Sec. 4. A Chief Engineer and three Assistant Engineers of said Department shall be elected by the members of said Department on the second Monday of May, 1901, and every two years thereafter, who shall hold their offices for two years from the first day of June next following and until their successors are duly elected and qualified. No person shall be eligible to the office of Engineer or Assistant Engineer unless he shall have been a active fireman at least three years or more immediately preceding said election, a member in good standing of some one of the companies belonging to said Department, and a resident of the Village of Edgewater.

Sec. 6. The Chief Engineer and Assistant Engineers shall be elected on the date above named, to wit, on the second Monday of May, in the year 1901, and on that day every two years thereafter, at the respective meeting room of each company, the polls for each company to be open from eight o'clock P. M. to ten o'clock P. M. of that day. The Foreman and Secretary of each company shall act as Inspectors of Election, and shall keep an accurate list of all voters who shall vote at said election in their respective companies.

No person shall be entitled to vote at such an election unless he be an active member in good standing of the company when he offers his vote, and has been such a member for at least forty days prior to such election and is of the age of twenty-one or over. It shall be the duty of the Foreman and Secretary of each company to file in the branch office of the City Clerk in the Borough of Richmond, at least one week before such election, a correct list of the members of such company who will be entitled to vote at such election, which shall be certified and sworn to by said Foreman and Secretary as correct, the board for canvassing hereinafter provided for may in its discretion refuse to receive or canvass the votes of such company.

Each member shall personally appear at the polls in his own company and vote; and it shall not be lawful in any case at such election to vote by proxy, nor shall any such vote by proxy be received or counted.

The Inspectors immediately after the close shall canvass the votes cast and make a proper return thereof, showing the number of votes cast and for whom; and shall verify the same before a notary public of said county, and attach it to and file it with the poll list, which shall also be verified with the Deputy City Clerk, in the Borough of Richmond, at or before 4 P. But nothing in this ordinance contained shall be construed to prevent said board for canvassing upon such canvass from examining into the legality of the votes cast at such election and into the conduct thereof, nor from declaring the result in conformity with such election, nor from ordering a new election in case the board cannot determine satisfactorily such result.

Sec. 2. This ordinance shall take effect immediately upon its passage and adoption.

Sec. 3. A copy of this ordinance shall be transmitted to each company in the Fire Department of the Village of Edgewater.

DEPARTMENT OF FINANCE, March 21, 1901.

Hon. BIRD S. COLER, Comptroller :

SIR—The West Tenth Street Connecting Railway Company, in its petition to the Municipal Assembly for a franchise, states :

First—That your petitioner is a street surface railroad corporation, organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State on March 5, 1900, and in the office of the Clerk of the City and County of New York on March 6, 1900, for the purpose of constructing, maintaining and operating a street surface railroad upon the route hereinafter set forth.

Second—That your petitioner desires to obtain from the Municipal Assembly of The City of New York its consent to and a grant of the right, privilege and franchise for constructing and operating a street surface railroad, with single track, upon the following streets, avenues and highways, viz. : Commencing at the intersection of Sixth avenue and West Tenth street, in The

City of New York, running southwesterly with single track through, upon and along West Tenth street to the intersection of said West Tenth street with Greenwich avenue, all in the Borough of Manhattan, City of New York.

Third—That said railroad is to be constructed with single track upon and along said street, together with such connections, switches and turnouts and cross-overs as may be necessary for the convenient working of the road and for the accommodation of cars that may be run over the same.

Fourth—That the said corporation expects to operate said railroad by an underground current of electricity, substantially similar to the system now in use on the railroads in Second, Sixth, Eighth and Madison avenues, in this city, or by other motive power, except locomotive steam power, which may be approved by the State Board of Railroad Commissioners and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Wherefore, Your petitioner prays that notice of the time and place when and where the application of said company will be first considered be given pursuant to the provisions of section 92 of the Railroad Law, and that the consent or grant be given in the form of an ordinance, made subject to the ordinances and provisions of the Railroad Law, and upon terms and compensation provided for in the Greater New York Charter, applicable thereto.

Dated NEW YORK March 9, 1900.

WEST TENTH STREET CONNECTING RAILWAY COMPANY.

(Sd.) By CLIFFORD S. BEATTIE, President.

Pursuant to law, a public hearing was held on April 19, 1900, and the Committee on Railroads of the Council submitted a report in the form of an ordinance, granting the petition or franchise upon specific terms and conditions, as fully set forth therein.

