Report of the Committee on Civil and Human Rights

Report for Int. No. 1445-A

Report of the Committee on Civil and Human Rights in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to prohibition of drug testing for pre-employment hiring procedures.

The Committee on Civil and Human Rights, to which the annexed proposed amended local law was referred on February 13, 2019 (Minutes, page 490), respectfully

REPORTS:

INTRODUCTION

On Monday, April 8th, 2019, the Committee on Civil and Human Rights, chaired by Council Member Eugene, will vote on Proposed Introductory Bill Number 1445-A (Int. 1445-A), in relation to prohibition of marijuana drug testing for pre-employment hiring procedures. On February 27, 2019, this Committee held a joint hearing with the Committees on Public Safety, Justice System and Consumer Affairs and Business Licensing, on this bill and several other legislative proposals related to marijuana regulations.

I. BACKGROUND

Medical marijuana in New York has been legal since the State enacted the Compassionate Care Act in 2014. This allows patients who are certified by their practitioners as suffering from certain serious health conditions to obtain marijuana for medical use. There were more than 60,000 patients certified in New York at June 30, 2018.¹

Last year, Governor Andrew Cuomo directed the Department of Health (DOH) to conduct a study to determine the "health, economic, and criminal justice impacts" of regulated recreational marijuana.² The report found that the benefits of a regulated recreational marijuana market outweighed the potential negative aspects, and that a program to legalize marijuana would allow New York to "better control licensing, ensure quality control and consumer protection, and set age and quantity restrictions."³ Governor Cuomo's subsequent call to legalize recreational marijuana was joined by Mayor Bill De Blasio, who released a report advocating for

legalization and robust local authority over cannabis regulation.⁴ Marijuana, both recreational and medical, is also legal in numerous states and cities across the country.

The presence of these markets, and the potential for a future, legal recreational marijuana market in New York, has implications for workplace drug testing. Unlike other types of drugs, which are both comparatively easy to test for and show more conclusive results, drug testing for marijuana ‘impairment’ is complicated and imprecise. Tests that can detect the active ingredient in marijuana, delta-9-tetrahydrocannabinol (THC), do exist, but positive results can occur weeks after use and do not necessarily indicate that a person is impaired at the moment of testing.⁵

The city’s Human Rights Law (NYCHRL) prohibits most employers, labor organizations, and employment agencies from inquiring about or considering the criminal history of job applicants, including prior convictions related to marijuana possession, until after extending conditional offers of employment.⁶ Therefore, prior to a conditional offer of employment, an employer is prohibited from inquiring about a job applicant’s criminal conviction related to marijuana, but can still subject a job applicant to a drug test for marijuana use as a condition of employment. With 34 states having some form of marijuana legalization and the opportunity for New York City residents to freely travel to those states and engage in legal marijuana consumption, those persons should not be penalized for their legal use of a product in another state, especially when such product can remain detectable in bodily fluids for up to 30 days after last use. As such, pre-employment drug testing for marijuana may unjustifiably impact an otherwise qualified job applicant’s prospects.

II. ANALYSIS OF INT. NO. 1445-A

Section one of the bill amends section 8-102 of the Administrative Code of the City of New York, by adding new definitions for the terms “marijuana” and “tetrahydrocannabinols” as having the same meanings as such terms are defined respectively in subdivision 21 of section 3302 and paragraph 21 of subdivision d of section 3306 of the public health law.

Section two of the bill amends section 8-107 of the Administrative Code of the City of New York by adding a new subdivision 31 “Employment; pre-employment drug testing policy.” Subsection a of the new subdivision 31 makes it an unlawful discriminatory practice for an employer, labor organization, employment agency, or agent thereof to require a prospective employee to submit to testing for the presence of marijuana or tetrahydrocannabinols in such prospective employee’s system as a condition of employment.

Paragraph 1 of subsection b of the new subdivision 31 lists persons for whom this subdivision does not apply. The exceptions are provided in subsections A through E, including persons applying to work: as police officers or peace officers (as defined in subdivisions 33 and 34 of section 1.20 of the criminal procedure law, respectively); in a position with a law enforcement or investigative function at the Department of Investigation; in a position requiring compliance with section 3321 of the New York City Building Code or section 220-h of the Labor Law, namely individuals working on construction sites; in a position requiring a commercial driver’s license; in a position requiring the supervision or care of children, medical patients or vulnerable persons as defined in in paragraph 15 of section 488 of the Social Services Law; or in any other position with the potential to significantly impact health or safety as determined by the Department of Citywide Administrative Services for civil service positions, or the Commission on Human Rights for all other positions.

This list of exceptions was clarified or narrowed down from the original bill due to concerns that it cast too wide of a net. Therefore, the exception for operating heavy machinery was replaced with individuals who require OSHA 10 training to work on construction sites pursuant to sections 3321 of the New York City Building Code

⁶ If an employer wishes to withdraw its conditional offer based on an applicant’s criminal conviction history, the employer must give the applicant a copy of its inquiry into and analysis of the applicant’s conviction history and the direct relationship to the prospective job, along with at least three business days to respond.

or 220-h of the Labor Law. Similarly, the exception for those operating a motor vehicle was narrowed down to those required to possess a commercial driver's license, many of whom are already subject to drug testing. The exception for lifeguards and emergency responders was removed. An exception to the law was added to cover positions requiring the supervision or care of vulnerable populations, including children, medical patients, and individuals with cognitive or physical disabilities that require services from facilities or homecare agencies as defined in section 488 of the Social Services Law.

Paragraph 2 of subsection b of the new subdivision 31 lists further exceptions in subsections A through D, stating that this subdivision does not apply to drug testing required pursuant to: any regulation by the federal Department of Transportation that requires testing of a prospective employee (in accordance with 49 CFR 40) or any rule promulgated by the state or city departments of transportation for purposes of enforcing the requirements of that regulation with respect to intrastate commerce; any contract entered into between the federal government and an employer or any grant of financial assistance from the federal government to an employer that requires drug testing of prospective employees as a condition of receiving the contract or grant; any federal or state statute, regulation, or order that requires drug testing of prospective employees for purposes of safety or security; or a collective bargaining agreement between an employer and a labor organization representing employees and prospective employees of such employer.

Subsection c states that the City Commission on Human Rights shall promulgate rules for the implementation of this new subdivision 31.

Section three of the bill states that the local law would take effect 1 year after its enactment.

Report for Int. No. 1199-A

Report of the Committee on Criminal Justice in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to removing fees associated with bail payments.

