BOARD OF ELECTRICAL CONTROL.

Minutes of a meeting of the Board of Electrical Control, held at the office of the Mayor, in the City of New York, on Friday, June 17, 1892, at 10.30 o'clock A. M.

Present—Mayor Hugh J. Grant, President; Commissioners Jacob Hess, Theodore Moss, and Walton Storm.

The reading of the minutes of the last meeting was dispensed with.

Mayor Grant—The Secretary will read the communications and the opinion of the Corporation Counsel upon the subject of providing subway accommodations for the Police and Fire Departments.

The communications and opinion, as follows, were thereupon read:

HEADQUARTERS FIRE DEPARTMENT,
Nos. 157 AND 159 EAST SIXTY-SEVENTH STREET,
NEW YORK, June 8, 1892.

Hon. HUGH J. GRANT, Mayor, New York City:

SIR—I have the honor to inform you that this Department has made application for space in several streets in which subways have been constructed, but has been informed by the subway companies that there is at present no available space in such streets, as all is utilized for other purposes.

On May 24th last, a communication was addressed to the Board of Electrical Control, stating that it was impossible to remove poles and wires from certain streets located in the so-called "proscribed district," for want of subway space, and the assistance of that Board was asked in procuring the same. No reply has been received thereto.

At the present time such facilities are required in the following streets and avenues:

Macdougall street, from Houston to Vandam street.
Vandam street, from Macdougall to Greenwich street.
Seventh avenue, from Thirty-first to Fourteenth street.
Eighth street, from Third to Sixth avenue.
Irving place, from Eighteenth to Twentieth street.
Chatham Square, from Doyer to Mott street.
Seventieth street, from First avenue to Avenue A (Washington Park).

A copy of a recent opinion of the Counsel to the Corporation is herewith enclosed for your information.

It is reported by the Superintendent of Telegraph of this Department, that when the facilities above enumerated are furnished to this Department, all remaining overhead fire telegraph lines can be at once removed from the so-called "proscribed district."

Your co-operation in obtaining for the Department these necessary facilities is requested.

Yours, respectfully,
S. HOWLAND ROBBINS, Acting President.

LAW DEPARTMENT,
NEW YORK, March 24, 1892.

Hon. ANTHONY EICKHOFF, Acting President of the Commissioners of the Fire Department:

SIR—I have received your letter of the 21st instant, asking my opinion whether "it is the duty of the Board of Electrical Control to furnish and reserve ducts in each of the subways constructed under its direction exclusively for the electric wires or conductors operated by this Department without expense to it."

By chapter 499 of the Laws of 1885, in section 4, it is provided: "It shall be the duty of the said Board, in devising the aforesaid plan, so to devise the same that the subway may be used by any such city for the electric wires or conductors operated by its police and fire, or other departments, without expense, except the expense of wires or conductors."

By chapter 716 of the Laws of 1887, all the powers and duties defined in the Act of 1885, in relation to the Commissioners of Electrical Subways, were conferred and imposed upon the Board of Electrical Control in said last-mentioned act.

By section six of said last-mentioned act the agreement made by and between the Commissioners of Electrical Subways and the City of New York and the Consolidated Telegraph and Electrical Subway Company, under date of July 27, 1886, when, and as amended and modified by a second and further agreement between the said parties, dated the seventh day of April, 1887, was ratified and confirmed.

The contract referred to, made April 7, 1887, provides as follows:

"The said party of the second part shall, without charge, supply to the City of New York all space in said subway necessary for its electrical conductors, and the electrical conductors of each separate department of said city, which may now or hereafter be required."

The contract further provides that if at any time the space in such subways shall not be sufficient for the City of New York, or any of its departments, the additional space needed shall be provided by the party of the second part, the Consolidated Telegraph and Electrical Subway Company, at its own cost, by the construction, maintenance, equipment and operation of additional subways sufficient therefor.

