BOARD OF ESTIMATE AND APPORTIONMENT.

EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MEETING HELD IN ROOM 16, CITY HALL, FRIDAY, SEPTEMBER 29, 1905.

The Secretary presented the following:

CITY OF NEW YORK—OFFICE OF THE MAYOR, }
September 18, 1905.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

SIR—The Mayor has this day approved the resolution adopted by the Board of Estimate and Apportionment on September 15, 1905, fixing a date for a public hearing on the application of the Commonwealth Telephone Company, and has designated the New York "Sun" and the New York "Daily News" as the daily newspapers in which notice of such hearing shall be published.

The resolution duly approved is herewith returned.

Respectfully,

JOHN H. O'BRIEN, Secretary

Which was ordered printed in the minutes and filed.

MERCHANTS' REFRIGERATING COMPANY.

The public hearing in the matter of the application of the Merchants' Refrigerating Company for a franchise to construct, maintain and operate a pipe line for the purpose of conveying brine for refrigerating purposes from the premises of petitioner, No. 291 Greenwich street, Borough of Manhattan, to No. 104 Warren street and No. 271 Washington street, same borough, was opened.

Hon. Charles P. Dillon appeared in favor of the proposed grant.

At the conclusion of the hearing, the following was offered:

Resolved, That the Board proceed to make inquiry as to the money value of the franchise or rights proposed to be granted to the Merchants' Refrigerating Company, and the adequacy of the compensation proposed to be paid therefor; and also as to the terms and conditions, including the provisions as to rates and charges that should be embodied in the form of contract to be entered into, and for the purpose of making such inquiry, be it further

Resolved, That the application be referred to the Comptroller for investigation and report; and be it further

Resolved, That the application be likewise also referred to the President of the Borough of Manhattan for investigation and report.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Queens—12.

KINGS COUNTY REFRIGERATING COMPANY.

The public hearing in the matter of the application of the Kings County Refrigerating Company, for a franchise to lay pipes under and across certain streets and avenues in the Borough of Brooklyn, for the purpose of supplying cold air to the Wallabout Market, was opened.

The following appeared in favor of the proposed grant:

James J. Phelan, Secretary of the Kings County Refrigerating Company.

A representative of the Merchants' Association of Wallabout Market, who presented a petition signed by citizens and residents of the Borough of Brooklyn doing business in Wallabout Market.

At the conclusion of the hearing, the following was offered:

Resolved, That the Board proceed to make inquiry as to the money value of the franchise or rights proposed to be granted to the Kings County Refrigerating Company and the adequacy of the compensation proposed to be paid therefor, and also as to the terms and conditions, including the provisions as to rates and charges, that should be embodied in the form of contract to be entered into; and for the purpose of making such inquiry be it further

Resolved, That the application be referred to the Comptroller for investigation and report; and be it further

Resolved, That the application be likewise also referred to the President of the Borough of Brooklyn for investigation and report.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan and Queens—12.

UNION RAILWAY COMPANY.

The report from the Bureau of Franchises on the application of the Union Railway Company of New York City for the right to make twenty-two (22) extensions to its existing railway in the boroughs of Manhattan and The Bronx, which was laid over to this date at meeting of September 15, was taken up for consideration.

Mr. Chase Mellen, of counsel for the company, appeared and requested the matter be adjourned for two weeks to allow him an opportunity to file a brief in reply. The Comptroller requested unanimous consent to postpone the matter for two weeks in accordance with request of counsel, it being understood that briefs must be submitted on or before October 13. There being no objections, the Chair declared the request granted.

The Secretary presented the following:

JOHN WANAMAKER,
BROADWAY, FOURTH AVENUE, EIGHTH, NINTH AND TENTH STREETS, }
NEW YORK, September 20, 1905.

Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

SIR—I would request that the Board of Estimate and Apportionment grant and adopt the proper resolution giving permission to the firm of John Wanamaker the privilege to construct and maintain a tunnel under and across East Ninth street, in the Borough of Manhattan, between Broadway and Fourth avenue, to connect the property controlled by said firm of John Wanamaker on either side of the said street, location of said tunnel to be as shown on the accompanying diagram, being 30 feet in width interior dimensions, with 4-foot 6-inch walls on either side, making a total exterior width of 39 feet, the westerly side of the westerly wall of said tunnel being distant 66 feet 3 inches from the easterly side of house line of Broadway, measured on the southerly side of said East Ninth street. The compensation for the privilege to be such amount as may be determined as an equivalent thereof by the Board of Estimate and Apportionment.

I would state that the tunnel requested is to take the place of the tunnel constructed and maintained under resolution adopted by the Board of Aldermen January 22, 1901, the compensation, \$1,000, being fixed by the Commissioners of the Sinking Fund at meeting of April 10, 1901.

I would, therefore, request that the privilege granted under the resolution adopted by the Board of Aldermen January 22, 1901, be canceled, and that a new privilege and new compensation be granted and fixed for the tunnel now applied for.

Respectfully,

JOHN WANAMAKER.

The Secretary stated that he had sent letters of inquiry to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, requesting that they advise him of any objections which they might have to the proposed consent or any special conditions which should be imposed in the usual form of resolution, and that to date no reply had been received.

Upon motion of the Comptroller the matter was laid over until the next meeting.

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

In the matter of the application of the New York City Interborough Railway Company for the right to change certain of the routes in the Borough of The Bronx from those heretofore granted to the said company by ordinance approved March 31, 1903, and which was referred to the Comptroller and the President of the Borough of The Bronx for separate investigation and report by resolution adopted at meeting of September 15.

The Secretary presented the following:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
COMPTROLLER'S OFFICE,
September 27, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The New York City Interborough Railway Company (hereinafter referred to as the "Interborough Company") has presented a verified petition, dated June 26, 1905, to the Board of Estimate and Apportionment of The City of New York, praying that the Board grant the company the right to change certain of the routes heretofore granted to it by ordinance approved by the Mayor March 31, 1903.

The changes asked for are five (5) in number and are more particularly described in the petition. The petition was received by the Board of Estimate and Apportionment on June 30, 1905, and was printed in full in the minutes of that date.

In pursuance of law, the Board fixed a day for public hearing, to wit, September 15, 1905, and public notices of such hearing were published in the New York "Sun" and daily "News," newspapers designated by the Mayor, and also in the CITY RECORD; and affidavits of publication are now on file in this office.

At the hearing the company was represented by counsel, who stated that the changes in route were brought about for the most part for the purpose of straightening the present routes and complying with the requests of property-owners, and making connections for the purpose of facilitating the operation of the route. There was opposition from an attorney representing certain property-owners along the line of Alteration 3.

The changes of route were adopted by the company at a meeting of the board of directors on April 10, 1905, and the certificate of such alterations and changes was filed in the Clerk's office in the City and County of New York on April 25, 1905, together with maps showing such changes in detail. From the application, however, it would appear that a subsequent change had been made in Route 4, and before any alteration can be granted by the Board, it would seem necessary that the company shall formally change its route by resolution of its board of directors, and file the same in the County Clerk's office.

The reason for and the advisability of permitting the company to make the alterations proposed will be discussed in detail under each route separately.

ALTERATION 1.

Route Granted.

From the intersection of Sedgwick avenue and Perot street, west on Perot street to Boston avenue, and thence northerly on Boston avenue to its intersection with Heath avenue.

Length of route, 1,150 feet.

Route Proposed.

From the intersection of Sedgwick avenue and Reservoir avenue, north on Sedgwick avenue to the intersection of Boston avenue and Sedgwick avenue.

Length of route, 800 feet.

The reason for the change, as furnished by the engineer of construction of the railroad, is that "it makes the route more direct, and by avoiding sharp curves at intersection of Perot street with Sedgwick avenue and at intersection of Perot street with Boston avenue, would decrease the schedule time of operation." In addition to the above reason, I would state that the grade on Perot street is about 13 per cent., and with such a sharp turn at the foot of the grade, the alternate line as proposed would appear to be desirous. I see no reason to object to the change as proposed.

ALTERATION 2.

Route Granted.

From the intersection of Kingsbridge road and Heath avenue, northerly on Heath avenue to its intersection with Two Hundred and Thirtieth street, and thence westerly on Two Hundred and Thirtieth street to Bailey avenue.

Length of route, 1,400 feet.

Route Proposed.

Commencing at the intersection of Kingsbridge road and Heath avenue; thence westerly along the Kingsbridge road, crossing the tracks of the New York and Northern Railroad Company, the New York Central and Hudson River Railroad Company and the Spuyten Duyvil creek to Muscoota street, in the Borough of The Bronx, and thence westerly on and along Muscoota street to Broadway.

Length of route, 1,500 feet.

This proposed alteration is due entirely to the abandonment by the Rapid Transit Commission of the proposed station of the Rapid Transit Railway at Bailey avenue and Two Hundred and Thirtieth street. When the application of the "Interborough Company" was received, the plans of the Rapid Transit Commission were for a station at or near the Kingsbridge station of the New York Central and Hudson River Railroad and the New York and Northern Railroad. Since this time the City has entered into an agreement with the New York Central and Hudson River Railroad Company to change its line from its present location between Kingsbridge and Spuyten Duyvil, and where the road now runs to the north of Spuyten Duyvil creek it will be altered so as to follow the northerly side of the Harlem river ship canal. In consequence, the Rapid Transit Commission has tentatively fixed a station on Broadway on the northerly side of the ship canal, and I am informed that it is the intention of the New York Central and Hudson River Railroad Company to have a station at the same point, where a transfer of passengers may be accomplished from one road to the other. It therefore becomes desirable that the terminus of the Interborough line should be at or near the rapid transit station.

The recent application of the Union Railway Company of New York City for certain extensions, covered this same route, and in my report of September 11 in relation to this proposed extension, I stated that as the Kingsbridge road and Muscoota street were not improved as yet, and the bridge over the creek was in no way suitable for a street surface railway, I considered that the application should be denied pending the completion of these improvements and a full knowledge of the intentions of the New York Central Railroad Company at this point.

The alteration should be denied at the present time.

ALTERATION 3.

Route Granted.

From the intersection of Tremont avenue and Ryer avenue, north on Ryer avenue to One Hundred and Eightieth street; thence east on One Hundred and Eightieth street to Valentine avenue.

Length of route, 1,975 feet.

Route Proposed.

From the intersection of Tremont avenue and Ryer avenue, easterly on Tremont avenue to Valentine avenue and thence northerly on Burnside avenue and Valentine avenue to One Hundred and Eightieth street.

Length of route, 1,600 feet.

An alteration in the route granted is necessary for the reason that the Board of Estimate and Apportionment on July 8, 1903, changed the map and plan of The City of New York by closing Ryer avenue, between Tremont avenue and One Hundred

and Eightieth street, and adding the area to Echo Park. This would cut the route as granted to the company in two parts.

The proposed route is better adapted for a double-track street surface railroad, for the reason that Valentine avenue is 80 feet in width, while Ryer avenue was only 60 feet, and the "Interborough Company" will use, in common with the "Union Company," the tracks on Burnside avenue for about a block, thus preventing duplication of tracks on parallel streets.

At the hearing, objection was made by an attorney for certain property-owners on the easterly side of Valentine avenue, between One Hundred and Seventy-ninth and One Hundred and Eightieth streets, such objection being based on the fact that the property-owners on the block did not wish a street railroad in front of their premises.

Some alteration must be made in the route as granted, if the railroad is to be constructed, and the route as proposed is better than the route as originally granted. It might be possible, however, to make an arrangement with the "Union Company" whereby the tracks on Webster avenue, between Tremont avenue and One Hundred and Eightieth street, could be used in common by both companies, in which case the objection to a railway on Valentine avenue could be overcome.

ALTERATION 4.

Route Granted.

From the intersection of Kingsbridge road and Decatur avenue, east on Kingsbridge road to Third avenue, and thence south on Third avenue to One Hundred and Eighty-ninth street.

Length of route, 900 feet.

Route Proposed.

From the intersection of Kingsbridge road and Valentine avenue, south on Valentine avenue to One Hundred and Eighty-ninth street, east on One Hundred and Eighty-ninth street to Park Avenue East, and thence northerly along Park Avenue East, to One Hundred and Eighty-ninth street.

Length of route, 2,950 feet.

It will be seen that in this instance the company desires what might be termed an extension rather than an alteration in its present route, for it abandons but 900 feet and asks for 2,950 feet, thus maintaining two distinct routes within the same territory. The original grant to the "Interborough Company" covered Third avenue and Kingsbridge road, between One Hundred and Eighty-ninth street and Fordham road, streets which were then and are now occupied by the "Union Company" system for a distance of over 1,400 feet, and as the limit provided for in the Railroad Law upon which one street railway can use the tracks of another is 1,000 feet, it may be that the "Interborough Company" finds itself unable to construct the route as granted and has, for this reason, asked for the alternative route. From the standpoint of the City, it may be that the changed route is an advantage, in order to eliminate, as far as possible, a congested crossing, which is bound to occur at the intersection of Webster avenue and Kingsbridge road. Traffic at this point is bound to increase, and were the "Interborough Company" to operate its lines over the lines of the "Union Company" at this crossing, it might become a danger point in the near future.

