- (2) In the Newtown Creek Subdistrict, for #developments# that provide a publicly accessible private street and open area that comply with the provisions of paragraph (a) of this Section, the #floor area ratio# for any #zoning lot# with #buildings# containing #residences# may be increased from 3.75 to a maximum #floor area ratio# of 5.0 through the provision of #lower income housing#, pursuant to the provisions relating to #Inclusionary Housing designated areas# in Section 23-90 (INCLUSIONARY HOUSING), except that:

- (i) the height and setback regulations of paragraph (b) of Section 23-942 shall not apply. In lieu thereof, the special height and setback regulations of Section 125-30 (HEIGHT AND SETBACK REGULATIONS), inclusive, of this Chapter shall apply, and

The provisions of Section 33-42 (Permitted Obstructions) shall apply to all #buildings# within the #Special Southern Hunters Point District#, except that elevator or stair bulkheads, roof water tanks, cooling towers or other mechanical equipment (including enclosures), may penetrate a maximum height limit provided that either

- (1) the product, in square feet, of the #aggregate width of street walls# of such obstructions facing each #street# frontage, times their average height, in feet, shall not exceed a figure equal to eight times the width, in feet, of the #street wall# of the #building# facing such frontage or,
- (2) the #lot coverage# of all such obstructions does not exceed 20 percent of the #lot coverage# of the #building#, and the height of all such obstructions does not exceed 40 feet. In addition, dormers may penetrate a maximum base height in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts).

- (b) Screening requirements for mechanical equipment

For all #developments# and #enlargements#, all mechanical equipment located on any roof of a #building or other structure# shall be fully enclosed, except that openings in such enclosure shall be permitted only to the extent necessary for ventilation and exhaust.

125-32 Balconies

Balconies shall not be permitted below a height of 70 feet. Above a height of 70 feet, balconies are permitted provided that at least 50 percent of the perimeter of the balcony is bounded by building walls, exclusive of parapet walls.

125-33 Required Street Walls

- (a) Street wall location

All #street walls# of #buildings# shall be located on #street lines# of #zoning lots# as shown on Map 3 (Street Wall Location). For the purposes of applying the height and setback regulations of this Section, wherever a #building# fronts upon any #public

park#, or any sidewalk widening, publicly accessible open area or private street #developed# in accordance with the design requirements of Sections 125-41 through 125-46, inclusive, the boundary of such #public park#, sidewalk widening, publicly accessible open area or private street shall be considered to be a #wide street line#

- (b) Minimum base heights

All #street walls# shall extend up to at least a minimum base height of 50 feet or the height of the #building#, whichever is less, except that a minimum base height of 40 feet shall be permitted in the locations specified on Map 4 (Minimum Base Heights of 40 feet).

- (c) Maximum base heights

The maximum height of a #street wall# before setback shall be 70 feet, except in the locations specified on Map 5 (Maximum Base Heights other than 70 feet).

- (d) Recesses

Recesses, not to exceed three feet in depth, shall be permitted on the ground floor where required to provide access to the #building#, and recesses, not to exceed five feet in depth, shall be permitted on the ground floor where required to provide access to utilities. Above the height of the second #story# or 30 feet above adjoining grade, whichever is greater, up to 30 percent of the #aggregate width of street walls# may be recessed beyond the #street line#.

- (c) Required setbacks and maximum building heights

Setbacks are required for all portions of #buildings# that exceed the applicable maximum base height, except #schools#. All required setbacks shall be provided at a height not lower than the applicable minimum base height. A setback with a depth of at least 10 feet shall be provided from any #street wall# fronting on a #wide street#, and a setback with a depth of at least 15 feet shall be provided from any #street wall# fronting on a #narrow street#, except that the depth of such setbacks may include the depth of any permitted recesses in the #street wall#. For the purposes of this paragraph, (c), the following shall be considered #wide streets#:

- (1) Second Street between 54th Avenue and Borden Avenue;
- (2) 55th Avenue between Center Boulevard and Second Street, and

Any portion of a #building# that exceeds a height of 125 feet shall comply with the following provisions:

- (a) Tower location and maximum tower height
All towers shall be located entirely within a Tower Area as designated on Map 6 (Tower Areas). The maximum height of such towers shall be as indicated for the specified location on Map 6. For #buildings# higher than 165 feet, the #stories# entirely within 40 feet of the highest roof level of the #building# shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph, each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

- (b) Orientation and maximum tower size

The outermost walls of each #story# located entirely above a height of 125 feet shall be inscribed within a rectangle. The maximum length of any side of such rectangle that is parallel or within 45 degrees of being parallel to Second Street or Center Boulevard, whichever is closest, shall be 95 feet. The maximum length of any other side of such rectangle shall be 170 feet. Each #story# of a tower located entirely above a height of 125 feet shall not exceed a gross area of 11,000 square feet.

