#### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system

maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

**Participating NYC Agencies**

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)

- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

**STATEMENT OF BASIS AND PURPOSE**

The Office of Environmental Remediation ("Office" or "OER") administers the New York City Voluntary Cleanup Program ("VCP") which directs developers to remediate light to moderately contaminated sites in New York City. OER and the New York State Department of Environmental Conservation ("DEC") executed a Memorandum of Agreement ("MOA") in July 2014 through which DEC recognizes the city Voluntary Cleanup Program and coordinates with OER in setting remedies for sites in the city cleanup program.

In the course of remediating sites, developers often must excavate and dispose of hazardous waste that had been previously buried at their properties. New York State Environmental Conservation Law ("ECL") § 72-0402 requires parties that generate hazardous waste, including owners of city VCP sites, to pay DEC \$130 for each ton of hazardous waste they generate. On November 17, 2014, DEC agreed to

exempt city VCP sites from paying the state hazardous waste program fee in an amendment to the MOA.

OER was established by Local Law No. 27 of 2009, and Charter § 15(e)(17) authorizes its Director to establish fees for programs administered by the office. To implement the amendment to the MOA, OER must certify to DEC each VCP site that generates hazardous waste to DEC. This work requires OER to conduct site inspections, work closely with a site's representatives and certify to DEC that removal of hazardous waste from a site in the city program was proper and complied with all applicable laws and regulations.

The fee established by this proposed rule will cover OER's costs in making certifications to DEC that each city VCP site with hazardous waste is worthy of an exemption from the state hazardous waste program fee. OER seeks to recover its costs in providing the service to VCP sites and to provide sufficient income over time for the office to expand its staff to manage the program as more city redevelopment projects seek to benefit from it.

The proposed rule assesses a fee of \$8.00 for each ton of hazardous waste that a city Voluntary Cleanup Program site generates.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this office, unless otherwise specified or unless the context clearly indicates otherwise.

New text is underlined; deleted material is in [brackets].

§ 1. Chapter 14 of the Rules of the City of New York is amended by adding a new Subchapter 6 to read as follows:

Subchapter 6: Fee for state hazardous waste program fee exemption.

§ 43-1460: Fee for hazardous waste program fee exemption.

The office shall assess a fee for assisting properties in the city voluntary cleanup program obtain an exemption from the state hazardous waste program fee established by ECL § 72-0402. The fee is as follows:

- no fee will be charged for sites that generate fewer than 15 tons of hazardous waste per year; and
- sites that generate at least 15 tons of hazardous waste per year will be charged a fee of \$8.00 for each ton of hazardous waste generated.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). Copies of the DEIS are available for public inspection at the office of the undersigned. A public hearing on the DEIS will be held at a later

date to be announced. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and would be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

GGP Staten Island Mall, LLC, Macy's Retail Holdings, Inc. (Macy's) and JCPenney Corporation, Inc. (collectively, the Applicants) propose to enlarge an existing commercial center known as the Staten Island Mall (the "Mall" or the "Development Site"), located at 2655 Richmond Avenue (Block 2400, Lots 7, 118, 180, 210, 220, and 500) in the Heartland Village neighborhood of Staten Island Community District 2. The Development Site for the proposed project is located in a C4-1 zoning district and is bounded by Richmond Hill Road, Marsh Avenue, Platinum Avenue, and Richmond Avenue.

The Mall is currently comprised of three zoning lots:

- The Macy's zoning lot (tax lot 118 and 500), which includes the Macy's department store, Macy's furniture store, and adjacent parking fields;
- The Mall/JCPenney zoning lot (tax lots 7, 180, 210, 220), which includes the retail stores comprising the mall itself, the JCPenney department store, and their adjacent parking fields; and
- The Sears zoning lot (tax lot 375), which includes the Sears department store and its adjacent parking field.

The Macy's zoning lot (tax lot 118 and 500) and the Mall/JCPenney zoning lot (tax lots 7, 180, 210, and 220) are anticipated to be merged into a single zoning lot and comprise the Development Site for the proposed project. The Development Site does not include the zoning lot containing Sears or its adjacent 1,018-space parking area.

The Applicants are seeking zoning authorizations pursuant to the ZR Section 36-023 for:

- A reduction by up to 47.5 percent of the ZR Section 36-21 parking requirement;
- Approval of the layout of a group parking facility accessory to a commercial development; and
- Approval to modify/waive the parking maneuverability and landscaping provisions of ZR Sections 36-58 and/or 37-90.

In addition, the Applicants are seeking cross-access easement certifications pursuant to: ZR Section 36-592, and ZR Section 36-596(a). These certifications are ministerial actions and not subject to environmental review.

The proposed actions would facilitate the development of an approximately 426,576 gross square feet (gsf) enlargement of the Mall on areas currently used for accessory parking. Uses within the enlarged areas are anticipated to include: 88,007 gsf of non-department store retail; 41,208 gsf of department store retail; 33,665 gsf of restaurants; 10,831 gsf of new food court; a 50,000-gsf supermarket; a 54,488-gsf cinema; a 75,000-gsf enlargement of the existing Macy's department store; and 73,377 gsf of common, service and receiving areas. In conjunction with the retail enlargement, the proposed project includes the development of a new parking structure, as well as exterior landscape improvements.

It is anticipated that the proposed project would be completed by 2017. However, there is the possibility that Macy's would elect to postpone commencement of construction of its proposed 75,000-gsf enlargement, in which case the Macy's enlargement and a portion of the proposed structured parking garage would not be expected to be complete until 2019. The EIS evaluates the most conservative build scenario in determining the potential for significant adverse environmental impacts.

