## BOARD OF ESTIMATE AND APPORTIONMENT.

BOARD OF ESTIMATE AND APPORTIONMENT,  
CITY OF NEW YORK,  
MAYOR'S OFFICE, CITY HALL,  
Thursday, November 23, 1876—11 o'clock A. M.

The Board met pursuant to an adjournment.

Present—All the members, viz.:

William H. Wickham, the Mayor of the City of New York; Andrew H. Green, the Comptroller of the City of New York; Samuel A. Lewis, the President of the Board of Aldermen; John Wheeler, the President of the Department of Taxes and Assessments.

The minutes of the meeting held November 21, 1876, were read and approved.

The Chairman presented the following communication:

CITY AND COUNTY OF NEW YORK,  
DISTRICT ATTORNEY'S OFFICE, November 21, 1876.

*The Board of Apportionment:*

GENTLEMEN—I have to request that you will transfer the sum of fourteen hundred dollars from the fund for the contingencies of my office for 1876, to the appropriation for salaries for the same office. Owing to an error in the estimates sent in for the current year, one of my clerks has been unprovided for. His services have been essential, and there will be sufficient moneys remaining to the credit of the contingencies to meet all payments chargeable to that account.

Very respectfully yours,

BENJ. K. PHELPS, District Attorney.

Which was referred to the Comptroller.

The Comptroller presented the following report, and offered for adoption the accompanying resolution:

FINANCE DEPARTMENT—COMPTROLLER'S OFFICE,  
NEW YORK, November 23, 1876.

*To the Board of Estimate and Apportionment:*

At a meeting of the Board of Estimate and Apportionment held August 3, 1876, a communication from the Department of Public Parks, relating to a claim of \$297, for professional services rendered to that Department by Wm. H. Grant, Engineer; and a communication, also, relating to a claim of \$54.30 for repairs to a wagon, by Mr. M. Curley, carriage manufacturer, were referred to the Comptroller, upon which communications I respectfully submit the following

## REPORT:

These communications transmitted resolutions adopted by the Board of Commissioners of the Department of Public Parks, requesting the Board of Estimate and Apportionment to transfer from any unexpended balances the said sums of money for the purpose of paying said claims.

By a communication from the Department of Public Parks, dated September 29, 1876, presented to the Board of Estimate and Apportionment at a meeting held on the same day, it appears that there are certain unexpended balances of appropriations made to that Department for the years 1874 and 1875, and that of the appropriations for the present year, 1876, there will remain certain unexpended balances.

I, therefore, recommend that transfers be made from such unexpended balances of appropriations for 1876, for the purpose of paying said claims, and submit herewith resolutions providing therefor.

Respectfully submitted,

AND. H. GREEN, Comptroller.

Resolved, That the sum of two hundred and ninety-seven dollars (\$297) be and the same is hereby transferred from the appropriation "Independence Day, Celebration of," 1876, the same being in excess of the amount required for the purposes and objects thereof, to an appropriation to be entitled "Inspection paving Third avenue," for which it is required.

Resolved, That the sum of fifty-four dollars and thirty cents (\$54.30), be and the same is hereby transferred from the appropriation "Independence Day, Celebration of," 1876, the same being in excess of the amount required for the purposes and objects thereof, to the appropriation for "Maintenance and Government of Parks and Places," 1872, the amount of said appropriation being insufficient.

The Chairman put the question whether the Board would agree with said resolutions.

Which was decided in the affirmative by the following vote:

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

The Comptroller offered for adoption the following resolution:

Resolved, That the sum of \$781.15 be and the same is hereby appropriated from the Excise Fund for the support of inmates of the "Home for Fallen and Friendless Girls," from July 1 to September 30, 1876, pursuant to chapter 868, Laws of 1873.

The Chairman put the question whether the Board would agree with said resolution.

The matter of an appropriation to the "Lena Gilbert Library and Prisoners' Aid Fund" was referred to the President of the Board of Aldermen to report upon at the next meeting of the Board.

The Chairman presented the following communication:

DEPARTMENT OF PUBLIC PARKS,  
NEW YORK, Nov. 22, 1876.

*To the Board of Estimate and Apportionment:*

The application of this Department for the transfer of its appropriations was formally made on the 28th September, 1876. It was then referred to the Comptroller. The reasons and ground of the

application were twice orally explained to your Board, and once, on the 23d of October, in writing. Everything stated by the Comptroller in his report, made on the 21st instant, was as well known to him then as it is now, but the delay until the season for fall work has nearly passed, to that extent defeats the purposes of the transfer.