The Committee on Criminal Justice, to which the annexed proposed amended local law was referred on October 31, 2018 (Minutes, page 4226), respectfully

REPORTS:

I. INTRODUCTION:

On April 9, 2019 the Committee on Criminal Justice, chaired by Council Member Keith Powers, will vote on Proposed Int. No. 1199-A and Proposed Int. No. 944-A. The Committee previously held a hearing on these bills on December 3, 2018 and received testimony from representatives of the Department of Correction (DOC), as well as advocates and other interested members of the public.

II. BACKGROUND

At a December 3, 2018 hearing entitled “Why does the city make it so hard to pay bail?” several advocates discussed the various technical and economic barriers that hinder the ability to pay the bail of those who are incarcerated. Currently, credit-card bail may be paid in-person or online when the amount is \$2,500 or below.¹ While such a reform is a step in the right direction, economic and technical barriers present significant hardship for the families and loved ones attempting to pay bail for incarcerated individuals. Individuals paying credit card bail in person are charged non-refundable fees of over 7%.² Individuals paying credit-card bail online are charged a non-refundable fee of about 2% bail.

Additionally, advocates - including charitable bail funds - have testified that they receive referrals every day by people who are incarcerated solely due to bail in the amount of \$1 that is meant to serve as an administrative hold when a person is otherwise detained due to an unrelated case. When there is a lack of communication regarding bail status between the Department of Correction (DOC), incarcerated individuals, and their attorneys, those incarcerated may unnecessarily be detained without even knowing that they have the ability to pay.

Notably, while the state legislature has made significant changes to the laws governing bail that will go into effect on January 1, 2020,³ none of these changes eliminates the issues addressed by the two bills at issue.

III. PROPOSED INT. NO. 1199-A

This law would remove the all fees on credit card payments of bail posted online and in-person at DOC correctional facilities. The law would be effective 6 months after passage for online payments of bail and 15 months after passage for in-person payments of bail.

IV. AMENDMENTS TO INT. NO. 1199-A

Since introduction, the bill has been amended to remove cashier’s checks as a form of bail payment. Additionally, the effective dates have changed.

V. PROPOSED INT. NO. 944-A

This law would require the Department of Correction to notify incarcerated individuals and their defense attorneys when a person is detained solely on a bail amount of less than ten dollars. Implementation of this law will help prevent incarcerated individuals from being detained for extended periods of time simply because they are unaware of a significant reduction in their own bail. The bill would take effect 45 days after it became law.

VII. AMENDMENTS TO INT. NO 944-A

Introduction 944-A has been amended to include notification of all bail amounts less than \$10, as opposed to only bail in the amount of \$1. Additionally, the bill has been amended to require the DOC to generate two lists each day of those individuals held solely due to bail set in an amount less than \$10, and to notify defense attorneys within ninety minutes and incarcerated individuals within three hours from the time when each list is generated. The effective date has been modified.

REPORTS:

INTRODUCTION

On April 8, 2019, the Committee on Health, chaired by Council Member Mark Levine, will hold a hearing on a package of seven bills related to transparency and effectiveness of water tank inspection and maintenance. This legislation was originally heard at a hearing of this Committee on October 30, 2018, at which the Committee received testimony from the New York City Department of Health and Mental Hygiene (“DOHMH”), advocates, and other interested parties.

BACKGROUND

Buildings in the City of New York have been using water tanks as part of their drinking water supply systems since the 19th century.¹ The City’s water mains provide enough pressure to deliver water to about six stories of a building. Taller buildings use an electric pump to carry water into water tanks on the top of the building, and gravity distributes the water to the floors below.² The large majority of water tanks in the City are constructed from wood due to its insulating properties, easy maintenance and low cost.³ Water for drinking, bathing and other everyday uses is drawn from the middle of the tank, while the water in the bottom is used for firefighting and sprinkler systems.⁴ When not maintained properly, the water tanks have been found to contain viruses, bacteria and parasites, such as E. coli, a bacterium carried in the feces of some animals.⁵

In 2009, the Council passed Local Law 11 (“LL 11”), requiring that building owners have their water tanks inspected annually and submit inspection results to DOHMH when requested.⁶ LL 11 requires building owners to maintain a record of inspections for 5 years, and to post a public notice stating that inspection results are

available upon request.⁷ LL 11 also requires DOHMH to report to the Council on compliance with inspection requirements each year for three years.⁸

In an annual report to the Council in 2013 in accordance with the New York City Administrative Code, DOHMH estimated that 10,000 buildings in the City contain at least one water tank.⁹ DOHMH conducted inspections on a random selection of 110 buildings over seven stories in height (125 tanks) and found that only 33% were able to demonstrate proof of a water tank inspection in the previous year, 22% could show proof that records were maintained for five years, and 15% had posted public notices of the availability of inspection results.¹⁰ In 2014, the New York City Health Code was amended to require building owners to submit annual water tank inspection results to DOHMH by January 15 of each year, rather than by request.¹¹

In 2014, the *New York Times* conducted its own testing of 12 water tanks in Manhattan, Queens and Brooklyn and found *E. coli* in five of the tanks.¹² These results came from the bottoms of the tanks, below the pipe level that feeds into the building.¹³ There is debate about whether these tests prove the water is contaminated or if they are flawed due to how the testing was conducted and lead to faulty conclusions.¹⁴

In December 2017, the Council enacted Local Law 239 (LL 239), which codified in the City's Administrative Code the inspection submission requirements that existed in the Health Code.¹⁵ LL 239 also required DOHMH to post documentation of annual inspections on its website and the City's Open Data portal, to provide guidance on its site to assist users in determining whether a building is required to have a water tank inspection, and to post information on how to submit a complaint about a water tank or water from a water tank to DOHMH.¹⁶ The legislation also reinstated a lapsed requirement of annual reporting by DOHMH to the Council relating to water tank inspections, and introduced a new requirement that such reports include data on the number of inspection results received, including the number of received results that demonstrate compliance with the health-related requirements for water tanks.¹⁷ LL 239 came into effect in April 2018, and the uploading of reports to the City's open data portal is ongoing.¹⁸

The public's attention recently became focused on the City's water tank oversight and maintenance once again after a series of articles were published. One article raised concern that several major water tank cleaning companies state they investigate tanks only after the tanks are scrubbed and bleached, which, arguably, may skew the results of the tests and not accurately determine the quality of the building's typical drinking water.¹⁹ A subsequent article about the water tanks at New York City Housing Authority (NYCHA) buildings spoke of large discrepancies between the inspectors' reports and the reports NYCHA files with DOHMH.²⁰ Several documents showed that inspectors found rodents, debris and other hazardous materials in NYCHA water tanks, yet those details were not shared with DOHMH.²¹ As a result, the Speaker of the City Council, Council Member Corey Johnson, hosted an emergency meeting with NYCHA residents and staff, and City health officials, about the matter.²²