Valentine avenue and One Hundred and Eighty-ninth street, upon the route proposed, are each 80 feet in width, and in consequence, are well adapted to a double track street surface railroad. The streets in the vicinity of Fordham Station are bound to become busy thoroughfares, and it may be wise not to concentrate all the lines upon Kingsbridge road and Third avenue.

ALTERATION 5.

Route Granted.

From the intersection of Boston road and One Hundred and Seventy-eighth street, west on One Hundred and Seventy-eighth street to Vyse street; thence north on Vyse street to One Hundred and Eighty-second street, and thence westerly on One Hundred and Eighty-second street to the Southern Boulevard.

Length of route, 3,600 feet.

Route Proposed.

From the intersection of Boston road and One Hundred and Seventy-eighth street, north on Boston road to One Hundred and Eightieth street, and thence westerly on One Hundred and Eightieth street to Southern Boulevard.

Length of route, 2,800 feet.

This alteration shortens the route somewhat and uses streets having a width of 80 feet in each instance, instead of 60 feet, which is certainly much more desirable. I have no objections to offer to this change and would recommend that it be granted.

RESUME.

Changes which may properly be granted:

Alterations 1, 3, 4 and 5.

Changes which should be denied for the present:

Alteration 2.

It would seem proper at this time to call the attention of the Board to certain other changes in the routes heretofore granted by the Board of Aldermen to the "Interborough Company," which it would be very desirable to make at this time. Under the law as it existed when this franchise was granted, the Board of Aldermen was empowered to make the grant and the Board of Estimate and Apportionment was to fix the terms and conditions of such grant. It was tacitly understood at the time that the Board of Estimate and Apportionment had no power to change any of the routes proposed, such power lying entirely with the Board of Aldermen, and the only function of the Board of Estimate and Apportionment was to fix the terms and conditions. In consequence, although certain of the routes were objectionable, particularly where a double track railway was proposed to be laid in a street having a roadway of but 24 feet, the Board of Estimate and Apportionment took no cognizance of the fact, and the grant was subsequently made without in any manner changing the routes applied for. I speak particularly of the line from the Macomb's Dam Bridge, through and along Ogden, Summit and Lind avenues, as far north as High Bridge. Summit avenue and Lind avenue are 50-foot streets, and I believe the company should be required to stipulate that it will construct but one track on such streets and apply for another street upon which to construct a second track.

It would seem that it might be well to take up this matter at the present time, for as the Board is still enjoined from taking action and granting any franchises under the law as amended by chapters 629 and 630 of the Laws of 1905, there will probably be ample time for the company to consider these changes before a decision is reached on the constitutionality of the law. I would, therefore, suggest the application be referred back to the "Interborough Company," with a request to amend same by including therein the second route for its north and south line, south of High Bridge.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

Hon. De Lancy Nicoll, of counsel for the New York City Interborough Railway Company, requested that the consideration of the report be adjourned for two weeks, to allow him an opportunity to submit a brief in reply, which was granted.

NEW YORK CITY INTERBOROUGH RAILWAY COMPANY.

In the matter of the application of the New York City Interborough Railway Company for the right to construct, maintain and operate thirteen extensions to the route heretofore granted to the said company by ordinance approved March 31, 1903, and which was referred to the Comptroller and the President of the Borough of The Bronx for separate investigation and report by resolution adopted at meeting of September 15.

The Secretary presented the following:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
September 27, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The New York City Interborough Railway Company (hereinafter referred to as the "Interborough Company"), has presented a verified petition, dated June 26, 1905, to the Board of Estimate and Apportionment of The City of New York, praying that the Board grant the company the right, privilege and franchise to construct, maintain and operate thirteen (13) extensions to its existing and proposed street surface

railway, covering about 11.6 miles of streets, with an estimated length of single track, including switches, of about 23.5 miles.

The Board of Aldermen granted a franchise to this company, which ordinance was approved by the Mayor on March 31, 1903. The streets covered by this franchise were about 36.5 miles in length, and comprise three north and south lines, with certain cross-town connections. Subsequently, the "Interborough Company" made application to the State Board of Railroad Commissioners for a "Certificate of Public Convenience and a Necessity," which certificate was granted for only a part of the routes granted by the City, the Board refusing a certificate for about 10.6 miles of street, upon the grounds that certain of the routes paralleled lines of the "Union Company"; in other words, the north and south lines, with the exception of a part of the route on the westerly side of The Bronx, were practically eliminated. The application to the State Board of Railroad Commissioners was opposed, and the matter has been in litigation for some time, the "Interborough Company" having only received the certificate from the State Board on January 12, 1905, in compliance with an order of the Appellate Division, dated December 23, 1904.

This order was subsequently confirmed by the Court of Appeals in March, 1905, thus enabling the company to commence construction of its road.

I am informed that up to September 1 the company had completed about fifteen (15) miles of single track, the greater part of the work being done on Aqueduct avenue, Tremont avenue, One Hundred and Eightieth street, Kingsbridge road, One Hundred and Eighty-ninth street, Wilkins place and Intervale avenue. I am also informed by the Chief Engineer that he expects that the greater portion of the routes granted and upon which the company has been allowed to build, will be completed before winter sets in; also that all the equipment has been ordered and that the line from One Hundred and Eighty-first street and St. Nicholas avenue, across Washington Bridge, and thence through Aqueduct avenue to Kingsbridge road, will be in operation as soon as permission shall have been obtained to cross tracks of other street railway companies at the points of intersection.

As a result of the refusal of the State Railroad Commissioners to grant a "Certificate of Public Convenience and a Necessity" for two of the original lines, the franchises now owned are in nearly every case transverse or cross-town lines, the only exception being the north and south line on Summit, Lind and Aqueduct avenues, which extends into the Borough of Manhattan by the way of Central Bridge to Eighth avenue.

The cross-town lines are: one, beginning in the Borough of Manhattan at Lenox avenue and One Hundred and Forty-fifth street, extending east as far as Bronx river; a second, beginning at St. Nicholas avenue and One Hundred and Eighty-first street, in the Borough of Manhattan, across the Washington Bridge, and extending east as far as Westchester creek by way of One Hundred and Seventy-seventh street; and a third, beginning at West Two Hundred and Thirtieth street and Bailey avenue, and extending east as far as the Bronx Park, and thence south to and connecting with the cross-town line last described. In addition, this third line has two branches, one extending to Two Hundred and Thirty-eighth street and Corlear avenue, and another on Decatur avenue, extending to and on Two Hundredth street, to the Jerome Park Reservoir. There is also a line which extends from Crotona Park to Hunt's Point.

Of the thirteen (13) extensions now applied for, one lies wholly within the Borough of Manhattan, one in both the boroughs of Manhattan and The Bronx, and the remainder wholly within the Borough of The Bronx. In addition to merely extending the existing lines for which the "Interborough Company" has franchises, there would be created two new cross-town lines, and the eastern termini of the existing and proposed cross-town lines would be connected. It is thus seen that the existing and proposed lines of the "Interborough Company" would be almost wholly a transverse system which would afford connection with the subway and elevated railway lines. The connection between the eastern termini of the cross-town lines would enable the "Interborough Company" to operate its cars on a loop, thus avoiding terminals, and I am of the opinion that such a method of operation should be insisted upon.

Each of the two railway systems in The Bronx, as made up by the existing routes and the routes which I have recommended should be granted as extensions, would (although in a measure they are competing systems) serve a distinct and separate purpose.

The "Union Company," by its many north and south lines leading from the Harlem river to the City Line, and to towns beyond, and by a universal transfer system to its transverse lines, would claim a large part of the local street surface railway traffic within The Bronx and to the towns beyond the City limits.

The "Interborough Company's" system, made up largely of transverse lines extending into the Borough of Manhattan and connecting with the stations of the subway, elevated and steam railroads, would be chiefly a system for feeding those lines, and the majority of its patrons would be those who desire to transfer to them. There being no transfer points to north and south lines of its own, little time would be lost by the transferring of passengers, and the running time would, therefore, be somewhat less than that of the "Union Company." This would give the "Interborough Company" an advantage over the "Union Company" for this class of traffic, providing the same terms of transfer to other roads are adopted by both companies.

It is true that the "Interborough Company" would get some of the local traffic within The Bronx, and that the "Union Company" would get considerable of the traffic to subway, elevated and steam roads, and by this means competition would be created between the companies, which would tend to raise the standard of operation of the "Union Company" and cause the "Interborough Company" to set a high standard for the operation of its lines.

The petition of the "Interborough Company" was received by the Board of Estimate and Apportionment on June 30, 1905, and is printed in full in the minutes of that date. In pursuance of law, the Board fixed a day for a public hearing, to wit, September 15, 1905, and public notices of such hearing were published in "The Sun" and "New York Daily News," newspapers designated by the Mayor, and also in the CITY RECORD; affidavits of publication are now on file in this office.

At the public hearing counsel appeared on behalf of the Union Railway Company of New York City (hereinafter referred to as the "Union Company"), who was heard at length, stating that the applications of the "Interborough Company" conflicted seriously with those made previously by the "Union Company," and that the "Union Company," which was operating north and south lines, was in a better position to afford cheap transportation to all the people of the Borough of The Bronx, if its routes were granted, than the "Interborough Company," and requested that the Board make careful consideration of the separate routes asked by each company before making its decision. Subsequently, counsel submitted a brief upon the subject, taking up the routes separately and drawing comparisons of the advantages which the extensions would afford the public if granted to either company.

Various property owners spoke in favor of granting the extensions proposed and the "Interborough Company" was represented by counsel.

In my report dated September 11, 1905, upon the application of the "Union Company," I spoke generally of certain conditions which I thought the Board should impose with regard to granting franchises for street surface railways, and discussed the situation in the Borough of The Bronx to an extent which it will not be necessary to repeat here; in fact, many of the routes now applied for by the "Interborough Company" were discussed in the previous report, for at the time I considered the application of both companies, with the idea of working out two complete and independent systems, so far as it was possible under the circumstances. I believe, therefore, that all that remains to be done at this time is to discuss in detail each of the proposed extensions, and as it seems desirable to me that many changes could be made which would be beneficial, I would suggest that before presenting any terms and conditions under which a franchise should be granted, the application be referred back to the "Interborough Company" for amendment.

DISCUSSION OF THE ROUTES.

Route 5.

From the present terminus of the "Interborough Company's" proposed line, for which it has a franchise, at Eighth avenue and West One Hundred and Fifty-fifth street, on West One Hundred and Fifty-fifth street to Broadway, and on Broadway to West One Hundred and Fifty-seventh street.

Length of route, about 3,200 feet.

This merely extends the north and south line on Aqueduct, Lind and Summit avenues, which at present terminates at Eighth avenue to the entrance of the subway at West One Hundred and Fifty-seventh street and Broadway. The plan of the company is to create a terminal at West One Hundred and Fifty-seventh street by placing

a crossover at that point. In my report on the "Union Company" application, which was dated September 11, 1905, I pointed out the objection to such a terminal and recommended that the "Union Company," which has made an application for exactly the same route, should change its application so as to eliminate this feature. The same recommendation applies equally in this case.

As the general scheme of the "Interborough Company" seems to be to create transverse lines that connect with the subway and elevated railways, I believe this extension is desirable. It will afford facilities for the distribution of passengers from the subway in Manhattan to points along the lines of the "Interborough Company" in The Bronx. I would recommend, however, that the extension should not be granted until the plan of the company to place a terminal at West One Hundred and Fifty-seventh street is changed.

As was also pointed out in the report upon the "Union Company's" application, this is the second time that the "Interborough Company" has made application for this franchise, Corporation Counsel having decided in the previous instance that a franchise could not be given by the City over this route under the existing law. I would recommend that the matter be again referred to the Corporation Counsel in order that he may advise the Board if the situation has been changed since the previous opinion was rendered.

Routes 1 and 13.

Route 1—From the existing tracks of the "Interborough Company" on Aqueduct avenue at Featherbed lane, on Featherbed lane to East One Hundred and Seventy-fourth street, on East One Hundred and Seventy-fourth street to Clay avenue, on Clay avenue to Wendover avenue, on Wendover avenue to Third avenue.

Length of route, about 8,450 feet.

Route 13—From the terminus of the proposed extension, Route 1, at Third avenue, as above, on Wendover avenue to Fulton avenue, on Fulton avenue to Crotona Park South, on Crotona Park South to Crotona Park East, on Crotona Park East and connecting with the existing track of the "Interborough Company" on Wilkins place.

Length of route, about 3,200 feet.

These two proposed extensions and two franchises now owned by the "Interborough Company" would make a crosstown line from St. Nicholas avenue and One Hundred and Eighty-first street, in the Borough of Manhattan, to the easterly end of Hunt's Point, on the East river. The route which would be traversed would be across One Hundred and Eighty-first street to Washington Bridge and thence by the way of Aqueduct avenue, Featherbed lane, One Hundred and Seventy-fourth street, Clay avenue, Wendover avenue, Fulton avenue, Crotona Park South and East, Wilkins place, Intervale avenue, Dongan street and Hunt's Point road.

The portion on Wendover avenue, from Webster avenue to Fulton avenue, on Fulton avenue to Crotona Park South, and on Crotona Park South to Prospect avenue, is identical with that which has been applied for by the "Union Company" as portions of its Routes 14 and 15. In the report on the "Union Company's" application, I suggested certain changes which would do away with two tracks in a 60-foot street, such as Crotona Park South, and also the building of a railway in streets which are near and parallel to streets on which one already exists. These changes would result in each company using certain portions of the existing tracks of the other company and would, therefore, necessitate an agreement between the companies to that effect. One of the conditions of any franchise granted either company should be that one company shall allow the other company to use its tracks between certain limits.

