Erection of Telegraph and Telephone Poles on Brook Avenue, Elton Avenue and Bathgate Avenue.

The following communication of Commissioner of Highways, dated June 25, 1900, was read: DEPARTMENT OF HIGHWAYS—Nos. 17 TO 21 PARK ROW, 1 NEW YORK, June 25, 1900.

Hon. LOUIS F. HAFEN, President, Borough of The Bronx.

DEAR SIR—Under date of June 12 your Secretary advised me that at a meeting of the Local Board of the Twenty-first District, Borough of The Bronx, on June 7, he was directed to ask me to furnish the Board with information as to what authority exists for the erection of telephone poles on Brook Avenue, Elton Avenue and Bathgate Avenue, in said Borough.

In reply, I quote the following from the records of this Department:

"Permit No. 2511, issued to the Knickerbocker Telegraph and Telephone Company on January 13, 1900, to erect pole-line on Brook Avenue, east side, between One Hundred and Thirty-second and One Hundred and Thirty-seventh streets, One Hundred and Thirty-seventh and One Hundred and Forty-sixth streets (rebuild Fire Department pole-line) and One Hundred and Forty-sixth street to One Hundred and Sixty-third street; also east side of Bathgate Avenue, from Wendover Avenue to One Hundred and Seventy-eighth street; the granting of this permit was authorized by Commissioner H. S. Kearny, under Permit No. 6185, granted December 19, 1899, and approved by Hon. James P. Keating, Commissioner of Highways, on January 12, 1900; said permit is yet in force, the time having been extended."

"Permit No. 2745, issued April 13, 1900, to above company to erect pole-line east side of Elton Avenue, between One Hundred and Fifty-seventh and One Hundred and Sixty-second streets, granted under permit No. 7131, issued by the Hon. Peter J. Downing, Deputy and Acting Commissioner of Public Buildings, Lighting and Supplies, under date of March 29, 1900; and approved by the Hon. James P. Keating, Commissioner of Highways, on April 12, 1900; said permit was issued for a period of 30 days."

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

Alderman Geiger expressed the opinion that further information might be obtained by asking the Corporation Counsel under what authority the Knickerbocker Telegraph and Telephone Com-

pany had, other than the permits given it by the Commissioner of Highways, to erect poles on the public highways, namely, on Bathgate avenue, Elton avenue and Brook avenue, in the Borough of The Bronx. The Secretary was directed to communicate with the Corporation Counsel in relation to the matter.

*Alexander Avenue, Regulating and Grading, etc., from East One Hundred and Thirty-second Street to the Bulkhead-line of the North River.*

The following communication from the Board of Public Improvements was read:

JUNE 23, 1900.

Hon. LOUIS F. HAPPEL, President, Borough of The Bronx:

DEAR SIR—I enclose herewith copy report from the Commissioner of Highways relative to the regulating and grading, etc., of Alexander avenue, from East One Hundred and Thirty-second street to the bulkhead-line, which was submitted to this Board at the meeting held on the 22nd instant (page 4025, CITY RECORD, June 27, 1900).

In accordance with the action by this Board, I am directed to request that you have the Local Board prepare a complete statement of the condition of the water front of that entire section and submit it to this Board in order that the matter may be presented to the Corporation Counsel to take steps to afford the necessary relief.

President Happel stated that this matter was referred by the Board of Public Improvements to the Topographical Engineer and himself for the purpose of having a statement prepared of the condition of the water front of that entire section. As no funds were available in his office for surveys, etc., he suggested that the matter be referred to the Topographical Engineer, and on motion of Councilman Murray it was so ordered.

*Brook Avenue, Regulating and Grading, South of One Hundred and Thirty-second Street.*

The following communications were read:

STRONG & CADWATADER, No. 40 WALL STREET, 1

June 23, 1900.

JOSEPH P. HENNESSY, Esq., Secretary, Municipal Building, Crotona Park, Borough of The Bronx:

DEAR SIR—Your letter of June 15, addressed to Mr. Charles D. Clark, formerly President of the New York, New Haven and Hartford Railroad Company, in which you ask a question concerning Brook avenue, south of One Hundred and Thirty-second street, has been referred to me for a reply. The railroad company removed the curbstones, flagging, etc., and maintained their tracks at their present grade by virtue of a contract made by The Mayor, Aldermen and Community of The City of New York through the late Commissioner Heintz, dated June 25, 1892. The performance of the conditions of this contract were secured to the City by a bond of the railroad company delivered at the same time as the contract. Any further information in relation to this I shall be very glad to furnish you.

