93-50
SPECIAL HEIGHT AND SETBACK REGULATIONS
In Subdistricts A, B and C, and Subareas D1, D2 and D3 of the Hell's Kitchen Subdistrict D, and Subdistrict E, the height and setback regulations set forth in paragraphs (a) through (d) of Section 93-42 (Height and Setback in Subdistricts A, B, C, D, E and F) shall apply, except that such regulations are modified in certain locations as set forth in this Section. Such modifications include the establishment of #street wall# location regulations; and minimum and maximum base heights, as illustrated on Map 3 of Appendix A (Mandatory Street Wall Requirements). Such modifications also include depths of required setbacks, maximum length of building walls for towers, and tower #lot coverage#. Special provisions for recesses and sidewalk widenings are as follows:

- (a) Recesses
Where #street walls# are required to be located on #street lines# or sidewalk widening lines, ground floor recesses up to three feet deep shall be permitted for access to building entrances, and deeper recesses shall be permitted only where necessary to comply with the pedestrian circulation space provisions of Section 93-63. Above a height of 60 feet for #buildings# fronting upon 34th Street in Subdistrict C or above a height of 50 feet for #buildings# fronting upon Tenth Avenue in Subdistrict C and Subdistrict D, and up to any specified minimum base height, recesses are permitted provided that the aggregate length of such recesses does not exceed 30 percent of the length of the required #street wall# at any level, and the depth of such recesses does not exceed five feet. No limitations on recesses shall apply above any specified minimum base height or to any portion of a #zoning lot# where #street walls# are not required.

Where #street walls# are required to extend along the entire #street# frontage of a #zoning lot#, no recesses shall be permitted within 20 feet of an adjacent #building#, or within 30 feet of the intersection of two #street lines#, except where corner articulation rules apply.

93-53
Special Height and Setback Regulations in the 34th Street

Corridor Subdistrict C

- (a) 34th Street
For #zoning lots# with frontage on 34th Street, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire West 34th Street #street line#, except that to allow for corner articulation, the #street wall# may be located anywhere within an area bounded by intersecting #street lines# and lines 15 feet from and parallel to such #street lines#. Such #street walls# shall rise without setback to a minimum base height of 120 feet and a maximum base height of 150 feet. For #corner lots#, these provisions shall also apply along any intersecting #street line# for a minimum distance of 50 feet and a maximum distance of 100 feet from its intersection with West 34th Street. Above a height of 150 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.
- (b) Tenth Avenue
For #zoning lots# with frontage on Tenth Avenue, the provisions of paragraph (a) of Section 93-541 shall apply.
- (c) Midblocks between Eighth Avenue and Ninth Avenue
For #zoning lots# with frontage on West 33rd Street or West 35th Street beyond 100 feet of Eighth Avenue and Ninth Avenue, the #street wall# of any #development# or #enlargement# shall be located on and extend along the entire West 33rd Street or West 35th Street frontage of the #zoning lot# not occupied by existing buildings to remain. Such #street wall# shall rise without setback to a minimum base height of 80 feet or the height of the #building#, whichever is less, and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

93-55
Special Height and Setback Regulations in the South of Port Authority Subdistrict E

- (a) Zoning lots with Eighth Avenue frontage
In the South of Port Authority Subdistrict E, for any #development# or #enlargement# on a #zoning lot# fronting on Eighth Avenue, the #street wall# of such #development# or #enlargement# shall be located on the Eighth Avenue sidewalk widening line and extend along the entire #street# frontage of the #zoning lot#. Such #street wall# shall rise without setback to a minimum height of 90 feet or the height of the #building#, whichever is less, and a maximum height of 120 feet. Above a height of 90 feet, no portion of the #development# or #enlargement# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 30th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance, for each foot of horizontal distance, except as provided below:

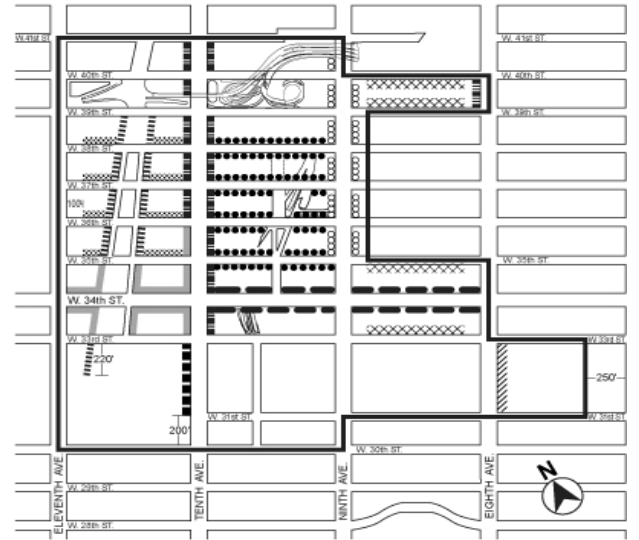

For #zoning lots# with frontage on Eighth Avenue, the #street wall# of a #development# or #enlargement# shall be located on the Eighth Avenue sidewalk widening line and, where applicable, on the West 39th Street and West 40th Street #street lines#, and extend along the entire #street# frontage of the #zoning lot#. Such #street walls# shall rise without setback to a minimum height of 90 feet and a maximum height of 120 feet. Above a height of 120 feet, no portion of the #development# or #enlargement# shall penetrate a #sky exposure plane# that begins at a height of 120 feet above the Eighth Avenue sidewalk widening line and #street lines# of West 39th Street and West 40th Street, as applicable, and rises over the #zoning lot# at a slope of four feet of vertical distance, for each foot of horizontal distance, except as provided below:

- (a)(1) any portion of the #building or other structure developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-63, as applicable, may penetrate the #sky exposure plane#;
- (a)(2) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane#. In addition, a dormer, as listed in paragraph (c) of Section 23-62, may penetrate the #sky exposure plane#.
- (b) Zoning lots without Eighth Avenue frontage
For #zoning lots# without frontage on Eighth Avenue, the #street wall# of a #development# or #enlargement# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street walls# shall rise without setback to a minimum base height of 80 feet or the height of the #building#, whichever is less, and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before

setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, the setback provisions of paragraph (b) of Section 93-42 shall apply.

Height of Street Walls and Maximum Building Height

The #street wall# of any #development# or #enlargement# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. On a #zoning lot# with frontage of at least 200 feet, up to 20 percent of the #aggregate width of the street wall#, for a maximum width of 50 feet, may be recessed to a maximum depth of 15 feet from the #street line#, provided the recessed area is located a minimum of 20 feet from an adjacent #building# and that a minimum of 60 percent of such area be planted with any combination of grass, ground cover, shrubs, trees or other living plant material. Such #street wall# shall rise without setback to a maximum height of 90 feet or the height of the #building#, whichever is less. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120 feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, no portion of the #development# or #enlargement# shall penetrate a #sky exposure plane# that begins at a height of 90 feet above the #street line# or the height of the adjacent #street wall# if higher than 90 feet and rises over the #zoning lot# at a slope of four feet of vertical distance for each foot of horizontal distance to a maximum height limit of 250 feet, except as provided below:

- (a) any portion of the #building or other structure developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-63, as applicable, may penetrate the #sky exposure plane#, provided no portion of such #building or other structure# exceeds the height limit of 250 feet; and
- (b) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane# and the height limit of 250 feet. In addition, a dormer, as listed in paragraph (c) of Section 23-62, may penetrate the #sky exposure plane#.