In accordance with section 74 of the Greater New York Charter, the proposed ordinance, having had its first reading, is now submitted to the Board of Estimate and Apportionment, "who shall make inquiry as to the money value of the franchise or privilege proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and no grant thereof by the Municipal Assembly shall be made except on terms approved by vote or resolution of the Board of Estimate and Apportionment."

Subdivision 1 of section 2 of the proposed ordinance provides that the franchise shall extend for a period of twenty-five (25) years, with the privilege of renewal ; and for a further period of twenty-five (25) years, upon a revaluation.

Subdivision 4 of section 2 provides for the compensation to be paid by the company, for the privilege or franchise to be granted, in the following words :

"Fourth—The said West Tenth Street Connecting Railway Company shall, for and during the first five years after the commencement of the operation of any portion of its railroad, annually, on November 1, pay into the Treasury of the City, to the credit of the Sinking Fund thereof, three per cent. of its gross receipts for and during the year ending September 30 next preceding ; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the same fund, of five per cent. of its gross receipts, as required by section 95 of the Railroad Law."

"That but one fare shall be exacted for passage over the railroad constructed under this grant and over the lines of any railroad system or systems operated in connection therewith, and that the gross receipts from joint business shall be divided in the proportion that the length of said railroad operated hereunder shall bear to the entire length of the railroad system or systems which shall be operated in connection therewith and of the railroad to be constructed hereunder."

In order to show, approximately, the amount which the City would receive under the terms as proposed, I have taken the last Railroad Report for the year 1899, in which the following figures appear :

| | LENGTH OF ROAD IN MILES. | LENGTH OF ROAD IN FEET. | CASH FARES. |
|---|--------------------------|-------------------------|-----------------|
| Metropolitan Street Railway Company..... | 209.24 | 1,104,840 | \$12,300,407 09 |
| Central Crosstown Railroad Company..... | 14.004 | 73,941 | 603,308 12 |
| Totals..... | | 1,178,781 | \$12,903,715 21 |
| West Tenth Street Connecting Railway Company..... | | 380 | |
| Total length..... | | 1,179,161 | |

Upon the above figures, the proportionate amount of the gross receipts upon which the West Tenth Street Connecting Railway Company would pay percentage would be \$4,158.59 ; 3 per cent. of the above for the first five years would be \$124.75, and 5 per cent. of the same for the remaining term of the franchise would amount to \$207.92 per annum.

The returns of the Metropolitan Street Railway Company have shown for the past five years material increases in gross earnings per mile, and it is to be presumed that, within limits, they will continue to do so ; so that the figures, as given, are subject to much increase in earnings as may be made by the road.

It will thus be seen that a franchise, based on such terms, will not produce large revenue for the City, and it is necessary to make a study of the effect, which the granting of this franchise will have on the connecting roads in order to determine what compensation The City should receive.

The franchise proposes to give this railway the right to lay a single track in West Tenth street, connecting the Sixth avenue road in Sixth avenue, and with the West Tenth Street and Christopher Street Railroad in Greenwich avenue, and to operate the same by underground current of electricity, or any other motive power, except locomotive steam power, which may be approved by the State Board of Railroad Commissioners.

A change of motive power of the Central Crosstown line, operating through West Tenth street and Christopher street to Christopher Street Ferry, would then permit the operation of other cars on the Sixth avenue line to the said Christopher Street Ferry, which, it would appear to me, would be the object to be attained by virtue of the franchise.

The Metropolitan Street Railway Company would then be enabled, through its leased and operated lines, to run other cars on the Sixth avenue branch to Christopher Street Ferry, and it would thus divide, with the Crosstown Railroad, the traffic obtained at the ferry, and over the line at the said Crosstown Railroad to Greenwich avenue.

The Sixth Avenue Railroad, pursuant to its charter, now pays The City of New York a car license of \$50 per car per annum, and, no doubt, should this change be effected, operate a large number of its cars over the tracks of the Central Crosstown Railroad, which cars now have a terminus at West Third street and Sixth avenue, so that the number of cars, in addition to those now run to equip this branch, will not be appreciable in number, and hence the revenue derived by the City will be materially increased.

On the other hand, the Central Crosstown Railroad Company, pursuant to its charter, pays The City of New York annually 3 per cent. of the gross receipts of the road, which sum amounted in the year 1900 to \$14,751.15.

