ELIMINATION OF GRADE CROSSINGS ON THE FLUSHING BRANCH OF THE LONG ISLAND RAILROAD FROM LAWRENCE STREET TO BROADWAY, BOROUGH OF QUEENS.

The Secretary presented the following report of the Committee consisting of the Comptroller, the President of the Board of Aldermen, and the President of the Borough of Queens, to which this matter was referred on December 22, 1910, also a Communication from the Secretary of the Farmers' and Taxpayers' Assn., Third Ward, Borough of Queens, transmitting resolutions adopted by said Association on December 10, 1910, protesting against any plan for the elevation of the tracks either by an embankment, or an elevated structure above the street levels, from Murray Hill to a point approaching Alley Creek, East of Bayside Station; and urging that the tracks along the railroad be depressed to a reasonable and natural grade, such as shall be required in future service to the public.

December 31, 1910.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board of Estimate held on December 22, 1910, there was referred to a committee consisting of the Comptroller, the President of the

Board of Aldermen, and the President of the Borough of Queens, the matter of the elimination of grade crossings on the Flushing Branch of the Long Island Railroad, from Lawrence st. to Broadway, which Committee was to report at the next meeting of the Board.

On November 4th last, a report was submitted by the Chief Engineer of the Board outlining the discussion which had taken place before the Public Service Commission on the method of eliminating these crossings, and outlining the result of a conference held by representatives of the Public Service Commission, Engineering Staff of the Board and of the Borough President's office, and of the Railroad Company, and the Board on that date adopted a resolution instructing the Corporation Counsel to concur on behalf of the City in the plan outlined in the report of the Chief Engineer.

One week later, on November 11, upon motion of the President of the Borough of Queens, the resolution of November 4th was rescinded, and the Corporation Counsel was directed to take no final position in the matter until the Board should have given it further consideration. Nothing else was done until the appointment of your Committee at the meeting of December 22d.

We have been in conference with representatives of the owners of property in the vicinity affected by the proposed change of street and railroad grades, and while there is a general desire that the railroad tracks be depressed at all points, so that the streets may be carried over, rather than under, the railroad, it is conceded that the difficulty and expense of such a treatment would be so great that the plan outlined in the report of the Chief Engineer is probably the only feasible one. But a slight modification has been proposed and agreed to by the Railroad Company, this modification consisting of a lowering of the railroad grade and embankment east of 20th st., the maximum change being about four feet at the crossing of Broadway, and while this will necessitate the use of steeper gradients on Broadway than was contemplated in the original plan, the property owners believe that these increased gradients will be more than offset by the lowering of the embankment.

The modified plan also contemplates the use of a series of concrete arches, instead of an earth embankment between the easterly end of the bridge which will span 22d st. and Broadway and the present railway station. In other respects the treatment will be identical with that outlined in the report presented to the Board on November 4th, that is, there is no change from under to over crossing, or vice versa, in any of the streets.

Your Committee recommends that the Corporation Counsel be instructed to concur in a determination of the Public Service Commission for the elimination of grade crossings on the plan now before them with the modifications above described.

Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President of the Board of Aldermen; LAWRENCE GRESSER, President of the Borough of Queens.

On motion, the report of the Committee was adopted.

The communication and resolution from the Farmers' and Taxpayers' Association, 3d Ward, Borough of Queens, were placed on file.

The following were then ordered printed in the minutes and filed:

Case No. 1266—Final Order and Determination as to Alterations and Changes in Grade Crossings.

