rights of the said A. T. Stewart Realty Company in or over said East Ninth street by virtue of this consent shall cease and determine.

2. The said A. T. Stewart Realty Company, its successors or assigns, shall pay into the Treasury of The City of New York, as compensation for the privilege hereby granted, during the first term of five years the annual sum of three thousand three hundred and forty-five dollars (\$3,345), and during the second term of five years the annual sum of three thousand five hundred and ten dollars (\$3,510). Such payments shall be made in advance on November 1 of each year; provided, however, that the amount of the first payment to be made within thirty (30) days after the approval of this consent by the Mayor shall be only that proportion of three thousand three hundred and forty-five dollars (\$3,345) as the time between the approval of this consent by the Mayor and November 1 following bears to the whole year. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York or by any law of the State of New York.

3. Upon the termination of the lease held by the said grantee of either one or both of the buildings connected by the bridge, or upon revocation or termination of this consent, the said grantee, its successors or assigns, shall, at its own cost, cause the bridge and all its appurtenances to be removed from the limits of the street, if required so to do by The City of New York through its duly authorized representatives. If the bridge constructed by the said grantee under this consent shall not be required to be removed, it is agreed that the said bridge shall become the property of The City of New York.

4. The bridge to be erected under the consent hereby given is for the exclusive use of the business of John Wanamaker, New York, Inc., the present occupant of the buildings to be connected by the bridge, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein pass to or vest in any person or corporation whatsoever, other than the said John Wanamaker, New York, Inc., either by the acts of said grantee, its successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment or its successors in authority.

5. The said grantee shall pay the entire cost of—

(a) The construction and maintenance of the bridge.

(b) The protection of all surface and subsurface construction in East Ninth street which may be disturbed by the construction of the bridge.

(c) The replacing or restoring of the pavement in said street which may be disturbed during the construction of said bridge.

(d) Each and every item of the increased cost of any future structure caused by the presence of said bridge under this consent.

(e) The inspection of all work during the construction or removal of the bridge which may be required by any Department of The City of New York having jurisdiction over such construction or removal.

6. It is made a particular condition of this consent that the said bridge shall be constructed of fireproof material throughout, that automatic self-closing fireproof doors shall be provided at each end of the said bridge, and that all skylights, side windows, etc., shall be of wire glass set in metal frames.

The grantee shall obtain the approval of the Municipal Art Commission to the plans of the proposed bridge as to its artistic design before the commencement of construction of the bridge, provided action is taken by the Municipal Art Commission within thirty days from the date of the submission of the designs to it.

Before the construction shall be begun the grantee shall obtain permits to do the work from the President of the Borough of Manhattan, and the said grantee shall perform all the duties which may be imposed as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to said official working plans which shall include and show in detail the method of construction of said bridge and the mode of protection or changes in all structures required by the construction of said bridge.

7. The grantee, its successors or assigns, shall allow to The City of New York a right of way under, over or through any part of the bridge constructed under the consent hereby granted for any and all structures which are now or may be hereafter placed by The City of New York in that portion of the above named street occupied by said bridge.

8. Said bridge shall be constructed, maintained and used subject to the supervision and control of the proper authorities of The City of New York, and said bridge shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. Said bridge shall be used by John Wanamaker, New York, Inc., as a passageway between the aforementioned buildings, and for no other purpose whatsoever, and no material of any kind or description shall be allowed to remain standing thereon, no merchandise shall be displayed or sold thereon, and no electric wires or pipes shall be placed upon or attached to the said bridge, except those necessary for the purpose of adequately lighting the same.

10. The grant of this privilege is given subject to whatever right, title or interest the owners of the abutting property or any other person or persons may have in and to the street where the bridge is to be constructed, and the said grantee shall be liable for all damage to persons or property, including the street, by reason of the construction or maintenance of said bridge, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. The said grantee, its successors or assigns, shall commence the construction of said bridge under this consent and complete the same on or before July 1, 1909, otherwise this consent shall be forfeited forthwith and without any proceeding, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding three months beyond the date specified.

13. This consent is upon the express condition that within thirty (30) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, the said grantee shall deposit with the Comptroller of The City of New York the sum of five thousand dollars (\$5,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge.

In case of default in the payment of the annual charge The City of New York shall collect the same, with interest, from such fund after ten (10) days' notice in writing to the said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, upon thirty (30) days' notice in writing pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars (\$5,000), and in default of the payment thereof, the consent hereby given may be canceled and annulled, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

14. Said grantee shall give notice to the President of the Borough of Manhattan in writing of its intention to begin construction of the work hereby authorized at least

forty-eight (48) hours before such construction commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work was commenced, and also the date on which the same was completed, not later than ten (10) days after such dates.

15. This consent shall not become operative until said grantee shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, maintenance or use of the bridge hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

NATIONAL CITY BANK OF NEW YORK AND FARMERS' LOAN AND TRUST COMPANY.

The Secretary presented the following:

June 11, 1908.

To the Honorable the Board of Estimate and Apportionment, City of New York:

SIRS—We respectfully petition your Honorable Board for permission to construct a tunnel under Exchange place, connecting the National City Bank with the Farmers' Loan and Trust Company; said tunnel to be used only for communication between the two buildings. We file herewith complete detail drawings of the proposed tunnel.

Respectfully submitted,

THE NATIONAL CITY BANK OF NEW YORK,
By A. KAVANAGH, Cashier.

June 11, 1908.

To the Honorable the Board of Estimate and Apportionment, City of New York:

SIRS—We respectfully petition your Honorable Board for permission to construct a tunnel under Exchange place, connecting the National City Bank with the Farmers' Loan and Trust Company; said tunnel to be used only for communication between the two buildings. We file herewith complete detail drawings of the proposed tunnel.

Respectfully submitted,

THE FARMERS' LOAN AND TRUST COMPANY,
By E. S. MARSTON, President.

REPORT NO. F-110.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 19, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The National City Bank of New York, and the Farmers' Loan and Trust Company have presented a petition dated June 11, 1908, to the Board of Estimate and Apportionment for permission to construct, maintain and use a tunnel under and diagonally across Exchange place, in the Borough of Manhattan, between Hanover street and William street, connecting the properties of the petitioners on the northerly and southerly sides of said street.

The applicants have stated that the tunnel is desired in order to provide a convenient passageway between the two buildings of the petitioners, now in process of construction, for the sole use of the officials and employees of both institutions, the public to have no access to the proposed tunnel.

Copies of the application and plan were sent to the President of the Borough of Manhattan, and to the Commissioner of Water Supply, Gas and Electricity, with a request that the project be examined by the different Bureaus having jurisdiction, with a view to ascertaining if there were any objections or any special conditions which should be incorporated in the form of consent heretofore used for similar privileges.

Replies were received from the said officials stating that there were no objections to the project, and no conditions other than those incorporated in the form of consent heretofore used by the Board.

I see no reason why the requested permission should not be given, and I would recommend that consent be granted during the pleasure of the Board of Estimate and Apportionment, but in no case to extend beyond twenty-five years from the date of approval by the Mayor, and revocable upon sixty days' notice in writing, and that it be made a condition of the consent that a security deposit in the sum of five thousand dollars be required, said deposit to be in the form of either money or securities to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

The total area of the proposed tunnel between the building lines is four hundred and seventy-six square feet, and on the basis of compensation heretofore adopted by the Board in similar cases, viz.: Eight per cent. of the assessed valuation of the plan area of the tunnel per annum, the charge for this privilege would be two thousand three hundred and seventy-five dollars (\$2,375) per annum, for the first term of five years, which with a 5 per cent. increase for each succeeding term of five years would make a future charge as follows:

During the second five years, the annual sum of \$2,495.

During the third five years, the annual sum of \$2,620.

During the fourth five years, the annual sum of \$2,750.

During the fifth five years, the annual sum of \$2,885.

This compensation should commence on the date of the approval of the consent by the Mayor.

I transmit herewith a form of resolution for adoption by the Board, containing the customary provisions.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The National City Bank of New York, and the Farmers' Loan and Trust Company, have presented an application dated June 11, 1908, to the Board of Estimate and Apportionment of The City of New York, for its consent to the construction, maintenance and use of a tunnel under and diagonally across Exchange place, in the Borough of Manhattan, between Hanover street and William street, said tunnel to connect the buildings of the petitioners, now in process of construction, on opposite sides of said Exchange place, and to be used solely as a passageway for the convenience of officials and employees of the petitioners; now therefore be it

Resolved, That the consent of the corporation of The City of New York be and the same is hereby given jointly to the National City Bank of New York and the Farmers' Loan and Trust Company, the owners of certain properties on the northerly and southerly sides of Exchange place, in the Borough of Manhattan, City of New York, to construct, maintain and use a tunnel under and diagonally across Exchange place between Hanover street and William street, connecting the said properties of the petitioners; the said tunnel to be used as a passageway between the two properties and used solely for officials and employees of both institutions, and for no other purpose, all as shown on the plan accompanying the application, and entitled: "Plan to accompany application for proposed tunnel under Exchange place, Borough of Manhattan, by the National City Bank to the Board of Estimate and Apportionment, City of New York, dated June 11, 1908," and signed by the Farmers' Loan and Trust Company by E. S. Marston, Secretary, and the National City Bank of New York by

Kavanagh, Cashier, a copy of which is annexed hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment, or its successors in authority, and shall be revocable upon sixty (60) days' notice in writing to the said grantees, their successors or assigns, but in no case shall it extend beyond a term of twenty-five years from the date of the approval of this consent by the Mayor, and thereupon all rights of the said the National City Bank of New York, and the Farmers' Loan and Trust Company, in or under said Exchange place by virtue of this consent shall cease and determine.

2. The said the National City Bank of New York and the Farmers' Loan and Trust Company, their successors or assigns, shall pay into the treasury of The City of New York as compensation for the privilege hereby granted during the first term of five years the annual sum of two thousand three hundred and seventy-five dollars (\$2,375); during the second term of five years the annual sum of two thousand four hundred and ninety-five dollars (\$2,495); during the third term of five years the annual sum of two thousand six hundred and twenty dollars (\$2,620); during the fourth term of five years the annual sum of two thousand seven hundred and fifty dollars (\$2,750); and during the fifth term of five years the annual sum of two thousand eight hundred and eighty-five dollars (\$2,885). Such payments shall be made in advance on November 1 of each year, provided, however, that the first payment shall be made within thirty (30) days of the approval of this consent by the Mayor, and shall be only that proportion of two thousand three hundred and seventy-five dollars (\$2,375) as the time between the approval of this consent by the Mayor and November 1 following bears to the whole year. Such payments shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York or by any law of the State of New York.

3. Upon the removal of the said grantees from either one or both of the buildings to be connected by the tunnel, or upon the revocation or termination by limitation of this consent, the said grantees, their successors or assigns, shall, at their own cost, cause the tunnel to be removed and all that portion of Exchange place affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives. If the tunnel to be constructed by the said grantees under this consent shall not be required to be removed, it is agreed that the said tunnel shall become the property of The City of New York.

4. The consent hereby given is for the exclusive use of the grantees and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the said grantees, their successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment or its successors in authority.

5. The said grantees shall pay the entire cost of:

(a) The construction and the maintenance of the tunnel.

(b) The protection of all surface and subsurface structures which shall in any way be disturbed by the construction of the tunnel.

(c) All changes in sewers or other subsurface structures made necessary by the construction of the tunnel, including the laying or relaying of pipes, conduits, sewers or other structures.

(d) The replacing or restoring of the pavement in said street which may be disturbed during the construction of said tunnel.

(e) Each and every item of the increased cost of any future substructure caused by the presence of said tunnel under this consent.

(f) The inspection of all work during the construction or removal of the tunnel, as herein provided, which may be required by the President of the Borough of Manhattan, and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction shall be begun the grantees shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. The grantees shall perform all the duties which may be imposed upon them by those officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantees shall submit to those officials working plans which shall include and show in detail the method of construction of such tunnel and the mode of protection or changes in all subsurface structures required by the construction of the tunnel.

7. The grantees, their successors or assigns, shall allow to The City of New York a right of way through, under or above any part of the tunnel constructed under the consent hereby granted for any and all subsurface structures which are now or may be hereafter placed by The City of New York in those portions of Exchange place occupied by said tunnel.

8. The said tunnel and any pipes and conduits laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. The said tunnel shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. This consent is subject to whatever rights, title or interest the owners of abutting property or others may have in and to Exchange place.

10. Said grantees shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction and operation or maintenance of said tunnel, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of the consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. Said grantees, their successors or assigns, shall commence the construction of said tunnel under this consent and complete the same within two years from the date of the approval of this consent by the Mayor; otherwise this consent shall be forfeited forthwith, and without any proceeding, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding six months.

13. This consent is upon the express condition that the said grantees within thirty days after the approval of this resolution by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of five thousand dollars (\$5,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement. In case of default in the performance by said grantees of any of such terms and conditions The City

of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment of the annual charge, shall collect the same with interest from such fund, after ten days' notice in writing to the said grantees.

In case of any drafts so made upon the security fund, the said grantees shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars (\$5,000) and in default of the payment thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

14. Said grantees shall give notice to the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, in writing, of their intention to begin construction of the work hereby authorized at least forty-eight hours before such construction commences. The grantees shall also give to the Board of Estimate and Apportionment notice, in writing, of the date on which the work is commenced, and also the date on which the same is completed.

15. This consent shall not become operative until said grantees shall duly execute an instrument in writing, wherein said grantees shall promise, covenant and agree on their part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty days after the approval of this consent by the Mayor.

And the said grantees shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the tunnel hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

CENTRAL RAILROAD COMPANY OF NEW JERSEY.

In the matter of the application of the Central Railroad Company of New Jersey for permission to construct, maintain and use a footbridge over and across West street, between Cedar and Liberty streets, Borough of Manhattan, connecting the property of the petitioner at West and Liberty streets with the ferry station to be erected on the North River water-front.

This petition was presented to the Board at its meeting of May 15, 1908, and was referred to the Chief Engineer.

(The petition is printed in full in the Minutes of May 15, 1908.)

The Secretary presented the following:

REPORT No. F-43.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 22, 1908.

MR. NELSON P. LEWIS, Chief Engineer:

SIR—The Central Railroad Company of New Jersey has presented a petition, dated May 11, 1908, to the Board of Estimate and Apportionment for permission to construct and maintain a footbridge over and across West street, in the Borough of Manhattan, between Cedar street and Liberty street, connecting an L-shaped piece of property owned by the petitioner and fronting on West street and Liberty street, known as No. 101 West street and No. 144 Liberty street, with the ferry station of the petitioner to be erected on the North River water-front, in order to furnish a safe and expeditious access to the ferryhouse and to a Recreation Pier at West and Liberty streets.

The petition recites that a resolution was adopted by the Board of Aldermen on May 5, 1908, requesting the President of the Borough of Manhattan to construct and maintain this bridge over West street, and to ask the Board of Estimate and Apportionment for an appropriation to meet the expense connected therewith. The preamble to this resolution states that the proposed bridge will be of great benefit in affording safe access to a Recreation Pier at West and Liberty streets.

The Central Railroad Company of New Jersey originally made application to the Board of Estimate and Apportionment, under date of November 18, 1903, for permission to construct this bridge for the accommodation of the public in obtaining safe access to the company's ferryhouse, and on January 23, 1904, the petitioner was advised that the Corporation Counsel had held that application for such permission should first be made to the Board of Aldermen. No action by the petitioner leading to the granting of such permission by the Board of Aldermen appears to have been taken.

Under date of June 18, 1907, the Company again presented an application to the Board of Estimate and Apportionment for the same privilege, and suggested that the compensation to be fixed by the Board should not exceed one hundred dollars per annum.

A report of the Division of Franchises on that application was presented to the Board at a meeting held July 8, 1907, recommending that the requested petition be granted upon the usual terms imposed by the Board for bridges over streets, the compensation to be two thousand eight hundred and fifty dollars (\$2,850) per annum for the first term of five years and three thousand dollars (\$3,000) per annum for the second term of five years, but under date of October 3, 1907, the petitioner addressed the Board, stating that the "application was made under a misapprehension, and the same is hereby withdrawn."

The present petition before the Board is precisely similar to the applications above mentioned, with the exception that it is claimed that the proposed bridge is necessary to furnish a safe means of access to a Recreation Pier.

The Central Railroad Company of New Jersey controls the North River bulkhead from a point opposite the middle of the block between Carlisle and Albany streets northerly to a point about forty feet southerly of the northerly line of Cedar street, including Pier (new) 10, near the foot of Albany street, and Pier (new) 11, near the foot of Cedar street, a distance of about 345 feet, under a lease from the Commissioner of Docks and Ferries for a term of years, and which lease was approved by the Commissioners of the Sinking Fund on July 1, 1902.

In addition, the company owns the water-front property extending from the northerly side of Pier (new) 11 northerly about 173 feet, and it was made a condition of the above mentioned lease that the company would proceed with the improvement of said property under the new plan for the improvement of the water-front as adopted by the Department of Docks and Ferries.

Subsequently the Commissioner of Docks and Ferries granted a permit to the railroad company to construct and maintain a shed fifty feet wide along the bulkhead, part of which was to contain a ferryhouse, the entire length of these properties, a distance of about 519 feet. This permit accepted the proposal of the company to provide a flat roof upon the shed for the use of the public, and in consideration of the erection of this shed with promenade roof and staircases giving access to the same, etc., the City waived all claim for rental for the use of the new made land covered by said structure. It was, however, provided in the permit that should the roof of the shed cease to be used for a public promenade, the company should pay rental at the rate of twenty-five cents per square foot per annum for the new made land owned by the City and covered by the shed, less an amount per annum

which, during the term of thirty years, would amortize the original cost of the structure, but in that event the rental should not be less than ten cents per square foot per annum. This permit was accepted by the company, and more than one-half of the said shed has been erected, and the promenade roof thereon thrown open to the public. It will thus be seen that the City has already allowed the company an abatement of the rental value of the property in consideration of the use by the public of the roof of the shed.

The proposed bridge is designed to connect with the uncompleted portion of the shed at the company's ferryhouse, between Cedar and Liberty streets, and from the ferryhouse access may be had to the Communipaw Ferry, and to the company's Sandy Hook route of steamboats.

This promenade roof is designated in the petition and in the resolution adopted by the Board of Aldermen as a "Recreation Pier." It is not a pier and does not extend beyond the bulkhead line. There is no covering to protect those using it from the sun, and in consequence the usefulness of the roof is limited to a great extent to the evenings. It is not equipped with public toilet or lavatory facilities.

It is open to the public between 7 a. m. and 11 p. m. daily, in charge of attendants from the Department of Docks and Ferries, is well lighted by electricity and equipped with benches similar to those in use in the City's parks. A band is furnished by the Department of Docks and Ferries during the evenings for the entire season of eighteen weeks.

The entire length of the proposed bridge from the easterly house line of West street to the new shed or ferryhouse is two hundred (200) feet, the easterly seventy feet of which is over West street and under the jurisdiction of the Board of Estimate and Apportionment, while the westerly portion, of one hundred and thirty feet, is over the marginal street, and under the jurisdiction of the Department of Docks and Ferries.

On the usual basis of compensation heretofore adopted by the Board in similar cases for a bridge of the size at present submitted and to be used as a passageway over and across a public street, viz., 8 per cent. per annum of the assessed valuation of the plan area of the bridge, the annual charge for the seventy feet over and across West street would be \$2,740. This does not include any charge for crossing the marginal street under the jurisdiction of the Dock Department.

The petitioner has stated that the total number of persons using the ferry and Sandy Hook route during the year ending June 30, 1907, was 12,687,000. An examination of the roof was made during the evening of June 12, and it was found that about 500 persons visited the roof that evening. Estimating this as three-fifths of the average evening attendance on the entire roof when completed and opened to the public, the total evening attendance in the future would be 850 persons, and allowing that 150 additional persons visit the roof during the daytime, we have an average daily attendance of some 1,000 persons. I am advised that the recreation piers are open to the public for a period of 126 days during the year. This would give an annual total attendance on the roof of about 126,000 persons, without allowing for inclement weather. The maximum number of persons using the proposed bridge per annum, on account of the promenade roof, would therefore be about 252,000. This is but 2 per cent. of the number of persons passing through the ferryhouse, or 6 per cent. of such number if it is considered that only one-third of the ferry and steamboat passengers will use the bridge and the remainder remain on the street level, and it will be remembered that practically the greater portion of this 2 or 6 per cent., as the case may be, visit the roof when there is little or no traffic along West street.

If, then, an abatement of the usual charge for a bridge is made in this case on account of the use by the general public to the promenade roof in proportion to the total use of the bridge, it would appear that 10 per cent. would be ample, making the annual charge for the first term of five years \$2,466 and \$2,589 for the second term of five years.

If, on the other hand, the railroad company will agree with the Commissioner of Docks and Ferries to provide, at its own expense, a permanent and suitable cover to the promenade roof, and suitable lavatory fixtures on the roof, and in general provide the roof with such fixtures as are necessary for public use, similar to the use of a recreation pier, it would then be of benefit during the heat of the day, and the proposed bridge would be more in the nature of a public improvement by affording women and children visiting the roof during the day safe means of crossing West street and the marginal street. Under such circumstances I am of the opinion that the City could reasonably make a reduction of 50 per cent. in the above mentioned annual charge.

This would make the charge for the first term of five years \$1,370 per annum, which, with a 5 per cent. increase, would make the charge for the second term of five years \$1,440 per annum. This would be the total annual compensation received by the City for the entire bridge across West street and marginal street, and is a rental of less than 2 per cent. per annum on the assessed valuation of an amount of land in this vicinity equal to the area of the plan of the proposed bridge.

Copies of the application and plan were sent to the President of the Borough of Manhattan and to the Fire Commissioner, with a request that the project be examined by the various Bureaus having jurisdiction, with a view to ascertaining if there were any objections to the project, or any special conditions which should be incorporated in the form of consent heretofore used for similar privileges.

Replies have been received from those officials stating there were no objections to the granting of the requested permission, but the communication from the Fire Commissioner requested that it be made a condition of the consent that the bridge be constructed absolutely fireproof throughout. I have incorporated this condition in the form of resolution herewith submitted.

In reply to a communication addressed to the Commissioner of Docks and Ferries I have been advised that permission has been granted to construct the proposed bridge over the marginal street, and for this portion of the bridge there is no compensation to the City. The only charge, therefore, will be for that portion over West street which is 70 feet in width.

I submit herewith two forms of resolution covering both of the propositions hereinbefore advanced, in the event of acceptance of either by the company.

In these forms of resolution I have provided for a security deposit of \$3,000, to be in the form of either money or securities, to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The President of the Board of Aldermen moved that the compensation be fixed at the nominal sum of one hundred dollars (\$100) per annum.

Which motion was agreed to.

The following was offered:

Whereas, The Central Railroad Company of New Jersey has presented an application dated May 11, 1908, to the Board of Estimate and Apportionment for its consent to the construction, maintenance and use of an overhead footbridge, across West street, between Liberty street and Cedar street, in the Borough of Manhattan; said bridge to connect the property of the company on the easterly side of said West street, and known as No. 101 West street, with the new ferryhouse of the company to be constructed on the Hudson River water-front, and to be used as a passageway between said buildings; now, therefore, be it

Resolved, That the consent of the corporation of The City of New York be and the same is hereby given to the Central Railroad Company of New Jersey, the owner of certain property on the easterly side of West street, between Liberty street and Cedar street, known as No. 101 West street, and also the owner of a ferryhouse to be constructed on the Hudson River water-front, immediately opposite said first mentioned property, all in the Borough of Manhattan, City of New York, to construct, maintain and use a footbridge across said West street connecting the said properties as shown on the plan accompanying the application, and entitled:

"Plan showing location of proposed overhead footbridge to be constructed in West street, Borough of Manhattan, to accompany application of the Central Railroad Company of New Jersey, to the Board of Estimate and Apportionment, City of New York, dated May 11, 1908."

—and signed by Joseph O. Osgood, chief engineer of the company, a copy of which is annexed hereto, and made a part hereof, on the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment, or its successors in authority, and shall be revocable upon sixty (60) days' notice, in writing, to said grantee, its successors or assigns, but in no case shall it extend beyond a term of ten (10) years from the date of approval by the Mayor, and thereupon all rights of the said Central Railroad Company of New Jersey in or over said West street, by virtue of this consent, shall cease and determine.

2. The said Central Railroad Company of New Jersey, its successors and assigns, shall pay into the treasury of The City of New York as compensation for the privilege hereby granted, during the first term of five years, the annual sum of one hundred dollars (\$100), and during the second term of five years the annual sum of one hundred dollars (\$100). Such payments shall be made in advance on November 1 of each year; provided, however, that the first payment to be made within thirty (30) days after the approval of this consent by the Mayor shall be only that proportion of one hundred dollars (\$100) as the time between the approval of this consent by the Mayor and November 1 following bears to the whole year; such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York, or by any law of the State of New York.

3. Upon the removal of the said grantee from either one or both of the buildings connected by the bridge, or upon revocation or termination of this consent, the said grantee, its successors or assigns shall, at its own cost, cause the bridge and all its appurtenances to be removed from the limits of the street, if required so to do by The City of New York, through its duly authorized representatives. If the bridge to be constructed by the said grantee under this consent shall not be required to be removed, it is agreed that the said bridge shall become the property of The City of New York.

4. The consent hereby given is for the exclusive use of the grantee and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any person or corporation whatsoever, either by the acts of said grantee, its successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of:

(a) The construction and maintenance of the bridge.
(b) The protection of all surface and subsurface construction in West street which may be disturbed by the construction of the bridge.

(c) The replacing or restoring of the pavement in said street, which may be disturbed during the construction of said bridge.

(d) Each and every item of the increased cost of any future structure caused by the presence of said bridge under this consent.

(e) The inspection of all work during the construction or removal of the bridge, which may be required by any department of The City of New York, having jurisdiction over such construction.

6. It is made a particular condition of this consent that the said bridge shall be constructed of fireproof material throughout.

Before the construction shall be begun the grantee shall obtain permits to do the work from the President of the Borough of Manhattan, and the said grantee shall perform all the duties which may be imposed as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to such official working plans, which shall include and show in detail the method of construction of said bridge, and the mode of protection or changes in all structures required by the construction of said bridge.

7. The grantee, its successors or assigns, shall allow to The City of New York a right of way under or over any part of the bridge constructed under the consent hereby granted, for any and all structures which are now or may be hereafter placed by The City of New York in that portion of the above named street occupied by said bridge.

8. Said bridge shall be constructed, maintained and used subject to the supervision and control of the proper authorities of The City of New York, and said bridge shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. Said bridge shall be for the use of pedestrians only, and as a means of communication between the aforementioned buildings, and for no other purpose, and no stand or stall for the sale of newspapers or other commodities, or signs, advertising bills, or placards of any description, or material of any kind, character or description shall be allowed either upon the inside or the outside of the said bridge, where the same extends over property now in the possession of or which may be hereafter acquired by The City of New York.

