The New York Public Library.

Astor Lenox and Tilden Foundations.

New York, November 5, 1913.

Hon. ARDOLPH L. KLINE, Mayor of The City of New York:

Sir—In accordance with the provisions of article six of the lease and agreement, bearing date of December 8, 1897, entered into between The City of New York and The New York Public Library, Astor, Lenox and Tilden Foundations, for the use and occupation of the library building in Bryant Park, I have the honor to submit herewith a detailed report of the operations and transactions of the Library, and of all its receipts and payments for the year ending June 30, 1913.

When this agreement was made the fiscal year ended on that date. The fiscal year now coincides with the calendar year; and the full report of the operations of the Library has regularly been made for the calendar year, as it will be for the year 1913. For this reason it is believed that the following brief statement will be found sufficient at this time.

In the reference department, readers and visitors numbered 1,946,973; the number of readers was 442,091, and the number of volumes consulted by these readers 1,425,221. The number of volumes received was 45,500, and the number of pamphlets 58,779. The number of volumes accessioned was 36,641, and of pamphlets 2,581. There were catalogued 42,373 volumes and 41,173 pamphlets. There are thus available for readers 897,187 volumes and 306,439 pamphlets, an aggregate of 1,203,626 pieces. These, with the 929,982 volumes in the circulation department, give a net total of 2,133,608 volumes and pamphlets for the entire system. The print room contains in the neighborhood of 75,000 prints, the map room about 8,000 maps.

Periodicals currently received amount to nearly 7,000 titles. Readers of current periodicals numbered 108,453, and the periodicals consulted by them 195,443.

The printing office set 62,115 card titles, from which were run off 591,781 cards; in addition, 8,948,688 stationery forms and 568,169 single numbers of publications were printed. In the bindery 30,686 volumes were bound, 1,144 repaired, and 8,763 miscellaneous pieces handled; making a total of 40,593 pieces.

In the circulation department the number of branches at the close of this period was 40. Five new branches were in course of erection, two of which were to replace branches then in existence. The number of volumes in the department has increased from 878 089 to 929,982. The circulation for home use has increased from 7,969,160 to 8,111,785.

In June, 1913, there were in the employ of the Library 1,019 persons; 430 in the reference department, and 589 in the circulation department.

The total expenditures for the year ending June 30, 1913, were $1,196,266.18; of which $492,408.09 was spent for the reference department, and $703,858.09 for the circulation department.

Of the reference department expenditures $59,741.33, or 12 per cent., went for books, binding and periodicals; $326,169.24, or 66 per cent., for salaries; $106,497.52, or 22 per cent., for all other purposes.

Of the circulation department expenditures $179,788.05, or 26 per cent., went for books, binding and periodicals; $402,611.44, or 57 per cent. for salaries; $121,458.60, or 17 per cent., for all other purposes. Of the expenditures for this department $652,869.32 came from the City appropriation.

DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING NOVEMBER 1, 1913.

PASTEURIZATION OF GRADE B MILK.

With the adoption by the Board of Health October 28 of a resolution which follows, and which requires that Grade B milk shall be pasteurized, the process of pasteurization will have been applied to all milk used in this city with the exception of Certified, Guaranteed, and Inspected milk of Grade A, buttermilk, condensed milk and certain milk products. The following is the full text of the resolution eliminating the class "Selected Milk—Raw" from Grade B:

"Resolved, That section 56a of the Sanitary Code be and the same is hereby amended to take effect on and after February 1, 1914, so as to read as follows:

"Section 56a. All milk held, kept, offered for sale or sold and delivered in The City of New York shall be so held, kept, offered for sale or sold and delivered under either or any of the following grades or designations and under no other, and in accordance with such rules and regulations as may from time to time be adopted by the Board of Health, namely:

"Grade A. For Infants and Children—

"1. Certified or guaranteed milk.

"2. Inspected milk (raw).

"3. Selected milk (pasteurized).

"Grade B. For Adults—

"Pasteurized milk.

"Grade C. For Cooking and Manufacturing Purposes Only—

"Condensed skimmed milk.

"Condensed or concentrated milk.

"The provisions of this section shall not apply to buttermilk or to milk products commonly known as Kumyss, Matzoon, Zoolak, dried milk or milk powder, or to other similar preparations, or to cream or modified milk."

