BOARD OF ESTIMATE AND APPORTIONMENT.

(PUBLIC IMPROVEMENT MATTERS.)

Minutes of Meeting of Board of Estimate and Apportionment, City of New York, Held in Room 16, City Hall, Friday, January 10, 1908.

The Board met in pursuance of an adjournment and a call of the Chair. (Call printed in Financial and Franchise Minutes of this date.)

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick F. McGowan, President, Board of Aldermen; John F. Ahearn, President, Borough of Manhattan; Bird S. Coler, President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Bermel, President, Borough of Queens, and George Cromwell, President, Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After disposing of financial and franchise matters, the Board proceeded to the consideration of the following public improvement matters:

The minutes of the meetings held December 6 and 20, 1907, were approved as printed.

CHANGING BLACKWELL'S ISLAND BRIDGE APPROACH, ETC., MANHATTAN.

In the matter of the proposed change of lines of Second avenue, from East Fifty-seventh street to East Sixty-first street, and striking from the map the approach to the Blackwell's Island Bridge bounded by East Fifty-ninth street, East Sixtieth street, Second avenue and Third avenue, in the Borough of Manhattan, affidavit of publication was presented showing that the matter had been duly advertised.

After hearing Hon. Edward M. Grout, John D. Crimmins, Esq., Hon. Morgan J. O'Brien and Leo Schlesinger, Esq., in opposition to the proposed change, and Hon. W. Bourke Cockran and Seligman Mannheimer, Esq., in favor thereof, the hearing was closed, and, on motion, the matter was referred to a committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan, with instructions to report to the Board within four weeks.

CHANGE OF GRADE OF EAST FIFTH STREET, BROOKLYN.

In the matter of the proposed change of grade of East Fifth street, between Albemarle road and Caton avenue, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed change, the hearing was closed.

The following resolutions were then adopted:

Whereas, At a meeting of this Board, held on the 6th day of December, 1907, resolutions were adopted proposing to change the map or plan of The City of New

York so as to change the grade of East Fifth street, between Albemarle road and Caton avenue, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 10th day of January, 1908, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 10th day of January, 1908; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 10th day of January, 1908; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed change who appeared, and such proposed change was duly considered by this Board; now therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grade of East Fifth street, between Albemarle road and Caton avenue, in the Borough of Brooklyn, City of New York, does hereby favor the same so as to make the aforesaid change as follows:

Beginning at the intersection of East Fifth street and Albemarle road, the elevation to be 50.05 feet as heretofore; thence northerly along a uniformly ascending grade to the intersection of Caton avenue, the elevation to be 51.72 feet as heretofore.

Note—All elevations refer to mean high water datum, as determined by the Bureau of Highways, Borough of Brooklyn.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

CHANGING THE LINES OF BAYARD STREET, BROOKLYN.

In the matter of the proposed change of lines of Bayard street, from Union avenue to the junction of Meeker and Graham avenues, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed change, the hearing was closed, and, on motion, the matter was laid over.

LAYING OUT AN EXTENSION OF REMSEN STREET, BROOKLYN.

In the matter of the proposed laying out of an extension of Remsen street, from its present westerly terminus to Furman street, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed extension, the hearing was closed.

The following resolutions were then adopted:

Whereas, At a meeting of this Board, held on the 6th day of December, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to lay out an extension of Remsen street, from its present westerly terminus to Furman street, in the Borough of Brooklyn, City of New York, and appointing a hearing at a meeting of this Board to be held on the 10th day of January, 1908, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD and in the corporation newspapers for ten days prior to the 10th day of January, 1908; and

Whereas, It appears from the affidavits of the Supervisor of the City Record and the publishers of the corporation newspapers, that the aforesaid resolutions and notice have been published in the CITY RECORD and in the corporation newspapers for ten days prior to the 10th day of January, 1908; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by laying out an extension of Remsen street, from its present westerly terminus to Furman street, in the Borough of Brooklyn, City of New York, does hereby favor the same so as to make the aforesaid change as follows:

The northern line of Remsen street, as herewith laid out, from its present westerly terminus to Furman street is a straight prolongation westerly of the northern line of Remsen street as now laid out on the map of the City east of its present westerly terminus.

The southern line of Remsen street, as herewith laid out, is 50 feet from and parallel with the above described line.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

LAYING OUT PUBLIC PLACES AT CEDAR AVENUE AND WEST ONE HUNDRED AND SEVENTY-SEVENTH STREET, THE BRONX.

In the matter of laying out public places at Cedar avenue and West One Hundred and Seventy-seventh street, Borough of The Bronx, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed changes, the hearing was closed, and, on motion, the matter was laid over four weeks.

CHANGE OF GRADE OF JOHNSON AVENUE, SPUYTEN DUYVIL ROAD, AND OF INTERSECTING STREETS, THE BRONX.

In the matter of the proposed change of grade of Johnson avenue, between Kappock street and West Two Hundred and Thirty-first street; Spuyten Duyvil road, between the New York Central and Hudson River Railroad and West Two Hundred and Thirty-first street; and in the grade of intersecting streets, in the Borough of The Bronx, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed changes, the hearing was closed.

The following resolutions were then adopted:

Whereas, At a meeting of this Board, held on the 6th day of December, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to change the grades of Johnson avenue, between Kappock street and West Two Hundred and Thirty-first street; Spuyten Duyvil road, between the New York Central and Hudson River Railroad and West Two Hundred and Thirty-first street, and the grades of the intersecting streets, in the Borough of The Bronx, City of New York, and appointing a hearing at a meeting of this Board to be held on the 10th day of January, 1908, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 10th day of January, 1908; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 10th day of January, 1908; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by changing the grades of Johnson avenue, between Kappock street and West Two Hundred and Thirty-first street; Spuyten Duyvil road, between the New York Central and Hudson River Railroad and West Two Hundred and Thirty-first street, and the grades of the intersecting streets, in the Borough of The Bronx, City of New York, does hereby favor the same so as to make the aforesaid changes as follows:

I. Johnson Avenue.

1. The grade at the point of tangency easterly from Kappock street to be 117 feet, as heretofore;
2. The grade at the westerly intersection of Spuyten Duyvil road to be 55 feet;
3. The grade at the point of compound curve northerly from the easterly intersection of Spuyten Duyvil road to be 46 feet;
4. The grade at the point of reverse curve easterly of West Two Hundred and Thirty-first street to be 118.91 feet, as heretofore.

II. Spuyten Duyvil Road.

1. The grade at the bridge across the Spuyten Duyvil and Port Morris Branch of the New York Central and Hudson River Railroad to be 25 feet, as heretofore;
2. The grade at the westerly intersection with Johnson avenue to be 55 feet;
3. The grade at the point of tangency easterly from the easterly intersection of Johnson avenue to be 45 feet;
4. The grade at West Two Hundred and Thirtieth street to be 17 feet;
5. The grade at the point of tangency east of West Two Hundred and Thirty-first street to be 23 feet, as heretofore.

III. West Two Hundred and Twenty-seventh Street.

1. The grade at the intersection with Johnson avenue to be as hereinbefore fixed;
2. The grade at Nederland avenue to be 182 feet, as heretofore.

IV. West Two Hundred and Thirtieth Street.

1. The grade at the intersection of Tibbett avenue to be 11 feet, as heretofore;
2. The grade at the easterly intersection of Spuyten Duyvil road to be 17 feet;
3. The grade at the westerly intersection of Spuyten Duyvil road to be as hereinbefore fixed;
4. The grade at Johnson avenue to be as hereinbefore fixed;
5. The grade at the intersection with Nederland avenue to be 165 feet, as heretofore.

V. West Two Hundred and Thirty-first Street.

1. The grade at the point of reverse curve easterly from Spuyten Duyvil road to be 24 feet, as heretofore;
2. The grade at the intersection with Spuyten Duyvil road to be as hereinbefore fixed;
3. The grade at the intersection with Johnson avenue to be as hereinbefore fixed;
4. The grade at the intersection with Nederland avenue to be 162 feet, as heretofore.

All grades refer to mean high water datum as established in the Borough of The Bronx.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

CLOSING AND DISCONTINUING PORTIONS OF WILLIAM STREET AND CHANGING GRADES IN TERRITORY BOUNDED BY ELY, WILBUR, SKILLMAN AND JACKSON AVENUES AND HENRY STREET, QUEENS.

In the matter of the proposed closing and discontinuing of portions of William street, between Wilbur avenue and Henry street, and changing grades in the territory bounded by Ely avenue, Wilbur avenue, Skillman avenue, Jackson avenue and Henry street, in the Borough of Queens, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed changes, the hearing was closed.

The following resolutions were then adopted:

Whereas, At a meeting of this Board, held on the 6th day of December, 1907, resolutions were adopted proposing to change the map or plan of The City of New York so as to close and discontinue portions of William street, between Wilbur avenue and Henry street, and change the grades in the territory bounded by Ely avenue, Wilbur avenue, Skillman avenue, Jackson avenue and Henry street, in the Borough of Queens, City of New York, and appointing a hearing at a meeting of this Board to be held on the 10th day of January, 1908, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 10th day of January, 1908; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that such aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 10th day of January, 1908; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest to change the map or plan of The City of New York by closing and discontinuing portions of William street, between Wilbur avenue and Henry street, and changing the grades in the territory bounded by Ely avenue, Wilbur avenue, Skillman avenue, Jackson avenue and Henry street, in the Borough of Queens, City of New York, does hereby favor the same so as to make the aforesaid changes, as follows:

Closing William Street.

1. That portion of William street bounded on the northeast by a line extending between a point on the northwest line of William street distant 575.14 feet southwesterly from the intersection with the southwesterly line of Wilbur avenue and a point on the southeasterly line of William street distant 569.63 feet southwesterly from the intersection with the southwesterly line of Wilbur avenue, and bounded on the southwest by a line extending between a point on the northwesterly line of William street distant 284.74 feet northeasterly from the intersection with the northeasterly line of Henry street, and a point on the southeasterly line of William street distant 290.25 feet northeasterly from the intersection with the northeasterly line of Henry street, is to be discontinued and closed.

CHANGE OF GRADE IN

Ely Avenue.

1. The elevation on the centre line at a point distant 285 feet southwesterly from the southwesterly line of Wilbur avenue to be 16.50 feet, as heretofore fixed.
2. The elevation on the centre line at a point distant 275.5 feet southwesterly from the point last described to be 15 feet.
3. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 15.51 feet.
4. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 15 feet.
5. The elevation at Henry street to be 13.25 feet, as heretofore established.

William Street.

1. The elevation at Henry street to be 14.6 feet, as heretofore established.
2. The elevation on the centre line at a point distant 252.3 feet northeasterly from the northeasterly line of Henry street to be 21.27 feet.
3. The elevation on the centre line at a point distant 221 feet northeasterly from the point last described to be 21.77 feet, as heretofore fixed.

Crescent Street.

1. The elevation on the centre line at a point distant 300 feet southwesterly from the southwesterly line of Wilbur avenue to be 24.94 feet, as heretofore fixed.
2. The elevation on the centre line at a point distant 213.3 feet southwesterly from the point last described to be 22.64 feet.
3. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 23.44 feet.
4. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 22.64 feet.
5. The elevation at Henry street to be 15.46 feet, as heretofore established.

Prospect Street.

1. The elevation on the centre line at a point distant 489.4 feet southwesterly from the southwesterly line of Wilbur avenue to be 20.1 feet, as heretofore fixed.
2. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 20.6 feet.
3. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 20.1 feet.
4. The elevation on the centre line at a point distant 192.5 feet northeasterly from the northeasterly line of Henry street to be 19.38 feet, as heretofore established.

Radde Street.

1. The elevation on the centre line at a point distant 465.4 feet southwesterly from the southwesterly line of Wilbur avenue to be 22.64 feet, as heretofore established.
2. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 23 feet.
3. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 22.64 feet.
4. The elevation at Henry street to be 16.8 feet, as heretofore established.

Academy Street.

1. The elevation on the centre line at a point distant 441.5 feet southwesterly from the southwesterly line of Wilbur avenue to be 24.74 feet, as heretofore fixed.
2. The elevation on the centre line at a point distant 110.5 feet southwesterly from the point last described to be 23.8 feet.
3. The elevation on the centre line at a point distant 48.4 feet southwesterly from the point last described to be 23.3 feet.

Hunter Avenue.

1. The elevation at Henry street to be 16.92 feet, as heretofore established.
2. The elevation on the centre line at a point distant 395.3 feet northeasterly from the northeasterly line of Henry street, as laid out southeasterly from Hunter avenue, to be 230 feet.
3. The elevation on the centre line at a point distant 59.5 feet northeasterly from the point last described to be 23.3 feet.
4. The elevation on the centre line at a point distant 209.1 feet northeasterly from the point last described to be 25.72 feet, as heretofore fixed.

Jane Street.

1. The elevation at Jackson avenue to be 19.14 feet, as heretofore established.
2. The elevation on the centre line at a point distant 145 feet northerly from the northerly line of Jackson avenue to be 22.04 feet.
3. The elevation on the centre line at the intersection with the centre line of Hunter avenue to be 23.3 feet.

All elevations refer to mean high water datum as established for the Borough of Queens.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING SEAMAN AVENUE, MANHATTAN.

In the matter of fixing an area of assessment for the proposed opening of Seaman avenue from West Two Hundred and Fifteenth street to West Two Hundred and Eighteenth street, in the Borough of Manhattan, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Seaman avenue, from West Two Hundred and Fifteenth street to West Two Hundred and Eighteenth street in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Seaman avenue, from West Two Hundred and Fifteenth street to West Two Hundred and Eighteenth street in the Borough of Manhattan, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the CITY RECORD that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 10th day of January, 1908; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at the intersection of a line midway between Seaman avenue and Isham street with a line distant 100 feet southerly from and parallel with the southerly line of West Two Hundred and Fifteenth street, the said distance being measured at right angles to the line of West Two Hundred and Fifteenth street, and running thence northwardly along the said line midway between Seaman avenue and Isham street to the northerly line of West Two Hundred and Eighteenth street; thence northwardly at right angles to the northerly line of West Two Hundred and Eighteenth street a distance of 100 feet; thence eastwardly along a line parallel with West Two Hundred and Eighteenth street to its intersection with a line at right angles to the northerly line of West Two Hundred and Eighteenth street, and passing through a point on the said northerly line of West Two Hundred and Eighteenth street where it is intersected by the prolongation of a line distant 165 feet easterly from the easterly line of Park Terrace West, the said distance being measured at right angles to the line of Park Terrace West; thence southwardly at right angles to the line of West Two Hundred and Eighteenth street to the aforesaid point on the northerly line of the said West Two Hundred and Eighteenth street; thence southwardly along a line distant 165 feet easterly from and parallel with the easterly line of Park Terrace West, and along the prolongation of the said line, to the intersection with a line distant 100 feet south of and parallel with the southerly line of West Two Hundred and Fifteenth street, the said distance being measured at right angles to the line of West Two Hundred and Fifteenth street; thence westwardly and parallel with the southerly line of West Two Hundred and Fifteenth street to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 10th day of January, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 10th day of January, 1908.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING RIVERDALE, NEWPORT, LOTT, NEW LOTS AND LIVONIA AVENUES, BROOKLYN.

In the matter of fixing an area of assessment for the proposed opening of Riverdale avenue, from East Ninety-eighth street to Amboy street; from Osborn street to Hinsdale street; from Georgia avenue to Pennsylvania avenue, and from Wyona street to New Lots avenue; Newport avenue, from East Ninety-eighth street to Georgia avenue; Lott avenue, from East Ninety-eighth street to New Lots avenue; New Lots avenue, from Hegeman avenue to Dumont avenue, and Livonia avenue, from East Ninety-eighth street to Hopkinson avenue, in the Borough of Brooklyn, affidavits of publication were presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Riverdale avenue, from East Ninety-eighth street to Amboy street; Riverdale avenue, from Osborn street to Hinsdale street; Riverdale avenue, from Georgia avenue to Pennsylvania avenue; Riverdale avenue, from Wyona street to New Lots avenue; Newport avenue, from East Ninety-eighth street to Georgia avenue; Lott avenue, from East Ninety-eighth street to New Lots avenue; New Lots avenue, from Hegeman avenue to Dumont avenue (excluding land lying within the lines of the aforesaid streets owned by the Long Island Railroad Company, and the Brooklyn and Rockaway Beach Railroad Company); and for the opening and extending of Livonia avenue, from East Ninety-eighth street to Hopkinson avenue, in the Borough of Brooklyn, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Riverdale avenue, from East Ninety-eighth street to Amboy street; Riverdale avenue, from Osborn street to Hinsdale street; Riverdale avenue, from Georgia avenue to Pennsylvania avenue; Riverdale avenue, from Wyona street to New Lots avenue; Newport avenue, from East Ninety-eighth street to Georgia avenue; Lott avenue, from East Ninety-eighth street to New Lots avenue; New Lots avenue, from Hegeman avenue to Dumont avenue (excluding land lying within the lines of the aforesaid streets owned by the Long Island Railroad Company and the Brooklyn and Rockaway Beach Railroad Company); and for the opening and extending of Livonia avenue, from East Ninety-eighth street to Hopkinson avenue, in the Borough of Brooklyn, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavits of the Supervisor of The City Record and the publishers of the corporation newspapers, that due notice was given therein at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 10th day of January, 1908; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at a point on the prolongation of a line midway between Hegeman avenue and Lott avenue distant 100 feet westerly from the westerly line of East Ninety-eighth street, the said distance being measured at right angles to the line of East Ninety-eighth street, and running thence northwardly and parallel with East Ninety-eighth street to the intersection with the prolongation of a line midway between Livonia avenue and Dumont avenue; thence eastwardly along the said line midway between Livonia avenue and Dumont avenue to a point distant 100 feet easterly from the easterly line of Hopkinson avenue; thence southwardly and parallel with Hopkinson avenue to the intersection with a line midway between Livonia avenue and Riverdale avenue; thence westwardly along the said line midway between Livonia avenue and Riverdale avenue to a point 100 feet easterly from the easterly line of Amboy street; thence southwardly and parallel with Amboy street to the intersection with a line midway between Riverdale avenue and Newport avenue; thence eastwardly along the said line midway between Riverdale avenue and Newport avenue to the intersection with a line midway between Thatford avenue and Osborn street; thence northwardly along the said line midway between Thatford avenue and Osborn street to the intersection with a line midway between Riverdale avenue and Livonia avenue; thence eastwardly along the said line midway between Riverdale avenue and Livonia avenue to the intersection with a line midway between Hinsdale street and Williams avenue; thence southwardly along the said line midway between Hinsdale street and Williams avenue to the intersection with a line midway between Riverdale avenue and Newport avenue; thence eastwardly along the said line midway between Riverdale avenue and Newport avenue to the intersection with a line midway between Alabama avenue and Georgia avenue; thence northwardly along the said line midway between Alabama avenue and Georgia avenue to the intersection with a line midway between Livonia avenue and Riverdale avenue; thence eastwardly along the said line midway between Livonia avenue and Riverdale avenue to the intersection with a line midway between Miller avenue and Van Siclen avenue; thence northwardly along the said line midway between Van Siclen avenue and Miller avenue to the intersection with a line midway between Livonia avenue and Dumont avenue; thence eastwardly along the said line midway between Livonia avenue and Dumont avenue to the intersection with a line midway between Warwick street and Jerome street; thence northwardly along the said line midway between Warwick street and Jerome street to the intersection with a line midway between Dumont avenue and Blake avenue; thence eastwardly along the said line midway between Dumont avenue and Blake avenue to a point 100 feet easterly from the easterly line of Montauk avenue; thence southwardly and parallel with Montauk avenue to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Montauk avenue as laid out south of New Lots avenue, the said distance being measured at right angles to the line of Montauk avenue; thence southwardly along the last-mentioned line parallel with Montauk avenue to the intersection with a line midway between New Lots avenue and Hegeman avenue; thence westwardly along the said line midway between New Lots avenue and Hegeman avenue, and the prolongation thereof, to the intersection with a line midway between Williams avenue and Hinsdale street; thence southwardly along the said line midway between Williams avenue and Hinsdale street to the intersection with a line midway between Hegeman avenue and Vienna avenue; thence westwardly along the said line midway between Hegeman avenue and Vienna avenue to the intersection with a line midway between Osborn street and Thatford avenue; thence northwardly along the said line midway between Osborn street and Thatford avenue to the intersection with a line midway between Hegeman avenue and Lott avenue; thence westwardly along the said line midway between Hegeman avenue and Lott avenue, and the prolongation thereof, to the point or place of beginning.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING BRONXWOOD, BARNES AND WALLACE AVENUES, THE BRONX.

In the matter of fixing an area of assessment for the proposed opening and extending of Bronxwood avenue, from Burke avenue to Gun Hill road; Barnes avenue, from Williamsbridge road to Tilden street, and Wallace avenue, from Williamsbridge road to Gun Hill road, in the Borough of The Bronx, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Bronxwood avenue, from Burke avenue to Gun Hill road; Barnes avenue, from Williamsbridge road to Tilden street, and Wallace avenue, from Williamsbridge road to Gun Hill road, in the Borough of The Bronx, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Bronxwood avenue, from Burke avenue to Gun Hill road; Barnes avenue, from Williamsbridge road to Tilden street, and Wallace avenue, from Williamsbridge road to Gun Hill road, in the Borough of The Bronx, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described, and would give a public hearing thereon upon the 10th day of January, 1908; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Beginning at the point where the southerly line of Tilden street intersects the prolongation of a line midway between Barnes avenue and Bronxwood avenue, as these streets are laid out between Gun Hill road and East Two Hundred and Eleventh street, and running thence southwardly along the said line midway between Barnes avenue and Bronxwood avenue and the prolongation thereof to a point distant 100 feet northerly from the northerly line of Gun Hill road; thence eastwardly and parallel with Gun Hill road to the intersection with a line at right angles to Gun Hill road, and passing through a point on the southerly line of Gun Hill road midway between Paulding avenue and Hone avenue; thence southwardly along the said line at right angles to Gun Hill road to the intersection with a line parallel with and distant 100 feet westerly from the westerly line of Hone avenue, the said distance being measured at right angles to the line of Hone avenue; thence southwardly along the said line parallel with Hone avenue to a point distant 100 feet southerly from the southerly line of Burke avenue; thence westwardly and parallel with Burke avenue to the intersection with a line midway between Barnes avenue and Matthews avenue; thence southwardly along the said line midway between Barnes avenue and Matthews avenue to the northerly line of Williamsbridge road; thence westwardly along the northerly line of Williamsbridge road to the intersection with a line midway between Holland avenue and Wallace avenue as these streets are laid out south of South Oak drive; thence northwardly along the said line midway between Holland avenue and Wallace avenue as laid out south of South Oak drive and along the prolongation of the said line to the intersection with the prolongation of a line midway between Holland avenue and Wallace avenue as these streets are laid out north of Bartholdi street; thence northwardly along the said line midway between Holland avenue and Wallace avenue as the said streets are laid out north of Bartholdi street and along the prolongation thereof to the southerly line of Tilden street; thence northwardly at right angles to Tilden street, 150 feet; thence eastwardly and parallel with Tilden street to the intersection with a line at right angles to Tilden street, and passing through the point described as the point or place of beginning; thence southwardly along the said line at right angles to Tilden street to the point or place of beginning.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

APPROVED PAPERS.

The Secretary presented the following communication, which was placed on file:

January 10, 1908.

To the Board of Estimate and Apportionment:

GENTLEMEN—I beg to inform you that his Honor the Mayor has returned to this office the following resolutions, adopted by the Board of Estimate and Apportionment December 6, 1907, and approved by him December 13, 1907, changing the map or plan of The City of New York, viz.:

No. 245—By changing the grade of Centre street, from Chambers street to Canal street, and changing the grade of New Reade street, Duane street, Park street, Pearl street, Leonard street and White street at their intersection with Centre street, Borough of Manhattan.

No. 246—By closing and discontinuing Avenue D, from East Fifteenth street to East Sixteenth street, Borough of Manhattan.

No. 247—By changing the grade of the following streets: Kenmore place, between Woodruff avenue and Caton avenue; East Twenty-first street, between Caton avenue and Church avenue; Caton avenue, between Ocean avenue and Flatbush avenue, Borough of Brooklyn.

No. 248—By changing the grade of New York avenue, from President street to Carroll street, Borough of Brooklyn.

No. 249—By changing the grade of Tremont avenue, from Devoe avenue to Rosedale avenue and changing the grade of intersecting streets affected thereby, Borough of The Bronx.

No. 250—By changing the line of Penfield street, between White Plains road and Wilder avenue, Borough of The Bronx.

No. 251—By changing the grade of Seventh avenue, between Graham avenue and Broadway, in the First Ward, Borough of Queens.

Respectfully,

JOSEPH HAAG, Secretary.

CONTRACT AND SPECIFICATIONS FOR THE SUBSTRUCTURE OF THE DIAGONAL VIADUCT FROM THOMSON AVENUE AT OR NEAR VAN DAM STREET TO JACKSON AVENUE, OPPOSITE THE BLACKWELLS ISLAND BRIDGE, QUEENS.

The following communication from the Pennsylvania Tunnel and Terminal Railroad Company, through its Chief Engineer, submitting contract and specifications for the substructure of the diagonal viaduct from Thomson avenue at or near Van Dam street to Jackson avenue, opposite the Blackwells Island Bridge, Borough of Queens, and report of the Chief Engineer of the Board were presented, and, on motion, the matter was laid over:

PENNSYLVANIA TUNNEL AND TERMINAL RAILROAD COMPANY,
EAST RIVER DIVISION, No. 315 FIFTH AVENUE,
NEW YORK, December 20, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York:

DEAR SIR—In accordance with the provisions of Articles II. and VI., of the agreement entered into June 21, 1907, between the Pennsylvania, New York and Long Island Railroad Company and the Long Island Railroad Company and The City of New York, the cost of construction of "a viaduct or bridge or approach as shown upon said plan over the proposed Sunnyside Yard, located on a diagonal line extending from the northerly side of Skillman avenue as proposed to and including the abutment, the northerly face of which is to be on the northerly line of the present right of way of the Long Island Railroad Company," is to be paid one-half by the companies and the remaining half by The City of New York.

The structure is to be built under a contract or contracts previously approved by the Board of Estimate and Apportionment. The plan for the substructure was approved by the Board of Estimate and Apportionment, September 27, 1907.

We now have the honor to submit a copy of the contract with Degnon Realty and Terminal Improvement Company; the items marked (x) are materials and labor entering into the substructure of said viaduct. The estimated cost of the substructure is as follows:

Foundation excavation (earth), 17,050 cubic yards, at \$2.50.....	\$42,625 00
Foundation excavation (rock), 585 cubic yards, at \$3.50.....	2,047 00
Sand and gravel refill, 9,550 cubic yards, at 70 cents.....	6,685 00
Plumb piles driven and cut off, 76,960 linear feet, at 35 cents.....	26,936 00
Batter piles driven and cut off, 1,640 linear feet, at 40 cents.....	656 00
Concrete, 9,150 cubic yards, at \$7.50.....	68,625 00
Reinforcing rods, 2,460 pounds, at 5 cents.....	123 00
Sheeting and timbering in place, 207,640 feet, B. M., at \$25 per thousand..	5,191 00
Total.....	\$152,888 00
Add 10 per cent. for contingencies.....	15,289 00
Grand total.....	\$168,177 00
Less credit on cement used, 9,380 barrels, at 27 cents.....	2,532 00
Net total.....	\$165,645 00
One-half cost to be paid by City.....	\$82,823 00

One of the items on the above estimate (namely, credit on cement used) may require explanation. In order to give the contractor a definite basis on which to bid for concrete and at the same time insure its proper inspection and storage, this company undertook to furnish the cement at the rate stipulated of \$2 per barrel (see article X.). As this is in excess of the cost to the company up to this time and will probably continue so until this substructure is built, and results in profit to the Company which is taken up in our estimates as a credit to the portions of the work on which the same is expended, we should credit any such profit on the statements of cost provided for in Article VI.

Very respectfully,

PENNSYLVANIA TUNNEL AND TERMINAL RAILROAD COMPANY,
Successor to Pennsylvania, New York and Long Island Railroad Company,

By A. NOBLE, Chief Engineer.

SPECIFICATIONS.

PENNSYLVANIA TUNNEL AND TERMINAL RAILROAD COMPANY, EAST RIVER DIVISION.

SUNNYSIDE YARD.

The Marginal Notes Do Not Form Part of the Specifications.

GENERAL DESCRIPTION.

1. These specifications relate to construction work, for or in connection with, a railroad yard in the Borough of Queens, City and State of New York, extending from Thomson avenue to Woodside avenue, to be known as "Sunnyside Yard," and streets adjacent thereto. The work to be done embraces excavation, embankments, retaining walls, bridge abutments and piers, sewers and other work incident to building all or part of the yard as hereinafter described.

2. The locations, and plans for the work are shown in Contract Drawings Nos. 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438 and 439.

3. The locations of borings made within the yard area and the character of materials at points where borings were made are shown approximately on supplementary drawings. Samples of materials obtained from these borings may be seen at the office of the Resident Engineer. The Company does not guarantee the correctness of the classification or of the samples obtained.

GENERAL CLAUSES.

4. The word "Company" in these specifications means the Pennsylvania Tunnel and Terminal Railroad Company.

5. The word "Contractor" in these specifications means each and every person or corporation that shall execute under contract any portion of the work herein specified whether for supply of materials or for the execution of work.

6. The word "Engineer" in these specifications means the duly appointed Chief Engineer of the East River Division of the Pennsylvania Tunnel and Terminal Railroad Company, or his successor, or such representatives as the said Chief Engineer or his successor may appoint.

7. The word "Inspector" in these specifications means the Inspector or Inspectors duly appointed by the Engineer.

8. The term "Contract Drawings" in these specifications and in the contract, means the plans entitled "Contract Drawing No. ——" approved by the Engineer, defined in the contract and attached with these specifications, to the contract and forming a part thereof.

9. The term "Mean High Water," or "M. H. W.," where used in the contract, specifications or plans, means the plane of reference of the Rapid Transit Commission of The City of New York, and is 41.012 feet below the bench mark of the said Commission located on the south side of Thirty-second street about 167 feet west of Fourth avenue, Borough of Manhattan. It is equivalent to elevation 300.00 on the contract drawings.

10. The Contractor shall maintain all public streets and highways affected by its work. Wherever it is necessary for the Contractor to occupy a part or all of a public street it shall either maintain the remaining surface of the street, or shall provide a temporary street on a location approved by the Engineer and shall maintain the same in a suitable condition for traffic. It shall obtain all permits necessary at its own cost and expense and observe all laws and ordinances relating to the work. After the completion of the work the Contractor shall restore the street surface to the

condition at the beginning of the work. All the requirements of this paragraph shall be carried out to the full satisfaction of the Borough and City authorities.

11. The Contractor shall be solely responsible for any damage to streets, buildings, railroad tracks or other structures resulting from or in any way incident to the execution of the work described in these specifications or any modification thereof herein provided for. It shall provide all timbering, shoring, needling and underpinning that may be necessary to support such buildings or structures. It shall provide support for water pipes, gas pipes and sewers and maintain the flow therein and in case of leakage shall notify, and at all times admit to the works, the duly authorized representatives of the Gas Company or of the City and Borough government having such pipes and sewers in charge and obey their instructions relative thereto, and shall furnish laborers to get access to the pipe or pipes if requested by such representatives, and shall promptly adjust any claims for injury to such property. It shall repair to the satisfaction of the companies interested all damage to electric conduits and wires. It shall take precautions to avoid damage to sidewalks, curbs, manholes and pavements and shall make such repairs to the same as the City or Borough government may require.

12. The tracks of the Long Island Railroad will be moved from their present locations to other locations selected by the Long Island Railroad Company. The grading required for such locations shall be done by the Contractor, embankments being made from materials excavated under this contract and for sole payment the Contractor will receive the price for excavation named in the schedule of the contract. The tracks of the Long Island Railroad will be laid and maintained by the Long Island Railroad Company, but any increased cost of maintenance resulting from the work of the Contractor adjacent to the tracks shall be paid to the Railroad Company by the Contractor.

13. The work is to be commenced, carried on and completed under the orders and directions and to the full satisfaction of the Engineer, who will furnish plans, detailed drawings and locations to the Contractor.

14. The Company reserves the right to change the plans and locations whenever during the progress of the work it deems such change necessary or advisable. Any increase of quantities in the finished work resulting therefrom will be paid for at the rates named in the schedule of unit prices incorporated in the contract; and deductions will be made for any decrease in quantities in the finished work according to the same schedule. When changes of plans and location require work or materials not named in the schedule of unit prices, payment will be made as provided in paragraph 106. The Contractor shall have no further claim for additional compensation in consequence of such change in plans.

15. The Contractor shall check all dimensions and quantities given on the plans and schedule and will be responsible for all errors therein which can be discovered by examining and checking the plans.

16. In cases of any discrepancy between the plans and specifications, the reading and decision of the Engineer as to the true intent and meaning shall be accepted by the Contractor.

17. Whenever any doubt arises as to the meaning of these specifications, the interpretation which in the opinion of the Engineer makes the best work is to be followed.

18. During the existence of this contract, the Contractor shall maintain an office in the vicinity of the work at which its authorized agent shall be present at all times. Instructions from the Engineer left at this office shall be considered as delivered to the Contractor. The Contractor shall always have at this office copies of the specifications and Contract Drawings.

19. In the absence of the Contractor, the Engineer or his representatives shall have authority to give such instructions as he may deem necessary to the Superintendent or Foreman in charge at the point where such instructions are given, and they shall be obeyed as though issued by the Contractor.

20. The Contractor will be required to prosecute the work vigorously every day except Sundays and legal holidays, and when the Engineer deems it necessary the work shall be continued also on such above excepted days. Such portions of the work as the Engineer may require shall be carried on continuously day and night.

MATERIALS AND WORKMANSHIP.

21. Samples of all materials must be submitted to the Engineer and approved by him before being used in the work.

Piles.

