The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement

Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

FIRE RELAY-FREIGHT ELEVATORS - Sole Source - PIN#2015FIRERELAY - Due 1-9-15 at 9:00 A.M.

Originally, the fire stair doors were set on dany-occupied floors to allow egress but to prevent re-entry to the floor from the stairs. The doors from the freight elevator vestibule were kept locked to prevent access to the floors. However, the current nyc code no longer allows these doors to prevent access and re-entry except of the doors automatically unlock in response to a fire alarm or trouble signal from the fire alarm. We need electric strikes installed in these doors to permit the doors from the fire stairs and the freight elevator vestibules to be secured and to prevent access/re-entry to dany floors, except during emergencies. The doors will be controlled by our security system, via idf closets on each dany-occupied floor, which must be interconnected to the fire alarm system so that the doors unlock automatically upon a fire alarm or trouble signal from the fire panel on each floor.

This is a notice of intent to have A.T.J. Electrical Co., Inc perform the fire relay at the freight elevators of 100 centre street, New York, NY because A.T.J. Is the only vendor permitted to work in the fire alarm system because it is a proprietary system.