It appears by the statutory provisions and the provisions in the contract with the Consolidated Telegraph and Electrical Subway Company that

1st. It is the duty of the Board of Electrical Control to provide, in the plans devised by them for the construction of subways, that the subway may be used by the City for the operation of the electric wires and conductors operated by the Police and Fire Departments.

2d. That in the contract for the construction of subways the Consolidated Telegraph and Electrical Subway Company has undertaken and agreed to furnish sufficient space in the subways for the operation of the electrical conductors of each separate department of the City, without expense to it.

The statutory obligation defined in the act referred to does not extend to provide ducts in each subway exclusively for the electrical wires or conductors operated by the Fire Department.

To fulfil the obligation defined by the statute and assumed by the Consolidated Telegraph and Electrical Subway Company in the contract, it is only necessary that sufficient space should be provided for the wires of your Department; if sufficient space is provided for such conductors the duty of the Board of Electrical Control will have been fulfilled, although the electrical conductors of other departments, persons, or corporations may also be contained in the same duct.

Respectfully, yours,
(Signed) WILLIAM H. CLARK, Counsel to the Corporation.

EXECUTIVE OFFICES OF THE CONSOLIDATED TELEGRAPH AND ELECTRICAL SUBWAY CO.,
No. 18 CORTLANDT STREET,
NEW YORK, June 13, 1892.

Hon. HUGH J. GRANT, Mayor:

DEAR SIR—Your favor of 9th instant, addressed in error to Mr. Charles F. Cutler, regarding space requiring by the Fire Department in certain streets named, has been handed to me, and in reply I would state that this company has not constructed any subways in those streets for low-tension electrical conductors such as are used by the Fire Department, nor has it any contract with the Board of Electrical Control to do so.

The letter of the Fire Department and the opinion of the Counsel to the Corporation are returned herewith.

Respectfully,

E. L. RIDGWAY, Vice-President and General Manager.

Mayor Grant—Mr. Cohn, do you represent the Consolidated Telegraph and Electrical Subway Company?

Mr. Cohn—You sent the Consolidated Telegraph Company notice of this meeting, and the president of the company has instructed me to appear before the Board and make clear its position. I think that the Fire Department will bear us out in the fact that wherever we have been in the course of constructing subways, whether high or low tension, and they have requested space we have always supplied it to them. There was one little difficulty between that department and ourselves where they claimed the right to have an entire duct rather than space, which has been settled. They now come in and ask for space in certain subways, all of which are high-tension subways. In three of the streets designated there are no subways whatsoever, only subsidiary connections. In three others there are high-tension subways which have been constructed for over two years, as far back as 1890. Now, if there was space in those subways, as a matter of right, or courtesy, or whatever you choose to call it, we would give what space there was; but there is no space left in those subways.

The Board, after hearing William N. Cohen, of Counsel for the Consolidated Telegraph and Electrical Subway Company and Empire City Subway Company (Limited), and David J. Dean, Assistant Counsel to the Corporation, Commissioner S. Howland Robbins and Superintendent J. Elliot Smith of the Fire Department, and Commissioner John C. Sheehan of the Police Department, and after discussion and consideration of the subject, unanimously adopted the following resolution prepared by Mr. Dean at the request of Mayor Grant:

Resolved, That the Empire City Subway Company (Limited), be and it is hereby required to furnish for the combined use of the Fire and Police Departments sufficient space in subways for the operation of the telegraphic conductors of said departments in the following streets and avenues:

Macdougall street, from Houston to Vandam street.
Vandam street, from Macdougall to Greenwich street.
Seventh avenue, from Thirty-first to Fourteenth street.
Eighth street, from Third to Sixth avenue.
Irving place, from Eighteenth to Twentieth street.
Chatham Square, from Doyer to Mott street.
Seventieth street, from First avenue to Avenue A (Washington Park).

