PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

FRIDAY, FEBRUARY 7, 1908,
TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

There were present—Chairman William R. Willcox, Commissioners William McCarrroll, Edward M. Bassett, Milo R. Maltbie, John E. Eustis.

(1) On motion, the record of the proceedings of the Commission for January 31, as printed in the CITY RECORD for February 5, and of February 4, as printed in the CITY RECORD for February 7, was approved.

(2) The Secretary stated that the following further communication by the Chairman had been transmitted to Assemblyman J. Mayhew Wainwright, Chairman of the Assembly Committee on Railroads, relative to the matter of Assembly Bill No. 39:

February 4, 1908.

Hon. J. MAYHEW WAINWRIGHT, Chairman of the Committee on Railroads, Assembly Chamber, Albany, New York:

SIR—Referring to your inquiry of the Commission with regard to the bill of Assemblyman Wagner (No. 39), and the reply transmitted by the Secretary on January 30 last, and the conversation at this office yesterday, I beg to state somewhat more fully the views of the Commission on the subject of railroad rate regulation.

Since the passage of the Public Service Commissions Law and the appointment of the Commission on July 1 last, the Commission has had power, under section 49

of the act, after a hearing upon a complaint in writing (section 48) made by some person aggrieved that rates charged by a railroad or a street railroad for the transportation of persons within the State are unjust, unreasonable or in violation of law, to determine the just and reasonable rates to be thereafter in force as the maximum to be charged for the service to be performed, and fix the same by order. The same section later on contains the following provision:

"The Commission shall have power, by order, to require any two or more common carriers or railroad corporations, whose lines, owned, operated, controlled or leased, form a continuous line of transportation or could be made to do so by the construction and maintenance of switch connection, to establish through routes and joint rates, fares and charges for the transportation of passengers, freight and property within the State as the Commission may, by its order, designate; and in case such through routes and joint rates be not established by the common carriers or railroad corporations named in any such order within the time therein specified, the Commission shall establish just and reasonable rates, fares and charges to be charged for such through transportation, and declare the portion thereof to which each common carrier or railroad corporation affected thereby shall be entitled and the manner in which the same shall be paid and secured."

Under this section the Commission has power to determine the just and reasonable rate to be charged by any one railroad operating to Coney Island, and also to require any two or more railroads whose lines form a continuous route to establish a through rate to Coney Island within a time specified; and if such companies do not do so the Commission may then establish a rate to be charged for through transportation to Coney Island at such amount as may be just and reasonable, and declare the amount to which each carrier shall be entitled.

It is to be noted, however, that a complaint is a necessary preliminary, and that this must be filed by some person aggrieved; that a hearing must be then had on notice to the companies interested, and that the rate established, whether it be five cents or any other amount, must be just and reasonable. A rate that is just and reasonable for one through route is not necessarily so for another through route, and

so it is possible that a uniform rate of five cents by all routes cannot be established. A complaint, hearing and order as to each separate route to Coney Island is also necessary before the rate which is just and reasonable upon such route can be determined and established.

The matter is an important one to many, and in order that it may be taken up in an orderly way, as intended by the act in the interest of all, it may be well that a complaint be filed by some person aggrieved by existing rates as to each one of these separate through routes to Coney Island, setting out the name of the company which controls and operates the route; or if more than one company are necessary to make up a continuous route, then the names of every such company and the portion operated by it, the amount charged at present by the controlling company or by the successive companies in the particular route, and the statement that the amount taken by the companies for transportation of passengers through to Coney Island upon that route is unjust and unreasonable, and asking the Commission for such relief as may be proper in the premises.

The Commission has upon its files much information as to operating companies in Greater New York, which has been gathered by the Commission expressly for the public use and reference, and the Secretary of the Commission may be depended upon to furnish if desired any information or assistance in the preparation of the complaints.

Respectfully yours,
(Signed) Wm. R. WILLCOX,
Chairman to the Commission.

Commissioner Eustis moved the adoption of the following final order, which was duly seconded:

FINAL ORDER (No. 243).

George A. Denholm and George W. M. Clark, complainants, vs. Union Railway Company, defendant.
Under Order for Hearing No. 170, made December 27, 1907.

This matter coming on upon the complaints of George A. Denholm and George W. M. Clark, dated November 23, 1907, and November 18, 1907, respectively, and the answer thereto of Union Railway Company, bearing date the 14th day of December, 1907, and the report of the hearing had herein on January 7, 1908, and January 14, 1908, and it appearing that said hearing was held by and pursuant to an order of the Commission, No. 170, made and entered the 27th day of December, 1907, and returnable on the 7th day of January, 1908, and that said order for hearing was duly served upon said Union Railway Company, and that said hearing was held by and before said Commission on the matters in said complaint, said answer and said order specified, on the 7th day of January, 1908, and by adjournment duly had to the 14th day of January, 1908, Mr. Commissioner Eustis presiding, and Grosvenor H. Backus, Esq., Assistant Counsel, appearing for the Commission, and Ambrose F. McCabe, Esq., appearing for the Railway Company, at each of said sessions, and evidence being taken.

Now, it being made to appear after the proceedings on the said hearing that the service of the Union Railway Company is unreasonable and inadequate in that said company does not operate cars enough north of Woodlawn gate, on its Jerome avenue line, and does not operate cars with sufficient regularity on said line reasonably to accommodate the passenger traffic transported by said company or offered for transportation to it, at the times hereinafter specified, and it appearing that it would be just, reasonable and proper that the service of said Union Railway Company, on its Jerome avenue line, should be supplemented in the particulars hereinafter set forth, at the points and at the times hereinafter set forth.

Therefore, on motion of George S. Coleman, Esq., Counsel to the Commission, it is

Ordered, That the said Union Railway Company increase its service upon its Jerome avenue line so that said company shall operate through cars between One Hundred and Fifty-fifth street and the City line at Jerome avenue, as follows:

(1) With a headway of not more than four (4) minutes between cars leaving the City line, southbound on Jerome avenue, between 6.30 and 9.00 a. m. daily, except Sundays.

(2) With a headway of not more than four (4) minutes between cars leaving One Hundred and Fifty-fifth street, northbound, between 4.30 and 7.00 p. m. daily, except Sundays.

(3) With a headway of not more than twenty (20) minutes between cars leaving the City line, southbound on Jerome avenue, between 1.00 and 5.00 a. m. daily.

(4) At all other times with a headway of not more than eight (8) minutes between cars leaving the City line, southbound.

And it is

Further Ordered, That this order shall take effect on the 10th day of February, 1908, and shall remain in force until modified by further order of this Commission.

And it is

Further Ordered, That paragraphs numbered (1) and (2) of Order No. 107 of this Commission, made the 22d day of November, 1907, be and the same hereby are rescinded and abrogated, said Order No. 107 to remain in full force and effect except as to said paragraphs numbered (1) and (2); and it is

Further Ordered, That within five (5) days from and after the service of this order the said Union Railway Company notify the Public Service Commission for the First District whether the terms of this order are accepted and will be obeyed.

Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.

Nays—None.

O-207, O-215

The Secretary presented the following communication from the Brooklyn Heights Railroad Company, upon Orders Nos. 207 and 215:

February 4, 1908.

Mr. TRAVIS H. WHITNEY, Secretary, Public Service Commission for the First District, No. 154 Nassau Street, New York City:

DEAR SIR—I beg to refer to Orders Nos. 207 and 215 of the Commission, relating to 10-cent fare on the Flushing and North Beach lines, respectively. The same questions are to a considerable extent involved in both complaints, and require more detailed consideration than seemed to be the case when we made an application for an extension of time on Order No. 207, on the 27th ult.

I find that it is not possible to draught the reply to-day, and therefore request that the Brooklyn Heights Railroad Company be given an extension on Order No. 215, and an additional extension on Order No. 207, to and including the 14th day of February, 1908, upon which date answer to both orders can be made.

Yours truly,

J. F. CALDERWOOD,
Vice-President and General Manager.

O-246

Commissioner Eustis moved the adoption of the following rehearing order, which was duly seconded:

REHEARING ORDER (No. 246).

In the Matter

of

The hearing on the motion of the Commission on the question of improvements in and additions to the service and equipment of the Interborough Rapid Transit Company on its Third Avenue elevated road.

Rehearing on matters contained in Order No. 221, entered January 28, 1908.

An order, No. 221, having been made and filed herein on January 28, 1908, under and pursuant to an order for a hearing, No. 145, made December 9, 1907, and thereafter having been duly served upon the Interborough Rapid Transit Company, the same to take effect by or before the 10th day of February, 1908, and in and by the said order the said Interborough Rapid Transit Company having been required to notify this Commission on or before the 5th day of February, 1908, whether the terms of said Order No. 221, are accepted and will be obeyed, and the said Interborough Rapid Transit Company having on January 5, applied in writing to this Commission for a rehearing in respect to the matters contained in said Order 221, and sufficient reason for said rehearing having been made to appear,

Ordered, That said request for rehearing be granted, and that the said rehearing upon the matters contained in said Order No. 221, entered and filed on January 28, 1908, be held on the 17th day of February, 1908, at 11 in the forenoon, or at any time or times to which the same may be adjourned, at the rooms of the Commission, No. 154 Nassau street, Borough of Manhattan, City and State of New York, to determine after such rehearing and after consideration of the facts, including those arising after the making of the Order 221, whether the original Order 221 or any part thereof is in any respect unjust or unwise, and whether the said Order 221 should be abrogated, changed or modified.

And if any such abrogation, changes or modifications are found to be such as ought to be made, then to determine the nature and extent of changes or modifications of the said order, and to determine the time of taking effect of the order as changed or modified.

All to the end that the Commission may make such order or orders in the premises as shall be just and reasonable; further

Ordered, That the said Interborough Rapid Transit Company be given at least five days' notice of such rehearing by service upon it, either personally or by mail, of a certified copy of this order, and that at such rehearing said company shall be afforded all reasonable opportunity for presenting evidence and examining and cross-examining witnesses as to matters aforesaid; further

Ordered, That the time of the said Interborough Rapid Transit Company within which to comply with the terms of said Order No. 221 be and the same hereby is extended until such time as the Commission shall enter an order upon the rehearing herein provided for.

Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.

Nays—None.

of

Certified copies of corporate documents to be furnished by the Consolidated Telegraph and Electrical Subway Company and the Empire City Subway Company.

Resolved, That the Consolidated Telegraph and Electrical Subway Company and the Empire City Subway Company, Limited, be and each of them hereby is required to furnish to the Public Service Commission for the First District and file with the Secretary of said Commission within fifteen days after service upon such company of a certified copy of this resolution copies of each of the documents specified below, sworn or certified to be true copies of the originals thereof by an official of the

company, and if any of such documents are on file or of record in any public office, stating that fact and the date and place of such filing or record:

- (1) Certificate of incorporation;
 - (2) Supplemental or amended certificate of incorporation;
 - (3) Certificates relative to capital stock, whether increase or decrease;
 - (4) Consents of local authorities;
 - (5) Contracts with local or City authorities;
 - (6) Leases of real estate;
 - (7) All agreements with companies operating or leasing duct space in any portion of your subways;
 - (8) Copies of all agreements with public service corporations not set forth in (7) above;
 - (9) All agreements with and consents of municipal departments and officials or State and Federal authorities;
 - (10) A map drawn to a scale not exceeding 2,500 feet to the inch, showing all ducts laid by it and indicating thereon the size and number of such ducts as of January 1, 1908;
 - (11) A reference to all court decisions affecting its franchises;
 - (12) A copy of any other documents constituting a link in the chain of muniments of title to franchises.
- Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.

(10) The Secretary presented the following communication from the New York Central and Hudson River Railroad Company, upon Order No. 211, as to the discontinuance of trains at about midnight on the Putnam Division, which was referred to Commissioner Eustis:

ANSWER TO ORDER NO. 211.

State of New York, Public Service Commission, First District:
In the Matter

Proposed discontinuance of trains about midnight on the Putnam Division of the New York Central and Hudson River Railroad Company.