This revenue will be seriously impaired by the operation of through cars on the Sixth avenue road to Christopher Street Ferry, and the compensation as fixed in the ordinance for the franchise proposed to be given to the West Tenth Street Connecting Railway Company will not in any manner reimburse the City for such loss.

The car license fee of \$50 per car was fixed by ordinance in 1859, and may have been adequate for a two-horse car with the traffic then accruing to the companies ; but when the increased capacity of cars, as run to-day, over and above the two-horse car, the diminished cost of operation by electricity, and the length of the road which can be covered in 24 hours by one car, the car license fee certainly does not return to The City of New York a revenue commensurate with the franchise privilege bestowed, whereas, with the percentage system, as the revenues of the road increases the compensation increases more nearly proportionately.

As I have shown, the Sixth Avenue Railway, under a car license fee, will be operating over and dividing receipts with the Central Crosstown Railroad, who pay a percentage upon gross receipts ; and presupposing that the proposed franchise will be ultimately controlled by the Metropolitan Street Railway Company, I can see no reason why in the future it may not be desirable to run other lines of cars over the same route.

In order, then, that The City of New York shall not be the loser by granting this franchise—for it is my opinion that the revenue derived from all franchises given by the people should show annually an increase, for, as a rule, they become annually more profitable—I would recommend that after the second paragraph in subdivision 4 of section 2 of the ordinance a clause be inserted as follows :

"But the amounts so to be paid to The City of New York shall not be less than \$150 annually for the first five years, and not less than \$300 thereafter for the full term of twenty years."

—and secondly, it should be made a condition of the franchise that wherever and whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines and account to the City for them, the same as if they had been collected by the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose routes they operate.

Respectfully,
(Signed) EUG. MCLEAN, Engineer.

DEPARTMENT OF FINANCE, April 6, 1901.

To the Board of Estimate and Apportionment :

GENTLEMEN—At a meeting of the Board of Estimate and Apportionment held December 31, 1900, the undersigned was appointed a committee to make inquiry as to the money value of the franchise proposed to be granted to the West Tenth Street Connecting Railway Company, and the adequacy of the compensation proposed to be paid therefor as set forth in a certain proposed ordinance granting to the West Tenth Street Connecting Railway Company a franchise or privilege for constructing, maintaining and operating a street surface railroad in, through, upon and along West Tenth street, from the intersection of Sixth avenue and West Tenth street to the intersection of said West Tenth street with Greenwich avenue in the Borough of Manhattan, which proposed ordinance was referred to the Board of Estimate and Apportionment by the Municipal Assembly in accordance with the terms of the Greater New York Charter.

I submit herewith for the consideration of the Board a report which has been made to me on this subject by Mr. Eugene E. McLean, Engineer of the Department of Finance, and I recommend that the proposed terms embodied in the ordinance of the Municipal Assembly be modified so as to provide that the percentages of gross receipts therein referred to shall not be less than \$150 annually for the first five years, and not less than \$300 annually for the remaining twenty years of the life of the franchise.

I also recommend that the ordinance be modified so as to provide that wherever and whenever this connecting railway shall make it possible for cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines, and account to the City for them the same as if they had been collected by the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose route they operate.

Respectfully submitted,
(Signed) BIRD S. COLER, Comptroller.

Which was referred to the Committee on Railroads.

The Committee on Law Department, to whom was referred the annexed communication from the State Engineer and Surveyor relative to a meeting of delegates from Boards of Supervisors to consider the "Good Roads Law" (page 197, Minutes, February 6, 1900), respectfully recommend that the said communication be placed on file.

STATE OF NEW YORK,
OFFICE OF THE STATE ENGINEER AND SURVEYOR,
ALBANY, February 2, 1900.

DEAR SIR—Some weeks ago I wrote to the Boards of Supervisors throughout the State, calling attention to the fact that through lack of time I had been unable to hold the meeting in each county in relation to the improvement of highways required by the so-called "Good Roads Law," and suggesting that delegates be appointed by each board to attend a public meeting in Albany during the month of February with the view of obtaining statistics from the different sections of the State and full discussion of the subject by the delegates. It is my hope that a meeting of this description, bringing together representatives from all of the counties, will be the means of affording much instructive and valuable information regarding material for the construction of roads, including gravel, different qualities of stone, etc., and as to the sentiment of the citizens of the State in relation to this matter ; it being desired to have delegates who will express the opinion of their localities whether favoring or opposed to State aid in road construction.

I have been notified that three or more delegates have been appointed from nearly every county, and have decided to hold the meeting in Albany on Wednesday and Thursday, February 7 and 8.

