DEPARTMENT OF HEALTH.

REPORT FOR THE WEEK ENDING MAY 31, 1913.

OFFICIAL SUPERVISION OF IMMUNIZATION WITH LIVING BACTERIA.

When the exploitation of the so-called Friedmann cure for tuberculosis in this country was imminent, in the early part of this year, the Board of Health of this City became convinced, after due investigation of the story and claims and promises of the discoverer, that, while the presumption and the existing evidence were largely against the fulfillment of the claims which were so freely made for it, it was still not wise or practicable, in view of the widespread hope of benefit which had been aroused among the victims of this disease, to interfere at the moment with the use of the remedy, provided no evidence was to be adduced of the harmfulness of the living cultures which it was proposed to administer.

Such evidence was not at the time at hand, and, while the testimony as to the efficiency of the remedy from German observers was not at all encouraging, it was felt that a fair scientific test might wisely be given to the method. Under these conditions, although the Board of Health felt that it would not be wise or practicable for it to assume the supervision of such a series of tests, it welcomed the assumption of this task by the Federal authorities who had placed the matter in the hands of accomplished and experienced medical officials.

The unusual publicity which has accompanied the introduction of this particular remedy and the large number of patients who applied for treatment threatened to bring about a general pilgrimage of sufferers from tuberculosis to New York City, and thus presented a new and acute problem to the Board of Health which already had grave doubts whether the department charged with the protection of public health should permit the general use of treatments by new and untried vaccines until evidence of their entire harmlessness had been produced. The progress of the study of this remedy by the Government physicians was followed with interest, and the Board of Health finally drafted a general regulation providing for official supervision of such methods of treatment in the future. The entire subject was then presented to the Medical Advisory Board of the Department of Health at a meeting held Wednesday, May 28, 1913, at which the following members were present:

Dr. Joseph D. Bryant, Chairman; Dr. T. Mitchell Prudden, Secretary; Dr. Abraham Jacobi, Dr. Simon Flexner, Dr. A. Alexander Smith, Dr. John Winters Brannan, Dr. L. Emmett Holt, Dr. Walter B. James. The following officials of the Department of Health were also present: Ernest J. Lederle, Ph.D., Commissioner; Dr. Joseph J. O'Connell, Health Officer of the Port; Dr. Hermann M. Biggs, General Medical Officer; Dr. William H. Park, Director of Laboratories; Dr. Charles B. Slade and Dr. Luther B. MacKenzie. Other physicians present by special invitation were: Dr. James Alexander Miller of Bellevue Hospital, Dr. Maurice Fischberg of the Montefiore Home, Dr. Alfred Meyer of Mt. Sinai Hospital, Dr. Alfred G. Gerster of Mt. Sinai Hospital, Dr. N. E. Brill of Mt. Sinai Hospital, and Dr. Livingston Farrand, executive secretary, National Association for the Study and Prevention of Tuberculosis.

On May 29, 1913, the Board of Health adopted the following resolution in the form approved by the Medical Advisory Board:

Whereas, In the judgment of the Board of Health, the use of living cultures of bacteria in the inoculation of human beings, for the prevention or the treamtent of disease, may be fraught with serious danger to the individuals and to the public health, and

Whereas, The necessity and the harmlessness of such a procedure can be safely determined only by carefully planned and controlled and unbiased scientific measures and observations, and

Whereas, Certain tests of the efficiency and safety of an alleged cure for tuberculosis now being made in this City are being rendered unsatisfactory, unscientific and practically futile through the insistence of the originator of the alleged remedy, on conditions which involve inadequate observation, inaccurate methods of administration and the insistence on secrecy regarding the substance employed in some phases of the treatment, and

Whereas, Evidence is already at hand to show that the so-called remedy not only does not fulfill the promises of efficiency and safety under which its use was at first permitted in this City, but, on the contrary, during its administration many patients have suffered serious and unduly rapid progress of their diseases; therefore, be it

Resolved, That the use of living bacterial organisms in the inoculation of human beings for the prevention or treatment of disease shall be and is hereby prohibited in New York City, until after full and complete data regarding the method of use, including a specimen of the culture and other agents employed therewith, and a full account of the details of preparation, dosage and administration shall have been sub-

mitted to the Board of Health, and until permission shall have been granted in writing by the Board for the use of the same.

This resolution was embodied in the Sanitary Code as section 148a, the exact reading of which is as follows:

Section 148a. The use of living bacterial organisms in the inoculation of human beings for the prevention or treatment of disease is hereby prohibited until after full and complete data regarding the method of use, including a specimen of the culture and other agents employed therewith, and a full account of the details of preparation, dosage and administration shall have been submitted to the board of health of the city of New York, and until permission shall have been granted in writing by the said board for the use of the same.