22. Piles which are to be left in any permanent structure shall be of oak, yellow, Norway or white pine, or black spruce; they shall have been cut from live timber not more than one year previous to driving in the work; and shall be free from wind shakes, rotten knots or any indication of decay. They shall be not less than 10 inches, nor more than 16 inches in diameter at the point of cut off, and shall be at least 8 inches in diameter at the small end, all measurements of diameter to be made inside the bark. They shall not deviate anywhere more than 6 inches from a straight line joining the ends. The bark shall be removed the entire length before driving; they shall be banded with iron, pointed if required by the Engineer, and driven until they will not penetrate more than 3 inches under ten blows of a hammer weighing 3,000 pounds, falling freely 10 feet. The piles shall be of such length that the part broomed or shaken by driving will be entirely removed when cut off at the proper elevation. Only the portion of piles remaining in the permanent work will be measured and paid for. Any pile broken while driving, or driven off line, must be replaced by the Contractor at its own expense.

23. When required by the Engineer, piles shall have iron shoes, of a design furnished and approved by the Engineer, such shoes to be paid for as provided in paragraph 106.

Sand.

24. Sand for mortar, grout or concrete shall be coarse, sharp and silicious, not containing more than 1.5% of mica, loam, dirt or clay, or of all combined, and equal in quality to the best Hempstead Harbor sand. If required by the Engineer, it shall be screened.

Broken Stone.

25. Sound rock or boulders excavated from the work may be used for broken stone if the quality is approved by the Engineer. If a sufficient amount cannot be obtained from the work, sound trap or hard limestone must be furnished. Gneiss will not be accepted. The rock must be clean when delivered at the crusher. It shall be broken by machine and screened in a rotary screen which will remove all the dust and fragments that will pass through a hole $\frac{3}{4}$ inch in diameter, and all pieces that will not pass through a hole $2\frac{1}{2}$ inches in diameter; all fragments between these limits shall be retained. This is the "large size" stone specified in paragraph 44. The "small size" stone specified in paragraph 44 will correspond in every way with the "large size" stone herein described except that the maximum size shall be that which will pass through a hole 1 inch in diameter.

Bricks and Brick Masonry.

26. Bricks shall be of the best quality common brick, sound, hard-burned entirely through, free from lime and other impurities, regular and uniform in size and of compact texture. Bricks broken or imperfectly burned will not be accepted.

27. Bricks shall be immersed in water for at least 20 minutes before laying; they shall be laid in full beds of mortar and all joints completely filled with mortar. Joints must be broken so as to give the best bond obtainable. The thickness of mortar in beds and joints shall be about $\frac{1}{2}$ inch. Close joints will not be permitted.

28. Brick work in manholes and catch basins shall have both inside and outside a $\frac{1}{2}$ inch coat of mortar mixed in the proportion of 1 volume of cement to 1 volume of sand.

Flags.

29. Flags shall be sound Hudson River blue stone, slate or other hard durable stone acceptable to the Engineer. They shall be not less than 3 inches thick, and of the exact dimensions required by the plans. They shall be free from cracks, splits, soft spots or other defects.

Vitrified Pipes for Sewers and Drains.

30. The Pipes are designated by their interior diameters and each pipe shall be of uniform diameter and truly cylindrical.

31. Pipes shall be of the best material, thoroughly and perfectly burned, without warps, cracks or other imperfections and shall be smoothly salt-glazed in the best manner over their inner and outer surfaces.

32. Straight pipes shall be in lengths of not more than 30 inches. Pipes having openings moulded into them shall be in lengths of 24 to 36 inches.

33. Pipes 10 inches or less in diameter shall have a minimum thickness of $\frac{1}{8}$ inch plus 1-12 of the diameter. Those more than 10 inches in diameter shall have a minimum thickness of 1-12 of the diameter.

34. Pipes shall be connected with hub and spigot joints. The hub shall be of standard depth and clearance.

35. When required, curved pipes shall be furnished. No curved pipe shall exceed three feet in length.

36. All pipes shall be fitted together and matched before being placed in the work so that when joined in place they may form a true and smooth line of tubes.

37. As the pipes are laid, each joint shall be filled with mortar mixed in the proportion of 1 volume of cement to 1 volume of sand. The joints after being cemented shall be carefully wiped inside and outside and pointed, the pipe being left clean and smooth throughout.

38. Pipe shall be measured in the work and payment made for actual length of completed drain or sewer.

39. Where pipe sewers pass under tracks or wherever the Engineer may deem it advisable, cast iron pipes of an equal diameter will be substituted for the vitrified pipes and paid for at the unit prices of cast iron pipes named in the schedule of the contract. Cast Iron Pipe shall be of a quality to conform to and shall be laid according to the specifications for cast iron water pipe issued by the Department of Water Supply, Gas and Electricity of The City of New York in 1903, for water mains in Sherman avenue, etc. A copy of these specifications can be seen at the office of the Engineer.

CEMENT.

40. The company will furnish to the Contractor in the company's warehouse, west of Front street in Long Island City, all the cement required for the permanent work at prices under the conditions named in Article 10 of the contract. The Contractor will be held responsible for the proper storage and safekeeping of cement after delivery to it. The use of cement which has become damaged will not be permitted on the work.

Mortar, Grout and Concrete.

41. In proportioning materials for mortar, grout and concrete 1 volume of cement shall be taken to mean 380 pounds net, 1 volume of sand or broken stone shall be taken to mean $3\frac{1}{2}$ cubic feet packed hard or shaken down. Sand and broken stone shall be measured in barrels or rectangular boxes. Measurements in wheelbarrows will not be permitted.

42. In preparing mortar the specified amounts of cement and sand shall first be mixed dry to a uniform color. The water shall then be added in such a manner as not to wash out any of the cement, and the mixing proceeded with until the mortar is thoroughly mixed and of a uniform consistency.

43. Unless otherwise specified, grout shall be in the proportions of 1 volume of cement to 1 volume of sand. The materials shall be thoroughly mixed dry, water then added and the mixing proceeded with until the grout is of the required consistency. To prevent separation the mixing shall be continued vigorously until the entire amount mixed is used.

44. There shall be three classes of concrete, the proportions of which shall be as follows:

Class A. One volume of cement to 3 volumes of sand and 6 volumes of broken stone specified as "large size" in paragraph 25.

Class B. One volume of cement to $2\frac{1}{2}$ volumes of sand and 5 volumes of broken stone specified as "small size" in paragraph 25.

Class C. One volume of cement to 2 volumes of sand and 3 volumes of broken stone specified as "small size" in paragraph 25.

45. The Engineer will in all cases decide what class of concrete shall be used in any part of the work, but in general the three classes will be used as follows:

Class A will be the standard mixture for all retaining walls, bridge piers, abutments and other massive work.

Class B will be used in confined places or wherever in the opinion of the Engineer better results will be obtained by the use of small stone. It will be used for all concrete sewers.

Class C will be used for all concrete copings to a depth of 9 inches below the final surface.

46. Whenever practicable concrete shall be machine mixed. The mixing machine shall be a rotary mixer and of a pattern that will mix the concrete in batches and permit the definite measurement of the materials for each batch. When the Engineer considers it impracticable to mix concrete with a machine, it may be mixed by hand. The hand mixing shall be done on a platform of boards or planks securely fastened together. The cement and sand shall first be mixed and made into mortar as specified in paragraph 42 and broken stone, previously wetted, shall then be added and the mortar and stone turned over with shovels until the mortar is uniformly distributed throughout the mass and every stone coated with mortar.

47. Water used in mortar, grout and concrete shall be clean fresh water.

48. The degree of moisture for mortar, grout and concrete shall be at all times as required by the Engineer or his inspector; in general, mortar shall be plastic, grout shall be fluid enough to be pumped, and concrete shall be of such consistency that it will quake when being deposited, but not wet enough to cause the mortar to separate from the mixture.

49. No mortar, grout or concrete which has commenced to set shall be used in the work. Retempering of mortar, grout or concrete which has commenced to set will not be permitted. No concrete or other masonry shall be laid in freezing weather except with the permission of the Engineer and under such conditions as he may approve.

50. Where the thickness of concrete masonry exceeds 6 feet, masses of stone may be built into it; such stones shall be clean, hard, compact and free from cracks or other imperfections. They shall be set on their largest beds in at least 6-inch beds of concrete and have full bearing therein. They shall be at least 6 inches apart at every point and at least 12 inches from the face of the masonry. No stone shall be more than 2 feet in thickness. The large stones shall not in the aggregate exceed 25 per cent. of the total volume of the masonry containing them.

51. Concrete shall be deposited in the work in such a manner as not to cause separation of mortar and stone. It shall be laid quickly in layers not exceeding 9 inches in thickness and thoroughly spaded and rammed with rammers of such form and material as the Engineer may approve. Special shaped rammers will be required for corners and other places where ordinary rammers would not be effective. Compact, dense concrete must be obtained with all the voids between the stones filled with mortar. If voids are discovered at any time the defective concrete shall be removed and immediately replaced by concrete of such mixture and in such manner as the Engineer may direct, at the sole cost and expense of the Contractor.

52. When the placing of concrete is suspended, the Engineer may require a joint to be formed in a manner satisfactory to him so that fresh concrete, when added, may have a bond. Before depositing fresh concrete, the entire surface on which it is to be laid shall be cleaned, washed, brushed and slushed over with grout made of cement without sand.

53. The surface of freshly laid concrete shall be protected from damage for such time and in such manner as the Engineer may require; concrete damaged in any manner shall be removed and replaced at the Contractor's sole cost and expense.

54. The tops of finished walls, piers, abutments and other concrete masonry shall be protected from sun and rain and kept moist by sprinkling or otherwise for a period of at least five days.

55. Forms for concrete shall be substantial and must preserve their accurate shape until the concrete has set. Where the concrete will show in the finished work, the face of the form shall be built of matched and dressed planking finished truly to the lines and surfaces shown on the plans. Adequate measures shall be taken to prevent adhesion of mortar to the forms. No forms that have become warped or distorted shall be used. Forms shall not be removed until permission has been given by the Engineer.

56. Faces which will show in the finished work shall be true to the form intended and shall be smooth and free from cavities due to shortage of mortar. Exposed faces shall have a facing of mortar two inches thick, deposited simultaneously with corresponding layers of concrete and separated from the concrete by a metal diaphragm of approved form. After the mortar and concrete have been deposited the diaphragm shall be removed and the materials well worked together by spading and tamping so as to insure their bonding. Plastering the face after removing the forms will not be

permitted. The facing mortar shall be of the same composition as the mortar used in the concrete placed against it, and will be paid for at the unit price named in the contract for concrete. Copings shall be finished with a trowel to the true lines and surfaces.

57. Immediately after removing the forms the face of the concrete which will be exposed in the finished work, shall be rubbed smooth with a brick made with the same proportion of cement and sand as the face mortar. A slush of thin neat grout shall be used throughout the rubbing.

58. Rock surfaces shall be thoroughly washed and cleaned before concrete is deposited against them and earth surfaces shall be wetted and compacted by ramming immediately before depositing concrete upon them. No concrete shall be deposited in water except by special permission of the Engineer which will not be given if the complete removal of water is practicable.

59. Where required by the Engineer concrete shall be reinforced with twisted or corrugated steel bars of approved design or with expanded metal whether the reinforcement is shown on the contract drawings or not, and in cases where the reinforcement is not shown on the contract drawings, it shall be provided in such form and arrangement as the Engineer may direct. Payment will be made at the unit prices named in the schedule of the contract.

60. All concrete work shall be completed to exact lines and grades as given by the Engineer and of the dimensions required by the plans. Any increase of quantities over those required by the drawings will not be paid for unless authorized by the Engineer.

EXCAVATION, EMBANKMENT AND BACKFILLING.

61. Excavation comprises (a) general excavation for the yard which includes the removal of all materials down to the established subgrade of the tracks and streets and the finishing of the roadbed, side slopes, ditches and street surfaces to the forms shown on the contract drawings, and (b) excavations in trenches, which includes the removal below the subgrade of the yard in excavation and below the present surface of the ground in embankments except as stated in paragraph 73 necessary for the construction of retaining walls, bridge piers and abutments, sewers and other constructions shown on the contract drawings. The unit prices for excavation are understood to include the cost of placing excavated material in embankments and backfilling as hereinafter specified.

62. The excavation will consist of solid rock and other material in unknown proportions. Earth, quicksand, hard pan, boulders, rubbish in cellars, cellar walls, sidewalks, curbs, pavements, disintegrated rock not requiring blasting, and all excavated materials except ledge rock requiring blasting, will be classified, estimated and paid for as earth excavation. Solid rock will include only rock in ledge requiring blasting. Large boulders and detached masses of rock whether requiring blasting or not, will not be considered solid rock.

63. There will be five unit prices for excavation as follows:

1. Earth in general excavation for the yard and streets.
2. Solid rock in general excavation for the yard and streets.
3. Earth in trenches required for Thomson avenue and Bridge approach viaducts and No. 5 track bridge according to contract drawings.
4. Earth in trenches required for all retaining walls, bridge piers, abutments and sewers, except the three structures mentioned in No. 3 of this paragraph.
5. Solid rock in trenches.

64. Excavation will be measured in the solid in place with no allowance for increase in volume after excavation.

65. Embankment comprises the fill required in portions of the yard to bring the surface up to the elevations, profiles and sections shown on the contract drawings, and the filling and grading of streets within the limits or in the vicinity of the yard as shown on the contract drawings.

66. Backfilling comprises all filling required behind and in front of retaining walls, around bridge piers and abutments, and around and over sewers to bring the restored surface to the present ground surface or to the surface of the finished yard, the lower of the two to be taken.

Clearing and Grubbing.

67. The entire area of the work shall be cleared of all trees, stumps, logs, brush and other perishable matter and all such materials shall be removed from the premises. Where the height of embankment will be less than three feet, stumps and brush shall be grubbed out; where the embankment will be three feet or more in height, they shall be cut off close to the ground. No specific payment will be made for this work, the cost being considered included in the unit prices for excavation named in the schedule of the contract.

General Excavation.

68. The excavation may be made by any method which the Contractor prefers if satisfactory to the Engineer, but shall be commenced and prosecuted at localities designated by the Engineer from time to time so that other work to be done at the site by the company can be taken up advantageously.

Excavation in Trenches.

69. Where sheet piling is used the top width of the trench shall be sufficient to admit of placing as many sets of sheet piling as may be needed in carrying the excavation to full depth without reducing the dimensions of the work to be built within the trench. Where wet work is encountered, special precautions shall be taken to keep the excavation dry, tongued and grooved sheeting being used if the Engineer requires, and an adequate pumping plant installed.

70. No specific payment will be made for pumping, sheeting, timbering and other costs of supporting the sides of the trenches in order to complete the excavation and the constructions to be placed in the trench, but all such costs are understood to be included in the unit prices for excavation from trenches named in the schedule of the contract.

71. In rock excavation special care must be taken to avoid as far as practicable the removal of rock outside the neat line of masonry, but when material outside of the neat line is loosened by blasting, it must be removed.

72. The excavation for retaining walls, bridge piers and abutments will not be required to be larger than necessary to place the masonry structures; but as a fair provision for unavoidable excavation outside of the neat lines of the masonry structures, payment will be made for all the material included between vertical planes three feet outside the exterior lines of the masonry structure as shown on plans for Thomson avenue and Bridge approach viaducts and No. 5 track bridge; and between vertical planes one foot outside the exterior lines of the masonry as shown on plans for all other masonry structures whether all of the material thus measured is excavated or not, and no payment will be made for actual excavation outside those lines. The depth estimated shall be in all cases the depth ordered by the Engineer to be excavated. No material excavated outside such vertical planes or below such depth will be measured or paid for. The unit prices named for excavation in the schedule of the contract, together with the allowance above named being considered to provide for such additional excavation.

73. In excavating for piers, abutments and retaining walls for the Bridge approach and Thomson avenue viaducts and No. 5 track bridge the trenches shall be made of a depth sufficient to remove all mud, silt and other soft material. After the trenches have been so excavated and before piles are driven, refilling shall be made as specified in paragraph 84. Where swamp land has been filled over before making excavations for piers and abutments, payment will be made only for materials excavated below elevation 304.00.

74. In excavation for sewers the width of the trench at the bottom shall be two feet greater than the largest outside dimension of the sewer where the interior diameter of the sewer is thirty-six inches or more; and one and one-half feet greater than the largest outside dimension where the interior diameter is less than thirty-six inches.

75. In trenches for pipe sewers 30 inches or less in diameter, the bottom shall be shaped as nearly as possible to fit the lower half of the pipe, with places cut for the hubs, so that the pipe may have a uniform bearing on the ground.

76. Quantities of excavation from trenches for sewers will be estimated as of the widths specified in paragraph 74 and the depths ordered by the Engineer to be excavated. No payment will be made for any additional material excavated, it being considered that provision is made for such additional excavation, if any, in the unit prices of the schedule of the contract for excavation.

77. All sheeting and timbering shall be withdrawn from the trenches unless the Engineer permits or orders it to be left in. In cases where the Engineer orders the sheeting and timbering left in place, and in such cases only, it will be paid for and at the unit price named in the schedule of the contract.

Embankment.

78. The embankments within the yard limits shall be formed in layers of such depth and the materials disposed and distributed in such manner as the Engineer may direct. All fills and embankments shall be finished neatly and truly to the lines and grades given by the Engineer.

79. In order to prevent the formation of earth waves as much as possible, the entire portion of the swamp land over which embankment is to be placed shall first be filled up to a uniform height of about elevation 304 before any material for higher embankments is deposited.

80. The material for embankments for streets shall contain no stones of more than 2 cubic feet and the aggregate of stones more than 3 inches in diameter shall not be more than one-quarter of the material in any place. It shall be deposited in layers not more than 2 feet in thickness, horizontal or highest at the sides. Where the embankment is built behind a retaining wall the material for a distance of 15 feet from the wall shall contain no stones more than 8 inches in diameter; shall be deposited in layers not more than 9 inches in thickness, the layers to be horizontal or sloping away from the wall, to be properly watered and thoroughly compacted by ramming as hereinafter specified for backfilling. No soft clay, mud, silt or vegetable matter will be allowed in any embankment.

Backfilling.

81. After the completion of bridge piers and abutments, retaining walls, sewers or other constructions in trenches the spaces left between such constructions and the sides of the excavation shall be filled with earth, deposited in such a manner as not to bring unnecessary pressure on the structures. No soft clay, mud, silt or vegetable matter or frozen material will be permitted.

82. Backfilling at retaining walls, bridge abutments and piers shall be deposited in layers not exceeding 9 inches in thickness and shall contain no stones exceeding 8 inches in diameter, and shall not contain anywhere a larger proportion of stones than one-quarter of the whole. Backfilling at sewers shall be deposited in layers not exceeding 6 inches in thickness; shall contain no stones larger than 2 inches in diameter from the bottom of the trench to a height of 2 feet over the top of the sewer and above that level shall contain no stones more than 6 inches in diameter and the proportions of stones shall not anywhere exceed one-quarter of the whole.

83. Each layer of backfilling shall be properly watered and thoroughly compacted by ramming. The rammers shall weigh not less than 20 pounds each and the striking face shall not exceed 20 square inches in area. Special care and tools shall be used in packing around water pipes, sewers and other structures.

Refilling of Foundations with Gravel or Sand.

84. Where mud or silt is encountered in the excavations for bridge abutments, piers and foundations, it shall be entirely replaced up to the elevation shown on Contract Drawings for base of concrete with clean gravel or sand washed or tamped solidly in place. Where pile foundations are used the gravel or sand filling shall be placed to within one foot of the intended final height before driving piles, and shall be graded to the required elevation after the piles are driven. The removal of mud or silt will be paid for at the unit price named in the schedule of the Contract. Gravel filling will be paid for at the unit price named in the schedule of the Contract for refilling foundation excavations with gravel or sand.

SEWERS.

85. Sewers shall be of concrete, cast iron or vitrified pipes, as shown on the Contract Drawings.

86. Forms for concrete sewers shall be substantial enough to hold the concrete firmly. They shall be smooth and of exact dimensions to form both the inner and outer surfaces of the sewers.

87. The entire inner surface of sewers shall be formed of a 1-inch layer of mortar containing 1 volume of cement to 1 volume of sand placed directly against the centre form simultaneously with the concrete. A metal diaphragm shall be used when required by the Engineer.

88. Wherever the Engineer may direct, concrete shall be reinforced as shown on Contract Drawing No. 431. The reinforcement shall consist of square twisted steel rods cut to the required length, bent cold, and be paid for at the unit price named in the schedule of the contract.

89. No forms shall be removed without the permission of the Engineer. Immediately after the centre form is removed any irregularities of the surface shall be smoothed down and the inner surface washed with a neat cement grout applied with a whitewash brush. All forms shall be furnished by the Contractor and included in the unit price for sewers named in the schedule of the contract.

90. Manholes and catch basins shall be built wherever the Engineer may direct in addition to those shown on Contract Drawings Nos. 430, 431, 433 and 435, and will be paid for at the unit prices named in the schedule of the contract.

91. The Contractor shall make all connections between the main and branch sewers, and these connections will be included in the unit prices for sewers named in the schedule of the contract.

DISPOSAL OF MATERIALS.

92. Excavated materials shall be disposed of as follows:

- (a) To raise the surface of the yard to the proper elevations and grades where fill is required.
- (b) To raise the grades of streets.
- (c) For backfilling and refilling foundations with gravel or sand, as hereinbefore specified.
- (d) All soft clay, mud, silt or vegetable matter will be removed from the premises by the Contractor and disposed of at his own cost and expense.
- (e) Water pipes belonging to the City or Borough, gas pipes, conduits, track material and other property belonging to the City, Borough or other owners, shall be disposed of as directed by the proper authorities.
- (f) All excavated materials not above provided for will be removed from the premises and placed by the Contractor in embankment under the direction of either the Chief Engineer of the New York Connecting Railroad or the Long Island Railroad. No specific allowance will be made for the cost of removing this material from the premises and placing it in embankment, it being understood that the cost is included in the unit prices named in the contract for excavation; but an allowance of 8 cents for each yard deposited between Woodside avenue and 2,000 feet eastward therefrom will be made on account of use of plant, trackage and haul.

MISCELLANEOUS.

93. The Engineer and his representatives, or any other duly authorized representative of the Company, shall at all times have the right to enter the premises where any of the materials are being prepared or stored, any of the plant operated or any of the work done.

94. No person shall be admitted to the work without the written consent of the Engineer, except the Contractor's employees, the Engineer and his representatives and duly authorized representatives of the Company and representatives of the City government in the performance of their duties.

95. No information relative to the work shall be given by any of the Contractor's employees to any person during the progress of the work unless authorized by the Engineer.

96. The Contractor shall furnish to the Engineer every facility for the inspection of materials and workmanship, and no part of the work shall be covered until inspected by the Engineer or his representatives.

97. The Engineer will furnish all necessary stakes for lines and grades.

98. Rejected materials may be branded or otherwise marked and shall be removed from the work immediately and not returned.

99. The Contractor shall employ a sufficient number of watchmen to guard all parts of the work.

100. The Contractor shall maintain every part of the work in thoroughly good condition (pumping when necessary) until finally accepted by the Engineer.

101. The Engineer may order the discharge of any employee of the Contractor for inefficiency or for conduct which in the opinion of the Engineer is prejudicial

to the interests of the Company, and such order shall be obeyed immediately by the Contractor and the employee shall not again be employed on the work. Subcontractors and their employees shall be considered as employees of the Contractor.

102. Only experienced men shall be allowed to handle explosives, and all City and other government regulations regarding their composition, storage and use must be strictly complied with.

103. The Contractor shall at its own expense provide efficient lighting for all portions of the work which are carried on at night.

104. No advertisement will be permitted on any fence inclosing any of the Company's lands or on any structure or in any place upon them.

105. Any inefficient or imperfect work that may be discovered before the final acceptance of the work, shall be corrected immediately on the requirement of the Engineer, notwithstanding that it may have been overlooked or accepted by the proper inspector. In all work of whatever kind, which, during its progress and before its final acceptance, shall become damaged from any cause, so much of it as may be objectionable shall be taken down and removed, and shall be replaced by good and sound work, to the satisfaction of the Engineer.

106. Any work which the Engineer may require in addition to that shown by the plans and standard sections or in modification thereof, shall be immediately performed by the Contractor. Payment shall be made for this work at the rates named in the schedule of unit prices when the classes of work required are named in the schedule. For work not named in the schedule, payment will be made on a basis of net cost of labor and materials duly ascertained, determined and certified by the Engineer, and in addition thereto, 10 per cent. of net cost for use of tools and all other plant, superintendence and all other miscellaneous expenses; or in lieu of such payment for net cost plus 10 per cent., the Engineer and Contractor may agree in writing upon a fixed amount to be paid by the Company for such work.

107. The Contractor shall furnish all labor and tools called for by the Engineer for placing monuments, plugs and stakes or other points used in surveys for which it will be paid actual cost of labor plus an allowance of 10 per cent. for superintendence and the use of tools. If any point be disturbed, the Engineer may require the Contractor to bear the expense of replacing it.

108. Except in cases where these specifications or the contract expressly otherwise provide, the Contractor shall receive no payment for the materials, labor or other cost of executing the requirements of these specifications and the work described thereunder, except the payments provided in the schedule of unit prices in the contract, it being understood that the entire cost incident to executing the work, as herein described and required to be done, is fully provided for in the schedule of unit prices.

109. The Contractor shall afford such facilities as the Engineer may require for other Contractors or persons whom the Company may employ in connection with the work, and any expense to which the Contractor may be subjected by reason thereof in excess of what it would have incurred had these facilities not been afforded, as ascertained and certified by the Engineer, shall be paid to the Contractor independently of the allowance and payments provided in the contract.

110. Upon the completion of any part of the work, the Contractor shall, on demand of the Engineer, remove its plant and materials or such portion as the Engineer may deem necessary so as not to impede the execution of the remaining works by the Contractor or others. Upon the completion of the entire work and its acceptance by the Engineer, the Contractor shall remove from the Company's property all plant and materials of every description belonging to it and leave the premises free from rubbish and waste materials and in a finished condition.

CONTRACT.

Agreement made this day of 1907, between the Pennsylvania Tunnel and Terminal Railroad Company, hereinafter called the Company, party of the first part, and the Degnon Realty and Terminal Improvement Company, of No. 60 Wall street, New York City, hereinafter called the Contractor, party of the second part.—Witnesseth:

1. That the Contractor, the said party of the second part, in consideration of the agreement herein, by the Company, the said party of the first part, does hereby promise and agree to and with the said Company, that it will at its own sole cost and expense furnish all labor and services and all materials for (except such materials as the Company expressly agrees herein to furnish), and will construct, complete and finish in the most thorough workmanlike and substantial manner, in every respect to the satisfaction and approval of the Company's Chief Engineer for the time being (hereinafter referred to as the Engineer) in the manner and within the time hereinafter limited, the several works and constructions required at and near the site of the "Sunnyside Yard" of the Company as herein named and described.

(a) The excavation of the site of the yard and the building of embankments for tracks and streets, excepting the excavation and embankments provided for under existing contracts.

(b) The excavation for and construction of concrete and other masonry for retaining walls, piers and abutments for railroad and highway bridges or viaducts.

(c) The excavation for and construction of sewers.

The execution of the work above described shall be subject to the terms, restrictions and conditions of the Company's franchise, and according to the specifications hereto annexed and made a part of this contract, and in strict accordance with the plans furnished or to be furnished by the Engineer therefor.

2. The plans and specifications of this contract are intended to co-operate, so that any work exhibited in the plans and not mentioned in the specifications, or vice versa, shall be done in the same manner as if mentioned in the specifications and set forth in the plans, to the true intent and meaning of said plans and specifications or either of them. The Contractor at its own proper cost and expense shall provide all manner of labor, materials, apparatus, scaffolding, sheeting, timbering, tools, machinery and appliances of every description required to do and complete the work, except such materials as the Company herein agrees to furnish.

3. The Contractor agrees to begin the work embraced in this contract within fifteen days after the execution of the contract, to prosecute it diligently and continuously and to complete the whole work on or before the first day of February, 1909.

4. The plans herein referred to are thirty-nine in number, bear date of June 24, 1907, are signed by the Engineer, bear the general title of "Contract Drawing No." and are designated by the following numbers: 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438 and 439.

5. In addition to the contract drawings the Company has had prepared two drawings signed by the Engineer and bearing the same date as the contract drawings, but entitled "Supplementary Drawing No." which are designated by the following numbers, 18 and 19. These drawings exhibit certain data which the Company has obtained from its Engineer concerning the nature of the soil underlying portions of the site. The supplementary drawings have been exhibited to the Contractor without any guaranty or assurance on the part of the Company as to their completeness, accuracy and sufficiency; and the Contractor may, at its option and at the expense of the Company, have copies thereof for such aid, if any, as the Contractor may derive from them. If in the course of the work embraced in this contract, difficulties of any nature be encountered which are not indicated or suggested by the supplementary drawings, or if in any way such supplementary drawings be found erroneous or in any respect incomplete, the Contractor shall have no claim whatever for such failure, discrepancy or error, but is to take every necessary precaution to overcome the unforeseen difficulty according to the directions of the Engineer. The Contractor agrees to obtain any further information in regard to the geological formation which it may deem necessary or desirable at its own cost and expense, providing itself with any and all permits, licenses and other consents and privileges required by City or other government authorities.

6. The Contractor shall be entitled to no payment for extra work or materials excepting as provided in the specifications and in this contract and under a written order of the Engineer and then only when a claim therefor is presented to the Engineer for allowance at the close of the calendar month in which the same had been done or furnished; otherwise, all claims for such work or materials shall be deemed absolutely waived by the Contractor and the Company shall not be required to allow or pay for the same or for any part thereof.

7. In order to prevent disputes and misunderstandings between the parties hereto in relation to the performance of any of the stipulations and provisions contained in this agreement, or as to the true intent and meaning hereof, or as to any other question which may arise hereunder and for the speedy settlement of any such disputes and misunderstandings as may arise hereunder, it is hereby agreed that the Engineer shall be and he hereby is constituted the sole umpire to finally decide all such questions

and matters and to settle any such disputes and misunderstandings as aforesaid; and the Engineer shall also decide the amount and quality, character and kind of work and materials performed and furnished by the Contractor under this contract, including all extra work and materials and claims for compensation therefor, and the Engineer's decision, certified by him in writing, shall be final and conclusive on each of the parties to this contract.

8. The Company contemplates and the Contractor hereby approves the most thorough and minute inspection by the Company, its Engineer and the representatives and subordinates of the Company or Engineer, of all work and materials and of the manufacture or preparation of such materials from the beginning of construction to the final completion of the work. It is the intention of the Company that the Engineer shall draw the attention of the Contractor to all errors and variations from the requirements of the contract and specifications, or other defects in workmanship or materials, but it is expressly agreed that no omission on the part of the Company or its Engineer, or any officer, representative or subordinate of the Company, shall give the Contractor any right or claim against the Company or in any way relieve the Contractor from its obligation to fully construct the work according to the terms of this contract.

9. The Contractor shall at all times give to the Engineer and the assistants and representatives under the Engineer, all facilities, either necessary or convenient, for inspecting the materials to be furnished and the work to be done under this contract. The Engineer or any person bearing his authorization or the authorization of the Company shall be admitted at any time summarily and without delay to any part of the work, or to an inspection of materials at any place or stage of their manufacture, preparation, shipment or delivery.

10. The Contractor agrees to receive from the Company, and the Company to deliver to the Contractor all cement required in the permanent work at the rate of two dollars (\$2) for 380 pounds of cement, the cement to be delivered to the Contractor in the Company's warehouse west of Front street, Long Island City. At the end of each month, the Engineer shall furnish the Contractor a statement of the amount of cement thus delivered to the Contractor during the month, and is hereby authorized to deduct the amount due therefor from the next or any following estimate. The cement is to be delivered in sacks which will become the property of the Contractor. The Contractor is to be responsible for the safekeeping of the cement after delivery to it. The Company will diligently endeavor to keep on hand at all times a sufficient supply of cement, but the Contractor shall have no claim for damages if at any time or times the supply shall be insufficient, and the work impeded or delayed thereby; but it shall be entitled to an extension of time for the completion of its contract by a period equal to that during which the work was so impeded or delayed.

11. It is further agreed between the parties hereto that the Contractor shall have no right or power to assign this contract in whole or in part, nor to assign any interest therein or right or compensation arising thereunder; and in case of the insolvency or bankruptcy of the Contractor before completion of the work and full compliance with all the terms and provisions of this contract, no receiver, trustee, or other legal representatives of the Contractor, shall acquire or be entitled to any interest in or rights under this contract, nor to the payment of any moneys theretofore earned by the Contractor which may be then unpaid, but on the contrary such insolvency or bankruptcy of the Contractor shall operate to immediately terminate this contract, and thereupon the Company shall have the right to retain all moneys theretofore earned by the Contractor and then unpaid until the completion of the work and the securing of the objects and purposes contemplated by all the terms and provisions of the contract, and to apply such moneys or so much thereof as may be required to the completion of the work and to the securing of the purposes and objects contemplated by all the terms and provisions of the contract, and the balance of such moneys, if any there be, after the application thereof by the Company to the purposes aforesaid, shall be paid to the Contractor, its receiver, trustee or other proper legal representative who may be entitled thereto. It is distinctly understood and agreed that the rights in this paragraph reserved to the Company are not exclusive of, but are in addition to, any and all other rights and remedies elsewhere in this contract provided.

12. It is further agreed that no part of the work embraced in this contract shall be sublet or in any way removed from the control of the Contractor, under the direction and supervision of the Engineer as aforesaid, except with the written consent of the Engineer, but this provision shall not apply to the purchase and delivery of materials necessarily manufactured and procured elsewhere.

13. The Company, in consideration of the faithful performance by the Contractor of all and singular its covenants, promises and agreements herein contained, agrees to pay the Contractor, on the full completion by it of all things embraced in this contract, in the manner and within the time herein specified and limited, and to the satisfaction and acceptance of the Engineer, at the rates named in the following schedules:

SCHEDULE No. 1.

For Excavation and Disposal of Materials as Described in the Specifications.

Approximate Quantities.	Unit Prices.	Amount.
Excavation of all materials except solid rock in grading for tracks and streets, 1,880,000 cubic yards.....	\$0 38	\$714,400 00
Excavation of solid rock in grading for tracks and streets, 10,000 cubic yards	1 50	15,000 00
Excavation of all materials except solid rock in trenches for abutments, piers, retaining walls on Thomson avenue, and bridge approach viaducts and No. 5 track bridge, 44,000 cubic yards.....	2 50	110,000 00
Excavation of all materials except solid rock in trenches for abutments, piers, retaining walls, sewers, pipes, etc., on all structures other than Thomson avenue and bridge approach viaducts and No. 5 track bridge, 28,000 cubic yards.....	1 00	28,000 00
Excavation of solid rock in trenches for abutments, piers, retaining walls, sewers, pipes, etc., 1,000 cubic yards.....	3 50	3,500 00
Refilling foundation excavation up to the bottom line of masonry with gravel or sand, 19,000 cubic yards.....	70	13,300 00
Total		\$884,200 00

SCHEDULE No. 2.