10. The grant of this privilege is given subject to whatever right, title or interest the owners of the abutting property or any other person or persons may have in and to the streets where the bridge is to be constructed, and the said grantee shall be liable for all damage to persons or property, including the street, by reason of the construction or maintenance of said bridge, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. The said grantee, its successors or assigns, shall commence the construction of said bridge under this consent and complete the same on or before January 1, 1910; otherwise this consent shall be forfeited forthwith and without any proceeding, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding six months beyond the date specified.

13. This consent is upon the express condition that within thirty (30) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, the said grantee shall deposit with the Comptroller of The City of New York the sum of three thousand dollars (\$3,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge.

In case of default in the payment of the annual charge, The City of New York shall collect the same, with interest, from such fund after ten (10) days' notice in writing to the said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars (\$3,000), and in default of the payment thereof the consent hereby given may be canceled and annulled, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

14. Said grantee shall give notice to the President of the Borough of Manhattan in writing of its intention to begin construction of the work hereby authorized at least forty-eight (48) hours before such construction commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced, and also the date on which the same is completed.

15. This consent shall not become operative until said grantee shall duly execute an instrument in writing, wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, maintenance or use of the bridge hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

B. T. BABBITT (INC.).

The Secretary presented the following:

BALDWIN, WADHAMS, BACON & FISHER,
No. 31 NASSAU STREET,
NEW YORK, April 28, 1908.

Secretary of Board of Estimate and Apportionment of The City of New York, No. 277 Broadway, City:

DEAR SIR—On behalf of our client, B. T. Babbitt, Inc., we hereby make application that permit for pipe from No. 49 West street to the North River, heretofore granted to said corporation, be revoked, as the said corporation has no further use for the same, having removed their factory from No. 49 West street and No. 64 Washington street to Babbitt, N. J. We would also ask on their behalf that the bond heretofore given by them be cancelled.

We understand that it will be necessary for the Babbitt Company to remove the pipe, but that in order to do so they must have a permit from the Department of Public Works. We would therefore further ask that you direct the Board of Public Works to issue such permit.

We are,

Respectfully yours,

BALDWIN, WADHAMS, BACON & FISHER.

REPORT NO. F-III.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
June 23, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of April 28, 1908, B. T. Babbitt, Inc., through counsel, presented an application to the Board of Estimate and Apportionment for the revocation of a resolution adopted by the Board of Aldermen on March 3, 1891, and approved by the Mayor on March 9, 1891, granting consent to B. T. Babbitt to lay a six-inch iron pipe from No. 49 West street, in the Borough of Manhattan, across West street to the North River, for the purpose of conducting salt water to said premises.

This resolution provided that compensation for the privilege should be fixed by the Commissioners of the Sinking Fund, and on March 20, 1891, a resolution was adopted by the Commissioners fixing the compensation for this privilege at sixty-six dollars (\$66) per annum, and providing that the grantee should deposit a satisfactory bond with the Comptroller. The petition further requests the cancellation of the bond filed in accordance with this requirement.

In reply to a communication addressed to the Comptroller, I have been advised that a personal bond for five hundred dollars (\$500) was filed on March 21, 1891, on account of this consent, and that the annual rental of sixty-six dollars (\$66) has been paid to March 29, 1908.

A communication was addressed to the petitioner advising him to proceed with the removal of the pipe under the supervision of the President of the Borough of Manhattan, and the Commissioner of Water Supply, Gas and Electricity, and that upon receipt by the Board of Estimate and Apportionment of certificates from said officials, stating that the pipe had been properly removed, and the street restored to its original condition, a report upon the application would be made to the Board in accordance with the procedure in similar cases.

I transmit herewith communications received from the office of the President of the Borough of Manhattan, and from the Department of Water Supply, Gas and Electricity, stating that the work of removing the pipe has been completed, and all the requirements of said Departments complied with.

As the pipe has been removed to the satisfaction of the officials having jurisdiction I can see no reason why the consent should not be revoked, and I would recommend that the Comptroller be authorized and requested to cancel the bond upon the payment by the petitioner of the rental due for that period from March 29, 1908, to June 13, 1908, the date of completion of the work of removal.

Previous to the cancellation of the bond herein specified, the petitioner should be required to execute an instrument in writing, releasing The City of New York from any and all claims held or alleged to be held against the City under the terms and conditions of said consent, and surrendering and waiving any right in the City's streets under and by virtue of said consent, and file the same with the Comptroller.

A resolution for adoption is herewith transmitted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, By resolution adopted by the Board of Aldermen March 3, 1891, and approved by the Mayor March 9, 1891, the consent of the corporation of The City of New York was given to B. T. Babbitt to lay a six-inch iron pipe under and across West street, in the Borough of Manhattan, from No. 49 West street to the North River, for the purpose of conducting salt water to said premises, and it was made a condition of the said resolution that compensation for this privilege should be fixed by the Commissioners of the Sinking Fund; and

Whereas, In accordance with said resolution, the Commissioners of the Sinking Fund on March 20, 1891, adopted a resolution fixing said compensation at sixty-six dollars (\$66) per annum, and providing that said grantee should file a satisfactory bond in the office of the Comptroller for the faithful performance of the terms and conditions of the consent; and

Whereas, Said B. T. Babbitt did file a personal bond of five hundred dollars (\$500) with the Comptroller of The City of New York, as provided in said resolution, and did lay down a pipe in compliance with the terms of said consent, and has maintained the same since that time; and

Whereas, B. T. Babbitt, Inc., in a petition to the Board of Estimate and Apportionment dated April 28, 1908, requested the revocation of the aforesaid consent, and the cancellation of the said bond; and

Whereas, The office of the President of the Borough of Manhattan, and the Department of Water Supply, Gas and Electricity have stated in writing that the work of removing the pipe was completed on June 13, 1908, to their satisfaction, and that the street has been restored to its original condition; and

Whereas, B. T. Babbitt, Inc., has paid an annual compensation for the aforesaid privilege to March 29, 1908; now therefore be it

Resolved, That the aforesaid resolution be and the same is hereby rescinded; and be it further

Resolved, That the Comptroller of The City of New York be and he hereby is authorized and requested to cancel the five hundred dollar (\$500) personal bond deposited in his office for the faithful performance of the terms and conditions of said consent, upon receipt of the rental of the privilege for the period from March 29, 1908, to June 13, 1908, the date of completion of removing the said pipe; and be it further

Resolved, That this resolution should not become effective unless and until B. T. Babbitt, Inc., executes an instrument in writing, releasing The City of New York from any and all claims of any kind, character or description whatsoever, held or claimed to be held under the terms and conditions of the aforesaid consent, and agreeing to quitclaim, waive and surrender any or all rights and privileges in and upon said West street, held or alleged to be held under and by virtue of said consent,

in the manner described by and to the satisfaction of the Comptroller of The City of New York, and file the same with said official.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

SOUTH SHORE LIGHT AND POWER COMPANY.

In the matter of the application of the South Shore Light and Power Company for a franchise to construct, maintain and operate poles, wires and conduits upon and along certain streets, avenues and highways, in the Borough of Richmond, for the purpose of transmitting and distributing electricity for light, heat and power to public and private consumers.

This application was presented to the Board at its meeting of January 18, 1907, and was referred to the Bureau of Franchises.

The Secretary presented the following:

REPORT No. F-112.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 18, 1908.

Mr. NELSON P. LEWIS, *Chief Engineer*:

SIR—On December 19, 1906, the South Shore Light and Power Company submitted to the Board a petition for a franchise to erect, construct, lay, maintain and operate poles, wires and conduits in, under, over and along the streets, avenues, highways, boulevards, parks and public places in the Borough of Richmond. This petition was presented to the Board on January 18, 1907, and by it referred to the Bureau of Franchises for investigation and suggestions.

On February 11, 1907, the Bureau addressed a communication to Mr. William T. Croak, the attorney for the company, at No. 229 Broadway, requesting certain information in regard to the proposed operations of the company, for the purpose of having sufficient data on which to submit its report to the Board. Not having received this information by May 23, 1907, a further communication was addressed to Mr. Croak, in reply to which, on May 27, he asked for a little further time in which to furnish the same.

More than a year having elapsed since the last request, and nothing having been done in regard to the same by the representatives of the company, it would seem that the project had been abandoned by it, and I would therefore suggest that the Board adopt a resolution denying the application of the company.

I inclose herewith form of resolution.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The South Shore Light and Power Company did, by a petition presented to this Board on January 18, 1907, apply for the right and franchise to erect, construct, lay, maintain and operate poles, wires and conduits in, under, over and along the streets, avenues, highways, boulevards, parks and public places in the Borough of Richmond; and

Whereas, The said company has failed to furnish this Board with the information requested from it, and which was required for the purpose of fixing the terms and conditions on which such right and franchise might be granted; now therefore be it

Resolved, That the petition of the South Shore Light and Power Company for a franchise to erect, construct, lay, maintain and operate poles, wires and conduits in, under, over and along the streets, avenues, highways, boulevards, parks and public places in the Borough of Richmond, be and the same is hereby denied.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

NEW YORK POST-GRADUATE MEDICAL SCHOOL AND HOSPITAL.

In the matter of the communication from the New York Post-Graduate Medical School and Hospital for permission to construct, maintain and use an 18-inch tile pipe under and across East Twentieth street, Borough of Manhattan, to connect the hospital building with the Nurses' Home, and to be used for conveying steam from the former to the latter premises.

This communication was presented to the Board at its meeting of April 26, 1907, and was referred to the Chief Engineer.

The Secretary presented the following:

REPORT No. F-113.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 18, 1908.

Mr. NELSON P. LEWIS, *Chief Engineer*:

SIR—At the meeting of the Board of Estimate and Apportionment held April 26, 1907, a communication was received from the New York Post-Graduate Medical School and Hospital for permission to construct, maintain and use an eighteen-inch tile pipe under and across East Twentieth street, Borough of Manhattan, to connect the hospital building with the Nurses' Home, and to be used for conveying steam from the former to the latter premises, which was referred to the Chief Engineer.

I communicated with George M. Miller, M. D., Secretary, under date of June 18, 1907, and advised him it would be necessary to present a formal application to the Board, accompanied by the necessary plans. Since that date I have received no information on the subject.

I would therefore recommend that the communication be ordered filed, without prejudice to the applicant to apply to the Board for such privilege whenever it desires so to do.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The communication and report were ordered filed.

GRUSKIN & SQUIRE.

In the matter of the communication from Messrs. Gruskin & Squire for permission to construct, maintain and use a four-inch pipe under the sidewalk, from the building line to the curb line, at the southeast corner of One Hundred and Seventh street and Second avenue, Borough of Manhattan, containing two wires for the purpose of charging electric storage battery in a private automobile.

This communication was presented to the Board at its meeting of April 26, 1907, and was referred to the Chief Engineer.

The Secretary presented the following:

REPORT No. F-114.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 18, 1908.

Mr. NELSON P. LEWIS, *Chief Engineer*:

SIR—At the meeting of the Board of Estimate and Apportionment held April 26, 1907, a communication was received from Messrs. Gruskin & Squire for permission to construct, maintain and use a four-inch pipe under the sidewalk from the building line to the curb line, at the southeast corner of One Hundred and Seventh street and Second avenue, Borough of Manhattan, to contain two wires for the purpose of charging electric storage battery in a private automobile, and the matter was referred to the Chief Engineer.

The applicants were advised it would be necessary to file an application in the form required by the Board, but such application has not been received. Under date of June 11, 1907, I addressed a communication to the applicants, requesting that they advise me of their intentions in the matter, but as yet have not received any word.

In view of the time which has elapsed I would therefore recommend that the communication be filed.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The communication and report were ordered filed.

O'NEILL-ADAMS COMPANY.

In the matter of the consent granted to the O'Neill-Adams Company to construct, maintain and use a tunnel under and across West Twenty-first street, about 40 feet west of the westerly line of Sixth avenue, Borough of Manhattan, to connect the buildings of the company on opposite sides of said street.

The Secretary presented the following:

REPORT No. F-48.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 18, 1908.

Mr. NELSON P. LEWIS, *Chief Engineer*:

SIR—By resolution duly adopted by the Board of Estimate and Apportionment September 20, 1907, the O'Neill-Adams Company was granted permission to construct, maintain and use a tunnel under West Twenty-first street, about forty feet west of the westerly line of Sixth avenue, in the Borough of Manhattan, to connect the buildings of the company on opposite sides of said street.

As has been my custom, I communicated with O'Neill-Adams Company and requested them to advise me whether or not they would accept the terms and conditions of the proposed grant, and as they failed so to do the resolution was not forwarded to the Mayor for his approval. Since that time I have requested representatives of the company, on several occasions, to advise me of the intention of the company in the matter, but have never received a specific answer. I would therefore recommend the resolution be rescinded and the petition filed. A resolution to this effect is transmitted herewith.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The Board of Estimate and Apportionment, by resolution adopted September 20, 1907, granted permission to the O'Neill-Adams Company to construct, maintain and use a tunnel under and across West Twenty-first street, about forty feet west of the westerly line of Sixth avenue, in the Borough of Manhattan, to connect the buildings of the company on opposite sides of said street, on terms and conditions designated therein; and

Whereas, The O'Neill-Adams Company has failed to accept the terms and conditions as provided in said resolution; now, therefore, be it

Resolved, That the aforesaid resolution be, and it is hereby rescinded, and the petition placed on file.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens, and the Acting President of the Borough of Richmond—16.

NEW YORK CENTADRINK COMPANY.

The Secretary presented the following:

NEW YORK CENTADRINK COMPANY,
No. 853 BROADWAY,
NEW YORK, June 10, 1908.

The Honorable the Board of Estimate and Apportionment, No. 277 Broadway, New York City:

GENTLEMEN—Pursuant to an opinion of the Corporation Counsel of The City of New York, transmitted to your Honorable Board on Friday, June 5, 1908, and in which it was decided that the control of the City's streets is held in the Board of Estimate and Apportionment, we hereby make application for permission to install and operate automatic drinking water fountains under the stairs of the stations of the several elevated railroad lines.

The opinion of the Corporation Counsel seems to render nugatory the power of the Board of Aldermen under an ordinance which provides only for the establishment of newspaper stands under the elevated railroad stations. Therefore, under said opinion, it would appear that the Board of Aldermen have no jurisdiction over the streets beyond the stoop line.

We are therefore submitting this application to your Honorable Board instead of seeking an amendment to the present ordinance governing the licensing and selling of public commodities.

We are already in the enjoyment of permits issued by the Department of Parks for the installation of our automatic drinking fountains—one is now in operation in City Hall Park—and for which privilege we pay the City a rental of three dollars (\$3) per month for each fountain. They serve a pure glass of carbonated drinking water at one (1) cent per glass. Each fountain has several automatic attachments by which the glasses may be cleansed before using. These and other sanitary features have received the unqualified endorsement of the Board of Health and of Hon. Ernst Lederle, the former Health Commissioner; in addition, the fountain has been endorsed by the Women's Municipal League, the Young Men's Christian Association and other religious and civic organizations.

For every permit granted to us by your Honorable Board for the establishment of a drinking fountain we are willing to compensate the City in a monthly rental of three dollars (\$3) per fountain—a rather munificent rental when compared with the annual fee of ten dollars (\$10) which, under the present ordinance, is exacted from newsstands.

Incidentally, we might add that the installation of our fountain will not interfere with anything which has already been placed in these locations.

We trust your Honorable Board (in view of the opinion rendered by the Corporation Counsel as to the control and jurisdiction of the City's streets) will give favorable consideration to this application.

Respectfully submitted,

NEW YORK CENTADRINK COMPANY,
GEORGE LIVINGSTON, President.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 23, 1908.

Board of Estimate and Apportionment:

DEAR SIRs—I am in receipt of a communication from your Secretary, Joseph Haag, Esq., requesting that I advise your Board in relation to the application made by the New York Centadrink Company for permission to install automatic drinking water fountains under the stairs of the stations of the several elevated railroad lines. Enclosed with that communication I find a report made by Nelson P. Lewis, Esq., Chief Engineer, a copy of the application made by the said company and a report made by Harry P. Nichols, Engineer in charge of the Division of Franchises.

It appears that the application made by the New York Centadrink Company is for permission to install and operate automatic drinking water fountains, for which privilege the company proposes to pay the City \$3 a month for each fountain.

I have previously advised your Board that in my opinion, under section 242 of the Greater New York Charter, the Board of Estimate and Apportionment has original and concurrent jurisdiction and control of all the streets, avenues, highways and boulevards and other public grounds and places within or belonging to The City of New York, and I am now of the opinion that notwithstanding any ordinance or resolution of the Board of Aldermen, your Board has the power to grant any privilege with respect to streets, highways and other public places which shall not interfere with the public use of the streets or is not in any way an invasion of the public rights.

It has, however, been held repeatedly by the Courts that no municipal authority, and probably not even the Legislature, has the power to take public property for private use, and where the granting of a privilege to occupy any portion of a street or public place by an individual would be an interference with the public use, such grant or permission would be clearly illegal and could be abated by any one injured thereby. What is an interference with the public right is in each case a question of fact.

I am of the opinion that the form of resolution as consistently used by the Board in the case of other revocable consents, with such modifications as may be necessary to fit this particular case, may be employed by the Board.

Yours respectfully,

F. K. PENDLETON, Corporation Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
June 25, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The New York Centadrink Company, a domestic corporation incorporated for the purpose of buying, selling, operating and exploiting machines for vending aerated beverages, has presented a petition, dated June 10, 1908, to the Board of Estimate and Apportionment requesting permission to install, maintain and operate automatic drinking water fountains underneath the stairways of the stations of the several elevated railroad lines within the City limits.

The petition recites that the object of installing said fountains is for the purpose of automatically vending pure carbonated drinking water at one cent per glass, and that each fountain is equipped with automatic attachments for the purpose of cleansing the glasses before using. It is also stated in the petition that the Department of Parks has issued permits for the installation of the petitioner's automatic drinking fountains, one being now in operation in the City Hall Park, and that sanitary features of the project have received the unqualified endorsement of the Board of Health and of Hon. Ernst J. Lederle, a former Health Commissioner.

The application offers to compensate the City for the privilege requested at the rate of three dollars per month per fountain.

This application, which is the first of this character as yet presented to the Board, was made pursuant to an opinion of the Corporation Counsel, dated May 12, 1908, and presented to the Board on June 5, 1908, which says in part as follows:

"The Board of Estimate and Apportionment has also, except in the case of granting franchise rights under the Rapid Transit Act, exclusive power to make contracts for franchises with individuals or corporations involving the occupation and use of streets and other public places."

Upon request, the Corporation Counsel, under date of June 23, 1908, has rendered a further opinion to the Board, wherein he states that

"* * * where the granting of a privilege to occupy any portion of a street or public place by an individual would be an interference with the public use, such grant or permission would be clearly illegal, and could be abated by any one injured thereby. What is an interference with the public right is in each case a question of fact."

"I am of the opinion that the form of resolution as consistently used by the Board in the case of other revocable consents, with such modifications as may be necessary to fit this particular case, may be employed by the Board."

Owing to the large number of important matters before the Board at the final meeting before adjournment on June 26, and the consequent limited time at my disposal, I have been unable to conduct a thorough and complete examination into the merits of this application. However, some of these fountains now installed and in operation in various ferry houses in the city have been examined, and at this time I see no reasonable objection to the project as advanced, although I am unable to determine whether the compensation of three dollars per month per fountain offered by the New York Centadrink Company is a fair value for the privilege granted.

It is stated by a representative of the company that it has a number of machines ready to install at present, and desires to test the project this summer, which it cannot do unless action is taken at the meeting of the Board on June 26.

I would therefore suggest, pending a complete investigation and report on the matter on the resumption of the regular meetings of the Board in the fall, that consent be granted to the installation, maintenance and operation of not more than twenty-five of said automatic drinking water fountains for the coming summer period, during the pleasure of the Board of Estimate and Apportionment, but in no case to extend beyond November 30, 1908, said fountains to be then removed by the petitioner, unless the privilege shall be extended by further action of the Board, and to be placed at such locations as may be designated by the Presidents of the Boroughs.

As the New York Centadrink Company has stated that it would require more than thirty days to install twenty-five of said fountains, I would recommend that the compensation for such privilege to November 30, 1908, be fixed at the sum of three hundred dollars (\$300), to be paid to the City within thirty days after the approval of the consent by the Mayor, and that it be made a condition of the consent that a security deposit of the sum of one thousand dollars (\$1,000) be required, said deposit to be in the form of either money or securities to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

As the project contemplates the use of the City's water in the said fountains, I have also made it a condition of the consent that payment shall be made to the City for the City's water used at the usual rates.

I transmit herewith a form of resolution for adoption by the Board containing the customary provisions.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, The New York Centadrink Company has presented an application dated June 10, 1908, to the Board of Estimate and Apportionment of The City of New York for its consent to the installation, maintenance and operation of automatic drinking water fountains under the stairways of the stations of the several elevated railroads within the City limits for the purpose of automatically vending pure cold carbonated water to the public at the rate of one (1) cent per glass; now, therefore, be it

Resolved, That the consent of the corporation of The City of New York be and the same is hereby given to the New York Centadrink Company, a domestic corporation, to install, maintain and operate automatic drinking water fountains with necessary pipe connections, under the stairways of the stations of the several elevated

railroads within the City limits for the purpose of automatically vending pure cold carbonated water to the public at the rate of one (1) cent per glass, upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment, or its successors in authority, and shall be revocable upon sixty (60) days' notice in writing to the said grantee, its successors or assigns, but in no case shall it extend beyond November 30, 1908, and thereupon all rights of the said New York Centadrink Company by virtue of this consent shall cease and determine.

2. The New York Centadrink Company, its successors or assigns shall pay into the Treasury of The City of New York, as full compensation for the privilege hereby granted, the sum of three hundred dollars (\$300) within thirty (30) days of the approval of this consent by the Mayor. Such payment shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York, or by any law of the State of New York. The grantee shall also make payment to the Commissioner of Water Supply, Gas and Electricity for the City's water used in said fountains, at the usual rate.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns shall, at its own cost, cause all of the fountains installed under this consent to be removed and all those portions of the streets, avenues or public places affected by this permission to be restored to their proper and original condition.

4. The consent hereby given is for the exclusive use of the grantee, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the said grantee, its successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment or its successors in authority.

5. The said grantee shall pay the entire cost of

(a) The installation and maintenance of the said fountains, together with any necessary pipe connections.

(b) The protection of all surface and subsurface structures which shall in any way be disturbed by the installation of said fountains and connections,

(c) All changes in any surface or subsurface structures made necessary by the installation of said fountains and their connections.

(d) The replacing and restoring of the pavement in said streets, avenues or public places which may be disturbed during the installation and maintenance of said fountains and connections.

(e) Each and every item of the increased cost of any future surface or subsurface structure caused by the presence of said fountains and connections.

(f) The inspection of all work during the installation or removal of said fountains and connections as herein provided, which may be required by the Presidents of the Boroughs, and the Commissioner of Water Supply, Gas and Electricity.

6. The said fountains shall be installed at such points and at such precise locations as the President of the Borough may determine, and where such installations can be made without interference to the public use of the streets or to any other person or persons occupying space under permits from the Board of Aldermen or other municipal authorities, and the grantee shall file a copy of such designation with the Board of Estimate and Apportionment within ten days after the receipt thereof.

Before the installation of said fountains shall be begun the grantee shall obtain permits to do the work from the President of the Borough, and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed upon it by these officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to these officials working plans which shall include and show in detail the method of installation of said fountains and connections, and the mode of protection or change in all surface or subsurface structures required by said installation.

7. The said fountains and any fixtures connected therewith shall be installed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. They shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York. No placards or advertising matter of any kind, character or description shall be placed upon or attached to the said fountains.

8. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and other public places.

9. The said grantee shall be liable for all damages to persons and property, including the streets and subsurface structures therein by reason of the installation, maintenance and operation of said fountains and connections, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of the consent.

10. This consent is granted on the further and express condition that all laws or ordinances now in force or which may hereafter be adopted shall be strictly complied with.

11. This consent is upon the express condition that the grantee shall, within thirty days after its approval by the Mayor and before anything is done in the exercise of the rights conferred hereby, deposit with the Comptroller of The City of New York the sum of one thousand dollars (\$1,000), either in money or securities to be approved by him, which fund shall be security for the faithful performance of the terms and conditions of this consent, especially those which relate to the repairs of the street pavement and the payment for City water used in said fountains. In case of default in the performance by said grantee of any of such terms or conditions The City of New York shall have the right to cause the work to be done, and the materials to be furnished for making the necessary changes or repairs, after ten days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment for the City water used shall collect the same with interest from such fund after ten days' notice in writing to the said grantee.

In case of any drafts so made upon the security fund the said grantee shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars (\$1,000), and in default of the payment thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

12. Said grantee shall give notice to the Presidents of the Boroughs and to the Commissioner of Water Supply, Gas and Electricity, in writing, of its intention to begin the installation of the fountains hereby authorized at least forty-eight hours

before such installation commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced, and also the date on which the same is completed not later than ten (10) days after such dates.

13. This consent shall not become operative until said grantee shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent, fixed and contained, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty days after the approval of this consent by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the installation, use, maintenance or operation of the said fountains hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

CONSTRUCTION AND OPERATION OF STREET SURFACE RAILWAYS OVER BRIDGES.

The Secretary presented the following:

June 11, 1908.

Hon. GEORGE B. McCLELLAN, Chairman of the Board of Estimate, City Hall, New York City:

DEAR SIR—On April 24, 1908, application was made to your Board for a franchise to construct, maintain and operate a street surface railway upon and across Blackwells Island Bridge by the following companies: the South Shore Traction Company, the Hudson and Long Island Traction Company and the New York and Queens County Railway Company.

The City Club maintains that no franchise should be granted over any bridges for the construction and operation of street railways. In lieu of such franchises tracks should be laid and controlled by the City and short time revocable permits made with such companies as may desire to operate thereon. In accord with this contention the Club addressed a communication to your body under date of July 5, 1907, suggesting that the contract for the operation of trains across Brooklyn Bridge, which was soon to terminate, be renewed only on a revocable basis, with no guarantee of exclusive use of the tracks by the contracting party.

Owing to the fact that bridges are very expensive to build and still more expensive to maintain, but few of them can be built, so inevitably each bridge must accommodate many converging transit lines. Such lines, by whatever companies owned, should have equal right to cross a bridge. If a franchise be granted to any one company over any bridge, the control of transit facilities upon that bridge passes out of the hands of the City to that of the company holding the franchise for a possible period of twenty-five years, with a privilege of renewal for an additional twenty-five years. To be sure, the form of franchise now issued by the City is somewhat in the form of a contract and may contain, as does the franchise granted to the New York City Interborough to cross Macombs Dam Bridge, a provision that the City reserves the right to grant, over the same bridge, on the original company's tracks, other franchises for operation. Though such a franchise may reserve rights to the City to grant privileges to other companies, yet it deprives the City of certain rights which it should retain.

The terms of a franchise are general and cannot provide in detail for unforeseen conditions which may arise. Suppose the City should desire to change the use of the tracks so as to provide for a different form of transit, or suppose under different franchises one set of tracks were being used by several companies so that a question arose as to the proportion of cars to be operated by each company, such questions could not easily be adjusted if the tracks were under a franchise right.