PROPOSED INT. NO. 1053-A:

Proposed Int. 1053-A would require building owners to ensure that water tank inspection companies submit annual inspection reports directly to DOHMH. The version of the bill that was originally heard required inspection companies to submit these reports, and did not specify that the owner was required to ensure the reports are submitted. This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1056-B:

Proposed Int. 1056-B would require DOHMH to conduct periodic audits of buildings' annual water tank inspection documentation, in addition to the periodic inspections of at least 125 water tanks each year. The bill would also require DOHMH to post of the results of such inspections online. Since introduction, the bill was amended to include both the documentation audit and the 125 annual inspections. This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1138-A:

Proposed Int. 1138-A would require DOHMH to conduct additional reviews of documentation of water tank inspections where harmful bacteria are found or certain violations occurred, without providing prior notice to building owners, and to post the results of these reviews online. As originally heard, the bill required DOHMH to conduct additional inspections of water tanks where harmful bacteria are found or where a violation occurred. This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1150-A:

Proposed Int. 1150-A would allow DOHMH to require that water tank inspection results be submitted electronically to the department. As originally heard, Int. No. 1150 also required annual water tank inspections to occur prior to the tanks being cleaned. This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1157-B:

Proposed Int. 1157-B would require that water tank inspectors and those who perform maintenance work on drinking water tanks be either (i) licensed master plumbers pursuant to article 408 of chapter 4 of title 28 of the Administrative Code of the City of New York; or (ii) work under the direct and continuing supervision of such a licensed master plumber; or (iii) be registered design professionals as defined in section 28-101.5 of the Administrative Code of the City of New York.

The legislation would also require that the cleaning, painting, or coating of a water tank be conducted by an individual qualified to conduct water tank inspections, or by a person who holds a commercial pesticide applicator certification in category 7G issued by the New York State Department of Environmental Conservation, or works under the direct supervision of a person holding such certification.

As originally heard, the bill also allowed individuals with a certification from the New York State Department of Environmental Conservation for Category 7G pesticide application, if they have received training in fall protection under requirements set forth by the federal Occupational Safety and Health Administration, to inspect water tanks.

This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1167-A:

Proposed Int. 1167-A would require building owners to repair damage to water tanks or their supporting structures, and imposes civil penalties for failure to do so. As originally heard, this legislation, required damaged tanks to be repaired within 90 days. This legislation would take effect 120 days after it becomes law.

PROPOSED INT. NO. 1169-A:

Proposed Int. 1169-A would require visual evidence of water tanks, such as photographs or videos, to be submitted with inspection results to the Department of Health and Mental Hygiene. This legislation would take effect 120 days after it becomes law.

Report of the Committee on Public Safety

Report for Int. No. 1427

Report of the Committee on Public Safety in favor of approving and adopting, a Local Law to amend the administrative code of the city of New York, in relation to drug testing not permitted by the department of probation.

The Committee on Public Safety, to which the annexed proposed amended local law was referred on February 13, 2019 (Minutes, page 472), respectfully

REPORTS:**I. INTRODUCTION**

On April 8, 2019, the Committee on Public Safety, chaired by Council Member Donovan Richards, will on vote on Introduction Number 1427. The Committee previously heard the bill on February 27, 2019, at a joint hearing of the Committee on Public Safety, the Committee on the Justice System, the Committee on Consumer Affairs and Business Licensing, and the Committee on Civil and Human Rights. Representatives from the New York City Mayor's Office of Criminal Justice ("MOCJ"), the New York City Commission on Human Rights ("CCHR"), District Attorney offices, as well as advocates and other members of the public testified at that hearing. In addition, representatives of the department of probation testified and expressed support for this bill.

II. HISTORY OF DISPARATE IMPACT IN ENFORCEMENT OF MARIJUANA PROHIBITION

The possession and sale of recreational marijuana is currently illegal under New York State Penal Law Article 221. The racially disparate impact of the enforcement of that prohibition has been well documented. In February 2018, the Data Collaborative for Justice ("DCJ" formerly Misdemeanor Justice Project) at John Jay College of Criminal Justice issued a report entitled "Trends in Arrests for Misdemeanor Charges in New York City, 1993-2016," which shows that over the past two decades, consistent racial disparities have remained despite extreme fluctuations in the number of arrests for marijuana misdemeanor charges.¹ In 1993, just 5,221 arrests were made in New York City. That number skyrocketed to 60,190 in 2000, and then dropped to 32,745 in 2004.² Arrests for marijuana charges rose again to 55,623 in 2010 under Police Commissioner Ray Kelly, and dropped to 21,457 in 2016,³ three years after a federal judge determined that the New York Police Department's ("NYPD") ("Department") stop-and-frisk practices were unconstitutional and appointed a federal monitor to oversee changes to those practices.⁴

According to the DCJ, over the same period, arrests for marijuana-related charges in New York City were overwhelmingly of Black and Latino men. In 1993, the arrest rate for marijuana charges for Blacks was 20.9 times higher than the arrest rate for Whites.⁵ That difference peaked at 23.3 times higher in 1994.⁶ In 2016, while the overall arrest rate had begun to decline, the arrest rate for Blacks was still 7.8 times higher than for Whites.⁷ The figures below, provided by the report, illustrate the total number of arrests made, between 1993 and 2016, by sex and race.⁸

These disparities persist: from January to March of 2018, 93 percent of people arrested for marijuana possession were people of color.⁹ Several studies have indicated that despite higher arrest and incarceration rates for Blacks and Latinos, rates of drug use and sales are similar across racial and ethnic identities.¹⁰ Advocates have asserted that the enforcement of marijuana in New York City is a part of “broken windows” policing strategies where officers actively seek marijuana arrests.¹¹

The NYPD has maintained that it enforces marijuana laws in response to 911 and 311 calls and community complaints. However, data provided to the City Council suggested there was no correlation between these calls and the volume of marijuana arrests in the City and the racial disparities of arrestees.¹² In addition, research has shown a lack of a connection between marijuana arrests and a reduction in more serious crime.¹³

