ORDINANCES AND RESOLUTIONS.

Alderman Folks asked and obtained unanimous consent to introduce the following:

No. 2654.

Resolved, That the motion by which the Committee on Speed Regulations was discharged be reconsidered and the said Committee restored.

Which was adopted.

Alderman Folks then introduced the following:

No. 2655.

Resolved, That his Honor the Mayor be and he is hereby requested to return to this Board for further consideration an Ordinance now in his hands regulating the speed at which vehicles may be driven in The City of New York.

Which was adopted.

The paper was then received from his Honor the Mayor, and is as follows:

No. 2515.

Report of Special Committee on Speed Regulations—

The Special Committee appointed by the Rules Committee on the 19th day of March, 1912, pursuant to a resolution of the Board of Aldermen, for the purpose of investigating the speed regulations of The City of New York and matters pertaining thereto, and to which its report was recommended on the 9th day of July, 1912, respectfully submits its report herewith. A proposed ordinance relative to speed regulations is also submitted. Three additional resolutions are also submitted as follows: One resolution requesting the Police Commissioner to keep a system of records in order that repeated and habitual offenders may be identified; another requests the Park Board to revise the speed regulations adopted by the said board, so far as may be practicable, along the lines of the proposed ordinance, and a third requests the Justices of Special Sessions and the City Magistrates to notify the Secretary of State of any offenders against the law, together with a request for co-operation with the Police Department, in order that the licenses of habitual and repeated offenders may be revoked.

The present City ordinance is antiquated, ineffective and inadequate.

The committee believes that the proposed ordinance is definite and certain, that it provides adequate penalties to punish reckless drivers and that the provision of such penalties will largely eliminate much reckless driving, which has become a common practice.

The committee also finds that certain amendments to the Callan Law suggested in its report of July are being considered by the members of the State Legislature. It recommends that the committee be continued to further consider such amendments. The State law substantially limits the jurisdiction of the Board of Aldermen to questions of speed, and for this reason the ordinance does not include other regulations which are desirable.

Dated New York, the 6th day of January, 1913.

Respectfully submitted,

RALPH POLKS, Chairman; NILES R. BECKER, FRANK J. DOTZLER, F. H. WILMOT, WILLIAM FINK, O. GRANT ESTERBROOK, JOHN J. REARDON, W. AUGUSTUS SHIPLEY, ROBERT H. BOSSE.

Speed Table.

What does a given rate of speed mean to a pedestrian in case of an impending accident? Mathematical computation shows the number of feet per second a pedestrian or vehicle is moving and indicates the possibility of escape.

| Rate Per Hour. | Rate of Feet Per Second. |
|--|--------------------------|
| 3 miles Pedestrians, women and children..... | 42/5 feet |
| 4 miles Pedestrians, men | 57/9 feet |
| 10 miles Automobiles | 142/3 feet |
| 15 miles Automobiles | 22 feet |
| 20 miles Automobiles | 29 1/3 feet |
| 25 miles Automobiles | 36 2/3 feet |
| 30 miles Automobiles | 44 feet |
| 35 miles Automobiles | 51 1/4 feet |
| 40 miles Automobiles | 58 2/3 feet |
| 50 miles Automobiles | 73 1/3 feet |
| 60 miles Automobiles | 88 feet |

A pedestrian is one second remote from an accident in case he steps in front of a machine at a distance equal to the number of feet traveled per second in the above table in case he is not detected or the brakes fail to work. In case he is detected and the brakes are applied the danger is lessened but not removed.

Table of Brake Tests.

The following brake tests were made in Kings County, Friday, May 17, 1912. The brakes were applied at a designated point in the highway with full notice to the driver. It is to be noted that a car moving at the rate of 15 miles per hour, properly equipped, with notice to the driver, under favorable circumstances, required the distance of 15 feet to stop while the car moving at the rate of 20 miles per hour required a distance of between 25 and 36 feet to stop. A faulty application of the brakes required additional distance and the committee observed that brakes were not always applied with the same degree of accuracy.

Series One:

Series Two:

| 20 miles (anti-skid)..... | 28 feet 3 inches..... | 36 feet. |
| 30 miles (anti-skid)..... | 83 feet | 44 feet. |

Present City Ordinance—The present City Ordinance provides for a speed of 8 miles per hour in built up sections of the City and 15 miles per hour where the buildings are 100 feet apart. The penalty provided for violation is from one to ten dollars. This ordinance has been sustained by the courts.

Licensing Drivers—The present law requires that drivers for hire only shall be licensed. Private owners are not required to get a license to drive. This must not be confused with the licensing of the car itself, which in all cases must be licensed. The office of the Secretary of State is responsible for the granting of licenses to drivers. The examinations as conducted at present are undoubtedly superficial and inadequate both as to character and efficiency.

In the City of Paris applicants are compelled to drive in the presence of dummies on the streets and to demonstrate their skill in the avoiding of obstacles. Such tests appear to be reasonable and necessary.

An automobile in the hands of an unskilled driver is an engine of destruction. Any person desiring to drive should prove beyond a doubt that he is competent to assume the responsibility. The burden of proof should rest with him. The mere fact that a person owns a car and is willing to risk injury to himself and property is insufficient. It is difficult to find a good reason for licensing a driver for hire and exempting the private owner. In Massachusetts all drivers must be licensed. Such a provision would tend to prevent the driving of a car by a reckless son or unskilled driver and would provide a necessary means for removing the chronic speeder from the public highways.

The present law gives the Secretary of State power to revoke a license to drive for sufficient cause upon complaint of a magistrate. It is believed that such power should rest with the magistrates or the Police Commissioner, who are upon the spot and have information at hand. Such power should rest with local authorities at least so far as driving in New York City is concerned regardless of the rest of the state.

Drivers who reside in New York City should file with the Police Department a card containing their photograph, license number, address and signature to be used for the purpose of identification in case of repeated offenses. It might be possible to provide blanks on the driver's license so that a magistrate could make a record of violations of the law. This record would be available at any time and would assist in determining the amount of the penalty.

Brakes and Speed—Safe driving depends primarily upon two things—the efficiency of the man at the wheel and proper brakes. If either is at fault the public is in danger. The tables of speed and brake tests submitted with this report show that it requires a distance of nearly 15 feet to stop a car on dry asphalt at a speed of 15 miles per hour, which is equivalent to a speed of 22 feet per second. When the speed of the car is increased from 15 to 20 miles per hour an increase of 33 1/3 per cent of speed, the distance required to stop is increased to nearly 30 feet. In short, the increase of speed by 33 1/3 per cent, increases the distance at which it is possible to stop by nearly 100 per cent. An increase of speed from 15 to 30 miles per hour or 100 per cent increases the distance required to stop to 60 feet, or 400 per cent.

The tests referred to were made under favorable circumstances and illustrate what might happen in stopping a car equipped with brakes which have not been repaired for a year after normal usage, which brakes are ordinarily 50 per cent less efficient than new brakes. The necessity of some sort of brakes, inspection and proper penalties for defective brakes is apparent.

How quickly can a car be stopped in an emergency at a given rate of speed? Under what conditions can the pedestrian escape?

By referring to the table of speed and brake tests submitted herewith a hypothetical case can easily be formulated. At a speed of 15 miles per hour a car travels 22 feet per second. In case the pedestrian stops in front of a car at this rate of speed at a distance of 22 feet either through his own negligence or that of the driver in failing to warn of his approach, there would be precisely one second of time to avoid accident. This would require on the part of the driver immediate discovery of the pedestrian, instantaneous decision and application of the brakes and an immediate response of the machine. A failure in one respect would precipitate an accident. In case the distance of the machine to travel were much less than 22 feet it is evident that there could be no escape. The pressure of the brakes lessens the speed of the car per second, but fractions of seconds are of little consequence to infirm persons, women and children, under such circumstances.

Comparative Dangers of Vehicular Traffic—Owing to the fact that there is now no accurate record of the number of automobiles and other classes of vehicular traffic it is impossible to make an accurate comparison. It was urged at the outset by the automobilists that the danger incidental to motor traffic was much less than that of other street traffic. The hospital records and the coroners' records submitted herewith for this year would seem to indicate that such is not the case. It is now claimed that the total mileage of the motor cars exceeds that of other vehicles and that this accounts for the heavy death toll and many injuries. It is to be noted, however, that much of the mileage is on country roads; that motor cars are used but little during the winter months and more particularly on Saturday afternoons, Sundays and holidays during the remainder of the year, while other vehicular traffic is nearly constant throughout the year. It is estimated that there are five times as many horse-drawn vehicles as automobiles. All things considered the committee is of the opinion that the automobile leads in accidents and fatalities.

Speed and Discretion—It is the intent of the Callan Law, unless otherwise provided by local ordinance, that the rate of the speed shall be left to the discretion of the driver. This provision is favored by some owners who suggest the repeal of the present city ordinance, leaving the Callan Law in full force and effect. Theoretically, discretion without limitation is excellent. Practically it is open to serious objection. It hampers conviction. In each court case at least two questions of fact arise—the rate of speed and reckless driving. The latter question involves many others. How many vehicles were on the street, how many pedestrians, their relative positions and how fast was the vehicle moving, how wide was the street and what signals were given? Did the act charged as reckless cause an accident or not, and, if not, was it reckless? The testimony of a single officer many times can be offset by the testimony of several occupants of the car. Street cars, trucks, carriages, tradesmen's delivery wagons, automobiles and pedestrians, including many women, children, the infirm and the aged, are continuously mingling from four different directions at intersecting streets. The unexpected is always happening. Under such conditions an automobile should be under perfect control, and at least as much control as a horse and carriage. The maximum speed limit should mean perfect control beyond which there can be no discretion. The rule of discretion makes a policeman a judicial officer instead of an administrative officer. Arrests should always be made with discretion, but upon definite and specific principles which should be established by law as far as possible. Too many men should not be vested with judicial power. In some instances it has been urged that the proposed limitations of speed will be a hardship for drivers of discretion. The answer is that drivers of discretion are not exceeding the limitations prescribed in the proposed ordinance under various conditions. For several months past the police policy has been to suppress reckless driving only. In other words, driving at discretion, the rule of reason has prevailed in New York City. It is needless to say that fast and reckless driving has become a common practice under the law of discretion. The drivers have had their chance and a material percentage has convicted itself of indiscretion. The conclusion necessarily follows that discretion has its limitations under certain conditions as proposed in the ordinance.

It has been pointed out that in London and Paris drivers have discretion as to rates of speed. It is generally understood, however, that arrest will be made if the speed exceeds 15 miles per hour in business and residential sections. The proposed ordinance merely states specifically what is otherwise commonly understood. In addition, drivers' licenses are there granted after careful inquiry as to character, efficiency and practical tests.

The Police Department—The policy of the Police Department has been to arrest for reckless driving. The patrolmen and mounted police are unable to do much in the way of arrests for the reason that the speed of the automobile is too fast. Motor-

cycle officers are the only members of the force qualified to overtake a speeder. It is believed that the present motorcycle force of 25 is too small to cover the city with any degree of efficiency and that the many thoroughfares of the entire city should be adequately patrolled in this respect.