For Bridge Abutments, Piers, Retaining Walls and Foundations, as Shown on Contract Drawings Nos. 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428 and 429, and Described in the Specifications.

Approximate Quantities.	Unit Prices.	Amount.
Concrete masonry in foundations, piers, abutments and retaining walls, 75,600 cubic yards.....	\$7 50	\$567,000 00
Steel reinforcement in concrete in place—rods, 66,000 pounds.....	05	3,300 00
Steel reinforcement in concrete in place—expanded metal, 1,000 pounds.....	08	80 00
Steel reinforcement in concrete in place—I beams, 5,000 pounds.....	03	150 00
Plumb piles driven and cut off, 160,700 linear feet.....	35	56,245 00
Batter piles driven and cut off, 16,700 linear feet.....	40	6,680 00
Sheeting and timbering left in place by order of Engineer, 90,000 feet (B. M.).....	25 00	2,250 00
Total		\$635,705 00

SCHEDULE No. 3.

For Sewers for Surface Drainage and Combined System as Shown on Contract Drawings Nos. 430, 431, 432, 433, 434, 435 and 436, and Described in the Specifications.

Approximate Quantities.	Unit Prices.	Amount.
Concrete masonry in sewers where the sewer cross-section is approximately circular, excluding excavation, but including backfilling and repairs to street paving, 1,917 cubic yards.....	\$10 65	\$20,416 05
Concrete masonry in sewers where the sewer cross-section has flat sides, excluding excavation, but including backfilling and repairs to street paving, 5,660 cubic yards.....	9 65	54,619 00
Steel reinforcement in concrete in place—rods, 233,000 pounds.....	05	11,650 00
Steel reinforcement in concrete in place—expanded metal, 41,000 pounds.....	08	3,280 00
Steel reinforcement in concrete in place—I beams, 39,000 pounds.....	03	1,170 00
Plumb piles driven and cut off, 8,700 linear feet.....	35	3,045 00
Sheeting and timbering left in place by order of Engineer, 35,000 feet (B. M.).....	25 00	875 00
Furnishing materials for and laying 42-inch cast-iron sewer, exclusive of excavation, but including backfilling, 170 linear feet.....	14 00	2,380 00
Furnishing materials for and laying 36-inch cast-iron sewer, exclusive of excavation, but including backfilling, 250 linear feet.....	11 00	2,750 00
Furnishing materials for and laying 30-inch cast-iron sewer, exclusive of excavation, but including backfilling, 650 linear feet.....	9 10	5,915 00
Furnishing materials for and laying 24-inch cast-iron sewer, exclusive of excavation, but including backfilling, 1,800 linear feet.....	6 45	11,610 00
Furnishing materials for and laying 18-inch cast-iron sewer, exclusive of excavation, but including backfilling, 1,000 linear feet.....	5 00	5,000 00
Furnishing materials for and laying 12-inch cast-iron sewer, exclusive of excavation, but including backfilling, 800 linear feet.....	2 65	2,120 00
Furnishing materials for and laying 30-inch vitrified pipe sewer, exclusive of excavation, but including backfilling, 1,150 linear feet.....	4 00	4,600 00
Furnishing materials for and laying 24-inch vitrified pipe sewer, exclusive of excavation, but including backfilling.....	2 00
Furnishing materials for and laying 18-inch vitrified pipe sewer, exclusive of excavation, but including backfilling.....	1 35
Furnishing materials for and laying 15-inch vitrified pipe sewer, exclusive of excavation, but including backfilling.....	1 15
Furnishing materials for and laying 12-inch vitrified pipe sewer, exclusive of excavation, but including backfilling.....	85
Furnishing materials for and laying 8-inch agriculture tile drain pipe, exclusive of excavation, but including backfilling.....	15
Brick masonry in manholes, 62 cubic yards.....	15 00	930 00
Cast-iron manhole covers in place, 15,000 pounds.....	03 1/2	525 00
Ladder rods for manholes in place, 240 in number.....	40	96 00
Flags for manholes in place, 32 square feet.....	50	16 00
Furnishing materials for and building junction chamber at Paynter avenue and Jackson avenue, not including excavation, but including backfilling and restoring street paving, 1 in number.....	1,000 00	1,000 00
Furnishing materials for and building catch basins, not including excavation, but including backfilling, 29 in number.....	150 00	4,350 00
Furnishing materials for and building inlets, not including excavation, but including backfilling, 5 in number.....	150 00	750 00
Total		\$137,097 05

14. The unit prices hereinbefore named shall be used in making progress estimates of materials and labor in the completed work.

15. Payments under the foregoing provisions shall be subject to the following conditions:

(a) The unit prices include the cost of materials and labor other than those mentioned in the schedule, but required by the plans and specifications.

(b) Except as otherwise provided in the specifications, only actual weights or actual net measurements of materials in place, shall be estimated and paid for, notwithstanding any local or foreign custom to the contrary.

16. Monthly payments based on estimates prepared and certified by the Engineer and on the unit prices hereinbefore specified shall be made to the Contractor on or about the 20th day of each calendar month for work performed up to the end of the previous calendar month. Ten per cent. shall be retained until the Engineer shall have in writing certified the completion of the work; but no portion of the said retained ten per cent. shall be paid or considered due the Contractor until it shall have shown to the satisfaction of the Engineer that the work is free of all liens, claims and demands for labor, materials and supplies, as herein provided.

17. If the Company at any time fails to make a monthly payment at the time hereinbefore specified, such failure shall not be held or deemed to vitiate or void this contract, but in such case the Contractor shall be entitled to interest at the rate of ten per cent. per annum on the amount of such unpaid monthly payment until payment shall have been made, and the Contractor shall have the right to stop all work until so paid; and in that case the date for the completion of the work shall be deferred by a period equal to the period of such stoppage.

18. The Company may at any time suspend work under this contract, and in such case, if the period of suspension does not exceed six months, may declare an extension of time for its completion equal to the period of such suspension; or at the option of the Company, it may pay the Contractor for such materials delivered up to that time for the permanent work as may not have been estimated and paid for previously, and also the accrued ten per cent. reserved, and the Contractor shall have no claim for loss or damages on account of such suspension. If, however, the period of suspension exceeds six months, the Contractor shall not be obliged to accept an extension of time for the completion of this contract, but shall be entitled to payment for materials delivered and the reserved ten per cent. accrued up to that time.

19. The Contractor agrees that it will pay promptly for all labor, services, supplies and materials furnished by it and used in or about the construction and work herein provided for, and all of said payments shall be made at least as often as payments are made by the Company to the Contractor, and should the Contractor at any time fail to do so, the said Company, may, at its option, and it is hereby authorized to, retain out of the consideration herein agreed to be paid by the Company to the Contractor such amounts of money as the Engineer may deem sufficient to pay the same, or to secure the Company from loss by reason of such non-payments. Before final settlement is made between said parties under this contract, the Contractor agrees that it will produce satisfactory evidence to the Company that all labor, services, materials and supplies aforesaid have been fully paid for, and that all the construction herein mentioned and all other property of the Company are free and clear from all liability and liens of every kind arising out of the performance of this contract, and no lawful claims or liens as aforesaid can be made or filed against the Company or its property. No payment shall in any way lessen the responsibility of the Contractor for the full final completion of the entire work; neither shall it exempt the Contractor from liability at its own cost and expense, to replace the work if afterwards found to have been inadequately done or not done according to the plans and specifications of this contract, either in work done or in materials furnished.

20. The Contractor agrees to protect and hold harmless the Company and all of its property from any and all kinds of liens accruing or to accrue for labor and services performed and for materials and supplies furnished or for any of the same, in or about the work and construction herein provided for.

21. The Company shall not be liable for any loss or damage which may happen to said work, or to any part thereof, from any cause whatever, or for any loss or damage of any of the materials, tools, implements or other things used in doing said work, the Contractor agreeing at its own expense to replace or repair any part of the work which may be destroyed or damaged and also any material, tools, implements or other things used in doing said work which may be destroyed or damaged. The Contractor shall be held solely responsible for all deaths, personal injuries and damages to property occurring on account of and during the performance of the work hereunder and shall indemnify and save harmless the Company from liability upon any and all claims for damages on account of such deaths, personal injuries and damages to property; it being distinctly understood, stipulated and agreed that the Contractor shall be solely responsible and liable for, and shall fully protect and indemnify the Company against all claims for damages to persons, buildings or other property occasioned by or resulting

from blasting or other processes in the work of construction whether such damages be attributable to the negligence of the Contractor or its employees or otherwise; and the Contractor shall and will at its own expense furnish such medical attendance and make other provisions as may be necessary for the safety and efficient and full protection of all persons and property during the performance for said work. Whenever an accident occurs causing loss of life or an injury to any person incapacitating him for work the Contractor shall immediately furnish to the Engineer a full statement in writing with all facts connected therewith and shall reimburse the Company for any penalties imposed upon it in consequence of its failure to report such accident in any case where the Contractor shall not have furnished such full written report. Should there be any unsatisfied claims for deaths, personal injuries or damages to persons or property at the time when the final estimate for the work is made and returned, the Engineer shall have the right to retain out of the said final estimate a sum in his judgment sufficient to protect the Company in regard to all unsatisfied claims as aforesaid; and in case the amount thus retained from the Contractor on said final estimate should be insufficient to pay the amount of such claim when adjudicated, the Company may sue for and recover from the Contractor the amount or balance, as the case may be, as a debt from the Contractor to the Company.

22. The salaries and expenses of all City and other inspectors required by the governments of the Borough, City, County and State in which the work is being done, and the salaries and expenses of any police or other officers for preserving order whom the magistrates or other public authorities may appoint, or the Engineer consider necessary, shall be paid by the Contractor, and be at its sole cost and expense.

23. The Contractor shall obtain all licenses and permits necessary in the prosecution of its work, it shall observe all laws, franchises and ordinances relating thereto, and shall protect the Company and its employees from any penalties incurred in consequence of violation or neglect thereof by the Contractor or any of its employees.

24. The Contractor shall be solely responsible for all royalties or other sums payable for the use of patented inventions, and shall keep the Company indemnified against all claims and demands in respect to the use or infringement of any inventions.

25. The Contractor expressly admits and covenants to and with the Company that the plans and specifications and other provisions of the contract for construction, if the work be done without fault or negligence on the part of the Contractor, do not involve any damage to the foundations, walls or other parts of adjacent buildings or structures or to any street or to any railroad track, conduit, pipe, sewer or other structure and the Contractor will, at its own expense, make good any damages which shall in the course of construction be done to any thereof. The liability of the Contractor in respect to these matters is absolute and is not dependent upon any question of negligence on its part, or on the part of its agents, servants or employees, and the neglect of the Engineer to direct the Contractor to take any particular precautions or to refrain from doing any particular thing, shall not excuse the Contractor in case of any such damage.

26. In case the Contractor shall be delayed in the prosecution of the work by injunction or by strike, or by any interference of public authority, or by postponement on the part of the Company in giving occupation of land on which work shown in the schedules of the contract is to be done or by such extraordinary and exceptional causes or conditions as the Contractor or its employees shall be wholly powerless to prevent, control or eliminate, and cannot, notwithstanding such injunctions, strike, interference, postponement or extraordinary and exceptional causes or conditions, with reasonable diligence make up for the delay so occasioned by speedier work when it shall not be so interfered with, then the time for completion shall be enlarged to an extent equivalent to the actual period of such delay; provided, however, that no period of such delay shall begin until written notice thereof shall be given by the Contractor to the Company. No injunction, strike, interference of public authority, postponement in giving occupation of land or extraordinary and exceptional causes or conditions shall be ground for such extension unless, and only from the time when, the Contractor shall give the Company notice thereof and furnish it with copies of all papers respecting the same served upon the Contractor or its representative. The Company shall be accorded the right to intervene or become a party to any suit or proceeding in which any such injunction shall be obtained, and to move to dissolve the same or otherwise deal therewith as it may deem proper. If the Company so elect, the attorneys or counsel of the Company shall be authorized for that purpose to appear as attorneys or counsel for the Contractor in conjunction with the other attorneys or counsel of the latter. The Contractor shall procure, to be delivered to the Company forthwith upon the receipt of same by the Contractor, its attorney or representative, a copy of every paper served upon the Contractor or its attorney or representative in any such suit or proceeding. It is distinctly understood and agreed between the parties hereto, anything herein to the contrary notwithstanding, that there shall be no rights on the part of the Contractor to demand or recover any damages or to receive any additional compensation from the Company on account of such impediment or delay, but that any loss or damage caused by such impediment or delay shall be borne exclusively by the Contractor and the Company shall not be responsible in any way therefor.

27. It is distinctly understood and agreed between the parties hereto, anything herein to the contrary notwithstanding, that if for any cause the work to be done hereunder by the Contractor, or any part thereof, shall be impeded or delayed by the order of any court in any proceedings at law or in equity now pending or hereafter to be brought, there shall be no right on the part of the Contractor to demand or recover any damages or to receive any additional compensation from the Company, on account of such impediment or delay; but that any loss or damage caused by such impediment or delay shall be borne exclusively by the Contractor and the Company shall not be responsible in any way therefor. It is further understood and agreed, however, that in case the work or any part thereof shall be impeded or delayed as aforesaid, then the time within which the Contractor is required hereunder to complete the work, or any part thereof, so impeded or delayed shall be extended for an additional period equal to that for which the time shall have been so impeded or delayed.

28. The Company will acquire title to all the lands embraced within the limits of the work required to be done under this contract except such public streets as may be required to be left open for public use and will place the Contractor in possession thereof, but if the Company be delayed by legal injunction or otherwise it shall not be held liable to the Contractor for damage or loss resulting from such delays, but the Contractor shall be entitled to such extension of time for the completion of work under this contract as the Engineer may certify to be just and equitable.

29. It is further agreed that if the Engineer shall at any time certify that in his opinion sufficient and suitable machinery, tools, plant and materials are not provided or that a sufficient number of workmen are not employed in the execution of the work under this contract, or that the work or any part thereof is not being carried on with due diligence and dispatch to insure its completion within the time specified in the contract, or if the Contractor shall not comply with such orders as may from time to time be given by the Engineer with respect to the work, the Company may give the Contractor written notice requiring it to provide such additional machinery, tools, plant and materials, or to employ such additional number of workmen as the Engineer shall think reasonable for the due execution of the work with greater diligence and dispatch, or to comply with such orders as aforesaid, and if the Contractor shall not within ten days next ensuing after the receipt of such notice comply in all respects with the directions thereof, or commence the things thereby required to be done and diligently proceed therewith, so far as the time will permit, the Company may

(1) Declare the Contractor to be in default; and the Company, in addition to every, or in substitution for any other remedy which it may have by law or hereunder, may thereupon forthwith procure, by contract or otherwise, either for the Contractor, for the Contractor's account and at the Contractor's risk, or otherwise, as the Company shall determine, the completion of the work embraced in the contract, or in any case where the Company so elects, the construction or provision of any part of such work; and the Company may, to the extent of the cost of such completion of the work embraced in the contract or of such construction or provision of any part thereof and interest on such cost, withhold and apply thereon any moneys otherwise due or to become due by the Company to the Contractor, and the Contractor shall be liable to the Company and shall, as the Company may from time to time require, forthwith pay to the Company the excess, if any, of the cost to the Company of the completion of such construction of the work embraced in this contract or of such construction or provision of any part thereof over the amount payable to the Contractor therefor under the terms of this contract. And such completion, performance or provision by the Company shall not release or discharge the Con-

tractor from liability with respect to the remainder of the construction, or any other liability hereunder; or,

(2) Declare this contract at an end, except as to the liability of the Contractor, as hereinafter in this article provided, and may make a new contract for construction with other parties, upon such terms as the Company may deem proper; the same to provide among other things that the new Contractor shall allow for so much of construction as has already been completed a reasonable amount, to be prescribed in such new contract or to be ascertained as in such new contract to be provided; and in such case the Contractor shall pay the Company for all damage which the Company shall sustain by reason of such failure, including the excess, if any, of the amount which the Company shall pay the new Contractor over the amount it would have had to pay the Contractor, party hereto, for the same work and materials; and

(3) The Company may also proceed, as to the Company may seem proper, upon the bond given by the Contractor for the due performance of this contract; and

(4) The Company may also bring any suit or proceeding for injunction or to recover damages or to obtain any relief or for any purpose proper under this contract.

30. The Contractor hereby agrees to file with the Secretary of the Company, within ten days from the date of this contract, a penal bond in the sum of.....

.....with good and sufficient sureties thereon, satisfactory to the Company, conditional for the faithful performance of this contract; should the Contractor fail to do so, this contract may be cancelled at the option of the Company.

In witness whereof, this contract has been executed by the parties hereto the day and year first above written.

REPORT No. 42.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
December 23, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In accordance with the agreement made under date of June 21, 1907, between The City of New York and the Pennsylvania, New York and Long Island Railroad Company, providing for such changes in the City map as would permit the construction of the Sunnyside Yard, it is stipulated that the City shall pay one-half of the expense of constructing a viaduct across this yard which will form a diagonal street between Thomson avenue and Jackson avenue, all of the other viaducts and all other work being done at the expense of the company. Article VI. of this agreement provides that

"In any case where the cost of the construction of any bridge or viaduct is to be divided between the said companies and the City such structures shall be built under a contract or contracts which shall have been first approved by the Board of Estimate and Apportionment."

In accordance with this requirement of the contract the Pennsylvania, New York and Long Island Railroad Company, now the Pennsylvania Tunnel and Terminal Railroad Company, through its chief engineer, has submitted to the Board, under date of December 20, 1907, for approval, a form of the contract for the substructure of this viaduct.

I have discussed with the chief engineer of the company the advisability of a separate contract for these structures, or of a general contract to include all of the work on the different structures at unit prices, and have recommended the latter course in the belief that the City would thereby secure the same advantage in price which the railroad company would derive from a contract of this magnitude. This has accordingly been done. The contract and specifications which have been submitted include a number of items which will not be called for in the work, the expense of which is to be divided between the railroad company and the City. The items which will occur in such work, with the unit prices, are as follows:

Foundation excavation (earth), per cubic yard.....	\$2 50
Foundation excavation (rock), per cubic yard.....	3 50
Sand and gravel refill, per cubic yard.....	70
Plumb piles, driven and cut off, per linear foot.....	35
Batter piles, driven and cut off, per linear foot.....	40
Concrete masonry, per cubic yard.....	7 50
Reinforcing steel, per pound.....	05
Sheeting and timbering left in place, per thousand feet, board measure..	25 00

Some of these prices may appear large under ordinary circumstances, such as the earth excavation, but the excavation to be made is in a muddy swamp, below tide level, and will be attended with much difficulty. I consider the prices to be fair under the circumstances. The amount of each item is estimated in the accompanying communication from the chief engineer of the company, and the half which the City would pay under the contract is estimated at \$82,823.

I believe that the terms of the contract and specifications are satisfactory, and I would recommend that they be approved by the Board, a resolution to this effect being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

PLANS FOR SUPERSTRUCTURE OF BRIDGE OVER LAUREL HILL AVENUE, QUEENS.

The following communication from the Pennsylvania Tunnel and Terminal Railroad Company, through its chief engineer, submitting plans for the superstructure of the bridge to be built to carry the tracks of the Long Island Railroad across Laurel Hill avenue, in Long Island City, and report of the Chief Engineer of the Board were presented:

PENNSYLVANIA TUNNEL AND TERMINAL RAILROAD COMPANY,
EAST RIVER DIVISION,
No. 315 FIFTH AVENUE,
NEW YORK, December 19, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York:

DEAR SIR—We have the honor to submit, for the approval of the Board, Contract Drawing No. 501, showing the lay out of the bridge across Laurel Hill avenue, Long Island City, within the limits of our Sunnyside Yard; also showing the location of the supports of the bridge near the curb line of the street and the minimum clearance.

Very respectfully,

PENNSYLVANIA TUNNEL AND TERMINAL RAILROAD COMPANY,
Successor to Pennsylvania, New York and Long Island
Railroad Company,

By A. NOBLE, Chief Engineer.

REPORT No. 28.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
December 24, 1907.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of December 19, 1907, the Pennsylvania Tunnel and Terminal Railroad Company, successor to the Pennsylvania, New York and Long Island Railroad Company, through its chief engineer, has submitted to the Board, for its ap-

proval, in accordance with the provisions of Article XIII. of the contract of June 21, 1907, a general plan showing the superstructure of the bridge to be built to carry the tracks of the Long Island Railroad across Laurel Hill avenue, in Long Island City.

Laurel Hill avenue is at the extreme easterly end of the Sunnyside Yard, and under the contract above referred to the railroad company is to cede to the City the land and grade the street. In order to furnish a connection across the Long Island Railroad tracks I have especially requested the work on this bridge and the construction of this street to be pushed as rapidly as possible. The bridge will carry the railroad tracks and is designed for this purpose, and in my judgment the City does not require the full details which would be necessary in the case of a highway bridge. In order to avoid the submission of a great number of plans I have suggested that the company submit this general plan, showing the position of the supporting columns and the girders and certain details of the floor system and connections, together with the clear height above the roadway, which is fourteen feet, as shown upon the general plans already adopted. This has been done on the one sheet which is herewith presented, and the approval of which is recommended, a resolution to this effect being submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the general plans showing the superstructure of the bridge to carry the tracks of the Long Island Railroad across Laurel Hill avenue, between Dreyer avenue and Barnett avenue, in Long Island City, which plans were submitted by the Pennsylvania Tunnel and Terminal Railroad Company, successor to the Pennsylvania, New York and Long Island Railroad Company, in accordance with the provisions of Article XIII. of the agreement dated June 21, 1907, between the Pennsylvania, New York and Long Island Railroad Company and the Long Island Railroad Company and The City of New York, be and the same hereby are approved.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

PLAN FOR VIADUCT ON THE LINE OF FIRST AVENUE (BETWEEN SIXTY-THIRD AND SIXTY-FIFTH STREETS), BROOKLYN.

The following communication from the Long Island Railroad Company, and report of the Chief Engineer of the Board were presented, and, on motion, the matter was laid over for two weeks:

THE LONG ISLAND RAILROAD COMPANY,
LONG ISLAND CITY, N. Y., December 31, 1907.

Board of Estimate and Apportionment of The City of New York, No. 277 Broadway, New York City:

GENTLEMEN—I desire to advise you that the plans required to be made in accordance with the ninth paragraph of the agreement, dated February 13, 1906, between the Long Island Railroad Company and The City of New York in respect to the construction of the viaduct in First avenue in the Borough of Brooklyn, were filed with Mr. Nelson P. Lewis, Chief Engineer of your Board, on December 27, 1907, and request that the same shall be approved by you, in accordance with the terms of such contract.

Respectfully yours,

THE LONG ISLAND RAILROAD COMPANY,
RALPH PETERS, President and General Manager

REPORT No. 43.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 7, 1908.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of December 31, 1907, the Long Island Railroad Company, through its President and General Manager, Mr. Ralph Peters, has submitted to the Board plans for the viaduct to be constructed on the line of First avenue, between Sixty-third and Sixty-sixth streets, in the Borough of Brooklyn, in accordance with paragraph nine of the agreement entered into between The City of New York and the Long Island Railroad Company, under date of February 13, 1906.

These plans agree with the preliminary sketch attached to the said agreement, except that in order to accommodate the piers of the viaduct to the tracks of the proposed yard the changes in grade occur at slightly different places from those indicated on the sketch referred to.

The plans are, in my judgment, proper ones, and their approval is recommended, a resolution to this effect being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

LAYING OUT AN EXTENSION OF THIRTY-NINTH STREET FROM SECOND AVENUE WESTWARDLY TO THE BULKHEAD, BROOKLYN.

The Comptroller asked unanimous consent for the immediate consideration of communications from him and the Corporation Counsel relative to a change in the lines of Thirty-ninth street, Borough of Brooklyn.

No objection being made, the following communications were presented:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
November 29, 1907.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—The City is about to pay out a large sum of money in connection with the condemnation proceedings to gain certain rights for the new Thirty-ninth street ferry.

For the purpose of widening the ferry slip, two thirty-foot strips are to be taken on each side of the old slip, in order to give more berth room to the boats.

The annexed strips, added to each side of the old slip, will make a new slip, which, on the north boundary, will be an extension of the south line of Thirty-eighth street, and on the south boundary, an extension of the south line of Thirty-ninth street. The proposed new slip will be approximately two hundred and sixty feet wide by about 2,500 feet long, the length being measured from the west line of Second avenue to the Government pier head line.

The north thirty-foot strip proposed to be taken is occupied on land by certain tracks of the Brooklyn Heights Railway Company. The proceeding has been delayed six months until the courts can decide an injunction brought against the City by the railway company, which seeks to prevent the taking of this strip, in so far as it concerns the space occupied by its tracks, except in a fee which shall protect the track easements. That matter will perhaps be decided by the court in its December term, after which the proceeding will continue.

That, however, is a minor consideration, compared with the effect of taking the southern thirty-foot strip. This latter is to include not only an area occupied by the strip on land, but the continuation of the thirty-foot width in the water alongside a pier. The outer end of said pier is occupied by the Sanford coal yard. The greater space in the middle of the pier is occupied by the H. W. Johns Asbestos Company. The land end is occupied by the plant of the Danne-Miller Coffee Company.

These property owners are putting in a claim for about \$750,000, alleging a loss of access from the land end on account of the condemnation, as well as on account of damage from having to give up the rights alongside the pier in the water.

Notwithstanding it is proposed to construct new pier houses farther towards the water and thereby leave space for a plaza, bound on the south side in part by the property now under consideration, the City nevertheless will acquire the right to close up the plaza on the south boundary; and despite the fact that it may never cut off access to the Johns people and the Sanford people, the City must pay to the extent of its acquired rights, whether enforced or not.

It is estimated then, that the property, the owners of which are claiming upwards of \$750,000 damage, is not itself worth more than \$1,000,000. In other words, the City, when it shall have condemned the thirty-foot strip, will have paid \$750,000 for it, but will have left the damaged property intact, and still in possession of the present owners, with a possibility and even a likelihood of their retaining physical access. In other words there would never be a sound equitable argument in favor of shutting off the claimant property owners from access to the plaza which will be established; yet the City must pay as if access were permanently prevented.

Title vested to this property November 1, 1906, and the present proceeding must continue, with interest at six per cent. from the date of taking title. There is no remedy in the proceeding itself.

The only remedy is to institute a new proceeding for the acquisition of the pier on which are situate the plants of the Sanford Coal Company, the H. W. Johns Company and the Danne-Miller Coffee Company, and other owners.

The present proceeding could be halted until a second proceeding caught up with it and the same set of experts perhaps could be employed to testify in the second proceeding.

The City, by the second proceeding would get a pier worth \$1,000,000, with the possibility of handsome rental or of using it for municipal purposes, and would bring the cost of the thirty-foot strip alongside the pier down to a nominal figure.

In other words, the City under the present proceeding is about to pay \$750,000 for a thirty-foot strip and no pier, while it appears possible to pay perhaps \$250,000 more and get a strip and a pier which will be worth approximately the whole outlay.

It is recommended, therefore, that this communication be referred to the Corporation Counsel with instructions to report back to this Board, within thirty days, as to the legality of instituting a new condemnation proceeding to take the pier referred to and as to the necessary procedure of this Board to institute the same if it can legally be done.

Yours respectfully,
H. A. METZ, Comptroller.

LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, January 4, 1908.

To the Board of Estimate and Apportionment:

GENTLEMEN—I am in receipt of a communication from the Assistant Secretary of your Board under date of December 7, 1907, reading as follows:

"At a meeting of the Board of Estimate and Apportionment, held December 6, 1907, a communication was presented from the Comptroller recommending that you be requested to furnish within thirty days an opinion as to the legality of instituting condemnation proceedings to acquire the pier known as the H. W. Johns pier, as contemporaneous with or supplemental to the present proceeding to acquire title to property situated at Second avenue and Thirty-ninth Street Ferry, Borough of Brooklyn, for ferry purposes, which was referred to you for compliance therewith.

"I transmit herewith copy of said communication and map relative thereto and request that you will kindly return the map with your opinion in the matter."

Based upon the communication of the Comptroller, which is dated November 29, 1907, and upon information derived while conducting the condemnation proceeding hereinafter referred to, the facts relative to this matter appear to be as follows:

In April, 1906, a condemnation proceeding was instituted for the purpose of acquiring title by The City of New York for ferry purposes to certain land, land under water, etc., lying between the southerly line of Thirty-eighth street prolonged, the southerly line of Thirty-ninth street prolonged, the westerly line of Second avenue and the pierhead line established by the Secretary of War in 1890, Borough of Brooklyn. Of said property, the portion extending from the centre line of Thirty-ninth street prolonged to a point 30 feet south of the southerly line of Thirty-eighth street prolonged was owned by the New York and South Brooklyn Ferry and Steam Transportation Company, and was after the institution of said proceeding purchased by the City at private sale from said company. The title to the remaining portions of the property included in said condemnation proceeding became vested in the City on the 1st day of November, 1906, under the terms of a resolution adopted by the Commissioners of the Sinking Fund. One parcel of the property thus vested in the City consists of a strip of land and land under water 30 feet in width, extending from the westerly line of Second avenue to the pierhead line of 1890, and would form the southerly one-half of Thirty-ninth street if said street were to be extended west of the westerly line of Second avenue. The title to all of the property, both that which was purchased by the City from the New York and South Brooklyn Ferry and Steam Transportation Company and that adjoining on the south extending to the northerly side of Fortieth street prolonged, was originally in the Phoenix Chemical Works, which in conveying various parcels to different persons and corporations included as a part of the grant a right of way over the southerly one-half of Thirty-ninth street, if prolonged, being the strip in question, and in some instances granted in addition thereto, water rights in the slip adjoining the property conveyed on the north. Abutting this strip on the south the land has been filled in from Second avenue to a point a few feet easterly of the bulkhead line established by the Secretary of War in 1890, and from the southerly line of Thirty-ninth street prolonged to the northerly line of Fortieth street prolonged, thus forming a solid pier or projection into the river of approximately 1,000 feet in length. Neither Thirty-ninth street nor Fortieth street has been opened west of Second avenue, although each has been placed on the official map. This pier is owned in separate ownerships by six different persons or corporations, and is used for various business purposes. The outer end is occupied by the Nelson Coal Company. The parcel adjoining that is owned and occupied by the Brooklyn Heights Railroad Company. The parcel to the east of that parcel is owned and occupied by the Roeschler & Hasslacher Chemical Company. The parcel to the east of the last named parcel is owned and occupied by the Johns-Manville Manufacturing Company. The parcel east of that parcel is owned and occupied by the Danne-Miller Coffee Company; and adjoining that parcel and extending to Second avenue a parcel of about 500 feet in length is owned by the heirs of Z. O. Nelson. Access to these various parcels from Second avenue is had by means of this strip of land 30 feet in width, and its acquirement by the City will deprive some of the abutting properties on the south of all means of access, and result in heavy damages to be paid by the City. The abutting property owners are claiming before the Commissioners in the condemnation proceeding that the taking of said strip will damage their properties in various sums, aggregating approximately the sum of \$800,000, notwithstanding the fact that the new bulkhead line, or line of solid filling, will be about 1,435 feet west of the westerly line of Second avenue, thus leaving a plaza of that length on which for that distance the property under consideration will abut.

Concerning that subject the Comptroller in his communication to you correctly states: "Notwithstanding it is proposed to construct new ferry houses further towards the water and thereby leave space for a plaza bounded on the south side in part by the property now under consideration, the City nevertheless will acquire the right to close up the plaza on the south boundary; and despite the fact that it may never cut off access to the Johns people and the Sanford people, the City must pay to the extent of its acquired rights whether enforced or not."

The Comptroller in his said communication further states as follows:

"It is estimated then that the property, the owners of which are claiming upwards of \$750,000 damage, is not itself worth more than \$1,000,000. In other words, the City, when it shall have condemned the 30-foot strip, will have paid \$750,000 for it, but will have left the damaged property intact and still in possession of the present owners, with a possibility and even a likelihood of their retaining physical access. In other words, there would never be a sound equitable argument in favor of shutting off the claimant property owners from access to the plaza which will be established; yet the City must pay as if access were permanently prevented."

It is suggested by the Comptroller that a new proceeding be instituted "for the acquisition of the pier on which are situate the plants of the Sanford Coal Company, the H. W. Johns Company and the Danne-Miller Coffee Company and other owners."

Concerning such suggestion, the Comptroller states:

"The City by the second proceeding would get a pier worth a million dollars, with the possibility of handsome rental or of using it for municipal purposes, and would bring the cost of the 30-foot strip alongside the pier down to a nominal figure."

"In other words, the City, under the present proceeding, is about to pay \$750,000 for a 30-foot strip and no pier, while it appears possible to pay perhaps \$250,000 more and get a strip and a pier which will be worth approximately the whole outlay."

In conclusion, the Comptroller recommends that his communication be referred to me "with instructions to report back to this Board within thirty days as to the

legality of instituting a new condemnation proceeding to take the pier referred to and as to the necessary procedure of this Board to institute the same if it can legally be done."

In reply, I beg to say that the so-called pier in question might be acquired by the City upon the action of the Commissioner of Docks and the Commissioners of the Sinking Fund for the improvement of the water front if the plan for such improvement embraced said pier. But, upon examining the plan for the improvement of the water front between Twenty-eighth and Sixty-first streets, South Brooklyn, adopted by the Commissioner of Docks on May 31, 1906, and approved by the Commissioners of the Sinking Fund on June 20, 1906, I find that said pier is not included as a part of said plan; the easterly line of the intended improvement at that point being a few feet westerly of the outer, or westerly, end of said pier.

As there is no power vested in the City to acquire wharf property for the improvement of the water front except to carry into effect a plan duly adopted as provided by law, and as the plan of 1906 above referred to does not embrace the pier in question, I am compelled to advise you that the title thereto cannot be acquired by the City for the improvement of the water front.