Yours very truly,  
HENRY W. TAFT.

#### AGREEMENT.

Agreement made and concluded this twenty-fifth day of June, 1892, by and between The Mayor, Aldermen and Community of The City of New York, by the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards, parties of the first part, and the New York, New Haven and Hartford Railroad Company, party of the second part.

Witnesseth, That the New York, New Haven and Hartford Railroad Company, party of the second part, in consideration of permission to temporarily retain its tracks crossing Brook avenue, south of One Hundred and Thirty-second street, as at present existing, does hereby agree that, upon sixty (60) days' notice from the said Commissioner or some duly authorized agent of The City of New York to adjust said tracks to conform to the grade as shown on the maps in possession of said Commissioner and filed according to law, it will at its own cost and expense, under the supervision of and to the entire satisfaction of the said Commissioner, under penalty expressed in a bond bearing even date with these presents and hereto annexed, grade, furnish and set and lay and reset and relay such and so much flagstone and curbstones, and furnish granite blocks and pave and repave such portions of Brook avenue south of One Hundred and Thirty-second street as the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards may deem necessary to bring said avenue to the grades and lines as shown on filed maps aforesaid.

And it is further agreed by said party of the second part that it will not contest nor refuse to pay to the said City of New York, or its duly authorized agent, the amount that may be assessed against the New York, New Haven and Hartford Railroad Company, for and on account of the contract for regulating, paving with granite blocks, curbing, flagging and laying crosswalks in Brook avenue, from a line 487 feet south of the southerly line of One Hundred and Thirty-second street to the southerly end-line of One Hundred and Fifty-sixth street.

In witness whereof the Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards has hereunto set his hand and seal on behalf of the said parties of the first part, and Lucius Tuttle, Vice-President of the New York, New Haven and Hartford Railroad Company, has hereunto set his hand and seal on behalf of the said party of the second part.

(Signed) LOUIS J. HEINTZ,  
LUCIUS TUTTLE,  
V. P., N. Y., N. H. & H. R. R. Co.

[SEALS.]

On motion of Councilman Murray the following was adopted:

Whereas, The New York, New Haven and Hartford Railroad Company, under authority of what purports to be an agreement made June 25, 1892, between the Mayor, Aldermen and Community of The City of New York and the New York, New Haven and Hartford Railroad Company to remove curbstones, flagging, etc., on Brook avenue, south of One Hundred and Thirty-second street; and

Whereas, No valid reason exists why said railroad company should have exclusive use of a public highway; and

Whereas, It is within the power of the Commissioner of Highways to rescind the agreement purporting to be made by the Mayor, Aldermen and Community of The City of New York; therefore, be it

Resolved, That the Commissioner of Highways be and he is hereby respectfully requested to rescind the permit given to the New York, New Haven and Hartford Railroad Company, and that he be also requested to direct the said company to resume the street, as well as the curb and flagging, in the condition in which it existed before.

*East One Hundred and Eighty-second Street Extension, from Third Avenue to Arthur Avenue.*

Petition of Michael Reidy and others, dated May 17, 1900, which was laid over from May 31, 1900, was again taken up.

Mr. George C. Kobbe, of the firm of Roosevelt & Kobbe, appeared on behalf of the Home for Incurables in opposition.

Mr. William Stonebridge argued in favor of the new street.

After discussion the Board ordered that the petition be returned for more signatures, and that it be amended to read "Extending East One Hundred and Eighty-second street on the Final Maps of the Twenty-third and Twenty-fourth Wards, Borough of The Bronx, from Third avenue to Arthur Avenue."

*Clinton Avenue Sprinkling, from Boston Road to Crotona Park, including East One Hundred and Sixty-ninth Street, from Boston Road to Franklin Avenue, and Vicinity.*

Pursuant to call by President Happel the members of the Local Board, Twenty-second District, met at 3 P. M., June 28, 1900, at the office of the President of the Borough of The Bronx, Municipal Building, Crotona Park.

