BLACKWELL'S ISLAND INSTITUTIONS. A Midnight Inspection by Commissioner Stern— The Improvements Suggested.

Commissioner Stern presented the following re-tort of his nocturnal visit to the Department of Charities and Corrections:

To the Commissioners of Public Charities and

Gentlemen: Though we are regularly informed of the condition of the institutions under our charge by the reports transmitted to us, and by actual observation during our visits, yet there are many things that escape our attention in the hurried inspections and many defects are overlooked that would demand our serious consideration when they are brought before us in the proper manner. A visit to the Island one night this week (commencing at 9 o'clock P. M. and ending at 1 o'clock A. M.) convinced me that there remains much to be done to make the institutions as nearly perfect as possible in order to respond as nearly perfect as possible in order to respond with the benevolent and humane spirit in which they are conceived. I must state, however, in justice to those officers who are placed in charge incy are conceived. I must state, however, in justice to those officers who are placed in charge of them, that they are vigilant and earnest in the discharge of their duties and do all they can to execute faithfully the task imposed upon them with the means placed at their disposal. Particularly gratifying was the attendance and regular administerings of medicine to the patients at the CharityHospital by the night physicians, the watchful matron and nurses whom I found promptly engaged in their respective duties in each and all the wards of the hospital.

At this time, however, I propose to discuss two serious defects, both of them arising out of want

or ious defects, both of them arising out of want of room. The first is endangering the safety of the Penitentiary; the other a violation of the trust imposed on us by the people of New York in plac-

ing under our care the unfortunate beings who are bereft of reason—the inmates of the Female Lunatic Asylum, As stated above, both arise from lack of accommodation to lodge properly those who are assigned either to our protection or

Permit me to call your attention to the want of room for placing the female prisoners confined in the Penitentiary. It appears that all the available cell room is needed for the accommodation of the male prisoners. There are 726 cells in the Penitentiary and 765 male prisoners. Room has to be found for placing the 133 female prisoners now confined in the Penitentiary. Seventy-eight of them have been located in the work-bonse and forty-seven in the bospital room. house and forty-seven in the hospital room, within the Penitentiary building. The hall may be roomy enough, but it seems to me very ques-tionable to place forty-seven Penitentiary prisoners in one apartment, and still more so with no one present to control their conduct, and as a safeguard against mischievous intent. Any num-ber of them might complot together; some of them having been found in the middle of the night enjoying the luxury of tobacco smoking, though they are punished when detected. A continuance of a practice so dangerous to the continuance of a practice so dangerous to the safety of the institution against fire is not easily prevented. The movements of all the female prisoners cannot be kept under such strict surveilance as those of the male prisoners. They are engaged in the kitchen, washhouse, and other portions of the buildings, gardens, and grounds, and thereby come frequently in contact with outside parties that have more or less business to visit the Penitentiary. Even during my visit in the middle of the night, I smelled the fumes of tobacco, and who will guarantee us that, either through a want of caution or the malice of one more desperate than the average class of prisoners, the place is not set on fire, endangering the lives of a thousand human average class of prisoners, the place is not set on fire, endangering the lives of a thousand human beings? There is only one radical remedy to this defect, and that is the erection of an ad-ditional wing to the Penitentiary for the accom-modation of female prisoners. In the meantime, some temporary safeguard must be provided. We cannot wait until we shall have an additional brilding. The area of the block exists in relief building. The remedy, I think, consists in using part of the chapel as a dormitory, thus diminishing the number of prisoners confined in one room, and in appointing two female keepers to take charge of those prisoners. Forty of fifty prisoners, or even twenty, confined for crime, must not be left by themselves without control or guard, and propriety demands that none but a female should remain in a dormitory of females. The prisoners should be carefully searched before being locked up for the night, to prevent them from smuggling in materials dangerous to the safety of the in-mates of the house. This precaution will at least secure us against accidents dreadful to con-

My visit to the female department of the Lunatic Asylum revealed the fact that the demands made upon that institution far exceed its ability made upon that institution far exceed its ability of proper accommodation. The single rooms available at present have been exhausted, and, in order to find lodgings for those intrusted to the care of the Asylum, it became necessary, in the language of the officials, to "double up." This means that two patients are placed in a room calculated only for the accommodation of one person; and, as there is not sufficient space for two bedsteads one of the immates must be satisfied bedsteads, one of the inmates must be satisfied with having her mattress stretched on the floor. In some rooms the bedsteads have been removed altogether, as a means to increase the available space for lodgers, so that I found several rooms where six inmates occupied a room that ought not to contain more than three bedsteads. Even with stretching thus the capacity of the pre-sent building, it became necessary to transfer a number of the patients to the Workhouse, so that the latter contains people from the Penitentiary, the latter contains people from the Penitentiary, the Lunatic Asylum, and those assigned to it as alone coming within the proper sphere. I am aware that it is only necessary to state this condition of things to insure the efforts of the Board to provide the proper remedy. During the summer months no great harm might ensue from the use of the floor as a couch, but in the winter it cannot and ought not to be tolerated. I am also aware that there is a class of patients in the Lunatic Asylum, either of a violent character or of such filthy habits as to make it an imperative necessity to lodge them on the floor; but when this cessity to lodge them on the floor; but when this unfortunate necessity does not exist we are compelled to provide proper accommodation for the patients. This can easily be done. I would recommend the erection of additional pavilions, a capacity each for accommodating not more with a capacity each for accommodating not more than forty patients. They are, in my opinion, best fitted for dormitories for gentle patients, while those of a more violent character can be housed in the rooms of the main building, the Lodge and the Retreat. Economy in this case would be misplaced and inhuman, and in direct conflict with the benevolent and human interpretations of our correlated and a violenties of our described and a violenties. tion of our people, and a violation of our duties as the trusted guardians of these unfortunate reatures that are handed over to the wardenship of the city and county.

