2. Moneys received from the City Treasury shall be used by such institutions only for recurring expenses of "care, support and maintenance."
3. All institutions receiving public moneys shall be at all reasonable times open to the visitation and inspection of duly authorized representatives of the Department of Public Charities and the Department of Finance.

For the fixing of such bonds in excess of \$5,000 it shall require in each case a unanimous vote of the members of the Municipal Explosives Commission present.

Certificate of Fitness.

Sec. 5. Before any operation shall begin under a License for the transportation or for the use of explosives in blasting, as herein provided, the applicant shall designate in writing the name or names of the person or persons whom he has designated to load holes or discharge explosives, or to prepare charges and load the holes, or to transport by wagon or otherwise, or to have the care of magazines as herein provided, and all such persons before being permitted to exercise any of such functions shall make an application in writing to the Fire Commissioner for a Certificate of Fitness, and before the issuance of same shall be examined and found to possess the qualifications hereinafter specified in order that they may properly fill such positions under the regulations prescribed by the Municipal Explosives Commission. A system of exact and frequent inspection shall be made as provided by section 771 of the Greater New York Charter, and the Fire Commissioner shall cause the premises and work of all Licensees to be inspected at frequent and irregular intervals. Said inspection shall include detailed and exact examinations of the manner in which Licensees are complying with the requirements of the regulations and whether all due and reasonable precautions to avoid accidents are being taken, and shall include a verification that all employees who are performing work for which a Certificate of Fitness is required are in possession of same. The Inspectors shall make a report in writing to the Fire Commissioner at the close of each day's inspection, stating conditions observed in the case of each Licensee, and these reports shall be kept on file. In case any Inspector discovers a serious menace to life, limb or property, on the part of any licensee or any of his employees, he shall at once notify the Fire Commissioner, by telephone or otherwise, who will thereupon take such steps to correct the immediate danger as his judgment shall dictate, and for the infliction of appropriate penalties as provided herein.

No explosives shall be landed at the City piers unless for immediate loading into wagons for distribution to consumers for use within twenty-four hours and for which orders have been previously received, or for immediate transportation by railway to points beyond the City limits.

Sec. 28. Explosives intended for transportation by rail shall only be landed at railroad piers, from whence they shall be hauled directly beyond the City limits; and explosives received at railway stations within the City limits shall be promptly discharged and removed to such storage as these regulations prescribe.

Sec. 29. Explosives not exceeding five thousand (5,000) pounds for shipment by vessel to ports outside of The City of New York may be loaded from one vessel to another when lying at the City piers, provided, however, black powder or exploders shall not be transferred at the same time with high explosives or from the same boat or lighter; amounts in excess of five thousand pounds shall only be put on board a vessel when it is more than one thousand feet from the City pier line.

CHAPTER IV.

Keeping, Care and Use of Blasting Explosives. Magazines.

Section 37. Every person now connected, as principal, with or purposing hereafter to be connected with any blasting operations shall, as hereinbefore set forth, make an application to the Fire Commissioner for a permit to keep and use explosives, giving at the same time, in writing, name of Licensee, location of office or place of business, occupation, proposed location of the magazine or magazines,

together with plans and descriptions and the construction of such magazine or magazines, and the quantity and kind of explosives purposed to be kept therein, together with the names of employees who should have Certificates of Fitness.

Sec. 38. Magazines for the storage of explosives within The City of New York shall be of three classes, as follows:

(a) Magazines of the first class are those which are capable of containing explosives to the extent of more than 100 pounds.

(b) Magazines of the second class are those which are capable of containing less than 100 pounds and more than 25 pounds.

(c) Magazines of the third class are those which are capable of containing not more than 25 pounds.

Sec. 39. Magazines of the first class shall be constructed similar to the standard design for magazines of the first class on file in the office of the Fire Commissioner, or shall be of such form and material as may be approved by the Fire Commissioner; one set of said plans to be filed with said Fire Commissioner. Said plans, however, must conform to the specifications of these regulations. Magazines of the first class must be covered on the outside with fireproof material and be lined with wood, and heated, if necessary, with a hot water heater only; the source of heat for which shall be separate and distinct from the magazine and located at least ten feet therefrom. Such magazine shall consist of two compartments, in one of which shall be located the radiator. The other compartment shall be arranged with shelves or drawers for the reception of explosives and not be capable of being entered, and shall be lighted from the outside only. The heating compartment shall be separated from the storage compartment and be capable of being entered, but so arranged that no access shall be had to the shelves or drawers from the heating compartment.