#### RECEIPTS.

United States Weather Bureau Signal Tower, at Franklin Avenue, City Island.  
The following communication was read:

UNITED STATES DEPARTMENT OF AGRICULTURE,  
WEATHER BUREAU,  
WASHINGTON, D. C., June 22, 1900.

Mr. LOUIS F. HAPPEL, President, Borough of The Bronx, Third Avenue, corner Tremont Avenue, New York, N. Y.:

DEAR SIR—In connection with the improved equipment of storm-warning stations of the Weather Bureau, recently authorized by Congress for the benefit of commercial and maritime interests, it has been found advisable to change the location for our displays at City Island, N. Y. It is impracticable to pay rental for ground for a tower site, and our official who visited the station reports that a desirable location would be on ground belonging to the City, at the foot of Franklin Avenue. As the storm warnings will be for the general benefit of the public, and especially the water traffic on Long Island Sound, I beg to ask if you will kindly grant this Bureau permission to put up one of these towers, as indicated above, all expenses in this connection to be borne by the Weather Bureau?

The accompanying illustration shows the kind of tower it is proposed to erect. This has a total height of 75 feet to top of flagstaff, which is surmounted by a wind vane. The electric lanterns shown will be fitted with high-power incandescent lamps for night displays.

Trusting that we may receive a favorable reply, I am,

Very respectfully,

WILLIS L. MOORE, Chief, United States Weather Bureau.

Representation was made to the Board that the City owned the property at the foot of Franklin Avenue, City Island, unless it was the land between high and low water. On motion of Councilman Hyland, the matter was referred to the President of the Board of Public Improvements for such consideration as he deemed proper to give it.

#### Water Supply for Bronxville.

Petition of Philip A. Moore and others, dated June 8, 1900, was read, and, on motion of Councilman Hyland, it was

Resolved, That the Local Board, Twenty-second District, hereby recommend to the Board of Public Improvements that water-mains be laid from present main in Morris Park Avenue to Unionsport road, to Bronxville Avenue, in Bronxville Avenue to Union road, from Union road to Bronx and Pelham parkway; also from Union road and Pelham Avenue along Union road to Bronx Park line, thence north from said corner along Boston road to the Horner residence, also from Thwaite's place along White Plains Avenue to the residence of Thomas Smith.

Adjournment.

JOSEPH P. HENNESSY, Secretary.

contract may be awarded will be required to attend at the office of the Department of Public Buildings, Lighting and Supplies, with the architect offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect.

*It is further provided that no bid or estimate shall be accepted from a contractor awarded a contract unless it is in accordance with the provisions of the City Charter, upon any obligation to the Corporation.*

Bids will be received only for the whole work in gross.

Bidders are required to state in their estimates, under oath, their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested, they shall distinctly state the fact; also, that it is made without any connection with any other person making any bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith, and with an intention to execute the bond required by law. Should a guaranty or surety company be offered, the consent of the said company shall be submitted. The adequacy and sufficiency of the security offered will be subject to the approval of the Comptroller, after the award is made and prior to the signing of the contract.

For the nature and extent of the work to be done bidders are referred to the specifications and the plans and drawings thereon mentioned, which can be seen at the office of the architect, John R. Thomas, Nos. 700 Broadway, and specifications, plans and drawings form part of the contract.

The entire work is to be progressed simultaneously with and finished within sixty days after the completion of the contract, contract, dated December 17, 1899, for the "Main Work, Iron Store Work, Steel and Iron Work, Roofing and Sheet Metal Work and Other Work" on Hall of Records Building.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired, be, by a clause in the contract, fixed and liquidated at TWO HUNDRED AND FIFTY DOLLARS PER DAY.

Bidders must state in writing, and also in figures, a price for the whole work complete, which price is a price for the whole work complete, which price is to cover the furnishing of all necessary materials and labor and the performance of all the work set forth in the specifications and form of agreement.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract and give the proper security within the time aforesaid, the amount of his deposit will be returned to him.

The amount of security required is FIVE HUNDRED THOUSAND DOLLARS, as hereinabove specified.

The right is reserved by the Board to reject any or all bids if they shall deem it for the interest of the Corporation so to do.

Blank forms of bids or estimates and the form of agreement, including the specifications for the work, and further information, if required, can be obtained on application at the office of the Architect, No. 700 Broadway.