If, on the other hand, the City were to construct and own the tracks on the bridge, its terminals and plazas, and were to permit any applying company to use them on a short term revocable permit, no condition could arise which could not be readily adjusted. Such a contract formerly existed for the operation of cars across the Brooklyn Bridge, a portion of which contract read as follows:

"The term of the right and privilege hereby granted * * * shall be terminable at the option of either party thereto after the expiration of ten years, * * * provided only * * * that if * * * it should be determined that it is against the public interest to continue the operation of trains or cars * * * all of the rights and privileges granted by said party of the second part and operation assumed by it shall be terminable on and after three months' notice in writing by either party to the other."

Though this short term revocable contract originally, no doubt, was mainly prompted because the Bridge Trustees owned and desired to retain control of the cable power on the bridge, yet the revocable feature made it possible to so regulate the service on the bridge as to maintain a high degree of efficiency.

We believe the successful operation of this contract (terminated August 23, 1907) argues for an agreement of like nature on our other bridges.

We therefore suggest:

1. That the City construct and retain control of all tracks on Blackwells Island Bridge, its terminals, approaches and plazas.

2. That it grant permits to companies to operate over these tracks for a maximum period of five years, revocable on ninety days' notice.

3. That the number of cars operated and their method of operation be subject to the control of the Public Service Commission.

Such a form of grant the City Club believes would enable the City to entirely control the conditions of transit over the bridge at any and all times.

Respectfully yours,

HENRY C. WRIGHT, Bureau Director.

Which was ordered filed.

SALE AND EXCHANGE OF PROPERTIES BETWEEN THE STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY AND THE CITY OF NEW YORK, AND THE GRANTING TO THE RAILWAY COMPANY OF ADDITIONAL TRACKAGE RIGHTS IN CONNECTION WITH THE PHYSICAL IMPROVEMENT OF THE FERRY APPROACH STREETS AT ST. GEORGE, BOROUGH OF RICHMOND.

At the meeting of June 12, 1908, a communication was received from the President of the Borough of Richmond relative to the exchange of certain properties between the Staten Island Rapid Transit Railway Company and The City of New York, and the granting to the railway company of additional trackage rights in connection with the physical improvement of the ferry approach streets at St. George, Borough of Richmond. A report was also received from the Chief Engineer, proposing terms and conditions to govern same, and, by resolution duly adopted, the President of the Borough of Richmond and the Commissioner of Docks and Ferries were requested to turn over to the Commissioners of the Sinking Fund such of said properties which were within their respective jurisdictions.

The Secretary presented the following:

THE STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY,
No. 17 STATE STREET,
NEW YORK, June 18, 1908.

Proposed Exchange of Land and Rights With The City of New York.

Jos. HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York City:

DEAR SIR—Referring to your letter of June 12, transmitting a certified copy of a resolution of the Board of Estimate and Apportionment relative to the exchange of

certain real estate properties between The City of New York and the Staten Island Rapid Transit Railway Company, I beg to advise you as follows:

The railway company does not care to enter into the exchange on the terms stated in the resolution. The resolution fails to carry out the terms stated in our letter to Mr. Nichols of June 2, 1908, in the following respects, to wit:

(a) The resolution does not contain a provision for which we asked, granting the railway company a perpetual easement for a second tunnel for two tracks to cross under South street, the City to include in its retaining wall construction contract the building of the two tunnel portals and the extension of the same to the new line of South street.

(b) According to the report of Mr. Nichols, of which a copy was transmitted to us under date of June 9, 1908, the terms on which he recommends the granting of franchises for crossing of the several streets applied for are raised from \$150 per annum for the second fifteen years, which we suggested, to \$200 per annum, and Mr. Nichols' report also contains a proviso that the railway company will bear the entire cost of removing the tracks to a position either below or above the surface, and also construct the several crossings over or under the railway which may be made necessary by such change.

This expense is one which the railway company cannot possibly undertake in regard to a franchise for which it has no immediate use.

We note Mr. Nichols' report in regard to the inalienability of land under water owned by the City. In that regard the railway company would be satisfied if it should receive assurances from the President of the Borough of Richmond and from the City authorities who have charge of applications by the City for grants for land under water, that no opposition will be made to applications by the railway company or its subsidiary companies for the grants of land under water referred to. In this last particular we cannot expect that our wishes will be embodied in any formal resolution of the Board of Estimate and Apportionment, nor do we ask that, but we do ask for some definite assurances of active aid in our proceedings.

We think this letter states the position which the railway company is obliged to take. It is willing to do all it can to meet the City authorities in making the exchange which the officials of the Borough of Richmond seem to desire so earnestly, but it cannot, in justice to itself, accept the terms of the resolution of the Board of Estimate and Apportionment which has been already passed.

Respectfully yours,

THE STATEN ISLAND RAPID TRANSIT

RAILWAY COMPANY,

By GEO. H. CAMPBELL, Vice-President.

Which was referred to the Chief Engineer.

JOHN PIRKL IRON WORKS.

A communication, dated June 15, 1908, was received from the Mayor's office, returning, duly approved by the Mayor, resolution adopted by this Board June 12, 1908, revoking the consent granted to John Pirkl Iron Works to construct, maintain and operate a three-inch pipe under and across Union avenue, Borough of Brooklyn.

Which was ordered filed.

LONG ISLAND RAILROAD COMPANY.

A communication was received from the President and General Manager of the Long Island Railroad Company, relative to the elimination of grade crossings in the Woodside and Winfield sections of the Borough of Queens, and the payment by the City of one-half of the cost thereof, in reply to a report of the Chief Engineer which was presented to the Board at its meeting of May 15, 1908.

Which was referred to the Chief Engineer.

OPINION RELATIVE TO ADVERTISING NOTICES OF PUBLIC HEARING ON PETITIONS FOR RAILWAY FRANCHISES.

The Secretary presented the following:

CITY OF NEW YORK—LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 20, 1908.

Board of Estimate and Apportionment:

GENTLEMEN—I have received from you the following communication dated June 16, 1908, signed by Joseph Haag, Secretary:

"I enclose herewith a report made by the Engineer in charge of the Division of Franchises to the Chief Engineer, in which a question as to the interpretation of the provisions of section 92 of the Railroad Law is raised.

"Will you kindly advise the Board at the earliest opportunity as to whether or not the fourteen (14) days mentioned in the said section shall be taken to include Sundays or whether Sundays shall be excluded from such fourteen (14) days."

From the report of the Engineer in charge of the Division of Franchises, referred to in said communication, it appears that at a public hearing held by the Board of Estimate and Apportionment on June 12, Mr. William H. Page, Jr., appeared and raised the objection that the advertisements of several petitions had not been made in accordance with the provisions of the Railroad Law, which required fourteen days' consecutive advertising, exclusive of Sundays.

The provision of the Railroad Law referred to is found in section 92, which states in part:

* * * "which notice shall be published daily in any city for at least fourteen days in two of its daily newspapers."

It is clear from the general acceptance of the words "daily newspaper" that this would include a paper not published on Sunday. For instance, the Century Dictionary defines the word "dailies" to be "a newspaper or other periodical published every day, or each day except Sunday; in distinction from one published semi-weekly, or at longer intervals." And the Standard Dictionary defines "Daily" as "a publication that appears every day, or every week day; as, the great dailies."

See also Tribune Publishing Company vs. Duluth, 47 N. W., 309; 45 Minn., 28. Richardson vs. Tobin, 45 Cal., 30-33.

If, therefore, a newspaper was designated which was not published on Sunday such designation would be legal and the statute would be complied with if the advertising appeared on the fourteen consecutive days on which the newspaper actually appeared.

Generally speaking, a proper rule to be followed in all such cases would be as follows:

Where the paper designated is published on Sunday the required notice should be inserted for fourteen consecutive days, including Sundays. Where the paper designated is published on week days but not on Sundays advertising on fourteen consecutive days of publication of such newspaper would be sufficient.

In my opinion, however, where a newspaper was designated which appeared on Sunday, but in the actual advertising, no publication of the notice was made on Sunday, but the advertisement was inserted fourteen consecutive week days, this would not constitute a fatal defect.

Respectfully yours,

GEORGE L. STERLING,
Acting Corporation Counsel.

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 26, 1908.

To the Board of Estimate and Apportionment:

SIRS—I am in receipt of a communication from Harry P. Nichols, Engineer in charge of your Division of Franchises, dated June 20, 1908, and reading as follows:

"Under date of June 16, I reported to the Chief Engineer upon the objections made by Mr. William H. Page, Jr., at the public hearing before the Board upon the application of the Hudson and Long Island Traction Company, and requested that

your opinion be secured as to the validity of certain advertising which had taken place prior to the hearing, and as to whether the same was sufficient. On the same day I wrote to Mr. Page and asked him to submit any authorities and decisions which he had upon the subject, and I beg to enclose herewith a copy of his reply in order that you may consider in detail the points made by Mr. Page in connection with the opinion which you have been requested to render the Board by the Secretary."

I have carefully read and considered the memorandum of law submitted by Messrs. Page, Crawford & Tuska. I see no reason, however, to change the views I expressed on this subject in my letter to your Honorable Board, dated June 20, 1908. In my opinion the technical "strictness" required as to the publication of notices by the law regulating proceedings seeking to divest title to property should not be applied to the public notice for fourteen days required by section 92 of the Railroad Law to be given on application being made for a franchise.

Respectfully yours,

F. K. PENDLETON, Corporation Counsel.

Which were ordered printed in the minutes and placed on file.

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

A petition was received from the New York City Interborough Railway Company to be released from its obligations to make the payments for the use of certain bridges specified in section 2, Fourth, of the ordinance of the Board of Aldermen, approved by the Mayor March 31, 1903, and from the other payments mentioned therein, except such annual sums which shall be equal to three (3) per cent. of its gross annual receipts during the first term of five years, and which shall be equal to five (5) per cent. of its gross annual receipts thereafter.

Which was referred to the Chief Engineer.

NEW YORK AND QUEENS COUNTY RAILWAY COMPANY.

In the matter of the applications of the New York and Queens County Railway Company for franchises to construct, maintain and operate two extensions or branches to its existing railway in the Borough of Queens, one from the former Village of Flushing to the Village of Whitestone, and one from Inglestone to Bayside.

At the meeting of June 19, 1908, by resolution duly adopted, the Board tentatively approved the terms and conditions proposed, and referred the form of contract to the Corporation Counsel for his approval as to form, and to incorporate therein such matter as he deemed advisable to fully protect the interests of the City.

The Secretary presented the following:

CITY OF NEW YORK,
LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 23, 1908.

To the Board of Estimate and Apportionment:

SIRS—I have received from you the following letter, dated June 19, 1908:

"I transmit herewith certified copy of resolution this day adopted by the Board of Estimate and Apportionment, tentatively approving the terms and conditions as proposed by the Select Committee for the grant of a franchise to the New York and Queens County Railway Company, to construct, maintain and operate two extensions or branches to its existing railway in the Borough of Queens, one from the former Village of Flushing to the Village of Whitestone, and one from Inglestone to Bayside.

"You will note that you are requested to approve same as to form and to incorporate therein such matter as you may deem advisable to fully protect the interests of the City.

"I also transmit herewith report of the Engineer in charge of the Division of Franchises to the Chief Engineer, containing the proposed form of contract and the amendments recommended by the Select Committee and adopted by the Board."

I have examined carefully the form of contract submitted with the above communication, and respectfully suggest a number of changes. For instance, it is evident from the report which precedes the said printed form of contract that it is not intended under this contract to impose a double percentage payment based on gross receipts.

The language, however, used in subdivision 3 of section 2 would apparently impose a double burden upon the company.

On page 27 I suggest the redrafting of the last two paragraphs beginning at the words "The intention of this paragraph," to read as follows:

"The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to the City, for the rights and privileges hereby granted.

"Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York, and such Company shall not be entitled to offset or make any deductions by virtue of any payment made pursuant to the terms of this contract."

I suggest that subdivision 11 of section 2 be amended to read as follows:

"The said railroad shall be constructed, maintained and operated subject to the supervision and control of the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City, and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant."

The second paragraph of subdivision 20 of section 2, should be amended to read as follows:

"As long as the said railway or any portion thereof remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof under the supervision of the local authorities, whenever the same become in a state of disrepair, or whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of pavement of any street, avenue or highway, and in that event, the Company, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay the City any sum or sums that the City may pay either as the result of a judgment against it or by way of settlement or compromise for any injuries either to person or property arising from the failure of the Company to pave or keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed as hereinbefore provided."

Subdivision 32 of section 2 might be amended by adding thereto:

"The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract."

I find the contract otherwise satisfactory, and if the changes I suggest be made it will have my approval as to form.

Respectfully yours,

THEO. CONNOLLY,
Acting Corporation Counsel.

The following resolution, containing in the proposed form of contract the amendments suggested by the Corporation Counsel, was offered:

Whereas, The New York and Queens County Railway Company, under date of June 10, 1907, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate two extensions to its existing street surface railway system in the Borough of Queens, as follows:

First—From Main street in the former Village of Flushing, upon and along Broadway, Whitestone avenue and other streets to Eleventh avenue and Thirty-sixth street in the former Village of Whitestone;

Second—From Twenty-second street, Inglestone, upon and along Franconia avenue, Thirty-first street and Broadway to Bell avenue, Bayside; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance to such laws, this Board adopted a resolution on June 14, 1907, fixing the date for public hearing thereon as July 8, 1907, at which citizens were entitled to appear and be heard, and publication was had upon the first of the above applications for at least fourteen (14) days in the "New York Herald" and "New York Daily News," and upon the second of said applications for at least fourteen (14) days in "The Globe" and "New York Mail," newspapers designated by the Mayor, and upon both of said applications in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for, and proposed to be granted to the New York and Queens County Railway Company, and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the New York and Queens County Railway Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced, and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York and Queens County Railway Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

This contract made this _____ day of _____, 1908, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York and Queens County Railway Company, a street surface railway corporation formed under and pursuant to the laws of the State of New York (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railroad by the overhead electric system similar to that now used by the Company in the Borough of Queens, with the necessary wires and equipment, for the purpose of conveying persons and property in the Borough of Queens, in The City of New York, upon the following routes:

Beginning at and connecting with the existing track of the Company at the intersection of Broadway and Main street, in the former Village of Flushing, Borough of Queens, running thence easterly upon and along Broadway to Whitestone avenue; thence northerly upon and along Whitestone avenue to Chestnut street or avenue; thence easterly upon and along Chestnut street or avenue to and across Flushing avenue; thence still easterly through private property along the line of the continuation of Chestnut street or avenue to Murray lane; thence northerly upon and along Murray lane to Higgins lane; thence easterly upon and along Higgins lane to a point where Ninth avenue, if extended, would intersect said Higgins lane; thence northerly through private property along the line of Ninth avenue to Fourth street; thence westerly upon and along Fourth street to Eighth avenue; thence northerly upon and along Eighth avenue to Twenty-first street; thence easterly upon and along Twenty-first street to Eleventh avenue; thence northerly upon and along Eleventh avenue to a point about 300 feet north of the north side line of the Boulevard, in the former Village of Whitestone, Borough of Queens; also

Beginning at and connecting with the existing tracks of the Company at the intersection of Franconia avenue and Twenty-second street, in the former Village of Flushing, Borough of Queens; thence easterly upon and along Franconia avenue to and across Twenty-fourth street; thence still easterly through private property along the line of the continuation of Franconia avenue to Thirty-first street; thence northerly upon and along Thirty-first street to Broadway, said continuation of Franconia avenue and Thirty-first street being shown on a map of the City entitled:

"Map or plan of Inglestone and vicinity, Third Ward (formerly Town of Flushing), Borough of Queens, City of New York, showing the street system and grades, dated New York, March 2, 1903, approved by the Board of Estimate and Apportionment May 1, 1903, and approved by the Mayor October 6, 1903;"

—thence northerly through said private property upon the line of the property known and described upon the map of said private property as Thirty-first street to Broadway; thence easterly on and along Broadway to Bell avenue.

The said routes, the tracks of said routes, turnouts and crossovers hereby authorized are more particularly shown upon two maps, each entitled:

"Map showing the proposed street surface railway to accompany the application for a franchise of the New York and Queens County Railway Company to the Board of Estimate and Apportionment."

—dated June 20, 1907, and signed by F. L. Fuller, President, and A. E. Kalbach, Consulting Engineer, copies of which maps are attached hereto are to be deemed a part of this contract, and to be construed with the text thereof, and are to be substantially followed. Provided, that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said rail-

road shall be obtained by the Company within six months of the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time; or, in the event that such consents cannot be obtained, the Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double-track street surface railroad, as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five (25) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege. Such revaluation shall be of the right and privilege to maintain and operate the said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the Company, its successors or assigns.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company, its successors or assigns, shall pay to the City for this privilege the following sums of money:

For the extension first described herein:

The sum of twenty-five hundred dollars (\$2,500) in cash, within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five years an annual sum which shall in no case be less than twenty-three hundred and fifty dollars (\$2,350), and which shall be equal to 3 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of twenty-three hundred and fifty dollars (\$2,350).

During the second five years an annual sum which shall in no case be less than thirty-nine hundred and fifty dollars (\$3,950), and which shall be equal to 5 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of thirty-nine hundred and fifty dollars (\$3,950).

During the third five years an annual sum which shall in no case be less than forty-three hundred and fifty dollars (\$4,350), and which shall be equal to 5 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of forty-three hundred and fifty dollars (\$4,350).

During the fourth five years an annual sum which shall in no case be less than fifty-seven hundred and fifty dollars (\$5,750), and which shall be equal to 6 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of fifty-seven hundred and fifty dollars (\$5,750).

During the remaining five years an annual sum which shall in no case be less than sixty-three hundred dollars (\$6,300), and which shall be equal to 6 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of sixty-three hundred dollars (\$6,300).

For the extension last described herein:

The sum of twenty-five hundred dollars (\$2,500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five years an annual sum which shall in no case be less than fourteen hundred and fifty dollars (\$1,450), and which shall be equal to 3 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of fourteen hundred and fifty dollars (\$1,450).

During the second five years an annual sum which shall in no case be less than twenty-four hundred and fifty dollars (\$2,450), and which shall be equal to 5 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of twenty-four hundred and fifty dollars (\$2,450).

During the third five years an annual sum which shall in no case be less than twenty-seven hundred dollars (\$2,700), and which shall be equal to 5 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of twenty-seven hundred dollars (\$2,700).

During the fourth five years an annual sum which shall in no case be less than thirty-five hundred and fifty dollars (\$3,550), and which shall be equal to 6 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of thirty-five hundred and fifty dollars (\$3,550).

During the remaining five years an annual sum which shall in no case be less than thirty-nine hundred dollars (\$3,900), and which shall be equal to 6 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of thirty-nine hundred dollars (\$3,900).

The payment of such minimum sums shall begin six months from the day on which this contract is signed by the Mayor.

The terms hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract, and no renewal shall provide for a further renewal.

Such minimum annual sums shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with.

The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns to the City, for the rights and privileges hereby granted.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York, and such Company shall not be entitled to offset or make any deductions by virtue of any payments made pursuant to the terms of this contract.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any Company or individual.

At the termination of this grant as above, the City, at the election of the Board, shall have the right to purchase all the property of the Company not within the streets or avenues at its fair market value, exclusive of any value which such property may have by reason of this contract. Such valuation shall be determined in the same manner as revaluation for a renewal of this contract, as herein provided.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute, or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

If at any time during the term of this contract the City shall desire to operate a street surface railroad over the whole or any portion of the railroad which shall be constructed under this contract, the Company shall allow the City to use the whole or any part of the track or track equipment, together with sufficient power to operate cars on such track, upon payment of an annual sum by the City to the Company which shall not exceed the legal interest upon such proportion of the whole cost of construction of the portion of the railroad so used as the number of cars operated by the City shall bear to the number of cars operated by the companies then using the same, and the City shall further pay to the Company the annual cost of the power necessary for the operation of its cars thereon.

Eighth—The railway to be constructed under this contract may be operated by overhead electric power substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Provided, however, that the Board of Estimate and Apportionment or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, may

require the Company to operate its railway upon the whole or upon any portion of its route, by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets, avenues and highways of the City.

Provided, however, that the Board shall not require the two extensions hereby granted to be operated by underground electrical current until at least one of the routes of the Company between Long Island City and Flushing shall be required to be so operated.

Ninth—Upon six months' notice by the Board to the Company, all wires for the transmission of power, except trolley wires, for the operation of the railway hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two ducts not less than three inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Tenth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or from the date upon which the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed is rendered in lieu of such consents and shall complete the construction and place the same in full operation within six months from the date of obtaining such consents or decision, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided, that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Provided, however, that when the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement, or from other causes not within the control of the Company, the time of the commencement or completion of such construction may be extended for the period of such prevention, but no delay to be so allowed for unless the Court proceedings shall be diligently prosecuted by the Company, and, provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such Court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders and of papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name, as a party, or in the name of The City of New York, as a party, may intervene in any such proceedings.

Eleventh—The said railway shall be constructed, maintained and operated subject to the supervision and control of the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City, and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Twelfth—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Thirteenth—The rate of fare for any passenger upon such railway shall not exceed 5 cents, and the Company shall not charge any passenger more than 5 cents for one continuous ride from any point on said railway, or a line or branch operated in connection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the City.

The Company shall carry free upon the railway hereby authorized, during the term of this contract, all members of the Police and Fire Departments of the City, when such employees are in full uniform.

The rate for the carrying of property over the said railway upon the cars of the Company shall in all cases be reasonable in amount, subject to the control of the Board, or its successors in authority, and may be fixed by such Board after notice to the Company and a hearing had thereon, and when so fixed such rates shall be binding upon the Company, its successors or assigns, and no greater sums shall be charged for such service than provided for by it.

Fourteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Provided, however, that the Company, during the first five years of this contract, shall not be required to operate its cars between the hours of 1 o'clock and 5 o'clock a. m., each day unless the Board shall determine, after a hearing had thereon, that public convenience requires the operation of cars during said hours.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the terms of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railway shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Eighteenth—All cars operated on said railways shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Nineteenth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the routes hereby authorized, which are now either unpaved or paved with macadam. The work of such paving shall be done under the supervision of the municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railway or any portion thereof remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof under the supervision of the local authorities, whenever the same become in a state of disrepair, or whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of pavement of any street, avenue or highway, and in that event the Company, its successors or assigns shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay the City any sum or sums that the City may pay either as the result of a judgment against it or by way of settlement or compromise for any injuries either to person or property arising from the failure of the Company to pave or keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed as hereinbefore provided.

Twenty-first—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twenty-second—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough in which such change is made or work done.

Twenty-third—Should the present roadway of any street upon which the Company is hereby authorized to construct a railway be of insufficient width to accommodate both railway and other vehicular traffic, the Company shall widen such roadway and grade the same, under the direction of the President of the Borough of Queens, to a width sufficient to accommodate such traffic.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or, at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damages to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

Twenty-fifth—The Company hereby agrees that if the City is, or shall become, entitled to acquire, and shall at any time during the term of this contract acquire or otherwise come into the possession of any of the property on which railway tracks shall be constructed on that portion of the route described herein as private property, no compensation shall be awarded for the right to have railway tracks thereon.

Provided, however, that in such event this contract shall apply to the private property thus acquired.

Twenty-sixth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 of each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-seventh—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Provided, however, that such action by the Board shall not be taken until the Board shall, in writing, notify the Company, through its President, to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why it had not thereby violated the said contract. In case the Company fails to appear action may be taken by the Board forthwith.

Twenty-eighth—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as afore-

said, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the costs of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-ninth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and, in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its president, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-first—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. This contract is also upon the further and express condition that the provisions of Article IV. of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK,

[CORPORATE SEAL.]

By, Mayor.

Attest:

....., City Clerk.

NEW YORK AND QUEENS COUNTY RAILWAY COMPANY,

[SEAL.]

By, President.

Attest:

....., Secretary.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the New York and Queens County Railway Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days im-

mediately prior to Friday, September 18, 1908, in the CITY RECORD, and at least twice during the ten days immediately prior to September 18, 1908, in two daily newspapers to be designated by the Mayor therefor and published in The City of New York, at the expense of the New York and Queens County Railway Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the New York and Queens County Railway Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, September 18, 1908, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

Subsequently, Mr. A. G. Peacock, of counsel for the company, appeared and stated that the New York and Queens County Railway Company declined to accept the franchise if certain of the amendments as recommended by the Corporation Counsel were incorporated in the contract.

The Comptroller moved that the action by which the foregoing resolution was adopted be vacated.

Which motion was agreed to.

The Comptroller moved that the proposed form of contract be referred back to the Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Queens.

Which motion was agreed to.

LONG ISLAND RAILROAD COMPANY.

In the matter of the application of the Long Island Railroad Company for the consent of the City to a change in the line of its route between a point about 400 feet west of Ascan avenue and a point about 700 feet east of Lefferts avenue, in the Second Ward, Borough of Queens, upon which a report and proposed form of contract was received from the Chief Engineer at the meeting of February 7, 1908, when the matter was referred to a Select Committee consisting of the President of the Board of Aldermen, the Comptroller and the President of the Borough of Queens:

The Secretary presented the following:

NEW YORK, June 17, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment of February 7, 1908, the application of the Long Island Railroad Company for permission to change the location of that portion of its line between a point 400 feet north of Ascan avenue and a point 700 feet east of Lefferts avenue, in the Borough of Queens, was referred to a Committee consisting of the President of the Board of Aldermen, the Comptroller and the President of the Borough of Queens. The Board had given a public hearing upon this proposed change of line on January 24, and at the meeting of February 7, 1908, a report and form of contract were presented to the Board for consideration.

Objections have been made by the Railroad Company to a number of the provisions of this proposed contract, which objections may be summarized as follows:

Section 1 refers to streets hereafter to be opened, and provides that they shall be carried over or under the railroad. The company has agreed with the owners of the abutting property to construct bridges over certain streets designated in these agreements. It is claimed that provision has been made in these agreements for all needs in the immediate future, and that if any additional streets should be needed the provisions of the Railroad Law should apply, with the understanding that the City should share in the expense of bridges only for the tracks now existing.

Section 1, Clause 1, fixes a limit for the grade of all streets which may pass over or under the railroad, and the company asks that this provision be restricted to streets now laid out.

Section 1, Clause 2, provides that the entire cost of all bridges over streets hereafter opened shall be borne by the railroad company, and objection is made to provision for streets not yet opened, as it is believed that the needs of the immediate future have been cared for.

Section 1, Clause 3, provides that the bridge carrying Union turnpike over the railroad line shall be built for a street 60 feet wide and so designed that when the street is widened no reconstruction shall be necessary. The company contends that this would be practically impossible, and asks that the section be modified to cover "material" reconstruction.

Section 1, Clause 8, prohibits advertising signs on the company's property, including stations. This is objected to, but the company agrees not to place signs upon its right of way under a penalty of fifty dollars (\$50) a day.

Section 1, Clause 11, is objected to on the same grounds as Clause 2, and the company asks that bridges over streets hereafter opened be treated in accordance with the present Railroad Law, and that the provisions of the said law shall govern the maintenance of all bridges.