Sec. 40. Magazines of the second class shall be covered on the outside with fireproof material and on the inside with wood, and may be heated by a hot water heater similar to magazines of the first class, or be so arranged as to admit of being covered with fresh manure. Magazines of the second class shall not exceed five feet in any exterior dimensions nor have an interior capacity of more than 60 cubic feet of space.

Sec. 41. Magazines of the third class shall consist of a stout wooden box covered with sheet iron, the interior capacity of which shall not exceed eight cubic feet; the contents of which may be kept from freezing by burying the magazine in manure; or magazines of the third class may include a hot water thawing apparatus, consisting of a water-tight vessel inclosed in a receptacle of wood to be filled with hot water, the source of heat to be from an exterior point.

Sec. 42. All nails in the interior of magazines shall be countersunk and the wood lining so arranged that no metal shall be exposed. Magazines shall be kept clean and free from grit, and before any repairs or alterations are made to any part thereof, all explosives shall be carefully removed and the magazine shall be thoroughly washed out, and all tools and implements used in making such repairs and alterations shall be of wood, copper, brass or other soft metal or material. In no case shall nails or screws be driven into a magazine or material that has once formed part of a magazine, and all wood structural parts of a magazine shall, if discarded, be immediately burned in a safe place. Magazines shall at all times be in the care of a competent employee, whose duty it shall be to see that no unauthorized person has access to them, and if heating apparatus is used that the magazine and heating house are safe and undisturbed. Said employee shall have no other duty that will interfere with his careful supervision of said magazine and shall have a Certificate of Fitness as a magazine keeper.

Sec. 43. The Fire Commissioner may require a magazine of the first class in any location where the public interest may seem, in his discretion, to demand it.

Sec. 44. All magazines shall be painted bright red, with the words "Magazine, Danger" painted conspicuously thereon in white letters on a black ground; such letters shall be at least six inches high on magazines of the first and second class, and three inches high on magazines of the third class. The location of every magazine of the first and second classes shall be approved in writing by the Fire Commissioner; a copy of said permit being filed with the Commissioner, and another copy being attached to the magazine.

Sec. 45. Magazines of the third class shall be located at least twenty feet from the nearest building, or if at a nearer point such location must have the specific approval of the Fire Commissioner.

Sec. 46. Magazines shall contain only the amount of explosives named in the Permit, and the placing therein of any other explosive, caps, exploders or detonators, candles, matches, tools, cotton waste, or any article liable to cause explosion or fire, or any iron, steel or grit, is absolutely forbidden.

Sec. 47. Permits shall be issued for the storage only of the nearest multiple of twenty-five pounds above the actual amount to be used during the twenty-four hours next ensuing.

Sec. 48. It is to be understood that a danger area exists on each side of every magazine in proportion to the quantity of explosive contained therein, and it shall be the duty of the watchman to keep a suitable space clear in its vicinity free from the storage of any material, and prevent the loitering therein of any person.

Sec. 49. It shall be the duty of Inspectors to see that each magazine of the third class is located as safely as possible, and that as large a free space area be maintained as circumstances will permit, in no case less than three feet.

Sec. 50. Only persons who hold Certificate of Fitness, or other authorized persons, shall be permitted to have access to the magazines, which shall be kept securely locked when not open for the introduction or removal of explosives, or the inspection by duly authorized officers of the City.

Sec. 51. On the inside of the door or cover of every magazine there shall be posted a notice, the blank form therefor to be furnished by the Fire Department, in such a position as will expose it to full view when the magazine is open, containing the following information and instructions:

- (a) Class of the magazine.
- (b) Number of the permit and name of licensee.
- (c) Numbers of the certificates of employees licensed to have access to this magazine are.....

No persons except those designated by the numbers of certificates above named shall have access to this magazine.

(d) The only material to be stored in this magazine shall be the explosive known as....., or some explosive possessing similar characteristics.

(e) If explosives are frozen they must be thawed only by approved hot water heater or fresh manure.