The Board, on motion of Mayor Grant, authorized the Secretary to issue permits to the Metropolitan Telephone and Telegraph Company upon its pending applications for individual telephone connections approved by the Electrical Expert.

Mayor Grant—The Secretary will make a note of the fact that the petition of the Fifth avenue property-owners for authorization by Board of Subway on that avenue, from Forty-second street to the Circle on Fifty-ninth street and the Park, to allow of its lighting by electricity, is referred to the Engineer, for report to this Board.

Mayor Grant moved the following resolution:

Resolved, That the Secretary be directed to furnish the President of the Fire Department and the President of the Police Department with all future directions of this Board for the construction of subways in this City, to give them an opportunity for making an application for space.

Which was unanimously adopted.

Mr. Cohen (referring to resolution ordering the subway construction for the Fire and Police Department) stated: I wanted to say something before that was done. Assuming the Board has the legal right to compel us to build, I wish it might not be set as a precedent.

Mayor Grant—I agree with you about that; they ought to make application; this is not a precedent for them.

The Engineer submitted the following report:

NEW YORK, June 15, 1892.

To the Board of Electrical Control:

GENTLEMEN—I have to report the completion of subways since the beginning of this year:

FOR ELECTRIC-LIGHT AND POWER SERVICE.

Eighth avenue, from Thirteenth to Bank street.
Park place, south side, from Broadway to Church street.
Third street, from Broadway to Wooster street.

Washington street, from Liberty to Chambers street.

Park place, from Greenwich to West street.
Warren street, from Greenwich to West street.

Very respectfully,
H. S. KEARNY.

Whereupon, Mayor Grant moved:

Resolved, That the Secretary be directed to give the usual ninety-days' notice to complete owning or operating electrical conductors in the streets enumerated in the Engineer's report as having subways completed.

Which was unanimously adopted.

The Engineer also submitted the following report and letters:

OFFICE OF THE BOARD OF ELECTRICAL CONTROL,

THE CONSOLIDATED TELEGRAPH AND ELECTRICAL SUBWAY COMPANY,
 OFFICE OF CHIEF ENGINEER,
 No. 113 WEST THIRTY-EIGHTH STREET,
 NEW YORK, June 15, 1892.

To the Honorable the Commissioners of the Board of Electrical Control, Hon. HUGH J. GRANT,
 President, No. 1266 Broadway, New York, N. Y.:

GENTLEMEN—We beg leave to submit herewith the following lines of electrical subways, to be constructed during the present season, of wrought-iron pipe, laid in hydraulic cement concrete, and to be used for electric-light and power service, for which we ask your approval and authorization:
 Extend the line recently built on the south side of West Third street, between Broadway to Wooster street, to run from the west side of Wooster street to the west side of South Fifth avenue. It is very desirable to build this line so as to tie the West Third street line into the existing subway on South Fifth avenue, and also that the line be constructed with the least possible delay so that the proposed repavement of West Third street may in no way be interfered with.
 Map showing the location of the above line is herewith submitted.

Very truly yours,
 E. L. RIDGWAY, Vice-President.

EMPIRE CITY SUBWAY COMPANY (LIMITED)—CHIEF ENGINEER'S OFFICE,

Map of the City of New York, Showing Ward Lines.

The 1,032 deaths represent a death-rate of 29.44, against 24.13 for the previous week and 29.68 for the corresponding week of 1891.

Contagious and infectious diseases show a slight increase for the eight days, including July 2, as compared with the six days previous, the number of cases reported of diphtheria, measles, scarlet fever, typhoid fever, typhus fever and small-pox being respectively 61, 270, 77, 16 and 2, against 61, 278, 52, 11, 2 and 3 for the previous six days, a total of 426 against 407. Diphtheria increased markedly above Eighty-sixth street, but decreased, as a rule, elsewhere. Measles increased between Canal and Reade streets, west of Broadway, between Division and Rivington streets, Norfolk street and the Bowery, between Twenty-sixth and Fortieth streets, West, and in the annexed district, generally decreasing elsewhere. The increase of scarlet fever was most noticeable between Rivington and Fourteenth streets, and between Twenty-sixth and Fortieth streets, East and West, a decrease being the rule elsewhere.