Section 1, Clause 15, requires the company to place all its wires or cables in conduits. This is objected to, and it is claimed that it is unreasonable to make this requirement for this small section of the road, when it does not apply to the rest of the line. Objection is also made to Clause 16, prohibiting the carrying of wires for any purpose except the operation of its railroad.

Section 1, Clause 20, provides that in case any streets are opened across the railroad tracks the company shall cede to the City, without compensation, the fee to the land, retaining only an easement for railroad purposes. It is pointed out that, as all the railroad company's property is covered by mortgages, it is practically impossible to do this, and it asks the City to accept an easement for street purposes, the company retaining the fee.

Section 1, Clause 21, provides that in case any streets crossing the right of way are widened, the corresponding alteration of any bridges or viaducts shall be made at the entire expense of the company. It is claimed that these cases should be treated under the Railroad Law and the expense divided equally between the company and the City.

Section 2 provides that the company shall, within twenty (20) days after the execution of the agreement and before beginning construction, apply to the Public Service Commission for its permission, if such permission is necessary. While the company regards this requirement as unnecessary, it asks that the time within which such application is to be made be fixed at ninety (90) instead of twenty (20) days.

Section 4 provides that the company shall give a bond of fifty thousand dollars (\$50,000), which appears to be a perpetual obligation, and the company asks that such bond be limited to the completion of the relocation and the structures herein outlined and the abandonment of the present line.

Your Committee has discussed these provisions at length with the representatives of the railroad company and has mentioned only those points which it believes to be worthy of serious consideration. Some other objections were raised by the company, but it is believed by the Committee that they should not be considered.

We believe that the proposed change of line will be advantageous not only to the railroad company but to the general public, and that while the railroad company wishes to secure facilities for additional tracks, these increased facilities are sorely needed, and it is the duty of the company to furnish them. We would therefore recommend that the proposed form of contract be amended as follows:

Section 1, Clause 1—After the word "street" in the first line insert "now laid out on the City map."

Section 1, Clause 2—In the third and fourth lines omit the words "and streets hereafter opened."

Section 1, Clause 3—Second paragraph, eleventh line, strike out the word "the" before "reconstruction" and substitute the words "any material." In the twelfth line, between the words "superstructure" and "shall," insert the words "sixty (60) feet in width."

Section 1, Clause 8—Substitute for this clause the following:
"The Company shall not place upon the right of way, except the station property on the proposed relocation or change of line, any signs for advertising purposes, under a penalty of fifty dollars (\$50) a day for each offense, such penalty to be recovered by the City."

Section 1, Clause 11—Substitute for this clause the following:
"In addition to the streets now open and in use which are to be carried over or under the proposed relocation or change of route at the expense of the Company, the said Company shall also, at its own expense, construct a bridge to carry its tracks upon the route hereby authorized over Ascan avenue, and shall also construct two additional bridges over the said railroad upon the route hereby authorized between Union turnpike and Lefferts avenue at such points as may be approved by the Board. The cost of carrying any streets hereafter opened across the proposed relocation or change of line hereby authorized shall be divided between the Company and the City, in accordance with the provisions of section 61 of the Railroad Law. With respect, however, to the bridges to carry the railroad over the streets or the streets over the railroad, the subdivision of cost as provided in the Railroad Law shall only require The City of New York to bear one-half of the cost of structures sufficient to accommodate or to cross a double-track railroad."

Section 1, Clause 14—Add the words "When completed, the provisions of the Railroad Law shall govern the maintenance of these structures."

Section 1—Clauses 15 and 16 to be omitted and Clauses 17, 18 and 19 to be numbered, respectively, 15, 16, 17.

Section 1, Clause 20, to be omitted and a new clause, to be numbered 18, to be substituted, as follows:

"Within ninety (90) days after a determination by the Board as to the necessity of opening any street across the proposed relocation or change of route hereby authorized, the Company shall grant a perpetual easement to the City covering such portions of the Company's right of way as fall within the lines of the said street. This provision shall also apply to streets now open and in use. The provision of clauses 17 and 18 shall not effect the right of the Company to oppose the opening of any such street which it may believe is unnecessary."

Section 1, Clause 21, to be renumbered 19, and in the fifth line, after the word "bear", the words "one-half of" should be inserted.

Section 1, Clauses 22, 23, 24 and 25, to be renumbered as 20, 21, 22 and 23, respectively.

Section 2—In the first and last lines, "ninety (90) days" to be substituted for "twenty (20) days."

Section 4—The following to be substituted for this section:
"The Company shall furnish to the City at the time of the signing of this agreement a bond with a Guaranty or Surety Company duly authorized by law to act as surety in the sum of fifty thousand dollars (\$50,000), conditioned upon the faithful performance of all the terms and conditions of this agreement. Said bond shall terminate upon the completion of the relocation or change of route hereby authorized and of the structures herein provided for, and upon the abandonment of the present line of the railroad."

Respectfully submitted,

P. F. MCGOWAN,

President, Board of Aldermen;

H. A. METZ,

Comptroller;

LAWRENCE GRESSER,

President, Borough of Queens.

The following was offered:

Whereas, The Long Island Railroad Company is the owner of and operates a line of railroad commencing at a point in the First Ward of the Borough of Queens (formerly known as Long Island City), and running thence easterly to Jamaica, in the Fourth Ward of said Borough and beyond, which is known and designated as the "Main Line" of the company's railroad; and

Whereas, Said Company, by a vote of two-thirds of all its directors, pursuant to section 13 of the Railroad Law, altered, changed or relocated that part of such line of railroad lying in that portion of the Second Ward of the Borough of Queens between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue; and

Whereas, Said Company has heretofore, on or about October 18, 1907, by a petition duly verified January 7, 1908, applied to the Board for the approval of the City to the said alteration or change of this portion of its route; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, under and in pursuance of the provisions of the Greater New York Charter and section 13 of the Railroad Law hereby grants its consent and approval to the said alteration, change or relocation of that portion of the "Main Line" of the railroad of the Long Island Railroad Company from a point about four hundred (400) feet west of Ascan avenue to a point about seven hundred (700) feet east of Lefferts avenue, in the Second Ward of the Borough of Queens, City of New York. Provided, however, that this consent and approval shall not take effect until the Company executes and delivers to the Board an agreement in the form following:

Proposed Form of Agreement.

This agreement, made this day of 190 , by and between the Long Island Railroad Company (hereinafter called the Company) and The City of New York (hereinafter called the City), witnesseth:

Whereas, The Company is the owner of and operates a line of railroad commencing at a point in the First Ward of the Borough of Queens (formerly known as Long Island City), and running thence easterly to Jamaica, in the Fourth Ward of said Borough and beyond, which is known and designated as the "Main Line" of the Company's railroad; and

Whereas, Said Company, by a vote of two-thirds of all its directors, pursuant to section 13 of the Railroad Law, altered, changed or relocated that part of such line of railroad lying in that portion of the Second Ward of the Borough of Queens, between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue, as more clearly appears on the map entitled:

"Survey and Map of the Alteration, Change and Relocation of the Route of the Main Line of the Long Island Railroad Company. To Accompany Petition dated October 7, 1907, to the Board of Estimate and Apportionment for the Consent of the City, pursuant to Section 13 of the Railroad Law."

—signed by the President and the Chief Engineer of the Company, and dated January 14, 1908, attached to this agreement and made a part hereof; and

Whereas, Said Company has heretofore, on or about October 18, 1907, by a petition duly verified January 7, 1908, applied to the Board of Estimate and Apportionment for the approval of the City to the said alteration or change of this portion of its route; and

Whereas, The said Board on day of 190 , by a resolution duly adopted, granted the consent and approval of the City to the said alteration, change or relocation of route.

Now, therefore, in consideration of the premises and the said consent and approval of the Board of Estimate and Apportionment, the Long Island Railroad Company hereby covenants and agrees as follows:

Section 1. The railroad to be constructed on the said proposed relocation, and change of route shall be carried over or under all streets now opened or hereafter to be opened, which may be crossed by it, and is to be subject in its construction, operation and maintenance to the following provisions and conditions:

1. In case it shall be necessary to raise or depress the grade of any street now laid out on the City map so as to pass over or under the proposed relocation or change of route, the maximum grade of such street in approaching the same from either side shall not exceed four (4) per centum, except that the easterly approach to the viaduct or bridge to be constructed over the cut across Union turnpike may have a grade of five and five-tenths (5.5) per cent. and no more.

2. All viaducts over streets and all crossings under streets shall be constructed either above or below the grade of such streets and in such manner as shall not interfere with the ordinary use thereof. All streets now open or in use across the route of the proposed relocation or change of route of the Company shall be carried over or under the said railroad at the sole cost and expense of the Company. All streets in any way disturbed by such construction shall be restored to their original condition. In case of failure of the Company to restore such streets to their original condition in a reasonable length of time, of which the Board shall be the sole judge, the City shall have the right under resolution of the Board to cause the work to be done and the materials to be furnished after due notice, and shall collect the reasonable cost thereof from the Company or in the event of the failure of the Company to pay the same within thirty (30) days from the security hereinafter provided for.

3. All viaducts or bridges to be constructed shall have a vertical clearance of not less than fourteen (14) feet above the centre of the respective streets crossed by the same.

Within the time allowed by this agreement, for the construction of the railroad on the route hereby authorized, the Company shall, at its own expense, construct abutments and piers for the bridge over its railroad under Union turnpike, for the full width of said turnpike, to wit: One hundred and twenty-five (125) feet, and within the lines of said turnpike, all as laid out on the map of the City, adopted by the Board December 29, 1905, and approved by the Mayor January 4, 1906, and at the same time shall erect thereon a bridge superstructure of a width of not less than sixty (60) feet. The bridge thus constructed to be so designed as to allow of the erection by the City, at its own expense, of any necessary increase in the width of the same to the full width of one hundred and twenty-five (125) feet upon the widening of the turnpike, without requiring any material reconstruction of that portion already built by the Company. Plans for the abutments, piers and superstructures sixty (60) feet in width shall be first submitted to the Board for its approval, and all work in connection with the construction of the same shall be done entirely at the expense of the Company. No extension of time shall be granted the Company for the completion of the work to be done by it under this paragraph.

4. The bridges or viaducts of the railroad on the proposed relocation or change of route shall, subject to the approval of the Board as to the character, design and plans for the construction of the same, be constructed in a single span, except that where the same shall be more than seventy-five (75) feet in length, intermediate columns to support the structure may be placed on the curb line in the street, upon the approval of the Board to the plans for the same and to their location. Such bridges or viaducts shall be floored throughout and shall be watertight, and the roadbed on the same shall be ballasted throughout its entire length with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

The width of any superstructure of the Company crossing a road, street, avenue or turnpike shall not exceed eighty-five (85) feet, when measured over all, and the width of all cuts of the Company crossing public streets shall not be more than ninety-five (95) feet at the grade of the street.

5. All abutments or foundations for bridges or viaducts crossing a street (except intermediate supports for bridges or viaducts as hereinbefore provided) shall be placed on land of the Company.

6. The Company shall, in the course of its construction and at its own expense, maintain and care for all underground and overground structures (including pipes, wires and other conduits) which shall be in the route of the proposed relocation or change of route or directly interfered with by its construction, and any necessary interference with underground and overground structures shall be subject to regulation by the Commissioner of Water Supply, Gas and Electricity and the President of the Borough of Queens.

Any alteration which shall be required to the sewerage or drainage system or to any subsurface structures (including pipes, wires and other conduits) laid in the roads, streets or avenues, on account of the construction or operation of the railroad of the Company on the proposed relocation or change of route, shall be made at the sole cost of the Company and in such manner as may be required by the President of the Borough of Queens and the Commissioner of Water Supply, Gas and Electricity.

7. The Company shall, where its road on the right of way of the proposed relocation or change of route is to be constructed at the surface or in cut, inclose the same with a substantial and sightly fence.

8. The Company shall not place upon the right of way except the station property on the proposed relocation or change of line, any signs for advertising purposes, under a penalty of fifty dollars (\$50) a day for each offense, such penalty to be recovered by the City.

9. The Company, or its agents, employees, lessees or assigns, shall not throw, deposit or drop any noxious or offensive objects, substances or things from any portion of the railroad to be constructed on the proposed relocation or change of route upon public or private property, under a penalty of twenty-five dollars (\$25) for each offense, to be recovered by the City.

10. Where the railroad on the proposed relocation or change of route of the Company crosses under Union turnpike, the Company shall, at its own expense, regulate and grade such turnpike for the full width of the same as existing at the time when such work of regulating and grading shall be done, but not, however, for a less width than forty-nine and five-tenths (49.5) feet, so as to bring the same to the established grade, for a distance of two hundred (200) feet on either side of the centre line of the railroad at said crossing.

11. In addition to the streets now open and in use which are to be carried over or under the proposed relocation or change of route at the expense of the Company, the said Company shall also at its own expense construct a bridge to carry its tracks upon the route hereby authorized over Ascan avenue, and shall also construct two additional bridges over the said railroad upon the route hereby authorized between Union turnpike and Lefferts avenue at such points as may be approved by the Board. The cost of carrying any streets hereafter opened across

the proposed relocation or change of line hereby authorized shall be divided between the Company and the City, in accordance with the provisions of section 61 of the Railroad Law. With respect, however, to the bridges to carry the railroad over the streets or the streets over the railroad, the subdivision of cost as provided in the Railroad Law shall only require The City of New York to bear one-half of the cost of structures sufficient to accommodate or to cross a double-track railroad.

12. The Company shall assume all liability by reason of the construction and operation of its railroad on the proposed relocation or change of route, and the City shall assume no liability whatsoever to either persons or property by reason of such construction, maintenance or operation. As a condition of this contract the Company, its successors or assigns, hereby agrees to repay the City any and all damages that the City shall be compelled to pay by reason of any acts or defaults of the Company, its successors or assigns.

13. The Company shall keep its structure in good order, and where the same crosses public property it shall have such access thereto as may be reasonably necessary in order to maintain and repair the same.

14. The plans for all structures over, under, across or through any road, street, turnpike or avenue must first be submitted to and approved by the Board, and all such structures shall be constructed of steel, concrete or masonry, or a combination of these materials. When completed the provisions of the Railroad Law shall govern the maintenance of these structures.

15. The railroad and structures on the said proposed relocation or change of route shall be constructed, maintained and operated subject to the supervision of all the authorities of the City who have jurisdiction in such matters, under the Charter and Ordinances of the City.

16. The Company shall itself bear the entire cost of preserving the streets already opened across the proposed relocation or change of route of the Company from injury or interference with the traffic thereof or with the lawful public use thereof, by the construction or operation of its railroad on the said proposed relocation or change of route under or over the same.

17. The City shall have the right any time it so desires to open across the route of the proposed relocation or change of route of the Company, any new streets other than those now open or in use, and the Company hereby gives its consent to said opening.

18. Within ninety (90) days after a determination by the Board as to the necessity of opening any street across the proposed relocation or change of route hereby authorized, the Company shall grant a perpetual easement to the City covering such portions of the Company's right of way as fall within the lines of the said street. This provision shall also apply to streets now open and in use. The provisions of Clauses 17 and 18 shall not affect the right of the Company to oppose the opening of any such street which it may believe is unnecessary.

19. In case any of the streets as now shown on the map of the City and crossed by the said proposed relocation or change of route above or below grade, are altered or widened after the Company has completed its railroad, and such widening requires the alteration of the superstructure of the railroad or the bridge or viaduct over the same, the Company shall, except as herein otherwise provided, bear one-half of the cost of such alteration as may be necessary.

20. The cost of regulating, grading and paving all streets which shall be opened as herein provided across the right of way of the railroad to be constructed on the proposed relocation or change of route of the Company shall be borne and paid by the Company.

21. The grant of this privilege shall not affect in any way the right of the City to grant any rights, privileges or franchises or to enter into contracts to or with any other person or corporation for constructing or operating and maintaining any railroad or railroads which shall not physically interfere with the structure, maintenance or operation of the Company's railroad on the proposed relocation or change of route, as herein authorized.

22. The City, the Board and all duly authorized representatives of the City, shall have the right, at all reasonable times, as well during construction as afterwards, to inspect the railroad on the proposed relocation or change of route, and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property owners or for any proper purpose. Nothing in this agreement shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over the property in the City.

23. The Company will begin the construction of the work hereinbefore specified within sixty (60) days after the execution of this agreement, or if it be necessary to obtain the consent or approval of the Public Service Commission of the First District to the construction of the railroad on the altered route, within sixty (60) days after obtaining such consent or approval, and except as hereinafter provided will complete the same within eighteen (18) months after commencing construction, subject to delays caused by strikes, labor difficulties or acts of God, in which case the Board may in its discretion extend the period for construction. During the construction of the railroad on the said proposed relocation or change of route, the Company shall provide reasonable facilities for travel on all such streets, roads, turnpikes or avenues as may be open across the right of way of the railroad on said proposed relocation or change of route.

Sec. 2. Within ninety (90) days after the execution of this agreement, and before commencing any construction under authority of the same, the Company shall, if necessary, apply for the permission or approval of the Public Service Commission of the First District, under section 53 of chapter 429 of the Laws of 1907, to the construction and operation of its railroad on said proposed relocation or change of route, and shall furnish the Board with a certified copy of said permission or approval, or if such permission or approval be not necessary, the Company shall notify the Board of such fact within said ninety (90) days.

Sec. 3. Upon the completion of the construction of the railroad on the proposed relocation or change of route, the Company shall immediately commence the operation of its trains over the same, and abandon that portion of its route between the points on its line of railroad connected by the said relocation or change of route. Upon the abandonment of said portion of the route of the Company's railroad, it shall commence the removal, and within a reasonable time thereafter shall complete the removal of the tracks, ties and all other appurtenances of the railroad from the said portion of its route, and where the same crosses any street, road, turnpike or avenue, it shall grade and pave the same to correspond to the then existing grade and pavement of said street, road, turnpike or avenue.

Sec. 4. The Company shall furnish to the City at the time of the signing of this agreement a bond with a guaranty or surety company duly authorized by law to act as surety in the sum of fifty thousand dollars (\$50,000), conditioned upon the faithful performance of all the terms and conditions of this agreement. Said bond shall terminate upon the completion of the relocation or change of route hereby authorized and

of the structures herein provided for, and upon the abandonment of the present line of the railroad.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this agreement fixed and contained.

In witness whereof the Long Island Railroad Company has caused this instrument to be executed and acknowledged by its President and its corporate seal to be hereto affixed and the same to be attested by the signature of its secretary, the day and the year first above mentioned.

THE LONG ISLAND RAILROAD COMPANY,

By.....President.

[SEAL.]

Attest:

.....Secretary.

And provided further that before the execution of such agreement by the Company, the same shall be submitted to the Corporation Counsel for his approval as to form and to incorporate therein such matter as he may deem necessary to fully protect the interests of the City.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

CONEY ISLAND AND BROOKLYN RAILROAD COMPANY.

The Secretary presented the following:

Before the Board of Estimate and Apportionment of The City of New York:

In the Matter

of

The application of the Coney Island and Brooklyn Railroad Company for amendment of resolution of the Board of Estimate and Apportionment adopted January 18, 1907, changing the location of the railroad tracks on Coney Island avenue.

The petition of the Coney Island and Brooklyn Railroad Company respectfully shows:

First—Your petitioner is a railroad company organized in 1860 under the General Railroad Act of 1850. It owns and operates its railroads from the Fulton and Hamilton ferries in Brooklyn to the corner of Surf avenue and West Fifth street on Coney Island, in said Borough, with an extension over the New York and Brooklyn Bridge. It holds under lease the railroads of the Brooklyn City and Newtown Railroad Company, known as the DeKalb and Franklin avenue lines. From Prospect Park to Coney Island, in the Borough of Brooklyn, the railroad owned by your petitioner is located upon its route, or right of way, on the westerly side of Coney Island avenue. This route, or right of way, the petitioner has acquired and owns in fee.

Second—Your petitioner further shows that the Legislature of the State of New York, on May 24, 1906, enacted chapter 610 of the Laws of that year, entitled "An Act to authorize the Board of Estimate and Apportionment of The City of New York, to change the location of the railroad tracks of the Coney Island and Brooklyn Railroad Company in Coney Island avenue, Borough of Brooklyn, from the side of the street to the centre thereof," which act provided for the change in the location of your petitioner's tracks from the westerly side to the centre of Coney Island avenue, and authorized the Board of Estimate and Apportionment of The City of New York to make such change. On January 18, 1907, the Board of Estimate and Apportionment adopted a resolution, a copy of which is hereunto annexed and marked "Exhibit A."

Third—Your petitioner further shows that it has had, since the year 1863, the practically exclusive use of its route, or right of way, in the westerly side of Coney Island avenue. Its rails are laid on wooden ties, which ties are at or above the street level and the rails are several inches above that level. Its route has not been used by vehicles or pedestrians. The Law of 1906 promises to your petitioner equal rights in the route in the centre of the street, and your petitioner has taken such proceedings that it has acquired in fee a route, or right of way, in the centre of the street. The final order affirming the report of Commissioners and vesting title in fee in your petitioner is referred to.

Fourth—Your petitioner further shows that shortly after the entry of the said order it proposed to the Borough President of Brooklyn a plan for the improvement of Coney Island avenue, including the removal of its tracks from the westerly side of the street to the centre thereof, and the plan was considered at a meeting called by the Borough President of Brooklyn, or the Commissioner of Public Works of Brooklyn, acting for the Borough President, which meeting was attended by the Commissioner of Public Works, the Engineer of Highways, the Engineer of the Board of Estimate and other public officials.

The plan proposed by the railroad company was that the width of sidewalks along Coney Island avenue should be reduced from 25 to 15 feet each; that next to the two sidewalks should be two roadways, each 23 feet wide, to be paved with asphalt; that the railroad tracks should be laid in the centre of the street in a space 24 feet wide at the outer edge of which should be curbs separating the centre space from the roadways; that this space in the centre of the street should be laid in grass by the railroad company and maintained by it.

The Commissioner of Public Works stated that they would insist that the railroad company should pay the expense of cutting down the sidewalks from 25 to 15 feet, and that the rails at street crossings should be laid to the satisfaction of the Engineer of Highways of the Borough of Brooklyn. The railroad company accepted the suggestion of the Borough authorities, and thereupon it was stated that the Borough President would have prepared a resolution for the Board of Aldermen decreasing the width of sidewalks from 25 feet to 15 feet, and that thereafter the Borough authorities and the railroad company should proceed with the improvement.

Fifth—Your petitioner further shows that thereafter and on or about the 27th day of April, 1908, the Commissioner of Public Works of the Borough of Brooklyn, acting as Borough President, sent to the Board of Aldermen a resolution and a letter, which are printed in the City Record of April 30, 1908, copies of which are hereunto annexed, marked "Exhibit C." Shortly thereafter the Borough President withdrew from the Board of Aldermen said resolution. On the 2d day of June, 1908, the identical resolution was introduced by Alderman Potter, and, on the 9th day of June, 1908, the resolutions were adopted by the Board of Aldermen, and, on June 16, 1908, were signed by his Honor the Mayor of The City of New York.

Sixth—Your petitioner further shows that on the 6th day of April, 1908, it submitted to the Public Service Commission, First District, its petition praying for the approval by the said Commission of an issue of the consolidated mortgage bonds of your petitioner to pay the cost of the reconstruction of its railroad in the centre of the street. Hearings have been had thereon and have been adjourned to await the action of the Board of Estimate and Apportionment. Your petitioner is advised and believes that the action of the Commission will depend upon the resolution of this Board fixing the plans for the improvement of Coney Island avenue and particularly the location of the tracks of your petitioner.

Seventh—Your petitioner would be greatly disadvantaged if the whole avenue were paved and its tracks located in the centre of the street. It would be deprived of the use which it has always had of its route or right of way on the westerly side of the street. The capitalization of the cost would be objected to by stockholders and there would be little reason, if any, for an issue of bonds to pay the cost, and if the Public Service Commission should authorize such an issue the sale of them would be difficult, if not impossible, and your petitioner could not meet the cost out of its receipts and would be unable to change the location of its tracks, and the improvement of the avenue, greatly desired by everybody, would be hindered and delayed.

Wherefore your petitioner asks your Honorable Board to amend the resolution adopted January 18, 1907, by adding at the end of the said resolution the following clause:

"Resolved, That the tracks of the Coney Island and Brooklyn Railroad Company in the centre of Coney Island avenue shall be laid in a space 24 feet in width, at the outer edges of which a curb shall be laid separating the route or right of way of the company from the carriageways. The space in the centre of the street 24 feet wide shall be laid in grass and maintained by the railroad company. On the easterly and on the westerly sides of the route carriageways 23 feet wide shall be paved with asphalt on concrete. At intersecting streets Coney Island avenue shall be paved its entire width with asphalt on concrete, except that toothing shall be used next to the rails to make a close joint; this to be to the satisfaction of the President of the Borough of Brooklyn:

"Resolved, That the expense of setting back the curbs on the easterly and westerly sides of the avenue, when the width of the sidewalk is decreased from 25 to 15 feet, and the laying of new sidewalks in place of those removed shall be borne by the Coney Island and Brooklyn Railroad Company."

CONEY ISLAND AND BROOKLYN RAILROAD COMPANY.

By S. W. HUFF, President, Petitioner.

State and City of New York, County of Kings, ss.:

Slaughter W. Huff, being duly sworn, deposes and says: That he is the President of the Coney Island and Brooklyn Railroad Company, the petitioner above named; that he has read the foregoing petition and knows the contents thereof, and that the same is true of his own knowledge except as to those matters therein stated to be alleged upon information and belief, and as to those matters he believes it to be true.

Deponent further says that the reason this verification is not made by petitioner is that it is a corporation; that deponent is the President thereof, and that deponent makes the same from his personal knowledge and supervision of the affairs and business of said corporation.

S. W. HUFF.

Sworn to before me this 24th day of June, 1908.

FRED K. A. DELATOUR, Notary Public, Kings County,

Certificate filed in New York County.

"EXHIBIT A."

Now therefore be it

Resolved, The Board of Estimate and Apportionment of The City of New York does hereby change the route or right of way and the location of the railroad tracks of the Coney Island and Brooklyn Railroad Company in Coney Island avenue, between Fort Hamilton avenue and Neptune avenue, Borough of Brooklyn, from the present location of the said route or right of way and railroad tracks on the westerly side of Coney Island avenue to the centre of said avenue. The costs of the said change of tracks shall be borne by the Coney Island and Brooklyn Railroad Company. After the route or right of way and railroad tracks shall have been so changed the Coney Island and Brooklyn Railroad Company shall have the same right, title and interest in the new route and right of way as it now has in the route or right of way occupied by it in said avenue. This order shall be binding upon the said company and upon all abutting owners when the owners of one-half in value of the property bounded on Coney Island avenue, between Fort Hamilton avenue and Neptune avenue, deliver to the said company or to the said Borough President, for account of the said company, deeds of the new route and right of way granting the said company for railroad purposes only the same right, title and interest in the route or right of way as it has in the route or right of way now occupied by it.

"EXHIBIT C."

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
April 27, 1908.