The streets covered by Route 1 are either 80 or 100 feet wide and are, therefore, suitable for a double track street railway, and the route, though crooked, would serve a portion of The Bronx which is not at present served by any street railway running east or west. The difficulty, however, lies in the unimproved condition of East One Hundred and Seventy-fourth street between the east side of the Grand Boulevard and Concourse and Jerome avenue. The street is to be a transverse road or tunnel, under the Concourse, and no contracts have as yet been let for the work of regulating and grading One Hundred and Seventy-fourth street between the limits as above. I would, therefore, recommend that the application for Route 1 be held in abeyance until One Hundred and Seventy-fourth street is improved, and that Route 13 be denied for the reasons given and more fully described in the report of September 11 upon the "Union Company's" application for extensions upon the same streets.

Route 2.

From Amsterdam avenue at Two Hundred and Seventh street, in the Borough of Manhattan, on Two Hundred and Seventh street and over the Fordham Heights Bridge which is to be built across the Harlem river, connecting Two Hundred and Seventh street in Manhattan with One Hundred and Eighty-fourth street in The Bronx, thence on One Hundred and Eighty-fourth street to Fordham road, on Fordham road to One Hundred and Eighty-eighth street, on One Hundred and Eighty-eighth street to and connecting with the existing tracks of the "Interborough Company" on Aqueduct avenue.

Length of route, about 4,800 feet.

This proposed extension will connect the north and south lines on Aqueduct avenue in the Borough of The Bronx, with the station of the subway at Amsterdam avenue and Two Hundred and Seventh street in the Borough of Manhattan. The detailed plans furnished by the company show a crossover at Amsterdam avenue. As before stated, such terminals are objectionable, and the plans of the company should, therefore, be changed. The "Union Company" has tracks on Fordham road from Sedgwick avenue to Harlem River Terrace, which I believe were laid without authority, and the President of the Borough of The Bronx states that no permit for such construction has ever been given.

My recommendation in the "Union Company" report was that the "Union Company" should change its application so as to apply for One Hundred and Eighty-fourth street between Fordham road and the bridge, and that a franchise be given to each company from Fordham road west, the "Union Company" to stipulate that the "Interborough Company" may use the existing tracks on Fordham road between Aqueduct avenue and Sedgwick avenue. This would do away with part of Route 2 applied for, namely, on One Hundred and Eighty-eighth street between Aqueduct avenue and Sedgwick avenue, which is nearly parallel with, and only one block away from Fordham road.

I recommend that the extension be denied until the plan for the terminal at Broadway is changed.

Routes 3 and 12.

Route 3—From the proposed route of the "Interborough Company" on Lind avenue, for which it has a franchise, at One Hundred and Sixty-eighth street, on One Hundred and Sixty-eighth street to Shakespeare avenue, on Shakespeare avenue to McClellan street, on McClellan street to River avenue, on River avenue to One Hundred and Sixty-seventh street, on One Hundred and Sixty-seventh street to Clay avenue, on Clay avenue to One Hundred and Sixty-eighth street.

Length of route, about 7,900 feet.

Route 12—From the existing tracks of the "Interborough Company" on Intervale avenue at One Hundred and Sixty-ninth street and McKinley street, to Franklin avenue, on Franklin avenue to One Hundred and Sixty-eighth street, on One Hundred and Sixty-eighth street to Clay avenue.

Length of route, about 5,000 feet.

These extensions make a crosstown line from the route on Summit, Lind and Aqueduct avenues to the route on Intervale avenue. The "Interborough Company" has franchises for both routes mentioned. The line applied for is about half way between the One Hundred and Sixty-first street line and the proposed One Hundred and Seventieth street line of the "Union Company," a distance of over a mile. These extensions will, therefore, furnish crosstown facilities, which at present do not exist. The width of all streets covered by both extensions are either 70 or 80 feet, except One Hundred and Sixty-eighth street, Shakespeare avenue and McClellan street, on Route 3, which are 60 feet wide. There are, however, no streets parallel and within the distance of one block on which other tracks could be laid to advantage on that route.

Although the title to McClellan street, between Jerome avenue and River avenue, is in the City, the street has not as yet been physically improved, and, in consequence, no franchise should be granted upon it at present. It might be possible, however, by the use of the "Union Company's" tracks on Jerome avenue for less than 1,000 feet, for the "Interborough Company" to use One Hundred and Sixty-ninth street, between Jerome avenue and River avenue, thus completing its line.

I have no objection to offer to Route 12, but Route 3 should be denied at present for the reasons stated.

Routes 6, 7 and 8.

Route 6—From the proposed route of the "Interborough Company" on West Farms road, for which it has a franchise, at Boston road, on West Farms road to Home street, on Home street to the existing tracks of the "Interborough Company," on Intervale avenue.

Length of route, about 7,300 feet.

Route 7—From the proposed route of the "Interborough Company" on East One Hundred and Fifty-sixth street, for which it has a franchise, at Prospect avenue, on Prospect avenue to Westchester avenue and Longwood avenue, on Longwood avenue to Dawson street, on Dawson street to the proposed line of the "Interborough Company" on Leggett avenue, for which it has a franchise.

Length of route, about 2,350 feet.

Route 8—From the proposed route of the "Interborough Company" on Leggett avenue, for which it has a franchise, at Dawson street, on Dawson street to Intervale avenue, on Intervale avenue to Dongan street.

Length of route, about 2,000 feet.

These routes, together with the routes for which the "Interborough Company" has a franchise on Intervale avenue, Leggett avenue, Southern Boulevard, and the proposed Alteration 5, the application for which is now pending before the Board, would make connections between the eastern termini of all the transverse lines either owned or proposed by the "Interborough Company." I believe that such a connected route is desirable for the operation of the system proposed. I would, therefore, recommend that such line be granted if it can be constructed on unobjectionable streets. Certain streets on which the routes are laid out, however, are objectionable. Home street, on which part of Route 9 is laid out, is only 60 feet wide, and I believe that either Freeman street should be used for one track, or that both tracks should be placed on the continuation of West Farms road to East One Hundred and Sixty-ninth street, and on East One Hundred and Sixty-ninth street to Intervale avenue. Routes 7 and 8 would result in a needless occupation of streets by railway tracks. Route 7 is applied for, apparently, to enable the "Interborough Company" to run cars from its line on East One Hundred and Fifty-sixth street to the subway station at the intersection of Prospect and Westchester avenues. Such a connection could be made if the portion of the tracks of the "Union Company" on Westchester avenue, between Dongan street and Prospect avenue (a distance of less than 1,000 feet), the portion of Route 7 on Longwood avenue and Dawson street, and the portion of the proposed Route 11 on Dongan street were used, and in this case Route 8 would not be required.

All of Route 7, excepting that part on Prospect avenue, may properly be granted. Prospect avenue, as pointed out in the report on the "Union Company," is a street having a width of 100 feet, but it is parked in the centre, leaving only roadways of 20 feet on either side, and I believe that no street railway should be permitted upon either of these roadways unless it is impossible to secure a substitute route.

Longwood avenue also has a park space in the centre, but it is not as wide as that in Prospect avenue, and hence the roadways are broader.

I submit that the "Interborough Company" should change its application with respect to Routes 6 and 7, and that Route 8 be denied.

Route 10.

From the proposed route of the "Interborough Company" on East One Hundred and Fifty-sixth street, for which it has a franchise, at Brook avenue, on Brook avenue and Washington avenue, to the tracks of the proposed Route 12, on East One Hundred and Sixty-eighth street.

Length of route, about 4,550 feet.

This route is paralleled by two existing lines of the "Union Company," one line being on each side and only one block distant. This route only connects the proposed crosstown line on One Hundred and Sixty-eighth street with the line for which the company has a franchise on East One Hundred and Fifty-sixth street. It is, therefore, too short to operate as a north and south line.

I would recommend that it be denied.

Route 11.

From the existing tracks of the "Interborough Company," on Intervale avenue at Dongan street, on Dongan street to Westchester avenue at Stebbins avenue, on Stebbins avenue to East One Hundred and Sixty-third street, on East One Hundred and Sixty-third street to the proposed tracks of Route 10 on Washington avenue.

Length of route, about 4,250 feet.

In the report on the "Union Company's" application, I recommended that the "Union Company's" Route 20 be granted. That route is identical with the proposed Route 11 of the "Interborough Company." The "Union Company" has already an existing crosstown line on One Hundred and Sixty-first street, west of Third avenue, and Route 20 would be an extension to that existing line. This would give the "Union Company" a complete crosstown line in this vicinity, and I believe would furnish adequate crosstown facilities for those living in that portion of The Bronx. I would, therefore, recommend that Route 11 be denied, with the exception of the route between Intervale avenue and Westchester avenue, on Dongan street, where I believe it would be in the interest of the public that a franchise be granted to both companies. This connection, as was shown in the discussion under Routes 6, 7 and 8, will be necessary to the "Interborough Company" for a proper connection with the subway station at Prospect avenue and Longwood avenue.

Route 9.

From the proposed route of the "Interborough Company" on Courtlandt avenue, for which it has a franchise, at East One Hundred and Forty-ninth street, on East One Hundred and Forty-ninth street to Austin place, on Austin place to Whitlock avenue, on Whitlock avenue to Leggett avenue, connecting with the proposed line of the "Interborough Company" on Leggett avenue.

Length of route, about 6,750 feet.

The "Interborough Company" has a franchise on One Hundred and Forty-ninth street, from Courtlandt avenue to and across the Harlem river into the Borough of Manhattan at Lenox avenue and One Hundred and Forty-fifth street. This extension is a completion of that crosstown line. East One Hundred and Forty-ninth street is a rapidly growing business street, and I believe that a crosstown line would be desirable on that street. The "Union Company" has made an application for the same route, from Third avenue to Prospect avenue, but in the "Union Company" report I recommended that such a line be denied on account of the narrow streets through which the remainder of the line was laid out. The objection to the route as laid out by the "Interborough Company" is that Austin place is not a legally opened street, and probably will not be physically open for some years.

I would recommend that only so much of this route be granted as may be constructed immediately, to wit: between Courtlandt avenue and Southern Boulevard. It would seem desirable that if any extensions are granted to the Southern Boulevard Railroad Company, that company should stipulate that the "Interborough Company" may use its tracks on the Southern Boulevard between One Hundred and Forty-ninth street and Leggett avenue.

Route 4.

From the proposed route of the "Interborough Company" on Two Hundred and Thirty-eighth street, for which it has a franchise, thence northerly along the Albany road to Van Cortlandt Park South.

Length of route, about 1,300 feet.

The purpose of this extension is simply to make a connection with the entrance to Van Cortlandt Park. I do not think that traffic on this line will demand a double track for this short distance for some time to come, and I would, therefore, recommend that the "Interborough Company" be granted the right for a single track on this route, but that the City reserve the right to permit another company to run over the same route at any future time; in other words, that the franchise for this route shall not be exclusive.

It will be possible in the future, when other streets are open in this vicinity, to construct a second line on a parallel street, thus forming a loop and avoiding a terminal in the street at Van Cortlandt Park.

RESUME.

I divide my recommendations into four classes, as follows:

First—Extensions that may be properly granted at the present time:

Route 12 and portions of 7, 9 and 11.

Second—Extensions in which changes appear to be desirable:

Routes 2, 5, 6 and 13.

Third—Extensions that cannot be constructed at the present time, owing to the unimproved condition of the streets:

Routes 1, 3 and portion of Route 9.

Fourth—Extensions which should be denied:

Routes 8, 10 and portions of 7 and 11.

Route 4, if granted, should be for a single track only, and no exclusive right should be given for such line.

As soon as the "Interborough Company" shall amend its application, or when the Board shall decide what routes shall or shall not be granted, I shall be prepared to immediately submit terms and conditions for such franchise as may be granted.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

Hon. De Lancy Nicoll, of counsel for New York City Interborough Railway Company, requested that the consideration of the report be adjourned for two weeks to allow him an opportunity to submit a brief in reply, which was granted.

SOUTHERN BOULEVARD RAILROAD COMPANY.

In the matter of the application of the Southern Boulevard Railroad Company for the right to construct, maintain and operate four extensions to its existing double-track street surface railroad on various streets in the Borough of The Bronx, which was referred to the Comptroller and the President of the Borough of The Bronx for separate investigation and report by resolution adopted at meeting of September 15.

The Secretary presented the following:

DEPARTMENT OF FINANCE—CITY OF NEW YORK,
COMPTROLLER'S OFFICE,
September 26, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Southern Boulevard Railroad Company (hereinafter referred to as the "Boulevard Company") has presented a verified petition dated May 31, 1905, to the Board of Estimate and Apportionment of The City of New York praying that the Board grant the company the right, privilege and franchise to construct, maintain and operate four (4) extensions to its existing street surface railway, and covering about two (2) miles of streets, with an estimated length of single track, including switches, of about 4.43 miles.