In June 2018, the Department announced that it would begin issuing criminal summonses in lieu of arrests for the majority of persons found smoking marijuana in public.¹⁴ The exceptions to the new policy include individuals who had been arrested for a violent crime within three years, individuals on probation or parole, and individuals with open arrest warrants.¹⁵ However, the eligibility criteria and decision to utilize a criminal

summons instead of a civil penalty was met with considerable skepticism from advocates.¹⁶ In addition, two of the City's District Attorney's offices have stopped prosecuting marijuana possession cases in circumstances where the NYPD would continue making arrests. Kings County District Attorney Eric Gonzales stopped prosecuting low-level marijuana cases in 2014 and Manhattan District Attorney Cyrus Vance announced that his office would do the same beginning in May 2018.¹⁷

The harshly disproportionate impact of marijuana enforcement has been notable for decades. Misdemeanor charges for the possession of marijuana could mean the loss of a job, suspension or termination of a professional license, inability to receive federal student loans, eviction from public housing, and child custody and adoption issues.¹⁸ While marijuana use is not the basis for Administration for Children's Services to start a case against a parent,¹⁹ drug testing for marijuana, or subsequent discoveries of it in the home, can limit visitation privileges and delay eventual parent-child reunification.²⁰ Studies find that mandated reporters are more likely to report a Black parent's drug use to protective services, and that once a case is initiated those services are more likely to ultimately remove children from Black families than others.²¹

Misdemeanor convictions for marijuana possession create criminal records that are easily found by credit agencies, financial institutions, schools, landlords, and employers.²² One study found that prospective renters with a criminal conviction lowered the probability of even being able to view, let alone rent an apartment in New York City.²³ Even for cases that end without a conviction, attending multiple court appearances can jeopardize jobs, beds in shelters, and educational opportunities. An arrest itself can also endanger immigration status even if the person is otherwise here legally; even before the current administration's immigration policies, in 2013, marijuana possession was the fourth most cited cause of deportation in the country.²⁴

One possible remedy to this legacy of racial disparity in marijuana enforcement is to expunge criminal convictions from criminal records. As referenced in the Mayor's Task Force report, most states that have legalized cannabis use for adults have allowed resentencing of past convictions, petitions for expungement or sealing, or both.²⁵ However, as the State's recent sealing legislation has shown, requiring individuals to petition to have their records sealed or expunged creates a significant barrier.²⁶ Another option is to expunge or seal these convictions automatically.

III. ANALYSIS OF INT. NO. 1427

Section 1 of the bill would amend title 9 of the administrative code of the City of New York by adding a new section 906, which would prohibit the department of probation from requiring individuals on probation to submit to marijuana testing unless a determination is made that abstinence from marijuana is necessary to lead a law abiding life.

Section 2 of the bill would have it take effect immediately.

Report of the Committee on Rules, Privileges and Elections

At this point, the Speaker (Council Member Johnson) announced that the following items had been **preconsidered** by the Committee on Rules, Privileges and Elections and had been favorably reported for adoption.

Report for Res. No. 841

Report of the Committee on Rules, Privileges and Elections in favor of approving a Resolution to Amend the Rules of the Council, in relation adding Rule 2.45 to the Rules of the Council, modifying Rule 6.00, making certain changes to Chapter VII, Committees, and to Chapter XI, Rules of the Land Use Committee.

The Committee on Rules, Privileges and Elections, to which the annexed preconsidered resolution, was referred on April 9, 2019, respectfully

REPORTS:

Re: Preconsidered Res. No. 841

Resolution to amend the Rules of the Council to Amend the Rules of the Council, in relation adding Rule 2.45 to the Rules of the Council, modifying Rule 6.00, making certain changes to Chapter VII, Committees, and to Chapter XI, Rules of the Land Use Committee.

ANALYSIS: Before the Committee, for its consideration, are proposed changes to the Rules of the Council.

Pursuant to Chapter 2 § 46 of the New York City Charter, the Council sets the rules of its proceedings at the first Stated meeting of the calendar year. These rules may be amended by a resolution introduced and passed by the Council's Committee on Rules, Privileges and Elections ("Rules Committee") followed by a vote of the Council body at the next Stated meeting. The Rules Committee proposes to recommend the following changes at the next Stated meeting:

Chapter II of the Rules of the Council

The Resolution would amend Rule 2.45, which formalizes the Speaker's prerogative to set procurement procedures for the Council. Rule 2.45 would require that the Speaker publish and distribute such procurement procedures and provide notifications of any modifications.

Chapter VI of the Rules of the Council

The Resolution would also modify Rule 6.00, eliminating the outmoded requirement that all papers submitted for presentation be presented in quadruplicate. Such a requirement is redundant in the age of electronic mail, which qualifies as a writing and eliminates the need for additional copies.

Chapter VII of the Rules of the Council

The composition of the Committee on Immigration will be modified. The modified Committee on Immigration will be comprised of the following Council Members: Chair Carlos Menchaca, Council Members Chin, Dromm, Eugene, Gjonaj, Miller and Moya.

Additional Committee membership changes will be made. See Resolution.

Also, Council Member Ben Kallos would replace Council Member Justin Brannon as Chair of the Committee on Contracts.

The Resolution would also create a new Standing Committee, the Committee on Resiliency and Waterfronts. Council Member Justin Brannon would be named Chair of the newly formed committee.

The Committee on Women will be renamed the Committee on Women and Gender Equity.

Chapter XI of the Rules of the Council

The Resolution would amend all subdivisions of the Rules of the Land Use Committee (“Land Use Rules”) to add headings.

The Resolution would also amend Land Use Rule 11.10 as detailed below.

Rule 11.10 subdivision a would be amended to provide that the Land Use Committee shall have a subcommittee on Zoning and Franchises, a subcommittee on Landmarks, Public Sitings and Maritime Uses and such others as determined by the Speaker. This would repeal the requirement that there be a subcommittee on Planning, Dispositions and Concessions.

Rule 11.10 subdivision b would be amended to provide that the chair of a committee or a subcommittee may appoint any member of the Council to act as a temporary chair to conduct a meeting in the chair’s absence. Currently, only a member of the committee or subcommittee may act as temporary chair.

Rule 11.10 subdivision c would relocate language related to when the chair of the Land Use Committee can vote in a subcommittee. The language would be removed from Rule 11.10 subdivision c and Rule 11.50 would be amended to add language related to this topic.

Rule 11.10 subdivision d would be amended to provide that subcommittee meetings must be scheduled in accordance with applicable laws in addition to Council Rules, because particular statutes related to land use matters may have unique notice provisions that go beyond the requirements of all Council Rules.

Rule 11.10 subdivision e would be amended for clarity and conciseness.