Pursuant to an order of the above named Commission, dated January 17, 1908, the respondent, the New York Central and Hudson River Railroad Company, makes the following answer in writing to the order of the aforesaid Commission, and says:

First—That the trains discontinued on the Putnam Division of the said company were as follows:

- Train No. 103, leaving One Hundred and Fifty-fifth street station at 2 a. m.
- Train No. 105, leaving One Hundred and Fifty-fifth street station at 3 a. m.
- Train No. 107, leaving One Hundred and Fifty-fifth street station at 4 a. m.
- Train No. 106, leaving Yonkers station at 2.25 a. m.
- Train No. 108, leaving Yonkers station at 3.25 a. m.
- Train No. 110, leaving Yonkers station at 4.25 a. m.

Second—That the discontinuance of said trains was ordered by the said defendant by reason of the fact that the average number of passengers carried upon such trains was so small during a long period of time prior to their discontinuance that the revenue gained therefrom did not justify the expense incurred in the running of said trains.

Third—The defendant attaches hereto a tabulated form showing the number of passengers carried between the various stations on the said Putnam Division during certain periods in the months of October and November, 1907, showing that on the northbound trains, to wit, trains Nos. 103, 105 and 107, and on the southbound trains, to wit, trains Nos. 106, 108 and 110, the average daily number of passengers carried was so small as to make the running of such trains a constant expense to the said defendant, and the defendant further alleges that it believes that the daily average number of passengers would not increase if such trains were continued to be run upon its Putnam Division.

ALBERT H. HARRIS,
Attorney for Defendant.

(11) The Secretary presented the following petition of the Long Acre Electric Light and Power Company for approval by the Commission of the issue by that company of \$10,000,000 of preferred stock and \$50,000,000 of bonds, which was referred to Commissioner Maltbie:

In the Matter
of

The application of Long Acre Electric Light and Power Company, for approval of the issue by it of stock and bonds.

To the Public Service Commission for the First District, State of New York:

The petition of Long Acre Electric Light and Power Company, a corporation duly organized under the laws of the State of New York and doing business in the City of New York, respectfully shows:

1. Accompanying this petition are the following:
 - (a) A copy of the certificate of organization of the petitioning corporation, certified by the Secretary of State and the Clerk of New York County. (No. 1.)
 - (b) Duly certified copies of all certificates, statements or records which modify, change or extend the purposes or powers of petitioners, showing when and where such documents were filed or entered. (No. 2.)
 - (c) Duly certified copies of any certificate, record or order required by law to be made or filed to authorize the corporation to exercise any of its franchises or rights. (No. 3) and 3a.
 - (d) Duly certified copy of the unanimous consent of the stockholders authorizing the increase of the capital stock of the company by issuing \$10,000,000 of preferred stock. (No. 4.)
 - (e) Duly certified copy of the consent of the stockholders for the execution of a trust mortgage authorizing the issuing of bonds thereunder to the amount of \$50,000,000. (No. 5.)
2. The following is a statement in detail of the financial condition of petitioner, viz.:

There is only one kind of capital stock outstanding. The amount thereof is \$50,000, represented by 500 shares of \$100 each, par value. No dividend has been declared thereon, and the same is held as follows: The outstanding indebtedness of petitioner is \$500,000 upon bonds issued and sold, and \$100,000 upon bonds given as collateral security for the faithful performance on the part of petitioner of the contract between petitioner and the American and British Manufacturing Company, a copy of which accompanies this petition, all of which bonds are secured by a mortgage, a copy of which accompanies this petition, and also about \$93,000 upon general open account not secured. (Contract, No. 6. Mortgage, No. 7.)

Petitioner has the right to place wires for electric light, heat and power in the Boroughs of Manhattan and The Bronx, as appears by franchise, a copy of which accompanies this petition. (No. 3.) It has a small amount of initial plant erected and in operation at its first station, at Forty-seventh street and Second avenue, in the Borough of Manhattan, and is actually engaged in supplying electric current therefrom to customers. The Commissioner of Water Supply, Gas and Electricity has issued permits for the construction of subways required for use by petitioner, and certain of such subways have already been constructed. It has a contract upon favorable terms with the American and British Manufacturing Company, a reputable manufacturer, for the construction of all its plant required. (No. 6.)

3. Petitioner desires authority to issue \$10,000,000, par value, of preferred stock. The rate of dividends thereon to be paid is 7 per cent.; the stock to be non-cumulative and non-voting.

Petitioner desires authority to issue bonds to the extent of \$50,000,000, only \$12,000,000 to be issued at this time, and the remainder to be issued, as hereinafter authorized, by the Public Service Commissioner, to be secured by a mortgage or pledge of all its property, franchises and rights, with interest upon bonds at the rate of 6 per cent., and to be payable as follows:

Bonds may be redeemable at 110 and interest at any time. The mortgage to contain a sinking fund clause whereby at the end of ten years from the date of the mortgage bonds at their face value, that shall equal 1 per cent. annually of the amount of bonds issued and outstanding, shall be set aside to establish a sinking fund for their redemption, and this ratio shall continue for the period of ten years. Thereafter the retiring fund for the next ten years shall be increased to 3 per cent. annually, and for the next ten years to 4 per cent. annually.

4. The use to which the capital to be secured by the issue of such stock and bonds is to be put is:

Securing or retiring the present issue of bonds.
The acquisition of property situate in the City of New York upon which to erect power houses and sub-stations.
The construction of power houses and sub-stations.
The purchase and laying of underground cables, paying for subsidiary connections and ducts.

Corporate expenses in the conduct of its business.

5. The schedule "Cost of Electric Power Plant" accompanying this petition (No. 8) contains a statement of the property proposed to be acquired with its value, a detailed description of the construction contemplated with an estimate of its cost, and a description of the obligations proposed to be refunded, including their par value and the amount for which they were actually sold and the application of the proceeds.

The schedule shows estimate contemplating the eventual construction of a plant of 75,000 K. W., but it is proposed at first to complete only one-third of the same, the balance being added consecutively as requirements demand. The estimate for 25,000 K. W. initial installation covers the purchase of the complete power house site and dock, and amounts in the aggregate to \$11,436,722.70, which sum it is expected may be realized from sale of \$12,000,000 of bonds. From the sale of the preferred stock enough money should be realized to double the initial installation.

In order that the proposed bond issue may be secured by a first mortgage, it is necessary that the entire amount of the present bond issue be secured or refunded. Only \$600,000 in amount thereof has been issued from the treasury, and they have been issued for contracts and expenses incidental to the development of the business to its present state. The par value of the whole issue is \$1,000,000, and the par value of those issued is \$600,000. The amount for which the latter were sold, in manner aforesaid, was \$600,000, and the proceeds were applied, to wit, the bonds themselves turned over for the purposes before stated.

6. A contract has been entered into with the American and British Manufacturing Company for the purchase and construction of the property and plant necessary for the business of petitioner, a copy of which is hereto annexed. (No. 6.)

A contract has been arranged for, but not yet entered into, with a reputable trust company, for receiving the proceeds of stock and bonds sold and for payment of moneys for carrying on the business of petitioner upon properly certified vouchers.

7. The outstanding stock and bonds, as stated above, have been used in purchasing corporate franchises, copies of which accompany this petition, paying the expense incident to the formation of the corporation, the purchase of property by the corporation and expense in procuring contracts for the corporation.

8. The corporation petitioning was not formed by the merger or consolidation of other corporations.

9. The following is a list of the stockholders of petitioner, with the number of shares of stock held by each, to wit:

List of Stockholders.	No. of Shares.
William Harris	3
Henry B. Harris	1
George E. Bouchie, trustee	490
Edgar Van Etten	1
W. W. Walters	1
William H. Lamprecht	1
John C. Sheehan	2
G. Tracy Rogers	1
	500

Wherefore, your petitioner prays for an order authorizing the increase of the capital stock and the execution and issue of a mortgage and bonds thereunder, as prayed for in the foregoing petition, and for such other, further or different relief as to the Commission may seem proper.

LONG ACRE ELECTRIC LIGHT AND POWER COMPANY,

By EDGAR VAN ETEN, President, Petitioner.

Borough of Manhattan, } ss.:
County and State of New York, }

Edgar Van Etten, being duly sworn, deposes and says he is the president of the Long Acre Electric Light and Power Company, the petitioner above mentioned, and does hereby make solemn oath that the statements and facts therein contained are true according to his best knowledge, information and belief.

EDGAR VAN ETEN.

Subscribed and sworn to before me this 15th day of January, 1908.

GEORGE L. LEWIS, Notary Public, Queens County, N. Y. Certificate filed in New York County, N. Y.

(12) The Secretary presented a communication from the Fifty-seventh Street Association, advocating the construction of a surface street car line in Fifty-seventh street, because of its width and availability for the present and future traffic of that vicinity, especially that in connection with the Blackwell's Island Bridge; suggesting that the cars crossing this bridge continue through Fifty-seventh street to the North River; that the tracks on Fifty-seventh street be depressed from a point west of Park avenue to a point east of Sixth avenue, and that in the Lexington avenue and other new subways stations be placed at Fifty-seventh street; stating that this plan is the cheapest and best for the distribution of traffic from the Blackwell's Island Bridge, and for avoiding the conditions existing at the Brooklyn Bridge; and requesting that a public hearing be granted for the consideration of these subjects. The communication was referred to Commissioner Bassett.

(13) The Secretary presented a communication from the Ocean Parkway Taxpayers' Association, requesting a hearing on the question of constructing the subway to Coney Island under the Ocean parkway, which was referred to Commissioner McCarroll.

(14) The Secretary presented the following communication from Bird S. Coler, President of the Borough of Brooklyn, which was referred to Commissioner McCarroll for consideration:

BROOKLYN, February 5, 1908.

The Honorable the Public Service Commission:

GENTLEMEN—I would suggest that your Board take immediate action toward urging the Board of Estimate to leave unimpaired the fund for relief sewers construction in the Borough, which was set aside on July 14, 1905, and which was further approved under the present administration on February 1, 1907, when the plans for the sewers were filed and approved by the formal action of the Board of Estimate.

I believe it has been shown to your Board, or at least to your Chief Engineer, that the Gold street sewer, relieving the Greene avenue sewer to a considerable extent, is essential for the Fourth avenue subway work unless \$200,000 is to be needlessly expended in reconstructing an old sewer which will afterward be abandoned on the completion of divisions No. 1 and No. 2 of the relief sewer system.

provided for in the two-million-dollar plan; but, further than this, I would like to make it clear that the Tompkins avenue sewer, outleting at the foot of Classon avenue (division No. 1), with the Gold street system (division No. 2), is a unit in its treatment of the subway crossings and the drainage and sewer diversion made necessary by all of the Brooklyn subways encountered in this 5,400 acres which the relief sewers are to serve. To show this specifically, on the Broadway and Lafayette avenue lines, I transmit with the Consulting Engineer's report on the general subject a statement prepared by the Chief Engineer of the Bureau of Sewers.

I trust that after a review of these statements action will be taken in line with that suggested by Commissioner Bassett, when Mr. Creuzbaur laid the matter before you at the meeting of January 21, and it would seem that some action urging the Board of Estimate to allow this relief sewer work to proceed without further interruption might be taken at this time, and that it would result in the Board of Estimate allowing me to complete these improvements during this administration.

Aside from the two contracts of the Gold street sewer which I advertised in September last, the most important of the other plans are ready to advertise as soon as the motion of the Mayor, made last November, is reconsidered by the Board of Estimate.

Very truly yours,
(Signed) BIRD S. COLER,
President, Borough of Brooklyn.

Commissioner Eustis moved the adoption of the following hearing order, which was duly seconded:

HEARING ORDER (No. 242-A). (SUBSTITUTE FOR ORDER No. 242.)

In the Matter
of

The hearing on motion of the Commission on the question of improvement in and addition to the service of the New York City Interborough Railway Company, in respect to increase of service from One Hundred and Eighty-first street to Bronx Park, and in respect to the opening of new Tremont avenue line.