It is also to be noted that proper rear lights are not now provided. In one evening it was discovered that 10 per cent. of the cars were without such lights on Fifth ave. and that in many instances it was impossible to read the license numbers on the rear of the car owing to defective lights.

The present law requires the license number to be visible only for a distance of 50 feet from the rear of the car. Such a number may become invisible in less than two seconds if a car is travelling at the rate of 20 miles per hour. The Police Department should enforce the law rigidly in this respect in order that proper identification may be had in case of injury or accident and the offender tries to escape.

Public Streets—Pedestrians and vehicles each have rights in public streets which must be respected. Vehicles are excluded from the sidewalks and pedestrians are not supposed to frequent the public highway except at crossings. It is at this point that the trouble begins.

It is at once evident that pedestrians far outnumber vehicles and particularly automobiles. According to the majority rule and also to ethical standards the greatest good to the greatest number, the rights of the pedestrians should prevail. In fact the courts have so held. It is also essential to pleasure and business in a large city that vehicular traffic should not be unnecessarily impeded. The question arises, what shall be the standard of speed? The answer, the committee believes, is that speed at all times must be consistent with public safety and the rights of others. This is the fundamental principle upon which the proposed ordinance is based.

Pedestrians—While pedestrians have many just causes for complaint, they are also responsible in many cases for their own injuries and unnecessarily annoy the drivers. According to the records of the Police Department some 800 accidents out of 2,500 occurred in the middle of the block or remote from corners. Vehicles should be entitled to free and unobstructed passage of the highways aside from street crossings. Pedestrians who take the risk of crossing streets in the middle of the block invite disaster and are primarily to blame for any accident that may occur.

Failure to observe approaching vehicles in stepping from the sidewalk and crossing streets may result in serious injury at any time. Pedestrians are frequently negligent in this respect as they also are in stepping from behind standing vehicles in front of approaching vehicles without looking. While the majority of those injured or killed are adults, about one-third are children under 16 years of age. Playing ball and roller-skating in the streets are the causes of many of these deaths and injuries. It may seem severe for the police to drive children who are playing from the streets; but in so doing they are safeguarding their lives from traffic. Winking at such practices is winking at danger and even death. Adequate playgrounds is the proper remedy.

While pedestrians may be negligent and careless in crossing streets and may be injured or killed it is human nature to be somewhat careless. At any event, a death sentence from a swiftly moving vehicle not under control is out of proportion as a penalty for negligence under such circumstances.

The Magistrates—The enforcement of the law rests with the magistrates, assuming that the police make the necessary and proper arrests. It is believed that much of the reckless driving of the past might have been suppressed by a more rigid enforcement of the City Ordinance both by the police and magistrates. If the law of discretion without limitation is to prevail the situation might become hopelessly confused, as there are many magistrates and there might be many opinions as to what constitutes reckless driving. It is believed that the magistrates are now dealing more severely with offenders. The slight penalty of \$10.00 now provided in the present law is an admitted source of weakness. It is impossible to learn of any specific complaints filed by magistrates with the Secretary of State against licensed drivers for offenses against the law. Such a provision exists in the Callan Law. It would seem that magistrates should not be required to perform ministerial duties of this sort in addition to their judicial duties.

Court Decisions.

It has been maintained by some attorneys and automobile owners that any proposed ordinance would be defective unless adequate provisions were made for the posting of signs on the public highways showing the rates of speed permitted by the proposed ordinance.

Such requirement would seem unreasonable and impossible, and in addition would appear that more persons might be injured if the drivers were required to constantly watch for notices posted on the public highways for the reason that their attention would be continuously diverted for such observation and in the meantime pedestrians might be unavoidably injured.

For these reasons the committee has made the provisions general and designated certain streets where a slightly increased speed is deemed to be consistent with public safety.

A recent decision of the Appellate Division in the case of *The People of the State of New York, respondent, vs. Irwin Untermeyer, appellant*, and another decision of Mr. Justice Swann, of the Court of General Sessions in the case of *The People of the State of New York, respondent, vs. John Dwyer, appellant*, are herewith submitted:

Court of General Sessions, The People of the State of New York,

Respondent, against John Dwyer, Appellant.

This is an appeal by the defendant from a judgment of conviction in the City Magistrate's Court, convicting the defendant of a violation of the city ordinance regulating the speed of motor vehicles.

The facts in the case are not disputed, and on this appeal the defendant raises the question of law solely. Stripped of the technical legal forms of expression, the question is whether in The City of New York the local ordinance regulating the speed of motor vehicles was superseded by the Motor Vehicle Law (familiarly known as the Callan law).

By section 288 of the "Motor Vehicle Law" local ordinances are prohibited "except as herein otherwise provided," and in the same section it is expressly provided that the inhibition against local ordinances shall not apply to cities of the first class in the following words:

"Provided that nothing in this article contained shall impair the validity or effect of any ordinances regulating the speed of motor vehicles or of any traffic regulations with regard to the operation of motor vehicles heretofore or hereafter made, adopted or prescribed, pursuant to law in any city of the first class;"

Nor is it necessary to the validity of an ordinance of a city of the first class that the city's streets should be "posted" as provided in section 288, as it is expressly provided by that section that the posting shall apply to "other cities" (meaning cities other than those of the first class which had just been mentioned.)

This construction of the "Motor Vehicle Law" is in strict accordance with the canons of statutory construction and gives meaning and effect to all of the provisions of section 288.

The construction contended for by the appellant would render some of the provisions of the section meaningless, and from the extreme difficulty of The City of New York in complying with the provision for posting its streets it would almost make a local ordinance impossible, and it cannot be seriously contended that the legislative intent was to permit motor cars to speed through the streets of New York at any such extraordinary rate.

It may be that the present local ordinance restricts the speed unduly, as contended by the appellant, but that is a question of policy and not of law, and relief may be obtained by an amendment of the ordinance.

The judgment of conviction is affirmed.

Supreme Court, Appellate Division, First Department. The People of the State of New York, Respondent, against Irwin Untermeyer, Appellant.

Statement of Facts.

The defendant was convicted of a violation of section 454, chapter 127 of the ordinance of The City of New York, which prescribes a speed limit of eight miles an hour in portions of The City of New York which are closely built up. On appeal to the Appellate Division the evidence was undisputed that the defendant operated an automobile on Broadway at a greater speed than eight miles an hour. The question presented was whether section 288 of chapter 374 of the Laws of 1910, article 2, required the posting of signs by cities of the first class as a condition precedent to the enforceability of a city ordinance. Mr. Justice Clark, delivering the opinion of the Court, held that the condition requiring the posting of signs was not applicable to cities of the first class, saying:

"The point raised here is that as it is not shown that signs were posted, in fact, it is conceded they were not, the local ordinance does not apply, the magis-

trate had no jurisdiction, and the speed limit is therefore covered by section 287, that is, roughly speaking 30 miles an hour. The answer is that the act expressly provides that nothing in this article shall impair the validity or effect of any ordinances, etc., adopted and prescribed, pursuant to law in any city of the first class.

"The appellant claims that, notwithstanding said provision, the grammatical construction of the section compels the condition in regard to the posting of signs, still required in other cities and incorporated villages, to be also applied to cities of the first class. I do not think so. The statute is awkwardly phrased, but I think it clear that special provision has been made for cities of the first class, permitting them to pass such ordinances as they please, and that there is no condition in regard to posting signs. If this is not so there is no speed limit in The City of New York, except that provided by the general law. I think the act was modified directly in view of the former decisions. It was recognized that in the enormous territory of The City of New York the posting of signs would be extremely difficult, if not practically impossible, and therefore the provision eliminating cities of the first class from the limitations of the law in respect to traffic ordinances was made comprehensive and exclusive."

AN ORDINANCE regulating the speed of vehicles on the public highways of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

1. Speed—General Considerations—No person shall operate, drive or propel, and no owner thereof riding thereon or therein shall cause or permit to be operated, driven or propelled, on any public highway in The City of New York any bicycle, tricycle, velocipede, motorcycle, motor tricycle, motor delivery wagon or motor vehicle however propelled, or any vehicle drawn by horses or other animals, recklessly or negligently, or at a speed or in a manner so as to endanger, or to be likely to endanger, the life or limb or property of any person.

2. Specific Rates of Speed—No person shall operate, drive or propel, and no owner thereof riding thereon or therein, shall cause or permit to be operated, driven or propelled, any vehicle subject to the provisions of Section one (1) of this article, on any public highway in The City of New York at a greater rate of speed than fifteen (15) miles per hour. Provided, however, that a rate of speed of eighteen (18) miles per hour may be maintained, but not exceeded on the following highways, namely: In the Borough of Manhattan, Broadway north of 125th street, Amsterdam avenue north of 125th street; in the Borough of The Bronx, the Grand Concourse and Boulevard; in the Borough of Brooklyn, Atlantic avenue, Eighteenth avenue, Flatbush avenue, Fourth avenue, Fifteenth avenue, Kings highway. And provided further, that a rate of speed of twenty (20) miles per hour may be maintained but not exceeded, on Queens (Hoffman) boulevard, in the Borough of Queens. And provided further, that a speed of twenty-five (25) miles per hour may be maintained, but not exceeded, on public highways where the same pass through country sections which are substantially undeveloped and sparsely settled.

But nothing in this section contained shall be construed as in any manner or degree limiting or restricting the operation or effect of any of the provisions of section one (1) of this article.

3. Approaching Bridges, Turning Corners, Passing Public Schools, Meeting Street Cars—Upon approaching a bridge, or in turning a corner of intersecting public highways, or in passing a public school on school days between the hours of eight (8) o'clock ante-meridian and four (4) o'clock post-meridian, the person operating, driving or propelling any vehicle subject to the provisions of section one (1) of this article, shall not proceed, nor shall the owner of any such vehicle riding thereon or therein, cause or permit the same to proceed, at a rate of speed greater than ten (10) miles per hour, and in meeting, overtaking or approaching a street passenger car which has been stopped for the purpose of receiving or discharging passengers, every such vehicle aforesaid shall be brought to a full stop at a point not less than six feet from such street passenger car, and shall not proceed and pass such street passenger car between said car and the near curb or sidewalk until such street passenger car shall have proceeded.

But nothing in this section contained shall be construed as in any manner or degree limiting or restricting the operation or effect of any of the provisions of section one (1) of this article.

4. Application of Sections 2 and 3—Nothing contained in either section two (2) or section three (3) of this article shall apply to any of the following vehicles, to wit: Vehicles carrying United States mails, wagons, trucks and apparatus of the Fire Department, of the Police Department and of the military, emergency repair wagons of public service corporations, and ambulances, when in the performance of duty, and vehicles which run only on rails and tracks.