(f) Caps and detonators shall not be brought within twenty feet of this magazine.

(g) Cartridges to be capped shall be removed from this magazine to a distance of at least twenty feet, and after being capped shall not be returned to this magazine.

(h) This magazine shall at all times be kept clean and free from paper, rubbish, empty packages, etc.

Sec. 52. In the keeping of explosives from freezing or in thawing of the same when frozen, only one of two methods shall be permitted; first, by some form of hot water heater where it is impossible for the maximum degree of heat to exceed the temperature of boiling water; or, second, the burying in manure of the receptacles containing explosives. All other methods are absolutely forbidden, except after specific approval in each case by the Municipal Explosives Commission.

Sec. 53. Caps, detonators or other similar explosives of a high order shall not be brought within twenty feet of the magazine, and each licensee must provide a proper receptacle for said caps and detonators.

Sec. 54. Magazines shall at all times be kept clean and free from paper, rubbish, empty packages, etc.

CHAPTER V.

Blasting.

Section 55. No person other than a holder of Certificate of Fitness as described under section 5, chapter 1, part 2, of these regulations, shall direct any blasting operation or handle explosives.

Sec. 56. Cartridges while being capped shall be removed from the magazine for a distance, if possible, of fifty feet, but in no event less than twenty feet, and after being capped shall not be returned to the magazine. If required to be kept from freezing they shall be kept in a special magazine of the third class in as small amount as possible. Cartridges shall be capped only as required for the work and for immediate use.

Sec. 57. Frozen or partly frozen explosives shall not be placed in drill holes. Frozen cartridges, if not capped, must be returned to the original magazine to be thawed. All primed cartridges left over after drill holes are charged shall have the primers at once removed, following which the cartridges are to be at once returned

to the magazine and the primers to their usual place of storage. If necessary to remove the cap or detonator from any cartridge, care must be exercised in so doing.

Sec. 58. In tamping drill holes only wooden rammers shall be used. Tamping by strokes is forbidden, and only direct application of pressure permitted. Only one primer shall be used in a drill hole, and great care shall be exercised in placing it and while tamping above and around it.

Sec. 59. Blasts shall be fired by some form of electrical apparatus only. In the event of the charge not exploding, it is forbidden to remove the tamping; if the charge cannot be fired by exploding a stronger primer on top of it, a new hole shall be drilled not nearer than twelve inches from the first one and another charge put in the second hole and fired. In the case of an explosion not carrying away the entire drill hole, but leaving the lower part intact, it is forbidden to begin drilling from the bottom of the old drill hole, as portions of the former charge may remain and explode when exposed to the blows of the drill.

Sec. 60. In order to insure the safety of surrounding property and persons, no larger charge shall be used than is necessary to properly start the rock, and rock excavations contiguous to any structure shall be so carried on as not to cause damage to such structure. To this end, weak walls, or other supports of such structure must be shored-up, and rotten or decomposed rock must be removed by the use of gads, picks and crowbars only. When blasting next to such structure is unavoidable, light face blasts only, with sort lines of resistance and small charges, shall be used.

Sec. 61. The quantity of explosives to be used shall not exceed in disruptive force the equivalent of one pound in weight of 50 per cent. dynamite for each four feet depth of hole that is above, or less than ten feet below the curb; and the equivalent of one pound in weight of 60 per cent. dynamite for each four feet depth of hole that is more than ten feet below the curb. Any question arising under this section will be determined by the Municipal Explosives Commission on application.

Sec. 62. Before firing any blasts, except where the same are in tunnel and distant from the face or portal more than fifty feet, the rock to be blasted shall be covered on the top and sides with timber at least ten inches in smallest diameter and ten feet long, held securely together by chains or ropes of iron or steel three-quarters of an inch in diameter, and covered with sheets of tin or stout woven matting of rope, or some other equally serviceable material to prevent the debris from flying.

Sec. 63. Red flags, in the hands of competent men, shall be placed at reasonable distances from the blasts on all sides, to give proper warning at least three minutes in advance.

Sec. 64. The careful handling of all explosives, whether frozen or not frozen, is ordered. Warming and thawing explosives by placing same near fire, against steam pipes or in water are exceedingly dangerous and are therefore prohibited.