Said petition was received by the Board June 2, 1905, and is printed in full in the minutes of the Board of that date. In pursuance of law the Board fixed a date for public hearing, to wit, June 30, the public notice of such hearing being published in the New York "Sun" and the New York "Times," newspapers designated by the Mayor, and also in the City Record. Affidavits of publication are now on file in this office.

At the hearing the application of the "Boulevard Company" was discussed in conjunction with the application of the Union Railway Company of New York City (hereinafter referred to as the "Union Company"). The objection made by the New York City Interborough Railway Company (hereinafter referred to as the "Interborough Company") against the granting of these extensions being the same as those against granting the extension of the "Union Company," namely, that the business of the "Interborough Company" would be seriously injured by giving those rights to the "Boulevard Company." Various property owners appeared and spoke in favor of granting the proposed extensions.

The existing line of the "Boulevard Company" begins at the intersection of Third avenue and Southern Boulevard and extends from that point on the Southern Boulevard to the Boston road, a distance of about 3½ miles, the rights for the present line being given by the Common Council of The City of New York on March 16, 1886. Since the original grant, the company has never received an extension, and, unlike the "Union Company," claims no franchise for streets on which it has not built tracks, except one block between Third avenue and Lincoln avenue. The control of the company has for a number of years been in the hands of the "Union Company" and operated as a part of its system, transfers being given by both the "Union Company" and the "Boulevard Company" at the points of intersection of their line, namely, at Southern Boulevard with East One Hundred and Thirty-eighth street and with Westchester avenue.

The cars of the "Boulevard Company" run from Third avenue to West Farms by the way of Southern Boulevard and Boston road. Transfers are given at One Hundred and Seventy-seventh street on the One Hundred and Seventy-seventh street line and north on Williamsbridge line.

In my report of September 11, upon the application of the "Union Company" for extensions, I considered this application as well, and the recommendations which follow in regard to the separate extensions applied for are based upon the fact that the "Boulevard Company" is a part of the Union system.

The following is a description and a discussion of each of the extensions applied for:

ROUTE 1.

From the existing tracks on Southern Boulevard at Boston road, north on Southern Boulevard to East One Hundred and Eighty-second street, west on East One Hundred and Eighty-second street to Crotona avenue, on Crotona avenue to and connecting with the franchise route claimed by the "Union Company" on Pelham avenue, but as yet unconstructed.

Length of single track, 16,120 feet.

The present Southern Boulevard line would thus be extended northerly to Pelham avenue and terminate within a short distance from the Pelham avenue entrances of both the Zoological and Botanical gardens. None of the streets applied for are less than 80 feet in width, and the Southern Boulevard has a width of 100 feet. There is at present no existing line leading to the Bronx Park at this point, but the "Interborough Company" has a line now under construction which will reach the park from the west, and, should its present application be granted, will also have an east side line from the south. It would seem to me desirable that both companies should be permitted to reach these entrances to the Park, and I am of the opinion that the extension as proposed should be granted.

ROUTE 2.

From the existing tracks on Southern Boulevard at Cypress avenue, south on Cypress avenue to East One Hundred and Thirty-second street, west on East One Hundred and Thirty-second street to St. Ann's avenue, north on St. Ann's avenue to and connecting with the existing tracks on Southern Boulevard.

Length of single track, 3,560 feet.

The brief of the company sets forth that this extension is required to connect the Southern Boulevard line with the station which the New York, New Haven and Hartford Railroad Company proposes to erect near Cypress avenue. As I have been unable to obtain any information as to the exact location of the proposed station, and as there is no necessity for such an extension until the station is built, I am of the opinion that this extension should be denied. When definite plans are made by the New York, New Haven and Hartford Railroad Company, application may then be made to the Board for an extension to such a station. As previously pointed out in a former report, I do not believe it advisable to grant extensions in advance of the time when they are required.

ROUTES 3 AND 4.

Route 3. From the existing tracks of the "Boulevard Company" on Southern Boulevard, easterly on Leggett avenue to Garrison avenue, connecting with the Casanova station of the New York, New Haven and Hartford Railroad.

Length of single track, 1,400 feet.

Route 4. From the existing tracks of the "Boulevard Company" on Southern Boulevard, easterly on Hunt's Point road to Garrison avenue, connecting with the Hunt's point station of the New York, New Haven and Hartford Railroad.

Length of single track, 1,600 feet.

The object of these routes is to extend the crosstown line of the "Union Company," which is made up of the proposed Routes 11 and 20, and the existing track on One Hundred and Sixty-first street, to the Casanova and Hunt's Point stations of the New York, New Haven and Hartford Railroad.

Route 3 merely extends the line of the "Boulevard Company" to the Casanova station.

I pointed out in the "Union Company" report the importance of crosstown lines in the "Union Company's" system, and have, where possible, recommended that extensions creating such lines be granted. Each of the proposed extensions is now covered by a franchise held by the "Interborough Company," but as each extension is less than 1,000 feet in length, the "Boulevard Company" has the right, under the law, to run over the tracks of the "Interborough Company," provided it can obtain the City's consent.

I see no objections to granting the extensions proposed.

To sum up, I would recommend that Extensions 1, 3 and 4 be granted and 2 be denied, for the reasons stated.

I do not believe that any contract should be made with the "Boulevard Company" until the routes for the "Union Company" are fully determined upon and the terms and conditions are settled. Any terms fixed for the "Boulevard Company" should, in a measure, be determined by the terms fixed for the "Union Company's" application, and as some of the extensions herein proposed are dependent, to a certain extent, upon the extensions to be granted to the "Union Company," I believe that franchises granted and contracts entered into should be done simultaneously. I shall be prepared to submit terms and conditions for the "Union Company" as soon as the Board shall determine upon the routes to be granted.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

Mr. Chase Mellen, of counsel for the company, requested that the matter be adjourned for two weeks to allow him an opportunity to submit a brief in reply, which was granted.

THE PEOPLE'S TRACTION COMPANY.

Report of the Bureau of Franchises on the status of the franchise granted to the People's Traction Company to construct, maintain and operate a double track street surface railroad over various streets in the Borough of The Bronx in accordance with resolutions adopted by the Board of Aldermen on July 2, 1895, and approved by the Mayor on August 5, 1895.

The Secretary presented the following:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
September 25, 1905.

To the Board of Estimate and Apportionment:

GENTLEMEN—I present herewith for your consideration the enclosed opinion of George L. Sterling, Acting Corporation Counsel, dated August 28, 1905, to the effect that the rights heretofore granted to the People's Traction Company on August 5, 1895, have become void through non-user and the lapse of time. I also enclose copy of report made by Harry P. Nichols, Principal Assistant Engineer in charge of the Bureau of Franchises, dated June 26, 1905, upon which the Acting Corporation Counsel based his opinion.

It appears therefore that no further action is necessary on the part of the Board of Estimate and Apportionment to terminate the franchise referred to and I have accordingly, by communication dated September 7, 1905, requested the President of the Borough of The Bronx to withhold a permit from the People's Traction Company, or its successors, for the construction, maintenance or operation of a street surface railroad upon the streets named in the franchise of August 5, 1895.

In my communication to the President of the Borough of The Bronx mentioned above, I described the streets included in the franchise of the People's Traction Company in detail, in order that no confusion might arise in his office.

It would seem, therefore, that you are at liberty to grant a franchise upon the following streets, regardless of the rights heretofore conferred upon the People's Traction Company:

"Beginning at the intersection of Willis avenue and East One Hundred and Thirty-fourth street, and running thence easterly through, along and upon said East One Hundred and Thirty-fourth street to its intersection with Brook avenue; thence running northerly through, along and upon said Brook avenue to its intersection with Washington avenue; thence running northerly through, along and upon said Washington avenue to its intersection with East One Hundred and Eighty-seventh street; thence running easterly through, along and upon said East One Hundred and Eighty-seventh street to its intersection with Franklin avenue or Broadway; thence running southerly through, along and upon said Franklin avenue or Broadway to its intersection with Crotona Park South; thence running southeasterly, through, along and upon said Crotona Park South, to its intersection with Prospect avenue; thence running southerly through, along and upon said Prospect avenue to its intersection with East One Hundred and Forty-ninth street; and thence running westerly through, along and upon said East One Hundred and Forty-ninth street to its intersection with Brook avenue; and also

Beginning at the Harlem river on East One Hundred and Forty-ninth street, and running thence easterly through, along and upon said East One Hundred and Forty-ninth street to its intersection with Bungay street; thence running southeasterly through, along and upon said Bungay street to the East river or Long Island Sound; and also

Beginning at the intersection of Willis avenue and East One Hundred and Thirty-fourth street, and running thence northerly through, along and upon Willis avenue to its intersection with East One Hundred and Thirty-fifth street; thence running westerly through, along and upon said East One Hundred and Thirty-fifth street to its intersection with Exterior street; thence running northwesterly through, along and upon said Exterior street to its intersection with Jerome and Ogden avenues; thence running northerly through, along and upon Ogden avenue to its intersection with Aqueduct avenue; thence running northeasterly through, along and upon said Aqueduct avenue to its intersection with East One Hundred and Seventy-fourth street or Featherbed lane; thence running easterly through, along and upon said East One Hundred and Seventy-fourth street or Featherbed lane to its intersection with Anthony avenue; thence running easterly through, along and upon said Anthony avenue to its intersection with Webster avenue and Wendover avenue; thence running easterly through, along and upon said Wendover avenue to its intersection with Washington avenue; and also

Beginning at the intersection of Prospect avenue and East One Hundred and Sixty-ninth street, and running thence westerly through, along and upon said East One Hundred and Sixty-ninth street to its intersection with Franklin avenue; thence running southerly through, along and upon said Franklin avenue to its intersection with East One Hundred and Sixty-eighth street; thence running westerly through, along and upon said East One Hundred and Sixty-eighth street to its intersection with Crestline avenue; thence running southwesterly through, along and upon said Crestline avenue to its intersection with East One Hundred and Sixty-seventh street; thence running westerly through, along and upon said East One Hundred and Sixty-seventh street to its intersection with Gerard avenue; thence running southerly through, along and upon said Gerard avenue to its intersection with McClellan street; thence running westerly through, along and upon said McClellan street to its intersection with Jerome avenue and Marcher avenue; thence running northwesterly through, along and upon said Marcher avenue to its intersection with Birch street; thence running westerly through, along and upon said Birch street to its intersection with Wolf street; thence running northwesterly through, along and upon said Wolf street to its intersection with Sedgwick avenue; thence running northerly through, along and upon said Sedgwick avenue to its intersection with Depot place, High Bridge, and thence running westerly through, along and upon said Depot place to the tracks of the New York Central and Hudson River Railroad; and also

Beginning at the intersection of Brook avenue and Clifton or East One Hundred and Sixty-first street, and running thence easterly through, along and upon said Clifton or East One Hundred and Sixty-first street to its intersection with Prospect avenue; thence running northerly through, along and upon said Prospect avenue to its intersection with East One Hundred and Sixty-ninth street; thence running southeasterly through, along and upon said East One Hundred and Sixty-ninth street to its intersection with Home street; thence running northeasterly through, along and upon said Home street to its intersection with the West Farms road; thence running northeasterly through, along and upon said West Farms road to its intersection with Boston Post road; and thence running northeasterly through, along and upon said Boston Post road to the centre of the bridge over the Bronx river at Bronxdale; and also

Beginning at the intersection of East One Hundred and Forty-ninth street and Austin place, and running thence northeasterly through, along and upon said Austin place to its intersection with Whitlock avenue; thence running easterly through, along and upon said Whitlock avenue to its intersection with Leggett avenue; thence running northeasterly through, along and upon said Leggett avenue to its intersection with Mohawk or Wetmore avenue; thence running northeasterly through, along and upon said Mohawk or Wetmore avenue to its intersection with Lafayette avenue; thence running northeasterly through, along and upon said Lafayette avenue to the Bronx river, together with the necessary connections, switches, turn-outs, turntables and suitable stands for the convenient working of such railroad."

Respectfully,

EDWARD M. GROUT, Comptroller.

LAW DEPARTMENT—OFFICES OF THE CORPORATION COUNSEL,
NEW YORK, AUGUST 28, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I am in receipt of your communication of June 26, enclosing report of your Principal Assistant Engineer, informing me that two applications by the New York and Interborough Railway Company and the Union Railway Company of New York City for franchise extensions in the Borough of The Bronx, have been referred to you for report on the terms and conditions to be imposed, and that the applications referred to apparently conflict with rights previously granted to the People's Traction Company on August 5, 1895, and November 27, 1896.

The certificate of incorporation of the People's Traction Company was filed in the office of the Clerk of New York County on January 31, 1895.

On February 26, 1895, the People's Traction Company made application to the Common Council of The City of New York for a franchise to construct a double-track street railway over certain streets in the Twenty-third and Twenty-fourth Wards, now the Borough of The Bronx.

The consent to operate such a road was given by resolutions of the Board of Aldermen on July 2, 1895, approved by the Mayor, August 5, 1895.

The auction sale required by the railroad law then in force, to be held October 9, 1895, was adjourned as a result of litigation between rival companies, until November 27, 1896, and the franchise was then awarded to the People's Traction Company, which bid 97 per cent. of the annual gross receipts from operation of the road during the first five years and 95 per cent. thereafter; under the railroad law, as it then existed, the company would be required to pay, in addition to the amount so bid, 3 per cent. for the first five years and 5 per cent. thereafter, so that the bid of the People's Traction Company amounted to an agreement to pay 100 per cent. of the receipts of the road.