The Resolution would amend Rule 11.20 subdivision a to provide that in addition to other enumerated Charter provisions, matters filed with the Council pursuant to Chapter 56 of the Charter (maritime contracts within the jurisdiction of the Department of Small Business Services) and other provisions of State law shall be filed with the Speaker and referred to the applicable subcommittee of the Land Use Committee. The Resolution would repeal a provision of such subdivision that items subject to Council review pursuant to Chapter 29 of the Charter be filed with the Speaker. This reflects the fact that Chapter 29 was repealed in 1991.

The Resolution would amend Rule 11.20 subdivision b to provide that items subject to call-up, pursuant to section 197-d(b)(3) of the Charter or section 20-225 or 20-226 of the Administrative Code, would be subject to the provisions of amended subdivisions c and d.

Rule 11.20 subdivision c would specify that a call-up resolution providing for Council review of a matter pursuant to section 197-d(b)(3) of the Charter or section 20-225 or 20-226 of the Administrative Code may be introduced by the Speaker, seven council members, or the chair of the Land Use Committee. Currently, all call-up resolutions, excluding call-up resolutions sponsored by the Chair of the Land Use Committee, require sponsorship by seven Council members. By allowing the Speaker to introduce such call-up resolutions, the amendment would provide another means to assert jurisdiction over significant discretionary items that are not related to mandatory items.

Rule 11.20 subdivision c would also stipulate that a call-up resolution may be introduced from the date the City Planning Commission or the Department of Consumer Affairs votes to approve the matter or approve the matter with modifications to a date 20 days following the filing of such matter with the Council. Currently, the Council takes no action on such matters until they are filed with the Speaker. This amendment is intended to provide the Council additional time to adopt a call-up resolution before its 20-day deadline expires.

The Resolution would further amend and renumber Rule 11.20 subdivisions c and d to consolidate the rules for matters subject to call-up by the chair of the Land Use Committee.

Rule 11.20 subdivision e would be amended to reflect the statutory requirement of subdivisions f and g of section 197-d of the Charter that a resolution to override a mayoral veto must be adopted by a two-thirds vote of the Council within 10 days of the filing of such veto with the Council, not merely by the next stated meeting.

Rule 11.20 subdivision f would be repealed as redundant because amended subdivision a would include information about how to process matters filed pursuant to Article 16 of the General Municipal Law. The deadline for action established by subdivision f is unaffected to the extent such deadline is contained in State law.

The Resolution would amend Rule 11.30 subdivision a by repealing provisions that would bar a hearing or vote on a matter that is not on the calendar unless two-thirds of the members of the committee or subcommittee vote to hold such hearing or vote. The amendment would provide that failure to include a matter on the calendar is not a bar to holding a hearing on or vote with respect to such matter provided the notice requirements of applicable law and the Council Rules are satisfied. Other provisions of subdivision a would be amended for clarity and conciseness.

Rule 11.30 subdivision b would be renumbered as new subdivision c and will reflect that other provisions of applicable law and the notice requirements of other chapters of these rules will be supplemented by the requirements of this subdivision b.

The Resolution would amend Rule 11.40 subdivision b to provide that each person who submits an appearance form at a public hearing on an item referred to the Land Use Committee or its subcommittees shall be given an opportunity to speak. This amendment would clarify that the committee and its subcommittees are not obliged to take oral testimony on a matter except at a public hearing on such matter. Subdivision b would also be amended to provide that a Council Member presiding at a public hearing of the Land Use Committee or subcommittee may establish a time limit for all members of the public speaking at such hearing. This amendment would conform such subdivision with amended subdivision b of Rule 11.10, which provides that any member of the Council may serve as acting chair of the Land Use Committee or its subcommittees.

The Resolution would amend Rule 11.40 subdivision c to provide that materials filed with the Council in connection with any matter filed pursuant to Rule 11.20, as amended, in addition to all other materials in the record of such matter, shall be made available to Council Members on an ongoing basis. Currently, copies of such items must be "given" to Council Members. This amendment would codify the practice of making such materials available electronically.

The Resolution would amend Rule 11.50 subdivision a to clarify that a majority vote of the Land Use Committee or its subcommittees consists of a majority of all the members present, exclusive of ex-officio members. Currently a majority is defined as a majority of all committee members, including "absences and vacancies" and exclusive of ex-officio members. The meaning remains the same, as this is a clarification. The Resolution would also relocate a provision that the chair of the Land Use Committee may vote on matters before a subcommittee only if the chair's vote is required to break a tie.

The Resolution would amend section 11.60 by renumbering its subdivisions to include subdivisions a through e.

The Resolution would amend subdivision a of section 11.60 to make all matters referred to the Land Use Committee and its subcommittees subject to the automatic discharge provisions of such subdivision. Currently office leases submitted pursuant to Section 195 of the City Charter and discretionary call-ups subject to counsel review pursuant to section 197-d(b)(3) of the City Charter are not subject to automatic discharge and are only subject to discretionary discharge. The effect is that the full Council will have the opportunity to act on a matter before it expires.

The Resolution would amend Rule 11.60 subdivision b to provide that a matter filed with the Council shall be deemed withdrawn if the applicant files or causes the filing of a written statement that the application is withdrawn, and such statement is filed with the chair of the subcommittee or committee to which the matter was referred, the staff of the Land Use Committee, the Speaker, or the Council Member representing the affected district. Such subdivision b would provide that such statement may be submitted by e-mail. Upon the filing of such a statement, the application in question would be void, the committee and its subcommittees would be discharged from further consideration of the matter and no further processing of such application would be undertaken by the Council. Subdivision b would also provide that The Council may vote to file a matter discharged pursuant to such subdivision at any subsequent Stated meeting. Currently, when the Land Use division receives notification that an applicant is withdrawing an application, the committee and its subcommittees take no further action on the matter. However, there is nothing in the Council Rules or the Charter that provides for how such matters should be handled administratively. This amendment mirrors the rules of the City Planning Commission with respect to withdrawn applications, making clear such applications are void.

The Resolution would add a new subdivision c to Rule 11.60 that would provide that upon discharge of a matter from the Land Use Committee pursuant to such section, the record of the public hearing on such matter shall be deemed closed. Currently, Rule 11.60 provides that the Council may close the hearing of such a matter. This amendment would make the closing of the public hearing automatic.

The Resolution would repeal section 11.70 “Modifications of City Planning Commission Actions” in its entirety. This section purports to require the City Planning Commission to fully set forth reasons for finding that a modification proposed by the Council is not in scope. Because the City Planning Commission is not bound by these rules, these provisions have no effect. The remaining substance of the section is set forth in the Charter.