## I.

He has presented three points against us—

1st. That to ask more for any specific purpose than we propose to spend, is suggestive of bad faith, and is inconsistent with a sound public policy, that the fact that we have not used it shows that we did not want it, or that we neglected our duty in not using it.

2d. That we have not met the conditions imposed by the law—that the appropriation from which we ask the transfer shall be excessive; and

3d. That there shall be a justifiable deficiency in the appropriation, to supplement which we ask the transfer.

And on these grounds he bases general charges of loose interpretation and bad management. In these respects the Comptroller is neither correct in his facts nor sound in his conclusions.

## II.

Your subdivision of the total appropriation was arbitrary, and it was not based on any view of the requirements of this Department. Our savings in the items where a surplus exists have been economical and wise, and the purposes to which we desire the transfer are the purposes to which the money ought to go. It is our province to exhibit to your Board a detailed written estimate of the expenditures required in this Department for the year for which the appropriation is to be made. On this your Board make a provisional estimate, which, after the review by the Board of Aldermen, returns to your Board, who make a final estimate, and the sum so provided for is raised by taxation (Charter 1873, section 112).

In the departmental estimates we display the whole scope of the work which it may be advantageous to the public to have done; during the year, in detail, item by item. We do not determine whether the whole or a part of it shall be done, nor whether the work on any one item shall be carried to the extent we propose. That duty is for the Board of Estimate and Apportionment. We present the general plans of our work—you set the limitations on it. As an illustration: For the City Hall Park pavement, in 1875, we estimated the cost of repaving the whole at \$30,000; you determined that this work should be done in 1876, but that so large a sum should not be spent on it. You appropriated \$10,000. To this extent the work is finished, and the residue becomes the subject of appropriation for succeeding years.

## III.

In the fall of 1875, we sent the following estimate to your Board. The last column of figures shows the amount of the appropriation. At that time Mr. Stebbins was President of the Department:

Purposes.	Our Estimate for 1876.	Appropriation by Board of Estimate and Apportionment for 1876.
Maintenance of the Central Park and other City Parks.....	\$554,000 00	\$157,500 00
The two Museums.....	30,000 00	30,000 00
Police.....	110,000 00	110,000 00
Salaries.....	93,760 00	55,000 00
Harlem River Bridges.....	59,300 00	40,000 00
Music, Central Park.....	6,000 00	5,000 00
" City Parks.....	7,000 00	
Maintenance, Twenty-third and Twenty-fourth Wards.....	79,000 00	40,000 00
Rebuilding, etc., Bronx Bridges.....	29,000 00	15,000 00
Surveying, etc., Twenty-third and Twenty-fourth Wards.....	57,100 00	25,000 00
City Hall Park, pavement.....	30,000 00	10,000 00
Battery Sea Wall.....	7,500 00	
Independence Day.....	15,000 00	7,500 00
	\$937,660 00	\$495,000 00

Our estimate was made on a consideration of the details of which each item was composed, for instance:

For the two Harlem River Bridges we estimated—

1. Third Avenue Bridge—Renewals of 48 wheels in draw, frames, plates, and repairs to the cylinder.....	\$10,000 00
Steam engine and hydraulic system for working draw.....	6,500 00
Relaying floors.....	1,800 00
	\$18,300 00
2. McComb's Dam or Central Bridge—Rebuilding the two shore spans.....	23,000 00
3. Maintenance of both the above bridges.....	18,000 00
	\$59,300 00

For the maintenance of the roads, etc., in Twenty-third and Twenty-fourth Wards we estimated—

Maintenance of roads, etc., including purchase of earth.....	\$35,000 00
For bridges and culverts.....	6,000 00
For stone and gravel for the roads.....	30,000 00
For watering roads.....	8,000 00
	\$79,000 00

For the Bronx River Bridges we estimated—

For rebuilding three of the bridges and for repairs.....	\$29,000 00
--	-------------

For the police we made no separate estimate, but included it in the \$554.00, which we asked as one item for Maintenance of the Parks.

The other items of our estimate were single items, and were not based on any such subdivision in detail, except the item of "Maintenance of Central Park and other City Parks," the details of which are not now material.

## IV.

When your Board made their final revision the reduction of the total appropriation to less than half a million was the primary point, and the subdivision the secondary point in their consideration. Your proceedings show that this must have been so. There should then have been a redistribution of this total sum, and not a proportional reduction of each item. We proposed a new distribution of the \$495,000, which your Board disregarded, and instead, made a general, proportionate reduction on all the items. Our redistribution was framed on a sharper consideration of the best way of dividing the gross sum, so as to keep up the full amount for the important purposes of our work, and to reduce those which could be postponed, or which were less important.