The #street wall# of any #development# or #enlargement# shall be located on the #street line# and extend along the entire #street# frontage of the #zoning lot# not occupied by existing #buildings# to remain. Such #street wall# shall rise without setback to a minimum base height of 80 feet or the height of the #building#, whichever is less, and a maximum base height of 90 feet. However, if the height of an adjacent #street wall# fronting on the same #street line# is higher than 90 feet before setback, the #street wall# of the new or #enlarged building# may rise without setback to the height of such adjacent #street wall#, up to a maximum height of 120

feet. Above a height of 90 feet or the height of the adjacent #street wall# if higher than 90 feet, no portion of the #development# or #enlargement# shall penetrate a #sky exposure plane# that begins at a height of 90 feet above the #street line# or the height of the adjacent #street wall# if higher than 90 feet and rises over the #zoning lot# at a slope of four feet of vertical distance for each foot of horizontal distance to a maximum height limit of 250 feet, except as provided below:

- (a) any portion of the #building or other structure developed# or #enlarged# pursuant to the tower regulations of Sections 33-45 or 35-63, as applicable, may penetrate the #sky exposure plane#, provided no portion of such #building or other structure# exceeds the height limit of 250 feet; and
- (b) permitted obstructions, as listed in paragraph (a) of Section 93-41, may penetrate the #sky exposure plane# and the height limit of 250 feet. In addition, a dormer, as listed in paragraph (c) of Section 23-62, may penetrate the #sky exposure plane#.

On a #zoning lot# with frontage of at least 200 feet along at least one #street#, up to 20 percent of the #aggregate width of the street wall# facing such #street#, for a maximum width of 50 feet, may be recessed to a maximum depth of 15 feet from the #street line#, provided the recessed area is located a minimum of 20 feet from an adjacent #building# and that a minimum of 60 percent of such area be planted with any combination of grass, ground cover, shrubs, trees or other living plant material.

Services (Other Than Human Services)

ENERGY COUNSEL FOR THE CITY OF NEW YORK – Negotiated Acquisition – Judgment required in evaluating proposals - PIN# 02509X100024 – DUE 05-10-10 AT 5:00 P.M. – The New York City Law Department (the “Department”) seeks proposals from law firms regularly engaged in the provision of legal services with an expertise in energy matters. The proposals must be submitted in the form of responses to a Solicitation Document available from the New York City Law Department beginning April 19, 2010.

The Department intends to enter into negotiations with one or more law firms and anticipates awarding one contract for these services in order to insure that the Department’s need for experienced and qualified legal services will be met in a timely and cost effective manner. It is anticipated that the term of the contract(s) will be five years, commencing no later than July 1, 2010.

To receive the Solicitation Document, interested law firms must send a written request for it by: (1) mail, messenger, or overnight carrier to: Robin Wakefield, Assistant Corporation Counsel, New York City Law Department, 100 Church Street, Room 6-218, New York, New York 10007; or (2) e-mail to: rowakefi@law.nyc.gov. Please specify in your request whether you wish to receive the Solicitation Document by mail or by e-mail. The Department encourages interested firms to request the Solicitation Document by e-mail.

Proposals will be evaluated by the Department to determine which firm(s) will be recommended for award of the contract. Firms under consideration for award of the contract may also be requested to appear for an interview by Department staff.

The Proposal must be submitted at the place and prior to the deadline stated in this Notice. Robin Wakefield, Assistant Corporation Counsel, is the Law Department’s sole authorized contact person for this procurement. All communications with the Department with respect to this procurement must be directed to the authorized contact person. She can be reached by e-mail at rowakefi@law.nyc.gov, or by phone at (212) 442-0421.

The source selection method of Negotiated Acquisition is being used because the services to be procured are legal services in support of litigation.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

SPECIAL MATERIALS

BUILDINGS

NOTICE

NYC Cool Roof is a green initiative to reduce energy costs, greenhouse gas emissions, and local temperatures by coating the roofs white. The NYC Cool Roof program will be rolled out across New York City beginning in Spring 2010. The goal for 2010 is to coat 1,000,000 square feet of rooftops. NYC Cool Roofs will publicize the benefits of cool roof coating throughout the city through the initiative's website and the press. The program will mobilize a mix of volunteers and green job training programs to coat non-profit and government roofs.

NYC Cool Roof seeks proposals from coating vendors and manufacturers to partner in the program by offering NYC Cool Roofs customers a discount on coating. Proposals should designate a reduced rate for buildings participating in NYC Cool Roofs program and how the reduced rate would be provided to private owners (i.e., purchased directly from web site or warehouse; rebate with certification that coating was used for NYC Cool Roofs). The program will be open to participation by multiple vendors. Partners will be appropriately acknowledged in promotional material for the program.

In order to participate, the following areas must be covered in your submission:

Coating Partners

Minimum Requirements of Coating:

Requirements for the coating should be for coatings with: Minimum Cool Roof Rating Council Minimum 3 Year Aged Reflectivity (ASTM C-1549) of 0.7
Minimum CRRC 3 Year Aged Emissivity (ASTM C-1371) of 0.8.

If Coating is new to the market and CRRC 3 Year Aged Reflectivity is Pending, we will accept:
Minimum CRRC Initial Reflectivity (ASTM C-1549): 0.8
Minimum CRRC Emissivity (ASTM C-1371): 0.85

Coating also must:

Be water based

Proposals must include:

Cost of discounted coating
Coverage rate
Specify compatible roof types
Coating application process
How materials can be purchased and how discount would be provided
How application by volunteers and green job training program would impact warranty
Training and technical consultation available
Full details on product include Product Database (include initial and aged solar reflectance and thermal emittance if available) and
Material Safety Data Sheets.

Other Partnership Opportunities:

Provide estimates on coating materials, such as:
Rollers
3/4" roller covers
Roller handles
Brushes
Other needed coating application supplies

Cleaning Supplies:

Pressure washers to prep roofs for application
Sponges and rags
Garbage bags
Simple green cleaning fluid
Hand cleaner
Elbow length rubber gloves
Scrubbing brushes
Brooms

Measuring supplies:

Chalk
Chalk lines

Personal protection:

Gloves
Booties for walking through building

Firms interested in partnering with NYC Cool Roof should submit the required information to Tori Edmiston, NYC Department of Buildings, 280 Broadway, 7th Floor, New York, New York 10007. Questions may be directed to Ms Edmiston by email to vedmiston@buildings.nyc.gov, or by telephone at (212) 566-3341.