The Resolution would renumber Rule 11.80 as Rule 11.70 and amend such section to repeal a reference to repealed chapter 29 of the Charter and to add chapter 56 and all matters referred to the Land Use Committee and its subcommittees, pursuant to Rule 11.20, as matters subject to action by resolution. This amendment clarifies that matters subject to review of the Land Use Committee pursuant to State law are also subject to action by resolution.

The Resolution would renumber Rule 11.90 as Rule 11.80 and amend such section to provide that when the time period for Council action set forth in any applicable provision of law ends on a Saturday, Sunday or public holiday, the expiration date shall be extended until the next business day in accordance with the provisions of section 20 of the New York State General Construction Law. The purpose of this amendment is to clarify that the method for calculating Council deadlines follows state law.

The Resolution would renumber Rule 11.100 as Rule 11.90.

Accordingly, this Committee recommends its adoption.

Such resolution may be introduced from the date the city planning

Such resolution shall not be subject to debate at a Council meeting. For the purposes of this subdivision, an affected Council district is a district that contains real property that is the subject of the matter to be reviewed. The chair shall introduce all such resolutions promptly upon the filing of such matters with the Council. For purposes of this subdivision, two or more matters shall be deemed to be filed “at approximately the same time” if they are filed with the Council prior to the date on which the Council votes, pursuant to section 197-d(c), on the first of the matters filed. A matter that is the subject of a resolution introduced pursuant to this section shall be referred to the Land Use Committee and its subcommittees together with all related matters as a single package of related matters.

[f. All matters subject to review by the Council pursuant to Article 16 of the General Municipal Law shall be filed with the office of the Speaker. Upon filing, the Speaker shall refer each such matter to the subcommittee that has jurisdiction over such matter in accordance with the list provided for in section 11.10(a). All such referrals shall be made in a timely manner in order to permit the Council to act within any time limits prescribed by law. 11.30. Calendar and Public Notice - a. Calendar distribution - The chairs of the Land Use Committee and the subcommittees shall cause to be prepared a regular calendar of the meetings of the Land Use Committee and each of its subcommittees. The calendar shall be posted on the Council’s website, electronically delivered to each Council Member, borough president and community board, [shall be] and made available to the public free of charge at City Hall[, and shall be electronically delivered to each borough president and each community board]. Each calendar shall [include all matters referred to the committee and subcommittees and shall] indicate the meetings of the committee and the subcommittees at which each matter is scheduled for public hearing or consideration. The failure to include a matter in the calendar shall not bar the committee and its subcommittees from holding a public hearing on or voting with respect to the matter, [unless the matter is added to the agenda as far in advance of the meeting at which the vote is to occur as is practicable and not less than two thirds of the members of the committee vote to add the matter to the agenda] provided the notice requirements of these rules and applicable law have been satisfied. [The failure to include a matter in the calendar shall bar the committee and its subcommittees from holding a public hearing on the matter unless (i) the matter is added to the agenda as far in advance of the hearing as is practicable, (ii) any notice requirements in the City Charter are satisfied, and (iii) not less than two thirds of the members of the committee or subcommittee vote to add the matter to the agenda.]

b. Additional meetings - The chair of the Land Use Committee may call meetings of the Land Use Committee in addition to those meetings on the calendar, and the chair of a subcommittee may call meetings of the subcommittee in addition to those meetings on the calendar, pursuant to the notice and other requirements of this section and the other applicable provisions of these rules.

[b]c. Res. No. 826

Resolution calling on the Mayor of New York City to permanently staff all Fire Department of New York (FDNY) engine companies with five firefighters and an officer at the outset of each tour.

By Council Members Brannan, Borelli and Holden.

Whereas, The Uniformed Firefighters Association of Greater New York (UFA) represents over 8,000 FDNY firefighters and personnel; and

Whereas, In labor negotiations between the UFA and the City of New York, whether a FDNY engine company should be staffed with five firefighters and an officer (known as having a “fifth firefighter”) or four firefighters and an officer at the outset of each tour has remained a key bargaining point; and

Whereas, Prior to 1988, FDNY engine companies were staffed with five firefighters, and one officer, which was a higher-ranking FDNY member, such as a Lieutenant, that would supervise over the company; and

Whereas, However, beginning in 1988, the FDNY began to reduce engine company staffing from five firefighters and an officer to four firefighters and an officer, so that, in 2011, no engine company in the city operated with a fifth firefighter; and

Whereas, Notably, the most recently available, although expired, collective bargaining agreement between the UFA and the City looked to change this staffing reduction, allowing the FDNY to designate five engine companies with a fifth firefighter at the outset of each tour, effective February 1, 2016, with an additional five engine companies to be staffed with a fifth firefighter effective February 1, 2017; February 1, 2018; and February 1, 2019; and

Whereas, As per this agreement, a total of 20 engine companies throughout the City are staffed with a fifth firefighter, however, this agreement stipulates that the FDNY, on the first day of each month, can review these engine companies’ firefighter availability for the preceding 365 days and in the event that firefighter average medical leave, including both line-of-duty and non-line-of-duty, exceeds the “designated absence rate” of 7.50%, the FDNY will discontinue that engine company’s staffing of a fifth firefighter for the remainder of that month; and

Whereas, The FDNY defines the role of the fifth firefighter as the “Door” position, meaning that they facilitate the advancement of the hose-line into the fire area and prevent it from getting stuck if turns need to be made; and

Whereas, The UFA, in their support for a fifth firefighter on engine companies, has pointed to a FDNY study done in 1987, where a former division commander for midtown Manhattan concluded that an engine company with only four firefighters is ineffective in service delivery and has a 75 percent increase in hose-stretch time; and

Whereas, Although dated, the UFA still looks to these findings as reliable and, potentially, more true now, as the weight that firefighters now carry has drastically increased since 1987; and

Whereas, Additionally, a National Institute of Standards and Technology 2013 study analyzed 14 high-risk tasks undertaken by firefighters, finding that three-member firefighter crews took almost 21 minutes longer than five-member crews to complete all tasks, while four-member crews took nine minutes longer than five-member crews to complete those same tasks; and

Whereas, Furthermore, the Daily News reported that the FDNY’s own studies show that engine companies equipped with a fifth firefighter can get water on a fire twice as quickly; and

Whereas, Having a fifth firefighter staffed on an engine company drastically improves the effectiveness of that engine company, thus the permanent staffing of a fifth firefighter on all engine companies throughout the City would decrease the time it takes to put out fires, decrease deaths and injuries due to fires, and reduce overall costs of medical leave and fire damage; now, therefore, be it

Resolved, That the Council of the City of New York calls on the Mayor of New York City to permanently staff all Fire Department of New York (FDNY) engine companies with five firefighters and an officer at the outset of each tour.