It is hereby

Ordered, That a hearing be had on the 17th day of February, 1908, at 2.30 o'clock in the afternoon, or at any time or times to which the same may be adjourned, at the rooms of the Commission, at 154 Nassau street, Borough of Manhattan, City of New York, State of New York, to inquire whether the regulations, practices and service of the New York City Interborough Railway Company in respect to transportation of persons in the First District are unreasonable, improper or inadequate, and whether changes, improvements and additions thereto ought reasonably to be made, in the manner below set forth, in order to promote the security or convenience of the public, or in order to secure adequate service and facilities for the transportation of passengers, and if such be found to be the fact, then to determine whether a change, addition and improvement in regulations, practices and service of said company, as hereinafter set forth, is such as will be just, reasonable, adequate and proper, and ought reasonably to be made to accommodate the passenger traffic offered to it, and to promote the convenience of the public, or in order to secure adequate service or facilities for the transportation of passengers; that is to say, whether the following changes, additions, readjustment and increase of service should be put into effect:

1. (a) By operating daily, except Sundays, from Bronx Park to the One Hundred and Eighty-first street station of the subway, a sufficient number of cars, so that every passenger presenting himself at any point on the said line between 7 a. m. and 9 a. m. shall be furnished with a seat, without waiting more than eight minutes.

(b) By operating daily, except Sundays, from the One Hundred and Eighty-first street station of the subway to Bronx Park, a sufficient number of cars so that every passenger presenting himself at any point on the said line between 5 p. m. and 7 p. m. shall be furnished with a seat without waiting more than eight minutes.

(c) By operating daily, except Sundays, between One Hundred and Eighty-first street subway station and Bronx Park, a sufficient number of cars so that every passenger presenting himself at any point on the said line between 1 a. m. and 5 a. m. shall be furnished with a seat without waiting more than thirty minutes.

(d) During all other hours of the day there shall be operated over the entire line between the One Hundred and Eighty-first street station of the subway and Bronx Park, a sufficient number of cars so that every passenger presenting himself at any point on the said line shall be furnished with a seat without waiting more than ten minutes.

2. By beginning operation of cars over the new Tremont avenue line, from the One Hundred and Eighty-first street station of the subway to West Farms by way of Tremont avenue, Aqueduct avenue and other streets, and by operating over this line a sufficient number of cars to furnish seats for all passengers, as above suggested for the One Hundred and Eighty-first street and Bronx Park line.

And if any such changes, improvements and additions be found to be such as ought to be made as aforesaid, then to determine what period would be a reasonable time within which the same should be directed and executed.

All to the end that the Commission may make such order or orders in the premises as shall be just and reasonable; further

Ordered, That the said New York City Interborough Railway Company be given at least five days' notice of such hearing, by service upon it, either personally or by mail, of a certified copy of this order, and that at such hearing said company be afforded all reasonable opportunity for presenting evidence and examining and cross-examining witnesses as to the matters aforesaid.

Commissioner Eustis presented the following report, which was ordered filed:

To the Public Service Commission for the First District:

GENTLEMEN—In the matter of Franklin L. Partridge against this Commission for trespassing upon his property at Two Hundred and Thirty-eighth street and Broadway, which was referred to me for report, I beg to submit that Two Hundred and Thirty-eighth street is a station street, and in the construction of the extension to the west side subway up Broadway to Van Cortlandt Park, the plans provide for a station at Two Hundred and Thirty-eighth street, and in constructing this station it is necessary for the pillars that support the station at the extreme ends to be constructed in Two Hundred and Thirty-eighth street. The title to this street is still vested in the owners, and no proceedings have as yet been taken to acquire title on behalf of the City.

Mr. Partridge, it appears, owns a narrow lot fronting on Broadway, running back in Two Hundred and Thirty-eighth street, all of which will be taken when the City acquires title to the bed of this street, and one of the pillars for the support of the westerly half of the station at this street has been constructed upon his property. Before this was done verbal consent was obtained from the party who was then supposed to be the owner of this lot, that the City go ahead and construct the station, and the owner would await the opening of the street by the City to receive his compensation.

I have had an interview with Mr. Partridge and his counsel, Henry DeForest Baldwin, in relation to the situation, and Mr. Partridge has finally consented to make no further objection to the City continuing and completing this station at this point, and that he will look to the City for his damages and compensation when they get ready to take title for the bed of the street.

Dated February 6, 1908.

Respectfully,
J. E. EUSTIS, Commissioner.

Commissioner Bassett moved the adoption of the following dismissal order, which was duly seconded:

DISMISSAL ORDER (No. 248).

George W. Bartholf, complainant, vs.
New York and Queens County Railway
Company, defendant.

Under Order for Answer No. 132, made
December 4, 1907.

This matter coming on upon the complaint of George W. Bartholf, dated the 22d day of November, 1907, and upon the Order of the Commission No. 132, made the 4th day of December, 1907, and upon the answer of New York and Queens County Railway Company, dated December 13, 1907, and it not appearing to the Commission that there are reasonable grounds for the charges in said complaint.

Now, on motion of George S. Coleman, Esq., Counsel to the Commission, it is Ordered, That said complaint be and the same hereby is dismissed; and it is Further Ordered, That this order shall be without prejudice to the making and issuing of any further order or orders for hearings upon any of the matters referred to in said complaint and answer.

Ayes—Commissioners Willcox, McCarroll, Bassett, Maltbie, Eustis.

Nays—None.

Commissioner Bassett moved the adoption of the following final order, which was duly seconded:

FINAL ORDER (No. 249).

In the matter of Frank Bennett, complainant, against South Brooklyn Railway Company, defendant.

Under Order for Hearing No. 184, made
January 3, 1908.

This matter coming on upon the report of the hearing had herein on the 16th day of January, 1908, and on the 22d day of January, 1908, and it appearing that the said hearing was held by and pursuant to an order of this Commission made on the 3d day of January, 1908, and returnable on the 16th day of January, 1908, and that said order was duly served on the South Brooklyn Railway Company on the 3d day of January, 1908, said order being Order Number 184, and that the said hearing was held by and before the Commission on the matters embraced in the complaint and answer herein, and in said order specified, on the 16th day of January, 1908, and on the 22d day of January, 1908, before Commissioner Bassett, presiding, Frank Bennett, complainant, appearing in person, and W. S. Menden, Esq., appearing for the said railway company, and proof having been taken upon said hearing, and it having been made to appear by the proceedings on said hearing that the regulations, equipment and service of said railway company, in respect to the transportation of persons upon its line on Gravesend avenue, in the Borough of Brooklyn, City and State of New York, are unsafe, improper and inadequate, on account of the matters in said complaint set forth and in said answer admitted, and on account of the matters proved upon the hearing herein, and that repairs, improvements, changes and additions to and in the stations used by said company in connection with the transportation of passengers on its said line on said Gravesend avenue, in the Borough of Brooklyn, City and State of New York, ought reasonably to be made in order to promote the security and convenience of the public and in order to secure adequate service and facilities for the transportation of said passengers.

Now, on motion of George S. Coleman, Esq., Counsel to the Commission, it is

Ordered,

(1) That said South Brooklyn Railway Company be and it hereby is directed and required to construct and maintain, at its Kensington station on said Gravesend avenue, on each side of said company's double track line at said station, a cinder platform at least two hundred (200) feet in length and of sufficient height and width to enable passengers to board and alight from trains at said station with convenience and safety. Further, that said company bind and inclose the exterior of each of said platforms, next to the street, for at least one hundred and twenty (120) feet with heavy retaining timbers laid in such a manner as to form steps from the present grade of the street to the tops of said platforms, for the convenience of passengers in ascending to and descending from said platforms. Further, that said company keep and maintain the tops of said cinder platforms on a level with the tops of said timbers.

(2) That said South Brooklyn Railway Company be, and it hereby is directed and required to construct and maintain at its Eighteenth avenue station, on said line on said Gravesend avenue, on each side of said company's double track line, at said station, a cinder platform at least two hundred (200) feet in length, and of sufficient width and height to enable passengers to board and alight from trains at said station with convenience and safety. Further, that said company bind and inclose the exterior of each of said platforms, next to the street, for at least one hundred and twenty (120) feet, with heavy retaining timbers, and that said company keep and maintain the tops of said cinder platforms on a level with the tops of said timbers.

(3) That said South Brooklyn Railway Company be, and it hereby is directed and required to construct and maintain at its Parkville station on said line, on each side of said company's double track line, at said station, a cinder platform at least two hundred feet in length, and of sufficient width and height above the present grade of the street to enable passengers to board trains at said station, and to alight therefrom with safety.

(4) That said company shall keep and maintain said platforms in as good condition as when first constructed in accordance with the requirements of this order.

(5) It is further Ordered, That said South Brooklyn Railway Company be, and it hereby is directed and required to construct said platforms, and to bind and enclose the same in the manner hereinbefore directed within thirty days from the date of the service on said company of a certified copy of this order, and continue the same in that condition until such time as the Public Service Commission for the First District shall otherwise order.

(6) It is Further Ordered, That said South Brooklyn Railway Company notify the Public Service Commission for the First District within five days after service of this order upon it, whether the terms of this order are accepted and will be obeyed.

LONG ISLAND RAILROAD COMPANY.

In the matter of the application of the Long Island Railroad Company for the consent of the Board to a change in the line of its route between a point about 400 feet west of Ascan avenue and a point about 700 feet east of Lefferts avenue, in the Second Ward, Borough of Queens, City of New York.

This application was presented to the Board at its meeting of October 18, 1907, and referred to the Chief Engineer.

In accordance with opinion of the Corporation Counsel, January 24, 1908, was fixed as the date for public hearing, and on that date the hearing was continued until this day.

The Secretary presented the following:

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, January 23, 1908.

To the Board of Estimate and Apportionment:

GENTLEMEN—On the 6th day of January, 1908, I addressed a communication to you on the subject of the application of the Long Island Railroad for leave to straighten its line by a cut-off at Maple Grove, expressing the opinion on the facts as I understood them, that the full procedure prescribed by section 74 of the Greater New York Charter must be complied with.

Since then counsel for the company have submitted a statement of facts to me on an application for a reconsideration of my said opinion, which statement seems to me to place the application before you in a different light from that in which I viewed it.

The facts involved are as follows:

The Long Island Railroad Company was incorporated under a special act to construct a railroad between Greenport and the East River, in which act no specific route is prescribed. It never had any articles of incorporation. It constructed a main line, which passes on level ground around what is known as Richmond Hill, and therefore crosses the streets at grade. Such grade crossings constitute an element of danger to its passengers and also great inconvenience to the abutting owners. The curve is also objectionable. To avoid these drawbacks it has been decided to do away with this curve by a depressed cut-off about 3,000 feet in length, extended from one part of this curve to the other and about 1,200 feet to one side of the existing line. This will be constructed through private property, and has been located under an agreement with such property holders, by which they have granted it a right of way upon condition that the cut-off will be constructed below the street grades, that the service on the existing curve will be discontinued and this portion of the right of way conveyed to them as compensation for the land composing the cut-off. Such contract also provides for the carrying of the two existing streets over the cut at the expense of the railroad, according to plans agreed upon with the property holders.

By a resolution passed by the Directors of the Long Island Railroad Company, in accordance with section 13 of the Railroad Act, it was decided that for the purpose of facilitating the operations of the railway, this portion of its route should be relocated and altered so as to pass through the cut in question. Section 13 of the Railroad Act allows a relocation or change of route of a railroad with the consent of the City authorities, and also provides "That no portion of the track of any railroad as provided in its certificate of incorporation shall be abandoned under this section." I think that this sentence must be read in connection with the preceding part of the section, so that the whole may be given an operative effect. There are many certificates of incorporation of railroads which describe their route as running through certain streets or highways. There are others, like the charter of the Long Island Railroad Company, which simply designate termini, leaving the road free to locate its route between such termini in any way it should see fit.

If the act is construed to apply to the former class of railroads, to the extent that they cannot abandon their route running through the streets or highways, which are specifically described in their certificate of incorporation, but are at liberty, subject to such restriction, to make the changes referred to in the preceding part of the section, when approved of by the local authorities, the whole act is given a meaning. Any other construction renders it impossible for a railroad to construct any cut-off or to shorten or straighten or otherwise improve its line. The effect of this would be to render the whole section nugatory. By section 7 of the Railroad Law the company is specifically authorized to condemn lands which it may require "for cut-offs or for shortening, straightening or altering the line of its road or any part thereof," which recognizes its right to do what it now asks leave to do.

It seems to me, therefore, that a consideration of these facts, all of which were not before me when I gave my opinion, induces me to come to the conclusion that the effect of the resolution of the directors of the railroad was to make the cut-off a part of the main line of the road, and that the old portion will cease to be part of such line when the new part is constructed; that the relocation of such new line is not forbidden by section 13 of the Railroad Act, and that no new franchise is involved in granting the permission for its construction and operation. Section 92 of the Railroad Act has, in my opinion, no application to this case. That refers entirely to the construction of a street surface railroad upon or along any street, avenue or highway in any city. The Long Island is not a street surface railroad, and the application is not for the construction of any part of its route upon any street or highway, but, on the contrary, it is through private property, the title to which it has acquired.