The delegates are requested to meet at the City Hall on Eagle street, in Albany, at 10.30 A. M., February 7, when the first meeting will be held. An afternoon session will be held at 2.30 P. M., of the same day. No morning session will be held on Thursday, the 8th, thus giving such of the delegates as desire an opportunity to visit the Capitol while the Legislature is in session ; but an afternoon session will be held at 2 P. M. of the 8th, followed in the evening by a lecture accompanied by stereopticon views illustrating good roads work in this and foreign countries. The lecture will be held at 8 P. M. at the State Normal School Hall, on Willett street. It is expected that Governor Roosevelt and other speakers will make brief addresses at the evening session.

Trusting that you will be able to attend this convention and that I will have the pleasure of meeting you at that time, I am,

Very truly yours,
EDWARD A. BOND, State Engineer and Surveyor.

This is an important matter in view of the fact that the Department of Sewers has let a contract for building receiving-basins along this street. Of course they should be built on the new line of the street.

Sec. 2. Hereafter all the interments in the city cemetery on Hart's Island shall be in trenches, to be numbered consecutively, commencing with number one; every such trench shall contain one hundred and fifty bodies, and no more, and each coffin shall be numbered by figures to be made of iron or other metal, or branded into the lid or cover of said coffin so as to be indelible, in the manner shown in the annexed diagram, viz.: Each trench shall be constructed running in a direction from east to west; shall be of a size sufficient to contain the said number of one hundred and fifty bodies, which shall be laid therein in the order following, to wit: No. 1 at the northeast corner; No. 2 adjoining, and so on in regular order until No. 25 is deposited, when a layer of earth shall be placed on the twenty-five coffins thus deposited; No. 26 shall then be placed at the southeast corner, directly in the rear and in a line with No. 1; No. 27 adjoining, and so on until No. 50 is interred, which will be directly in the rear and on a straight line with No. 25; then covered with a layer of earth similar to those numbered from 1 to 25, thus completing the first stratum of coffins in the trench. Alderman Schneider then moved that the foregoing report and ordinance be laid over and made a special order for the next meeting at 2 o'clock.
 The President pro tem. put the question whether the Board would agree with said motion. Which was decided in the affirmative.
 Alderman Goodman, in connection with the foregoing subject, offered the following resolution:

No. 2640.

Resolved, That the Commissioner of Bridges be and he is hereby respectfully requested to furnish this Board, on or before Tuesday of next week, the following information relating to the proposed Bridge across Newtown Creek, to wit:

What will be the difference in cost to the City between the high and the low level bridge?
 What are the reasons that prompt the Department of Bridges to favor and advocate the high instead of a low level bridge?
 What is the consensus of opinion in the Borough of Queens on the question?
 Is it true that the projected high level Bridge is urged by the Long Island Railroad Company, and that it is advocated because it will benefit said corporation?
 If it does benefit the Long Island Railroad, to what extent will it facilitate railroad travel, and benefit the people generally?
 Ought not the railroad contribute toward the construction of the bridge; and if so, can it be compelled to do so?
 What are the objections of those who are opposed to the high level bridge?
 Which of the two propositions is most apt to benefit the taxpayers and residents of the neighborhood of the bridge?
 Is the location of the proposed bridge the best and most economical that can be selected?
 Are there not adjacent streets which, if used, would result in material saving to the City in condemnation proceedings, etc.?
 Alderman Byrne moved that the resolution be referred to the Committee on Bridges and Tunnels, with instructions to forward the same to the Commissioner of Bridges.
 The President pro tem. put the question whether the Board would agree with said motion. Which was decided in the affirmative.

MOTIONS, ORDINANCES AND RESOLUTIONS AGAIN RESUMED.

LAW DEPARTMENT,
 OFFICE OF THE CORPORATION COUNSEL,
 NEW YORK, June 25, 1900.

To the Honorable the Municipal Assembly of The City of New York:

GENTLEMEN—Since January 1, 1898, the Board of Assessors of The City of New York have illegally levied assessments under an act entitled "An Act in relation to local improvements in the Town of Flatbush, and the acquisition of the rights of a plank road company in said town," being chapter 161 of the Laws of 1889, in that said assessments were levied in bulk, and not in installments, and that in laying the same the provisions of said act and its amendments and modifications were not complied with.