Sec. 65. Magazines must be kept dry and all moisture kept away from the explosives.

Note.—Nitroglycerine is very sensitive at a temperature exceeding 300 degrees Fahrenheit, and at 350 degrees is liable to explode spontaneously. Nitroglycerine compounds are sensitive to moisture, and the ordinary absorbent bases have a tendency to absorb moisture, by which absorption there is displaced an equivalent amount of nitroglycerine; hence the specific prohibition of the most dangerous methods of thawing.

CHAPTER VI.

Sale and Storage of Explosives.

Section 66. No dynamite or other high explosives such as are used in blasting operations shall be stored within the City other than as prescribed under the provisions of Chapter 4 of Part II. of these regulations, excepting on magazine boats used solely for the storage of high explosives and anchored at points designated by the United States Government as "Powder Anchorages." The maximum amount of high explosives to be stored on one magazine boat to be thirty tons.

Sec. 67. Black and smokeless powder, excepting as hereinafter provided for in the case of manufacturers, retail dealers and fireworks manufacturers, shall only be stored on magazine boats at regular anchorages and on which there shall be no exploders or high explosives. Maximum amount allowed on said boats, one hundred and twenty-five tons.

Sec. 68. Manufacturers of black and smokeless powder licensed to sell within The City of New York, shall, when authorized to do so by a permit issued under the authority of the Fire Commissioner indicating street number and room, be permitted to have on hand samples not exceeding ten (10) pounds in weight.

Sec. 69. Retail dealers, duly licensed, shall be permitted to carry on hand of smokeless or black powder, or both, not exceeding fourteen (14) pounds, to be stored in a receptacle which can be flooded from the exterior of the building, a Permit to be issued under the authority of the Fire Commissioner showing building and location of room if stored elsewhere than in the store or under the sidewalk. Or in a light metal receptacle properly locked and on wheels, plainly marked "Powder," and located not more than ten feet from and immediately in front of the entrance from the street, which receptacle shall at all times be kept locked except when actually necessary to obtain access to its contents. On the front of each of such establishments, not more than seven feet above the sidewalk, shall be displayed a sign not less than 18 inches long and 10 inches high, to be approved by the Fire Commissioner, worded "Licensed to Sell Gunpowder."

Sec. 70. The annual charge for a retail License to sell black and smokeless powder such as is used as a propelling charge, shall be ten dollars (\$10).

Sec. 71. No Permit will be issued for such sales to be made at any building or premises where any of the following kinds of business is conducted or carried on: Where cigars or cigarettes are kept for sale; where paints, oils or varnishes are manufactured or kept, either for use or for sale; any carpenter shop; any drug store; any building wherein the sale of kerosene or other product of petroleum has been permitted, or any building in which fireworks of any kind, petroleum or any of its products, coal oil, camphene, burning fluid or other products or compounds containing any of said substances, matches, tar, pitch, rosin or turpentine, hay, cotton or hemp are manufactured, stored or kept for sale.

Sec. 72. No Permit will be issued for such sales in any frame or wooden building within the fire limits as established in The City of New York.

Sec. 73. No other Permit shall be issued for such sales in premises within a radius of fifty feet of the premises covered by an existing Permit. Where two or more applications are presented for one block, preference will be given to the one which, in the opinion of the Fire Commissioner, is least objectionable.

Sec. 74. All premises for which such Permits are issued must be lighted with gas or electricity, and all lights must be protected with glass or wire coverings.

Sec. 75. The person or persons to whom such Permit is issued must sign an agreement not to permit smoking, nor the use of any substance or agency for illuminating purposes except gas and electricity, upon or about the premises where such sales are licensed, nor to expose any of the said explosives for sale outside the walls of said building, nor in any door or window, and that any violation of such an agreement shall operate as a forfeiture of said Permit.

Sec. 76. In case of the storage of amounts in excess of limits imposed by Permit, it shall be the duty of the Fire Commissioner to revoke the offending Licensee's License and no new License shall be issued to aid party within three years.

Sec. 77. The Fire Commissioner shall have authority to revoke any License to sell at retail should he deem it to the public interest to do so.

Sec. 78. The sale of black sporting powder, excepting to military organizations, licensed individuals or firms engaged in shell loading, licensed manufacturers of fireworks, owners of vessels for saluting purposes or for shipment beyond the limits of the City, is prohibited.

