COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16, City Hall, at 11 o'clock a. m., on Wednesday, February 26, 1908.

Present—George B. McClellan, Mayor; John H. McCooley, Deputy and Acting Comptroller; James J. Martin, Chamberlain, and Patrick F. McGowan, President, Board of Aldermen.

The minutes of the meetings held February 5 and 18, 1908, were approved as printed.

A communication was received from the Commissioner of Docks recommending a lease to John W. Sullivan of the outer 200 feet on the southerly side of the pier foot of East Ninth street, Borough of Manhattan.

At the request of the Dock Commissioner, who was present, the matter was referred back to him.

The following communication was received from the Commissioner of Docks recommending an amendment to the resolution authorizing a lease of the pier at the foot of West Forty-fourth street, North River, to the United States Transportation Company (see Minutes, 1907, page 330):

January 28, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Commissioners of the Sinking Fund:

SIR—Referring to the resolution of the Commissioners of the Sinking Fund, adopted at a meeting held March 20, 1907, approving recommendation of the Commissioner of Docks of a lease to the United States Transportation Company of the City's pier at the foot of West Forty-fourth street, North River.

It was contemplated in making this lease that the City should receive compensation at the rate of \$25,000 per annum, plus 5 per cent. per annum on the cost of a shed to be erected by the City (which cost would approximate \$200,000).

Further, it provided that the time of the commencement of the lease above referred to was to be when the City had completed the building of the shed on the pier. In view of the present financial state of the City, it would, in my opinion, be advisable to take up the consideration of the commencement of this lease anew by making an amendment as regards its time of commencement, and, with this end in view, I have conferred with the United States Transportation Company and beg to submit the following amendment to the lease:

The lease to commence on March 1 next at the rate provided for in the lease, namely, \$25,000 per annum, the United States Transportation Company to receive a permit, to be granted by the Commissioner of Docks, for the erection of a temporary shed on the pier and bulkhead, such permit to be no longer than the first term of the lease, namely, ten years, and to revert to and become the property of the City at the expiration of this first term. The matter then could be taken up anew by the City at the expiration of the first lease, as to whether or not the City would be permitted to go on and construct the shed as provided in the original lease or to allow the

lessee to continue the occupancy of the temporary shed under such terms and conditions as may be fixed by the City at that time.

Very respectfully, your obedient servant,

J. A. BENSEL, Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 7, 1908.

I would recommend that this lease be amended as recommended by the Commissioner of Docks and Ferries.

CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held March 20, 1907, approving of and consenting to the execution, by the Commissioner of Docks, of a lease to the United States Transportation Company, be and the same is hereby amended to read as follows:

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Commissioner of Docks of a lease to the United States Transportation Company of the pier at the foot of West Forty-fourth street, North River, together with the bulkhead, commencing from a point 120 feet north of the pier between Forty-second and Forty-third streets, North River, and extending to the northerly side of the pier at the foot of West Forty-fourth street, a distance of about 220 feet; the lease to be for a term of ten years, commencing March 1, 1908, the rental for the said pier and bulkhead to be at the rate of twenty-five thousand dollars (\$25,000) per annum, with the privilege of renewal for a further term of ten years, at an advance of 10 per cent. on the rental for the first term. The United States Transportation Company to receive a permit, to be granted by the Commissioner of Docks, for the erection of a temporary shed on the pier and bulkhead, such permit to be no longer than the first term of the lease, namely, ten years, and to revert to and become the property of the City at the expiration of this first term. The remaining terms and conditions of the lease to be similar to those contained in the printed form of lease now in use by the Department of Docks and Ferries.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Commissioner of Docks, recommending an amendment to resolution authorizing a lease of dump on the pier, foot of West Thirtieth street, North River, to Albert H. Hastorf:

(See page .)

February 13, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Commissioners of the Sinking Fund:

SIR—In the communication sent you by this Department January 17, 1908, recommending the approval of a lease to Albert H. Hastorf, of the right to use the in-shore or most easterly dump on the northerly side of the pier foot of West Thirtieth street, North River, it is provided that "all repairs to that portion of the ramp or approach extending from the easterly end of the dump to the westerly end of the in-shore dumping board are to be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning shall be borne by the lessee."

In the advertisement for the sale of the privilege, it is provided that "all repairs to that portion of the ramp or approach extending from the easterly end thereof to the westerly end of the in-shore dumping board shall be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning, shall be borne by the lessee."

Will you please have the resolution of the Sinking Fund, adopted February 5, 1908, amended so as to conform to the terms of sale?

Your attention is also called to the fact that the said resolution provides that the lease shall be for a term of five years from February 15, 1907, whereas the terms of sale provide that the lease shall be for a term of five years beginning from a date ten days after approval by the Commissioners of the Sinking Fund, or, in this instance, February 15, 1908.

Yours very respectfully,

A. N. SPOONER, Commissioner.

In connection therewith, the Deputy Comptroller presented the following report and offered the following resolution:

February 19, 1908.

I consider the amendment a better business proposition for the City, and recommend its approval.

CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held February 5, 1908, approving of and consenting to the execution, by the Commissioner of Docks, of a lease to Albert H. Hastorf, be and the same is hereby amended to read as follows:

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Commissioner of Docks, of a lease to Albert H. Hastorf, of the right to use and occupy the in-shore or most easterly dump on the northerly side of the pier foot of West Thirtieth street, North River, Borough of Manhattan, together with the right to use the ramp or approach thereat, for a period of five years commencing February 15, 1908, at a rental at the rate of nine thousand two hundred and thirty-five dollars (\$9,235) per annum, the lessee to make all repairs to the dumping board during the term of the lease, and is not in any way to interfere with the operation of the remaining outshore dumps on the northerly side of the pier by the Department of Street Cleaning; all repairs to that portion of the ramp or approach extending from the easterly end thereof to the westerly end of the in-shore dumping board shall be made by the Department of Street Cleaning, but one-half of the cost thereof, as shown by the books and accounts of the Department of Street Cleaning shall be borne by the lessee; the lessee is at all times to do such dredging from time to time, during the term of the lease as may be considered necessary and proper by the Commissioner of Docks to a depth of at least 20 feet at mean low water in the basin or slips or water adjacent at the northerly side of said pier commencing at the bulkhead line and extending outshore to the westerly end of the in-shore or most easterly dumping board. The lease shall contain the usual terms, conditions and covenants at present embodied in leases of wharf property

now used by the Department of Docks and Ferries, and the lessee is to furnish a bond in double the amount of the annual rent for the faithful performance of the covenants and conditions of the lease, and as recommended by the Commissioner of Docks in communications dated January 17 and February 13, 1908.

The report was accepted and the resolution unanimously adopted.

The following was received from the Board of Education relative to a lease of a plot of vacant land at the northeasterly corner of Church avenue and East Forty-eighth street, Borough of Brooklyn:

To the Board of Education:

The Committee on Buildings respectfully reports that on December 11, 1907 (see Journal, pages 2420 and 2421), a resolution was adopted requesting the Commissioners of the Sinking Fund to consent to the execution of a lease of premises on East Fifty-third street, near Beverley road, Borough of Brooklyn, for a period from February 1, 1908, to July 1, 1909. At a meeting of said Commissioners held on the 8th inst., a resolution was adopted rejecting the proposition to lease these premises, and recommending the use of portable buildings on leased ground, centrally located, for temporary school purposes.

In accordance with this recommendation, the matter was again taken up and the availability of several pieces of property was investigated. A parcel of land situated on Church avenue and East Forty-eighth street, Borough of Brooklyn, has been found suitable for the erection of portable buildings, and the leasing of this land is recommended.

The following resolutions are submitted for adoption:

Resolved, That the resolution adopted by the Board of Education on December 11, 1907, relative to the leasing of premises on East Fifty-third street, near Beverley road, Borough of Brooklyn, be and the same is hereby rescinded; and be it further

Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to approve of and consent to the execution by the Board of Education of a lease to the City of the following described premises:

Beginning at a point formed by the intersection of the northerly line of Church avenue with the easterly line of East Forty-eighth street, and running thence northerly along the easterly line of East Forty-eighth street ninety-three (93) feet five and one-half (5½) inches; thence easterly and parallel or nearly so with Church avenue one hundred and twenty (120) feet; thence southerly and parallel or nearly so with East Forty-eighth street ninety-six (96) feet six (6) inches to the northerly line of Church avenue; thence westerly along the northerly line of Church avenue one hundred and twenty (120) feet to the easterly line of East Forty-eighth street, the point or place of beginning, be the said several dimensions, more or less.

—for a period of three years from March 1, 1908, at an annual rental of \$325, the City to assume the taxes during the life of the lease. Owners, Wood, Harmon & Co., G. J. Luhn, agent, Church and Utica avenues, Brooklyn, N. Y.

A true copy of report and resolution adopted by the Board of Education on January 22, 1908.

A. EMERSON PALMER, Secretary, Board of Education.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 10, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education on January 22, 1908, adopted a resolution requesting the Commissioners of the Sinking Fund to approve of a lease on a plot of vacant ground 120 feet by about 95 feet, at the northeasterly corner of Church avenue and East Forty-eighth street in the Rugby section of the Borough of Brooklyn, as a site for portable school buildings, for a term of three years from March 1, 1908, at a rental of \$325 a year, payable quarterly, and taxes during the term of the lease.

After an examination, I have to report that this site is conveniently located for the purpose, near to two trolley lines and within 80 feet of a sewer. The ground is level and dry, and suitable for the purpose intended.

After consultation with Mr. G. J. Luhn, agent for Wood, Harmon & Co., the owners, I have succeeded in getting the owners to omit the item of tax from the lease, making the rental a flat sum of \$325 a year, and have also secured the right of renewal on the lease for one additional year at a rental of \$400. The rental asked, while full value, is not excessive, and I would, therefore, respectfully recommend that the Commissioners of the Sinking Fund approve of a lease of the plot of ground at the northeasterly corner of Church avenue and East Forty-eighth street, Borough of Brooklyn, fronting 120 feet on Church avenue by 120 feet by 96 feet by 93 feet 5½ inches on East Forty-eighth street, for a term of three years from March 1, 1908, at an annual rental of \$325, payable quarterly, and with the privilege of renewal for one additional year at a rental of \$400. It being understood that if Church avenue shall be physically widened at this point during the term of the lease, so as to take off a considerable portion of the said ground, the lease shall thereupon be null and void and terminate, anything therein contained to the contrary notwithstanding. Owners, Wood, Harmon & Co., No. 261 Broadway, Manhattan. Agent, G. J. Luhn, corner Utica and Church avenues, Brooklyn.

Respectfully submitted for approval.

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution by the Board of Education, of a lease to the City from Wood, Harmon & Co., of the plot of ground at the northeasterly corner of Church avenue and East Forty-eighth street, Borough of Brooklyn, fronting 120 feet on Church avenue by 120 feet by 96 feet by 93 feet 5½ inches on East Forty-eighth street, for a term of three years from March 1, 1908, at an annual rental of three hundred and twenty-five dollars (\$325), payable quarterly, with the privilege of renewal for one additional year, at a rental of four hundred dollars (\$400); the lease to contain a clause providing that if Church avenue shall be physically widened at this point during the term of the lease so as to take off a considerable portion of the said ground, the lease shall thereupon be null and void and terminate, anything therein contained to the contrary notwithstanding; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable, and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the President of the Borough of Queens relative to a lease of premises on the southerly side of Ralph street, 90 feet westerly from the southwesterly corner of Ralph street and Covert avenue, Borough of Queens:

LONG ISLAND CITY, February 4, 1908.

Hon. GEORGE B. MCCLELLAN, Mayor, and Chairman, Sinking Fund Commission, New York:

DEAR SIR—I am desirous of securing the following described property for the use of this Department as a corporation yard; to that end would request that a lease be entered into with the owners for the use of same:

First—Full name of owner: Bernard Schwab.

Second—Description of property: As per sketch enclosed.

Third—Terms of proposed lease: Two (2) years.

Fourth—Rental: One hundred and fifty dollars (\$150) per annum, payable quarterly.

Fifth, Sixth and Seventh—Vacant lot; no building thereon.

Eighth—This property is required for the storing of road building material, such as stone, sewer pipes and tools, and there is no property used for that purpose in the Ridgewood section.

Ninth—The premises are the most reasonable and appropriate for the purpose.

Tenth—The rental to be paid from the Sinking Fund Accounts, Rents.

Yours respectfully,

JOSEPH BERMEI,
President of the Borough of Queens.

I, the undersigned, hereby offer to lease to the Department of Highways of the Borough of Queens, City of New York, all that certain plot, piece or parcel of land, being twenty (20) feet front and rear, by one hundred (100) feet in depth each side, situate on the southerly side of Ralph street, distant ninety (90) feet westerly from Covert avenue, Ridgewood, Borough of Queens, City of New York, and shown on the following diagram.

Said premises to be used by the said Highway Department of The City of New York as and for a corporation yard.

The terms of said letting to be as follows:

The rent shall be one hundred and fifty dollars (\$150) per annum, to be paid quarterly.

The term of the letting to be two years.

Dated Borough of Queens,

February 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—For and in consideration of the sum of \$1, in hand paid, I hereby agree to lease to The City of New York, for a period of two years from March 1, 1908, at a rental of \$80 a year, payable quarterly, with the privilege of an additional two years at the same rental, the vacant lot, 20 by 100 feet, on the southeasterly side of Ralph street, 90 feet southwest from Covert avenue, and known on the tax books as Lot No. 36 in Block 31, Ward 2, Volume 1, Map, 1, page 5, said lot being owned by me.

BARBARA LORCH,

No. 160 Throop avenue, Brooklyn, E. D.

Witness: M. S. MULLOWNEY.

In connection therewith, the Deputy Comptroller presented the following report and offered the following resolution:

February 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Honorable Joseph Bermel, President of the Borough of Queens, in a communication addressed to the Commissioners of the Sinking Fund under date of February 4, 1908, requests that a lease be authorized of the vacant lot, 20 by 100 feet, on the southeasterly side of Ralph street, 90 feet southwest from Covert avenue, in the Ridgewood section of the Borough of Queens, as a corporation yard, for a period of two years, at a rental of \$150 per annum, payable quarterly. He says the owner is Bernard Schwab, that the lot is vacant and that the property is required for the storing of road building material, such as stone, sewer pipes and tools.

After an examination, I have to report that this lot, which is known on the tax books as Lot No. 36, in Block 31, Ward 2, Volume 1, Map 1, page 5, is assessed at \$500 for the year 1907 in the name of Charles Lorch. The lot is fenced and on the rear there is constructed an old frame shed, 20 by 24 feet in size. The remainder of the lot is piled with granite building blocks, and I am informed has been occupied by the City as a storage yard since about October, 1906, although no rent has been paid by the City.

Bernard Schwab is in business on the corner of Forest avenue and Grove street, and is also a Foreman in the Department of Highways in that Borough. Mr. Schwab, when seen by an employee of this Bureau, said that the lot was not owned by him but was the property of Mrs. Barbara Lorch, widow, of No. 160 Throop avenue, Brooklyn.

The lot, though assessed for 1907 at only \$500, is fairly worth from \$1,200 to \$1,500. Mrs. Lorch, when seen by an employee of this Bureau, agreed to lease the lot to the City for two years at a rental of \$80 a year, payable quarterly, with the right of a renewal for an additional two years at the same rental (see her option herewith).

Both Mrs. Lorch and Mr. Schwab were under the impression apparently that when the lease was made the City would pay the back rent since October, 1906, but she was told that that was a matter to be settled between Mr. Schwab and President Bermel. She says she has been receiving \$5 a month from Mr. Schwab almost continuously since the City has had the use of the property.

Mr. Bermel's letter, as will be noticed, says nothing about when the lease is to begin.

From the use to which this property has been put in the past, it clearly shows that the President of the Borough of Queens must have the use of this property for Borough purposes, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund approve of the request of the President of the Borough of Queens and authorize a lease from Barbara Lorch, of No. 160 Throop avenue, Brooklyn, of the premises located on the southerly side of Ralph street, 90 feet westerly from the southwesterly corner of Ralph street and Covert avenue, Borough of Queens, being a lot 20 feet in width by 100 feet in depth, with a frame shed thereon erected, as a corporation yard for the use of the President of the Borough of Queens, for a period of two years from March 1, 1908, at an annual rental of \$80, payable quarterly, said lease to contain a renewal clause for an additional period of two years upon the same terms and conditions.

I would further respectfully recommend that the attention of the President of the Borough of Queens be called to the fact that he should instruct his subordinates, when addressing a communication to the Commissioners of the Sinking Fund for the purpose of negotiating for a lease, that effort be made to find the real owner of the property and the actual annual rental to be paid, and such further and correct information as to the date of beginning of the lease, so as to enable the Commissioners of the Sinking Fund to act properly upon the request.

Respectfully submitted for approval.

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from Barbara Lorch, of the premises located on the southerly side of Ralph street, 90 feet westerly from the southwesterly corner of Ralph street and Covert avenue, Borough of Queens, being a lot 20 feet in width by 100 feet in depth, with the frame shed erected thereon, for the use of the President of the Borough of Queens as a corporation yard, for a period of two years from March 1, 1908, at an annual rental of eighty dollars (\$80), payable quarterly, with the privilege of renewal for

an additional period of two years upon the same terms and conditions; and the Commissioners of the Sinking Fund, deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the President of the Borough of Queens relative to a proposed lease of a plot of ground on Baltic street, between South street and Humboldt boulevard, Jamaica, Borough of Queens:

LONG ISLAND CITY, January 20, 1908.

