MESSAGES FROM HIS HONOR THE MAYOR.

No. 2684.
City of New York, Office of the Mayor,
November 30, 1903.

To the Honorable the Board of Aldermen of The City of New York:

I have the honor of transmitting to you herewith copies of letter from the Fire Commissioner, dated November 23, 1903, together with the reports of the Chief of the Fire Department and the Chief of the Thirtieth Battalion, attached thereto, calling attention to the necessity for effective measures to be taken to protect the third rail on the elevated structures in the boroughs of Manhattan, The Bronx, Brooklyn and Queens, with a view to relieving the members of the Fire Department from the jeopardy in which they are now placed when in the performance of their duties.

I would respectfully invite your earnest consideration of the matters therein set forth, in order that some action may be taken to provide against the danger to which Firemen are exposed.

SETH LOW, Mayor.

(Copy.)

Fire Department, City of New York.

Nos. 157-159 East Sixty-seventh street, Borough of Manhattan,
November 23, 1903.

Hon. SETH LOW, Mayor of The City of New York, City Hall, Borough of Manhattan:

Sir—I forward herewith, for your information, a copy of report from the Chief

of Department wherein he calls attention to the necessity for effective measures to be taken to protect the third rail on the elevated structures in the Boroughs of Manhattan and The Bronx, Brooklyn and Queens, so that, when members of the Uniformed Force are compelled to fight fires therefrom their lives may not be placed in jeopardy; and also a copy of report from Chief of Battalion John J. Dooley of the Thirtieth Battalion, Borough of Brooklyn, of the death of two persons and injuries to a number of others during a fire on the 19th inst., caused by the electric current on the elevated railroad structure on Fifth avenue, between Thirtieth and Thirty-first streets, Borough of Brooklyn.

A copy of Chief Purroy's report was forwarded to August Belmont, Esq., President of the Interborough Rapid Transit Company, controlling the Manhattan Company system, on the 9th inst., who acknowledged the receipt thereof, promising further reply, but I have received no further information as to their intentions.

Some action should be taken without delay by the officials of the railroad companies to so protect the third rail that danger of contact may be removed and loss of life prevented. The company has recently removed the inner guard rail, making the situation more dangerous.

Respectfully,

(Signed) THOMAS STURGIS, Commissioner.

Fire Department—City of New York,

Borough of Manhattan, October 24, 1903.

Hon. THOMAS STURGIS, Fire Commissioner:

Dear Sir—As the result of an investigation made of the elevated structure, under my direction, by the chief officers in the boroughs of Manhattan and The Bronx, Brooklyn and Queens, I have the honor to report that conditions at present existing are such as to cause great danger and probable loss of life to members of this Department, who, at different times, have occasion to use said railroad structure in order to properly and promptly extinguish fires in buildings contiguous to such structure.

From an inspection made of the third rail system on the structures of the Second, Third, Sixth and Ninth avenue lines, located in the First Battalion District, I find that the inside wooden guard strip has been removed from the third rail on these lines, with a view of placing a scraping device to remove snow and ice; the inner guard strip has also been cut down on a level with the third rail at all curves on the Sixth avenue line. This will permit men, hose, etc., to come in contact with the third rail whenever this Department is working at fires from the elevated structure, and is a positive menace to the lives of the firemen.

From an inspection of the third rail system running from City Hall through Park row and the Bowery, and from the Bowery through Pearl street to New Bowery, Division and Allen streets, all intersecting at Chatham square, I find that the third rail system was formerly protected by an inner and outer strip, both of which extended above the third rail and reduced the liability of contact by either men or appliances.

While the removal of the inner strip allows the brushes attached to the car trucks to effectively clear the third rail from accumulation of snow and ice, at the same time it dispenses with a safeguard.

I also find that the elevated system extending through West Broadway, from Canal to Third streets, is not safeguarded at the curves, nor at West Broadway and Third street where one side of the wooden plank is on a level with the rail; and on the Bowery branch the third rail is safeguarded on one side only, by a continuous wooden planking that projects about two inches above the top of the rail, which I consider a very insufficient safeguard.

On the elevated road extending through the Fourth, Fifth, Sixth, Eighth, Ninth, Tenth, Eleventh, Twelfth and Sixteenth battalions, which, with the territory mentioned above, comprises the greater part of The City of New York, situate and lying between the Battery and City Hall, the same conditions exist, namely, having one side of the third or power rail entirely exposed.

On the elevated structure in Ninth avenue, from Fourteenth to Thirtieth streets, where the section has three separate tracks, and each track a distinct and separate third rail, the safeguard has been removed from both sides of each of the three third rails.

In the boroughs of Brooklyn and Queens I find that there are not, nor have there ever been provided, any safeguards whatsoever, and the third rail system in those boroughs in its present condition is a source of absolute danger to the lives of members of this Department, whenever they have occasion to endeavor to extinguish fires from said structure.

I would, therefore, respectfully recommend that a statement of the conditions now existing be laid before the Board of Aldermen, and also the State Railroad Commission, with a view of compelling the railroad authorities to provide at once such proper safeguards as will adequately protect the lives of members of this Department.

I would also recommend, in addition to the above appliances to be provided, that, as all stations of said elevated railroad have direct telephonic communication with the auxiliary power stations, and as these auxiliary stations are equipped, or should be equipped, with circuit breakers by which they can immediately cut out the section of track where the Department may intend to operate, it would tend to lessen the danger if, in addition to the telephone calls now in use, a message regarding circuit breaking be also sent from the nearest elevated railroad station, and that a definite direct answer be received from the auxiliary station, that the third rail has been placed in such condition as to insure the positive safety of members of this Department when working thereon.

In addition to the above I would also recommend that all members of engine companies be provided with at least two pairs of rubber gloves, to be used by the men handling the hose on the structure.

In my opinion it is absolutely necessary that some decisive step, in the direction as herein suggested, be taken by the proper authorities to compel the railroad owners to properly safeguard the third rail of their systems in such a manner as to fully protect the lives of members of this Department who are compelled at different times to conduct their operations from said railroad structures.

Very respectfully,

(Signed) CHAS. D. PURROY, Chief of Department.

Fire Department, City of New York, Office of Deputy Chief in Charge, Boroughs of Brooklyn and Queens.

Brooklyn, November 20, 1903.

CHARLES D. PURROY, Chief of Department:

Sir—In compliance with section 43, Rules and Regulations of 1898, I respectfully report investigation of the death and injuries occurring at Station 3-165, at 5.21 p. m. on the 19th inst., on the electric elevated trains on elevated structure, location Fifth avenue, east side, between Thirtieth and Thirty-first street. Upon my arrival at fire, found same under full headway, owing to the considerable delay in sending in of alarm, and was so informed by citizens at fire. Also informed of same by people in cars. Upon the arrival of Hook and Ladder Company 64, ordered same to raise extension ladder to elevated structure and proceed to same. It was impossible to enter cars owing to the intense heat and flame. After considerable hard work, was able to enter cars, and after working through same found the bodies of John Cahill, motorman, aged 38 years, of No. 258 Fiftieth street, and Patrick Cahill, conductor, age unknown, of No. 466 Prospect avenue, pinned down by wreck and burned beyond recognition. Also the following persons were injured by collision of trains and attended by ambulance surgeon:

Nathan Welaush, age 22, of No. 63 East Fourth street, New York.

Morris Stone, age 50, of No. 10 West One Hundred and Thirteenth street, New York.

Charles Hart, age 54, of No. 253 Fifty-seventh street.

Mannie Freedman, age 28, of No. 324 Henry street, New York.

Philip Tellamp, age 48, of No. 511 Graham avenue.

William Cook, age 23, of No. 522 Central avenue.

Notified upon my arrival at fire, by Officer Hyland, of 43d Precinct, that he had sent in ambulance call.

Respectfully forwarded,
(Signed) JOHN J. DOOLEY, Chief of 30th Battalion.

PETITIONS AND COMMUNICATIONS.

No. 2685.

Hon. CHAS. V. FORNES:

Dear Sir—In connection with the ordinance in relation to rules of the road and the regulation of street traffic, permit me to call your attention to what seems to have been overlooked in the drawing up of the ordinance—that is, the manholes in the streets used by the different companies for electric lights, telephone wires and other purposes. In a busy street there is no greater obstruction than these manholes while open, surrounded by an iron guard, the cover on the street beside it, the men working around it, makes a solid obstruction to traffic, and, in my opinion, one that needs regulating more than the moving of vehicles. The men who work in and around them think they own the streets and never hesitate to assert that belief whether it is a pedestrian or a business vehicle comes in his way. An amendment should be offered compelling the work necessary to be done in the streets to be done before 8 o'clock in the morning and after 5.30 in the evening.

Article 5, section 1, is clearly against the law as laid down by the Court of Appeals, which has decided that the use of skids across the sidewalks, except in cases of absolute necessity, is unlawful.

Trusting that before any one of the ordinances in the Committee of the Board is adopted one can be drawn up which will do away with the use of the manholes and skids, neither of which are a necessity. I remain,

Yours truly,
L. J. CALLANAN.

Rochester Chamber of Commerce.

At a meeting of the Trustees of the Rochester Chamber of Commerce held Thursday, November 19, 1903, the following preamble and resolutions were unanimously adopted:

The Chamber would be pleased to have you favorably consider same.

JOHN M. IVES, Secretary.