5. Violations. Punishment for First, Second, Third and Subsequent Offenses—Jurisdiction—Any person who shall operate, drive or propel, and also any owner thereof riding thereon or therein who shall cause or permit any vehicle subject to the provisions of section one (1) of this article, to be operated, driven or propelled, in violation of any of the provisions of this article, shall be guilty of a misdemeanor, and shall, upon conviction for the first offense, be punished by a fine of not less than twenty-five (25) dollars nor more than one hundred (100) dollars, or by imprisonment not to exceed fifteen (15) days, or by both; and shall, upon conviction for the second offense, within one (1) year from the commission of the first offense, be punished by a fine of not less than fifty (50) dollars, nor more than one hundred (100) dollars or by imprisonment not to exceed thirty (30) days, or by both; and shall, upon conviction for the third offense, and for each and every offense subsequent thereto, within one (1) year from the commission of the first offense, be punished by a fine of one hundred (100) dollars, or by imprisonment for a term not to exceed sixty (60) days, or by both.

Provided, however, in construing this section the unit of any one year shall be the basis for determining "first," "second" or "third" offense, the numerical order changing when succeeding convictions occur, and more than one year has elapsed after an original "first," "second" or "third" offense.

6. Ordinances Repealed—All ordinances and parts of ordinances of The City of New York inconsistent with, or contrary to, the provisions of this article, are hereby expressly repealed, except that no ordinance regulating or prescribing the rate of speed of street passenger cars shall be impaired or affected in any manner by anything herein contained.

7. This ordinance shall take effect March 1, 1913.

On motion of Alderman Folks the vote by which the above ordinance was adopted was reconsidered. The paper was then referred to the Special Committee on Speed Regulations.

PETITIONS AND COMMUNICATIONS.

No. 2656.

State of New York, Public Service Commission, Second District, Albany, January 16, 1913.

Mr. P. J. SCULLY, Clerk of the Board of Aldermen, City of New York, City Hall, New York City:

Dear Sir—Further referring to the resolution of the Board of Aldermen, adopted December 3, 1912, we beg to advise you that we made request upon the New York Telephone Company for its statement concerning this matter, together with detailed information as to the number of new operators employed in each of its central offices from January to November, inclusive, 1912, and the term of experience of operators as employed each month.

Copy of the company's statement, together with the tables giving the information, is enclosed herewith for your consideration. According to our request, the inquiry was limited to the "A" and "B" operators, which include the rank and file of the operating force, with which the public come in contact the most, and through which the force is recruited.

We would further advise you that since the passage of the law giving this Commission supervision over telephone corporations we have had from two to four expert telephone inspectors constantly employed within The City of Greater New York. These inspectors have covered every central office of the New York Telephone Company, and have made detailed reports and recommendations concerning the same. Information so gathered has enabled us to check the statement and tables of the company, and we conclude that it is a fair statement and representation of existing facts.

Our inspections have developed a number of conditions which call for remedy and the company has complied with our recommendations with evident intent to make improvements. We have already been able to see a substantial benefit from this work, and we are continuing with the inspections and holding conferences with the officers of the telephone company with view of making further correction.

We have found instances of overloaded, shortage of equipment and error in operating due to inexperience, but we do not find that the specific complaint which you

make, i. e., "that the New York Telephone Company has instituted a system of using certain telephone exchanges on the west side of the City for the purpose of training schools for new operators," is borne out by the facts. There may be some occasion for criticising the service, but we do not find that you have hit upon the cause for such criticisms.

Your resolution does not mention the specific exchanges on the West Side where the practice you mention is suspected, but from the records we have figured roughly that the percentage of operators having over twelve months experience on the West Side is 74, and on the East Side 77.5.

We desire to assure you that the telephone service in New York City is receiving our constant attention and supervision, and we invite you to give us further specific information which will enable us to check up any grievances which have come to you, and if possible get in touch with the individual complainants. Very truly yours,

J. S. KENNEDY, Secretary.

New York Telephone Company, New York, January 2, 1913.

Mr. J. S. KENNEDY, Secretary, Public Service Commission, Second District, State of New York, Albany, N. Y.:

Dear Sir—In reply to your letter dated December 11, 1912, relative to the resolution of the Board of Aldermen of New York City, adopted December 3, 1912, I wish to submit the following answer of this company:

The underlying principle of all central office organization studies is that the proper number of trained employees may be available at all times to handle efficiently and economically the traffic and other work required in each central office.

In order that enough trained employees may be available to handle the traffic and work to be done at any given time, estimates of the traffic to be handled and of the employees required to handle this traffic are made sufficiently in advance so that the proper amount of training may be given such employees before their services are actually required. Experience has indicated that a period of three months is the proper length of training for students and estimates of traffic and of the number of employees required to handle the traffic are accordingly made at least three months in advance of the period at which a decided change in the traffic is expected.

This company does not use any central office as a training school for the operators of another central office, except when it becomes necessary to train additional operators for the opening of a new central office.

I am forwarding herewith statements showing, for the Manhattan-The Bronx division:

1. Number of new operators assigned to each central office each month from January to November, inclusive, 1912, together with the average term of service of the "A" and "B" operating forces in each of the offices during these months.

2. Number and per cent. of total "A" and "B" operating force of "A" and "B" operators one month in the service, one to three months in the service, etc., for each central office for December 1, 1912.

A comparison of the number of new operators assigned to the central offices each month for any period, as given on statement No. 1, with the number of operators one month in the service, three months in the service, etc., as given on statement No. 2, shows an apparent inconsistency in that the number of operators assigned to any office or offices exceeds the number of operators actually in service at that office or offices for the particular period under consideration. This is due to:

(a) Resignations of operators who were assigned to central offices during the period under consideration, since such operators are included in the number of new operators (statement No. 1) but are, of course, not included in the number of operators in the service on December 1 (statement No. 2).

(b) The fact that operators are given one month's training in the school before being assigned to the central offices, which would mean that an operator assigned to a central office during a given month would be included in the number of new operators for that office for that month (statement No. 1) but might not be included in the statement showing length of service by classes for that office in the class in which that particular month would fall. For example, an operator engaged on October 5 and assigned to a central office on November 5 would be included in the number of new operators for that office for November, but since the operator had been one month in the school before being assigned to a central office she would not be included in the number of operators in service one month or less on December 1, but would be included in the number of operators one to three months in the service on December 1.

It would appear from an inspection of statement No. 2, mentioned above, that the number of operators one month in the service, and of operators one to three months in the service at the Chelsea, Madison Square, Greeley-Murray Hill, Bryant and Columbus central offices on December 1, 1912, was unusually large in comparison with the number of operators of these classes at the other offices in the Manhat-

tan-The Bronx division. The reasons for the large number of student operators in these particular offices are as follows:

1. On account of the rapid growth in lines and the large increase in traffic during the late fall and winter months in the Chelsea, Madison Square, Greeley-Murray Hill, Bryant and Columbus central office districts, it is necessary to assign a considerable number of student operators to these offices during September and October in order that the proper number of trained operators may be available to handle the maximum traffic during January and February, when the traffic is at a maximum.

2. We were planning to put into service a new central office to be known as "Murray Hill," and to which the Murray Hill lines formerly working in the Greeley-Murray Hill switchboard, were to be transferred. With the opening of the new central office a number of "A" and "B" operators were to be released from the Greeley-Murray Hill central office, but it was necessary to provide about fifty additional operators in order that a proper working force for the new office could be obtained. The necessary number of additional operators were accordingly engaged during September and October, and in order that these operators might properly be trained they were assigned to the various central offices until the time of the cut over of the new office which has since been effected. It should be kept in mind, however, that these additional operators for the new office were excess operators at the Madison Square, Greeley-Murray Hill and Columbus central offices in the sense that they were in excess of the actual number of operators required at these offices to handle the traffic.

I trust that this is the information you desire. Yours very truly,
(Signed) J. L. SWAYZE, Attorney.

Harlem Property Owners' Association, Incorporated, 147 E. 125th st., January 17, 1913.
Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, 51 Chambers St., New York City:

Dear Sir—The Harlem Property Owners' Association of The City of New York are strenuously opposed to the issuing of \$21,457 of special revenue bonds for the Brooklyn Commissioner of the Department of Water Supply, Gas and Electricity, for the salaries and expenses of house to house Inspectors of said Department. It is folly to squander the taxpayers' money so as to save the water wasted from a few leaky faucets, when millions and millions of gallons are daily running to waste over the Croton water dam into the Hudson River.

In fact, it would benefit the health of the citizens of this community to have a little clean water running through the sewerage system of the City, whereby the sewers would be washed out.

We hope you will not favor the granting of said appropriation. Very respectfully yours,
Dr. ABRAHAM KORN, President.

Dear Sir—The Harlem Property Owners' Association of The City of New York are strenuously opposed to the issuing of \$10,000 of special revenue bonds for the Normal College of The City of New York, to provide funds for free concerts, to be given under the direction of the Musical Department of the Normal College.

Taxpayers feel that they are doing more than enough for the young ladies entering this college, without providing funds for their social entertainment. COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President, Borough of Richmond:

No. 2662.

The City of New York, Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, January 14, 1913.
Honorable Board of Aldermen, City Hall, New York City:

Gentlemen—I would request an amendment to the following resolution adopted by your Board on December 17, 1912, viz.:

"Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars (\$1,000), the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of replacing mutilated and missing street signs, posts, etc., in said Borough.

"All obligations contracted for hereunder to be incurred on or before March 31, 1913."

—so that said resolution will read as follows:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars (\$1,000), the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of replacing mutilated and missing street signs, posts, etc., in said Borough.

"All obligations contracted for hereunder to be incurred on or before December 31, 1913."

The amendment requested consists in the substitution of December 31, 1913, for March 31, 1913, as it is the desire of the Bureau of Highways to replace the street signs, posts, etc., from time to time during the year as convenient, the work to be done by departmental labor. It would be quite difficult to determine the particular signs most needed and to have them made and installed before March 31, the limiting time called for in the resolution, and, furthermore, it is more economical to have it done from time to time throughout the year. Yours respectfully,

GEORGE CROMWELL, President of the Borough.

The President laid before the Board the following communications from the Fire Commissioner:

No. 2663.

Fire Department of The City of New York, Office of the Commissioner, January 16, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—In addition to the appropriation of \$255,000 made in the budget for the payment during the year 1913 of salaries of the various divisions of the Bureau of Fire Prevention of this department, the further sum of \$5,000 is imperatively required to provide for the compensation of a force of three special investigators in connection with the work of bringing to justice the members of the numerous bands of incendiaries that are at present conducting their nefarious operations in this city. Provision for this purpose was asked in the departmental estimate for the current year, but disallowed.

Two temporary inspectors in the Bureau of Fire Prevention, whose employment in such capacity will terminate with the promulgation by the Municipal Civil Service Commission of an eligible list for that position based on examination now in progress, have especially distinguished themselves in the work of running to cover these miscreants. So energetic and successful have been their labors that the result thus far has been the incarceration in State Prison of seven incendiaries, with the prospect of this number being materially augmented in the early future.