IMPORTANT CHANGES AFFECTING GRADE B MILK.

At a meeting of the Board of Health of the Department of Health, held October 28, 1913, the following resolutions were adopted:

"Resolved, That the following regulations under 'Grade B, for Adults,' namely:

"Selected Milk—Raw.

"Definition: Selected milk (raw) is milk handled and sold by dealers holding permits therefor from the Board of Health, and produced and handled in accordance with the following minimum requirements, rules and regulations:

"Requirements, Rules and Regulations.

"1 Only such cows shall be admitted to the herd as have been physically examined by a regularly qualified veterinarian and declared by him to be healthy and free from tuberculosis in so far as a physical examination may determine that fact. Such an examination of all cows shall be made at least once each year.

"2. The farms at which the milk is produced must obtain at least 68 points in an official score of the Department of Health. These 68 points shall be made up as follows: A minimum of 25 points for equipment and a minimum of 43 points for method.

"3. The milk shall not contain an excessive number of bacteria when delivered to the consumer or at any time prior thereto.

—"be and the same are hereby repealed, to take effect on and after January 31, 1914.

"Resolved, That the rules and regulations adopted by the Board of Health April 9, 1912 (and thereafter amended), relating to the care and sale of milk, be and the same are hereby further amended under the heading 'Grade B, for Adults—Pasteurized Milk,' to read as follows, and to take effect on and after February 1, 1914:

"Definition: Pasteurized milk (Grade B) is milk produced under a permit issued therefor by the Board of Health and produced and handled in accordance with the following minimum requirements, rules and regulations and in further accordance with the special rules and regulations relating to the pasteurization of milk:

"Requirements, Rules and Regulations.

"1. All containers in which pasteurized milk is delivered to the consumer shall be plainly labeled 'Pasteurized.' Labels must also bear the date and hours between which the pasteurization was completed, the place where pasteurization was performed and the name of the person, firm or corporation performing the pasteurization.

"2. The milk must be delivered to the consumer within 36 hours.

"3. No milk shall be pasteurized more than once.

"4. No milk containing an excessive number of bacteria shall be pasteurized.

"General Regulation for Grade B.

"1. Caps of bottles containing milk of Grade B shall be white and marked 'Grade B' in bright green letters, in large type.

"2. Cans containing milk of Grade B shall have a tag affixed to each can with the words 'Grade B' in large type in bright green letters."

RESOLUTION AFFECTING PASTEURIZED GRADE B CREAM AND ITS CONTAINERS.

Attention is called to the following resolution adopted at a meeting of the Board of Health of the Department of Health, held October 28, 1913, in which a change in the definition of Grade B Pasteurized Cream is made and also in the manner in which it shall be labeled:

"Resolved, That the rules and regulations relating to the sale of cream in The City of New York, adopted by the Board of Health August 26, 1913, be and the same are hereby amended under the heading '(b) Grade B Cream (Pasteurized)' as follows:

"Definition: Grade B Cream (Pasteurized) is cream which is made from pasteurized milk or from raw milk and pasteurized.

"4. All containers in which pasteurized cream is delivered to the consumer shall be plainly labeled 'Pasteurized,' and bottle labels shall give the name of person, firm or corporation bottling, and place where bottled."

STERILIZATION OF BATHING SUITS.

During the summer a business was established opposite the municipal baths at Coney Island for the purpose of hiring out bathing suits to bathers, and it developed that the Department of Health, under section 26 of the Sanitary Code, which relates to bathing beaches, could not enforce the proper sterilization of these suits. Section 26 was therefore amended at a meeting of the Board of Health, held October 28, 1913, in order to remedy this defect. The entire resolution is lengthy and it hardly seems necessary to quote it in full. The amendment adds that "bathing suits shall not be hired out * * * without a permit in writing from the Board of Health and subject to the conditions thereof."

DEATH RATE FOR THE WEEK.

There were 1,183 deaths and a death rate of 11.49 per 1,000 of the population reported during the past week as against 1,149 deaths and a rate of 11.59 for the corresponding week of 1912, an increase of 34 deaths, and a decrease of .10 of a point. If the increase in population be taken into consideration, in lieu of an increase of 34 deaths there would be a decrease of 11 deaths.

