BOARD OF ESTIMATE AND APPORTIONMENT

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MARCH 1, 1907.

RAPID TRANSIT RAILWAY.

Lexington Avenue Route and Route Through Centre and Canal Streets, to Connect with the Proposed Manhattan Bridge.

The Chair presented two communications from the Board of Rapid Transit Railroad Commissioners for The City of New York, transmitting for approval by this Board, forms of proposed contracts for the construction of a rapid transit railway, known as the "Lexington Avenue Route," and for the construction of a portion of a rapid transit railway known as the "Brooklyn Loop Lines" (Centre street, from Pearl to Canal), and requested that same be considered by unanimous consent, they not being on the calendar for this day.

By unanimous consent a delegation from the Central Federated Union, consisting of L. E. Storey, James Roach, representing the Steamfitters' Union; J. P. Holland and Mr. Connell, representing the Stationary Engineers, addressed the Board relative to having the proposed subway constructed by union labor and the prevailing rate of wages paid to employees during construction.

L. S. Bedford, representing the Eleventh Avenue Track Removal Association, addressed the Board relative to having separate bids for construction and for equipment and operation.

The President of the Borough of Brooklyn objected to the present consideration of these matters, and stated that he was unfamiliar with same, and the matters were laid over.

George J. Hoster.

A communication, dated February 13, 1907, was received from the Mayor's office, transmitting, duly approved by the Mayor, resolution adopted by the Board October 26, 1906, granting to George J. Hoster permission to construct, maintain and operate a single track turnout from the existing tracks of the New York Central and Hudson River Railroad Company in Eleventh avenue to the premises of the petitioner at Eleventh avenue and Thirty-fourth street, Borough of Manhattan.

Which was ordered filed.

H. C. F. Koch & Co., and Hudson and Manhattan Railroad Company.

A communication, dated February 20, 1907, was received from the Mayor's office, transmitting, duly approved by the Mayor, resolutions as follows:

(a) Granting permission to the firm of H. C. F. Koch & Co. to construct, maintain and use a tunnel under and across West One Hundred and Twenty-fourth street, to connect premises known as Nos. 137 and 140 West One Hundred and Twenty-fourth street, Borough of Manhattan, for the purpose of carrying steam pipes and electric conduit, the transportation of merchandise and to be used as a passageway between said buildings.

(b) Approving of the proposed certificate to be issued to the Hudson and Manhattan Railroad Company further modifying the certificate dated February 2, 1905, issued to the New York and Jersey Railroad Company.
Which was ordered filed.

Coney Island and Brooklyn Railroad Company.

In the matter of the application of the Coney Island and Brooklyn Railroad Company for a franchise to construct, maintain and operate a double-track street surface railroad upon and along Livingston street, Bond street, Elm place and Flatbush avenue, in the Borough of Brooklyn, which was presented to the Board at its meeting of May 25, 1906, and referred to the Bureau of Franchises.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, NO. 280 BROADWAY,
February 20, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held May 25, 1906, a petition was received from the Coney Island and Brooklyn Railroad Company praying for the franchise or right to construct, maintain and operate a double-track street surface railroad in Livingston street, from Court street to Flatbush avenue, and on Bond street, Elm place and Flatbush avenue, in the Borough of Brooklyn, which was referred to the Bureau of Franchises for investigation and suggestions.

The petition not being in proper form the Company was duly notified by the Secretary to present a verified petition in duplicate, pursuant to the resolution of the Board, adopted June 9, 1905. No answer has as yet been received to this communication. In consequence no investigation has been made of the application, and I am unable to make any suggestions thereon. I would recommend, therefore, without prejudice to the company, that the application be filed until it is again presented in the proper form, and that the company be formally notified of such action.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The application was ordered filed without prejudice to the company until presented in proper form, and the Secretary was directed to notify the company of the action taken.

Estate of Charles Broadway Rouss.

At the meeting of February 15, 1907, an opinion was received from the Corporation Counsel, who held that as the construction of the tunnel, permission for which was granted by resolution adopted by the Board June 8, 1906, approved by the Mayor June 14, 1906, had not been completed before December 14, 1906, the consent became inoperative, and the extension of time to complete construction which was granted by resolution adopted by the Board January 18, 1907, and approved by the Mayor January 22, 1907, was null and void, and action was deferred by the Board to allow the petitioner time in which to file a new application for the aforesaid privilege.

The Secretary presented the following:

CHARLES BROADWAY ROUSS,
Nos. 549, 551, 553, 555 BROADWAY,
NEW YORK CITY, February 15, 1907.

Board of Estimate and Apportionment, No. 280 Broadway, New York City:

GENTLEMEN—A resolution was adopted by the Board of Estimate and Apportionment on June 8, 1906, which was approved by the Mayor June 14, 1906, granting to the Estate of Charles Broadway Rouss its consent to construct, maintain and use a tunnel under Mercer street, to connect premises known respectively as Nos. 123 and 125 and Nos. 122 and 126 Mercer street, Borough of Manhattan, for commercial purposes in the moving of store products. Under section 12 of the consent the time for the completion of the construction was limited to six months, and expired on December 14, 1906. It was impossible to complete the work within that time, and a resolution was adopted by the Board of Estimate and Apportionment on January 18, 1907, and approved by the Mayor January 22, 1907, granting an extension of three months. In view, however, of an opinion by the Corporation Counsel, we respectfully renew the application that permission be granted to the Estate of Charles Broadway Rouss to construct, maintain and use said tunnel between C. B. Rouss estates, Nos. 123 and 125 and Nos. 122 and 126 Mercer street, in accordance with the plans accompanying original permit filed in the office of the Bureau of Franchises.

Yours respectfully,

C. B. ROUSS ESTATE.
P. W. ROUSS, Executor.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, NO. 280 BROADWAY,
February 15, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Board of Estimate and Apportionment adopted a resolution June 6, 1906, which was approved by the Mayor, June 14, 1906, granting consent to the estate of Charles Broadway Rouss to construct, maintain and use a tunnel under and across the roadway of Mercer street, between Prince street and Spring street, in the Borough of Manhattan. The estate is owner of certain lands on the easterly and westerly sides of Mercer street, and the tunnel is to connect the buildings Nos. 123 and 125 with Nos. 122 to 126 on said street, to be used as a passageway for the use of employees and the transfer of goods between the buildings.

Under section 12 of the above-named consent, the grantee was required to complete the construction of the tunnel within six months from the date of the approval of the resolution, or before December 14, 1906. The tunnel had not been commenced at that date, and an application dated January 12, 1907, was presented to the Board of Estimate and Apportionment requesting an extension of three months in which to complete the tunnel, additional work in the excavation of the cellar of the building being erected on the westerly side of Mercer street having delayed the construction of the tunnel. The Board of Estimate and Apportionment, therefore, adopted a resolution on January 18, 1907, which was approved by the Mayor, January 22, 1907, granting the extension of time as requested for three months, in which to complete the tunnel. The estate complied with all the provisions of this resolution and filed the written agreement as required with the Board of Estimate and Apportionment January 28, 1907, which agreement was referred to the Corporation Counsel for his approval. The Corporation Counsel returned the agreement with an opinion that as the time limit for completion of the tunnel expired December 14, 1906, in accordance with the provision of section 12 of the approved resolution of June 14, 1906, the tunnel not being completed, the consent became void and inoperative ipso facto on that date; that for any right thereafter in the premises, the estate of Charles Broadway Rouss would have to make a new application to the Board.

The estate has, therefore, made application dated February 15, 1907, to the Board of Estimate and Apportionment requesting its consent to the construction, maintenance and use of a tunnel under and across the roadway of Mercer street, in the Borough of Manhattan, to connect premises known as Nos. 123 and 125 and Nos. 122 to 126 Mercer street.

The estate of Charles Broadway Rouss has paid the compensation named in the approved resolution of June 14, 1906, up to November 1, 1907, the twenty-five

dollars (\$25) required by the approved resolution of January 22, 1907, and deposited with the Comptroller, the security required by the approved resolution of June 14, 1906, thereby complying in good faith with all the conditions of these resolutions.

It is also reported that all preparations have been made to proceed with the work without further delay, and to push the construction of the tunnel to final completion as fast as possible.

I would, therefore, suggest that the Board of Estimate and Apportionment grant the application of February 15, 1907, upon the terms and conditions named in the former resolution, with the provision that the security deposited with the Comptroller under that resolution be applied to the new consent when granted, and that the amounts already paid as compensation shall also be made applicable to the compensation required by the new consent up to November 1, 1907; also that this new consent shall commence on December 14, 1906, at which time the consent covered by approved resolution of June 14, 1906, terminated.

I transmit herewith a form of resolution for consideration and adoption by the Board.

Respectfully,
HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Estate of Charles Broadway Rouss, the owner of certain lands on the easterly and westerly sides of Mercer street, Borough of Manhattan, City of New York, to construct a tunnel under and across the roadway of Mercer street, between Prince street and Spring street, in the Borough of Manhattan, to connect the buildings owned by the said estate on both sides of said street; the location of the tunnel as shown on plan entitled:

"Plan of the tunnel connecting properties of C. B. Rouss Estate, Nos. 123 and 125 Mercer street and Nos. 122 and 126 Mercer street, New York City," and signed by P. W. Rouss,

—a copy of which is annexed hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall commence on December 14, 1906, and shall not extend beyond a term of twenty-five years from that date, provided, however, that the same may be canceled and annulled upon six months' notice, in writing, to the Estate of Charles Broadway Rouss, its successors or assigns, by the Board of Estimate and Apportionment, or its successors in authority, and thereupon all the rights of the said estate, its successors or assigns, in and upon the aforesaid portion of Mercer street, shall cease and determine.

2. The estate of Charles Broadway Rouss, its successors or assigns, shall pay into the Treasury of The City of New York the following sums of money:

- During the first five years, the annual sum of \$320.
- During the second five years, the annual sum of \$336.
- During the third five years, the annual sum of \$353.
- During the fourth five years, the annual sum of \$370.
- During the fifth five years, the annual sum of \$389.

Such sums shall be paid in advance into the Treasury of The City of New York on November 1 of each year, provided, however, that the payments already made under resolutions approved June 14, 1906, and January 22, 1907, shall cover the compensation due up to November 1, 1907. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatever kind or description now or hereafter to be paid by any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns, shall, at its own cost, cause the tunnel to be removed and all that portion of Mercer street affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives.

If the tunnel to be constructed by the said grantee under this permit shall not be required to be removed it is agreed that the said tunnel shall become the property of The City of New York.

4. The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of the said grantee, its successors or assigns, or by operation of law, without the consent, in writing, of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of—

- (a) The construction and the maintenance of the tunnel.
- (b) The protection of all surface and subsurface structures which shall in any way be disturbed by the construction of the tunnel.
- (c) All changes in sewer or other subsurface structures made necessary by the construction of the tunnel, including the laying or relaying of pipes, conduits, sewers or other structures.
- (d) The replacing or restoring the pavement in said street which may be disturbed during the construction of said tunnel.
- (e) Each and every item of the increased cost of any future substructure caused by the presence of said tunnel under this consent.
- (f) The inspection of all work during the construction or removal of the tunnel, as herein provided, which may be required by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction shall be begun the grantee shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed upon the grantee by these officials, as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to these officials working plans which shall include and show in detail the method of construction of such tunnel and the mode of protection of changes in all subsurface structures required by the construction of the tunnel.

7. The grantee, its successors or assigns, shall allow to The City of New York a right of way through, under or above any part of the tunnel constructed under the consent hereby granted, for any and all subsurface structures which are now or may be hereafter placed by The City of New York in that portion of Mercer street occupied by said tunnel.

8. The said tunnel and all pipes and conduits laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. The said tunnel shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to Mercer street.

10. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction and operation or maintenance of said tunnel, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. Said grantee, its successors or assigns, shall commence the construction of said tunnel under this consent and complete the same within six months from the day of the approval of this consent by the Mayor; otherwise this consent shall be forfeited forthwith, and without any proceeding, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding three months.

13. This consent is upon the express condition that the said grantee, within thirty days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of one thousand dollars (\$1,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement. In case of default in the performance by said grantee of any of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment of the annual charges, shall collect the same with interest from such fund, after ten days' notice, in writing, to the said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars (\$1,000), and in default of the payment thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

14. Said grantee shall give notice to the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, in writing, of its intention to begin construction of the work hereby authorized, at least forty-eight hours before such construction commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced and also the date on which the same is completed.

15. This consent shall not become operative until said grantee shall duly execute an instrument, in writing, wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the approval of this consent by the Mayor.

And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the tunnel hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Richmond and the Acting President of the Borough of Queens—16.

The Secretary presented the following:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
New York, February 14, 1907.

Board of Estimate and Apportionment:

SIRS—I have received from H. P. Nichols, Assistant Engineer in charge of the Bureau of Franchises, the following communication, dated January 23, 1907:

"I submit herewith a report made by this Bureau to the Board of Estimate and Apportionment, upon the application of the Interborough Rapid Transit Company, for the right to maintain certain tunnels which it had previously constructed in Fifty-eighth street, between Eleventh and Twelfth avenues, in the Borough of Manhattan, together with a copy of a memorandum filed by Messrs. Strong & Cadwalader on behalf of the applicant, and also a map which accompanies such application.

"From the map you will see that a portion of the proposed tunnel is under the sidewalk, as well as certain of the discharge and intake pipes connecting with the conduit in the street. In writing the report I felt that this should be considered as one proposition before the local authorities, and included in it all of the space required to be used in the street, including that under the sidewalk. You will also note that the report states that the applicant had previously secured a vault permit from the Borough President's office for the space used by the coal conveyor tunnel under the sidewalk; that in the report it is recommended that this sum be returned, and that the company pay the City for the use of the entire structure under the rates prescribed by the Board of Estimate and Apportionment.

"On page 7 of the memorandum of Messrs. Strong & Cadwalader, before referred to, it is stated as follows:

"Indeed, it is by no means clear that the vault right should be revoked or that the use made of the street under the sidewalk by virtue of the existing permit has been other than a proper vault use and such as the company should be free to continue, and in a conversation with a representative from their office yesterday it appeared that they were uncertain as to whether or not at some future time some other official of the City Government, who might have jurisdiction over space under the sidewalk, would not come in and compel them to take out a vault permit and pay the compensation for the same which might be fixed at that time. Again, the Interborough Rapid Transit Company are likewise an applicant for a tunnel under Twelfth avenue, between Fifty-eighth and Fifty-ninth streets, and before fixing the terms for such a consent I would request that you advise the Board whether, in the case of a tunnel or other subsurface structure which extends outside of the curb line of the street, the Board should consider the entire tunnel between the house lines as one proposition, or should only treat with that part under the roadway, leaving the part under the sidewalk to be considered as vault space, under the jurisdiction of the President of the Borough, pursuant to the provisions of Article XIX. of chapter 5 of the Revised Ordinances of 1901."

The question is thus presented to me as to whether in the granting of tunnel privileges a tunnel should be regarded as a continuous structure and permission for a right to construct and maintain it should be granted by the Board of Estimate and Apportionment, irrespective of the fact that part of such tunnel is under the city street and part under the sidewalk.