However, on Parcel G in the East River Subdistrict, the maximum length of the side of such rectangle that is parallel or within 45 degrees of being parallel to Second Street shall not exceed 170 feet.

- (c) Tower and base integration

Notwithstanding the setback provisions of

paragraph (c) of Section 125-33, up to 50 percent of the #street wall# width of a tower may rise sheer from grade without setback.

125-35 Authorization for Height and Setback Modifications

Within the #Special Southern Hunters Point District#, for any #development# or #enlargement#, the City Planning Commission may modify the regulations set forth in Section 125-30, inclusive, provided the Commission finds that such modifications:

- (a) will result in a better distribution of #bulk# on the #zoning lot# and will not adversely affect access to light and air for surrounding public access areas, #streets# and properties;
- (b) are consistent with the goals of the Special District to provide flexibility of architectural design and encourage more attractive building forms; and
- (c) will result in a #development# or #enlargement# that enhances the streetscape and is compatible with #development# in the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects of the #development# or #enlargement# on the character of the surrounding area.

125-40 DISTRICT PLAN ELEMENTS

The following regulations shall apply within Area A to all portions of #buildings# with frontage on 126th Street, the #primary retail street#, the #retail streets#, #connector streets#, and, in the event that a utility easement is retained on the #block# bounded by Roosevelt Avenue and 126th Street, along the frontage of the publicly accessible open space required by paragraph (d) of Section 124-42.

- Ground floor #uses#

#Uses# located on the ground floor level or within five feet of #base flood elevation# shall be limited to #commercial uses# permitted by the underlying district, but not including #uses# listed in Use Groups 6B, 6E, 8C, 8D, 9B, 10B or 12D. A building's frontage shall be allocated exclusively to such #uses#, except for lobby space or entryways, parking where permitted pursuant to Section 124-50, inclusive, and vehicular access where permitted pursuant to Section 124-53 (Curb Cut restrictions). Such #uses# shall have a minimum depth of 50 feet measured from any #street wall# facing 126th Street, the #primary retail street# or #connector streets#.

In no event shall the length of such frontage occupied by lobby space or entryways exceed, in total, 40 feet or 25 percent of the building's frontage, whichever is less, except that the width of a lobby need not be less than 20 feet.

- Maximum length of establishments facing 126th Street and the #primary retail street#

The length of ground floor frontage occupied by any establishment shall not exceed 110 feet along 126th Street and 65 feet along the #primary retail street#. Such maximum lengths shall apply within 50 feet of any #street wall# facing 126th Street and the #primary retail street#. However, the provisions of this paragraph, (b), shall not apply within 300 feet of Northern Boulevard.

- Access

Access to each ground floor establishment shall be provided directly from a #street#.

For any new #development# or #enlargement#, each ground floor #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 70 percent of the area of each such ground floor #street wall#, measured to a height of 10 feet above the level of the adjoining sidewalk or public access area. Not less than 50 percent of such glazed area shall be glazed with transparent materials and up to 20 percent of such area may be glazed with translucent materials.

However, in locations where such ground floor #street wall# above the level of the adjoining sidewalk or public access area is below #base flood elevation#, the required glazed area shall occupy an area measured from #base flood elevation# to a height 10 feet above #base flood elevation#.

124-15 Modification of Sign Regulations

The height of all #signs# shall be measured from #base flood elevation#. The underlying #sign# regulations shall apply, except as set forth in this Section.

- Within Area A, the #sign# regulations of a C4 District shall apply, except for #street walls# facing Roosevelt Avenue, Northern Boulevard and 126th Street.