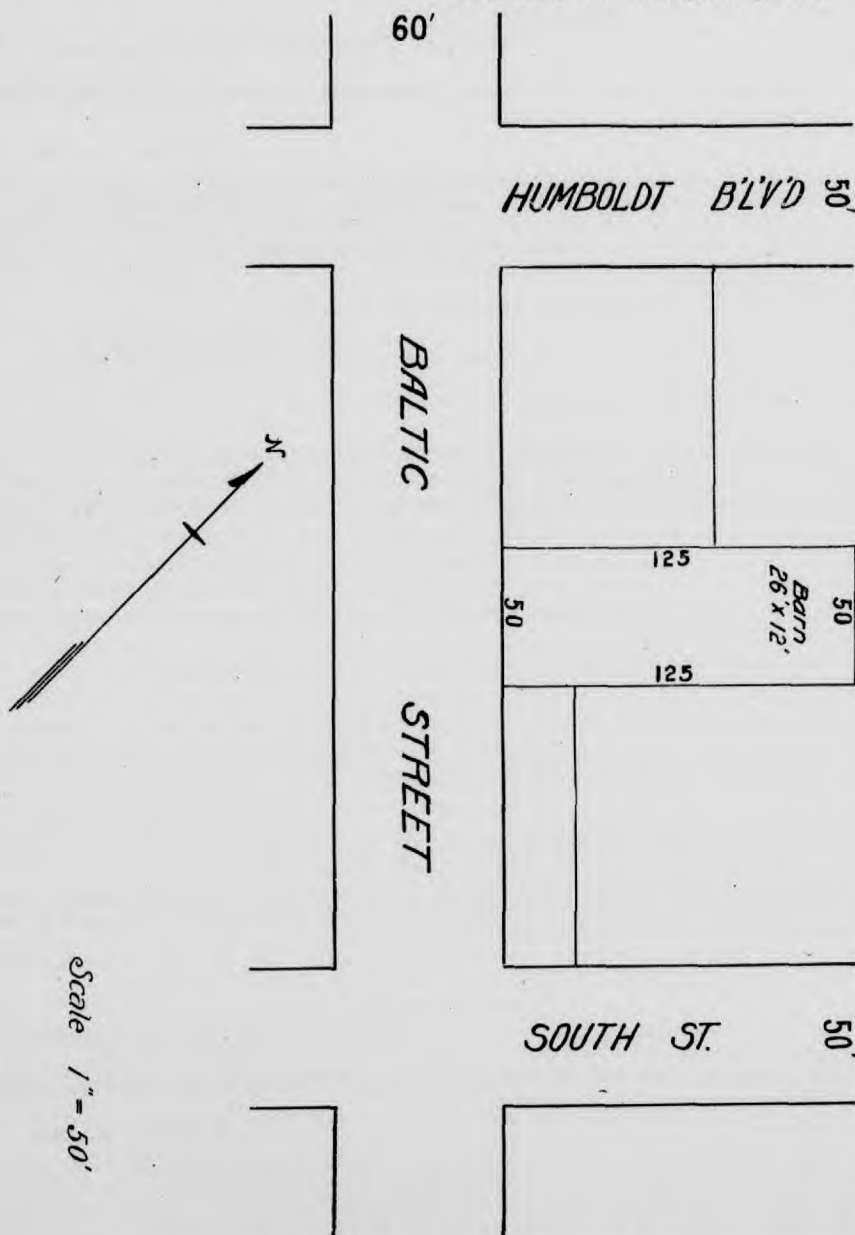

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman, Sinking Fund Commission, New York:

DEAR SIR—I am desirous of securing the following described property for the use of this Department as a corporation yard; to that end would request that a lease be entered into with the owners for the use of same:

- First—Full name of owner: John Casey.
- Second—Description of property: As per sketch enclosed.
- Third—Terms of proposed lease: Two years, with privilege of renewal.
- Fourth—Rental: \$240 per year, payable quarterly.
- Fifth, Sixth and Seventh—Owner to pay for alterations and repairs, water rent, light, heat and janitor service.
- Eighth—This property is required for the storing of tools and as a repair shop for the Bureau of Sewers.
- Ninth—The premises are the most reasonable and appropriate for the purpose.
- Tenth—The rental to be paid from the Sinking Fund Accounts, Rents.

Yours respectfully,

JOSEPH BERMEI,
President of the Borough of Queens.

In connection therewith the Deputy Comptroller presented the following report:

February 8, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Joseph Bermel, President of the Borough of Queens, in a communication addressed to the Commissioners of the Sinking Fund under date of January 20, 1908, requests that a lease be secured of premises 50 by 125 feet on the northeasterly side of Baltic street, between South street and Humboldt boulevard, Jamaica, Borough of Queens, for a period of two years, with the privilege of renewal, at an annual rental of \$240, payable quarterly, the premises being required as a corporation yard and a place for the storing of tools and a repair shop for the Bureau of Sewers.

A diagram attached to Mr. Bermel's communication herewith shows the location of the property. Mr. Bermel states that the name of the owner is John Casey, but fails to give Mr. Casey's address. He also states that the lease is with the privilege of renewal, but fails to state for what length of time, and also says nothing concerning the improvements, if any. Mr. Bermel's letter also states that the owner is to pay for alterations and repairs, water rent, light, heat and janitor service. The little shop on the lot is heated by a small stove, which is necessary to dry out the hose, but the other items of alterations and repairs, water rent, light and janitor service are of course unnecessary.

After an examination by this Bureau, it appears that John Casey is not the owner of the premises in question, although he is supposed to have some interest. The plot, 50 by 125 feet, and three abutting lots fronting on Humboldt boulevard, are owned by Casey's aunt, Mrs. Elizabeth Salmon, wife of William Salmon, a Foreman in the Sewer Department of that Borough. The diagram shows a plot 50 by 125 feet, but the lease is intended to cover only half of this plot, the other lot having on it a 2-story frame dwelling which is occupied by William Salmon and his family. The lot, 25 by 125 feet, which it is proposed to lease to the City, has on its rear a 1-story and attic frame shop or stable building 12 by 20 feet, with a concrete floor, and a small frame lean-to, 8 by 12 feet. This building, I am informed, cost \$165 and was erected about a

year ago, since which time it has been used by Mr. Salmon for the storage of tools and as a repair shop for his Bureau (without the payment of rent). Piled at the rear of the plot are also a few cart loads of brick, short timbers and sewer heads. Mr. Salmon said that if this lot was not sufficient for the storage of material during the term of the lease, he would allow the City the free use of the three other vacant lots owned by his wife. The lot in question, which is Lot 155 in Ward 4, Volume 6, Map Page 24, Borough of Queens, is assessed at \$400, with nothing additional for the little building. The fullest present market value of this property, lot and building, is not above \$750 to \$800, and the rental asked, \$240 a year, is therefore excessive. A rental of half the amount would be very liberal, even including the heating.

I would therefore respectfully recommend that the application of the President of the Borough of Queens, requesting the Commissioners of the Sinking Fund to authorize this lease, be rejected, and that the matter be referred back to the President of the Borough, either to have the owner reduce the rental value of the property to a proper amount, or to select a different location for a storage yard.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The report was accepted and the matter referred back to the President of the Borough of Queens with a copy of the report.

The following communication was received from the Department of Street Cleaning, relative to a lease of Room 518, at No. 500 Fifth avenue, Borough of Manhattan:

February 6, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman, Sinking Fund Commission, City Hall, New York City:

SIR—I request the consent and authority of your Board for the hiring or leasing for three (3) months from Walter J. Salomon of Room 518 in the Bristol Building, No. 500 Fifth avenue, Borough of Manhattan, for the months of February, March and April, 1908.

This will be a room additional and adjacent to the two rooms already occupied by this Department as a snow office, and is to furnish additional accommodation during the season when the snow work is at its height.

Respectfully,

FOSTER CROWELL, Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Foster Crowell, Commissioner of the Department of Street Cleaning, in a communication addressed to the Commissioners of the Sinking Fund under date of February 6, 1908, requests the consent and authority of that Board for the hiring or leasing for a period of three months of Room 518 in the Bristol Building, No. 500 Fifth avenue, Manhattan, for the months of February, March and April, 1908, this room being required as a snow office to furnish additional accommodations during the season when the snow work is at its height.

After an examination, it appears that this is a corner room about 20 by 22 feet, divided into two rooms, in the Bristol Building, northwest corner of Fifth avenue and Forty-second street. The last two tenants of this room paid a rental of \$1,000 a year. Commissioner Crowell's letter says nothing as to the rate of rental to be paid by the City, but I learn that the rental is to be \$75 a month; that the City has been in possession since February 1, and that the lease is to be for one month, with the privilege of renewal from month to month, the lessor reserving the right to cancel the lease upon one week's notice, in case the room should be rented to other parties.

The room is much needed for the purpose required and is at present filled with a dozen or more temporary Clerks working on the matter of the snow removal. The rent is fair and reasonable, and I would therefore respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of Room 518 in the Bristol Building, No. 500 Fifth avenue, Manhattan, for the month of February, 1908, at a rental of \$75 a month, with the privilege of renewal from month to month as long as needed, the lessor reserving the right to cancel the lease at any time upon one week's notice, in case of the rental of the room to other parties. Lessor, Walter J. Salomon.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Commissioners of the Sinking Fund hereby approve of and consent to the execution, by the Commissioner of Street Cleaning, of a lease to the City, from Walter J. Salomon, of Room No. 518, in the Bristol Building, No. 500 Fifth avenue, Borough of Manhattan, for the month of February, 1908, at a rental of seventy-five dollars (\$75) per month, with the privilege of renewal from month to month as long as needed; the lessor reserving the right to cancel the lease at any time upon giving one week's notice, in case of rental of the room to other parties; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Police Department relative to a renewal of the lease of premises No. 106 East One Hundred and Twenty-sixth street, Borough of Manhattan.

February 7, 1908.

To the Honorable Commissioners of the Sinking Fund:

GENTLEMEN—The Police Commissioner this day

Ordered, That the Commissioners of the Sinking Fund be and are hereby respectfully requested to authorize the Comptroller to execute renewal of lease from Mrs. J. R. Foley, of premises No. 106 East One Hundred and Twenty-sixth street, for use as a stable for the Forty-third Precinct, formerly Thirty-second Precinct, for one year from May 1, 1908, at \$50.16 per month, the covenants and conditions to be the same as in the existing lease.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 14, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of premises No. 106 East One Hundred and Twenty-sixth street, Borough of Manhattan, for a period of one year from May 1, 1908, at a rental of \$50.16 per month, and upon the same terms and conditions as contained in the existing lease. Lessor, Mrs. J. R. Foley.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City from Mrs. J. R. Foley, of premises No. 106 East One Hundred and Twenty-sixth street, Borough of Manhattan, for use of the Police Department, for a period of one year from May 1, 1908, at a rental of fifty dollars and sixteen cents (\$50.16) per month, and on the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Police Department relative to a renewal of the lease of premises No. 5 Vine street, Borough of Brooklyn:

February 7, 1908.

To the Honorable Commissioners of the Sinking Fund:

GENTLEMEN—The Police Commissioner this day Ordered, That the Commissioners of the Sinking Fund be and are hereby respectfully requested to authorize the Comptroller to execute renewal of lease from William Van Anden, of premises No. 5 Vine street, Brooklyn, for use as a stable for the One Hundred and Fiftieth Precinct, formerly Fiftieth Precinct, for one year from May 1, 1908, at \$650 per annum, the covenants and conditions to be the same as in the existing lease.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 14, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of premises No. 5 Vine street, Borough of Brooklyn, for a period of one year from May 1, 1908, at an annual rental of \$650, and upon the same terms and conditions as contained in the existing lease. Lessor, William M. Van Anden.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City, from William M. Van Anden, of premises No. 5 Vine street, Borough of Brooklyn, for use of the Police Department for a period of one year from May 1, 1908, at an annual rental of six hundred and fifty dollars (\$650), and upon the same terms and conditions as contained in the existing lease; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Police Department relative to a renewal of the lease of premises on Richmond terrace, near Van street, West Brighton, Borough of Richmond.

February 7, 1908.

To the Honorable Commissioners of the Sinking Fund:

GENTLEMEN—The Police Commissioner this day Ordered, That the Commissioners of the Sinking Fund be and are hereby respectfully requested to authorize the Comptroller to execute renewal of lease from Edward A. Muller, of premises on Richmond Terrace, near Van street, West Brighton, Richmond, for use as a station house for the Eighty-first Precinct, for one year from May 1, 1908, at \$1,500 per annum, the covenants and conditions to be the same as in the existing lease.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 14, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a lease of the premises on Richmond Terrace, near Van street, West Brighton, Borough of Richmond, for a period of one year from May 1, 1908, at an annual rental of \$1,500, payable quarterly, and upon the same terms and conditions as contained in the existing lease. Lessor, Edward M. Muller.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

Approved:

H. A. METZ, Comptroller.

The report was accepted and the resolution unanimously adopted.

The following communication was received from the Hudson-Fulton Celebration Commission, relative to a renewal of the lease of Room 805 in the Tribune Building, No. 154 Nassau street, Borough of Manhattan:

February 13, 1908.

To the Sinking Fund Commissioners of The City of New York, Hon. N. TAYLOR PHILLIPS, Secretary, No. 280 Broadway, New York:

GENTLEMEN—In behalf of the trustees of the Hudson-Fulton Celebration Commission appointed by the Mayor of The City of New York and the Governor of the State of New York, I hereby respectfully apply for the renewal of the lease of Room 805, in the Tribune Building, at No. 154 Nassau street, for the year beginning May 1, 1908, at an annual rental of \$1,000 a year, payable in monthly installments.

Yours respectfully,

HENRY W. SACKETT, Secretary.

In connection therewith the Deputy Comptroller presented the following report and offered the following resolution:

February 18, 1908.

The rent being the same as heretofore paid, I would respectfully recommend that the Commissioners of the Sinking Fund authorize a renewal of the lease of Room 805, in the Tribune Building, No. 154 Nassau street, for a period of one year from May 1, 1908, at an annual rental of \$1,000, payable monthly. Lessor, the Tribune Association.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Approved:

H. A. METZ, Comptroller.

Resolved, That the Comptroller be and is hereby authorized and directed to execute a renewal of the lease to the City of Room 805, in the Tribune Building, No. 154 Nassau street, Borough of Manhattan, for the use of the Hudson-Fulton Celebration Commission, for a period of one year from May 1, 1908, at an annual rental of one thousand dollars (\$1,000), payable monthly; lessor, the Tribune Association; the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution, relative to an amendment to resolution authorizing a lease of premises known as Parcel C, at Borden avenue and Dutchkills Creek, Borough of Queens, for the Department of Bridges:

(See page .)

February 11, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund at a meeting held January 22, 1908, adopted a resolution authorizing a renewal of the lease for the Commissioner of the Department of Bridges, of the premises known as Parcel C, at Borden avenue

and Dutchkills Creek, Borough of Queens, from Anson R. Flower, John P. Taylor and Sarah N. Flower, as executors under the will of Roswell P. Flower, deceased.

Since the approval of the request of the Department of Bridges, this office has been informed that the Borden Realty Company, H. S. Kearney, president, has become the owner of the property. I would, therefore, respectfully recommend that the Commissioners of the Sinking Fund amend so much of the resolution adopted January 22, 1908, by striking out the names of the old lessors and substituting the Borden Realty Company, H. S. Kearney, president, in lieu thereof.

Respectfully submitted for approval,
MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:
H. A. Metz, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held January 22, 1908, authorizing a renewal of the lease to the City from Anson R. Flower, John P. Taylor and Sarah N. Flower, as executors under the will of Roswell P. Flower, deceased, of premises known as Parcel C, at Borden avenue and Dutch Kills Creek, in the Borough of Queens, for the use of the Department of Bridges, be and the same is hereby amended by substituting the Borden Realty Company, H. S. Kearney, president, as the name of the lessor, in place of Anson R. Flower, John P. Taylor and Sarah N. Flower as executors under the will of Roswell P. Flower, deceased.

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented the following report and offered the following resolution relative to an amendment to resolution authorizing a renewal of the lease of rooms in the Mercantile Building, corner of Twenty-third street and Fourth avenue, Borough of Manhattan, for the Law Department:

Hon. HERMAN A. METZ, Comptroller:

SIR—The Commissioners of the Sinking Fund, at a meeting held January 8, 1908, adopted a resolution authorizing a renewal of the lease to the City from the Island Realty Company of Rooms 317 and 318 on the third floor of the Mercantile Building, at the southeast corner of Twenty-third street and Fourth avenue, Borough of Manhattan, for the use of the Law Department, for a period of two years from May 1, 1908, at an annual rental of \$1,400, payable quarterly, * * *. The property now under lease and for which the renewal was intended is located on the southwest corner of Twenty-third street and Fourth avenue.

I would therefore respectfully recommend that the Commissioners of the Sinking Fund amend the resolution adopted January 8, 1908, by striking out the word "southeast" and inserting the word "southwest."

Respectfully submitted for approval,
MORTIMER J. BROWN,
Appraiser of Real Estate, Department of Finance.

Approved:
H. A. Metz, Comptroller.

Resolved, That the resolution adopted by this Board at meeting held January 8, 1908, authorizing a renewal of the lease to the City of Rooms 317 and 318 on the third floor of the Mercantile Building, at the southeast corner of Twenty-third street and Fourth avenue, Borough of Manhattan, for use of the Law Department, be and the same is hereby amended by striking out the word "southeast" and inserting in place thereof the word "southwest."

The report was accepted and the resolution unanimously adopted.

The Deputy Comptroller presented a report recommending an amendment to resolution adopted January 22, 1908, authorizing a lease of premises at No. 209 Montague street, Borough of Brooklyn, for the use of the President of the Borough, by making the rent payable monthly instead of quarterly, and by omitting the privilege of renewal clause.

On motion, the matter was referred to the Chamberlain as a Select Committee for the purpose of adjusting the matter in accordance with the views of the Commissioners of the Sinking Fund, that the rent should be payable quarterly and not monthly. There was no objection to striking out the privilege of renewal clause.

The Deputy Comptroller presented the following report relative to an application of the Quick Transit Realty Company for the remission of the ten-dollar yearly charge for a pipe line privilege:

To the Commissioners of the Sinking Fund:

GENTLEMEN—At a meeting of the Commissioners of the Sinking Fund held on January 17, 1907, the Comptroller presented a report of the Chief Engineer of the Department of Finance, which was approved by the Comptroller, recommending that the Commissioner of Water Supply, Gas and Electricity be authorized to grant to the Quick Transit Realty Company the privilege of laying a one and one-half-inch water pipe over and across the Brooklyn City conduit at Portland avenue, from the water main at the foot of old South road to the house being constructed by the said Realty Company south of the Brooklyn conduit; that the compensation to be paid to the City for such privilege shall be the nominal sum of \$10 per annum, the privilege to be on condition that the company shall be liable for any damage due to the laying or maintenance of such pipe; the work to be done at the expense of the company, under the jurisdiction and direction of the Commissioner of Water Supply, Gas and Electricity, and subject to such conditions as he shall prescribe. The privilege to contain a stipulation that the Commissioner of Water Supply, Gas and Electricity may revoke such permission at any future time if found necessary in the interest of the City.