The control and jurisdiction of the Board of Estimate and Apportionment over streets and public lands in the City is, by the terms of the Greater New York Charter, of the very broadest description. Section 242 provides in part:

"The Board of Estimate and Apportionment shall have (3) the control of all the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers and all other public grounds and waters within or belonging to the city, except as in this act otherwise provided."

In the past some permits for the construction of tunnels under sidewalks have been issued by the Borough President, presumably under section 383 of the Greater New

York Charter, which gave to such official cognizance and control of "licensing vaults under sidewalks."

This section would be broad enough to cover such an application as the one in question if a tunnel can be regarded as a vault as to that portion under a sidewalk, and as a tunnel as to the balance under the street of the city.

I am of opinion, however, that a vault and a tunnel are not the same. The former is defined in the dictionaries as being a "cellar or subterranean chamber," while a tunnel is a "gallery, passage or roadway beneath the ground."

I, therefore, believe, and so advise you, that a tunnel is to be regarded as a single structure from house line to house line, and the powers of the Board of Estimate and Apportionment being sufficiently broad under the provisions of the Greater New York Charter to cover both the street and the sidewalk, application must be made to such Board for the right to construct and maintain the entire tunnel.

Inasmuch as the Borough President has no authority or power to grant tunnel privileges under the sidewalks, any money paid for any privileges granted by such official should be returned and the company should be charged for its occupation thereof at the rate prescribed for tunnel privileges.

I return herewith the maps and papers submitted with the above communication.

Respectfully,

WILLIAM B. ELLISON, Corporation Counsel.

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
February 23, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—While investigating the applications of the Interborough Rapid Transit Company for the right to maintain certain tunnels in Fifty-eighth street, between Eleventh and Twelfth avenues, and in Twelfth avenue, between Fifty-eighth and Fifty-ninth streets, Borough of Manhattan, which had previously been referred to the Bureau of Franchises, the question arose as to whether, in the case of a tunnel or other subsurface structure which extends outside of the curb line of the street, the Board should consider the entire tunnel between the house lines as one proposition, or should only treat with that part under the roadway, leaving the part under the sidewalk to be considered as vault space and under the jurisdiction of the President of the Borough in which such tunnel was located.

The matter was submitted to the Corporation Counsel for opinion, and in a communication dated February 14, 1907, he advises the Board that

"a tunnel is to be regarded as a single structure from house line to house line, and the powers of the Board of Estimate and Apportionment being sufficiently broad under the provisions of the Greater New York Charter to cover both the street and the sidewalk, application must be made to such board for the right to construct and maintain the entire tunnel.

"Inasmuch as the Borough President has no authority or power to grant tunnel privileges under the sidewalks, any money paid for any privileges granted by such official should be returned, and the company should be charged for its occupation thereof at the rate prescribed for tunnel privileges."

I believe that the Presidents of the different boroughs should be notified of the opinion of the Corporation Counsel, so that all applicants for vault space in connection with tunnels would be referred to the Board of Estimate and Apportionment, and I would suggest that the Secretary of the Board be directed to transmit a copy of same to each of them.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The opinion of the Corporation Counsel and the report of the Bureau of Franchises were ordered filed, and the Secretary was directed to transmit copies of the opinion to each of the members of the Board.

Interborough Rapid Transit Company.

In the matter of the application of the Interborough Rapid Transit Company for the right to maintain existing tunnels under West Fifty-eighth street, between Eleventh and Twelfth avenues, for the conveyance of coal and water from the pier at Fifty-eighth street and the Hudson river to the company's power house on the block bounded by Eleventh and Twelfth avenues, Fifty-eighth and Fifty-ninth streets, Borough of Manhattan, upon which report was presented from the Bureau of Franchises at the meeting of November 23, 1906, and the matter referred back to the Bureau to conduct a further investigation.

At the meeting of January 18 a further report was submitted from the Bureau of Franchises, and the counsel to the company presented a memorandum accompanied by an affidavit of the vice-president, relative to the proposed terms, and the matter was again referred to the Bureau of Franchises.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
February 23, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Estimate and Apportionment held November 23, 1906, a report was presented from the Bureau of Franchises on the application of the Interborough Rapid Transit Company for the right to maintain existing tunnels under West Fifty-eighth street, between Eleventh and Twelfth avenues, in the Borough of Manhattan, for the conveyance of coal and water from the pier at Fifty-eighth street and the Hudson river to the company's power house on the block bounded by Eleventh and Twelfth avenues, Fifty-eighth and Fifty-ninth streets, in the Borough of Manhattan; and the matter was referred back to the Bureau of Franchises for further investigation. As a result of such investigation, it was found that the Interborough Rapid Transit Company had constructed and was maintaining a tunnel across Twelfth avenue, about midway between Fifty-eighth and Fifty-ninth streets, for the purpose of conveying ashes from the company's power house to its waterfront property on the westerly side of Twelfth avenue. This matter was called to the attention of the Board in a report submitted January 18, and has been made the subject of a separate report.

At the meeting of the Board of January 18, 1907, there was also presented a memorandum from counsel to the company, accompanied by an affidavit of E. P. Bryan, its vice president, in relation to the proposed terms for the tunnel under Fifty-eighth street, together with a petition to maintain the ash conveyor tunnel under Twelfth avenue, hereinbefore referred to, and the matter was referred back to the Bureau of Franchises.

The memorandum of counsel to the company, in addition to alleging it had a color of authority to maintain the existing tunnels, took exceptions to the proposed resolution presented to the Board by this Bureau for adoption, as follows:

"1. The permit proposed is to date from October 1, 1902, and compensation is to be made for the use since that time. It may be pointed out, however, that the Board of Estimate and Apportionment had no power to grant such rights or to deal with the subject prior to May, 1905. (See Laws 1905, Ch. 629.)

"2. The permit should provide for payment of interest on the proposed deposit of ten thousand dollars (\$10,000) security or for payment of income from the securities constituting that fund.

"3. No provision is made for crediting the company with money paid for the vault right which it is proposed now to revoke."

This Bureau then took up the matter with Mr. George W. Wickersham, of counsel for the company, who, in a communication dated January 24, 1907, states:

"As to point 1 in our memorandum, we have decided not to press this point, but to accept the permit as satisfactory in the respects referred to in that point, except that I wish to obtain a report from our engineer as to the time when the occupation of the tunnels actually commenced."

(Subsequently, Mr. Wickersham advised me tunnels were not available until June 15, 1904.)

As to point 2, he suggests that the Interborough Company shall receive the interest which may become due from time to time upon the securities deposited; and as to point 3 he suggests:

"Instead of revoking the vault rights and crediting the company the payments made, the Board of Estimate and Apportionment should grant the franchise only to the extent not already covered by the vault permit which would involve a recognition of the vault right."

As the discharge and intake pipes, as well as a portion of the proposed tunnel, were under the sidewalk, this Bureau felt that the matter should be considered as one proposition before the local authorities, and included in it all of the space required to be used in the street, including that under the sidewalk. The matter was therefore submitted to the Corporation Counsel, with the request that he advise the Board whether, in the case of a tunnel or other subsurface structure, which extends outside of the curb line of the street, the Board should consider the entire tunnel between the house lines as one proposition or should only treat with that part under the roadway, leaving the part under the sidewalk to be considered as vault space under the jurisdiction of the President of the Borough, pursuant to the provisions of article 19 of chapter 5 of the Revised Ordinances of 1901.

The Corporation Counsel, in an opinion dated February 14, 1907, states as follows:

"I therefore believe, and so advise you, that a tunnel is to be regarded as a single structure from house line to house line, and the powers of the Board of Estimate and Apportionment being sufficiently broad under the provisions of the Greater New York Charter to cover both the street and the sidewalk, application must be made to such board for the right to construct and maintain the entire tunnel.

"Inasmuch as the Borough President has no authority or power to grant tunnel privileges under the sidewalks, any money paid for any privileges granted by such official should be returned and the company should be charged for its occupation thereof at the rate prescribed for tunnel privileges."

I would therefore suggest that the sum heretofore paid for vault space shall be applicable to and deducted from the first payment to be made under the terms of the consent.

I see no objections to adding a clause providing that the company shall receive interest on the securities, other than cash, deposited with the Comptroller for the faithful performance of the terms of the contract, as it has always been customary, without it being expressly stated, to pay to the company depositing such securities such rate of interest as has been fixed on the class of securities deposited.

As to the statement that tunnels were not available until June 15, 1904, it is suggested that in all previous consents the Board has prescribed that the compensation shall commence immediately upon the approval of the consent by the Mayor, so that it shall cover the time when the applicant is utilizing a portion of the street for construction purposes, and the date, October 1, 1902, inserted in the original consent, was supplied by the counsel to the company, who stated that on such date the construction was actually commenced.

I have therefore amended the original resolution presented at the meeting of January 18, 1907, by incorporating the above recommendations therein, and would suggest that the resolution, in its amended form, be adopted and the President of the Borough of Manhattan be requested to cancel the permit to maintain vault space when this consent becomes effective.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Interborough Rapid Transit Company, the owner of certain lands in the block bounded by Twelfth avenue, West Fifty-eighth street, Eleventh avenue and West Fifty-ninth street, in the Borough of Manhattan, City of New York, to maintain and operate a tunnel and two conduits under and across the roadway and sidewalk of Twelfth avenue and under the roadway and sidewalk of West Fifty-eighth street, to connect its powerhouse on the said block with a tunnel and two conduits under the marginal street, and thus to establish connection with the pier at West Fifty-eighth street, all as shown on plan entitled:

"Map to accompany application of October, 1906, from the Interborough Rapid Transit Company to the Board of Estimate and Apportionment for the right to maintain and operate condensing water conduits and a coal conveyor tunnel under Fifty-eighth street and Twelfth avenue;" and signed by Geo. W. Pegram, Chief Engineer, and E. P. Bryan, Vice-President;

—a copy of which is attached hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall be for a term not exceeding twenty-five (25) years from October 1, 1902, provided, however, that the consent for the tunnel, or either of the conduits, or all three herein authorized, may be canceled and annulled upon six (6) months' notice, in writing, to the said Interborough Rapid Transit Company, its successors or assigns, by the Board of Estimate and Apportionment or its successors in authority, and thereupon all rights of the said grantee, its successors or assigns, for such tunnel or conduits or both, in and upon the aforesaid portions of Twelfth avenue and West Fifty-eighth street, shall cease and determine.

2. The said Interborough Rapid Transit Company, its successors or assigns, shall pay into the treasury of The City of New York for the tunnel and the two conduits the following sums of money as compensation:

During the first five years the annual sum of \$2,400.
During the second five years the annual sum of \$2,520.
During the third five years the annual sum of \$2,646.
During the fourth five years the annual sum of \$2,778.
During the fifth five years the annual sum of \$2,917.

Such sums shall be paid in advance into the treasury of The City of New York on November 1 of each year; provided, however, that the first payment shall be the amount due from October 1, 1902, to November 1, 1907, less \$2,164 previously received by the Commissioners of the Sinking Fund for the existing vault space maintained by the company at the northeast corner of Twelfth avenue and Fifty-eighth street, which payment shall be made within sixty (60) days after the approval hereof by the Mayor.

No part of this compensation shall be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns, shall, at its own cost, cause all of the said tunnel and conduits to be removed and all that portion of Twelfth avenue and West Fifty-eighth street affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representative. If the tunnel and conduits to be maintained by the said grantee under this permit shall not be required to be removed, it is agreed that they shall become the property of The City of New York.

4. The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by acts of said grantee, its successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of
- The maintenance of said tunnel and conduits.
 - The protection of all surface and subsurface structures which have in any way been disturbed by the construction of said tunnel and conduits.
 - All changes in sewer or other subsurface structures made necessary by the construction and maintenance of said tunnel and conduits, including the laying or relaying of pipes, conduits, sewers or other structures.
 - The replacing or restoring of the pavement in said Twelfth avenue and West Fifty-eighth street, which may be disturbed by the maintenance and operation of said tunnel and conduits.
 - Each and every item of the increased cost of any future subsurface structure caused by the presence of said tunnel and conduits, whose existence is permitted under this consent.
 - The inspection of all work during the maintenance, operation, repair or removal of said tunnel and conduits, as herein provided, which may be required by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity.

6. Before any repairs or changes affecting the tunnel structures shall be commenced, the grantee shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. Said grantee shall perform all the duties which may be imposed by these officials as conditions of said permits, provided such conditions are not inconsistent with the provisions of this consent.

The grantee shall submit to these officials working plans which shall include and show in detail the method of repair of said tunnel and conduits, and the mode of protection or changes in all subsurface structures required by the said repairs.

7. The said tunnel and conduits shall be maintained and operated subject to the supervision, control and inspection of the proper authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

8. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in or on said Twelfth avenue and West Fifty-eighth street.

9. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, maintenance or operation of said tunnel and conduits, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

10. This consent is granted on the further and express condition that all laws and ordinances now in force or which may hereafter be adopted, shall be strictly complied with.

11. This consent is granted upon the express condition that the said grantee, within thirty (30) days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of ten thousand dollars (\$10,000), either in money or in securities to be approved by him, which fund shall be security for the performance of all the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement, provided, however, that the Interborough Rapid Transit Company shall be entitled to receive the interest which may become due from time to time upon the security, other than cash, deposited as herein provided. In case of default in the performance by said grantee of any such terms or conditions The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten (10) days' notice in writing, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the annual charges, shall collect the same, with interest, from such fund after ten (10) days' notice in writing to said grantee.

In case of any drafts so made upon the security fund the said grantee shall, within thirty (30) days after the date of written notice, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of ten thousand dollars (\$10,000), and in default of the payment thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights or causes of action belonging to The City of New York.

12. This consent shall not become operative until said grantee shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements of this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty (30) days after the approval by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, maintenance or operation of the tunnel and conduits herein authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Richmond and the Acting President of the Borough of Queens—16.

The following was offered:

Resolved, That the President of the Borough of Manhattan be and he hereby is requested to rescind the permit granted to the Interborough Rapid Transit Company to maintain vault space at the northeast corner of Twelfth avenue and Fifty-eighth street, Borough of Manhattan, when the consent to maintain the existing tunnels under West Fifty-eighth street, between Eleventh and Twelfth avenues, becomes effective.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Richmond and the Acting President of the Borough of Queens—16.

Interborough Rapid Transit Company.

In the matter of the application of the Interborough Rapid Transit Company for permission to maintain and use an existing ash conveyor tunnel under and across Twelfth avenue, between Fifty-eighth and Fifty-ninth streets, Borough of Manhattan, which was presented to the Board at its meeting of January 18, 1907, and referred to the Bureau of Franchises.

The petition is printed in full in the minutes of January 18, 1907.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, No. 280 BROADWAY,
February 25, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Interborough Rapid Transit Company, under date of December 20, 1906, has presented an application to the Board of Estimate and Apportionment for the right to maintain and use an ash conveyor tunnel across Twelfth avenue, between Fifty-eighth and Fifty-ninth streets, Borough of Manhattan. The application is accompanied by a plan entitled:

"Map of proposed work to accompany application of December 20, 1906, from the Interborough Rapid Transit Company to the Board of Estimate and Apportionment, for the right to construct, maintain and operate an ash conveyor tunnel under Twelfth avenue, New York City."

—and signed by Geo. H. Pegram, Chief Engineer, and E. P. Bryan, Vice-President.