It is my desire to continue the services of the two individuals in question, and to employ one other in addition, to act in the capacity of Special Investigators in the Bureau of Fire Prevention of this department: It is proposed to pay one of them a salary of \$2,000 per annum, and the other two of \$1,500 per annum each, a total of \$5,000 yearly, and I feel confident that the benefits that would be achieved from their employment in the detection and punishment of the perpetrators of the cowardly crime of arson would afford ample justification for the small annual outlay necessary to this end.

I have, therefore, the honor earnestly to request that a special revenue bond issue in an amount not to exceed \$5,000, be authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the proceeds to be applied to the purpose herein specified.

Draft of resolution is enclosed. Respectfully,

JOS. JOHNSON, Fire Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen deeming such course to be in the public interest, hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in an amount not to exceed five thousand dollars (\$5,000) to proceeds whereof to be applied to the payment during 1913 of the salaries of a force of three special investigators, whose services are required in the Bureau of Fire Prevention of the Fire Department of The City of New York.

No. 2664.

Fire Department of The City of New York, Office of the Commissioner, January 16, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—The amount allowed for contingencies, Bureau of Fire Prevention of this department for 1913, namely \$2,800, will, it is estimated, be adequate to meet the demands upon it for no longer a period than the first quarter of the current year.

Necessary expenditures for car fares, for meals on occasions when conditions called for extra service, and for incidental expenses where, as was frequently the case, the Fire Marshals and their assistants were required to labor both day and night in prosecuting their work of investigation of suspected incendiaries, amounted for a period of nine months of the year 1912, to \$7,976.29. And this total did not include expense of Boards of Survey in cases where the decisions of those bodies were adverse to the validity of orders issued by the Fire Department.

I feel justified in assuming from the record of 1912, that in addition to the allowance of \$2,800 in the budget for 1913, the further sum of \$10,000 will be needed to meet the contingent expense requirements of the Bureau of Fire Prevention of this department for the current year, and therefore to request that provision be made for this additional amount by a special revenue bond issue under the authority of subdivision 8 of section 188 of the Greater New York Charter.

I enclose draft of resolution to meet the necessities of this case with the request that early and favorable action be had in the matter. Respectfully,

JOS. JOHNSON, Fire Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen deeming such course to be in the public interest, hereby requests the Board of Estimate and Apportionment to

authorize the Comptroller to issue special revenue bonds in an amount not to exceed ten thousand dollars (\$10,000), the proceeds whereof to be applied to meet contingent expenses of the Bureau of Fire Prevention of the Fire Department of The City of New York for 1913, the budget appropriation for such purpose being estimated to be insufficient.

The President laid before the Board the following communication from the Chief City Magistrate, First Division:

No. 2665.

Board of City Magistrates, First Division, City of New York, 300 Mulberry Street, Manhattan, New York City, January 16, 1913.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—Request is hereby respectfully made for an issuance of special revenue bonds, to the extent of nineteen hundred dollars (\$1,900), to pay the Stenographers employed in the City Magistrates' Courts, First Division, for transcripts of minutes of examinations furnished to the District Attorney of the County of New York, during the year 1913.

Hitherto compensation to the Stenographers for such services was paid out of the contingent fund of the District Attorney's office, but no allowance was made for the same in the budget for 1913 for the office of the District Attorney of New York County.

The Stenographers are legally entitled to compensation for this extra service, and it is necessary that funds be provided to meet the cost of same.

Respectfully submitted, WM. McADOO, Chief City Magistrate.

Attest: PHILIP BLOCK, Chief Clerk.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Public Administrator:

No. 2666.

Bureau of the Public Administrator, No. 119 Nassau Street, Room 1025, New York, January 20, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—For some time the efficient conduct of the business of my bureau has required an additional Stenographer.

I am required by law to settle and distribute estates among creditors and next of kin six months after letters of administration have been issued to me. It is only fair to creditors and next of kin that this law should be strictly complied with. For over six months now, I have been unable to do this.

Since last August I have employed an extra Stenographer at my own expense, and I must continue to do this indefinitely unless provision is made for extra help.

I feel that your honorable Board does not wish that I shall continue any longer to pay out of my own pocket for the services of a Clerk whom the City should pay, and I therefore make an urgent request that your Board authorize a special issue of revenue bonds to the amount of \$780; this sum to be applied to the salary of a new Clerk for 1913.

Last July, at the time of submitting my estimate for the budget for 1913, I did not know that additional help would be necessary. The need of additional help has become apparent since that time.

Upon the authority being given by your honorable Board to the issue of such special revenue bonds, I will apply immediately to the Board of Estimate and Apportionment to create the additional Clerkship and to fix the salary at \$780.

Yours Respectfully,

WILLIAM M. HOES, Public Administrator, County of New York.

No. 2667.

Municipal Civil Service Commission of The City of New York, 299 Broadway, 11th Floor, Payroll Bureau, New York, January 20, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—To meet the conditions of the segregated budget appropriation of this Commission for the year 1913 it will be necessary to amend the following resolution adopted by the Board of Aldermen July 19, 1910:

"Resolved, That, for the purpose of defraying incidental expenses incident to the correspondence, etc., of the Municipal Civil Service Commission the Secretary of said Commission may, by requisition, draw upon the Comptroller for a sum not exceeding seven hundred and fifty dollars (\$750), and may in like manner renew the draft as often as he may deem necessary to the extent of the appropriation set apart for contingencies in the office of said Municipal Civil Service Commission, but no such renewals shall be made until the money paid on the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers certified by the said Secretary of the Municipal Civil Service Commission of The City of New York, covering the expenditures of the money paid thereon."

I enclose copy of the amended resolution which it is desired should be substituted. Will you kindly present this resolution for action by your Board at the next meeting. Respectfully,

F. A. SPENCER, Secretary.

Resolved, That, for the purpose of defraying incidental expenses incident to the correspondence, etc., of the Municipal Civil Service Commission, the Secretary of said Commission may, by requisition, draw upon the Comptroller for a sum not exceeding seven hundred and fifty dollars (\$750), drawn from several or all of the following accounts:

Purchase of Equipment—Code No. 2047, Office Equipment.

—and may, in like manner, renew the draft as often as he may deem necessary, to the extent of said appropriations, in the office of the said Municipal Civil Service Commission, but no such renewals shall be made until the money paid on the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the said Secretary of the Municipal Civil Service Commission of The City of New York, covering the expenditures of the money paid thereon.

Sir—The Board of Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the issue of special revenue bonds to an

amount not exceeding \$7,000, to provide for a motor car for the use of the psychopathic department, which finds that it is impossible with the present facilities to transfer alleged insane persons to the psychopathic ward, as is provided for by law, and also for the salaries of a Chauffeur, an additional Nurse and an Assistant Physician. The President laid before the Board the following communication from the Commissioner of Parks, The Bronx:

No. 2670.

The City of New York, Department of Parks, Office of Commissioner for the Borough of The Bronx, Zbrowski Mansion, Claremont Park, January 15, 1913.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, New York City:

Sir—Application is hereby respectfully made to the Honorable Board of Aldermen for an issue of revenue bonds in the sum of six thousand dollars (\$6,000), for the purpose of draining the salt meadows in Pelham Bay Park, eliminating the mosquito-breeding area there.

There are about 400 acres of salt meadows in this park that can be trenched so as to minimize the mosquito trouble for the sum of \$15 per acre, or a total amount of \$6,000.

The people living in the vicinity of this park, in the town of Pelham and the city of New Rochelle, have already begun operations along these lines and considerable land has been trenched, producing satisfactory results, it is claimed. They have lodged numerous complaints with this office relative to this mosquito-breeding area, and have, they state, deferred proceeding with the work of drainage until such time as The City of New York shows some disposition to co-operate in the abatement of this nuisance.

Operations could be begun on this work in the early spring, or even during the winter, if the funds were available.

I would therefore earnestly ask your early and favorable consideration of the above application. Respectfully,

T. J. HIGGINS, Commissioner of Parks, Borough of The Bronx.

The President laid before the Board the following communications from the Department of Water Supply, Gas and Electricity:

No. 2671.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, New York, January 17, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—Mr. John F. Grady, Foreman in charge of the company assigned to the repair and maintenance of the water distribution system in the lower section of the Borough of Manhattan, and who has been connected with the city service for forty-two years, presented to me last year his application for retirement. The matter was later referred to the Board of Estimate and Apportionment and by it transmitted to the Comptroller for report. No action has been taken upon said application. I understand that about that time the Comptroller was served with an injunction by a taxpayer restraining him from paying any moneys to City employees retired under authority of chapter 669 of the Laws of 1911. In preparing the Department's estimate for funds required for the current year no provision was made for the continued employment of Foreman Grady. It was my belief that he would be retired some time last year and consequently there would be no necessity for appropriating any money for his salary. Unfortunately, the suit brought by the taxpayer has not yet been decided. As you will see, this has brought about a rather embarrassing situation, so far as Mr. Grady is concerned, and if the taxpayer's suit should terminate adversely to the City Mr. Grady will, no doubt, remain with the Department.

I would therefore respectfully request that the Board of Aldermen provide special revenue bonds in the sum of \$1,825, the proceeds whereof to be applied to the payment of Mr. Grady's wages for the year 1913. Yours truly,

HENRY S. THOMPSON, Commissioner.

No. 2672.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, January 16, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—In the estimate of this Department for appropriations for 1913, request was made for funds to purchase for the Borough of Queens three automobiles, and the Budget Committee assented to an allowance for the purchase of one, but that was later cut out, and the allowance for the hire of horses and vehicles, which had been cut out when the automobiles were apparently to be allowed, was not put back; therefore, the Department is compelled to ask for revenue bonds for the purpose.

I have, therefore, to ask that the Board of Aldermen request the Board of Estimate and Apportionment to authorize the Comptroller to issue revenue bonds to the amount of \$2,790, which sum is necessary for the hire of horses and vehicles for this year. Yours truly,

HENRY S. THOMPSON, Commissioner.

The President laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 2673.

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, January 21, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, The City of New York:

Sir—Pursuant to section 128, subdivision 8, of the Greater New York Charter, I respectfully request that your honorable Board authorize the issue of revenue bonds of The City of New York in the sum of ten thousand dollars (\$10,000), the proceeds thereof to be used for the hire of trucks, horses and drivers in the collection of ashes, street sweepings and rubbish, etc., in the Borough of The Bronx.

The Department requested twenty thousand dollars (\$20,000) in the Budget estimate for 1913, of which only the sum of six thousand dollars (\$6,000) was authorized. Against this allowance the expenditures to date approximate fifty-five hundred dollars (\$5,500), the balance being insufficient, due to the increased output of material during the winter months and the present force being insufficient to cope with the situation. Respectfully,

WM. H. EDWARDS, Commissioner.

The President laid before the Board the following communication from the President, Borough of The Bronx:

No. 2674.