A LIFE TABLE FOR THE CITY OF NEW YORK.

For the first time in its history, the Department of Health has prepared a life table. It is based upon the mortality statistics of the City during the triennium, 1909-1911, and permits of comparison with the results of the life table of New York City prepared under the direction of the late Dr. John S. Billings in 1882 for the authorities of the Federal census and based upon the mortality statistics for the triennium, 1879-1881. A life table is the most accurate means of measuring the health conditions prevailing in a city and shows the expectancy of life at stated ages for males and females. The table, which is too extensive for the present issue of the bulletin, will later be published in full, and it must suffice for the present to call attention to some of its most interesting features.

Thirty years ago a child under 5 years of age had an expectancy of 41 years, while a child of that age at the present day may look forward to an additional 52 years, an increase of 11 years. The life of a child between 5 and 10 years has been prolonged more than 5 years. A person from 25 to 30 years of age had an expectancy 30 years ago of about 32.6 years, while at the present time his expectancy is 34.3 years, an increase of 1.7 years. Persons between 40 and 45 years had an expectancy of 23.9 years a generation and a half ago, and at the present time one of 23.4 years, a decreased expectancy of six months. The table further shows that there is a constant diminution of the duration of life from the fortieth year onward. varying from six months, at 40 years of age, to 3 years and 3 months at 85 years of age. On the whole the expectancy of life is greater among females than among males before 40 years of age. After 40 the reverse is true. Among males at all ages the increased expectancy up to 40 years amounts to almost 25 years and among females to 29 years, while after 40 years the diminished expectancy among males is 15 years and among females 18 years. In other words, 89 per cent. of the saving of like takes place before the twentieth year and this is especially noticeable before the fifth year, where the increased expectancy amounts to 40 per cent. of the entire life increase. The increased mortality in recent years, after the fourth decade, is ascribed to the greater prevalence of cancer and diseases of the heart and kidneys, an increase in the consumption of spirituous liquors and nitrogeneous articles of diet and the wear and tear caused by the exactions of modern existence associated with insufficient physical exercise in the open air.

DEATH RATE FOR THE WEEK.

There were 1,323 deaths reported during the past week, with a rate of 12.85 per 1,000, as against 1,275 deaths and a rate of 12.86 during the corresponding week of 1912, an increase in the absolute number of deaths of 48, and a decrease of 0.01 in the rate, which is equivalent to one less death.

The mortality from measles, diphtheria and whooping cough was considerably above that of the corresponding week in 1912, as was also the mortality from organic heart diseases, pulmonary tuberculosis and Bright's disease of the kidneys. On the other hand, the scarlet fever, typhoid fever and the diarrhoeal diseases showed decreased mortalities. The number of deaths of children under five years of age was almost the same, between five and sixty-five exactly the same, and at sixty-five and over it was greater by 51 deaths.

The death rate for the first twenty-two weeks of this year was 15.43 per 1,000, as against a rate of 15.51 during the corresponding period of 1912, a decrease of .08 of a point.

No. 801.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Article I.

Title, Definitions and Applications.

1. Title.—This ordinance shall be known as the Public Hack Ordinance and shall apply to vehicles as enumerated in this Article.

2. Definitions.—A public hack is a vehicle plying for hire and which solicits public patronage upon the streets and highways of this City.

A cab is a public hack so designed and constructed as to comfortably seat, in the opinion of the Chief of the Bureau of Licenses, not more than two persons as passengers inside thereof.

A coach is a public hack so designed and constructed as to comfortably seat, in the opinion of the Chief of the Bureau of Licenses, four or more persons as passengers inside thereof.

A sightseeing car is a motor-driven vehicle designed to carry seven or more persons from a fixed locality to points of interest about the City.

A taximeter is a mechanical instrument or device by which the charge for hire of a public hack is mechanically calculated, either for distance traveled or for waiting time, or for both, and upon which such charge shall be indicated by means of figures.

A cab driven by mechanical power on which a taximeter is affixed shall be known as "a little taxicab."

A taxicab is a coach driven by mechanical power on which a taximeter is affixed.

This ordinance shall not apply to or govern any vehicle hired or obtained from a livery stable or garage and which does not solicit patronage upon the streets; nor to any omnibus running by authority of any ordinance, law, charter or permit upon a fixed route through the city.

Article II.

Bureau of Licenses.