Submissions are due Monday, April 26, 2010, by 3:00 P.M. Eastern Daylight Time, for firms wishing to be visible on the

website when the program launches in early May. However, partnership opportunities will remain open through the duration of the program, and firms wishing to participate should contact Ms Edmiston.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the
New York City Fire Department Fire Officers'
Variable Supplements Fund

We have audited the accompanying statements of plan net assets of New York City Fire Department Fire Officers' Variable Supplements Fund (the "Plan") as of June 30, 2009 and 2008, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets of the Plan as of June 30, 2009 and 2008, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis is not a required part of the financial statements, but is supplementary information required by the Governmental Accounting Standards Board ("GASB"). This supplementary information is the responsibility of Plan management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of such required supplementary information. However, we did not audit this information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) JUNE 30, 2009 AND 2008

This narrative discussion and analysis of the New York City Fire Department Fire Officers' Variable Supplements Fund's (the "Fund" or the "Plan"), financial performance provides an overview of the Plan's financial activities for the fiscal years ended June 30, 2009 and 2008. It is meant to assist the reader in understanding the Plan's financial statements by providing an overall review of the financial activities during the two years and the effects of significant changes, as well as a comparison with the prior years' activity and results. This discussion and analysis is intended to be read in conjunction with the Plan's financial statements, which begin on page 6.

OVERVIEW OF BASIC FINANCIAL STATEMENTS

The following discussion and analysis are intended to serve as an introduction to the basic financial statements. The basic financial statements are:

- **The Statement of Plan Net Assets** — presents the financial position of the Plan at each fiscal year-end. It indicates the assets available for payment of future benefits and any current liabilities that are owed as of the statement date. Investments are shown at fair value. All other assets and liabilities are determined on an accrual basis.
- **The Statement of Changes in Plan Net Assets** — presents the results of activities during the fiscal year. All changes affecting the assets and liabilities of the Plan are reflected on an accrual basis when the activity occurred, regardless of the timing of the related cash flows. In that regard, changes in the fair values of investments are included in the year's activity as net appreciation (depreciation) in fair value of investments.
- **The Notes to Financial Statements** — provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes present information about the Plan's accounting policies, significant account balances and activities, material risks, obligations, contingencies, and subsequent events, if any.

The financial statements are prepared in accordance with Governmental Accounting Standards Board ("GASB") Pronouncements.

FINANCIAL HIGHLIGHTS

For fiscal year 2009, the Plan's net assets held in trust for pension benefits decreased by \$77.1 million (25.8%) to \$222.2 million compared to Plan net assets as of June 30, 2008. The decrease for fiscal year 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio due to the global financial crisis and its negative impact on equity markets.

For fiscal year 2008, the Plan's net assets held in trust for pension benefits decreased by \$54.1 million (15.3%) to \$299.3 million compared to Plan net assets as of June 30, 2007. The decrease for fiscal year 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the downturn in the equity markets and a significant increase in benefits paid.

Changes in Plan Net Assets For the Years Ended June 30, 2009, 2008 and 2007 (In thousands)

	2009	2008	2007
Net investment (loss) income	\$ (54,606)	\$ (26,174)	\$ 58,269
Benefit payments and withdrawals	22,525	27,970	15,350
Net (decrease) increase	(77,131)	(54,144)	42,919
Plan net assets held in trust for benefits:			
Beginning of year	299,288	353,432	310,513
End of year	\$ 222,157	\$ 299,288	\$ 353,432

For fiscal year ended June 30, 2009, the Plan had a net investment loss of \$54.6 million or a decline of (108.6%) compared to the net investment loss recorded for fiscal year 2008. The loss for fiscal year 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the global financial crisis and the significant downturn in domestic and international equity markets.

For fiscal year ended June 30, 2008, the Plan had a net investment loss of \$26.2 million or a decrease of (144.9%) compared to the net investment gain recorded for fiscal year 2007. The loss for fiscal year 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio due to the downturn in the equity markets.

Benefit payments and withdrawals for fiscal year 2009 totaled \$22.5 million, a decrease of 19.5% compared to benefit payments and withdrawals reported in fiscal year 2008. The decrease in benefits paid can be attributed to the change in the number of eligible retirees on payroll and the effects of the automatic cost of living adjustment (COLA) offset legislation (expired for certain eligible retirees in January 2007), which remain in effect for other retirees. The legislation allows for COLA amounts paid by the Fire Pension Fund to offset and reduce benefit payments made by the Variable Supplements fund to certain eligible retirees.

Benefit payments and withdrawals for fiscal year 2008 totaled approximately \$28 million, an increase of 82.2% over benefit payments and withdrawals reported in fiscal year 2007. The significant increase in benefits paid for fiscal year 2008 can be attributed to the expiration of the automatic cost of living adjustment (COLA) offset legislation in January 2007. The legislation allowed for COLA amounts paid by the Fire Pension Fund to offset and reduce benefit payments made by the Variable Supplements Fund to certain eligible retirees.

PLAN NET ASSETS

For fiscal year 2009, the Plan's net assets held in trust for benefits decreased by 25.8% to \$222.2 million compared to Plan net assets in fiscal year 2008. The decrease in 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the global financial crisis and the significant downturn in equity markets.

For fiscal year 2008, the Plan's net assets held in trust for benefits decreased by 15.3% to \$299.3 million compared to Plan net assets in fiscal year 2007. The decrease in 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the downturn in the equity markets and a significant increase in benefits paid.

The Plan's receivables and payables are primarily generated through the timing difference between the trade and settlement dates for investment securities purchased or sold.

FUNDING AND PLAN BENEFITS

New York City Fire Pension fund ("FIRE") is the source of funding for the Plan. For fiscal years 2009, 2008 and 2007, there were no transfers from FIRE to the Plan.

Plan benefits are paid once a year, in January, according to a schedule which, in general, increases annually by \$500 up to a maximum of \$12,000. Tier A members, those hired before July 1, 1988, and Tier B members, those hired after June 30, 1988, are under different schedules. Tier A eligible Fire Officer retirees began receiving the maximum scheduled benefit of \$12,000 in January 2008. Tier B eligible Fire Officer retirees began receiving the maximum \$12,000 benefit beginning in January 2009. Although cost-of-living increases to the regular pensions have been offsetting all or part of the benefits paid by the Plan, that offset expired January 1, 2007 for those retirees who are 62 years of age or older. The offset will expire for each of the remaining retirees as they reach age 62. See Note 1 - Plan Description.

The Administrative Code of The City of New York provides that FIRE transfer to the Fund an amount equal to certain excess earnings on equity investments, limited to the unfunded accumulated benefit obligation ("ABO") of the Fund. Excess earnings are defined as the amount by which earnings on equity investments of FIRE exceed what the earnings would have had such funds been invested at a yield comparable to that available from fixed income securities ("Hypothetical Fixed Income Security Earnings") less any cumulative deficiencies. The Fund also receives credit for investment earnings on Fund assets. For further discussion on Funding, refer to the caption "Funding" in the Notes to Financial Statements.

INVESTMENTS

The table above summarizes the Plan's investment portfolio including collateral securities lending. Due to the long-term nature of the Plan's liabilities, the Plan's assets are invested with a long-term investment horizon. Assets are invested in a diversified portfolio of capital market securities. Investments in these assets are expected to produce higher returns but are also subject to greater volatility and may produce negative returns. The investment results for fiscal year 2009 reflect the global financial crisis and the downturn in equity markets. Overall, most asset classes posted significant losses during the fiscal period. For example, the S&P 500 index, a broad measure of domestic equity in the United States stock market - declined 26.2% in fiscal year 2009 compared to the decline of 13.1% in fiscal year 2008 and the gain of 20.6% in fiscal year 2007. The Plan's investment portfolio had negative returns of 16.9% and 7.6% for fiscal years 2009 and 2008 respectively, compared to the positive return of 18.3% for fiscal year 2007. For the three-year period ended June 30, 2009, the overall rate of return on the Plan's investment portfolio was negative 3.1%.

