	Average length of stay for mental health (days)	169	160	125	166	168	163	203	216	217	253	273	208
	Utilization trending												

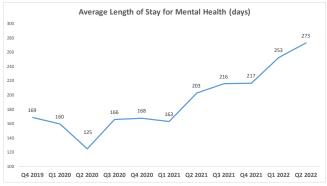

Denominator only includes patients for whom the current hospitalization occurs in the reporting quarter. Any patient whose current hospitalization occurred in a different quarter than the preceding (but still within 30 days) will be counted in the quarter of the current hospitalization. Denominator is based on individuals in custody during the census period and does not reflect average daily population during the census period.