The application was presented to the Board on January 18, 1907, together with a report prepared by the Bureau of Franchises previous to the receipt of the application. This report contained a statement of the facts with regard to the ash conveyor tunnel, as revealed by an investigation made by this Bureau, in accordance with a suggestion of the Hon. John F. Ahearn, President of the Borough of Manhattan, at the meeting of the Board of Estimate and Apportionment, held on November 23, 1906, and it would therefore seem unnecessary to repeat the facts here, except to state that the tunnel has already been constructed, the work having been commenced shortly after a form of permit had been issued by the Dock Department on June 13, 1906.

In response to communications addressed to the Hon. John F. Ahearn, President of the Borough of Manhattan, and the Hon. John H. O'Brien, Commissioner of Water Supply, Gas and Electricity, requesting the opinion of the various city departments having jurisdiction, replies have been received containing several conditions which it is desired to have included in the form of resolution usually adopted by the Board.

The Department of Water Supply, Gas and Electricity requests that there be inserted "the usual clause providing that notice be sent to the Department before work is commenced, and that the company shall pay the entire cost of inspection." The usual form of resolution provides for this, but the tunnel having already been constructed, this condition will only be operative in case of future necessary repairs.

Mr. Horace Loomis, Chief Engineer and Acting Superintendent of Sewers, states "that had this been an original proposition I should have had serious objections to the location of this tunnel across the avenue, since it cuts off all chance to build any sewer along Twelfth avenue in that block, but as the tunnel is already built under colorable authority from the Department of Docks, it is useless to make any objection now."

The form of resolution herewith presented to the Board for adoption contains a clause obligating the company to pay all the extra costs of subsurface structures necessitated by the existence of the ash conveyor tunnel, and I am of the opinion that this clause, in addition to the consent being revocable at any time by the Board, will amply protect the City's interests in this respect.

On January 23, 1907, I addressed a communication to the Hon. William B. Ellison, Corporation Counsel, requesting his opinion as to the jurisdiction of the Board of Estimate and Apportionment in the case of tunnels, where the subsurface structure extends under both the roadway and sidewalk of a public street, and he has replied as follows:

"I, therefore, believe, and so advise you, that a tunnel is to be regarded as a single structure from house line to house line, and the powers of the Board of Estimate and Apportionment being sufficiently broad under the provisions of the Greater New York Charter to cover both the street and the sidewalk, application must be made to such board for the right to construct and maintain the entire tunnel."

In accordance with this opinion, I have included in the form of consent herewith submitted, the entire ash conveyor tunnel between the easterly and westerly house lines of Twelfth avenue, a total distance of 100 feet.

I would suggest that the privilege be granted during the pleasure of the Board, and as has been customary in granting such consents, revocable at any time upon six months' notice in writing by the Board, but in no case shall such consent extend beyond October 1, 1927, which is the date upon which the right to maintain the coal conveyor tunnel and conduits under Fifty-eighth street will expire. I would also suggest that the sum of two thousand dollars (\$2,000) in money or securities to be approved by the Comptroller, be deposited with him for the faithful performance of the terms and conditions of the consent.

The assessed valuation of the abutting property averages \$3.74 per square foot, and the area occupied by the tunnel is 1,500 square feet.

On the rental basis usually adopted by the Board in similar cases, viz.: Eight per cent. per annum of the assessed valuation of the area occupied by tunnels used for the transportation of goods, etc., the first annual charge would be four hundred and fifty dollars (\$450). With a 5 per cent. increase for each succeeding term of five years, the compensation would be as follows:

- For the first five years, \$450 per annum.
- For the second five years, \$470 per annum.
- For the third five years, \$495 per annum.
- For the fourth five years, \$520 per annum.
- For the fifth five years, \$545 per annum.

These payments should be made from July 1, 1906, the approximate date of commencement of construction of the tunnel.

I herewith append the usual form of resolution for adoption.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Interborough Rapid Transit Company, the owner of certain lands in the block bounded by Twelfth avenue, West Fifty-eighth street, Eleventh avenue and West Fifty-ninth street, and in the block bounded by West Fifty-eighth street, Twelfth avenue, West Fifty-ninth street and the Hudson river, in the Borough of Manhattan, City of New York, to maintain and operate a tunnel under and across the roadway and sidewalk of Twelfth avenue from the easterly house line to the westerly house line thereof, about midway between Fifty-eighth and Fifty-ninth streets, to be used for the conveyance of ashes from its power house on the block east of Twelfth avenue, to its property on the block west of Twelfth avenue, all as shown on a plan entitled:

"Map of proposed work to accompany application of December 20, 1906, from the Interborough Rapid Transit Company to the Board of Estimate and Apportionment, for the right to construct, maintain and operate an ash conveyor tunnel under Twelfth avenue, New York City."

—and signed by George H. Pegram, Chief Engineer, and E. P. Bryan, Vice-President, a copy of which is attached hereto and made a part hereof, upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment or its successors in authority, and shall be revocable upon six (6) months' notice in writing to said grantee, its successors or assigns, but in no case shall said consent extend beyond October 1, 1927, and thereupon all rights of the said grantee, its successors or assigns, for such tunnel, in and upon the aforesaid portions of Twelfth avenue, shall cease and determine.

2. The said Interborough Rapid Transit Company, its successors or assigns, shall pay into the treasury of The City of New York, for the tunnel, the following sums of money as compensation:

- During the first five years, the annual sum of \$450.
- During the second five years, the annual sum of \$470.
- During the third five years, the annual sum of \$495.
- During the fourth five years, the annual sum of \$520.
- During the fifth five years, the annual sum of \$545.

Such sums shall be paid in advance into the Treasury of The City of New York on November 1 of each year; provided, however, that the first payment shall be the amount due from July 1, 1906, to November 1, 1907, which payment shall be made within sixty (60) days after the approval hereof by the Mayor.

No part of this compensation shall be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns, shall at its own cost, cause all of the said tunnel to be removed, and all that portion of Twelfth avenue affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives. If the tunnel to be maintained by the said grantee under this consent shall not be required to be removed, it is agreed that it shall become the property of The City of New York, without compensation.

4. The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by acts of said grantee, its successors or assigns, or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of:

- (a) The maintenance of said tunnel.
- (b) The protection of all surface and subsurface structures which have in way been disturbed by the construction of said tunnel.
- (c) All changes in sewer or other subsurface structures made necessary by the construction and maintenance of said tunnel, including the laying or relaying of pipes, conduits, sewers or other structures.
- (d) The replacing or restoring of the pavement and sidewalks in said Twelfth avenue, which may be disturbed by the maintenance and operation of said tunnel.
- (e) Each and every item of the increased cost of any future sewer, water main or other subsurface structure caused by the presence of said tunnel.
- (f) The inspection of all work during the maintenance, operation, repair or removal of said tunnel, as herein provided, which may be required by the President of the Borough of Manhattan, and the Commissioner of Water Supply, Gas and Electricity.

6. Before any repairs or changes affecting the tunnel structure shall be commenced, the grantee shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. Said grantee shall perform all the duties which may be imposed by these officials as conditions of said permits, provided such conditions are not inconsistent with the provisions of this consent.

The grantee shall submit to these officials working plans, which shall include and show in detail the method of repair of said tunnel, and the mode of protection or changes in all subsurface structures required by the said repairs.

7. The said tunnel shall be used only for the conveyance of ashes and the requirements and purposes necessary and incidental thereto, and shall be maintained and operated subject to the supervision, control and inspection of the proper authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

8. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in or on said Twelfth avenue.

9. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, maintenance or operation of said tunnel, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

10. This consent is granted on the further and express condition that all laws and ordinances now in force or which may hereafter be adopted shall be strictly complied with.

11. This consent is granted upon the express condition that the said grantee, within thirty (30) days after its approval by the Mayor and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of two thousand dollars (\$2,000), either in money or in securities to be approved by him, which fund shall be security for the performance of all the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement, providing, however, that the Interborough Rapid Transit Company shall be entitled to receive the interest which may become due from time to time upon the security, other than cash, deposited as herein provided. In case of default in the performance by said grantee of any of such terms or conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten (10) days' notice in writing, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or in case of default in the annual charges, shall collect the same, with interest, from such fund after ten (10) days' notice in writing to said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, within thirty (30) days after the date of written notice, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand dollars (\$2,000), and in default of the payment thereof, the consent hereby given may be canceled and annulled at any time thereafter, and without further notice to the grantee, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights or causes of action belonging to The City of New York.

12. This consent shall not become operative until said grantee shall duly execute an instrument in writing, wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements of this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty (30) days after the approval by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, maintenance or operation of the tunnel herein authorized. Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Richmond and the Acting President of the Borough of Queens—16.

Schwarzschild & Sulzberger Company.

In the matter of the application of the Schwarzschild & Sulzberger Company for permission to construct, maintain and operate a tunnel under and across East Forty-sixth street, to connect premises known as Nos. 410 to 416 and No. 413 East Forty-sixth street, Borough of Manhattan, for the purpose of carrying steam and salt water pipes, electric wires and to be used as a passageway between said buildings, which was presented to the Board at its meeting of February 1, 1907, and referred to the Bureau of Franchises for investigation and suggestions.

The petition is printed in full in the minutes of February 1, 1907.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,
BUREAU OF FRANCHISES, ROOM 79, NO. 280 BROADWAY,
February 23, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—A verified petition, dated January 24, 1907, from Schwarzschild & Sulzberger Company, was presented to the Board of Estimate and Apportionment on February 1, 1907, requesting permission to construct, maintain and use a tunnel under and across East Forty-sixth street, between First avenue and the East River, Borough of Manhattan. The tunnel is to connect the properties owned by the company, known respectively as Nos. 410-416 and No. 413, being located upon opposite sides of the street, and it is to be used for carrying steam pipes, electric wires and salt water pipes and as a passageway between the buildings.

The application was referred to the Bureau of Franchises for investigation and report.

The location of the centre line of the tunnel is 192 feet 1/4 inches easterly from the easterly line of First avenue, and is shown upon a plan accompanying the application and entitled:

"Plan showing location of proposed tunnel to be constructed beneath Forty-sixth street, Borough of Manhattan, to accompany application of Schwarzschild & Sulzberger Company to the Board of Estimate and Apportionment, New York City, dated January 29, 1907," and signed by M. J. Sulzberger, vice-president and treasurer, the plan being dated August 15, 1906.

Copies of the application and plan were forwarded to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, with a request that these officials have the project examined by the respective bureaus in their Departments, with a view of ascertaining if there were any objections to the construction, or any special conditions which should be added to the usual form of consent for similar privileges.

A reply was received from the President of the Borough of Manhattan stating that there was no special objection to the construction, but suggesting that the applicant be required to relay that portion of the sewer lying beneath the proposed tunnel upon a solid bed of concrete. This has been provided for in the form of consent.

The Commissioner of Water Supply, Gas and Electricity reported that there was no objection to the building of the tunnel as proposed.

I have no objection to offer to the construction of the tunnel and would, therefore, suggest that the consent of the Board of Estimate and Apportionment be granted for the construction of the tunnel, the said consent to continue only during the pleasure of the Board, and to be revocable at any time upon ninety (90) days' notice in writing to the Schwarzschild & Sulzberger Company, provided that in no case shall the consent continue beyond a term of twenty-five (25) years from the date of approval by the Mayor, and provided also that the sum of seven hundred dollars (\$700) in money or securities, to be approved by the Comptroller, be deposited with him as security for the faithful performance of the terms and conditions of the consent.

In a communication from the Corporation Counsel, dated February 14, 1907, after quoting section 242 of the Charter of Greater New York, which relates to the powers of the Board of Estimate and Apportionment over streets, avenues, etc., he states:

"I, therefore, believe, and so advise you, that a tunnel is to be regarded as a single structure from house line to house line, and the powers of the Board of Estimate and Apportionment being sufficiently broad under the provisions of the Greater New York Charter to cover both street and sidewalk, application must be made to such board for the right to construct and maintain the entire tunnel."

The tunnel is to be 16 feet wide, outside to outside of walls, and 60 feet long, the width of the street between the house lines, thus occupying 960 square feet of the street. The average assessed value of the abutting property is \$3.27 per square foot, which would make the value of the area occupied by the tunnel \$3,139. The annual compensation to be paid to the City for such privilege, as established by precedent of the Board, is eight per cent. (8%) of this valuation, amounting to \$251.12 during the first term of five years, increasing at the rate of five per cent. (5%) for each successive term of five years.

I would, therefore, suggest that the compensation to be paid by Schwarzschild & Sulzberger Company be fixed as follows:

- During the first five years the annual sum of \$250.
- During the second five years the annual sum of \$265.
- During the third five years the annual sum of \$275.
- During the fourth five years the annual sum of \$290.
- During the fifth five years the annual sum of \$305.

The compensation should commence upon the date of the approval of this consent. The applicant should also pay such fees for opening the street as may be determined by the President of the Borough of Manhattan.

I transmit herewith a resolution for consideration and adoption by the Board.

Respectfully,
HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Schwarzschild & Sulzberger Company, a corporation organized and existing under the laws of the State of New York, owner of certain properties on both sides of East Forty-sixth street, between First avenue and the East river, Borough of Manhattan, to construct, maintain and use a tunnel under and across said East Forty-sixth street, connecting Nos. 410-416 and 413; to be used for carrying steam pipes, electric wires and salt water pipes, and to be used as a passageway between said properties.

The location of the tunnel is shown upon a plan accompanying the application, and entitled:

"Plan showing location of proposed tunnel to be constructed beneath Forty-sixth street, Borough of Manhattan, to accompany application of Schwarzschild & Sulzberger Company, to the Board of Estimate and Apportionment, New York City, dated January 27, 1907," and signed by M. J. Sulzberger, Vice-President and Treasurer, the plan being dated August 15, 1906,

—a copy of which is hereto annexed and made a part hereof, upon the following terms and conditions:

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment, or its successors in authority, and shall be revocable upon ninety (90) days' notice in writing to said grantee, its successors and assigns, but in no case shall said consent extend beyond a term of twenty-five (25) years from the date of approval of this consent by the Mayor, and thereupon all rights of the said Schwarzschild & Sulzberger Company, its successors and assigns, in said Forty-sixth street, shall cease and determine.

2. The said Schwarzschild & Sulzberger Company, its successors or assigns, shall pay into the treasury of The City of New York, the following sums of money:
During the first five years, the annual sum of \$250.
During the second five years, the annual sum of \$265.
During the third five years, the annual sum of \$275.

During the fourth five years, the annual sum of \$290.

During the fifth five years, the annual sum of \$305.

Such sums shall be paid into the treasury of The City of New York on November 1 of each year, provided, however, that the first payment shall be only such portion of \$250 as the time between the approval of this consent and November 1st following shall bear to the whole year. The compensation herein reserved shall commence from the date of approval hereof by the Mayor and shall be paid annually in advance. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatever kind or description now or hereafter to be paid under any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee, its successors or assigns, shall at its own cost, cause the tunnel to be removed and all that portion of East Forty-sixth street affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York, or its duly authorized representatives. If the tunnel to be constructed by said grantee under this consent shall not be required to be removed, it is agreed that the said tunnel shall become the property of The City of New York.