1. The licensing and inspection of public hacks, the inspection and sealing of taximeters, the examination of applicants for licenses to drive such public hacks, and the licensing of drivers, as hereinafter provided in this ordinance, and the enforcement of the provisions of this ordinance, shall be under the control of the Bureau of Licenses.

2. The Mayor is hereby empowered to appoint such Inspectors as may be found necessary to carry out the provisions of this ordinance. Such Inspectors shall be paid such compensation as shall be fixed by law.

3. The Mayor shall have power to suspend or revoke any license or permit issued under the provisions of this ordinance.

Article III.

Public Hack Licenses.

1. No public hack shall ply for hire upon the streets of the City of New York without first obtaining a license from the Bureau of Licenses. Such license shall be issued as of February 1, and shall expire on the 31st day of January next succeeding of each and every year hereafter unless sooner suspended or revoked by the Mayor or the Chief of the Bureau of Licenses.

2. Applications for licenses for public hacks shall be made by the owner upon blank forms to be furnished by the Bureau of Licenses, and such applications shall contain the full name and address of the owner, the class of the vehicle for which the license is desired, the length of time the vehicle has been in use, the number of persons it is capable of carrying, and, if a motor-driven vehicle, the motor power thereof.

3. No vehicle shall be licensed until it has been thoroughly and carefully inspected and examined and found to be in thoroughly safe condition for the transportation of passengers, clean, fit, of good appearance, and well painted and varnished. It shall be the duty of the said Chief of the Bureau of Licenses to make, or to have made by his lawful deputies, such examination and inspection before issuing a license. It shall be the duty of such Chief of the Bureau of Licenses to refuse a license to, or if already issued revoke or suspend the license of, any vehicle found by him to be unfit or unsuited for public patronage.

4. It shall be the duty of the said Chief of the Bureau of Licenses to examine any taximeter attached to any public hack and to see that the same is accurate before issuing a license to such public hack.

5. It shall be the duty of the Chief of the Bureau of Licenses, and he is hereby authorized and empowered to that end, to establish reasonable rules and regulations for the inspection of public hacks and their appurtenances, their construction, their condition of fitness, the time and places of their inspection, as may seem to him necessary or convenient for the proper conduct of his office or for the benefit of the public.

6. If, upon inspection, the vehicle is found to be of proper character and in proper condition in accordance with the provisions of this ordinance, and the rules and regulations so established, and upon payment of the license fees hereinafter set forth, the same shall be licensed by delivering to the owner a card of such size and form as may be approved by the Mayor, which card shall contain the official license number of the hack so licensed, together with the date of inspection of the same, and a statement to the effect that, in case of any complaint, the Chief of the Bureau of Licenses shall be notified, giving the license number of the cab; and such card shall be signed by the Chief of the Bureau of Licenses or by a duly authorized deputy. Such card, suitably framed to protect it from injury, shall be affixed by the owner to such conspicuous place in the interior of the public hack as shall be designated by the Chief of the Bureau of Licenses or his said deputy. Such cards shall contain blank spaces upon which an entry shall be made of the date of every inspection of such vehicle by the Inspector who makes such inspection.

Such cards shall be changed annually. They shall be of a distinctly different color each year, and in the case of public hacks driven by mechanical power the license number assigned hereunder shall in each case be the same as that assigned to the same vehicle by the Secretary of State of the State of New York for that year pursuant to law.

7. At the same time there shall also be affixed to a conspicuous and indispensable part of each public hack, by the Chief of the Bureau of Licenses or his deputy by him duly authorized, a small plate not exceeding six inches in diameter which shall bear the license number of the vehicle. The design of such plates shall be changed annually.

8. The following license fees shall be paid:

For each cab	$5 00
For each coach	10 00
For each sightseeing car	10 00

Such license fees shall be in lieu of and not in addition to any fees heretofore established, and except as above provided no charge shall be made.

In the case of licenses issued on or after August 1 in each year hereafter, one-half only of the above fees shall be paid.

9. The Bureau of Licenses shall keep a register of the name of each person owning or operating a vehicle licensed under this ordinance, together with the license number of the same, the description, make and necessary dimensions of such vehicle, with the date and complete record of inspections made of it, and such records shall be open to the inspection of the public at all reasonable times, and shall be public records, and extracts may be certified to by the Chief of the Bureau of Licenses, or his deputy duly authorized, for use as evidence.

10. Any owner or driver of a vehicle not licensed and equipped in accordance with the provisions of this ordinance, or of a vehicle the license of which has been suspended or revoked, and who engages in the business of a public hack as defined hereby, or attempts to engage in such business, or solicits for hire passengers upon the public streets or highways of The City of New York, shall upon conviction before any City Magistrate be punishable by fine of not over $50 or imprisonment not exceeding thirty days, or both.