City of New York, President of the Borough of The Bronx, 3d Ave. and 177th St., Office of the President, January 13, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Dear Sir—I have the honor to request that the Board of Aldermen authorize the issue of special revenue bonds to the amount of seven hundred and fifty dollars (\$750) for the purpose of providing means to lay a new three-inch water service pipe from the main in East 177th st. to the Municipal Building, this Borough.

The water supply in this building is totally inadequate. A great part of the time no water can be had in any of the basins or toilets. In addition to that, the menace to the building in case of fire is such that provision should be made without delay for a new service pipe. Respectfully,

CYRUS C. MILLER, President.

The President laid before the Board the following communication from the President of the Borough of Brooklyn:

No. 2675.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, January 16, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I forward herewith a resolution authorizing the issuance of a warrant for five hundred dollars (\$500) to the President of the Borough of Brooklyn and chargeable against the account known as "President of the Borough of Brooklyn, Administration, Contingencies, 3097, Executive." Yours very truly,

JOHN B. CREIGHTON, Secretary.

Resolved, That, for the purpose of defraying minor incidental expenses contingent to the office of the President of the Borough of Brooklyn, he may, by requisition, draw upon the Comptroller for a sum not exceeding five hundred dollars (\$500), and may in like manner renew the draft as often as may be deemed necessary, to the extent of the appropriation set apart for contingencies in his office during the year 1913, but no such renewal shall be made until the money paid on the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers certified by the President of the Borough of Brooklyn covering the expenditures of the money paid thereon.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 2676.

City of New York, Office of the President of the Borough of Manhattan, City Hall, January 20, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—Application is hereby made for permission to purchase one (1) auto truck without public letting, for a sum not to exceed \$3,000.

At the beginning of this administration we purchased a one-half ton auto truck for the delivery of supplies to the sixty-three (63) buildings in our charge, and the conveyance of material required by the squads in the repair of said buildings. The experiment made has proven very satisfactory and enabled us to reduce our bill for outside carting to almost nothing. We find, however, that, after using the truck for three years, it is costing a very considerable sum for repairs, due to the fact that it is continually overloaded. It was, therefore, decided at the time of putting in our Budget estimates to request funds for a larger truck, and it is to this end that the above application is made.

The Department desires to purchase a one and one-half ton truck to take the place of the small truck now in use, it being understood that said small truck will be traded in, if possible, as part payment for the larger size conveyance.

Very truly yours, GEORGE McANENY, President, Borough of Manhattan.

Which was referred to the Committee on Public Letting.

ORDINANCES AND RESOLUTIONS, RESUMED:

Alderman Dowling asked and obtained unanimous consent to introduce the following:

No. 2677.

Resolved, That, for the purpose of defraying minor incidental expenses, the City Clerk and Clerk of the Board of Aldermen may draw upon the Comptroller for the sums given below, and may in like manner renew the drafts as often as may be deemed necessary, to the extent of the appropriations set apart for contingencies herein mentioned during the year 1913, but no such renewal shall be made until the money paid upon the preceding drafts shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the City Clerk and Clerk of the Board of Aldermen, covering the expenditure of the money paid thereon.

From "Office Supplies, Code No. 62, City Clerk," a sum not to exceed one hundred and fifty dollars (\$150) at any one time.

From "Code No. 65, City Clerk," a sum not to exceed one hundred and fifty dollars (\$150) at any one time.

Alderman Dowling then moved the adoption of the resolution.

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bedell, Bolles, Boschen, Coleman, Devine, Dotzler, Downing, Drescher, Eagan, Eichhorn, Esterbrook, Fink, Folks, Gilmore, Grimm, Hamilton, Hannon, Herbst, Kenney, Levine, Loos, McCann, McCourt, McGarry, McGrath, Martyn, Moore, Mulligan, Nicoll, O'Neil, O'Rourke, Pendry, Reardon, Shipley, Smith, Stevenson, Velten, Weil, Weston, White, Wilmot; President Steers, President McAneny, by E. V. Frothingham, Commissioner of Public Works, The Vice-Chairman—45.

REPORTS OF STANDING COMMITTEES.

Report of Committee on Public Buildings and Markets:

No. 2429.

The Committee on Public Buildings and Markets, to which was referred on December 17, 1912 (Minutes, page 712), the annexed communication from the President of the Borough of Manhattan, containing a request for action by the Board of Aldermen in relation to abolishment of Fulton Market, respectfully

REPORTS:

That a similar communication was received from the Comptroller and Borough President early in 1912, which was at the time referred to this Committee for investigation and report; that on July 9, 1912, this Committee presented a report to the Board, which was adopted, containing recommendations, which are recited in the present communication. The carrying out of the recommendations made in such prior report rested almost entirely on the second recommendation to the effect that the standholders agree to pay an increased rental sufficient to cover the cost of interest on the amount necessary to make repairs required to place the market in a good condition for the transaction of business and to properly maintain it. The letter of the Borough President now under consideration is based on the belief that this recommendation could not be fulfilled.

Since the receipt of this second request for abolishment this Committee has communicated with the representatives of the standholders and secured from them the agreement, which is hereto attached. This agreement was presented to the representatives of the Comptroller and Borough President, who attended the Committee meeting, and was regarded by them as a satisfactory basis on which to proceed with the necessary improvements.

The Borough President states in his letter that it will require \$60,000 to go ahead and properly finish this work. As the Committee believes, from its knowledge gained in an investigation of this proposition of almost a year's duration, that as soon as the market is placed in a state of repair it will attract many additional standholders, and inasmuch as the standholders at present there are willing to bear the burden of approximately 25 per cent. increase in their rentals in order that the building may be restored to something near its former state, it now recommends that this entire matter be referred to the Committee on Finance of the Board of Aldermen, with the earnest recommendation that it present to the Board a resolution calling for \$60,000 special revenue bonds for the accomplishment of this improvement.

Office of the President of the Borough of Manhattan, New York, December 16, 1912.

To the Honorable Board of Aldermen of The City of New York:

Dear Sirs—On July 9, 1912, your Board adopted a report of its Committee on Public Buildings and Markets containing the following recommendations:

"1. That the City, through its proper officers, take immediate steps to place the market (Fulton) in a habitable condition.

"2. That the standholders pay an increased rental sufficient to cover the cost of administration and maintenance; interest charges upon a fair valuation of the property and interest, sinking fund charges upon the new investment that may be necessary to put the property in proper condition.

"3. That written leases be made with the standholders for a period of years with a privilege of renewal."

This report of your Committee was made in response to a communication from the Borough President and the Comptroller, recommending the abolishment of the market on the ground that it was being operated at a serious loss to the City.

Upon receipt of advice of this action of your Board, the Borough President caused a careful investigation to be made by the Bureau of Public Buildings and Offices, and is now advised that it would require at least \$60,000 to place the market in good condition. He is further advised by the Finance Department that if this amount is expended for repairs, the rentals will have to be increased at least 25 per cent., and that none of the standholders will agree to pay more than 15 per cent. increase. Furthermore, two of the largest tenants have moved, or are now about to move out, which will make necessary an even larger increase than 25 per cent.

It is apparent, therefore, that the second recommendation of your Board cannot be carried out. I am, therefore, submitting these facts for your consideration, and would suggest that the matter be again referred to your Committee for a reconsideration of the recommendation that extensive repairs should be made to the building.

The Comptroller and I are both of the opinion that the market should be abandoned. If your Board should still fail to agree with us, it will be necessary for me to ask for an appropriation of at least \$60,000 to make the necessary repairs, without any prospect of securing an increase in the rentals sufficient to cover the carrying charges; so that the market will continue to be operated at a constantly increasing loss to the City.

Pending the determination of your Board, I will be able to make necessary repairs to the market through the use of the mechanical squads in the Bureau of Public Buildings and Offices. It will be impossible, however, for me to undertake to make any extensive repairs, or to guard against any unexpected damage that might result from severe snowstorms, etc.

A copy of the schedules furnished by the Comptroller's office, showing the assessed valuation, cost of operation and necessary increase in rental in order to cover carrying charges, is attached hereto. Respectfully submitted,

GEORGE McANENY, President, Borough of Manhattan.

Nos. 121, 653 and 657.

The Committee on Public Letting, to which was referred on January 16 and March 19, 1912 (Minutes, pages 99, 929 and 930) certain requests from the Police and Fire Departments, for exemptions from public letting known as Introductory Nos. 121, 653 and 657, respectfully

REPORTS:

That, having examined the subject, it believes no further action necessary.

It therefore recommends that the same be placed on file.

JOHN DIEMER, ROBERT F. DOWNING, F. H. WILMOT, JESSE D. MOORE, JACOB J. VELTEN, JOHN F. WALSH, NILES R. BECKER, Committee on Public Letting.

Police Department of The City of New York, Office of the Commissioner, New York, January 11, 1912.

To the Honorable Board of Aldermen:

Gentlemen—In view of the fact that for the prompt and efficient operation of this department it is necessary and expedient that its horses be boarded and stabled at such points and in such numbers as to give the best results, and that the expenditure for this purpose exceeds \$1,000 in the aggregate for one year, I have the honor to request, in pursuance of the provisions of section 419 of the Charter, that you will authorize the Police Commissioner to purchase such boarding and stabling for the year 1912, where the horses cannot be cared for at department stables, without advertising for competing bids or proposals. Respectfully,

R. WALDO, Police Commissioner.

Fire Department of The City of New York, Office of the Commissioner, March 13, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—This department requires for heating and for the purpose of keeping up steam in engines in company quarters a great quantity of coal. It is impossible to contract for a large quantity at a reasonable price, owing to the present condition of the coal market.

I have the honor, therefore, to request that, pursuant to the provisions of section 419 of the amended Greater New York Charter, the Board of Aldermen authorize the purchase of \$10,000 worth of coal in the open market and otherwise than by contract at public letting.

Draft of the necessary resolution is enclosed. Respectfully,

JOS. JOHNSON, Fire Commissioner.

Resolved, That, pursuant to the provisions of section 419 of the amended Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Fire Commissioner to purchase in the open market and otherwise than by contract at public letting, coal to the extent of not exceeding ten thousand dollars (\$10,000).

Fire Department of The City of New York, Office of the Commissioner, March 15, 1912.
To the Honorable the Board of Aldermen:

Gentlemen—This Department requires to put in service at the earliest practicable day, for fire extinguishing purposes, a Seagrave combination chemical and hose wagon, equipped with two 35-gallon chemical tanks and necessary fittings, including 300 feet of 1 inch chemical hose, the body to have a hose carrying capacity of 1,000 feet of 2½-inch hose, the estimated cost of which is \$5,100.

It is intended to install this piece of apparatus in the quarters owned by the City and now occupied by the Cromwell Engine Company and the Cromwell Hose Company at Dongan Hills, Staten Island, volunteer companies which, under the law, will receive \$1,200 and \$800 respectively for maintenance on the first day of June, 1912, unless these companies are sooner disbanded.