It is stated in the Engineer's report that, to his knowledge, no work of construction has been begun looking toward the completion of the road, and that there is on file in his office a map furnished by the president of the Union Railway Company, showing that the People's Traction Company has not constructed any portion of its road.

On November 29, 1901, the People's Traction Company leased all its rights to construct its road and all other property of which it was possessed, to the Interurban Street Railway Company, now the New York City Railway Company.

The matter is referred to me that I may advise you as to what action is necessary to be taken by your Department and the Board of Estimate and Apportionment, if any, and that I may take such action as may be necessary to secure the forfeiture of any rights of the People's Traction Company.

The question as to whether the franchise granted to the People's Traction Company is still in force and effect depends upon the construction and application of section 5 of the Railroad Law. In the case referred to in your communication, "In the matter of the application of the Brooklyn, Queens County and Suburban Railroad Company for a writ of mandamus," the Appellate Division decided that the section referred to was self-executing and that it was applicable to street railway corporations. From the facts as set forth in the Engineer's report, I am of the opinion that the decision in the case of the Brooklyn, Queens County and Suburban Railroad Company is controlling in the case of the People's Traction Company.

In the opinion of the Appellate Division, Second Department, in the Brooklyn, Queens County and Suburban Railroad Company ("Law Journal," June 15, 1905), the court held that the subsequent amendments to section 5 can hardly have been designed to revive franchises already dead by reason of the operation of a self-executing general statute.

The Railroad Law, section 5, as last amended by chapter 508 of the Laws of 1901, and now in force, reads as follows:

"Section 5. When Corporate Powers to Cease—If any domestic railroad corporation shall not, within five years after its certificate of incorporation is filed, begin the construction of its road and expend thereon ten per centum of the amount of its capital, or shall not finish its road and put it in operation in ten years from the time of filing such certificate, its corporate existence and powers shall cease. But if any such steam railroad corporation whose certificate of incorporation was filed since the year eighteen hundred and eighty, and whose road as designated in such certificate is wholly within one county and not more than ten miles in length, has acquired the real property necessary for its roadbed by purchase, its corporate existence and powers shall not be deemed to have ceased because of its failure to comply with the provisions of this article; and the time for beginning the construction of its road and expending thereon ten per centum of its capital, is extended until thirteen years from the date of the filing of such certificate and the time for finishing its road and putting it in operation is extended until eighteen years from the date of such filing. This section shall not apply to any street surface railroad company, incorporated prior to July first, eighteen hundred and ninety-five, which has obtained or become the owner of the consents of the local authorities of any city of the first or second class, given under article four of the Railroad Law to the use of public streets, avenues or highways for the construction and operation of the railroad thereon."

Section 5, as originally enacted in 1890, consisted of only the first sentence of the present section 5 as above quoted. The second sentence of the present section 5, as above quoted, was added by Laws of 1893, chapter 433, taking effect April 19, 1893. The third sentence of the present section 5, as above quoted, was added by Laws of 1901, chapter 508.

Unless the People's Traction Company can claim an extension of time by reason of the litigation which prevented the sale of the franchise to it from October 5, 1895, to November 27, 1896, its rights had expired when the third sentence was added to section 5 of the Railroad Law by chapter 508 of the Laws of 1901, and under the decision of the Appellate Division it cannot claim the benefit of that exception.

I would advise you, therefore, that no action is required at the present time in the matter of the franchise of the People's Traction Company.

There is, however, an appeal from the decision of the Appellate Division in the matter of the Brooklyn, Queens County and Suburban Railroad Company which has been taken by the railroad company, which will, in all probability, be argued at the coming term of the Court of Appeals in October next.

It may be that an agreement could be reached between the City and the railway company by which conflicting routes would be relinquished in connection with the granting of the pending applications.

I herewith return the report of Principal Assistant Engineer Nichols transmitted with your communication.

Respectfully yours,

G. L. STERLING, Acting Corporation Counsel.

June 26, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Two applications by the New York City Interborough Railway Company and the Union Railway Company of New York City, for franchise extensions in the Borough of The Bronx, have been referred to the Comptroller for a report on the terms and conditions to be imposed. These applications apparently conflict with rights previously granted to the Peoples' Traction Company on August 5, 1895, and November 27, 1896.

On February 26, 1895, the Peoples' Traction Company made application to the Common Council of The City of New York for a franchise to construct a double track street surface railroad over various streets in the Twenty-third and Twenty-fourth Wards, now Borough of The Bronx.

By resolutions adopted by the Board of Aldermen on July 2, 1895, and approved by the Mayor on August 5, 1895, the consent of the Common Council of The City of New York was given to the People's Traction Company to construct, maintain and operate such a road; the resolutions above referred to contained the provision that

the "right, franchise and privilege of using the streets shall be sold at public auction—with a bond or undertaking in such form and amount and with such conditions and sureties as may be required and approved by the Comptroller, for the fulfilment of such agreement, and for the commencement and completion of its railroad within the time designated by law." This provision was in accordance with section 93 of the Railroad Law then in force. At the auction held October 9, 1895, and adjourned, as a result of litigation between rival companies, until November 27, 1896, the franchise was awarded to the People's Traction Company, which made a bid of 97 per cent. of the annual gross receipts from operation of the road during the first five years and 95 per cent. thereafter; by the terms of the sale, which followed section 95 of the Railroad Law, the successful bidder was also required to pay to the City annually for the first five years 3 per cent. and 5 per cent. thereafter.

It is apparent that the bid of the People's Traction Company is equivalent to an agreement to pay 100 per cent., or the entire gross receipts of the road.

To my knowledge, no work of construction has been begun looking toward the completion of the road and there is on file in this office a map furnished me by Edward W. Maher, President, of the Union Railway Company, showing that the People's Traction Company have not constructed any portion of their road.

On November 29, 1901, the People's Traction Company leased all its rights to construct its road and all other property of which it was possessed to the Interurban Street Railway Company, now known as the New York City Railway Company, for 999 years.

The bond as required by section 93 of the Railroad Law (chapter 434, Laws of 1893), "for the fulfilment of such agreement and for the commencement and completion of its railroad," has not been filed in this office, but the bond, also required by section 93, entitling the People's Traction Company to bid at the auction sale of the franchise is on file in this Bureau.

The certificate of incorporation of the People's Traction Company was filed in the office of the Clerk of New York County on January 31, 1905. Section 5 of the General Railroad Law is as follows:

"If any domestic railroad corporation shall not, within five years after its certificate of incorporation is filed, begin the construction of its road and expend thereon ten per cent. of the amount of its capital, or shall not finish its road and put it in operation in ten (10) years from the time of filing such certificate, its corporate existence and powers shall cease."

The five years allowed by this section expired January 31, 1900, and the final period expired January 31, 1905.

In the proceeding entitled "In the matter of the application of the Brooklyn, Queens County and Suburban Railroad Company for a writ of mandamus," reported in full in the New York "Law Journal" on June 15, 1905, it was held by the Appellate Division, Second Department, that section 5 is self-executing and that the franchise of a railroad company is ipso facto forfeited without any judicial proceedings whatever, whenever it shall not have complied with section 5 above referred to. Opposed to this is the opinion of Attorney General Mayer, who, in an opinion, dated May 9, 1905, in a proceeding entitled "In re the application of the City of Rochester to the Attorney General to bring action for judgment to declare certain franchises, heretofore granted to certain street railway corporations in the City of Rochester, forfeited and determined," states that a statute is only self-executing when a railroad company is endeavoring to assert some right, and in answer or defense to such assertion, the claim was made that the railroad company did not have that right because its franchises or its corporate existence has ceased. He says: "Thus, though the franchises are by legal effect apparently dead, it may be that they have not yet had a judicial burial. So long as there has been no judicial determination, the City may not be able to obtain full value for such franchises from this, or any other corporation applying therefor."

In view of the above, I am of the opinion that the matter should be laid before the Corporation Counsel to advise you:

First—If in his opinion the franchise granted the People's Traction Company is still in full force and effect or is dead;

Second—If in force, what action should be taken by the City to secure its forfeiture, and request that if a judicial determination is at all desirable that he institute proceedings immediately.

Pending advice from the Corporation Counsel, I would suggest that no action on the application for extension be taken.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

Which was ordered printed in the minutes and filed.

OCEAN ELECTRIC RAILWAY COMPANY.

Report of the Bureau of Franchises upon the status of the franchise granted to the Ocean Electric Railway Company on August 26, 1903.

The Secretary presented the following:

September 25, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Ocean Electric Railway Company received a franchise from the Board of Aldermen, which was duly approved by the Mayor on August 26, 1903. By section 5 of said franchise it was permitted to apply to the Board of Estimate and Apportionment for an extension of time to construct its road, if said road was not in operation on or before July 1, 1904, which date was set for the completion of the construction of a railway upon all the route granted.

On June 23, 1904, the Ocean Electric Railway Company, through W. F. Potter, Vice-President, applied for an extension to construct its road, and said request was granted and a resolution was adopted, in part as follows:

"Whereas, That portion of the route on Park avenue, between the Boulevard and the existing right of way and railroad track of the New York and Rockaway Beach Railroad Company, has not been completed,

"Resolved, That, pursuant to the provisions of section 5 of said franchise, the Board of Estimate and Apportionment hereby extends the time for the completion of said railroad on Park avenue until May 15, 1905, and if the same shall not be constructed and in actual operation on said date, the said route in Park avenue shall be conclusively taken to have been abandoned by the grantee, and so much of the rights and franchises hereby granted as pertains to such route from and after May 15, 1905, shall be thereupon forthwith immediately forfeited, without judicial or other proceedings."

I beg to advise you that no railroad has been constructed on Park avenue, between the Boulevard and the existing railway tracks of the New York and Rockaway Beach Railroad Company, and that, consequently, the right to construct a railroad on this street was lost on May 15, 1905.

By the terms of the franchise granted August 26, 1903, it is provided that:

"In case of any violation, or breach, or failure to comply with any of the provisions herein contained, this grant may be forfeited and avoided by The City of New York, by a suit brought by the Corporation Counsel on notice of ten days to the said railway company."

The Ocean Electric Railway Company has deposited with you, as Comptroller of The City of New York, the sum of \$2,000, "which fund shall be security for the performance by such company of the terms and conditions of this grant. * * *"

It appears therefore that The City of New York, acting by the Board of Estimate and Apportionment, may either terminate the entire franchise by reason of the railway company's failure to complete the construction of the entire road, and this in spite of the intimation in the resolution extending the time for the construction of the route on Park avenue, that the only penalty for the non-construction of the same would be the forfeiture of the route; or the City, also acting through the Board of Estimate and Apportionment, may call upon you as the Comptroller and custodian of the security fund of \$2,000, deposited by said company, to deliver to it such portion of said fund as shall compensate it for the failure of the company to construct its entire route. These penalties are not mutually exclusive, and the City may enforce both penalties if it appears best so to do.

I would therefore recommend that the Ocean Electric Railway Company be served with a notice to show cause why the Comptroller should not deliver to The City of New York such part of the security fund of \$2,000, as appears to the Board of Esti-

mate and Apportionment full compensation for its failure to comply with its franchise of August 26, 1903.

The Ocean Company has constructed its road upon Fairview avenue, a street parallel to Park avenue, and has hence constructed an entire route. I am informed that it claims the right to construct its road on Fairview avenue by a lease from the Rockaway Electric Railway Company. The Rockaway Electric Railway Company received a franchise on April 1, 1897, from the Commissioners of Highways of the Town of Hempstead, and, as I have shown in my report of this date to you, its franchise to construct a road on Fairview avenue having lapsed and terminated on May 30, 1898, it could not lease a valid right to the Ocean Company in 1904, and, consequently, the Ocean Company is operating in Fairview avenue without authority of law. I would therefore also recommend that the Ocean Electric Railway Company be served with a copy of this report, or such parts thereof as are pertinent to this matter, and that it be compelled to apply to the Board of Estimate and Apportionment of The City of New York for a franchise to maintain a street surface railroad on Fairview avenue.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

P. S.—I submit herewith resolution for adoption, together with notice to be sent to the Ocean Company.

Whereas, The Ocean Electric Railway Company received a franchise from The City of New York on August 26, 1903, for the construction and operation of a street surface railway in the Fifth Ward, Borough of Queens, subject to certain terms and conditions; and

Whereas, This Board has extended the time for the completion of the railroad to be constructed by said company on Park avenue, between the Boulevard and the existing right of way and railroad track of the New York and Rockaway Beach Railroad Company, until May 15, 1905; and

Whereas, This period allowed for the construction of the railroad has expired; and

Whereas, No railroad has been constructed in Park avenue, between the Boulevard and the existing right of way and railroad track of the New York and Rockaway Beach Railroad Company; and

Whereas, The Ocean Electric Railway Company has deposited with the Comptroller of The City of New York the sum of \$2,000 as security for the performance by such company of the terms and conditions of its franchise; now therefore be it

Resolved, That the Secretary of this Board be directed forthwith to serve upon the said company notice to show cause on or before November 10, 1905, why it should not forfeit to The City of New York said sum of \$2,000 as damages for its failure to comply with the terms and conditions of its franchise of August 26, 1903.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Queens and Richmond—13.