NEW YORK CITY FIRE DEPARTMENT FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND

**NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2009 AND 2008**

1. PLAN DESCRIPTION

The New York City (the "City") Fire Pension Fund administers both the Fire Officers' Variable Supplements Fund (the "Fund" or the "Plan") and the Firefighters' Variable Supplements Fund ("FFVSF"). The Fund operates pursuant to the provisions of Title 13, Chapter 3 of the Administrative Code of The City of New York ("ACNY") and provides supplemental benefits to retired Fire Officers (uniformed members of the New York City Fire Department holding the rank of lieutenant or any position of higher rank and all pilots, marine engineers, or assistant marine engineers). To be eligible to receive fund benefits, Fire Officers must retire, on or after October 1, 1968, and be receiving a service retirement benefit from the New York City Fire Pension Fund ("FIRE").

Except for service retirement, Fund benefits are forfeitable upon separation from service.

The Fund is included in the Pension and Other Employee Benefit Trust Funds section of The City's Comprehensive Annual Financial Report ("CAFR").

The FFVSF is maintained as a separate fund and is not included in these financial statements.

Under current law, the Fund is not to be construed as constituting a pension or retirement system. Instead, it provides defined supplemental payments, other than pension or retirement system allowances, in accordance with applicable statutory provisions. While these payments are guaranteed by the City, the New York State Legislature has reserved to itself and the State of New York (the "State") the right and power to amend, modify, or repeal the Fund and the payments it provides.

At June 30, 2008 and 2007, the dates of the Fund's most recent actuarial valuations, the Fund's membership consisted of:

	2008	2007
Retirees currently receiving payments	1,877	1,963
Active members*	2,610	2,588
Total	4,487	4,551

*Represents the number of actively employed Fire Officers as of the June 30 valuation dates.

The Fund provides a guaranteed schedule of supplemental benefits for Fire Officers who retire (or have retired) as Fire Officers on service retirement with at least 20 years of service as follows:

- A Fire Officer hired before July 1, 1988 who retired for service as a Fire Officer on or after October 1, 1988 and prior to Calendar Year 1993 receives a defined schedule of benefits starting at \$5,000 payable in January 1994 for the Calendar Year 1993 payment. For those who retired during Calendar Year 1993, the annual \$5,000 benefit payment was prorated. The annual benefit increases \$500 each year thereafter to a maximum of \$12,000 for Calendar Year 2007 (payable by January 31, 2008) and thereafter.
- For those who were members of FIRE prior to July 1, 1988 and who retire after Calendar Year 1993, the annual benefit payment is the scheduled amount as described above prorated in the year of retirement and the full amount thereafter.
- For those who become members of FIRE on or after July 1, 1988, the annual supplemental benefit is \$2,500 for the first twelve months of retirement, which increases by \$500 each year until a maximum of \$12,000 is payable in the twentieth and later years of retirement. This was later modified by Chapter 500 of the Laws of 1998 ("Chapter 500/98") as discussed below.

Chapter 500 of the Laws of 1995 permitted certain active employees with prior service credit before entering FIRE to utilize their original date of hire for determining benefits from the Fund.

Chapter 500/98 provides that Fire Officers who became members of FIRE on or after July 1, 1998 will receive the maximum \$12,000 benefit beginning Calendar Year 2008 and thereafter.

Chapter 404 of the Laws of 1998 ("Chapter 404/98") provided that some FIRE members who had dual membership with a prior pension fund at entry into FIRE may be entitled to transfer that prior membership if they meet certain criteria and make proper application for such transfers.

Chapter 216 of the Laws of 2002 ("Chapter 216/02") provided that participants of the Fund who retire from FIRE on and after January 1, 2002 with 20 or more years of service are entitled to an additional one-time special lump sum payment in the first year following retirement equal to the cumulative Fund benefits that would have been paid after January 1, 2002 had they retired at the completion of their 20th year of service ("VSF DROP").

In the past, the State Legislature, in recognition of inflation, has increased retirement benefits to retirees of its public pension systems. Any increase in the amounts of ad-hoc cost-of-living increases ("Supplementation") or automatic Cost-of-Living Adjustments ("COLA") payable from FIRE to retirees of the Fund under legislation enacted after 1993 will reduce benefits payable from the Fund until the later of: (a) age 62, or (b) January 1, 2007 (the twentieth year of retirement or January 1, 2008, if earlier, in the case of new members on and after July 1, 1988).

Chapter 119 of the Laws of 1995 ("Chapter 119/95") provided additional benefits for Supplementation payable from FIRE on and after December 1, 1996 for certain retirees of FIRE effective as enacted by the City Council on October 25, 1995.

Chapter 390 of the Laws of 1998 ("Chapter 390/98") provided additional benefits for Supplementation payable from FIRE on and after September 1, 1998 (with a second benefit increase commencing September 1, 1999).

Chapter 125 of the Laws of 2000 ("Chapter 125/00") provided Supplementation benefits from FIRE for certain retirees who retired before Calendar Year 1997 effective September 2000. In addition, Chapter 125/00 provides future COLA increases from FIRE beginning September 2001 and on each subsequent September to eligible retirees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Fund is accounted for on an accrual basis where the measurement focus is on the flow of economic resources. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

Method Used to Value Investments - Investments are valued at fair value. Trading securities are stated at the last reported sales price on a national securities exchange on the last business day of the fiscal year. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold. Fair value is defined as the quoted market value on the last trading day of the period, except for the Short-Term Investment Fund (the "STIF") (a money market fund) and the International Investment Funds (the "IIF") (the IIFs are private funds, which are managed by various investment managers on behalf of the Plan. Plan management determines fair value of the IIF's based on information provided by the various investment managers. Management records the STIF at cost, which approximates fair value.

Purchases and sales of securities are reflected on the trade date. Gains and losses on the sale of securities are based on the average cost of securities.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

No investment in any one security represents 5% or more of the plan net assets held in trust for benefits.

Contributions - FIRE is the source of funding for the Fund. Section 13-335 of the ACNY states, among other things, how amounts transferred into the Fund shall be computed.

See Note 4 for more information on funding and for information regarding The City's liability.

Income Taxes - Income earned by the Fund is not subject to Federal income tax.

Accrued Benefits Payable - Accrued benefits payable represent either: (1) benefits due and unpaid from the preceding payment date of January 31 or (2) benefits deemed incurred and unpaid (an accrual for a portion of the subsequent January 31 benefit) for the Fiscal Year ending June 30.

Securities Lending Transactions - State statutes and the Fund's Board of Trustees policies permit the Fund to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Fund's custodian lends the following types of securities: short-term securities, common stock, long-term corporate bonds, U.S. Government and U.S. Government agencies' bonds, asset-backed securities and international equities and bonds held in collective investment funds. In return, it receives collateral in the form of cash and treasury and U.S. Government agency securities at 100% to 105% of the principal plus accrued interest for reinvestment. At year end, the Fund had no credit risk exposure to borrowers because the amounts the Fund owed the borrowers exceeded the amounts the borrowers owed the Fund. The contracts with the plan custodian require borrowers to indemnify the Fund if the borrowers fail to return the securities and if the collateral is inadequate to replace the securities loaned or fail to pay the Fund for income distributions by the securities' issuers while the securities are on loan. All securities loans can be terminated on demand within a period specified in each agreement by either the Fund or the borrowers. Cash collateral is invested in the lending agents' short-term investment pools, which have a weighted-average maturity of 90 days. The underlying fixed income securities in these pools have an average maturity of ten years.