To the Honorable Board of Aldermen:

GENTLEMEN—I forward to you herewith a copy of report of the Chief Engineer of the Bureau of Highways relative to the improvement of Coney Island avenue, from the Plaza to Neptune avenue, together with a form of ordinance regulating the use of the sidewalks on Coney Island avenue, from the Plaza at Parkside avenue to Neptune avenue, and a form of ordinance reducing the width of sidewalks from the Plaza at Parkside avenue to Neptune avenue.

I would respectfully request that these ordinances be adopted.

Yours truly,

DESMOND DUNNE,

Acting President of the Borough.

Hon. THOMAS R. FARRELL, Superintendent of Highways:

DEAR SIR—In connection with the improvement and paving of Coney Island avenue, from the Plaza to Neptune avenue, I beg to forward form of ordinance to be introduced in the Board of Aldermen reducing the width of sidewalks on Coney Island avenue, between the above limits, from 25 feet to 15 feet, so that the curb lines will be 15 feet from and parallel with the building lines.

I also forward form of ordinance covering the use of sidewalks on Coney Island avenue, between the same limits prohibiting the erection or use of any portion of the sidewalk outside of the building lines except for bay or show windows, and would recommend that arrangements be made to introduce these two resolutions in the Board at the earliest possible date, so that the new street lines may be legalized, and the Bureau be in a position to proceed with the preparation of plans and contracts for the work involved in paving this street.

Respectfully,

JNO. C. SHERIDAN, Chief Engineer.

AN ORDINANCE to reduce the width of the sidewalks on Coney Island avenue, from the plaza at Parkside avenue to Neptune avenue.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

That the width of the sidewalks on Coney Island avenue, from the plaza at Parkside avenue to Neptune avenue, be reduced from twenty-five (25) feet to fifteen (15) feet, so that the curb lines will be fifteen (15) feet from and parallel with the building lines.

AN ORDINANCE to regulate the use of sidewalks on Coney Island avenue, from the plaza at Parkside avenue to Neptune avenue.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

All courtyard and stoop privileges are hereby prohibited and withdrawn on Coney Island avenue, from the plaza at Parkside avenue to Neptune avenue, and that it will be unlawful to build, project or place any fence, stoop, piazza, projection or encumbrance whatever, with the exception of bay or show windows, beyond the property line of the said Coney Island avenue, between the above mentioned limits.

Which were severally referred to the Committee on Streets, Highways and Sewers.

Which was referred to the Chief Engineer.

BROOKLYN, QUEENS COUNTY AND SUBURBAN RAILROAD COMPANY.

In the matter of the application of the Brooklyn, Queens County and Suburban Railroad Company for a franchise to construct, maintain and operate a street surface railway as an extension to its existing line, upon and along Metropolitan avenue, from Dry Harbor road to Jamaica avenue, Borough of Queens, upon which a

report and proposed form of contract was received from the Chief Engineer at the meeting of December 13, 1907, when the matter was referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the Corporation Counsel.

The Secretary presented the following:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, June 1, 1908.

Board of Estimate and Apportionment:

DEAR SIRS—I have received two communications from your Board affecting the pending application of the Brooklyn, Queens County and Suburban Railroad Company for certain franchise rights in the Borough of Queens. These communications were purposely unanswered by my Department, as I was informed it had practically been decided the Company would make an application for a route in some respects different to that originally applied for and as specifically described in the form of contract submitted to me.

The first communication, dated November 23, 1907, reads as follows:

"I transmit herewith report from the Engineer in Charge of the Division of Franchises, in relation to a pending application of the Brooklyn, Queens County and Suburban Railroad Company for a franchise, together with a protest filed with the Board against the granting of the right, claim being made that there is a statutory provision preventing the construction of such road; also a communication from Messrs. Wingate & Cullen, dated November 22, 1907, outlining more fully the law in the case.

"Please advise the Board at your earliest opportunity whether the points raised by the protestants are well taken and if the Board has the right, should it see fit, to grant a franchise upon Metropolitan avenue, as applied for.

"A former communication in relation to the Brooklyn, Queens County and Suburban Railroad Company was sent to you on November 4, and I would be glad to have you consider these two matters at the same time."

The second communication, dated December 13, 1907, was as follows:

"At a meeting of the Board of Estimate and Apportionment held this day, a communication was received from the Chief Engineer, transmitting a report from the Division of Franchises, proposing certain terms and conditions to govern the grant of a franchise to the Brooklyn, Queens County and Suburban Railroad Company to construct, maintain and operate a double track street surface railroad from the intersection of the existing tracks of the Company at Metropolitan avenue and Dry Harbor road, in the Borough of Queens, upon and along Metropolitan avenue and Jamaica Plank road, there to connect with the existing tracks on such street, and also to connect with the existing tracks on Dry Harbor road.

"The matter was referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, and the Corporation Counsel was requested to act with such Committee. The form of contract was referred to the Corporation Counsel for his approval as to form.

"I transmit herewith a copy of the report of the Division of Franchises, containing the proposed form of contract."

Taking up the said communication of November 23 first, I beg to state that many objections were raised in the formal protest filed with the Board, signed by various residents and property owners along the proposed route. Such objections were mainly questions of fact addressed to the discretionary power of the Board. Only one point that was raised presents a question of law, which it is within my province to answer. This objection is concisely stated in a communication from Messrs. Wingate & Cullen, attorneys for the property owners.

In their communication they state:

"The Act to which you refer is known as chapter 686 of the Laws of 1894, which provides that no street surface railroad or railroad of any kind shall be constructed upon a macadamized public highway in any town of Queens County without a vote of the majority of the electors of the town.

"Metropolitan avenue is a macadamized public highway and was so macadamized by the County prior to the consolidation of Queens County with The City of New York.

"This statute was amended by chapter 548 of the Laws of 1899, also by chapter 104 of the Laws of 1900, by chapter 385 of the Laws of 1903, by chapter 533 of the Laws of 1904, and chapter 378 of the Laws of 1905.

"Under the Act of 1905 we believe that before franchises can be granted for a road on Metropolitan avenue it will be necessary to obtain the majority vote of the electors of the Second and Fourth Wards of the Borough of Queens to sanction such franchise."

I do not attach any weight to this objection.

Chapter 686 of the Laws of 1894 provided:

"No street surface railroad or railroad of any kind shall be constructed upon any macadamized public highway in any town in Queens County without a vote of a majority of the electors of such town being cast in favor thereof at an annual town meeting * * *. The consent of the majority of the electors as herein provided shall be in addition to the requirements of the general railroad act of the State."

The Act further specified that as to certain streets in the Town of Jamaica no railroad was to be constructed thereon.

Later amendments to this Act included other streets upon which no railroad was to be constructed, and later also the Act was extended generally to cover Nassau County.

Chapter 647 of the Laws of 1907 is the latest amendment of such Act.

It is evident that as to the various towns in the County of Queens which were abolished or merged with the Greater City of New York in 1898 and thereby lost their identity as towns and the town government of each of which was thereby wiped out, it would now be impossible for the railroad to secure a majority vote of the electors thereof, as required by said Act.

No annual meetings of such towns are or can be held on account of the non-existence of such towns, and, therefore, the statutes in question are inoperative in respect to the point upon which the protestants rely.

I need not here pass upon the question as to the present force of said act as affecting towns in the said counties outside the present limits of the City, nor as affecting streets or roads specifically named in the said act, and will content myself with stating that, in my opinion, the objection raised above as to the failure to secure the consent of the electors of such towns as are now within the City limits may be disregarded.

In reaching this conclusion I am in accord with an opinion of this Department, in reference to a proposed franchise grant to the Ocean Electric Railroad Company on the Boulevard, a macadamized road in Queens County, sent to the Comptroller under date of June 4, 1903. Said opinion stated in part as follows:

"I am of opinion that the Act of 1894, as amended, is operative, except in respect to its provisions relating to the acts of town meetings. Whether as to these provisions the Board of Aldermen of The City of New York and the Board of Estimate and Apportionment, acting under the Charter, are vested with the power given by the act to the town meetings within the County of Queens, need not now be considered. * * *

"As to the second route described in the resolution of the Board of Aldermen and the proposed ordinance, I am informed that all the streets affected thereby are macadamized roads. Under the provisions of the Act of 1894, as amended, a street railroad can only be constructed along the sides of such roads. The practical difficulties in the construction of a street railroad under the circumstances disclosed here, which are discussed in the Engineer's report now before me, have impressed me deeply. In my opinion a franchise for a street railroad upon the second route ought not to be granted until the Legislature has removed the obstacles in the way of a proper street railroad service thereon by changes in the existing statutes."

In the report of the Engineer referred to in such opinion, which Engineer was connected with the Department of Finance, the suggestion was made that it was not feasible to construct a railroad on the sides of the road, and that a possible solution of the problem would be compelling the company to pay for the macadamizing of the remaining portion of the street and permitting such company then to occupy the centre of the street for its railroad tracks. This suggestion, it can be seen, was contrary to the opinion of the Corporation Counsel, but was none the less adopted by

the City officials, and in the contract granting the franchise to the said company the following paragraph was contained therein:

"Seventh—The grantee, its successors or assigns, shall cause to be laid, under the supervision of the municipal authorities having jurisdiction in such matters, upon and along the public highway known as the Boulevard, as hereinbefore described, a good and sufficient macadamized pavement of a depth of not less than 8 inches, to extend from either side of the present macadamized pavement to the curb line on the north and south sides of said Boulevard.

"The grantee shall pay the entire cost thereof, together with the cost of the necessary supervision, and no cars shall be operated under this franchise over any part of the route hereby granted until the said pavement is fully and completely laid."

I am informed the said company, pursuant to such grant, constructed its railroad in the middle of said Boulevard and is to-day operating its cars thereon. Such a use of a macadamized road would appear to be questionable in view of the clearly expressed intention of the above named statutes, and in my opinion, if in your wisdom you think it proper to grant a franchise for Metropolitan avenue, the Company will necessarily be restricted to the construction of its road along the sides of said macadamized road. To cover this point I would suggest the inclusion of the following paragraph, which might properly follow at the end of section 1 in the printed form of contract sent me:

"The railway and other structures constructed by the grantee, its successors or assigns, under this grant, shall in all respects comply with the provisions of chapter 686 of the Laws of 1894, as amended."

I have carefully considered the form of contract submitted with the said communication of December 13, 1907, and respectfully suggest the following changes:

It is evident, for instance, from a report of the Division of Franchises which preceded the said form of contract, that it is not intended under this contract to impose a double percentage payment based on gross receipts.

The language, however, used in subdivision third of section 2 of said contract would apparently impose a double burden upon the Company.

I have, therefore, in the form I have prepared, omitted part of the language used. I have also made other changes which will, I think, tend to free the contract from ambiguity.

Beginning at the middle of page 21 of the printed form of contract, I suggest the contract be changed to read as follows:

"The intention of this paragraph is to fix an annual charge, to be paid by the Company, its successors or assigns, to the City for the rights and privileges hereby granted.

"The compensation hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract and no renewal shall provide for a further renewal.

"In consideration of the franchise grant herein made, the Company hereby agrees to pay the full percentage based on gross receipts, provided by section 95 of the Railroad Law, upon all the existing lines owned, leased or operated by it within the present limits of the City and expressly waives any defense it may have to a lesser rate of compensation under any general or special statute, or any ordinance of the City or of the local authorities of the towns or villages now embraced within the limits of said Greater City of New York.

"Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board or by any law of the State of New York, and such Company shall not be entitled to offset or make any deductions by virtue of any payments made pursuant to the terms of this contract."

I suggest that subdivision 11 of section 2 be amended to read as follows:

"Eleventh—The said railroad shall be constructed, maintained and operated subject to the supervision and control of the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City, and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant."

The second paragraph of subdivision 20 of section 2 should be amended to read as follows:

"As long as the said railway or any portion thereof remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof under the supervision of the local authorities, whenever the same become in a state of disrepair, or whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of pavement of any street, avenue or highway, and in that event, the successors or assigns shall be bound to replace such pavement in the manner directed by the proper City officer at his own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay the City any sum or sums that the City may pay either as the result of a judgment against it or by way of settlement or compromise for any injuries either to person or property arising from the failure of the Company to pave or keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed as hereinbefore provided."

Subdivision 31 of section 2 might be amended by adding thereto:

"The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract."

I find the contract otherwise satisfactory and if the changes I suggest be made, it will have my approval as to form.

Respectfully yours,
GEORGE L. STERLING,
Acting Corporation Counsel.

BROOKLYN, QUEENS COUNTY AND SUBURBAN RAILROAD COMPANY.

Proposed Form of Contract.

This contract, made this _____ day of _____, 190____, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board); the Brooklyn, Queens County and Suburban Railroad Company, incorporated for the purpose of building, maintaining and operating a railroad (hereinafter called the Company), party of the second part; the Brooklyn Rapid Transit Company, incorporated for the purpose of constructing railways, owning stocks and bonds of railroad corporations and other similar purposes (hereinafter called the Transit Company), the Brooklyn Heights Railroad Company, incorporated for the purpose of constructing railways and holding stocks and bonds of railroad corporations (hereinafter called the Heights Company), and the Brooklyn City Railroad Company, a railroad corporation (hereinafter called the Brooklyn Company), parties of the third part; Witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railroad by the overhead electric system similar to that now used by the Company in the Borough of Queens, with the necessary wires and equipment, for the purpose of conveying persons only in the Borough of Queens, in The City of New York, upon the following routes:

Commencing at the intersection of Metropolitan avenue and Dry Harbor road, thence easterly in and upon Metropolitan avenue to a point where the said Metropolitan avenue intersects the Jamaica plank road, in the Village of Jamaica, together with the right to connect the aforesaid tracks with the existing tracks of the petitioner on Jamaica plank road.

The said route and connections hereby authorized are more particularly shown upon a map entitled: "Map showing the proposed extension in the routes of the Brooklyn, Queens County and Suburban Railroad, in the Borough of Queens, to accompany petition to the Board of Estimate and Apportionment, dated September 19, 1907," signed and approved by T. S. Williams, Vice-President, and W. S. Menden, Chief Engineer, which map is attached hereto, is made a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional switches, crossovers and spurs which are consistent with the foregoing description, and the other provisions of this franchise may be permitted by resolution of the Board of Estimate and Apportionment.

The railway and other structures constructed by the grantee, its successors or assigns, under this grant, shall in all respects comply with the provisions of chapter 686 of the Laws of 1894 as amended.

Section 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double-track street surface railroad, as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five (25) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation and such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Third—The Company, its successors or assigns shall pay to the City for this privilege the following sums of money:

The sum of five thousand dollars (\$5,000) in cash, within thirty (30) days after the date on which this contract is signed by the Mayor.

During the first five years an annual sum which shall in no case be less than four thousand eight hundred dollars (\$4,800), and which shall be equal to 3 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of four thousand eight hundred dollars (\$4,800).

During the second five years an annual sum which shall in no case be less than eight thousand eight hundred dollars (\$8,800), and which shall be equal to 5 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of eight thousand eight hundred dollars (\$8,800).

During the third five years an annual sum which shall in no case be less than nine thousand seven hundred dollars (\$9,700), and which shall be equal to 5 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of nine thousand seven hundred dollars (\$9,700).

During the fourth five years an annual sum which shall in no case be less than twelve thousand eight hundred (\$12,800), and which shall be equal to 6 per cent. of the gross annual receipts of the railway so constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of twelve thousand eight hundred dollars (\$12,800).

During the remaining five years an annual sum which shall in no case be less than fifteen thousand dollars (\$15,000), and which shall be equal to 6 per cent. of the gross annual receipts of the railway constructed under this contract, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of fifteen thousand dollars (\$15,000).

The payment of such minimum sums shall begin from the day on which the contract is signed by the Mayor.

Such minimum annual sums shall be paid into the treasury of the City on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, such sum over and above such minimum shall be paid to the said Comptroller on or before November 1 in each year for the year ending September 30 next preceding. The fiscal year shall end on September 30 next preceding said date of payment, and provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the matter of payments and statements of percentages of gross receipts of street railway companies not inconsistent with this contract, shall be strictly complied with. The intention of this paragraph is to fix an annual charge to be paid by the Company, its successors or assigns, to The City of New York for the rights and privileges hereby granted.

The compensation hereafter to be fixed for any renewal term of this contract shall not be less than the sum required to be paid for the last year of this original contract and no renewal shall provide for a further renewal.

In consideration of the franchise grant herein made, the Company hereby agrees to pay the full percentage based on gross receipts, provided by section 95 of the Railroad Law, upon all the existing lines owned, leased or operated by it within the present limits of the City and expressly waives any defense it may have to a lesser rate of compensation under any general or special statute, or any ordinance of the City or of the local authorities of the towns or villages now embraced within the limits of said Greater City of New York.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board or by any law of the State of New York, and such Company shall not be entitled to offset or make any deductions by virtue of any payments made pursuant to the terms of this contract.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the tracks and equipment of the Company constructed pursuant to this contract within the streets and highways of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

It, however, at the termination of this grant as above, the City (by the Board) shall so order by resolution, the Company shall, upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract, and the said streets and highways shall be restored to their original condition at the sole cost and expense of the Company.

Fifth—The annual charges or payment shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the Company, its successors or assigns, which shall be constructed under this contract.

The use of the railroad which shall be constructed and maintained in the streets, avenues and highways under this contract, including the tracks, wires and other equipment used in connection therewith, shall be permitted by the Company, its successors or assigns, to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets, avenues or highways, for street railroad purposes, upon payment of an annual sum by such individual or corporation to the Company, which shall not exceed the legal interest on such proportion of the whole cost of the construction of such railroad, and of the cost of keeping the tracks and track equipment in repair, as the number of cars operated by such company or individual shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation and the cost of laying and repairing of pavement and removal of snow and ice, and all the other duties imposed upon the Company by the terms of this contract, in connection with the maintenance or the operation of the said railroad so used.

The Company shall not at any time oppose, but shall, upon the request of the Board, consent to the construction or operation of any street surface railroad which may necessitate the use of any portion of the railroad, which shall be constructed under this contract.

If at any time during the term of this contract the City shall operate a street surface railroad over the whole or any portion of the railroad which shall be constructed under this contract, the Company shall allow the City to use the whole or any part of the track and track equipment, together with sufficient power to operate the cars over such track upon payment of an annual sum by the City to the Company which shall not exceed the legal interest upon such proportion of the whole cost of construction of the portion of the railroad so used as the number of cars operated by the City shall bear to the number of cars operated by the companies then using the same, and the City shall further pay to the Company the actual cost of the power necessary for the operation of its cars thereon.

Eighth—The railway to be constructed under this contract may be operated by overhead electric power substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Provided, however, that the Board of Estimate and Apportionment or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, may require the Company to operate its railway upon the whole or upon any portion of its route, by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets, avenues and highways of the City.

Ninth—Upon six months' notice by the Board to the Company all wires for the transmission of power, except trolley wires, for the operation of the railway hereby authorized shall be placed in conduits, beneath or alongside of the railways. The Company shall provide in such conduits two ducts not less than 3 inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Tenth—The Company shall commence construction of the railway herein authorized within six months from the date upon which the consents of the property owners are obtained, or upon the decision of the Appellate Division of the Supreme Court that such railway ought to be constructed, and shall complete the construction of the same within six months from the same date, otherwise this grant shall cease and determine, and all sums paid, or which may be deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that such periods may be extended by the Board for a period or periods not exceeding in the aggregate six months each.

Eleventh—The said railroad shall be constructed, maintained and operated subject to the supervision and control of the authorities of the City, who have jurisdiction in such matters, as provided in the Charter of the City, and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Twelfth—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

Thirteenth—The rate of fare for any passenger upon such railway shall not exceed 5 cents, and the Company shall not charge any passenger more than 5 cents for one continuous ride from any point on said railway, or a line or branch operated in con-

nection therewith, to any point thereof, or of any connecting line or branch thereof, within the limits of the city.

The Suburban Company hereby agrees that transfers shall be given upon all the cars operated upon Metropolitan avenue for the payment of a single fare of 5 cents, which will entitle passengers to a continuous passage upon any street surface railway intersecting said Metropolitan avenue within the boundary of the Borough of Queens and upon any line of railway owned or controlled by the Transit Company having a station within one thousand (1,000) feet of Metropolitan avenue. Such transfers shall be accepted in payment for a continuous passage from such points of intersection or such station or stations.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire departments of the City when such employee are in full uniform.

This right is given upon the express condition that no cars shall be operated upon the tracks hereby authorized, other than passenger cars, and cars necessary for the repair and maintenance of the railway, and that no freight or express cars shall be operated upon such tracks.

Fourteenth—Cars on the said railway shall run at intervals of not more than thirty minutes both day and night, and as much oftener as reasonable convenience of the public may require or as may be directed by the Board.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the terms of this contract, be enacted or adopted by the State or City authorities.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Seventeenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues in which the railway shall be constructed under this contract, shall cause to be watered the entire roadway of such streets and avenues at least three times in every twenty-four hours, when the temperature is above 35 degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electric power, the capacity of which shall be sufficient to water such streets and avenues in a satisfactory manner.

Eighteenth—All cars operated on said railways shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Nineteenth—The Company shall at all times keep the streets, avenues or highways upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails, on either side thereof, free and clear from ice and snow; provided, however, that the Company shall, at the option of the President of the Borough of Queens, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Twentieth—The Company shall cause to be paved that portion of the street between its tracks, the rails of its tracks and two feet in width outside of its tracks upon and along the streets, avenues and highways of the routes hereby authorized, which are now either unpaved or paved with macadam. The work of such paving shall be done under the supervision of the Municipal authorities having jurisdiction in such matters. Such authorities shall designate the character of the pavement to be laid.

As long as the said railway or any portion thereof remains in the street, avenue or highway, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or highway in which said railway is constructed, between its tracks, the rails of its tracks and for a distance of two feet beyond the rails on either side thereof under the supervision of the local authorities, whenever the same become in a state of disrepair, or whenever required by them to do so, and in such manner as they may prescribe. And it shall not be necessary, in the event that the portion of the surface of the street, avenue or highway in which said railroad is constructed shall not be repaired by the Company as hereinbefore provided, for the City to give any notice to the Company of such state of disrepair, but the City may make such repairs and charge the same to the Company, which the said Company agrees to pay, any statute to the contrary notwithstanding. And the City shall have the right to change the material or character of pavement of any street, avenue or highway, and in that event, the successors or assigns shall be bound to replace such pavement in the manner directed by the proper City officer at his own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement. The Company agrees to pay the City any sum or sums that the City may pay either as the result of a judgment against it or by way of settlement or compromise from any injuries either to person or property arising from the failure of the Company to pave or keep in permanent repair that portion of the surface of the street, avenue or highway in which said railroad is constructed, as hereinbefore provided.

Twenty-first—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twenty-second—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of Queens.

Twenty-third—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, or at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of company for each class of business.
17. Amounts paid by the Company for damage to person or property on account of construction and operation.
18. Total expenses for operation, including salaries.

Twenty-fourth—All franchises heretofore granted or intended to be granted to the Company, or to companies which have been merged with or are now owned by the Company, under which no authority has been exercised in constructing and operating a street surface railway, are hereby declared void, and the Company, its successors or assigns, shall not at any time attempt to construct and operate railways pursuant to such authority.

Twenty-fifth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 of each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Twenty-sixth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the Company, or at the option

of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railroad constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity.

Twenty-seventh—If the Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars (\$250) as fixed or liquidated damages, or the Board, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided.

Twenty-eighth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Twenty-ninth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the roadway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Comptroller of the City, on complaint made, shall, in writing, notify the Company, through its president, to appear before him on a certain day not less than ten (10) days after the date of such notice, to show cause why it should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears in the judgment of the Comptroller to be in fault, said Comptroller shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to him to be just, and without legal procedure withdraw the amount of such penalty from the security fund deposited with him. In case of any draft made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the Comptroller of the City a sum sufficient to restore said security fund to the original amount of ten thousand dollars (\$10,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the Company is authorized to operate.

Thirty-first—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

"The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract."

Thirty-second—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Section 3. The grant of the privilege to the Company is likewise subject to the following conditions:

First—The Transit Company, the Heights Company and the Brooklyn Company, the parties of the third part, each hereby agrees that transfers shall be given upon all cars operating upon any street surface railway which intersects Metropolitan avenue within the boundary of the Borough of Queens, and upon any line of railway owned or controlled by the Transit Company and having a station within one thousand (1,000) feet of Metropolitan avenue, upon the payment of a single fare of five cents, which will entitle passengers to a continuous passage upon Metropolitan avenue from such points of intersection or said stations.

Second—The Transit Company, the Heights Company and the Brooklyn Company, the parties of the third part, each hereby agrees that no more than a single fare of five (5) cents shall be charged any passenger for a continuous passage from any point upon the railways owned, operated or controlled by such companies in the Borough of Queens, to any other point upon such railways in the Borough of Queens.

Section 4. This contract is also upon the further and express condition that the provisions of Article IV. of the Railroad Law, applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the company.

Section 5. The Transit Company, the Heights Company, and the Brooklyn Company, each promises, covenants and agrees on its part and behalf, to conform to, and abide by, and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the parties of the second and third parts by their officers, thereunto duly authorized, have caused their corporate names to be hereunto signed and their corporate seals to be hereunto affixed the day and year first above written.

Attest:

.....Secretary.

June 25, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On September 19, 1907, the Brooklyn, Queens County and Suburban Railroad Company applied to the Board of Estimate and Apportionment for a franchise to construct and maintain a double track surface railroad in Metropolitan avenue, from Dry Harbor road to Jamaica avenue, in the Borough of Queens. This application was the subject of a report by the Chief Engineer of the Board, with which was submitted a form of agreement for such franchise, which report was on December 13, 1907, referred to a committee consisting of the Comptroller, the President of the Board of Aldermen and the Corporation Counsel.

Your Committee has had a number of conferences with the officials of the Brooklyn, Queens County and Suburban Railroad Company, which company has made vigorous objection to many of the provisions of the proposed franchise. Under date of March 16, 1908, Mr. E. W. Winter, President of the Company, in response to a request for a statement as to the terms and conditions upon which his Company would accept a franchise and build the extension, has written the Committee that "The franchise for such extension would be accepted if granted without conditions other than those prescribed by the statutes. The present conditions and future prospects for traffic in that section are not such as to justify the construction and operation of this extension on terms less favorable than those provided by the law as it stands, nor can we at this time state definitely when construction can be undertaken if franchise were granted. This would be dependent upon limitations now applying more or less generally to all work involving large expenditures."

The owners of property in the neighborhood of the proposed extension have been most insistent in their requests and demands for the construction of this line, but it is quite evident that the railroad company is not anxious to build it, as in the communication which we have quoted the President of the Company declines to consider any terms or conditions except those prescribed by law.

After giving this matter careful consideration, we have concluded to recommend the grant to this railroad company, of a franchise based solely upon the provisions of the Railroad Law as to terms and conditions, expressly stipulating, however, that the road is to be finished and in operation by the 31st day of December, 1909, and in the event of the failure of the company to construct and operate this road by that date, the franchise is to become null and void. Further, we have insisted upon inserting in the franchise the usual clauses with regard to paving and notice required to be given through the CITY RECORD.