Absent the proposed actions, no new development is anticipated to occur on the project site. Any such development or enlargement, including changes to the parking site plan, would require authorizations pursuant to ZR Section 36-023, which is a discretionary action and subject to environmental review, to assure that the layout of parking space is arranged and located in relation to the uses on the site so as to provide adequate ingress, egress, and circulation with respect to the abutting streets. In the No Action scenario, conditions on the project site are expected to remain unchanged from existing conditions.

The proposed actions would facilitate the Applicants' proposal through authorizing the site plan, which would set the location and size of the proposed enlargement, and the reconfiguration and number of parking spaces. The proposed enlargement will be limited to the building footprints and floor area shown on the authorized site plan and the layout and number of parking spaces. Deviation from the site plan by reconfiguring the layout of the parking spaces or adding or subtracting the number of spaces provided, or shifting the building footprints or floor area, would require the Applicants to seek an additional authorization pursuant to ZR Section 36-023. However, the site plan does not set the size and location of the proposed Use Groups 6, 8, and 10 and allows flexibility for where the uses are located within the proposed footprints of the enlargement.

In order to provide a conservative environmental review, a RWCDs for the With-Action scenario was developed based on the Applicants' current intended development program and typical retail uses in similar developments that generate a high number of vehicle trips. The specific retail types under the RWCDs include 33,665 gsf of restaurant space (UG-6), 50,000 gsf of supermarket space (UG-6), 75,000 gsf of enlargement space for the Macy's (UG-10), and 54,488 gsf of cinema space (UG-8).

With the 426,576 gsf of new uses that are expected to be added as a result of the proposed actions, the project site would contain approximately 1,655,390 gsf of retail uses. The worker population of the project site would increase by an estimated 943 in the With Action scenario, to an estimated 3,693 employees.

The DEIS had identified significant adverse impacts with respect to traffic. The proposed project would not result in significant adverse impacts with respect to transit, pedestrians, or parking.

The weekday midday and PM and Saturday midday and PM traffic conditions were evaluated at a total of 38 intersections which center around major arterials that serve the Mall, including Richmond Avenue, Richmond Hill Road, Forest Hill Road, and arterials farther away from the site that collect local traffic. These 38 intersections, where project-generated trips are expected to be most concentrated, were analyzed for the reasonable worst-case scenario of the November to December shopping period post-Thanksgiving. The traffic impact analysis indicates that 14, 26, 24, and 24 intersections would be significantly adversely impacted in the weekday midday, weekday PM, Saturday midday, and Saturday PM peak hours, respectively. In addition, 19, 39, 43, and 35 lane groups would be significantly adversely impacted in the weekday midday, weekday PM, Saturday midday, and Saturday PM peak hours, respectively.

The recommended mitigation measures to address significant adverse impacts consist of standard signal timing changes, lane reconfiguration, and parking regulation modifications. These measures, which are subject to review and approval by the New York City Department of Transportation (NYCDOT), are considered readily implementable measures as per the CEQR Technical Manual. However, at one intersection (the unsignalized intersection of Staten Island Mall East Driveway at Marsh Avenue), the impact on the Mall East Driveway left lane group could only be mitigated by installing a new signal. Therefore, a signal warrant analysis was conducted as per requirements of the Manual of Uniform Traffic Control Devices (MUTCD), 2009 Edition. The signal warrant analysis concluded that Warrant 3A-Peak Hour was satisfied, and therefore the signal would be warranted.

Totals of 12, 22, 15, and 17 intersections could be fully mitigated in the weekday midday, weekday PM, Saturday midday, and Saturday PM peak hours, respectively. Two, one, four, and four intersections could be partially mitigated in the weekday midday, weekday PM, Saturday midday, and Saturday PM peak hours, respectively; and zero, three, five, and three intersections would remain unmitigated in the weekday midday, weekday P.M., Saturday midday, and Saturday P.M. peak hours, respectively.

The following intersections could not be mitigated in one or more peak hours:

- Forest Hill Road at Richmond Avenue,
- Draper Place at Richmond Avenue,
- Drumgoole Road West at Richmond Avenue,
- Richmond Road at Arthur Kill Road-Richmond Hill Road, and
- Rockland Avenue at Forest Hill Road.

In addition, the following intersections could be partially mitigated in one or more time periods:

- Richmond Hill Road at Richmond Avenue,
- Richmond Hill Road at Forest Hill Road,
- Platinum Avenue at Staten Island Mall Drive,
- Victory Boulevard at Richmond Avenue,
- Draper Place at Richmond Avenue,
- Nome Avenue at Richmond Avenue, and
- Rockland Avenue at Forest Hill Road.

There is potential for additional impacts to be identified between Draft and Final of this EIS, and if so, additional measures will be explored, where feasible, to further mitigate the identified impacts. The proposed mitigation measures are subject to review and approval by the NYCDOT, and if certain proposed mitigation measures are deemed infeasible by NYCDOT, alternatives will be analyzed. If no other alternative mitigation measures can be identified, those impact locations would be unmitigated.

Between Draft and Final of this EIS, additional measures will be

explored, where feasible, to further mitigate the identified impacts. If no additional feasible measures can be identified, the projected impacts would remain unmitigated, and would therefore be considered unavoidable adverse impacts.

The DEIS also considered two alternatives: A No Build Alternative and a No Unmitigated Significant Impacts Alternative.