This \$2,000 will be saved to the City by installing this company prior to that day, and it will be impossible to advertise a contract for a piece of fire apparatus and have the delivery made in time.

The installing of a motor apparatus in this locality, with a crew of paid Firemen, would greatly increase the fire protection in this vicinity. As some runs are very long, the present volunteer horse-drawn apparatus cannot afford proper protection against fire, the section being very hilly.

Draft of the necessary resolution is enclosed. Respectfully,

JOS. JOHNSON, Fire Commissioner.

Resolved, That, pursuant to the provisions of section 419 of the amended Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Fire Commissioner to purchase in the open market, and otherwise than by contract at public letting, one Seagrave combination chemical and hose wagon, for the use of the Fire Department of The City of New York, at a cost not to exceed five thousand one hundred dollars (\$5,100).

Which report was accepted.

No. 2019 (S. O. No. 161).

The Committee on Public Letting, to which was referred on October 22, 1912 (Minutes, page 111) the annexed request of the Fire Commissioner for authority to contract for extra work on fire house in The Bronx, without public letting, with accompanying resolution, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be necessary for the reason that it is proposed to have the regular contractor perform the extra work, which will result in a saving of the cost of advertising and a much lower cost in the work because of the plant being already on the ground. Alderman Wilmot made a personal investigation of this case for the Committee, and has reported in favor of the resolution.

It therefore recommends that the said resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Fire Commissioner to award, without public letting, to the Benedetto & Egan Construction Company of No. 423 E. 115th st., Manhattan, contract, in amount not to exceed six thousand nine hundred and ninety-two dollars and sixty-nine cents (\$6,992.69), for extra work which will be necessary in connection with contract awarded at public letting to said concern and entered into January 15, 1912, for the erection and completion of a new building for an engine and a hook and ladder company to be located on the southwest corner of Bailey avenue and Albany road, Borough of The Bronx, said work being rendered necessary by a change in the grade lines of both Bailey avenue and Albany road, which could not be foreseen at the time the plans for the building were drawn.

Fire Department of The City of New York, Office of the Commissioner, October 10, 1912.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Sir—The permission of your honorable Board is hereby requested to allow me to award to the Benedetto & Egan Construction Company, without public letting, a contract in the sum of \$6,992.69, for extra work in connection with the erection of a fire house at Bailey avenue and Albany road, Borough of The Bronx.

The Benedetto & Egan Construction Company, to whom it is desired to award this contract, are the general contractors for the aforesaid fire house and the extra work called for was made necessary by a change in the grade lines of both Bailey avenue and Albany road, which could not be foreseen at the time the plans were drawn. Draft of necessary resolution is enclosed. Respectfully,

JOS. JOHNSON, Fire Commissioner.

The Committee on Public Letting, to which was referred, on December 3, 1912 (Minutes, page 506), the annexed resolution in favor of authorizing the Corporation Counsel to purchase furniture, etc., for branch office in Brooklyn, without public letting, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission to be necessary. The money for same has just been rendered available, and as some of the courts are anxious to get into the present quarters occupied by this office, time is a matter of economy as well as the saving effected in the cost of preparing specifications and advertising.

It therefore recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Corporation Counsel be and he is hereby authorized and empowered to purchase, in the open market, without public letting, the necessary furniture and fittings for the new quarters assigned to the branch office of the Law Department of The City of New York, in the Borough of Brooklyn, located in "The Assembly," at No. 153 Pierrepont st., in said Borough, the total cost thereof not to exceed the sum of six thousand dollars (\$6,000).

The Committee on Public Letting, to which was referred, on December 17, 1912 (Minutes, page 711), the annexed request from the Trustees of Normal College for authority to purchase supplies during 1913, without public letting, respectfully

REPORTS:

That this authorization is an annual one and has always worked satisfactorily in the past. The principal expenditures are for books, and these are mainly secured at the regular list price of the Board of Education. Other purchases are usually of articles having a standard value.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Trustees of the Normal College of The City of New York be and they are hereby authorized and empowered to procure books, chemical, physical and scientific apparatus and material and such other supplies as may be purchased from the advertised list of the Board of Education for the purposes of the Normal College, the High School and the Model School, or Training Department, during the year 1913, at an expense not to exceed fifteen thousand dollars (\$15,000), without public letting.

The Committee on Finance, to which was referred, on January 6, 1913 (Minutes, page 32), the annexed request for additional employees in the City Prison, under the jurisdiction of the Department of Correction, to be paid by an issue of special revenue bonds, respectfully

REPORTS:

That, having examined the subject, it believes that some additional force is necessary to properly carry on the work devolving upon this institution. Commissioner Whitney believes that a resident physician would be a great aid in the proper care of

prisoners, and the Committee believes this position should be granted and that additional keepers to the number asked for in the departmental estimate, viz., three, should also be allowed.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three thousand dollars (\$3,000), the proceeds whereof to be used by the Department of Correction for the purpose of paying the salaries of the following additional employees from March 1 to December 31, 1913: Three Keepers at \$800 per annum; one Resident Physician at \$1,200 per annum.

The Committee on Finance, to which was referred, on January 6, 1913 (Minutes, page 32), the annexed request from the Commissioner of Correction for \$1,200 special revenue bonds to pay salary of an additional Clerk at the Penitentiary, Blackwells Island, respectfully

REPORTS:

That, having examined the subject, it believes the proposed employee to be necessary. The reasons for same are set forth in the letter of application, and the Committee feels that in this particular case the request is justified by new requirements as to accounting.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars (\$1,000), the proceeds whereof to be used by the Department of Correction for the purpose of paying salary of a Clerk (with knowledge of bookkeeping) at the Penitentiary, Blackwells Island, from March 1 to December 31, 1913, at the rate of \$1,200 per annum.

Department of Correction of the City of New York, Commissioner's Office, 148 E. 20th st., New York, January 3, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—I would respectfully ask that, pursuant to the provisions of section 188 of the Charter the Honorable the Board of Aldermen will request the Board of Estimate and Apportionment to authorize an issue of special revenue bonds to the amount of \$1,200, to pay for the services during the year 1913 of an additional employee at the Penitentiary, Blackwells Island, as follows:

1 Clerk (with knowledge of bookkeeping)..... \$1,200 00

The amount of bookkeeping necessary in the keeping of the accounts of the manufacturing industry and the requirements of the new system of accounting in general, call for a degree of accuracy and ability which we have no right to expect to find in any chance inmates of this institution, and, moreover, the responsible nature of the work makes it desirable that it should be done by one on whom the responsibility could be placed.

Trusting that your Honorable Board will give the above favorable consideration, I am, very respectfully,

PATRICK A. WHITNEY, Commissioner.

REPORTS:

That this authorization is customarily granted upon the application of the head of the Department for the purpose of facilitating office work.

It therefore recommends that the accompanying resolution be adopted.

Resolved, That for the purpose of defraying minor incidental expenses contingent to the office of the President of the Borough of Manhattan, he may by requisition draw upon the Comptroller for a sum not exceeding five hundred dollars (\$500), and may in like manner renew the draft as often as may be deemed necessary, to the extent of the appropriation set apart for Contingencies in his office during the year 1913, but no such renewal shall be made until the money paid upon the preceding draft shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers, certified by the President of the Borough of Manhattan, covering the expenditure of the money paid thereon.

The Committee recommends that the accompanying resolution be adopted.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, November 29, 1912.

To the Board of Estimate and Apportionment:

Gentlemen—On September 10, 1912, the President of the Board of Health requested amendment of an authorization of corporate stock in the amount of \$75,000 for the construction of shacks and other structures, to be erected by departmental labor, at Otisville, N. Y., on the grounds of the Tuberculosis Sanatorium. In connection therewith we report as follows:

On July 2, 1909, the Board of Estimate and Apportionment adopted a resolution appropriating \$25,000 for the construction of a frame dining hall, kitchen and infirmary for the women's unit for 200 patients. The President states as follows:

After the adoption of the resolution, it was decided to construct a larger and more satisfactory building of hollow tile and cement, which would be practically fireproof, and accommodate the children's unit as well as the women's unit. The building is now under construction and will have accommodations for 400 patients, instead of 200. The funds available, however, are insufficient to carry the work to completion, and it is proposed that \$7,500 be charged to C. D. H.—7R., entitled "Department of Health, Sanatorium at Otisville, N. Y., Construction of Buildings and Improvement of Grounds by Departmental Labor."

Owing to the number of frame buildings on the Sanatorium grounds, and the consequent danger from fire, the Board of Health in 1909 began the construction of hollow tile and cement buildings. This action resulted in the change of material for the dining hall for the women's unit, and the necessarily increased cost.

We recommend the adoption of the attached resolutions to provide for replenishing the account "C. D. H.—7D, Department of Health, Sanatorium at Otisville, N. Y., Dining Hall, etc., for Women's Unit," to the extent of \$7,500. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; GEORGE MCANENY, President, Borough of Manhattan, Corporate Stock Budget Committee.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Sir—I desire to increase the salary for the position of Assistant Superintendent of Final Disposition in this Department from \$1,500 to \$2,100 per annum, and respectfully request that your Board authorize the issue of special revenue bonds to the amount of \$600 for this purpose.

This position is at present held by Mr. Edward P. Greene, who at my suggestion waived his right to appointment as a District Superintendent at \$2,100 because of my desire to retain him in the Final Disposition branch of the service, he being an expert on such matters.

The position of Assistant Superintendent of Final Disposition is a responsible one, and he is called upon to act as Superintendent of Final Disposition in the absence of his superior officer. Therefore, the salary of the grade should be at least equal with that of District Superintendent, namely, \$2,100 per annum. Respectfully,

MESSAGES FROM THE MAYOR.

The President laid before the Board the following communication from his Honor the Mayor:

No. 2542.

City of New York, Office of the Mayor, January 21, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I return herewith disapproved proposed resolution No. 2542, entitled: "Resolution to permit the Way Down East Company to parade." I do not think we should allow such a parade; they have selected the most congested streets in the City to walk slowly along and obstruct traffic. Respectfully,

W. J. GAYNOR, Mayor.

Resolved, That permission be and the same is hereby given to the Way Down East Company to parade through streets and thoroughfares of the Borough of Manhattan as follows: From 41st st. and Broadway to 14th st., to 8th ave.; to 59th st., then returning to 41st st. and Broadway, under the supervision of the Police Department; such permission to continue only for the period of days, notice of which shall be served on the Police Department.

Which was laid over, ordered printed in the Minutes and published in full in the City Record.

SPECIAL ORDERS.

No. 156—Int. No. 1212.

The Committee on Finance, to which was referred on May 28, 1912 (Minutes, page 564), the annexed resolution in favor of an issue of \$25,000 Special Revenue Bonds for clerical and expert services in connection with revision of the Building Code, respectfully

REPORTS:

That Chairman Herbst of the Committee on Buildings appeared before the Committee and explained that it was the intention to employ various experts in connection with many of the divisions of the proposed Building Code, and that a considerable sum was needed for stenographic services. This Committee believes that funds are necessary to properly perform this work, but feels that a smaller amount than that asked for may suffice.