4. The consent hereby given is for the exclusive use of the grantee and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any person or corporation whatsoever, either by the acts of said grantee, its successors or assigns, or by operation of law, without the consent, in writing, of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority.

5. The said grantee shall pay the entire cost of:

- (a) The construction and the maintenance of the tunnel.
- (b) The protection of all surface and subsurface structures which shall in any way be disturbed by the construction of the tunnel.
- (c) All changes in sewer or other subsurface structures made necessary by the construction of the tunnel, including the laying or relaying of pipes, conduits, sewers or other structures.
- (d) The replacing or restoring the pavement in said street which may be disturbed during the construction of said tunnel.
- (e) Each and every item of the increased cost of any future substructure caused by the presence of said tunnel under this consent.
- (f) The inspection of all work during the construction or removal of the tunnel, as herein provided, which may be required by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction shall be begun, the grantee shall obtain permits to do the work from the President of the Borough of Manhattan and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed upon the grantee by these officials, as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to these officials working plans which shall include and show in detail the method of construction of such tunnel and the mode of protection or changes in all subsurface structures required by the construction of the tunnel.

7. The grantee, its successors or assigns, shall allow to The City of New York a right of way through, under or above any part of the tunnel constructed under the consent hereby granted, for any and all subsurface structures which are now or may be hereafter placed by The City of New York in that portion of East Forty-sixth street occupied by said tunnel.

8. The said tunnel and all pipes and electrical conductors laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York. The said tunnel shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York.

9. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in and to East Forty-sixth street.

10. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction and operation or maintenance of said tunnel, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

11. This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

12. Said grantee, its successors or assigns, shall commence the construction of said tunnel under this consent and complete the same within nine months from the day of the approval of this consent by the Mayor; otherwise this consent shall be forfeited forthwith and without any proceeding, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding three months.

13. This consent is upon the express condition that the said grantee, within thirty days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven hundred dollars (\$700), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge and the repairs of the street pavement. In case of default in the performance by said grantee of any of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs, after ten (10) days' notice in writing, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or, in case of default in the payment of the annual charges, shall collect the same, with interest, from such fund after ten (10) days' notice in writing to the said grantee.

In case of any draft so made upon the security fund, the said grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of seven hundred dollars (\$700), and in default of the payment thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

14. Said grantee shall give notice to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, in writing, of its intention to begin construction of the work hereby authorized at least forty-eight (48) hours before such construction commences. The grantee shall also give to the Board

of Estimate and Apportionment notice in writing of the date on which the work is commenced and also the date on which the same is completed.

15. This consent shall not become operative until said grantee shall duly execute an instrument in writing, wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, use, maintenance or operation of the tunnel hereby authorized.

New York Central and Hudson River Railroad Company, for Itself and as Lessee of the New York and Harlem Railroad Company.

In the matter of the application of the New York Central and Hudson River Railroad Company, for itself, and as lessee of the New York and Harlem Railroad Company, for a franchise or right to construct, maintain and use ducts or subways through certain streets and avenues in the Borough of The Bronx, for the purpose of electrifying its lines in conformity with chapter 425 of the Laws of 1903, upon which a report was submitted to the Board at its meeting of September 28, 1906, from the Bureau of Franchises, suggesting terms and conditions to govern the grant, together with a proposed form of contract.

On November 23, 1906, the matter was referred to a Select Committee, which submitted to the Board, on February 15, 1907, a report suggesting certain modifications in the contract previously submitted by the Bureau of Franchises, which report was adopted on that day and the Bureau of Franchises instructed to incorporate in the proposed form of contract the provisions contained in the report of the Select Committee.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,

BUREAU OF FRANCHISES, ROOM 79, NO. 280 BROADWAY,

February 20, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, petitioned the Board of Estimate and Apportionment on June 8, 1906, for a franchise for the right to construct ducts or subways through certain streets in the Borough of The Bronx.

The application was reported upon by the Bureau of Franchises on September 24, 1906, when a proposed form of contract embodying the terms suggested in the report was submitted. At the meeting on November 23, 1906, the matter was referred to a Select Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of The Bronx.

The committee, under date of February 6, 1907, reported to the Board in detail upon the terms which the company wished modified. The report of the committee was, on February 15, 1907, adopted by the Board, and was referred to the Bureau of Franchises, with instructions to incorporate in the proposed form of contract the provisions contained in the report of the committee. The changes as recommended by the committee are as follows:

1. That the compensation be fixed at \$4,500 per annum, instead of \$6,000, as originally proposed.
2. That clause 11 be modified so that the company be required to restore the surface of the street to its original condition after constructing the subway, and at any time thereafter when the surface of the street is disturbed by the company. That the company be required to pay for the cost of paving or repaving, and keep in repair the surface of the street for a distance of five feet from all splicing chambers or man-holes during the entire term of the agreement.
3. That clause 14, which provides for the reservation of two ducts for the use of the City, be omitted.
4. That clause 23, restricting the subway to the use of the company and to the purpose of transmitting electrical power for the operation of trains, be extended to the use of railroads owned or leased by the New York Central Railroad Company, and for the operation, management and maintenance of such railroads.
5. That the company should be required to deposit as surety railroad or city bonds to the amount of \$10,000.

I have incorporated these changes, as I understand them, in the proposed form of contract.

As regards the fifth recommendation mentioned above, I believe the proposed contract provides for the same surety as that recommended by the committee. It provides that the company deposit with the Comptroller \$10,000, either in money or in securities, to be approved by him at the time such securities are deposited. I will, therefore, not change the clause unless further directed by the Board.

If it is the intention of the Board to grant the franchise, the terms and conditions as now modified by the Select Committee should be tentatively approved and forwarded to the Corporation Counsel, that he may draw a form of contract and incorporate therein such matter as he may deem necessary to fully protect the interests of the City. When approved by the Corporation Counsel the contract should be entered upon the minutes of the Board, and after such entry the same should be published at least twenty (20) days in the CITY RECORD and at least twice in two daily newspapers. A date must be set for a public hearing after the proposed form has been so advertised, when the Board will be in a position to take final action on the grant.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Whereas, The New York Central and Hudson River Railroad Company, for itself and as lessee of the New York and Harlem Railroad Company, has made application to the Board of Estimate and Apportionment for a franchise to construct, maintain and operate ducts or subways in certain streets in the Borough of The Bronx; and

Whereas, On September 28, 1906, a public hearing was had upon the aforesaid application; and

Whereas, An inquiry has been conducted by the Bureau of Franchises, and a report dated September 24, 1906, has been received from said Bureau proposing terms and conditions to be imposed should the franchise be granted; and

Whereas, A Select Committee of the Board has, in a report dated February 6, 1907, recommended that the terms and conditions be modified as contained in said report; now therefore be it

Resolved, That this Board adopts such inquiry as the inquiry of the Board, and tentatively approves the terms and conditions proposed by the Bureau of Franchises with the modifications suggested by the Select Committee; and be it further

Resolved, That the Corporation Counsel be requested to draw a contract in accordance with the terms and conditions proposed, and to incorporate therein such matter as in his opinion would seem advisable to fully protect the interests of the City.

Which was adopted by the following vote:

Manhattan Refrigerating Company.

By resolution adopted by the Board February 1, 1907, the President of the Borough of Manhattan was requested to make formal demand upon the Manhattan Refrigerating Company for the removal of certain pipes illegally maintained by it under certain streets and avenues, and in the event of the failure of the company to remove such pipes, the said President was requested to remove same and charge the expense of such removal to the company.

A communication, dated February 13, 1907, was received from the Commissioner of Public Works, Borough of Manhattan, transmitting a communication, dated February 11, 1907, from the Chief Engineer, and approved by the Superintendent of Highways, stating a notice signed by the Borough President was served upon the company to remove within ten days from the date of service of such notice the pipes illegally maintained in the streets by said company and further stating the Borough President will comply with the further provisions of the resolution.

The President of the Borough of Manhattan stated that, owing to the unfavorable weather conditions, he was averse to tearing up the street pavement at this time, and had therefore extended the time thirty days in which to remove the pipes.

The communication was thereupon ordered filed.

Manhattan Refrigerating Company.

By resolution adopted by the Board February 1, 1907, the Manhattan Refrigerating Company was directed to present an application to this Board on or before February 25, 1907, for permission to maintain the existing intake pipe from the pier at the foot of Gansevoort street to the warehouse of the company in Horatio street, Borough of Manhattan.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of the Manhattan Refrigerating Company respectfully shows:

First—That the said Manhattan Refrigerating Company is a corporation duly organized and existing under the laws of the State of New York, having its principal place of business at the northeast corner of West and Horatio streets, in the Borough of Manhattan, City of New York, and has built and is operating upon said premises a large plant for artificial refrigeration, conducting a cold storage warehouse and also a pipe line for the supply of customers in the market and others whose places of business front on certain streets and avenues in the immediate vicinity. That the said premises are shown upon the plan submitted herewith and that your petitioner is the lessee in possession thereof.

Second—That on the 22d day of October, 1903, your petitioner applied to the Commissioner of Docks of the Borough of Manhattan, City of New York, for permission to run a pipe not to exceed twelve inches through the bulkhead and under Pier 56, foot of Gansevoort street, North river, for the purpose of obtaining water for its refrigerating plant and on or about the 23d day of October, 1903, the said Commissioner granted such application, the permit to remain in force only during the pleasure of the Commissioner, and all work in connection with the running of the pipe through the bulkhead to be done under the direction and supervision of the Engineer-in-Chief of the Dock Department and in such a manner as not to interfere in any way or hamper the Fire Department in the use of the pier, at a compensation at the rate of three hundred dollars (\$300) per annum, payable quarterly in advance to the Cashier of said Department for such privilege.

Third—That thereafter and pursuant to such permit such pipe was duly laid, as shown on the plan submitted herewith, entitled "Plan showing location of salt water pipe line on Horatio, West and Gansevoort streets, Thirteenth avenue and open pier, Borough of Manhattan, to accompany application of the Manhattan Refrigerating Company to the Board of Estimate and Apportionment, City of New York, dated November 15, 1906," and has since been and is now being used by your petitioner for the purposes aforesaid, and that your petitioner has duly paid to said Dock Department the compensation fixed by such permit.

Fourth—That your petitioner has recently been informed that the maintenance and use of such pipe by your petitioner is claimed by your Honorable Board to be unlawful and that your said Honorable Board duly adopted a resolution on February 1, 1907, requesting your petitioner to make application in writing, duly verified, to your Honorable Board on or before February 25, 1907, for the right to maintain the said pipe as now constructed, and this petition is accordingly presented to your Honorable Board with the aforesaid plan accompanying the same.

Wherefore your petitioner prays that it may maintain and operate such pipe as now constructed, as shown on such plan, from its buildings to Horatio street, thence westerly along Horatio street to West street, thence northerly along West street to Gansevoort street, thence again westerly along Gansevoort street to Thirteenth avenue, thence northerly along Thirteenth avenue to a point opposite said pier, and thence westerly under said pier to the Hudson river, and that a proper permit or franchise may be granted therefor.

Dated, February 21, 1907.

Respectfully submitted,

[SEAL.] MANHATTAN REFRIGERATING COMPANY,

City and County of New York, ss.:

T. Albeus Adams, being duly sworn, deposes and says: That he has read the foregoing petition and knows the contents thereof, and that the same is true except as to the matters therein stated to be alleged on information and belief, and that as to those matters he believes the same to be true. That the petitioner named in the foregoing petition is a corporation as therein alleged, and that deponent is the President thereof, for which reason this verification is made by him.

The Secretary presented the following:

NEW YORK, February 21, 1907.

To the Honorable Board of Estimate and Apportionment, No. 277 Broadway, Borough of Manhattan, City of New York:

GENTLEMEN—On February 1, 1906, the undersigned made an application to your Board for leave to construct and maintain a tunnel under and across the roadway of Livingston street, in the Borough of Brooklyn, to connect the buildings owned or leased by us on both sides of the said street, said tunnel being 25 feet in width and the southeasterly side of the southeasterly wall thereof being 8 inches southeasterly of the building line of Gallatin place, as shown on the map annexed hereto. The application asked the consent of this Board, on behalf of the City, to construct the tunnel aforesaid in that part of Livingston street designated on the annexed map by the letters A, B, E and F. Said application was duly granted by this Board on April 27, 1906, and duly approved by the Mayor May 2, 1906, a copy of which application is hereto annexed. In this resolution the rental was fixed at the sum of \$800 each year for the first five years, with an additional increase of 5 per cent. every five years, the space in the roadway to be occupied by the tunnel being 25 feet wide by 50 feet in length. Under such permission the tunnel was constructed and is now completed. At the time the said application was made it was intended to use the tunnel as a

passageway for transferring goods and heat and power from the property of the petitioner on the south side of said street to that on the north side, but that idea has been temporarily abandoned and the tunnel, as it now stands, extends only to the curb line of the south side of the street, where it is bricked up with a wall and is used only for the storage of goods.

It recently developed that the undersigned were, at the time of said application, and now are, the owners of that part of Livingston street, designated on the annexed map by the letters A, B, C and D, as appears by a deed from Paul Grout and wife to James Matthews and Gardiner D. Matthews, composing the firm of A. D. Matthews' Sons, dated April 12, 1905, a certified copy of which is hereto annexed. As the owners of such land (that shown on the annexed map by the letters A, B, C and D) it was unnecessary for us to secure the permission of this Board to construct our tunnel therein. That part of Livingston street which we own (so far as it affects this tunnel) is 35 feet long by 25 feet wide, leaving only 15 feet of the roadway, which we do not own. We are therefore paying the sum of eight hundred dollars (\$800) a year for a space 50 feet by 25 feet, while, by law, we should only be compelled to pay for that part of the roadway which we do not own in fee, to wit, 15 feet long by 25 feet wide, which at the rate already fixed would amount to about \$240 a year. We are, therefore, paying the sum of \$560 a year in excess of what we should be compelled to pay.

As the fact of such ownership was not discovered until after the adoption of the above mentioned resolution we ask that the said resolution of this Board, dated April 27, 1906, be rescinded and that we be allowed to construct and maintain a tunnel in that part of Livingston street, designated on the annexed map by the letters C, D, E and F, and being the 15 feet of the roadway which we do not own in fee.

Respectfully yours,

A. D. MATTHEWS' SONS,
By JAMES MATTHEWS, one of the firm.

Which was referred to the Bureau of Franchises for investigation and suggestions.

Abraham & Straus.

A communication, dated February 14, 1907, was received from Edward M. Grout and Paul Grout, stating that the tunnel under and across Livingston street, in the Borough of Brooklyn, which Abraham & Straus were authorized to construct, was completed.

This notice is in conformity with section 14 of the consent granted by the Board by resolution adopted January 4, 1907; approved by the Mayor January 8, 1907.

The communication was ordered filed.

Fort George Street Railway Company.

In the matter of the application of the Fort George Street Railway Company for a franchise to construct, maintain and operate a street surface railroad from the Dyckman street station of the Subway, along St. Nicholas avenue to One Hundred and Ninetieth street, Borough of Manhattan, upon which a report was submitted to the Board on January 18, 1907, from the Bureau of Franchises, and the matter was on that date referred to a Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan.