Whereas, Largely through the efforts of the Rochester Chamber of Commerce, the majority of nearly 200,000 by the State, practically unanimous outside of New York City and Buffalo, against building the thousand ton barge canal, which would do away with our present canal and prevent building a suitable deep waterway for the State and Nation, cannot be interpreted as unfavorable to proper waterway development; and

Whereas, The greater majority obtained in Greater New York, where the opposition was made largely on an appeal for commercial supremacy and against railroad discrimination, and what other nations had done with their canals (mainly ship canals), and that the bargeway was the best possible solution, can also only be interpreted as a desire for proper waterway development; and

Whereas, The State has signified its desire for new waterways and authorized an expenditure of \$101,000,000 therefor; and

Whereas, Other States are equally interested in the adequate waterway from the lakes to the seaboard, and the Federal Government has surveyed a 21-foot deep waterway through, costing but \$200,000,000, and yet carrying the 9,000-ton vessel in half the time and at half the freight rate of the bargeway, and such deep waterway alone meets the commercial and naval requirements of the State and Nation; and

Whereas, A new method of electric towing and other devices make our canals wholly serviceable for present needs, and equal to the 10,000,000 ton capacity of the proposed bargeway, without such huge expense; and

Whereas, So huge a project, and the largest appropriation by any State or Nation for a single object, should not be hastily inaugurated; therefore

Resolved, That the Rochester Chamber of Commerce respectfully petitions the Governor and Legislature of this State to a careful consideration of the above premises, to the end that earnest effort be made to secure such co-operation between the State and Federal Government as shall secure deep waterways through New York State; and be it further

Resolved, That this Chamber respectfully presents to the President and Congress of the United States that the State of New York has authorized new waterways at an expenditure of \$101,000,000, and that if the Nation should meet it on some co-operative basis, the 21-foot navigation system of the Great Lakes as already surveyed, could be extended to New York City, making these practically an arm of the sea and thus furthering the commercial and naval supremacy of the Nation.

Which was ordered on file.

The Vice-Chairman laid before the Board the following communication from the Board of Rapid Transit Railroad Commissioners:

No. 2689.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York, 30th November, 1903.

To the Honorable the Board of Aldermen of The City of New York:

The Hudson and Manhattan Railroad Company, hereinafter called the Tunnel Company, is a railroad corporation, incorporated under the laws of the State of New York, for the purpose of constructing and operating a tunnel railroad in The City of New York, to be connected with a railroad or railroads within the State of New Jersey, and thereby forming a continuous line for the carriage of passengers and property between a point or points within and a point or points without the City, and more particularly a tunnel railroad having its eastern terminus in the easterly portion of the blocks bounded by Greenwich, Cortlandt, Church and Fulton streets, in Manhattan Borough in the said City; and thence extending westwardly and to be connected with a railroad or railroads in the State of New Jersey, and thus forming a continuous line for the carriage of passengers and property between such easterly terminus of the said railroad of the Tunnel Company within the City and points along the lines of such railroads in the State of New Jersey.

The Tunnel Company, pursuant to section 32 of chapter 4 of the Laws of 1891, as amended by chapter 584 of the Laws of 1902, which entire statute, as amended by various acts, as is now in force, is hereinafter called the Rapid Transit Act, made application to the Board of Rapid Transit Railroad Commissioners for The City of New York, hereinafter called the Board, for authority to lay railroad tracks along a certain route within the City, and to have and maintain therein a terminal station, and to acquire in the City terminal and other facilities necessary for the accommodation of the traveling public, and to construct and operate its railroad along the said route and under lands, streets, avenues, rivers, highways and public places in the City, with necessary sidings, platforms, stations, facilities for access to the surface and other appurtenances, and with the right to emerge to the surface upon private lands at the terminus thereof in Manhattan Borough, all as set forth in the certificate dated November 24, 1903, hereinafter more particularly referred to, and to transport over the said railroad passengers or freight, or both. The Board on the 24th day of November, 1903, by a concurrent vote of more than six of its members as follows, Alexander E. Orr, John Clafin, Woodbury Langdon, Charles Stewart Smith, Morris K. Jesup, Seth Low, Mayor, and Edward M. Grout, Comptroller, fixed and determined the locations and plans of construction of said railroad of the Tunnel Company upon such route and all such tracks and facilities, the times within which they shall be respectively constructed and the compensation to be paid therefor to the City by the Tunnel Company, and also prescribed such terms, conditions and requirements as to the Board appeared to be just and proper for the grant in question, including the terms, conditions and requirements provided by the Rapid Transit Act, and including among them a provision that the Tunnel Company shall from the time of the commencement of the operation of such railroad under the determination of the Board annually pay to the City a sum or rental for a period of twenty-five years beginning with such operation, and also providing for a readjustment of the amount of such sum or rental at the expiration of such period and at intervals thereafter of twenty-five years. The said locations, plans of construction and compensation to the City, and terms, conditions and requirements are fully set forth in the certificate dated November 24, 1903, a copy of which is transmitted herewith. A copy of a written instrument duly executed and acknowledged by the Hudson and Manhattan Railroad Company, accepting the franchise contained in the said certificate and all the terms, conditions and requirements thereof, is annexed to said certificate and is also transmitted herewith. The views of the Board with reference to the aforesaid application and certificate are stated in the communication to the Board, dated July 9, 1903, made by a Special Committee of the Board, composed of Alexander E. Orr, Chairman, Charles Stewart Smith and Edward M. Grout, Comptroller, a copy of which is transmitted herewith. Since such report was made the form of the franchise has been changed in two respects only, there having been added to article 9 a provision as follows:

"In case at any time, in the opinion of the Board, the Tunnel Company shall fail to carry out the foregoing provision, in any proceedings which may be instituted by any proper authority to compel a compliance therewith, the burden of proof shall be upon the Tunnel Company to show that it is discharging the duties and obligations imposed by this section."

This has been added in order that if and when there shall be any controversy whether the holder of the franchise performs its full duty to the public, the public shall have the advantage of devolving the burden of proof upon the holder of the franchise. The other change has been in adding to article 14 a provision which puts it beyond doubt that, in case of any merger of a corporation owning the franchise, the new or consolidated or merged corporation shall be subject to all the obligations of the franchise. The Board believes that it is for the interest of the public and of the City of New York that the necessary constitutional consents to the construction and operation of the said railroad of the Tunnel Company should be obtained as soon as possible.

In witness whereof, the Board of Rapid Transit Railroad Commissioners for The City of New York has caused its official seal to be hereto affixed and these presents to be signed by its President and Secretary this 1st day of December, 1903.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS FOR THE CITY OF NEW YORK,

(Seal.)

BION L. BURROWS, Secretary.

By A. E. ORR, President.

Hudson and Manhattan Franchise.—Report of Committee.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York. July 9, 1903.

To the Board of Rapid Transit Railroad Commissioners:

Your Committee, to whom was referred the application of the Hudson and Manhattan Railroad Company, respectfully reports that, in its opinion, the application should be granted upon proper terms. Your Committee has prepared the form of franchise herewith submitted, including terms which the committee consider to be proper. The railroad company is prepared to accept such franchise, and in the opinion of your Committee it is to the interest of the City that it should be granted.

Your Committee has received satisfactory assurance of the pecuniary responsibility of the Railroad Company, and submits herewith the letter of W. G. McAdoo, giving details upon that subject. The essential features of the proposed franchise are these:

First—A grant by the City in perpetuity and subject to periodic adjustment of payments to the City at intervals of twenty-five years each, of rights as follows:

(a) To construct and operate a railroad for the carriage of persons and property, consisting of two tracks, beginning at a point in the boundary line between the States of New York and New Jersey, under the Hudson river, opposite the foot of Cortlandt street, in the Borough of Manhattan, and thence proceeding easterly under the river and dock and bulkhead property to West street at the foot of Cortlandt street, thence crossing under West street and proceeding under and along Cortlandt street, crossing under Washington and Greenwich streets to a point in Cortlandt street west of, and near the westerly line of Church street, and thence curving northwardly under private property and crossing under Dey street, and thence again under private property to Fulton street west of, and near the westerly line of Church street, thence curving to the west into Fulton street, and thence proceeding under and along Fulton street, crossing under Greenwich, Washington and West streets, and under dock and bulkhead property, and under the Hudson river to a point in the boundary line between New York and New Jersey nearly opposite the foot of Fulton street.

(b) To maintain a terminal and station in the easterly portion of the blocks bounded by Greenwich, Cortlandt, Church and Fulton streets, in the said borough, the same being private property, and to use for such terminal and station and tracks and for sidings and connections the underground portions of Cortlandt, Dey and Fulton streets, contiguous to such terminal.

(c) To maintain a subway for foot passengers from such terminal under and along Dey street, crossing under Church street and Broadway to John street, so as to connect at Broadway with the station of the Brooklyn-Manhattan Rapid Transit Railroad.

(d) To run upon the railroad motors and cars and to use thereon all suitable railroad appliances; also to maintain and operate telegraph wires, cables, conduits and

ways for distribution of power, heat and light and other appurtenances for use of the railroad.

But such grant to be subject to the limitation and conditions hereinafter prescribed. Second—The requirement of the consent of the proper municipal authorities and also of abutting property owners on the street or the consent of the Supreme Court in lieu of such consent of property owners.

Third—The obligation of the company to begin construction within three months after obtaining the necessary consents and to complete the railroad within five years after construction shall begin.

Fourth—Payments by the company to the City for the first twenty-five years as follows:

(a) A charge of \$100 per annum for the right to enter the City, including the approaches from the west to the pier line.

(b) A charge for the right within the pier line and for underground portions of streets and for the passenger subway under Dey street and Broadway at the rate of 50 cents per linear foot of single track or subway per annum for the first ten years and of \$1 per annum per linear foot during the next fifteen years.

(c) A charge for the underground portions of Cortlandt, Dey and Fulton streets near the terminal station, and where the company's tunnel construction comes within 16 feet and 8 inches of the surface, at the rate of 40 cents per superficial square foot per annum for the first ten years, and of 80 cents per annum per superficial square foot for the next fifteen years.

(d) A further annual sum for tunnel rights under the street of 3 per cent. of the gross receipts of the New York portion of the railroad for ten years and 5 per cent. for the next fifteen years. Such gross receipts are fixed for the first twenty-five years at \$300,000 per annum, whether in fact such gross receipts shall be more or less.