11. Every public hack driven by mechanical power, seating four passengers or less, shall have affixed thereto a taximeter of a size and design approved by the Chief of the Bureau of Licenses for use upon public hacks. No license shall be issued to a public hack with a taximeter attached thereto until the same shall have been inspected and found to be accurate, and no person shall use or permit to be used upon any public hack a taximeter which shall be in such condition as to be over five per cent. incorrect to the prejudice of any passenger under a penalty of fifty dollars for each and every offense.

12. After sundown the face of every taximeter shall be illuminated by a suitable light so arranged as to throw a continuous steady light upon the face thereof. A violation of this provision shall render the offender liable, upon conviction before a City Magistrate, to a fine not exceeding ten dollars, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

13. No taximeter affixed to a public hack propelled by steam, gasolene, electricity, or other motor power, shall be operated from any wheel to which the power is applied, under penalty of revocation of the license of said vehicle, and a fine of $25.

14. Public hack licenses granted under this ordinance may be revoked or suspended at any time by the Chief of the Bureau of Licenses, if the public hack be not kept at all times in good condition and appearance, clean and safe; and in the case of horse-drawn vehicles, if the horse or horses are unfit for use. It shall be the duty of the Chief of the Bureau of Licenses, through his deputies and inspectors, to maintain constant vigilance over all public hacks licensed under this ordinance, to see that all such vehicles are kept in a condition of continued fitness for public use, and to this end it shall be the duty of the said Chief of the Bureau of Licenses, through his deputies and inspectors, to inspect all public hacks from time to time, or on the complaint of any citizen, or as often as may be necessary. A report in writing of all inspections shall promptly be made to the Chief of the Bureau of Licenses. Licenses when so suspended or revoked shall not be reissued until the public vehicle and all its appurtenances shall be put into fit condition for use by the public, to the satisfaction of the Chief of the Bureau of Licenses.

Article IV.

Drivers' Licenses.

1. Every person driving a public hack must be licensed as such driver.

2. No person shall be so licensed unless he fulfills the following qualifications:

(a) He must be of the age of 21 years or over.

(b) He must be of sound physique, with good eyesight and not subject to epilepsy, vertigo, heart trouble, or any other infirmity of body or mind which might render him unfit for the safe operation of a public hack.

(c) He must be able to read and write the English language, and be clean in dress and person.

(d) He must not be addicted to the use of intoxicating liquors.

(e) He must produce, on forms to be provided by the Chief of the Bureau of Licenses for that purpose, sworn testimonials of good character from two reputable citizens of the City of New York who have known him personally and observed his conduct during one year next preceding the date of his application, and a further testimonial on a form provided for that purpose from his last employer, unless in the estimation of the Chief of the Bureau of Licenses sufficient reason is given for its omission.

(f) He must fill out upon a blank form to be provided by the Bureau of Licenses for that purpose a statement giving his full name, residence, places of residence for five years previous to moving to his present address, age, color, height, color of eyes and hair, place of birth, length of time he has resided in the City, whether a citizen of the United States, places of previous employment, whether married or single, whether he has ever been convicted of a felony or a misdemeanor, whether he has been summoned to court, whether he has previously been licensed as a driver or chauffeur, and if so whether his license has ever been revoked, and for what cause, which statement shall be signed by the applicant in writing and sworn to and filed in the office of the Chief of the Bureau of Licenses as a permanent record of that office. Any false statement made by applicant for a license shall be punishable by a fine of $25, and a record of such false statement sent by the Chief of the Bureau of Licenses to the District Attorney of the county in which the application was made.

(g) Such applicant for a license must if required by the Bureau of Licenses, in order to demonstrate his skill and ability to safely handle his vehicle, drive the vehicle through a crowded section of the City accompanied by an Inspector of the Bureau of Licenses.

(h) Each applicant shall be examined by the Bureau of Licenses as to his knowledge of the provisions of this ordinance, the police traffic regulations, and of the geography of the City of New York, and if the result of the examination be unsatisfactory he shall be refused a license.

(i) Each such applicant for a driver's license must file with his application two recent photographs of himself of a size which may be easily attached to his license, one of which photographs shall be attached to such license when issued, the other photograph to be filed with the application in the Bureau of Licenses. The photograph of the licensee shall be attached to the license in such a way that it cannot be removed and another photograph substituted without detection. Each licensed driver shall upon demand of an inspector of licenses, a policeman, or passenger exhibit his license and photograph for inspection. In such instances where the application for a license is denied, the photograph shall be returned to the applicant by the Bureau of Licenses.