- For #street walls# facing 126th Street to a height of 35 feet, the #sign# regulations of a C4 District shall apply, provided that the maximum projection of any #sign# from the exterior wall of a #building# shall be four feet, and the transparency requirements of paragraph (d) of Section 124-14 are met.
- For #street walls# facing 126th Street above 35 feet in height, the #sign# regulations of a C4 District shall apply except that all permitted #signs#, including #illuminated signs# and #flashing signs#, shall be permitted without limitation on #surface area#, provided that:
 - no such #signs# are higher than 85 feet;
 - the maximum projection of any #sign# from the exterior wall of a #building# shall be four feet, except that projections not exceeding six feet are permitted, provided that such projections beyond four feet shall comprise not more than 20 percent of the #surface area# of all such #signs# on the establishment; and
 - no #sign# attached to a #building or other structure# shall extend above any parapet wall or roof of such #building or other structure#.
- Within 150 feet of the neighborhood park required pursuant to Section 124-40 paragraph (a), #flashing signs# whose message is visible from such park shall not be permitted.
- The provisions of Section 32-67 (Special Provisions Applying Along District Boundaries) shall not apply in the #Special Willets Point District#.

124-16 Authorization for Electrical Utility Substations

The City Planning Commission may authorize electrical utility substations in the #Special Willets Point District# in order to serve the needs of the Special District, and the regulations thereof shall be modified as necessary to accommodate the operational needs of the substation, upon authorization of the City Planning Commission, provided the Commission finds that:

- the architectural and landscaping treatment of such #use# will blend harmoniously with the abutting area to the extent reasonably permitted by the operational needs of the substation; and
- if the site proposed for such #use# is within Area A, that there are difficulties in locating such #use# within Area B.

The City Planning Commission may, consistent with cost-effective operations and capital planning, and the operational needs of the substation, prescribe appropriate conditions and safeguards on matters necessary to effectuate the provisions of paragraph (a) of this Section which are not regulated by other applicable codes, laws, rules or regulations. The applicant shall provide the Department of City Planning with a general description of such codes, laws, rules or regulations and a certification that the proposed substation shall comply therewith.

124-17 Special Permit for Cogeneration Power Plant

The Board of Standards and Appeals may permit a combined heat and power cogeneration plant not to exceed 100,000 square feet in #floor area#, provided that:

- (a) the power plant is designed to maximize both electric and thermal cogeneration system efficiency to the greatest extent feasible;
- (b) a detailed energy analysis is submitted to the Board demonstrating that the system as designed will operate with maximum efficiency and perform more effectively than a traditional, power-purchased-from-grid, system; and
- (c) the power plant is designed primarily to serve the #Special Willets Point District#.

In addition, the Board shall refer such application to the Department of Environmental Protection for a report to ensure that the power plant is designed to maximize cogeneration efficiency to the greatest extent feasible and that the system as designed will operate with maximum efficiency and perform more effectively than a traditional, power-purchased-from-grid system.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including safety devices, emissions limits, and the concealment of such use with building enclosures, landscaping, buffer zones or other methods.

124-18 Special Permit for Wastewater Treatment Plant

The Board of Standards and Appeals may permit an enclosed membrane bio-reactor wastewater treatment plant not to exceed 100,000 square feet in #floor area# on a site not to exceed 40,000 square feet in area, provided that the following findings are made:

- (a) that in all cases the proposed plant promotes and protects the public health, safety and general welfare;
- (b) the proposed plant will be adequate for anticipated #development# in the area to be served;
- (c) the proposed plant is designed primarily to serve the #Special Willets Point District#;
- (d) the site for such #use# is so located as to minimize the adverse effects on the integrity of existing and future development, and to minimize the interruption of the continuity of retail frontage;
- (e) the architectural and landscaping treatment of such #use# will blend harmoniously with the rest of the area; and
- (f) that such #use# will conform to the performance standards applicable to M1 Districts.

In addition, the Board shall refer such application to the Department of Health and the Department of Environmental Protection for a report to ensure that the site-specific design of the enclosed, membrane bio-reactor waste water treatment plant meets all city and state health and effluent standards.

The Board may prescribe appropriate conditions or safeguards to minimize adverse effects on the character of the surrounding area including requirements for soundproofing, safety devices, and the concealment of such #use# with building enclosures, landscaping, buffer zones or other methods.

124-19 Location and Other Requirements for Specific Uses

124-191 Convention center

A trade exposition center, hereinafter referred to as a convention center, is permitted in the #Special Willets Point District# only in accordance with this Section and shall be located on a #connector street#. A convention center may only be located in the area as depicted on Map 3 (Location Requirements), being entirely within 650 feet of Northern Boulevard.

Furthermore, a convention center may not be located within 200 feet of 126th Street, and any portion of a convention center located between 200 feet and 450 feet of 126th Street shall be limited to no more than 50,000 square feet of #floor area#.