Under date of January 22, 1907, the Commissioner of Water Supply granted the said privilege to the Quick Transit Realty Company in accordance with resolution of the Commissioners of the Sinking Fund, which was accepted by the Company, and they made the first annual payment.

The Collector of City Revenue of the Department of Finance made demand for the second annual payment, and failed to receive the same, and subsequently, under date of January 31, 1908, in a communication addressed to the Commissioners of the Sinking Fund, the Quick Transit Realty Company request that the \$10 a year charge be remitted.

The Engineer of the Department of Finance reports to me that he can see no reason to change his original report recommending an annual compensation of \$10 for the privilege.

I therefore recommend that the application for the remission of the \$10 yearly charge be denied.

Respectfully,
N. TAYLOR PHILLIPS, Deputy Comptroller.

Approved:
H. A. Metz, Comptroller.

The report was accepted and the application denied.

The Deputy Comptroller again brought up the matter of the petition of Robert E. Eckardt for a release of the City's interest in Lots 142 and 143, Block 5, Plot 2, Ward 1, Borough of Richmond, which was laid over at meeting held February 5, 1908.

The matter requiring a unanimous vote, and there being only four members present, it was again laid over.

The following was received from the Armory Board relative to bill of Walter E. Parfitt, architect:

New York, January 29, 1908.

The Honorable, the Commissioners of the Sinking Fund:

GENTLEMEN—At a meeting of the Armory Board, held January 10, 1908, the following was adopted:

"Resolved, That the Armory Board does hereby approve the bill and expense of: Walter E. Parfitt, architect, for professional services rendered in connection with new floor in Drill Hall of the Thirteenth Regiment armory, in the Borough of Brooklyn, being a payment in full, less commission on amount retained as guarantee..... \$671 22

—that the Commissioners of the Sinking Fund be requested to concur, and the Comptroller authorized to pay."

The voucher is herewith transmitted.

Yours respectfully,
HARRIE DAVIS, Secretary.

Approved:
CHANDLER WITHINGTON,
Chief Engineer, Department of Finance.

Approved:
H. A. Metz, Comptroller.

February 8, 1908.

The bill having been approved by the Chief Engineer of the Department of Finance, the Deputy Comptroller offered the following resolution:

Resolved, That the Commissioners of the Sinking Fund hereby concur in the following resolution adopted by the Armory Board at meeting held January 10, 1908:

Resolved, That the Armory Board does hereby approve the bill and expense of Walter E. Parfitt, architect, for professional services rendered in connection with new floor in Drill Hall of the Thirteenth Regiment armory, in the Borough of Brooklyn, being a payment in full, less commission on amount retained as guarantee, six hundred and seventy-one dollars and twenty-two cents (\$671.22); that the Commissioners of the Sinking Fund be requested to concur, and the Comptroller authorized to pay.

Which resolution was unanimously adopted.

The Deputy Comptroller presented the following statement and offered the following resolution relative to fine payable to the Police Pension Fund:

February 14, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—On January 16, 1908, Mrs. Estelle P. Mills (formerly Estelle P. Meyer), in Court of Special Sessions, Manhattan, was fined eighty dollars (\$80).

Mrs. Mills had been a pensioner and had collected installments of pension from the Police Pension Fund after remarriage. The fine for such violation of law was paid in Court, and deposited to the credit of the Sinking Fund for Payment of the Interest on the City Debt.

Commissioner Theodore A. Bingham, as trustee of the Police Pension Fund requests that the amount of the above fine be paid over to the said fund to reimburse it for the amount of money improperly paid therefrom to the said Mrs. Mills.

Respectfully,

F. W. SMITH, Chief Accountant and Bookkeeper.

Approved:

H. A. METZ, Comptroller.

Resolved, That a warrant payable from the Sinking Fund for the Payment of the Interest on the City Debt, be drawn in favor of the Police Pension Fund for the sum of eighty dollars (\$80), being amount of fine imposed and collected from Mrs. Estelle P. Mills, formerly Estelle P. Meyer, for illegally collecting from the Police Pension Fund after remarriage, and to reimburse the said fund for amount so improperly drawn therefrom.

Which resolution was unanimously adopted.

The Deputy Comptroller presented the following report dealing with the history of the old Clove road, in the Borough of Brooklyn:

January 25, 1908.

Hon. HERMAN A. METZ, Comptroller:

SIR—I have the honor to present herewith a report dealing with the history of the Clove Road

This road connected the settlement of Bedford with that at Flatbush in the Dutch days. Flatbush was in the early Dutch period the county seat and place of prime importance.

The settlement of Bedford grew out of the difficulties which the settlers of Brooklyn and Wallabout experienced in hauling hay from the salt meadows along the shores of Jamaica Bay. Bedford was a more convenient starting point because it materially shortened the haul.

In 1662 Governor Stuyvesant in response to a petition made to him granted to certain petitioners twenty morgens of land to each at Bedford. This represented about forty acres apiece. The home lots were located at what became known as the Village of Bedford, at the intersection of three roads, the main road (later known as Jamaica Turnpike), the Cripplebush road and the Clove road. The plantations of which the home lots were a part, extended from the Clove to the Hunterfly road. This situation considered with certain other circumstances leads to the belief that the Clove road was in existence for some time before Bedford was settled as a community.

There was a combination known as the five Dutch towns, composed of Brooklyn, Flatbush, Flatlands, New Utrecht and Bushwick. A register commissioned by the Director General travelled from town to town and took proof of wills, marriage settlements and other things, and in those primitive days chose the road that offered the fewest obstacles. From Bushwick to Flatbush the Bushwick and Cripplebush roads would carry the traveller to the main road (Fulton street of to-day) and then his most direct course for Flatbush was through the Clove road. Indeed, it would have involved considerable time and labor to have sought his destination by any other route.

Even the name of the road suggests that it extended a mute invitation to go that way. Clove means cleft and its application in this relation is that it indicated the road through the cleft in the hills.

On February 26, 1664, Governor General Stuyvesant issued a patent to Cornelius Van Ruyven and one of the boundaries of the land was "The Path." This land has been located by experts of the Commissioner of Records in Kings County and "The Path" identified as the road that was known more recently as the Clove road.

On February 18, 1666, Thomas Lambertse secured a patent in which "The Carteway," "Pathway" or "Highway" was made a boundary. This has likewise been identified as the Clove road. While it may be argued that 1666 was two years after the surrender, it should also be borne in mind that land is not usually described as bounded by a highway, unless that highway is generally known and a highway or anything else does not become generally known until it has been in general use for some considerable period.

A further evidence that the road was then generally known and well travelled is furnished by what is perhaps the first liquor license ever issued to the Bedford section. Thomas Lambertse, who secured the patent referred to in the foregoing, desired to establish an "Ordinary" for the entertainment of man and beast, so he made application to the Governor, and on December 17, 1668, the following license was issued:

"License granted to Thomas Lamberts, of Bedford, to sell beer, wine and other liquors.

"Whereas, Thomas Lamberts, of Bedford, within the jurisdiction of Brooklyn, in the West Riding of Yorkshire, upon Long Island, is willing to undertake the keeping of an Ordinary for the accommodation of travellers and other persons passing that way, with diet and lodging and horse meals. I do hereby give him license to sell beer, wine or any other strong liquors for their relief. And for his further encouragement therein do think fit to order that no person living in said Village of Bedford have privilege to do so but himself. This license to continue for one year after the date hereof and no longer. Given under my hand at Fort James in New York, this 17th day of December, 1668."

FRANCIS LOVELACE.

The worthy Lamberts probably did not engage in business for the purpose of losing wampum, so his selection of a site at Bedford for the establishment of a road house indicated that there was considerable traffic passing through the settlement. As Flatbush was the principal town and centre of activity, the road leading thereto was likely to be a popular channel of travel and a road house situated at the junction where this important highway met others branching in various directions, was likely to prove a source of comfort to its patrons and profit to its promoter.

Other references to the road bearing date of very early times taken with the foregoing, leave no reasonable doubt that the Clove was a Dutch road. Portions of this old road south of Eastern Parkway still trace their way through open fields.

Respectfully submitted,

ROBERT JORDAN, Examiner.

From the Superintendent of Ferries—
1 (74813). Recommending that Charles H. Cottrell and John J. Halley, Attendants, be laid off for lack of work. Laid off, as recommended.

2 (74812). Recommending that Lawrence Maloney, Deckhand, be dismissed, he having been absent from duty without leave since November 4, 1907. Dismissed as recommended.

J. A. BENSEL, Commissioner.

New York, November 13, 1907.

The following communications were received, action being taken thereon as noted, to wit:

From the Legislative Index Publishing Company (74805)—Offering to furnish a daily service as to legislative bills during the coming session of the Legislature. Order issued to company to furnish the daily service, together with index, copies of bills, etc., for the sum of \$125.

From the Engineer-in-Chief—
1 (74786). Reporting that the steamer "North Star," of the Maine Steamship Company, on November 6, 1907, collided with the Department's Pile Driver No. 16, tied up at the westerly side of Pier 33, East River, and damaged said pile driver, and recommending that the company be advised in order that it may make a survey of the damage preparatory to repairs being made either by the force of the Department at the company's cost and expense or by the company itself. Company advised as recommended.

2 (74783). Reporting that the Continental Asphalt Paving Company is occupying more space between Piers 58 and 59, North River, than was allotted it under permit of March 15, 1907, and recommending that said company be notified to remove the material not confined to the area so allotted. Company notified as recommended.

Daniel Carver, Deckhand (74746) appeared before the Deputy Commissioner in answer to the charges preferred against him on November 6, 1907, and after a hearing was ordered reassigned to work.

The Municipal Civil Service Commission was requested to authorize the reassignment of William M. Fox, Dock Laborer, and of William Whelan, Dock Laborer.

J. A. BENSEL, Commissioner.

New York, November 14, 1907.

The following communications were received, action being taken thereon as noted, to wit:

From the Commissioners of the Sinking Fund (74807)—Transmitting certified copies of resolutions adopted November 13, 1907, approving of and consenting to the execution by the Commissioner of Docks of the following leases:

(a) Authorizing lease of 200 feet at the inner end of the north side of pier foot of West Forty-seventh street, North River, to the Bouker Contracting Company for dumping board purposes, for a term of five years commencing November 25, 1907, at a rental of \$1,575 per annum; the lessee to have the privilege of erecting a dumping board extending from a line parallel to and about 18 feet north of the north line of the pier to a line parallel to and about 18 feet south of the north line of the pier, and shall also have the privilege of erecting, on wharf property contiguous to the premises described, the necessary runways, ramps and approaches to the dump; plans and specifications for the dump, runways, ramps and approaches to be submitted to and approved by the Engineer-in-Chief, and any and all structures erected to revert to and become the property of The City of New York at the expiration or sooner termination of the lease; the remaining terms and conditions of the lease to be similar to those now in use by the Department.

(b) Authorizing lease of the south side of pier foot of Sixtieth street, East River, to the Bouker Contracting Company, for dumping board purposes, for a term of five years, beginning November 25, 1907, at a rental of \$3,550 per annum. The lessee to have the privilege of erecting a dumping board extending from a line parallel to and about 18 feet north of the south line of the pier to a line parallel to and about 18 feet south of the south line of the pier, and shall also have the privilege of erecting, on wharf property contiguous to the premises described, the necessary runways, ramps and approaches to the dump; plans and specifications for the dump, runways, ramps and approaches to be submitted to and approved by the Engineer-in-Chief and any and all structures erected to revert to and become the property of The City of New York at the expiration or sooner termination of the lease; the remaining terms and conditions of the lease to be similar to those now in use by the Department.

(c) Authorizing lease of Pier (new) 42, North River, as extended out to the pierhead line of 1897, together with bulkhead commencing at the southerly side of said pier, and extending southerly a distance of 94 feet, to the Royal Mail Steam Packet Line, for a term of ten years. The lease of the pier to begin five months after the date the pier is vacated by the French Line. The lease of the bulkhead will commence on the same day as does the lease of the pier, or as soon thereafter as the bulkhead shall be vacated by the present occupants, the New York and New Jersey Railroad Company, and the structures on the exterior street, inshore of the bulkhead, used in connection with tunnel work at that point, shall have been removed. The lease of the bulkhead is to be contemporaneous with the lease of the pier. The rental for the pier will be at the rate of \$57,000 per annum, and for the bulkhead \$3,000 per annum. The lessee shall have the privilege of two renewals of ten years each at advances of 10 per cent. on each renewal term. When the pier is vacated by the present lessee, this Department is to proceed at once with the work of repairing and extending the pier out to the pierhead line, and the new lessee shall have the privilege of erecting upon the pier as extended a double deck shed in accordance with plans and specifications to be submitted to and approved by the Commissioner of Docks. The lessee, after the removal of the structures from the bulkhead, shall also have the privilege of erecting a shed upon the upland, extending inshore a distance of 50 feet from the bulkhead line. The shed on the pier and on the bulkhead shall revert to and become the property of The City of New York at the expiration or sooner termination of the lease or renewal thereof; the remaining terms and conditions of the lease to be similar to those now in use by this Department.

Filed. Goodwin Brothers notified to vacate the south side of the East Sixtieth street pier before November 25, 1907, and Manhattan Harbor Improvement Company notified to vacate the northerly side of pier foot of West Forty-seventh street, North River.

From the Comptroller (74806)—Stating that on November 2, 1907, the sum of \$20,413.73 was deposited in the City Treasury to the credit of the Dock Fund, the principal amounting to \$20,000 and the premium to \$413.73, and that on November 4, 1907, there was deposited the sum of \$56,137.76, the principal amounting to \$55,000 and the premium to \$1,137.76. Filed.

From the Department of Public Charities (74818)—Stating that the matter of the building of a dock by this Department for the Department of Public Charities at the foot of Fifty-third street, East River, will be given consideration. Filed.

From the Department of Parks for the Boroughs of Brooklyn and Queens (74804)—Stating that Julia E. Kennedy, transferred from the position of Attendant in this Department to a similar position in the Department of Parks, reported for work on September 21, 1907. Name dropped from the list of employees of this Department.

From the Commissioner of Public Works for the Borough of Richmond (74795)—Submitting for approval plans of outlet sewers foot of Water street and at the foot of Canal street, Stapleton, Borough of Richmond. Answered that the plans are sufficient and satisfactory and are approved.

From the President of the Borough of Queens (74335)—Stating that the transfer of Patrick Gibbons from the position of Attendant in this Department to a similar position in his office became effective October 10, 1907. Name dropped from the list of employees of this Department.

From the Hartford and New York Transportation Company (74859)—Requesting permission to place a tar kettle in front of Pier (new) 19, East River, on the marginal street area, temporarily. Permit granted, the kettle to be placed under the supervision of the Engineer-in-Chief, any pavement disturbed or damaged to be repaired at the cost of the permittee.

From the American Floor Surfacing Machine Company (74749)—Requesting permission to string electric wires along the southerly side of the recreation pier foot of Fiftieth street, North River, in connection with the making of repairs to the steamer "Albany" thereat. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, the consent of the Department of Water Supply, Gas and Electricity to be obtained.

From the Engineer-in-Chief (74808)—Reporting that the work of furnishing and delivering about 2,000 tons of anthracite coal under Contract No. 1062 was completed on November 6, 1907, by Howard S. Bowns. Comptroller notified.

From the Superintendent of Docks (74670)—Recommending that the permit granted to D. Sweeney's Sons for the use of space 10 by 35 feet south of approach to pier foot of West Forty-eighth street, North River, be revoked as of January 31, 1907, rental having been paid for but one month, viz.: January, 1907. Permit revoked as recommended.

Charges of inattention to duty (74792) were preferred by John J. Herrick, Mechanical Engineer, against Edward Murtha, Dock Laborer, and Murtha was directed to appear for a hearing.

From the Comptroller (74789)—Transmitting copy of claim filed by Cornelius Herlihy for the sum of \$1,000, alleged to be due for personal injuries sustained on May 10, 1907, owing to his being struck by an automobile of this Department, and requesting information in relation thereto. Information furnished, with the statement that the accident was unavoidable on the part of the chauffeur.

From the Department of Water Supply, Gas and Electricity (74706)—Requesting to be advised as to whether this Department would permit the placing of a hydrant on the "L" of the oyster basin at the foot of Bloomfield street, North River. Advised that this Department cannot authorize the installation of the hydrant, the point in question being covered by a lease, and further that such action would be inadvisable, as the hydrant would cause the entrance to the basin to be blocked up.

From the Department of Bridges (74858)—Requesting the services of a Diver, Assistants, etc., for the purpose of inspecting the foundation of the west abutment of the Borden Avenue Bridge, Long Island City, Borough of Queens. Engineer-in-Chief of this Department directed to comply with the request and report the cost for collection.

From John F. Schmadeke (74860)—Requesting permission to remove the corner chocks and drive four piles at the bulkhead south of Third street, on the westerly side of Gowanus Canal, Brooklyn. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, and to be kept within existing lines.

From the Bradley Contracting Company (74835)—Requesting permission to dredge in front of dumping board foot of Stanton street, East River. Permit granted, the work to be done under the supervision of the Engineer-in-Chief.

From Joseph Moore, Contractor for the Bureau of Sewers (74800)—Requesting permission to construct an outlet sewer and overflows between Forty-second and Forty-third streets, North River; also a barrel sewer under the pier foot of Forty-third street, North River. Permit granted, the work to be done under the supervision of the Engineer-in-Chief, in accordance with plans submitted, the Department's lessee not to be hampered in the use of the pier and a portion of the marginal street adjacent thereto; also that any pavement disturbed will be relaid to the satisfaction of the Department at the permittee's expense.

From the Curtis-Blaisdell Company (74678)—Applying for use of berth on the north side of pier at Forty-ninth street, East River, for the purpose of unloading coal. Denied.

From H. B. Hollins & Co. (74837)—Submitting statement as to the status of the Brooklyn Ferry Company with reference to the sale of its property and the value of same. Corporation Counsel notified of the receipt of communication.

From John A. McKinley (74739)—Requesting that he be given pay while absent from duty owing to injuries received while in the performance of his duty as Dock-builder in the Department. McKinley ordered placed upon the payroll of the Department for a period of four weeks commencing October 5, 1907, and terminating November 1, 1907, at the rate of \$18 per week.