Proceedings for the alteration of the above named grade crossings having been instituted by the Commission by the adoption on July 22, 1910, of an order for a hearing, and notice of such hearing of more than ten days having been duly given to The City of New York and to the Long Island Railroad Company by service upon each of them of a copy of the order for hearing and more than fourteen days' notice of the hearing having been given to persons interested by publication of a notice of the said meeting in the "Long Island City Star" and in the "Flushing Times," and notices of the said hearing having been duly posted in conspicuous places, one on each side of the railroad tracks, upon or near each of the streets above named, for at least fourteen days prior to the hearing, and the said hearing having been duly held before this Commission on September 7, 1910, and by adjournments duly had on September 15, September 22, September 29, October 7, October 10, October 19, October 26, November 1 and November 4, 1910, before Mr. Commissioner Bassett, presiding; William P. Burr, William S. Clark, Esqs., Assistant Corporation Counsel, appearing for The City of New York; Joseph F. Keany, Esq., appearing for the Long Island Railroad Company; Arthur G. Peacock, Esq., appearing for the Long Island Electric Railway Company; William B. Richardson, Esq., appearing for the Upper Flushing Association; Eugene N. L. Young, Esq., appearing for Frank S. Tolman and others; I. T. Flatto, Esq., appearing for B. A. Watson; Alfred A. Birch, Esq., appearing in person and for the Cosmopolitan Realty Company; H. W. Chapin, a property owner, appearing in person and Victor A. Watson, Esq., appearing for Mrs. H. A. Robertson; Arthur DuBois, Esq., Assistant Counsel, attending for the Commission, and testimony having been taken, and the presiding Commissioner having made personal examination of the tracks, streets and localities affected and the Long Island Railroad Company, at the said hearing and in conference, having represented to and agreed with the Commission and with The City of New York that the said railroad company would bear all the expense of changes in the railroad, and in the streets, and of damage to property resulting therefrom, in excess of four hundred thousand dollars (\$400,000), its share of the expense to be, however, in no event less than one-half of the total cost of the improvement; and the Long Island Railroad Company having also represented and agreed that 18th st, Flushing, should be constructed across the railroad tracks as part of this improvement entirely at the expense of the railroad company and that the railroad company would not object on the ground of lack of necessity to the future construction across its tracks under the provisions of section 90 of the Railroad Law of any street between Murray st. and Broadway, where the necessity for the same shall have been determined by The City of New York; now, therefore, it is

Ordered and Determined—That the following alterations and changes shall be made on the North Shore Division, Port Washington Branch, of the Long Island Railroad Company, and on the following streets, avenues and highways in the Borough of Queens, City of New York:

Lawrence Street—The railroad shall cross over the street with a clearance of at least fourteen feet from the surface of the street to the lowest member of the bridge and shall span the entire width of the street; the grade of the street shall remain unchanged.

Main Street—The railroad shall cross over the street with a clearance of at least fourteen feet from the surface of the street to the lowest member of the bridge and

shall bridge the entire width of the street; the grade of the street shall remain unchanged.

Parsons Avenue, Percy Street—The railroad shall cross under the streets with a clearance of at least sixteen and one-half feet from the top of the rail to the lowest member of the bridge. The bridge shall be the full width of the present legal roadway with such additional sidewalk space as may be approved in the detailed plans; the grade of the streets at the point of intersection with the railroad tracks shall be raised two feet.

Wilson Avenue—The railroad shall cross under the street with a clearance of at least sixteen and one-half feet from the top of the rail to the lowest member of the bridge. The bridge shall be the full width of the present legal roadway with such additional sidewalk space as may be approved in the detailed plans; the grade of the street shall remain unchanged.

Boerum Avenue—The railroad shall cross under the street with a clearance of at least sixteen and one-half feet from the top of the rail to the lowest member of the bridge. The bridge shall be the full width of the present legal roadway with such additional sidewalk space as may be approved in the detailed plans. The grade of the street shall be raised not to exceed one foot above its present grade.

Murray Street—The railroad shall cross under the street with a clearance of at least sixteen and one-half feet from the top of the rail to the lowest member of the bridge. The bridge shall be the full width of the present legal roadway with such additional sidewalk space as may be approved in the detailed plans. The grade of the street shall be raised not to exceed three feet above its present grade.

Twenty-second Street—The railroad shall cross over the street with a clearance of not less than 14 feet from the surface of the street to the lowest member of the bridge and shall bridge the entire width of the street, leaving the roadway unobstructed. The grade of the street shall be depressed not more than 10 1/4 feet at the point of crossing. The street shall ascend to the south at a grade of not over 2 7/10 per cent., and shall ascend to the north at such a grade as may be necessary to meet the grade of Broadway as below provided, and from Broadway to Crocheron avenue shall ascend at such a grade as may be necessary to meet the existing grade of Crocheron avenue. The roadway beneath the railroad shall at all times be adequately lighted at the expense of the Railroad Company.

Broadway—The railroad shall cross over the street with a clearance of not less than 14 feet from the surface of the street to the lowest member of the bridge and shall bridge the entire width of the street, leaving an unobstructed roadway. The grade of the street shall be depressed not more than 10 1/4 feet at the point of crossing. The street shall ascend to the south at a grade of not over 3 per cent. and to the north at a grade of not over 3 3/10 per cent. until the grade coincides with the existing grade of the street. The roadway beneath the railroad shall at all times be adequately lighted at the expense of the Railroad Company.

All bridges shall be closed bridges and shall be constructed of steel, concrete or masonry, or a combination of these materials.

Where it is necessary to construct the railroad upon an embankment, the slopes of such embankment shall be sodded and shall be maintained by the Railroad Company in proper condition and free from rubbish, the sod on the slopes to receive proper attention at all times and at the expense of the Company.