The full minutes of the meeting of September 29, 1905, will appear in the City Record at a later date.

J. W. STEVENSON, Secretary.

Pursuant to call by President Haffen the members of the Local Board of Chester, Twenty-fifth District, met at the office of the President of the Borough of The Bronx on September 7, 1905, at 4 p. m.

Present—Alderman Gass, Alderman Sheil and the President of the Borough of The Bronx.

Minutes of previous meeting read and adopted.

Hearings.

No. 535.

Regulating, Grading, etc., East Two Hundred and Twenty-second Street, Between Carpenter Avenue (Second Street) and Laconia Avenue (Seventh Avenue).

Petition of Frank L. Bacon and others was read.

Laid over awaiting report of the Chief Engineer as to the estimated cost of the work, and the assessed value of the real estate included within the probable area of assessment.

No one appeared in opposition.
A large delegation appeared in favor.

No. 536.

Acquiring Title to Lands Necessary for Castle Hill Avenue, Between West Farms Road and the East River.

Petition of A. Brown was read.

The Chief Engineer reported that the map was filed in the Register's office, New York County, March 22, 1901, but that the portion between West Farms road and Westchester avenue, will have to be refiled, since the lines of this portion are not the same as those filed March 22, 1901.

On motion, the following were adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Chester, Twenty-fifth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For acquiring title to the lands necessary for Castle Hill avenue, between the West Farms road and the East river, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Chester, Twenty-fifth District, on the 7th day of September, 1905.

Alderman Gass, Alderman Sheil and the President of the Borough of The Bronx voting in favor thereof.

Negative—None.

Widening of Bronx Park, East, from White Plains Road to Bronx and Pelham Parkway, Twenty-fourth Ward, With Technical Description.

Recommended to the favorable consideration of the Board of Estimate and Apportionment.

No. 484.

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For constructing temporary sewer and appurtenances in Kingsbridge road, between Two Hundred and Thirty-second (Eighteenth) Street and Two Hundred and Thirty-third (Nineteenth) street, Wakefield, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Chester, Twenty-fifth District, on the 7th day of September, 1905.

Alderman Gass, Alderman Sheil and the President of the Borough of The Bronx voting in favor thereof.

Negative—None.

No. 483.

Regulating, Grading, etc., Morris Park Avenue, Between West Farms Road and Bear Swamp Road.

Petition of Ernst Deib and others was read.

Estimated cost, \$93,000, and the assessed value of the real estate within the probable area of assessment is \$921,120.

There being no opposition at the hearing the following preambles and resolution were adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Chester, Twenty-fifth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For regulating and grading, setting curbstones, flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary in Morris Park avenue, between West Farms road and Bear Swamp road, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Chester, Twenty-fifth District, on the 7th day of September, 1905.

Alderman Gass, Alderman Sheil and the President of the Borough of The Bronx voting in favor thereof.
Negative—None.

On motion, the Board adjourned.

HENRY A. GUMBLETON, Secretary.

BOROUGH OF THE BRONX.

JOINT SESSION OF LOCAL BOARDS OF MORRISANIA AND CHESTER, TWENTY-FOURTH AND TWENTY-FIFTH DISTRICTS.

Pursuant to call by President Haffen the members of the Local Boards of Morrisania and Chester, Twenty-fourth and Twenty-fifth Districts, met in joint session in the office of the President of the Borough of The Bronx, on September 7, 1905, at 3.45 p. m.

Present—Alderman Gass, Alderman Sheil, Alderman Morris, Alderman Dougherty, Alderman Murphy, and the President of the Borough of The Bronx.

Absent—Alderman Stumpf, Alderman Harnischfeger.

Hearings.

No. 534.

Laying Out on Map of The City of New York East One Hundred and Seventy-fourth Street, Sixty Feet Wide from Southern Boulevard in District of Morrisania, to the First Avenue East of the New York, New Haven and Hartford Railroad, in the District of Chester, Said Widening to be on the Southerly Side.

Petition read, as was also report of the Chief Engineer, which stated that the petition was ambiguous, and it was doubtful whether it meant to lay out a street 60 feet wide or to lay out a street 120 feet wide.

East One Hundred and Seventy-fourth street, 60 feet wide, is legally opened from the Southern Boulevard to the Bronx river, and hence it is not necessary to be relaid out 60 feet wide.

The extension to the first avenue east of the New York, New Haven and Hartford Railroad is at present proposed to be either 80 feet or 100 feet wide.

As this street leads to the important junction of Boston road and Southern Boulevard, it will be necessary in the near future to make the portion west of the Bronx river either 80 or 100 feet.

The Chief Engineer recommended that the petition No. 534 be denied.

Secretary directed to request owners to appear before Chief Engineer and explain as to what they desired in the matter.

Amending proceedings for acquiring title to Two Hundred and Twenty-second street, from Bronx river to Seventh street, so as to place upon the City at large the cost of acquiring title to that portion of the street which forms part of the bridge approach, namely the portion lying west of the east line of Second street, as laid out by the Board of Estimate and Apportionment, July 1, 1904.

Recommended in a letter to the Board of Estimate and Apportionment. All members voted in favor of this amendment, which was suggested in report of Acting Topographical Engineer John C. Hume of September 6, 1905.

Acquiring title to land necessary for the bridge and its approaches at Two Hundred and Twenty-second street, between Webster avenue, in the District of Morrisania, and Second street (Carpenter avenue), in the District of Chester.

Communications from Acting Corporation Counsel Sterling dated August 28, 1905, were read, as was also report of the Acting Topographical Engineer, John C. Hume, dated September 6, 1905, and report of the Chief Engineer dated September 6, 1905.

On motion, it was respectfully recommended to the Board of Estimate that proceedings be initiated for acquiring title to the land necessary for the bridge and its approaches at Two Hundred and Twenty-second street, between Webster avenue, in the District of Morrisania, and Second street (Carpenter avenue), in the District of Chester.

Affirmative—Alderman Sheil, Alderman Gass and the President of the Borough of The Bronx.

Negative—None.

On motion, the Board adjourned.

HENRY A. GUMBLETON, Secretary.

BOARD OF REVISION OF ASSESSMENTS.

A meeting of the Board of Revision of Assessments was held in the Council Chamber, City Hall, on Thursday, September 21, 1905, at 11.10 o'clock a. m.

Present—N. Taylor Phillips, Deputy and Acting Comptroller; William P. Burr, Assistant and Acting Corporation Counsel; Frank A. O'Donnel, President of the Department of Taxes and Assessments.

The reading of the minutes of the meeting of July 13, 1905, was dispensed with.

BOROUGH OF MANHATTAN.

The assessment list for regulating, grading, curbing, flagging and placing iron railing where necessary in East Eighty-third street, from East End avenue to East river, and objections, referred back to the Board of Assessors at meeting of June 29, 1905, with instructions to reduce the total amount of the assessment by 33 1-3 per cent. pro rata, and also to reapportion the same, were presented by the Deputy and Acting Comptroller, having been returned by the said Board under date of July 18, 1905.

Mr. M. J. Mulqueen, attorney, was heard and stated that while the assessment had been reduced, it had not been reapportioned by the Board of Assessors, as instructed by the Board of Revision of Assessments.

On motion of the President of the Department of Taxes and Assessments, the assessment list was referred back to the Board of Assessors, with request that it comply with the instructions given by the Board of Revision of Assessments at meeting of June 29, 1905, in regard to the reapportionment of the assessment, all the members voting in the affirmative.

BOROUGH OF THE BRONX.

The assessment list for paving the roadway of Arthur avenue with macadam pavement on a telford foundation, from Tremont avenue to Pelham avenue, and objections of J. P. Kerrigan and others, filed by A. C. Hottenroth, attorney, and of Sol. Joseph, owner, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of July 25, 1905.

Mr. Joseph was heard in regard to the excessive amount of the assessment upon his property.

Mr. Moss, attorney, appeared as representative of Mr. Hottenroth, attorney.

On motion of the Assistant and Acting Corporation Counsel, the objections filed against the assessment were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

BOROUGH OF MANHATTAN.

The Deputy and Acting Comptroller presented the assessment list for sewer in St. Nicholas avenue, east side, between One Hundred and Eighty-first and One Hundred and Eighty-second streets, and objections of Maxwell S. Harris and others, filed by John C. Shaw, attorney, received from the Board of Assessors under date of July 25, 1905.

Mr. Shaw was heard in opposition to the excessive amount of the assessment caused by the building of a double sewer, one on each side of the avenue, made necessary by the construction of the subway below the surface, and also for the reason that the expenses incident to the work are exorbitant, being more than 45 per cent. of the amount of the contract.

No others appearing after notice, on motion of the Assistant and Acting Corporation Counsel, the assessment list was referred back to the Board of Assessors, with instructions to reduce the assessment by 33 1-3 per cent. pro rata and to confirm the same as so reduced, all the members voting in the affirmative.

The assessment list for sewer in Eldridge street, between Houston and Stanton streets, and objections filed by M. J. Mulqueen, attorney, in behalf of D. Stoff & N. Stern, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of August 16, 1905.

Mr. Mulqueen, attorney, was heard in opposition to the excessive cost of the work and the expenses connected with it, the assessment amounting to \$334 for a lot of 25 feet front.

On motion of the President of the Department of Taxes and Assessments, the objections were overruled and the assessment list was confirmed, all the members voting in the affirmative.

BOROUGH OF THE BRONX.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, setting curbstones, flagging sidewalks, laying crosswalks, placing fences, laying macadam pavement and planting trees in East One Hundred and Eightieth street, from Third avenue to the Bronx river, together with a list of awards for damages caused by a change of grade, and objections filed against the assessment by the following: Bullowa & O'Connell, attorneys for Louis Frankenstein; Joseph A. Flannery, attorney for Charles H. Weigle and others; A. C. Hottenroth, attorney for N. W. Palmer and others; L. B. Ginsberg, attorney for Janette M. Barnett and others; Charles P. Hallock, attorney for Adolph Bauer and others; Clarence C. Ferris, attorney for Jacob Schmidlapp and others; Robert E. Deyo, attorney for Interborough Rapid Transit Company; Truman H. Baldwin, attorney for M. Cohen and others, the same having been received from the Board of Assessors under date of August 16, 1905.

Messrs. Hallock, Baldwin, Farris and Hottenroth, by Mr. Boos, as representative, attorneys, opposed the assessment, on the ground that the property had not been benefited in the amount assessed; that the street is a main thoroughfare to Bronx Park, having been made 80 feet in width; that the expenses had been largely increased by reason of the building of the sewer in said street, and that by precedent a considerable part of the expense should be borne by the City.

No others appearing in opposition after notice, on motion of the President of the Department of Taxes and Assessments, the objections to the assessment were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, curbing, flagging and laying crosswalks in Mapes avenues, from East One Hundred and Seventy-seventh street to East One Hundred and Eighty-second street (together with a list of awards for damages caused by a change of grade), and objections of Charles Schmitt and others, filed by A. C. Hottenroth, attorney, the same having been received from the Board of Assessors under date of August 16, 1905.

Mr. Moos, attorney, representing Mr. Hottenroth, attorney, appeared.

On motion of the President of the Department of Taxes and Assessments, the objections filed in said matter were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

The assessment list for paving and repaving with granite block pavement on a concrete foundation, the roadway of East One Hundred and Thirty-eighth street, from Lincoln avenue to the west side of the New York and Harlem Railroad property, with objections, referred back to the Board of Assessors at meeting of June 29, 1905, for investigation and report in regard to the objections filed against the assessment, was presented by the Deputy and Acting Comptroller, having been returned by the said Board under date of August 24, 1905, together with a communication from the President of the Borough, dated July 27, 1905, transmitting copy of report made by Mr. S. C. Thompson, Engineer of Highways, relative to the area of the pavement between the rails and tracks of the Union Railway Company, on the said street, at the points indicated therein.

Messrs. John C. Shaw, Henry H. Sherman, Truman H. Baldwin and Mr. Moos, representative of A. C. Hottenroth, attorneys, were heard and claimed that the work was substantially a repavement; that the street was a bridge approach, having been made 100 feet in width; that no proper petition had been made by the property owners for the work, and that the long delay in performing the contract had greatly increased its cost; also that the railway company should be assessed for the benefit it derived from the improvement.

On motion of the Assistant and Acting Corporation Counsel, the assessment list was referred back to the Board of Assessors, with instructions to invite the opinion of the Corporation Counsel in regard to the objections filed in said matter, all the members voting in the affirmative.

The assessment list for regulating, grading, curbing, flagging and laying crosswalks in Arthur avenue, from East One Hundred and Seventy-fifth to East One Hundred and Seventy-seventh street, and objections of James E. McKown and W. C. Bergen, by A. C. Hottenroth, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 14, 1905.

Mr. Moos, attorney, representing Mr. Hottenroth, attorney, appeared.

On motion of the Assistant and Acting Corporation Counsel, the objections filed against the assessment were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

The assessment list for sewer and appurtenances in Moshulu Parkway North, from Webster avenue to Perry avenue, and in Decatur avenue, Hull avenue and Perry avenue, from Moshulu Parkway North to Woodlawn road, and objections of William Marshall and others, filed by A. C. Hottenroth, attorney, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 14, 1905.