Section 74 of the Charter in like manner only applies for a grant of the franchise "to use any street, avenue, waterway, parkway, park, bridge, dock, wharf, highway or public street" and also has no application.

Under these circumstances, I am of the opinion it is not necessary to institute the expensive proceedings required by section 74 of the Greater New York Charter, and that consent may be granted by the Board of Estimate and Apportionment.

Respectfully yours,

F. K. PENDLETON, Corporation Counsel.

REPORT No. F-84.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 5, 1908.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On October 18, 1907, the Long Island Railroad Company applied to the Board of Estimate and Apportionment for consent to change a part of its route between a point some 400 feet west of Ascan avenue and a point about 700 feet east of Lefferts avenue, in the Second Ward of the Borough of Queens. A preliminary hearing was given on January 10, 1908, the Corporation Counsel having advised the Board that it would be necessary to proceed exactly as if this were a new franchise. The hearing was held and the matter was referred back to the Chief Engineer of the Board. Subsequently the Corporation Counsel rendered an opinion modifying his former statement and advising the Board that the regular procedure required in the case of a franchise would not be necessary. I submit herewith a report from the Engineer in charge of the Division of Franchises, together with a form of proposed contract. The various provisions of this contract have been informally discussed with representatives of the Long Island Railroad Company, but there are three points upon which no agreement was reached, namely, requiring the company to pay the cost of future bridges over streets which may hereafter be laid out; requiring the company to pay the cost of widening streets in the future; and requiring a bond for the faithful performance of the contract.

As to the desirability of the change there can be no question, and the agreement is submitted for the consideration of the Board in the hope that the questions at issue can be determined without serious controversy.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, No. 277 BROADWAY,
NEW YORK, February 4, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Long Island Railroad Company under date of October 14, applied to the Board of Estimate and Apportionment for permission to change or relocate that part of its main line of railroad lying in the Second Ward of the Borough of Queens, between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue, the entire change having a length of about 5,400 feet, or a little over one mile.

Accompanying the application, is a blue print of the survey, map and certificate of said alteration, which was filed in the office of the Clerk of Queens County on October 4, 1907.

The company urges the Board to grant its approval to this change on the ground that the same will be a public improvement in that it will avoid the grade crossings at present existing on the portion of this line which will be abandoned upon the construction of the same.

The application was presented to the Board on October 18, referred to the Chief Engineer, and by him referred to this Division.

The map indicates that this change will permit the company to slightly shorten its line, substitute a straight line for the existing curve and improve the grades.

General George W. Wingate, general solicitor of the company, has informed me that the portion of the route of the railroad of the company on which this change is to be made was originally built, under a contract entered into in 1858, between the company and a Mr. E. B. Litchfield, by which Mr. Litchfield was to build the road and when the same was completed, convey it to the company. It appears that Mr. Litchfield incorporated the New York and Jamaica Railroad Company to construct the road. In 1860, by chapter 65 of the Laws of that year, the Charter of the Long Island Railroad Company (chapter 178, Laws of 1834) was amended to authorize said company to extend its railroad from Jamaica to the East River at or near Hunters Point, or at its option, to purchase, complete and operate the railroad under construction by the New York and Jamaica Railroad Company. After the passage of this act, it was decided by the Long Island Company directors to extend its corporate powers over the new road and to discontinue the corporate existence of the New York and Jamaica Railroad Company, which had been organized by Mr. Litchfield. During 1860, Mr. Litchfield continued his contract, but finally defaulted, and in March, 1861, the road was completed by the Long Island Railroad Company and was opened May 9, 1861.

From a physical examination of the section in which this change is to be made, it appears that the company has already commenced the construction of an embankment from the point on its main line west of Ascan avenue, from which the proposed change of route is to be constructed for some distance along the line of such proposed change of route, and that the right of way east of Union turnpike to the point where the proposed relocation will connect with the main line east of Lefferts avenue has been fenced off and cleared.

Maps have been adopted and filed by the Board of Estimate and Apportionment, covering a layout of the streets to the west of Union turnpike, and a development of the property in this section is now being made by the Cord Meyer Development Company in accordance with this layout, except Ascan avenue, which the company is opening for a width of eighty (80) feet through its property, instead of sixty (60) feet, as shown on the map, and Puritan avenue, which it is proposed to open for a width of sixty (60) feet, instead of eighty (80) feet, as adopted.

Mr. Cord Meyer informs me that these changes meet with the approval of the Chief Engineer of the Board, and that a map showing the same will be shortly submitted for adoption. The map of this district was prepared with the idea that the railroad company would apply for this change in its route and the layout was so arranged that such change would go through the centre of the block. The grades as adopted have been fixed so as to avoid grade crossings. The streets to be crossed by the changed line, as shown on the map approved by the Mayor, are Ascan avenue, Puritan avenue, Allegheny avenue and the old Union turnpike, which is to be widened to a width of one hundred and twenty-five (125) feet. The width of the macadam at present existing in Union turnpike is about eighteen (18) feet six (6) inches, and the width between fence lines about forty-nine (49) feet six (6) inches.

Ascan avenue is now being graded, curbed and flagged by the Cord Meyer Development Company, but has not been acquired by the City. Puritan and Allegheny avenues have not as yet been acquired, dedicated or opened. To the east of Union turnpike, no layout of the district affected by the application has been made and the proposed right of way is through the estate of A. P. Man.

Hillside avenue, so-called, was formerly a driveway from the residence of the owner to the turnpike, and is now little more than a wagon track about six (6) feet in width, and not much used.

Lefferts avenue is a traveled street with a macadam roadway.

GRADES OF CHANGE OF ROUTE AT STREET CROSSINGS.

Pursuant to a request of this Division, General Wingate has had the petition verified on January 7, 1908, and has furnished a supplemental map to accompany the petition, showing the grades of the proposed change of route where the same crosses the various streets laid out on the map adopted by the Board of Estimate and Apportionment, above referred to, based on the same data used in fixing the elevations on the map adopted by the Board, and bearing the following title:

"Survey and Map of the Alteration, Change and Relocation of the Route of the Main Line of the Long Island Railroad Company. To Accompany Petition Dated October 7, 1907, to the Board of Estimate and Apportionment for the Consent of the City, Pursuant to Section 13 of the Railroad Law."

The elevations at Ascan avenue, shown on the map submitted by the company, agree with those shown on the map adopted by the Board, except at the centre line of the crossing of the proposed relocation, the same being shown as 66 feet on the white print of the company and 66.75 feet on the map of the City. The base of the rail on the change of line is to cross the street here at an elevation of 83.6 feet, being 17.6 feet above the surface of the street, as shown on the Company's map, and 16.85 feet above the surface of the street as shown on the City's map. Allowing 3 feet below the base of the rail for the structure to support the same, the height of the viaduct above the grade of the street would in one case be 14.6 feet, and in the other 13.85 feet.

The elevations at Puritan avenue agree with those shown on the City map, and the base of the rail will be about 17.25 feet above the established grade, allowing a probable clearance by the structure over the street of at least 14 feet.

The elevations on Allegheny avenue agree with those shown on the City's map and the proposed change of route will cross the same in a cut, nearly 22 feet below the surface of the street as laid out. The grades of the approaches to any bridge built to carry the street over this cut, need not be more than 3 per cent. if the approaches are constructed to the streets intersecting Allegheny avenue on either side of the proposed change of line.

Union turnpike as shown on the map furnished by the company, agrees as to its elevations, at the corners of Austin and Burns streets, with the map of the City, but the figures showing the elevation at the centre line of the crossing of the proposed change of line (113.69 feet) are not shown on the City map. The grade that will be necessary for the easterly approach, if constructed from the cut to be constructed across the turnpike to Austin street, based upon the figures used by the company, will be about 5.5 per cent., while that of the westerly approach, if constructed to Burns street, will be only about 1.5 per cent. The base of the rail in the cut to be constructed under this turnpike will be 21 feet below the surface of the street.

PROCEDURE NECESSARY FOR CHANGE OF ROUTE.

Under section 13 of the Railroad Law

"Every railroad corporation, except elevated railway corporations, may, by a vote of two-thirds of all its directors, alter or change the route or any part of the route of its road * * * if it shall appear to them that the line can be improved

thereby, upon making and filing in the clerk's office of the proper county a survey, map and certificate of such alteration or change."

This, as already appears, has been done by the company, but under said section further provision is made that

"No alteration of the route of any railroad after its construction shall be made, * * * as provided in this section, in any city or village, unless approved by a vote of two-thirds of the common council of the city or trustees of the village."

Under the Charter, as amended by chapter 629 of the Laws of 1905, it appears that the Board of Estimate and Apportionment is the proper authority in place of the Common Council to grant this approval.

In order to ascertain the nature of the right requested and the procedure to be followed in granting the same the Secretary of the Board, on November 7, 1907, addressed to the Corporation Counsel a communication requesting his opinion, enclosing a report of this division as to the facts in regard to the matter.

On January 6, 1908, the Corporation Counsel rendered his opinion, in which he states that the consent of the City, while not involving the creation of a new franchise, does, however, involve a material modification of the original franchise, and that the right of the company to the new route would be on the same tenure as that on the old, concluding:

"I am of the opinion, and so advise you, that for any such modification of a franchise as is herein applied for the full procedure prescribed by section 74 of the Charter must be complied with."

In accordance with this opinion, the Board duly advertised a public hearing on the petition of the company, and the same was held on January 24, when it was continued until the meeting to be held on February 7. On January 23, however, the Corporation Counsel, after a fuller investigation of the facts in connection with this application, rendered an opinion in which he stated that the procedure required by section 74 of the Charter was not necessary to be followed in granting the approval applied for by the company.

It also appears that under section 53 of the Public Service Commissions Law (chapter 429 of the Laws of 1907) the company will be required to obtain the consent of the Public Service Commission of the First District to the construction of this change of line, if the Board grants its approval.

AGREEMENTS WITH PROPERTY OWNERS.

For the purpose of obtaining land for the proposed relocation or change of route the company entered into an agreement in April, 1906, with Frederick H. Man and Alrick H. Man, as joint tenants, providing for the exchange of a portion of its present right-of-way for that portion of the proposed relocation or change of route lying between Union turnpike and the centre line of Lefferts avenue. This agreement contemplates the erection of a station by the company on the easterly side of the proposed relocation or change of route at the northerly side of Lefferts avenue.

The company also entered into an agreement with the Cord Meyer Development Company on February 15, 1907, for a similar exchange north of Union turnpike. This agreement also contemplates the erection of a station by the company between Continental avenue, Roman avenue and Austin street, north of the point where the proposed relocation or change of route is to connect with the present route. The provisions of these agreements with respect to the erection of structures over or along the streets to be crossed are as follows:

Agreement, dated April, 1906, between company and Frederick H. Man and Alrick H. Man as joint tenants:

The railroad company is to commence and complete the construction of its railroad without unnecessary delay; it is to erect within two years and maintain, at its own cost, bridges over its railroad at Lefferts avenue and Union turnpike, and two between such streets "as may best develop and connect the lands" of the other parties to the agreement, all of said bridges to be of suitable design, of suitable and durable materials, such as iron, stone and concrete, and to be of "widths and grades appropriate to or corresponding with the streets or avenues which are to approach and cross over them." It also provided that the construction of the road shall be such that all surface water shall be disposed of in such a manner as not to be thrown on the lands of the other parties to the agreement, and that the company furnish proper approaches in all directions to its station to be built at Lefferts avenue.

Agreement, dated February 15, 1907, between the Cord Meyer Development Company and the Long Island Railroad Company:

The company agrees to complete the new line of railroad within two years, unless delayed by court proceedings, inability to obtain municipal consent, etc., and erect sightly and substantial bridges over Continental and Ascan avenues, the details and location of the same to be agreed upon in accordance with plans and specifications to be hereafter prepared and accepted; the said bridges to have a headway of not less than 12 or more than 14 feet, and the width to be equal to the width of the street from house-line to house-line, except that the railroad company shall be permitted to place steel supports for said bridges on the curb line of said streets, but in such manner as not to interfere with the use of the street or sidewalk. Continental avenue is not, however, on the line of the proposed relocation or change of route.