By the Greater New York Charter it is provided that all the powers and duties conferred or charged upon the Common Council of The City of Brooklyn shall be exercised by the Municipal Assembly of The City of New York except where otherwise provided by the Charter (sec. 46). Among the powers formerly authorized to be exercised by the Common Council of The City of Brooklyn were the following:

"Sec. 15. Whenever the attorney and counsel of the city shall be of opinion that any proceeding or assessments for local improvements are invalid and void by reason of irregularity in the conducting or laying the same, he shall forthwith report such opinion, and the reasons therefor, to the common council, and the common council shall enter an order in their minutes of proceedings declaring such assessments invalid and void, and the said assessments shall thereupon be held and deemed to be invalid and void, and the said common council are hereby authorized and empowered to cause the amount of such assessments to be reassessed and to have new proceedings taken and reassessments made, in the same manner as the original proceedings and assessments should have been made, and such new proceedings and reassessment shall have the same effect as the original proceedings and assessments would have had had they been properly taken and made."

(Tit. X., chap. 583, Laws 1888.)

"Sec. 18. In any case where an assessment for local improvement has been heretofore levied and confirmed, and the whole or a part of which remains unpaid, the common council shall have power (if they shall be satisfied that injustice has heretofore been done to the parties assessed), to direct a new assessment to be levied for the amount remaining unpaid, with the interest thereon. They may enlarge and extend the district heretofore assessed as they may deem just and equitable, and the board of assessors, in levying and assessing said new assessments, shall credit to all parties who may have paid the previous assessment the amount so paid by them respectively, and their property shall be liable only for the balance, if any, of the new assessment, over and above the amount so paid by them respectively, and all proceedings for levying, confirming and collecting said new assessment shall be as is now provided by law."

(Tit. XIX., chap. 583, Laws 1888.)

By chapter 356 of the Laws of 1894 all the territory comprised within the Town of Flatbush, in the County of Kings, was annexed to the City of Brooklyn, and was thereby made subject to and governed by the same laws, ordinances, rules and regulations of said city as constituted at the time of the taking effect of that act.

I am of opinion that the assessments under chapter 161 of the Laws of 1889, enumerated in the schedule marked "A," annexed to the inclosed proposed ordinance, laid by the Board of Assessors of The City of New York since January 1, 1898, and which were laid in full, and not in installments, are invalid, illegal and void, in that the Assessors failed to comply with the requirements of the act itself; and I advise you that it is your duty in the premises to declare such assessments invalid and void and to direct that the Comptroller cancel the same of record.

I herewith inclose an ordinance for adoption to accomplish that purpose, which I advise you it is your duty to ordain.

Respectfully yours,

JOHN WHALEN, Corporation Counsel.

Which was laid over.

Report of Second Deputy Commissioner York, recommending that honorable mention and medal be given each to officers Edwards, Maher and Instone. Referred back to the Second Deputy Commissioner with statement that the Police Commissioner requests an explanation as to the difference between the reports of the two Captains relative to the occurrence, also as to where or how these three men risked their lives. They went into a building not on fire and crossed over to the roof of the building which was on fire, laid on their bellies and reached over and rescued the people mentioned; that is one statement. The other is that Officer Edwards was held by the legs by two other officers and so made the rescues. There is a discrepancy somewhere, either Edwards was held by the legs or he was not. The Commissioner sees no reason why the three men should get medals for heroic conduct unless further explanation is made.

On reading and filing report of Inspector Brooks, Ninth District.

Ordered, That honorable mention be and is hereby made in the records of the Department of the meritorious conduct of Patrolman Michael R. Kelly, Eighty-first Precinct, for bravery in rescuing several lives at the fire and explosion of Tarrant & Co.'s drug house, at Greenwich and Warren streets, October 20, 1900, and that the medal of honor of the Department be awarded to him.

To the Holders of Six Per Cent. Gold Consolidated Stock of the County of New York, Payable July 1, 1901:

THE FOLLOWING IS AN EXTRACT FROM the proceedings of the Commissioners of the Sinking Fund at a meeting held Tuesday, February 19, 1901:

The Comptroller presented the following report and accompanying resolution relative to the redemption of six per cent. Gold Consolidated Stock of the County of New York, maturing July 1, 1901:

CITY OF NEW YORK, DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE, February 15, 1901.

To the Commissioners of the Sinking Fund:

GENTLEMEN—Six per cent. Gold Consolidated Stock, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), which was issued by the County of New York prior to its consolidation with the former City of New York, matures on July 1, 1901.

The said stock is all held by the public and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897.