The securities lending program in which the Fund participates only allows pledging or selling securities in the case of borrower default. Accordingly, the Fund is fully indemnified against any loss of value between the securities lent and the securities held as collateral.

Governmental Accounting Standards Board ("GASB") Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, requires that securities lending transactions and investments made with that cash are reported as collateral on securities lending transactions and as assets if the government entity has the ability to pledge or sell them without a borrower default. Liabilities resulting from these transactions are also reported in the statements of plan net assets. Accordingly, the Fund recorded the investments purchased with the cash collateral as collateral from securities lending transactions with a corresponding liability as securities lending transactions.

Securities on loan are carried at market value, the value as of June 30, 2009 is \$31.2 million. As of balance sheet date the maturities of the investments made with cash collateral on average exceed the maturities of the securities loans by approximately 30 days.

3. INVESTMENTS AND DEPOSITS

The Comptroller of The City of New York (the "Comptroller") acts as an investment advisor to the Plan. In addition, the Plan employs an independent investment consultant as an investment advisor. The Plan utilizes several investment managers to manage the long-term debt and equity portfolios. The managers

are regularly reviewed, with regard to both their investment performance and for their adherence to investment guidelines.

Concentration of Credit Risk

The Plan does not have any investments in any one entity that represent 5% or more of plan net assets.

The legal requirements for Plan investments are as follows:

- Fixed income, equity and other investments may be made as permitted by New York State RSSL §§ 176-178(a) and Banking Law § 235, the New York City Administrative Code, and the Legal Investments for New York Savings Banks list as published by The New York State Banking Department, subject to Note 3(b).
- Investments up to 25% of total pension fund assets may be made in instruments not expressly permitted by the State RSSL.

Bank of New York Mellon ("BNYM") is the primary custodian for substantially all of the securities of the Plan.

Cash deposits are insured by the Federal Deposit Insurance Corporation for up to \$250,000 per Plan member and are, therefore, fully insured.

Credit Risk - Portfolios other than U.S. Government and related portfolios have credit rating limitations. Investment grade portfolios are limited to mostly ratings of BBB and above except that they are also

permitted a 10% maximum exposure to BB & B rated securities. While non-investment grade managers are primarily invested in BB & B rated securities, they can also invest up to 7% of their portfolio in securities rated CCC. Non-rated securities are considered to be non-investment grade. Portfolios other than U.S. Government and related portfolios have credit rating limitations. Non-rated securities are considered to be non-investment grade. The quality ratings of investments, by percentage of the rated portfolio, as described by nationally recognized statistical rating organizations, are as follows:

Custodial Credit Risk - Deposits are exposed to custodial credit risk if they are uninsured and noncollateralized. Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

4. FUNDING

The ACNY provides that FIRE transfer to the Fund an amount equal to certain excess earnings on equity investments limited to the unfunded Accumulated Benefit Obligation ("ABO") of the Fund. Excess earnings are defined as the amount by which earnings on equity investments of FIRE exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed-income securities ("Hypothetical Fixed Income Security Earnings"), less any cumulative deficiencies. The Fund also receives credit for investment earnings on Fund assets.

The calculation of the Hypothetical Fixed Income Security Earnings requires the determination of the Hypothetical Interest Rate ("HIR"), which is computed by the Comptroller.

For Fiscal Year 2009, the excess earnings of FIRE, inclusive of prior year's cumulative deficiencies, are estimated to be equal to zero and, therefore, no transfer will be due from FIRE to the Fund as of June 30, 2009.

For Fiscal Year 2008, the excess earnings of FIRE, inclusive of prior year's cumulative deficiencies, were estimated to be equal to zero and, therefore, no transfer was due from FIRE to the Fund as of June 30, 2008.

In addition, Chapter 480 of the Laws of 1993 states that if the assets of the Fund are less than the amount required to pay the retirees' guaranteed scheduled annual supplemental benefit payments, then The City is required by law to fund the difference.

The amount shown below as the ABO is the measure of the present value of scheduled supplemental benefits estimated to be payable in the future as a result of employee service-to-date. The ABO is calculated as the actuarial present value of credited projected benefits, prorated on service and is intended to help users assess the funded status of the Fund on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due and make comparisons among variable supplements funds.

Actuarial valuations of the Fund are performed annually as of June 30.

A comparison of the ABO as calculated by the Actuary with the Plan net assets held in trust for benefits as of June 30, 2008 and June 30, 2007 follows:

	Amount as of June 30 2008	2007
	(In millions)	
Accumulated benefit obligation for:		
Retirees currently receiving benefits	\$ 167.8	\$ 184.0
Active employees #	163.2	140.2
Total accumulated benefit obligation *, **	331.0	324.2
Plan net assets held in trust for benefits ***	299.3	353.4
Unfunded (funded) accumulated benefit obligation	\$ 31.7	\$ (29.2)

* The June 30, 2008 ABO includes approximately \$17.4 million due to a refinement in the methodology used to value the benefits payable to those members retiring with 20 or more years of service who would meet the eligibility criteria for ordinary disability retirement.

** The June 30, 2008 and June 30, 2007 ABOs decreased by approximately \$1.0 million and \$1.1 million, respectively, compared to those projected prior to the enactment of Chapters 119/95, 390/98 and 125/00.

*** See Note 2 for valuation of investments in the calculation of Plan net assets held in trust for benefits.

The June 30, 2008 actuarial valuation, used to determine the ABO, is based on the same actuarial assumptions and methods as were used in the actuarial valuation as of June 30, 2007.

The June 30, 2007 actuarial valuation, used to determine the ABO, is based on the same actuarial assumptions and methods as were used in the actuarial valuation as of June 30, 2006.

For purposes of the June 30, 2008 and June 30, 2007 actuarial valuations of the Fund, Chapter 125/00 has been taken into account in the determination of the unfunded ABO relative to the Supplemental benefit increases that began Fiscal Year 2001 and to the automatic COLA provided for Fiscal Year 2002 and each future year (Note 1).

Sections 13-384 and 13-394 of the ACNY provide that the Boards of Trustees of the Fund and the FFVSP shall adopt, upon the recommendation of the Actuary, actuarial assumptions as to interest rate, mortality of retirees and estimated number of active members of FIRE in service as of each June 30 who will retire for service with 20 or more years of service as Firefighters and Fire Officers, for use in making annual valuations of liabilities.

The following actuarial assumptions represent the recommendations of the Actuary and were used in the actuarial calculations to determine the ABO as of June 30, 2008 and 2007, respectively:

	June 30, 2008	June 30, 2007

⁽¹⁾ Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.

5. INVESTMENT ADVISORS

The Comptroller utilizes several investment advisors to manage long-term debt and equity portfolios. Advisors must obtain prior approval before each purchase or sale of a particular security. To be eligible for consideration, investments must meet criteria set forth in governing laws and regulations.