Such annual payments are estimated by Mr. McLean, the Comptroller's expert, as follows:

Schedule.		
	First 10 Years.	Next 15 Years.
For entrance or river right	\$100 00	\$100 00
For rights under dock property, streets in Manhattan, and for the passageway to the easterly side of Broadway (on the estimated basis of 3,650 feet of single track and 520 for the passageway), at 50 cents per foot per annum for ten years and \$1 per annum for the next fifteen years	2,050 00	4,100 00
For street or vault rights in Cortlandt, Dey and Fulton streets contiguous to terminal station, estimated at 4,742 feet, at 40 cents per square foot per annum for ten years and 80 cents per square foot per annum for the next fifteen years	1,896 80	3,793 60
Note—This is to be increased for the space under Cortlandt and Fulton streets and east of Greenwich street where the railway approaches within 15 feet of the surface, such space being considered as vault space.		
Additional payment for tunnel rights under streets	9,000 00	15,000 00
In all estimated per annum but subject to increase as above	\$13,046 80	\$22,993 60

The amounts of the charges are to be readjusted at the end of twenty-five years. If the City and Company shall not then agree, the readjusted rates are to be determined by the Supreme Court.

Fifth—The railroad to be entirely in tunnel except at the terminal station which is to be on property privately owned or controlled by the Company and is to include, besides, the underground contiguous portion of Cortlandt, Dey and Fulton streets. No part of the railroad structure except its terminal station shall approach within 5 feet of the exterior line of any street, and the uppermost part of the tunnel shall not approach nearer than 16 feet 8 inches to the surface of any street except that in Cortlandt and Fulton streets, between the easterly side of Greenwich street and the terminal station, the tunnel may, according to grade necessity approach to within not less than 3 feet 6 inches of the surface. The Company to properly care for sewers, water, gas and other underground structures lawfully in the street, and at its own expense to keep properly paved the portion of Dey street contiguous to its terminal station. The subway for foot passengers under Dey street and Broadway not to exceed in width, over all, 15 feet; and no part of it to approach within nearer than 24 feet to the surface of the street, such subway to be placed wherever in the street shall be required by the Board. The Board and the City to have the right to alter the location of such subway, or if it should be needed for municipal purposes to entirely close it; and in case of entire closing no allowance to be made to the Company except the abatement of the charge per linear foot for such subway.

Sixth—The company to make good all damage done to property of the City and to make good to abutting owners all damage resulting from any fault or negligence of the company, or of any contractor or employee in the construction or operation of the railroad.

Seventh—Tunnel excavation to be done without disturbing the surface of the streets, except the portions of Cortlandt and Fulton streets adjoining the terminal; but the Board may, wherever local conditions make surface excavation necessary for efficient construction, permit such excavation. The tracks to be of the most approved plan to avoid noise or tremor. The plans and method of doing the work to be subject to the approval of the Board.

Eighth—The motive power to be electricity or such other power not involving combustion in the tunnel, as may be approved by the Board.

Ninth—The Company to have no power to carry on local traffic.

Tenth—The railroad to be diligently and skilfully operated with due regard to the convenience of the traveling public.

Eleventh—The City to have a lien upon the franchise and real property of the Company under the river and streets to secure payment of rental charges.

Twelfth—The rights of the City to be enforceable by action for specific performance, mandamus or otherwise.

Thirteenth—The Company not to oppose but, upon the request of the Board, to consent to the construction of any rapid transit railroad over, along or under any portion of any of the streets to be occupied by the railroad which shall not actually interfere with the structure authorized by the franchise.

Fourteenth—The City to have ample right of inspection and of entry upon the railroad.

Fifteenth—The company to so strengthen all parts of its railroad under streets so that the same shall support safely any structure superimposed by public authority.

Sixteenth—The company to have the right to convey or mortgage the franchise, but every grantee, whether directly or under the mortgage, to assume the obligations already assumed by the company, and no grant to relieve the company of its obligation.

The Board will observe that in general this franchise follows closely the franchise already granted to the New York and Jersey Railroad Company, the terms of which were minutely and carefully considered by the Board, and this committee needs to add little to what was said in its report to the Board, dated 1st July, 1902, upon that franchise.

Substantially the same justification for a perpetual grant exists in this case as existed in the New York and New Jersey case. The tunnel authorized by this franchise at the west ends at the boundary line between the States of New York and New Jersey, and from that line west the tunnel must be continued under the authority of New Jersey. It is obvious that the New York grant is susceptible of use only in connection with the New Jersey part of the tunnel under the Hudson river. If the New York grant were limited, then at the end of the limited term the grant would be of no use or advantage to the City. A readjustment of rental charges at 25-year intervals will in cases like this give the City all the practical advantage of a limitation of the life of the grant.

The charge per square foot for vault space is 40 cents for the first ten years and 80 cents for the next fifteen years, as against 11 cents and 22 cents for the same period in the New York and New Jersey franchise. But the theory upon which the charges are settled is the same in each case. In the present franchise the abutting property is

of proportionally larger value than was the abutting property upon Greenwich, Christopher and West Tenth streets in the New York and Jersey franchise. The theory of the Board is that the street spaces should be valued relatively to the value of the abutting property.

The tunnel company has desired, and it is the interest of the traveling public, that there should be easy communication between the company's terminal station and the proposed rapid transit station at Broadway and Dey street. This can be accomplished only by a subway for foot passengers extending from the company's terminal station on the west side of Church street, under Dey street, to the subway station on the west side of Broadway, and under Broadway to the subway station on the east side of Broadway. The Committee, however, does not think that the City should be absolutely committed to this grant. The proposed franchise provides therefore that in case any municipal necessity shall arise then, upon the requirement of the Board or the City, the location under the streets of such passenger subway shall be changed or, if necessary, such subway entirely closed and surrendered. So long as a footway is used the company will pay for it at the same rate as for a single track of railroad.

Respectfully submitted,

A. E. ORR,
CHARLES S. SMITH,
EDWARD M. GROUT,
Committee.

Board of Rapid Transit Railroad Commissioners for The City of New York to Hudson and Manhattan Railroad Company.

Certificate, November 24, 1903.

The Board of Rapid Transit Railroad Commissioners for The City of New York does hereby certify as follows:

Whereas, The Hudson and Manhattan Railroad Company (which is hereinafter called the Tunnel Company) is a railroad corporation which has been duly incorporated under the laws of the State of New York for the purpose, so declared in its articles of association, of constructing and operating a tunnel railroad from a point at or near the intersection of Broadway with Cortlandt street in The City of New York (hereinafter called the City), and thence, by a feasible route, beneath the surface in the City and under the bed of the Hudson river to a point under the waters of the Hudson river in the boundary line between the States of New York and New Jersey (opposite a point lying between Liberty and Fulton streets, in the Borough of Manhattan, in the City), where the said railroad is to connect with the railroad of a corporation organized or to be organized under the laws of New Jersey, extending westwardly to a point or points in the city of Jersey City and State of New Jersey, and thereby forming a continuous line for the carriage of passengers and property between a point or points within and a point or point without The City of New York; and

Whereas, The Tunnel Company, pursuant to section 32 of chapter 4 of the Laws of 1891, as amended by chapter 584 of the Laws of 1902 (which entire statute as amended by various acts and as now in force is hereinafter called the Rapid Transit Act) has made application to the Board of Rapid Transit Railroad Commissioners for The City of New York (which is hereinafter called the Board) for authority to lay railroad tracks along a certain route from its terminal in the City westwardly to the Hudson river, and to have and maintain in the City a terminal station and such terminal and other facilities as may be necessary for the accommodation of the traveling public, and to construct and operate its railroad along the said route and under lands, streets, avenues, waters, rivers, highways and public places in the City, with necessary sidings, platforms, stations, facilities for access to the surface and other appurtenances, and with the right to emerge to the surface upon private lands at the terminus thereof in Manhattan Borough, all as hereinafter particularly set forth, and to transport over the said railroad passengers or freight, or both; and

Whereas, The Board by a concurrent vote of at least six of its members has fixed and determined the locations and plans of construction of such railroad of the Tunnel Company upon such route and of such tracks and facilities, the times within which they shall be respectively constructed, and the compensation to be paid therefor to the City by the Tunnel Company; and

Whereas, The Board, by such concurrent vote, has prescribed such terms, conditions and requirements as to the Board appear to be just and proper for the grant hereby made to the Tunnel Company, including the terms, conditions and requirements provided by the Rapid Transit Act, and has included among them a provision that the Tunnel Company shall from the time of the commencement of the operation of such railroad under such determination, annually pay to the City a sum or rental for a period of twenty-five years, beginning with such operation, and also providing for a readjustment of the amount of such sum or rental at the expiration of such period and at intervals thereafter of twenty-five years,—

Now therefore the Board has authorized and does hereby authorize, but subject, however, to the limitations, terms, conditions and requirements hereinafter set forth, the Tunnel Company—

1. To lay down, construct and operate a railway, including two tracks, on a route beginning at the boundary line between the States of New York and New Jersey under the Hudson river at a point nearly opposite the foot of Cortlandt street, in the Borough of Manhattan; thence running eastwardly under the Hudson river and dock or bulkhead property on the easterly bank thereof, whether belonging to the City or to other owners, to the westerly side of West street at a point opposite or nearly opposite or at the foot of Cortlandt street; and thence still eastwardly crossing under West street, and thence still eastwardly under Cortlandt street, crossing under Washington street and Greenwich street, to a point in Cortlandt street west of and at or near the westerly line of Church street, and thence curving northwardly and passing under private property and crossing under Dey street and thence again under private property to Fulton street west of and at or near the westerly line of Church street; thence curving to the west into Fulton street; thence westwardly under Fulton street, crossing under Greenwich street, Washington street and West street, and thence still westwardly to the westerly side of West street, and thence still westwardly, under dock or bulkhead property on the easterly bank of the Hudson river, whether belonging to the City or to other owners; and thence still westwardly under the Hudson river to a point in the boundary line between the States of New York and New Jersey, nearly opposite the foot of Fulton street.