Said pier might be acquired for ferry purposes if it were needed for such purposes, but I am informed by the Commissioner of Docks that it is not required for such purposes at the present time, the property already acquired by the City for ferry purposes being ample therefor.

I am, therefore, not aware of any purpose for which said pier may be acquired by the City.

The situation confronting the City in said proceeding is most extraordinary, and demands that every proper effort should be made to reduce to the minimum the damages to abutting property growing out of the taking of the 30-foot strip in question, and it seems to me that such object can best be accomplished by laying out said strip of land as a new street 30 feet wide, extending from the westerly line of Second avenue westerly to the bulkhead line shown on the plan of 1906, or the new ferry entrance.

The Commissioner of Docks informs me that he has no intention of using said strip easterly of the entrance to the new ferry in any way other than as an approach to the ferry, nor in such manner as to prevent free access thereto from the property abutting on the south, and that the laying out of a new street over said strip of land will not in any way interfere with his plans for the use of the new ferry.

I beg to suggest, therefore, that your Honorable Board change the map or plan of the City so as to show such new street.

I return herewith the map which accompanied your Secretary's communication.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442, of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by changing the lines of Thirty-ninth street, west of Second avenue, and providing an extension of the street, and fixing grades therefor, in the Borough of Brooklyn, City of New York, more particularly described as follows:

1. Thirty-ninth street is to be extended from Second avenue westwardly to the bulkhead, a distance of 1,435 feet.
2. The southerly side of the street is to be a prolongation of the southerly line of Thirty-ninth street, as laid out east of Second avenue.
3. The northerly line of the street is to be distant 30 feet northerly from and parallel with the southerly line, the said distance being measured at right angles to the latter course.
4. That portion of Thirty-ninth street heretofore laid out west of Second avenue and not included within the lines of the street now proposed is to be discontinued.

GRADES.

1. The grade at the intersection with Second avenue is to be 10 feet as heretofore established.
 2. The grade at the westerly terminal of the street is to be 5.11 feet.
- All elevations refer to mean high water datum as established in the Borough of Brooklyn.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 31st day of January, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 31st day of January, 1908.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

OPENING THE PUBLIC PLACE BOUNDED BY PARKSIDE PLACE AND WEBSTER AVENUE, AND PORTIONS OF PARKSIDE PLACE AND EAST TWO HUNDRED AND SEVENTH STREET, THE BRONX.

The President of the Borough of The Bronx asked unanimous consent for the present consideration of a communication requesting that the resolution authorizing the opening and extending of the public place bounded by Parkside place and Webster avenue, and also of those portions of Parkside place and East Two Hundred and Seventh street which have not yet been acquired by The City of New York, Borough of The Bronx, be rescinded.

No objection being made, the following communication was presented:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
MUNICIPAL BUILDING, CROTONA PARK,
December 20, 1907.

Board of Estimate and Apportionment, Mr. JOSEPH HAAG, Secretary:

DEAR SIR—I respectfully request that the Board of Estimate and Apportionment return to the Local Board of Morrisania the resolution adopted by said Local Board on January 10, 1907, in the matter of "acquiring title to the lands necessary for the public park or place bounded by Parkside place and Webster avenue, and also that part of Parkside place and East Two Hundred and Seventh street not yet acquired by the City; and that the expense be paid for by The City of New York," and that the said Board of Estimate and Apportionment rescind its action in this matter taken on December 6, 1907.

The Local Board of Morrisania, as the resolution shows, recommended that the entire cost of this improvement be borne and paid for by The City of New York, and the owners who petitioned for this improvement desired the improvement, provided the cost thereof was a public charge, and they did not desire to be assessed for it.

In view of the fact that the Local Board of Morrisania adopted the resolution as a general charge on the City as a small park or place, and as the property owners affected by the resolution of the Board of Estimate and Apportionment have complained about the action of said Board, I respectfully ask that the Board of Estimate and Apportionment rescind its action and return the resolution again to the Local Board of Morrisania.

Yours truly,

LOUIS F. HAFFEN, President.

The following resolutions were then adopted:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on December 6, 1907, authorizing the acquisition of the lands and premises required for the opening and extending of the public place bounded by Parkside place and Webster avenue, and also of those portions of Parkside place and East Two Hundred and Seventh street which have not yet been acquired by The City of New York, Borough of The Bronx, be and the same hereby is rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Resolved, That the matter of acquiring title to the lands and premises required for the opening and extending of the public place bounded by Parkside place and Webster avenue and also of those portions of Parkside place and East Two Hundred and Seventh street which have not yet been acquired by The City of New York, Borough of The Bronx, be and the same hereby is referred back to the Local Board of the Morrisania District.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The President of the Board of Aldermen moved that when the Board adjourns, it adjourn to meet Friday, January 17, 1908, at 10.30 o'clock in the forenoon, which motion was adopted.

The Board then adjourned to meet on Friday, January 17, at 10.30 o'clock in the forenoon.

JOSEPH HAAG, Secretary.

BOROUGH OF MANHATTAN.

COMMISSIONER OF PUBLIC WORKS.

In accordance with the provisions of section 1546, chapter 466 of the Laws of 1901, I transmit the following report of the transactions of the offices of the Commissioner of Public Works, President of the Borough of Manhattan, for the week ending January 29 1908:

Public Moneys Received During the Week.

For restoring and repaving pavement, general account.....	\$5,768 00
For redemption of obstructions seized.....	17 50
For vault permits.....	4,226 15
For shed permits.....	10 00
For bay window permits.....	350 68

Total..... \$10,372 33

Permits Issued.

Permits to open streets, to make sewer connections.....	40
Permits to construct street vaults.....	5
Permits to construct sheds.....	2
Permits to cross sidewalks.....	5
Permits for subways, steam mains and various connections.....	140
Permits for railway construction and repairs.....	7
Permits to repair sidewalks.....	27
Permits for sewer connections.....	4
Permits for sewer repairs.....	8
Permits for bay windows.....	15

Total..... 253

Obstructions Removed.

Obstructions removed from various streets and avenues.....	12
--	----

Repairs to Pavements.

Square yards of pavement repaired.....	594
--	-----

Repairs to Sewers.

Linear feet of sewer built.....	18
Linear feet of sewer cleaned.....	21,720
Linear feet of sewer examined.....	8,509
Basins cleaned.....	248
Basins examined.....	45

Requisition Drawn on Comptroller.

Requisition drawn on Comptroller.....	\$81,952 32

Changes in Working Force for Week Ending January 25, 1908.

Bureau of Highways—

One Cartman removed.
One Cartman appointed.
One Laborer transferred to Department of Bridges.

Bureau of Public Buildings and Offices—

One Foreman transferred from Stoker.
Two Stokers appointed.
One Attendant resigned.
One Attendant reassigned.
One Janitor resigned.
One Clerk appointed.
One Cleaner appointed.

Bureau of Sewers—

One Axeman deceased.
One Foreman transferred from Assistant Foreman.
One Cartman appointed.
One Cartman deceased.

HENRY S. THOMPSON, Commissioner of Public Works.

DEPARTMENT OF PARKS.

Thursday, January 30, 1908.

Stated meeting, 3 p. m.

Present—Commissioners Smith (President), Berry, Kennedy.

A representative of the Comptroller being present and the meeting open to the public, the estimate box was opened, and all the bids or proposals which had been received pursuant to duly published advertisements were opened and read, as follows:

For Furnishing and Delivering Two Hundred (200) Tons No. 1 White Ash Anthracite Coal (No. 2, 1908) for Parks, Borough of The Bronx.

Bidders and Quantities.	Price.	Amount.
George J. Kuhn, 200 tons.....	\$6 24	\$1,248 00
Olin J. Stephens, 200 tons.....	6 10	1,220 00

For Furnishing and Delivering Coal in Parks and Parkways, Boroughs of Brooklyn and Queens.

Items and Quantities.	Frederick W. H. Nelson.		William Nungesser.	
	Price.	Amount.	Price.	Amount.
Stove coal, 1,300 gross tons.....	\$6 49	\$8,437 00	\$6 14	\$7,982 00
Egg coal, 1,075 gross tons.....	6 49	6,976 75	6 14	6,600 50
Blacksmith coal, 10 gross tons.....	5 60	56 00	5 14	51 40
		\$15,469 75		\$14,633 90

The minutes of the previous meeting were read and approved.

Commissioner Smith offered the following:

Resolved, That the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to cause form of contract and specifications to be prepared for furnishing and erecting iron gates and sections of iron fence in playgrounds of Thomas Jefferson, DeWitt Clinton, St. Gabriel's, Hamilton Fish and William H. Seward parks, Borough of Manhattan, and when the same shall have been approved by the Corporation Counsel to advertise for proposals for the same.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

Commissioner Smith offered the following:

Resolved, That the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to cause form of contract and specifications to be prepared for furnishing and erecting three-rail pipe fences around the grass plots in City Hall Park in the Borough of Manhattan, City of New York, and when the same shall have been approved by the Corporation Counsel to advertise for proposals for the same.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

Commissioner Kennedy offered the following:

Resolved, That the time stipulated for the delivery of coal under the contract of Frederick W. H. Nelson, dated January 19, 1907, be and it hereby is extended to March 15, 1908, it being deemed in the interest of the City so to do.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

Commissioner Kennedy offered the following:

Resolved, That the Commissioner of Parks for the Boroughs of Brooklyn and Queens be and he hereby is authorized to cause form of contract and specifications to be prepared for repairs to lawn mowers during the year 1908, and when the same shall have been approved by the Corporation Counsel to advertise for proposals for doing the work.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

Commissioner Berry offered the following:

Resolved, That the proposal of the lowest formal bidder for furnishing and delivering coal for parks in the Borough of The Bronx, for which bids have been this day received, be forwarded to the Comptroller for his approval of sureties, and when so approved that contract for the same shall be entered into and executed by the President for and in behalf of the Board.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

Commissioner Kennedy offered the following:

Resolved, That the proposal of the lowest formal bidder for furnishing and delivering coal for parks in the boroughs of Brooklyn and Queens, for which bids have been this day received, be forwarded to the Comptroller for his approval of sureties, and when so approved that contracts for the same be entered into and executed by the President for and on behalf of this Board.

Which was adopted by the following vote:

Ayes—Commissioners Smith, Berry, Kennedy—3.

On motion, at 3.20 p. m., the Board adjourned.

ROSWELL D. WILLIAMS, Secretary.

PUBLIC ADMINISTRATOR.

REPORT FOR THE YEAR ENDING DECEMBER 31, 1907.

Bureau of the Public Administrator,
No. 119 Nassau Street, Borough of Manhattan,
New York, January 1, 1908.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—The Public Administrator, pursuant to chapter 230 of the Laws of 1898, section 27 of said act, herewith exhibits to the Board of Aldermen of The City of New York a statement, on oath, of the total amount of his receipts and expenditures in each case in which he shall have taken charge of and collected any effects, or on which he shall have administered during the year 1907, with the names of the deceased, his or her addition, and the country or place from which he or she came, if the same be known.

Respectfully,

WILLIAM M. HOES, Public Administrator.

City and County of New York, ss.:

William M. Hoes, Public Administrator of the County of New York, being duly sworn, deposes and says that, according to his best knowledge, information and belief, the foregoing account contains a true statement of the total amount of his receipts and expenditures in each case in which he shall have taken charge of and collected any effects or on which the Public Administrator shall have administered during the year 1907, with the name of the deceased, his or her addition and the country or place from which he or she came, if the same be known.

WILLIAM M. HOES.

Sworn to before me this 7th day of January, 1908.

Owen A. Keegan, Notary Public, New York County.

PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

FRIDAY, JANUARY 31, 1908,
TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

Present—Chairman William R. Willcox, Commissioners William McCarroll, John E. Eustis.

(1) On motion, the record of the proceedings of the Commission for January 28, as printed in the CITY RECORD for January 31 was approved.

(2) The Chief Engineer presented plan No. T-459 and memorandum for additional accommodations at the station at Seventy-second street and Broadway, as constructed under the contract with John B. McDonald for the Manhattan-Bronx subway.

Commissioner Eustis moved, and it was duly seconded, that this plan and memorandum be transmitted to the Interborough Rapid Transit Company for examination and for obtaining of such bids and estimates as may be necessary.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(3) Commissioner Eustis, to whom had heretofore been referred the matter of an appropriate station at the end of the West Farms branch of the Manhattan-Bronx subway, presented a communication from Henry B. Seaman, Chief Engineer, giving several estimates as to the cost of various plans, as follows:

January 28, 1908.

Hon. JOHN E. EUSTIS, Commissioner:

DEAR SIR—Herewith for your information are several estimates of the cost of carrying out as many plans for the construction of the Bronx Park station, at the end of the West Farms branch of the subway.

1. Structure extended in accordance with Contract No. 1 and the station building at One Hundred and Eighty-second street. Type of station to be standard type of elevated stations, which have been constructed under Contract No. 1, with one island platform. The station not to be particularly ornate; accessible by stairways. Comparative estimated cost, \$92,000.

2. Station and structure terminating at the north side of One Hundred and Eighty-first street. Type of station to be ornate in design in accordance with special plans prepared by this office, with a central and two side platforms. The side platforms to be enclosed within the park limits with an ornamental enclosure, accessible by stairways. Comparative estimated cost, \$140,000.

3. Station to terminate at the north side of One Hundred and Eightieth street. One and four-tenths per cent. down-grade to the station to be eliminated by raising the structure to level base of rail at an elevation of 63.97, or approximately 34 feet above the street level. Type of station to be the same as standard construction, not particularly ornate. One island platform, with terminal ticket house; accessible by one stairway and one ascending escalator. Comparative estimated cost, \$86,000.

4. If an additional descending escalator be added to No. 3, add \$34,000, or comparative estimated cost of \$120,000.

All of the above comparative estimates include the whole cost of the structure work, as well as the station finish work, to carry the line to the terminating points indicated. For the estimated total cost of any one of the projects 15 per cent. should be added to the comparative cost to cover contingencies. If plan No. 3 is carried out instead of plan No. 1, the latter plan called for under Contract No. 1, a saving to the City of approximately \$7,000 would be effected.

Respectfully,

(Signed) HENRY B. SEAMAN, Chief Engineer.

After discussion, on motion, duly seconded, it was

Resolved, That the Commission determine upon the third of the said suggestions that a station be constructed to terminate at the north side of One Hundred and Eightieth street, that the down grade be eliminated, that the type of the station be the same as the standard construction, with one island platform and terminal ticket house, accessible by one stairway and one ascending escalator, and that detailed plans for the same be prepared.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(4) The Secretary presented a communication from the Counsel to the Commission appointing Howard A. Butler as Junior Assistant Counsel, second grade, and recommending that his salary be fixed at the rate of \$1,200 per annum.

On motion, duly seconded, it was thereupon

Resolved, That the following appointment from the Civil Service list be confirmed and salary fixed as indicated:

Name.	Position.	Salary.	To Take Effect.
Howard A. Butler....	Junior Assistant Counsel, Second Grade..	\$1,200 per annum	Feb. 1, 1908

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(5) On motion, duly seconded, it was Resolved, That the appointment of Winifred Reidy as provisional Filing Clerk be terminated as of February 1, 1908.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(6) On motion, duly seconded, it was Resolved, That the following appointments be made from the Civil Service List:

Name.	Position.	Salary.	To Take Effect.
Rebecca Langerman.....	Stenographer.....	\$75 00 per month	February 1, 1908
Joseph Baradel.....	Office Boy.....	30 00 per month	February 1, 1908
John N. Boherstein.....	Office Boy.....	30 00 per month	February 1, 1908

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(7) EXTENSION OF TIME TO NEW YORK CONNECTING RAILROAD COMPANY. 2911

After consideration of the application of the New York Connecting Railroad Company, dated January 22, 1908, and presented to the Commission at its session on January 28, on motion, duly seconded, it was

ORDER FOR EXTENSION OF TIME (No. 235).

Resolved, That the time of the New York Connecting Railroad Company to obtain, so far as may be necessary, and, if and when obtained, file in the office of the Commission, the consent of the owners of one-half in value of the property bounded on the portions of streets over or under which the new railroad or any part of the route thereof runs, to the construction and operation of the new railroad or such part thereof, or in lieu thereof to obtain the determination of Commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department, or the Second Department, as the case may be, and the confirmation of the said Appellate Division as required by the certificate or franchise of the Board of Rapid Transit Railroad Commissioners to the said company, dated February 14, 1907, be and the same hereby is extended to the 28th day of February, 1910; and it was further

Resolved, That the Chairman and Secretary of the Public Service Commission for the First District be and they hereby are authorized, in behalf of the Commission, to execute and deliver to said railroad company a written certificate extending the time of such railroad company to obtain and file such consent or determination as aforesaid.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

The form of certificate referred to in the foregoing resolution was as follows:

CERTIFICATE EXTENDING THE TIME OF THE NEW YORK CONNECTING RAILROAD COMPANY TO OBTAIN CONSENTS, OR IN LIEU THEREOF THE DETERMINATION OF COMMISSIONERS.

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York, did, by certificate dated the 14th day of February, 1907, authorize the New York Connecting Railroad Company, a railroad corporation duly incorporated under the laws of the State of New York, to construct and operate a certain railroad in The City of New York; and

Whereas, The said certificate duly executed by the Board aforesaid was delivered by the said Board to the said New York Connecting Railroad Company, which company on the 28th day of February, 1907, duly accepted the franchise and all the terms, conditions and requirements thereof by an instrument in writing; and

Whereas, By the terms, conditions and requirements of the said certificate it was provided, among other things, that the franchise thereby granted should, if the Board should so determine, become void unless within one year after the time of the acceptance of the certificate by the said company, that company should further and in due and lawful form obtain so far as might be necessary, and if and when obtained

file in the office of the said Board the consent of the owners of one-half in value of the property bounded on the portions of streets over or under which the new railroad or any part of the route thereof should run, to the construction and operation of the new railroad or such part thereof, or in case such consent of such property owners could not where necessary be so obtained, then the determination of Commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department, or the Second Department, as the case might be, that such portion of the new railroad ought to be constructed and operated, the said determination of such Commissioners, when confirmed by the Appellate Division which appointed such Commissioners, to be taken in lieu of such consent of property owners; and

Whereas, The said New York Connecting Railroad Company has obtained the consent of the Board of Estimate and Apportionment and the Mayor of the City, as required by said certificate, but has not obtained the consent of the requisite number of owners of property bounded on the portions of streets over or under which its new railroad or any part of the route thereof runs, and has shown reasonable cause why such consent has not been obtained and the period fixed for obtaining such consent has not now elapsed; and

Whereas, Under and pursuant to the provisions of chapter 429 of the Laws of 1907, the said Board of Rapid Transit Railroad Commissioners was abolished and went out of office, and all the powers and duties of the said Board conferred and imposed by any statute of this State were directed to be exercised and performed by the Public Service Commission of the First District; now

Therefore, The Public Service Commission for the First District does hereby certify that the time of the New York Connecting Railroad Company to obtain and file consent of property owners, or in lieu thereof to obtain the determination of Commissioners to be appointed pursuant to law by the Appellate Division of the Supreme Court in the First Department, or in the Second Department, as the case may be, and the confirmation of the said determination as required by the certificate or franchise of the Board of Rapid Transit Railroad Commissioners to the said railroad company, dated February 14, 1907, be and the same hereby is extended to the 28th day of February, 1910.

In witness whereof, this certificate has been made by the Public Service Commission for the First District, and is now attested by the signature of its Chairman, who is its presiding officer, and its Secretary, this day of, 1908.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

By.....Chairman.
By.....Secretary.

State of New York, County of New York, ss.:

On the.....day of....., 1908, before me personally appeared William R. Willcox and Travis H. Whitney, to me known and known to me to be the said William R. Willcox, Chairman, and the said Travis H. Whitney, Secretary, of the Public Service Commission for the First District, and the said William R. Willcox and Travis H. Whitney, being by me duly sworn, did depose and say, each for himself, and not one for the other, the said William R. Willcox, that he resided in the Borough of Manhattan, in the said City; that he was the Chairman of the said Commission, and that he subscribed his name to the foregoing instrument by virtue of the authority thereof, and the said Travis H. Whitney that he resided in the Borough of Brooklyn, in the said City; that he was the Secretary of the said Commission, and that he subscribed his name thereto by like authority; and both the said William R. Willcox and Travis H. Whitney that they knew the seal of the said Commission, and that the same was affixed to the foregoing instrument by the authority of the said Commission, and of a resolution duly adopted by the same.

Notary Public,
County, New York.

(8) Commissioner Eustis presented the following order for hearing, and it was moved and seconded that the same be adopted by the Commission:

HEARING ORDER (No. 226).

In the Matter
of

The hearing on the motion of the Commission as to the regulations, practices, equipment and service of the Interborough Rapid Transit Company, in the respects hereinafter mentioned.

It is hereby

Ordered, That a hearing be had on the 12th day of February, 1908, at 3 o'clock in the afternoon, or at any time or times to which the same may be adjourned, at the rooms of the Commission, at No. 154 Nassau street, Borough of Manhattan, City and State of New York, to inquire whether the regulations, practices, equipment, appliances or service of said company, upon and near its line on and along Second avenue, in the Borough of Manhattan, at its Ninety-second street station on said line, in respect to the transportation of persons, freight or property within the State, are unjust, unreasonable, unsafe, improper or inadequate, and if it be so found, then to determine whether changes in said regulations, practices, equipment, appliances or service in the particulars following, at the place or places herein mentioned, would be just, reasonable, safe, adequate and proper, and whether such changes shall be put in force, observed and used on the line of said company, and also to inquire and determine whether repairs, improvements, changes, or additions to or in the tracks, switches, terminals, terminal facilities or other property or device used by said company in the particulars following, ought reasonably to be made in order to promote the security or convenience of the public or employees or in order to secure adequate facilities for the transportation of passengers, freight or property, namely:

Whether said company should be directed to erect and maintain a larger ticket office than is now kept and maintained by it at the Ninety-second street station of its Second avenue elevated line, and if so, then to determine what addition or additions, extension or extensions of the present ticket office at said station ought reasonably to be made, and particularly whether said ticket office should be extended farther to the west.

Whether said company should be directed to make changes in, additions to or extensions of the main stairway at said station leading from the train platform to the underhanging gallery or transverse passageway at the foot thereof, and if so, then to determine what changes, additions or extensions thereof ought reasonably to be made, and particularly whether a wider stairway than the one at present in use at said station ought properly to be constructed and maintained.

Whether said company should be directed to construct and maintain additions to or extensions of the underhanging gallery or transverse passageway at the said station, so that the same will extend farther to the east than at present, and if so, then to determine the extent of such additions or extensions.

Whether said company should be directed to construct a new stairway from the easterly end of said underhanging gallery or transverse passageway at said station to the easterly side of Second avenue.

Whether said company should be directed to make other changes in its property, equipment or appliances or in its regulations, practices and service upon said line at said Ninety-second street station.

And if such changes, improvements and additions, or any of them, be such as ought to be made as aforesaid, then to determine the extent thereof and what period would be a reasonable time within which the same ought to be directed to be executed.

All to the end that the Commission may make such order or orders in the premises as shall be just and reasonable; further

Ordered, That said Interborough Rapid Transit Company be given at least ten days' notice of such hearing by service upon it, either personally or by mail, of a certified copy of this order, and that at such hearing said company be afforded all reasonable opportunity to present evidence and to examine and cross-examine witnesses as to the matters hereinbefore set forth.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(9)

ORDER FOR ANSWER (No. 227).

O-227

On motion, duly seconded, it was

Resolved, That the Interborough Rapid Transit Company be required to make answer to the following questions and to furnish information called for herein, within one week after the receipt of this resolution:

(1) At what points on the Subway and Elevated lines are train dispatchers stationed?

(2) Do these dispatchers make a record of the actual time of the train movement past such points, covering any or all of the 24 hours?

(3) If the train dispatchers do not make such a record what are their functions, and are such records obtained by any other employees of the Railroad Company?

(4) Furnish the Commission with a certified copy of such records as were made on January 21, 1908, covering the Subway and Elevated train movement, on that day.

(5) Are any of the general officers of the operating company supplied each day with "Trouble" reports, or any reports which would indicate whether the trains on the various lines were or were not being operated in accordance with the schedules, and the causes of such variations therefrom as might occur?

(6) Furnish the Commission with a certified copy of such "Trouble" report or reports as referred to in paragraph No. 5, for January 21, 1908.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(10)

ORDER FOR ANSWER (No. 228).

O-228

On motion, duly seconded, it was

Resolved, That the Brooklyn Union Elevated Railroad Company be required to make answer to the following questions and to furnish information called for herein, within one week after the receipt of this resolution:

(1) At what points on the Elevated lines are train dispatchers stationed?

(2) Do these dispatchers make a record of the actual time of the train movement past such points, covering any or all of the 24 hours?

(3) If the train dispatchers do not make such a record what are their functions, and are such records obtained by any other employees of the Railroad Company?

(4) Are any of the general officers of the operating company supplied each day with "Trouble" reports, or any reports which would indicate whether the trains on the various lines were or were not being operated in accordance with the schedules, and the causes of such variations therefrom as might occur?

Ayes—Commissioners, Willcox, McCarroll, Eustis.

Nays—None.

Carried.

O-217

The Secretary stated that a communication had been received from the Staten Island Rapid Transit Railway Company upon Order No. 217 of the Commission, with regard to improvements in and additions to service and equipment. The communication was ordered filed, and was as follows:

THE STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY, }
New York, January 28, 1908. }

The Public Service Commission for the First District, No. 154 Nassau Street, New York City:

GENTLEMEN: Referring to your order No. 217, changing and modifying order No. 175, The Staten Island Rapid Transit Railway Company begs to advise that it is its intention to comply with section No. 1 of said order, in regard to bells and signals, and it will attempt to provide same within the dates therein specified. Whether or not it is able to comply therewith within the dates specified depends upon whether or not it is able to obtain the necessary materials.

It is its intention to comply with section No. 2 of said order; also with section No. 3 and section No. 4 of said order.

Very truly yours,

(Signed) GEORGE H. CAMPBELL, Vice-President.

State of New York, }
County of New York, } ss.:
City of New York, }

On this 30th day of January, 1908, before me personally came George H. Campbell, to me known and known to me to be the same person described in and who signed the foregoing, and he thereupon acknowledged to me that he had signed the same.

(Signed) W. J. KENNEY, Commissioner of Deeds,
City of New York.

(12)

O-216

The Secretary stated that a communication had been received from the Staten Island Railway Company upon Order No. 216 of the Commission, with regard to improvements in and additions to service and equipment. The communication was ordered filed, and was as follows:

THE STATEN ISLAND RAPID TRANSIT RAILWAY COMPANY, }
New York, January 28, 1908. }

The Public Service Commission for the First District, No. 154 Nassau Street, New York City:

GENTLEMEN: Referring to your order No. 216, changing and modifying your order No. 174, The Staten Island Railway Company hereby notifies you that it is its intention to comply with subdivision No. 1, a, of said order, for the provision and maintenance of warning bells and other warning apparatus, and it will endeavor to complete such precautions by March 15, 1908. It is its intention to comply with subdivision No. 1, b, of said order, and will endeavor to complete this by February 20, 1908. It is its intention to comply with subdivision 1, c, of said order, and will endeavor to do so by April 1, 1908; although whether or not such compliance can be effected will depend on whether or not it is able to secure the materials necessary. It further intends to comply with subdivision No. 1, d, thereof, and No. 1, e, thereof.

It is its intention to comply with section No. 2 of said order and section No. 3 of said order. It is its intention to comply with section No. 4 of said order, with the proviso that it is unable now to state whether or not it will be able to secure the necessary materials in order to comply by April 1, 1908.

It is its intention to comply with section No. 5 of said order, by running trains at all hours stated therein, and for that purpose it intends to readjust its schedule within the time stated in said section, and on said readjustment to operate trains henceforth at the hours stated.

Very truly yours,

(Signed) GEORGE H. CAMPBELL, Vice-President.

State of New York, }
County of New York, } ss.:
City of New York, }

On this 30th day of January, 1908, before me personally came George H. Campbell, to me known and known to me to be the same person described in and who signed the foregoing, and he thereupon acknowledged to me that he had signed the same.

(Signed) W. J. KENNEY, Commissioner of Deeds,
City of New York.

(13)

2184

The Secretary presented a communication from the Committee of One Hundred transmitting resolutions of the Prospect Heights Citizens' Association to the effect that the Prospect Park-Flatbush subway should be built by the City as a branch of the Fourth avenue-Manhattan Bridge route; and urging that the Commission consider the practicability of combining into one system the Prospect Park-Flatbush route, the Fourth avenue-Manhattan Bridge route, the Lexington avenue-Broadway-Church street route and the Liberty street and Maiden lane tunnel route; and that the Commission arrange for the construction of the Prospect Park-Flatbush route simultaneously with the Fourth avenue route.

The communication was ordered filed.

(14) The Secretary presented the following communication, requesting the Commission to change the name of the Hoyt street subway station in Brooklyn to Hoyt-Duffield street station, for the purpose of more definite identification.

Which was referred to Commissioner McCarroll, and was as follows:

FREDERICK LOESER & Co.,
BROOKLYN, January 28, 1908.

TRAVIS H. WHITNEY, Esq., Secretary, Public Service Commission, No. 154 Nassau street, New York City:

DEAR SIR—We desire to ask the Public Service Commission to change the name of the Hoyt street subway station in Brooklyn to the Hoyt-Duffield street station, and for these reasons:

The entrance to the subway on the south side is at Hoyt street. On the north side there are entrances at Bridge street and at Duffield street. Thus, though two streets, each some distance away from Hoyt street, have entrances to the subway, neither of them is named under the present plan.

We appreciate the fact that the use of "Bridge" in the name of a subway station might be inadvisable because of the possibility of confusion in the minds of passengers; but Duffield street is not subject to such an objection and a name which would include Duffield street would more definitely identify the station.

There are, of course, thousands of people who will daily make use of this subway and have their destination east of it. Our own personal interest in the matter centers in the great number of these people who are customers of the Loeser store; the Duffield street exit landing them almost diagonally opposite the store's entrance.

It seems to us that Hoyt-Duffield street would more satisfactorily and accurately identify the station and we ask your Honorable Body to direct the change.

Yours respectfully,

FREDERICK LOESER & CO.,
(Signed) WALTER HAMMITT.

(15) The Secretary presented a communication from Frank G. Stark as to traffic conditions in Manhattan, advocating the establishment in the district centering in One Hundred and Twenty-fifth street of terminals of all transportation lines entering that section, for the purpose of making that section the shopping and amusement district in place of the present one between Twenty-third and Forty-second streets. The letter was referred to Commissioner Eustis.

(16) The Secretary presented a communication from Dr. George W. Brush transmitting a letter from the Prospect Heights Citizens' Association and the Flatbush Taxpayers' Association, expressing their opinion that the East River tunnel had shown its efficiency and value, and that extensions should be built as speedily as possible; urging the Commission to authorize the construction of a four-track extension through Flatbush avenue to Parkside avenue, to be begun simultaneously with the Fourth avenue subway, and to be connected with the Interborough system, the Fourth avenue subway system, the Manhattan Bridge and the Broadway-Lafayette avenue subway loop; and to begin the construction of the Maiden Lane-Cranberry street tunnel to complete the system; calling attention to the fact that the Prospect Heights-Flatbush extension is the shortest line that could be built to accommodate so large a number of citizens; and recommending that the Flatbush avenue extension be advertised as part of the Fourth avenue subway system, if necessary to make the plan possible.

The communication was ordered filed.

(17) ORDER FOR HEARING (No. 233).

The following resolution was moved and duly seconded:

Whereas, The Commission has received the petition of the Coney Island and Brooklyn Railroad Company, verified January 22, 1908, for an order authorizing an issue of bonds of said company of the par value of thirty thousand dollars (\$30,000), in payment of new cars, as in said petition set forth:

Resolved, That the said petition of the said Coney Island and Brooklyn Railroad Company be heard by and before the Public Service Commission for the First District on the 6th day of February, 1908, at 2.30 o'clock in the afternoon, and that the said company publish a notice of the said application and of the time and place of the said hearing in the following newspaper, published in the Borough of Brooklyn, City of New York, at least two days in succession before said hearing, and file proof of such publication with the Secretary of this Commission on or before the opening of the said hearing:

"The Brooklyn Daily Eagle."

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

The Chairman designated Commissioner Bassett to conduct the hearing.

The above mentioned form of notice was as follows:

Notice is hereby given that an application of the Coney Island and Brooklyn Railroad Company to the Public Service Commission for the First District has been made for an order of said Commission authorizing an issue of bonds of the said company of the par value of thirty thousand dollars (\$30,000), for the purchase of ten (10) new cars, and that said application will be heard by the said Commission at its office, No. 154 Nassau street, Borough of Manhattan, New York City, on the 6th day of February, 1908, at 2.30 o'clock in the afternoon.

Dated Brooklyn, New York, January .., 1908.

CONEY ISLAND AND BROOKLYN RAILROAD COMPANY,
By.....

(18) Commissioner Eustis presented the following order for hearing, and it was moved and duly seconded that the same be adopted by the Commission:

HEARING ORDER (No. 229).

In the Matter

of

The complaint of Francis P. Kenney, as president of the High Bridge Taxpayers' Alliance,

Complainant,

against

The New York Central and Hudson River Railroad Company,

Defendant.

Upon the complaint herein of Francis P. Kenney, as president of the High Bridge Taxpayers' Alliance, dated December 19, 1907, on which Order No. 206 was issued January 17, 1908, and upon the answer of the New York Central and Hudson River Railroad Company, which was received by the Commission on January 29, 1908;

Ordered, That upon the matters therein a hearing be had on the 6th day of February, 1908, at 2.30 o'clock in the afternoon, or at any time or times to which the same may be adjourned, at the rooms of the Commission at No. 154 Nassau street, Borough of Manhattan, City and State of New York.

To the end that the Commission may make such order or orders in the premises as shall be just and proper, further

Ordered, That said Francis P. Kenney, complainant, and said New York Central and Hudson River Railroad Company be given at least three days' notice of such hearing, by service upon each of them, either personally or by mail, of a certified copy of this order, and that at such hearing they may be afforded all reasonable opportunity for presenting evidence and examining and cross-examining witnesses as to the matters aforesaid.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(19) APPLICATION OF THE CITY OF NEW YORK AS TO FIRST, SECOND AND THIRD STREETS, BOROUGH OF QUEENS. 2014

The Secretary presented the following communication from Counsel:

January 28, 1908.

