PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held July 21, 1905, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York:

The Star Telephone Company, a domestic corporation, respectfully petitions your Honorable Board, and applies for the right, privilege and franchise to lay, erect, construct and maintain suitable wires or other conductors, with the necessary poles, fixtures and appliances in, over, across and under the streets, avenues, highways, parks and public places within the limits of The City of New York, for the purpose of conducting and distributing electricity and the operating of telephone and telegraph lines and business within the said City, subject to the following terms and conditions, namely:

First—The right, privilege and franchise herein applied for shall continue for a term of twenty-five years, with the right of a renewal thereof to the grantee for a further period of twenty-five years, upon a fair revaluation to be made by three disinterested appraisers to be appointed, one by the Board of Estimate and Apportionment or its successors in authority, whereof notice shall be given said company, and one by the Star Telephone Company, both at least six months prior to the expiration of said grant, and the third by said first two, to be chosen within thirty days after the appointment of the last one of the two so chosen. Each appointment shall be filed with the Comptroller of The City of New York, and the report of the appraisers shall also be filed with the Comptroller or his successor in authority within three months after the appointment of the last appraiser. In case of the failure of the grantee to name an appraiser, the appraiser named by the Board of Estimate and Apportionment may act alone. In case of delay in the appraisal from any other cause, the valuation shall be merely postponed and the operation of the grant continue meanwhile. The appraisers may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party. They shall have the right to examine the books of the Star Telephone Company. The valuation so ascertained, fixed and determined shall be conclusive upon both parties.

Upon the termination of the franchise or right in the plant as well as the property of the grantee in streets, avenues, parks and highways with its appurtenances, shall become the property of the City without further compensation except for the plant for which The City of New York shall pay a fair valuation, to be estimated as aforesaid.

Second—The Star Telephone Company shall not make a charge for telephone service within the Borough of Manhattan in excess of the following rates, namely:

(a) Five (5) cents per call where there is no guarantee by the subscriber to pay a fixed sum per annum.

(b) Sixty dollars (\$60) per annum for unlimited service where the telephone instrument is located in a private residence.

(c) One hundred dollars (\$100) per annum for unlimited service where the telephone instrument is located in a place of business.

Third—Payment for said franchise shall be made to The City of New York by the Star Telephone Company in manner following:

The Star Telephone Company shall furnish and install in the various municipal offices for the free use of the City employees, telephones to a number not to exceed six hundred (600). It shall pay to The City of New York each year, upon such date or dates as the City may require, a sum equal to five per centum (5%) upon the gross sum received by the said telephone company during said year from the operation of its telephone and telegraph business within the City, and its books shall at all times be open to inspection by the officials of the City to verify the said sum.

Fourth—Said Star Telephone Company shall proceed with due speed and diligence in the construction of its wires, conductors, poles, fixtures and appliances in, on, over, across and under the streets, avenues, public parks and places within the territory above described, and shall maintain its property in good condition throughout the full term of the grant, and shall maintain and operate the business under the provisions and control and in accordance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and of all the authorities of The City of New York who have jurisdiction in such matters under the present or

future Charter of the said City, and shall in all respects comply with and observe the provisions of such Charter and the laws of the State.

Fifth—In case of any violation or breach or failure to comply with any of the provisions herein contained, the grant may be forfeited and avoided by The City of New York by a suit or action brought for that purpose.

Sixth—The said grant shall not be assignable without the consent of The City of New York.

Seventh—The Star Telephone Company hereby promises, covenants and agrees on its part and behalf to conform to and abide and perform all the terms and conditions and requirements herein set forth, fixed and contained, and further agrees in advance to such variations and amendments thereto as may be required by the Board of Estimate and Apportionment not substantially inconsistent with the terms of this application.

NEW YORK, July 24, 1905.

CITY OF NEW YORK, BOARD OF ESTIMATE AND APPOINTMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held June 30, 1905, the following petition was received:

In the Matter
of
The petition of the United District Messenger Company.

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

The petition of the United District Messenger Company of New York City respectfully shows and avers upon information and belief:

First—That your petitioner is a domestic corporation, duly incorporated, organized and existing under the "The Business Corporations Law" (chapter 567 of the Laws of 1890, and amendments thereto), of the State of New York, and is engaged in the business of furnishing messengers to its subscribers and the public in the Borough of Manhattan, City of New York.

Second—Your petitioner desires to obtain from The City of New York a franchise, permit or consent, and hereby respectfully applies for same, to lay tubes, wires, conductors and insulators and to use the streets, avenues, walls, piers, public places and parks therein, or adjacent thereto, for the purpose of conveying, using and supplying electricity or electric current for the purpose of transmitting, communicating and carrying messages, news and information according to such plans as may be directed, approved or allowed by and subject to the powers of the Commissioner of Water Supply, Gas and Electricity, and subject to and under the supervision of the Commissioner of Public Works and of the Department of Public Parks, within their respective territorial jurisdictions, and subject also to all existing ordinances and statutes applicable thereto and to all reasonable regulations of the said franchise permit or consent.

Third—That the demands of the public for messenger service are greatly in excess of the present means of supplying the same, and that your petitioner, if granted the said franchise, will be in a position to greatly augment and increase the service it is now rendering to the public and its subscribers.

Fourth—That, by reason of agreements and understandings lately had between the principal telegraph and messenger companies and others similarly engaged and doing business in the Borough of Manhattan, City of New York, and notwithstanding the great improvement in transit facilities in the past five years in the said borough, the said companies are now charging rates greatly in excess of rates charged prior to January 1, 1905, and your petitioner expects to render a better service at a lower and substantial reduction in cost and charge for such service, and is in fact now rendering such service to the extent its present facilities will permit. And if the franchise hereby applied for is granted to your petitioner it will be in a position to further extend and improve its plant and be in a position to further improve and extend its service and reduce the charge or cost of same to the public and its subscribers.

Fifth—That the length of time for which the said franchise, permit or consent is required is twenty-five years from date of granting same.

Sixth—That your petitioner for any franchise, permit or consent to open streets, pavements or sidewalks for the purpose of laying tubes, wires, conductors and insulators for the purposes aforesaid will pay to The City of New York a sum equal to 1 cent per linear foot for the space occupied under such franchise, permit or consent.

Wherefore, your petitioner prays that the assent of your Honorable Board of the Corporation of The City of New York be granted to it for the purposes set forth in paragraph "Second" herein in accordance with all laws applicable thereto, and that the desired franchise, permit or consent be embodied in the form of a contract, with all of the terms and conditions as to compensation and otherwise in accordance with the provisions of the Greater New York Charter.

Dated New York, June 28, 1905.

By M. W. RAYENS,
President and General Manager.

That the reason why this verification is made by deponent and not by the petitioner is because the petitioner is a domestic corporation of the State of New York and deponent is president of said corporation.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