2. To acquire and maintain a terminal and station in the easterly portion of the blocks bounded by Greenwich street, Cortlandt street, Church street and Fulton street, in Manhattan borough, the same being private property, or so much thereof as the Tunnel Company may find necessary and be able to acquire, and also to occupy for said terminal and station all or any parts of the underground portions of Cortlandt, Dey and Fulton streets, in Manhattan borough, contiguous to its said terminal station in said blocks, and to lay and operate therein such tracks, sidings and connections as may be found convenient for the operation of the railroad.

3. To build, maintain and operate a subway for foot passengers under Dey street, from the said terminal and station at the westerly side of Church street to Broadway, and thence crossing under Broadway to John street, to connect the terminal and station of said company with the station of the Rapid Transit Subway at Dey street and John street and Broadway, and there connecting with the stairways leading from such subway stations to the surface of Dey and John streets. But nothing in this subdivision contained shall imply any obligation on the part of the City to provide or maintain any such station of the Rapid Transit Subway.

4. To run upon said railways (all of which railways upon the route aforesaid, together with the said terminal stations and facilities, and all their appurtenances, are together hereinafter called the railroad) motors, cars and carriages for the transportation of persons and property, and to use thereon and in connection therewith all suitable railroad appliances.

5. To maintain and operate under the streets of the routes aforesaid and along the lines of the said railways composing the railroad, for the use of the railroad only, telegraph wires and wires, cables, conduits and ways for the distribution of power, heat and light and other appurtenances.

6. To acquire and use for stations or station extensions, power plants, pumping stations, shafts for access to the surface and other necessary purposes of the railroad, private property as the same may be lawfully acquired within the scope of the corporate rights and powers of the Tunnel Company.

The rights herebefore granted to maintain and operate the railroad or necessary or convenient for that purpose shall be held by the Tunnel Company in perpetuity, except as may be herein otherwise expressly provided.

Provided, however, and it is expressly agreed that this authorization and the

rights and privileges hereby granted are subject to certain limitations, terms, conditions and requirements which appear to the Board to be just and proper, and as so subject are hereinafter called the Franchise hereby granted. The said limitations, terms, conditions and requirements are hereby prescribed as follows, to wit:

I. This certificate will be executed by the Board in four identical originals, so proved as to be entitled to be recorded in the office of the Register of the County of New York and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Board to the President, Vice-President, Secretary or Treasurer of the Tunnel Company. The franchise hereby granted shall be inoperative and this certificate shall be void unless within thirty days after such delivery or such further period as shall be prescribed in writing by the Board, the Tunnel Company shall have procured three of the said identical originals to be returned to the Board, each of them having an acceptance of the franchise and all the limitations, terms, conditions and requirements thereof subscribed at the foot thereof by the Tunnel Company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

II. The franchise hereby granted shall, if the Board shall so determine, become void unless within three calendar months after the time of the delivery to the Board of the acceptance of this certificate by the Tunnel Company, that company shall, in due and lawful form, obtain or receive all the consents and approvals following, to wit:

1. The consent of the Board of Aldermen of the City, being the local authority having the control of the portions of the streets and highways upon or under which it is proposed to construct the railroad, together with the approval of the Mayor of the City.

2. The consents of the Department of Docks and Ferries and the Commissioners of the Sinking Fund of the City, if and so far, if at all, as such consents or either of them may be necessary to the construction, maintenance and operation of the railroad, or any part thereof, under docks or other property belonging to The City of New York.

If it shall appear that any consent herein required is not necessary, the Board shall have power to waive the same, and in such case the franchise hereby granted shall be deemed as effectually granted as if the consent were given. So also if the Tunnel Company shall surrender or waive any right for which a consent cannot or shall not be obtained, then and in such case the Board shall have power to waive the procurement by the Tunnel Company of such consent; and in such case the franchise hereby granted shall not, except as to such right, be prejudiced by the absence of such consent.

The franchise hereby granted shall, if the Board shall so determine, become void unless within one year after the time of the acceptance of this certificate by the Tunnel Company, that company shall further and in due and lawful form, obtain the consent of the owners of one-half in value of the property bounded on the portion of each street under or through which the railroad or any part of the route thereof runs, to the construction and operation of the railroad, or such part thereof, or in case the consent of such property owners cannot be obtained then the determination of commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department that the part of the railroad under or through said street ought to be constructed and operated, the said determination of such commissioners, when confirmed by the Appellate Division which shall have appointed such commissioners to be taken in lieu of such consent of property owners, provided, however, and it is expressly stipulated, that the Board shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

If the Tunnel Company shall be diligent in prosecuting applications for the consents aforesaid, and shall not have secured the same other than such, if any, as shall have been so waived, within the period of one year after its acceptance as aforesaid of this franchise, then and in such case the Tunnel Company shall, after a written notice of three months to the Board, be released from its obligations hereunder unless within such three months such consents shall have been given.

III. The Tunnel Company shall begin the construction of the railroad within three months after it shall have obtained the consents aforesaid or such of them as shall be necessary as aforesaid and shall not have been waived as aforesaid, and shall complete the construction of the railroad within five years after such construction shall be begun.

In case the Tunnel Company, within the period of three months after it shall have obtained the consents necessary as aforesaid, shall not have begun the actual construction of the railroad, or if, after having begun such construction, it shall suspend the same prior to the completion thereof for a period exceeding three months, or if it shall not complete such construction and begin the operation of the railroad within the said period of five years, then and in either of such cases the Board, upon a written notice to be delivered to the Tunnel Company not less than three months before the action of the Board, may annul the franchise hereby granted as to any part of the railroad not then completed and in operation; provided, however, that the Board shall have the power, upon reasonable cause shown, to extend by written order any of the periods in this article prescribed; and provided, further, that additional time shall be allowed by way of extension of any period for such commencement of construction or for the completion thereof, or for the commencement of operation of the railroad equal to the total period of delay caused by injunction or by necessary proceedings for condemnation of real estate, easements or other property, so far as such proceedings shall necessarily prevent the Tunnel Company from prosecuting such construction, but no delay to be so allowed for unless, during the same, such proceedings shall be diligently prosecuted by or for the Tunnel Company; and provided, further, that in no case shall such delay be deemed to begin until the Tunnel Company shall have given written notice to the Board of the injunction or other order and of the papers upon which the same shall have been granted, and unless, upon the request of the Board, the Tunnel Company shall in writing consent that the Board, either in its own name as a party or in the name of The City of New York as a party, may intervene in any such injunction proceedings, or other suit or proceeding; and provided, further, that in case of annulment of any part of the franchise the Tunnel Company shall have no right to any return of payments which it shall have made to the City by way of rental or otherwise.

IV. The Tunnel Company shall pay to the City for the rights, franchises and licenses hereinbefore granted to construct and maintain its said railways under the bed of the Hudson river outside of the pierhead lines, or so much of the railway as shall be thereunder, the sum of one hundred dollars (\$100) for each year beginning on the date on which the Tunnel Company shall first commence the actual operation of the railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day twenty-five years next thereafter.

The Tunnel Company shall pay to the City for the rights, franchises and licenses hereinbefore granted to construct, maintain and operate its said railways under the docks and bulkheads belonging to the City (and including all space occupied between any pierhead line and the part of West street, Cortlandt street or Fulton street nearest thereto under which said railroad shall be laid) for each year beginning on the date on which the Tunnel Company shall first commence the actual operation of the railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, a sum equal to fifty cents (50 cents) per annum for each linear foot of single railway track which shall be then constructed or which the Tunnel Company shall be bound to have then constructed under such docks and bulkheads, and the sum of one dollar (\$1) per annum per linear foot of such tracks for the period beginning on the last day of the said period of ten years and ending on the day fifteen years next thereafter.

The Tunnel Company shall pay to the City for the rights, franchises and licenses in and under streets hereinbefore granted from West street to the underground street spaces east of Greenwich street, for which it shall pay a rate per square foot of superficial area as in the next paragraph of this article provided, and for the right to maintain a subway for foot passengers under Dey street and Broadway, the sum of fifty cents (50 cents) per annum for each linear foot of single railway track, or of such subway,

which shall be then constructed or which the Tunnel Company shall be bound to have then constructed under any such streets, or parts of streets, within The City of New York during the period beginning on the day when the Tunnel Company shall first commence actual operation of the railroad (but not later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, and the sum of one dollar (\$1) per annum for each linear foot of such tracks and such subway for foot passengers under Dey street and Broadway during the period beginning on the last day of such period of ten years and ending on the day fifteen years next thereafter.

The Tunnel Company shall pay to the City for the underground portions of Cortlandt, Dey and Fulton streets, in Manhattan Borough, contiguous to its terminal station and for the portions of Cortlandt and Fulton streets in which its tunnel shall approach within fifteen feet of the surface of the street a sum equal to forty (40) cents per superficial square foot of space occupied under the streets per annum, such rental to begin on the day of the commencement of construction therein by the Tunnel Company (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such construction) and to continue during the period of ten years next thereafter, and a sum equal to eighty (80) cents per superficial square foot of space occupied under the streets per annum for the period of fifteen years next after such first period of ten years.

The Tunnel Company shall pay to the City for the right under streets of the City hereinbefore granted the further sum of nine thousand dollars (\$9,000) per annum for each year, beginning on the date on which the Tunnel Company shall first commence the actual operation of the railroad (but such date not to be later than the last day on which the Tunnel Company shall be bound to begin such operation) and ending on the day ten years next thereafter, and the sum of fifteen thousand dollars (\$15,000) per annum (the same being five per cent. per annum on such gross earnings as so fixed) for the period beginning on the last day of the said period of ten years and ending on the day fifteen years next thereafter. Such annual sum of \$9,000 is three (3) per cent., and such annual sum of \$15,000 is five (5) per cent. on the gross earnings of the New York portion of said railroad, said gross earnings being estimated and fixed for the purposes of this grant at three hundred thousand dollars (\$300,000) per annum for the period of twenty-five years from the date on which the Tunnel Company shall first commence the actual operation of the railroad, but such date not to be later than the last day on which the Tunnel Company shall be bound to begin the actual operation of the railroad.