From the Deputy Commissioner (74868)—Submitting list of persons to whom were sold at public auction, the privilege of maintaining cab stands at the St. George terminal of the Staten Island ferry. In accordance with the Deputy Commissioner's communication, the following privileges were granted to commence December 1, 1907, and to continue during the pleasure of the Commissioner until April 30, 1908, compensation to be at the rates noted, payable monthly in advance to the Cashier:

- Stand No. 1. Charles Baeszler, \$2 per month.
- Stand No. 2. Matthew Kiernan, \$2 per month.
- Stand No. 3. William J. Fenley, \$2 per month.
- Stand No. 4. Thomas J. Fenley, \$2 per month.
- Stand No. 5. Charles Baeszler, \$3 per month.

From the Engineer-in-Chief—
1 (74840). Submitting report of work done under his charge and supervision for the quarter ending September 30, 1907. Filed.

2 (74785). Reporting that Joseph Semler, Dock Laborer, was injured while in the performance of his duty on October 26, 1907, and recommending that Semler be placed on the weekly payroll of the Department for a period of three weeks, at the rate of \$12 per week, commencing October 26, 1907, and terminating November 15, 1907, the rate to cease in the event of his reporting for duty at an earlier date. Approved.

In answer to its communication (74832), the Wynkoop, Hallenbeck, Crawford Company was notified that all proofs forwarded to this Department, in connection with Contract No. 1076, for printing annual report of 1906, and indexing for 1905, have been returned to the Company.

J. A. BENSEL, Commissioner.

Sanitary Bureau.

The following communications were received from the Sanitary Superintendent:

First—Weekly reports of the Sanitary Superintendent. Ordered on file.

Second—Weekly reports from the Willard Parker, Reception, Riverside and Kings-ton Avenue hospitals. Ordered on file.

Third—Certificates in respect to the vacation of premises at No. 145 Calyer street and No. 253 North Seventh street, Borough of Brooklyn.

On motion, the following preambles and resolutions were adopted:

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 145 Calyer street, in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 145 Calyer street, in the Borough of Brooklyn, be required to vacate said building on or before February 11, 1908, for the reason that said building is dangerous to life and is unfit for human habitation because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Whereas, The Sanitary Superintendent has certified to this Board that the building situated upon lot No. 253 North Seventh street, in the Borough of Brooklyn, has become dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises which is likely to cause sickness among its occupants.

Ordered, That all persons in said building situated on lot No. 253 North Seventh street, in the Borough of Brooklyn, be required to vacate said building on or before February 11, 1908, for the reason that said building is dangerous to life and is unfit for human habitation because of defects in the plumbing thereof, and because of the existence of a nuisance on the premises likely to cause sickness among its occupants.

And further, that this order be affixed conspicuously on the front of and in said building and be served as the law requires, under the direction of the Sanitary Superintendent.

Fourth—Report on compliance with certain orders to vacate premises, etc.

On motion, it was

Resolved, That the following orders be and are hereby rescinded, for the reason that the causes for the same have been removed:

Brooklyn Bridge.

The capacity of the bridge in connection with the elevated railroad and surface trolley car traffic has been increased under close supervision and improved schedules. Very material increases in capacity, as heretofore reported, were made in 1906, and this capacity has been further increased during the past year by about five per cent. in the number of people who are carried over the bridge in the trains or cars.

Spacing signals have been placed across the bridge on the surface car tracks. These afford not only improvement in the operation of the surface cars, but also better facilities for team traffic, and lessen the hindrances and delays due to blocking of trolley tracks by vehicular traffic.

Various construction is under way to further afford increased facilities for traffic on the bridge.

In order to maintain the operation of six-car elevated trains at all hours of the day at a maximum speed an efficient system of block signals is being installed on the bridge.

Construction is now under way of a steel viaduct in Brooklyn, which will allow all surface cars entering or leaving the bridge to pass above Sands street. The operation of cars over this viaduct will remedy the congestion existing at the Sands street entrance to the bridge, and will separate the car traffic from the vehicle traffic.

In anticipation of the connection of the elevated railway tracks on the bridge with the subway loop to the Williamsburg Bridge, which is now under construction in Manhattan, various matters are in progress with a view to the construction of a new station in Manhattan which will provide for the adequate necessities of all classes of traffic, and the roadways on the Manhattan approach are being widened in connection with this proposed improvement.

Municipal Office Building.

The space acquired by the City in Manhattan to the west of the Brooklyn Bridge station is available for the construction of a municipal office building, as authorized by statute. Invitations of competitive designs from architects have been issued in accordance with a programme duly approved by the Corporation Counsel. The competitive designs will be submitted to a jury of architects this coming spring.

Williamsburg Bridge.

The work of constructing the subway station at the Manhattan end of the bridge is drawing to a close, and work on several contracts to provide for the operation of elevated trains across the bridge and into this subway station is progressing at a fair rate of progress. These several contracts involve the alteration of the entire Manhattan steel viaduct and masonry approach and the construction of the elevated railway connection on the Brooklyn plaza. This latter connection is practically finished. A shelter house for the accommodation of railway passengers has been constructed on the Brooklyn plaza.

The trolley car service over the bridge has been increased about seven per cent. over last year. This service will be vastly improved upon the completion of the subway station in Manhattan, into which the surface cars crossing the bridge will also run. The subway station has been so constructed that it will be immediately available, upon the completion of the subway loop now being constructed in Manhattan, as a station on the said loop.

Manhattan Bridge.

The Brooklyn anchorage has reached that stage of construction where it is ready for the steel superstructure. The Manhattan anchorage is nearing this stage. The steel towers on both sides of the river are being rapidly erected.

The material required for steel is being cast and fabricated and considerable completed material, in addition to that already erected, has been shipped and is stored until available for erection. A contract was awarded to John C. Rodgers on December 13 for the construction of the Manhattan and Brooklyn approaches.

Blackwells Island Bridge.

The construction of the steel superstructure over Blackwells Island and the East River is rapidly nearing completion. The construction of the approaches on the Queens and Manhattan sides is being vigorously pushed.

Henry Hudson Memorial Bridge.

The general design for the proposed structure has been prepared, and on December 10, 1907, was approved by the Art Commission. The preparation of complete detailed drawings and specifications is under way. The plans provide for a masonry arch nearly two and one-half times larger than any masonry arch heretofore constructed. Provision is also made for a four-track subway connection across the Harlem River through the bridge structure.

Borough Bridges.

The borough bridges in maintenance have been operated, cleaned, painted and repaired by the usual forces in the employ of the Department for such purposes, with very little assistance from outside the Department except for repairs to pavements. The construction of the University Heights Bridge over the Harlem River is completed.

Over the Harlem River at Madison avenue a temporary bridge has been partly constructed, and this will be completed upon the removal of the present Madison avenue span from its present position to that of the temporary bridge this coming spring.

A contract for the construction of the new Madison Avenue Bridge has been awarded.

The construction of the new bridge over Pelham Bay Narrows, in the Borough of The Bronx, has progressed so that the steel required for the movable span is now being erected.

The construction of a new bridge across Dutch Kills at Borden avenue, in the Borough of Queens, continues.

No new bridge construction was undertaken in the Boroughs of Brooklyn and Richmond.

Respectfully,

J. W. STEVENSON, Commissioner of Bridges.

RAPID TRANSIT RAILWAYS.

Modification of Lexington Avenue Route; Modification of Gerard Avenue Route; Canal Street Route.

At the meeting of February 14, 1908, consideration of the communication dated February 5, 1908, from the Public Service Commission for the First District, transmitting resolutions adopted by that body modifying the routes and general plans of the proposed rapid transit railways along Lexington avenue, Gerard avenue and other streets in the Boroughs of Manhattan and The Bronx, and transmitting resolutions adopting route and general plans for a proposed rapid transit railway under and along Canal street, in the Borough of Manhattan, and requesting the approval and consent of this Board to the construction of rapid transit railways in accordance therewith, was postponed until this day, and the matter referred to a Select Committee.

The following appeared in favor:

Commissioner John E. Eustis, of Public Service Commission for the First District.

Thomas J. Curtis and Samuel Prince, representing the Central Federated Union.

The Comptroller, as Chairman of the Select Committee, reported to the Board that such Committee would hold a public hearing on the matter Monday, March 2, at 2 p. m., in the old Council Chamber, Room 16, City Hall, Borough of Manhattan, when all persons interested could appear and be heard.

The President of the Borough of Brooklyn offered the following resolution:

Resolved, That the Corporation Counsel be and he is hereby requested to advise this Board and also obtain from former Justice John F. Dillon his opinion, as to whether contracts for subway construction cannot be so drawn that the amount to be

charged against the debt limit will only be the amount required to be expended each year for such construction.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller moved that consideration be continued until March 13.

Which motion was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The President of the Borough of Brooklyn moved that this Board request the State Legislature to enact into law the pending concurrent resolutions amending the constitution of the State of New York so as to exempt dock and rapid transit bonds issued by The City of New York from the 10 per cent. debt limit of said City, as fixed and provided in the constitution.

Which motion was lost by the following vote:

Affirmative—President of the Borough of Brooklyn—2.

Negative—The Mayor—3.

Present and Not Voting—The Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, The Bronx, Queens and Richmond—11.

The following matter not on the calendar for this day was considered by unanimous consent:

UNITED DRESSED BEEF COMPANY OF NEW YORK.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment, New York City:

The United Dressed Beef Company of New York hereby applies to have the resolution of the Board of Estimate and Apportionment, adopted on October 18, 1907, and approved by the Mayor on October 22, 1907, giving consent to the United Dressed Beef Company of New York to construct, maintain and use a covered bridge over and across East Forty-fourth street, between First avenue and the East River, Borough of Manhattan, to connect its buildings on either side of said street, amended so that the said bridge may be constructed 71 feet instead of "75 feet east of the easterly line of First avenue." The company finds that in constructing the said bridge 75 feet east of the easterly line of First avenue it will be necessary to tear down and remove a brick pillar and partition, one of the main supports for the top floors of the company's building on the southerly side of the street, whereas in constructing the said bridge 71 feet east of the easterly line of First avenue the removal of the brick pillar and partition will be obviated.

The United Dressed Beef Company of New York only discovered this obstruction on commencing construction of the said bridge. Inasmuch as the United Dressed Beef Company of New York has been delayed by the necessity of making this application to your Board, it further requests that your Board consent that the time for the construction and completion of said bridge be extended from April 1, 1908, to May 1, 1908. An extension under certain circumstances is provided for under section 12 of your resolution adopted October 18, 1907.

Wherefore, the United Dressed Beef Company of New York requests such amendment of your resolution adopted on October 18, 1907, and such extension.

New York, February 26, 1908.

UNITED DRESSED BEEF COMPANY OF NEW YORK.

By WALTER BLUMENTHAL, President.

BOARD OF ESTIMATE AND APPORTIONMENT,
DIVISION OF FRANCHISES, ROOM 801, NO. 277 BROADWAY,
February 27, 1908.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The United Dressed Beef Company of New York has presented an application dated February 26, 1908, to the Board of Estimate and Apportionment requesting that the resolution adopted by the Board on October 18, 1907, and approved by the Mayor on October 22, 1907, granting permission to the applicant company to construct, maintain and use a covered bridge over and across East Forty-fourth street, between First avenue and the East River, in the Borough of Manhattan, connecting its buildings on opposite sides of said street, be amended so that the said bridge may be constructed 71 feet instead of 75 feet east of the easterly line of First avenue; and the application further requests an extension of time for the completion of said bridge for the period of one month.

The petition recites that the change in location is desired in order to obviate the necessity of moving one of the main supports of the building on the southerly side of East Forty-fourth street, and that the extension of time has been made necessary by the proposed change of location and the procedure incidental thereto.

All of the property between First avenue and the proposed bridge is occupied by the applicant company, and there appears to be no reason why the application should not be granted. I would therefore recommend that the resolution granting the consent be amended to provide for the construction of the bridge 71 feet east of the easterly line of First avenue instead of 75 feet east of said line, and for an extension of the time for the completion of said bridge from April 1, 1908, as required in the existing consent, to May 1, 1908.

I submit herewith a form of resolution in accordance with the above recommendation.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment October 18, 1907, approved by the Mayor October 22, 1907, the United Dressed Beef Company of New York was granted permission to construct, maintain and use a covered bridge over and across East Forty-fourth street, between First avenue and the East River, Borough of Manhattan, to connect the buildings of the company on opposite sides of said street and to be used as a passageway and for the conveyance of beef between said buildings; and

Whereas, The aforesaid consent required the construction of the aforesaid bridge at a point 75 feet east of the easterly line of First avenue, in accordance with the plans filed by the grantee; and

Whereas, The United Dressed Beef Company of New York, in a petition dated February 26, 1908, states the construction of said bridge at said point would involve the razing and reconstruction of a brick pillar and partition wall, and requests that the plan be amended so as to provide for the construction of said bridge at a point 71 feet east of the easterly line of First avenue, instead of at a point 75 feet east of such line, and as the company has been delayed in prosecuting its work it requests an extension of time for the completion of construction of said bridge to May 1, 1908; now therefore be it

Resolved, That the plan entitled "Plan showing location of proposed viaduct to be constructed at East Forty-fourth street, Borough of Manhattan, to accompany application of United Dressed Beef Company of New York to the Board of Estimate and Apportionment of The City of New York, September 12, 1907. United Dressed Beef Company of New York, by Walter Blumenthal, President," which is annexed to and made a part of the resolution granting the consent, be and it is hereby amended so

as to show said bridge at a point 71 feet east of the easterly line of First avenue, instead of 75 feet east of said street; and be it further

Resolved, That paragraph 12 of the consent be and it is hereby amended by striking therefrom the words "April 1, 1908," and inserting in lieu thereof the words "May 1, 1908"; and be it further

Resolved, That this consent shall not become operative until said grantee shall duly execute an instrument in writing wherein said grantee shall promise, covenant and agree on its part to conform to, abide by and perform all the terms, conditions and requirements in the original consent fixed and contained, except as herein and hereby expressly modified, and file the same with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The full minutes of the meeting of this day will appear in the CITY RECORD at a later date.

JOSEPH HAAG, Secretary.

DEPARTMENT OF PARKS.

COMMISSIONER'S REPORT OF THE WORK OF THE DEPARTMENT OF PARKS, BOROUGH OF THE BRONX, FOR THE YEAR 1907.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall, New York City:

Sir—I have the honor to send you herewith, in compliance with the provisions of the Charter, a report of the designs for improvement, work accomplished and finances of the Department of Parks, Borough of The Bronx, for the year ending December 31, 1907.

Very respectfully yours,

JOSEPH I. BERRY,

Commissioner of Parks, Borough of The Bronx.

REPORT OF THE COMMISSIONER OF PARKS FOR THE BOROUGH OF THE BRONX, 1907.

A large amount of work was done during the year in the general maintenance and improvement of the parks. Roads and paths were cleaned, repaired and edged; gutters cleaned and repaved, catch basins and drains cleaned, washouts repaired and lawns fertilized, sprinkled and mowed. New tennis courts, baseball diamonds and football fields were laid out in a number of the parks, and all the existing courts, fields, etc., kept in good condition, marked, etc.

The special work accomplished in each park and parkway is given in the following details:

Pelham Bay Park.

(Area, 1,756 Acres.)

Athletes' Lodge—The Athletes' Lodge on the athletic grounds, which was begun under contract during the latter part of the year 1906, was completed early in 1907, and has been in use for several months. This is a handsome and artistic building, and has been well patronized by the public during the summer and fall.

Drainage—Considerable work has been done in draining swamp lands in this park during the year, the work being done by park labor. A number of mosquito-breeding pond holes north of the Steeplechase Course and west of the Athletic Field have been drained. The work of draining the mosquito ponds south of Waterbury lane was completed during the early summer, so far as the excavation and fill were concerned. The vitrified tile pipe to be laid in these trenches was furnished under contract, and part of it laid, when the work was stopped by order of the Department of Finance. Two hundred feet of 6-inch vitrified drain pipe was laid from the Athletes' Lodge to the west side of Waterbury Lane road, and the same filled in. The work of prosecuting the drainage of the lowlands near the Athletic Field was continued during the summer. About nine hundred feet of trenches had been dug and part of the drain pipes laid and covered with brush. All the necessary drain pipe had been delivered on the ground by contract when the work was discontinued on account of financial troubles.

Water Main—A 12-inch water main was laid by the Department of Water Supply, Gas and Electricity from the Prospect Hill road to the eastern boundary of the park, which will be a very great convenience to this Department for use in sprinkling and otherwise keeping the roads in good condition.

Shelter Pavilion—Plans were prepared for a shelter shed at Orchard Beach, and the lumber for same was delivered under contract, which lumber was nearly all framed and prepared for erection, and part of the frame work was erected by park labor, when the work was discontinued by request of the Department of Finance. This work should be resumed as soon as possible and the building made ready for use in the early spring, as the need of a shelter house at this place is urgent.

Road System—At a point near the Hunter Island Inn an abrupt turn in the Eastern boulevard rendered traffic, especially that of automobiles, very dangerous, and necessitated a material widening at that place. This has been accomplished, including a substantial retaining wall and substantial stone parapet, rendering traffic at this point safe.

Owing to the tremendous amount of automobile traffic on the Eastern boulevard the road deteriorates rapidly, and it was found necessary to practically rebuild a portion of this road from the westerly line of the park to a point one thousand feet east of Prospect Hill road. The stone and screenings were furnished by contract, and the work was done by park labor.

The roads on Hunter and Twin islands were reconstructed and put in first-class shape. These are earth roads and require frequent repairs to keep them in good condition.

The bend on the west side of the Shore road, near Hunter Island Bridge, was filled in for a distance of three hundred feet to a width of twenty feet and graded.

A new roadway thirty feet wide, bordered on one side by a pathway eighteen feet wide, to run at present from White Plains road to the Iron Bridge, was begun during the summer, and work was in full progress on the same when all operations were stopped.

Stone was removed from fields on the west side of Eastchester road, south of Pelham Bridge, widening the road 25 feet for a length of 400 feet; and about 1,000 yards of stone were removed from fields and dropped in the swamp lands on the east side of Pelham road, north of the entrance to Hunter Island, widening the road at this point about 40 feet.