Referred to the Committee on Fire and Emergency Management.

Res. No. 827

Resolution calling upon the New York State Department of Education to provide one full-time school psychologist for every 500-700 students.

By Council Member Holden.

Whereas, With over 1.1 million students taught in more than 1,800 separate schools, New York City (NYC) is home to the largest public school district in the United States (U.S.); and

Whereas, According to the World Health Organization, half of all mental illnesses begin by the age of 14, and up to 20 percent of children and adolescents experience mental disorders; and

Whereas, The NYC Department of Education (DOE) reports that of its student population, 19.7 percent are students with disabilities; and

Whereas, Studies have shown that neuropsychiatric conditions are the leading cause of disability in young people and, if untreated, they can negatively impact children's development, their educational attainments and their potential to live fulfilling and productive lives; and

Whereas, Children with mental disorders face major challenges with stigma and discrimination, which increase social isolation and unmet needs for health care; and

Whereas, An analysis of New York State Department of Health (DOH) data by the New York State School Boards Association shows that opioid-related health facility visits by school age children have increased by more than 100 percent in the state since 2010; and

Whereas, DOH data show that an average of 79 children and adolescents, aged 10 to 19, died by suicide in the state from 2012 to 2014; and

Whereas, Childhood mental disorders, especially when diagnosed early on, can be treated and managed when everyone involved in the child's treatment, including parents, teachers, coaches, therapists and other family members, work closely together to guide the child toward success, as advised by the Centers for Disease Control and Prevention; and

Whereas, A study published in February 2019 by the Research Alliance for New York City Schools at New York University found that over 12 percent of students—or, one in eight—who began kindergarten in fall 2012 experienced homelessness before fifth grade; and

Whereas, The study also found that homelessness can severely impact a student's educational experience; homeless students change schools more frequently than permanently housed students and struggle with attendance, and homelessness often takes an emotional toll on children, affecting their classroom behavior and academic performance; and

Whereas, School psychologists, per the National Association of School Psychologists (NASP), apply expertise in mental health, learning and behavior, and partner with families, teachers, school administrators and other professionals to create safe, healthy and supportive learning environments to help children and youth succeed academically, socially, behaviorally and emotionally; and

Whereas, School psychologists are typically responsible for conducting student evaluations for Individualized Education Programs (IEPs), which documents a student's eligibility for special education services and formalizes the plan to provide special education programs and services that are appropriate for the student's unique needs; and

Whereas, For Fiscal Year 2019, the DOE reported that there were 531 school psychologists, 26 bilingual school psychologists and three school psychologists on sabbatical, for a total of 560 school psychologist, some of whom serve multiple schools; and

Whereas, According to DOE data for the 2017-18 school year, 40,000 special education students—or 22 percent of all students classified as having disabilities—receive only part of the interventions they were entitled to or did not receive any extra support; and

Whereas, DOE school support staff generally feel overburdened and lament the fact that they do not have enough one-on-one time with students, and there is even a growing backlog of students who are overdue for an evaluation in whether their special education plans are meeting their needs; and

Whereas, The NASP Model for Comprehensive and Integrated School Psychological Services recommends a ratio students to school psychologists of 500-700:1; and

Whereas, School psychologists are vital members of school teams that help students navigate everything from class schedules to family crises; now, therefore be it

Resolved, That the Council of the City of New York calls upon the New York State Department of Education to provide one full-time school psychologist for every 500-700 students.

A Local Law to amend the New York city building code, in relation to requiring that vents in elevator hoistway enclosures be closed to prevent air leakage

Be it enacted by the Council as follows:

Section 1. Article 315 of title 28 of the administrative code of the city of New York is amended by adding a new section 28-315.9 to read as follows:

§28-315.9 Hoistway vents in existing buildings. *Existing buildings shall comply with the retroactive requirements of section 3004.5.1 of the New York city building code by December 31, 2019.*

§ 2. Section 3004.5.1 of the New York City building code, as amended by local law 141 for the year 2013, is amended to read as follows:

3004.5.1 Vents in the hoistway enclosures. Hoistway enclosures may be vented in accordance with the following:

Location of vents.

1.1. The vents in the side of the hoistway enclosure below the elevator machine room floor or in the roof of the hoistway shall open either directly to the outer air or through noncombustible ducts to the outer air.

1.2. The vents in the wall or roof of an overhead elevator machine room through the smoke hole in the top of the elevator hoistway shall be vented to the outer air through noncombustible ducts.

Area of vents. The area of vents in the hoistway or the elevator machine room and the smoke hole shall be not less than 3½ percent of the area of the hoistway nor less than 3 square feet (0.28 m²) for each elevator car, whichever is greater. Such vents shall comply with the following requirements:

2.1. [Open vents. Of the total required vent area, not less than one-third shall be permanently open or equipped with an openable hinged damper. The smoke hole shall be permanently open.] **Automated vents.** *The total required vent area shall be closed and all of the vent openings shall automatically open:*

2.1.1. Upon detection of smoke in the elevator lobbies or hoistway;

2.1.2. Upon power failure (except when provided with a code compliant standby power supply from an approved standby power source); or

2.1.3. Upon activation of a manual override control, which shall be located in an approved location.

2.2. [Closed vents. The two-thirds closed portion of the required vent area either in the hoistway enclosure or in the elevator machine room may consist of windows or skylights glazed with annealed glass not more than 1/8-inch (3.2 mm) thick. A closed damper that opens upon the activation of a smoke detector placed at the top of the hoistway shall be considered closed.] **Vents in existing buildings.** *In existing buildings, of the total required vent area:*

2.2.1. One-third and the smoke hole shall be permanently open; and

2.2.2. *Two-thirds shall be closed and may consist of windows or skylights glazed with annealed glass not more than 1/8-inch (3.2 mm) thick. A closed damper that opens upon the activation of a smoke detector placed at the top of the hoistway shall be considered closed.*

[Exception: The total required open vent area shall not be required to be permanently open where all of the vent openings automatically open upon detection of smoke in the elevator lobbies or hoistway, upon power failure (except when provided with a code compliant standby power supply from an approved standby power source) or upon activation of a manual override control. The manual override control shall be capable of opening and closing the vents and shall be located in an approved location.]