All such payments shall be made to the Comptroller of the City in equal payments at the end of each quarter year on the 1st days of January, April, July and October in each year.

The annual amounts to be paid by the Tunnel Company as aforesaid shall be readjusted at the end of the first period of twenty-five years, and shall thereafter be adjusted at intervals of twenty-five years. The annual amounts to be paid by the Tunnel Company for each and every period of twenty-five years after such first period shall be determined as follows, to wit: Each such determination shall be had upon the application of either the Tunnel Company or the Board or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the preceding period of twenty-five years. The determination shall be sufficient if agreed to in writing by the Tunnel Company and the Board or such other authority in its place. If the Tunnel Company and the Board or such other authority in its place for the City shall not reach such agreement on or before the day one year before the expiration of such preceding twenty-five years period, then the annual rate of compensation for such succeeding twenty-five years period shall be reasonable; and either the City (by the Board or such other authority in its place) or the Tunnel Company shall be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable; and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by the Supreme Court of the State of New York to be reasonable; and either party may in any case apply to the said Court to fix such rate. If, in any case, the annual rate shall not be fixed prior to the commencement of such succeeding twenty-five years period, then the Tunnel Company shall pay the annual rate last theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. But in no case shall any amount so readjusted be less than the corresponding amount in force at any time during the preceding period of twenty-five years.

V. The railways forming part of the railroad, where the same shall occupy parts of streets, shall be in tunnel or tunnels under the streets, and the Tunnel Company may construct the railways under the Hudson river and under West, Cortlandt and Fulton streets hereinbefore mentioned in tunnels containing one or more tracks, as it may find most advantageous.

No part of the structure of the railroad, except its terminal station, shall approach within five feet of the exterior line of any street (except such portions of the streets which it shall cross as are within or between two lines parallel with the centre line of the street along which the route is laid at such cross street, one of such lines being five feet from one side and the other of such lines being five feet from the other side of such street of the route), unless the abutting property shall be owned by the Tunnel Company, or unless the owner or owners of the property so abutting shall consent. The tunnel or tunnels, except as hereinbefore limited, may be placed in such places under the streets as may be found most convenient. The uppermost part of any tunnel under any of said streets shall not approach nearer than sixteen feet and eight inches to the surface of any street except that in Cortlandt street and Fulton street between the easterly side of Greenwich street and the said terminal station the tunnel may, according to the necessities of its grade, approach within not less than three feet and six inches of the surface, and in the said terminal station and under Dey street the top of the tunnel may approach within not less than three feet and six inches, and in the portions of Cortlandt, Dey and Fulton streets opposite the said terminal station the top of the tunnel may come within not less than three feet and six inches of the surface of the roadway or sidewalk.

The Board or the City shall have the right to remove or authorize the removal of any part of the roof of any such tunnel on Greenwich street for convenience in construction of any structure authorized above such tunnel in said street, but in such case such removal shall take place without interference with the operation of the railroad and said roof shall be rebuilt by or under the authority of this Board or City as speedily as possible, and the cost of such removal and rebuilding shall be borne by the City.

Such Subway for foot passengers under Dey street and Broadway shall not exceed in width over all fifteen feet; nor shall any part of it approach within nearer than twenty-five feet of the surface of the street. It shall be placed under such portion of the street as shall be required in writing by the Board. If, after it shall be built, any railroad or other use which the Board or the City shall propose for the portion of Dey street or Broadway occupied by such subway shall make necessary or convenient an alteration in the position of such subway either laterally or by raising or lowering the same, then such alteration shall, upon the requirement of the Board or City, be forthwith made by the Tunnel Company, or if thereupon the Tunnel Company shall not forthwith make such alteration, then the same may be made by or under the authority of the Board or the City, and in such case the Tunnel Company shall pay the cost of such alteration. Or if any such railroad or other use so proposed by the Board or City shall necessitate the entire closing of such subway, the same may be closed by or under the authority of the Board or the City, and the space occupied thereby applied to such use so proposed by the Board or City. In case of any such alteration or closing of such subway there shall be no reduction in the amounts or rentals to be paid to the City as aforesaid except that in case of total closing, the annual charge of 50 cents or \$1 per linear foot of such subway shall not be made.

Provided, however, and it is expressly stipulated that the Tunnel Company shall in the course of construction at its own expense maintain and care for all underground structures; and any necessary interference with underground structures shall be subject to reasonable regulation by the department of the government of the City in control or charge thereof.

The Tunnel Company shall at all times, by suitable bridging or other supports, maintain and support in an entirely safe condition for their usual service and to the reasonable satisfaction of the owners, all elevated railroad structures, street tramways of whatever character, water and gas mains, steam pipes, pneumatic tubes, electric subways, sewers, drains, and all other surface or subsurface structures encountered during

the progress of the work. The sidewalks, curbs areas and stoops along the line of the work must also be protected from any injury; but should any injury occur to any sidewalk, curb, area or stoop, the Tunnel Company shall fully restore the same to as good a condition as existed before the injury was done. Notice is to be given by the Tunnel Company to all companies or persons and the proper City officials owning or having charge of surface or subsurface structures along any part of the work, of its intention to commence operations along such part of the route, at least one (1) week in advance, and the Tunnel Company shall file with the Board at the same time a copy of said notice; and it shall co-operate with the proper officers or officials or other persons lawfully in charge of such structures and shall furnish them with all reasonable facilities to inspect the methods of caring for their property. Whenever it becomes necessary to cut, move, change or reconstruct any such surface or subsurface structures or connections therewith, such work shall be done according to the reasonable satisfaction of the owners of such pipes or other structures or such persons lawfully in charge thereof, and, should they so desire, by the owners themselves, but at the expense of the Tunnel Company—such expense not to exceed the actual cost of labor and materials used, together with a reasonable allowance for the use of plant and tools not exceeding seven and a half (7½) per cent. All such work of reconstruction or alteration of surface or subsurface structures if performed by the City or owners or persons lawfully in charge thereof, shall be done with reasonable dispatch and facilities are to be provided so that said work shall interfere as little as possible with the practical working and use of the railroad of the Tunnel Company. The failure of the City or other such owners or persons lawfully in charge of such structures to make such alterations within what the Board shall determine to be a reasonable time may be considered by the Tunnel Company as a waiver on the part of the City or other such owners or persons of the priority of right to do said work. In the event of the City or other such owners or persons, being required to make any alteration to their surface or subsurface structures as above provided, or in case the City or such owners or persons shall consider it necessary or desirable to make any further alterations in, or do any work to or in connection with surface or subsurface structures owned by or lawfully in charge of them, or any of them, at the time the work of the Tunnel Company shall be in progress, the Tunnel Company shall give said City or other owners or persons all reasonable opportunity to make such alterations or perform such work.

The Tunnel Company shall at all times keep paved with smooth pavement in such manner as may be reasonably required by the municipal authorities having care of the streets and shall at all times keep in thoroughly good condition that portion of Dey street adjoining or contiguous to the terminal station of the Tunnel Company.

The Tunnel Company shall make good to the City all damage which shall be done to the property of the City by the construction or operation of the railroad and shall make good to every owner of property abutting upon the railroad, or which shall be injured by the work of construction or by operation thereof, all damage which shall be done to such abutting or injured property through any fault or negligence of the Tunnel Company or successor thereof or of any contractor, sub-contractor or other person in the course of any employment upon the construction or operation of the railroad or any part thereof.

The method of construction shall be generally as follows: The tunnels under rivers and streets shall be constructed in whole or in part of masonry or of steel or of iron or any two or more thereof combined. Excavations necessary in the course of construction by the Tunnel Company shall be made without disturbing the surface of the streets, except the portions of Cortlandt, Dey and Fulton streets adjoining the terminal station aforesaid; provided, however, that the Board may, wherever elsewhere local conditions make excavations from the surface necessary for efficient construction, grant the right to make such excavations from the surface, subject to such conditions as the Board may prescribe.

The tracks shall be constructed of the most approved plan so as to avoid noise or tremor.

All plans for, and the method of doing, the work shall from time to time be subject to the approval of the Board.

VI.

The power to be used shall be electricity or such other power (not involving combustion in the tunnel) as may be approved by the Board.

VII.

The plan and profile of the railroad herewith attached are to be deemed a part of this franchise and to be construed with the text hereof. The same shall be substantially followed, but deviations therefrom not inconsistent with the other provisions hereof may be permitted by the Board.

VIII.

The Tunnel Company shall have no power to carry on merely local traffic unless with the approval of the Board and the Board of Aldermen and Mayor of the City, and for such additional consideration to be paid to the City as they shall prescribe. Local traffic shall be deemed to include the carriage of passengers or freight between the terminal station of the Tunnel Company and any point in The City of New York, or between stations within said City.

IX.

The railroad shall be diligently and skilfully operated, with due regard to the convenience of the traveling public, so long as the franchise hereby granted shall remain in force. In case at any time, in the opinion of the Board, the Tunnel Company shall fail to carry out the foregoing provision, in any proceedings which may be instituted by any proper authority to compel a compliance therewith the burden of proof shall be upon the Tunnel Company to show that it is discharging the duties and obligations imposed by this section.

X.

The City shall have a lien upon the franchise and upon the real property of the Tunnel Company under the said river and streets to secure the payment of such compensation and rental.

In case of any failure to make such payments as herein prescribed, the lien aforesaid may be enforced by the Board or by any authority which shall be authorized to act for the City in place of the Board, either by entry, foreclosure or other proper proceeding and by sale of such franchise and real property.

The Board may, in its own name, or in the name and behalf of the City, bring action for specific performance, or may apply by mandamus, to compel the performance by the Tunnel Company of the duties and obligations hereby imposed upon the said company, or any of them. And the Board may, in behalf or in the name of the City, bring action or proceedings to recover possession of any part of the property of the City to be used by the Tunnel Company as aforesaid, or to enforce the said lien of the City, or to enforce any part of this contract in the manner provided by section 9 of the Rapid Transit Act, or any other proper action or proceeding.