Section 124-14 (Retail Continuity) shall not be applicable to a convention center. In lieu thereof, the transparency requirements of this Section shall apply to the #street wall# of the convention center facing a #connector street#. Such #street wall# shall be glazed with materials which may include show windows, glazed transoms or glazed portions of doors. Such glazed area shall occupy at least 50 percent of the area of such #street wall#, measured to a height of 15 feet above the level of the adjoining sidewalk or public access area. Not less than 40 percent of such area shall be glazed with transparent materials.

The main entrance(s) of such convention center shall be on a #connector street#.

124-22 Height and Setback Regulations

The height and setback regulations of this Section shall apply throughout the #Special Willets Point District#, except that #developments# or #enlargements# that result in less than 100,000 square feet of #floor area# on #zoning lots# of less than 200,000 square feet shall be limited to the height and setback regulations of an R6B District. The height of all #buildings# or other structures# shall be measured from the level of the adjoining sidewalk or other publicly accessible open area. For the purposes of this Section, 34th Avenue and Willets Point Boulevard shall be considered to be #connector streets#, 127th Street shall be considered to be a #residential street#, and public access areas provided pursuant to paragraph (d) of Section 124-42 (Types and Standards of Publicly Accessible Open Space) shall be considered a #connector street#.

- (a) Street Wall Location and Base Heights
 - (1) Except along 126th Street, Northern Boulevard and #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to at least a minimum base height of 60 feet or the height of the building, whichever is less. The maximum height of a #building# or other structure# before setback shall be 85 feet. However, the minimum base height of a convention center shall be 40 feet or the height of the #building#, whichever is less.
 - (2) Along 126th Street, at least 80 percent of the #aggregate width of street walls# shall be located within 60 feet of the #street line# of 126th Street and shall extend to at least a minimum base height of 60 feet, or the height of the #building#,

whichever is less. The maximum height of a #building# or other structure# before setback shall be 85 feet. However, for #buildings# directly opposite Citifield Stadium, a setback lower than 60 feet shall be permitted provided that:

- (i) for #buildings# greater than 85 feet in height, an additional setback is provided between a height of 60 and 85 feet; and
- (ii) eating and drinking establishments with outdoor seating on terraces overlooking 126th Street are provided on the second #story#. Such terraces shall be located on the roof level above the ground floor level of the #building#, at a height not lower than 20 feet or higher than 30 feet above the level of the sidewalk fronting the 126th #street wall# of the #building#, and shall have a minimum depth of 15 feet.
- (3) Along #residential streets#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# or public access area and shall extend without setback to at least a minimum base height of 40 feet or the height of the building, whichever is less. The maximum height of a #building# or other structure# before setback shall be 85 feet. Where #street walls# facing #residential streets# contain ground floor #dwelling units#, such #street walls# shall be set back at least four feet from the #street line#. The #building# may project into the required setback area provided that:

- (i) any such projection does not exceed 20 feet in width;
- (ii) any such projection does not exceed 25 feet in height;
- (iii) the aggregate width of all such projections at the level of any #story# shall not exceed 50 percent of the width of the #street wall# of the #building#; and
- (iv) all such projections are at least 10 feet apart.
- (4) Along Northern Boulevard, no portion of a #street wall# shall be located closer to Northern Boulevard than eight feet. At least 70 percent of the #aggregate width of street walls# shall be located between eight and 15 feet of the Northern Boulevard #street line# and shall extend without setback to at least a minimum base height of 60 feet or the height of the #building#, whichever is less. The maximum height of a #building# or other structure# before setback shall be 85 feet.
- (5) Wherever an open area is provided between the #street wall# of a #building# and the #streetline#, such area shall be planted, except at entrances to and exits from the #building#, and except where non-#residential uses# are provided at the ground floor level of the #building#.

(b) Required setbacks and maximum building height

Except as provided in paragraph (c)(6) of this Section, setbacks are required for all portions of #buildings# that exceed a height of 85 feet. Such setbacks shall be provided at a height not lower than 60 feet. The depth of the required setback shall be at least 10 feet measured from any required #street wall# fronting on a #wide street#, and at least 15 feet from any required #street wall# fronting on a #narrow street#. Where portions of #buildings# that exceed a height of 85 feet are not located above a required #street wall#, such portions shall be set back at least ten feet from a #wide street line# and at least 15 feet from a #narrow street line#. However, dormers may penetrate a height of 85 feet in accordance with the provisions of paragraph (c) of Section 23-621 (Permitted obstructions in certain districts). Within the area shown on Map 4 as limited to 232 feet above mean sea level, no portion of a #building# shall exceed a height of 120 feet except in accordance with the tower provisions of paragraph (c) of this Section.