Many delegations of citizens and many property owners have urged the Committee to make the construction of this road possible on almost any conditions and we believe that by the grant of the franchise proposed, as set forth in the contract hereto annexed, which is satisfactory to the company, the rights of the City will be fully protected and we respectfully recommend that the franchise be granted on the terms proposed in the said contract hereto annexed, which has been approved as to form by the Corporation Counsel.

Respectfully,

H. A. METZ,

Comptroller;

P. F. McGOWAN,

President, Board of Aldermen;

F. K. PENDLETON,

Corporation Counsel.

The following was offered:

Whereas, The Brooklyn, Queens County and Suburban Railroad Company has, under date of September 19, 1907, made application to this Board for a grant of the right, privilege and franchise to construct, maintain and operate an extension to its existing street surface railway system upon and along Metropolitan avenue, from Dry Harbor road to Jamaica plank road, in the Borough of Queens; and

Whereas, Section 92 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on October 18, 1907, fixing the date for public hearing thereon as November 15, 1907, at which citizens were entitled to appear and be heard, and publication was had for at least fourteen (14) days in the "Brooklyn Daily Eagle" and the "Brooklyn Citizen," newspapers designated by the Mayor, and in the CITY RECORD for ten days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Brooklyn, Queens County and Suburban Railroad Company and the adequacy of the compensation proposed to be paid therefor; now therefore it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Brooklyn, Queens County and Suburban Railroad Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Brooklyn, Queens County and Suburban Railroad Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates, fares and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

BROOKLYN, QUEENS COUNTY AND SUBURBAN RAILROAD COMPANY.

Proposed Form of Contract.

This contract, made this day of 190 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board); and the Brooklyn, Queens County and Suburban Railroad Company, incorporated for the purpose of building, maintaining and operat-

ing a railroad (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railroad by the overhead electric system similar to that now used by the Company in the Borough of Queens, with the necessary wires and equipment, for the purpose of conveying persons only in the Borough of Queens, in The City of New York, upon the following routes:

Commencing at the intersection of Metropolitan avenue and Dry Harbor road, thence easterly in and upon Metropolitan avenue to a point where the said Metropolitan avenue intersects the Jamaica plank road, in the Village of Jamaica, together with the right to connect the aforesaid tracks with the existing tracks of the petitioner on Jamaica plank road.

The said route and connections hereby authorized are more particularly shown upon a map entitled: "Map showing the proposed extension in the routes of the Brooklyn, Queens County and Suburban Railroad, in the Borough of Queens, to accompany petition to the Board of Estimate and Apportionment, dated September 19, 1907," signed and approved by T. S. Williams, Vice-President, and W. S. Menden, Chief Engineer, which map is attached hereto, is made a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional switches, crossovers and spurs which are consistent with the foregoing description, and the other provisions of this franchise may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property, bounded on said streets and avenues, to the construction and operation of said railroad shall be obtained by the Company within six months of the signing of this contract by the Mayor and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained, the Company shall, within two months thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railroad ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate a double-track street surface railroad, as herein described, shall be held and enjoyed by the Company, its successors or assigns, for the term of twenty-five (25) years from the date when this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of twenty-five (25) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other, to enter into a written agreement with each other fixing the rate of such compensation and such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the company, each paying one-half thereof.

Third—The Company, its successors or assigns, shall pay to the City for its privilege during the first five years after the commencement of operation of the extension herein provided for, annually on November 1, 3 per cent. of its gross receipts for and during the year ending September 30 next preceding, and after the expiration of such five years make a like annual payment into the treasury of the City of 5 per cent. of its gross receipts. The company shall pay such percentages only upon such portion of its gross receipts as shall bear the same proportion to its whole gross receipts as the length of such extension shall bear to the entire length of its line.

Fourth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the company before such termination, the tracks and equipment of the company constructed pursuant to this contract within the streets and highways of the City shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this grant as above the City (by the Board) shall so order by resolution, the company shall, upon thirty (30) days' notice in writing from the Board, remove any and all of its tracks, and other equipment constructed pursuant to this contract, and the same streets and highways shall be restored to their original condition at the sole cost and expense of the company.

Fifth—The annual charges or payment shall continue throughout the whole term of the contract hereby granted, whether original or renewal, notwithstanding any clause

in any statute or in the Charter of any other railroad company providing for payments for railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets, avenues or highways, and the right to make the requisite and necessary connections with the tracks of the company, its successors or assigns, which shall be constructed under this contract.

Eighth—The railway to be constructed under this contract may be operated by overhead electric power substantially similar to the overhead electric traction now in use by street surface railways in the Borough of Queens, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by owners of property, in accordance with the provisions of law, and by the Public Service Commission of the First District of the State of New York.

Ninth—The Company shall begin construction of the extension herein authorized within the time prescribed by the Railroad Law of the State of New York, and such extension shall be completed and shall be in operation on or before December 31, 1909; otherwise this grant shall cease and determine.

Tenth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided in the Charter of the City; and the Company agrees to make application to the Commissioner of Water Supply, Gas and Electricity for permission to string and maintain its electrical conductors in the streets covered by this grant.

Eleventh—The said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of the Company shall be maintained in good condition throughout the term of this contract.

The Company shall attach to each car run over the said railway proper fenders and wheel-guards in conformity with such laws and ordinances as are now in force, or may hereafter, during the terms of this contract, be enacted or adopted by the State or City authorities.

Thirteenth—All cars which are operated on said railway shall be heated during the cold weather in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities.

Fourteenth—All cars operated on said railways shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by the Board.

Fifteenth—The Company so long as it shall continue to use any of its tracks in any street or highway covered by this grant, shall have and keep in permanent repair, that portion of such street or highway between its tracks and the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities and whenever required by them to do so and in such manner as they may prescribe. In case of neglect by the Company to make pavements or repairs after the expiration of thirty days' notice to do so, or within thirty days after the publication of such notice in the CITY RECORD, the local authorities may make the same at the expense of such corporation and such authorities may make such reasonable regulations and ordinances as to the rate of speed, mode of use of tracks and removal of ice and snow as the interest or convenience of the public may require.

Sixteenth—Any alteration which may be required to the sewerage or drainage system, or to any subsurface structures, pipes, conduits, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Seventeenth—Should the grades or lines of the streets in which franchises herein granted be changed at any time during the term of this contract, the Company shall, at its own expense, change its tracks to conform with such new grades and lines, and during the construction of any public improvement upon said street the Company shall take care of and protect the track at its own expense, all to be done subject to the direction of the President of the Borough of Queens.

Eighteenth—The Company shall at all times keep accurate books of account of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 of each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending September 30 next preceding, as he may prescribe. Such report shall contain a statement of the gross receipts from operation of the railway, together with such other information and in such detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Nineteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the railroad authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company, giving the Company notice and the right to intervene in any action or proceeding wherein such damages may be sought.

Twentieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall file with the Comptroller of The City of New York a bond in the sum of ten thousand dollars (\$10,000) with a surety or sureties to be approved by him, which bond shall be security for the perform-

ance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual percentages for the privilege hereby granted, the efficiency of the public service rendered, the repairs of the street pavement, the removal of snow and ice and the quality of construction of the railroad; and in case of default in the performance by the Company of such terms and conditions the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten days' notice in writing to the Company; or in case of failure to keep the said terms and conditions of this contract relating to the headway, heating and lighting of cars, fenders, wheel-guards and watering of street pavements, the Company shall pay a penalty of fifty dollars (\$50) per day for each day of violation, and the further sum of ten dollars (\$10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel-guards, in case of the violation of the provisions relating to those matters.

Twenty-first—No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways in which the company is authorized to operate.

Twenty-second—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing. The Company agrees that notice printed in the CITY RECORD shall constitute sufficient notice within the meaning of this contract.

Twenty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the board or other authorities, officer or officers.

Twenty-four—The contract is also upon the further and express condition that the provisions of Article IV. of the Railroad Law applicable thereto, and all laws or ordinances now in force, or which may be adopted affecting the streets and highways and the surface railroads operating in the City, not inconsistent with the terms and conditions hereinbefore fixed, shall be strictly complied with by the Company.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City has caused the corporate name of said city to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part by its officers, thereunto duly authorized, have caused their corporate names to be hereunto signed and their corporate seals to be hereunto affixed the day and year first above written.

THE CITY OF NEW YORK,

[CORPORATE SEAL.]

By.....Mayor.

Attest:

BROOKLYN, QUEENS COUNTY & SUBURBAN
RAILROAD COMPANY,

[SEAL.]

By.....President.

Attest:

.....Secretary.

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provision as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Brooklyn, Queens County and Suburban Railroad Company and the said form of proposed contract for the grant of such franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Friday, September 18, 1908, in the CITY RECORD and at least twice during the ten days immediately prior to September 18, 1908, in two daily newspapers to be designated by the Mayor therefor and published in The City of New York, at the expense of the Brooklyn, Queens County and Suburban Railroad Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment, before authorizing any contract for the grant of the franchise or right applied for by the Brooklyn, Queens County and Suburban Railroad Company, and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on Friday, September 18, 1908, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens and the Acting President of the Borough of Richmond—16.

The full minutes of the meeting of this day will appear in the CITY RECORD at a later date.

JOSEPH HAAG, Secretary.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:
From May 10 to May 16, inclusive, 36 operations were performed at Bellevue Hospital, 8 at Gouverneur Hospital, 20 at Harlem Hospital and 13 at Fordham Hospital, at all of which the attending Surgeons or their Assistants were present.

Investigation shows that no patients have been transferred to the Department of Public Charities in wheel chairs or wheel stretchers from the transfer office of Bellevue Hospital. Probably reference was made to the fact that patients are transferred on the transfer wagon who subsequently must be put on stretchers.

A committee of the Board of Managers of the Training School has carefully gone over the question of furnishing the new Nurses' Home at Bellevue Hospital, and it is estimated that about \$64,000 will be required for the furnishing. As there is a balance available of this appropriation (\$112,594) the same proceeding might be followed in this instance as was done in Pavilions A and B, and authority obtained to use the appropriation for the construction and equipment of the training school.

Messrs. Siebrecht & Son, contractors for laying out the grounds at Harlem and Fordham Hospitals, report that it is impossible to get 39 Euonymus Alatus for Fordham Hospital, and 28 of the same shrub for Harlem Hospital, and ask if some other shrub may be substituted. Information might be obtained from Mr. Barta as to what other shrub he would recommend.

Fourteen men are engaged in painting the ferryboat to be used for the care of tuberculosis patients, and it is hoped that in about two weeks the work will be completed. Authority is requested to expend about \$300 for plumbing work on this boat.

It is recommended that the salary of a Hospital Helper, who has served in Bellevue Hospital thirteen months, be increased from \$20 to \$25 a month in accordance with the rule.

On motion, duly seconded, it was
Resolved, That the Board of Estimate and Apportionment be requested to amend the resolution of June 22, 1906, providing for an issue of Corporate Stock to the amount of \$628,000 for the erection and completion of the Bellevue Hospital Training School for Women Nurses so that it will read "for the erection, completion and equipment," thus making the unexpended balance of the original appropriation available for the equipment of the building.

On motion, duly seconded, it was
Resolved, That the General Medical Superintendent communicate with Mr. D. Barta, Civil and Landscape Engineer, regarding the matter of substituting another shrub for the Euonymus Alatus in the grounds of Harlem and Fordham Hospitals.

On motion, duly seconded, it was
Resolved, That authority be given the General Medical Superintendent to expend \$300 for plumbing work on the ferryboat used for tubercular patients.

On motion, duly seconded, it was
Resolved, That the salary of the Hospital Helper, who has served in the night reception office for thirteen months, be increased from \$20 to \$25.

Reports of Committees.

Dr. Brannan reported that, in view of the probable early moving of the New York Dispensary to a locality adjacent to Gouverneur Hospital and its willingness to take Gouverneur Hospital's overflow patients, it would seem best not to take any steps at present toward the enlargement of the out patient department facilities at Gouverneur Hospital.

Mr. Robbins of the Committee on Rules, to which had been referred the subject of the duties of the Assistant Superintendent of Bellevue Hospital, reported progress.

Mr. Barry of the Building Committee recommended that no action be taken in the matter of the final payment to Messrs. Kelly & Kelley on the contract for the grounds at Harlem Hospital until another inspection is made of the grounds on Wednesday, May 20, at 9 o'clock.

The Building Committee, to which had been referred the plans for the boiler house and coaling station of the new Bellevue Hospital, reported upon the plans, and, after conference with representatives of the architects and the adoption of several changes, it was on motion, duly seconded,

Resolved, To apply to the Board of Estimate and Apportionment for an appropriation of five hundred thousand dollars for the completion of the work.

Communications.

A communication dated May 16, was received from Mr. John Fury, asking for payment on the contract for the coal vault at Gouverneur Hospital. On motion, duly seconded and carried, this matter was referred to the Building Committee for recommendation and report.

A communication dated May 14 was received from Mr. Louis C. Frees, General Inspector of Construction, asking to be assigned additional duties similar to those of a Chief Engineer. On motion, duly seconded and carried, consideration of this matter was deferred.

A communication dated May 18 was received from Mr. Louis C. Frees, General Inspector of Construction, regarding the delay in supplying sinks under the plumbing contract for Pavilions A and B. On motion, duly seconded and carried, this matter was referred to the architect for attention.

A communication dated May 18 was received from Mr. Louis C. Frees, Inspector of Construction, regarding the specifications for the boiler house and coaling station of the new Bellevue Hospital. On motion, duly seconded and carried, this communication was placed on file.

A communication dated May 11 was received from Messrs. Parish & Schroeder with reports from Mr. William E. Barton, Inspector of Construction, on the work of the Training School for Women Nurses for the weeks ending May 2 and May 9. On motion, duly seconded and carried, this communication and reports were placed on file.

A notice of a lien was received from the John Pirkel Iron Works for labor performed and materials furnished to John F. Cockerill for the Pathological Laboratory and Dormitory of the new Bellevue Hospital. On motion, duly seconded and carried, this notice was referred to the architects.

A communication dated May 13 was received from Messrs. Parish & Schroeder informing the Board of Trustees that the John H. Parker Company has been notified regarding the date of the expiration of the contract for the training school for women nurses and the penalty for non-compliance with the terms of the contract. On motion, duly seconded and carried, this communication was placed on file.

An application for a leave of absence of three months was received from Dr. Frank S. Fielder, Physician to Out Patients at Bellevue Hospital. On motion, duly seconded and carried, leave of absence was granted Dr. Fielder for three months beginning on the 30th of June.

A communication dated May 18 was received from Miss Ruth Morgan in charge of the welfare work for convalescent patients asking if an exception may be made

to the rule of collecting \$1.50 a day from the \$154 possessed by patient Albert Layer in Ward 4, the money having been given to the patient by his brother and having been intended for paying his traveling expenses when he recovers.

On motion, duly seconded, it was

Resolved, That the rule of charging \$1.50 a day for the care and treatment of Albert Layer in Ward 4 be waived, it having been explained to the Board of Trustees that the patient received the money from his brother for the purpose of defraying his traveling expenses upon his discharge from the hospital.

A communication dated May 18 was received from Mr. J. P. Fawcett, applying for appointment as Assistant Superintendent or Bookkeeper. On motion, duly seconded and carried, this communication was placed on file.

The minutes of the Medical Board of Bellevue Hospital for the meeting held on May 1 were received from Dr. C. J. Strong, Secretary, and, on motion, duly seconded, it was

Resolved, That, upon the recommendation of the Medical Board, the following appointments be made to the House Staff of the First Division: R. P. Burke, July, 1908, surgical; R. P. Folsom, January, 1909, surgical; C. S. McLean, July, 1908, medical; G. A. Carlucci, July, 1908, surgical, one year; W. W. Mitchell, January, 1909, medical; M. G. Sturtevant, July, 1908, medical, one year; H. H. Yerrington, January, 1909, medical, one year.

On motion, duly seconded, it was further

Resolved, That the resignation of Dr. Hughes Dayton, Physician to Out Patients, Second Division, be accepted, dating from May 5; that Dr. H. H. Pelton be appointed as Adjunct Assistant Attending Physician to the Second Division, special tuberculosis service; that Dr. J. Burton Lee be appointed as Surgeon to Out Patients and Adjunct Assistant Attending Surgeon, Second Division; and that Dr. David J. Kaliski be appointed as Assistant Physician to Out Patients.

The minutes of the Executive Committee of the Medical Board of Bellevue Hospital for the meeting held on May 13 were received from Dr. J. B. Bissell, the Secretary.

On motion, duly seconded, it was

Resolved, To accept, upon the recommendation of the Executive Committee, the resignation of Dr. John H. P. Hodgson, Physician to Out Patients, Second Division, and to appoint the following: Dr. W. Ross Bustard, Assistant Genito-urinary Surgeon to Out Patients, Fourth Division; and Dr. Sarverio Agueli, Assistant Physician to Out Patients, children, Fourth Division. The nomination of Dr. Isidor N. Kahn, as Assistant Physician to Out Patients, Third Division, was referred to Dr. Le Fevre of the Conference Committee for approval.

The minutes of the Medical Board of Gouverneur Hospital for the meeting held on May 1 were received from Dr. J. H. Huddleston, the Secretary.

On motion, duly seconded, it was

Resolved, That, upon the recommendation of the Medical Board, the following appointments be made to the house staff: Dr. H. Wolfer, July, medical; F. A. Turner, January, surgical; H. S. Weigle, July, surgical; T. H. Russell, January, pathological; E. C. Axtel, July, pathological; and J. H. Wilson, July, one year service.

The minutes of the Medical Board of Harlem Hospital for the meeting held on April 29 were received from Dr. Irving S. Haynes, Secretary, and were, on motion, duly seconded and carried, placed on file.

The minutes of the Medical Board of Fordham Hospital for the meeting held on May 2 were received from Dr. William P. Healy, Secretary.

On motion, duly seconded, it was

Resolved, That, upon the recommendation of the Medical Board, the following appointments be made to the House Staff: S. M. Moorman, Le Roy B. Vail, William Walker, George D. Pace, John E. Black, J. Kent Worthington and William Blake Gibb, alternates.

New Business.

On motion, duly seconded, it was

Resolved, That notice be sent to the architects to proceed with the plans for the next section of the new Bellevue Hospital, the laundry, etc., and submit them to the Board of Trustees as soon as possible for approval.

On motion, the Board adjourned.

A. M. ROBBINS, Acting Secretary.

BOROUGH OF RICHMOND.

BUREAU OF BUILDINGS.

I submit herewith a report of the operations of the Bureau of Buildings, Borough of Richmond, for the week ending June 13, 1908:

DEPARTMENT OF FINANCE.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE BOARD OF Education, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale all the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired by it for school purposes, in the

Borough of Brooklyn.

Being all those buildings, parts of buildings, etc., situated on the proposed school site on Rockaway avenue and Sumpter street, adjoining Public School 73, Borough of Brooklyn, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution adopted by the Commissioners of the Sinking Fund, at a meeting held June 11, 1908, the sale of the above described buildings and appurtenances thereto will be held, under the direction of the Comptroller,

FRIDAY, JULY 17, 1908.

at 10.30 a. m. on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions, being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in appliances used in the removal of said buildings.

The Comptroller of The City of New York reserves the right on the day of sale to with-

draw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ,
Comptroller.

Department of Finance, Comptroller's Office,
June 29, 1908.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Queens, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale all the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired by it for street opening purposes in the

Borough of Queens.

Being all buildings, parts of buildings, etc., situated on Washington avenue, from Vernon avenue to the East River, First Ward, Borough of Queens, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution adopted by the Commissioners of the Sinking Fund, at a meeting held May 27, 1908, the sale of the above-described buildings and appurtenances thereto will be held, under the direction of the Comptroller, on

THURSDAY, JULY 16, 1908,

at 2 p. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in appliances used in the removal of said buildings.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ,
Comptroller.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale all the buildings, parts of buildings, etc., standing within the lines of property owned by The City of New York, acquired by it for street opening purposes in the

Borough of Brooklyn.

Being all those buildings, parts of buildings, etc., upon Seventy-first street, extending from Sixth to Seventh avenue, in the Thirty-first Ward, Borough of Brooklyn, and which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution adopted by the Commissioners of the Sinking Fund at a meeting held May 27, 1908, the sale of the above-described buildings and appurtenances thereto will be held under the direction of the Comptroller,

FRIDAY, JULY 17, 1908,

at 11.30 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also at the time of sale give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars, the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in appliances used in the removal of said buildings.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

H. A. METZ,
Comptroller.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

TWENTY-FOURTH WARD, SECTION 5.

ROGERS AVENUE—PAVING, between Park place and Montgomery street. Area of assessment: Both sides of Rogers avenue, between Park place and Montgomery street, and to the extent of half the block at the intersecting streets and avenues.

TWENTY-NINTH WARD, SECTION 16.

GREENWOOD AVENUE—PAVING, between Coney Island avenue and Gravesend avenue. Area of assessment: Both sides of Greenwood avenue, from Coney Island avenue to Gravesend avenue, and to the extent of half the block at the intersecting streets and avenues.

EAST FOURTH STREET—PAVING, between Vanderbilt street and Fort Hamilton avenue. Area of assessment: Both sides of East Fourth street, from Vanderbilt street to Fort Hamilton avenue, and to the extent of half the block at the intersecting streets and avenues.

THIRTIETH WARD, SECTION 17.

FORTY-FIRST STREET—PAVING, between Thirtieth and New Utrecht avenues. Area of assessment: Both sides of Forty-first street, from Thirtieth avenue to New Utrecht avenue, and to the extent of half the block at the intersecting streets and avenues.

THIRTY-SECOND WARD, SECTION 16.

EAST TWENTY-NINTH STREET—PAVING, between Farragut and Glenwood roads. Area of assessment: Both sides of East Twenty-ninth street, from Farragut to Glenwood road, and to the extent of half the block at the intersecting streets and avenues.

—that the same were confirmed by the Board of Revision of Assessments June 25, 1908, and entered June 25, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part: "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics Bank Building, Court and Montague streets, Borough of Brooklyn, between the

hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 24, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when such assessments became liens to the date of payment.

HERMAN A. METZ,
Comptroller.
City of New York, June 25, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWENTIETH WARD, SECTION 3.

ALTERATION AND IMPROVEMENT TO SEWER IN ELEVENTH AVENUE, east side, between Thirty-fourth and Thirty-sixth streets, and in **THIRTY-FIFTH STREET**, between Tenth and Eleventh avenues. Area of assessment: East side of Eleventh avenue, between Thirty-fourth and Thirty-sixth streets; both sides of Thirty-fifth street, between Tenth and Eleventh avenues; north side of Thirty-fourth street, between Tenth and Eleventh avenues, and west side of Tenth avenue, between Thirty-fourth and Thirty-fifth streets.

—that the same was confirmed by the Board of Revision of Assessments on June 25, 1908, and entered June 25, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 24, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

TWENTY-SIXTH WARD, SECTION 13.

NORWOOD AVENUE—PAVING, between Atlantic and Jamaica avenues. Area of assessment: Both sides of Norwood avenue, from Atlantic to Jamaica avenue, and to the extent of half the block at the intersecting streets and avenues.

HALE AVENUE—SEWER, from Jamaica avenue to Force Tube avenue, and **OUTLET SEWER IN ETNA STREET**, from Hale avenue to Norwood avenue. Area of assessment: Both sides of Hale avenue, from Jamaica avenue to Force Tube avenue; both sides of Etna street, from Force Tube avenue to Norwood avenue, and south side of Jamaica avenue, from Force Tube avenue to Norwood avenue.

SEWER BASINS at southwest corner of FOUNTAIN AND ATLANTIC AVENUES; at northeast corner of FOUNTAIN AVENUE AND MAGENTA STREET; in FOUNTAIN AVENUE, opposite Magenta street, and northwest corner of BELMONT AND FOUNTAIN AVENUES. Area of assessment: West side of Fountain avenue, from Liberty to Atlantic avenue; south side of Atlantic avenue, from Logan street to Fountain avenue; east side of Fountain avenue, from Magenta street to Atlantic avenue, and west side of Fountain avenue, between Belmont and Pitkin avenues.

TWENTY-EIGHTH WARD, SECTION 11.

ST. NICHOLAS AVENUE AND HARMON STREET—SEWER BASIN, at the north corner. Area of assessment: Northwest side of Harmon street, from Cypress to St. Nicholas avenue.

DECATUR STREET—PAVING, between Hamburg and Knickerbocker avenues. Area of assessment: Both sides of Decatur street, from Hamburg to Knickerbocker avenue, and to the extent of half the block at the intersecting streets and avenues.

TWENTY-NINTH WARD, SECTION 16.

EAST THIRD STREET—PAVING, from Ditmas avenue to a point about 120 feet north of Avenue F. Area of assessment: Both sides of East Third street, from Ditmas avenue to a point about 120 feet north of Avenue F, and to the extent of half the block at the intersecting streets and avenues.

THIRTIETH WARD, SECTION 18.

BAY RIDGE PARKWAY—PAVING, between Shore road and First avenue, and between Second and Seventh avenues. Area of assessment: Both sides of Bay Ridge parkway, from Shore road to First avenue, and from Second to Seventh avenue, and to the extent of half the block at the intersecting streets and avenues.

BAY RIDGE PARKWAY—PAVING, from First to Second avenue. Area of assessment: Both sides of Bay Ridge parkway, from First to Second avenue.

THIRTY-FIRST WARD, SECTION 22.

EAST TWENTY-FIRST STREET (Kenmore Place)—SEWER, from Emmons avenue to the end of existing sewer north of Emmons avenue. Area of assessment: Blocks bounded by Voorhees avenue, Emmons avenue, East Twenty-second street and Ocean avenue.

—that the same were confirmed by the Board of Assessors June 23, 1908, and entered June 23, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

ments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part: "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 22, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when such assessments became liens to the date of payment.

HERMAN A. METZ,
Comptroller.

City of New York, June 23, 1908.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of the assessments for OPENING AND ACQUIRING TITLE to the following named streets in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 9.

CANAL STREET WEST—OPENING, from East One Hundred and Thirty-fifth street to East One Hundred and Thirty-eighth street. Confirmed May 22, 1908; entered June 20, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the easterly United States pierhead and bulkhead line of the Harlem River and the westerly property line of the New York and Harlem River Railroad; running thence northeasterly along said property line of the New York and Harlem River Railroad to its intersection with the easterly line of Mott avenue; thence northerly along said easterly line of Mott avenue to its intersection with southerly line of East One Hundred and Forty-fourth street; thence easterly along said last-mentioned line to its intersection with the westerly line of Morris avenue; thence southerly along said westerly line of Morris avenue to its intersection with the westerly line of Third avenue; thence again southerly along said westerly line of Third avenue to its intersection with the easterly pierhead and bulkhead line of the Harlem River; thence northerly along said last-mentioned pierhead and bulkhead line to the point or place of beginning.

TWENTY-THIRD WARD, SECTION 10.