It will thus be seen that the property owners most interested are in favor of the change, and have amply protected their rights and secured very favorable concessions from the railroad company in regard to stations and crossings, and it only remains for the City to provide for the new crossing at Union turnpike to take the place of the existing grade crossing upon the old route, and for crossings over or under such streets as may be opened in the future.

PROPOSED CONDITIONS.

The grades of the approaches to any bridge constructed by the company over cuts through streets should be reasonable, and I would recommend that the company agree that the same be not over 4 per cent., except in the case of the easterly approach on Union turnpike, which, as I have already stated, will have to be nearly 5.5 per cent. to conform to the grades as laid out on the maps adopted by the Board. Provision should also be made for the crossing of any street laid out by the City in the future. All viaducts whose length crossing streets is less than seventy-five (75) feet should be constructed without supports in the street, as has been required by the Board in other agreements of a similar nature. The company should be required to care for all structures in the street disturbed by its construction, and restore the same to their original condition, or alter their location at its own expense if made necessary.

Although the agreement between the company and Frederick H. Man and Alrick H. Man, as joint tenants, contemplates the erection of the bridge over the company's railroad at Union turnpike, no provision is contained therein in regard to the widening of the same upon the increasing of the width of the turnpike to one hundred and twenty-five (125) feet, as provided on the maps adopted by the Board and approved by the Mayor.

In order to take care of the proposed widening of this turnpike, I would suggest that the company, in constructing the piers and abutments to the bridge over its railroad at this point, construct the same to the full width of one hundred and twenty-five (125) feet, and that the bridge constructed be of a width of sixty (60) feet so designed as to permit such additions as may be necessary upon the laying out of the turnpike, as shown on the maps of the City, and that it be required to cede to the City so much of the land necessary for the widening of this turnpike as may fall within the lines of its right of way. This condition is similar to that required of the Harlem river and Port Chester Railroad in crossing the Bronx and Pelham parkway.

All structures over the streets crossed by the change of line should have a minimum height of at least fourteen (14) feet, and where the plans of the company do not at present provide for such a clearance, the company should be required to so construct the viaduct as to allow the same. In all previous contracts entered into between the City and other companies, from fourteen (14) feet to sixteen (16) feet, has been the minimum height at which such structures were required to be built.

In order to provide against accidents, it would seem reasonable to require the company to fence its road, where the same will be on the surface or in cut, as the territory through which it is to be constructed appears to be in the process of development by the parties already mentioned. The streets crossed by the cut should be regulated and graded for two hundred feet from the centre line of the crossing on each side thereof at the expense of the company, if the grade of the same is disturbed by the construction of the cut, provided that any such approach shall not extend beyond the centre line of any intersecting street laid out on the maps of the City.

The City should, as in the case of the parties who entered into the agreement with the company above mentioned, have the privilege of passing upon the plans for

the construction of the structures through or over its streets, and should prohibit the use of any wires thereon except for the purpose of the operation of the railroad, such wires to be placed in conduits, if required by the Board.

As required in previous agreements authorized by the Board with railroads, the Long Island Company should in this case be required to preserve all streets across the right of way of its relocated line, consent to the opening of new streets, and cede the necessary land therefor across its right of way, subject to its easement, alter its structures if made necessary by the widening of streets, and pay for the regulating and grading of all new streets within the lines of the change of route.

That this work may be pushed to early completion, a time limit should be placed on the same, as in the case of the contracts above mentioned, and after conference with the Chief Engineer of the Long Island Railroad I would suggest eighteen months, which appears to be sufficient, if the work is commenced immediately and diligently prosecuted. The Board, however, may, in its discretion, extend the time, except for the construction of the bridge across Union turnpike.

In order that complete evidence of the right of the company to construct this proposed cut-off or change of route may be of record in the office of the Board, the company should be required to file with it the consent or approval of the Public Service Commission of the First District, to the construction, if it is necessary to obtain the same, and in order that the company be compelled to abide by the terms of its agreement, certain penalties should be prescribed, and a bond should be furnished in connection with the agreement. The proper amount of this bond, in view of the fact that it may be necessary for the City to build future bridges and to restore streets disturbed by the company, would appear to be \$50,000, and it is proposed that in the agreement the Board require the bond to be in that sum.

In the present case it would seem that if the agreement shall provide that no expense whatsoever shall be incurred by the City in granting its consent to the change of route provided for, the requirement of direct compensation might properly be waived. The conditions suggested above to be imposed upon the company in the construction for this change of line, particularly in view of the fact that the right asked for is not a new privilege, but is one that will take the place of an existing privilege with additional benefits to the railroad company, are, in my opinion, sufficient to cover the charter requirements, and at the same time to protect the interests of the City.

A draft of the proposed agreement was forwarded to General Wingate on January 15, 1908, with a request to examine the same and advise me if the terms and conditions were acceptable to the railroad company.

Subsequently, Mr. J. R. Savage, the Chief Engineer of the road, called and we discussed the agreement, clause by clause.

A number of changes were made at the request of Mr. Savage in order to allow the company a little more leeway, and to make some of the conditions more specific. An agreement was subsequently reached upon all of the points except three.

The first of these objections is the condition that imposes upon the railroad company the entire cost and expense of all future bridges upon streets which may hereafter be laid out by the City across the relocated line. Mr. Savage appeared of the opinion that any such bridges should be constructed at the joint expense of the company and the city. In support of this objection it was stated that the Long Island Railroad, in relocating its line, had raised the grade some eight or nine feet between Whitepot road and Union turnpike, at the cost of about fifty-six thousand five hundred dollars (\$56,500) for extra filling, and the railroad, if constructed at this grade, would permit the crossing of a number of streets by undergrade crossings, thus obviating the higher cost of overhead bridges with consequential damages to abutting property.

It may be that the objection of the company would have some weight if it were not for the fact that in relocating the line it has acquired a right of way sufficient to construct six tracks, instead of two as now existing, and in consequence any bridges hereafter constructed will have to be for the full width of the right of way, about eighty-five (85) feet, instead of thirty (30) feet, if but two tracks would be laid on the relocated line.

Under these circumstances, I submit that it is not incumbent upon the City to pay for the cost of bridges of such length across the railroad in the future, when under the Railroad Law as it exists to-day, the City only pays one-half of the cost of obviating existing grade crossings.

I would also note that by raising the grade at this point the gradient of the railroad is materially improved, which will save future expense to the company in operation. In other words, the railroad is now preparing for the future, and in place of a two-track road it is acquiring a right of way for a six-track road, and the City should certainly not be burdened with any additional expense by reason of approving of this change of line.

The second objection is contained in the twenty-first clause of the agreement, and relates to the widening of streets in the future and the necessary change in the railroad crossings, which it is proposed in the agreement shall be borne and paid by the railroad company.

The system of streets as laid out to-day, I believe, will be ample for many years to come, and when a change is necessary the district will be so built up and the traffic of the railroad company will be so increased that I believe the revenue of the company will be such as to amply afford the expense of these improvements. The City should not at this time, by granting the company the right to change its line, impose any burden upon the taxpayers of the future.

I think in providing that the City shall pay for the additional superstructure across Union turnpike when the same shall become necessary, that the City has done all that it should.

It was provided in the agreement that the company should furnish a bond in the sum of \$50,000 for the faithful performance of the terms and conditions proposed. The company objects to the cost of such bond, but the Board has heretofore always insisted upon such guaranty, and I see no reason why it should deviate therefrom in this case.

The public hearing advertised for January 24 was continued until February 7.

In accordance with the latest opinion of the Corporation Counsel, in regard to the procedure to be followed in granting the privilege requested by the company, I submit herewith form of agreement embodying the suggestions made above, and a proposed form of resolution for adoption by the Board.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

SYNOPSIS OF PROVISIONS.

Section 1. Conditions of approval.

1. Grade of approaches to cut-off not to exceed 4 per cent., except easterly approach on Union turnpike.
2. Cut-off to be constructed above or below grade and streets to be restored in reasonable time.
3. Clearances of viaducts. Provision re bridge over cut through Union turnpike.
4. Viaducts to be constructed in single span, except when over 75 feet, on approval of Board. Viaducts to be floored, ballasted, etc., and not to be more than 85 feet in width.
5. Location of abutments and foundations of viaducts.
6. Company, during construction, to care for structures in street and alter same if necessary.
7. Company to fence change of line where same is on surface or in cut.
8. No advertising to be placed on property or structures, under penalty.
9. No waste or other material to be thrown from structure, under penalty.
10. Company to regulate and grade turnpike crossed by cut for 200 feet on each side of centre of crossing at its own expense.
11. Streets to be carried over and under cut-off at sole expense of company. City not to be liable for any damages by construction or operation.
12. Company to assume all liability for damages.
13. Company to keep structures in good order and have access to same for purpose of repairs.
14. Plans of structures to be approved by Board and same to be constructed of steel, masonry, etc.
15. Wires, etc., to be placed in ducts, upon one years notice.
16. No wires to be placed on structure except for operation of railroad and use of City.
17. Railroad to be constructed, maintained and operated subject to approval of proper authorities.
18. Company to bear entire expense of preserving streets across right of way, etc.

19. City to have right to open new streets across same, and company consents to such openings.
 20. Company to cede, subject to its easement, all property within right of way of cut-off necessary for new streets.
 21. If streets across cut-off are altered or widened, company to alter structures, if necessary, at own expense.
 22. Cost of regulating and grading all new streets within right of way of cut-off to be paid by company.
 23. City may grant any other right or franchise which does not physically interfere with cut-off.
 24. Representatives of City may inspect cut-off. Sanitary and police power of City not to be affected.
 25. Company to commence construction within sixty days after consent of Public Service Commission, if necessary, and complete within eighteen months thereafter.
- Sec. 2. Company to obtain consent of Public Service Commission of First District, if necessary.
- Sec. 3. Company to discontinue old route upon completion of cut-off.
- Sec. 4. Company to furnish bond in sum of \$50,000. Penalties for non-performance, except where otherwise fixed, \$25 a day.
- Sec. 5. Company covenants to abide by above terms and conditions.

PROPOSED FORM OF RESOLUTION.

Whereas, The Long Island Railroad Company is the owner of and operates a line of railroad commencing at a point in the First Ward of the Borough of Queens (formerly known as Long Island City), and running thence easterly to Jamaica, in the Fourth Ward of said Borough and beyond, which is known and designated as the "Main Line" of the company's railroad; and

Whereas, Said Company, by a vote of two-thirds of all its directors, pursuant to section 13 of the Railroad Law, altered, changed or relocated that part of such line of railroad lying in that portion of the Second Ward of the Borough of Queens between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue; and

Whereas, Said Company has heretofore, on or about October 18, 1907, by a petition duly verified January 7, 1908, applied to the Board for the approval of the City to the said alteration or change of this portion of its route; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, under and in pursuance of the provisions of the Greater New York Charter and section 13 of the Railroad Law hereby grants its consent and approval to the said alteration, change or relocation of that portion of the "Main Line" of the railroad of the Long Island Railroad Company from a point about four hundred (400) feet west of Ascan avenue to a point about seven hundred (700) feet east of Lefferts avenue, in the Second Ward of the Borough of Queens, City of New York. Provided, however, that this consent and approval shall not take effect until the Company executes and delivers to the Board an agreement in the form following:

LONG ISLAND RAILROAD COMPANY.

Proposed Form of Agreement.

This agreement, made this day of 190 , by and between the Long Island Railroad Company (hereinafter called the Company) and The City of New York (hereinafter called the City) witnesseth:

Whereas, The Company is the owner of and operates a line of railroad commencing at a point in the First Ward of the Borough of Queens (formerly known as Long Island City), and running thence easterly to Jamaica, in the Fourth Ward of said Borough and beyond, which is known and designated as the "Main Line" of the Company's railroad; and

Whereas, Said Company, by a vote of two-thirds of all its directors, pursuant to section 13 of the Railroad Law, altered, changed or relocated that part of such line of railroad lying in that portion of the Second Ward of the Borough of Queens, between a point about four hundred (400) feet west of Ascan avenue and a point about seven hundred (700) feet east of Lefferts avenue, as more clearly appears on the map entitled:

"Survey and Map of the Alteration, Change and Relocation of the Route of the Main Line of the Long Island Railroad Company. To Accompany Petition dated October 7, 1907, to the Board of Estimate and Apportionment for the Consent of the City, pursuant to Section 13 of the Railroad Law."