It, therefore, recommends that the accompanying resolution be adopted.

ORIGINAL.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-five thousand dollars (\$25,000), the proceeds whereof to be used by the Committee on Buildings of the Board of Aldermen for the purpose of paying for stenographic services, hiring clerical help and employing experts in connection with the work of revising the Building Code of The City of New York, all obligations incurred hereunder to be incurred before December 31, 1912.

SUBSTITUTE.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of Fifteen Thousand Dollars (\$15,000), the proceeds whereof to be used by the Committee on Buildings of the Board of Aldermen for the purpose of paying for stenographic services, hiring clerical help and employing experts in connection with the work of revising the Building Code of The City of New York.

The Committee on Finance, to which was referred on January 6, 1912 (Minutes, page 25) the annexed request from the Finance Department for \$900 Special Revenue Bonds for rent of quarters in Richmond, for use of Troop F, Second Cavalry, N. G. N. Y., respectfully

REPORTS:

That the reasons for this request are set forth in the letter of application. Inasmuch as this is a new lease it could not be taken care of in the Budget, and a bond issue must be provided.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of subdivision 8, section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of \$900, the proceeds whereof to be used by the Comptroller for the payment of rent of the following described premises in the Borough of Richmond:

Beginning at a point on the southerly side of Martling avenue 508 feet east of Manor road, and running thence easterly along the southerly side of Martling avenue 530 feet to Sloxon avenue; thence southerly along the westerly side of Sloxon avenue 749 feet 9 inches; thence westerly parallel with Martling avenue, or nearly so, 444 feet 8 inches; thence northerly at right angles to Martling avenue 411 feet 6 inches; thence again westerly and parallel with Martling avenue 220 feet 3 inches to the Manor road; thence northerly, or nearly so, along the southerly side of Manor road 214 feet; thence easterly and parallel to Martling avenue 353 feet 5 inches; thence northerly at right angles to Martling avenue 120 feet to the

The Committee on Finance, to which was referred on January 6, 1912 (Minutes, page 26), the annexed communication from the Department of Public Charities for \$5,129 special revenue bonds to provide for salaries omitted from the Budget for 1913, respectfully

REPORTS:

That the letter of request gives full details of this application. It is natural to suppose that, in the multiplicity of detail connected with the formulation of the Budget, these small places were omitted without intention, and it is but just that immediate steps should be taken to provide for the pay of these employees who have spent their best years in the City service. The Committee, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five thousand one hundred and twenty-nine (\$5,129) dollars, the proceeds whereof to be used by the Department of Public Charities for the purpose of paying salaries of certain employees from January 1 to December 31, 1913, as follows:

Department of Public Charities of The City of New York, Foot of East 26th street, December 24, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—We respectfully request that special revenue bonds in the sum of five thousand and one hundred twenty-nine (\$5,129) dollars be issued in order to pay the salaries of persons in the following positions during the year 1913:

| | |
|--|----------|
| New York City Children's Hospitals and Schools, R. I.: | |
| 1 Laborer at \$3 per diem (303 days)..... | \$909 00 |
| 1 Gardener at \$900 per annum..... | 900 00 |
| New York City Home for Aged and Infirm, Brooklyn Division: | |
| 1 Driver at \$800 per annum..... | 800 00 |
| 1 Driver at \$720 per annum..... | 720 00 |
| New York City Training School for Nurses, B. I.: | |
| 1 Matron at \$600 per annum..... | 600 00 |
| Metropolitan Training School for Nurses, B. I.: | |
| 1 Matron at \$600 per annum..... | 600 00 |
| New York City Farm Colony, Staten Island: | |
| 1 Matron at \$600 per annum..... | 600 00 |

Laborer: This person has been employed for several years at this institution and was in our request for 1913. His services are needed. The position was cut out without consulting this department and should be restored.

Gardener: The present incumbent has held this position for twelve years and has rendered good and faithful service. The position was continued in our estimate for 1913, but owing to a misunderstanding it was requested that the position be transferred from Randall's Island to City Hospital. The Budget Committee did not allow it at City Hospital, and cut it off at Randall's Island. If we had continued the position at Randall's Island it would have been allowed. His services are valuable and should be continued.

Drivers: These men have been employed at the City Home, Brooklyn, driving transfer wagon and the Municipal hearse in that Borough. The committee appointed by the Board of Estimate and Apportionment to inquire into the Departments of Health, Public Charities and Bellevue and Allied Hospitals recommended that these positions at the same salaries be transferred from the City Home, Brooklyn, to the Central Office, Brooklyn, but the persons responsible for the preparation of the budget took them off the City Home, Brooklyn, and by an oversight failed to include them among the Central Office, Brooklyn. This request is to correct said error.

Matrons: Minnie McNamara, New York City Training School for Nurses, B. I., appointed December 1, 1899. Theresa M. O'Brien, Metropolitan Training School for Nurses, B. I., appointed December 7, 1900. Gertrude Murray, New York City Farm Colony, S. I., appointed December 18, 1890. They all have rendered good and efficient service. They were in our request for 1913, and I do not feel that they should have been dropped without giving the head of the department an opportunity to be heard in the matter. They are necessary to the proper conduct of the institutions and should be restored to the respective rolls. The position of Matron is a Civil Service competitive position. Respectfully yours,

MICHAEL J. DRUMMOND, Commissioner.

No. 159.—Int. No. 2497.

The Committee on Finance, to which was referred on January 6, 1912 (Minutes, page 26), the annexed request from the Fire Commissioner for \$234,470. Special revenue bonds for the purchase of hose, respectfully

REPORTS:

That the letter of request sets forth the reasons for this application. In addition the Fire Commissioner filed with the Committee the annexed detailed statement which reduces the amount asked for the item of 2½-inch hose by 26,750 feet, and thus brings down the total sum to \$202,370, a reduction of \$32,100. The Committee believes with the Commissioner that this should be a budgetary charge, and that no such demand should be thrust upon the limited revenue bond account. It feels that hose must be furnished, but does not believe that it is good policy to grant the whole sum asked for. It recalls that \$100,000 was allowed for this purpose last year, and believes the same amount will cover this year's requirements. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred thousand dollars (\$100,000), the proceeds whereof to be used by the Fire Department for the purpose of purchasing fire hose. All obligations contracted for hereunder to be incurred on or before December 31, 1913.

HENRY H. CURRAN, JOHN DIEMER, JAMES HAMILTON, HENRY F. GRIMM, C. AUGUSTUS POST, FRANCIS P. KENNEY, Committee on Finance.

Fire Department of The City of New York, Office of the Commissioner, December 27, 1912.

To the Honorable the Board of Aldermen:

Gentlemen—This Department stands greatly in need of funds for use in purchasing an additional supply of fire hose to maintain at a proper standard of efficiency the equipment of existing companies in this regard and to provide for the estimated requirements for thirty-one new engine companies proposed to be organized during the coming year.

In the detailed statement given below, submitted to me by the Clerk in charge of the Bureau of Repairs and Supplies, the needs of this Department in the matter of a hose supply for the existing and prospective companies are shown to be:

| Size, Inches. | Quota, Feet. | On Hand, Feet. | Deficit, Feet. | Eight Years Old, Feet. | Total Deficit, Feet. | Price Per Foot, Estimated. | Total Cost, Estimated. |
|---------------|--------------|----------------|----------------|------------------------|----------------------|----------------------------|------------------------|
| 1..... | 9,950 | 6,700 | 3,250 | 1,700 | 4,950 | \$0 40 | \$1,980 00 |
| 1½..... | 71,950 | 51,750 | 20,200 | 11,850 | 32,050 | 60 | 19,230 00 |
| 2½..... | 431,000 | 332,500 | 98,500 | 28,050 | 126,550 | 1 20 | 151,860 00 |
| 3½..... | 49,000 | 38,600 | 10,400 | 4,250 | 14,650 | 2 00 | 29,300 00 |
| Total..... | | | | | | | \$234,470 00 |

Of this amount, \$86,100 is for 2½-inch hose, for the new companies to be organized in 1913. The balance is to replace hose no longer fit for service and to cover the shortage of existing companies.

In the departmental estimate for 1913 was a request for money for the purposes stated, which, however, was disallowed. The Budget Committee decided that the funds for this purpose would have to be obtained by revenue bond issue.

I have, therefore, the honor to request that, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen apply to the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in an amount not to exceed the sum of two hundred and thirty-four thousand four hundred and seventy dollars (\$234,470), the proceeds to be used for the purchase of the required quantity of hose.

Owing to the imperative need of additional fire hose, it is requested that this matter be taken up at the first meeting in January, 1913.

Draft of necessary resolution is enclosed herewith. Respectfully,

JOS. JOHNSON, Fire Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in an amount not to exceed two hundred and thirty-four thousand four hundred and seventy dollars (\$234,470), the proceeds to be applied to the purchase of hose for the use of the Fire Department of the City of New York.

DEPARTMENT OF HEALTH

Report for Week Ending January 4, 1913

AN ANNOUNCEMENT IN REGARD TO DEPARTMENTAL PUBLICATIONS.

In inaugurating the publication of the Weekly Bulletin in improved form with the first issue of the new year, it will perhaps be a suitable occasion to describe briefly some of the plans of the Department of Health with reference to its various publications.

There has been more or less criticism, both as to the form of the publications of the Department, and more particularly as to the delay in their appearance. Much of this criticism has been justified and the effort is now being made to effect a measure of improvement. Perhaps it will not be regarded as a favorable omen that this statement of new plans should appear in an issue which is itself delayed, but better results are expected when the reorganization of the publication work which has been put into effect at the beginning of the year shall be completed and the machinery put in running order.

ADVISORY COMMITTEE ON STATISTICS.

A strong impetus to the improvement of the publications of the Department was given by the report of the Advisory Committee on Vital Statistics which was appointed by me in July, 1910, and consisted of such eminent authorities in public health and statistical work as Prof. Walter F. Willcox, Prof. C. E. A. Winslow, Dr. Cressy L. Wilbur and Dr. Roger Tracy, serving with some of the chief officials of the Department. This committee recommended the establishment of a Monthly Bulletin (which was done forthwith), the issue of a Weekly Bulletin in more popular form, and the creation of a division of publicity to extend and improve the methods of the Department in reaching and educating the public. In accordance with this recommendation repeated application has been made for a budget appropriation to cover the establishment of this division, but this request, while very favorably received by the Board of Estimate and Apportionment, has failed each year under the stress of considerations of budget economy. It is hoped that a third application in the estimates for 1914 will result favorably.

DEPARTMENTAL COMMITTEE ON PUBLICITY AND EDUCATION.