A communication, dated February 25, 1907, was received from A. Leo Everett, of counsel to the company, transmitting a certified copy of a revised traffic agreement entered into between this company and the Interborough Rapid Transit Company for a period of twenty-five years, and requesting that in view of this agreement the company be granted a franchise for that period instead of ten years, as proposed in the report previously submitted to the Board by the Bureau of Franchises.

Which was referred to the Select Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan, to whom this matter was referred at the meeting of January 18, 1907.

The following matters, not on the calendar, were considered by unanimous consent:

R. H. Macy & Co.

By resolution adopted by the Board January 18, 1907, and approved by the Mayor January 22, 1907, the firm of R. H. Macy & Co. was granted an extension of time in which to complete construction of a single track railroad spur on the north side of West Thirty-fourth street, connecting its premises on Broadway, between West Thirty-fourth and West Thirty-fifth streets, with the existing railroad tracks in front of said premises, the construction of which spur track was authorized by resolution adopted by the Board July 6, 1906, and approved by the Acting Mayor July 13, 1906.

Pursuant to such consent the grantee filed a certificate of acceptance, which was forwarded to the Corporation Counsel for approval.

The Secretary presented the following:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, February 26, 1907.

Board of Estimate and Apportionment:

GENTLEMEN—I have received from you the following communication, dated February 18, 1907:

"I inclose herewith for your approval as to form a certificate of acceptance executed by R. H. Macy & Co., pursuant to a resolution adopted by the Board of Estimate and Apportionment January 18, 1907, and approved by the Mayor January 22, 1907, granting to said company an extension of time in which to complete construction of a single track railroad spur on the north side of West Thirty-fourth street, connecting their premises on Broadway, between West Thirty-fourth street and West Thirty-fifth street, with existing railroad track in front of said premises, the construction of which track was authorized by resolution adopted July 6, 1906, and approved by the Acting Mayor July 13, 1906.

"I also inclose certified copy of resolution granting said extension."
I have before me an opinion of the Appellate Division in the case of Edward P. Hatfield and others vs. Isidor Straus and others, which was handed down by the said court to-day.

This was an appeal involving the question of the right of the Board of Estimate and Apportionment to consent to the construction and operation by the said firm of the tracks in question. In the opinion of Clarke, J., it was stated:

"Upon reason and authority, therefore, I reach the conclusion that there is no power lodged in the Board of Estimate and Apportionment or any local authority to grant the permit here under consideration."

If the Board of Estimate and Apportionment have not the right to grant the consent in question, it follows that such Board would not have the right to grant an extension of time within which such work might be completed.

I, therefore, return to you the said certificate of R. H. Macy & Co. without my approval.

Respectfully yours,

WILLIAM B. ELLISON, Corporation Counsel.

The Secretary was directed to transmit copies of the opinion to each of the members of the Board, the Commissioner of Water Supply, Gas and Electricity, and the grantee.

Abraham & Straus.

The Secretary presented a communication from the President of the Borough of Brooklyn, transmitting an opinion, dated February 14, 1907, involving the right of Abraham & Straus to maintain a tunnel in Livingston street, connecting their buildings on both sides of such street, as follows:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, February 14, 1907.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

SIR—I have before me two communications from you involving the right of Abraham & Straus to maintain a tunnel in Livingston street, connecting their buildings on both sides of such street.

The earlier communication, that of September 21, 1906, only involves the question as to what official or body has jurisdiction over a four foot strip that was formerly part of the sidewalk, but which, by the widening of the street, was added to the roadway. Said letter of September 21, 1906, reads as follows:

"I find that the President of the Borough of Brooklyn on December 4, 1905, granted a permit to the firm of Abraham & Straus for the construction of a vault on the south side of Livingston street, beginning at a point 200 feet west of Hoyt street and extending therefrom westerly a distance of 200 feet to the centre of Gallatin place; this permit was for a vault for a width outside the house line of 19 feet, which was at that time the legal width of the sidewalk, as far as I can determine.

"On March 13, 1906, the Board of Aldermen passed a resolution fixing the width of sidewalks on Livingston street at 15 feet, thus reducing the sidewalks and adding four feet to the roadway at each side.

"The granting of franchises or permits for tunnels or other constructions of this nature in the roadways of streets (that is between the curb lines) is under the jurisdiction of the Board of Estimate and Apportionment, which determines the rate of compensation to the City.

"The question before me now is whether the permit originally granted by the President of the Borough of Brooklyn and covering the 4-foot strip now in the roadway would be sufficient to preserve the rights of the grantees to the space so occupied in the roadway of a public street, or whether it will be necessary to revoke this permit and require the grantee to obtain a franchise in the regular way from the Board of Estimate and Apportionment. On the basis of the franchises already granted by the said Board, the additional amount of compensation the City would receive in case another franchise for the 4-foot strip was required would probably amount, in total payments received for the term of twenty-five years, to approximately the sum of \$10,750.

"Please advise me what action is necessary."

I delayed answering your communication for the reason that since its receipt said firm has made application to the Board of Estimate and Apportionment and on January 4, 1907, was granted a permit for the continued use of such tunnel for a period of twenty-four years, revocable on six months' notice on the usual terms and conditions. Such resolution was approved by the Mayor on January 8, 1907.

In your communication of December 27, 1906, you forwarded me a communication addressed to the Commissioner of Public Works on December 21, 1906, in which the Assistant Commissioner stated as follows:

"On examining the records of the Permit Bureau, I find no trace of a permit being issued to Abraham & Straus for a vault privilege to cover their tunnel on what was old Livingston street, that is, the north side of the present Livingston street. Since there is no record of any permit, it follows that nothing was ever paid by them for this vault privilege. As their tunnel on old Livingston street covers about 2,000 square feet, this is a considerable item. Before writing to Abraham & Straus, I think it would be wise to secure an opinion from the Corporation Counsel as to whether or not we have the right to charge for a vault privilege, in a case where the owner of the abutting property also owns the fee of the street, as is the case with old Livingston street. I would therefore suggest that this question be submitted to the Corporation Counsel.

"I would also have incorporated in this inquiry, the question as to whether we have the right to charge for this vault privilege now that the tunnel has been constructed, and also in view of the fact that on November 8, the Mayor approved an ordinance for changing the price to be charged for vault permits, whether we should charge the old rate or the new rate for the Abraham & Straus permit, if we have any right to charge at all. In view of the fact that this whole vault question is up for consideration by you at the present time, I should think it would be wise to secure this opinion as soon as possible. * * *

By your letter of December 27, it appears the firm of Abraham & Straus never obtained a permit for that part of Livingston street, the fee of which is still in the adjoining property owners, so that the said firm claims its right to maintain the tunnel in part from a permit of the Borough President; in part under permission of the Board of Estimate and Apportionment, and the balance without any apparent authority granted by the City. Under such circumstances, it would seem proper that the whole situation should be treated in its larger aspect so that the rights of the said firm in the street and of any other person or persons claiming similar rights may be definitely determined.

It has been claimed that the President of the Borough of Brooklyn has wide powers of control over the streets in said Borough, owing to a certain ordinance of the former City of Brooklyn. This ordinance provided:

"No person shall cause or procure any vault or cistern to be constructed or made in any street or avenue without a permit from the Department of City Works and paying the sum of ten cents per superficial foot for the use of the City, or shall cause the same to be extended further than one-quarter of the width of the street beyond the line of the street adjoining his property." Section 4, article 6, chapter 3, Ordinances of the City of Brooklyn.

It would appear from this that the width of the sidewalk bore no relation to the proportions of the vault under it, the size of the vault being only limited to one-quarter of the width of the street.

By section 41 of the Greater New York Charter the ordinances of the former City of Brooklyn and of other constituent parts of the Greater City of New York were continued in force "so far as the same are not inconsistent with this act."

By section 383 of the Charter the President of the Borough is given control "of licensing vaults under sidewalks."

Section 242 gives wide powers of control and jurisdiction to the Board of Estimate and Apportionment over the streets and public grounds of the City, which control would not only cover the streets themselves, but the sidewalks as well. This section provides in part as follows:

"The Board of Estimate and Apportionment shall have also (3) the control of all the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers and all other public grounds and waters within or belonging to the City; except as in this act otherwise provided."

In view of the above, I am of the opinion that the said ordinance of the former City of Brooklyn is no longer in force and that a right in the streets, in the nature of the one stated in your communication of September 21, 1906, is within the jurisdiction and control of the Board of Estimate and Apportionment.

By changing the sidewalk and adding four feet of the former sidewalk to the roadway such increased portion of the roadway was no longer under the jurisdiction of the Borough President, and an application for a continued use of a vault or tunnel thereunder would have to be made to the Board of Estimate and Apportionment.

There are, however, two larger and more important questions to be answered. First, as to whether a tunnel shall be treated as a continuous structure from house line to house line, requiring the consent of the Board of Estimate and Apportionment, and, second, whether the ownership of the street, in whole or part, by an abutting property owner gives such property owner any right to construct a tunnel under such street.

On the first point I wish to state that it is my opinion that a vault and a tunnel are not the same; the former, as defined in the dictionaries, being "a cellar or subterranean chamber," while the latter is defined as "a gallery, passage or roadway beneath the ground." Such a tunnel as is maintained by Abraham & Straus cannot be regarded as a vault part of the way and a tunnel for the balance, but is a tunnel from house line to house line, for the right to maintain which permission must be received from the Board of Estimate and Apportionment.

On the second point I am of the opinion that the ownership of the fee of the street by Abraham & Straus does not give them the right to maintain a tunnel thereunder without the consent of the Board of Estimate and Apportionment on the usual terms and conditions.

This naturally follows from the fact that any title that the owner of the abutting property may have in the street is subject to the right of the City to use such

street for street purposes, and any such use as that claimed by Abraham & Straus would interfere with the right of the City therein.

The tendency of the courts has been to increase the right which was incident to such easement of the public use, particularly in cities where, on account of the incoming of modern improvements, the subsurface of the streets is being continually used to a greater extent, and where, on account of the congestion of the population, the surface of the street becomes insufficient for transportation purposes and elevated and subsurface structures have to be resorted to.

As stated in *Castle vs. Bell Telephone Company*, 49 App. Div., 437, at 439:

"And at the outset it may be relevant to suggest that a public highway, while primarily intended for the accommodation of travelers employing the ordinary means of locomotion, such as vehicles drawn by animals, is, nevertheless, in another and broader sense a public convenience. It is appropriated for that purpose, and when thus taken or dedicated nothing remains in the original proprietor but the naked fee, for, as has been well said, lands thus appropriated 'are acquired for the purpose of providing a means of free passage common to all the people, and consequently may be rightfully used in any way that will subserve that purpose.' By the taking the public acquired a right of free passage over every part of the land, not only by the means in use when the lands were taken, but by such other means as the improvements of the age and new wants, arising out of an increase in population or enlargement of business may render necessary. It is perfectly consistent with the purposes for which the streets are acquired that the public authorities should adapt them in their use to the improvements and convenience of the age. *Halsey vs. Rapid Transit St. R. Co.*, 47 N. J. Eq., 380-384."

In that case the Court said in conclusion:

"The rule which commends itself to our approval in cases of this character is the one which is laid down by the Supreme Court of the United States, in which it declared that 'on the general question as to the rights of the public in a city street, we cannot see any material difference in principle with regard to the extent of those rights whether the fee is in the public or in the adjacent land owners, or in some third person. In either case the street is legally open and free for the public passage and for such other public uses as are necessary for a city, and do not prevent its use as a thoroughfare.' *Barney vs. Keokuk*, 94 U. S., 324-340."

For the foregoing reasons I am of the opinion that Abraham & Straus have no right to maintain any part of the tunnel in question, except that part specifically authorized by the Board of Estimate and Apportionment. Said firm should, therefore, make application to such Board for the right to maintain the balance of such tunnel, and any moneys paid by them by mistake to the Borough President for vault privileges should be returned to them.

Respectfully yours,

WILLIAM B. ELLISON, Corporation Counsel.

The Secretary was directed to forward copies of the opinion to each of the members of the Board and to Messrs. Abraham & Straus.

New York Connecting Railroad Company.

The Secretary presented a communication from the Board of Rapid Transit Railroad Commissioners for The City of New York, transmitting a certificate, dated February 14, 1907, duly executed by the Board of Rapid Transit Railroad Commissioners and accepted by the railroad company, granting certain rights and franchises to the New York Connecting Railroad Company for the consent of this Board, as the local authorities, for the construction and operation of the railroad described in said certificate.

The following was offered:

Resolved, That the communication be received, and in pursuance of law, this Board hereby appoints Friday, the 8th day of March, 1907, at 10.30 o'clock in the forenoon as the time, and Room 16 in the City Hall, Borough of Manhattan, as the place when and where such certificate and franchise therein contained will be considered; and be it further

Resolved, That the Secretary be directed to cause notice of such consideration to be published in the CITY RECORD.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Richmond and the Acting President of the Borough of Queens—16.

The full minutes of the meeting of this day will appear in the CITY RECORD at a later date.

JOSEPH HAAG, Secretary.

BOROUGH OF MANHATTAN.

WASHINGTON HEIGHTS DISTRICT.

At a meeting of the Board of Local Improvements of the Washington Heights District, held Tuesday, February 26, 1907, the following members were present:

Aldermen Davies and Grifenhagen and President Ahern.

The President presented for the Board's consideration the matter of laying out widening of Boulevard Lafayette, between One Hundred and Seventy-seventh and One Hundred and Eighty-first streets, and widening One Hundred and Eighty-first street, between Boulevard Lafayette and Buena Vista avenue.

On motion of Alderman Grifenhagen, this matter was laid over for two weeks.

The Board took up in executive session the matter of laying out an extension of West One Hundred and Twenty-sixth street, from a point about 100 feet west of Morningside avenue to the northerly side of Manhattan street.

The following resolution was introduced by Alderman Davies:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him; and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment an alteration of the map or plan of The City of New York by laying out thereon an extension of West One Hundred and Twenty-sixth street, from a point about 100 feet west of Morningside avenue to the northerly side of Manhattan street; and it is hereby further

Resolved, That a copy of this resolution be transmitted to the Board of Estimate and Apportionment for its approval.

Which was adopted by the following vote:

Alderman Davies, aye; Alderman Grifenhagen, aye.

President Ahern not voting.

On motion, the Board adjourned.

BERNARD DOWNING, Secretary.

Respectfully submitted,

S. C. THOMPSON, Engineer of Highways.

New York, July 2, 1906.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

Sir—In accordance with your instructions, I have the honor to submit the following report of work done under my charge during the months of April, May and June, 1906:

The Topographical Bureau of the President of the Borough of The Bronx is charged with the following duties:

1. To make the topographical surveys, computations, maps or plans and profiles and reports in connection with the following three (3) divisions of work:

(a) The preparation of a design for the street system in those parts of the borough where a design is not adopted as yet, and the making of surveys, maps, etc., showing changes of adopted street systems and grades; also the preparation of three copies, for filing, of all matters which have been adopted by the Local Boards or approved by the Board of Estimate and Apportionment.

(b) The actual demarcation on the ground, by monument stones and copper bolts, of the lines of adopted avenues, streets, public squares, places, etc., and the protection of the same when improvements are being made.

(c) The making of surveys, searches, maps, technical descriptions, profiles, etc., for the Commissioners of Estimate and Assessments in the matter of acquiring title by the City to avenues, streets and other public property.

