With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate

compliance with corporate filings, organizational capacity, and relevant service experience.

- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

What authorizes DSNY to make this rule? Sections 1043 and 753 of the New York City Charter and section 16-306.1 of the New York City Administrative Code authorize DSNY to make this proposed rule. This proposed rule was included in DSNY's published regulatory agenda for this Fiscal Year 2020.

Where can I find the DSNY's rules? DSNY's rules are in title 16 of the Rules of the City of New York.

What laws govern the rulemaking process? DSNY must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

Statement of Basis and Purpose of Proposed Rule

Food scraps and other organic waste make up more than one-third of all commercial waste in New York City. Diverting this material from landfills to produce soil enhancing compost, or as an energy source through aerobic and anaerobic digesters, is a key component of the City's goal of sending zero waste to landfills.

Under Local Law 146 of 2013, codified in §16-306.1 of the New York City Administrative Code, the Sanitation Commissioner must evaluate, at least annually, whether there exists sufficient regional organic waste processing capacity to require that certain food-generating businesses in the City, or a subset of them, engage in source separation of organic waste and ensure its beneficial use through composting, anaerobic digestion or other process as approved by the Commissioner.

DSNY has determined that there is currently sufficient organics processing capacity available to allow for an increase in food waste diversion and thus proposes to apply the requirement to additional large food-generating businesses in the city. These businesses would be required to separate their organic waste for collection and handling either by engaging private carters, transporting organic waste themselves, or managing the waste on-site using in-vessel composting or aerobic or anaerobic digestion systems (subject to compliance with the City's sewer discharge regulations). A designated covered establishment could also donate food to a third party (such as a charitable organization) that would otherwise be thrown away, sell or donate the food to a farmer for feedstock, or sell or donate meat by-products to a rendering company (one that converts animal fats into lard). Food disposed of through such donations or sales would not be included within the meaning of "organic waste" as defined in DSNY's existing rules (§ 1-01 of Chapter 1 of Title 16).

The proposed amendments to the existing rule provide that the following types of establishments would be "designated covered establishments" and would have to comply with the source separation, storage, labeling and set out requirements for organic waste set forth in Section 1-11 of Title 16 of the Rules of the City of New York ("Section 1-11"):

- 1) any building or premises where food service establishments having a total combined floor area of at least eight thousand square feet are located and where the owner of the building or premises, or its agent, arranges or contracts with a private carter for the removal of waste from food service establishments having at least eight thousand square feet of such building or premises;
- 2) a location at which a food preparation establishment has a floor area of at least six thousand square feet;
- 3) a catering establishment that is required to provide for the removal of waste pursuant to Administrative Code § 16-116 whenever the anticipated attendance for any particular event is greater than one hundred persons; and
- 4) sponsors of a temporary public event with an anticipated attendance of greater than five hundred persons per day, excluding activities conducted pursuant to a valid permit for filming, demonstration, parade, or block parties.

Additionally, the proposed rule would change the criteria regarding certain covered establishments previously designated under Section 1-11 as follows:

- 1) a food service establishment located in a hotel having at least one hundred sleeping rooms, which would be lowered from the current requirement of one hundred fifty sleeping rooms, in addition to removing the requirement that such food service establishment operate under common ownership or control of such hotel and receive waste collection from the same private carter that services the hotel;
- 2) a food service establishment that has a floor area space of at least seven thousand square feet, which would be lowered from the current requirement of fifteen thousand feet;
- 3) a food service establishment that is part of a chain of two or more locations in New York City, which have a combined floor area of at least eight thousand square feet and that (i) operate under common ownership or control; (ii) are individually franchised outlets of a parent business; or (iii) do business under the same corporate name, which would be lowered from the current requirement of a chain of one hundred or more locations in the City; and
- 4) a retail food store that has a floor area space of at least ten thousand square feet, or any retail food store that is part of a chain of three or more retail food stores that have a combined floor area space of at least ten thousand square feet, which would be lowered from the current requirement of twenty-five thousand square feet, and that operate under common ownership or control and receive waste collection from the same private carter.

DSNY's authority to promulgate these rules is found in New York City Charter §§ 753 and 1043, and Administrative Code § 6-306.1.

New material is underlined.

[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Subdivision (a) of Section 1-11 of Chapter 1 of Title 16 of the Rules of the City of New York, relating to the handling of organic waste generated by certain commercial establishments, is amended to read as follows:

§ 1-11 Organic Waste Generated by Commercial Establishments.