The features of the new distribution that we proposed were these:

In salaries, we accepted the reduction to \$55,000 in 1876.

In the Police, we proposed to give up the increase we would have had if the larger total sum had been appropriated, and out of a total of \$495,000 we proposed to keep it at \$90,000. These two items are the waste in carrying the money to its proper and primary object—the preservation of the parks and grounds under our care.

In the Harlem river bridges, it was our plan to rebuild the worn out shore spans of the Central Bridge, the draw of which had been rebuilt in the previous year. To rebuild these spans would cost \$23,000. When the appropriation was cut down from \$59,300 to \$40,000 our intention to reconstruct these spans was necessarily abandoned, because the other purposes for which we required money to expend on these bridges were more imperative, and there was not money enough for these purposes, and for the new shore spans also. We proposed to leave out the shore spans, \$23,000, and the forty-eight new wheels, etc., \$10,000, and to reduce it to \$26,500.

## THE BRONX RIVER BRIDGES.

These seven bridges were old, and all needed extensive repairs, and three of them to be rebuilt. We desired to rebuild them of iron, and asked for \$29,000, which was an adequate sum.

The rebuilding of these bridges could be postponed another year, and we proposed to reduce the appropriation to \$1,000 for repairs.

We accepted the figures also for the other items which were reduced—the music, Independence Day, the City Hall pavement, and the survey of the Twenty-third and Twenty-fourth Wards.

## V.

We thus, on the basis of a total appropriation of \$495,000, revised all our estimates on the principle of postponing and saving where we could, so as not to diminish the amount which we asked for the Central and other parks, and the roads in the Twenty-third and Twenty-fourth Wards. The plan of division which we proposed was to reduce—

Salaries to.....	\$55,000 00
Police.....	90,000 00
Harlem River Bridges.....	26,500 00
Bronx River Bridges.....	1,000 00
Music.....	5,000 00
Independence Day.....	7,500 00
City Hall Pavement.....	10,000 00

Surveying, etc., Twenty-third and Twenty-fourth Wards.....	25,000 00
And to increase.....	
Park Maintenance to.....	225,000 00
(Including \$30,000 for the two museums.).....	
Maintenance, roads, Twenty-third and Twenty-fourth Wards.....	50,000 00
	<u>\$495,000 00</u>

Our division can be contrasted with that fixed for us by your Board, and we submit was a better division, and that in every respect it indicated a judicious and wise arrangement, and that it would have kept a larger sum for the primary and proper work of the Department.

## VI.

As the fall season approached, the necessity for money on the parks became apparent.

In the years from 1873 to 1875, the sum expended on the maintenance of the city parks, while Mr. Wales and Mr. Stebbins were president, averaged \$24,000 a month, as follows:

	For the year.	Average per month
In 1873.....	\$298,527.....	\$24,877
1874.....	318,804.....	26,562
1875.....	250,483.....	20,874

The \$157,500 given by your Board for 1876 averaged \$13,125 a month. During the four months under Mr. Stebbins' administration, from January 1 to May 1, \$63,500 has been expended, leaving for the eight summer and fall months, only \$94,000, an average of \$11,700 a month. When I assumed the administration in the early part of May, I found this condition of things:

1. That the parks could not be kept up on \$11,700 a month as well as they had been on \$24,000 a month.

2. That the divisions of the total appropriation by your Board had been arbitrary and inconsiderate and should be remedied.

The saving on the Police was of obvious propriety. By increased vigilance and discipline, we produced a better service from a smaller number of men than had been done before, and the saving was a clear gain, because the money thus expended leaves no permanent results, such as follows expenditure upon the improvement of the parks.

On the Harlem river bridges we necessarily postponed the reconstruction of the land spans of the Central bridge. The iron wheels and other apparatus for the draw on Harlem bridge it was found, on examination, could be safely postponed for another year, in view of the greater importance of increasing the money applicable to the maintenance of the parks.

In respect to the Bronx river bridges, we failed to get the concurrence of the authorities of Westchester County, and therefore could not rebuild any of them.

These were all proper and judicious subjects of economy. On the other hand, we found that the Central Park and the maintenance of the Twenty-third and Twenty-fourth Wards were items of imperative necessity. There are 135 miles of roads in the Twenty-third and Twenty-fourth Wards in bad repair. They need constant repair and gradual reconstruction with stone. The season this fall was favorable to the work, and it was very necessary to use a great quantity of stone to save the roads from damage through the coming winter.