The work of six-tracking the New York, New Haven and Hartford Railroad through this park and across the Bronx and Pelham parkway has been under the inspection of the Department of Parks, so far as it has affected park lands; and plans submitted by the railroad people have been carefully considered, and in many instances revised by the engineering force in this office.

Bridges—Bridges, three for overhead and one for undergrade crossings, are being built by the railroad people at four different points in this park—one at Baychester Station, one at Bartow Station, one at Prospect Hill road and one near the northerly boundary of the park. The abutments are all completed and about half of some of the approaches have been finished.

Minor Improvements—During the year lots were staked out at Orchard Beach for about 250 tents, and about 300 camping permits were issued during the season. These camping sites are in great demand, but for sanitary reasons only a limited number can be accommodated.

The road running parallel with Orchard Beach, which was in some places dangerous for vehicles, was protected on the shore side by the erection of a sub-

stantial rustic railing for about one-half mile of its length. The beach was cleaned, enlarged and put into first-class condition for the use of bathers.

Van Cortlandt Park.

(Area, 1,132.35 Acres.)

Comfort Station—The erection of the comfort station on the easterly side of the parade ground in this park, which was begun in 1906, under contract, was completed during the fall of 1907. The building is a handsome one and is an important feature in this part of the park.

Bridle Paths—During the year about four miles of bridle paths, with native soil surface, have been completed, the work being done by park labor; and this path system, which is located in the most picturesque parts of the park, has become very popular with visitors.

Sidewalks and Paths—About two miles of sidewalks and paths have been laid by park labor between Jerome and Mount Vernon avenues and along Gun Hill road in this park. The construction of those between Jerome and Mount Vernon avenues has opened to the public a large section of park lands that have heretofore been very little used.

A new walk was built from the junction of Two Hundred and Thirty-seventh street with Mount Vernon avenue to Two Hundred and Thirty-ninth street, graded and leveled.

A walk was also built from Mount Vernon avenue to Jerome avenue, a distance of about 1,000 feet, and the ground was raised to proper level by placing about 600 yards of fill. Culverts were placed at the lowest points of the road and the walk was surfaced with screenings.

Drainage, etc.—Plans and specifications were prepared for an 8-foot brick culvert to conduct the waters of Tibbett's Brook from Van Cortlandt Lake to the twin sewers on Broadway. The work was advertised and bids received, but the lowest bid exceeded the amount of funds available; hence the contract could not be let.

Funds were appropriated for the drainage of lands east of Jerome avenue, but the work which it was intended to do this winter will not be commenced unless financial conditions improve.

Bridge—Plans were prepared and submitted to the New York Central and Hudson River Railroad Company for an ornamental bridge to take the place of the trestle which crosses the road leading from the north end of the parade ground to the old deer paddock, but no action has as yet been taken by the railroad company. It is very desirable that the proposed improvement be made, and a structure more in keeping with the park surroundings erected.

Survey of Park—The topographical survey of portions of this park, which was begun by the engineering force in the year 1906, has been prosecuted from time to time during the past year, at such times as a party could be spared from other work. This is the only one of our large parks that has not been topographically surveyed, and it should be completed as speedily as possible.

Road System—The road leading from the railroad station to and along the easterly side of the parade ground and through the old deer paddock has been resurfaced during the year; in fact, has been practically rebuilt, including new stone gutters along all portions of the heavy grades. The lack of guttering was, to a certain extent, responsible for the bad condition of portions of this road, as well as that of the Rockwood drive, leading from Mosholu avenue to the northerly boundary of the city. This latter road was also badly torn up by automobiles, and it was found necessary to practically rebuild it. This was done, the road being treated with a surface of trap rock and screenings for its entire length. The gutters were also completed, and it is now in excellent condition.

All of the northerly and part of the southerly side of Gun Hill road was terraced, from the end of Mosholu parkway to its junction with Grand avenue, and a walk 10 feet wide was constructed from the head of Gun Hill road, at its junction with Mosholu parkway, to Grand avenue, near Van Cortlandt Lake. This is a most decided improvement, as heretofore pedestrians were obliged to use the carriageway between the points named.

Van Cortlandt avenue at the railroad station was widened to a width of 30 feet for a distance of about 350 feet, and macadamized, and the gutters were relaid and the banks sodded. Considerable grading and filling in was done near the railroad station also, all work being done by park labor.

The location and grade of the highway at Van Cortlandt station were changed and materially widened, to conform to the underground crossing built by the railroad company, which renders the crossing much safer than heretofore. Where this road was widened out the sides were terraced and sodded or seeded, adding very much to the appearance of the park in the vicinity of the railroad station.

A sidewalk 10 feet wide was constructed on Gun Hill road for the entire length of the road. Three catch basins with iron gratings were constructed, 6-inch vitrified pipe conduits being furnished, leading into the stone drain. Near the junction of this road with Mosholu parkway the bank on one side of the road was terraced, sloped and covered with top soil; gutters were repaired and some 300 linear feet of pavement was constructed.

A new road was begun from Grand avenue to the Yonkers city line through this park and was finished from Mosholu avenue to beyond Grand avenue. This road skirts the golf links, and, as far as finished, has been covered with trap rock and screenings, and a 5-foot sidewalk has been built along part of it.

The roads leading from Mosholu avenue to the old buffalo stable, and from the stable up the hill, also from this point to the railroad station, were in a very bad condition, being all turned up by automobiles. These roads have been repaired and resurfaced with trap rock and screenings, also rolled with the steam road roller, the repair work extending for more than a mile of road.

Near Gun Hill road, and running parallel with it, from Mosholu parkway to Grand avenue, a new path has been constructed, about 800 feet long and 8 feet wide, which necessitated the building of a dry wall about 150 feet long and from 2 to 6 feet high, to sustain the pathway. About half of this pathway has been surfaced with screenings.

Gutters—On Gun Hill road, Van Cortlandt avenue and at the railroad station the gutters were repaired wherever necessary, and about 1,500 feet of new gutters have been laid in the park at various points.

Grading, Filling In, Etc.—Considerable grading and filling in has been done in this park during the past year. The bank on the west side of Van Cortlandt avenue, near the railroad bridge, was graded, 210 yards of fill having been removed.

At the junction of Vault Hill road and Van Cortlandt avenue the road was widened by removing about 410 yards of fill, and a macadam surface was placed on same; the bank up from the road was terraced also.

About 500 feet of the bank on the north side of Gun Hill road was terraced. The lawn at the junction of Gun Hill road and Grand avenue was graded and laid out.

The east side of Broadway in this park was graded, the surplus soil being removed from same to the west side of the railroad tracks at the south end of the lake, filling in the low lands at that point and grading the same.

The banks on Van Cortlandt avenue, at the Van Cortlandt station, were graded, about 1,200 truckloads of stone being removed and hauled to fill the cut on the south side of Mosholu parkway, near Webster avenue.

Around the comfort house in the parade grounds considerable grading and filling in was done; also sodding and resurfacing where necessary.

Nursery, Planting, Etc.—An addition was made to the old nursery in this park, by the resurfacing and regrading of a field north of Two Hundred and Forty-second street and south of the old nursery, which will give an additional capacity of ten more acres to the nursery.

About 10,000 cuttings were propagated and set out in beds, to be transplanted in the various parks as required.

About 8,000 seedlings were planted in the seed beds.

About 7,000 shrubs and 300 trees were supplied from this nursery to other parks during the year.

Flower beds were planted and cultivated around the Colonial Gardens and the golf house, and the plantation along the railroad tracks was cultivated and kept in good condition during the year. Dead and diseased plants were removed from the Colonial Gardens and replaced with new ones from the greenhouses in Bronx Park. The fountains were cleaned and kept supplied with fresh running water during the summer and fall, also planted with aquatic plants.

Golf Links, Tennis Courts, Etc.—Excellent work was done at the golf links and tennis courts during the past year. The severe winter and rainy spring were very de-

structive to the links, and considerable work was necessary in order to put them in good condition for the summer. Many of the putting greens were remodeled; all of the tees were rebuilt and put in first-class condition for the season. The golf house was kept cleaned and heated during the colder weather; the interior was repaired and varnished, and shower baths and plumbing were overhauled and repaired. Men were assigned to watch the links and distribute tickets regulating the games. The management of the links and golf house has been most excellent, and has been greatly appreciated by the vast number of golfers; in fact, the general comment has been that the links have never been kept in better condition than during the past year.

The lake was kept cleaned of snow during the winter months and the ice planed, allowing for thirty days of skating, the daily average attendance being about 5,000. The skate house and pathways surrounding it were kept in excellent condition. During the fall and winter the lake has been kept clear from all rubbish and everything has been put in readiness for the coming skating season.

At Indian Field a new baseball diamond was laid out, and a new earth road 15 feet wide made, leading from Jerome avenue to the diamond. Additional diamonds were laid out in other parts of the park also, to be in readiness for the next season, as the present number of diamonds is entirely inadequate to meet the greatly increasing demand for permits during the summer.

Bronx Park.

(Area, 719.12 Acres, of which 261 Acres are included in the Zoological Park and 250 Acres in the Botanical Garden.)

Music Stand—A fine new music stand, designed in this office, was constructed, by park labor, in Bronx Park, south of the road leading to the Lorillard Snuff Mill, to take the place of the old and dilapidated stand which was on the same site. This is a decided improvement, the old stand having been an eyesore for several years, and, from its conspicuous location, a blot on the beauty of the park in this locality.

Bridge Over the Gorge—Plans and specifications have been prepared for a reinforced concrete footbridge over the gorge below the falls, near the Lorillard Mansion. The plans have received the approval of the Municipal Art Commission; the specifications are now in the hands of the printer, and the contract will be awarded as soon as they are ready.

Greenhouse, Nurseries, Etc.—In the nurseries the herbaceous gardens were cleaned, cultivated and watered frequently during the summer, and mulched with manure during the winter. Over 10,000 herbaceous plants were distributed among the various parks of the Borough during the year.

All roads and walks in the gardens were hoed, raked and edged and resurfaced with screenings and fine gravel. All of the frames and sashes of both hot and cold beds were repaired; old soil was removed and fresh soil put in its place.

In the greenhouses the routine work was carried on on a much larger scale than during previous years. At Easter one house was used as a showhouse, azaleas, lilies, roses, hyacinths, tulips, narcissii and a variety of shrubs being forced to bloom, making a very handsome display.

During the summer all of the houses were emptied and thoroughly cleaned, painted, whitewashed and fumigated. Over 60,000 bedding plants were propagated and cared for, potted and shipped to the various parks, to be planted out in beds. Over 40,000 pansies were grown from seed, transplanted and shipped to the various parks in the Borough, to be planted in beds. Over 10,000 cannas and dahlias were cleaned, labeled, grown and shipped to the various parks for planting. About 200 hot and cold frames were cared for, cleaned and filled with fresh mold and used for storing and forcing thousands of budding herbaceous and pansy plants.

An unusually fine chrysanthemum exhibit was open to the public during the fall. Two houses were prepared for chrysanthemums, and about 5,000 plants were grown and flowered, forty different varieties being used, making a very handsome display, which was greatly appreciated by the large number of visitors enjoying them.

Work Shops—An unusual amount of construction and repair work was done in The Bronx shops during the past year. About 40,000 linear feet of rustic fencing was built for the various parks, including the cutting and trimming of trees for the same. Eight large watering troughs for horses were built in Van Cortlandt Park. The bath houses at the Athletic Field and Orchard Beach, in Pelham Bay Park, were all repaired and cleaned. Chimneys were rebuilt in the Colonial Mansion in Van Cortlandt Park and the Turnbull Mansion in Pelham Bay Park. About 10,000 linear feet of iron railing was painted; various mansions, comfort buildings, music pavilions, etc., were painted; also signs lettered and painted. Repairs were made on bridges, rustic benches and seats, settees, drinking fountains, carts, sprinklers, delivery wagons, buggies, road rollers, mowing machines, etc., and all necessary emergency work was attended to as usual.

General Improvement—The roads and walks in this park were all repaired during the year.

A row of fine elm trees was planted along the Southern boulevard, from Pelham parkway to the southerly entrance to the Botanical Garden.

The drainage of lands east of the Bronx River was finished during the past year, thus getting rid of several mosquito breeding pools.

The lake was cleared of snow during the winter months, allowing for thirty-six days of good skating, the average daily attendance being about 2,000.

Zoological Park in Bronx Park.

The improvement and construction work in the Zoological Park was vigorously pushed, and progressed rapidly and satisfactorily during the early part of the year; and, prior to the recent financial crisis, it had been the confident expectation of the Zoological Society that, by the end of 1909, the development of the Zoological Park would have reached a point where this institution could be pronounced practically complete. The unfortunate conditions now existing, however, seem calculated to delay considerably the progress and consummation hoped for.

Concourse and Approaches—The concourse and approaches from Pelham avenue to Baird court are almost completed, and should be finished early in the coming year. The sidewalks on Pelham avenue in front of the concourse entrance are nearly completed.

Granolithic Sidewalks, Baird Court—During the summer plans and specifications were prepared and printed for the construction of granolithic and brick sidewalks, including granite curbing, on the concourse and approaches to Baird court; the work was advertised, but not let, owing to financial conditions.

Concourse Entrance—A handsome entrance into the Zoological Park from Pelham avenue, near the bridge over the Bronx River, has been constructed by contract, during the year. The work is almost completed, and this entrance will be an important and much needed improvement in the park, as, up to the present time, it has been impossible for vehicles to enter the park grounds, there being no entrance gate through which carriages or automobiles could pass.

Elephant House—During the early part of the year a contract was awarded for the erection of an elephant house in the Zoological Park. The work has been very vigorously and conscientiously pushed to completion by the contractors, F. T. Nesbit & Co., and the early spring of 1908 will probably witness the completion of the building, which bids fair to become one of the best and most mechanically perfect structures in the Zoological Park.

Plans and specifications were prepared for the erection of boundary and partition fences for the yards surrounding the elephant house, but the specifications have not as yet been printed, owing to the financial condition.

Administration Building—Plans and specifications were also prepared for the erection of a building to be used as an office building for the administration of the affairs of the Zoological Society. The Board of Estimate and Apportionment has appropriated the necessary funds for this building, but the matter has been held in abeyance by the Comptroller, owing to the financial stringency.

Electric Wiring and Underground Cables—The work of placing underground cables, electric wiring, etc., in the Zoological Park, to connect the different buildings, which contract was begun in 1905, was completed during the past year.

New Buildings—During the early part of the year the Boat House and Deer House, both of which were begun under contract in 1906, were completed, and have been in use for some months.

Southeast Entrance Gate—The southeast entrance gate to the Zoological Park, at Boston road and One Hundred and Eighty-second street, contract for which was awarded in 1905, was completed during the latter part of the year, and final payment for same will be rendered early in 1908.

Soda Pavilion—A contract has been awarded for the erection of a soda pavilion near the west approach to Baird court. The excavation and masonry have been completed; the frame of the building has been erected; and the work should be finished about April 1, 1908.

Public Comfort Station—The public comfort station which is being erected, under contract, near Boston road and One Hundred and Eighty-second street, is nearly completed, and will probably be ready for occupancy about February 1, 1908.

Widening Boston Road—The work of widening this road from 20 to 30 feet, between One Hundred and Eighty-second street and the Bronx River Bridge, was completed during the year by park labor. About 1,100 feet was excavated for a width of 10 feet; the gully on the side of the road was filled in; and a retaining wall 100 feet long was built. The road was surfaced with trap rock and screenings from One Hundred and Eighty-second street to the Bronx River Bridge.

Other Improvements—Other improvements completed during the year consisted of the construction of the Plaza at the Boston road entrance, the completion of the West Farms block, the remodeling of the elk corrals, mountain goat corrals, and other enclosures for North American deer, and the construction of a new walk leading from the north end of the primates' house, southward past the side of the elephant enclosures, to connect on the service road with the walk leading to the small mammal house.

Living Animals—The collections of living animals on hand on December 31, 1907, showed for the year a marked increase over the number on hand at the end of 1906. The summary is as follows:

	Species.	Specimens.
Mammals	188	607
Birds	543	2,530
Reptiles and amphibians.....	134	897
Total	865	4,034

The death rate for the year was very low, and only two important animals were lost by death.

The most notable addition of the year consisted of an Indian rhinoceros, secured in May, of Carl Hagenbeck, at a cost of \$6,000. The specimen was then about a year and a half old. Unfortunately, the sight of one eye was defective, but, with this exception, the animal has remained in excellent health and has grown satisfactorily. It bids fair to make a satisfactory representative of this important species, specimens of which are very rarely seen in captivity.

The bison herd increased during the year by the birth of twelve calves, two of which, however, were born on the Wichita Forest Reserve, in the new bison range which has been stocked by the Zoological Society. This represents a very high percentage of births for the fourteen female bison on hand on January 1, 1907. With but one exception, these young animals are living and doing well.

On October 10, in accordance with the offer of the Society to the Government, fifteen bison were selected from our herd and shipped to the new range that has been made by the National Government on the Wichita Reserve. The shipment was accompanied by Mr. H. R. Mitchell and Mr. Sanborn, and the animals arrived in excellent condition. The Wells Fargo Express Company, the American Express Company and the New York Central and Hudson River Railroad Company furnished free transportation for the two cars of bison and their attendants from New York to Cache. The Forestry Bureau of the National Government erected corrals, sheds, etc., in accordance with plans furnished by the Zoological Society, and every effort is being put forth to care for the bison in a skillful and proper manner.

Attendance—The registered attendance of visitors to the enclosed grounds of the Zoological Park, during the year 1907, was 1,273,046.

Lectures—At the request of the Bronx Borough Teachers Association, representing the Board of Education, the officers of the Zoological Park fitted up the shelter pavilion with the necessary appliances for lectures, and three courses of lectures were delivered to the pupils of thirty-five of the public schools of Bronx Borough. At each lecture the auditorium was filled to its full seating capacity. A request was received from the Board of Education that the facilities be so increased that the pupils of the schools of Manhattan Borough may be enabled to attend the lectures and demonstrations in the Zoological Park. It is undoubtedly desirable that this request be met at as early a date as possible, by the erection of a plain and inexpensive lecture pavilion of a permanent character.