3. The Chief of the Bureau of Licenses is hereby authorized and empowered to provide forms for applicants for drivers' licenses hereunder, and he may establish reasonable rules and regulations governing the issue of drivers' licenses not inconsistent herewith.

4. Upon satisfactory fulfillment of the conditions herein established, the applicant shall be licensed by delivering to him a license which shall be in such form as to contain a photograph of the licensee, the licensee's signature, and shall contain blank spaces upon which a record may be made of any arrest of the driver or serious complaint against him. Any licensee who defaces, removes or obliterates any entry made in these blank spaces upon his license shall be punished by the revocation of his license. There shall also be delivered to each licensee a metal badge, of such form and style as the Mayor shall approve, with his license number thereon, which must, under penalty of revocation of the license, be constantly conspicuously displayed on the outside of the driver's coat when said driver is engaged in his employment. The Bureau of Licenses shall keep a complete record of each license issued to a driver, all renewals, suspensions and revocations thereof, which record shall be kept on file with the original application of the driver for a license.

5. Drivers' licenses shall be issued as of February 1 in each and every year, and shall be valid to and including the 31st day of January next succeeding. The Bureau of Licenses may renew same from year to year by noting the fact of such renewal on the licenses.

6. A driver in applying for a renewal of his license under this ordinance can make such application upon a form to be furnished by the Bureau of Licenses entitled "Application for Renewal of License," this blank to be filled out with the full name and address of the applicant for such renewal, together with a statement of the date upon which his original license was granted and the number thereof.

The following license fees shall be paid for drivers' licenses:

For each original license	$1 00
For each renewal thereof	50

Any person now holding a public driver's license under the provisions of any former ordinance or regulation shall be entitled to have the proportion of his fee for his unexpired license apply in payment of the original license issued under this ordinance.

7. Drivers' licenses may be suspended or revoked at any time by the Mayor, the Chief of the Bureau of Licenses or any City Magistrate. The fact of such suspension shall be noted on the license, together with a statement of the reasons therefor, and the driver shall be deprived of his badge by the official suspending or revoking such license. When the license is suspended or revoked by an official other than the Chief of the Bureau of Licenses, the driver's badge and a note of the revocation or suspension shall be forthwith forwarded to him; the badge to be returned at the expiration of the period for which the license was suspended. A second suspension for the same reason, or in any case a third suspension of a driver's license, shall revoke the license. No driver whose license has been revoked shall again be licensed as a public hack driver in The City of New York. Whenever a license is suspended or revoked by a City Magistrate notice of such revocation, with the cause thereof, shall be forwarded to the Chief of the Bureau of Licenses. It shall also be the duty of the Chief of the Bureau of Licenses to notify the Police Department whenever a license is revoked.

8. Any person not having been duly licensed as a public hack driver, or any person whose license as such driver has been revoked, or any person whose license has been suspended and who during the time of such suspension drives for hire a public hack upon the streets or highways of The City of New York, shall upon conviction before any City Magistrate be punished by a fine of not over $50 or imprisonment for a term not exceeding thirty days, or both.

Article V.

Hack Stands.

1. All public hack stands heretofore designated by this Board are hereby abolished.

2. All special hack stands are hereby abolished and licenses for the same shall not be issued hereafter.

3. The Mayor is hereby authorized to locate and designate as public hack stands the space alongside the curb adjacent to property used as public parks, public buildings, railroad stations, steamship and ferry landings, hotels, restaurants, theatres, and the centre of any street or avenue where the roadway, exclusive of the sidewalk, is 30 feet in width or more.

4. The Mayor may also designate the space beside the curb adjacent to subway entrances and elevated railway steps as stands for a limited number of public hacks. The Mayor shall further designate the number of such public hacks that shall be allowed to stand at any of the places designated by him, and the Bureau of Licenses shall prepare a metal sign, which shall be attached to a post or stanchion adjacent to the said stand, and on which sign shall be placed the number and kind of vehicles that will be allowed on that particular hack stand.

5. Owners of any property may apply to the Mayor for the establishment of a public hack stand adjacent to their premises, stating in said application the number of public hacks they desire to come on said stand, and also the kind of locomotion to be used, whether gasoline, electric motor or horses. Such application shall be granted solely in the discretion of the Mayor, and may be revoked by him at any time. There shall be delivered to the owner of the property making such application a metal sign to be affixed to a stanchion on the curb or other conspicuous place, setting forth the kinds of public hacks and the number thereof that will be allowed on said stand.

6. The Mayor may not establish a public hack stand in the centre of any street opposite to the premises where the owner has applied for and received the permit last above mentioned, during the time that said permit is in operation.