The Construction or Executive Committee presented the following communication, received from the Chief Engineer, and recommended that the same be spread in full on the minutes and filed:

NEW YORK, June 28, 1892.

To the Honorable the Committee on Construction:

GENTLEMEN—Since my last report on the flow of water, the daily supply to the Croton river has been continued at the rate of 20,000,000 gallons. The elevation of water in the Sodom Reservoir is now 414.45 feet, and the Bog Brook Reservoir is at 414.43.

I am, respectfully,

A. FTELEY, Chief Engineer.

On motion of Commissioner Tucker, the recommendation was approved.

The Committee also presented the following communication, received from the Chief Engineer:

NEW YORK, June 28, 1892.

To the Honorable the Committee on Construction:

GENTLEMEN—I submit herewith the resignation of W. A. Hoe, Jr., Computer, under Division Engineer Gowen.

Mr. Hoe's services have extended over a period of more than three years, and I desire to express my regrets that his business interests induce him to resign from the Engineer Corps.

I am, respectfully,

A. FTELEY, Chief Engineer.

And recommended the adoption of the following resolution:

Resolved, That the resignation of W. A. Hoe, Jr., Computer, is hereby accepted, to take effect from and after June 30, 1892.

On motion of Commissioner Tucker, the same was adopted.
The Committee also recommended the adoption of the following resolution:
Resolved, That, upon the recommendation of the Chief Engineer, the accompanying bill of John Twinnam for building a temporary fence between One Hundred and Seventy-ninth and One Hundred and Eightieth streets, New York City, amounting to eighty-eight dollars and fifty-two cents, is hereby approved and ordered certified to the Comptroller for payment.
On motion of Commissioner Tucker, the same was adopted.
The Committee also recommended the adoption of the following resolution:
Resolved, That, upon the recommendation of the Chief Engineer, an appropriation of four hundred dollars is hereby made for purchasing the necessary trolleys and "I" beams for the Bog Brook Reservoir.
The same was adopted by the following vote:
Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.
The Committee also presented the following communication, received from the Chief Engineer:

NEW YORK, June 29, 1892.

To the Honorable the Committee on Construction:

GENTLEMEN—There is a certain amount of work remaining to be done at Shaft 24, which, although not included in the contract for the blow-off, is so closely connected with the work now going on that it would be difficult to have it performed by outside parties without prejudicial interference. It consists mainly of a macadamized roadway from the gate-house to Sedgwick avenue, which Messrs. McLoughlin & Reilly, who are doing the work for Contractor Gaynor at Shaft 24, offered to do for \$1 per square yard. The price was the lowest of two bids submitted, and is reasonable.

In addition, we have to take up and relay old drains, involving work that it is difficult to estimate, and which should properly be done by day labor.

This is to ask you to authorize the Chief Engineer to order the macadamized road from Messrs. McLoughlin & Reilly at their price, \$1 per square yard, the quantity being approximately 300 square yards; and also to procure from the contractors the labor and materials necessary to do the work last described, the total cost of which will not exceed, in my opinion, \$350. The whole of the appropriation asked for would amount to \$650.