The elevation of the tracks east of the easterly abutment supporting the bridge across Broadway shall be carried upon concrete arches.

The details of construction of all bridges, arches, retaining walls, station support, street pavement and sidewalks shall be submitted to and shall be subject to the approval of the Public Service Commission for the First District.

Further ordered and determined that this improvement be carried out in the manner provided by Sections 91 to 97, inclusive, of the Railroad Law, and that the portion of the expense to be borne by the State of New York shall in no event exceed the sum of two hundred thousand dollars (\$200,000), nor shall it exceed one-quarter the total cost of the improvement; that the portion of the expense to be borne by The City of New York shall in no event exceed two hundred thousand dollars (\$200,000), nor shall it exceed one-quarter the total cost of the improvement. The balance of the expense of improvement shall be borne by the Long Island Railroad Company.

State of New York, County of New York, ss.:

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify, that I have compared the above with the original adopted by said Commission on December 30, 1910, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission, this 4th day of January, 1911.

TRAVIS H. WHITNEY, Secretary.

State of New York, Public Service Commission for the First District.

In the matter of the hearing on the motion of the Commission on the question of alterations and changes in the following grade crossings with the tracks of the North Side Division of the Long Island Railroad Company in Flushing, namely: Lawrence street, Main street, Parsons avenue, Percy street, Wilson avenue, Boerum avenue, Murray street, 22d street, Broadway.

Case No. 1266.—Opinion.

The appropriation by the Legislature at its last session of \$200,000 for elimination of grade crossings in the Borough of Queens made it possible for the Commission to take steps for the first time to remedy the serious grade crossing situation in that borough. Under the Public Service Commission Law the Commission has authority to cause dangerous railroad crossings to be protected by gates or otherwise, and after investigations and hearings many gates have been ordered installed throughout the borough. Experience has shown that protection devices at grade crossings will lessen but not stop the happening of accidents. This is evidenced by the serious accident that took place at the Merrick road crossing in Springfield on August 23, 1910, where the premature raising of the gates appears to have been the cause of a fatal accident. Nothing short of elimination by separating the grades of the railroad and roadway is entirely effective.

The Commission can take the initiative to eliminate existing grade crossings only after an appropriation by the State is available to pay the State's portion of the work. The Railroad Law, section 94, provides that the State pay one-quarter, the municipality one-quarter and the railroad one-half of the expense. Inasmuch as the appropriation is small and the needs of grade crossing elimination in the Borough of Queens are great, it was difficult to determine where the beginning should be made. Practically every locality in Queens insisted that its dangerous crossings were most in need of attention. As the investigations of the Commission progressed it became apparent that the most pressing situation was where the Port Washington branch of the Long Island Railroad goes through the principal business and residential portions of Flushing.

This proceeding was begun on the initiation of the Commission and relates to the Flushing locality. Notice, as required by law, was given to The City of New York, the Long Island Railroad Company and to property owners affected. The public hearing was continued on 10 separate days, and when, on the 4th day of November, 1910, no one desired to produce further evidence, it was closed. The railroad, consisting of one track, approaches Flushing across the salt meadows at the southern end of Flushing Bay, crossing Lawrence street and Main street at grade. It then enters a short tunnel, and emerging from this tunnel into a cut, it runs under residential streets, and then ascending to the surface creates seven dangerous grade crossings before it enters a deep cut east of Broadway station. The Main street crossing is especially dangerous, and also an exceptional embarrassment to vehicular traffic. This street is one of the main arteries of travel in Flushing. Two lines of electric cars are on this street and the crossing is in the heart of the business district. If the Company should electrify and double-track this railroad the Main street crossing would become intolerable.

Next to the Main street crossing the crossing at Broadway is probably the most dangerous and troublesome. Broadway is a largely used thoroughfare, connecting the Douglaston, Little Neck and Great Neck localities with Flushing and Manhattan. All of the crossings are dangerous, and being situated in the center of a highly developed part of the Borough of Queens, they constitute a danger to the public and a menace to proper development. There is need of increasing the capacity and improving the running time of the Port Washington branch. This will require the electrification and double-tracking of the line. Other streets will need to be constructed from time to time in this locality, and there is no doubt that the proper time to order the elimination of these grade crossings is now, before the reconstruction of the railroad takes place. Opinions of engineers in behalf of the citizens, the Commission, the City and the railroad have been given in the hearing. Inspections have been made of the locality and all plans proposed have been carefully considered.