6. RELATED PARTIES

Administrative expenses are paid for by The City. The Comptroller provides certain administrative services to the Fund. The Actuary is appointed to be technical advisor to the Fund and the Office of the Actuary provides related actuarial services to the Fund. The City's Corporation Counsel provides legal services to the Fund. Other administrative services are also provided by The City. The Comptroller has been appointed by law as custodian for the monies and assets of the Plan with revocable discretionary authority. Securities are held by certain banks under custodial agreements with the Comptroller.

7. CONTINGENT LIABILITIES

From time to time, the Fund has a number of claims pending against it and has been named as defendant in a number of lawsuits. The Fund also has certain other contingent liabilities. Management of the Fund, on the advice of legal counsel, believes that such proceedings and contingencies generally do not have a material effect on the Plan's net assets or changes in the Plan's net assets. Under the State statutes and City laws that govern the functioning of the Fund, increases in the obligation of the Fund to members and beneficiaries ordinarily result in increases to the future potential obligations of FIRE.

8. OTHER ACTUARIAL INFORMATION

Actuarial Audit — Pursuant to Section 96 of the New York City Charter, studies of the actuarial assumptions used to value liabilities of the five actuarially-funded New York City Retirement Systems ("NYCRS") are conducted every two years. The most recent study was published by The Segal Company ("Segal") dated November 2006 and analyzed experience for fiscal years 2002 through 2005. Segal made recommendations to the actuarial assumptions and methods based on their analysis. The Actuary is reviewing those recommendations. A study of experience for Fiscal Years 2006 and 2007 is underway.

Revised Actuarial Assumptions and Methods — In accordance with the ACNY and with appropriate practice, the Boards of Trustees of the five actuarially-funded NYCRS are to periodically review and adopt actuarial assumptions as proposed by the Actuary for use in the determination of employer contributions.

Based on a review of an October 2003 experience study by Gabriel, Roeder, Smith & Company ("GRS"), the Actuary issued an August 31, 2005 Report entitled "Proposed Changes in Actuarial Assumptions and Methods for Determining Employer Contributions for Fiscal Years Beginning on and After July 1, 2005 for the New York City Fire Pension Fund" ("August 2005 Report"). Where required, the Board of Trustees of FIRE adopted those changes to actuarial assumptions that required Board approval and the State Legislature and the Governor enacted Chapter 152/06 to provide for those changes to the actuarial assumptions and methods that required legislation, including the AIR assumption of 8.0% per annum. Chapter 211 of the Laws of 2009 extended the AIR assumption for one year to June 30, 2010 from June 30, 2009.

For the actuarial valuations of the Fund beginning June 30, 2005, the Actuary used actuarial assumptions that were adopted during Fiscal Year 2006 by the Board of Trustees of FIRE.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the New York City Fire Department Firefighters' Variable Supplements Fund

We have audited the accompanying statements of plan net assets of New York City Fire Department Firefighters' Variable Supplements Fund (the "Plan") as of June 30, 2009 and 2008, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets of the Plan as of June 30, 2009 and 2008, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis is not a required part of the financial statements, but is supplementary information required by the Governmental Accounting Standards Board ("GASB"). This supplementary information is the responsibility of Plan management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of such required supplementary information. However, we did not audit this information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) JUNE 30, 2009 AND 2008

This narrative discussion and analysis of the New York City Fire Department Firefighters' Variable Supplements Fund's (the "Fund" or the "Plan"), financial performance provides an overview of the Plan's financial activities for the fiscal years ended June 30, 2009 and 2008. It is meant to assist the reader in understanding the Plan's financial statements by providing an overall review of the financial activities during the two years and the effects of significant changes, as well as a comparison with the prior years' activity and results. This discussion and analysis is intended to be read in conjunction with the Plan's financial statements, which begin on page 6.

OVERVIEW OF BASIC FINANCIAL STATEMENTS

The following discussion and analysis are intended to serve as an introduction to the basic financial statements. The basic financial statements are:

- **The Statement of Plan Net Assets** — presents the financial position of the Plan at each fiscal year-end. It indicates the assets available for payment of future benefits and any current liabilities that are owed as of the statement date. Investments are shown at fair value. All other assets and liabilities are determined on an accrual basis.
- **The Statement of Changes in Plan Net Assets** — presents the results of activities during the fiscal year. All changes affecting the assets and liabilities of the Plan are reflected on an accrual basis when the activity occurred, regardless of the timing of the related cash flows. In that regard, changes in the fair values of investments are included in the year's activity as net appreciation (depreciation) in fair value of investments.
- **The Notes to Financial Statements** — provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes present information about the Plan's accounting policies, significant account balances and activities, material risks, obligations, contingencies, and subsequent events, if any.

The financial statements are prepared in accordance with Governmental Accounting Standards Board ("GASB") Pronouncements.

FINANCIAL HIGHLIGHTS

As of June 30, 2009, the Plan's net assets held in trust for pension benefits decreased by approximately \$144.4 million (28.1%) to \$370 million compared to Plan net assets for fiscal year 2008. The decrease for fiscal year 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio due to the global financial crisis and the negative impact on equity markets.

As of June 30, 2008, the Plan's net assets held in trust for pension benefits decreased by approximately \$98 million (16%) to \$514.4 million compared to Plan net assets for fiscal year 2007. The decrease for fiscal year 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the downturn in the equity markets and a significant increase in benefits paid.

Changes in Plan Net Assets Years Ended June 30, 2009, 2008 and 2007 (In thousands)	2009	2008	2007
Net investment (loss) income	\$ (93,310)	\$ (38,347)	\$ 99,769
Benefit payments and withdrawals	51,106	59,691	35,729
Net (decrease) increase	(144,416)	(98,038)	64,040
Plan net assets held in trust for benefits:			
Beginning of year	514,444	612,482	548,442
End of year	\$ 370,028	\$ 514,444	\$ 612,482

For fiscal year ended June 30, 2009, the Plan had a net investment loss of \$93.3 million or a decline of (14.3%) compared to the net investment loss of \$38.3 million, recorded in fiscal year 2008. The loss for fiscal year 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the global financial crisis and the significant downturn in domestic and international equity markets.

For fiscal year ended June 30, 2008, the Plan had a net investment loss of \$38.3 million or a decrease of 13.8% compared to the net investment gain of \$99.8 million in fiscal year 2007. The loss for fiscal year 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio due to the downturn in the equity markets.

Benefit payments and withdrawals for fiscal year 2009 totaled \$51.1 million, a decrease of 14.4% compared to benefit payments and withdrawals reported in fiscal year 2008. The decrease in benefits paid can be attributed to the change in the number of eligible retirees on payroll and the effects of the automatic cost of living adjustment (COLA) offset legislation (expired for certain eligible retirees in January 2007), which remains in effect for other retirees. The legislation allows for COLA amounts paid by the Fire Pension Fund to offset and reduce benefit payments made by the Variable Supplements Fund to certain eligible retirees.

Benefit payments and withdrawals for fiscal year 2008 totaled \$59.7 million, an increase of 67.1% over benefit payments and withdrawals reported in fiscal year 2007. The significant increase in benefits paid for fiscal year 2008 can be attributed to the expiration of the automatic cost of living adjustment (COLA) offset legislation in January 2007. The legislation allowed for COLA amounts paid by the Fire Pension Fund to offset and reduce benefit payments made by the Variable Supplements Fund to certain eligible retirees.