2. To keep in custody the record and maps of all matters pertaining to work under the jurisdiction of the Topographical Bureau; also keeping in custody all

maps filed in relation to the Borough of The Bronx under the Department of Public Parks, the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards, and the President of the Borough of The Bronx.

3. To make examinations, maps and reports on miscellaneous matters referred by the Chief Engineer of the Borough of The Bronx.

1 (a). Preparation of the Design of a Street System, Maps Showing Changes of

Adopted Street Systems, etc.

The Board of Estimate and Apportionment, on May 29, 1903, approved a tentative plan of the street system east of the Bronx river, which amended previously filed plans and laid out streets over such areas which had not been taken up.

A resolution was passed as follows:

Resolved, That the President of the Borough of The Bronx cause to be prepared for submission to this Board in suitable sections and drawn to a larger scale, three similar copies of the adopted general plan of the street system for certification and filing in the manner required by law, showing as nearly as possible, in a general way, the nature and extent of the proposed changes and amendments, laying out and extending of streets, roads, avenues, squares or places.

Maps or plans showing dimension of blocks and grades of streets of section 33 was filed, as required by the Charter, during this quarter.

The map or plan of section 47 of the final maps was completed and forwarded to the Board of Estimate and Apportionment April 24, 1906.

This map or plan gives the side lines of blocks, grades and all necessary information required for the legal opening of such streets.

Computations and maps in relation to amendments and new sections were progressed, and will be shown on tabular statement.

Miscellaneous computations in relation to the locations of the proposed New York, Westchester and Boston Railway and the New York and Port Chester Railroad were made as quickly as information could be received from these railroads.

The fixture sheets, which show the relation between the new street system and existing street lines and property lines by dimensions and co-ordinates, were progressed.

Computations were also made for all the changes or establishing of new street lines, grades, etc., which had been before the Local Boards and for which maps were forwarded to the Board of Estimate and Apportionment for adoption and filing.

Studies to extend the present adopted street system from the Eastern boulevard easterly towards the Sound were progressed.

The change of the street system at Spuyten Duyvil necessitated by the proposed Henry Hudson Memorial Bridge is under consideration.

Examinations and searches are under way to establish the shore line and the water grant line around City Island, made in 1767.

The following is a tabular statement of office work in relation to computations:

Triangulation.

During the quarter ending June 30, 1906, work in connection with the triangulation survey has continued. Stations Pilot, City Island, Castle Hill, Baychester, Parkway, Straus and Nereid have been tied in with the traverses, and in several instances new traverses have been run between the triangulation towers and monuments.

Two triangulation towers have been taken down, i. e., Crosby, at the intersection of Fort Schuyler road and Eastern Boulevard, and Prospect Hill, north of City line and Pelham Bay Park.

The monumented White Plains road has been referred to the new system of coordinates.

Tremont avenue extension, from Eastern Boulevard to Fort Schuyler road has been run and connected with the Unionport base line and Jackson Triangulation tower. Ludlow station has been connected with the monuments on Westchester avenue.

An improved form of apparatus for measuring distances has been used on the primary traverses connecting triangulation stations. The measures are taken on slopes and not taken level as heretofore. The slopes or grades are established by the level. Instead of driving stakes whose tops shall be about 18 inches above the surface of ground, iron tripods, with an adjustable rod for height are used. A movable carriage with slow-motion screw gives definition of the graduated sleeve on the steel tape. The steel tape used is about one-quarter inch wide, similar to that used by the United States Coast and Geodetic Survey, and is 150 feet long. It is supported at the ends and at its middle point.

The tension recommended by the United States Coast and Geodetic Survey of 15 kilograms is applied by an improved tape stretcher and the rear end of the tape is controlled by a rear stretcher of similar construction to the front stretcher, with the exception of the balance.

This apparatus has given results far beyond our expectation. On the line through the Pelham parkway, a distance of ten thousand feet, three measurements were taken as follows: 9,497.176 feet, 9,497.173 feet, 9,497.164 feet.

This line was divided into five sections and the comparison of the different sections is in accordance with the result as a whole. The three measures of the first section were 3,149.820, 3,149.819, 3,149.816, an accuracy of 1-787500.

The line of Tremont avenue extension was also run by this method with these results:

First Section.	Second Section.	Third Section.
1,835.7305	1,112.417	1,768.817
1,835.7388	1,112.424	1,768.823
1,835.743	1,112.406
1,835.747	1,112.392
<u>1,835.7399</u>	<u>1,112.4097</u>	<u>1,768.820</u>

Two other runs were made of this distance differing in themselves only 0.008 feet, an accuracy of 1-471000.

3. To Make Examinations, Maps and Reports on Miscellaneous Matters Referred by the Chief Engineer of the Borough of The Bronx.

During the quarter 274 communications were referred for report to the Topographical Bureau of the Chief Engineer and the Secretary of the President of the Borough of The Bronx and 268 reports and letters were written on these subjects.

Numbering of Houses in the Borough.

The Board of Aldermen, on April 26, 1904, resolved that the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$5,000, in accordance with the provisions of subdivision 8, section 188 of the amended Greater New York Charter, the proceedings thereof to be applied to the cost and expense of renumbering and naming the streets and avenues in the Borough of The Bronx, and the Board of Estimate and Apportionment, on April 7, 1905, approved and concurred in the above resolution of the Board of Aldermen.

This work was assigned to the Topographical Bureau and a system was established for this purpose. It will enable the President of the Borough of The Bronx to give a resident or owner the number of his house wherever situated, even though there be no houses for a considerable distance.

The system of house-numbering in the Borough of The Bronx was determined as delineated in the report of the Topographical Bureau for the quarter ending March 31, 1906, and the system of house-numbering east of the Bronx river has been taken up. Much time has been devoted to give house owners or occupants of houses their numbers.

Miscellaneous.

During the quarter the correcting and bringing up to date the lithographed maps west of the Bronx river, in the office of the President of the Borough, Chief Engineer, Topographical Bureau, Bureau of Highways and Bureau of Sewers was kept up.

The card index of street improvements in the Borough of The Bronx for the President of the Borough and the Chief Engineer was kept up.

Plotting and draughting of record maps, fixture sheets, maps for adoption, office sets and black prints of the sections east of the Bronx river was continued.

During this quarter work was commenced in the bringing up to date sections of the final maps west of the Bronx river, which were printed in 1895, for reproduction.

A map on a scale of 80 feet to the inch, showing the territory of that part of the Borough of Manhattan lying northerly of Inwood was prepared with a study for a proposed approach to the Henry Hudson Memorial Bridge.

A special map of the Van Nest section, bounded by Bronx Park, Rhinelander avenue, Bear Swamp road, West Farms road, Bronx river avenue, Tremont avenue and the Bronx river was completed and forwarded for adoption.

A special map of the McGraw estate, showing the new street system bounded by St. Lawrence avenue, Noble avenue, New York, New Haven and Hartford Railroad, Catholic Protectors, Pugsley avenue and Ludlow avenue, is ready for submission to the Board of Estimate and Apportionment.

The plotting of Sections 37, 51 and 52 of the Final Maps on mounted paper are under way.

Printed maps of the borough were prepared showing the different districts of Foremen of open and paved streets, etc., for the use of the Commissioner of Public Works.

The following black prints were mounted and colored up as copies of filed maps, requested by the Chief Engineer of the Board of Estimate and Apportionment:

1. Map or plan showing that portion of Bush street from the Grand Boulevard and Concourse to Creston avenue.

2. Map or plan showing the change of grade of East One Hundred and Ninety-first street between Bathgate avenue and Hoffman street.

3. Map or plan showing the widening of Bronx Park East (legally opened as White Plains road), from White Plains road to Bronx and Pelham Parkway.

4. Map or plan showing the discontinuing and closing of Jennings street, from Edgewater road to the Bronx river.

5. Plan and profile showing change of grade in Montgomery avenue, from West One Hundred and Seventy-sixth street to Popham avenue.

6. Modified plan of drainage, showing location, sizes and grades of sewers in Sewerage District No. 42-W.

7. Map or plan showing the laying out and the grades of East One Hundred and Fifty-eighth street, from Cromwell avenue to the Spuyten Duyvil and Port Morris Branch of the New York Central and Hudson River Railroad, and of Doughty street, from East One Hundred and Fifty-eighth street to East One Hundred and Sixty-first street.

8. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage District No. 38-T.

9. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage District No. 33-K4.

10. Modified plan of drainage showing location, sizes and grades of sewers in Sewerage Districts Nos. 33-BB and 37-Y.

11. Map or plan showing change of lines of Netherland avenue, between Kappock street and West Two Hundred and Twenty-seventh street.

12. Map or plan showing change of lines and the grades of Garrison avenue, between Longwood avenue and Leggett avenue.

13. Map or plan showing the change of line of Castle Hill avenue, for about a distance of 300 feet on either side of Westchester avenue.

14. Map or plan showing change of location of the southerly line of East One Hundred and Sixty-first street, between Third avenue and St. Ann's avenue.

15. Map or plan showing the locating, laying out and the grades of Zerega avenue, from Castle Hill avenue, near Westchester creek, to Castle Hill avenue, near West Farms road.

16. Map or plan showing the changes of grades of Gun Hill road, from Bronx Park avenue to Baychester avenue.

17. Map or plan showing the locating, laying out and the grades of Westchester avenue, from Main street to Eastern Boulevard.

18. Map or plan of section 33 of the final maps of the Borough of The Bronx.

19. Map or plan showing the laying out and the grades of West One Hundred and Ninety-second street, between New York Central and Hudson River Railroad and Harlem river.

20. Map or plan showing that portion of West One Hundred and Eighty-fifth street, from Davidson avenue to Walton avenue.

21. Plan and profile showing the change of grades of Taylor street, from Morris Park avenue to West Farms road.

22. Map or plan showing the locating and laying out and the grades of Trafalgar place, from East One Hundred and Seventy-fifth street to East One Hundred and Seventy-sixth street.

Many maps, sketches, tracing, black prints and blue prints were made auxiliary to preparing maps for adoption and in connection with various other works under the jurisdiction of the Topographical Bureau; also a considerable amount of copying and searching of records in the different city departments and the Register's office of New York City and Westchester County at White Plains.

Respectfully,

F. GREIFFENBERG, Topographical Engineer.

Which was referred to the Committee on Armories for Brooklyn and Queens.

The Secretary presented the minutes of a meeting of the Committee on Armories, held January 14, 1907, as follows:

The Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Armory Board:

Sir—The Committee on Armories beg to report the consideration of the following matters, at a meeting held this day, in the office of the President of the Board of Aldermen, at 11 o'clock a. m.:

1. The Secretary presented communications from Messrs. Lord & Hewlett, architects for the Second Battalion Naval Militia armory, stating that the contractor, James McFerran, had locked up said armory, and refused ingress to or egress from, to the sub-contractor now engaged under a contract for an improvement, and to the Armory Board, and architects. After discussion, the Secretary was instructed to obtain from the Corporation Counsel directions, in writing, as to the proper course for the Board to pursue.

2. General McLeer, to whom was referred the matter of lighting in the Thirteenth Regiment armory, reported, submitting a communication from H. S. Wynkoop, Electrical Engineer in the Department of Water Supply, Gas and Electricity, of date December 14. General McLeer reported that the work would probably cost \$3,000, and that it would result in removing the violations which are now pending against the equipment in that armory.

Your Committee recommend that the work be done, and that an appropriation be made therefor.

3. In the matter of the communication from Pilcher & Tachau, architects for Squadron "C" armory, stating that an amount of earth had been dislodged from the hill back of the Armory Building, and advising that said earth be removed, General McLeer reported that he had investigated the matter, and had written a letter to the Board of Estimate and Apportionment, requesting that the plot be graded; and your Committee endorses such action.

4. General McLeer, to whom was referred the recommendation of the architects for Squadron "C" armory, to change the position of the Quartermaster's room, etc., and for the proper equipment of the same, reported favorably; and your Committee recommend that the changes be made, and an appropriation therefor authorized.

5. In the matter of the communication from the Interborough Supply Company, requesting the consent of the Armory Board to a substitution of a chair different from that called for in their contract (furniture in the Seventy-first Regiment armory) and a communication from the architects, Clinton & Russell, disapproving of such change, your Committee recommend that the action of the architects be accepted, and that the Secretary be instructed to notify the contractors to that effect.

6. A communication from Colonel Bates, commanding the Seventy-first Regiment, making application for the installation of an interior telephone system in the armory of his organization, was received, and your Secretary was instructed to ascertain the cost of such telephone system, and the number of armories in the State in which such systems are installed.

7. In the matter of the application of the architects, Lord & Hewlett, Second Battalion Naval Militia armory, to obtain final approval of the lighting fixtures in the armory of that organization, the Secretary was instructed to notify the architects to confer with the Department of Water Supply, Gas and Electricity.

Your Committee respectfully submits resolutions to carry out the above recommendations.

The Mayor offered the following resolutions:

Resolved, That an appropriation of three thousand dollars (\$3,000) be and is hereby made for installing mains, submains and distributing panels in Administration Building of Thirteenth Regiment C. A., N. G., N. Y., Borough of Brooklyn; that the Commissioners of the Sinking Fund be requested to concur therein, and the Comptroller authorized to issue bonds to provide funds therefor; and that the Secretary be directed to advertise for bids or proposals for same.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith, and the President of the Department of Taxes and Assessments.

Resolved, That the changes recommended by the architects, Messrs. Pilcher and Thomas, in the equipment which is now being installed in Squadron "C" armory, namely: Changing the position of Quartermaster's room from southerly side of cellar to northerly side; increasing the size and number of drawers; increasing the shelving and enclosing the same with glass doors operated on brass sheaves; increasing the hooks called for to 10 inches; adding the wooden floor over entire room, same laid on wooden sleepers and filled in with tinder concrete; addition of water-proofing over the entire area of floor, for the sum of \$997.40, including architects' fees, be authorized by the Armory Board, and that John Wanamaker be directed to do the work.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

Resolved, That the application of the Interborough Supply Company, contractors for furniture, etc., in the Seventy-first Regiment armory, in the Borough of Manhattan, to substitute a chair different from that called for in the specifications, be denied.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Secretary also submitted minutes of a meeting of the Committee on Armories, held February 1, 1907, as follows:

The Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Armory Board:

Dear Sir—At a meeting of the Armory Board held this day, at 2 o'clock p. m., at the office of the President of the Board of Aldermen, the following matters were considered:

1. Communication from Colonel William G. Bates, commanding the Seventy-first Regiment, N. G., N. Y., making requisition for an interior telephone system in the armory of his organization.

Your Committee, after careful consideration, recommend that the application be denied.

2. Communication from Colonel William B. Hotchkin, commanding the Twenty-second Regiment Engineers, making requisition for a site for a new armory for his organization, bounded by One Hundred and Sixty-eighth and One Hundred and Sixty-ninth streets, Broadway and Fort Washington avenue.

The Secretary reported the conditions existing at the present armory.

Your Committee report that the site designated is suitable, and recommend its acquisition by purchase and the abandonment of the present building when new armory is completed.

3. Communication from Robinson & Knust, architects, submitting plan and estimate of cost for proposed electrical lighting in Eighth Regiment armory.