—signed by the President and the Chief Engineer of the Company, and dated January 14, 1908, attached to this agreement and made a part hereof; and

Whereas, said Company has heretofore, on or about October 18, 1907, by a petition duly verified January 7, 1908, applied to the Board of Estimate and Apportionment for the approval of the City to the said alteration or change of this portion of its route; and

Whereas, The said Board on day of 190 , by a resolution duly adopted, granted the consent and approval of the City to the said alteration, change or relocation of route.

Now, therefore, in consideration of the premises and the said consent and approval of the Board of Estimate and Apportionment, the Long Island Railroad Company hereby covenants and agrees as follows:

Section 1. The railroad to be constructed on the said proposed relocation, and change of route shall be carried over or under all streets now opened or hereafter to be opened, which may be crossed by it, and is to be subject in its construction, operation and maintenance to the following provisions and conditions:

1. In case it shall be necessary to raise or depress the grade of any street so as to pass over or under the proposed relocation or change of route, the maximum grade of such street in approaching the same from either side shall not exceed four (4) per centum, except that the easterly approach to the viaduct or bridge to be constructed over the cut across Union turnpike may have a grade of five and five-tenths (5.5) per cent., and no more.

2. All viaducts over streets and all crossings under streets shall be constructed either above or below the grade of such streets and in such manner as shall not interfere with the ordinary use thereof. All streets now open or in use and streets hereafter opened across the route of the proposed relocation or change of route of the Company shall be carried over or under the said railroad at the sole cost and expense of the Company. All streets in any way disturbed by such construction shall be restored to their original condition. In case of failure of the Company to restore such streets to their original condition in a reasonable length of time, of which the Board shall be the sole judge, the City shall have the right under resolution of the Board to cause the work to be done and the materials to be furnished after due notice, and shall collect the reasonable cost thereof from the Company or in the event of the failure of the Company to pay the same within thirty (30) days from the security hereinafter provided for.

3. All viaducts or bridges to be constructed shall have a vertical clearance of not less than fourteen (14) feet above the centre of the respective streets crossed by the same.

Within the time allowed by this agreement, for the construction of the railroad on the route hereby authorized, the Company shall, at its own expense, construct abutments and piers for the bridge over its railroad under Union turnpike, for the full width of said turnpike, to wit: One hundred and twenty-five (125) feet, and within the lines of said turnpike, all as laid out on the map of the City, adopted by the Board December 29, 1905, and approved by the Mayor January 4, 1906, and at the same time shall erect thereon a bridge superstructure of a width of not less than sixty (60) feet. The bridge thus constructed to be so designed as to allow of the erection by the City, at its own expense, of any necessary increase in the width of the same to the full width of one hundred and twenty-five (125) feet, upon the widening of the turnpike, without requiring the reconstruction of that portion already built by the Company. Plans for the abutments, piers and superstructure shall be first submitted to the Board for its approval, and all work in connection with the construction of the same shall be done entirely at the expense of the Company. No extension of time shall be granted the Company for the completion of the work to be done by it under this paragraph.

4. The bridges or viaducts of the railroad on the proposed relocation or change of route shall, subject to the approval of the Board as to the character, design and plans for the construction of the same, be constructed in a single span, except that where the same shall be more than seventy-five (75) feet in length intermediate

columns to support the structure may be placed on the curb line in the street, upon the approval of the Board to the plans for the same and to their location. Such bridges or viaducts shall be floored throughout and shall be watertight, and the roadbed on the same shall be ballasted throughout its entire length with a sufficient quantity of either blast furnace slag or broken trap rock of a hard and durable quality, and no dirt, sand, gravel or cinders shall be used in such ballast.

The width of any superstructure of the Company crossing a road, street, avenue or turnpike shall not exceed eighty-five (85) feet, when measured over all, and the width of all cuts of the Company crossing public streets shall not be more than ninety-five (95) feet at the grade of the street.

5. All abutments or foundations for bridges or viaducts crossing a street (except intermediate supports for bridges or viaducts as hereinbefore provided) shall be placed on land of the Company.

6. The Company shall, in the course of its construction and at its own expense, maintain and care for all underground and overground structures (including pipes, wires and other conduits) which shall be in the route of the proposed relocation or change of route or directly interfered with by its construction, and any necessary interference with underground and overground structures shall be subject to regulation by the Commissioner of Water Supply, Gas and Electricity and the President of the Borough of Queens.

Any alteration which shall be required to the sewerage or drainage system or to any subsurface structures (including pipes, wires and other conduits) laid in the roads, streets or avenues, on account of the construction or operation of the railroad of the Company on the proposed relocation or change of route, shall be made at the sole cost of the Company and in such manner as may be required by the President of the Borough of Queens and the Commissioner of Water Supply, Gas and Electricity.

7. The Company shall, where its road on the right of way of the proposed relocation or change of route is to be constructed at the surface or in cut, enclose the same with a substantial and sightly fence.

8. The Company's property and structures, including any stations erected by it on the proposed relocation or change of route, shall not be used for advertising purposes in any way, under a penalty of fifty dollars (\$50) a day for each offence, to be recovered by the City.

9. The Company, or its agents, employees, lessees or assigns, shall not throw, deposit or drop any noxious or offensive objects, substances or things from any portion of the railroad to be constructed on the proposed relocation or change of route upon public or private property, under a penalty of twenty-five dollars (\$25) for each offence, to be recovered by the City.

10. Where the railroad on the proposed relocation or change of route of the Company crosses under Union turnpike, the Company shall, at its own expense, regulate and grade such turnpike for the full width of the same as existing at the time when such work of regulating and grading shall be done, but not, however, for a less width than forty-nine and five-tenths (49.5) feet, so as to bring the same to the established grade, for a distance of two hundred (200) feet on either side of the centre line of the railroad at said crossing.

11. All streets now open or in use, and streets hereafter opened across the proposed relocation or change of route of the Company, shall be carried over or under the same by the Company, and at the sole cost and expense of the said Company. The cost of all approaches to such crossings and all changes in grades from either the surface or established grade of any street now existing or shown on the map of the City, for a distance of two hundred (200) feet from the centre line of said crossings, and all damages to property injured thereby or by said railroad crossings, shall likewise be borne and paid by the Company. All damages to property along the line of the proposed relocation or change of route or contiguous thereto, caused by reason of the construction, maintenance or operation of the same, shall be borne and paid by the Company, its successors or assigns, and the City shall assume no liability for the damage so caused.

12. The Company shall assume all liability by reason of the construction and operation of its railroad on the proposed relocation or change of route, and the City shall assume no liability whatsoever to either persons or property by reason of such construction, maintenance or operation. As a condition of this contract the Company, its successors or assigns, hereby agrees to repay the City any and all damages that the City shall be compelled to pay by reason of any acts or defaults of the Company, its successors or assigns.

13. The Company shall keep its structure in good order, and where the same crosses public property it shall have such access thereto as may be reasonably necessary in order to maintain and repair the same.

14. The plans for all structures over, under, across or through any road, street, turnpike or avenue must first be submitted to and approved by the Board, and all such structures shall be constructed of steel, concrete or masonry, or a combination of these materials.

15. The Company shall, upon one year's notice from the Board, place all wires or cables used in conveying electricity over the right of way of the railroad to be constructed on the proposed relocation or change of route, in conduits.

16. The Company shall not carry wires or conduct power on the proposed relocation or change of route for any purpose except for the operation of its railroad.

17. The railroad and structures on the said proposed relocation or change of route shall be constructed, maintained and operated subject to the supervision of all the authorities of the City who have jurisdiction in such matters, under the Charter and Ordinances of the City.

18. The Company shall itself bear the entire cost of preserving the streets already opened across the proposed relocation or change of route of the Company from injury or interference with the traffic thereof or with the lawful public use thereof, by the construction or operation of its railroad on the said proposed relocation or change of route under or over the same.

19. The City shall have the right any time it so desires to open across the route of the proposed relocation or change of route of the Company, any new streets other than those now open or in use, and the Company hereby gives its consent to said opening.

20. Any portion of the proposed relocation or change of route of the said Company used for railroad purposes falling within the lines of a street which is now shown, or which may be hereafter shown on the map of the City, which it may be necessary for the City to subsequently acquire, shall be ceded to the City without cost to it, free of incumbrance and subject only to the Company's easement therein.

21. In case any of the streets as now shown on the map of the City and crossed by the said proposed relocation or change of route above or below grade, are altered or widened after the Company has completed its railroad, and such widening requires the alteration of the superstructure of the railroad or the bridge or viaduct over the same, the Company shall, except as herein otherwise provided, bear the cost of such alteration as may be necessary.

22. The cost of regulating, grading and paving all streets which shall be opened as herein provided across the right of way of the railroad to be construed on the proposed relocation or change of route of the Company shall be borne and paid by the Company.

23. The grant of this privilege shall not affect in any way the right of the City to grant any rights, privileges or franchises or to enter into contracts to or with any other person or corporation for constructing or operating and maintaining any railroad or railroads which shall not physically interfere with the structure, maintenance or operation of the Company's railroad on the proposed relocation or change of route, as herein authorized.

24. The City, the Board, and all duly authorized representatives of the City, shall have the right, at all reasonable times, as well during construction as afterwards, to inspect the railroad on the proposed relocation or change of route, and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or of abutting property owners or for any proper purpose. Nothing in this agreement shall be deemed to diminish or affect the sanitary or police jurisdiction which the public authorities shall lawfully have over the property in the City.

25. The Company will begin the construction of the work hereinbefore specified within sixty (60) days after the execution of this agreement, or if it be necessary to obtain the consent or approval of the Public Service Commission of the First District to the construction of the railroad on the altered route, within sixty (60) days after obtaining such consent or approval, and except as hereinafter provided will complete the same within eighteen (18) months after commencing construction,

subject to delays caused by strikes, labor difficulties or acts of God, in which case the Board may in its discretion extend the period for construction. During the construction of the railroad on the said proposed relocation or change of route, the Company shall provide reasonable facilities for travel on all such streets, roads, turnpikes or avenues as may be open across the right of way of the railroad on said proposed relocation or change of route.

Sec. 2. Within twenty (20) days after the execution of this agreement, and before commencing any construction under authority of the same, the Company shall, if necessary, apply for the permission or approval of the Public Service Commission of the First District, under section 53 of chapter 429 of the Laws of 1907, to the construction and operation of its railroad on said proposed relocation or change of route, and shall furnish the Board with a certified copy of said permission or approval, or if such permission or approval be not necessary, the Company shall notify the Board of such fact within said twenty (20) days.

Sec. 3. Upon the completion of the construction of the railroad on the proposed relocation or change of route, the Company shall immediately commence the operation of its trains over the same, and abandon that portion of its route between the points on its line of railroad connected by the said relocation or change of route. Upon the abandonment of said portion of the route of the Company's railroad, it shall commence the removal, and within a reasonable time thereafter shall complete the removal of the tracks, ties and all other appurtenances of the railroad from the said portion of its route, and where the same crosses any street, road, turnpike or avenue, it shall grade and pave the same to correspond to the then existing grade and pavement of said street, road, turnpike or avenue.

Sec. 4. The Company shall furnish to the City a bond with a guaranty or surety company duly authorized by law to act as surety, conditioned for the faithful performance of all the terms and conditions of this agreement in the sum of fifty thousand dollars (\$50,000) at the time of the signing of this agreement. In the event of failure by the Company to perform the provisions of this agreement, except where otherwise provided herein, it shall pay to the City the sum of twenty-five dollars (\$25) a day as a penalty for such failure, which amount, with legal interest thereon, may be collected from the surety if not paid by the Company within thirty (30) days after demand therefor duly made by the Comptroller of the City, upon being directed to do so by the Board. And in any suit or proceeding brought for the recovery of any penalty prescribed herein, failure by the Company to substantially conform to the provisions of this agreement shall be conclusive evidence of the incurrance of such penalty.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this agreement fixed and contained.

In witness whereof the Long Island Railroad Company has caused this instrument to be executed and acknowledged by its President and its corporate seal to be hereto affixed and the same to be attested by the signature of its secretary, the day and the year first above mentioned.