CHAPTER VII.

Section 79. The following named explosives are deemed proper to be used or sold in accordance with the requirements of these regulations. Additions may be made to this list from time to time in the discretion of the Municipal Explosives Commission:

1. For the purpose of these regulations the following substances and articles are understood to be meant by the term "fireworks":

Any substance or composition of substances prepared for the purpose of obtaining a visible or audible pyrotechnic effect by combustion, explosion or detonation; fireworks composition and any signal composition preparation manufactured for use or used in obtaining visible or audible pyrotechnic effect by combustion, deflagration or detonation. Fireworks and signals are meant to include any combustible or explosive compound which is combined with a case, container or holder for the purpose of obtaining a visible or audible pyrotechnic effect by combustion, deflagration or detonation.

2. No person, firm or corporation, except as herein elsewhere specified and after procuring a license therefor as herein provided, shall, within the corporate limits of The City of New York, manufacture any fireworks composition, signal composition, fireworks or signals.

3. Licenses and permits for the manufacture of fireworks will be issued only after a survey made upon written application to the Fire Commissioner. Said application shall be in duplicate; shall include a plan, in duplicate, of the proposed manufactory, drawn to a scale one-eighth of an inch to the foot, showing the several buildings, and having those buildings which will contain explosive substances and are dangerous, marked "dangerous"; shall describe the premises where the manufacture is to be carried on; state the distance from adjoining buildings, streets and public places; state the nature and use of adjoining buildings; specify place and manner of keeping raw material; state manner and place of storage of the finished product, together with the quantities of explosives or highly combustible substances, and shall give such other information as may be called for. The Fire Commissioner shall have a survey made of such premises, and if the product of the manufacturer is allowed by law to be sold or used, and if said manufacture and storage can be carried on under the conditions of said application or can be amended so as, in the opinion of the Fire Commissioner, not to unduly endanger the public safety, a license and permit may be issued.

4. No permit shall be issued to fireworks manufacturers for the manufacture of nitroglycerine, gunpowder, blasting powder, high explosives or small arms ammunition. Upon any deviation from the conditions of the application or from the terms of the permit, the Fire Commissioner may revoke the license and permit.

5. Unless a license is not revoked by the Fire Commissioner it shall remain in force and be good for the term of one year from the date thereof.

6. No permit will be granted for the manufacture of fireworks or other explosive and combustible compositions or articles in the Borough of Manhattan, Borough of The Bronx, and only upon premises in the boroughs of Brooklyn, Richmond and Queens, where the following conditions as to safety limits can be met.

7. All places where the manufacture of fireworks is carried on must have at least three fire hydrants, placed in different parts of the yard or premises, with sufficient hose attached at all times to reach any part of the buildings where the manufacture or storage is carried on; there shall be within fifty feet of each building at least twenty gallons of water in buckets fit and ready for use.

8. In the fabrication of fireworks the following distances from buildings not controlled by the licensee shall be observed: In case of storage of an amount not in excess of 25 pounds of powder or other explosive material, 100 feet; exceeding 25 pounds and not more than 100 pounds of powder or other explosive material, 300 feet; over 100 pounds and not exceeding 500 pounds, 700 feet; over 500 pounds and not more than 1,500 pounds, 1,000 feet, and in no event shall permit for storage in excess of 1,500 pounds be issued. But this provision shall not apply to finished or partly finished fireworks in storehouses.

9. Previous to the issue of licenses as herein prescribed, applicants shall furnish and file with the Fire Commissioner a bond in the penal sum of five thousand dollars (\$5,000), approved as to sufficiency by the Comptroller, conditioned for the payment of any loss, damage or injury resulting to persons or property by reason of the manufacture of such fireworks. Nothing herein contained shall impair or otherwise affect any existing contract or arrangement between the manufacturers or vendors of fireworks in regard to the liability of such manufacturers or vendors and their employees as to the liability as between such employers and employees, nor shall this provision prohibit such employers and employees from entering into such contract or arrangement as to liability between themselves as they may have made or may hereafter make one with the other.

10. The manufacture of railroad, ship or signal lights and rockets shall be governed by the same rules and laws governing the manufacture of fireworks.