Planting Operations—During the year 1907 the most important planting operations were the initial planting of the West Farm Block and around the Boat House; the completion of the planting at the Boston road entrance; and the planting of the Italian Garden at the north end of Baird court. Of all the ornamental planting in the park, the Italian Garden is the most important and conspicuous. It consists chiefly of ornamental evergreens banked against tall red cedars of varying heights, four groups of which surround an interior of flowers and box hedges. The effect as a whole has been found very pleasing to the public.

Botanical Garden in Bronx Park.

Considerable progress has been made in the development of all departments of the Botanical Garden during the past year. A large amount of additional construction work has been accomplished, which consists mainly of the following:

Rubble Stone Foot Bridge—A handsome rustic rubble stone boulder foot bridge has been erected, under contract, at the site of the old Blue Bridge, in the Botanical Garden. This is a great improvement on the old bridge, as it not only provides a unique permanent bridge, which is a most attractive feature in the garden, but it has also cleared the ground of boulders. These were culled from old stone walls in several parts of the garden. The path approach to the western end of this bridge had been previously built, and a temporary path approach to its eastern end has been made.

Greenhouses, Boiler House and Steam Trench—Early in the spring contracts were let for the construction of a range of greenhouses, a boiler house and a steam trench in the Botanical Garden. The boiler house and steam trench are nearly completed; and the masonry of the foundations of six of the range of greenhouses is about one-half completed. These greenhouses will supply a much-needed relief to the crowded condition of the first range of public conservatories, and, as soon as they have been completed, the necessary grading in the vicinity can be taken up. The driveway and path approaches to these buildings have been partially built, and a water main has been laid for their supply.

Museum Buildings—During the summer a contract was let for the erection of sixty-three new museum cases for the Museum Building, as the capacity was entirely inadequate for the largely increased numbers of specimens. These cases have been completed, and final payment for the same will be rendered early in 1908.

The general plan of work in this Department has been the same as in preceding years, looking toward the more complete and satisfactory illustration of the various groups of objects, by the addition of fruits, seeds, barks, wood and other products, and of photographs and other illustrations. Continued attention has been given also to the labeling of the collections. The addition of six large floor cases, on the above contract, in the basement of the museum hall, permits the display of a large number of additional specimens of fossil plants which have been held in storage, and this installation is now in progress.

Comfort Station—Plans and specifications were prepared for the erection of a comfort building in the Botanical Garden. The work was advertised, and bids were received, but the contract will not be let at present, owing to financial conditions.

Road System—The river road extending from the east end of the Long Bridge northwardly along the east side of the Bronx River to the Newell avenue entrance, on which work has been prosecuted at intervals for several years, was completed and thrown open for use in November, completing the driveway system in the northeastern part of the grounds. This road has a total length of a little over 2,000 feet, and forms a noteworthy addition to the driveway system.

The main driveway at the Lake Bridge, which had been unfinished since the completion of that structure two years ago, was paved and surfaced during the autumn, thus completing the main north and south driveway through the western part of the grounds.

The road leading from the main driveway, near the Bleecker street entrance, on the east side of the grounds, to the new public conservatories now under construction, was graded and nearly all the telford foundation laid during the year; its completion requires trap rock and screenings. These were advertised for, but the contract was not let, on account of the financial conditions.

A beginning was made in grading the portion of the main driveway still to be constructed, from a point near the Bleecker street entrance to the southeastern corner of the grounds, in accordance with the original plan, and stone for the telford foundation of a part of this road is being assembled during the winter, taken from the quarry behind the museum building. This is now the only remaining portion of the driveway system to be built, a total length of about 1,800 feet.

Path System—The construction of the path system has been continued at a number of different points, and much progress has been made. The paths about the lakes north and east of the museum building, and those on the fruticetum plain, partially built in preceding years, were completed. The paths leading from the museum building and the herbaceous grounds, through the economic garden and adjoining areas, were completely built. The path leading from the herbaceous garden southward through the woods to the Bronx Park entrance, partially constructed in previous years, was also completed. A commencement was made in the construction of paths leading from the Long Bridge eastwardly toward the new public conservatories, and in those leading from the fruticetum northwardly through the north meadows to the upper driveway bridge.

The total length of paths built and completed during the year is about 8,000 feet.

All the previously constructed driveways and paths that needed resurfacing were covered with a layer of trap rock and screenings during the autumn, and thoroughly rolled, the entire driveway and path system, so far as constructed, being now in excellent condition, excepting at a few points where slight repairs and small amounts of additional construction are necessary.

It is very desirable that the work of path building be continued during the coming year, in the eastern part of the Botanical Garden, in order to connect the new public conservatories with the bridges over the Bronx river.

Grading—Continued progress has been made during the year in excavating earth and rock at the rear of the museum building, all the excavated material having been used for filling in at various parts of the grounds, or for the telford foundation of driveways and paths, and the work has been progressing during the winter. Much still remains to be done at this point in order to establish the grades called for in the general plan; but, inasmuch as all the earth and rock are needed for filling or for road and path building, double work is being accomplished. It is estimated that enough rock and earth to nearly or quite complete the road and path system remains. It will be possible in the spring to bring nearly an acre of the area behind the museum building to finished lawn.

The filling in and grading required at both ends of the Lake Bridge and at both ends of the Long Bridge was completed during the season. Considerable progress has been made in filling in low places in the north meadows, while building paths in that part of the grounds.

Much additional grading was done along the river road and along the road leading to the new public conservatories.

In the herbaceous grounds the sides of the brook, which runs north and south through the middle of the valley, were regraded, and the brook edges were stoned up, greatly improving the valley. The top soil needed for these grading operations was all obtained by carefully stripping and saving it from the lines of paths and roads.

Drainage—Accompanying the construction of roads and paths additional catch basins with drain pipe connections have been constructed, and the system of grass gutters along the driveways has been continued. The overflow from the bronze fountain in front of the museum building, which was temporarily discharged into one of the sewers and thus wasted was turned into the drain system which empties into the upper lake by means of a drain pipe connection about 400 feet long under the lawn south of the museum building; this waste water has kept the upper lake at overflow throughout the season, although the fountain has been played only about ten hours a day.

During grading work in the herbaceous gardens and in the establishment of the aquatic system in the economic garden, several hundred feet of tile drain were used, much improving the drainage of that valley.

At the power house of the new conservatories, a 12-inch vitrified tile drain was laid for a distance of about 150 feet, passing under the floor of that building; as the construction work proceeds at this point, much additional drain pipe will have to be laid, inasmuch as the excavations for the cellars both of the power house and of three of the green houses have shown the existence of springs.

Boundary Fences—A contract was awarded in October for a boundary wall and fence along the property line of Fordham University, extending from the elevated railway station on the west to the Southern boulevard entrance on the east, a distance of about 2,000 feet. Nothing has as yet been done on this contract, as all construction work was stopped by order of the Comptroller.

Plants and Planting—Planting was carried on at various parts of the Botanical Garden during the spring and fall, the Society taking advantage of the large amount of additional land prepared for planting during the past two years. This work included the completion of the west border along the New York Central and Hudson River Railroad, which was broken by the construction of the approaches to the Moshulu parkway and to the Woodlawn road, and the filling in of the gap near the west end of the upper lake; the completion of the planting of the economic garden in the glade southwest of the museum building; the planting of flower gardens in the rectangular plots at the north side of the first range of public conservatories, and increasing the systematic collections in the herbaceous grounds, the fruticetum, the pinetum and the arboretum, together with the establishment of decorative groups of shrubs at several points.

Educational Work, etc.—The labelling of collections has been brought to a very efficient stage, and the educational work of the institution has been expanded. The use of the library by students and visitors is increasing, as the collection becomes more complete; 592 volumes were added during the year, the total number of volumes being now 20,458.

The laboratories have been used by many students pursuing special investigations during the year.

The public lectures delivered at the museum building on Saturday afternoons during spring and autumn have been continued to appreciative audiences. Consideration has been given to the desirability of extending these lectures into the summer, but this has not been attempted as yet. It does not seem probable that audiences could be assembled for such lectures during the winter months, but a course of summer lectures might prove desirable.

The lectures and demonstrations to children and teachers of the public schools, in connection with their nature studies, were continued during the spring, from April 19 to June 4, in co-operation with the Principals and District Superintendents of the Borough of The Bronx, and of the upper school districts of Manhattan.

Crotona Park.

(Area, 154.6 Acres.)

Improvement of Grounds North of Municipal Building—Plans and specifications were prepared for the improvement of this park north of the Municipal Building for a distance of 300 feet from Third avenue. This improvement includes the widening of the sidewalk by blasting away the rocks from the bank and the building of a low wall, and a flight of steps from One Hundred and Seventy-seventh street up to the Municipal Building. The contract was awarded to A. L. Guidone in August; about half of the excavation is completed and about half of the wall built, excepting the coping. The work should be completed about June 1 of the following year.

Wall—A 375-foot wall with coping was built around a small pond near the lake and the pond was deepened and enlarged, and paths were built around the same, all work being done by park labor. About 340 feet of stone wall was also built around the grand stand in the north end of the park.

Walks, Paths, etc.—About 2,500 linear feet of paths and walks were built in this park during the past year, including two flights of stone steps, and about 8 acres were graded and filled in, including top soiling; all work was done by park labor.

General Improvement—About 125 feet of top soil was filled in and graded in front of the music stand, and 800 square feet of sod laid on same. Two flights of stone

steps, each consisting of twelve steps, were built leading up from Crotona avenue to the music stand, and two small telford paths, 25 feet long and 12 feet wide, were built, leading up to the new stone steps.

Three brick basins, with 15 lengths of vitrified drainpipes, were laid, extending out to Crotona avenue; also brick gutters were built leading to these basins.

Several new tennis courts and baseball diamonds were laid out in this park during the year, and the existing courts and diamonds were all cleaned, marked and put in first-class condition during the summer.

Flower beds were cleaned, watered and cultivated, shrubs cultivated and pruned, and the trees on Crotona avenue and Crotona parkway were cultivated and pruned.

Macomb's Dam Park.

(Area, 27 Acres.)

Cromwells Creek—The New York Central and Hudson River Railroad Company are now filling in the bed of Cromwells Creek, which work is being done by them without expense to the City.

Athletic Grounds, etc.—The athletic grounds were cleaned and repaired during the summer. The tennis courts were raised by putting on two or three loads of ashes and covering the same with a layer of clay; and the courts were marked and kept rolled daily.

Plans were prepared for the erection of an athletes' lodge on the athletic field, and application was made for funds to build the same, but the appropriation has not as yet been granted.

Drinking Fountain—Plans were prepared for a very handsome and elaborate stone drinking fountain to be erected at the junction of the approach to the Central Bridge and Jerome avenue, in this park. These plans have been submitted to the Municipal Art Commission; they have not as yet been approved by that body, but undoubtedly will be, as the original plans have been changed to meet the suggestions made by the Commission. The sum appropriated, \$3,000, is hardly adequate for the completion of the fountain upon the plans devised, and it is hoped that additional funds will be appropriated in the near future, as the necessity for a drinking fountain at this point, for both man and beast, is very generally conceded. The amount originally asked for was \$6,000.

Pipe Railing—About 1,800 linear feet of pipe railing has been erected in this park, the material being furnished by contract and the work of erection and painting being done by park employees. This is an excellent job, and is much appreciated by the public visiting this park, and is also a material aid to the proper policing and protecting of park grounds.

Minor Improvements—About 1½ acres of filling in and grading has been completed in this park during the past year, between One Hundred and Sixty-first and One Hundred and Sixty-second streets, the material being brought from various points, and the work was prosecuted by park labor until stopped by request of the Comptroller.

A substantial iron fence has been erected along both sides of the New York Central and Hudson River Railroad, through the entire park.

The plantation in this park was thoroughly overhauled; dead and broken trees were removed and replaced with other trees and shrubs, thoroughly pruned and cultivated.

Claremont Park.

(Area, 38 Acres.)

Clay Avenue Side of Park—Considerable grading has been done on this side of the park, during the past year, both north and south of the Wendover avenue entrance to the park, all work being done by park labor. That portion of the easterly side of the park lying north of the Wendover avenue entrance has nearly all been graded and put into first class shape, except seeding and the construction of one path, which work should be continued to completion in the spring, as soon as the weather conditions will permit.

A walk was constructed from Clay avenue and One Hundred and Seventy-second street, for a distance of 250 feet, connecting with the steps west of Clay avenue.

The sidewalk on the west side of Clay avenue was graded and regulated north and south of One Hundred and Seventy-second street, for a distance of 200 feet.

It will be impossible to complete that portion south of the Wendover entrance, with the funds available at this time, and it is hoped that sufficient funds will be had in the near future, to put the whole of the easterly side of this park in presentable shape.

Paths, Walks, etc.—The old path leading from a point near the Mansion down the hill toward the north, was completely rebuilt, with a rustic wood railing and substantial gutters on both sides.

A new path was constructed near the northeasterly corner of the park, leading to the foot of the steps built on Belmont street, and the walks in the northeasterly part of the park, west of Clay avenue, were reconstructed for a distance of about 1,600 feet, and resurfaced with trap rock and screenings. All of the terraces at this part of the park were sodded, and gutters were laid along the new paths built.

In all, about 1,250 linear feet of paths, including several short flights of stone steps where necessary, were built in this park during the year.

Railing—About 1,000 linear feet of rustic and iron railing was placed along the different paths and walks in this park, during the year. The iron railing recently erected has not as yet been painted, as all work was discontinued, and it is in a very bad condition from rust, and should be painted at once, as a matter of economy.

All the walks in the park were sodded on both sides, about 12,000 square feet of sod having been placed thereon.

Trees, etc.—In this park over fifty dead and dying trees, ash, chestnut and some fruit trees, were cut down, and the wood disposed of at public auction. Wherever a tree was cut down or removed, a young tree was planted in its place.

St. Marys Park.

(Area, 28.7 Acres.)

Music Stand—A new and handsome music stand was erected in this park during the year, to take the place of the old and dilapidated one which was torn down. All of this work was done by park labor, and is a very good job and a much needed improvement.

Asphalting Existing Walks—About 10,000 square yards of the existing walks in this park have been surfaced with asphalt, the work being begun in the year 1905, and completed during the early part of the past year, under contract, final payment for which was rendered in May, 1907. The completion of this work was of great importance to the maintenance of this park, as the old cinder paths were frequently badly washed out, and in some instances destroyed, at every severe rain storm.

There is also a balance of funds available for the asphalting of existing walks in this park, which should be used as soon as the weather conditions will permit in the spring. This balance was due to the very low price bid for the asphalting of the walks, on the previous contract.

Paths, Walks, etc.—The work of resurfacing the Old Passage road was completed during the year, and a new walk partly completed from the southerly end to the northerly end of the park, along this road. Also about 1,000 linear feet of paths were constructed in other portions of the park, the screenings being furnished by contract, and the work being done by park labor.

A single strip of sod was placed along the newly asphalted walks, for a distance of 1,530 feet.

Grading, Filling in, etc.—Considerable grading and filling in has been done in the easterly and southeasterly portions of the park, and part of the ground has been leveled, and a baseball diamond laid out. Considerable grading is yet required in portions of the park, before the path system can be completed. This should be done as early as possible, or when the materials can be had for grading, without too great expense to the City.

Fencing—All of the existing fences around this park were painted during the year, by park labor. Funds for fencing a portion of the park were appropriated, and the work was about to be begun, the material to be furnished by contract and the work to be done by park labor, when all work on bond account was discontinued, at the request of the Finance Department.

The stone wall at the south end of the park was removed, and the bank graded and sodded.

Franz Sigel Park. (Area, 17.5 Acres.)

Grading—Considerable filling in and grading was done in the southerly end of this park during the past year, but it is still in a very unfinished condition, and should be improved as soon as possible. Application for funds for this work was made early in the year, but no appropriation was granted, and the work done here during the year was done from funds of general park improvement.

Paths—The paths on the Walton avenue side of the park were rebuilt and put into first class condition during the past year.

Comfort Station—The material for remodeling the comfort station in this park, which was advertised for during the year 1906, but for which no bids were received, was furnished on contract during the past year, and the work of building was all done by park labor. The comfort station is completed, and presents a handsome appearance, a great improvement on the former unsightly building.

St. James Park. (Area, 11.83 Acres.)

Foundation Wall—A decided change of grade along the Creston avenue side of this park, which change brought the elevation nearly up to the top of the wrought iron fence rendered it necessary that a retaining wall be constructed, and the fence re-erected thereon. This work was commenced by park employees, nearly all of the excavation made, and nearly all the foundation wall material delivered, when the Finance Department requested that work be stopped, on account of the money stringency. This work should go on at once, as the excavated wall trench and the material piled on the sidewalk are a source of inconvenience and danger.

Fence—The fence along the westerly side of the park was thoroughly cleaned and painted, the work being done by park labor.

Echo Park. (Area, 4 Acres.)

Grading, Terracing, etc.—Half of the Burnside avenue side of this park was filled in and graded during the year. This work should be completed as soon as possible, as portions of the park are not only unsightly, but, in their present condition, dangerous.

The northerly end of the park was terraced and sodded. This much needed improvement was made by park labor, and has very much improved the appearance of this portion of the park. Considerable more work remains to be done here, which cannot be completed until such time as the grading of Ryer avenue has been finished.

Small Parks.

Railing—Nearly 12,000 linear feet of substantial wrought iron pipe railing, with malleable iron posts and cresting, has been erected by park labor around the major portions of the small parks and squares in The Bronx, a portion of which fencing has been painted; and the completed portion is a first class job, and a most decided improvement, converting the small squares into parks, instead of commons as they were prior to the erection of the railing.

The work of erecting and painting this railing was discontinued on account of financial conditions, but the painting, at least, should be proceeded with at once, as the portions that are not galvanized are rusting badly, and if they are left until spring in their present condition, the cost of painting will be very much increased.

The material for this railing was purchased under contract, and specifications were prepared and bids received for 10,000 feet additional, but the contract for this additional quantity has not yet received the assent of the Comptroller. It is hoped that such approval will be had in the near future, as the continuation of this improvement is a matter of much importance to our park system.

General Improvement—In a number of the small parks and squares dead and dying trees were removed and replaced with young trees from The Bronx nurseries, about one hundred trees having been planted in the different parks and squares.

Bronx and Pelham Parkway. (Length, 11,861 Feet; Width, 400 Feet.)