THE LONG ISLAND RAILROAD COMPANY,

By

President.

[SEAL]

Attest:

Secretary.

Mr. Alrick H. Man appeared in behalf of property owners in favor of the change of route.

General George W. Wingate, general solicitor for the Long Island Railroad Company, appeared upon behalf of the railroad company, and requested that the matter be referred to a Select Committee to determine the points of difference between the City and the company in the agreement as presented.

The President of the Board of Aldermen moved that the matter be referred to a Select Committee, consisting of the President of the Board of Aldermen, the Comptroller and the President of the Borough of Queens.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—12.

LONG ISLAND RAILROAD COMPANY.

A communication, dated January 22, 1908, was received from the Mayor's office, transmitting, for consideration by the Board, communication dated January 21, 1908, from Michael O'Sullivan, relative to fences constructed on First avenue, at Sixty-third and Sixty-fourth streets, Borough of Brooklyn, and the failure of the Long Island Railroad Company to comply with the provisions of its agreement requiring the construction of viaduct over First avenue.

Which was referred to the Chief Engineer.

LONG ISLAND RAILROAD COMPANY, FOR ITSELF AND AS LESSEE OF THE NEW YORK, BROOKLYN AND MANHATTAN BEACH RAILWAY COMPANY.

A communication, dated January 27, 1908, was received from the Mayor's office, transmitting for consideration by the Board, communications dated January 24, 1908, and January 25, 1908, respectively, from Marie L. Dexter and Henry Sabel, Jr., relative to the proposed establishment of a freight yard by the Long Island Railroad Company at Avenue I, East Sixteenth and East Seventeenth streets, Borough of Brooklyn.

Which was referred to the Chief Engineer.

The Chair submitted two communications from Elwin S. Piper and Albert A. Hovell, respectively, requesting that the hearing on the petition of Herbert S. Worthley, protesting against the establishment of the aforesaid freight yard, which hearing was, by resolution adopted January 10, 1908, fixed for January 24, 1908, and on that date closed, as no one appeared in opposition to or in favor of the construction of the aforesaid freight yard, be reopened.

The following was offered:

Resolved, That this Board hereby sets March 6, 1908, at 10.30 a. m., in the old Council Chamber, Room 16, City Hall, Borough of Manhattan, as the time and place for a public hearing on the petition of Herbert S. Worthley, President of the Flatbush Board of Trade, protesting against the construction of a freight yard by the Long Island Railroad Company at Avenue I and East Sixteenth and East Seventeenth streets, Borough of Brooklyn; and be it further

Resolved, That the Secretary of this Board be and he hereby is directed to publish these resolutions in the CITY RECORD for ten days prior to such date, and notify the Flatbush Board of Trade and the Long Island Railroad Company of the adoption of same.

Which was adopted by the following vote:

Affirmative—The Mayor, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—13.

JULIUS KAYSER & CO.

A communication, dated January 23, 1908, was received from Julius Kayser & Co., stating that the construction of the coal conveyor tunnel under Taaffe place, Borough of Brooklyn, which was authorized by resolution adopted by the Board October 18, 1907, and approved by the Mayor October 22, 1907, was completed December 14, 1907.

Which was ordered filed.

GEORGE J. HOSTER AND NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY.

A communication, dated January 28, 1908, was received from the Mayor's office, returning, duly approved by the Mayor, resolutions as follows:

(a) Revoking consent granted to George J. Hoster to construct, maintain and operate a spur railroad track connecting the premises of George J. Hoster on the northeast corner of Thirty-fourth street and Eleventh avenue, Borough of Manhattan, with the existing tracks of the New York Central and Hudson River Railroad Company at this point.

(b) Granting to the New York Central and Hudson River Railroad Company an extension of time up to and including January 15, 1908, in which to complete the construction of the subway from Kingsbridge road and other streets, in the Borough of The Bronx, which franchise was granted by contract dated June 1, 1907.

Which was ordered filed.

RAPID TRANSIT RAILWAYS.

Modification of Lexington Avenue Route; Modification of Gerard Avenue Route; Canal Street Route.

The Secretary presented the following communication from the Public Service Commission for the First District, transmitting resolutions adopted by that body February 4, 1908, providing for certain modifications in the Lexington avenue route and the Gerard avenue route, and the establishment of an additional rapid transit railway known as the Canal street route, and requesting the approval and consent of this Board to the construction of such additional rapid transit railways in accordance with the plans and conclusions as set forth in said resolution:

To the Board of Estimate and Apportionment of The City of New York:

The Public Service Commission for the First District, as organized, pursuant to the provisions of chapter 429 of the Laws of 1907, has, since its induction into office, conducted a careful and extended investigation of the traffic conditions and necessities of the people of The City of New York. The intolerable and indecent congestion, and the resultant danger to life and health, is so self-evident that prompt and effective measures for its relief are imperatively necessary. The Commission, under the powers of regulation and supervision of the present railroads, given it by chapter 429 of the Laws of 1907, has issued orders for large additions to and improvements in the present accommodations, but without the construction of additional railroads to meet the rapidly increasing population of the City it is the opinion of the Commission that no permanent relief can be afforded. The population of the City in 1905 was four million and fourteen thousand (4,014,000) people, and the traveling population one billion two hundred and thirty-one million (1,231,000,000) people. It is estimated that the population of the City at the present rate is doubling every thirty to thirty-two years, and that the traveling population is doubling every twelve years. It is manifest that the present accommodations cannot keep pace with this increase, and when the enormous population that provision must be made for within the next one or two decades is considered the stupendous transportation problem before the City is apparent.

The Commission has carefully examined the rapid transit routes adopted by the Board of Rapid Transit Railroad Commissioners for The City of New York, with a view to selecting for construction the ones that will give the maximum relief at the present time. The present subway gives substantial relief to the west side of the Borough of Manhattan, north of Forty-second street, but affords little or no relief to the east side of the Borough north of that point, and its route in The Bronx is open to the objection that a great proportion of its passengers are obliged to travel over a very circuitous route in order to reach the downtown business district.

In the opinion of the Commission the first rapid transit system that should be constructed in Manhattan and The Bronx is one that will accommodate the large population on the east side of the Borough of Manhattan, and at the same time will furnish substantial additional facilities to the Borough of The Bronx. The Lexington avenue route, as advertised for bids by the former Rapid Transit Board, was admirable in many respects, but had at least two very important defects: First, and most important, in that it did not extend far enough into The Bronx to afford any large measure of relief to that portion of the City; and, secondly, that south of Forty-third street, in Manhattan, the line contained such sharp curves as would seriously lessen the speed of trains, increase the cost of operation and diminish the capacity of the road. With some modifications, however, the Lexington avenue route, as adopted by the Rapid Transit Board, should form the nucleus of the proposed new system. The most pressing necessity for new subways in Manhattan is on the east side, and although there are strong reasons for the selection of the other east side routes, the Commission, after a careful consideration of the subject, and after having had the benefit of a public hearing on the question, has concluded that the Lexington avenue route would best meet the present needs, although in the near future lines must also be constructed upon other longitudinal avenues.

The system which the Commission proposes to construct as soon as the means are at hand begins at the Battery, in Manhattan, and runs north along Church street to Vesey street, through Vesey street to Broadway, northerly along Broadway, with important cross town connections at Canal street, to about East Ninth street, where it leaves Broadway and continues through private property and across the several cross streets to Irving place; thence northerly along Irving place and through Gramercy Park to Lexington avenue, whence it continues northerly along Lexington avenue and under the Harlem River to the Borough of The Bronx, where it branches into two lines, one line connecting with the Gerard avenue and Jerome avenue routes and running as far north as Woodlawn Cemetery, and the other line running generally northeasterly and along the Southern boulevard and Westchester avenue route to Pelham Bay Park.

The routes upon which this system is based were laid out by the Rapid Transit Board, and only certain changes, which are embodied in the resolutions amending such routes transmitted herewith are necessary to provide for proper connections and to eliminate sharp curves. These modifications are necessary in order to utilize this system to its utmost capacity, and may be summed up shortly as follows:

(1) Changing the road north of One Hundred and Twenty-ninth street to a point in Park avenue, in The Bronx, from a two track structure to a four track structure.

(2) Providing for a branch in The Bronx beginning in Park avenue at about East One Hundred and Thirty-fifth street and extending up Mott avenue to East One Hundred and Fifty-first street, and through One Hundred and Fifty-first street to Gerard avenue, where a connection can be made with the proposed Gerard avenue subway, with a spur through East One Hundred and Thirty-eighth street to make a connection with the proposed Southern boulevard and Westchester avenue route.

(3) Changing the proposed Gerard avenue subway north of East One Hundred and Fifty-first street from a two track road to a three track road.

(4) Provision for a direct line through Gramercy Park, Irving place and private property to Broadway.

By changing the route north of East One Hundred and Twenty-ninth street into Park avenue from a two track road to a four track road, adequate provision is made to accommodate the large population now in The Bronx and leave room for meeting the necessities of future traffic. The same may be said of the change in the Gerard avenue route from a two track road to a three track road. Under present conditions a two track road will not allow of express service during the rush hours in one direction or the other, and the consequent congestion is bound to have its effect on the entire road. The change of the Park avenue section from a two track road to a four track road also allows provision for running the trains of the New York Central and Hudson River Railroad through to the downtown districts either from a connection at East One Hundred and Thirty-eighth street or from a connection with the Putnam division. By the construction of the branch from Park avenue through Mott avenue the connection with the Gerard avenue and Jerome avenue routes is straightened and opportunity given for more rapid and less expensive service, while the spur through One Hundred and Thirty-eighth street will give the Lexington avenue route its important connection with the Southern boulevard and Westchester avenue route. The branches and spurs laid out by the former Rapid Transit Board as part of the Lexington avenue route, and extending across the Harlem River through Third avenue

to Morris avenue, and along Park avenue to East One Hundred and Fifty-sixth street and through East One Hundred and Fifty-third street to the Putnam division of the New York Central and Hudson River Railroad, are retained as furnishing an important nucleus for future extensions of the line further north in The Bronx. It will be seen that this arrangement permits the utilization of the Lexington avenue subway to its utmost capacity and affords marked relief to two widely separated sections of The Bronx. If, at the time when contracts are prepared for these routes, there is any immediate likelihood of the construction of other important east or west side roads, provision may be considered for the joining of the one or more of The Bronx routes to other systems. In the Borough of Manhattan the addition of the section through Irving place straightens the line of the railroad and by the elimination of sharp curves will permit the operation of trains at high speed and lower the operating cost, while the Fifth avenue route may still be retained for future necessities as furnishing a valuable artery through the shopping district and as affording an outlet for the local service, leaving the direct route down Irving place open for express service.

To afford the maximum scope for this proposed system, the Commission has also adopted, and transmits herewith, resolutions adopting routes and general plan for a cross town line in the Borough of Manhattan, which runs east and west through Canal street, with a loop at the westerly end, and at the easterly end connects with the Manhattan Bridge route revised, heretofore adopted by the Board of Rapid Transit Railroad Commissioners, providing a route over the Manhattan Bridge to Brooklyn. The cross town traffic facilities in the lower portion of the Borough of Manhattan are old and inadequate, making it difficult for a large part of the population to reach the great steamship district on the west side of Manhattan, either from the east side of Manhattan or from Brooklyn. Provision is made for connections between this route and the Lexington avenue route at Broadway, thus affording an opportunity for through service from The Bronx or the east side of Manhattan to the shipping district on the North River, or to the east for through service over the Manhattan Bridge to Brooklyn, and, if deemed wise, continuing through the Fourth avenue subway to Fort Hamilton or Coney Island.

This combination of the Lexington avenue, Gerard avenue, Jerome avenue and Southern boulevard and Westchester avenue routes, as modified, with the new Canal street route, provides a comprehensive system of rapid transit that will afford the greatest present maximum relief to Manhattan and The Bronx, and by the Manhattan Bridge connection will give a convenient access into Manhattan to residents of Brooklyn, with a resultant relief of the congestion at the Brooklyn Bridge. The line also runs close enough at Fifty-ninth street to the Blackwells Island Bridge and at Forty-second street to the Steinway tunnel to give a more direct route into the business district of Manhattan to the residents of Queens. This system, therefore, embodies all the advantages of the Tri-Borough route, gives additional facilities to four out of five boroughs of the City, and in addition provides certain advantages which that route did not have, inasmuch as the Manhattan portion of the Tri-Borough route did not serve Broadway north of the Post Office.