XI.

The Tunnel Company will not at any future time oppose, but shall at any time upon the request of the Board consent to, the construction of any railroad over, along or under any portion of any of the said streets to be occupied by the railroad of the Tunnel Company aforesaid, where the same shall not actually interfere with the structure of the Tunnel Company as herein authorized.

The City reserves the right at any time hereafter but upon the terms and subject to the limitations hereinafter prescribed, to require a readjustment or alteration of the location of the said tunnel of the Tunnel Company within the limits of Cortlandt and Fulton streets and of the location of the portion of the terminal station under Dey street. Such right is to be exercised only when some rapid transit railroad or other municipal use of such streets shall be of materially greater importance than the cost and inconvenience incident to such readjustment or alteration. No such readjustment or alteration shall be so made as to preclude the operation of the railroad of the Tunnel Company, upon the route granted by this franchise, provided, however, that such readjustment or alteration shall be within the right of the City if it involves no more than practicable alteration of grade or other alteration or readjustment which, although involving a less degree of convenience in the operation of the railroad, shall not in any respect substantially, and more than temporarily, obstruct such operation. In case the City shall so require any such readjustment or alteration, the same shall be done at the expense of the City, and the Tunnel Company shall be indemnified by the City against all loss of every character resulting from such alteration or readjustment, including loss from any suspension of traffic, delay or other damage incident thereto.

XII.

The City, the Board and all duly authorized representatives of the City, shall have the right at all reasonable times to inspect the railroad and any part thereof, and to enter thereon when necessary for the examination, supervision or care of any property of the City or for any proper purpose.

XIII.

The Tunnel Company shall, from time to time, maintain and strengthen all parts of the railroad which shall be under any street or avenue, so that the same shall safely support any structure superimposed or which shall be superimposed thereon by the City or under its authority or under any other public authority.

XIV.

The Tunnel Company shall have the right to grant, convey, mortgage, assign or transfer the franchise hereby granted, provided, however, that every grantee, assignee or transferee thereof, not including, however, a mortgagee or mere lienor, but including any purchaser upon foreclosure of or under or by virtue of any provision of any mortgage or lien, shall be a corporation subject to the laws of the State of New York, and shall upon accepting the grant, assignment or transfer and before such grant, assignment or transfer shall be valid, assume and agree to perform all of the obligations which by the provisions hereof are assumed by the Tunnel Company, and that no such grant, conveyance, assignment or transfer shall relieve the Tunnel Company of its obligations hereunder. And provided further that, in case the Tunnel Company or any successor or future owner of the franchise shall be consolidated with or merged into any other corporation, the obligations of the Tunnel Company or such successor or future owner hereunder shall remain unaffected and this franchise shall pass to such new corporation only if the agreement or act of consolidation or merger shall effectively provide that the new consolidated or merging corporation shall assume all such obligations or if such act or agreement shall not so provide, then if and when such new consolidated or merging corporation shall in writing expressly assume such obligations, it being the express intention of this franchise that no change in the incorporation of the Tunnel Company or of any such successor or future owner or in the ownership or control of the franchise hereby granted or of any part thereof, shall diminish or affect the obligations of the holder of the same.

XV.

If, at any time the powers of the Board shall be transferred by law to any other Board, officer or officers, then and in such case such other Board, officers or officer shall have the power, rights and titles herein reserved to or prescribed for the Board.

In witness whereof this certificate has been prepared by the Board of Rapid Transit Railroad Commissioners for The City of New York by and upon the concurrent vote of at least six of the members of the said Board, and is now attested by its seal and by the signature of its president, who is its presiding officer, and by the signature of its secretary, this 24th day of November, 1903.

SPECIAL ORDERS.

Alderman Meyers called up Special Order No. 60, being a report and ordinance, as follows:

No. 733.

The Committee on Laws and Legislation, to whom was referred on June 10, 1902 (Minutes, page 640), the annexed ordinance amending the Revised Ordinances of The City of New York in respect to contracts with The City of New York, respectfully

REPORT:

That section 356 of the Revised Ordinances of 1897 is in conflict with the provisions of section 418 of the revised Greater New York Charter, as appears from the opinion of the Corporation Counsel, hereto annexed. The proposed ordinance remedies this defect.

They therefore recommend that the said ordinance be adopted.

The following communication from the Corporation Counsel was read:

Law Department—Office of the Corporation Counsel,
New York, April 4, 1902.

To the Board of Estimate and Apportionment:

Sirs—I am in receipt of a communication from your Secretary dated March 25, 1902, asking my advice as to the authority of your Board to remit the penalty for overtime charged against Patrick G. Hannan under his contract for constructing a sewer in Longfellow street, Borough of The Bronx, and asking my advice at the same time as to the procedure to be observed in the matter. The President of the Borough of The Bronx, in a report dated March 21, 1902, states that the Chief Engineer in charge of sewers reported that Mr. Hannan had exceeded his contract time and allowance by sixty-four and one-half days. The Chief Engineer recommended the remission of this overtime on three separate grounds set forth in his report.

The only provision of the Charter which relates at all directly to the question raised by your Secretary is contained in section 418 and is as follows:

"It shall not be lawful for the Board of Aldermen to release any contractor with the City, or with any of the departments, boards, bureaus or officers thereof, from any fine or penalty incurred under his contract, save upon the unanimous recommendation of the Board of Estimate and Apportionment. And it shall not be lawful for the Board of Aldermen to extend the time for the performance of any such contract save upon the unanimous recommendation of the Board of Estimate and Apportionment."

Neither the Municipal Assembly nor its successor has adopted any resolution or ordinance prescribing the procedure to be followed in order to bring before the former Board of Public Improvement (in whom was vested by section 424 of the last Charter the power now vested in the Board of Estimate and Apportionment by section 418 of the present Charter) or before your Board the question of remitting a charge for "overtime." This charge is ordinarily regulated and defined by the liquidated damage clause contained in the usual City contract.

Section 354 of the revised ordinances of the former Mayor, Aldermen and Commonalty of The City of New York requires the insertion in City contracts of the time within which the work thereunder is to be completed, and section 356 vests in the head of Department having jurisdiction of the contract the power to extend the contractor's time so fixed for completing such work. These sections are still in force by virtue of section 41 of the Charter.

I think the Legislature intended by section 418 of the Charter above quoted to give the Board of Estimate and Apportionment authority to recommend to the Board of Aldermen, but only by unanimous vote, the remission of a charge against a contractor for overtime. Final action, however, rests with the Board of Aldermen. But it does not necessarily follow that the question of remitting overtime rests exclusively with the Board of Aldermen. The head of the Department having jurisdiction over a contract has power, under section 356 of the Revised Ordinances, to extend a contractor's time so as virtually to remit or forgive any charge against him for overtime. I think the underlying motive for the enactment of section 418 of the Charter was to provide for an appeal from the refusal of a head of Department to remit overtime, and to guard against hasty or ill-considered action on the part of the Board of Aldermen upon such an appeal.

Section 418 of the Charter, therefore, may be deemed to permit an appeal to the Board of Estimate and Apportionment by a contractor who feels aggrieved at the refusal of a head of a Department to extend his time for completing work under his contract so as to avoid a charge of overtime against him. While no procedure whereunder the matter may be brought to the attention of the Board of Estimate and Apportionment has been prescribed either by the Charter or ordinance of the Board of Aldermen, yet this omission does not prevent the Board from acting upon an application presented by a contractor. I think such an application may be presented to the Board either directly by a contractor or through the head of Department having jurisdiction over the contract. In either case, the Board should cause an investigation to be made of the matter, and naturally this investigation would take the form of requesting a report upon the application by the head of Department and his subordinate or subordinates in immediate charge of the work. The Board could, in its discretion, grant a hearing to the contractor upon the application. It would generally be advisable for it so to do. Upon consideration of the matter, if the Board should conclude that the application should be granted, it should, by resolution, unanimously adopted, recommend to the Board of Aldermen the remission of the overtime. This recommendation could take substantially the following form:

"Resolved, That the Board of Estimate and Apportionment unanimously recommends to the Board of Aldermen that the penalty or liquidated damages for overtime incurred by _____ under his contract, dated _____ for _____ be remitted, and that the said _____ be released therefrom."

On the other hand, if the Board should, upon consideration, conclude not to make such recommendation, an appropriate resolution could be adopted. In any case, the contractor and the head of Department should be informed of the action of the Board, and a careful minute should be made, showing such action in sufficient detail, especially where a hearing may have been granted to the contractor. The documents and other papers which the Board may have had before it when considering the application should be included in the minutes, so that a complete record may be kept in like manner as other proceedings of the Board are preserved.

Respectfully yours,

G. L. RIVES, Corporation Counsel.

AN ORDINANCE amending the Revised Ordinances of The City of New York in respect to contracts with The City of New York.

ARMITAGE MATHEWS, JAMES COWDEN MEYERS, JOHN H. BEHRMANN, ERNEST A. SEEBECK, JR., FRANK L. DOWLING, NOAH TEBBETTS, Committee on Laws and Legislation.

Which, on motion of Alderman Meyers, was placed on file. Alderman Meyers called up Special Order No. 133, being a report and ordinance as follows:

No. 1971.

The Committee on Laws and Legislation, to whom was referred on April 21, 1903 (Minutes, page 210), the annexed ordinance in favor of regulating contracts, etc., respectfully

REPORT:

That, having examined the subject, they believe the proposed ordinance to be necessary. They therefore recommend that the said ordinance be adopted.

AN ORDINANCE regulating contracts for public works or supplies, and agreements in relation thereto, by which The City of New York shall be liable to pay money.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. All supplies to be furnished, or work to be done for The City of New York, whether they are to be paid for out of the City Treasury or out of trust moneys under the control of, or to be assessed or collected by the corporation, shall be furnished or performed under written contract, except as is otherwise provided by law.