A vast amount of work was done on this parkway during the past year by park labor. The parkway is at present in good condition, but it is due entirely to the constant attention and care given it. Much damage is done to this roadbed during every rain storm; the road is constructed with very little crown to it, for so great a width, and the inefficiency of the gutters allows the water to run over the roadway in many places, thus cutting up the road and making constant repairs necessary. In one part of the roadway, the road has been constructed on swamp land, and filled in with large rocks, and after every rain storm large sections of the paths and roadbed disappear, and the washouts cause constant annoyance and make it a very hard road to maintain. A great deal of this has been remedied by the construction of the new cobblestone gutters, over 2,000 linear feet of new gutters having been built during the past year, and about 10,650 feet of the old gutters having been taken up and the gutters widened to two feet, and relaid with cobblestone, with a curbing of rough stone. These gutters help to confine the water which flows along the sides to the catch basins and culverts.

Entire Length Resurfaced—During the year, the parkway has been resurfaced from White Plains road to the junction of the parkway with the Eastern Boulevard, near the entrance to the Athletic Fields. This work, which was performed by park labor, consisted for the greater part of picking up the old surface with one of our road rollers, the application of broken stone and screenings, which were thoroughly rolled, and the job of revamping this roadway was a good one; but the tremendous automobile traffic is again getting the surface in bad shape, even in portions where extraordinary care and a vast deal of time were expended, to make a telford macadam road as perfect as human ingenuity could devise.

This would seem to indicate that the telford macadam pavement on this parkway is a failure, under present conditions, and that some form of permanent paving must be resorted to, if this driveway is to be kept in proper shape. That portion west of the old Bear Swamp road, laid with asphalt, is in very good condition, but this new material has not been in use long enough to prove its wearing qualities.

Paths—About one-half mile of paths have been built on this parkway, by park labor, during the year. These paths extend from a point near the New York, New Haven and Hartford Railroad to the junction of the parkway with Eastern Boulevard.

Trench, Top Soil, etc.—From the Eastchester road to the crossing of the New York, New Haven and Hartford Railroad, for the whole distance on the southerly side, and about one-third of the distance on the northerly side, trenches have been excavated for a width of 4 feet and a depth of 2 feet, and filled in with first class top soil.

New Roadway Along Southerly Boundary—The work of constructing a traffic road and sidewalk along the southerly boundary of this parkway was begun by park labor, and prosecuted vigorously with such force as could be spared from other park work, up to the time that we were obliged to discontinue work on account of the financial stringency. The road, as graded, has a width of 30 feet, with a sidewalk of 18 feet, and it is very much to be regretted that this work could not be continued to completion, as its necessity is unquestioned, and it would remove from the main driveway most of the business traffic, furnish a channel through which sewers and gas and water pipes could be laid, and afford an avenue of egress to people who are about to build residences along the southern boundary of this parkway. Its construction would, moreover, obviate the necessity of people now living along the parkway crossing over to the main driveway, to the great detriment of park lands.

Very many of the lands on the southern boundary are now in the hands of bona fide prospective builders of residences, who will undoubtedly proceed to build as soon as this road has been constructed. Up to the time of discontinuance of the work, we had graded fully two-thirds of the road and walk between the White Plains and Westchester roads, and had stripped all of the rock preparatory to drilling and blasting, which could be profitably done in the winter season. Between the Westchester and Eastchester roads, three-fourths of the clearing had been done, and upwards of 1,000 feet of roadway graded or partly graded, with the comparatively small force engaged on that portion. From the Eastchester road, easterly to the New York, New Haven and Hartford Railroad, all clearing had been completed, and several hundred feet of the roadway and walk had been graded. Much of the grading

done here was on that portion where the greatest excavation is necessary, and the amount of work done by the small force employed has been considerable.

In view of the great necessity for the completion of this work in the near future every effort should be made to have it continued as soon as possible, as few improvements that have been made in the past half-dozen years were more desirable and redounded more to the credit of the Department.

Rustic Stone Fountain—Plans were prepared for a handsome rustic stone fountain to be erected on this parkway at a point 1,000 feet easterly from the crossing over the New York, New Haven and Hartford Railroad, which plans received the approval and commendation of the Municipal Art Commission. This fountain was constructed from large weathered rocks and boulders, on a very substantial concrete foundation, and when partially vine-covered, as the design contemplates, will be a very handsome ornament to the parkway; and the large drinking basin for horses, nearly 7 by 14 feet, and the drinking place in the rear for man, are features that will be very much appreciated. All work, including the plumbing, fittings, construction of paths adjacent, change in the roadway, etc., excepting the modelling and molding of the two fine lion heads, was performed by park labor.

Planting—The plantation along the easterly side of the parkway has been completed from Baychester road to Eastchester road, 50 elms and 5,000 shrubs having been used. Trees along the parkway have been cultivated, pruned and sprayed; four dead trees were removed and replaced with live trees, and the entire plantation along the parkway from Eastchester road to Pelham, a distance of about two miles, was pruned, cultivated and cleaned, and the grass was cut and borders were edged at various times during the year, as found necessary.

Moshulu Parkway.

(Length, 6,035 Feet; Width, 600 Feet.)

Completion of Improvement—The work of improving this parkway, under contract with John B. Malatesta, was begun in the year 1906, and finished in April of the past year. This improvement consisted of grading portions of the lands outside of the driveways, constructing brick culverts and road basins, levelling, seeding, etc. The work covered the major portions of the parkway from Webster avenue to Van Cortlandt Park, and has put a large portion of it in a very presentable shape.

There remains, however, a large amount of work still to be done, in order that the whole parkway shall be completed from Bronx Park to Van Cortlandt Park, and the small amount of funds now available will not suffice to complete it in proper shape.

Filling in Old Railroad and Swamp Lands—During the past year the old Jerome Park railroad, crossing this parkway about half way between Webster and Jerome avenues, has been abandoned; the rails and cross-ties were removed; the work of filling in the old railroad cut was immediately begun by park labor, and the roadways and part of the old cut were brought up to proper grades, a most decided improvement. A large portion of the swampy lands east of Jerome avenue has been filled in also, all work being done by park labor, but considerable still remains to be done.

The Glen—Work was begun by park labor on the improvement of the Glen, at Webster avenue and Moshulu Parkway South, but was discontinued on account of the financial trouble. This work, however, should be continued, as it is important that it be finished, since, in its present condition, it is both unsightly and unsanitary.

Railing—A heavy rustic cedar railing has been built on both sides of this parkway, between the Webster avenue bridge and the railroad bridge. This is a fine piece of work, and has all been done by park labor.

Baseball Ground—A baseball ground has been laid out on this parkway south of the road between the above named bridges and east of Webster avenue. This space could not for the present be made available for other park purposes; hence the construction of a baseball field there.

Spuytten Duyvil Parkway.

(Length, 11,500 Feet; Width, 60-180 Feet.)

Gutters—During the year 2,500 linear feet of gutters have been relaid on this parkway, and 1,800 linear feet of new gutters built, all work being done in a very satisfactory manner by park labor.

Parks, Grading, etc.—About 800 linear feet of paths have been constructed across the Glen at the large loop west of the road leading to Dash's lane. This improvement, which was made by park labor, has proven a great convenience to pedestrians.

The banks on both sides of portions of this parkway have been improved, the work consisting of grading, terracing, seeding, etc., all work being done by park labor.

Retaining Wall—Plans and specifications for a retaining wall, to be constructed at the big loop near the westerly terminus of this parkway, were prepared, bids received and a contract was entered into for its construction; but the contract has not as yet been approved by the Comptroller. As this work is very necessary, his approval is very much to be desired, as the work should be begun as early as possible in the coming spring.

Bridle Path—Application has been made for the construction of a bridle path along the southerly side of this parkway, and investigations are under way to ascertain whether the conditions are such that the building of this path is desirable—whether it can be made without the destruction of many parkway features or becoming a source of inconvenience, if not of positive danger.

I am informed that when the roadway of this parkway was completed the Department was unable, owing to insufficient funds, to construct the gutters to the full width for the whole length of the parkway. A large portion was made only eighteen inches wide, and all these narrow portions were of no use whatever. All portions not already rebuilt should be rebuilt at once, as great damage is being done to the roadway at every rainstorm.

Broken stone and screenings were purchased under contract for the resurfacing of the roadway, and delivery was begun, but had to be discontinued on account of financial troubles. This work should be prosecuted as early as possible in the spring, as the road, by reason of insufficient gutters, is in a rather dilapidated state at this time.

Tree Guards.

Fifteen hundred tree guards have been furnished under contract and placed around the trees on several of the parkways, where the trees were being greatly damaged by reason of a lack of proper protection; also around young trees on the city streets. There are still a number of trees on parkways that should be protected with guards, as soon as funds are available for their purchase.

Street Trees.

The care of the trees in the city streets has been a harder task during the past year than it has been in previous years, the very dry spell during the summer, also several very heavy wind storms, having caused a large number of trees to die and to be damaged by the breaking of branches and uprooting of a large number of trees. The complaints in regard to dead and dangerous trees and requests to this Department to prune trees average eighteen to twenty a week. To attend to these requests an emergency gang of five men, with a horse and wagon and all necessary tools, is kept constantly busy, and considering the vast amount of territory to be covered, the work accomplished with the small number of men has been very satisfactory.

The spraying of trees was undertaken on a much larger scale during the summer than heretofore, two machines being in use in different sections of the borough.

A contract was awarded late in September for furnishing and planting trees in the streets of the borough, the work being supervised by the head gardener. About 800 trees have been planted and protected with tree guards, and the work will be continued as soon as the weather conditions will permit.

Forestry Work.

This branch of park improvement has been carried on very extensively during the past year. A gang of men has been employed in each park felling trees, cutting out broken branches and diseased trees and cleaning out underbrush wherever necessary. In Crotona Park over one hundred trees, mostly chestnut, have been cut down and disposed of at public auction.

A new departure has been made in cutting down these dead and dying trees in that wherever a tree has been removed or cut down a young tree has been planted in its place. Also, wherever it is found necessary to dig up a tree, unless in low swamp lands which have to be filled in, the roots are entirely cleaned away and the soil re-

placed and made ready to receive young trees in the spring. This work will prove of great value to the hundreds of acres of forests which lie within the park limits of The Bronx.

All dead wood removed from park lands was sold to the highest bidder at public auction.

During the year gangs of men have started at one end of a park to work the entire area of forest, marking dead, diseased, broken or uprooted trees, and making a record of the condition of the trees in the different parks. This work, as planned for the coming year, even on a much larger scale than during the past year, will, in the course of a few years, show such good results that it will undoubtedly become a permanent feature in the forestry work of the Department.

Permits.

The following permits were issued during the year for outdoor sports:

	Athletic Field.	Camping.	Baseball.	Croquet.	Football.	Golf.	Lawn Tennis.
Van Cortlandt Park.....	222	36	1,065	416
Crotona Park.....	143	2	15	831

Mosholu Parkway.....	4	10
Total.....	142	300	560	46	94	1,065	2,486

In addition to the above 648 permits were granted for holding May parties, June walks and other outings in the various parks, the total attendance being 121,845, an increase of 23,055 over that of last year. About 200 permits were issued for cricket, basket ball, etc.

Band Concerts.

Commencing July 14 band concerts were given until September 15 on Sundays in Pelham Bay, Van Cortlandt, Bronx, Claremont, Macombs Dam, St. James and St. Marys parks, and on Saturday afternoons in Crotona and Franz Sigel parks.

There is no form of free amusement furnished by the City which is more appreciated and enjoyed by the public than are these free concerts. Each succeeding year witnesses a large increase in the attendance, and the concerts are instructive from a musical standpoint, consisting as they do of a mixed selection of classical and popular music, and being assisted, in most cases, by a professional soloist, vocal or instrumental.

Miscellaneous.

Considerable hay which was growing in park lands was cut down and sold at auction during the last quarter, the cutting being done by the purchaser, but supervised by a park inspector.

All rentals of buildings and privileges for the sale of refreshments, etc., on park lands which expired during the past year were advertised and let to the highest bidders, at prices considerably in advance of those formerly received.

BOARD OF PAROLE.

REPORT OF THE NEW YORK CITY REFORMATORY OF MISDEMEANANTS FOR THE YEAR ENDING DECEMBER 31, 1907.

Department of Correction,
No. 148 East Twentieth Street,
New York, February 17, 1908.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York, City Hall:

Dear Sir—I beg to transmit herewith a copy of the Second Annual Report of the Board of Parole of The New York City Reformatory of Misdemeanants.

Respectfully submitted,

JOHN V. COGGEY,
Commissioner.

January 1, 1908.

To the Honorable Board of Parole, New York City Reformatory of Misdemeanants:

Gentlemen—I beg herewith to submit my annual report of the New York City Reformatory of Misdemeanants for the year ending December 31, 1907, that closing the second year of the institution's existence. The history of the past twelve months in tangible production and, to a certain extent, in the reformation of our inmates will be found in the statistics furnished herewith, these, now that the Reformatory is no longer an experiment, forming the major part of my report.

You will note the greatest number of commitments occurred during the months of May, June and July, this having been due to the unusual large number of arrests by the police of misdemeanants suspected chiefly of pocket picking. The large paroles in October, November and December together with the present decreased number of commitments, have placed us again on a normal footing, the previous crowded conditions having been relieved, thereby giving us ample dormitory space.

More important is the fact that since the first of July we have been working under chapter 516 of the Laws of 1907, which amended chapter 305 of the Laws of 1905, so that now only first offenders are proper commitments to this institution;

this also tends to a decreased census and more satisfactory conditions, as it gives us an improved and less vicious class of boys, and makes the problem of moral classification a less difficult one.

During the year we have erected (1) a cement building for use as a gas generating plant; (2) one story of a proposed three-story cement building, 26 by 100 feet, the first story to be used for our tin industry, even before the completion of the entire structure, and (3) a frame building, 30 by 200 feet, almost ready for occupancy as storeroom and cement industry. Our inmates took part in the erection of these buildings.

Another industry has been established, that of tinsmithing. The extent of the work performed will be found in the appended tables, and, I may add, it is the purpose of this Institution to manufacture all the tinware for the Department of Correction. The other industrial schools remain as at the time of my last report, their progress has been good and a satisfactory condition as to production is shown in statistics of the year.

With another twelve months of practical experience I feel that the recommendations made one year ago should again be emphasized as being needed for the greater efficiency of the institution. This applies most strongly to the matter of new buildings for dormitories and workshops, increased trade industries, school rooms, and more especially the placing of the institution under military discipline. That we may properly fulfil our duty to the boys and attain the ends for which this institution was established, the reformation of its inmates, an increased minimum term of sentence is imperative, and when the change is made, our census will be greatly increased, and if we are not prepared for this it will result in most deplorable overcrowding and cause great difficulty in carrying on this very important work.

In my report to the Commissioner of the Department of Correction, I have already acknowledged my gratitude for the interest his Honor and the Deputy Commissioner have evinced throughout the year in trying to better conditions, also of the efficient and commendable work of officers in my charge; and finally, I desire to gratefully acknowledge the cordial support and friendly spirit shown at all times in my dealings with the members of the Honorable Board of Parole.

Respectfully submitted,

JOHN E. VAN DE CARR,
Overseer.

Leaving number of inmates in Reformatory on December 31, 1907..... 199

* Of the four inmates who escaped, three were recaptured and returned to the Reformatory, and the fourth was arrested and sent to the State Reformatory at Elmira.

Health of Inmates.	
It is gratifying to state that the health of the inmates has been excellent. There have been no epidemics.	
Hospital cases treated:	
Pulmonary tuberculosis	6
Malaria	15
Nephritis	1
Death from tuberculosis.....	1
Death from nephritis.....	1

Many minor conditions requiring treatment but not of such a nature as to require admission to the hospital have occurred.

Spiritual Welfare.
Their spiritual welfare has been faithfully cared for by the Catholic, Protestant and Hebrew Chaplains of the Department of Correction, and attendance at religious services has been usually large though not compulsory.

Scholastic Education.
In the school connected with the Reformatory there have been two sessions each day. The average attendance at each session was about 60, but as some of the inmates attend both in the morning and afternoon, it makes the average daily attendance about 100 inmates. The course of instruction is of an elementary character and confined mostly to reading, spelling, writing and arithmetic. Yet in addition to these subjects an effort was made to teach grammar, composition, history, geography, physiology and drawing. Many of the inmates have attended either the public schools of New York City or parochial schools and hence in scholarship they fairly represent the various grades from the primary to the high school.

Some of the inmates over 16 years of age born in New York City claim they have never attended school at any time in their lives. Again, there are quite a number who cannot speak English and also unable to read or write. Many of these illiterates are anxious to learn and most of them succeed in learning to read and write fairly before they leave the institution.

The instruction given has been of a practical character and an effort has been made to improve the mental and moral needs of the inmates.