PLAN NET ASSETS

For fiscal year 2009, the Plan's net assets held in trust for benefits decreased to \$370.03 million or 28.1% compared to Plan net assets in fiscal year 2008. The decrease in 2009 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the global financial crisis and the significant downturn in equity markets.

For fiscal year 2008, the Plan's net assets held in trust for benefits decreased to \$514.4 million or 16% compared to Plan net assets in fiscal year 2007. The decrease in 2008 can be attributed to the net depreciation in the fair value of the Plan's investment portfolio, due to the downturn in the equity markets and a significant increase in benefits paid.

The Plan's receivables and payables are primarily generated through the timing difference between the trade and settlement dates for investment securities purchased or sold.

FUNDING AND PLAN BENEFITS

New York City Fire Pension Fund ("FIRE") is the source of funding for the Plan. For fiscal years 2009, 2008 and 2007, there were no transfers from FIRE to the Plan.

Plan benefits are paid once a year, in December, according to a schedule which, in general, increases annually by \$500 up to a maximum of \$12,000. Tier A members, those hired before July 1, 1988, and Tier B members, those hired after June 30, 1988, are under different schedules. Tier A eligible Firefighter and Wiper retirees began receiving the maximum scheduled benefit of \$12,000 in December 2007. Tier B eligible Firefighter and Wiper retirees began receiving the maximum \$12,000 benefit in December 2008. Although cost-of-living increases to the regular pensions have been offsetting all or part of the benefits paid by the Plan, that offset expired January 1, 2007 for those retirees who were 62 years of age or older. The offset will expire for each of the remaining retirees as they reach age 62. See Note 1 - Plan Description.

The Administrative Code of the City of New York provides that FIRE transfer to the Fund an amount equal to certain excess earnings on equity investments, limited to the unfunded accumulated benefit obligation ("ABO") of the Fund. Excess earnings are defined as the amount by which earnings on equity investments of FIRE exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed income securities ("Hypothetical Fixed Income Security Earnings") less any cumulative deficiencies. The Fund also receives credit for investment earnings on Fund assets. For further discussion on Funding, refer to the caption "Funding" in the Notes to Financial Statements.

INVESTMENTS

The table above summarizes the Plan's investment portfolio including collateral securities lending. Due to the long-term nature of the Plan's liabilities, the Plan's assets are invested with a long-term investment horizon. Assets are invested in a diversified portfolio of capital market securities. Investments in these assets are expected to produce higher returns but are also subject to greater volatility and may produce negative returns. The investment results for fiscal year 2009 reflect the global financial crisis and the downturn in equity markets. Overall, most asset classes posted significant losses during the fiscal period. For example, the Russell 3000 index, a broad measure of the United States stock market - declined 26.6% in fiscal year 2009, compared to the decline of 12.7% in fiscal year 2008 and the gain of 20.1% in fiscal year 2007. The Plan's investment portfolio had negative returns 16.8% and 6.9% for fiscal years 2009 and 2008 respectively, compared to the positive return of 18.1% for fiscal year 2007. For the three-year period ended June 30, 2009, the overall rate of return on the Plan's investment portfolio was negative 2.9%.

NEW YORK CITY FIRE DEPARTMENT FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED JUNE 30, 2009 AND 2008

1. PLAN DESCRIPTION

The New York City (the "City") Fire Pension Fund administers both the Firefighters' Variable Supplements Fund (the "Fund" or the "Plan") and the Fire Officers' Variable Supplements Fund ("FOVSF"). The Fund operates pursuant to the provisions of Title 13, Chapter 3 of the Administrative Code of the City of New York ("ACNY") and provides supplemental benefits to retired Firefighters and Wipers from the New York City Fire Department. To be eligible to receive Fund benefits, Firefighters and Wipers must retire, on or after October 1, 1968, and be receiving a service retirement benefit from the New York City Fire Pension Fund ("FIRE").

Except for service retirement, Fund benefits are forfeitable upon separation from service.

The Fund is included in the Pension and Other Employee Benefit Trust Funds section of The City's Comprehensive Annual Financial Report ("CAFR").

The FOVSF is maintained as a separate fund and is not included in these financial statements.

Under current law, the Fund is not to be construed as constituting a pension or retirement system. Instead, it provides defined supplemental payments, other than pension or retirement system allowances, in accordance with applicable statutory provisions. While these payments are guaranteed by The City, the New York State Legislature has reserved to itself and the State of New York (the "State") the right and power to amend, modify, or repeal the Fund and the payments it provides.

At June 30, 2008 and 2007, the dates of the Fund's most recent actuarial valuations, the Fund's membership consisted of:

	2008	2007
Retirees currently receiving payments*	4,221	4,344
Active members**	8,964	8,940
Total	13,185	13,284

* This includes all retired Firefighters and Wipers currently receiving payments
** Represents the number of actively-employed Firefighters and Wipers as of the June 30 valuation dates.

b. For those who become members of FIRE on or after July 1, 1988, the annual supplemental benefit is \$2,500 for the first 12 months of retirement, which increases by \$500 each year until a maximum of \$12,000 is payable in the twentieth and later years of retirement. This was later modified by Chapter 500 of the Laws of 1995 ("Chapter 500/95") as discussed below.

Chapter 500/95 provided that Firefighters who became members of FIRE on and after July 1, 1988 will receive the maximum \$12,000 benefit beginning Calendar Year 2008 and thereafter. In addition, this law permits certain active employees with prior service credit before entering FIRE to utilize their original dates of hire for determining benefits from the Fund.

Chapter 404 of the Laws of 1998 ("Chapter 404/98") provided that some FIRE members who had dual membership with a prior pension fund at entry into FIRE may be entitled to transfer that prior membership if they meet certain criteria and make proper application for such transfers.

Chapter 216 of the Laws of 2002 ("Chapter 216/02") provided that participants of the Fund who retire from FIRE on and after January 1, 2002 with 20 or more years of service are entitled to an additional one-time special lump sum payment in the first year following retirement equal to the cumulative Fund benefits that would have been paid after January 1, 2002 had they retired at the completion of their twentieth year of service ("VSF DROP").

In the past, the State Legislature, in recognition of inflation, has increased retirement benefits to retirees of its public pension systems. Any increase in the amount of ad-hoc cost-of-living increases ("Supplementation") benefits or automatic Cost-of-Living Adjustments ("COLA") payable from FIRE to retirees of the Fund under legislation enacted after 1988 will reduce benefits payable from the Fund until the later of: (a) age 62, or (b) Calendar Year 2007 (the twentieth year of retirement or January 1, 2008, if earlier, in the case of new members on and after July 1, 1988).

Chapter 119 of the Laws of 1995 ("Chapter 119/95") provided additional benefits for Supplementation payable from FIRE on and after December 1, 1996 for certain retirees of FIRE effective as enacted by the City Council on October 25, 1995.

Chapter 390 of the Laws of 1998 ("Chapter 390/98") provided additional benefits for Supplementation payable from FIRE on and after September 1, 1998 (with a second benefit increase commencing September 1, 1999).