No difference of opinion has arisen as to the method of eliminating the crossings between the Bay and Murray street, being the westerly three-fourths of the proposed improvement. The railroad will be carried over Lawrence street and Main street, then under five streets, the grades of both railroad and streets being well adapted to this treatment. A difference of opinion arose between the engineers and some of the citizens residing in the locality of Broadway. The engineers of the City, the railroad and the Commission consider that it is necessary to elevate the tracks for a distance of about 2,000 feet between Murray street and the deep cut which lies at the easterly end of the proposed improvement. For the greater part of the distance the embankment will be slight, not exceeding 5 or 6 feet, but at Broadway the tracks will be raised about 8 feet above their present level. At the beginning of the hearing there was an emphatic protest made by the residents of this and nearby localities against the proposed elevation on the ground that it cut a beautiful residential locality in two, destroyed the lines of sight, left buildings below grade, and in general depreciated the appearance and value of the entire region. As the subject was more carefully studied, it appeared that the depression of the railroad would make it necessary to elevate Broadway and all of the streets that pass over the railroad in this locality. All new streets would also need to be elevated. Some of the street grades necessitated would be as high as 6 per cent. Houses now on grade would in many cases be submerged in their relation to the streets on which they front. Careful investigations were pursued to ascertain whether the depression could not be made so deep that these elevations of roadways could be prevented, but at this point the question of drainage became the controlling factor. The engineers reported that there was no way to drain the depression if it were made so low that the streets could pass over without embankments. It became apparent that the elevation of the railroad would produce about 2,000 linear feet of embankment, whereas the depression of the railroad created 6,500 feet of embanked roadway. Some of the roadway embankments would need to be as high as 15 feet. If the tracks were depressed at this point another serious element would be introduced into the problem. The railroad cut between the Broadway station and Auburndale is already 25 feet deep, and the depressed plan would necessitate its being deepened 15 feet more. This would either produce a cut so deep and wide as to be a great defacement to the entire neighborhood, or else retaining walls of unusual size would need to be constructed.

The total cost of the improvement if the tracks are elevated at Broadway has been estimated to exceed \$1,000,000. The Long Island Railroad Company states that it will pay all of the cost thereof over and above \$200,000 to be paid by the State and \$200,000 to be paid by the City. The railroad will therefore pay considerably more than one-half of the expense. In case the tracks are depressed at Broadway on the 0.2 per cent. plan, the entire cost of the improvement will be over \$1,300,000. The railroad company stated in the hearing that it would not be willing to pay the cost of this over and above the \$400,000 contributed by the State and City. Of course it would be possible to carry the improvement to a point at about Murray street, leave Broadway and 22d street to continue as grade crossings and thus reduce the total cost to \$800,000. Then some future State appropriation would be needed to eliminate the dangerous Broadway crossing and the matter would need to be gone over again at additional expense to the State and City. This might be worth while if a practicable plan of depression at this point could be devised, but after careful study on the part of the Commission's Engineers and careful consideration by the Commission of all plans that have been proposed the conclusion is that there is no practicable plan of depression of the tracks at this point.

It is to be regretted that the necessary embankment of the railroad if the tracks are elevated, or of the streets if the tracks are depressed, must take place in this beautiful residential section. Nevertheless, public safety is of prime importance, and it is better that this work should be done now before buildings are more numerous and adapted to fixed street grades that would sooner or later need to be altered. The elevation of the tracks will not in the opinion of the Commission be more unsightly than the more extensive elevation of the streets would be if the tracks were depressed. The elevation of the tracks will cause less damage to private real estate than the other plan.

The Commission, when it approves the detailed plans of the railroad for the proposed elevation of tracks at Broadway and 22d street, intend to see that neat retaining walls are placed at the foot of the embankment west of 22d street, and that the elevation of the tracks east of Broadway shall be supported by artistic and substantial concrete arches.

To sum up the advantages of elevating the tracks at this point: (1) the street crossings will have better grades for vehicular traffic; (2) the drainage problem is cared for; (3) the City and State at an expense of \$200,000 each obtain the elimination of nine grade crossings instead of seven grade crossings and railroad grades are left suitable for the opening of new streets; (4) damage to private property is less.

Many points of a technical nature are omitted from this discussion, but the report of Edward G. Connette, Transportation Engineer, dated November 28, 1910, may be referred to to show the method whereby the details have been worked out.

In conclusion, it is the opinion of the Commission that the existing grade crossings in question should be eliminated by passing Lawrence and Main streets under, by passing Parsons avenue, Percy street, Wilson avenue, Boerum avenue and Murray street over and by passing 22d street and Broadway under the railroad tracks, the details of construction to be approved by the Commission.

Respectfully submitted,

EDWARD M. BASSETT, Commissioner.

Proposed Form of Contract.