Sec. 2. The several departments, boards and officers empowered by law to make contracts on the part of The City of New York shall issue invitations for bids or proposals therefor by public notices and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments, boards or officers, an appropriate box, to be designated "bid box," with a proper opening in the top thereof, to receive bids or proposals for which invitations have been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department, President of the Borough or Board or appropriate officer. It shall be the duty of the appropriate officer to have deposited in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, immediately on the receipt thereof by him.

Sec. 3. The invitations for bids or proposals shall be in such form as may be prescribed by the board or officer making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope on or before a day and hour therein named, not less than ten (10) days from the first publication thereof.

2. They shall state the quantity and quality of supplies, or the nature or extent, as near as possible, of the work required, or a reference to specifications or schedules where the quantity and quality of supplies or the nature and extent, as near as possible, of the work, is stated.

3. They shall state that the bids or proposals received will be publicly opened by the head of the department or board or other appropriate officer issuing the public notice, at his office, at a day and hour therein mentioned.

4. They shall state the amount of security which is required for the performance of the contract, which amount may either be stated as a definite sum or as not less than a certain percentage of the bid or proposal.

5. They shall state the time or period within which the work must be done or the supplies furnished.

Sec. 4. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.

2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested, the bid or proposal shall distinctly state that fact.

3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.

4. A statement that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, in, or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

Sec. 5. No bid or proposal will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check, or money as required by law. The certified check or money shall be either enclosed in a separate envelope from the envelope containing the bid or proposal, or shall be submitted personally upon the presentation of the bid or proposal.

Sec. 6. Each bid or proposal shall be accompanied by the consent in writing of (2) householders or freeholders of The City of New York, or of a responsible guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal, they, or it, will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they or it will pay to The City of New York any difference between the sum to which he would be entitled upon its completion and that which the City may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished and by which the bids are to be tested.

Sec. 7. The sealed envelope containing the bid or proposal shall be endorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be taken from the "bid box" or the sealed envelope thereof opened by any one except at the time and in the manner herein designated for deciding on such bids or proposals. At the time and place appointed for that purpose in the public notice, as prescribed in this ordinance, the head of the department or other officer or officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be

examined at that time, as may appear from the endorsements thereon, shall be taken from said box. The said head of department or other officer or his deputy shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice and shall reject all bids or proposals not furnished in conformity with the law and the ordinances relating thereto and the requirements thereof. The award of the contract shall be made according to law.

Sec. 8. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished, or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department or other officer issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department or office, within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department or office for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Whenever samples or plans and specifications are required to be prepared and furnished to the head of the department or officer at least ten (10) days shall be given for the furnishing of such sample and for the preparation of such specifications and plans.

Sec. 9. Except as herein otherwise provided, in all contracts for work for The City of New York where provision is made for the payment of the contract price by installments a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed.

Sec. 10. In all contracts for the performance of work or the furnishing of supplies the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein.

Sec. 11. In all contracts for work for the City upon any public building or on any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify The City of New York for damages or costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance or care of the work.

Sec. 12. Every contract for supplies or work for the City shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath, in writing, of the persons signing the same as surety, that each is a householder or freeholder in The City of New York, and the oath of such persons or of an officer of such company that he or it is worth the amount of the security required for the completion of the contract and stated in a public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths deputed by him, in respect to the items and details of the property, before approving the adequacy and sufficiency of such sureties. The several departments of the City government and officers aforesaid, by which every and each contract for work to be done or supplies to be furnished for the City shall be made in pursuance of this ordinance, shall have power, and it shall be their duty, to require and enforce the faithful execution of each and every contract so made by them; and in case a contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors, provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made, may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof.

Sec. 13. Whenever any contract shall be made hereafter by any of the departments or officers aforesaid of the City the amount whereof is to be afterward collected by assessment from the property benefited by the work to be done under said contract, it shall be the duty of the head of Department, or officers aforesaid making such contracts, to cause to be inserted therein a clause, that as the work progresses payments will be made to the contractors by monthly installments of seventy per cent. (70 per cent.) on the work performed, provided the amount of work done on each installment shall amount to one thousand five hundred dollars (\$1,500), and the head of Department, or officer making such contracts, shall forthwith file a copy thereof with the Comptroller.

Sec. 14. Whenever any payment shall become due on any contract, according to the provisions thereof or in accordance with any of the provisions of this ordinance, it shall be the duty of the head of department or officer aforesaid having such work in charge, to furnish to the person or party entitled to such payments a certificate, in writing, specifying the contract upon which such payment is due and the amount due under such contract.

Sec. 15. It shall be the duty of the Comptroller on the presentation of such certificate to him to pay the amount thereof and endorse such payment upon, or file with the contract on account of which such payment is made; but no payment shall be made under such contract beyond the amount of such certificate, and the final payment thereon shall not be made until the head of department or officer aforesaid having such work in charge, shall furnish the Comptroller, who shall file the same in his office, a certificate signed by the head of such department, or officer aforesaid, that the work mentioned in such contract has been completed according to the terms of said contract, and to the satisfaction of the head of department or officer giving such certificate.

Sec. 16. Each and every contractor for a public improvement shall be required to have an affidavit from a City Surveyor, setting forth the amount of work done of every description that may be charged for under said contract, and said affidavit shall be attached to any assessment list that may be based in whole or in part on said contract. The Inspector shall also furnish an affidavit attached to each contract that the work is done according to the plans and specifications, said affidavit to be attached to each assessment list before presentation for confirmation.

Sec. 17. No payment shall be made by the Comptroller for work done or supplies furnished except upon proper vouchers rendered by the head of the appropriate department, or other proper officer, board or commission, for whom such work was done or supplies furnished. Such vouchers shall be made out in triplicate, and shall contain the certificates of such subordinate officers as the head of the department and the Comptroller may require, and shall be of such form and purport as the Comptroller shall prescribe, and also a certificate of the head of the Department, or said officers. One of the triplicate vouchers shall be retained in the Department or office by which the vouchers are rendered and another shall be transmitted to the Department of Finance for payment, and the third shall be delivered to the contractor or his proper representative. A receipt for the amount paid shall be taken upon the vouchers sent to the Department of Finance.

Sec. 18. All meetings of the boards or commissions constituting departments of the City government of The City of New York for the transaction of public business shall be held openly, and shall in all cases be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such departments, and due notice thereof shall be published daily in the "City Record."

Sec. 19. All ordinances of the former municipal and public corporations consolidated into The City of New York, in relation to regulating contracts for work and supplies and receiving proposals for furnishing the same, and all other ordinances inconsistent herewith, are hereby repealed; but such repeal shall not affect existing contracts or advertisements already published for the whole or a part of the period required, nor any vested rights created by ordinances of any municipal or public corporation now forming a part of The City of New York.

Sec. 20. This ordinance shall take effect immediately.

By Alderman Downing—

No. 407B McDonough Street,

Brooklyn N. Y., November 28, 1903.

Hon. ROBERT F. DOWNING, No. 201 Dean Street, Brooklyn, N. Y.:

Dear Sir—I wish to enter a most solemn protest against the running of the refrigerator cars on the Brooklyn Kings County Elevated Railroad. Yesterday morning I sat in Car No. 771, which was part of an electric train, and this car was ice cold. This morning I rode in Car No. 388, which was part of a locomotive train, and this car was also ice cold.

Heretofore the Brooklyn Rapid Transit Company has always given as an excuse for the cold cars that there was not sufficient power to supply the electric heaters, but during this year several power houses have been completed, and I understand they now have sufficient electricity to heat the cars. But even if they should not have sufficient power for heating the electric cars, why is it that they are permitted to run cold cars on locomotive trains? The locomotive generates the steam which can be used for heating the cars, and it seems to me that the health of the inhabitants of Brooklyn demands some immediate action on your part. Personally, I caught a very severe cold and am now in the doctor's hands. Have I no recourse? Can I not sue the Brooklyn Rapid Transit Company or The City of New York for negligence in not supplying heated cars?

The cold season is at hand, and it is not any more than right that the health of the inhabitants of the City be in some measure protected and that the Brooklyn Rapid Transit Company should be compelled to immediately heat their cars. I hope that some adequate action on the part of the Honorable Board of Aldermen will be taken to bring about this much-needed reform.

Yours very truly,

WM. NEISEL.

No. 2705.

By the same—

Brooklyn, November 28, 1903.

Hon. R. F. DOWNING, City Hall:

Sir—I beg to inform you that the Brooklyn Rapid Transit Company have again discontinued the running of cars on Furman street.

You are doubtless aware of the hardships to be endured by the people of Brooklyn who are compelled to use Furman street as a thoroughfare during the coming winter, which has evidently set in earnest.

It seems that this railroad company can discommode the citizens of Brooklyn, ignore the existing laws and defy the Board of Aldermen.

You will kindly recollect the petition to your Committee, signed by taxpayers, merchants and citizens generally, representing over \$200,000,000 of property and business interests, who demanded that the company be compelled to run cars on Furman street or tear up their tracks and let some other company, or (if necessary the municipality) run the cars for the public benefit.

I wish also to draw your attention to the fact that the company are running freight cars over this route, which I believe is not in accordance with the franchise. It appears that this is the only reason for their not running passenger cars, as the National Express Company pays them for running the freight for them on their cars along Furman street.

Hoping you will again bring forward your resolution compelling them to run cars, as they certainly do not keep their promises, I remain,

Yours respectfully,

P. HOWARD.

The Board advised the Commissioner that it had no authority to issue Corporate Stock for repairs, and that said request should be for an issue of Revenue Bonds and emanate from the Board of Aldermen.

The Secretary presented the following communication from the President of the Borough of The Bronx, requesting an issue of Special Revenue Bonds to the amount of \$10,000 for repairs to the surface drain in that portion of the Borough of The Bronx commonly known as "Van Nest," together with a resolution from the Board of Aldermen relative thereto:

This morning a delegation of property owners of that section called on me at this office and called my attention to the urgency of this matter. I therefore respectfully request that the resolution necessary for this bond issue be passed at the meeting of the Board of Estimate and Apportionment this day.