11. A competent watchman must be on guard at all times excepting when the works are in active operation.

12. All factories must be supplied with some means of communication with the Fire Department, telephone or alarm boxes, so that instant notice may be given in case of fire.

13. The manufacture of the following goods is prohibited within The City of New York:

The manufacture of any composition that is used for detonating purposes, primers, electric fuses, or any composition that is used to obtain effect by combustion, explosion or detonation in cannon machines, or rapid fire guns, in military or naval guns, shells, torpedoes or war-rockets, is prohibited.

16. No license for the manufacture of fireworks within The City of New York shall be issued unless said fabrication is to be carried on in charge of a practical pyrotechnist of at least 10 years' experience as a manager or superintendent or workman in a fireworks factory in this country, and holding a certificate of fitness issued by the Fire Commissioner. The said manager or practical pyrotechnist must pass an examination before the Fire Commissioner as to his fitness to properly conduct a factory of this character, and upon receiving said certificate, and not until then, can he conduct a place where the manufacture of fireworks is carried on.

17. The Fire Commissioner may, in his discretion, withdraw or suspend the certificate of fitness issued to a manager or superintendent for violation of these regulations, or carelessness in conduct of the operations under his charge.

18. License fees for manufacturers shall be one hundred dollars.

CHAPTER II.

Regulations for Storage and Sale of Fireworks at Wholesale.

19. No person, firm or corporation except as hereinafter specified, and after procuring a license and permit therefor, as herein provided, shall, within the corporate limits of The City of New York, store or keep any fireworks or compounds containing an explosive mixture or any composition that is manufactured for use or is used as a combustible, explosive or detonating composition.

20. Previous to the issue of licenses for sale of fireworks at wholesale and transportation of same through the City, applicants shall furnish and file with the Fire Commissioner a bond, approved as to sufficiency by the Comptroller, in the penal sum of \$5,000, conditioned for the payment of any loss, damage or injury resulting to persons or property by reason of the storing or handling of such fireworks.

No. 319.

Whereas, The recent atrocities perpetrated on the men, women and children of the Jewish faith in Kishineff, Province of Bessarabia, in the Empire of Russia, have stirred the nations of the world to righteous indignation and call for earnest protest in the name of humanity against the massacre of a people the only reason for which is based apparently upon religious hatred; and

Whereas, The outbreak which resulted in these gross outrages, prompting as they do the uprising of all Christendom in denunciation of acts which are a blot upon civilization and a crying shame to the religion of the country in which they happened, has roused the peoples of the world generally, irrespective of creed, against the wholesale butchery of inoffensive human beings; therefore

Resolved, That we, the Board of Aldermen of The City of New York, the direct representatives of nearly four millions of people, many of whom are of the Jewish faith, do hereby make protest against the barbaric outrages committed on the Jews of Kishineff, in the Province of Bessarabia, Empire of Russia.

Resolved further, That the Hon. John Hay, Secretary of State, be and he is hereby respectfully requested and urged, in the name of the United States of America and humanity, to protest with all power at his command under such provisions as usage, treaties and the laws of the nations will warrant, against any repetition of the outrages committed against Jews in Kishineff, Province of Bessarabia, in the Empire of Russia.

Adopted by the Board of Aldermen May 19, 1903.

Received from his Honor the Mayor June 2, 1903, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 320.

Whereas, The forces of bigotry, prejudice and intolerance are repugnant to the emancipated intelligence of the modern world and antagonistic to the conscience of free institutions; and

Whereas, The citizens of this imperial municipality are appalled by the crimes against civilization, committed in the fair name of religion at Kishineff and Tirospol, with their incidents of the desecration of women, barbarities to the aged, the massacre of infants, the mutilation of the dead and the indiscriminate butchery of an unoffending people; now therefore be it

Resolved, That we, the Board of Aldermen of The City of New York, petition His Excellency Theodore Roosevelt, President of the United States, in the name of humanity to protest to the Government of the Empire of Russia against these unspeakable outrages; and be it furthermore

Resolved, That the Clerk of the Board of Aldermen mail this resolution forthwith to the President of the United States.

Adopted by the Board of Aldermen May 19, 1903.

Received from his Honor the Mayor June 2, 1903, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City or New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