This contract, made this day of 19 , by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and Conron Bros. Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree, as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate certain conduits with the necessary branches and extensions therefrom, leading directly into private property, for the sole purpose of supplying refrigeration to consumers, provided that no conduit be of a greater outside diameter than twelve (12) inches, including insulation or other covering; the same to be constructed and operated only beneath the surface of such of the streets, avenues and highways situate within the Borough of Manhattan, City of New York, as are included within the district bounded and described as follows:

On the north by the centre line of West 134th street, west of the centre line of 12th avenue, and the centre line of West 132d street, east of the centre line of 12th avenue; on the west by the easterly line of the marginal street, wharf or place, as adopted by the Commissioner of Docks February 27, 1907, approved by the Commissioners of the Sinking Fund April 3, 1907, and laid down on the maps of the Department of Docks and Ferries; on the south by the centre line of West 129th street, west of the centre line of 12th avenue, as extended to the centre line of West 129th street, and the centre line of West 130th street, east of said centre line of 12th avenue as extended; on the east by the centre line of 12th avenue, from the centre line of West 134th street to the centre line of West 132d street, the centre line of Broadway from the centre line of West 132d street to the centre line of West 130th street, and the line which would be formed by the extension of the centre line of 12th avenue from the centre line of West 130th street to the centre line of West 129th street. Said district being more particularly shown by red lines on a map, entitled:

"Map showing district applied for by Conron Bros. Company to accompany petition dated May 25, 1910, to the Board of Estimate and Apportionment, City of New York."

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right to construct, maintain and operate said conduits shall be held and enjoyed by the Company for the term of fifteen (15) years from the date upon which this contract is signed by the Mayor, with the privilege of renewal of said contract for the further period of ten (10) years, upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuation so ascertained, fixed and determined shall be conclusive upon both parties but no annual sum shall in any event be less than the sum required to be paid for the last year of the original term of the contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

(a) The sum of six hundred and fifty dollars (\$650) in cash within one (1) month after the date on which this contract is signed by the Mayor, and before anything is done in exercise of the privilege hereby granted.

(b) During the first term of five years an annual sum which shall in no case be less than two hundred and fifty dollars (\$250), and which shall be equal to two (2) per cent. of its gross annual receipts, if such percentage shall exceed the sum of two hundred and fifty dollars (\$250).

During the second term of five years, an annual sum which shall in no case be less than three hundred and fifty dollars (\$350), and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of three hundred and fifty dollars (\$350).

During the third term of five years, an annual sum which shall in no case be less than five hundred dollars (\$500), and which shall be equal

to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of five hundred dollars (\$500).

The gross receipts mentioned above shall be the total receipts from all business of furnishing refrigeration to consumers.

(c) An annual payment of twenty-five cents (\$0.25) for each linear foot of conduit constructed within the limits of any street, avenue or highway, excepting, however, such conduits as are constructed within the vault space or vault spaces of any building or buildings used or occupied exclusively by the Company for the purpose of its business.

An annual payment of two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on February 1 of each year and shall be for the amount due to December 31, next preceding. Provided that the annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and December 31 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before February 1 in each year for the year ending December 31 next preceding.

(d) Before any rights hereby conferred are exercised by the Company and within one (1) month from the date on which this contract is signed by the Mayor, the Company shall pay to the City the sum of seven hundred and fifty dollars (\$750); said amount being due the City by reason of the unauthorized occupation of the streets by the Company or its predecessors.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payments for refrigerating rights or franchises at a different rate and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the streets and avenues mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all conditions of this contract, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding; and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant any individual, firm or other corporation a similar right or privilege upon the same or other terms and conditions, in the same streets and avenues, or within the district hereinbefore described.

Fifth—The rights and privileges hereby granted shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the conduits and appurtenances of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its conduits and appurtenances constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Seventh—The grant of this privilege is subject to whatever right, title or interest the owners of the real property or others may have in and to the streets and avenues in which the Company is hereby authorized to operate.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Manhattan and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of the conduits, connections, manholes and other appurtenances, and the mode of protection of all subsurface construction under the streets and avenues in which the Company is hereby authorized to operate.

Ninth—Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the conduits of the Company, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Tenth—It is agreed that the right hereby granted shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the conduits and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of one thousand dollars (\$1,000), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-fifth—The words "streets or avenues" and "streets and avenues" wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," included in the district hereinabove described, and under the surface of, or in which authority is hereby given to the Company to construct or maintain its conduits.

Twenty-sixth—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned shall be transferred by law to any other Board, authority, officer or officers, then and in such case such other Board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authority, officer or officers.

Sec. 3. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or a certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in

the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrows, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