BECK STREET—OPENING, from Longwood avenue to Intervale avenue. Confirmed May 27, 1908; entered June 20, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant one hundred feet easterly from the easterly line of Beck street with a line parallel to and distant one hundred feet southerly from the southerly line of East One Hundred and Fifty-sixth street; thence westerly along said last-mentioned parallel line to its intersection with a line parallel to and distant one hundred feet northeasterly from the easterly line of Intervale avenue; thence southerly along said last-mentioned parallel line to its intersection with a line parallel to and distant one hundred feet easterly from the easterly line of Beck street; thence southerly along said last-mentioned parallel line to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 19, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of the assessments for OPENING AND ACQUIRING TITLE to the following named avenue and street in the BOROUGH OF QUEENS:

FIRST WARD.

DITMARS AVENUE—OPENING, from Steinway avenue easterly to Old Bowers Bay road. Confirmed May 21, 1908; entered June 19, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the centre line of Old Bowers Bay road with a line parallel to and 100 feet southwesterly from the southwesterly line of Ditmars avenue; running thence northwesterly along said parallel line to its intersection with the southeasterly line of Steinway avenue; thence northeasterly along said southeasterly line to its intersection with a line parallel to and 100 feet northeasterly from the northeasterly line of Ditmars avenue; thence southeasterly along said parallel line to its intersection with the centre line of Old Bowers Bay road; thence southwesterly along said centre line to the point or place of beginning.

HAMILTON STREET—OPENING, from Sanford street to Vernon avenue. Confirmed March 30, 1908; entered June 19, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southeasterly line of Vernon avenue with the middle line of the blocks between Hamilton street and Hancock street; running thence southerly along said middle line, parallel to Hamilton street to its intersection with the northerly line of Nott avenue; thence westerly along said northerly line of Nott avenue and northwesterly along the northeasterly line of Vernon avenue to its intersection with the middle line of the blocks between Hamilton street and Vernon avenue; thence northerly along said middle line to its intersection with the southeasterly line of Vernon avenue; thence northeasterly along said southeasterly line to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1016 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at the Hackett Building, No. 51 Jackson avenue, Long Island City, Borough of Queens, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 18, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of the assessments for OPENING AND ACQUIRING TITLE to the following named avenues in the BOROUGH OF RICHMOND:

THIRD WARD.

UNION AVENUE—OPENING, from Richmond terrace to the Pier and Bulkhead line. Confirmed April 16, 1908; entered June 19, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet northerly from the northerly line of Richmond terrace with the northerly prolongation of the westerly line of Van Name avenue; running thence southerly along said northerly prolongation and westerly line of Van Name avenue to a point 150 feet northerly of the northerly line of the Staten Island Rapid Transit Railroad Company; thence westerly at right angles to Van Name avenue to the westerly line of Van Pelt avenue; thence southerly along the westerly line of Van Pelt avenue to the lands of the Staten Island Rapid Transit Railroad Company; thence westerly following the line of the said railroad to a line parallel to and 100 feet westerly of the westerly line of Bush avenue; thence northerly along said parallel line and said line prolonged to its intersection with a line parallel to and 100 feet northerly of the northerly line of Richmond terrace; thence easterly along said parallel line to the point or place of beginning.

LAFAYETTE AVENUE—OPENING, from Hatfield avenue to Blackford avenue. Confirmed May 22, 1908; entered June 19, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point in the northerly line of Richmond terrace where the northerly prolongation of a line parallel to and distant 100 feet westerly from the westerly line of Lafayette avenue intersects the same; running thence northerly along a line at right angles with said Richmond terrace to its intersection with a line parallel to and distant 100 feet northerly from the said northerly line of Richmond terrace; running thence easterly along said parallel line to its intersection with a line drawn at right angles to the northerly line of Richmond terrace from a point where a line parallel to and distant 100 feet easterly from the easterly line of Lafayette avenue intersects the same; running thence southerly along said right angular line to the northerly line of Richmond terrace; thence southerly along the northerly prolongation and line parallel to and distant 100 feet easterly from the easterly line of Lafayette avenue to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of Hatfield avenue; thence easterly along said parallel line to the middle line of the block between Sharpe avenue and Elm street; thence southerly along said middle line and its southerly prolongation to the middle line of Richmond avenue; thence southerly along said middle line between Lafayette avenue and Richmond avenue and its prolongation southwardly to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of Blackford avenue; thence westerly along said parallel line to its intersection with the southerly prolongation of a line drawn midway between the westerly line of Lafayette avenue and the easterly boundary line of the lots abutting on Nicholas avenue; thence northerly along said prolongation and last-mentioned line to its intersection to a line parallel to and distant 100 feet southerly from the southerly line of Hatfield place; thence westerly along said parallel line to its intersection with the southerly prolongation of a line parallel to and distant 100 feet westerly from the westerly line of Brook avenue; thence northerly along said prolongation and parallel line and its northerly prolongation to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of Charles avenue; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Woodland place; thence northerly along said parallel line and its northerly prolongation to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of Hatfield avenue; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Lafayette avenue; thence northerly along said parallel line and its northerly prolongation to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Borough Hall, St. George, Borough of Richmond, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 18, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

HERMAN A. METZ,
Comptroller.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following named avenue in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11 AND ANNEXED TERRITORY.

TREMONT AVENUE—OPENING, from Bronx River to Eastern boulevard, and to the public place at the intersection of Tremont avenue and Westchester avenue. Confirmed May 22, 1908. Entered June 18, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet westerly from the westerly line of Webster avenue with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly side of Tremont avenue; running thence easterly along the last mentioned westerly prolongation and parallel line and its continuation easterly parallel to and distant 100 feet northerly from the northerly side of East One Hundred and Seventy-seventh street to its intersection with a line parallel to and distant 100 feet westerly from the westerly side of Boston road; thence northerly along the last mentioned parallel line to its intersection with the westerly prolongation of a line parallel to and distant 1,500 feet northerly from the northerly side of that part of Tremont avenue extending easterly between the Bronx River and the New York, New Haven and Hartford Railroad; thence easterly along the last mentioned westerly prolongation and parallel line to its intersection with an arc of a circle having a radius of 1,725 feet and whose centre is the centre of the circular public place at the intersection of Westchester avenue and Tremont avenue; thence easterly along the said arc of a circle to its intersection with a line parallel to and distant 1,500 feet northerly from the northerly side

of Tremont avenue; thence easterly along the last mentioned parallel line and its continuation easterly parallel to and distant 1,500 feet northerly from the northerly side of the proposed extension of Tremont avenue and its prolongation easterly to the westerly side of Long Island Sound; thence southerly and easterly and southwesterly along the said westerly side of Long Island Sound to its intersection with the easterly prolongation of a line parallel to and distant 1,500 feet southerly from the southerly side of the proposed extension of Tremont avenue; thence westerly along the last mentioned easterly prolongation and parallel line and its continuation westwardly parallel to and distant 1,500 feet southerly from the southerly side of Tremont avenue to its intersection with an arc of a circle having a radius of 1,725 feet and whose centre is the centre of the circular public place at the intersection of Westchester avenue and Tremont avenue; thence westerly along the said arc of the circle to its intersection with a line parallel to and distant 1,500 feet southerly from the southerly side of Tremont avenue; thence westerly along the last-mentioned parallel line and its prolongation westwardly to its intersection with a line parallel to and distant 100 feet westerly from the westerly side of Boston road; thence northerly and northeasterly along the last-mentioned parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly side of East One Hundred and Seventy-seventh street; thence westerly along the last-mentioned parallel line and its continuation westwardly parallel to and distant 100 feet southerly from the southerly side of Tremont avenue to its intersection with a line parallel to and distant 100 feet westerly from the westerly side of Webster avenue; thence northerly along the last-mentioned parallel line to the point or place of beginning.

The above entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 17, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became a lien to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, Department of Finance,
Comptroller's Office, June 18, 1908.

j20,jy3

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWENTIETH WARD, SECTION 3.

WEST FORTIETH STREET—RESTORING ASPHALT PAVEMENT in front of premises Nos. 252 to 262. Area of assessment: South side of Fortieth street, 140 feet east of Eighth avenue, and known as Lot No. 69, in Block 789.

The above assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter.

—that the same was entered on June 17, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 17, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, Department of Finance,
Comptroller's Office, June 17, 1908.

j20,jy3

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

TWENTY-NINTH WARD, SECTION 16.

EAST FIFTH STREET—PAVING, between Fort Hamilton avenue and Albemarle road. Area of assessment: Both sides of East Fifth street, from Fort Hamilton avenue to Albemarle road, and to the extent of half the block at the intersecting streets.

THIRTY-FIRST WARD, SECTION 21.

WAREHOUSE AVENUE—PAVING, between Neptune and Surf avenues. Area of assessment: Both sides of Warehouse avenue, from Neptune to Surf avenue, and to the extent of half the block at the intersecting streets.

—that the same were confirmed by the Board of Revision of Assessments June 18, 1908, and entered June 18, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 17, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when such assessments became liens to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, June 18, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

BROADWAY—SEWER, west side, between One Hundred and Seventy-seventh and One Hundred and Eighty-first streets. Area of assessment: Blocks bounded by the north side of One Hundred and Seventy-third street and the south side of One Hundred and Eighty-first street, west side of Broadway, and the east side of Fort Washington avenue.

—that the same was confirmed by the Board of Revision of Assessments on June 18, 1908, and entered June 18, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 17, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

SECOND WARD, SECTION 1.

FLETCHER STREET—SEWER, between South and Front streets. Area of assessment: Both sides of Fletcher street, from South street to Front street.

NINETEENTH WARD, SECTION 5.

EAST SEVENTY-FIFTH STREET—PAVING, REREGULATING, REGRADING, CURBING AND RECURBING, FLAGGING AND REFLAGGING, from the west line of Exterior street to a point 160.86 feet westerly therefrom. Area of assessment: Both sides of Seventy-fifth street, from Avenue A to Exterior street, and to the extent of half the block at the intersecting and terminating avenues.

TWELFTH WARD, SECTION 7.

WEST NINETY-NINTH STREET—FENCING AND FILLING A LOT in front of No. 302. Area of assessment: Commencing at a point 80 feet west of West End avenue and extending westerly about 20 feet, known as street No. 302 West Ninety-ninth street. Lot No. 26. Block 1888.

EDGEcombe AVENUE—PAVING, from the north side of One Hundred and Forty-fifth street to the north side of One Hundred and Fiftieth street. Area of assessment: Both sides of Edgecombe avenue, from One Hundred and Forty-fifth street to the north side of One Hundred and Fiftieth street, and to the extent of half the block at the intersecting streets.

EDGEcombe AVENUE—PAVING, CURBING AND RECURBING, from One Hundred and Fiftieth to One Hundred and Fifty-fifth street. Area of assessment: Both sides of Edgecombe avenue, from One Hundred and Fiftieth to One Hundred and Fifty-fifth street, and to the extent of half the block at the intersecting and terminating streets.

TWELFTH WARD, SECTION 8.

ONE HUNDRED AND FIFTY-EIGHTH STREET—SEWER, between Edgecombe road and St. Nicholas avenue. Area of assessment: Both sides of One Hundred and Fifty-eighth street, from St. Nicholas avenue to Edgecombe road, and the west side of Edgecombe road, from One Hundred and Fifty-eighth to One Hundred and Fifty-ninth street.

WEST ONE HUNDRED AND SEVENTY-FOURTH STREET—REGULATING, GRADING, CURBING, RECURBING, FLAGGING AND REFLAGGING, between Broadway and Amsterdam avenue. Area of assessment: Both sides of One Hundred and Seventy-fourth street, from Broadway to Amsterdam avenue, and to the extent of half the block at the intersecting and terminating avenues.

TWO HUNDRED AND FOURTEENTH STREET—SEWER, between Tenth avenue and Broadway. Area of assessment: Both sides of Two Hundred and Fourteenth street, from Tenth avenue to Broadway.

TWO HUNDRED AND FIFTEENTH STREET—SEWER, between the Harlem River and Ninth avenue. Area of assessment: Both sides of Two Hundred and Fifteenth street, from Ninth avenue to the Harlem River.

—that the same were confirmed by the Board of Assessors on June 16, 1908, and entered June 16, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 8, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, Department of Finance, Comptroller's Office, June 16, 1908.

j18,jy1

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessments for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

FIFTH AVENUE—GRADING, PAVING AND GUTTERING, from Eighty-sixth street to Fourth avenue. Area of assessment: Both sides of Fifth avenue, from Eighty-sixth street to Fourth avenue, and extending back 100 feet from Fifth avenue.

FRANKLIN AVENUE—GRADING, PAVING AND GUTTERING, from Cropsy avenue to Warehouse avenue. Area of assessment: Both sides of Franklin avenue, from Cropsy avenue to Warehouse avenue, and extending back 100 feet from Franklin avenue.

NEW UTRECHT AVENUE—GRADING, PAVING AND CURBING, from old City line to Sixty-seventh street. Area of assessment: Both sides of New Utrecht avenue, from old City line to Sixty-seventh street, and extending back 100 feet from New Utrecht avenue.

NINETY-SECOND STREET—GRADING, PAVING AND GUTTERING, from Seventh avenue to Shore road. Area of assessment: Both sides of Ninety-second street, from Seventh avenue to Shore road, and extending back 100 feet from Ninety-second street.

NINETY-FIFTH STREET—GRADING, PAVING AND GUTTERING, from Second avenue to Fourth avenue. Area of assessment: Both sides of Ninety-fifth street, from Second avenue to Fourth avenue, and extending back 100 feet from Ninety-fifth street.

SECOND AVENUE—GRADING, PAVING AND GUTTERING, from Sixty-fifth street to Ninety-second street. Area of assessment: Both sides of Second avenue, from Sixty-fifth street to Ninety-second street, and extending back 100 feet from Second avenue.

SECOND AVENUE—GRADING, PAVING AND GUTTERING, from Ninety-second street to Shore road. Area of assessment: Both sides of Second avenue, from Ninety-second street to Shore road, and extending back 100 feet from Second avenue.

SIXTIETH STREET—GRADING, PAVING AND GUTTERING, from Fourth avenue to Twenty-second avenue. Area of assessment: Both sides of Sixtieth street, from Fourth avenue to Twenty-second avenue, and extending back 100 feet from Sixtieth street.

SIXTY-SEVENTH STREET—PAVING AND GUTTERING, from Fourth avenue to Fifth avenue. Area of assessment: Both sides of Sixty-seventh street, from Fourth avenue to Fifth avenue, and extending back 100 feet from Sixty-seventh street.

SIXTY-SEVENTH STREET—PAVING AND GUTTERING, from New Utrecht avenue to Eighteenth avenue. Area of assessment: Both sides of Sixty-seventh street, from New Utrecht avenue to Eighteenth avenue, and extending back 100 feet from Sixty-seventh street.

SEVENTIETH STREET—PAVING AND GUTTERING, from Fort Hamilton avenue to Tenth avenue. Area of assessment: Both sides of Seventieth street, from Fort Hamilton avenue to Tenth avenue, and extending back 100 feet from Seventieth street.

SEVENTY-NINTH STREET—GRADING, PAVING AND GUTTERING, from Eighteenth avenue to Fort Hamilton avenue. Area of assessment: Both sides of Seventy-ninth street, from Eighteenth avenue to Fort Hamilton avenue, and extending back 100 feet from Seventy-ninth street.

SEVENTY-NINTH STREET—PAVING AND GUTTERING, from Fort Hamilton avenue to Shore road. Area of assessment: Both sides of Seventy-ninth street, from Fort Hamilton avenue to Shore road, and extending back 100 feet from Seventy-ninth street.

TENTH AVENUE—PAVING AND GUTTERING, from Bay Ridge avenue to Seventy-fifth street. Area of assessment: Both sides of Tenth avenue, from Bay Ridge avenue to Seventy-fifth street, and extending back 100 feet from Tenth avenue.

TWENTY-FIRST AVENUE—GRADING, PAVING AND GUTTERING, from Eightieth street to Cropsy avenue. Area of assessment: Both sides of Twenty-first avenue, from Eightieth street to Cropsy avenue, and extending back 100 feet from Twenty-first avenue.

TWENTY-SECOND AVENUE—GRADING, PAVING AND GUTTERING, from Eightieth street to Cropsy avenue. Area of assessment: Both sides of Twenty-second avenue, from Eightieth street to Cropsy avenue, and extending back 100 feet from Twenty-second avenue.

WAREHOUSE AVENUE—GRADING, PAVING AND GUTTERING, from Franklin avenue to Seventh avenue. Area of assessment: Both sides of Warehouse avenue, from Franklin avenue to Seventh avenue, and extending back 100 feet from Warehouse avenue.

The Board of Assessors has levied and assessed the foregoing assessments in fifty equal annual installments.

The "Fifth Installment" in each case is now due and payable and hereafter for forty-five years an amount equal to one of the aforesaid annual installments with interest shall be assessed upon the lots or parcels of land benefited by said improvements. These assessments were confirmed by the Board of Revision of Assessments on June 30, 1904, and the "Fifth Installment" entered on June 12, 1908, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents.

Unless the amount of the fifth installment in each case shall be paid within sixty days after said date of entry, interest shall be charged, collected and received thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessments to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 11, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, Department of Finance, Comptroller's Office, June 12, 1908.

j18,jy1

INTEREST ON BONDS AND STOCK OF THE CITY OF NEW YORK.

THE INTEREST DUE ON JULY 1, 1908. on the Registered Bonds and Stock of The City of New York will be paid on that day by the Comptroller, at his office, Room 85, Stewart Building, corner of Broadway and Chambers street.

The transfer books thereof will be closed from June 15, 1908, to July 1, 1908.

The interest due on July 1, 1908, on the Coupon Bonds of the late City of Brooklyn will be paid on that day by the Nassau National Bank of Brooklyn, No. 26 Court street.

The interest due July 1, 1908, on the Coupon Bonds of Corporations in Queens and Richmond Counties will be received on that day for payment by the Comptroller at his office, Room 85, Stewart Building, corner of Broadway and Chambers street.

H. A. METZ,

Comptroller.

City of New York, Department of Finance, Comptroller's Office, June 1, 1908.

j2,jy1

DEPARTMENT OF FINANCE, CITY OF NEW YORK, December 14, 1906.

UNTIL FURTHER NOTICE AND UNLESS otherwise directed in any special case surety companies will be accepted as sufficient upon the following contracts to the amounts named:

Supplies of Any Description, including Gas and Electricity—

One company on a bond up to \$50,000.
Two companies on a bond up to \$125,000.
Three companies on a bond up to \$200,000.

Asphalt, Asphalt Block and Wood Block Pavements—

Two companies on a bond up to \$50,000.
Three companies on a bond up to \$125,000.

Regulating, Grading, Paving, Sewers, Water Mains, Dredging, Construction of Parks, Parkways, Etc.—

One company on a bond up to \$25,000.
Two companies on a bond up to \$75,000.
Three companies on a bond up to \$150,000.
Four companies on a bond up to \$250,000.

New Docks, Buildings, Bridges, Aqueducts, Tunnels, Etc.—

One company on a bond up to \$25,000.
Two companies on a bond up to \$75,000.
Three companies on a bond up to \$150,000.
Four companies on a bond up to \$250,000.

Repairs, Ventilating, Heating, Plumbing, Etc.—

One company on a bond up to \$25,000.
Two companies on a bond up to \$75,000.
Three companies on a bond up to \$150,000.
Four companies on a bond up to \$250,000.

On bonds regarded as hazardous risks additional surety will be required as the Comptroller sees fit in each instance.

All bonds exceeding \$250,000 will by that fact alone be considered hazardous risks, no matter what the nature of the work.

H. A. METZ,

Comptroller.

PUBLIC SERVICE COMMISSION—FIRST DISTRICT.

NOTICE TO PROPERTY OWNERS.

PURSUANT TO SECTION SIXTY-ONE (61) of the Railroad Law, the Public Service Commission for the First District hereby gives notice to The City of New York, to the Long Island Railroad Company, to the Brooklyn Union Elevated Railroad Company and to all owners of land adjoining the said railroad and that part of

AVENUE P

Borough of Brooklyn, City of New York, to be opened or extended from Ocean Avenue to Gravesend Avenue, that the Public Service Commission for the First District will hold a public hearing in its Hearing Room on the third floor of the Tribune Building, No. 154 Nassau Street, Borough of Manhattan, City of New York, on July 9th, 1908, at 2:30 o'clock in the afternoon, for the purpose of hearing an application made by The City of New York to the Public Service Commission to determine whether the proposed extension of Avenue P from Ocean Avenue to Gravesend Avenue shall pass over or under or at grade of the tracks of the Long Island Railroad Company and the tracks of the Brooklyn Union Elevated Railroad Company, and to determine the manner and method of extending Avenue P across the said railroad tracks, the grade or grades of the street and such other matters pertaining thereto as may be brought before the Commission under the provisions of the Railroad Law.

Dated, June 5th, 1908.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

by TRAVIS H. WHITNEY,

Secretary.

j25,jy8

THE SALE OF BUILDINGS AND APPURTENANCES THERETO, ON CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Public Service Commission for the First District, by authority of the powers vested in it by law, the Commissioners of the Sinking Fund having duly given their approval, will offer for sale at public auction the buildings now standing on certain parcels of property owned by The City of New York or on certain parcels in which The City of New York has acquired certain easements, which said parcels of property and said easements were acquired for Rapid Transit purposes in the City of New York, Borough of Manhattan, being so much of a three story brick building or buildings as stands on a part of two certain lots, known as Nos. 154 and 156 Elizabeth Street, said part of said lots being situated on the southeast corner of Delancey Street Extension and Elizabeth Street, being one hundred (100) feet four and seven-eighths (4 $\frac{7}{8}$) inches on the southerly side of Delancey Street Extension, eleven (11) feet six and one-eighth (6 $\frac{1}{8}$) inches on Elizabeth Street, eleven (11) feet nine and three-eighths (9 $\frac{3}{8}$) inches on the easterly side thereof and one hundred and one (101) feet on the southerly side thereof, be said several dimensions more or less; a three story brick building standing on part of a lot known as Lot No. 31, Nos. 170 and 170 $\frac{1}{2}$ Bowery, being approximately fifty-seven (57) feet two and seven-eighths (2 $\frac{7}{8}$) inches on the southerly side of Delancey Street, its most easterly point being forty-two (42) feet five and one-half (5 $\frac{1}{2}$) inches westerly from the intersection of the southerly side of Delancey Street Extension with the westerly side of the Bowery; running thence southerly from its most westerly point along the boundary line between lot No. 8 and lot No. 31, a distance of seven (7) feet nine and three-eighths (9 $\frac{3}{8}$) inches, and thence running easterly along the boundary line between lot No. 31 and lot No. 32, a distance of fifty six (56) feet seven and one quarter (7 $\frac{1}{4}$) inches to the point or place of beginning, be said several dimensions more or less; a four story brick building standing on lot known as Lot No. 32, No. 168 Bowery, situated on the southwesterly corner of the Bowery and Delancey Street Extension, being nineteen (19) feet five and one half (5 $\frac{1}{2}$) inches on the Bowery, twenty-five (25) feet in the rear, forty-two (42) feet five and one half (5 $\frac{1}{2}$) inches on the southerly side of Delancey Street Extension and fifty six (56) feet seven and one quarter (7 $\frac{1}{4}$) inches on said boundary line between Lot No. 31 and Lot No. 32, and being on the southerly side ninety eight (98) feet two and one half (2 $\frac{1}{2}$) inches, be said several dimensions more or less.

A three story brick building standing on lots known as Lot No. 29 and Lot No. 28, Nos. 174 and 176 Bowery, said lots being situated on the northeasterly corner of Delancey Street Extension and the Bowery, and being twenty-five (25) feet two and one quarter (2 1/4) inches on the Bowery eleven (11) feet seven and one half (7 1/2) inches on the easterly side, ninety-nine (99) feet seven (7) inches on the northerly side of Delancey Street Extension and one hundred (100) feet three and three eighths (3 3/8) inches on the northerly side; so much of a six-story building as stands on lots known as Lot No. 11 and Lot No. 12, known as Nos. 162 and 164 Elizabeth Street, described as follows: BEGINNING at the intersection of the northerly side of Delancey Street Extension and the easterly side of Elizabeth Street, running thence easterly along the northerly side of Delancey Street Extension, ninety-nine (99) feet five-eighths (5 5/8) inches, thence running northerly along the boundary line between Lot No. 11 and Lots Nos. 28 and 27, a distance of sixteen (16) feet seven and one half (7 1/2) inches; thence running westerly a distance of ninety-eight (98) feet two and one half (2 1/2) inches to a point on the easterly side of Elizabeth Street distant eleven (11) feet seven (7) inches northerly from the intersection of the easterly side of Elizabeth Street with the northerly side of Delancey Street; and thence running southerly along the easterly side of Elizabeth Street to the point or place of beginning, be said several dimensions more or less, said parcels of property being more particularly described on certain maps or plans and a memorandum on file in the office of the Register of the County of New York, which are marked as follows: "Public Service Commission for the First District, Chief Engineer's Office, Loop 9-0-4, Drawing No. 13, February 28, 1908. Henry B. Seaman, Chief Engineer."

Pursuant to a resolution of the Public Service Commission for the First District adopted on June 16, 1908, the sale of the above described buildings will be held by said Commission on July 16, 1908, at eleven o'clock A. M., upon the following terms and conditions and subject to the approval of the Commissioners of the Sinking Fund:—

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must also, at the time of the sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of Fifty Dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City of New York to the cost of completing any other work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises except old mortar or plaster only which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the direction of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidders' assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the personal property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., ripped up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Public Service Commission for the First District reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

New York, June 16, 1908.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

MUNICIPAL CIVIL SERVICE COMMISSION.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 299 BROADWAY, NEW YORK, June 25, 1908.

PUBLIC NOTICE IS HEREBY GIVEN OF the proposed amendment of the Municipal Civil Service Classification, as follows:

First—By including in the competitive class, Part IV. (The Fire Service), Grade 5, the following title:

"Deputy Chief of Department in Charge of the Boroughs of Brooklyn and Queens."

Second—By striking from the non-competitive class, under the heading "Positions in the Department of Public Charities, the Department of Correction, the Bellevue and Allied Hospitals, the Manhattan and Brooklyn Truant Schools, the New York Parental School, and the Brooklyn Disciplinary Training School," the following title:

"Stoker."

—and including same in Part I. of the Labor Class.

PUBLIC HEARINGS WILL BE HAD ON THE PROPOSED AMENDMENTS, IN ACCORDANCE WITH RULE III., AT THE COMMISSION'S OFFICES, NO. 299 BROADWAY, ON WEDNESDAY, JULY 1, 1908, BEGINNING AT 10 O'CLOCK A. M.

FRANK A. SPENCER,

Secretary.

j27,30

MUNICIPAL CIVIL SERVICE COMMISSION, No. 299 BROADWAY, NEW YORK, June 17, 1908.

PUBLIC NOTICE IS HEREBY GIVEN that applications will be received from WEDNESDAY, JUNE 17, UNTIL 4 P. M. WEDNESDAY, JULY 1, 1908,

for the position of

INSTRUMENT MAKER, FIRE DEPARTMENT.