Your Committee recommend the same as necessary, and suggest a resolution appropriating \$1,500 to provide funds therefor.

4. Communication from Captain Henry S. Rasquin, Jr., commanding Third Battery, making requisition for improvements to the armory of his organization; on which your Committee report progress.

5. Communication from Colonel Dyer, commanding the Twelfth Regiment, N. G., N. Y., making requisition for an additional story to the armory of his organization; also communication from Robinson & Knust, architects, submitting plans and specifications for said addition, with estimate of cost.

Your Committee recommend the same, and suggest a resolution appropriating \$30,000 to provide funds therefor.

The Mayor offered the following resolutions:

Resolved, That the report of the Committee on Armories, relative to a new armory for the Twenty-second Regiment Engineers, N. G., N. Y., at One Hundred and Sixty-eighth and One Hundred and Sixty-ninth streets, Broadway and Fort Washington avenue, in the Borough of Manhattan, be received and accepted; that the matter be

referred to a Special Committee on Sites, to be appointed by the Chair, to report on question of dimensions to be taken for such site.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Chair appointed on such Special Committee on Sites the following: The President of the Board of Aldermen, the President of the Department of Taxes and Assessments and Brigadier-General George Moore Smith.

Resolved, That an appropriation of fifteen hundred dollars (\$1,500) be and is hereby made for electric lighting in the Eighth Regiment armory; that the Commissioners of the Sinking Fund be requested to concur therein and authorize the Comptroller to issue bonds to provide payment therefor; and that the Secretary be directed to advertise for bids or proposals therefor.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

Resolved, That the sum of thirty thousand dollars (\$30,000) be and is hereby made for an additional story to the Twelfth Regiment armory, in the Borough of Manhattan (including architects' fees), according to the plans and specifications submitted by Messrs. Robinson & Knust, architects; that the Commissioners of the Sinking Fund be requested to concur in the same and authorize the Comptroller to issue bonds to provide payment therefor and the Secretary directed to advertise for bids or proposals for same.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Secretary requested the consent of the Board to the transfer of 100 tons of coal from Twelfth Regiment coal contract to the Sixty-ninth Regiment armory coal contract, and also the transfer of \$778.55 from the account entitled Care and Maintenance of Armories, 1906, to that of Repairs and Supplies, Squadron "A," 1906, and the Mayor offered the following resolutions:

Resolved, That the Board of Estimate and Apportionment be requested to consent to the transfer of 100 tons of coal from Twelfth Regiment coal account, the same being in excess of the quantity required for the armory of that organization, to the account of the Sixty-ninth Regiment armory, the amount of said contract being insufficient.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

Resolved, That the Board of Estimate and Apportionment be requested to transfer the sum of \$778.55 from the appropriation made to the Armory Board, entitled Care and Maintenance of Armories, 1906, the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Board entitled Repairs and Supplies Squadron "A," 1906, the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Secretary presented a tabulation of the bids received at this meeting and stated that the bid of Libbey & Keese, No. 519 Flushing avenue, Brooklyn, for Article No. 1, lighting and improvements to the Fourteenth Regiment armory, was the lowest, and that the bid was formal.

The President of the Board of Aldermen offered the following:

Resolved, That the bid of Messrs. Libbey & Keese, No. 519 Flushing avenue, Borough of Brooklyn, for Article No. 1, lighting, etc., in the Fourteenth Regiment armory, amounting to the sum of \$9,475, be accepted as being the lowest bid for said work; that the same be submitted to the Commissioners of the Sinking Fund for their concurrence and to the Comptroller for his approval of the sureties thereon, and when so approved the Chairman of this Board be authorized to execute the contract on behalf of the Board; that all the other bids be rejected and the deposits received with the bids be forwarded to the Comptroller, with the request that he return the amounts received from the unsuccessful bidders.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Secretary reported that for Articles 2 and 3, kalamine doors, furniture, etc., Sixty-ninth Regiment armory, five bids were received, the lowest being that of Charles Meads & Co., for Article No. 2, \$5,200, and the Interborough Supply Company, for Article No. 3, \$26,967, an aggregate of \$32,167 (\$1,690.81 in excess of the appropriation).

The President of the Board of Aldermen offered the following:

Resolved, That all the bids received for Articles 2 and 3, kalamine doors, furniture, etc., Sixty-ninth Regiment armory, be rejected and the deposits received from the bidders be forwarded to the Comptroller, with the request that he return the amounts to said bidders, and that the Secretary be instructed to readvertise the work.

Which was adopted by the following vote:

Ayes—The Mayor, the President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

A motion to adjourn was adopted.

HARRIE DAVIS, Secretary.

DEPARTMENT OF DOCKS AND FERRIES.

New York, January 2, 1907.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller—

1. (70603). Stating that a voucher has been filed in his office in favor of Bernard Rolf, amounting to \$990, for furnishing the necessary labor and material to build a temporary ferry rack at the outer end of pier located on southerly side of the foot of Thirty-ninth street, South Brooklyn, and asking whether such work constituted a finished job, and whether any other bids were received therefor. Notified that the work constituted a finished job, and that no other bids were received, because Rolf was working at the locality under another contract for the Department, and it was considered that he could, therefore, do the work much cheaper than an outside contractor.

2. (70441). Transmitting copy of claim filed by Michael DeBell, as administrator of Frank DeBell, deceased, for the sum of \$20,000 alleged to be due for injuries received on June 11, 1906, owing to the defective condition of the pier foot of Holland street, Rockaway Beach, Borough of Queens, and suggesting that the pier be placed in good condition. Notified that the pier was built by private parties on land under water granted by the State, and was erected before the date of consolidation, and that the Department has no record of the time of construction of such pier.

From the Municipal Civil Service Commission (70608)—Stating they are advised by the State Civil Service Commission that the resolution amending the classification of positions in the exempt class in this Department by including therein two additional Assistant Superintendents of Ferries was considered at a meeting on December 14, 1906, and was ordered continued on the calendar. Filed.

From the Art Commission of The City of New York (70568, 70464)—Transmitting copy of resolution approving, as preliminary drawings only, the designs and location of pier and wharf structures to be erected on the North river waterfront, from Bloomfield street to West Twenty-second street, Manhattan. Architects Warren & Wetmore requested to submit blue prints of the latest finished drawings so the Department may proceed with the details of the shed construction.

From the Fire Department (70691)—Stating, in connection with this department's request of December 12, 1906, for the installation of fire alarm system at the St. George terminal of the Staten Island Ferry, that they have no fire boxes on hand and no available funds for the purchase of same, and recommending that this de-

partment furnish and install at its own expense the boxes, subsidiary connections, etc., to the point of connection with the Fire Department's fire alarm circuits. Engineer-in-Chief of this department directed to furnish the necessary material, etc., as recommended.

From James W. Corrigal (70378)—Requesting permission to occupy space about 20 feet in width, formerly held under permit by Joseph Rauscher at the foot of Twenty-first street, Sheepshead Bay. Permit held by Corrigal for 40 feet of the space at the foot of the street revoked and new permit granted for the entire 60 feet of space at the locality in question, to continue during the pleasure of the Commissioner until April 30, 1907, compensation to be at the rate of \$15 per month, payable monthly in advance to the Dockmaster.

From J. Morson (70204)—Requesting permission to build an extension to dock at foot of East Twenty-third street, Sheepshead Bay, Borough of Brooklyn, he having purchased Elwyn P. Page's interest to the premises in question. Permit granted to Morson to use and occupy property owned by the City at the foot of Twenty-third street, Sheepshead Bay, Borough of Brooklyn, including existing pier thereat, with permission to strengthen such pier and to construct an extension about 20 by 50 feet in dimensions along the easterly side thereof, the work to be done under the supervision of the Engineer-in-Chief of this Department in accordance with plans to be first submitted to and approved by him; this permit includes the privilege of maintaining a float, boathouse, etc., thereat; rental will be at the rate of \$10 per month, beginning October 1, 1906, Morson having been in occupation of the premises, payable monthly in advance to the Dockmaster of the district; the privilege is revocable at the pleasure of the Commissioner, and will expire on April 30, 1907; this rate of rental will continue until the proposed extension is built, when a readjustment will be made.

From the Sea Gate Association (69952)—Requesting permission to make landings at the Battery pier during the season of 1907, and submitting desired schedule of time for such landings. Privilege granted, to continue during the pleasure of the Commissioner, compensation to be at the rate of \$1,200 for the season, payable to the Cashier, \$400 to be paid each on the first days of June, July and August.

From H. L. Herbert & Co. (70739)—Requesting permission to repair a broken steam pipe under the marginal street at the foot of Twentieth street, East river. Permit granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department upon condition that an order will be issued to the Continental Asphalt Paving Company, who are obligated to maintain the pavement in repair, under bond, to relay any asphalt pavement disturbed, the same to be done at the sole cost and expense of the applicants.

From the Union Ferry Company (70532)—Requesting permission to make repairs, as required, to its ferry houses, bridges, racks, etc., at the Hamilton, South, Wall, Fulton and Catharine ferries, East river. Permit granted, to continue during the pleasure of the Commissioner until July 1, 1907, all work to be kept within existing lines and to be done under the supervision of the Engineer-in-Chief of this Department, to whom at least twenty-four hours' notice must be given prior to the commencement of work in each case.

From the Joy Steamship Company (70524)—Requesting permission to cut six sluiceways, and also the backing log in front of the doors in the shed on Pier 28, East river, for the purpose of facilitating the handling of freight, etc. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this Department.

From Cusick & Ryan (70523)—Requesting permission to erect bin 5 feet high, 13 feet wide and 39 feet long on the upland at Fiftieth street, North river, for the purpose of preventing their sand from being thrown into the river. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this department, subject to the conditions of the permit granted for the occupation of the space held by them.

From the Harlem and Morrisania Transportation Line (70497)—Amending its former application for the cutting of the stringpieces on Pier 30, East river, so as to provide for the cutting of a gangway on the easterly side, inshore end of the pier. Permit of December 13, 1906, amended, and permit granted for the cutting of the gangway upon the express condition that the premises will be restored to their former condition whenever so ordered by the Commissioner, and further, that the cutting of this gangway shall in no way be construed as giving the applicant a permanent berth at the pier.

From the Standard Oil Company of New York (70412)—Requesting permission to cut six feet off the stringpiece leading to the dock foot of One Hundred and Twentieth street, Harlem river, in order to gain access to its property. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this department, upon condition that the company place a bridge plank with iron hangers from curb to approach, so that water will run off and so that trucks will not pound the edge of approach; and further, that the stringpiece will be restored to its original condition whenever so ordered by the Commissioner.

From J. B. King & Co. (70344)—Requesting permission to erect a five-story reinforced concrete building easterly of Franklin avenue, on the Kill von Kull side, Borough of Richmond. Permit granted in so far as such permit from this department is necessary; notified to apply to the Building Department for permit.

From the Consolidated Telegraph and Electrical Subway Company (70323)—Requesting permission to maintain a small frame building southerly of Ninety-seventh street, East river. Permit granted, to continue during the pleasure of the Commissioner, the work to be done under the supervision of the Engineer-in-Chief of this department.

From Bunke & Meyer (70004)—Requesting permission to remove the flagging adjacent to their premises, which are located on the westerly side of Pleasant avenue, at One Hundred and Tenth street, in order to more properly gain access to their coal yard thereat. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this Department and upon condition that the area be properly paved and kept in repair at a grade which will not make a step at either side of their roadway, and that the flagging which is necessary to be removed shall be temporarily stored by them and relaid to its original condition whenever so ordered by the Commissioner of Docks.

From Beadleston & Woerz (70705)—Requesting permission to extend their salt water suction pipe under Pier (new) 46, North river, an additional distance of 200 feet offshore. Permit granted, the work to be done under the supervision of the Engineer-in-Chief of this Department, the extension to the suction pipe to be governed by the conditions imposed in the original permit granted the applicants for the maintenance of the pipe.

From the Waterfront Improvement Company (70622)—Requesting permission to dump about 3,000 cubic yards of dredged material in the basin at the easterly side of Riker's Island, East river. Answered that this department has no available site for the material and that as the company is being paid for the removal of such material it would seem to be its duty to place it where the contract entered into by said company with the Department of Street Cleaning calls for its deposit.

From the Sicilian Asphalt Paving Company (70581)—Requesting a partial payment on Class II. of Contract No. 996, for laying the asphalt pavement on the deck of Pier 54, North river, and also a final payment on both classes I. and II. of said contract. Advised that the final estimate on Class I. of Contract No. 996 has been forwarded to the Comptroller, and that final estimate for the work of laying asphalt pavement over the deck of Pier 56, North river, under Class II. of said contract will be sent to the Comptroller within a few days, and it would therefore be useless to prepare a partial estimate at this time.

From the New York, New Haven and Hartford Railroad Company (70551)—Advising the department that one of the gas pipes suddenly caught fire underneath the pier foot of One Hundred and Twelfth street, Harlem river, and that same was extinguished by its employees. Filed, the department's thanks having been extended to the company.

From the Quintard Iron Works Company (70538)—Stating they will be unable to occupy the north side of the East Ninth Street Pier under the permit granted on December 11, 1906, owing to the insufficient length available. Permit for berth revoked, to take effect as of the date of issuance.

From the Mount Vernon Builders' Supply Company (70527)—Requesting permission to occupy the pier foot of Main street, City Island, for which they agree to pay \$150 per annum. Notified that a lease will not be granted, but that the department will be pleased to entertain application for a berth.

From the New York Truck Owners' Association (70499)—Requesting that the asphalt pavement on the "Farm" be sanded, in order to prevent horses from slipping

on the pavement. Superintendent of Docks directed to see that sanding is done whenever necessary.

From Sanderson & Son (70476)—Stating they are prepared to take up with the department at any designated time the question of leasing to Thomas Wilson Sons & Co., Ltd., and the Royal Steam Packet Company of London, the undivided half of Pier 50, North river, which is to be vacated by the International Mercantile Marine Company. Filed.

From Henry Schaeffer (70475)—Requesting permission to replace the portion of temporary structure on the old crib at the foot of East One Hundred and Thirty-eighth street, Port Morris, which was removed at the time the new pier at that location was being built. Denied.

From B. Campbell & Co. (70459)—Requesting space on the West Thirty-ninth street pier in the event of their being obliged to move before May 1, 1907, from the West Fortieth street pier, North river, where they are sublessees of the Western Stock Yards Company, such company stating that the pier is about to be rebuilt. Notified that the lease of the Western Stock Yards Company terminates on May 1, 1907, and that the Department will not take possession for the purpose of reconstruction of the pier until that time.

From Matt Kett and others (70375)—Requesting the Department not to grant a permit for the dumping of snow from Pier 61, East river, there being only two berths, which are required for their business, thereat. Advised that the assignment of Pier 61, for the dumping of snow and ice is imperative, but every effort will be made to restore the pier to wharfage use as quickly as possible after a snow storm.

From the New York Edison Company (70455)—Requesting permission to install approaches for submarine cables across the Harlem river, from the foot of Second avenue, Borough of Manhattan, to the foot of Lincoln avenue, Borough of The Bronx. Requested to file the consents of the Presidents of the Boroughs of Manhattan and The Bronx, and notified that this Department will take action when such consents are filed.