(c) Towers

Within the area shown on Map 4 as limited to 232 feet above mean sea level, any #story# of a #building# located above a height of 120 feet shall comply with the provisions of this paragraph, (c). Such portions of a #building# are hereinafter referred to as "towers."

- (1) Maximum tower size

Each #residential story# of a tower located entirely above a height of 120 feet shall not exceed a gross area of 11,000 square feet.
- (2) Maximum tower length

The maximum length of any #residential story#

located entirely above a height of 120 feet shall not exceed 170 feet. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. No side of such rectangle shall exceed a length of 170 feet.

(3) Orientation

The length of any #residential story# located entirely above a height of 120 feet shall be at least 1.5 times its width and oriented so that the long side of such tower faces within 25 degrees of geographical south. Such length shall be measured by inscribing within a rectangle the outermost walls of the tower at the level of each #story# entirely above a height of 120 feet. The orientation provisions of this paragraph, (3), need not apply if at least 75 percent of all towers in the #Special Willets Point District# for which building permits have been issued comply with such provisions.

(4) Tower top articulation

For towers containing #residences#, the highest three #stories#, or as many #stories# as are located entirely above a height of 120 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#. Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this paragraph, each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(5) Distance between towers

The minimum distance between all towers shall be 60 feet.

(6) Tower walls without setbacks

To permit a #building# to rise from grade to a tower portion without setback, the setback provisions of paragraph (b) of this Section shall not apply to any portion of a #building# located within the tower wall location areas shown on Map 5, provided that this exception from paragraph (b) of this Section shall not apply to more than one tower for each #block#.

(d) Maximum total height

The maximum height of any #building or other structure# shall be as depicted on Map 4 (Height Limits). The height limits established in Map 4 include reference points for two airport referenced imaginary surfaces, as defined in Section 61-30, that are continuous planes, and one area with a maximum height limitation of 232 feet above mean sea level. The coordinates of the points are as follows:

Point 1	73°50'42.9"W	40°45'38.1"N
Point 2	73°50'36.8"W	40°45'45.6"N
Point 3	73°50'26.6"W	40°45'39.3"N
Point 4	73°50'33.6"W	40°45'30.7"N

The height limits hereby established supersede the height limits described in Article VI, Chapter 1 (SPECIAL REGULATIONS APPLYING AROUND MAJOR AIRPORTS). Application may be made to the Board of Standards and Appeals pursuant to Section 73-66 (Height Regulations around Airports) for a permit to construct a #building or other structure# in excess of what is permitted pursuant to this paragraph, (d), provided that such application is also referred to the Port Authority of New York and New Jersey.

 (CEQR No. 09DCP004M)**

Notice is hereby given that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) and 6 NYCRR 617.8 (State Environmental Quality Review) that the New York City Department of City Planning (DCP), acting on behalf of the City Planning Commission (CPC) as CEQR lead agency, has determined that a Draft Environmental Impact Statement (DEIS) is to be prepared for the 53 West 53rd Street project (CEQR No. 09DCP004M)

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Tuesday, November 18, 2008, and will be held at the New York City Department of City Planning's Spector Hall, 22 Reade Street, New York, New York, 10007. The meeting will begin at 10:00 AM. Written comments will be accepted by the lead agency until Wednesday, December 3, 2008.

Copies of the Draft Scope of Work and the Environmental Assessment Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 22 Reade Street, 4E, New York, New York 10007, Robert Dobruskin, AICP, Director (212) 720-3423; or from the Office of Environmental Coordination, 253 Broadway, 14th Floor, New York, New York 10007, Robert Kulikowski, Ph.D., Director (212) 788-2937. The Draft Scope of Work and scoping protocol will also be made available for download at www.nyc.gov/planning.

The applicant, W2005/Hines West Fifty-Third Realty, LLC, is seeking multiple actions in connection with a proposal for a mixed-use development at 53 West 53rd Street, a 18,560 square foot vacant property on the block bounded by Sixth Avenue on the west, West 54th Street on the north, Fifth Avenue on the east, and West 53rd Street on the south. The development site (described further below) would be redeveloped with a new building containing hotel and residential components as well as additional space for MoMA. The proposed actions would facilitate a proposal by the applicant to construct a 1,250 foot tall mixed-use building of 786,562 gross square feet that would contain 718,465 gsf of space that would be divided between hotel and residential use and approximately 68,097 gsf of museum-related space. The hotel use would occupy between 100,000 and 200,000 gsf of space and would include approximately 7,000 gsf of restaurant space. The residential use would occupy between 518,465 and 618,465 gsf of space. It is anticipated that the project sponsor would construct no more than 150 residential units and 100 hotel rooms; however, for the purposes of

environmental review, a reasonable worst case development scenario will be analyzed based on total of 300 residential units and 167 hotel rooms. The building would have a tapered shape, and it is expected that the building would be clad with glass and aluminum mullions.