Yours truly,

LOUIS F. HAFFEN, President, Borough of The Bronx.

Third—Beginning at a point at the boundary line between The City of New York and the Town of Hempstead, Nassau County, New York, on private property contiguous to and lying north of the conduit of the Brooklyn City Water Works in the Borough of Queens; running thence westerly on and along private property contiguous to and adjoining the property of the Brooklyn City Water Works on the northerly side thereof; crossing Ocean avenue (otherwise known as the road to Wright's Mill), Rosedale avenue, Foster's Meadow road, the property of the Brooklyn City Water Works, known as Conduit Branch, Springfield road, Farmer's avenue and New York avenue to the Rockaway turnpike; running thence northerly on and along said Rockaway turnpike to the junction of said Rockaway turnpike and the Rockaway road (formerly known as the Rockaway Plank road); running thence northwesterly on and along said Rockaway road (formerly known as the Rockaway Plank road) to Broadway; running thence westerly on and along Broadway to Liberty avenue, in the Borough of Brooklyn, with a branch line from the intersection of said Rockaway road (formerly known as the Rockaway Plank road) and Water street; running thence westerly on and along Water street to and across Spruce street; also with a branch line from the intersection of said Rockaway road (formerly known as the Rockaway Plank road) and the Rockaway turnpike; running thence northerly on and along said Rockaway turnpike to Fulton street, in Jamaica.

Fourth—Beginning at a point on the Jericho turnpike at the extreme easterly boundary line of The City of New York and the Town of North Hempstead, Nassau County, New York, and running thence westerly on and along said Jericho turnpike to a point at the intersection of said Jericho turnpike and the Hempstead and Jamaica turnpike (otherwise known as Fulton street), all in the Borough of Queens.

And with the right or franchise to cross such other streets and highways and bridges (named and unnamed) as may be encountered in said routes.

Section 2. The grant of this franchise is subject to the following conditions:

First—The consent, in writing, of the owners of half in value of the property bounded on said streets and highways and bridges to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and shall not include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successors in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller, or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of the said franchise, right or privilege, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority, shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the said streets and highways and bridges, and of the land in private ownership upon which the said railway shall be operated or the easements of right-of-way or other necessary easements in such lands, as the case may be, including power-house, equipment, tracks and appurtenances, which plant and property shall be and become the property of The City of New York at the option of the said

Board of Estimate and Apportionment, or its successors in authority, on the termination of this grant and the payment to the grantee of such valuation. The valuation shall be based upon a fair appraisal of the property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment, or its successors in authority; provided that in the valuation of the land in private ownership, on which such railway is constructed, or the easements affecting such land, as the case may be, their value shall not be fixed at an amount in excess of the original cost thereof, to the grantee of said franchise, its successors or assigns. A sworn statement of such cost executed by such grantee and verified by the affidavit of one of its officers, shall be filed with the Comptroller of the City of New York before any act is done by the grantee, or its successors or assigns, in the construction or operation of the railway upon any route hereinbefore mentioned, which includes private property.

Fourth—The New York and Long Island Traction Company, its successors or assigns, shall pay for this franchise to the City of New York the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$1,000, and which shall be equal to three per cent. of its gross annual receipts derived from passenger and freight traffic within the limits of the City of New York, if such percentage shall exceed the sum of \$1,000; during the remaining twenty years of the term, an annual sum which shall not be less than \$2,000, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$2,000.

In computing the amount of the gross receipts derived from passenger traffic and above referred to, the routes hereinbefore mentioned shall be considered, and the persons who are upon the cars of the company at any point upon such routes shall be deemed to have paid the fare provided to be paid by the ordinance granting the franchise aforesaid, whether they enter or leave the car upon such route or upon any other route upon which the grantee, or its successors or assigns, operates its cars.

Such sums shall be paid into the Treasury of the City of New York on November 1 in each year; provided, however, that the first payment shall only be for that proportion of the above sums as the time from the signing of this ordinance by the Mayor to September 30 next preceding, shall bear to the whole of one year. The fiscal year shall end on September 30 next preceding said date of payment, and the provisions of the Railroad Law as it existed at the time of the adoption of this ordinance relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railway, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to the City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns for said franchise, of a percentage of gross receipts within the meaning of any general or special statute.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or franchises hereby granted, whether original or renewal, of any part thereof, or of any of the routes mentioned herein, or of any part of the routes mentioned herein, for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Long Island Traction Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The said railway may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction now in use by the New York and North Shore Railway Company, or by the underground electric system now in use by the Interurban Street Railway Company in the Borough of Manhattan, and by any other motive power, except locomotive steam power or horse-power, which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Provided that the Board of Estimate and Apportionment, or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, in writing, may require it or them to operate its railway upon the whole or upon any portion of its route by underground electrical power substantially according to the system now in use on the railways in the Borough of Manhattan above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways and bridges of the City of New York.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of the authorities of the City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway shall not exceed five cents within the limits of the City of New York; the said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway, or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof within the limits of the City of New York. The rates for the carrying of property upon the cars of the grantee shall in all cases be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said

grantee, its successors or assigns, and no greater sums shall be charged for such services than provided for by it.

Eleventh—The cars on the said lines as proposed shall run at intervals of not more than one hour, both day and night, and as much oftener as the reasonable convenience of the public may require or as may be directed by the City ordinances; provided, however, that said railway company during the first five years of this franchise shall not be required to operate its cars on any of its lines within the City of New York between the hours of twelve o'clock midnight and five o'clock a. m. each day, unless the Board of Estimate and Apportionment of said City shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

Twelfth—The said railway company shall apply to each car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Thirteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Fifteenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets and highways and bridges, shall have and keep in permanent repair that portion of the surface of said streets and highways and bridges, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And the City of New York shall have the right to change the material or character of the pavement of any street and highway and bridge, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Sixteenth—The said railway company, its successors and assigns, so long as it shall continue to use any of the tracks upon the streets and highways and bridges hereby granted, shall cause the entire roadway of each of the same to be watered at least three times in every twenty-four hours when the thermometer is above 35 degrees Fahrenheit, except that when the width of any roadway between curb lines shall exceed 60 feet, then a roadway of but 60 feet shall be watered as above.

Seventeenth—In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and avoided by the City of New York, by a suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Eighteenth—If any of the streets and highways and bridges above referred to, or described, shall not now be open or in use as public highways, no right or franchise therein shall vest in the grantee by virtue of this ordinance until after such streets and highways and bridges shall be legally opened as a public highway, and such right or franchise shall expire at the end of the term created by this ordinance as above set forth. Nothing in this ordinance contained shall be construed as an obligation on the City of New York, in respect to the opening of such streets and highways and bridges, nor as in any manner granting property or rights of any kind in or upon its lands now owned or occupied by it under any title, except only the public streets and highways and bridges in the usual acceptance of such terms, which are specifically referred to above.

Section 3. This grant is also upon the further and express condition that the provisions of Article 4 of the Railroad Law, as it existed at the time of the adoption of this ordinance applicable hereto, and all laws or ordinances now in force which may be adopted hereafter affecting the surface railways operating in the City of New York shall be strictly complied with.

Section 4. This grant is also upon the further and express condition that at any time after five years from the commencement of the operation of any portion of the railway hereby granted, the Board of Estimate and Apportionment, or its successors in authority, if it deems it necessary in the public interest so to do, may require the grantee, its successors or assigns, in case the railway upon any portion of the routes above described shall consist of a single track, to construct and operate a second track upon any or all of the routes hereby granted, whether on streets, highways and bridges or upon any private property or right-of-way included in any of such routes so as to make a double-track railway.

Section 5. Said grantee shall commence construction within three months from the date when it has obtained complete legal authority to begin construction, including necessary permits from the city officials and departments and shall complete the construction of at least six miles of single track railway on or before January 1, 1905, otherwise this grant shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings. If upon any of the routes above described, or upon any portion thereof, there shall not be constructed and in actual operation by July 1, 1906, a railway properly equipped and operated as provided by this ordinance, the said route or portion thereof shall be conclusively taken to have been abandoned by the grantee, and so much of the rights and franchises hereby granted as pertain to such routes, or parts of routes, not then constructed from and after July 1, 1906, shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings. Provided that such time may be extended upon the same conditions as to forfeiture under and for causes specified in section 99 of the Railroad Law, as it now exists, and by a properly executed instrument in writing; and the Board of Estimate and Apportionment may similarly extend such time for a period or periods not exceeding one year, if, in their discretion, it seems best so to do, and that the city officials or departments who or which shall at the time of such construction have authority over the said streets and highways and bridges, may similarly extend, by properly executed instrument in writing, such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the city officials.

Section 6. If for any reason the right or franchise of the grantee in any of the streets, highways and bridges above described shall cease, or if for a period of six successive months the railway tracks upon any of such streets, highways and bridges shall not be operated as provided for in this ordinance, the Comptroller of the City of New York may require the grantee, its successors or assigns, to remove its tracks and other structures upon such streets, highways and bridges within thirty days after notice, and in default of their removal pursuant to such notice, the proper local authorities having jurisdiction may cause them to be removed and the City of New York may recover the cost and expenses of such removal, either by deducting them from the fund deposited as required in Section 7 hereof, or by action; and the rights and franchises of the grantee, its successors or assigns, in such portions of the streets, highways and bridges, in

case any such exist, shall forthwith and immediately cease upon the removal of such tracks or structures and without judicial or other proceedings.

Section 7. This grant is upon the express condition that the New York and Long Island Traction Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of the City of New York the sum of three thousand dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway and, in case of default in the performance by said company of such terms and conditions, the City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the streets, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of the City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars, and in default thereof the grant hereby made may be cancelled and annulled at the option of the Comptroller of the City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to the City of New York.

Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of the City of New York within ten days after the adoption of this ordinance.

Section 9. This ordinance shall take effect immediately.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for the City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk thereon, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereon. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either included in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