Public Service Commission for the First District:

SIRS—Referring to the Secretary's letter of January 7, transmitting four applications of The City of New York, requesting your Commission to determine whether certain streets shall pass over or under or at grade of the tracks of certain divisions of the Long Island Railroad Company, I beg to advise you as follows:

The application by The City of New York, dated December 18, 1907, refers to the crossing of the track of Northside Division of the Long Island Railroad by the proposed opening or extension of three new streets in the Borough of Queens, City of New York, namely,

First street, between Thomson avenue and Jackson avenue;

Second street, between Woodside avenue and Jackson avenue;

Third street, between Thomson avenue and Jackson avenue.

This application is made to your Commission as successor to the Board of Railroad Commissioners under section 61 of the Railroad Law. As the change of these grade crossings is a matter of construction or maintenance on the portion of a railroad within the First District, the application is properly made to your Commission under subdivision 3 of section 5 of the Public Service Commissions Law, even in the case of a steam railroad running from one district to the other.

Under section 61 of the Railroad Law, the following is the procedure in this case: The City of New York shall give to the Railroad Company notice of intention to lay out the street.

The notice shall fix a day on which the railroad may be heard on the question of the necessity of the new street.

If the street is deemed necessary, the City shall apply to the Public Service Commission to determine whether the new street shall pass over or under or at grade of the railroad.

(The above steps have apparently been taken.)

The Public Service Commission shall appoint a time and place for hearing the application, and shall give reasonable notice of hearing, not less than ten days, to the following persons:

(1) To the railroad company whose railroad is to be crossed by the new street.

(2) To The City of New York.

(3) To the owner of land adjoining the railroad and that part of the street to be opened or extended.

Upon the hearing the Public Service Commission, under section 61 of the Railroad Law, "shall determine whether such street, avenue or highway or new portion of a street, avenue or highway, shall be constructed over or under such railroad or at grade, and if said board determine that such street, avenue or highway shall be carried across such railroad above grade, then said board shall determine the height, the length and the material of the bridge or structure by means of which such street, avenue or highway shall be carried across such railroad, and the length, character and grades of the approaches thereto; and if said board shall determine that such street, avenue, or highway shall be constructed or extended below the grade, said board shall determine the manner and method in which the same shall be so carried under, and the grade or grades thereof, and if said board shall determine that said street, avenue or highway shall be constructed or extended at grade, said board shall determine the manner and method in which the same shall be carried over said railroad at grade and what safeguards shall be maintained. The decision of the said board as to the manner and method of carrying such new street, avenue or highway, or new portion of a street, avenue or highway, across such railroad, shall be final, subject, however, to the right of appeal hereinafter given. The decision of said board rendered in any proceeding under this section shall be communicated within twenty days after final hearing to all parties to whom notice of the hearing in such proceeding was given or who appeared at such hearing by counsel or in person."

Under section 65 of the Railroad law, the expense of these alterations in grade crossings is to be paid half by the railroads and half by The City of New York.

The City having made application for the hearing above described, the next step is for the Commission to fix a time and place for a hearing.

The procedure of your Commission is the same in dealing with the application by The City of New York, dated December 18, 1907, and referring to the crossing the track of the Flushing and Northside Division of the Long Island Railroad Company by a proposed opening or extension of Grout avenue from Greenpoint avenue to Fisk avenue, in the Borough of Queens, City of New York, and the application by The City of New York, dated December 18, 1907, and referring to the crossing of the tracks of the Northside Division of the Long Island Railroad Company by the proposed opening and extension of two streets in the Borough of Queens, City of New York, namely,

Sixth street, between Thomson avenue and Seventh street;

Seventh street, between Thomson avenue and Jackson avenue.

The situation is quite different in regard to the fourth application by The City of New York, dated December 18, 1907, and referring to the crossing of the tracks of the Manhattan Beach Branch of the Long Island Railroad Company, and the tracks of the Brooklyn and Rockaway Beach Railroad Company by a proposed opening or extension of Hegeman avenue, between East Ninety-eighth street and New Jersey avenue, Borough of Brooklyn, City of New York, and this application is dealt with in a separate opinion.

I return you herewith the original applications of The City of New York, covering First, Second and Third streets, Queens Borough.

Respectfully yours,

(Signed) GEO. S. COLEMAN,
Counsel to the Commission.

On motion, duly seconded, the following was adopted:

NOTICE OF HEARING (ORDER No. 230-A).

In the Matter

of

The application of The City of New York relative to opening across the tracks of the Northside Division of the Long Island Railroad the following streets: First street, between Thomson avenue and Jackson avenue; Second street, between Woodside avenue and Jackson avenue, and Third street, between Thomson avenue and Jackson avenue, in the Borough of Queens, The City of New York.

An application having been made by The City of New York, under section 61 of the Railroad Law, to this Commission, to determine whether certain proposed new streets, namely, First street, between Thomson avenue and Jackson avenue; Second street, between Woodside avenue and Jackson avenue, and Third street, between Thomson avenue and Jackson avenue, all in the Borough of Queens, City of New York, shall pass over or under or at grade of the tracks of the Northside Division of the Long Island Railroad Company, and application having been made to the Public Service Commission for the First District by The City of New York for the appointment of a time and place for a hearing in relation thereto,

Resolved, That a hearing be had in the hearing room, in the office of the Public Service Commission for the First District, at No. 154 Nassau street, Borough of Manhattan, City of New York, at 2 p. m., February 20, 1908, and that at least ten days' notice of the said hearing be given to the proper persons, as required by law.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

2950
APPLICATION OF THE CITY OF NEW YORK AS TO GROUT AVENUE, BOROUGH OF QUEENS.

The Secretary also presented the following communication from Counsel:

January 28, 1908.

Public Service Commission for the First District:

SIRS—Referring to the Secretary's letter of January 7, 1908, transmitting four applications by The City of New York and asking for an opinion as to procedure, I beg to inform you that the procedure in the matter of the application by The City of New York, dated December 18, 1907, and referring to the crossing the track of the Flushing and Northside Division of the Long Island Railroad Company by a proposed opening or extension of Grout avenue from Greenpoint avenue to Fisk avenue, in the Borough of Queens, City of New York, is the same as that set forth in my letter of January 28, 1908, covering the crossing of the track of the Northside Division of the Long Island Railroad Company by First, Second and Third streets, Borough of Queens.

I return you herewith the original application as to extension of Grout avenue.

Respectfully yours,
(Signed) GEO. S. COLEMAN,
Counsel to the Commission.

On motion, duly seconded, the following was adopted:

NOTICE OF HEARING (ORDER NO. 230-B.)

In the Matter
of

The application of the City of New York, relative to opening across the tracks of the Flushing and Northside Division of the Long Island Railroad, the following street: Grout avenue, between Greenpoint avenue and Fisk avenue, Second Ward, Borough of Queens, City of New York.

An application having been made by The City of New York, under section 61 of the Railroad Law, to this Commission, to determine whether a certain proposed new street, namely, Grout avenue, between Greenpoint avenue and Fisk avenue, Second Ward, Borough of Queens, City of New York, shall pass over or under or at grade of the tracks of the Flushing and Northside Division of the Long Island Railroad Company, and application having been made to the Public Service Commission for the First District by The City of New York for the appointment of a time and place for a hearing in relation thereto,

Resolved, That a hearing be had in the Hearing Room, in the Office of the Public Service Commission for the First District, at No. 154 Nassau street, Borough of Manhattan, City of New York, at 2 p. m., February 20, 1908, and that at least ten days' notice of the said hearing be given to the proper persons, as required by law.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

2960
APPLICATION OF THE CITY OF NEW YORK AS TO SIXTH AND SEVENTH STREETS, BOROUGH OF QUEENS.

The Secretary also presented the following communication from Counsel:

January 28, 1908.

Public Service Commission for the First District:

SIRS—Referring to the Secretary's letter of January 7, 1908, transmitting four applications by The City of New York and asking for an opinion as to procedure, I beg to inform you that the procedure in the matter of the application by the City of New York, dated December 18, 1907, and referring to the crossing of the tracks of the Northside Division of the Long Island Railroad Company by the proposed opening and extension of two streets in the Borough of Queens, City of New York, namely,

Sixth street, between Thomson avenue and Seventh street,

Seventh street, between Thomson avenue and Jackson avenue,

—is the same as that set forth in my letter January 28, 1908, covering the crossing of the tracks of the Northside Division of the Long Island Railroad by First, Second and Third streets, Borough of Queens.

I return you herewith the original application as to opening and extension of Sixth and Seventh streets.

Respectfully yours,

(Signed) GEO. S. COLEMAN,
Counsel to the Commission.

On motion, duly seconded, the following was adopted:

NOTICE OF HEARING (ORDER NO. 230-C.)

In the Matter
of

The application of The City of New York, relative to opening across the tracks of the Northside Division of the Long Island Railroad, the following streets: Sixth street, between Thomson avenue and Seventh street, and Seventh street, between Thomson avenue and Jackson avenue, Second Ward, in the Borough of Queens, City of New York.

An application having been made by The City of New York, under section 61, of the Railroad Law, to this Commission, to determine whether certain proposed new streets, namely, Sixth street, between Thomson avenue and Seventh street, and Seventh street, between Thomson avenue and Jackson avenue, both in the Borough of Queens, City of New York, shall pass over or under or at grade of the tracks of the Northside Division of the Long Island Railroad Company, and application having been made to the Public Service Commission for the First District by The City of New York for the appointment of a time and place for a hearing in relation thereto,

Resolved, That a hearing be had in the Hearing Room, in the office of the Public Service Commission for the First District, at No. 154 Nassau street, Borough of Manhattan, City of New York, at 2 p. m., February 20, 1908, and that at least ten days' notice of the said hearing be given to the proper persons, as required by law.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

2916
APPLICATION OF THE CITY OF NEW YORK AS TO HEGEMAN AVENUE, BOROUGH OF BROOKLYN.

The Secretary also presented the following communication from Counsel:

January 28, 1908.

Public Service Commission for the First District:

SIRS—Referring to the letter of the Secretary of January 7, asking me to determine procedure and enclosing four applications of The City of New York, requesting your Commission to determine whether certain streets shall pass over or under or at grade of the tracks of certain divisions of the Long Island Railroad Company, I beg to advise you as follows:

The application by The City of New York, dated December 18, 1907, refers to the crossing of the tracks of the Manhattan Beach Branch of the Long Island Railroad Company, and the tracks of the Brooklyn and Rockaway Beach Railroad Company by a proposed opening or extension of Hegeman avenue, between East Ninety-eighth street and New Jersey avenue, Borough of Brooklyn.

From the papers now in the Franchise Bureau, it appears that the proposed extension of Hegeman avenue would cross two separate lines of railroad:

(1) The Manhattan Beach Division of the Long Island Railroad, formerly the New York, Brooklyn and Manhattan Beach Railroad.

(2) The tracks of the Brooklyn Union Elevated, formerly the Canarsie Railroad, and at one time the Brooklyn and Rockaway Beach Railroad.

These two lines of railroad are not more than two hundred feet apart at Hegeman avenue, the Brooklyn Union Elevated Railroad at this point running on Vesta avenue. The Long Island Railroad meets Vesta avenue, at or near New Lots road, within one thousand feet of Hegeman avenue, and from New Lots road north both roads run on Vesta avenue.

Your procedure in acting upon this application is the same as that outlined in my letter of January 24, 1908, covering the crossing of the tracks of the Northside Division of the Long Island Railroad by First, Second and Third streets, Borough of Queens, but this fact should be carefully noted.

By chapter 507 of Laws of 1903, and its amendment, by chapter 603 of Laws of 1905, by chapter 589 of Laws of 1905, by chapter 635 of Laws of 1905, and by chapter 735 of Laws of 1907, certain grade crossings on the line of the New York, Brooklyn and Manhattan Beach Railway Company (leased to the Long Island Railroad Company) and on the line of the Brooklyn Union Elevated Railroad were abolished, and the Brooklyn Grade Crossing Commission was formed (section 3), "to take the entire charge and control of the said improvement." The act as amended determined the points at which the tracks were to be elevated and depressed, leaving the details to the Brooklyn Grade Crossing Commission.

The line of the Manhattan Beach branch of the Long Island Railroad (formerly the New York, Brooklyn and Manhattan Beach Railroad Company), at the point of intersection with the proposed extension of Hegeman avenue, is covered by that portion of the act dealing with the Bay Ridge improvement. The Brighton Beach improvement affects the Brooklyn Union Elevated Railroad Company, but not that portion of the line to be crossed by the Hegeman avenue extension.

It follows, therefore, that the Brooklyn Grade Crossing Commission has jurisdiction over the Long Island Railroad at Hegeman avenue, but not over the Brooklyn Union Elevated Railroad Company at that point.

I am informed that the attitude of the Brooklyn Grade Crossing Commission is that, while the act above referred to determines practically all the questions which your Commission would naturally deal with under section 61 of the Railroad Law, yet the act does not in its terms take the matter out of your hands.

They further state that the two crossings being so close together, they must of necessity be treated alike.

I am of the opinion that as to the crossing of Hegeman avenue by the Brooklyn Union Elevated Railroad, your Commission is free to act as it thinks best under the procedure outlined in my letter of January 24, 1908.

As to the crossing of the Long Island Railroad, I am of the opinion that under the act above referred to, the Brooklyn Grade Crossing Commission is empowered to direct and superintend the details of the construction of the railroad "so as to avoid future crossings at grade." There is, however, no distinct provision for the Brooklyn Grade Crossing Commission to act upon the opening of new streets. Section 3 of chapter 507 of Laws of 1903 reads in part as follows:

"There shall be a Board whose duty it shall be to direct and superintend the construction of said improvement, which Board shall be called the Brooklyn Grade Crossing Commission. * * *

The said Board are hereby authorized and directed to take entire charge and control of the said improvement, and to direct and superintend the construction of the same in conformity with the provisions of this act in a substantial and workmanlike manner."

The only reference to the laying out of new streets is contained in section 1 of the act, as amended by chapter 589 of Laws of 1905, which reads as follows (relating to Bay Ridge improvement):

"* * * Nothing in this act contained shall prevent the laying out, opening and construction of new streets, avenues or highways or portions of new streets, avenues or highways across the right of way of said railroad company between said terminus and said dividing line, pursuant to law, provided, however, that all such new streets, avenues or highways shall be carried over said railroad at sufficient height to allow proper and safe clearance for cars and locomotives using said railroad, or shall be carried under said railroad at such grade as shall permit the free use of such new street, avenue or highway unobstructed by any railroad crossing at grade, without in either case changing or altering the grade of the right of way and tracks of said railroad company as fixed and established by or pursuant to this act."

It would seem, therefore, that in laying out this new highway that your Commission is authorized to act under section 61 of the Railroad Law, but that your action is restricted by the above enactments. As the Brooklyn Grade Crossing Commission has already determined the details of the railroad construction, I assume that you would wish to act in harmony with them. Mr. Edwin C. Swezey, General Superintendent of that Commission, has expressed himself as desiring to act only after conferring with you, and I understand that he so informed the Corporation Counsel's office when the petition now before you was presented to the Brooklyn Grade Crossing Commission.

I am of the opinion that the Brooklyn Grade Crossing Commission is a proper party to be notified of the hearing you hold.

I send you herewith a roll of blue prints given to me by the Brooklyn Grade Crossing Commission, and which show the grades they have adopted for the Long Island Railroad at this point; also, a pamphlet containing in convenient form the laws and by-laws relating to the Bay Ridge and to the Brighton Beach improvement, with amendments to July 1, 1907.

The sections of this law now in force are found in this pamphlet as follows:

Section 1, in chapter 589 of Laws of 1905, on page C.

Sections 2, 3, 4, in chapter 507 of Laws of 1903, pages 12 to 18.

Section 5, in chapter 735 of Laws of 1907, page CC.

Sections 6, 7 and 8, in chapter 507, Laws of 1903, pages 21 to 23.

Section 9, in chapter 735 of Laws of 1907, page ii.

Sections 10, 11, 12, 13, 14 in chapter 507 of Laws of 1903, pages 25 to 29.

Respectfully yours,

(Signed) GEO. S. COLEMAN,
Counsel to the Commission.

On motion, duly seconded, the following was adopted:

NOTICE OF HEARING (ORDER NO. 230-D).

In the Matter
of

The application of The City of New York relative to opening across the tracks of the Manhattan Beach Branch of the Long Island Railroad Company and the Brooklyn Union Elevated Railroad Company the following street: Hegeman avenue, between East Ninety-eighth street and New Jersey avenue, in the Borough of Brooklyn, City of New York.

An application having been made by The City of New York, under section 61 of the Railroad Law, to this Commission to determine whether a certain proposed new street, namely, Hegeman avenue, between East Ninety-eighth street and New Jersey avenue, in the Borough of Brooklyn, City of New York, shall pass over or under or at grade of the tracks of the Manhattan Beach Branch of the Long Island Railroad Company and the Brooklyn Union Elevated Railroad Company, and application having been made to the Public Service Commission for the First District by The City of New York for the appointment of a time and place for a hearing in relation thereto,

Resolved, That a hearing be had in the Hearing Room, in the office of the Public Service Commission for the First District, at No. 154 Nassau street, Borough of Manhattan, City of New York, at 2 p. m., February 20, 1908, and that at least ten days' notice of the said hearing be given to the proper persons, as required by law.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

The Chairman designated Commissioner Bassett to conduct the hearings upon the above applications.

(20)

The Secretary presented the following communication from Bird S. Coler, President of the Borough of Brooklyn, which was referred to the Chief Engineer:

3013

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,
BROOKLYN, January 29, 1908.

The Honorable the Public Service Commission:

GENTLEMEN—In reply to your communication of the 22d inst., regarding the driving of wells on the line of the proposed Fourth avenue subway, under a contract made by the Department of Water Supply, in which you ask if there is further information in this matter which would be of benefit to the Commission, I enclose for your consideration copy of the original revocable permit which I issued to Silas W. Titus on July 19, 1907, allowing the driving of test wells in the locations described in his contract of July 15, 1907; and I send also copy of communication of the 2d inst., which I addressed to Hon. William C. Cozier, Deputy Commissioner of Water Supply, objecting to continuation of work on the line of the subway as an unwarranted encroachment on an important public work.

I understand that at your meeting of the 21st inst., when the Consulting Engineer of this office first brought this matter to your attention, the general features of the work proposed by the Department of Water Supply under the Titus contract were briefly outlined, and that he also explained that in laying the matter before Hon. John H. O'Brien, Commissioner of Water Supply, and repeating my protest against the continuation of well driving on Fourth avenue, which I had entered on several previous occasions, it was stated by Commissioner O'Brien that your Commission had, through one of your engineering staff, approved a continuation of this work as not interfering with the subway or the pipe galleries, which could be relocated so as to avoid encroachment of the Titus wells on the latest plans of your Chief Engineer.

This Titus contract was referred by the Board of Estimate to the Comptroller and reported upon favorably by him to the Board before a vote was taken. While 4 and 5 of the contract (CITY RECORD of August 2, 1907) indicate that the contractor was to acquire private property and "to construct on each site a well system complete with all necessary appurtenances," the provisions of paragraph 15 are so general in allowing "the contractor to place such wells and connections as he may desire on the public streets or highways" that I issued a general permit allowing wells to be driven in the streets of the Borough within the limits prescribed in the contract, but limiting the work to test wells, and as you see by letter of the 2d inst., subsequently protested against any permanent construction of this character along the line of the subway.

I am now laying the entire matter before the Mayor, bringing out these facts, but more especially noting the provisions of the contract under which an alteration in the terms of the contract, wherein the contractor has not apparently complied with the provisions of section 6, would require its reference to the Board of Estimate and Apportionment, in accordance with paragraph 471 of the Charter. I am also sending notice to the Department of Water Supply that the permit of July last is revoked so far as it allows the driving of any wells whatever on subway routes.

As to the disposition of the wells now located near the west curb of Fourth avenue, it seems advisable to have them cut off and capped at such time as the construction of the Fourth avenue subway in this location is about to commence.

I have recently been informed that the Department of Water Supply contemplated allowing these wells to be driven on Fourth avenue, from Atlantic avenue to Ninth street, and that the manholes, some 6 feet in diameter, with water main connections, would be a serious interference to subway construction and a direct interference with the location and construction of the pipe galleries which your Commission intend, according to the plans sent my Engineer, to place under the westerly sidewalk of Fourth avenue.

It does not seem probable that the provisions of paragraph 15 of the Titus contract would allow so serious an interference with public work, especially as the deep water-bearing strata cannot be limited to this location, and producing wells, as I set forth to the Deputy Commissioner some time ago, could as well be driven by Titus at some other location, without interference with the subway work.

Very truly yours,
(Signed) BIRD S. COLER,
President, Borough of Brooklyn.

January 29, 1908.

Notice is hereby given to Silas W. Titus, No. 662 Carroll street, Brooklyn, that the revocable permit allowing the driving of test wells in certain streets which was issued by me on July 19, 1907, is hereby annulled and revoked in so far as such permit would allow the driving of wells for procuring water within the lines of Fourth avenue, between Atlantic avenue on the north and Bay Ridge parkway on the south, or within the lines of any street described in said permit in which the former Rapid Transit Commission, or their successors, the Public Service Commission of the First District, have laid out any rapid transit route, or in which relief sewers or other structures of public importance have been laid out or authorized.

(Signed) BIRD S. COLER,
President, Borough of Brooklyn.

July 19, 1907.

Permission is hereby given to Mr. Silas W. Titus, of No. 662 Carroll street, to make openings in the highways in the Borough of Brooklyn in the territories bounded as follows:

No. 1. Covert avenue, Cornelia street on the west, Hoffman boulevard on the east, Myrtle avenue on the south and Metropolitan avenue on the north, or as much of such territory as is in the Borough of Brooklyn.

No. 2. Eighteenth avenue, Eighty-first street, New Utrecht avenue, Fort Hamilton avenue, Ocean Parkway, Ocean avenue, Malbone street and Washington avenue on the east, Atlantic avenue on the north, New York Bay on the west, Gravesend avenue on the south. Said permit being granted for the purpose of making tests in accordance with the contract or agreement made between the said Silas W. Titus and The City of New York on July 15, 1907, and the said Silas W. Titus being required to report to the Superintendent of Highways all openings made by him in accordance with the provisions of this permit.

This permit is revocable at the discretion of the President of the Borough.

(Signed) BIRD S. COLER,
President of the Borough.

January 2, 1908.

Hon. WILLIAM C. COZIER, Deputy Commissioner of Water Supply:

DEAR SIR—In the matter of permit issued by me to Silas W. Titus on July 19, 1907, I call your attention to the fact that this permission was granted explicitly for the purpose of putting down test wells only in accordance with the application of Mr. Titus under his agreement with the City of July 15, 1907 (a copy of which is attached), and that the representations made to me at that time, and my entire understanding of the matter, were not that locations for permanent wells had been asked for in the city streets.

From the number and location of the wells which you are having driven on Fourth avenue, it would appear that you contemplate authorizing these as permanent wells, to be operated by Titus during the term of his contract and taken over by the City at its termination.

Assuming that these are so intended as permanent wells, I am strongly of the opinion that all work along the line of the subway should be discontinued, as an unwarranted encroachment on a very important public work, and in any case the further driving of test wells along this route is inadvisable, and use of those in place should be terminated probably within six months from date.

Yours very truly,
(Signed) BIRD S. COLER,
President, Borough of Brooklyn.

(21)

Commissioner McCarroll, to whom had heretofore been referred the request from Hon. J. Mayhew Wainwright, Chairman of the Committee on Railroads of the Assembly, inquiring as to Assembly Bill No. 39, and the opinion of George S. Coleman, Counsel to the Commission, for the purpose of drafting a suitable reply, presented the following correspondence thereon, which was ordered filed:

ALBANY, January 22, 1908.

Hon. WILLIAM R. WILLCOX, Chairman, Public Service Commission, First District, New York City:

DEAR SIR—On behalf of the Committee on Railroads, I desire to call your attention to Assembly Bill No. 39, introduced by Mr. Wagner, and request whether the purpose of, or the legislative action proposed by this is within the power of your Commission; also whether any application has been made to your Commission for an order reducing fares as contemplated in this bill, and, if so, what action, if any, has been taken by your Commission thereon. Further, that if any such proceeding has been taken, you will furnish us with the evidence produced before your Commission therein. The Committee will also be glad to receive any views that your Commission may desire to express upon the wisdom or justice of the proposed measure.

As a hearing before this Committee on this bill has been set for next Wednesday, January 29, we will appreciate it if the above request will be complied with before that date.

Very respectfully yours,
J. M. WAINWRIGHT, Chairman.

NEW YORK, January 28, 1908.

The Hon. J. MAYHEW WAINWRIGHT, Chairman, Committee on Railroads, Assembly Room, Albany, N. Y.:

DEAR SIR—In further acknowledgment of your communication of January 22, calling the attention of this Commission to Assembly Bill No. 39, introduced by Mr. Wagner, and requesting whether the purpose of the legislative action proposed by this is within the power of this Commission, and whether any application has been made for an order reducing fares, and, if so, what action, if any, has been taken by this Commission thereon, and further stating that your Committee will be glad to receive the views which this Commission may desire to express upon the wisdom or justice of the proposed measure, I desire to state that your request was referred by the Commission to its Counsel for his opinion thereon, and that such opinion was received by the Commission to-day. In so far as the proposed bill bears upon existing rates and obligations under contracts between companies, he is of the opinion that the Commission is given sufficient power to do, after a hearing, all that the proposed bill can accomplish, and possibly more.

He adds, in his opinion, however, that should it be found, notwithstanding, to be the purpose of the legislature, to enact such measure, it should be considered that in fixing obligations for a single five-cent fare which are to be assumed by corporations entering in future into contracts of the nature described in the bill, the act will accomplish something which the Commission has not now the power to effect, but that it seems very important that the definition of the word "control," as including control by stock ownership, should be more clearly specified than it is at present in this proposed act; that the word "corporation" which holds control should include individuals or associations of individuals not incorporated; that inasmuch as the persons whose control is by virtue of stock ownership do not themselves operate the road or charge fares for transportation, there ought to be a clause forbidding them to allow a greater rate to be charged for transportation than the amount specified, and that the exception of the steam road and the trunk line in sections 101 and 104 of the Railroad Law, as proposed, should not exempt them entirely from fare regulation or reduction, either as to their own lines or other lines which they may operate or control, which is the effect of the bill as at present drafted.

In reply to your question as to whether any application has been made to this Commission, I desire to state that no application has been made for an order reducing fares as contemplated by this bill. It is, therefore, impossible to furnish you with any evidence upon the subject. I may add, however, that owing to the shortness of time since the receipt of your communication, the Commission has not had opportunity to give full consideration to the measure, and that if you desire a further expression of its views, it will communicate them if requested.

Yours very truly,
(Signed) TRAVIS H. WHITNEY, Secretary.

(22)

The Secretary presented a petition of John H. O'Brien, Commissioner of Water Supply, Gas and Electricity, as follows:

PUBLIC SERVICE COMMISSION, FIRST DEPARTMENT.
PETITION.

In the Matter
of

The petition of John H. O'Brien, Commissioner of Water Supply, Gas and Electricity of The City of New York, for an order directing the New York Central and Hudson River Railroad Company to place its electrical conductors underground within the limits of The City of New York.

To the Public Service Commission, First Department:

The petition of John H. O'Brien, Commissioner of Water Supply, Gas and Electricity of The City of New York, respectfully shows:

1. That on or about the 8th day of October, 1906, pursuant to law, the Hon. George B. McClellan, Mayor of The City of New York, as such, appointed your petitioner Commissioner of the Department of Water Supply, Gas and Electricity of said City of New York, and your petitioner thereupon duly qualified as such Commissioner and has continued as such, and still is the Commissioner of Water Supply, Gas and Electricity of the said The City of New York.

2. That under and by virtue of the Greater New York Charter, and particularly sections 469 and 528 thereof, your petitioner has cognizance and control of the use and transmission of electricity for all purposes within the limits of The City of New York and of the construction therein of electrical mains, conduits, conductors, subways and of the erection of poles for the transmission of electricity.

3. That the New York Central and Hudson River Railroad Company, the company complained of, was created a steam surface railroad on November 1, 1869, and is engaged in the business of operating a railroad for the carrying of passengers and freight and maintains tracks and operates cars thereon for that purpose within the limits of The City of New York.

4. That pursuant to Chapter 425 of the Laws of 1903 and the consent of The City of New York granted thereunder, said New York Central and Hudson River Railroad Company has changed the motive power of its railroad from steam to electricity and is now operating its railroad by electricity within the limits of The City of New York.

5. That pursuant to section 528 of the Greater New York Charter, said New York Central and Hudson River Railroad Company applied to the Commissioner of Water Supply, Gas and Electricity for a permit to electrify its road, and on or about June 9, 1906, William B. Ellison, the then Commissioner of Water Supply, Gas and Electricity of The City of New York issued a permit therefor, which was accepted by said company, a copy of which, together with accompanying letter to said company, is annexed hereto, made a part hereof and marked Exhibit "A," which permit provides in part:

"Nothing in this permit shall be construed as allowing or authorizing the erection, construction, maintenance and operation of a pole line, over-head transmission conductors or feeder conductors along tracks or over any part of the territory embraced within the limits of The City of New York."

6. That despite the express provisions of said permit and lack of authority from your petitioner, said New York Central and Hudson River Railroad Company constructed and is now maintaining an overhead high tension transmission pole line and conductors along the railroad of such company, beginning at a point north of Macomb's Dam Bridge along the Harlem River and along the Harlem Ship Canal and along the Hudson River to the city line.

7. That such overhead high tension pole line and conductors are maintained and operated without legal authority and in violation of the law, and are a menace to the lives and property of the passengers and employees of said road, to the residents of The City of New York along said route, to users of the streets and highways crossed by said road and to the structure of the Interurban Rapid Transit Railroad at Kingsbridge and the users of the railroad thereon.

8. That on or about the 18th day of October, 1907, your petitioner addressed a communication to the said New York Central and Hudson River Railroad Company, a copy of which is annexed hereto and made a part hereof, marked Exhibit "B," in which your petitioner said that if the said New York Central and Hudson River Railroad Company did not place its high tension system underground, he would apply to the Public Service Commission for an order compelling such removal. The said railroad company has ignored said communication and still continues to maintain and operate overhead the high tension system of its railroad.

Wherefore your petitioner prays that under and pursuant to the authority conferred on the Public Service Commission for the First Department by Chapter 429 of the Laws of 1907, your Honorable Commission shall issue an order directed to the said New York Central and Hudson River Railroad Company requiring that the matters herein complained of be satisfied, or that the charges herein contained be answered in writing within a time to be specified by your petitioner, and that for failure of the said company to cease to commit the said violation of law, that your Commission shall investigate such charges and take action thereon to the end that the said violation of law may be stopped and the rights and property of the citizens of New York along the route, or traveling in the cars of the said New York Central and Hudson River Railroad Company may be safeguarded and your petitioner will ever pray.

(Signed) JOHN H. O'BRIEN, Petitioner.

FRANCIS K. PENDLETON, Corporation Counsel, Attorney for Petitioner, Hall of Records, Borough of Manhattan, New York City.

State of New York, }
County of New York, } ss.:

John H. O'Brien, being duly sworn, says he is the petitioner named in the foregoing petition, and that the same is true to his knowledge, except as to matters therein stated to be alleged upon information and belief and that as to those matters he believes it to be true.

(Signed) JOHN H. O'BRIEN.

Sworn to before me this 23rd day of January, 1908.

(Signed) JOHN A. LANGOL, Commissioner of Deeds, New York City.

"A."

CITY OF NEW YORK—DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, }
Nos. 13 to 21 Park Row, }
NEW YORK, June 5, 1906. }

PERMIT NO. 26.

J. C. BRACKINRIDGE, Esq., Consulting Engineer Electrical Department, New York Central and Hudson River Railroad Company, City:

DEAR SIR—I have compared the amended permit submitted by you on behalf of the New York Central and Hudson River Railroad Company, for the electrification of their railroad within the limits of New York City, and herewith transmit to you a new form of permit authorizing the electrical construction necessary for the operation of an electrical railway; which it is requested the Railroad Company will sign, then secure the signatures of the Presidents of the Boroughs of Manhattan and of The Bronx, and you will then please return same to this office where it will be properly recorded and made valid.

Your early attention is urged.

Respectfully,

(Signed) WILLIAM B. ELLISON, Commissioner.

PERMIT NO. 26.

OFFICE OF THE DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, }
BOROUGH OF MANHATTAN AND THE BRONX, }
NEW YORK, March 27, 1906. }

WILLIAM B. ELLISON, Commissioner.

PERMIT FOR THE CONSTRUCTION OF ELECTRICAL CONDUCTORS AND APPARATUS FOR THE OPERATION OF ELECTRIC RAILWAYS.

To the New York Central and Hudson River Railroad Company:

The above-named company having on the 24th day of August, 1905, and February 8, 1906 (the latter being accompanied by a portfolio containing "a short general description of the proposed electrification of the New York Central and Hudson River Railroad Company within the limits of New York City," dated January 29, 1906), made application for a permit authorizing the construction of necessary tile and pipe insulated conduits, cable conductors, power stations, sub-stations, battery stations, electric cars, electric locomotives and apparatus for the purpose of operating its railroad by means of electric motive power, and has submitted plans and maps showing the proposed method of construction.

Permission is hereby granted to the New York Central and Hudson River Railroad Company to construct, operate and maintain electrical conductors, devices and fixtures as above, in accordance with the plans and specifications submitted, for the exclusive use of the railroad operated by said company, with the exception of the proposed subway construction shown in said maps and plans, through East One Hundred and Fiftieth street from the tracks of the Port Morris Branch to the tracks of the Harlem Division of the New York Central and Hudson River Railroad; and through East One Hundred and Ninety-fourth street and Kingsbridge road from the tracks of the Harlem Division to the power station located at Kingsbridge.

1. Beginning at a point in New York City known as the Grand Central Depot, Park avenue and Forty-second street, through and along Park avenue to and across the Harlem River, continuing along Park avenue to a point at or near One Hundred and Fiftieth street; thence through and along the right of way now operated by said company along the banks of the Harlem River and Harlem Ship Canal, and along Harlem Ship Canal to Spuyten Duyvil, thence northerly along the Hudson River to the city limit.