- (a) *Designated covered establishments.* Pursuant to § 16-306.1(b) of the New York City Administrative Code, the following commercial establishments are "designated covered establishments" for purposes of this section and shall comply with the requirements set forth in this section:
 - (1) an arena or stadium having a seating capacity of at least fifteen thousand persons;
 - (2) a food service establishment that [(i)] is located within a hotel having at least one hundred [fifty] sleeping rooms [, (ii) operates under common ownership or control of such hotel, and (iii) receives waste collection from the same private carter as such hotel];
 - (3) a food manufacturer that has a floor area of at least twenty-five thousand square feet;
 - (4) a food wholesaler that has a floor area of at least twenty thousand square feet;
 - (5) a food service establishment that has a floor area of at least [fifteen] seven thousand square feet;
 - (6) (i) a food service establishment that is part of a chain of [one hundred] two or more locations in the City of New York, have a combined floor area of at least eight thousand square feet and that

(i) (A) operate under common ownership or control; (ii) (B) are individually franchised outlets of a parent business; or (iii) (C) do business under the same corporate name.

(ii) Any person who owns or operates two or fewer food service establishments may request a waiver from the [sanitation] commissioner of the requirements of this section if no single food service establishment has a floor area of at least seven thousand square feet, the food service establishment or establishments are individually franchised outlets of a parent business covered by this subparagraph, and the owner or operator establishes that the food service establishment or establishments do not receive private carting services through a general carting agreement between a parent business and private carter; and

(7) a retail food store that has a floor area of at least [twenty-five thousand] ten thousand square feet, or any retail food store that is part of a chain of three or more retail food stores that have a combined floor area space of at least ten thousand square feet and that operate under common ownership or control and receive waste collection from the same private carter;

(8) any building or premises where food service establishments having a total combined floor area of at least eight thousand square feet are located and where the owner of the building or premises, or its agent, arranges or contracts with a private carter for the removal of waste from food service establishments having at least eight thousand square feet of such building or premises;

(9) a location at which a food preparation establishment has a floor area of at least six thousand square feet;

(10) a catering establishment that is required to provide for the removal of waste pursuant to section 16-116 of the administrative code of the city of New York whenever the anticipated attendance for any particular event is greater than one hundred persons; and

(11) sponsors of a temporary public event with an anticipated attendance of greater than five hundred persons per day, excluding activities conducted pursuant to a valid permit for filming, demonstration, parade, or block parties.

For purposes of this section, the "floor area" of an establishment has the same meaning as defined under Section 12-10 of Chapter 2 of Article 1 of the Zoning Resolution.

Statement of Basis and Purpose of Proposed Rule

Local Law 175 of 2018 amended Title 19 of the New York City Administrative Code (the "Ad Code") by adding a new section 19-175.6, which requires sight-seeing bus operators to apply for on-street Bus Stop Permits from the Department of Transportation. The proposed changes will conform DOT'S Traffic Rules to the aforementioned Ad Code changes and additionally, will update the parkway permit restrictions to allow heavier vehicles on portions of the Belt Parkway.

Specifically, the proposed rule would:

- Amend Section 4-07(j)(3)(i) by removing the weight restriction for the Belt Parkway.
- Amend Section 4-10(c) by requiring that bus stops must be assigned by the Department under a permit system.
- Repeal Section 4-10(j) and replace it with a new section 4-10(j) requiring the owner or operator of a sight-seeing bus, shuttle bus, or public transportation bus, that makes on-street stops to pick up or discharge passengers in the City of New York, to obtain a Bus Stop Permit from DOT for each on-street bus stop location.

(v) If the Department denies an application submitted pursuant to subparagraph (i) of this paragraph, or disapproves of all of an applicant's on-street bus stop locations requested in its application

(iv) Display on each bus authorized hereunder to stop at an on-street bus stop the owner or operator's name, address and telephone number permanently affixed in characters at least five inches high on both sides of the bus, with such display being in a color contrasting with that of the bus and placed approximately midway vertically on doors or side panels. Bus operators may also meet the display obligations by prominently marking buses in such a way that such markings clearly identify the bus operator when observed from the closest curb at which the bus is stopped.

(v) Pick up and discharge passengers only at on-street bus stop(s) assigned by the Department.

(vi) Not stop or stand in an assigned on-street bus stop location except when actively engaged in the pick-up or discharge of passengers.

This subparagraph applies only to sight-seeing Bus Stop Permit holders.

(8) Suspension and revocation of Bus Stop Permits.

(A) For failure to comply with any of the requirements of this subdivision;

(B) In the event of suspension or termination of the authorization to operate its bus by either the United States Department of Transportation Federal Motor Carrier Safety Administration or the

New York State Department of Transportation or the New York City Department of Consumer Affairs;

(C) Based on any grounds listed in subparagraph (i) of paragraph (3) of this subdivision;

(ii) Prior to suspending or revoking a Bus Stop Permit, the Department will give the bus company an opportunity to be heard upon at least two business days' notice.

(iii) If the Department determines that an imminent peril to life or property exists, the Department may suspend or revoke a bus stop authorization without providing the permittee an opportunity to be heard prior to such suspension or revocation. Upon request of the permittee, the Department will provide the permittee an opportunity to present its objections to such suspension or revocation within five business days after the Department receives the request.