In the meantime, in order to make the best possible use of existing facilities in the Department, there was created by executive order, dated December 6, 1912, a Committee on Publications, consisting of the following officials:

Dr. Hermann M. Biggs, General Medical Officer.
Dr. Walter Bense, Sanitary Superintendent.
Dr. William H. Guilfoyle, Registrar of Records.
Dr. William H. Park, Director of Laboratories.
Dr. Robert J. Wilson, Superintendent of Hospitals.
Dr. S. Josephine Baker, Director of Child Hygiene.

Dr. J. S. Billings, Jr., Chief of the Division of Communicable Diseases.

Dr. Charles F. Bolduan, Assistant to the General Medical Officer.

Dr. Herbert W. Wootton, Medical Inspector, Office of the Commissioner.

This Committee has undertaken general supervision of all the publications of the Department, the development of a reference library and the establishment of a permanent exhibit in the headquarters building, to be open to the public. In general, the educational activities of the Department will be organized and directed by this Committee.

THE WEEKLY REPORT.

Under the direction of the Committee the Weekly Bulletin appears in the present remodeled form, and with a much enlarged edition. This represents a revision of the form and purposes of this publication which was begun but only partly carried out in 1912. The Department, in accordance with a provision of the Charter of The City of New York, has published a Weekly Report for many years. This report has been confined to tables of vital statistics and has been available, outside of its appearance in the City Record, only in a small edition of 600 reprints. In this form, while of value as a statistical record to close students of health conditions in this city, it has made but small appeal to the public interest, either as reflecting the actual work of the Department or as a source of general information and instruction in matters pertaining to public hygiene.

It is the intention to make the Weekly Bulletin the official medium of communication between the Department of Health and the physicians, social workers, journalists and other groups of citizens of New York who are especially interested in the work of the Department. It is not the intention that the Weekly Report shall be a popular bulletin in the specific sense. It is believed that the object of spreading information among the people regarding the causes of disease and the means of prevention, which is recognized as one of the chief duties of a public health office, can be better attained in New York by means of special bulletins, leaflets and circulars, prepared with reference to a particular subject and seasonal appropriateness, and distributed in large quantities at the time and points where they are most needed. This work, already done on a considerable scale by several of the divisions, will be extended and standardized under the general supervision of the new Committee.

In addition to the present tables of vital statistics the Weekly Bulletin will hereafter contain topical reports recording at regular intervals the work performed in the several divisions of the Department and summarizing conditions relative to various diseases. A prominent place will be given in the Bulletin to official announcements of the transactions of the Board of Health, such as amendments to the Sanitary Code, the adoption of new rules and regulations, new modes of procedure, and like matter of general interest. The Department has occasion not infrequently to communicate by circular letter to the medical profession and other groups of citizens, and such communications will hereafter appear in the Weekly Bulletin, whether or not they are sent out in addition in the form of individual letters. It should be added that it is the intention at the earliest possible date to enlarge the edition sufficiently to include the name of every physician in New York City. Under this plan the Bulletin will reflect much more fully than at present the entire work of the Department, and while not addressed primarily to the general public, it will, it is hoped, prove a useful source of authoritative information to the newspapers of the city and other periodicals which reach directly a much larger public than the Department itself can reach.

OTHER PUBLICATIONS.

The Monthly Bulletin will be continued as heretofore and will include, beside the usual monthly summary of vital statistics, a special article in each number relating to the work of some one of the divisions or offices or to some special topic.

Meanwhile, during the past year, two new series of departmental publications have been instituted and these will be continued. The "monograph series" will include original papers by officers or employees of the Department, containing studies of some one function or subject in more extended form than is possible within the limits of the Monthly Bulletin. The "reprint series," as its name implies, will furnish the means for distribution in standard form of shorter papers by employees of the Department originally published elsewhere, but officially approved by the Department for reprinting and distribution in this form.

The annual and quarterly reports and the publications of the Research Laboratory will be continued as heretofore. The annual report, however, will be published in much more condensed form than in former years and will be made uniform in style with the reports of other City Departments, in order that it may be included in the projected Municipal Year Book.

PUBLICITY IN HEALTH MATTERS.

It is fully recognized that the instruction and education of the public is one of the first duties of the modern health officer. In many respects progress in public hygiene has gone nearly as far as it can under the older methods of active intervention under the police power of the State for the correction of specific conditions. The reduction of the death rate from those causes most amenable to public sanitary control has been one of the remarkable phenomena of the last fifty years. This reduction may be considered as having approached a practical limit. Meanwhile, the death rate from the chronic diseases of later and middle life remains stationary or increases. In this field particularly, the greatest hope of further progress, resulting in a further general reduction of the death rate, lies in a conscious and well-directed effort toward increasing the spread of general information as to better habits and conditions of living and the specific means of avoiding these diseases. The history of scientific progress in the Department of Health of The City of New York forms a proud record, but in the matter of spreading its knowledge among the people the Department has perhaps exhibited too conservative a spirit. Recently the effort has been made to develop this function in a manner which shall be dignified and, at the same time, effective. In so far as the present plans for carrying on the work during 1913 will enable the Department to utilize to better advantage small fractions of the time and experience of the many capable representatives of medical and scientific professions connected with the service, these plans contain the possibility of some improvement over previous conditions. Not, however, until the City authorities authorize at least a small appropriation for the employment of a special staff will it be possible to undertake, effectively, the work that is in contemplation.

MAILING LISTS.

The mailing list for the Weekly Report will necessarily be restricted for the present to the medical profession, newspapers, libraries, and civic and social organizations of New York City, with the exception of the exchange service with public health officers in other cities.

The mailing list for the Monthly Bulletin has now reached the limit of the edition, and further applications to receive this publication can be considered only when the list is revised from time to time.

The Department cannot maintain a regular mailing list for the small editions of monographs and reprints, which will be sent on special request, however, to those who are interested in the subjects treated in these papers.

Communications in regard to any of the publications of the Department should be addressed to the Commissioner of Health, Centre and Walker streets, New York City.

ERNST J. LEDERLE,
Commissioner of Health.

PUBLIC SERVICE COMMISSION.

INVITATION TO CONTRACTORS.

PART OF ROUTES NOS. 36 AND 37.

THE CITY OF NEW YORK, ACTING BY THE Public Service Commission for the First District (hereinafter called "the Commission"), invites proposals to construct Section No. 3 of the Astoria, Woodside and Corona Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 3. Beginning at a point on Queens boulevard, in the Borough of Queens, about two hundred and seventy (270) feet north-west of the westerly line of Van Dam street, and extending thence along and over Queens boulevard, Greenpoint avenue, Skillman avenue and Roosevelt avenue to a point over Roosevelt avenue about seventy (70) feet east of the easterly line of Sycamore avenue (Albertus avenue); with local stations at Rawson street, Lowery street, Bliss street, Lincoln avenue, Broadway, 25th street, Elmhurst avenue and Sycamore avenue, and with express stations at Woodside avenue and Junction avenue.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or any ties, or to provide or lay broken stone or ballast on the reinforced concrete elevated railroad, nor to do station finish work, except such station finish work as is specifically required to be done.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 7th day of February, 1913, at twelve (12) o'clock noon, at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the

form of Contractor's Proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 36 and 37, Section No. 3" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for fifty thousand dollars (\$50,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal the sum of one hundred thousand dollars (\$100,000). Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

New York, January 21, 1913.

The City to be held free and harmless from any liability to the adjacent owners or the lessees or users of any of the adjacent property, by any use to which the premises to be demised are put.

In case any part of the land to be demised is required at any time for street purposes or for use in connection with railroad or terminal purposes, the lease to such part of the premises so required shall cease and terminate, and the rent will be decreased in proportion to the amount of land so required and taken.

In case the lessee wishes to use the demised premises as a dump, he may do so provided the grading be limited to an elevation of one foot below the railroad tracks of the New York Central and Hudson River Railroad, for a distance of 25 feet easterly from the easterly line of the right-of-way of said railroad company, and from thence on a uniform slope up to the elevation of the adjoining property, the work to be done under the supervision and to the satisfaction of the Comptroller of The City of New York, who shall certify, upon the expiration of the lease, that the work has been performed in accordance with the terms of the lease.

The material deposited shall consist of rock (not larger in size than one cubic foot), good wholesome earth and clean cinder. In no event shall garbage or other sweeping be allowed to be deposited. No rock deposit shall be made or allowed nearer than two feet from the finished grade.

The purposes for which this property is to be used shall at all times be subject to the approval of the Comptroller.

The Comptroller shall have the right to reject any and all bids if deemed to be to the interest of The City of New York.

BOARD OF ESTIMATE AND APPORTIONMENT.

Franchise Matters.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held January 9, 1913, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of The City of New York: The petition of the New York Magnaphone and Music Company, a New York corporation, respectfully shows:

1. That on the 17th day of January, 1912, by Resolution Number 89, this Board granted to the petitioner a franchise to lay, construct, maintain and operate suitable wires under and along the streets and avenues within the territory comprising the Borough of Manhattan and that portion of the Borough of The Bronx lying west of the Bronx River, for the purpose of distributing music and matters of general interest electrically, by means of a magnaphone.

2. Under the terms of said franchise your petitioner is required to place its wires in the conduits or subways and lease such wires or conduits from the company having control thereof under the conditions or rules of law, or from the City, should it succeed such company or companies.

3. The company has duly paid the sum of five thousand dollars, required to be paid by the third paragraph or subdivision of said franchise, as the condition precedent to its exercise of the privileges granted by this Board; and it has duly deposited with the Comptroller of the City \$5,000 in securities, approved by him, for the performance by your petitioner of the terms and conditions of its said franchise.

4. At the time that your petitioner applied for the said franchise, your petitioner planned to utilize spare wires in telephone cables for the purpose of transmitting music to its subscribers. Application was duly made to the telephone company for such wires and, after months of experimenting, your petitioner found that the cables were of such a character that music could not be sent over such spare wires without creating an induced current, thereby transmitting the music to the wires utilized in the telephone service.

5. Your petitioner has found that to carry on its business independent of the telephone company and through independent cables will be impractical on account of the rent imposed for conduits.

6. Your petitioner further shows that it has received no benefits whatever from said franchise or from the payments made to the City in consideration thereof.

7. Your petitioner desires to surrender for cancellation the franchise granted as aforesaid on the 17th day of January, 1912.

Your petitioner, therefore, prays that this Honorable Board consent to the surrender for cancellation and the cancellation of the said franchise upon the payment by your petitioner to the City, for the privileges granted by said franchise, of the sum heretofore accrued under the provisions of subdivision "b" of the third paragraph of said franchise.

Dated New York, December 17, 1912.

NEW YORK MAGNAPHONE AND MUSIC COMPANY, by Geo. R. Webb, President.

State of New York, County of New York, ss: George R. Webb, being duly sworn, says that he is an officer, to wit, the President of the New York Magnaphone and Music Company, the petitioner named in the foregoing petition; that he knows the contents of the said petition and that the same is true of his own knowledge.

GEO. R. WEBB.

Sworn to before me this 17th day of December, 1912.

BESSIE NAYKINS, Notary Public, New York County, No. 1.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant, firm, or rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.