2. Commencing at or near a point known as One Hundred and Fiftieth street and Park avenue, where the lines of the New York Central and Hudson River Railroad and the lines of the Harlem Division of the New York Central and Hudson River Railroad meet, northerly along Park avenue on the right of way said company is now occupying, to the city line.

3. Commencing at a point at the East River, Borough of The Bronx, known as Port Morris, through and along the right of way said company is now occupying, to where the tracks of the Port Morris Branch of the New York Central and Hudson River Railroad connect with the tracks of the Harlem Division of the New York Central and Hudson River Railroad.

4. Commencing at a point known as Eighth avenue and Harlem River, Borough of Manhattan, New York City, crossing the Harlem River to the right of way occupied by the tracks of the Putnam Division of the New York Central and Hudson River Railroad, thence northerly along said right of way to a point known as Van Cortlandt Park Station, all of which work is authorized by the provisions of Chapter 425 of the Laws of 1903.

This permit is granted upon the following express conditions, which are accepted by the applicant by the acceptance of this permit:

1. Nothing in this permit shall be construed as authorizing the New York Central and Hudson River Railroad Company to take up the pavements, construct, maintain or operate electrical conductors in any street or avenue in The City of New York other than those specifically mentioned in this permit.

2. Nothing in this permit shall be construed as allowing or authorizing the erection, construction, maintenance and operation of a pole line, overhead transmission conductors or feeder conductors, along the tracks or through any part of the territory embraced within the limits of The City of New York.

3. The said company shall indemnify and hold The City of New York harmless from all damages and costs by reason of injury to person or property or the acts or omissions of the applicant, its agents, servants or employees, arising directly or indirectly from the opening of the streets in question for this construction or the operation of the same, or by reason of any failure to repair the streets to the satisfaction of the President of the Borough of Manhattan and the President of the Borough of The Bronx.

4. The streets shall be repaved to the satisfaction of the President of the Borough of Manhattan and the President of the Borough of The Bronx.

5. This permit shall be void unless construction authorized herein shall be completed on or before July 1, 1909.

6. All the rules and regulations of this department for the construction, care, maintenance and operation of poles, wires, conduits, subways and other electrical appliances in, on, over or under the streets or in buildings in The City of New York shall be complied with.

7. Nothing herein contained shall be construed as an admission of the truth of any of the statements upon which this application is based, nor as a waiver of the rights to revoke the same at any time, if they are not true, or for any other reason or any violation of those conditions.

8. No portion of any structure laid under this permit shall be built nearer than one foot from existing water mains, that at least one foot clear space shall be left between existing water mains and the construction authorized by this permit, and that no portion of this construction shall be built over any water mains.

No change to existing water mains shall be made without the permit of the Commissioner, and unless the plan showing the desired change has been submitted to and approved by the Chief Engineer of the Department of Water Supply, Gas and Electricity; and all such changes shall be made under his supervision, and at the expense of the applicant.

Access to existing water mains shall not be prevented or in any manner obstructed by changes made to subway, gas or other mains, or other sub-surface structures due to this reconstruction or any work done under this permit.

9. In case the Commissioner of Water Supply, Gas and Electricity desires in the future to lay new mains or change the old one, and such work should necessitate a change in the ducts for underground feeders constructed under this permit, the applicant agrees to make such change at its own expense on the request of the said Commissioner.

10. No work shall be done except under the supervision of, to the satisfaction of and in the presence of inspectors appointed by the Commissioner of Water Supply, Gas and Electricity, and said company shall notify the Chief Engineer of said Department immediately before commencing work under this permit, in order that such inspectors may be detailed, and shall pay for the services of said inspectors at the rate of One Hundred and Twenty (\$120) Dollars per month each, during the time the work under this permit shall be actually in progress.

11. This permit shall be of no effect until and unless the same shall be issued in quadruplicate and accepted in quadruplicate by the said company, together with all the conditions and provisions above specified, and approved by the President of the Borough of Manhattan and the President of the Borough of The Bronx.

WILLIAM B. ELLISON,

Commissioner of Water Supply, Gas and Electricity.

The New York Central and Hudson River Railroad Company hereby accepts the terms and conditions of the above permit this 9th day of June, 1906.

WILLIAM J. WILGUS, Vice-President, E. W. K.

Approved

1906.

JOHN F. AHEARN,

President Borough of Manhattan.

Approved

1906.

LOUIS F. HAFFEN,

President Borough of The Bronx.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, }
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW, }
NEW YORK, October 18, 1907. }

New York Central and Hudson River Railroad Company, Grand Central Depot, Forty-second Street and Fourth Avenue, New York:

GENTLEMEN—Since our conference of July 29 I have had the overhead construction of your 11,000-volt transmission lines crossing streets, etc., and along your right of way in the Borough of The Bronx, carefully examined by the Consulting Engineer of this Department, Mr. George F. Sever, and the Chief Engineer of Light and Power, Mr. C. F. Lacombe. Copies of their reports are attached hereto.

After careful consideration of these reports and the opinions of the Corporation Counsel's office, it appears to me that it is my duty to order that you make certain temporary changes in the present construction for the strengthening and additional safety of same, and endeavor to arrange that within a reasonable time thereafter you place all the wires of your high tension system underground on streets, etc., and along your right of way.

At our last conference the counsel for your road, Mr. Harris, advised me that he did not recognize my jurisdiction as to this high tension construction on your right of way. At this conference, however, there was no dispute as to my jurisdiction where your wires exist on or across streets, public places and so on in The City of New York. This makes a problem which I think should be solved with as little delay and litigation as is possible, and I assume that the railroad as well as the City would be glad to have the matter finally determined.

The Corporation Counsel in his opinion to me of September 20, 1907, states as follows:

Department of Water Supply, Gas and Electricity.

N. Y. C. & H. R. R. Co.—2.

10/10/1907.

"As I have already stated several times, I believe that the jurisdiction of your Department, which is practically unquestionable as to the streets across the railroad, also extends to the entire right of way, but, of course, there may be enough in the doubt raised by the counsel for the company as to the jurisdiction of your Department to produce litigation and delay.

It being of vital importance in this matter that action should promptly be taken, I suggest that you confer with the Public Service Commission in the First District, and either by concurrent action with it, or if it should appear preferable by an application to it to exercise its powers under section 49 of the Public Utilities Law to make provision for the necessary changes in the electric system in question.

Section 49 of the Public Utilities Law, so far as relevant, is as follows:

"Whenever the Commission shall be of opinion after hearing had upon its own motion or upon complaint that the regulation, practices, equipment, appliances or service of any such common carrier, railroad corporation or street railroad corporation, in respect to the transportation of persons, freight or property within the State are unjust, unreasonable, unsafe, improper or inadequate, the Commission shall determine the just, reasonable, safe, adequate and proper regulations, practices, equipment, appliances and service thereafter to be enforced and to be observed in respect to such transportation of persons, freight and property, and so fix and prescribe the same by order to be served upon every common carrier, railroad corporation and street railroad corporation to be bound thereby, and thereafter it shall be the duty of every common carrier, railroad corporation and street railroad corporation to observe and obey each and every requirement of every such order so served upon it, and to do everything necessary or proper in order to secure absolute compliance with and observance of every such order by all its officers, agents and employees."

I think, therefore, your course should be as follows: While it is your duty to cause such change or modification of the system as shall make it safe, you must, of course, perform it in a reasonable manner, and give the company, should it desire it, such time as may be necessary to make the changes directed by you.

You should, therefore, communicate with the company and ascertain positively whether it intends to obey such order as you may give in this matter, and if it shows a reasonable spirit and agrees to comply with your directions, the only thing remaining to be done will be to give such directions which may be necessary, and see that they are carried out within a reasonable time.

If, on the contrary, the company declines, as indicated by their counsel, to recognize your authority, then I think your duty will be, in the first instance at least, not to take action, which, as you truly observe, would produce litigation and delay, but to lay the matter before the Public Service Commission of the First District, and request it to exercise the broader authority conferred upon it by the section 49 previously mentioned.

It would be preferable, in view of the apparent duplication of authority conferred upon the Public Service Commission and your Department, to give an order from each for the making of the necessary changes, but such a course would be difficult, and the fact that two different authorities were supervising the same work might give rise to uncertainties and the very delays which we are seeking to prevent.

The City's course, therefore, if the company disputes your authority, is to appeal to the Public Service Commission, as I suggested, and request its action."

The above advice, as you will note, points out that the speediest method, as well as the one least open to dispute, is to submit the entire question to the Public Service Commission.

The only alternative course which could be pursued is that this Department should order you to place your lines under ground, where they cross the streets, public places, etc. The legality of this course is unquestioned, and while it may have to be resorted to it is condemned entirely by my engineers on technical grounds. They state that it would result in an electrically weak system on account of the numerous joints between overhead and underground wires, on account of the weakening of the resistance of the line as to insulation against lightning, the difficulty in locating line troubles and electrical defects on such a mixed system, and also the difficulty in maintaining it.

As your railroad is a very important one, and as there is no desire on the part of the City to either cripple or interfere with the operation of it, it would appear that this course would not produce satisfactory results.

My Engineers also assure me that the equipment can be placed underground in its entirety without any great difficulty, and that it can be operated in the long run probably better and more economically from underground lines than from overhead lines. As you know, a number of underground lines of this voltage are now operating successfully in the city.

I also note, from correspondence submitted to me by the Board of Estimate and Apportionment, between the Hon. John H. Starin, Vice-President of the Rapid Transit Commission, and President Newman of the New York Central and Hudson River Railroad Company, that the railroad also realizes some of the objections of a mixed system.

At the conference of July 29 it was suggested that a further conference might be held after an investigation of the matter had been made by me, to discuss the matter further if necessary.

With the information that is now before me, for the reasons I have stated above, it is my intention to follow the advice of the Corporation Counsel, issue the necessary order and refer the matter to the Public Service Commission, whose authority under the law to deal with the subject at large is not questioned. Before finally doing so, should you desire to have me further consider the matter, I would be glad to appoint a date for another conference and consider further arguments which you may care to make. I am,

Yours very truly,

Commissioner, Department of Water Supply, Gas and Electricity.

Commissioner Eustis thereupon moved the following order for satisfaction and answer, which was thereupon approved and confirmed and ordered filed in the office of the Commission:

COMPLAINT ORDER (No. 231).

John H. O'Brien, Commissioner of Water Supply, Gas and Electricity of The City of New York,

Complainant,

against

New York Central and Hudson River Railroad Company,

Defendant.

This matter coming on upon the complaint of John H. O'Brien, Commissioner of Water Supply, Gas and Electricity of The City of New York, by which it appears that said complainant is aggrieved by acts done or omitted to be done by said defendant, New York Central and Hudson River Railroad Company, and set forth in said complaint, which are claimed to be in violation of some provision of law or of the terms and conditions of defendant's franchise or of an order of this Commission.

Now, upon said complaint, it is

Ordered, That a copy of the said complaint be forwarded to the said defendant and that the matters therein complained of be satisfied or the charges in said complaint set forth be answered by said defendant within ten days after service upon it of this order, exclusive of the day of service.

(23)

C-1251

Commissioner Eustis presented the following report, and on motion, duly seconded, the Secretary was directed to send a copy thereof to the High Bridge Taxpayers' Alliance:

To the Public Service Commission for the First District:

In the matter of the communication received from the Secretary of the High Bridge Taxpayers' Alliance, inclosing a copy of a resolution passed by said Alliance on the 7th day of January, 1908, and which was referred to me, I beg to report:

That the statement in the first resolution wherein said Alliance protests against the recent order of this Commission requiring all Ogden avenue cars of the New York City Interborough Railway Company to continue up Aqueduct avenue instead of crossing Washington Bridge to the subway station, is incorrect, and that no such order has been issued by this Commission. The order evidently referred to was the order of this Commission, No. 158, in which the said railway company was ordered to maintain a service from One Hundred and Fifty-fifth street and Eighth avenue to Kingsbridge road along Ogden avenue and Aqueduct avenue on a schedule of not less than ten minutes headway during the greater portion of the day. There is plenty of time between said cars for through service up Ogden avenue and across Washington Bridge were the same necessary.

And the further resolution passed by said Alliance that this Commission be requested to issue an order providing for adequate service of through cars over the Ogden avenue line to the said One Hundred and Eighty-first street station of the subway is not, in my opinion, required by the travel.

The people along the line of Ogden avenue who use this line of cars live between One Hundred and Sixty-first street and about One Hundred and Sixty-ninth street, and if they wished to go to their business down town by the proposed new route they would have to travel north on the Ogden avenue line nearly half a mile, and then west over Washington Bridge nearly half a mile further, and then south on the subway.

It was found during the period that the said railway company operated the line from One Hundred and Fifty-fifth street to One Hundred and Eighty-first street station that very few passengers used said line beyond the northerly limits of High Bridge, and that the cars crossing Washington Bridge to One Hundred and Eighty-first street never had more than three or four passengers, and often none at all, as shown by the examinations made during the time said line was in operation.

If the High Bridge Taxpayers' Alliance believe such a line is necessary, and can furnish evidence that there is a sufficient demand for it to require the establishing of a separate line, that would be the subject of a separate and distinct order from the one referred to in their resolutions; but it is my opinion that the few people that desire to travel from High Bridge north to Washington Bridge, and thence across the river to One Hundred and Eighty-first street station of the subway, are sufficiently accommodated by transfer at the east end of Washington Bridge to One Hundred and Eighty-first street.

It must be borne in mind that the present service from One Hundred and Fifty-fifth street to Kingsbridge road is a direct north and south line, and is one that brings the people most directly to the elevated station by which it is desirable to divert as many of the passengers as possible along the line of that road to the elevated line, as this line is not anywhere near as congested during the rush hours morning and night as the subway line is, and it would furnish the greatest relief to do everything in our power to relieve the congested condition of the subway at such times.

Respectfully submitted,

(Signed) JOHN E. EUSTIS, Commissioner.

Dated January 28, 1908.

(24)

REPORT AND DISMISSAL ORDER.

Commissioner Eustis presented the following report and order:

To the Public Service Commission for the First District:

The undersigned, to whom was referred the complaint against the Interborough Rapid Transit Company for the lack of tools for use in case of accident on the cars of the subway, begs to report as follows:

This hearing was given to ascertain whether the Interborough Company were complying with the law in running their cars without a kit of tools in each car, as provided in subdivision 6 of section 49 of the Railroad Law, and also whether they were complying with the terms of their contract with the City, which required them to operate the railroad carefully and skillfully according to the highest known standards of railway operation.

It appeared upon the hearing that the railway company maintained complete wrecking outfits, consisting of rerailing, frogs, jacks, chains, block and fall, wrenches, bars, wedges, etc., at eight different stations along the main line, at six of the stations on the Broadway line north of One Hundredth street, and at six of the stations on the Lenox avenue line north of One Hundred and Tenth street, and that also at every station emergency tool kits were contained, such as hand-saws, hack-saws, axes, chisels, bars, wrenches, pliers, etc., and that in the judgment of the management of the railroad, the tools provided at such stations would be far safer and better for use in the case of any accident than would be the case if tools were carried in the cars. I am of the opinion that they are correct in their judgment, in view of the fact that during the crowded rush hours it would be impossible to handle the tools in any of their cars even if they were there, and better service could be secured with the tools if they were brought from a nearby station and used by experienced persons. It must not be forgotten that many of the cars in use on this road are of steel construction, and the tools are of steel, and there is grave danger from the live third rail, especially if such tools were handled by inexperienced persons.

It is my opinion that subdivision 6 of section 49 of the Railroad Law was not intended to apply to an electric city railroad, but to steam railroads.

I would, therefore, recommend that the complaint be dismissed.

(Signed) JOHN E. EUSTIS, Commissioner.

Dated January 28, 1908.

Commissioner Eustis thereupon moved the adoption of the following order:

DISMISSAL ORDER (No. 232).

In the Matter

of

The hearing on the motion of the Commission on the question of an improvement in and addition to the property or devices of the Interborough Rapid Transit Company.

Tools for use in case of accident.

Under order for hearing No. 162.

This matter coming on upon the report of the hearing had herein on January 23, 1908, and it appearing that the said hearing was held by and pursuant to an order of this Commission, No. 162, made the 20th day of December, 1907, to inquire whether the regulations, equipment and appliances of the Interborough Rapid Transit Company in respect to transportation of persons in the First District were unsafe, improper or inadequate, and it further appearing that the said order was duly served upon the Interborough Rapid Transit Company and that the said service was by said company duly acknowledged and that the said hearing was held by and before the Commission on the matters in said order for hearing specified on January 23, 1908, at which hearing Mr. Commissioner Eustis presided and Alfred E. Mudge, Esq., appearing for the Interborough Rapid Transit Company, and Arthur DuBois, Esq., Assistant Counsel, appearing for the Public Service Commission for the First District; it is

Ordered, That the said proceedings be dismissed without prejudice to an order for further or additional hearings and action thereon by the Commission in respect of any matters covered by said order for hearing No. 162 or the proceedings thereon.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

(25)

O-234

The Secretary presented the following order for hearing, and it was moved, and duly seconded, that the same be adopted by the Commission:

HEARING ORDER (No. 234).

In the Matter

of

The hearing on the motion of the Commission on the question of how the duty imposed under an order of the Commission made December 30, 1907, directing the New York City Railway Company, or Adrian H. Joline and Douglas Robinson, its receivers, on and after February 15, 1908, to turn out not fewer than ten cars daily, not including Sundays and holidays, overhauled and repaired as provided in said order, should be divided between said New York City Railway Company, or its said receivers, and the Third Avenue Railroad Company, or Frederick W. Whitridge, its receiver.

An order, being Order No. 179, having been duly made by the Commission on December 30, 1907, in a proceeding entitled In the Matter of the Hearing on the Motion of the Commission on the Question of Repairs, Improvements and Additions to Equipment and Appliances, Including Rolling Stock, of the New York City Railway Company and of Adrian H. Joline and Douglas Robinson, as Receivers of said company, in the particulars in said order set forth, and said Adrian H. Joline and Douglas Robinson, as said receivers having thereafter and on the 4th day of January, 1908, notified the Commission in writing that they would use their best endeavors to obey said order, and thereafter and on or about January 6, 1908, an order having been made by Hon. E. Henry Lacombe, Circuit Judge of the United States in a suit duly instituted in the United States Circuit Court for the Southern District of New York, by the Central Trust Company of New York against the Third Avenue Railroad Company and others, wherein and whereby one Frederick W. Whitridge was appointed receiver of certain property whereof said Adrian H. Joline and Douglas Robinson had theretofore been the receivers, and the question having arisen as to how the duty imposed under said order of the Commission should be divided between the said New York City Railway Company, or its said receivers, and the Third Avenue Railroad Company, or its said receiver.

It is hereby

Ordered, That a hearing be held on the 13th day of February, 1908, at 10.30 o'clock in the forenoon, or at any time or times to which the same may be adjourned, at the rooms of the Commission, No. 154 Nassau street, Borough of Manhattan, City and State of New York, to inquire and determine how the duty imposed under said order of the Commission should be divided between said New York City Railway Company, or its said receivers, and the Third Avenue Railroad Company, or its said receiver; and it is further

Ordered, That the New York City Railway Company, and its said receivers, and the Third Avenue Railroad Company, and its said receiver, be given at least ten days' notice of such hearing, by service upon them, personally or by mail, of certified copies of this order, and that at such hearing they and each of them be afforded all reasonable opportunity for presenting evidence and examining and cross-examining witnesses as to the matters aforesaid.

Ayes—Commissioners Willcox, McCarroll, Eustis.

Nays—None.

Carried.

The Chairman designated Commissioner Maltbie to conduct the hearing.

TRAVIS H. WHITNEY, SECRETARY.

DEPARTMENT OF FINANCE.

Abstract of the Transactions of the Bureau of the City Chamberlain for the Week Ending January 18, 1908.

OFFICE OF THE CITY CHAMBERLAIN,
NEW YORK, January 25, 1908. }

Hon. GEO. B. McCLELLAN, Mayor:

SIR—In pursuance of section 196, chapter 466 of the Laws of 1901, I have the honor to present herewith a report to January 18, 1908, of all moneys received by me and the amount of all warrants paid by me since January 11, 1908, and the amount remaining to the credit of the City on January 18, 1908.

Very respectfully,

JAMES J. MARTIN, City Chamberlain.

DR.

THE CITY OF NEW YORK, in account with JAMES J. MARTIN, Chamberlain, during the week ending January 18, 1908.

COURT OF SPECIAL SESSIONS.

SECOND DIVISION.

ANNUAL REPORT OF JAMES P. SINNOTT, CLERK, CHILDREN'S COURT, SECOND DIVISION, BOROUGH OF BROOKLYN, A PART OF THE COURT OF SPECIAL SESSIONS OF THE SECOND DIVISION OF THE CITY OF NEW YORK, FOR THE YEAR ENDING DECEMBER 31, 1907.

To the Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—In pursuance of the provisions of section 1408 of the Greater New York Charter, as amended by chapter 159 of the Laws of 1903, I herewith respectfully submit the following detailed report of the business transacted by the Children's Court, Second Division, Borough of Brooklyn, a part of the Court of Special Sessions of the Second Division of The City of New York, for the year ending December 31, 1907.

The following-named Justices of the Court of Special Sessions of the Second Division have officiated at this Court during said period:

Justices—Robert J. Wilkin, Howard J. Forker, George J. O'Keefe, Patrick Keady and John Fleming, and also Justices Willard H. Olmsted, William E. Wyatt and John B. McKean, of the Court of Special Sessions of the First Division.

WEDNESDAY, FEBRUARY 5, 1908.

Borough of Brooklyn.

FOR FURNISHING ALL THE LABOR AND MATERIAL REQUIRED FOR RECONSTRUCTING SEWER IN GUERNSEY STREET FROM NORMAN AVENUE TO NASSAU AVENUE.

The following Engineer's preliminary estimate of total cost for the completed work is to be taken as the one hundred per cent. (100%) basis for bidding. Proposals shall state a single percentage of such 100 per cent. cost (i. e., such as 90 per cent., 95 per cent., 100 per cent. or 105 per cent.), for which all material and work called for in the contract and the invitation to bidders is to be furnished to the City. Such percentage, as bid, shall apply to all unit items specified in the Engineer's preliminary estimate, to an amount necessary to complete the work described in the contract:

37 linear feet of 15-inch pipe sewer laid complete, including all incidentals and appurtenances, per linear foot, \$2.75.....	\$101 75
595 linear feet of 12-inch pipe sewer laid complete, including all incidentals and appurtenances, per linear foot, \$2.50.....	1,487 50
7 manholes, complete, with iron heads and covers, including all incidentals and appurtenances, per manhole, \$45.....	315 00
30 cubic yards of concrete cradle in place, complete, including all incidentals and appurtenances, per cubic yard, \$7.....	210 00
3,000 feet (B. M.) of foundation planking laid in place complete, including all incidentals and appurtenances, per thousand feet (B. M.), \$30.....	90 00
1,000 feet (B. M.) of sheeting and bracing, driven in place complete, including all incidentals and appurtenances, per thousand feet (B. M.), \$30.....	30 00
28 house connection drains reconstructed, including all incidentals and appurtenances, per connection, \$5.....	140 00
Total.....	\$2,374 25

The time allowed for the completion of the work and full performance of the contract will be 30 working days.

The amount of security required will be \$1,000.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per board measure, linear foot, cubic yard or other unit of measure, by which the bids will be tested. The bids will be compared and the contract awarded at a lump or aggregate sum for each contract.

Blank forms and further information may be obtained and the plans and drawings may be seen at the Bureau of Sewers, the Borough of Brooklyn, No. 215 Montague street, Borough of Brooklyn.

BIRD S. COLER,

President.

Dated January 23, 1908.

BOROUGH OF THE BRONX.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX, MUNICIPAL BUILDING, CROTONA PARK, ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE.

SEALED BIDS OR ESTIMATES WILL BE received by the President of the Borough of The Bronx at the above office until 11 o'clock a. m. on

THURSDAY, FEBRUARY 13, 1908.

No. 1. FOR UNLOADING AND DELIVERING ASHES FURNISHED BY THE DEPARTMENT OF STREET CLEANING.

Unloading 6,000 cubic yards of ashes and delivering same as directed, east of the Bronx River, within two and one-half miles of the docks where unloaded.

The amount of security required will be Fifteen Hundred Dollars.

The time allowed for the performance of the contract will be on or before July 31, 1908.

Blank forms can be obtained upon application therefor, and the plans and specifications may be seen and other information obtained at said office.

Secretary.

MUNICIPAL CIVIL SERVICE COMMISSION.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 299 BROADWAY, CITY OF NEW YORK.

PUBLIC NOTICE WILL BE GIVEN OF all competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close. Applications will be received for only such examinations as are scheduled.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing or by personal application at the office of the Commission.

All notices of examinations will be posted in the office of the Commission, City Hall, Municipal Building, Brooklyn, and advertised in the CITY RECORD for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news, and to the General Post-office and stations thereof. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

WILLIAM F. BAKER,

President;

R. ROSS APPLETON,

FRANK L. POLK,

Commissioners.

FRANK A. SPENCER,

Secretary.

DEPARTMENT OF HEALTH.

DEPARTMENT OF HEALTH, CITY OF NEW YORK, BOROUGH OF MANHATTAN, NEW YORK, January 31, 1908.

AT A MEETING OF THE BOARD OF Health of the Department of Health, held January 29, 1908, the following resolution was adopted:

Resolved, That the resolution of this Board declaring the being or running loose and at large of stray dogs in the streets or other public places in The City of New York, a public nuisance, dangerous to life and detrimental to health, adopted at a meeting held January 22, 1908, be and the same is hereby amended so as to read as follows:

"Whereas, The Board of Health of the Department of Health of The City of New York having taken and filed among its records what it regards as sufficient proof to authorize its declaration that the same to the extent herein specified is a nuisance dangerous to life and detrimental to health, under the general authority of said Board to preserve the public health and abate nuisances, does hereby

"Resolve, That the being or running loose and at large of stray dogs in the streets or other public places in The City of New York is a public nuisance, dangerous to life and detrimental to health, and the said Board hereby enters in its records the same as a nuisance, and hereby orders the abatement thereof; and all persons are hereby forbidden to allow stray dogs, owned, harbored, possessed or controlled by them, to be or run loose and at large in the streets or other public places in The City of New York. The term 'stray dogs,' as herein used, shall be taken to mean and include any dog without a collar about its neck bearing the name and address of the owner thereon, or any dog with such collar about its neck bearing the name and address of the owner thereon, which is unaccompanied by its owner or the person harboring, possessing or controlling, or claiming to harbor, possess or control such dog; or a dog without an adequate muzzle to protect

persons against being bitten; or not held by a leash or chain not more than four feet in length; or a dog that is ferocious, vicious or rabid; further be it

"Resolved, That all such dogs be and the same are hereby ordered removed to the shelter maintained by the Society for the Prevention of Cruelty to Animals, or other shelter or place selected or designated by the said Board of Health or its Sanitary Superintendent, in the Borough where any such dog may be found by the officers and agents employed for such purpose, and destroyed, unless redeemed within forty-eight hours after public notice to redeem said animals, printed in the CITY RECORD, and upon payment of the sum of three dollars for each dog so redeemed; further be it

"Resolved, That public notice of the requirements hereof and of this order be printed in the CITY RECORD and posted and kept posted in each of the Borough offices of the Department of Health for five days in succession, beginning February 3, 1908."

A true copy.

DEPARTMENT OF HEALTH, CORNER OF FIFTY-FIFTH STREET AND SIXTH AVENUE, BOROUGH OF MANHATTAN, CITY OF NEW YORK, January 30, 1908.

AT A MEETING OF THE BOARD OF Health of the Department of Health, held January 29, 1908, the following resolution was adopted:

Resolved, That section 42 of the Sanitary Code be and the same is hereby amended so as to read as follows:

Section 42. No meat, fish, eggs, birds, fowl, fruit, vegetables or milk not being then healthy, fresh, sound, wholesome and safe for human food, nor any meat or fish that died by disease or accident, shall be brought into The City of New York, or offered or held for sale as such food anywhere in said City, nor shall any such article be kept or stored therein.

For the purposes of this section, any meat, fish, eggs, birds, fowl, fruit, vegetables or milk offered for sale anywhere in the City by dealers in food, shall be deemed to be offered or held for sale as food.

A true copy.

BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held this day in the Old Council Chamber, Room 16, City Hall, Borough of Manhattan, the public hearing on the proposed form of contract consenting to certain modifications and alterations in the line of the route of the New York and Port Chester Railroad Company in the Borough of The Bronx, as laid down in the contract dated May 31, 1906, granting a franchise to said company, which, by resolution adopted July 8, 1907, was fixed for September 20, 1907, and on that date continued to November 1, 1907, and on that date continued to December 13, 1907, and on that date continued until January 10, 1908, when it was continued until January 24, 1908, was continued until February 21, 1908.

At the meeting of January 31, 1908, the hearing was continued until March 6, 1908, at the same time and place.

JOSEPH HAAG,

Secretary.

Dated New York, January 31, 1908.

f3,m6

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Sterling place, from Utica avenue to East New York avenue, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line midway between Sterling place and Park place distant 100

feet westerly from the westerly line of Utica avenue, and running thence eastwardly along the said line midway between Sterling place and Park place to the intersection with the prolongation of a line midway between Amboy street and Hopkinson avenue, as laid out south of East New York avenue; thence southwardly along the said line midway between Amboy street and Hopkinson avenue and the prolongation of the said line to a point distant 100 feet southerly from the southerly line of East New York avenue, the said distance being measured at right angles to the line of East New York avenue; thence westwardly and parallel with East New York avenue to the intersection with a line midway between Amboy street and Ames street; thence northwardly along the said line midway between Amboy street and Ames street and the prolongation thereof to the intersection with the prolongation of a line midway between Sterling place and Douglass street; thence westwardly along the said line midway between Sterling place and Douglass street and the prolongation of the said line to a point distant 100 feet westerly from the westerly line of Utica avenue; thence northwardly and parallel with Utica avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 14th day of February, 1908.

Dated January 31, 1908.

JOSEPH HAAG,

Secretary.

No. 277 Broadway, Room 1406.

Telephone, 2280 Worth.

j31,f13

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Huguenot avenue, from Boston road to Pelham Bay Park; McOwen avenue, from Boston road to Tiltonson avenue; Ropes avenue, from Boston road to Pelham Bay Park West; Pelham Bay Park West, from the city line to Huguenot avenue; Eastchester place, from Hollers avenue to Tiltonson avenue; Hollers avenue, from Eastchester place to Pelham Bay Park West; Tiltonson avenue, from Eastchester place to Pelham Bay Park West, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the northerly boundary line of The City of New York distant 100 feet northwesterly from the northwesterly line of Boston road, the said distance being measured at right angles to the line of Boston road, and running thence eastwardly along the said boundary line of The City of New York to a point distant 100 feet easterly from the westerly boundary line of Pelham Bay Park, the said distance being measured at right angles to the line of Pelham Bay Park; thence southerly and westerly along a line parallel with and always distant 100 feet easterly and southerly from the said boundary line of Pelham Bay Park to the pier and bulkhead line of the Hutchinson river, as shown on a map adopted by the Board of Estimate and Apportionment on June 14, 1907; thence northwardly and westwardly along the said pier and bulkhead line of the Hutchinson River to the intersection with a line parallel with Boston road, and passing through the point of beginning; thence northwesterly along the said line parallel with Boston road to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 14th day of February, 1908.

Dated January 31, 1908.

JOSEPH HAAG,

Secretary.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Kingsbridge avenue, from West Two Hundred and Thirtieth street to Broadway, and Tibbett avenue, from West Two Hundred and Thirtieth street to West Two Hundred and Forty-second street, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line which is the bisector of the angle formed by the prolongations of the centre lines of West Two Hundred and Thirty-fourth street and West Two Hundred and Thirty-sixth street as laid out between Kingsbridge avenue and Putnam avenue, distant 100 feet easterly from the easterly line of Broadway, the said distance being measured at right angles to the line of Broadway, and running thence northwardly and always 100 feet from and parallel with Broadway to a point distant 250 feet northerly from the northerly line of West Two Hundred and Thirty-eighth street; thence westwardly along a straight line which passes through the angle point in the westerly line of Corlear

avenue northerly from West Two Hundred and Thirty-eighth street to the intersection with the prolongation of a line which is midway between Tibbett avenue and Corlear avenue as laid out northerly from the angle point between West Two Hundred and Thirty-eighth street and West Two Hundred and Fortieth street; thence northwardly along the said line midway between Tibbett avenue and Corlear avenue to the intersection with the southeasterly line of West Two Hundred and Forty-second street; thence northwardly and at right angles to the northwesterly line of West Two Hundred and Forty-second street to a point distant 100 feet northwesterly from the northwesterly line of West Two Hundred and Forty-second street; thence westwardly and always 100 feet from and parallel with the northwesterly line of West Two Hundred and Forty-second street to the intersection with the prolongation of a line which is 100 feet westerly from and parallel with the westerly line of Tibbett avenue as laid out northerly from the angle point north of West Two Hundred and Thirty-eighth street, the said distance being measured at right angles to the line of Tibbett avenue; thence southwardly and parallel with Tibbett avenue to the intersection with the prolongation of a line which is midway between Spuyten Duyvil road and Tibbett avenue as laid out between West Two Hundred and Thirty-second street and West Two Hundred and Thirty-sixth street; thence southwardly along the said line midway between Spuyten Duyvil road and Tibbett avenue and the prolongation thereof to the intersection with a line which is the bisector of the angle formed by the prolongations of the center lines of Spuyten Duyvil road and Tibbett avenue as the said streets are laid out north of West Two Hundred and Thirty-first street; thence southwardly and along the said bisecting line to a point distant 100 feet southwesterly from the southwesterly line of West Two Hundred and Thirtieth street, the said distance being measured at right angles to the line of West Two Hundred and Thirtieth street; thence southwardly and parallel with West Two Hundred and Thirtieth street to the intersection with the prolongation of the northwesterly line of Corlear avenue; thence southwardly and along the prolongation of the northwesterly line of Corlear avenue to the intersection with a line which is always 100 feet from and parallel with West Two Hundred and Thirtieth street as laid out between Corlear avenue and Broadway, the said distance being measured at right angles to the line of West Two Hundred and Thirtieth street; thence southwardly along the said line parallel with West Two Hundred and Thirtieth street to the intersection with the prolongation of a line which is the bisector of the angle formed by the prolongations of the easterly line of Kingsbridge avenue and the westerly line of Broadway; thence northwardly and along the said bisecting line to the intersection with the prolongations of the center lines of West Two Hundred and Thirty-fourth street and West Two Hundred and Thirty-sixth street, hereinbefore described; thence southwardly and along the said bisecting line to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 14th day of February, 1908.