The examination will be held on Tuesday, July 21, 1908, at 10 a. m.

(NO APPLICATION RECEIVED AT THE OFFICE OF THE COMMISSION, BY MAIL OR OTHERWISE, AFTER 4 P. M. ON JULY 1, WILL BE ACCEPTED.)

The subjects and weights of the examination are as follows:

Technical	5
Experience	4
Mathematics	1

The percentage required is 75 on the technical paper and 70 on all.

Candidates should be able to make repairs to all the electrical instruments in use in the Fire Department, as transmitters, registers, gongs, fire alarm signal boxes; also keyless doors and combination fire alarm lamp-posts. They should also be able to make adjustments on engine house equipments and be able to make either permanent or temporary repairs in order to keep same in working order; should be familiar with the winding and rewinding of magnets, and able to do lathe work as regards the manufacture and repairs of instruments.

It will be a waste of time for candidates to apply who cannot meet the above requirements.

There are two vacancies.

The salary is \$1,200 per annum.

The minimum age is 21 years.

F. A. SPENCER,

Secretary.

j17,jy21

MUNICIPAL CIVIL SERVICE COMMISSION, No. 299 BROADWAY, NEW YORK, May 25, 1908.

PUBLIC NOTICE IS HEREBY GIVEN that applications for the position of

"WELL DRIVER,"

Department of Water Supply, Gas and Electricity, will be received on and after

MONDAY, JUNE 8, 1908.

Applications will be issued and received in the office of the Labor Bureau, ground floor of the new Criminal Court Building, corner of White and Centre streets.

F. A. SPENCER,

Secretary.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 299 BROADWAY, CITY OF NEW YORK.

PUBLIC NOTICE WILL BE GIVEN OF all competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close. Applications will be received for only such examinations as are scheduled. No application will be accepted at the office of the Commission, by mail or otherwise, after the closing hour for the receipt of same set forth in the advertisement.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing or by personal application at the office of the Commission, Room 1119.

All notices of examinations will be posted in the office of the Commission, and advertised in the CITY RECORD for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Specimen questions of previous examinations may be obtained at Room 1108.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

FRANK L. POLK,

President;

R. ROSS APPLETON,

ARTHUR J. O'KEEFE,

Commissioners.

FRANK A. SPENCER,

Secretary.

FIRE DEPARTMENT.

HEADQUARTERS OF THE FIRE DEPARTMENT OF THE CITY OF NEW YORK, NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Fire Commissioner at the above office until 10.30 o'clock a. m. on

TUESDAY, JULY 7, 1908.

Borough of Manhattan.

No. 1. FOR FURNISHING AND DELIVERING HARNESS, LEATHER AND HARNESS TRIMMINGS TO THE REPAIR SHOPS FOR THE BOROUGH OF MANHATTAN, THE BRONX AND RICHMOND.

The time for the delivery of the articles, materials and supplies and the performance of the contract is by or before November 1, 1908.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate. No. 2. FOR FURNISHING AND DELIVERING PAINTS, OILS, VARNISHES, BRUSHES AND PAINTER'S SUPPLIES TO THE REPAIR SHOPS FOR THE BOROUGH OF MANHATTAN, THE BRONX AND RICHMOND.

The time for the delivery of the articles, materials and supplies and the performance of the contract is by or before November 1, 1908.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

No. 3. FOR FURNISHING AND DELIVERING LUMBER TO THE REPAIR SHOPS FOR THE BOROUGH OF MANHATTAN, THE BRONX AND RICHMOND.

The time for the delivery of the articles, materials and supplies and the performance of the contract is by or before November 1, 1908.

The amount of security required is fifty per cent. (50%) of the amount of the bid or estimate.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per pound, ton, dozen, gallon, yard or other unit of measure, by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total for each item, and awards made to the lowest bidder on each item; or the bids will be compared and the contract awarded at a lump or aggregate sum for each contract.

Delivery will be required to be made at the time and in the manner and in such quantities as may be directed.

Blank forms and further information may be obtained and the plans and drawings may be seen at the office of the Fire Department, Nos. 157 and 159 East Sixty-seventh street, Manhattan.

NICHOLAS I. HAYES,

Fire Commissioner.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, BOROUGH OF QUEENS.

NOTICE TO TAXPAYERS.

WATER RATES FOR 1908-9 WILL BE DUE AND PAYABLE

FRIDAY, MAY 1, 1908.

If not paid before August 1, 1908, a penalty of five per cent. will be added, and if not paid before November 1, 1908, an additional penalty of ten per cent. (a total of fifteen per cent.) will be added.

Bills for water rates may be obtained on and after May 1 on personal application.

For the convenience of taxpayers and to facilitate the business of the Department, it is requested that application be made by mail for such bills at once.

Address Charles C. Wissel, Deputy Commissioner, Room No. 2, Hackett Building, Long Island City.

824

DEPARTMENT OF STREET CLEANING.

MAIN OFFICE OF THE DEPARTMENT OF STREET CLEANING, ROOM 1403, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Street Cleaning at the above office until 12 o'clock p. m. on

THURSDAY, JULY 23, 1908.

Boroughs of Manhattan and The Bronx.

No. 1. CONTRACT FOR THE FINAL DISPOSITION OF ALL ASHES, STREET SWEEPINGS AND RUBBISH THAT MAY BE DELIVERED ON BOARD OF DECK SCOWS OR OTHER VESSELS AT THE WATER-FRONT DUMPS OF THE DEPARTMENT OF STREET CLEANING, IN THE BOROUGH OF MANHATTAN AND THE BRONX, ON THE HARLEM RIVER AND ON THE EAST RIVER, EXCEPTING THE DUMP AT THE FOOT OF CLINTON STREET, EAST RIVER.

The time for the completion of the work and the full performance of the contract is five (5) years.

The amount of security required is One Hundred Thousand Dollars (\$100,000).

Each bid must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller of The City of New York, for five per centum of the amount for which the work bid for is proposed to be performed in the first year of the contract.

The compensation to be paid to the contractor will be at prices per scowload, the loads being classified in four classes, with special prices not to exceed thirty-five per centum (35%) in addition to the prices for the same classes of scows, whenever, in emergency caused by ice in the harbor or other conditions, the Commissioner requires the contractor to tow some or all of the materials to sea and there unload them.

These prices must be written out in full by the bidder and must also be written in figures.

The Commissioner reserves the right to select from the bids the bid the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all bids, pursuant to section 544 of the Greater New York Charter.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13 to 21 Park row.

FOSTER CROWELL,

Commissioner of Street Cleaning.

Dated June 26, 1908.

All persons whose interests are affected by the above-named proposed assessments, and who are opposed to the same, or either of them, are requested to present their objections, in writing, to the Secretary of the Board of Assessors, No. 320 Broadway, New York, on or before July 28, 1908, at 11 a. m., at which time and place the said objections will be heard and testimony received in reference thereto.

ANTONIO ZUCCA,
PAUL WEIMANN,
JAMES H. KENNEDY,
Board of Assessors.

WILLIAM H. JASPER,
Secretary,
No. 320 Broadway,
City of New York, Borough of Manhattan,
June 26, 1908. j26jy8

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET, between Amsterdam avenue and St. Nicholas avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 18th day of July, 1908, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 17th day of September, 1908, at 11 o'clock a. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 18th day of July, 1908, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 17th day of September, 1908, at 12 o'clock m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 8th day of March, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line midway between the southerly side of West One Hundred and Sixty-fourth street and the northerly side of West One Hundred and Sixty-third street on the east by a line 100 feet east of the easterly side of Edgecombe road; on the south by a line midway between the northerly side of West One Hundred and Sixty-second street and the southerly side of West One Hundred and Sixty-third street; and on the west by a line 100 feet west of the westerly side of Broadway.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 28th day of July, 1908.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 12th day of November, 1908, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, June 22, 1908.

JOHN C. FITZGERALD,
PHILIP F. DONOHUE,
Commissioners of Estimate;
JOHN C. FITZGERALD,
Commissioner of Assessment.

JOHN P. DUNN,
Clerk. j27jy16

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose, in fee, to the lands, tenements and hereditaments required for the opening and extending of BOSTON ROAD, between Bronx Park and the White Plains road, and BEAR SWAMP ROAD, between Boston road and White Plains road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 16th day of July, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 17th day of July, 1908, at 11 o'clock a. m.

Second—That the abstract of our said estimate of damage, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 16th day of July, 1908.

Third—That, provided there be no objections filed to said abstract, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part I, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 31st day of July, 1908, at the opening of the Court on that day.

Fourth—In case, however, objections are filed to said abstract of estimate of damage, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, June 24, 1908.

JOSEPH J. MARRIN,
Chairman;
MICHAEL RAUCH,
WILLIAM G. FISHER,
Commissioners.

JOHN P. DUNN,
Clerk. j26jy15

FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment, to ascertain and determine the compensation which should justly be made to Henry R. Winthrop, individually, and to Henry R. Winthrop, J. Frederick Kernochan and William Jay, as trustees under the will of Thomas Buchanan Winthrop, deceased, as owners of the premises abutting on the easterly side of DEPEW PLACE, between Forty-second street and Forty-third street, in The City of New York, for the discontinuance and closing of the portion of Depew place, 12 feet in width and 35 feet in length, on its westerly side, 121.83 feet north of Forty-second street, in the Borough of Manhattan, of said City.

NOTICE IS HEREBY GIVEN, PURSUANT to chapter 1006 of the Laws of 1895, that it is the intention of the Corporation Counsel of The City of New York, in behalf of The City of New York, to make application to the Supreme Court, at Special Term, Part I, thereof, to be held in and for the County of New York, at the County Court House, in the Borough of Manhattan, City of New York, on the 3d day of July, 1908, at the opening of the Court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made to Henry R. Winthrop, individually, and to Henry R. Winthrop, J. Frederick Kernochan and William Jay, as trustees, etc., under the will of Thomas Buchanan Winthrop, deceased, as owners of the rights, easements or interests in or appurtenant to the premises abutting on the easterly side of Depew place, between Forty-second street and Forty-third street, in the Borough of Manhattan, City of New York, taken, affected, damaged or destroyed by the discontinuance and closing of the portion of Depew place twelve (12) feet in width and thirty-five (35) feet in length on its westerly side, one hundredth (121.83) feet north of Forty-second street, in the Borough of Manhattan, City of New York, and to perform in relation thereto the duties required of them by law.

The aforesaid discontinued and closed portion of Depew place is more particularly bounded and described as follows:

"Beginning at a point in the westerly side of Depew place as formerly laid out under chapter 261 of the Laws of 1884, distant one hundred and twenty-one and eighty-three one-hundredths (121.83) feet northerly from the northerly side of Forty-second street; running thence easterly at right angles to said westerly side of Depew place twelve (12) feet; thence northerly parallel to said westerly side of Depew place thirty-five (35) feet; thence westerly at right angles to said westerly side of Depew place twelve (12) feet, and thence southerly along said westerly side of Depew place thirty-five (35) feet, to the point or place of beginning."

The said portion of Depew place is shown as discontinued and closed on Sheet I-A of certain maps entitled, "Plans and profiles showing modifications of the plan and profiles approved by the Board of Estimate and Apportionment on the 10th day of June, 1903, and as modified by the plans and profiles approved on the 4th day of December, 1903, of the viaducts or bridges required to carry Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth and Forty-ninth streets and Park avenue extension over the tracks of the New York and Harlem Railroad Company, and showing certain alterations or changes in Forty-third and Forty-fourth streets, Vanderbilt avenue and Depew place, and showing the lands, rights, interests and easements in lands owned, occupied or controlled by The City of New York, required for the purpose of making certain alterations, changes and additions other than the alterations, changes and additions authorized by sections 1, 2 and 3 of chapter 425 of the Laws of 1903."

—and submitted in duplicate to the Board of Estimate and Apportionment of The City of New York for its approval on the 23d day of December, 1904, pursuant to the said chapter 425 of the Laws of 1903, as amended by chapter 639 of the Laws of 1904, and approved by the Board of Estimate and Apportionment of The City of New York on the 28th day of April, 1905, and filed in the offices of the Register of the County of New York, the President of the Borough of Manhattan, and in the office of the Corporation Counsel of The City of New York on or about the 3d day of August, 1905.

Dated New York, June 22, 1908.
FRANCIS K. PENDLETON,
Corporation Counsel,
Hall of Records,
Borough of Manhattan,
City of New York.
j22jy3

FIRST DEPARTMENT.

In the matter of the application of the Board of Street Opening and Improvement of The City of New York, for and on behalf of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title for the use of the public to all or any of the land and property not owned by the Corporation of The City of New York, including any rights, terms, easements and privileges or interests pertaining thereto, which are not subject to extinguishment or termination by public authority, required for an EXTERIOR STREET extending along the westerly shore of the East River in The City of New York, from the centre line of East Sixty-fourth street, as such line is and would be if extended easterly into the East River, to the northerly line of East Eighty-first street, as such line is and would be if extended easterly into the East River, in the Nineteenth Ward of The City of New York, pursuant to the plans heretofore determined upon by the Board of the Department of Docks, and adopted by the Commissioners of the Sinking Fund, and the profiles thereof fixed and determined by the Department of Docks, with the concurrence of the Commissioner of Public Works.

PURSUANT TO CHAPTER 697 OF THE Laws of 1887, as amended by chapter 272 of the Laws of 1888, and by chapter 257 of the Laws of 1889, and the statutes in the case of taking private property in New York City for public streets and places, and all other statutes in such cases made and provided, so far as they are not inconsistent with the provisions of the aforesaid acts, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term of said Court, to be held at Part I, thereof, in the County Court House, in the Borough of Manhattan, in The City of New York, on Friday, July 3, 1908, at the opening of the Court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter, to fill the vacancies caused by the deaths of Daniel Lord, Joseph J. O'Donohue and Joseph Blumenthal.

The object of this application for the appointment by the Supreme Court, First Department, of three discreet and disinterested persons as Commissioners of Estimate and Assessment herein to fill the vacancies caused by the deaths of Daniel Lord, Joseph J. O'Donohue and Joseph Blumenthal, Commissioners of Estimate and Assessment, heretofore appointed by an order of the Supreme Court, dated the 17th day of June, 1891, and entered in the office of the Clerk of the County of New York on the 23d day of June, 1891, is for the purpose of complying with the provisions of chapter 697 of the Laws of 1887, as amended by chapter 272 of the Laws of 1888, and by chapter 257 of the Laws of 1889, not heretofore complied with.

Dated New York, June 22, 1908.
FRANCIS K. PENDLETON,
Corporation Counsel,
Hall of Records, Borough of Manhattan, New York City.
j22jy3

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND FIFTIETH STREET (although not yet named by proper authority), from Broadway to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 11th day of July, 1908, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 15th day of September, 1908, at 2 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 11th day of July, 1908, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 15th day of September, 1908, at 3 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 14th day of December, 1906, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

One-half the block on each side of the street to be opened, between the easterly side of Riverside drive and St. Nicholas avenue.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the

Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of July, 1908.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 29th day of October, 1908, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, June 11, 1908.

THOMAS S. SCOTT,
Chairman;
GEO. W. O'BRIEN,
JOHN W. JONES,
Commissioners of Estimate.
THOMAS S. SCOTT,
Commissioner of Assessment.

JOHN P. DUNN,
Clerk.

j20,jy9

FIRST DEPARTMENT.

In the matter of acquiring title by The City of New York to certain lands and premises situated in the block bounded by Avenue A and First Avenue, Fifty-ninth and Sixtieth streets, and in the block bounded by First and Second Avenues, Fifty-ninth and Sixtieth streets, in the Borough of Manhattan, duly selected for bridge purposes, according to law.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Appraisal in the above entitled proceeding, do hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

First—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties or persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Estimate and Apportionment of The City of New York, Room 401, No. 277 Broadway, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

Second—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same or any part thereof, may, within ten days after the first publication of this notice, Friday, June 19, 1908, file their objections, in writing, with us at our office, Room 401, No. 277 Broadway, in the Borough of Manhattan, in The City of New York; and we, the said Commissioners, will hear parties so objecting, at our said office, on the 7th day of July, 1908, at 3.30 o'clock in the afternoon of that day, and upon such subsequent days as may be found necessary.

Dated New York, June 18, 1908.

JOHN F. CAREW,
JAMES G. COLLINS,
WILLIAM F. GRELL,
Commissioners.

JOSEPH M. SCHENCK,
Clerk.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of THE FIFTH NEW STREET NORTH OF WEST ONE HUNDRED AND EIGHTY-FIRST STREET (Watkins place), extending from Broadway to first new avenue west of Broadway (Bennett Avenue), in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, City of New York, on or before the 10th day of July, 1908, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 15th day of September, 1908, at 3 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objections thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of July, 1908, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his office on the 15th day of September, 1908, at 4 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 8th day of February, 1907, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

On the north by a line midway between the northerly side of the fifth new street north of West One Hundred and Eighty-first street and the southerly side of the next parallel street to the north, as shown upon the plan adopted by the Board of Estimate and Apportionment on December 11, 1903; on the east by a line 100 feet east of the easterly side of Broadway and parallel therewith; on the south by a line midway between the southerly side of the fifth new street north of West One Hundred and Eighty-first street and the northerly line of the fourth new

street north of West One Hundred and Eighty-first street, and on the west by a line 100 feet west of the westerly side of the first new avenue west of Broadway, or Bennett Avenue, and parallel therewith.

Fourth—That the abstracts of said estimate of damage and said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, Borough of Manhattan, in the said City, there to remain until the 14th day of July, 1908.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, Borough of Manhattan, in The City of New York, on the 10th day of November, 1908, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, June 2, 1908.

HARVEY WATTERSON,
Chairman;
JAMES SHELTON MENG,
GUSTAV LANGE, Jr.,
Commissioners of Estimate.
HARVEY WATTERSON,
Commissioner of Assessment.

SUPREME COURT—SECOND DEPARTMENT.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of SEA VIEW AVENUE (although not yet named by proper authority), from Richmond Road to Southfield boulevard, in the Fourth Ward, Borough of Richmond, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 16th day of July, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 16th day of September, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 27th day of July, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Richmond, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line parallel to and distant 100 feet northwesterly from the northwesterly line of Prospect Avenue and the northwesterly prolongation of a line parallel to and distant one hundred (100) feet southwesterly from the southwesterly line of Liberty Avenue; running thence north-easterly along the said line parallel to Prospect Avenue to its intersection with the northeasterly line of Four Corners Road; thence from said last point of intersection on a line parallel to Richmond Road to its intersection with the northwesterly prolongation of a line parallel to and distant one hundred (100) feet northeasterly from the northeasterly line of Garretson Avenue; thence southeasterly along said last-mentioned northwesterly prolongation and parallel line to its intersection with a line parallel to and distant one hundred (100) feet southeasterly from the southeasterly line of Southfield boulevard; thence southwesterly along said last-mentioned parallel line to its intersection with the middle line of the blocks between Garretson Avenue and Sea View Avenue; thence southeasterly along said last-mentioned middle line to its intersection with the southeasterly property line of the Garretson Homestead Farm; thence westerly along said property line to its intersection with the middle line of the blocks between Sea View Avenue and Liberty Avenue; thence northeasterly along said last-mentioned middle line of the blocks to its intersection with a line parallel to and distant one hundred (100) feet southeasterly from the southeasterly line of Southfield boulevard; thence southwesterly along said last-mentioned line parallel to Southfield boulevard to its intersection with a line parallel to and distant one hundred (100) feet southwesterly from the southwesterly line of Liberty Avenue; thence northwesterly along said parallel line and its northwesterly prolongation to the point or place of beginning; excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 5th day of November, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our

final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, May 18, 1908.

WM. M. MULLEN,
Chairman;
WALLACE M. LOOS,
FRANK H. INNES,
Commissioners.

JOHN P. DUNN,
Clerk.

COUNTY OF KINGS.

In the matter of acquiring title by The City of New York to certain lands and premises situated on the easterly side of WEST THIRD STREET, south of Sheepshead Bay Road, in the Thirty-first Ward of the Borough of Brooklyn, in The City of New York, duly selected as a site for school purposes, according to law.

NOTICE IS HEREBY GIVEN THAT BERTRAM N. MANNE, Reuben L. Haskell and Arthur Beckwith, Commissioners of Estimate in the above entitled proceeding, have made and signed their final report herein, and on June 24, 1908, filed the same in the office of the Board of Education of The City of New York, at Park Avenue and Fifty-ninth Street, in the Borough of Manhattan, in The City of New York, and on the same day filed a duplicate of said report in the office of the Clerk of Kings County, in the Hall of Records, in the Borough of Brooklyn, in The City of New York, and that said report will be presented for confirmation to the Supreme Court, at Special Term for the hearing of motions, to be held in the County Court House, in Kings County, on July 8, 1908, at 10.30 o'clock a. m., or as soon thereafter as counsel can be heard.

Dated Brooklyn, New York City, June 24, 1908.

FRANCIS K. PENDLETON,
Corporation Counsel.

j24,jy6

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of FORTY-FOURTH STREET, from New Utrecht Avenue to West Street, in the Twenty-ninth and Thirtieth Wards, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our amended and supplemental estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague Street, in the Borough of Brooklyn, in The City of New York, on or before the 11th day of July, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 14th day of July, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said amended and supplemental estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague Street, in the Borough of Brooklyn, in said City, there to remain until the 22nd day of July, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the westerly line of West Street and the center line of the blocks between Forty-fifth Street and Forty-fourth Street and running thence northwesterly along said center line to its intersection with the easterly line of New Utrecht Avenue, thence northerly along said easterly line of New Utrecht Avenue to its intersection with the southerly line of Fort Hamilton Parkway, thence northeasterly along said southerly line of Fort Hamilton Parkway to its intersection with the southerly line of Forty-fourth Street, thence northwesterly along said southerly line of Forty-fourth Street to its intersection with the easterly line of New Utrecht Avenue, thence northerly along said easterly line of New Utrecht Avenue to its intersection with the center line of the blocks between Forty-fourth Street and Forty-third Street, thence southeasterly along said last mentioned center line to its intersection with the westerly line of West Street, thence southerly along said westerly line of West Street to the point or place of beginning, as such area is shown upon our benefit maps deposited aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 31st day of August, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SUPREME COURT—THIRD JUDICIAL DISTRICT.

THIRD JUDICIAL DISTRICT.

ULSTER COUNTY.

Ashokan Reservoir, Section No. 3.

Ulster County, Towns of Olive, Marletown and Hurley.

In the matter of the application and petition of J. Edward Simmons, Charles N. Chadwick and Charles A. Shaw, constituting the Board of Water Supply of The City of New York, to acquire real estate for and on behalf of The City of New York, under chapter 724 of the Laws of 1905, and the acts amendatory thereof, in the Towns of Olive, Marletown and Hurley, Ulster County, New York, for the purpose of providing an additional supply of pure and wholesome water for the use of The City of New York.

PUBLIC NOTICE IS HEREBY GIVEN that the order of confirmation of the first separate report of George Holmes Smith, Henry Smith and Josiah J. Hasbrouck, who were appointed Commissioners of Appraisal in the above entitled matter by an order of this Court, made at a Special Term thereof, held at the Court House in the City of Kingston, Ulster County, New York, April 20, 1907 (except in so far as said report affects Parcel No. 124-A, shown on the map in this proceeding), was filed in the office of the Clerk of the County of Ulster, at Kingston, N. Y., on the 13th day of April, 1908, and affects parcels numbers one hundred and twenty-two (122), ninety-six (96), one hundred and twenty-nine (129), ninety (90), ninety-four (94), one hundred and seventeen (117), one hundred and twenty-four B (124-B), one hundred and twenty-five (125), one hundred and twenty-seven (127), one hundred and thirty (130), one hundred and nineteen (119), one hundred and twenty-six (126), one hundred and six A (106-A), one hundred and twenty-one (121), eighty-five (85), eighty-nine (89), eighty-three (83) and one hundred and thirty-four (134), shown on the map in this proceeding.

Dated New York, June 19, 1908.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.

THE CITY RECORD.

VOL. XXXVI.—NUMBER 10688.

NEW YORK, TUESDAY, JUNE 30, 1908.

SUPPLEMENT.

THE BOARD OF ALDERMEN OF THE CITY OF NEW YORK.

[Appendix to Minutes of Stated Meeting of the Board of Aldermen of May 26, 1908.]

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The Vice-Chairman laid before the Board the following communication from the Comptroller:

No. 797.

Department of Finance, City of New York,

May 25, 1908.

Hon. P. J. Scully, City Clerk, and Clerk of the Board of Aldermen:

Dear Sir—In compliance with part 1, chapter 4, article 1, section 25 of the Code of Ordinances of 1906, I have the honor to transmit herewith, for presentation to the Board of Aldermen, statements of all contracts made by The Mayor, Aldermen and Commonalty of The City of New York and the municipalities, corporations, etc., consolidated therewith prior to January 1, 1898, and The City of New York (Greater New York) since January 1, 1898, or directed or authorized by the Common Councils of said corporations, and not performed or completed or upon which any moneys remain unpaid on each on December 31, 1907.

These statements show the payments made on account of the various contracts to December 31, 1906, inclusive; the payments on account thereof during the year 1907, the total amounts paid thereon to December 31, 1907, the balances remaining unpaid thereon December 31, 1907, and the funds or accounts against which said contracts are chargeable.

Statement "A" shows the contracts executed prior to January 1, 1898, by The Mayor, Aldermen and Commonalty of The City of New York.

Statement "B" shows the contracts executed prior to January 1, 1898, by the municipalities, corporations, etc., consolidated with The Mayor, Aldermen and Commonalty of The City of New York.

Statement "C" shows the contracts executed since January 1, 1898, by The City of New York (Greater New York).

Yours very truly,

HERMAN A. METZ, Comptroller.

STATEMENT "A"

Statement of Contracts Executed Prior to January 1, 1898, by The Mayor, Aldermen and Commonalty of The City of New York, Registered in the Comptroller's Office, to and Including December 31, 1907, and Not Paid in Full at December 31, 1906.

THE CITY RECORD.

OFFICIAL JOURNAL OF THE CITY OF NEW YORK.

There shall be published daily, Sundays and legal holidays excepted, under a contract to be made as hereinafter provided, a paper to be known as the CITY RECORD. And said CITY RECORD, and the newspapers now by law designated as corporation newspapers in the present City of Brooklyn, shall be the only papers to be included within the term corporation newspapers, as the same is used anywhere in this act; There shall be inserted in said CITY RECORD nothing aside from such official matters as are expressly authorized. All advertising required to be done for the City, except as in this act otherwise specially provided, and all notices required by law or ordinance to be published in corporation papers, shall be inserted at the public expense only in the CITY RECORD, and the publication therein shall be a sufficient compliance with any law or ordinance requiring publication of such matters or notices. The Comptroller shall cause a continuous series of the CITY RECORD to be bound as completed, quarterly, and to be deposited with his certificate thereon in the office of the Register of Deeds of the County of New York, in the County Clerk's office of said County, and in the office of the City Clerk, and copies of the contents of any of the same, certified by such Register, County Clerk or City Clerk, shall be received in judicial proceedings as prima facie evidence of the truth of the contents thereof.—§1526, Greater New York Charter.