7. No public hack shall stand at any hack stand located and designated by the Mayor in accordance with section 3 of this article, adjacent to the curb of the sidewalk, within 15 feet of the entrance to any building erected on the property adjacent to the said hack stand. The said 15 feet shall be determined by measuring 15 feet on each side of a point on the curb opposite the middle of the entrance to the adjacent building. No hack shall stand within 5 feet of any cross-walk.

8. Only public hacks in such numbers and of such kinds as are set forth on the metal sign may remain at the stand while waiting for employment; and only in single file, pointed in accordance with the traffic regulations. No public hack standing at the head of any such line shall refuse to carry any orderly person applying for a hack, who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any hack he may desire on the stand whether it be at the head of the line or not. As the hacks leave the line with passengers, those behind shall move up, and any public hack seeking a space on the stand shall only approach the same from the rear end of the stand and move up as far as possible to the last cab already on the line.

9. The Mayor may suspend or revoke the license of any public hack driver who shall violate the above provisions by standing in front of the entrance of any building within the prohibited space after his passengers desiring to leave have alighted, or who shall attempt to stand in said prohibited space waiting for passengers, or who shall violate any of the other provisions of this section.

In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, twenty blocks north and south, and seven blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. 4. Applying both to motor-driven and horse-drawn vehicles:

For waiting time at the rate of $1.50 per hour.

7. Any violation of the provisions of this article, or any charge or any attempt to charge any passenger a greater rate of fare than that to which the public hack is entitled under the provisions of this article, shall render the offender liable, upon conviction thereof before any City Magistrate, to a fine of not exceeding $10, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

Article VII.
Miscellaneous Provisions.

1. It shall be unlawful:

For any person to use or permit to be used, or drive for hire, a public hack equipped with a taximeter not having the case thereof sealed and the cover and gear thereof intact.

For any driver of a public hack equipped with a taximeter or other similar device, while carrying passengers or under employment, to display the signal affixed to such taximeter or other similar device in such position as to denote such vehicle is not employed, or in such position as to denote that he is employed at a rate of fare different from that to which he is entitled under the provisions of this ordinance.

For any person to drive a public hack on which has been affixed any taximeter other than one duly inspected and approved.

A violation of any of the provisions of this section shall render the offender or offenders liable upon conviction before any City Magistrate to a fine of not more than fifty dollars for each and every offense, and in default of payment of such fine he may be committed to prison by such Magistrate until the same shall be paid, but such imprisonment shall not exceed ten days.

2. No driver of a licensed hack shall carry any other person than the passenger first employing a hack without the consent of said passenger.

4. All disputes as to the lawful rate of fare shall be determined by the police officer in charge of the police station nearest to the place where such dispute is had; failure to comply with such determination shall subject the offending party to a charge of disorderly conduct, punishable by a fine of not exceeding ten dollars, or in default thereof, imprisonment for not more than ten days.

5. No public hack while awaiting employment by passengers shall stand on any public street or place other than at or upon a public hack stand designated or established, in accordance with this ordinance; nor shall any driver of such hack seek employment by repeatedly and persistently driving his hack to and fro in a short space before, or by otherwise interfering with the proper and orderly access to or egress from any theatre, hall, hotel, public resort, railway or ferry station or other place of public gathering, but any hackman may solicit employment by driving through any public street or place without stops other than those due to obstruction of traffic, and at such speed as not to interfere or impede traffic, and may pass and repass before any theatre, hall, hotel, public resort, railway or ferry station, or other place of public gathering, provided that after passing such public place he shall not turn and repass until he shall have gone a distance of two blocks beyond such place.

6. No person shall be allowed to ride on the box with the driver.

7. No person shall solicit passengers for a public hack or hacks upon the streets and highways of The City of New York except the driver of a public hack when sitting upon the driver's box of his vehicle.

8. Any person violating any of the provisions of this ordinance, except those where another penalty is specifically provided, upon conviction of such violation by a City Magistrate or the Chief of the Bureau of Licenses, or the Deputy Chief, either upon confession of the party or by competent testimony, may be fined for such offense a sum not exceeding ten dollars or be subject to the suspension or revocation of his license in the discretion of the Chief of the Bureau of Licenses or the Deputy Chief, with the approval of the Mayor.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

FILLING PRIVILEGE.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, North River, in The City of New York, until 12 o'clock noon on

WEDNESDAY, JUNE 11, 1913.