Dated January 31, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Hebbard avenue, from Creek street to Fresh Pond road, excluding the lands of the Long Island Railroad Company, in the Borough of Queens, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the line which bisects the angle formed by the intersection of the prolongations of the northerly line of Hebbard avenue and the southerly line of Grand street, as these streets are laid out between the Long Island Railroad and Creek street, distant 100 feet westerly from the westerly line of Creek street, the said distance being measured at right angles to the line of Creek street, and running thence eastwardly along the said bisecting line to the westerly property line of the Long Island Railroad; thence southerly along the westerly property line of the Long Island Railroad to a point distant 100 feet northerly from the northerly line of Hebbard avenue, the said distance being measured at right angles to the line of Hebbard avenue; thence eastwardly and parallel with Hebbard avenue to the intersection with a line which bisects the angle formed by the intersection of the prolongations of the northerly line of Hebbard avenue, as laid out between the angle point immediately east of the Long Island Railroad and Flushing avenue, and the southerly line of James street; thence eastwardly along the said bisecting line to the center line of Collins avenue; thence southwardly along the center line of Collins avenue to the intersection with the prolongation of a line midway between Hebbard avenue and Linden place; thence eastwardly along the said line midway between Hebbard avenue and Linden place and the prolongation of the said line to a point distant 100 feet easterly from the easterly line of Fresh Pond road, the said distance being measured at right angles to the line of Fresh Pond road; thence southwardly and parallel with Fresh Pond road to the intersection with the prolongation of a line midway between Hebbard avenue and Mount Olivet avenue; thence westwardly along the said line and always midway between Hebbard avenue and Mount Olivet avenue and the prolongation of the said line to the intersection with a line distant 100 feet southerly from and parallel with the southerly line of Hebbard avenue as laid out between the angle point immediately east of the Long Island Railroad and Creek street; thence westwardly along the said line parallel with Hebbard avenue to a point distant 100 feet westerly from the westerly line of Creek street, the said distance being measured at right angles to the line of Creek street; thence northwardly and

parallel with Creek street to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Radde street, from Paynter avenue to Ridge street, in the First Ward, in the Borough of Queens, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the prolongation of a line midway between Radde street and Academy street, distant 100 feet northeasterly from the northeasterly line of Ridge street, the said distance being measured at right angles to the line of Ridge street, and running thence southwardly along the said line and always midway between Radde street and Academy street and the prolongation of the said line to a point distant 100 feet southwesterly from the southwesterly line of Paynter avenue; thence northwardly and parallel with Paynter avenue to the intersection with a line midway between Radde street and Prospect street as laid out between Beebe avenue and Wilbur avenue; thence northwardly along the said line midway between Radde street and Prospect street to the intersection with a line which is the bisector of the angle formed by the intersection of the prolongations of the center lines of Prospect street and Radde street, as laid out northeast of Beebe avenue; thence northwardly along the said bisecting line to the center line of Webster avenue; thence northwardly along the center line of Webster avenue to the intersection with a line which is the bisector of the angle formed by the intersection of prolongations of the northwesterly line of Radde street and the southeasterly line of the Crescent, as laid out between Ridge street and Webster avenue; thence northwardly along the said bisecting line to a point distant 100 feet northeasterly from the northeasterly line of Ridge street, the said distance being measured at right angles to the line of Ridge street; thence southeasterly and parallel with Ridge street to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record for ten days prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT AT the meeting of the Board of Estimate and Apportionment, held on January 17, 1908, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Montauk avenue, between New Lots road and Vandalia street, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the southerly line of New Lots road where it is intersected by the prolongation of a line midway between Montauk avenue and Milford avenue, as laid out between Hegeman avenue and Cozine avenue, and running thence southwardly along the said line midway between Montauk avenue and Milford avenue and the prolongation of the said line to the intersection with the prolongation of a line distant 100 feet southerly from and parallel with the southerly line of Vandalia avenue, the said distance being measured at right angles to the line of Vandalia avenue; thence westwardly along the said line parallel with Vandalia avenue and the prolongation of the said line to the intersection with the prolongation of a line midway between Montauk avenue and Atkins avenue; thence northwardly along the said line midway between Montauk avenue and Atkins avenue and the prolongation of the said line to the southerly line of New Lots road; thence northwardly and parallel with Montauk avenue as laid out north of New Lots road to a point distant 100 feet northerly from the northerly line of New Lots road, the said distance being measured at right angles to the line of New Lots road; thence eastwardly and parallel with New Lots road to the intersection with a line parallel with Montauk avenue, as laid out north of New Lots road, and passing through the point described as the point of beginning; thence southwardly along the said line parallel with Montauk avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board, to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 14th day of February, 1908, at 10.30 a. m., and

that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the City Record and the corporation newspapers for ten days prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the grade of East One Hundred and Forty-ninth street, between the New York, New Haven and Hartford Railroad and the East River, Borough of The Bronx, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on February 14, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on January 17, 1908, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the

Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of East One Hundred and Forty-ninth street, between the New York, New Haven and Hartford Railroad and the East River, in the Borough of The Bronx, City of New York, more particularly described as follows:

1. The elevation at the United States pier and bulkhead line of the East River to be 6 feet, as heretofore established;

2. The elevation at a point 509.2 feet southerly from the intersection of the southerly property line of the New York, New Haven and Hartford Railroad and the westerly line of East One Hundred and Forty-ninth street to be 12 feet;

3. The elevation at the intersection of the southerly property line of the New York, New Haven and Hartford Railroad with the westerly line of East One Hundred and Forty-ninth street to be 37.46 feet;

4. The elevation at the intersection of the northerly property line of the New York, New Haven and Hartford Railroad with the easterly curb line of East One Hundred and Forty-ninth street to be 37.46 feet, as heretofore established.

All grades refer to mean high-water datum as established for the Borough of The Bronx.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of February, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the line of West Two Hundred and Thirty-first street, from Riverdale avenue to Kingsbridge avenue, and from Albany road to Bailey avenue, and to change the grades of West Two Hundred and Thirty-first street, between Riverdale avenue and Bailey avenue, and of the intersecting streets affected thereby, Borough of The Bronx, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on February 14, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board, all of which is more particularly set forth and described in the following resolutions adopted by the Board on January 17, 1908, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the line of West Two Hundred and Thirty-first street, from Riverdale avenue to Kingsbridge avenue, and from Albany road to Bailey avenue, and changing the grades of West Two Hundred and Thirty-first street, between Riverdale avenue and Bailey avenue, and of the intersecting streets affected thereby, in the Borough of The Bronx, City of New York, more particularly described as follows:

CHANGE OF LINE.
West Two Hundred and Thirty-first street, Riverdale Avenue to Kingsbridge Avenue.

The northerly line to extend from a point on the easterly line of Spuyten Duyvil road, distant 457.224 feet southerly from its intersection with the southerly line of West Two Hundred and Thirty-second street, to a point on the westerly line of Kingsbridge avenue, distant 457.475 feet southerly from its intersection with the southerly line of West Two Hundred and Thirty-second street.

The southerly line to be 80 feet distant from and parallel with the northerly line.

West Two Hundred and Thirty-first Street, Albany Road to Bailey Avenue.

The southerly line to be 80 feet distant from and parallel with the northerly line as previously fixed, the said northerly line being retained.

The old lines of West Two Hundred and Thirty-first street, as shown on final maps of the Twenty-third and Twenty-fourth Wards, between Riverdale avenue and Kingsbridge avenue, are hereby discontinued.

GRADES.
West Two Hundred and Thirty-first Street.

1. The elevation at Riverdale avenue to be 20.5 feet.

2. The elevation at Tibbett avenue to be 17.5 feet.

3. The elevation at Corlear avenue to be 19.5 feet.

4. The elevation at Kingsbridge avenue to be 36 feet, as heretofore established.

5. The elevation at a point 300 feet west of the northwesterly curb intersection at Broadway to be 31 feet.

6. The elevation at Broadway to be 16 feet, as heretofore established.

7. The elevation of the bridge over the New York and Putnam Railroad to be 26 feet.

8. The elevation at Albany road to be 25.5 feet.

9. The elevation at Bailey avenue to be 33 feet, as heretofore established.

Riverdale Avenue.

1. The elevation at the point of curve northerly from Spuyten Duyvil road to be 27 feet, as heretofore established.

2. The elevation at West Two Hundred and Thirty-first street to be 20.5 feet.

3. The elevation at a point distant 115.654 feet southerly from the southerly line of West Two Hundred and Thirty-first street to be 23 feet, as heretofore established.

Tibbett Avenue.

1. The elevation at West Two Hundred and Thirty-second street to be 13 feet, as heretofore established.

2. The elevation at West Two Hundred and Thirty-first street to be 17.5 feet.

3. The elevation at West Two Hundred and Thirtieth street to be 11 feet, as heretofore established.

Corlear Avenue.

1. The elevation at West Two Hundred and Thirty-second street to be 21 feet, as heretofore established.

2. The elevation at West Two Hundred and Thirty-first street to be 19.5 feet.

3. The elevation at West Two Hundred and Thirtieth street to be 8.6 feet, as heretofore established.

Albany Road.

1. The elevation at West Two Hundred and Thirty-third street to be 15 feet, as heretofore established.

2. The elevation at West Two Hundred and Thirty-first street to be 25.5 feet.

3. The elevation at Bailey avenue to be 30 feet, as heretofore established.

All grades refer to mean high-water datum, as established in the Borough of The Bronx.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of February, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the grade of East Sixteenth street, between Beverley road and Cortelyou road, Borough of Brooklyn, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on February 14, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on January 17, 1908, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of East Sixteenth street, between Beverley road and Cortelyou road, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of East Sixteenth street and Beverley road, the elevation to be 35.55 feet as heretofore;

Thence southerly along a uniformly descending grade to the intersection of Cortelyou road, the elevation to be 33.20 feet as heretofore.

Note—All elevations refer to mean high-water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of February, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of February, 1908.

NOTICE IS HEREBY GIVEN THAT THE Board of Estimate and Apportionment of The City of New York, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York so as to change the grade of Jewel street, between Meserole avenue and Norman avenue, Borough of Brooklyn, and that a meeting of said Board will be held in the Old Council Chamber, City Hall, Borough of Manhattan, City of New York, on February 14, 1908, at 10.30 o'clock a. m., at which such proposed change will be considered by said Board; all of which is more particularly set forth and described in the following resolutions adopted by the Board on January 17, 1908, notice of the adoption of which is hereby given, viz.:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by changing the grade of Jewel street, between Meserole avenue and Norman avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at the intersection of Meserole avenue and Jewel street, the elevation to be 10.37 feet, as heretofore;

Thence southerly to a summit distant 113 feet from the southerly building line of Meserole avenue, the elevation to be 11.20 feet;

Thence southerly to the intersection of Norman avenue, the elevation to be 8.6 feet, as now in use and improved.

Note—All elevations refer to mean high-water datum as determined by the Bureau of Highways, Borough of Brooklyn.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 14th day of February, 1908, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 14th day of February, 1908.

Dated January 31, 1908.

OFFICIAL PAPERS.

Morning—"The Sun," "The New York Times."
Evening—"The Globe," "The Evening Mail."
Weekly—"Democracy," "Real Estate Record and Guide."
German—"Staats-Zeitung."

Designated by the Board of City Record, January 22, 1906. Amended March 1, 1906, November 20, 1906, and February 20, 1907.

BOROUGH OF QUEENS.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS, THIRD FLOOR OF THE BOROUGH HALL, FIFTH STREET AND JACKSON AVENUE, LONG ISLAND CITY, BOROUGH OF QUEENS, CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the President of the Borough of Queens, at the above office, until 11 o'clock a. m. on

WEDNESDAY, FEBRUARY 5, 1908.

No. 1. CONTRACT FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR THE REMOVAL OF SNOW AND ICE IN THE FIRST, THIRD, FOURTH AND FIFTH DISTRICTS, BOROUGH OF QUEENS.

The time allowed for the completion of the work and the full performance of the contract is by or before April 15, 1908.

The amount of security required is Four Thousand Dollars for all of the four districts, or One Thousand Dollars for any one of the four districts.

The compensation will be for the actual amount of snow and ice removed and dumped by the contractor, at a price per cubic yard, and each bid or estimate must be for one or more or all of the four districts.

Each bid or estimate must distinctly state the price per cubic yard in each separate district.

A contract or contracts, if awarded, will be awarded to the lowest bidder for each district.

No. 2. FOR FURNISHING TO THE BUREAU OF HIGHWAYS BROKEN STONE AND SCREENINGS OF LIMESTONE AND BROKEN STONE AND SCREENINGS OF TRAP ROCK, IN THE BOROUGH OF QUEENS.

The amount of security required will be thirty per cent. (30%) of the amount of bid.

The time allowed for the furnishing of the above is on or before May 1, 1908.

To be furnished in the quantities and at the points designated in the specifications.

The total amount of material to be furnished in cubic yards is as follows:

Item No. 1—5,000 cubic yards of limestone screenings.

Item No. 2—2,500 cubic yards of broken stone of limestone.

Item No. 3—5,000 cubic yards of trap rock screenings.

Item No. 4—2,500 cubic yards of broken stone of trap rock, size one and one-half inches (1½ inches).

Item No. 5—2,500 cubic yards of broken stone of trap rock, size three-quarters of an inch (¾ inch).

No. 3. FOR HAULING TO THE BUREAU OF HIGHWAYS BROKEN STONE AND SCREENINGS OF TRAP ROCK, AND BROKEN STONE AND SCREENINGS OF LIMESTONE, IN THE BOROUGH OF QUEENS.

The time allowed for the hauling of the above is on or before May 1, 1908.

The amount of security required will be Five Hundred Dollars.

The total amount of material to be hauled in cubic yards is as follows:

Item No. 1—5,000 cubic yards of limestone screenings.

Item No. 2—2,500 cubic yards of broken stone of limestone.

Item No. 3—5,000 cubic yards of trap rock screenings.

Item No. 4—2,500 cubic yards of broken stone of trap rock, size one and one-half inches (1½ inches).

Item No. 5—2,500 cubic yards of broken stone of trap rock, size three-quarters of an inch (¾ inch).

No. 4. FOR FURNISHING AND DELIVERING TO THE BUREAU OF HIGHWAYS, BOROUGH OF QUEENS, RESIDUUM OIL.

The time allowed for the delivery of the above material and the performance of the contract will be ninety days.

The amount of security required will be Two Thousand Dollars (\$2,000).

The total quantity to be furnished is: 150,000 gallons residuum oil.

The bidder will state the price of each item or article contained in the specifications or schedules herein contained or hereto annexed, per square yard, linear foot, or other unit of measure, by which the bids will be tested.

The extensions must be made and footed up, as the bids will be read from a total.

Bids will be compared and the contract awarded at a lump or aggregate sum.

Blank forms and further information may be obtained at the office of the President of the Borough of Queens.

JOSEPH BERTEL,
President of the Borough of Queens.
Dated Long Island City, January 24, 1908.

HENRY SMITH,
President;

JOSEPH I. BERRY,
MICHAEL J. KENNEDY,
Commissioners of Parks.

Dated January 16, 1908.

See General Instructions to Bidders on the last page, last column, of the "City Record."

DEPARTMENT OF FINANCE.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following named avenue and street in the BOROUGH OF THE BRONX:

TWENTY-THIRD WARD, SECTION 9.

JEROME AVENUE—OPENING. from its present southern terminus to the bulkhead line of the Harlem River. Confirmed October 5, 1907; entered February 3, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the easterly bulkhead line of the Harlem River, midway between the bridge of the New York and Putnam Railway Bridge and the prolongation westwardly of the northern side of Jerome avenue; thence by a line at right angles to the easterly bulkhead line of the Harlem River eastwardly to its intersection with a line parallel with and 100 feet westwardly from the westerly side of Sedgwick avenue; thence northwardly by said parallel line to its intersection with the prolongation northwardly of a line parallel with and 100 feet northwardly from the northerly side of East One Hundred and Sixty-second street; thence by said prolongation and parallel line southeastwardly to its intersection with a line parallel with and 100 feet northwardly from the northerly side of Jerome avenue; thence by said parallel line northwardly to its intersection with the prolongation northwardly of a line parallel with and 100 feet northwardly from the northerly side of East One Hundred and Sixty-fourth street; thence southeastwardly by said prolongation and parallel line to its intersection with a line parallel with and 100 feet southeastwardly from the south-

easterly side of Jerome avenue; thence by said line parallel with Jerome avenue continuing into a line parallel with and 100 feet at right angles from the southeasterly and southerly side of the eastern approach to the Central Bridge to its intersection with the northeasterly side of Cromwells Creek; thence northwardly and westwardly by said northeasterly and northerly side of Cromwells Creek to its intersection with the easterly bulkhead line of Harlem River; thence northwardly by said easterly bulkhead line to the point or place of beginning.

TWENTY-THIRD WARD, SECTION 10.

COSTER STREET—OPENING. from Hunts Point road to Edgewater road. Confirmed December 30, 1907; entered February 3, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the northerly prolongation of a line parallel to and 100 feet westerly from the westerly line of Hunts Point road with a line parallel to and 100 feet northwardly from the northerly line of Mohawk (now Garrison) avenue; running thence easterly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet easterly from the easterly line of Hunts Point road; thence southerly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet northwardly from the northerly line of Lafayette avenue; thence easterly along said last mentioned parallel line to its intersection with the middle line of the blocks between the middle line of the blocks between Barretto street and its southerly prolongation to its intersection with the bulkhead line of the East River; thence westerly along said bulkhead line to its intersection with the southerly prolongation of the middle line of the blocks between Barretto street and Manida street; thence northwardly along said prolongation and middle line to its intersection with a line parallel to and 100 feet northwardly from the northerly line of Lafayette avenue; thence easterly along said last mentioned parallel line to its intersection with a line parallel to and 100 feet westerly from the westerly line of Hunts Point road; thence northwardly along said last mentioned parallel line to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents.

Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third Avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 3, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments become liens to the date of payment.

HERMAN A. METZ,
Comptroller.

City of New York, Department of Finance, Comptroller's Office, February 3, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

NINETEENTH WARD, SECTION 5.

RESTORING ASPHALT PAVEMENT on EAST FIFTY-FIFTH STREET, between First and Second avenues, Borough of Manhattan, and known as Lots Nos. 16, 17 and 19 in Block 1348.

This assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter, that the same was entered on February 1, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before April 1, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,
Comptroller.

City of New York, Department of Finance, Comptroller's Office, February 3, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of the City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

NINETEENTH WARD, SECTION 5.

RESTORING ASPHALT PAVEMENT on EAST FIFTY-FIFTH STREET, between First and Second avenues, Borough of Manhattan, and known as Lots Nos. 16, 17 and 19 in Block 1348.

This assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter, that the same was entered on February 1, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment interest will be collected thereon as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien,

PROPOSALS FOR \$50,000,000 OF FOUR AND ONE-HALF PER CENT. STOCK AND BONDS OF THE CITY OF NEW YORK.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

EXEMPT FROM TAXATION (AS HEREINAFTER STATED).

EXECUTORS, ADMINISTRATORS, GUARDIANS AND OTHERS HOLDING TRUST FUNDS ARE AUTHORIZED BY SECTION 9 OF ARTICLE 1 OF CHAPTER 417 OF THE LAWS OF 1897, AS AMENDED, TO INVEST IN SAID STOCK AND BONDS.

SEALED PROPOSALS WILL BE RECEIVED BY THE COMPTROLLER OF THE CITY OF New York, at his office, No. 280 Broadway, Borough of Manhattan, in The City of New York, until

FRIDAY, FEBRUARY 14, 1908,

at 2 o'clock p. m., when they will be publicly opened in the presence of the Commissioners of the Sinking Fund, or such of them as shall attend, as provided by law, for the whole or a part of the following described interchangeable Registered or Coupon Stock and Bonds of The City of New York, bearing interest at the rate of four and one-half per cent. per annum, from and including February 14, 1908, to wit:

\$37,500,000 00 of Corporate Stock of The City of New York (for Various Municipal Purposes). Principal payable November 1st, 1957. Interest payable semi-annually on May 1st and November 1st.

This stock was duly authorized by the Greater New York Charter, as amended, and other acts of the Legislature of the State of New York, and by the Municipal authorities of The City of New York, and is free and exempt from all taxation, except for State purposes.

\$6,000,000 00 of Corporate Stock of The City of New York, To Provide for the Supply of Water. Principal payable November 1st, 1957. Interest payable semi-annually on May 1st and November 1st.

This stock was duly authorized by the Greater New York Charter, as amended, and other acts of the Legislature of the State of New York, and by the Municipal authorities of The City of New York, and is free and exempt from all taxation, except for State purposes.

\$2,500,000 00 of Corporate Stock of The City of New York for the Construction of the Rapid Transit Railroad. Principal payable November 1st, 1957. Interest payable semi-annually on May 1st and November 1st.

This stock was duly authorized by the Greater New York Charter, as amended, and other acts of the Legislature of the State of New York, and by the Municipal authorities of The City of New York, and is free and exempt from all taxation, except for State purposes.

\$1,000,000 00 of Corporate Stock of The City of New York, for the Construction of a Building in Bryant Park for the New York Public Library, Astor, Lenox and Tilden Foundations. Principal payable November 1st, 1957. Interest payable semi-annually on May 1st and November 1st.

This stock was duly authorized by the Greater New York Charter, as amended, and other acts of the Legislature of the State of New York, and by the Municipal authorities of The City of New York, and is free and exempt from all taxation.

\$1,500,000 00 of Assessment Bonds of The City of New York (for Street Improvements). Principal payable November 1, 1917. Interest payable semi-annually on May 1st and November 1st.

These Bonds were duly authorized by the Greater New York Charter, as amended, and by the Municipal authorities of The City of New York, and are free and exempt from all taxation, except for State purposes.

\$1,500,000 00 of Assessment Bonds of The City of New York, for Street and Park Openings. Principal payable November 1, 1917. Interest payable semi-annually on May 1st and November 1st.

These Bonds were duly authorized by the Greater New York Charter, as amended, and are free and exempt from all taxation, except for State purposes.

The said stock and bonds are issued in accordance with the provisions of section 10 of article 8 of the Constitution of the State of New York.

The principal of and interest on said stock and bonds are payable in gold coin of the United States of America, of the present standard of weight and fineness, pursuant to resolutions of the Commissioners of the Sinking Fund, adopted June 9th, 1898, and April 18th, 1904.

CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for bonds or stock shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money, or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the bonds or stock bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

4. All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

5. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the bonds or stock awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

6. Upon the payment into the City Treasury by the persons whose bids are accepted, of the amounts due for the bonds or stock awarded to them respectively, including accrued interest from the date of sale, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

7. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of bonds or stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected, provided, however, that any bidder offering to purchase all or any part of the bonds offered for sale at a price at par or higher may also offer to purchase all or none of said bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the bonds to the bidder offering the highest price for all or none of said bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision, the condition that the bidder will accept only the whole amount of bonds or stock bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the bonds or stock offered for sale.

8. Bonds or stock issued in Coupon form can be converted at any time into Registered Bonds or Stock, and bonds or stock issued in Registered form can be converted at any time into Coupon Bonds or Stock in denominations of \$1,000.

9. The proposals, together with the security deposits, should be inclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope inclosed in another sealed envelope, addressed to the Comptroller of The City of New York. (No special form of proposal is required, therefore no blanks are furnished.)

HERMAN A. METZ, Comptroller.

The City of New York, Department of Finance, Comptroller's Office, January 31, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF RICHMOND:

FIRST AND SECOND WARDS.

SEWER AND RECEIVING BASINS in the Arrietta Brook Watershed, designated Sewerage District No. 1-A, in the First and Second Wards; also CONSTRUCTING THREE RECEIVING BASINS on the south side of Richmond turnpike, between Cebra avenue and Fielder avenue. Area of assessment: Both sides of Arrietta street and Richmond turnpike, from First avenue to New York Bay; both sides of Richmond turnpike, from First avenue to a point about 1,900 feet south of Louis street; both sides of Weiner place, from Central avenue to Stuyvesant place; both sides of Wall street, from Belmont place to Tompkins avenue; both sides of Vine street, from Daniel Low terrace to Belmont place; both sides of Daniel Low terrace, from Fort place north to Vine street; both sides of Fort place, from Tompkins avenue to Sherman avenue; both sides of Fifth avenue, from Sherman avenue to Westervelt avenue; both sides of Fourth avenue, from Monroe avenue to a point about 400 feet west of Westervelt avenue; both sides of Third avenue, from Westervelt avenue to Jersey street; both sides of Second avenue, from Westervelt avenue to Jersey street; both sides of First avenue, from Jersey street to Pine street;

both sides of Tenth, Eleventh and Twelfth streets, from York avenue west; both sides of Willis avenue and Edgar terrace, from Fielder avenue to Avon place; both sides of Brook street, from Richmond turnpike to Jersey street; both sides of Brook street, from Jersey to Pine street; both sides of Stanley avenue, from Jersey street to a point about 100 feet west of Webster avenue; both sides of Howard avenue, from Louis street to a point about 1,100 feet south of Louis street; both sides of Castleton avenue, from Oxford place to a point about 725 feet west of Webster avenue; both sides of Oxford place, from Jersey street to Woodstock road; both sides of Brighton avenue, from Jersey street to a point about 100 feet west of Webster avenue; both sides of Brighton avenue and York avenue, from Webster avenue to Tenth street and extending northerly therefrom about 500 feet; both sides of Stuyvesant place, from South street to a point about 100 feet south of Arrietta street; both sides of Central avenue, from Hyatt street to Arrietta street; both sides of Tompkins avenue, from Arrietta street to Hamilton avenue; both sides of Montgomery street, from Arrietta street to Fort place; both sides of St. Pauls avenue, from Arrietta street to a point about 600 feet southerly therefrom; both sides of Monroe avenue, from Fort place to Arrietta street; both sides of Madison avenue, from Fort place to First avenue; both sides of Sherman avenue, from Fort place to Richmond turnpike; both sides of Westervelt avenue, from Fifth avenue to Richmond turnpike; both sides of Fielder avenue, from Richmond turnpike to Ward avenue; both sides of Pike street, from Richmond turnpike to Brook street; both sides of Bismark street, from Second to Third avenue; both sides of Jersey street, from Third avenue to

Richmond turnpike; both sides of Avon place, from Richmond turnpike to Ward avenue; both sides of Hudson street, from Brighton to First avenue; both sides of Pine street, from Brighton avenue to Oxford place; both sides of Cebra avenue, from Oxford place to a point about 440 feet east of Richmond turnpike; both sides of Kingsley place, from Brighton avenue to Stanley avenue; both sides of Webster avenue, from Brighton avenue to Castleton avenue; both sides of Austin place, extending about 440 feet east of Richmond turnpike; both sides of Louis street, from Richmond turnpike to a point about 100 feet east of Howard avenue; both sides of Woodstock road, from Richmond turnpike to Oxford place; both sides of Ward avenue, from Fielder avenue to a point about 100 feet south of Avon place; both sides of Belmont street, from Vine street to Fort place, and both sides of Griffin street, extending about 140 feet south of Arrietta street.

—that the same was confirmed by the Board of Assessors January 28, 1908, and entered on January 28, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest shall be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at Borough Hall, St. George, Borough of Richmond, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 28, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,

City of New York, Department of Finance, Comptroller's Office, January 28, 1908.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.

BELMONT STREET—OPENING, from Clay avenue to Morris avenue. Confirmed December 3, 1907; entered January 27, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point at the intersection of the easterly line of the Grand Boulevard and Concourse with the middle line of the block between East One Hundred and Seventy-third street and East One Hundred and Seventy-fourth street, and running easterly along the middle line of the blocks between East One Hundred and Seventy-third street and East One Hundred and Seventy-fourth street to the northerly prolongation of the middle line of the blocks between Clay avenue and Webster avenue, lying between East One Hundred and Seventy-second street and East One Hundred and Seventy-third street; thence southerly along said prolongation and middle line to its intersection with a line 500 feet southerly from the northerly line of Belmont street; thence westerly along said line parallel to Belmont street to its intersection with the easterly line of the Grand Boulevard and Concourse; thence northerly along the easterly line of the Grand Boulevard and Concourse to the point of beginning.

The above-entitled assessment was entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. to 12 m., and all payments made thereon on or before March 27, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,

City of New York, Department of Finance, Comptroller's Office, January 27, 1908.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the

Collection of Assessments and Arrears, of the assessments for OPENING AND ACQUIRING TITLE to the following-named street and avenue in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 7.

WEST ONE HUNDRED AND SEVENTY-SIXTH STREET—OPENING, from Broadway to Buena Vista avenue. Confirmed December 24, 1907; entered January 27, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and distant 100 feet easterly from the easterly line of St. Nicholas avenue with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-sixth street; running thence westerly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Seventy-fifth street; thence westerly along said parallel line and its westerly prolongation to its intersection with a line parallel to and distant 100 feet westerly from the westerly line of Riverside drive; thence northerly along said parallel line to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Seventy-seventh street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Seventy-sixth street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of St. Nicholas avenue; thence southerly along said parallel line to the point or place of beginning.

SEAMAN AVENUE—OPENING, from Academy street to Isham street. Confirmed December 9, 1907; entered January 27, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of the southwesterly prolongation of a line parallel to and distant one hundred (100) feet southeasterly of the southeasterly line of Seaman avenue and a property line distant southwesterly one hundred and eighty (180) feet and six (6) inches, more or less, from a point formed by the intersection of the southeasterly line of Seaman avenue and the southwesterly line of Academy street, and measured along said southeasterly line of Seaman avenue; running thence northwesterly along said property line to its intersection with the southwesterly prolongation of a line midway between Prescott avenue and Seaman avenue; thence northwesterly along said southwesterly prolongation and line midway between Prescott avenue and Seaman avenue to its intersection with a line parallel to and distant one hundred (100) feet northwesterly of the northwesterly line of Seaman avenue; thence northwesterly along said parallel line and its northeasterly prolongation to its intersection with a line parallel to and distant one hundred (100) feet northwesterly of the northeasterly line of Isham street; thence southeasterly along said last-mentioned parallel line to its intersection with the northeasterly prolongation of a line parallel to and distant one hundred (100) feet southeasterly of the southeasterly line of Seaman avenue; thence southwesterly along said northeasterly prolongation and parallel line and its southwesterly prolongation, to the point or place of beginning.

The above entitled assessments were entered on the date hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 27, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

HERMAN A. METZ,

City of New York, Department of Finance, Comptroller's Office, January 27, 1908.

NOTICE TO PROPERTY OWNERS.

NOTICES OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF BROOKLYN:

THIRTIETH WARD, SECTION 18.

SEVENTY-SEVENTH STREET—OPENING, from Shore road to Seventh avenue. Confirmed June 9, 1906; entered January 28, 1908. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the easterly side of Shore road, where the same is intersected by the centre line of the block between Seventy-seventh and Seventy-ninth streets; running thence easterly and along the centre line of the block between Seventy-seventh and Seventy-ninth streets

to the westerly side of Narrows avenue; running thence northerly along the westerly side of Narrows avenue to a point which would be intersected by the prolongation of the centre line of the block between Seventy-seventh and Seventy-eighth streets; running thence easterly and along said centre line of the block between said Seventy-seventh and Seventy-eighth streets and its prolongation to the westerly side of Seventh avenue; running thence northerly and along the westerly side of Seventh avenue to the centre line of the block between Seventy-seventh street and Seventy-sixth street; running thence westerly along the centre line of the blocks between Seventy-seventh and Seventy-sixth streets to the westerly side of Narrows avenue; running thence northerly along the westerly side of Narrows avenue to the centre line of the block between Seventy-seventh and Seventy-fifth streets; running thence westerly and along the centre line of the block between Seventy-seventh and Seventy-fifth streets to the easterly side of Shore road; running thence southerly and along the easterly side of Shore road to the point or place of beginning.

The above-entitled assessment was entered on the day hereinbefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of entry of the assessment interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague streets, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 28, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when such assessment became a lien to the date of payment.

HERMAN A. METZ,
Comptroller.

City of New York, Department of Finance,
Comptroller's Office, January 28, 1908.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Board of Trustees of Bellevue and Allied Hospitals public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the building and contents thereof standing within the line of property acquired by The City of New York for hospital purposes in the

Borough of Manhattan.

Being the building known as the plant of the United Electric Light and Power Company and all the machinery contained therein, viz:

Three 600 horse-power Corliss engines;
Direct connected exciter outfit;
Three Westinghouse 400-kilowatt generators;
One 2,000 horse-power heater;
Boiler feed pumps;
Sixteen hundred horse-power boilers;
Steam exhaust pipe;
Three steel stacks;
Breachings, dampers;
Steam and exhaust pipe covering;
Eight 1,200 horse-power engines;
Nine thousand six hundred horse-power kilowatt condenser;
Eight 750-kilowatt generators;
Three 225-kilowatt exciter outfits;
Force draught outfit;
Twenty-five-ton traveling crane;
Seven 200 horse-power Climax boilers;
Coal and ash conveying apparatus;
Steam and exhaust piping;
Two feed-water heaters, 2,000 horse-power;
Three boiler feed pumps;
Steam and exhaust pipe covering;
Four steel stacks;
Breachings, damper and damper regulators;
—said building being situated between Twenty-eighth and Twenty-ninth streets and between First avenue and the East River, Borough of Manhattan, and which is more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund the sale of the above described building and contents thereof will be held on

THURSDAY, FEBRUARY 6, 1908

at 10 a. m. on the premises, upon the following

TERMS AND CONDITIONS.

It being understood that the purchasers at the time of the auction sale, when the said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for each and every day the removal of the buildings, etc., remains incomplete after the expiration of sixty days from the day of sale. A copy of the contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale and contract. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security deposited. This security must be deposited within forty-eight hours after the sale, and may, at any time after the expiration of the contract period, be applied by the City to the cost of completing any work required under the contract but unfinished at the expiration of the contract period.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings, existing

within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two (2) feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening in main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that said work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings or appurtenances, or any portion thereof, within sixty days from the day of sale will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expenses thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they, or any of them, be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids.