I am, respectfully,

A. FTELEY, Chief Engineer.

—and recommended the adoption of the following resolution:

Resolved, That the Chief Engineer is hereby authorized and directed to have the work above referred to done by McLoughlin & Reilly at their bid, and an appropriation of six hundred and fifty dollars is hereby made to cover the cost thereof.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following resolution:

Resolved, That, upon the recommendation of the Chief Engineer, an additional appropriation of thirty-five dollars is hereby made for the purpose of completing the duplicate blue-prints of the descriptive records of defective work upon the New Aqueduct.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following resolution:

Resolved, That the accompanying bill of Robert A. Welcke, for lithographing, etc., contract drawings of the New Croton Dam, at Cornell Site, Westchester County, New York, amounting to three hundred and forty-two dollars and seventy-five cents, is hereby approved and ordered certified to the Comptroller for payment; and an appropriation of said amount is hereby made to cover the cost thereof.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following resolution:

Resolved, That the accompanying bill of H. T. Dykman, for taxes paid by him to the Village of North Tarrytown, N. Y., for 1891, amounting to forty-nine dollars and forty-three cents, is hereby approved and ordered certified to the Comptroller for payment.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following preamble and resolution:

Whereas, Application has been made by Peter J. Moran, contractor, for an extension of time to August 1, 1892, for the completion of his contract for grading, improving and fencing the grounds of the One Hundred and Thirty-fifth Street Gate-house of the New Croton Aqueduct; and the Chief Engineer having recommended that such extension of time be granted; therefore

Resolved, That the Aqueduct Commissioners hereby grant to Peter J. Moran, contractor, an extension of time to August 1, 1892, in which to complete the contract above referred to, providing his bondsmen shall, within ten days from the date hereof, enter into stipulations continuing their obligations for and during the completion of said contract, under said extension of time, which is hereby allowed to him as further time for the performance of said contract.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following resolution:

Resolved, That the accompanying bill for taxes due the Town of Yorktown, Westchester County, New York, for 1890 and 1891, amounting to sixteen dollars and thirty-one cents, is hereby approved and ordered certified to the Comptroller for payment.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

The Committee also recommended the adoption of the following resolution:

Resolved, That the Chief Engineer be and hereby is authorized to construct a road from Jackson avenue, or Ravensdale road, in the Town of Greenburgh, Westchester County, New York, through the grounds of the Mount Hope Cemetery Association, to a point near Shaft No. 15½ of the New Aqueduct; and he is directed to have said work done by Levy & Quinn under their contract for grading, improving and fencing the grounds at several of the shafts of the New Aqueduct.

The same was adopted by the following vote:

Affirmative—Commissioners Duane, Tucker, Scott and Cannon—4.

On motion of Commissioner Cannon, the minutes of meetings of June 1, 8 and 15, 1892, were ordered approved.

The Commissioners then adjourned.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION, No. 66 THIRD AVENUE, NEW YORK, July 14, 1892.

TO CONTRACTORS.

MATERIALS AND WORK REQUIRED FOR RECONSTRUCTION OF PORTIONS OF BUILDING, PLUMBING, VENTILATION, ETC., OF FIFTY-SEVENTH STREET PRISON.

(No. 14.)

SEALED BIDS OR ESTIMATES FOR THE reconstruction of work and materials, in accordance with the specifications and plans, will be received at the office of the Department of Public Charities and Correction, No. 66 Third Avenue, in the City of New York, until Thursday, July 28, 1892, until 10 o'clock A. M.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Reconstruction of Fifty-seventh Street Prison," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION reserves the right to reject all bids or estimates if deemed to be for the public interest, as provided in SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of THREE THOUSAND DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Health Department may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract and set out in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The forms of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department; and bidders are cautioned to examine each and all of their provisions carefully, as the Board of Public Charities and Correction will insist upon their absolute enforcement in every particular.

HENRY H. PORTER, President, CHARLES E. SIMMONS, M. D., Commissioner, EDWARD C. SHEEHY, Commissioner, Public Charities and Correction.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate, dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Health Department and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Health Department may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract and set out in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security

offered is to be approved by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon the owner of such lot, his heirs and assigns shall thereupon be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants

can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Third.—That our abstract of estimate and assessment, together with the diagrams embracing the respective tracts or parcels of lands to be taken or assessed in these proceedings, may be inspected and examined at our office, Rooms 3 and 4, No. 51 Chambers street, in the City of New York.