From Charles M. Reynolds (70434)—Giving notice that an application will be filed with the Commissioners of the Land Office for a grant of land under water extending from the centre line of Harsell street, and running thence northerly a distance of about 130 feet, at Ravenswood, Borough of Queens. Corporation Counsel notified with the statement that the Department sees no objection to the grant, provided that the area falling within the lines of Harsell street is reserved therefrom; also that it is the opinion of this Department that the character of the improvements to be made should be left to the discretion of the local authorities.

From the Curtis-Blasidell Company (70413)—Requesting permission to build a small extension on top of the engine house located on the bulkhead between Thirty-ninth and Fortieth streets, North river, to be used as a protection to the engineer. Denied.

From the New York City Railway Company (70252)—Requesting permission to remain in occupancy of the new made land in rear of bulkhead between Forty-third and Forty-fourth streets, North river, until June 1, 1907, instead of March 1, 1907. Notified that this Department will need the property and cannot grant an extension.

From Charles L. Apfel, attorney for Jacob Solomon (69212)—Stating that his client should be entitled to at least a rebate of two-thirds of a year's rent for the premises foot of West One Hundred and Fifty-eighth street, North river, used for bathing purposes, and of which he was deprived for the greater portion of the season of 1906. Allowance made of \$256.54.

From Robert L. Noah, Attorney for Edward Henry (70716)—Stating that as his client was discharged as Watchman on September 14, 1906, without any reason being assigned therefor, unless he is forthwith reinstated and receives all salary due him, he will be obliged to resort to legal procedure for reinstatement. Notified that Henry was discharged, after a hearing, for having left his post without excuse.

From W. R. Ingalls, Editor of "Engineering and Mining Journal" (70445)—In relation to the inconveniences experienced by patrons of the Staten Island Municipal Ferry during the winter months owing to the crowded conditions of the waiting rooms, and suggesting the placing of an extra boat in commission to relieve the difficulty, especially during the rush hours. Answered that every effort is being made, under the present conditions of reconstruction, to perfect the service, and that the question of placing an extra boat on the ferry will be taken up as soon as it is possible to do so.

From Samuel M. Gray (70710)—Requesting information as to whether any of the wharves of the City are owned and controlled by the municipality, whether ownership of any of such wharves is vested in the State, and whether the City or State builds and leases them. Copy of annual report of the department, showing occupancy of wharf property owned by the City, forwarded; advised that there are no piers in Greater New York owned by the State, that considerable of the land under water is still vested in the State, and that this department builds and leases the piers owned by the City.

From the Chainmen and Rodmen of the Department (70516)—Submitting petition for an increase in their compensation from \$1,080 per annum to \$1,200 per annum. Filed.

From the Engineer-in-Chief—

1 (70610). Submitting bill received from the Bay Ridge yacht basin in the amount of \$22 for wharfage charges at the foot of Fifty-seventh street, South Brooklyn, for pile driver No. 21, Borer "Woodcock," and one raft of logs, as well as for 2,000 gallons of water. Notified that permission was obtained to lay up the plant and this Department cannot recognize the claim.

2 (70640). Recommending the issuance of an order for the installation of a heavy solid fender system at the outer southwesterly corner of Pier 33, East river. Order issued to Engineer-in-Chief to do necessary work.

3 (70614). Recommending that the Uvalde Asphalt Paving Company be released from the bond furnished by them for the maintenance of the asphalt pavement between Thirty-third and Thirty-fourth streets, North river, laid under Treasurer's Order No. 21312, which expired on November 21, 1906. Release granted.

4 (70613). Recommending that the Uvalde Asphalt Paving Company be released from the bond furnished by them for the maintenance of the asphalt pavement foot of Twenty-fourth street, East river, laid under Treasurer's Order No. 21311, which expired on December 17, 1906. Release granted.

5 (70612). Recommending that the Uvalde Asphalt Paving Company be released from the bond furnished by them for the maintenance of asphalt pavement between Fiftieth and Fifty-sixth streets, North river, laid under Treasurer's Order No. 21274, which expired December 6, 1906. Release granted.

6 (70544). Reporting that the work of repairing, altering and extending the present ferry structures foot of Whitehall street, East river, Manhattan, was completed on December 13, 1906, by the Snare & Triest Company, under Contract No. 918. Comptroller notified.

From the Superintendent of Ferries—

1 (70560). Submitting his report and that of Captain George Troutman, relative to the accident to the iron wheel beam supporting the end of shaft of the ferryboat "Stapleton" on December 15, 1906, while entering the Manhattan Ferry slip, caused by collision with Pier 3, East river. Filed.

2 (70484). Reporting that on December 11, 1906, a fire occurred on the dock in the vicinity of the boiler room of the Whitehall terminal of the Staten Island Ferry, which was extinguished by the Fire Department, and giving statement as to the damages sustained. Filed.

3 (70543). Submitting copy of report of Captain Edward Beardsley, relative to the damage sustained by the ferryboat "West Brooklyn" at the Thirty-ninth Street, Brooklyn, Ferry slip, on December 13, 1906, occasioned by the presence of dredge and scow at the mouth of the slip. Filed.

From the Superintendent of Docks—

1 (70491). Recommending that the permit issued to George B. LeSeur for the maintenance of a boathouse and float foot of Poole's lane, Sheepshead Bay, Borough of Brooklyn, be revoked, LeSeur not having availed himself of the privilege. Permit revoked, to take effect as of the date of issuance.

2 (70439). Recommending that the permit issued to the Quintard Iron Works to berth the steamer "Plymouth" on the southerly side of the pier foot of East Nineteenth street, East river, be revoked, the permittees being unable to utilize the privilege. Permit revoked, to take effect as of the date of issuance.

From the Auditor—

1 (70558). Recommending that as the New York Central and Hudson River Railroad Company has failed to pay the bill of \$248.40 due this department for the

loss of piles on February 23, 1906, through the collision of the tug "Chauncey M. Depew" with the raft containing the piles, the claim be forwarded to the Corporation Counsel for collection. Claim forwarded to the Corporation Counsel for collection.

2 (70575). Reporting that there is due this department two quarters' rent, from July 15, 1906, to January 15, 1907, amounting to \$3,285, for the lease of 200 feet of the north side of pier at West Forty-seventh street, North river, with dumping board privilege, held by A. C. Chenoweth, and assigned by him to the Greater New York Land and Harbor Improvement Company, and recommending that as repeated demands on the lessee, the assignee and the surety on the lease have met with no definite result, the claim be placed in the hands of the Corporation Counsel for collection. Corporation Counsel requested to take steps for the collection of the claim.

3 (70557). Recommending that as the New York, New Haven and Hartford Railroad Company has denied responsibility for the damages to the East Twenty-fourth Street Pier, the claim of this department for \$318.37, covering damages to said pier by the tugs and floats of said company, be forwarded to the Corporation Counsel for collection. Claim sent to Corporation Counsel for collection.

From the Heads of the Various Bureaus of the Department (70615)—Reporting absences of employees for the months of October and November, 1906. Filed.

The following claims, as reported by the Engineer-in-Chief on bureau orders, were ordered collected:

No. 4673, \$64.66, cost of refastening backing log on bulkhead between One Hundred and Eighth and One Hundred and Ninth streets, Harlem river, pulled off by the tug "Three Brothers," to be collected from the Dailey Towing Line.

Dated February 23, 1907. JOSEPH HAAG, Secretary, No. 277 Broadway, Room 805. Telephone 3454 Worth. f23,m6

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on February 8, 1907, the following resolution was adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Astor avenue, between Olinville avenue and White Plains road, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the north by a line 215 feet south of and parallel with the southerly line of Waring avenue, the said distance being measured at right angles to the line of Waring avenue; on the east by a line 100 feet east of and parallel with the easterly line of White Plains road, the said distance being measured at right angles to the line of White Plains road; on the south by a line 167.5 feet north of and parallel with the northerly line of Thwaites place, the said distance being measured at right angles to the line of Thwaites place, and also by the prolongation of the said line; and on the west by a line midway between Olinville avenue and Barker avenue.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 8th day of March, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 8th day of March, 1907.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 9.

GRANT AVENUE—OPENING, from East One Hundred and Sixty-first street to East One Hundred and Seventieth street. Confirmed July 7, 1905, and January 29, 1907; entered March 4, 1907. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly side of East One Hundred and Seventy-first street with the middle line of the block between Sheridan avenue and the Grand Boulevard and Concourse; thence easterly along the southerly side of East One Hundred and Seventy-first street to its intersection with a line drawn parallel to Morris avenue and distant 100 feet easterly from the easterly side thereof; thence southerly along said parallel line to its intersection with the northerly side of East One Hundred and Fifty-eighth street; thence westerly along said northerly side of East One Hundred and Fifty-eighth street to its intersection with the prolongation southerly of a line drawn parallel to Sherman avenue and distant 100 feet westerly from the westerly side thereof; thence northerly along said prolongation and parallel line to its intersection with the easterly side of Sheridan avenue; thence northerly along said easterly side of Sheridan avenue to the southerly side of East One Hundred and Sixty-eighth street; thence westerly along said southerly side of East One Hundred and Sixty-eighth street to its intersection with the middle line of the blocks between the Grand Boulevard and Concourse and Sheridan avenue; thence northerly along said middle line of the blocks to the point or place of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before May 3, 1907, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

CORPORATION SALE OF REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

THURSDAY, MARCH 21, 1907,

at 12 o'clock m., at the Brooklyn Real Estate Exchange, Nos. 189 and 191 Montague street, Brooklyn, the following described real estate belonging to the corporation of The City of New York, and located in the Borough of Brooklyn, more particularly bounded and described as follows:

Beginning at a point on the easterly side of East Twenty-first street distant 19.28 feet northerly from the corner formed by the intersection of the northerly side of Avenue U with the easterly side of East Twenty-first street; thence northeasterly 9.60 feet; thence northeasterly 16 feet, more or less, to the easterly side of East Twenty-first street; thence southerly along the easterly side of East Twenty-first street 19 feet, more or less, to the point or place of beginning, being the premises known as Lot No. 2 in Block 333, situated in the Thirty-first Ward of the County of Kings.

The minimum or upset price at which said property shall be sold is hereby fixed at one hundred dollars (\$100). The sale of the said premises is made upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay 10 per cent. of the amount of his bid, together with the auctioneer's fees, at the time of sale; 90 per cent. upon the delivery of the deed, which shall be thirty days from the date of sale.

The Comptroller may, at his option, resell the property, if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such resale.

Maps of said real estate may be seen on application at the Comptroller's office, Stewart Building, No. 280 Broadway, Borough of Manhattan.

By order of the Commissioners of the Sinking Fund, under resolution adopted at meeting of the Board held February 20, 1907.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for school purposes, the said buildings being situated in the

Borough of Brooklyn

and being erected upon property described as follows:

Beginning at a point formed by the intersection of the easterly line of Flatbush avenue with the northerly line of the lands of Erasmus Hall High School, and running thence northerly along the easterly line of Flatbush avenue 57 feet 10 inches; thence easterly 138 feet 9 inches; thence southeasterly 350 feet 3 1/2 inches to the westerly line of the lands of Public School 90; thence southerly along the westerly line of the lands of Public School 90 seven (7) feet three and one-half (3 1/2) inches to the northerly line of the lands of Erasmus Hall High School; thence westerly along the northerly line of said lands of the Erasmus Hall High School 493 feet 6 inches to the easterly line of Flatbush avenue, the point or place of beginning.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held February 20, 1907, the sale of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

FRIDAY, MARCH 8, 1907,

at 11 a. m., on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day after the expiration of sixty days from the day of sale. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check, drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and of the contract.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the face of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the walls pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made

bricked up and the walls pointed and made to exclude wind and rain, and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within sixty days from the day of sale, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain, and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of the City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ, Comptroller.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of BELMONT STREET (although not yet named by proper authority), from Clay avenue to Morris avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 23d day of March, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of March, 1907, at 1 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 25th day of March, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point at the intersection of the easterly line of the Grand Boulevard and Concourse with the middle line of the block between East One Hundred and Seventy-third street and East One Hundred and Seventy-fourth street, and running easterly along the middle line of the blocks between East One Hundred and Seventy-third street and East One Hundred and Seventy-fourth street to the northerly prolongation of the middle line of the blocks between Clay avenue and Webster avenue lying between East One Hundred and Seventy-second street and East One Hundred and Seventy-third street; thence southerly along said prolongation and middle line to its intersection with a line 100 feet southerly from the northerly line of Belmont street; thence westerly along said line parallel to Belmont street to its intersection with the easterly line of the Grand Boulevard and Concourse; thence northerly along the easterly line of the Grand Boulevard and Concourse to the point of beginning; excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 23d day of April, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906. In re application for damage to Lots Nos. 29 and 22 in Block 3295, and Lot No. 5 in Block 3301.

BY REASON OF THE DISCONTINUANCE, abandonment and closing in front thereof of former Williamsbridge road, between Bainbridge avenue and Valentine avenue, in the Twenty-fourth Ward, Borough of The Bronx, The City of New York, we, the Commissioners of Estimate and Assessment in the above-entitled proceeding, having been directed as follows:

First—By order bearing date the 6th of March, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and

legally awarded to Edward M. Platt, for the loss and damage by or in connection with the premises known as Lot No. 29 in Block 3295, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Bainbridge avenue and Briggs avenue, in front of and adjoining said premises.

Second—By order bearing date the 2d day of February, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and legally awarded to Jeannie Z. Leggett, for the loss and damage by and in connection with the premises known as Lot No. 22 in Block 3295, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Bainbridge avenue and Briggs avenue, in front of and adjoining said premises.

Third—By order bearing date the 26th day of March, 1906, and duly entered in the office of the Clerk of the County of New York, to ascertain and determine the compensation, if any, which upon proof of all the facts should justly be made and legally awarded to Howard Haviland, for the loss and damage by or in connection with the premises known as Lot No. 5 in Block 3301, by reason of the closing, discontinuance and abandonment of Williamsbridge road, between Briggs avenue and Valentine avenue, in front of and adjoining said premises.

All the foregoing premises are more particularly described in the petitions on which the said orders were based and filed therewith in the office of the Clerk of the County of New York and are shown on the damage map attached to our abstract of estimate and assessment.

And we, the said Commissioners, having been directed also by the aforesaid orders and by the provisions of chapter 1006 of the Laws of 1895 to ascertain and determine the benefit and advantage to the lands, tenements and hereditaments and premises which shall be benefited by the closing, discontinuance and abandonment of the aforesaid Williamsbridge road, between Bainbridge avenue and Valentine avenue.

Fourth—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 13th day of March, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 14th day of March, 1907, at 12 o'clock m.

Fifth—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 14th day of March, 1907.

Sixth—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, and being all that part of Williamsbridge road, being Lot No. 24 in Block 3295, bounded by East One Hundred and Ninety-eighth street, East One Hundred and Ninety-sixth street, Bainbridge avenue and Briggs avenue, and all that part of Williamsbridge road, being Lot No. 12 in Block 3301, bounded by East One Hundred and Ninety-eighth street, East One Hundred and Ninety-sixth street, Briggs avenue and Valentine avenue.

Seventh—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan in The City of New York, on the 6th day of May, 1907, at the opening of the Court on that day.

Eighth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906. Dated Borough of Manhattan, New York, February 1, 1907.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