At this season of the year, low mortality rates from infectious diseases are prevalent as a rule. During the past week there were 3 deaths reported from measles; 4 from scarlet fever; 18 from diphtheria; 8 from whooping cough, and 8 from typhoid fever. The number of deaths from pulmonary tuberculosis approximated closely that of 1912. The mortality rates from diarrhoeal diseases and the pneumonias were considerably below the figures for the corresponding week of 1912. On the other hand the deaths from heart diseases increased from 167 in 1912 to 191 during the past week.

The mortality under one year and under five years of age was about the same, while that of sixty-five years and over was considerably above the experience of 1912.

The death rate for the first forty-four weeks of 1913 was 13.88 per 1,000 of the population as against a rate of 14.19 per 1,000 for the corresponding period of 1912.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section 1 of Route 16, a part of the Seventh Avenue-Lexington Avenut Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1. Beginning at a point in property owned by the City on the easterly side of River avenue, in the Borough of The Bronx, about one hundred and twenty (120) feet south of the southerly building line of East 157th street and extending thence northerly along and over private property, River avenue and Jerome avenue to a point about forty-five (45) feet north of the northerly building line of East 182d street.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be receivep at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 28th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be set by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed *"Proposals for Constructing Part of Rapid Transit Railroad —Route No. 16, Section No. 1,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand ($15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days atter the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand ($100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail wihin ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n5,26

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

Part of Route No. 19 and 22.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 1-A of Route 19 and 22, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1-A. Beginning at a point under Southern boulevard in the Borough of The Bronx about two hundred and seventy (270) feet north of the northeast corner of East 147th street and extending thence northerly under Southern boulevard, Hunts Point road, the public park, Dongan street and Whitlock avenue to a point over Whitlock avenue about one hundred and thirty (130) feet south of the southerly building line of Bancroft street.

The general plan of construction calls for a subsurface and elevated railroad having three tracks. The details of the construction and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties, or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction, unless otherwise permitted by the Commission, will be partly by trench excavation under cover and partly by open trench excavation without cover as set forth in the form of contract.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty (30) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 1st day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposals for Constructing Part of Rapid Transit Railroad—Route No. 19 and 22, Section No. 1-A.*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand ($15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred and fifty thousand ($150,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Route No. 39, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2—Beginning at a point near the intersection of 10th ave. and 39th st., in the Borough of Brooklyn, and extending thence southwesterly over and along 10th ave. to New Utrecht ave., thence southerly over and along New Utrecht ave. to a point therein at or near 81st st., and thence extending southerly over private property, 84th st., private property, 18th ave., private property, 85th st., private property and 86th st. to a point in 86th st. near 19th ave.; thence southeasterly over and along 86th st. to a point at or near the intersection of 86th st. with Bay 41st st., thence curving southeasterly into Stillwell ave.; continuing thence along and over Stillwell ave. to a point about one hundred and fifty (150) feet north of the centre line of Avenue Y, where a connection may be made with a railroad which will be provided and kept available for use by the New York Municipal Railway Corporation.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per cent. of the aggregate sum arrived at by multiplying the estimated quantities by the unit prices

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 18th day of Novem ber, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of Contractor's Proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad—Route No. 50,*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other surities or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver the contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for one hundred thousand dollars ($100,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds, and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damage.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

The general plan of construction calls for a subsurface and elevated railroad having two tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface and subsurface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction for the subsurface portion of the railroad will be by open trench excavation without cover, as set forth in the contract and specifications.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof, and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of Contractor's Proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for fifty thousand dollars ($50,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the Contractor's Proposal. PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.
By EDWARD E. McCALL, Chairman.
TRAVIS H. WHITNEY, Secretary. o21,n18

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 5 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 5—Beginning at a point under 7th ave., in the Borough of Manhattan about seventy-nine (79) feet north of the northerly building line of W. 16th st. and extending thence northerly under 7th ave. to a point about seventy-five (75) feet north of the northerly building line of W. 30th st.

The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the schedule of unit prices in the Contractor's proposal. The Contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 12th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent, as near as practicable, of the work required is to be found in the schedule forming a part of the Contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be inclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 5," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission, and payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is acepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the Contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The work ot removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed.