Under an amendment to the Constitution of the State of New York adopted at the general election held in the year 1899, the said stock is exempted, for the debt-restrictive purposes of section 10 of article VIII. of the Constitution, from classification as a City debt.

In view of the present heavy demands upon the City's debt-incurring capacity, especially for rapid transit and bridge construction, it is desirable to retain the advantage gained by such exemption. This advantage would be practically lost as to the amount of said stock if it were to be redeemed out of the Sinking Fund, or if it were refunded by the issue of Corporate Stock of The City of New York.

I therefore propose to extend the maturity of a considerable proportion, if not the whole of such stock, for periods not exceeding twenty years, under the authority conferred upon me by chapter 630 of the Laws of 1900, upon the best obtainable terms for the City.

It is not unlikely, however, that it may prove impossible to extend certain portions of said stock upon advantageous terms, and I therefore recommend that a resolution be adopted authorizing the Comptroller to redeem from the Sinking Fund such portions of said stock.

Respectfully,
(Signed) BIRD S. COLER,
Comptroller.

Whereas, Six per cent. Gold Consolidated Stock issued by the County of New York prior to its consolidation with the former City of New York, amounting to eight million eight hundred and eighty-five thousand five hundred dollars (\$8,885,500), matures July 1, 1901, and is payable from the Sinking Fund for the Redemption of the City Debt (No. 1), under the provisions of section 213 of chapter 378 of the Laws of 1897;

Whereas, the Comptroller proposes, under the authority of chapter 630 of the Laws of 1900, to extend for periods not exceeding twenty years the maturity of as much of said stock as he may be able to so extend upon terms advantageous to the City; therefore

Resolved, That the Comptroller be and is hereby authorized to pay out of the Sinking Fund for the Redemption of the City Debt (No. 1), such portion of the six per cent. Gold Consolidated Stock of the County of New York, payable July 1, 1901, as he may be unable to extend upon terms deemed by him to be advantageous to the City.

The report was accepted and the resolution unanimously adopted.

For the reasons set forth in the foregoing report to the Commissioners of the Sinking Fund, the Comptroller of The City of New York will avail himself of the provisions of chapter 630 of the Laws of 1900, which reads as follows:

CHAPTER 630.

AN ACT to authorize the extension of the funded indebtedness of the counties of New York, Kings, Queens and Richmond.

ACCEPTED BY THE CITY.

Became a law April 23, 1900, with the approval of the Governor. Passed, a majority being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. It shall be lawful for the comptroller of the city of New York, in his discretion, to provide for the extension of all or any part of the funded indebtedness of the counties of New York, Kings, Queens and Richmond, as the same may from time to time mature. Certificates of stock or bonds so extended shall bear interest at a rate not exceeding three and one-half per centum per annum, and shall be stamped across their face with the terms of such extension, which shall be for a period not exceeding twenty years.

Sec. 2. This act shall take effect immediately.

Proposals will be received by the Comptroller at his office, No. 280 Broadway, New York City, from the holders of six per cent Gold Consolidated Stock of the County of New York, payable July 1, 1901, for extending the maturity of all or any part of the respective amounts of such stock held by them to the following dates:

JULY 1, 1917,
JULY 1, 1918,
JULY 1, 1919,
JULY 1, 1920, and
JULY 1, 1921.

Stock so extended will be payable in gold and will bear interest from July 1, 1900, at the rate of three and one-tenth (3 1/10) per cent. per annum, payable, also in gold, semi-annually, on the first day of January and of July in each year. The Comptroller proposes to apportion the amount of stock thus extended so that, as nearly as practicable, one-fifth of the whole amount extended shall be redeemable at each of the five maturity dates above mentioned. Preference will, as far as possible, be given to the proposals received according to priority in the date of their receipt, the proposals first received being entitled to the privilege of the longest extension period, unless such proposal shall indicate a preference for the shorter terms. The stock which is to be extended in accordance with the terms of this circular must be delivered to the Comptroller upon demand, when the certificates will be stamped across their face with the terms of the extension, in accordance with the provisions of chapter 630 of the Laws of 1900, provided, however, that such stock now outstanding in coupon form when presented for extension will be extended in the form of registered stock. Thereafter transfers may be made of such stock on the books of the Corporation in accordance with the general provisions of law and the rules of the Department of Finance in regard thereto. The right to discount the offer contained in this circular at any time without further notice is expressly reserved.

Dated New York, March 15, 1901.

BIRD S. COLER, Comptroller.