Shoemaking Industry.	
In the matter of production I desire to call special attention to what has been accomplished in this industry. We are now manufacturing shoes sufficient to meet the demands of the Department of Correction, and if we had not been handicapped at times by lack of motor power the following report would show much greater results, but the aptitude shown by boys who never had any experience in this trade is certainly gratifying:	
Average number of inmates employed daily.....	60
Men's shoes made, pairs.....	9,080
Women's shoes made, pairs.....	2,999
Children's shoes made, pairs.....	58
Total pairs made.....	12,137

Unfinished.	
Unfinished men's shoes, pairs.....	1,014
Unfinished women's shoes, pairs.....	201
Men's uppers cut, pairs.....	3,300
Women's uppers cut, pairs.....	550
Shoes repaired, pairs.....	327

Tailoring Industry.	
Average number of inmates employed daily.....	12

This industry has continued along without an Instructor with very creditable results from an economical standpoint as well as that of reformation in teaching the boys a trade. Production as follows:

Made New.	
Inmates' coats	259
Inmates' pants	491
Inmates' vests	101
Inmates' top-shirts	734
Inmates' night shirts.....	403

Tailoring Industry.	
Pillow slips	299
Pillow cases	303
Carpenters' aprons	53

Repaired.	
Old coats	689
Old pants	1,234
Old vests	562
Top-shirts	1,170
Night shirts	313
Undershirts	600
Underdrawers	473
Aprons	140
Pillow slips	235

Repairing, Cleaning and Pressing.	
Inmates' street suits.....	696

Cement and Concrete Industry.	
Average number of inmates employed daily.....	40

This I consider one of the best industries connected with our institution. With stock on hand and facilities for manufacturing we can not only complete a three-story building in progress of erection but produce enough material for the construction of a large dormitory during the coming season. The following tables show what has already been accomplished:

Cement blocks	13,548
Cement bricks	62,680
Sills	46
Lintels	55
Water table, running feet.....	690
Sidewalks, square feet	1,890
Concrete flooring, square feet.....	2,416
Excavating and putting in concrete foundation for extension of new boiler house, cubic feet.....	1,500
Erected building for gas generating plant, 13 feet high by 13 feet 8 inches by 11 feet	1
Made foundation and nearly completed first story of a three-story building, roof by 26 feet.....	1
Built concrete piers, walls 15 inches thick, 6 feet high, 75 feet long, one each side of sewer pipe, from sea wall to high water mark.....	2
Cement copings around shoe shop windows.....	14
Excavating and concreting for manholes, cubic feet.....	384
Cement arches put in.....	19
Sewer pipe laid, feet.....	140
Iron lintels set in new tin shop for doors.....	3
Iron lintels set in new tin shop for windows.....	26
Excavations made and brick work built up for electric poles, concreting around same	12
Excavation made and 5-inch pipe laid from roof drains of shoe shop to main sewer, feet	75

Carpentry Industry.	
The work performed in this industry has been done by inmates who had some knowledge of carpentry before being committed to the Reformatory, and from now on a school will be formed and the trade taught by a Foreman Carpenter assigned to this institution from the Department of Correction. We have made the following:	
Doors	8
Floors	2
Wheelbarrows	45
Shelving, feet	150
Wall in dormitory, 36 feet of lumber.....	1
Benches	102
High chairs for use in shop.....	2
Wooden pallets for use in cement industry.....	615
Mortar boxes	3
Screen doors	7
Window screens	12
Sashcords put in	40
Packing boxes for shoes	11
Partition in office.....	1
Shed, extension to Overseer's quarters.....	1
Clothes closets	7
Tool boxes	7

Tinsmithing Industry.	
Average number of inmates employed daily.....	15

This is another important industry not only in the matter of production, but in the matter of teaching a trade as well, which can be of great service to a boy in seeking employment when released from the Reformatory. As previously stated, we expect to manufacture all tinware used in the Department of Correction. We have made as follows:

Mess pans	5,900
Quart cups	4,700
Dustpans	248
Pails, assorted sizes	193
Coal hods	100
Ash and garbage cans.....	96
Roofing repaired, square feet.....	1,400
New roofing, square feet.....	200
Kitchen ware, pieces.....	36
Galvanized iron cornice, feet.....	250
Galvanized iron roof flashing, feet.....	500
Measures, assorted sizes.....	132
Sprinkling cans	6
Five-gallon cans	3
Five-gallon cans, with spouts.....	3

Among our inmates we frequently find representatives of almost every trade, such as barbers, electricians, plasterers, plumbers, etc., and usually there is work enough to keep each employed in his own line. Other inmates were employed during the year in excavating, hauling dirt, stone, sand, cement and ice, so that when the weather was favorable for outside labor all were kept busy at work of some kind.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court and the entering in the Bureau for the Collection of Assessments and Arrears of the assessments for OPENING AND ACQUIRING TITLE to the following named streets in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 10.

FOX STREET—OPENING. from Prospect avenue to Leggett avenue. Confirmed December 30, 1907; entered February 26, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to the northwesterly side of Wales avenue and distant 100 feet northwesterly therefrom with a line parallel to and distant 100 feet southerly from the southerly side of East One Hundred and Forty-ninth street; running thence easterly along the last-mentioned parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly side of the Southern boulevard; thence easterly and northeasterly along the last-mentioned parallel line and its continuation northeasterly parallel to and distant 100 feet southeasterly from the southeasterly side of the Southern boulevard to its intersection with a line parallel to and distant 100 feet northeasterly from the northeasterly side of Longwood avenue; thence northwesterly along the last-mentioned parallel line to its intersection with a line parallel to and distant 100 feet northwesterly from the northwesterly side of Fox street; thence southwesterly and westerly along the last-mentioned parallel line to its intersection with a line parallel to and distant 100 feet northwesterly from the northwesterly side of Wales avenue; thence southerly along the last-mentioned parallel line to the point or place of beginning.

TWENTY-FOURTH WARD, SECTION 12.

EAST ONE HUNDRED AND NINETY-SEVENTH STREET—OPENING. from Bainbridge avenue to Creston avenue. Confirmed December 30, 1907; entered February 26, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the westerly prolongation of the middle line of the block between East One Hundred and Ninety-sixth street and East One Hundred and Ninety-seventh street with a line parallel to and distant 100 feet westerly from the westerly side of Creston avenue; running thence northerly along the last-mentioned parallel line to the southerly side of East One Hundred and Ninety-eighth street; thence easterly along the southerly side of East One Hundred and Ninety-eighth street to its intersection with a line parallel to and distant 100 feet easterly from the easterly side of Bainbridge avenue; thence southerly along the last-mentioned parallel line to its intersection with the easterly prolongation of the middle line of the block between East One Hundred and Ninety-sixth street and East One Hundred and Ninety-seventh street; thence westerly along the last-mentioned easterly prolongation and middle line of the block and its prolongation westwardly to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." * * *

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 27, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to lay out and fix grades for Heberton avenue, between Ann street and Richmond terrace, in the Third Ward, Borough of Richmond, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on March 13, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on February 14, 1908, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out and fixing grades for Heberton avenue, between Ann street and Richmond terrace, in the Third Ward, in the Borough of Richmond, City of New York, more particularly described as follows:

LINES.

A. The northwesterly line of the street is to begin at the intersection of the northeasterly line of Ann street with the northwesterly line of Heberton avenue, as the said streets are now in use.

1. Thence northwesterly along the line of Heberton avenue, as now in use, a distance of 195.71 feet, forming an angle with Ann street in the northerly quadrant of the intersection of 89 degrees 59 minutes 58 seconds.

2. Thence northwesterly, curving to the right on the arc of a circle of 198.19 feet radius, tangent to the preceding course, 130.10 feet.

3. Thence eastwardly and tangent to the preceding course 136.77 feet to the line of Richmond terrace.

B. The southeasterly line of the street is to be 65 feet southeasterly from and parallel with the above-described northwesterly line.

GRADES.

1. The grade of the northwesterly curb line on the northeasterly curb line of Ann street is to be 21.6 feet.
2. The grade of the southeasterly curb line at the northeasterly curb line of Ann street is to be 21.2 feet.

3. The street grade at the intersection of the centre line with the radial line passing through the southerly points of curvature described in the alignment is to be 19.3 feet.

4. The grade of the northerly curb line at its intersection with the westerly curb line of Richmond terrace is to be 9 feet.

5. The grade of the southerly curb line at its intersection with the westerly curb line of Richmond terrace is to be 8.65 feet.

The above elevations refer to Richmond high-water datum.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 13th day of March, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 13th day of March, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on February 14, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of West One Hundred and Eighty-fourth street, from Broadway to unnamed street (Overlook terrace), and opening and extending said unnamed street (Overlook terrace), from West One Hundred and Eighty-fourth street to Fort Washington avenue, in the Borough of Manhattan, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line bisecting the angle formed by the prolongations of the centre lines of Bennett avenue and the unnamed street meeting West One Hundred and Eighty-first street westerly therefrom distant 100 feet southerly from the southerly line of West One Hundred and Eighty-fourth street, the said distance being measured at right angles to the line of West One Hundred and Eighty-fourth street, and running thence westwardly in a course parallel with West One Hundred and Eighty-fourth

street to the intersection with the prolongation of a line distant 100 feet westerly from and parallel with the westerly line of Overlook terrace, the said distance being measured at right angles to the line of Overlook terrace; thence northwardly along a line always distant 100 feet westerly from and parallel with the westerly line of Overlook terrace as laid out north of West One Hundred and Eighty-fourth street to the intersection with a line distant 450 feet southerly from and parallel with the southerly line of Overlook terrace as laid out east of and adjacent to Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence westwardly and parallel with the said line of Overlook terrace as laid out east of Fort Washington avenue to the intersection with a line always distant 100 feet westerly from and parallel with the westerly line of Fort Washington avenue, the said distance being measured at right angles to the line of Fort Washington avenue; thence northwardly along the said line parallel with Fort Washington avenue to the intersection with a line distant 750 feet northerly from the northerly line of Overlook terrace as laid out immediately east of Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence eastwardly along the said line parallel with Overlook terrace to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with Overlook terrace as laid out southerly from the angle point east of Fort Washington avenue, the said distance being measured at right angles to the line of Overlook terrace; thence southwardly along a line always distant 100 feet easterly from and parallel with the easterly line of Overlook terrace as laid out south of the angle point east of Fort Washington avenue, and along the prolongation of the said course to the intersection with a line bisecting the angle formed by the prolongations of the centre lines of Overlook terrace and Bennett avenue as laid out immediately northerly from West One Hundred and Eighty-fourth street; thence southwardly along the said bisecting line to the intersection with a line midway between West One Hundred and Eighty-fourth street and the first street northerly therefrom as laid out between Broadway and Overlook terrace; thence eastwardly along the said line midway between West One Hundred and Eighty-fourth street and the first street northerly therefrom to the centre line of Broadway; thence southwardly along the centre line of Broadway to the intersection with the prolongation of a line midway between West One Hundred and Eighty-fifth street as laid out between Wadsworth avenue and Broadway; thence eastwardly along the said line midway between West One Hundred and Eighty-fifth street and West One Hundred and Eighty-fourth street and West One Hundred and Eighty-third street, and the prolongation thereof, to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Broadway, the said distance being measured at right angles to the line of Broadway; thence southwardly along the said line parallel with Broadway to the intersection with a line midway between West One Hundred and Eighty-third street and West One Hundred and Eighty-fourth street; thence westwardly along the said line midway between West One Hundred and Eighty-third street and West One Hundred and Eighty-fourth street, and the prolongation thereof, to the intersection with the centre line of Broadway; thence southwardly along the centre line of Broadway to the intersection with a line parallel with West One Hundred and Eighty-fourth street as laid out between Broadway and Overlook terrace, and passing through a point on the westerly line of Bennett avenue distant 330 feet southerly from the intersection of the westerly line of Bennett avenue with the southerly line of West One Hundred and Eighty-fourth street; thence westwardly along the said line parallel with West One Hundred and Eighty-fourth street to the intersection with the hereinbefore-described line bisecting the angle formed by the prolongations of the centre lines of Bennett avenue and the unnamed street meeting West One Hundred and Eighty-first street westerly therefrom; thence northwardly along the said bisecting line to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 13th day of March, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 13th day of March, 1908.

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Two Hundred and Fifth street (Adee avenue), from White Plains road to Boston Post road, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the north by a line midway between Adee avenue and Burke avenue; on the east by a line parallel with and always distant 100 feet easterly from the easterly line of Boston Post road, the said distance being measured at right angles to the line of Boston Post road; on the south by a line midway between Adee avenue and Arnou avenue, and on the west by a line distant 100 feet westerly from and parallel with the westerly line of White Plains road.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 13th day of March, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 13th day of March, 1908.

Dated February 29, 1908.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of GLEBE AVENUE, from Westchester avenue to Overing avenue; LYON AVENUE, from Zerega avenue to Castle Hill avenue; FRISBY AVENUE, from Zerega avenue to West Farms road; TRATMAN AVENUE, from Zerega avenue to Benson avenue, all of which are in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT BY orders of the Supreme Court, bearing date the 29th day of October, 1907, and the 5th day of February, 1908, and duly entered in the office of the Clerk of the County of New York, in the City of New York, on the 16th day of December, 1907, and the 6th day of February, 1908, a copy of the order bearing date the 29th day of October, 1907, was duly filed in the office of the Register of the County of New York, we, Robert H. Bergman, Timothy F. Driscoll and George Burchell, were appointed Commissioners of Estimate, for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned streets or avenues, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said Robert H. Bergman was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said streets or avenues so to be opened and extended to the respective owners, lessees, parties and persons respectively entitled to or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said streets or avenues and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 16th day of March, 1908, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, March 3, 1908.

ROBT. H. BERGMAN,
T. F. DRISCOLL,
GEO. BURCHELL,

Commissioners.

JOHN P. DUNN,
Clerk.

FIRST JUDICIAL DISTRICT.

NOTICE IS HEREBY GIVEN THAT IT IS the intention of the Corporation Counsel of The City of New York, pursuant to the provisions of chapter 4 of the Laws of 1891 and the several statutes amendatory thereof and supplemental thereto, to make application to the Supreme Court of the State of New York, at a Special Term, Part III. thereof, to be held in

and for the County of New York, at the County Court House, in the Borough of Manhattan, City of New York, on the 24th day of March, 1908, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of three disinterested freeholders, residents of The City of New York, as Commissioners of Appraisal to ascertain and appraise the compensation to be made to the owners and all persons interested in the real property, rights, franchises, easements or privileges sought to be taken or acquired by The City of New York, or which may be affected or damaged by this proceeding. The City of New York by this proceeding seeks to acquire an estate in fee simple in certain real property hereinafter described and a permanent and perpetual underground right, easement and right of way, and also a temporary right or easement in certain other real property hereinafter described, for the construction, maintenance and operation in perpetuity of a rapid transit railroad, in accordance with the routes adopted by the Board of Rapid Transit Railroad Commissioners by resolution on the 25th day of May, 1905, and approved by the Board of Estimate and Apportionment of The City of New York on the 14th day of July, 1905, and approved by the Mayor of The City of New York on the 28th day of July, 1905, and consented to by an order of the Appellate Division of the Supreme Court, First Judicial Department, made and entered on or about the 12th day of March, 1907, which railroad is further described in the contract for the construction thereof made by The City of New York, acting for the said Board of Rapid Transit Railroad Commissioners, and the Degnon Contracting Company, dated May 9, 1907, the subway or subways for said railroad to be constructed substantially as shown in said contract and upon the maps or plans adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907.

The premises, in which an estate in fee simple is to be acquired in this proceeding, are briefly described as certain lots or parcels of land designated upon the said maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, as Lots Nos. 3, 4, 5, 7, 8 and 9 in Block 198, which lots taken together form a parcel of land situated at the southeast corner of Centre and Walker streets, with a frontage on the easterly side of Centre street, extending about 127 feet 11 inches southerly from the southerly side of Walker street, and with a frontage on the southerly side of Walker street extending about 141 feet 2 inches easterly from the easterly side of Centre street, said Lot No. 3 being also designated upon said maps as No. 142 Centre street; said Lot No. 4 being also designated upon said maps as No. 144 Centre street; said Lot No. 5 being also designated upon said maps as No. 146 Centre street and Nos. 111, 113 and 115 Walker street; said Lot No. 7 being also designated upon said maps as No. 117 Walker street; said Lot No. 8 being also designated upon said maps as No. 119 Walker street, and said Lot No. 9 being also designated upon said maps as No. 121 Walker street, all in the Borough of Manhattan, in the City of New York.

The premises to be subject to such permanent and perpetual underground right, easement and right of way, and also to such temporary right or easement, are briefly described as a portion of certain lots or parcels of land designated upon the said maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, as Lots Nos. 10 and 11 in Block 198, also designated as Nos. 123 and 125 Walker street, which lots, taken together, form a parcel of land situated at the southwesterly corner of Baxter and Walker streets, with a frontage on the southerly side of Walker street, extending about 50 feet westerly from the westerly side of Baxter street, and with a frontage on the westerly side of Baxter street, extending about 100 feet southerly from the southerly side of Walker street, in the Borough of Manhattan, in the City of New York.

A fuller statement setting forth the location and boundaries of the several lots or parcels of land and rights, franchises, easements or privileges sought to be taken or affected, and a brief statement as to each of said lots or parcels of the title, interest, rights, easements, terms or privileges therein or appurtenant thereto, sought to be acquired by The City of New York, is annexed to each of three similar maps adopted by the Public Service Commission for the First District of the State of New York on the 17th day of December, 1907, which said maps were filed, one in the office of the President of the Borough of Manhattan, City of New York, on the 18th day of December, 1907, and one in the office of the Public Service Commission for the First District of the State of New York, at No. 154 Nassau street, Borough of Manhattan, City of New York, on the 17th day of December, 1907, and one in the office of the Register of the County of New York on the 26th day of December, 1907.

Dated New York, February 10, 1908.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of the strip of land on the east side of BOULEVARD LAFAYETTE, at or near Durando's lane, as laid out for use as a public park, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate for damage and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 23d day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 24th day of March, 1908, at 2 o'clock p. m.

Second—That the abstract of our said estimate for damage, together with our damage maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 28th day of March, 1908.

Third—That, provided there be no objections filed to said abstract, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 14th day of May, 1908, at the opening of the Court on that day.

Fourth—In case, however, objections are filed to said abstract of estimate for damage, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, February 24, 1908.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of CHURCH AVENUE, from Flatbush avenue to East Eleventh street, in the Twenty-ninth Ward, Borough of Brooklyn, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in the City of New York, on or before the 18th day of March, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 19th day of March, 1908, at 2:30 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits,

estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 28th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the westerly side of Flatbush avenue where the same is intersected by a line drawn parallel with Church avenue and distant two hundred feet northerly of the northerly side of Church avenue; running thence westerly and parallel with Church avenue to the easterly side of East Eleventh street or Stratford road; running thence southerly and along the easterly side of East Eleventh street or Stratford road to where a line drawn parallel with the southerly side of Church avenue and distant two hundred feet southerly therefrom would intersect the easterly side of said Stratford road; running thence easterly and parallel with Church avenue to the westerly side of Flatbush avenue; running thence northerly along the westerly side of Flatbush avenue to the point or place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 12th day of May, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title to NEW-ELL STREET, from Meserole avenue to Greenpoint avenue, in the Seventeenth Ward, in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 12th day of November, 1907, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 7th day of December, 1907, and indexed in the Index of Conveyances in Section 9, Blocks 2577, 2578, 2600, 2601, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss and damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened to the respective owners, parties and persons respectively entitled to or interested in the lands and premises, and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the Acts or parts of Acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 16th day of March, 1908, at 11 o'clock in the forenoon of that day, to hear the parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