FOR THE RIGHT TO DUMP AND FILL BEHIND THE BULKHEAD WALL RECENTLY BUILT BETWEEN E. 123D ST. AND E. 124TH ST., HARLEM RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material as hereinafter described the area behind the new bulkhead wall extending from the southerly side of E. 124th st. southerly a distance of 120 feet, and extending inshore a distance of about 165 feet to the present stone wall along the easterly side of Pleasant ave.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a sloping grade to the level of Pleasant ave. Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling the whole of the area above described.

It is estimated that the area outlining the above described limits will create a basin to be filled in under the agreement, the cubical contents of which in the net void space are equal to 11,800 cubic yards.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or peneration into the mud.

The Department is not bound in any way by the estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer; the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required.

The purchaser will be required to place the filling in accordance with the following specifications:

All of the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore.

All material must be dumped and filled in only in such manner, at such points, and in such order of procedure, and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

The purchaser shall provide all plank and other appliances and all necessary labor, and shall at all times keep the dump graded to the satisfaction of the Engineer.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 100 cubic yards per day shall be placed, and the whole amount of the filling called for to bring the above described basin up to grade shall be completed within 118 days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed, unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling, and at all times until the completion thereof, take all necessary precaution and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from the negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser in the sum of double the amount of the purchase price as security for the satisfactory performance of said work, in accordance with the terms and conditions hereof.

The contractor agrees that he will comply with the provisions of the Labor Law. He further agrees that no laborer, workman or mechanic in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract, shall be permitted or required to work more than eight hours in any one calendar day, except as in cases of extraordinary emergency caused by fire, flood or danger to life or property. That the wages to be paid for a legal day's work to all classes of such laborers, workmen or mechanics upon public work or upon any material to be used thereon shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality where such public work is being constructed. Each such laborer, workman or mechanic shall receive the prevailing rate of wages. This contract shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provisions of sections 3 and 14 of the Labor Law.

BOARD OF ESTIMATE AND APPORTIONMENT.

Notices of Public Hearings.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held April 17, 1913, a communication was received from the Public Service Commission for the First District transmitting resolutions adopting route and general plan of construction for a proposed rapid transit railway in the Borough of Manhattan, known as Park Avenue-Lexington Avenue Connection at Fortieth Street, and requesting the approval and consent of this Board thereto.

By resolution duly adopted on that date the consideration was fixed for April 24, 1913, when it was continued until May 22, 1913, when it was continued until June 5, 1913, and on that day was continued until June 12, 1913, at 10.30 o'clock a. m., in Room 16, City Hall, Borough of Manhattan, when all persons interested will have an opportunity to appear and be heard.

JOSEPH HAAG, Secretary.
Dated New York, June 5, 1913. j7,12

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held this day the following communication was received from the Public Service Commission for the First District, submitting for approval amended plans and conclusions for an additional rapid transit railway in the Borough of Queens, known as "Flushing Route."

To the Board of Estimate and Apportionment of The City of New York:

The route and general plan of construction adopted by this Commission on April 22, 1913, for an additional rapid transit railroad in the Borough of Queens, known as the Flushing Route, provided that the route should extend over private property, the Flushing River and intersecting streets to private property in the block bounded by Amity street, DeLong street, Redwood street and Lawrence street, where the route passes from an elevated structure to a subway or tunnel. A copy of the resolutions adopted by the Commission on April 22, 1913, establishing the route and general plan of construction for the Flushing Route was duly transmitted to your honorable Board, but said resolutions have not been approved or consented to.

As a result of conferences held with representatives of your honorable Board, the Commission now understands that it is proposed to change the grade for that portion of Roosevelt avenue west of the Flushing River and to widen that part of Amity street west of Lawrence street, so that the route may be continued along Roosevelt avenue to Amity street, wherein the portal for the change from elevated to subway construction may be built, thus making it unnecessary to construct said portal on private property. Accordingly the Commission now transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of resolutions adopted by it on the 3d day of June, 1913, rescinding and revoking those portions of its said resolutions of April 22, 1913, establishing the route and general plan of construction for the Flushing Route, and in lieu thereof establishing a new route and general plan of construction for an additional rapid transit railroad, to be also called the Flushing Route. Except for the change referred to above, the route now adopted is exactly the same as the one adopted on April 22, 1913.

Dated New York, June 5, 1913.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by EDWARD E. McCALL, Chairman.

Attest:
TRAVIS H. WHITNEY, Secretary.