H. A. METZ,

Comptroller.

City of New York, Department of Finance,
Comptroller's Office, January 22, 1908.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF MANHATTAN:

TWELFTH WARD, SECTION 8.

AMSTERDAM AVENUE—SEWER, east side, between One Hundred and Eighty-first and One Hundred and Eighty-sixth streets. Area of assessment: East side of Amsterdam avenue, from One Hundred and Eighty-first street to One Hundred and Eighty-eighth street.

—that the same was confirmed by the Board of Assessors on January 21, 1908, and entered on January 21, 1908, in the Record of Titles and Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of 7 per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 21, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of 7 per centum per annum from the date when above assessment became a lien to the date of payment.

HERMAN A. METZ,

Comptroller.

City of New York, Department of Finance,
Comptroller's Office, January 21, 1908.

j23,f4

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS in the BOROUGH OF RICHMOND:

FIRST WARD.

REGULATING AND GRADING THE ROADWAYS OF BIDWELL AVENUE, from Watchogogue road to Indiana avenue; DEMOREST

AVENUE, from Lathrop avenue to Watchogogue road; DICKIE AVENUE, from Columbus place to Indiana avenue; GARRISON AVENUE, from Neal Dow avenue to Wooley avenue; LATHROP AVENUE, from Fisk avenue to Wooley avenue; LEONARD AVENUE, from Jewett avenue to Wooley avenue; LIVERMORE AVENUE, from Watchogogue road to Indiana avenue; MAINE AVENUE, from Willard avenue to Wooley avenue; SPRINGFIELD AVENUE, from Willard avenue to Bidwell avenue, and WOOLEY AVENUE, from Watchogogue road to Indiana avenue. Area of assessment: Both sides of Bidwell avenue, from Watchogogue road to Indiana avenue; both sides of Demarest avenue, from Lathrop avenue to Watchogogue road; both sides of Dickey avenue, from Columbus place to Indiana avenue; both sides of Garrison avenue, from Neal Dow avenue to Wooley avenue; both sides of Lathrop avenue, from Clinton B. Fiske avenue to Wooley avenue; both sides of Leonard avenue, from Jewett avenue to Wooley avenue; both sides of Livermore avenue, from Watchogogue road to Indiana avenue; both sides of Maine avenue, from Willard avenue to Wooley avenue; both sides of Springfield avenue, from Willard avenue to Bidwell avenue; both sides of Wooley avenue, from Watchogogue road to Indiana avenue, and to the extent of half the block at the intersecting streets and avenues.

—that the same was confirmed by the Board of Assessors January 21, 1908, and entered on January 21, 1908, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby, ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, at Borough Hall, St. George, Borough of Richmond, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 21, 1908, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF RICHMOND, FOR UNPAID TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, No. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, August 10, 1907.

UNDER THE DIRECTION OF HERMAN A. METZ, Comptroller of The City of New York, the undersigned hereby gives public notice pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the Borough of Richmond, on which taxes have been laid and confirmed according to law by The City of New York for the years 1899, 1900, 1901, 1902 and 1903, including taxes on the real estate of corporations for the said years and taxes on the special franchises of corporations for the years 1900, 1901, 1902 and 1903, and which now remain due and unpaid:

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid, on which the assessments have been laid according to law by the said City of New York for the years 1899, 1900, 1901, 1902, 1903 and 1904, and which now remain due and unpaid, are required to pay the amount of the said taxes and assessments so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York.

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction, in Room 129, Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York, on

WEDNESDAY, NOVEMBER 20, 1907,

at 10 o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the said taxes or assessments, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given that a detailed statement of such taxes and assessments and the ownership of the property taxed and on which such taxes and assessments remain unpaid, is published in a pamphlet and that copies of the said pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Boroughs of Manhattan and Richmond, and will be delivered to any person applying for the same.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears
of The City of New York.

The foregoing sale will continue on

WEDNESDAY, FEBRUARY 5, 1908.

at 10 o'clock a. m., in Room 129, Borough Hall,
Borough of Richmond.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears.

j17,f5

DEPARTMENT OF FINANCE, CITY OF NEW YORK,
December 14, 1906.

UNTIL FURTHER NOTICE AND UNLESS otherwise directed in any special case surety companies will be accepted as sufficient upon the following contracts to the amounts named:

Supplies of Any Description, including Gas and Electricity—

DEPARTMENT OF TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF TAXES AND ASSESSMENTS, MAIN OFFICE, BOROUGH OF MANHATTAN, HALL OF RECORDS, JANUARY 10, 1908.

NOTICE IS HEREBY GIVEN, AS REQUIRED by the Greater New York Charter, that the books called "The Annual Record of the Assessed Valuation of Real and Personal Estate of the Boroughs of Manhattan, The Bronx, Brooklyn, Queens and Richmond," comprising The City of New York, will be open for public inspection, examination and correction on the second Monday of January, and will remain open up to and including the 31st day of March, 1908.

During the time that the books are open for public inspection, application may be made by any person or corporation claiming to be aggrieved by the assessed valuation of real or personal estate to have the same corrected.

In the Borough of Manhattan, at the main office of the Department of Taxes and Assessments, Hall of Records, No. 31 Chambers street.

In the Borough of The Bronx, at the office of the Department, Municipal Building, One Hundred and Seventy-seventh street and Third avenue.

In the Borough of Brooklyn, at the office of the Department, Municipal Building.

In the Borough of Queens, at the office of the Department, Hackett Building, Jackson avenue and Fifth street, Long Island City.

In the Borough of Richmond, at the office of the Department, Borough Hall, New Brighton, Staten Island.

Corporations in all the boroughs must make application only at the main office in the Borough of Manhattan.

Applications in relation to the assessed valuation of personal estate must be made by the person assessed at the office of the Department in the borough where such person resides, and in case of a non-resident carrying on business in The City of New York at the office of the Department of the borough where such place of business is located, between the hours of 10 a. m. and 2 p. m., except on Saturday, when all applications must be made between 10 a. m. and 12 noon.

LAWSON PURDY,
President;
FRANK RAYMOND,
JAMES H. TULLY,
NICHOLAS MULLER,
CHAS. PUTZEL,
THOS. L. HAMILTON,
HUGH HASTINGS,
Commissioners of Taxes and Assessments.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, ROOM 1536, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Water Supply, Gas and Electricity at the above office until 2 o'clock p. m., on

TUESDAY, FEBRUARY 11, 1908.
Borough of Queens.

No. 1. FOR FURNISHING, DELIVERING AND STORING 2,000 GROSS TONS OF ANTHRACITE COAL.

The time for the delivery of the articles, materials and supplies and the performance of the contract is three hundred and sixty-five (365) calendar days.

The amount of security will be Four Thousand Dollars (\$4,000).

No. 2. FOR FURNISHING, DELIVERING AND STORING 4,000 GROSS TONS OF ANTHRACITE COAL.

The time for the delivery of the articles, materials and supplies and the performance of the

contract is three hundred and sixty-five (365) calendar days.

The amount of security will be Eight Thousand Dollars (\$8,000).

The bidder will state the price per unit of each item of work or supplies contained in the specifications or schedule, by which the bids will be tested.

The bids will be compared and each contract awarded for all the work, articles, materials and supplies contained in the specifications or schedule attached thereto.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Department, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, and any further information may be obtained upon application therefor at the office of the Chief Engineer, Room 923, Nos. 13 to 21 Park row, Borough of Manhattan.

JOHN H. O'BRIEN,
Commissioner of Water Supply,
Gas and Electricity.

The City of New York, January 29, 1908.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to MONTGOMERY AVENUE (although not yet named by proper authority), between West One Hundred and Seventy-sixth street and West One Hundred and Seventy-seventh street, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT THE final report of the Commissioners of Estimate and Assessment in the above-entitled matter will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan in The City of New York, on the 11th day of February, 1908, at 10.30 o'clock in forenoon of that day; and that the said final report has been deposited in the office of the Clerk of the County of New York, there to remain for and during the space of five days, as required by law.

Dated Borough of Manhattan, New York, February 4, 1908.

J. FRED. CRYER,
FRANK GASS,
JOHN A. HAWKINS,
Commissioners.

JOHN P. DUNN,
Clerk.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to CARTER AVENUE (although not yet named by proper authority), from East One Hundred and Seventy-third street to Tremont avenue, in the Twenty-fourth Ward, Borough of The Bronx, in The City of New York.

NOTICE IS HEREBY GIVEN THAT THE final supplemental and amended report of the Commissioners of Estimate and Assessment in the above-entitled matter will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 11th day of February, 1908, at 10.30 o'clock in forenoon of that day; and that the said final supplemental and amended report has been deposited in the office of the Clerk of the County of New York, there to remain for and during the space of five days, as required by law.

Dated Borough of Manhattan, New York, February 3, 1908.

JNO. H. JUDGE,
PIERRE G. CARROLL,
Commissioners.

JOHN P. DUNN,
Clerk.

f3,8

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of WEST ONE HUNDRED AND SIXTY-THIRD STREET (although not yet named by proper authority), from Fort Washington avenue to Riverside drive, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 24th day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 25th day of February, 1908, at 2 o'clock p. m.

Second—That the abstract of our said estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 3d day of March, 1908.

Third—That, pursuant to the notice heretofore given, when we filed our estimate of damage, the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of a line parallel to and distant 100 feet easterly from the easterly line of Edgecombe road and the easterly prolongation of a line parallel to and distant 100 feet southerly of the southerly line of West One Hundred and Sixty-third street; running thence westerly along said easterly prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Fort Washington avenue; thence southerly along said parallel line to Fort Washington avenue to its intersection with a line parallel to and distant 100 feet southerly from the southerly line of West One Hundred and Sixty-second street; thence westerly along said parallel line and its westerly prolongation to its intersection with a line midway between the easterly property line of the New York Central and Hudson River Railroad and Riverside drive; thence northerly along said line midway between the easterly property line of the railroad and Riverside drive to its intersection with the westerly prolongation of a line parallel to and distant 100 feet northerly from the northerly line of West One Hundred and Sixty-fourth street; thence easterly along said prolongation and parallel line to its intersection with a line parallel to and distant 100 feet easterly of the northerly line of Fort Washington avenue; thence southerly along said parallel line to its intersection with a line parallel to and distant 100 feet northerly of the northerly line of West One Hundred and Sixty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Edgecombe road; thence southerly along said parallel line to Edgecombe road to the point or place of beginning.

Fourth—That, provided there be no objections filed to our said abstract, our final last partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 28th day of March, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to our said abstract of estimate of assessment for benefit, the notice of motion to confirm our final last partial and separate report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 31, 1908.

EDWARD J. MCGEAN,
Chairman;
JAMES M. TULLY,
Commissioners.

JOHN P. DUNN,
Clerk.

f1,20

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose, in fee, to the lands, tenements and hereditaments required for the opening and extending of MOHEGAN AVENUE, between East One Hundred and Seventy-fifth street and East One Hundred and Seventy-sixth street, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

NOTICE IS HEREBY GIVEN THAT BY an order of the Supreme Court, bearing date the 7th day of November, 1907, and duly entered in the office of the Clerk of the County of New York, at his office, in the Borough of Manhattan, in The City of New York, on the 16th day of December, 1907, a copy of which order was duly filed in the office of the Register of the County of New York, and indexed in the Index of Conveyances, Block No. 2958, we, Frederick W. Hottenroth, Albert Elterich and John B. Reynolds, were appointed Commissioners of Estimate, for the purpose of making a just and equitable estimate and assessment of the loss and damage, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned street or avenue, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said Frederick W. Hottenroth was appointed Commissioner of Assessment, for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said street or avenue so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment and not required for the purpose of opening and extending the same but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached and filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the

trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said street or avenue and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 17th day of February, 1908, at 12 o'clock noon of that day, to hear the said parties and persons in relation thereto. And at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, February 1, 1908.

F. W. HOTTENROTH,
JOHN B. REYNOLDS,
ALBERT ELTERICH,
Commissioners.

JOHN P. DUNN,
Clerk.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of WEST ONE HUNDRED AND SIXTY-SEVENTH STREET (although not yet named by proper authority), from Amsterdam avenue to St. Nicholas avenue, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 17th day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 20th day of February, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 19th day of February, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line parallel to and distant one hundred (100) feet westerly of the westerly line of Broadway with the westerly prolongation of a line parallel to and distant one hundred (100) feet northerly of the northerly line of West One Hundred and Sixty-eighth street; running thence easterly along said westerly prolongation and parallel line and its easterly prolongation to its intersection with a line parallel to and distant one hundred (100) feet easterly of the easterly line of Amsterdam avenue; thence southerly along said last mentioned parallel line to its intersection with a line parallel to and distant one hundred (100) feet east of the easterly line of West One Hundred and Sixty-seventh street; thence southerly along said parallel line to its intersection with the westerly line of Edgecombe avenue; thence easterly on a line radial to Edgecombe avenue to its intersection with a line parallel to and distant one hundred (100) feet easterly of the easterly line of Edgecombe avenue; thence southerly along said parallel line to its intersection with the easterly prolongation of the southerly line of West One Hundred and Sixty-sixth street, between Amsterdam avenue and Edgecombe avenue; thence westerly along said prolongation and southerly line to its intersection with a line parallel to and distant one hundred (100) feet west of the westerly line of West One Hundred and Sixty-seventh street; thence northerly along said parallel line to its intersection with a line parallel to and distant one hundred (100) feet easterly of the easterly line of Amsterdam avenue; thence southerly along said last mentioned parallel line to its intersection with the easterly prolongation of a line parallel to and distant one hundred (100) feet southerly of the southerly line of West One Hundred and Sixty-sixth street; thence westerly along said easterly prolongation and parallel line and its westerly prolongation to its intersection with a line parallel to and distant one hundred (100) feet westerly of the westerly line of Broadway; thence northerly along said last mentioned parallel line to the point or place of beginning; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such are shown on our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said supplemental and amended abstracts, our supplemental and amended final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 16th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said supplemental and amended abstracts of estimate and assessment, the notice of motion to confirm our supplemental and amended final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 22, 1908.

RICHARD T. LYNCH,
Chairman;
W. J. K. KENNY,
MICHAEL B. STANTON,
Commissioners.

JOHN P. DUNN,
Clerk.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose, in fee, to the lands, tenements and hereditaments required for the opening and extending of BENSON AVENUE (Madison avenue), from West Farms road to Lane avenue, in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York; OVERING AVENUE (Washington avenue), from West Farms road to Westchester avenue, in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York; ST. PETERS AVENUE (Union avenue), from Westchester avenue to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York; SEDDON STREET (Tryon row), from St. Raymond avenue (Fourth street) to West Farms road, in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York; ROWLAND STREET (Washington avenue), from Westchester avenue to St. Raymond avenue (Fourth street), in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York; HUBBELL STREET (Carroll lane) to Maclay avenue (Fifth street), in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York.

NOTICE IS HEREBY GIVEN THAT, BY an order of the Supreme Court, bearing date the 29th day of October, 1907, and duly entered in the office of the Clerk of the County of New York, at his office in the Borough of Manhattan, in the City of New York, on the 16th day of December, 1907, a copy of which order was duly filed in the office of the Register of the County of New York, we, Edward D. Dowling, William F. A. Kurz and Francis V. S. Oliver were appointed Commissioners of Estimate for the purpose of making a just and equitable estimate and assessment of the loss and damage to the respective owners, lessees, parties and persons respectively entitled unto or interested in the lands, tenements, hereditaments and premises required for the purpose by and in consequence of opening and extending the above-mentioned streets or avenues, the same being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and the said Edward D. Dowling was appointed Commissioner of Assessment for the purpose of making a just and equitable estimate and assessment of the value of the benefit and advantage of the said streets or avenues, so to be opened and extended, to the respective owners, lessees, parties and persons respectively entitled unto or interested in the respective lands, tenements, hereditaments and premises situated within the area of assessment adopted by the Board of Estimate and Apportionment, and not required for the purpose of opening and extending the same, but benefited thereby, the said area of assessment being particularly set forth and described in the petition of The City of New York, and also in the notice of the application for the said order thereto attached, filed herein in the office of the Clerk of the County of New York on the 16th day of December, 1907, and of ascertaining and defining the extent and boundaries of the respective tracts or parcels of land to be taken or to be assessed therefor, and of performing the trusts and duties required of us by chapter 17, title 4, of the Greater New York Charter, as amended, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the real estate taken or to be taken for the purpose of opening and extending the said streets or avenues and affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate, at our office, ninth floor, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, with such affidavit or other proof as the owners or claimants may desire, within ten days after the date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 10th day of February, 1908, at 11 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto, and examine the proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, January 25, 1908.

FRANCIS V. S. OLIVER,
EDWARD D. DOWLING,
WM. F. A. KURZ,
Commissioners.

JOHN P. DUNN,
Clerk.

FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of a NEW STREET north of Fairview avenue, and extending from Broadway to first new avenue west of Broadway, in the Twelfth Ward, Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 15th day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of February, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the said City, there to remain until the 17th day of February, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the westerly prolongation of the middle line of the block between the new street and the unnamed street next south with a line parallel to and distant 100 feet westerly from the westerly line of the first new avenue (Bennett avenue) west of Broadway; running thence northerly along said parallel line to its intersection with the westerly prolongation of the middle line of the block between the new street and Bennett avenue; thence easterly along said middle line and its easterly prolongation to its intersection with a line parallel to and distant 100 feet easterly of the easterly line of Broadway; thence southerly along said parallel line to its intersection with the easterly prolongation of the middle line of the block between the new street and the unnamed street next south; thence westerly along said prolongation and middle line and its westerly prolongation to the point or place of beginning; excepting from said area all streets, avenues and roads, or portions thereof, heretofore legally opened, as such are shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 2d day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 20, 1908.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening SPUYTEN DUYVIL ROAD (although not yet named by proper authority), from Spuyten Duyvil parkway, near the Spuyten Duyvil depot, to the junction of Riverdale avenue and West Two Hundred and Thirtieth street, as the same has been heretofore laid out and designated as a first-class street or road in the Twenty-fourth Ward, City of New York.

And—In re application of Caroline Weigel for damages to old Lot No. 50, new Lot No. 685, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Frank A. Beekman for damages to old Lot No. 71, new Lot No. 713, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Thomas D. Tighe, as executor, etc., for damages to old Lot No. 73, new Lot No. 714, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Elizabeth M. Tierney, as executrix, etc., for damages to old Lot No. 76, new Lot No. 717, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, Borough of The Bronx, in the City of New York.

In re application of Julia T. Molloy for damages to old Lot No. 169, new Lot No. 719, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Peter Tarantino for damages to old Lot No. 165, new Lot No. 723, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Elizabeth M. Pryor for damages to old Lot No. 150, new Lot No. 733, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Nora Leddy for damages to old Lot No. 146, new Lot No. 735, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Patrick Stafford for damages to Lot No. 725, in Block 3402, caused by the abandonment, discontinuance and closing in front thereof of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York, the aforesaid parcel being described as follows: Being all that certain lot, piece or parcel of land situate, lying and being at Spuyten Duyvil, in the Twenty-fourth Ward of The City of New York, which said lot is bounded and described as follows, viz.:

Beginning on the easterly line of the road leading from Spuyten Duyvil Station on the Hudson River Railroad to Kingsbridge, as said road is shown on a map accompanying the partition deed made on the 23d day of August, 1865, between David B. Cox and wife and Elias Johnson, Isaac G. Johnson and wife and John C. Cameron and wife, at a point 24 feet north of the most northerly corner of a parcel of land heretofore conveyed to Patrick Scanlon by Mary E. Cox by deed dated June 27, 1877, and recorded in the office of the Register of the City and County of New York in Liber 1430 of Conveyances, page 136; thence on a line drawn at right angles to said Kingsbridge road easterly 40 feet, more or less, to the lands of the Spuyten Duyvil and Port Morris Railroad Company; thence along said railroad company's land northerly 185 feet, more or less, to a point where said line would

intersect the prolongation of the southerly line of lot last conveyed to James Finnegan by David B. Cox; thence along said prolonged line westerly 5 feet, more or less, to said Kingsbridge road; thence southerly along said Kingsbridge road 190 feet, more or less, to the point or place of beginning.

In re application of Thomas Scanlon, Patrick Scanlon, Mary Scanlon Kenny and Margaret Scanlon, for damages to old Lot No. 210, new Lot No. 766, in Block 3402, caused by the abandonment, discontinuance and closing thereof in front of old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

In re application of Sarah C. Roden for damages to old Lot No. 459, new Lot No. 200, in Block 3410, caused by the abandonment, discontinuance and closing thereof of Old Kingsbridge road, in the Twenty-fourth Ward, in the Borough of The Bronx, in the City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled proceedings, to whom was referred by the Court herein the report heretofore made herein, hereby give notice to all persons interested in these proceedings, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment herein, and that all persons interested in these proceedings, or in any lands, tenements, hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us, at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in the City of New York, on or before the 13th day of February, 1908; and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said offices on the 14th day of February, 1908, at 4 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all of the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department in the City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 24th day of February, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements, hereditaments and premises situate, lying and being in the Borough of The Bronx, in the City of New York, bounded and described as follows:

Beginning at the point of intersection of the northerly line of the Harlem river (ship canal) with the westerly line of the New York Central and Hudson River Railroad; running thence northerly along said westerly line of the railroad to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of West Two Hundred and Thirty-sixth street; thence easterly along the said line parallel to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Broadway; thence southerly along said line parallel to Broadway to its intersection with the easterly line of Spuyten Duyvil creek; thence northerly, westerly and southwesterly along the easterly, northerly and northwesterly line of Spuyten Duyvil creek to its intersection with the northerly line of the Harlem river (ship canal); thence in a westerly direction along the northerly line of the Harlem river (ship canal) to the point or place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in the City of New York, on the 14th day of April, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, December 13, 1907.

ERNEST HALL,
JOHN H. KNOEPEL,
PIERRE K. CARROLL,
Commissioners.

JOHN P. DUNN,
Clerk.

FIRST JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain uplands and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges necessary to be taken for the improvement of the waterfront of The City of New York on the North river, between West Fifteenth and West Eighteenth streets, and the easterly side of the marginal street, wharf or place, adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund, and the North river, pursuant to the plan heretofore adopted by the Board of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of an order of the Supreme Court, bearing date the 18th day of December, 1907, and filed and entered in the office of the Clerk of the County of New York on the 19th day of December, 1907, were appointed Commissioners of Estimate and Assessment in the above entitled proceeding, for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the uplands, and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges hereinafter described, and situated in the Borough of Manhattan in The City of New York, taken herein for the improvement of the waterfront on the North river, and which said uplands, and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges are described as follows:

Parcel No. 1.

All the rights of wharfage, incorporeal hereditaments, terms, easements, emoluments, privileges or other appurtenances of any kind whatsoever appurtenant to the bulkhead along the westerly side of Thirteenth avenue, extending from the northerly side of West Fifteenth street to the southerly side of West Sixteenth street.

Parcel No. 2.

All the uplands and lands, terms, easements, emoluments and privileges of and to the uplands and lands, with the buildings and structures thereon, in the block bounded by the northerly side of West Fifteenth street, the southerly side of West Sixteenth street, the easterly side of Eleventh avenue and the easterly side of the marginal street, wharf or place as shown on the map or plan adopted by the Board of Docks on May 20, 1897, and approved by the Commissioners of the Sinking Fund on June 14, 1897, as altered and amended by the Board of Docks on January 14, 1898, and approved by the Commissioners of the Sinking Fund on March 11, 1898, as again altered and amended by the Board of Docks on July 19, 1901, and approved by the Commissioners of the Sinking Fund on July 31, 1901.

Parcel No. 3.

All the rights of wharfage, incorporeal hereditaments, terms, easements, emoluments, privileges or other appurtenances of any kind whatsoever appurtenant to the bulkhead along the westerly side of Thirteenth avenue, extending from the northerly side of West Sixteenth street to the southerly side of West Seventeenth street.

Parcel No. 4.

All the uplands and lands, terms, easements, emoluments and privileges of and to the uplands and lands, with the buildings and structures thereon in the block bounded by the northerly side of West Sixteenth street, the southerly side of West Seventeenth street, the westerly side of Eleventh avenue and the easterly side of Thirteenth avenue.

Parcel No. 5.

All the uplands and lands, terms, easements, emoluments and privileges of and to the uplands and lands, with the buildings and structures thereon, in the block bounded by the northerly side of West Sixteenth street, the southerly side of West Seventeenth street, the easterly side of Eleventh avenue and the easterly side of the marginal street, wharf or place as shown on the map or plan adopted by the Board of Docks on May 20, 1897, and approved by the Commissioners of the Sinking Fund on June 14, 1897, as altered and amended by the Board of Docks on January 14, 1898, and approved by the Commissioners of the Sinking Fund on March 11, 1898, as again altered and amended by the Board of Docks on July 19, 1901, and approved by the Commissioners of the Sinking Fund on July 31, 1901.

Parcel No. 6.

All the rights of wharfage, incorporeal hereditaments, terms, easements, emoluments, privileges or other appurtenances of any kind whatsoever appurtenant to the bulkhead along the westerly side of Thirteenth avenue, extending from the northerly side of West Seventeenth street to the southerly side of West Eighteenth street.

Parcel No. 7.

All the uplands and lands, terms, easements, emoluments and privileges of and to the uplands and lands, with the buildings and structures thereon, in the block bounded by the northerly side of West Seventeenth street, the southerly side of West Eighteenth street, the westerly side of Eleventh avenue and the easterly side of Thirteenth avenue.

Parcel No. 8.

All the uplands and lands, terms, easements, emoluments and privileges of and to the uplands and lands, with the buildings and structures thereon, in the block bounded by the northerly side of West Seventeenth street, the southerly side of West Eighteenth street, the easterly side of Eleventh avenue and the easterly side of the marginal street, wharf or place, as shown on the map or plan adopted by the Board of Docks on May 20, 1897, and approved by the Commissioners of the Sinking Fund on June 14, 1897, as altered and amended by the Board of Docks on January 14, 1898, and approved by the Commissioners of the Sinking Fund on March 11, 1898, as again altered and amended by the Board of Docks on July 19, 1901, and approved by the Commissioners of the Sinking Fund on July 31, 1901.

All parties and persons interested in the said uplands and lands, wharf property, wharfage rights, terms, easements, emoluments and privileges taken or to be taken for the said improvement of the water front of The City of New York, on the North river, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room No. 401, on the fourth floor of the building, No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice, and we, the said Commissioners, will be in attendance at our said office, above specified, on the 18th day of February, 1908, at 3 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, or at such other or further times and places as we may appoint, we will hear such owners in relation thereto, and examine the proofs of such claimant or claimants, or such additional proofs or allegations as may be then offered by such owners, or on behalf of The City of New York.

Dated Borough of Manhattan, City of New York, January 22, 1908.
CHAS. N. MORGAN,
ADAM WIENER,
JAMES SHELTON MENG,
Commissioners.

JOSEPH M. SCHENCK,
Clerk.

SUPREME COURT—SECOND DEPARTMENT.**SECOND DEPARTMENT.**

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of STAR AVENUE (although not yet named by proper authority), from Borden avenue to Howard street, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected

thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 21st day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 24th day of February, 1908, at 10 o'clock a. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 3d day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of the southerly line of Borden avenue with a line parallel to and distant one hundred (100) feet easterly from the easterly line of Star avenue; running thence southerly along said parallel line to Star avenue to its intersection with the southerly line of Howard street; thence westerly along said southerly line of Howard street to its intersection with a line parallel to and distant one hundred (100) feet westerly from the westerly line of Star avenue; thence northerly along said last mentioned parallel line to Star avenue to its intersection with the southerly line of Borden avenue; thence easterly along said southerly line of Borden avenue to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 7th day of May, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 28, 1908.

JAMES J. CONWAY,
Chairman;

JOHN W. GILL,
W. H. BRAWLEY,
Commissioners.

JOHN P. DUNN,
Clerk.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the opening and extending of HUNTER AVENUE (although not yet named by proper authority), from Nott avenue to Wilbur avenue, in the First Ward, Borough of Queens, in The City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 252 Jackson avenue, in the Borough of Queens, in The City of New York, on or before the 21st day of February, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 24th day of February, 1908, at 4 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 252 Jackson avenue, in the Borough of Queens, in said City, there to remain until the 30th day of March, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of the northeasterly line of Nott avenue and the centre line of the blocks between Jackson avenue and Hunter avenue; running thence northeasterly along said centre line and its prolongation to its intersection with a line parallel to and distant one hundred (100) feet east of the easterly line of Hunter avenue; thence northerly along said parallel line to its intersection with the southerly line of Academy street; thence southwesterly along said line of Academy street to its intersection with a line parallel to and distant one hundred (100) feet north of the northerly line of Hunter avenue; thence southwesterly along said parallel line to its intersection with the northeasterly line of Nott avenue; thence easterly along said line of Nott avenue to the point or place of beginning, excepting from said area all streets, avenues and roads, or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 7th day of May, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore ap-

peared in this proceeding, as well as by publication in the CITY RECORD and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, January 28, 1908.

JOHN W. WEED,
Chairman;
FREDERICK T. HALLETT,
CONSTANTINE TIMONIER,
Commissioners.

JOHN P. DUNN,
Clerk.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title to VANDERVOORT AVENUE, from Meeker avenue to Maspeth avenue, in the Eighteenth Ward, in the Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 29th day of May, 1906, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings on the 30th day of June, 1906, and indexed in the Index of Conveyances in Section 10, Blocks 2804, 2810, 2811, 2818, 2819, 2835, 2836, 2842, 2843, 2851, 2852, 2860, 2861, 2869, 2870, 2878, 2879, 2887, 2888, 2896 and 2897, Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss and damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title of chapter 17 of the Charter of The City of New York and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in The City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 17th day of February, 1908, at 3 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto, and examine proofs of such claimant or claimants, or such additional proofs or allegations as may then be offered by such owner, or on behalf of The City of New York.

Dated Borough of Brooklyn, The City of New York, January 20, 1908.

WILLIAM G. LAWRENCE,
NOAH TEBBETTS,
ADOLPH PETTENKOFER,
Commissioners.

JAMES F. QUIGLEY,
Clerk.

SUPREME COURT—THIRD JUDICIAL DISTRICT.**THIRD JUDICIAL DISTRICT.****ULSTER COUNTY.**

Ashokan Reservoir, Section 6, Town of Hurley, Ulster County.

In the matter of the application and petition of J. Edward Simmons, Charles N. Chadwick and Charles A. Shaw, constituting the Board of Water Supply of The City of New York, to acquire real estate for and on behalf of The City of New York, under chapter 724 of the Laws of 1905, and the acts amendatory thereof, in the town of Hurley, Ulster County, N. Y., for the purpose of providing an additional supply of pure and wholesome water for the use of The City of New York.

PUBLIC NOTICE IS HEREBY GIVEN that the first separate report of Edgar L. Fursman, Edward H. Nicoll and Charles B. Cox, who were appointed Commissioners of Appraisal in the above entitled matter by an order of this Court, made at a Special Term thereof, held at the Court House, in the City of Kingston, Ulster County, N. Y., June 29, 1907, was filed in the office of the Clerk of the County of Ulster on the 3d day of January, 1908, and affects parcels numbers two hundred and twenty-four (224), two hundred and twenty-six (226), two hundred and twenty-eight (228), two hundred and thirty (230), two hundred and thirty-seven (237), two hundred and forty-six (246), two hundred and forty-seven (247), two hundred and forty-nine (249), two hundred and fifty (250), two hundred and fifty-three (253), two hundred and fifty-six (256) and two hundred and sixty-seven (267), shown on the map in this proceeding.

Notice is further given that an application will be made at a Special Term of the Supreme Court of the State of New York, to be held in and for the Third Judicial District, at the Court House, in the City of Kingston, Ulster County, N. Y., on the 15th day of February, 1908, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard, for an order confirming said report and for such other and further relief as may be just.

Dated New York, January 20, 1908.
FRANCIS KEY PENDLETON,
Corporation Counsel.

THIRD JUDICIAL DISTRICT.**ULSTER COUNTY.**

Ashokan Reservoir, Section No. 7, Towns of Olive and Hurley, Ulster County.

In the matter of the application and petition of J. Edward Simmons, Charles N. Chadwick and Charles A. Shaw, constituting the Board of Water Supply of The City of New York, to acquire real estate for and on behalf of The City of New York, under chapter 724 of the Laws of 1905 and the acts amendatory thereof, in the towns of Olive and Hurley, Ulster County, New York, for the purpose of providing an additional supply of pure and wholesome water for the use of The City of New York.

PUBLIC NOTICE IS HEREBY GIVEN that the first separate report of James Jenkins, Joseph D. Baucus and Peter C. Black, who were appointed Commissioners of Appraisal in the above entitled matter by an order of this Court made at a Special Term thereof, held at the Court House in the City of Kingston, Ulster County, N. Y., June 29, 1907, was filed in the office of the Clerk of the County of Ulster on the 30th day of December, 1907, and affects parcels numbers two hundred and seventy-one A (271A), two hundred and seventy-three (273), two hundred and seventy-nine (279), two hundred and eighty-three (283), two hundred and eighty-four (284), two hundred and eighty-five (285), two hundred and eighty-six (286), two hundred and eighty-seven (287), two hundred and eighty-eight (288), two hundred and ninety (290), two hundred and ninety-one (291), two hundred and ninety-two (292), two hundred and ninety-four (294), two hundred and ninety-five (295), two hundred and ninety-six (296), three hundred (300), three hundred and one (301), three hundred and two (302), three hundred and three (303), three hundred and four (304), three hundred and eight (308), three hundred and twelve (312) and three hundred and thirteen (313), shown on the map in this proceeding.

Notice is further given that an application will be made at a Special Term of the Supreme Court of the State of New York, to be held in and for the Third Judicial District, at the Court House, in the City of Kingston, Ulster County, New York, on the 15th day of February, 1908, at 10 o'clock in the forenoon of that day or as soon thereafter as counsel can be heard, for an order confirming said report and for such other and further relief as may be just.

Dated New York, January 20, 1908.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.**NOTICE TO CONTRACTORS.****GENERAL INSTRUCTIONS TO BIDDERS.**

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