The Assessors reported that a pro rata reduction in the assessment of \$1,651 was made by them, but that the objection made by Mr. Hottenroth, attorney, was renewed. Mr. Moos, attorney, representing Mr. Hottenroth, attorney, was heard in opposition to the excessive cost of the improvement.

On motion of the Assistant and Acting Corporation Counsel, the objections in said matter were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

The Deputy and Acting Comptroller presented the assessment list for paving with asphalt blocks on a concrete foundation, and curbing Prospect avenue, from Crotona Park north to Tremont avenue, and objections filed by A. C. Hottenroth, attorney, in behalf of Martin Walter and others, received from the Board of Assessors under date of September 14, 1905.

Mr. Moos, attorney, representing Mr. Hottenroth, attorney, appeared.

On motion of the Assistant and Acting Corporation Counsel, the objections received in said matter were overruled, and the assessment list was confirmed, all the members voting in the affirmative.

BOROUGH OF BROOKLYN.

The Deputy and Acting Comptroller presented the assessment list for regulating, grading, curbing, paving gutters with brick and laying cement sidewalk where not already done, in Fortieth street, between New Utrecht avenue and Fort Hamilton avenue (together with a list of awards for damages caused by a change of grade), and objections filed by Moore, Ashley and Linton, attorneys, in behalf of Frank T. Kretschmar and others, and of James Frost, owner, also applications of various persons for awards for damages, the same having been received from the Board of Assessors under date of September 19, 1905.

The Board of Assessors reported that it had made a pro rata reduction in the assessment of \$3,937, but that the objections filed by Moore, Ashley and Linton, attorneys, were renewed by them.

Mr. Moore, attorney, was heard in opposition to the assessment, and claimed that the entire amount should be borne by the City, for the reason that the street had not been graded upon the legal or established grade, but was raised, thereby causing considerable damage to the property instead of benefit.

On motion of the Assistant and Acting Corporation Counsel, the assessment list was referred back to the Board of Assessors, with instructions to reduce the gross amount of the assessment by 33 1-3 per cent. pro rata, and to confirm the same as so reduced, all the members voting in the affirmative.

The assessment list for sewers in Huron street, from East river to Provost street; in Provost street, between Huron street and Greenpoint avenue, etc., and objections, referred back to the Board of Assessors at meeting of December 8, 1904, with direction to request a report from the Engineers of the Department of Finance upon the present and prospective utility of the said sewers, were presented by the Deputy and Acting Comptroller, together with report of R. W. Creuzbaur, Principal Assistant Engineer, Department of Finance, in regard thereto, dated September 19, 1905.

On motion of the Deputy and Acting Comptroller, the consideration of said matter was postponed until the next meeting of the Board.

At 12 o'clock m., on motion, the Board adjourned.

HENRY J. STORRS,
Chief Clerk, Board of Revision of Assessments.

BOARD OF REVISION OF ASSESSMENTS.

A meeting of the Board of Revision of Assessments was held in the Council Chamber, City Hall, on Thursday, September 28, 1905, at 11.05 o'clock a. m.

Present—N. Taylor Phillips, Deputy and Acting Comptroller; William P. Burr, Assistant and Acting Corporation Counsel.

The reading of the minutes of the previous meetings not yet approved was dispensed with.

BOROUGH OF THE BRONX.

The assessment list for regulating, grading, curbing, flagging, laying crosswalks and placing fences in Lafayette avenue, from Longwood avenue to The Bronx river, and objections of Morgenthau Realty Company, by Joseph A. Flannery, attorney, and of Charles G. Jorgensen and Mrs. M. Hammer, by A. C. Hottenroth, attorney, the consideration of which was postponed at the last meeting, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 14, 1905.

Mr. Flannery, attorney, was heard and claimed that as the avenue was made 100 feet in width for the purposes of a main thoroughfare, the precedent in the case of the opening of said avenue and of Longwood avenue should equitably be followed by charging 40 per cent. of the cost of the work to the City, as, under the circumstances, the property has not been benefited in the amount charged against it for the work in question.

Mr. Moos, attorney, representing Mr. Hottenroth, attorney, was heard in opposition to the excessive cost of the work and the expenses connected with it.

On motion of the Assistant and Acting Corporation Counsel, the assessment list was referred back to the Board of Assessors, with instructions to reduce the gross amount of the assessment by 25 per cent. pro rata and to confirm the same as so reduced, all the members present voting in the affirmative.

BOROUGH OF BROOKLYN.

The assessment list for regulating and grading Logan street, between Jamaica avenue and Atlantic avenue, setting or resetting cement curb, and paving or repaving sidewalks with cement, where not already done (together with a list of awards for damages caused by a change of grade), and objections of Louis Ruh and John L. Mayer, the consideration of which was postponed at the last meeting, were presented by the Deputy and Acting Comptroller, having been received from the Board of Assessors under date of September 14, 1905.

Mr. Mayer was heard in opposition to the amount of the assessment charged against his property as being in excess of the work done, and of the benefit derived therefrom.

Mr. Ruh was heard and stated that he had been assessed a larger sum than was proper, as the sidewalk in front of his property had been laid at his own expense, leaving the grading and curbing only to be paid for by him.

On motion of the Assistant and Acting Corporation Counsel, the objections received were overruled and the assessment list was confirmed, all the members present voting in the affirmative.

At 11.25 o'clock a. m., on motion of the Assistant and Acting Corporation Counsel, the Board adjourned.

HENRY J. STORRS,
Chief Clerk, Board of Revision of Assessments.

BOARD OF ESTIMATE AND APPORTIONMENT.

BOARD OF ESTIMATE AND APPORTIONMENT, THE CITY OF NEW YORK.

NOTICE TO TAXPAYERS.

PURSUANT TO A RESOLUTION adopted at a meeting of the Board of Estimate and Apportionment, held September 15, 1905, a public hearing will be had on

FRIDAY, OCTOBER 13, 1905,

at Room 16, City Hall, at 10.30 o'clock a. m., in relation to the application of the several Borough Presidents, Departments, Boards, Officers, Corporations and Institutions for appropriations for the year 1906; and the taxpayers of the City are invited to appear and be heard on that day in regard to appropriations to be made and included in said Budget.

J. W. STEVENSON, Secretary.

03.13

CITY OF NEW YORK—BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment, held September 15, 1905, the following petition was received:

To the Honorable the Board of Estimate and Apportionment of the City of New York:

GENTLEMEN—The Commonwealth Telephone Company hereby respectfully petitions your Honorable Board for a franchise permitting it to construct, maintain and operate its telephone system, with the necessary underground and overhead conductors and other appliances therefor, through, over, under and over the streets, highways and public places of the City of New York, and for the enactment of an ordinance granting to your petitioner such right and franchise for a period of twenty-five years.

There is annexed to this petition marked "A" and made part hereof a draft of an ordinance granting the franchise and privileges for which your petitioner hereby applies and enumerating the terms and conditions upon which the said franchise may be granted.

Complying with the terms of a resolution adopted by your Honorable Board at a meeting thereof held June 9, 1905, your petitioner begs to call your attention to the following circumstances:

First—The facts relating to your petitioner's incorporation and to this application are that your petitioner was duly incorporated under the laws of the State of New York for the purpose of constructing and operating a system of telephone and telegraph within the City and State of New York, and also in the States of New Jersey, Pennsylvania, Delaware and Maryland, and that subsequent to such incorporation and prior to the date of the verification of this petition your petitioner was duly organized pursuant to the law of the State of its incorporation.

This application to your Honorable Board follows as, of course, to obtain the franchise hereby petitioned for in order to exercise and enjoy within the limits of the City of New York the powers and rights stated in your petitioner's certificate of incorporation.

Second—Some of the reasons for this application, among others, are that in consideration of the franchise hereby applied for this company offers to furnish to the City of New York for municipal purposes free telephone service which it is believed will be fully adequate for all City purposes, together with a percentage of the gross earnings of said company, beginning with four

per cent. thereof and thereafter increasing during the term of the desired ordinance.

Wherefore your petitioner prays that this Honorable Board will grant this petition and will give your petitioner opportunity to be heard for the purpose of submitting such additional evidence and further argument as to this Board may seem necessary.

Dated New York, August 31, 1905.

THE COMMONWEALTH TELEPHONE COMPANY,

EDWIN M. BROOKS, President.

State of New York, County of Kings, ss.:

Edwin M. Brooks being duly sworn deposes and says:

I am the President of the Commonwealth Telephone Company, the petitioner described in and who executed the foregoing petition. I have read the foregoing petition and know the contents thereof and the same is true to my own knowledge except as to the matters therein set forth upon information and belief and as to those matters I believe it to be true.

EDWIN M. BROOKS.

Sworn to before me this 31st day of August, 1905.

JAMES WHITLOCK,

Commissioner of Deeds, City of New York, N. Y., No. 413 Pacific street, Brooklyn, N. Y.

AN ORDINANCE granting to the Commonwealth Telephone Company the right and franchise to construct, operate and maintain in, upon and along the streets, highways and public places of the City of New York and the several boroughs thereof, wires, cables and other appliances proper and necessary for the purpose of carrying on a general telephone and telegraph business.

Be it Ordained by the Board of Estimate and Apportionment of the City of New York as follows:

Section 1. The Board of Estimate and Apportionment of the City of New York hereby grants to the Commonwealth Telephone Company the right, franchise and privilege of constructing, operating and maintaining its wires, cables or other electrical conductors, together with the poles, fixtures and other appliances proper and necessary in the telephone business, in said City, through, over, under and along any and all of the streets, avenues, squares, parks and other public places within the limits of the City of New York, for the purpose of conducting a general telephone and telegraph business and for no other purpose; subject, nevertheless, to all the express terms and conditions hereinafter particularly set forth.

Sec. 2. The franchise hereby granted shall exist and continue for a term of twenty-five years from the date of this ordinance; subject, nevertheless, to a renewal and extension thereof for such further period as may be lawful and authorized by this Board upon a valuation thereof and of the lines and property then owned by the grantee or its successor, such value to be established either by arbitrators to be mutually selected and agreed upon by and between the said grantee or its successor and the municipal authorities of the City of New York, then authorized by law to regulate, grant and determine public franchises, or, in the event of failure or inability to fix and establish such a valuation by arbitration, then same to be fixed either by judicial proceeding or established by law. For the purpose of fixing and establishing the valuation of the property and franchises contemplated by this ordinance, together with any extension thereof, within the said City of New York, and also for the purpose of determining the amount of earnings of the grantee hereunder and of fixing the proportion thereof payable to the said City of New York, the books, papers and corporate records of the said grantee shall at all times be open to the full inspection and examination of the Comptroller of the City of New York and of his subordinates thereunto specifically authorized.

Upon the expiration of the franchise hereby granted or of any extension thereof which may be hereafter made, The City of New York shall have the right to acquire for itself all the plant and property of the grantee or its successor in the streets, avenues, highways and public places of the City of New York, upon just compensation, to be established as hereinbefore specified.

Sec. 3. The rates for telephone service within the said City of New York which may be lawfully charged and collected by the said grantee or its successor are hereby fixed as follows; subject only to modification by the Board of Estimate and Apportionment of the City of New York, but no change in the said rates shall be made within the period of five years from the date of this ordinance:

First—For telephone service contracted or paid for by the message and for toll service between the boroughs of said City:

For a call not exceeding five minutes in duration by connections wholly within any single borough of said City, not exceeding five cents.

For a call not exceeding five minutes in duration by connections between any two boroughs of said City, the boundaries of which are contiguous, not exceeding ten cents.

For a call not exceeding five minutes in duration by connections between any two boroughs of said City, the boundaries of which are not contiguous, not exceeding fifteen cents.

For the purpose of defining said boundaries between boroughs of said City all waterways intervening between boroughs shall be regarded as though the same did not exist.

Second—For telephone service contracted or paid for without limit as to number of messages per annum:

For business places within the Borough of Manhattan, not exceeding \$90 per annum.

For business places within the boroughs of Brooklyn and The Bronx, not exceeding \$75 per annum.

For business places within the boroughs of Queens and Richmond, not exceeding \$60 per annum.

For residences within the Borough of Manhattan, not exceeding \$50 per annum.

For residences within the boroughs of Brooklyn and The Bronx, not exceeding \$40 per annum.

For residences within the boroughs of Queens and Richmond, not exceeding \$30 per annum.

Sec. 4. In consideration of the grant of this franchise, the grantee or its successor shall render service and make payments to the said City of New York as follows:

First—It shall furnish for the exclusive use of said City and of the officers thereof, upon municipal business, free telephone stations connected with its exchanges as follows: In the Borough of Manhattan 300; in the Borough of Brooklyn 200; in the Borough of The Bronx 100; in the Borough of Queens 100; in the Borough of Richmond 50; service at each and all of said stations to be without charge to The City of New York for communications and connections wholly within a single borough of said City; service by connections between stations in different boroughs to be at 50 per cent. of the rates hereinbefore fixed for toll connections between the said boroughs.

Second—The said grantee or its successor shall pay to The City of New York annually, at such date as may be fixed by this Board, a sum equal to 4 per cent. of its gross earnings for business within The City of New York for the first five years of said ordinance; 5 per cent. of its gross earnings for business within The City of New York for the second five years of said ordinance; 6 per cent. of its gross earnings for business

within The City of New York for the remaining fifteen years of said ordinance.