Res. No. 828

Resolution calling on the State Legislature to pass, and the Governor to sign, the “Protect Our Courts Act” (A.2176 / S.425), in order to protect certain interested parties or people from civil arrest while going to, remaining at, or returning from the place of such court proceeding.

By Council Members Menchaca and Lancman.

Whereas, Under the Trump administration, U.S. Immigration and Customs Enforcement (ICE) arrests of immigrants have increased overall, and targeting tactics that were rare under the Obama administration have become commonplace; and

Whereas, The Immigrant Defense Project (IDP) reports that since 2016, ICE operations in and around New York courthouses rose 1700%; and

Whereas, IDP reports that New York City accounts for 75% of ICE courthouse interactions between 2016 and 2018, with Queens and Brooklyn reporting the largest numbers of courthouse arrests and sightings; and

Whereas, In April 2017, the New York State Office of Court Administration (OCA) issued an updated protocol related to law enforcement agency activities in courthouses; and

Whereas, OCA’s policy requires law enforcement officials to: identify themselves, inform the judge if a participant in a case before them is a target, and clarifies that OCA personnel remain responsible for “ensuring public safety and decorum in the courthouse at all times;” and

Whereas, In January 2018, ICE released its first policy on enforcement actions in courthouses; and

Whereas, After this release, IDP reports that ICE agents expanded the reach of courthouse arrests, continuing to target friends and family members accompanying individuals to court; and

Whereas, In 2019, the media publication ‘Documented’ obtained documents through Freedom of Information Law request detailing six instances between February 2017 and August 2018 in which OCA officers or clerks assisted ICE agents in making arrests; and

Whereas, When ICE arrests a defendant during an unrelated court proceeding, ICE is under no obligation to produce them for such court appearance; and

Whereas, The fear of deportation acts as a deterrent for victims of crime, witnesses to crime, and defendants, to engage in the criminal court system; and

Whereas, In January 2019, New York State Senator Hoylman and New York State Assembly Member Solages introduced the “Protect our Courts Act” (A.2176/S.425), which would exempt individuals from civil arrest while “going to, remaining at, or returning from the place of such court proceeding;” and

Whereas, Absent a signed judicial warrant or judicial order authorizing a civil arrest, A.2176/S.425 would prohibit the civil arrest of any person attending a court proceeding “duly and in good faith;” and

Whereas, The legislation would designate the willful violation of the exemption as contempt of the court and false imprisonment, and would grant individuals the ability to bring a civil action for appropriate equitable and declaratory relief in instances of violation of the exemption; and

Whereas, The unchecked interference of federal law enforcement, specifically ICE, in the state court system endangers New Yorkers’ access to due process and public safety, generally, by making witnesses to crime and victims of crime less likely to engage in the court system; and

Whereas, Federal interference additionally removes criminal defendants from our jurisdiction, making it impossible to seek justice in their ongoing, non-immigration related cases; now, therefore, be it

Resolved, That the Council of the City of New York calls on the State Legislature to pass, and the Governor to sign, the “Protect Our Courts Act” (A.2176 / S.425), in order to protect certain interested parties or people from civil arrest while going to, remaining at, or returning from the place of such court proceeding.

Res. No. 829

Resolution calling upon the New York State Legislature to pass, and the Governor to sign, S.1343B/A.5493, which would reform revocation presumptive release, parole, conditional release, and post-release supervision.

By Council Members Powers, Ampry-Samuel, Rivera, Rosenthal Lander, Ayala and Levin.

Whereas, In 2017, about sixteen percent of New York City’s jail population were parole violators, according to the Mayor’s Office of Criminal Justice; and

Whereas, In 2016, about sixty-five percent of parole violators in New York State were incarcerated for technical violations, meaning the person broke conditions of their release, such as missing curfew or a parole appointment, or testing positive for marijuana; and

Whereas, In New York City, the number of people detained on technical parole violations has grown significantly since 2014, accounting for forty-eight percent of the incarcerated parole population in 2017, according to Columbia Justice Lab report; and

Whereas, Of people on parole whom New York officials sent back to prison in 2016, over 6,300, or 65%, were re-incarcerated for technical parole violations, as opposed to new crimes; and

Whereas, According to Criminal Justice Lab, black people are detained in New York City’s jails for technical parole violations at more than 12 times the rate of white people, making parole reform a racial justice issue; and

Whereas, In a recent *New York Daily News* opinion piece, New York and Kings County District Attorneys acknowledged that parole is a significant contributor to mass incarceration and must be reformed to be less punitive and more rehabilitative; and

Whereas, Governor Cuomo has stated, “New York jails and prisons should not be filled with people who may have violated the conditions of their parole, but present no danger to our communities;” and

Whereas, This has occurred while the number of people released from state prison into city homeless shelters nearly doubled from 2014 to 2018; and

Whereas, the increasing number of persons detained for state parole violations in New York City’s jails not only overuses incarceration for crimeless, technical violations but is also slowing the closure of the city’s jails on Rikers Island and increasing the estimated size of replacement, borough-based facilities; and

Whereas, S.1343B, introduced by State Senator Brian Benjamin, and companion bill A.5493, introduced by State Assembly member Walter Mosely, would reform parole: conditional release, revocation presumptive release, and post-release supervision to reduce the number of people held in jails and prisons in New York State; and

Whereas, S.1343B/A5493 grant “earned time credits” to parolees to encourage positive behavior and accelerate discharge from supervision and ensures parolees who are alleged to have violated the terms of their release receive a hearing in a local criminal court to ascertain whether they should be detained in jail pending adjudication of the alleged violation; and

Whereas, S.1343B/A5493 also shortens the timeframe for adjudicatory hearings and limits technical violation terms and jail time for such terms to ensure people on parole are not needlessly re-incarcerated; and

Whereas, Other states, such as Arizona, South Carolina, Utah, Arkansas, Georgia, Idaho, Louisiana, and Mississippi, have implemented similar reforms proposed in S.1343B/A5493 and, as a result, have experienced a decline in recidivism and compliance revocations; and

Whereas, New York County, Bronx County, and King County District Attorneys have expressed their support for S.1343B/A.5493, asserting that it would increase public safety and reduce unnecessary incarceration; and

Whereas, Without parole reform, the growing number of technical parole violators in New York City’s jails could potentially hamstring the city’s efforts to reduce the city jail population and close Rikers Island; and, now, therefore be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to pass, and Governor to sign, S.1343B/A5493, which would reform revocation presumptive release, parole, conditional release, and post-release supervision