The time occupied in this nocturnal inspection was too brief to enable me to lay before you a carefully drawn statement of the exact number inmates that exceed the nominal number. This can be ascertained, if required, by a subsequent inspection. It seems to me, however, that no time should be lost in taking the necessary steps to afford the relief required as speedily as possible, and therefore offer the following resolutions for the adoption of this Board:

Resolved, That this Board will, as soon as possible, procure plans and specifications for an additional wing to the penitentiary, capable of holding at least 250 additional cells.

Resolved, That this Board will, as soon as possible, procure plans and specifications to erect seven additional pavilions for the use of the

lunatic females under our charge, capable of accommodating at least 300 patients.

Resolved, That it be the special duty of the President of this Board to see the above carried

Resolved, That two suitable female keepers be appointed without delay to take charge of the dormitories in the penitentiary.

Respectfully submitted. Myer Stern.

CONSTANTINE DONOHO,

OF THE SINKING FUND.

THE COMMISSIONERS

DEPARTMENT OF FINANCE, Comptroller's Office, New York, Oct. 13, 1873.

AB'M DISBECKER, Esq.,

Supervisor CITY RECORD.

DEAR SIR :- Please publish enclosed Abstract (as cor rected) of the proceedings of the Commissioners of the Sinking Fund, at the meeting held on the 11th inst. I find that the proceedings as published in the RECORD of to-day contain a "Statement of the Investments of the Sinking Fund for the Redemption of the City Debt" (the same having been erroneously furnished after my ab-stract had been prepared) instead of the "Report of the Committee appointed to examine the securities held by the Commissioners of the Sinking Fund," as called for in said abstract.

Yours respectfully, W. H. DIKEMAN,

Abstract of the proceedings of the Commissioners of the Sinking Fund at the meeting held October 11, 1873.

Present-Hon. William F. Havemeyer, Mayor, (Chairman), Hon. Andrew H. Green, Comptroller, George W. Lane, Esq., Chamberlain, and Jenkins Van Schaick, Esq., Chairman Finance Committee, Board of Aldermen.

The application of "The Butchers' Hide and Melting Association," for water grant on the East river, between 44th and 45th streets; and of "The Orphan Asylum," for water grant on the North river, between 73d and 75th streets, were received and laid over for consideration.

The Committee (George W. Lane, Chamberlain,) appointed September 5, 1873, to examine the securities held by the Commissioners of the Sinking Fund, submitted the following report, which was accepted and ordered printed, viz.:

To the Commissioners of the Sinking Fund: The undersigned having been appointed at a meeting of the Commissioners of the Sinking Fund, held September 5, 1873, a committee to examine the securities held by said Commissioners, and having given careful attention to the duty imposed on him, now respectfully

REPORTS

that the investments of the Sinking Fund in the Bonds and Stocks of the City and County of New York, amounting on the 30th day of August, 1873, to the sum of \$23,660,146.80, (of which amount, \$87,000 were represented by the customary receipts of the Chamberlain, pending the printing and execution of the Bonds,) were, by personal inspection found to be correct.

That at the same date there was in the Depository Banks, to the credit of "The Sinking Fund" for the redemption of the City Debt, the further sum of \$208,040.13 in cash.

And that at the same date there were Bonds and Mortgages for the further sum of \$772,776.67 to which may be added two mortgages for \$7,500 and \$390 respectively, sent some years since to the office of the Corporation Counsel, and for which the present Counsel to the Corporation has caused search to be instituted, making an aggregate amount of \$780,666.67, the net proceeds of which when collected, are paid to the Sinking Fund for the redemption of the City Debt.

In conclusion I submit the following recapitulation of the assets of the Sinking Fund on the 30th day of August, 1873.

\$106,140 13 Bonds and Stock, City and 23,660,146 80 780,666 67

\$24,546,953 60 Respectfully submitted, (Signed) GEO. W. LANE. New York, Oct. 11, 1873.

The Chairman of the Finance Committee of the Board of Aldermen, submitted the following resolution, which was adopted, viz.:

te Messrs. Robert Lenox National Bank of Commerce; Sheperd Knapp, President Mechanics' National Bank, and Jacob D. Vermilye, President Merchants' National Bank, to examine the securities held by the Commissioners of the Sinking Fund.

The Comptroller reported progress on "Statement of Sales of Real Estate not closed," referred to him September 5, 1873.