Sec. 5. The said grantee shall construct, operate and maintain its telephone plant within The City of New York, in all respects in accordance with the rules and regulations now or hereafter to be adopted by the Department of Water Supply, Gas and Electricity or by other duly authorized municipal authorities of The City of New York having jurisdiction in such matters; and this grant and franchise may not be transferred or assigned, except by and with the consent of the Board of Estimate and Apportionment of the said City.

Sec. 6. Before this grant and franchise shall take effect the said telephone company shall duly execute under its corporate seal a contract and agreement with the said City of New York whereby the said company shall obligate itself and its successor or successors to all the terms and conditions in respect of rates, service, payments to the City and otherwise hereinbefore set forth, which contract shall be approved by and filed with the Comptroller of The City of New York within ten days from the date of this ordinance.

Sec. 7. This ordinance shall take effect immediately.

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from the Commonwealth Telephone Company, dated August 31, 1905, was presented to the Board of Estimate and Apportionment at a meeting held September 15, 1905;

Resolved, That in pursuance of law this Board sets Friday, the 13th day of October, 1905, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

CONTRACT FOR THE FINAL DISPOSITION OF GARBAGE.

The period for the performance of this contract will be for five (5) years, beginning the 1st day of August, 1906.

The amount of security required is One Hundred Thousand Dollars (\$100,000).

A special deposit of \$40,000 in money will be required to be made with the Comptroller of The City of New York, at or before the signing of the contract; \$30,000 of this amount, or the unexpended portion thereof, to be returned to the contractor at the end of one year, and \$10,000 of the said amount to remain on deposit with the Comptroller until the completion of the contract, or other termination thereof.

Each bid must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller for five per centum of the amount for which the work bid for is proposed in any one year to be performed. Such check should be inclosed in the sealed envelope containing the bid or proposal.

The compensation to be paid to the contractor must be stated at a price per annum for each of the five years of the period of contract, and these prices must be written out in full, and must be given also in figures.

From the bids or proposals so received the Commissioner of Street Cleaning may select the bid or bids, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of said bids.

The award of the contract on the bid so selected will be conditional on its approval by the Board of Estimate and Apportionment, pursuant to section 544 of the Greater New York Charter.

Bidders upon this contract will receive every assistance in obtaining information from the data in possession of the Department in regard to the quantity and quality of material, together with every opportunity to inspect the collections and dumping boards of the Department.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13-21 Park row.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on Friday, October 6, 1905, at 12 m., in Room 141, Stewart Building, No. 280 Broadway, Borough of Manhattan, the buildings and appurtenances thereto belonging, erected upon real estate, acquired for school purposes, belonging to the Corporation of The City of New York, viz.:

All the right, title and interest of The City of New York in and to all the buildings, with the appurtenances thereto belonging, erected upon the following-described property:

(Acquired for the Board of Education.)
1. The property on the northerly side of Prospect street, near Sands street, running through to the southerly side of Sherman street, in the Borough of Richmond, more particularly described as follows:

Beginning at a point on the northerly line of Prospect street distant 200 feet westerly from the westerly line of Sands street, and running thence northerly and parallel with Sands street 250 feet to the southerly line of Sherman street; thence westerly along the southerly line of Sherman street 100 feet to the easterly line of the lands of Public School 21; thence southerly along the easterly line of said lands of Public School 21 250 feet to the northerly line of Prospect street; thence easterly along the northerly line of Prospect street 100 feet to the point or place of beginning.

By direction of the Comptroller, sales of the above property will be made under the supervision of the Collector of City Revenue on Friday, October 6, 1905, at 12 m.

2. The property on the southwest corner of Schenectady avenue and Dean street, in the Borough of Brooklyn, more particularly described as follows:

Beginning at a point formed by the intersection of the westerly line of Schenectady avenue with the southerly line of Dean street, and running thence westerly along the southerly line of Dean street 184 feet; thence southerly and parallel with Schenectady avenue 107 feet 2½ inches; thence easterly and parallel with Dean street 4 feet; thence southerly and again parallel with Schenectady avenue 107 feet 2½ inches to the northerly line of Bergen street; thence easterly along the northerly line of Bergen street 40 feet to the westerly line of the lands of Public School 83; thence northerly along the said westerly line of lands of Public School 83 107 feet 2½ inches to the northerly line of said lands of Public School 83; thence easterly along the said northerly line of lands of Public School 83 140 feet to the westerly line of Schenectady avenue; thence northerly along the westerly line of Schenectady avenue 107 feet 2½ inches to the southerly line of Dean street, the point or place of beginning.

By direction of the Comptroller, sales of the above property will be made under the supervision of the Collector of City Revenue on Friday, October 6, 1905, at 12 m.

The buildings on the premises severally above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter. The word "removal" means that the buildings so sold shall be taken down to the curb level and the cellar properly filled in and graded.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense

thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials, machinery, implement or appliance used in the removal of said building by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and to present a clean exterior. The roofs of the adjacent buildings shall be properly flashed, painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings or parts of buildings included in any of the foregoing parcels.

EAST ONE HUNDRED AND NINTH STREET—FENCING VACANT LOTS on the north side, beginning 125 feet west of Madison avenue and running 75 feet. Area of assessment: North side of One Hundred and Ninth street, extending about 75 feet westerly from a point 125 feet west of Madison avenue on Block 1615. Lots Nos. 10, 11 and 12;—that the same were confirmed by the Board of Assessors on September 19, 1905, and entered on September 19, 1905, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides: "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." The above assessments are payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room No. 85, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before November 18, 1905, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessments became liens to the date of payment.

CORPORATION SALE OF GAS HOLDERS.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction, on Wednesday, October 4, 1905, at 12 o'clock m., in Room 141, Stewart Building, No. 280 Broadway, Borough of Manhattan, the gas holders belonging to the corporation of The City of New York by stipulation, viz.: All the right, title and interest of The City of New York in and to the gas holders located on the block between West Sixteenth and West Seventeenth streets, and between Tenth and Eleventh avenues, Borough of Manhattan, and are described as follows:

Two iron gas holders which extend practically from the northerly side of West Sixteenth street to the southerly side of West Seventeenth street, and from a line about 270 feet westerly from the westerly side of Tenth avenue to a line about 350 feet westerly from the westerly side of Tenth avenue. These gas holders are each about 85 feet in diameter and are built in two lifts of about 30 feet each. All the iron or steel work of these holders lying between the above-mentioned distances from the westerly side of Tenth avenue, including the columns and girders on the exterior, are to be removed down to the surface of the brick or concrete foundations. The weight of the iron and steel work in each gas holder to be removed is roughly estimated at 250,000 pounds.

By direction of the Comptroller, the sale of the above property will be made under the supervision of the Collector of City Revenue on October 4, 1905, at 12 m.

The gas holders on the premises above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The gas holders and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

The word "removal" means that the gas holders so sold shall be taken down and removed down to the surface of the brick or concrete foundations.

The dimensions given for the lot described above are believed to be correct, and bidders must judge for themselves as to the correctness of the estimate before making their bids.

Failure to remove said gas holders and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such gas holders or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials, machinery, implement or appliance used in the removal of said gas holders by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale the property advertised.

CORPORATION SALE OF TAX CERTIFICATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

TUESDAY, OCTOBER 3, 1905.
at 12 o'clock m., at the Comptroller's Office, No. 280 Broadway, Borough of Manhattan, City of New York, all the right, title and interest of The City of New York, in and to a certain tax sale certificate registered in the office of the Collector of Assessments and Arrears in the Borough of Brooklyn, by the number 7533, in Volume 9, Liber 83, which was delivered to The City of New York July 22, 1903, being for the sale for the non-payment of taxes on premises known as Lot No. 156 in Old Block 76, New Block 40, in the Twenty-fifth Ward of the Borough of Brooklyn.

The minimum or upset price at which the interest of the City in and to the said certificate of sale to be sold is appraised and fixed by the Commissioners of the Sinking Fund at the sum of three hundred dollars (\$300).

The sale of the said certificate will be made on the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay the full amount of his bid or purchase money at the time of the sale. The assignment of the certificate of sale for taxes duly executed by the proper officer will be delivered to the purchaser at the time of sale and shall be taken by the said purchaser without recourse.

The Comptroller may, at his option, resell the certificate if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from any such resale.

The right to reject any bid is reserved. By order of the Commissioners of the Sinking Fund, under resolution adopted at a meeting of the Board, held September 11, 1905.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to a STREET (although not yet named by proper authority) lying southerly of East One Hundred and Seventy-third street and between Webster avenue and Clay avenue (shown on a map filed in the Register's Office, December 17, 1895), in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 12th day of October, 1905, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 16th day of October, 1905, at 2 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 23d day of October, 1905.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of the middle line of the block between Webster avenue and Park avenue with the northerly line

of Wendover avenue; running thence westerly along the said northerly line of Wendover avenue and its westerly prolongation to its intersection with a line parallel to and 100 feet westerly from the westerly line of Clay avenue; thence northerly along said parallel line to its intersection with a line parallel to and 100 feet southerly from the southerly line of Belmont street; thence westerly along said last mentioned parallel line to its intersection with the southerly prolongation of a line parallel to and 100 feet westerly from the westerly line of Monroe avenue; thence northerly along said prolongation and parallel line to its intersection with a line parallel to and 100 feet northerly from the northerly line of East One Hundred and Seventy-third street; thence easterly along said line parallel to its intersection with the northerly prolongation of the middle line of the block between that portion of Webster avenue and Park avenue lying southerly of East One Hundred and Seventy-third street; thence southerly along said prolongation and middle line of the block to the point or place of beginning; as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York; excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court-house, in the Borough of Manhattan, in The City of New York, on the 23d day of November, 1905, at the opening of the Court on that day.

SUPREME COURT — SECOND DEPARTMENT.

SECOND JUDICIAL DEPARTMENT.

In the matter of the application of The City of New York, acting by and through the Commissioner of Docks, relative to acquiring right and title to and possession of certain lands and premises and lands under water and wharf property necessary to be taken for the improvement of the water front and harbor of The City of New York for ferry purposes, between RICHMOND AVENUE AND FERRY STREET, Port Richmond, in the Borough of Richmond, in The City of New York, pursuant to a certain plan heretofore adopted by the Commissioner of Docks and approved by the Commissioners of the Sinking Fund.

NOTICE IS HEREBY GIVEN THAT WE, the undersigned, by virtue of an order of the Supreme Court, bearing date the 11th day of August, 1905, and filed and entered in the office of the Clerk of the County of Richmond on the 7th day of September, 1905, were appointed Commissioners of Estimate and Assessment in the above entitled proceeding for the purpose of making a just and equitable estimate of the loss and damage to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises and land under water and wharf property hereinafter described, and not now owned by The City of New York, and situated in the Borough of Richmond, in The City of New York, to be taken herein for the improvement of the water front and harbor of The City of New York for ferry purposes, and which said lands and premises and lands under water and wharf property so to be taken are bounded and described as follows:

Beginning at a point in the westerly line of Richmond avenue distant 130.69 feet northerly from the southeasterly corner of the two-story frame building now forming the northwesterly corner of Richmond avenue and Richmond terrace, measured along said westerly line of Richmond avenue, and running thence westerly 124.62 feet along a line drawn parallel with the bulkhead line, established by the Department of Docks and Ferries in 1903, and at right angles with the said westerly line of Richmond avenue to the easterly line of Ferry street;

Thence deflecting to the right through an angle of 91 degrees 20 minutes and 43 seconds, and running thence northerly and along the easterly line of Ferry street and its prolongation 272.63 feet to the pierhead line established by the Secretary of War in 1890;

Thence deflecting to the right through an angle of 69 degrees 23 minutes and 40 seconds, and running easterly along said pierhead line 125.24 feet to the northerly prolongation of the westerly line of Richmond avenue;

Thence deflecting to the right through an angle of 109 degrees 15 minutes and 37 seconds, and running southerly along the westerly line of Richmond avenue and its northerly prolongation 313.83 feet to the point or place of beginning.

Said lands and premises, lands under water and wharf property are shown on a certain plan adopted by the Commissioner of Docks on the 14th day of October, 1903, and approved by the Commissioners of the Sinking Fund on the 18th day of November, 1903, and which said plan is on file in the office of the Department of Docks and Ferries.

All parties and persons interested in said lands and premises and lands under water and wharf property taken or to be taken for the said improvement of the water front and harbor of The City of New York, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office, Room No. 401, on the fourth floor of the building No. 258 Broadway, in The City of New York, Borough of Manhattan, with such affidavits or other proofs as the said owners or claimants may desire, within twenty days after the date of this notice; and we, the said Commissioners, will be in attendance at our said office on the 20th day of October, 1905, at 10.30 o'clock in the forenoon of that day, to hear the said parties and persons in relation thereto, and at such time and place, and at such other or further times and places as we may appoint, we shall hear such owners in relation thereto, and examine the proofs of said claimant or claimants, or such additional proofs or allegations as may be then offered by such owners or on behalf of The City of New York.

Dated NEW YORK, September 29, 1905.

ALBERT E. HADLOCK,
ALEXANDER S. LYMAN,
THOMAS A. BRANIFF,
Commissioners.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