Chapter 125 of the Laws of 2000 ("Chapter 125/00") provided Supplementation benefits from FIRE for certain retirees who retired before Calendar Year 1997 effective September 2000. In addition, Chapter 125/00 provided future COLA increases from FIRE beginning September 2001 and on each subsequent September to eligible retirees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The Fund is accounted for on an accrual basis where the measurement focus is on the flow of economic resources. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

Method Used to Value Investments — Investments are reported at fair value. Trading securities are stated at the last reported sales price on a national securities exchange on the last business day of the Fiscal Year. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold. Fair value is defined as the quoted market value on the last trading day of the period, except for the Short-Term Investment Fund (the "STIF") (a money market fund) and the International Investment Funds (the "IIF"). The IIFs are private funds, which are managed by various investment managers on behalf of the Plan. Plan management determines fair value of the IIFs based on information provided by the various investment managers. Management records the STIF at cost, which approximates fair value.

Purchases and sales of securities are reflected on the trade date. Gains and losses on the sale of securities are based on the average cost of securities.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

No investment in any one security represents 5% or more of the plan net assets held in trust for benefits.

Contributions — FIRE is the source of funding for the Fund. Section 13-335 of the ACNY states, among other things, how amounts transferred into the Fund shall be computed.

See Note 4 for more information on funding and for information regarding The City's liability.

Income Taxes — Income earned by the Fund is not subject to Federal income tax.

Accrued Benefits Payable — Accrued benefits payable represent either: (1) benefits due and unpaid from the preceding payment date of December 15; or (2) benefits deemed incurred and unpaid (an accrual for a portion of the subsequent calendar year benefit) for the Fiscal Year ending June 30.

Securities Lending Transactions — State statutes and the Fund's Board of Trustees policies permit the Fund to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Fund's custodian lends the following types of securities: short-term securities, common stock, long-term corporate bonds, U.S. Government and U.S. Government agencies' bonds, asset-backed securities and international equities and bonds held in collective investment funds. In return, it receives collateral in the form of cash and treasury and U.S. Government agency securities at 100% to 105% of the principal plus accrued interest for reinvestment. At year end, the Fund had no credit risk exposure to borrowers because the amounts the Fund owed the borrowers exceeded the amounts the borrowers owed the Fund. The contracts with the plan custodian require borrowers to indemnify the Fund if the borrowers fail to return the securities and if the collateral is inadequate to replace the securities loaned or fail to pay the Fund for income distributions by the securities' issuers while the securities are on loan. All securities loans can be terminated on demand within a period specified in each agreement by either the Fund or the borrowers. Cash collateral is invested in the lending agents' short-term investment pools, which have a weighted-average maturity of 90 days. The underlying fixed income securities in these pools have an average maturity of ten years. The securities lending program in which the Fund participates only allows pledging or selling securities in the case of borrower default. Accordingly, the Fund is fully indemnified against any loss of value between the securities lent and the securities held as collateral.

Governmental Accounting Standards Board ("GASB") Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, requires that securities loaned as assets be reported in the statements of plan net assets. Cash received as collateral on securities lending transactions and investments made with that cash are reported as assets. Securities received as collateral are also reported as assets if the government entity has the ability to pledge or sell them without a borrower default. Liabilities resulting from these transactions are also reported in the statements of plan net assets. Accordingly, the Fund recorded the investments purchased with the cash collateral as collateral from securities lending transactions with a corresponding liability as securities lending transactions.

Securities on loan are carried at market value, the value as of June 30, 2009 is \$69.6 million. As of balance sheet date the maturities of the investments made with cash collateral on average exceed the maturities of the securities loans by approximately 30 days.

3. INVESTMENTS AND DEPOSITS

The Comptroller of The City of New York (the "Comptroller") acts as an investment advisor to the Plan. In addition, the Plan employs an independent investment consultant as an investment advisor. The Plan utilizes several investment managers to manage the long-term debt and equity portfolios. The managers are regularly reviewed, with regard to both their investment performance and for their adherence to investment guidelines.

Concentration of Credit Risk

The Plan does not have any investments in any one entity that represent 5% or more of plan net assets.

The legal requirements for Plan investments are as follows:

a. Fixed income, equity and other investments may be made as permitted by New York State RSSL §§ 176-178(a) and Banking Law § 235, the New York City Administrative Code, and the Legal Investments for New York Savings Banks list as published by The New York State Banking Department, subject to Note 3(b).

b. Investments up to 25% of total pension fund assets may be made in instruments not expressly permitted by the State RSSL.

Bank of New York Mellon ("BNYM") is the primary custodian for substantially all of the securities of the Plan.

Cash deposits are insured by the Federal Deposit Insurance Corporation for up to \$250,000 per Plan member and are, therefore, fully insured.

Credit Risk — Portfolios other than U.S. Government and related portfolios have credit rating limitations. Investment Grade portfolios are limited to mostly ratings of BBB and above except that they are also permitted a 10% maximum exposure to BB & B rated securities. While Non Investment grade managers are primarily invested in BB & B rated securities, they can also invest up to 7% of their portfolio in securities rated CCC. Non rated securities are considered to be non-investment grade. The quality ratings of investments, by percentage of the rated portfolio, as described by nationally recognized statistical rating organizations, are as follows:

* U.S. Treasury Bonds, Notes and Treasury-inflation protected securities are obligations of the U.S. government or explicitly guaranteed by the U.S. government and therefore not considered to have credit risk and are not included above.

Custodial Credit Risk — Deposits are exposed to custodial credit risk if they are uninsured and uncollateralized. Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

Consistent with the Plan's investment policy, the investments are held by the Plan's custodian and registered in the Plan's name.

All of the Plan's deposits are insured and/or collateralized by securities held by a financial institution separate from the Plan's depository financial institution.

Interest Rate Risk — Interest rate risk is the risk that the fair value of investments could be adversely affected by the change in interest rates. Duration limits are used to control the portfolios exposure to

interest rate changes. Duration is limited to a range of -1 to .75 years. Duration range is a measure of the overall portfolio, while statements of the stated maturity reflect the specific maturities of the individual securities held. The lengths of investment maturities (in years), as shown by the percent of the rated portfolio, are as follows:

4. FUNDING

The ACNY provides that FIRE transfer to the Fund an amount equal to certain excess earnings on equity investments limited to the unfunded Accumulated Benefit Obligation ("ABO") of the Fund. Excess earnings are defined as the amount by which earnings on equity investments of FIRE exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed-income securities ("Hypothetical Fixed Income Security Earnings"), less any cumulative deficiencies. The Fund also receives credit for investment earnings on Fund assets.

The calculation of the Hypothetical Fixed Income Security Earnings requires the determination of the Hypothetical Interest Rate ("HIR"), which is computed by the Comptroller.

For Fiscal Year 2009, the excess earnings of FIRE, inclusive of prior year's cumulative deficiencies, are estimated to be equal to zero and, therefore, no transfer will be due from FIRE to the Fund as of June 30, 2009.

For Fiscal Year 2008, the excess earnings of FIRE, inclusive of prior year's cumulative deficiencies, were estimated to be equal to zero and, therefore, no transfer was due from FIRE to the Fund as of June 30, 2008.

In addition, Chapter 583 of the Laws of 1989 states that if the assets of the Fund are less than the amount required

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists-free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at <http://nyc.gov/selltonyc>

- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

The Rules may also be accessed on the City Website, <http://nyc.gov/selltonyc>

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