Certified copies of resolutions modifying the routes and general plan of the Lexington avenue route and the Gerard avenue route and adopting routes and general plans for the Canal street route are herewith transmitted to your Honorable Body for approval as the authorities having control of the streets through which the proposed railways are to be constructed.

In witness whereof, this Commission has caused its seal to be hereto affixed and these presents signed by its Chairman and Secretary the 5th day of February, 1908.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

By W. R. WILLCOX, Chairman.

[SEAL]

TRAVIS H. WHITNEY, Secretary.

TERMS AND CONDITIONS OF SALE.

All expenses of removing, storing, advertising and selling such trucks, wagons, carts, etc., will be deducted from the purchase price paid, and any remainder of such purchase price over and above said expenses will be held by the Commissioner of Docks, in trust, for the owner or owners thereof for a period of twelve months from the receipt of same; and if not claimed within said twelve months the Commissioner of Docks will pay such remainder over to the Commissioners of the Sinking Fund.

The purchase price must be paid immediately after the sale. In case of the failure to pay the purchase price the property for which said purchase price is not paid will be immediately resold, and if the price paid on such resale is less the difference will be charged against the person or persons failing so to pay. Upon the payment of the purchase price a receipt will be given to the purchaser, and upon the production of such receipt at the Pound the trucks, wagons, carts, etc., therein described will be delivered to the purchaser.

All property purchased at the sale must be removed from the Pound within five days after the sale or within any extension of time beyond such period which the Commissioner of Docks may grant. In case of failure to remove the same within the time specified, or in case of failure to remove the same within any extended time which may be granted by the Commissioner of Docks, the purchaser will be deemed to have abandoned the property sold to him, and the purchase price paid by him will be forfeited and the property will be resold.

DEPARTMENT OF FINANCE.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons owners of property affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF BROOKLYN:

THIRTY-FIRST AND THIRTY-SECOND WARD, SECTIONS 20 AND 22, AND THIRTY-SECOND WARD, SECTION 23. NOSTRAND AVENUE—REGULATING AND GRADING. Between Flatbush avenue and Avenue U. Area of assessment: Both sides of Nostrand avenue, from Flatbush avenue to Avenue U, and to the extent of half the block at the intersecting streets and avenues.

—that the same was confirmed by the Board of Assessors February 4, 1908, and entered February 4, 1908, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of 7 per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before April 4, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of 7 per centum per annum from the date when such assessment became a lien to the date of payment.

HERMAN A. METZ,
Comptroller.
City of New York, February 4, 1908.

of East One Hundred and Sixty-fourth street; thence southeastwardly by said prolongation and parallel line to its intersection with a line parallel with and 100 feet southeastwardly from the southeasterly side of Jerome avenue; thence by said line parallel with Jerome avenue continuing into a line parallel with and 100 feet at right angles from the southeasterly and southerly side of the eastern approach to the Central Bridge to its intersection with the northeasterly side of Cromwells Creek; thence northwardly and westwardly by said northeasterly and northerly side of Cromwells Creek to its intersection with the easterly bulkhead line of Harlem River; thence northwardly by said easterly bulkhead line to the point or place of beginning.

TWENTY-THIRD WARD, SECTION 10.

COSTER STREET—OPENING. from Hunts Point road to Edgewater road. Confirmed December 30, 1907; entered February 3, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly prolongation of a line parallel to and 100 feet westerly from the westerly line of Hunts Point road with a line parallel to and 100 feet northerly from the northerly line of Mohawk (now Garrison) avenue; running thence easterly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet easterly from the easterly line of Hunts Point road; thence southerly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet northerly from the northerly line of Lafayette avenue; thence easterly along said last mentioned parallel line to its intersection with the middle line of the blocks between Faile street and Bryant street; thence southerly along said middle line of the blocks and its southerly prolongation to its intersection with the bulkhead line of the East River; thence westerly along said bulkhead line to its intersection with the southerly prolongation of the middle line of the blocks between Barretto street and Manida street; thence northerly along said prolongation and middle line to its intersection with a line parallel to and 100 feet northerly from the northerly line of Lafayette avenue; thence easterly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet westerly from the westerly line of Hunts Point road; thence northerly along said last mentioned parallel line to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 3, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for bonds or stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the bonds or stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit. All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the bonds or stock awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted, of the amounts due for the bonds or stock awarded to them respectively, including accrued interest from the date of sale, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of bonds or stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of bonds or stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the bonds or stock offered for sale.

7. Bonds or stock issued in Registered form can be converted at any time into Coupon Bonds or Stock in denominations of \$1,000.

8. The proposals, together with the security deposits, should be enclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York. (No special form of proposal is required, therefore no blanks are furnished.)

FIRST JUDICIAL DISTRICT.

NOTICE IS HEREBY GIVEN THAT IT IS the intention of the Corporation Counsel of The City of New York, pursuant to the provisions of chapter 4 of the Laws of 1891 and the several statutes amendatory thereof and supplemental thereto, to make application to the Supreme Court of the State of New York, at a Special Term, Part III, thereof, to be held in and for the County of New York, at the County Court House, in the Borough of Manhattan, City of New York, on the 24th day of March, 1908, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of three disinterested freeholders, residents of The City of New York, as Commissioners of Appraisal to ascertain and appraise the compensation to be made to the owners and all persons interested in the real property, rights, franchises, easements or privileges sought to be taken or acquired by The City of New York, or which may be affected or damaged by this proceeding. The City of New York by this proceeding seeks to acquire an estate in fee simple in certain real property hereinafter described and a permanent and perpetual underground right, easement and right of way, and also a temporary right or easement in certain other real property hereinafter described, for the construction, maintenance and operation in perpetuity of a rapid transit railroad, in accordance with the routes adopted by the Board of Rapid Transit Railroad Commissioners by resolution on the 25th day of May, 1905, and approved by the Board of Estimate and Apportionment of The City of New York on the 14th day of July, 1905, and approved by the Mayor of The City of New York on the 28th day of July, 1905, and consented to by an order of the Appellate Division of the Supreme Court, First Judicial Department, made and entered on or about the 12th day of March, 1907, which railroad is further described in the contract for the construction thereof made by The City of New York, acting for the said Board of Rapid Transit Railroad Commissioners, and the Degnon Contracting Company, dated May 9, 1907, the subway or subways for said railroad to be constructed substantially as shown in said contract and upon the maps or plans adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907.

The premises, in which an estate in fee simple is to be acquired in this proceeding, are briefly described as certain lots or parcels of land designated upon the said maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, as Lots Nos. 3, 4, 5, 7, 8 and 9 in Block 198, which lots taken together form a parcel of land situated at the southeast corner of Centre and Walker streets, with a frontage on the easterly side of Centre street, extending about 127 feet 11 inches southerly from the southerly side of Walker street, and with a frontage on the southerly side of Walker street extending about 141 feet 2 inches easterly from the easterly side of Centre street, said Lot No. 3 being also designated upon said maps as No. 142 Centre street; said Lot No. 4 being also designated upon said maps as No. 144 Centre street; said Lot No. 5 being also designated upon said maps as No. 146 Centre street and Nos. 111, 113 and 115 Walker street; said Lot No. 7 being also designated upon said maps as No. 117 Walker street; said Lot No. 8 being also designated upon said maps as No. 119 Walker street, and said Lot No. 9 being also designated upon said maps as No. 121 Walker street, all in the Borough of Manhattan, in The City of New York.

The premises to be subject to such permanent and perpetual underground right, easement and right of way, and also to such temporary right or easement, are briefly described as a portion of certain lots or parcels of land designated upon the said maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, as Lots Nos. 10 and 11 in Block 198, also designated as Nos. 123 and 125 Walker street, which lots, taken together, form a parcel of land situated at the southwestern corner of Baxter and Walker streets, with a frontage on the southerly side of Walker street, extending about 50 feet westerly from the westerly side of Baxter street, and with a frontage on the westerly side of Baxter street, extending about 100 feet southerly from the southerly side of Walker street, in the Borough of Manhattan, in The City of New York.

A fuller statement setting forth the location and boundaries of the several lots or parcels of land and rights, franchises, easements or privileges sought to be taken or affected, and a brief statement as to each of said lots or parcels of the title, interest, rights, easements, terms or privileges therein or appurtenant thereto, sought to be acquired by The City of New York, is annexed to each of three similar maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, which said maps were filed, one in the office of the President of the Borough of Manhattan, City of New York, on the 18th day of December, 1907, and one in the office of the Public Service Commission for the First District of the State of New York, at No. 154 Nassau street, Borough of Manhattan, City of New York, on the 17th day of December, 1907, and one in the office of the Register of the County of New York on the 26th day of December, 1907.

Dated New York, February 10, 1908.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SEVENTY-SEVENTH STREET (although not yet named by proper authority), from Amsterdam avenue to St. Nicholas avenue (as laid out on the map by resolution adopted March 31, 1905), and from Broadway to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 2d day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 4th day of March, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 4th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet easterly from the easterly line of Amsterdam avenue with the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-sixth street; running thence westerly along said prolongation and line parallel to West One Hundred and Seventy-sixth street to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Buena Vista avenue; thence southerly along said line parallel to Buena Vista avenue to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-fifth street; thence westerly along said line parallel to West One Hundred and Seventy-fifth street and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Riverside drive; thence northerly along said line parallel to Riverside drive to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Seventy-eighth street; thence easterly along said westerly prolongation and line parallel to West One Hundred and Seventy-eighth street and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Amsterdam avenue; thence southerly along said line parallel to Amsterdam avenue to the point or place of beginning; as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 23d day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET, between Amsterdam avenue and St. Nicholas avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

NOTICE IS HEREBY GIVEN THAT, BY an order of the Supreme Court, bearing date the 29th day of November, 1907, and duly entered in the office of the Clerk of the County of New York at his office in the Borough of Manhattan, in The City of New York, on the 16th day of December, 1907, a copy of which order was duly filed in the office of the Register of the County of New York and indexed in the Index of Conveyances, Block No. 2181, we, John C. Fitzgerald, Philip F. Donohue and Eugene Fay, were appointed Commissioners of Estimate for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said John C. Fitzgerald was appointed Commissioner of Assessment, for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said street or avenue so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4 of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said street or avenue and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 20th day of February, 1908, at 12.30 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, February 6, 1908.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET (although not yet named by proper authority), from Fort Washington avenue to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 24th day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of February, 1908, at 2 o'clock p. m.

Second—That the abstract of our said estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 3d day of March, 1908.

Third—That, pursuant to the notice heretofore given, when we filed our estimate of damage, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line parallel to and distant 100 feet easterly from the easterly line of Edgcombe road and the easterly prolongation of a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-third street; running thence westerly along said easterly prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Fort Washington avenue; thence southerly along said parallel line to Fort Washington avenue to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of

West One Hundred and Sixty-second street; thence westerly along said parallel line and its westerly prolongation to its intersection with a line midway between the easterly property line of the New York Central and Hudson River Railroad and Riverside drive; thence northerly along said line midway between the easterly property line of the railroad and Riverside drive to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fourth street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Fort Washington avenue; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly of the northerly line of West One Hundred and Sixty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Edgcombe road; thence southerly along said parallel line to Edgcombe road to the point or place of beginning.

Fourth—That, provided there be no objections filed to our said abstract, our final last partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 28th day of March, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our said abstract of estimate of assessment for benefit, the notice of motion to confirm our final last partial and separate report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of STAR AVENUE (although not yet named by proper authority), from Borden avenue to Howard street, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected

thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 21st day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 24th day of February, 1908, at 10 o'clock a. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 3d day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southerly line of Borden avenue with a line parallel to and distant one hundred (100) feet easterly from the easterly line of Star avenue; running thence southerly along said parallel line to Star avenue to its intersection with the southerly line of Howard street; thence westerly along said southerly line of Howard street to its intersection with a line parallel to and distant one hundred (100) feet westerly from the westerly line of Star avenue; thence northerly along said last mentioned parallel line to Star avenue to its intersection with the southerly line of Borden avenue; thence easterly along said southerly line of Borden avenue to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 7th day of May, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