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York Quotation Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This Contract, made this day of , 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York Quotation Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within that portion of the Borough of Manhattan lying south of a line beginning at a point on the Hudson River on a line with the northerly side of Chambers street; running thence easterly along the northerly side of Chambers street to the northerly side of New Chambers street on a line therewith; thence continuing easterly along the northerly side of New Chambers street to the easterly side of James slip; thence southerly along the easterly side of James slip to a point on the shore of the East River in line therewith, for the purpose of electrically connecting its places of business with each other and with other offices and places of business of persons, firms and corporations so as to allow of the distribution of stock and bond quotations and dividend and other notices over the said wires to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, for the purpose aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the

three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars ($10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.
2. For past use and occupation of the streets of the City a sum at the rate of eight thousand dollars ($8,000) a year from April 24, 1912, to the date of the signing of this contract by the Mayor.
3. During the first term of five (5) years, an annual sum which shall in no case be less than eight thousand dollars ($8,000) and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight thousand dollars ($8,000).
4. During the second term of five (5) years, an annual sum which shall in no case be less than ten thousand dollars ($10,000) and which shall be equal to four (4) per cent. of its gross annual receipts, if such percentage shall exceed the sum of ten thousand dollars ($10,000).
5. During the remaining term, an annual sum which shall in no case be less than twelve thousand dollars ($12,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twelve thousand dollars ($12,000).

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date; and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth — The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon the completion of any work of construction the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract and the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine. Nothing herein contained shall be deemed to affect the patent rights of the Company or the patented devices used or in the future to be used by it in the operation of its system.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City should it succeed to the rights of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in the Borough of Manhattan, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall in the future be strung above the surface of the streets and avenues by the Company and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Tenth—The Company shall, upon request from any individual, firm or corporation occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, and who shall be designated by the sender of the stock and bond quotations and dividend or other notices requested by the applicant and transmitted by the Company, extend its wires to such premises and transmit such stock and bond quotations and dividend or other notices to such individual, firm or corporation so designated. The Company shall also, upon request of any financially responsible individual, firm or corporation, occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, undertake to, and transmit for such individual, firm or corporation, stock or bond quotations and dividend or other notices furnished it by such individual, firm or corporation for that purpose to such individuals, firms and corporations as may be designated by the sender thereof, provided that such service shall not be required to be furnished in any given case until after the expiration of a reasonable time for procuring and installing the necessary equipment and apparatus for rendering such service, and provided further, that when the undertaking of the transmission of such messages shall require the installation of additional plant and equipment the Company may require the individual, firm or corporation, hereinbefore referred to, to enter into such agreement with respect to the length of time for which the said service is contracted as may be fair and reasonable.

Eleventh—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Twelfth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board, as hereinafter provided:

(a) For transmitting financial news, including stock and bond quotations received from the New York Stock Exchange and including the use of one printing telegraph or ticker during such period as financial news may be transmitted to a designated recipient, the sum of twenty dollars a month or two hundred and forty dollars ($240) a year.

(b) For any other service authorized by this contract furnished or to be furnished by the Company at the request of any person, copartnership, corporation or exchange the rates charged shall be reasonable and fair and before being put into effect shall be submitted to the Board for its approval. In the event that it shall be necessary for the Company in order to undertake to render such additional or other service, to install plant or equipment additional to that at present in use, the rates to be charged may be such as to enable the Company during the life of the contracts for the furnishing of such additional or other service, to receive a return of the moneys so invested by it in such additional plant and equipment and a fair and reasonable profit on such investment.

The Company agrees, upon request of the Board, to transmit messages addressed to any department or bureau of the City where no additional equipment need be installed by the Company, save the laying of wires and installation of tickers, free of charge.

Thirteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Fourteenth—The Company shall not require nor receive from the individuals, firms or corporations to which it transmits stock or bond quotations or dividend or other notices, any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Fifteenth—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Sixteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Seventeenth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Eighteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars ($100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Nineteenth—If for a period of six consecutive months the system of the Company shall not be operated, or if the same shall not be operated for a period of nine months out of any consecutive twelve months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twentieth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts of the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.

18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of fifteen thousand dollars ($15,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants, as herein provided, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars ($50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars ($15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-third — In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less then ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—The words "notice" or "direction," wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-sixth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Twenty-seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

PUBLIC SERVICE COMMISSION.

Proposals.

FIRST DISTRICT.

INVITATION TO CONTRACTORS.
Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct section No. 4 of Route 5, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.
The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:
Section No. 4. Beginning at a point under Broadway, in the Borough of Manhattan, about midway between Houston and Bleecker sts. and extending thence northerly under Broadway and Union square to a point about three hundred and ninety (390) feet north of the intersection of the southerly building line of 14th st. with the centre line of the subway.
The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.
Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.
The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.
The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.
The contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.
Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.
A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.
Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.
The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 24th day of June, 1913, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.
A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.
All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 4," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.
The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.
No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.
The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