In the Central Park the grass had been greatly injured by the excessive heat of the summer of 1876. The roads and paths needed gravel and thorough repair before the winter set in. They had been neglected in previous years, and were getting to that state which further neglect might lead to the necessity of expensive reconstruction. The trees all needed close examination, and a great deal of work. The money we had was insufficient to keep the parks in their ordinary condition. We wanted to do more.

In September I presented this subject to your Board, with an oral argument, stating the points of this letter. At that time we were planning our fall work, which could only be done at that season.

We had by close and watchful economy gone at a rate which would save on these items of appropriations as follows:

Police.....	\$20,000 00
Harlem River Bridges.....	18,000 00
Bronx River Bridges.....	14,000 00
Independence Day.....	326 00
And had a balance unexpended from 1874.....	3,913 74
1875.....	6,427 59

We wanted these transferred so as to add to the appropriations for the maintenance of roads in the Twenty-third and Twenty-fourth Wards, and the residue on the Central and City parks.

This would have put the roads in the Twenty-third and Twenty-fourth Wards in first-rate order for the winter, and every dollar of the residue could have been spent on the Central Park; and in that case the total expenditure on the parks for the year would have been twenty per cent. less than the sum expended in the year 1875.

If this money had been given us it would have been our pride, by better supervision, better workmen, and more rigid discipline, to have carried the parks through the year 1876, in every respect as well maintained, and with the roads, the turf, and the trees and plants in finer condition than they had ever been, at a cost much less than the previous years.

## VII.

In this letter the following points have been sustained:

First—Of the total of \$495,000 our subdivision was more judicious in view of the proper object of the expenditure than the one fixed for us, and by which we have been hampered.

Second—There is nothing indicative of bad faith, nor inconsistent with the public good; on the contrary, our plan was the best.

3d. Our savings on the items where we have accumulated surpluses has been proper; and

4th. The work on the Central Park, and on the roads in Twenty-third and Twenty-fourth Wards is the proper object on which these savings ought to be expended.

## VIII.

The records of the Board of Estimate and Apportionment show, constantly and repeatedly, that it is within the law, and their uniform practice to make just such transfers as these. This power was expressly given to provide for cases like the present, in which the experience of a department, as the year progresses, becomes a better test of what is the wisest expenditure than the examinations of another Board before the year commences.

## IX.

Ten thousand dollars can still be expended to great advantage in the Twenty-third and Twenty-fourth Wards. A great deal of work can still be done before the cold weather stops it, and gravel and broken stone can be obtained at greatly reduced prices, and kept in readiness for the next year's work. This stone and gravel cannot be obtained early in the spring, when it is most needed.

On the Central Park, \$30,000 could be used upon the roads and paths, among the trees, and in the accumulation of road material at low prices for the spring work.

For the eight months, from May to December, we have had \$94,000 to spend upon the parks. The proportion of the expenditure in the same eight months was, in the preceding years, as follows:

1875.....	\$166,000 00
1874.....	212,000 00
1873.....	200,000 00

It must be obvious to your Board how inadequate has been the sum you have given us, and how difficult it has been to keep the parks in order. The whole of the sum that we have saved would not be too great for the needs of the parks this year. Every dollar of it could be spent to great advantage at this season to the good of the parks, and the neglect to expend it will greatly increase the expenditure for the work which will become necessary for the next spring.

Respectfully,

WM. R. MARTIN, President, Dept. P. P.

**APPLICATIONS FOR EXEMPTIONS WILL BE** heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Whether liable or not, such notices must be answered (in person, if possible, and at this office only) under severe penalties. If exempt, the party must bring proof exemption; if liable, he must also answer in person, giving full and correct name, residence, etc., etc. No attention paid to letters.

Persons "enrolled" as liable must serve when called or pay their fines. No mere excuse will be allowed or interference permitted. The fines, received from those who, for business or other reasons, are unable to serve at the time selected, pay the expenses of this office, and if unpaid will be entered as judgments upon the property of the delinquents.

All good citizens will aid the course of justice, and secure reliable and respectable juries, and equalize their duty by serving promptly when summoned, allowing their clerks or subordinates to serve, reporting to me any attempt at bribery or evasion, and suggesting names for enrollment. Persons between sixty and seventy years of age, summer absentees, persons temporarily ill, and United States and District Court jurors are not exempt.

Every man must attend to his own notice. It is a misdemeanor to give any jury paper to another to answer it is also punishable by fine or imprisonment to give or receive any present or bribe, directly or indirectly, in relation to a jury service, or to withhold any paper or make any false statement, and every case will be fully prosecuted.
