York :		C	t.at.a	new of D	hlie	Works	

It becomes my duty as Commissioner of Public Works and custodian of the many and immense interests in-volved in the City's water supply, to briefly present to the people of the City the present condition of the supply, and the extreme necessity for care and economy in the use of the water.

T

For a number of years past and up to the present time, the old Aqueduct and the Bronx river conduit and the delivered in the City all the water which they are capable of carrying, the supply thus remaining station-ary when the City has been constantly growing in popu-tation, buildings, manufactures and commerce, creating mean additional demands upon the water service. The consequence is that at certain seasons of the year, not-ably in extreme cold weather, when the habit of wasting water from faucets to prevent freezing in the pipes pre-valls, and in warm and dry weather, when various exceeds the supply which can by any possibility be received through the old Aqueduct and the Bronx river conduit, the excess of consumption being drawn from the city reservoirs, diminishing the depth of water and the promotion of water throughout the city is care and commy in its use on the part of the popel Afready the depth of water in the reservoirs is being in the mean the only reliance for a fair and end continue tor any length of time, the pressure in the distributing mains would be so reduced that this should continue tor any length of time, the pressure in the distributing mains would be so reduced that this is be impossible to deliver water in thousands of ucases located on high ground, and in some other careful and economical in the use of water, in iustice themselves, to the pople at large, and especially to prove the exceed as to be already suffering increasing the the ast of the period water.