The development site is an irregularly shaped throughlot (Block 1269, Lots 5, 6, 7, 8, 66, 69, and 165) that is part of a larger project site (including Block 1269, Lots 9, 11, 12, 13, 14, 20, 30, 58, and 7501). The development site, which is adjacent to The Museum of Modern Art (MoMA), is located in C5-2.5, C5-P, and C6-6 commercial zoning districts as well as the Special Midtown District in the Midtown neighborhood of Community District 5, Manhattan.

The 53 West 53rd Street project requires CPC approval of a Special Permit pursuant to Zoning Resolution (ZR) Sections 74-79 and 81-212 and a Special Permit pursuant to ZR Sections 74-711 and 81-277:

- Special permit pursuant to ZR Sections 74-79 and 81-212 to allow the transfer of development rights from the University Club at One West 54th Street for use on the development site. The University Club is a New York City Landmark that is also listed on the State and National Registers of Historic Places. Section 74-79 permits the transfer of development rights from lots occupied by landmark buildings to adjacent lots. An adjacent lot is defined as a lot that is contiguous to the lot occupied by the landmark building or that is across a street and opposite to the lot occupied by the landmark building.
- Special permit pursuant to ZR Section 74-711 and 81-277 to allow, in connection with the use of excess development rights from St. Thomas Church, the distribution of floor area without regard to zoning district boundaries and the modification of certain bulk requirements relating to height and setback requirements, pedestrian circulation space, and rear yard equivalent requirements. St. Thomas Church is a New York City Landmark that is also listed on the State and National Registers of Historic Places. Section 74-711 permits the modification of the use and bulk regulations governing zoning lots that contain landmarks provided that certain conditions are established to preserve the landmark building and that this maintenance program or any use or bulk modifications will contribute to a preservation purpose.

In connection with these actions, the following would be required:

- Report regarding St. Thomas Church from New York City Landmarks Preservation Commission (LPC) in connection with special permit pursuant to ZR Section 74-711;
- Report regarding University Club from LPC in connection with special permit pursuant to ZR Section 74-79;
- Certificate of No Effect or Certificate of Appropriateness for proposed work to both St. Thomas Church and University Club pursuant to Continuing Maintenance Plan.

The proposed building would expand and connect MoMA's existing gallery space into a new wing of galleries to be located on the second, fourth, and fifth floors of the proposed project. The new second floor would have the same double height space as in the Museum's current galleries; there would be no third floor. These new galleries would enable MoMA to showcase more works of art, including large-scale works, from its permanent collection, as well as special exhibitions.

The hotel portion of the project would be located above the museum portion of the building and would include a substantial number of suites. The residential use would be located above the hotel portion of the building. The main hotel lobby would be located on West 53rd Street, just west of the American Folk Art Museum. A through-block lobby to allow hotel patrons to exit on 54th Street would also be provided. The residential entrance would be located on 54th Street west of the secondary hotel entrance. A residential service entrance would be located to the west of the residential entrance. The service entrance would contain an area inside the building for signing-in and queuing of service personnel. The project's required loading dock would be located on 54th Street just west of the existing MoMA loading docks.

Absent the proposed actions, the analysis assumes the applicant will develop the development site with either of two as-of-right projects that can be built without any discretionary approvals. These two projects are referred to as the Previously Approved Project and the Expanded Development Scenario. The Previously Approved Project is a 285 foot tall, 250,000 gsf building, containing museum-related space, commercial office use, and ground-floor retail space and an adjacent infill structure containing museum-related space that would link MoMA's existing galleries internally to new gallery space in the larger building. This project was approved by the CPC in 2007. The Expanded Development Scenario is a 1,089 foot tall, 508,013 gsf building containing hotel use, residential space, and museum-related space that would connect to the existing MoMA building.

Construction of the proposed project would commence in 2009 contingent upon approval of the proposed discretionary actions. The build year for the project is 2013.

Public comments are requested with respect to issues to be addressed in the draft environmental impact statement.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists-free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at NYC.gov/selltonyc

- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
